RESOLUTION
CONDEMNATION OF UNSAFE AND DILAPIDATED PROPERTY
Case #1 1312 Deason Ave.

WHEREAS, on the 2nd day of January 2018 the Council of the City of Hattiesburg, Mississippi, passed a resolution announcing the intention of the City Council to hold a hearing on, the 5th day of February, 2018, in the Council Meeting Room of City Hall in Hattiesburg, Mississippi, as provided by Section 21-19-11 of the Mississippi Code of 1972, as annotated and amended, to determine whether or not the following described property is in such a state of uncleanliness as to be a menace to the health and safety of the community, to-wit:

PARCEL: 2-030M-11-034.00, 1312 Deason Avenue HATTIESBURG, MS 39401 and better described as East one half (E1/2), of Lot 2, Block 5, Omega Subdivision, City of Hattiesburg, County of Forrest, State of Mississippi, as per the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi.

WHEREAS, the owner of the property is: Odell Bolton

WHEREAS, proper and timely notice of said hearing was given to said parties more than two weeks prior to the date of the hearing; and

WHEREAS, at said hearing it was determined that the aforementioned property is in such a state of uncleanliness as to be a menace to the health and safety of the community and should be condemned.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Hattiesburg, Mississippi, as follows:

1**.** A period of fifteen (15) days shall be extended to the property owner for removal of the violations listed:

Dangerous Structure (International Property Maintenance Code, Sec. 108.1.5)
Vacant Structure (International Property Maintenance Code, Sec. 301.3)
Overgrown Lot or Weeds (International Property Maintenance Code, Sec. 302.4)
Trash and Litter (International Property Maintenance Code, Sec. 307.1)

2. If the property owners do not take corrective action within fifteen (15) days to remove the violations, then after a complete and final legal review of the property conducted by the City Attorney, the City will take action to remove all violations listed, said work to be legally contracted with a private contractor or City crews, and the cost of same plus penalty to be certified to the City Clerk for further legal disposition.

3. A copy of this Resolution will be certified and recorded in the Chancery Clerk's Office of Forrest County, Mississippi.

RESOLUTION
CONDEMNATION OF UNSAFE AND DILAPIDATED PROPERTY
Case #11. 910 S. Tipton St

WHEREAS, on the 2nd day of January 2018 the Council of the City of Hattiesburg, Mississippi, passed a resolution announcing the intention of the City Council to hold a hearing on, the 5th day of February, 2018, in the Council Meeting Room of City Hall in Hattiesburg, Mississippi, as provided by Section 21-19-11 of the Mississippi Code of 1972, as annotated and amended, to determine whether or not the following described property is in such a state of uncleanliness as to be a menace to the health and safety of the community, to-wit:

PARCEL: 2-037D-14-166.00, 910 S. Tipton Street HATTIESBURG, MS 39401 and better described as Lots 3, 20, 21, 22, and 23 Block 6 of the MCINNIS, MITCHELL, & LONGRE or Addition to the City of Hattiesburg, Forrest County, Mississippi, as per the office of the Chancery Clerk of Forest County, Mississippi; together with all improvements thereon and appurtenances thereunto belonging.

WHEREAS, the owner of the property is: Danny E. and Kimberly D. Robertson

WHEREAS, proper and timely notice of said hearing was given to said parties more than two weeks prior to the date of the hearing; and

WHEREAS, at said hearing it was determined that the aforementioned property is in such a state of uncleanliness as to be a menace to the health and safety of the community and should be condemned.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Hattiesburg, Mississippi, as follows:

1**.** A period of fifteen (15) days shall be extended to the property owner for removal of the violations listed:

Dangerous Structure (International Property Maintenance Code, Sec. 108.1.5)
Vacant Structure (International Property Maintenance Code, Sec. 301.3)
Trash and Litter (International Property Maintenance Code, Sec. 307.1)

2. If the property owners do not take corrective action within fifteen (15) days to remove the violations, then after a complete and final legal review of the property conducted by the City Attorney, the City will take action to remove all violations listed, said work to be legally contracted with a private contractor or City crews, and the cost of same plus penalty to be certified to the City Clerk for further legal disposition.

3. A copy of this Resolution will be certified and recorded in the Chancery Clerk's Office of Forrest County, Mississippi.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council member _____ seconded by Council member _____, and was adopted by the following vote, to-wit:

YEAS: NAYS: ABSENT:

The motion having received the affirmative vote of a majority of the Council members present, the President declared the motion carried and the resolution adopted, on this the 6th day of February, 2018.

RESOLUTION
CONDEMNATION OF UNSAFE AND DILAPIDATED PROPERTY
Case #12. 219 S. 23rd Ave.

WHEREAS, on the 2nd day of January 2018 the Council of the City of Hattiesburg, Mississippi, passed a resolution announcing the intention of the City Council to hold a hearing on, the 5th day of February, 2018, in the Council Meeting Room of City Hall in Hattiesburg, Mississippi, as provided by Section 21-19-11 of the Mississippi Code of 1972, as annotated and amended, to determine whether or not the following described property is in such a state of uncleanliness as to be a menace to the health and safety of the community, to-wit:

PARCEL: 2-028O-08-121.00, 219 S. 23rd Avenue HATTIESBURG, MS 39401 and better described as The South Half of Lot Eight (8) and all of Lot Nine (9) in Block Twelve (12) of the Hattiesburg Heights Fourth Survey or Addition to the City of Hattiesburg, as per map or plat now on file in the office of the Chancery Clerk of Forrest County, Mississippi, together with all improvements thereon and appurtenances thereunto belonging;

and also:

A part of Lot Ten (10) in Block Twelve (12) of the Hattiesburg Heights Fourth Survey or Addition to the City of Hattiesburg, County of Forrest, State of Mississippi, being more particularly described as: Beginning at the Northeast corner of said Lot 10, and run thence at the right angles South a distance of 15 feet, thence at right angles East a distance of 150 feet to the East margin of Twenty- third avenue, thence at right angles North a distance of 15 feet to said point of beginning.

WHEREAS, the owner of the property is: Jason Richard Kenton

WHEREAS, proper and timely notice of said hearing was given to said parties more than two weeks prior to the date of the hearing; and

WHEREAS, at said hearing it was determined that the aforementioned property is in such a state of uncleanliness as to be a menace to the health and safety of the community and should be condemned.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Hattiesburg, Mississippi, as follows:

1**.** A period of fifteen (15) days shall be extended to the property owner for removal of the violations listed:

Overgrown Lot or Weeds (International Property Maintenance Code, Sec. 302.4)
Trash and Litter (International Property Maintenance Code, Sec. 307.1)

2. If the property owners do not take corrective action within fifteen (15) days to remove the violations, then after a complete and final legal review of the property conducted by the City Attorney, the City will take action to remove all violations listed, said work to be legally contracted with a private contractor or City crews, and the cost of same plus penalty to be certified to the City Clerk for further legal disposition.

RESOLUTION
CONDEMNATION OF UNSAFE AND DILAPIDATED PROPERTY
Case #11. 910 S. Tipton St

WHEREAS, on the 2nd day of January 2018 the Council of the City of Hattiesburg, Mississippi, passed a resolution announcing the intention of the City Council to hold a hearing on, the 5th day of February, 2018, in the Council Meeting Room of City Hall in Hattiesburg, Mississippi, as provided by Section 21-19-11 of the Mississippi Code of 1972, as annotated and amended, to determine whether or not the following described property is in such a state of uncleanliness as to be a menace to the health and safety of the community, to-wit:

PARCEL: 2-037D-14-166.00, 910 S. Tipton Street HATTIESBURG, MS 39401 and better described as Lots 3, 20, 21, 22, and 23 Block 6 of the MCINNIS, MITCHELL, & LONGRE or Addition to the City of Hattiesburg, Forrest County, Mississippi, as per the office of the Chancery Clerk of Forest County, Mississippi; together with all improvements thereon and appurtenances thereunto belonging.

WHEREAS, the owner of the property is: Danny E. and Kimberly D. Robertson

WHEREAS, proper and timely notice of said hearing was given to said parties more than two weeks prior to the date of the hearing; and

WHEREAS, at said hearing it was determined that the aforementioned property is in such a state of uncleanliness as to be a menace to the health and safety of the community and should be condemned.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Hattiesburg, Mississippi, as follows:

1. A period of fifteen (15) days shall be extended to the property owner for removal of the violations listed:

Dangerous Structure (International Property Maintenance Code, Sec. 108.1.5)
Vacant Structure (International Property Maintenance Code, Sec. 301.3)
Trash and Litter (International Property Maintenance Code, Sec. 307.1)

2. If the property owners do not take corrective action within fifteen (15) days to remove the violations, then after a complete and final legal review of the property conducted by the City Attorney, the City will take action to remove all violations listed, said work to be legally contracted with a private contractor or City crews, and the cost of same plus penalty to be certified to the City Clerk for further legal disposition.

3. A copy of this Resolution will be certified and recorded in the Chancery Clerk's Office of Forrest County, Mississippi.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council member Dryden seconded by Council member Brown, and was adopted by the following vote, to-wit:

YEAS:	NAYS:	ABSENT:
George Delgado Carroll Dryden Brown	None

RESOLUTION
CONDEMNATION OF UNSAFE AND DILAPIDATED PROPERTY
Case #12. 219 S. 23rd Ave.

WHEREAS, on the 2nd day of January 2018 the Council of the City of Hattiesburg, Mississippi, passed a resolution announcing the intention of the City Council to hold a hearing on, the 5th day of February, 2018, in the Council Meeting Room of City Hall in Hattiesburg, Mississippi, as provided by Section 21-19-11 of the Mississippi Code of 1972, as annotated and amended, to determine whether or not the following described property is in such a state of uncleanliness as to be a menace to the health and safety of the community, to-wit:

PARCEL: 2-028O-08-121.00, 219 S. 23rd Avenue HATTIESBURG, MS 39401 and better described as The South Half of Lot Eight (8) and all of Lot Nine (9) in Block Twelve (12) of the Hattiesburg Heights Fourth Survey or Addition to the City of Hattiesburg, as per map or plat now on file in the office of the Chancery Clerk of Forrest County, Mississippi, together with all improvements thereon and appurtenances thereunto belonging;

and also:

A part of Lot Ten (10) in Block Twelve (12) of the Hattiesburg Heights Fourth Survey or Addition to the City of Hattiesburg, County of Forrest, State of Mississippi, being more particularly described as: Beginning at the Northeast corner of said Lot 10, and run thence at the right angles South a distance of 15 feet, thence at right angles East a distance of 150 feet to the East margin of Twenty- third avenue, thence at right angles North a distance of 15 feet to said point of beginning.

WHEREAS, the owner of the property is: Jason Richard Kenton

WHEREAS, proper and timely notice of said hearing was given to said parties more than two weeks prior to the date of the hearing; and

WHEREAS, at said hearing it was determined that the aforementioned property is in such a state of uncleanliness as to be a menace to the health and safety of the community and should be condemned.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Hattiesburg, Mississippi, as follows:

1. A period of fifteen (15) days shall be extended to the property owner for removal of the violations listed:

Overgrown Lot or Weeds (International Property Maintenance Code, Sec. 302.4)
Trash and Litter (International Property Maintenance Code, Sec. 307.1)

2. If the property owners do not take corrective action within fifteen (15) days to remove the violations, then after a complete and final legal review of the property conducted by the City Attorney, the City will take action to remove all violations listed, said work to be legally contracted with a private contractor or City crews, and the cost of same plus penalty to be certified to the City Clerk for further legal disposition.

3. A copy of this Resolution will be certified and recorded in the Chancery Clerk's Office of Forrest County, Mississippi.

RESOLUTION
CONDEMNATION OF UNSAFE AND DILAPIDATED PROPERTY
Case #1 1312 Deason Ave.

WHEREAS, on the 2nd day of January 2018 the Council of the City of Hattiesburg, Mississippi, passed a resolution announcing the intention of the City Council to hold a hearing on, the 5th day of February, 2018, in the Council Meeting Room of City Hall in Hattiesburg, Mississippi, as provided by Section 21-19-11 of the Mississippi Code of 1972, as annotated and amended, to determine whether or not the following described property is in such a state of uncleanliness as to be a menace to the health and safety of the community, to-wit:

PARCEL: 2-030M-11-034.00, 1312 Deason Avenue HATTIESBURG, MS 39401 and better described as East one half (E1/2), of Lot 2, Block 5, Omega Subdivision, City of Hattiesburg, County of Forrest, State of Mississippi, as per the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi.

WHEREAS, the owner of the property is: Odell Bolton

WHEREAS, proper and timely notice of said hearing was given to said parties more than two weeks prior to the date of the hearing; and

WHEREAS, at said hearing it was determined that the aforementioned property is in such a state of uncleanliness as to be a menace to the health and safety of the community and should be condemned.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Hattiesburg, Mississippi, as follows:

1. A period of fifteen (15) days shall be extended to the property owner for removal of the violations listed:

Dangerous Structure (International Property Maintenance Code, Sec. 108.1.5)
Vacant Structure (International Property Maintenance Code, Sec. 301.3)
Overgrown Lot or Weeds (International Property Maintenance Code, Sec. 302.4)
Trash and Litter (International Property Maintenance Code, Sec. 307.1)

2. If the property owners do not take corrective action within fifteen (15) days to remove the violations, then after a complete and final legal review of the property conducted by the City Attorney, the City will take action to remove all violations listed, said work to be legally contracted with a private contractor or City crews, and the cost of same plus penalty to be certified to the City Clerk for further legal disposition.

3. A copy of this Resolution will be certified and recorded in the Chancery Clerk's Office of Forrest County, Mississippi.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council member Dryden seconded by Council member Brown, and was adopted by the following vote, to-wit:

YEAS: George, Delgado, Carroll, Dryden, Brown

NAYS: None

ABSENT:

The motion having received the affirmative vote of a majority of the Council members present, the President declared the motion carried and the resolution adopted, on this the 6th day of February, 2018.

RESOLUTION

WHEREAS, Section 21-19-11 of Mississippi Code of 1972, Annotated, authorizes the governing authorities of municipalities to adjudicate the actual cost to the City of Hattiesburg for cleaning properties that have been determined to be in such a state of uncleanliness as to be a menace to the public health and safety of the community, and the owner has failed, after appropriate notice, to clean said property; and,

WHEREAS, accordingly the City of Hattiesburg took action on or about August 31, 2017, to Order the demolition of Building "B" at Mt. Carmel Baptist Church as a menace to the public health and safety of the community, and said demolition has now been completed.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Council of the City of Hattiesburg, Mississippi:

Section 1. That the City Council of the City of Hattiesburg does hereby adjudicate and direct the placement as an assessment the demolition cost, not to exceed the value of the property per state law, against the following described property:

OWNER/LEGAL:
State Bank of Texas, Liberty Bank and Trust Co, & Mt. Carmel Baptist Church of Hattiesburg, and better described as Lot One and Two, Block 170, G.D. Wilson Subdivision, City of Hattiesburg, Forrest County, Mississippi, as per the official map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, together with all improvements thereon and appurtenances thereunto belonging.

RESOLUTION

RENEWING AND EXTENDING THE OCTOBER 7, 1993, INTERLOCAL COOPERATION AGREEMENT BETWEEN THE CITY OF HATTIESBURG AND FORREST COUNTY FOR COOPERATIVE CONSTRUCTION, MAINTENANCE, IMPROVEMENT AND OPERATION OF PUBLIC PARK FACILITIES

WHEREAS, the City of Hattiesburg entered into an interlocal cooperating agreement with Forrest County for the cooperative construction, maintenance, improvement and operation of public park facilities on October 7, 1993, that was approved by Attorney General on October 8, 1993; and,

WHEREAS, pursuant to its provisions, said agreement is "subject to renewal and extension upon the beginning of the new term of office of each of the parties and by ratification of each new administration of the respective governing authorities; and,

WHEREAS, the Mayor and City Council of the City of Hattiesburg desire to renew and extend said agreement throughout the end of its current term of office.

NOW, THEREFORE, BE IT RESOLVED that the interlocal agreement with Forrest County for the cooperative construction, maintenance, improvement and operation of public park facilities is hereby renewed and extended through the end of the current term of office of the governing authorities of the City of Hattiesburg.

The foregoing resolution having been reduced to writing, the same was introduced by Council member _____, seconded by Council member _____, and adopted by the following vote, to wit:

ATTEST: APPROVED:

_____ _____

CITY CLERK MAYOR

INTERLOCAL COOPERATION AGREEMENT BY AND BETWEEN FORREST COUNTY, MISSISSIPPI, AND THE CITY OF HATTIESBURG, MISSISSIPPI, FOR COOPERATIVE CONSTRUCTION, MAINTENANCE, IMPROVEMENT AND OPERATION OF PUBLIC PARK FACILITIES

ITEM 1. PARTIES

The parties hereto are Forrest County, Mississippi, acting by and through its duly elected Board of Supervisors, and the City of Hattiesburg, Mississippi, by and through its duly elected Mayor and Council.

ITEM 2. AUTHORITY

This Interlocal Cooperation Agreement is entered into under the general provisions of the Mississippi Interlocal Cooperation Act of 1974, codified as Section 17-13-1, et seq. of the Mississippi Code of 1972, as amended.

ITEM 3. EFFECTIVE DATE

This agreement shall become effective upon its approval by each respective governing authority of the parties and upon its approval by the Attorney General of the State of Mississippi pursuant to and in accordance with Section 17-13-11 of the Mississippi Code.

ITEM 4. PURPOSE

The governing authorities of Forrest County and the City of Hattiesburg, by their entry into this agreement, share the belief that their joint and cooperative efforts shall be of mutual advantage and for the mutual benefit of the citizens represented. The parties further affirmatively represent that the services to be rendered in this effort accord best with geographic, economic, population and other factors influencing the needs and development of Forrest County and the City of Hattiesburg in Forrest County.

ITEM 5. DURATION

Pursuant to Section 17-13-9(a), the duration of this agreement shall be for the term of office of the parties hereto, and it may be subject to renewal and extension upon the beginning of the new term of office of each of the parties and by ratification of each new administration of the respective governing authorities. This agreement may be terminated by either party upon 30 days written notice to the other party.

ITEM 6. SPECIFIC PURPOSE

The specific purpose of this agreement shall be for the cooperative construction, maintenance, improvement and operation of public park facilities, community centers, zoos, programs and other recreational facilities or properties within the City of Hattiesburg in Forrest County, Mississippi. The respective governing authorities are authorized to provide recreational development by various statutory authority, including, but not limited to, Sections 55-9-1, 21-17-1, 21-19-31, 21-37-3, and 37-7-317, Mississippi Code of 1972.

ITEM 7. SEPARATE ENTITY

There shall be no separate legal or administrative entity created hereby. Rather, the governing authority of each respective party shall continue to act in an independent but cooperative manner to further the purposes of this agreement.

Forrest County may assist the City of Hattiesburg in the further development of recreational facilities and programs in the city by appropriating funds for recreational projects and equipment or by constructing or assisting in the constructing or purchasing of recreational facilities and equipment. Prior to any construction of facilities on city owned or city leased property by Forrest County, permission for such shall be required and obtained from the

city governing authority. A general and unrestricted appropriation of county funds to the city for recreational development and program purposes may be utilized and expended by the city for any recreational development or program within the city inside Forrest County but it is agreed that a restricted or "earmarked" appropriation of county funds to the city for specific recreational development purposes, equipment or programs shall only be expended by the city for the restricted or designated purpose as specified by Forrest County.

The City of Hattiesburg will retain title, or leasehold interest in the event of leased property, to all real property, equipment and improvements placed upon city owned or city leased property, including, but not limited to, such things as buildings, fences, lights, light poles, walking tracks, etc. Maintenance of city owned or city leased recreational property, facilities and equipment shall be the sole responsibility of the City of Hattiesburg, and the providing of funding or the construction of facilities by the county shall not create any obligation of the county to provide further funding for maintenance or upkeep. It is the intent of this agreement that the participation in the development of recreational facilities, equipment and programs within the City of Hattiesburg by Forrest County shall enable the recreational facilities to be open to all county citizens in the same manner as such facilities are open to residents of the City of Hattiesburg.

ITEM 8. AMENDMENTS

This agreement represents in its entirety the full agreement between the parties and may not be amended except by written agreement between the parties which receives approval as provided by law. Upon termination of this agreement, any property or equipment acquired by the city through county funding shall remain the property of the City of Hattiesburg and may be disposed of by the City of

Hattiesburg in any manner consistent with Mississippi law.

EXECUTED IN TRIPLICATE ORIGINALS by the parties hereto on the dates as hereinafter provided and stated.

RESOLUTION

RENEWING AND EXTENDING THE OCTOBER 7, 1993, INTERLOCAL COOPERATION AGREEMENT BETWEEN THE CITY OF HATTIESBURG AND FORREST COUNTY FOR COOPERATIVE CONSTRUCTION, MAINTENANCE, IMPROVEMENT AND OPERATION OF PUBLIC PARK FACILITIES

WHEREAS, the City of Hattiesburg entered into an interlocal cooperating agreement with Forrest County for the cooperative construction, maintenance, improvement and operation of public park facilities on October 7, 1993, that was approved by Attorney General on October 8, 1993; and,

WHEREAS, pursuant to its provisions, said agreement is "subject to renewal and extension upon the beginning of the new term of office of each of the parties and by ratification of each new administration of the respective governing authorities; and,

WHEREAS, the Mayor and City Council of the City of Hattiesburg desire to renew and extend said agreement throughout the end of its current term of office.

NOW, THEREFORE, BE IT RESOLVED that the interlocal agreement with Forrest County for the cooperative construction, maintenance, improvement and operation of public park facilities is hereby renewed and extended through the end of the current term of office of the governing authorities of the City of Hattiesburg.

Title

Adopt a Resolution authorizing Requisition No. 15 from the Project Fund Construction Account in connection with a certain loan agreement dated August 18, 2016, by and between the Mississippi Development Bank and the City of Hattiesburg.

Summary

Adopt a Resolution authorizing Requisition No. 15 - 2016 Water/Sewer Bonds.

The City Council of the City of Hattiesburg, Mississippi (the "City") acting for and on behalf of the City, took up for consideration the matter of requesting and authorizing Requisition No. **15** from the Project Fund Construction Account in connection with the loan agreement between the Mississippi Development Bank and the City dated August 18, 2016. After discussion of the subject, Council Member _____ offered and moved for the adoption of the following resolution:

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI (THE "CITY") AUTHORIZING REQUISITION NO. 15 FROM THE PROJECT FUND CONSTRUCTION ACCOUNT IN CONNECTION WITH THAT CERTAIN LOAN AGREEMENT, DATED AS OF AUGUST 18, 2016, BY AND BETWEEN THE MISSISSIPPI DEVELOPMENT BANK AND THE CITY.

Whereas, on August 18, 2016 the City entered into a loan with the Mississippi Development Bank in an amount not to exceed $25,000,000 (the "Loan") pursuant to the terms and conditions of that certain loan agreement, dated as of August 18, 2016, by and between the Mississippi Development Bank and the City (the "Loan Agreement").

Whereas, the City Council of the City now finds it necessary to approve Requisition No. **15** from the Project Fund Construction Account under the Loan in the total aggregate amount of **$595,132.83** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. The City Council of the City hereby authorizes and approves Requisition No. **15** from the Project Fund Construction Account under the Loan in the total aggregate amount of **Five Hundred Ninety-five Thousand One Hundred Thirty-two and 83/100 dollars ($595,132.83)** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

SECTION 2. The City Council hereby directs Regions Bank, as Trustee to disburse funds of Requisition No.**15** in the total aggregate amount of **Five Hundred Ninety-five Thousand One Hundred Thirty-two and 83/100 dollars ($595,132.83)** as authorized herein, as more particularly described in Exhibit A.

SECTION 3. The Mayor and City Clerk are hereby authorized and directed for and on behalf of the City to take any and all action as may be required by the City to carry out and give effect to the aforesaid documents authorized pursuant to this Resolution and to execute all papers, documents, certificates and other instruments that may be required for the carrying out of the authority conferred by this Resolution in order to evidence the authority.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member _____ seconded by Council Member _____, and was adopted by the following vote, to wit:

YEAS: NAYS: ABSENT:

The motion having received the affirmative vote of a majority of the Council members present, the President declared the motion carried and the resolution adopted, on this the **6th day** of **February**, 2018.

Hattiesburg, Mississippi does hereby certify to Regions Bank, as trustee in respect to the referenced Bonds (the Trustee”):

(1) The amounts herein requisitioned to be paid to the above-designated payees are for the items or services hereinabove described.
(2) The items or services listed above for which payment is proposed to be made hereunder have not formed the basis for any payment heretofore made from the Series 2016 Project Fund Construction Account.
(3) Each of the items was reasonable and necessary in connection with the “Construction Project” being financed pursuant to the Loan Agreement dated as of August 18, 2016 (the “Loan Agreement”).
(4) The payment herein authorized and approved is a proper charge against the Series 2016 Project Fund Construction Account as provided for in Section 3 of the Loan Agreement.
(5) The invoices or statements from the contractor, vendor or other payee or other document supporting the amounts requisitioned herein are on file with the City.

CITY OF HATTIESBURG, MISSISSIPPI

By: _____
Title: Mayor or City Clerk
(Authorized City Representative)

As Approved by:

Regions Commercial Equipment Finance, LLC
As Purchaser

_____
Authorized Officer

The City Council of the City of Hattiesburg, Mississippi (the "City") acting for and on behalf of the City, took up for consideration the matter of requesting and authorizing Requisition No. **15** from the Project Fund Construction Account in connection with the loan agreement between the Mississippi Development Bank and the City dated August 18, 2016. After discussion of the subject, Council Member George offered and moved for the adoption of the following resolution:

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI (THE "CITY") AUTHORIZING REQUISITION NO. 15 FROM THE PROJECT FUND CONSTRUCTION ACCOUNT IN CONNECTION WITH THAT CERTAIN LOAN AGREEMENT, DATED AS OF AUGUST 18, 2016, BY AND BETWEEN THE MISSISSIPPI DEVELOPMENT BANK AND THE CITY.

Whereas, on August 18, 2016 the City entered into a loan with the Mississippi Development Bank in an amount not to exceed $25,000,000 (the "Loan") pursuant to the terms and conditions of that certain loan agreement, dated as of August 18, 2016, by and between the Mississippi Development Bank and the City (the "Loan Agreement").

Whereas, the City Council of the City now finds it necessary to approve Requisition No. **15** from the Project Fund Construction Account under the Loan in the total aggregate amount of **$595,132.83** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. The City Council of the City hereby authorizes and approves Requisition No. **15** from the Project Fund Construction Account under the Loan in the total aggregate amount of **Five Hundred Ninety-five Thousand One Hundred Thirty-two and 83/100 dollars ($595,132.83)** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

SECTION 2. The City Council hereby directs Regions Bank, as Trustee to disburse funds of Requisition No.**15** in the total aggregate amount of **Five Hundred Ninety-five Thousand One Hundred Thirty-two and 83/100 dollars ($595,132.83)** as authorized herein, as more particularly described in Exhibit A.

SECTION 3. The Mayor and City Clerk are hereby authorized and directed for and on behalf of the City to take any and all action as may be required by the City to carry out and give effect to the aforesaid documents authorized pursuant to this Resolution and to execute all papers, documents, certificates and other instruments that may be required for the carrying out of the authority conferred by this Resolution in order to evidence the authority.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member George seconded by Council Member Brown, and was adopted by the following vote, to wit:

YEAS: George
Delgado
Carroll
Dryden
Brown

NAYS: None

ABSENT:

The motion having received the affirmative vote of a majority of the Council members present, the President declared the motion carried and the resolution adopted, on this the **6th day** of **February**, 2018.

(SEAL)

Hattiesburg, Mississippi does hereby certify to Regions Bank, as trustee in respect to the referenced Bonds (the Trustee"):

(1) The amounts herein requisitioned to be paid to the above-designated payees are for the items or services hereinabove described.
(2) The items or services listed above for which payment is proposed to be made hereunder have not formed the basis for any payment heretofore made from the Series 2016 Project Fund Construction Account.
(3) Each of the items was reasonable and necessary in connection with the "Construction Project" being financed pursuant to the Loan Agreement dated as of August 18, 2016 (the "Loan Agreement").
(4) The payment herein authorized and approved is a proper charge against the Series 2016 Project Fund Construction Account as provided for in Section 3 of the Loan Agreement.
(5) The invoices or statements from the contractor, vendor or other payee or other document supporting the amounts requisitioned herein are on file with the City.

AGREEMENT
BETWEEN OWNER AND ENGINEER
FOR STUDY AND REPORT
PROFESSIONAL SERVICES

THIS IS AN AGREEMENT effective as of **December 5, 2017** ("Effective Date") between **The City of Hattiesburg**

("Owner") and **Shows, Dearman & Waits, Inc.** ("Engineer").

Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows: **Waste Collection System Evaluation Report and Rehabilitation Plan for Priority Area 1 & 2** ("Project").

Engineer's services under this Agreement are generally identified as follows: **See Appendix A** ("Study and Report Services").

Other terms used in this Agreement are defined in Article 7.

Owner and Engineer further agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer shall provide, or cause to be provided, the services set forth herein and in Exhibit A.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General*

A. Owner shall pay Engineer as set forth in Article 4 and Appendix 1.

B. Owner shall provide Engineer with all criteria and full information as to Owner's requirements for the Study and Report Services, including but not limited to design objectives and constraints; space, capacity and performance requirements; flexibility and expandability goals; any anticipated funding sources; and budgetary limitations.

C. Owner shall furnish to Engineer all existing studies, reports, and other available information pertinent to the Engineer's performance of the Study and Report Services, including reports and data relative to previous designs, construction, or investigation at or adjacent to any Site under consideration.

D. Following Engineer's assessment of initially-available Project data and information, and receipt of Engineer's advice regarding the need (if any) for additional Project-related data and information, Owner shall either (1) authorize Engineer to undertake Additional Services necessary to obtain such additional Project-related data and information, or (2) obtain, furnish, or otherwise make available (if necessary through title searches, or retention of specialists or consultants) such additional Project-related data and information. Such additional data and information would generally include the following:

Property descriptions.

1. Zoning, deed, and other land use restrictions.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. Utility information, reports, and mapping.

3. Property, boundary, easement, right-of-way, topographic, and other special surveys or data, including establishing relevant reference points.

4. Explorations and tests of subsurface conditions at or adjacent to a Site; geotechnical reports and investigations; drawings of physical conditions relating to existing surface or subsurface structures at a Site; hydrographic surveys, laboratory tests and inspections of samples, materials, and equipment; with appropriate professional interpretation of such information or data.

5. Environmental assessments, audits, investigations, and impact statements, and other relevant environmental, historical, or cultural studies relevant to the Project, the Site(s), and adjacent areas.

6. Data or consultations as required for the Project but not otherwise identified in this Agreement.

E. Owner shall advise Engineer of the identity and scope of services of any independent consultants retained by Owner to perform or furnish services pertinent to the Study and Report Services.

F. Owner shall arrange for safe access to and make all provisions for Engineer to enter upon public and private property as required for Engineer to perform services under the Agreement.

G. Owner shall inform Engineer in writing of any specific requirements of safety or security programs that are applicable to Engineer, as a visitor to any Site under study.

H. Owner shall examine all alternative solutions, studies, reports, sketches, Drawings, Specifications, proposals, and other documents presented by Engineer (including obtaining advice of an attorney, risk manager, insurance counselor, and other advisors or consultants as Owner deems appropriate with respect to such examination) and render in writing timely decisions pertaining thereto.

I. Owner shall inform Engineer regarding any need for assistance in evaluating the possible use of Project Strategies, Technologies, and Techniques, as defined in Exhibit A.

J. Owner shall advise Engineer as to whether Engineer's assistance is requested in identifying opportunities for enhancing the sustainability of the Project.

K. Recognizing and acknowledging that Engineer's services and expertise do not include the following services, Owner shall provide, as required for Engineer's performance of its Study and Report Services:

1. Accounting, bond and financial advisory (including, if applicable, "municipal advisor" services as described in Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, 2010, and the municipal advisor registration rules issued by the Securities and Exchange Commission), independent cost estimating, and insurance counseling services.

2. Legal services with regard to issues pertaining to the Project as Owner requires, or Engineer reasonably requests.

L. Owner shall be responsible for all requirements and instructions that it furnished to Engineer pursuant to this Agreement, and for the accuracy and completeness of all programs, reports, data, and other information furnished by Owner to Engineer pursuant to this Agreement. Engineer may use and rely upon such requirements, programs, instructions, reports, data, and information in performing or furnishing services under this Agreement, subject to any express limitations or reservations applicable to the furnished items.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

M. Owner shall give prompt written notice to Engineer whenever Owner observes or otherwise becomes aware of:

1. any development that affects the scope or time of performance of Engineer's services;
2. the presence of any Constituent of Concern at any Site; or
3. any relevant, material defect or nonconformance in Engineer's services or Owner's performance of its responsibilities under this Agreement.

ARTICLE 3 – SCHEDULE FOR RENDERING SERVICES

3.01 *Commencement*

A. Engineer is authorized to begin rendering services as of the Effective Date.

3.02 *Time for Completion*

A. Engineer shall complete its obligations within a reasonable time. Specific periods of time for rendering services or specific dates by which services are to be completed are provided in Exhibit A, and are hereby agreed to be reasonable.

B. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's services is impaired, or Engineer's services are delayed or suspended, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

ARTICLE 4 – INVOICES AND PAYMENTS

4.01 *Invoices*

A. *Preparation and Submittal of Invoices:* Engineer shall prepare invoices in accordance with its standard invoicing practices and the terms of this Article and Appendix 1. Engineer shall submit its invoices to Owner on a monthly basis. Invoices are due and payable within 45 days of receipt.

4.02 *Payments*

A. *Application to Interest and Principal:* Payment will be credited first to any interest owed to Engineer and then to principal.

B. *Failure to Pay:* If Owner fails to make payments due Engineer for services and expenses within 45 days after receipt of Engineer's invoice, then:

1. amounts due Engineer will be increased at the rate of 1.5% per month (or the maximum rate of interest permitted by law, if less) from said forty-fifth day; and
2. Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement until Owner has paid in full all amounts due for services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

C. *Disputed Invoices:* If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in writing of the specific basis for doing so, and the dispute dealt with as set out in Mississippi Code Ann. Section 31-7-305.

4.03 *Payment for Basic Services (Lump Sum Basis) and Additional Services*

A. Using the procedures set forth in this Article, Owner shall pay Engineer for Basic Services as follows:

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

1. A Lump Sum amount of **$359,820**.

2. In addition to the Lump Sum amount, reimbursement for the following expenses: **None**

B. The portion of the compensation amount billed monthly for Engineer's services will be based upon Engineer's estimate of the percentage of the Study and Report Services actually completed during the billing period.

C. For Additional Services, Owner shall pay Engineer an amount equal to the cumulative hours charged to providing the Additional Services by each class of Engineer's employees, times standard hourly rates for each applicable billing class; plus reimbursement of expenses incurred in connection with providing the Additional Services (including but not limited to expenses in the categories listed on the reimbursable expenses schedule in Appendix 1) and Engineer's Consultants' charges, if any.

D. Engineer's standard hourly rates and reimbursable expenses schedule are set forth in Appendix 1.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Probable Construction Cost*

A. Engineer's opinions (if any) of probable Construction Cost are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because of the limited and preliminary nature of the Study and Report Services, and because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer. If Owner requires greater assurance as to probable Construction Cost, then Owner agrees to obtain an independent cost estimate.

5.02 *Opinions of Total Project Costs*

A. The services, if any, of Engineer with respect to Total Project Costs shall be limited to assisting the Owner in tabulating the various categories that comprise Total Project Costs. Engineer assumes no responsibility for the accuracy of any opinions of Total Project Costs.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. *Standard of Care:* The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with any services performed or furnished by Engineer.

B. *Technical Accuracy:* Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct deficiencies in technical accuracy without additional compensation, unless such corrective action is directly attributable to deficiencies in Owner-furnished information.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

C. *Consultants:* Engineer may retain such Consultants as Engineer deems necessary to assist in the performance or furnishing of the services, subject to reasonable, timely, and substantive objections by Owner.

D. *Reliance on Others:* Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Engineer shall not be required to sign any document, no matter by whom requested, that would result in the Engineer having to certify, guarantee, or warrant the existence of conditions whose existence the Engineer cannot ascertain. Owner agrees not to make resolution of any dispute with the Engineer or payment of any amount due to the Engineer in any way contingent upon the Engineer signing any such document.

F. Engineer shall not have any construction-related duties under this Agreement. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at any Site, nor for any failure of a Constructor to comply with Laws and Regulations applicable to that Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.

G. Engineer is not required to provide and does not have any responsibility for surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements.

H. Engineer's services do not include providing legal advice or representation.

I. Engineer's services do not include (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission, or (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances.

6.02 *Use of Documents*

A. All Documents are instruments of service, and Engineer shall retain an ownership and property interest therein (including the copyright and the right of reuse at the discretion of the Engineer) whether or not the Study and Report Services or the Project is completed.

B. Owner may make and retain copies of Documents solely for Owner's information and reference in connection with the specific subject matter of the Documents, subject to receipt by Engineer of full payment for all services relating to preparation of the Documents, and subject to the following limitations: (1) Owner acknowledges that such Documents are not intended or represented to be suitable for use by Owner unless completed by Engineer; (2) if Engineer has completed a Report under this Agreement, and received full payment for such Report, then the Owner may furnish copies of the completed Report to Owner's consultants and design professionals for their reference in proceeding with design or similar services, provided that the Owner informs such consultants and design professionals of Engineer's ownership interests in the Report, and includes with the Report all Engineer's written statements regarding the purpose, scope, use, and limitations of the Report; (3) the Documents are not design or construction documents, (4) no

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Document shall be altered, modified, or reused by Owner or any third party for any purpose except with Engineer's express written consent; (5) any use, reuse, alteration, or modification of the Documents, except as authorized in this Agreement or by Engineer's written consent, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and Consultants; (6) nothing in this paragraph shall create any rights in third parties.

6.03 *Electronic Transmittals*

A. Owner and Engineer may transmit, and shall accept, Project-related correspondence, Documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with a mutually agreeable protocol.

B. If this Agreement does not establish protocols for electronic or digital transmittals, then Owner and Engineer shall jointly develop such protocols.

C. When transmitting items in electronic media or digital format, the transmitting party makes no representations as to long term compatibility, usability, or readability of the items resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the items, or from those established in applicable transmittal protocols.

6.04 *Insurance*

A. Engineer will maintain insurance coverage for Workers' Compensation, General Liability, Professional Liability, and Automobile Liability and will provide certificates of insurance to Owner upon request.

6.05 *Termination*

A. *Termination:* The obligation to provide further services under this Agreement may be terminated:

1. For cause,

a. By either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the Agreement's terms through no fault of the terminating party.

b. By Engineer:

1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or

2) upon seven days written notice if the Engineer's services are delayed for more than 90 days for reasons beyond Engineer's control.

c. Engineer shall have no liability to Owner on account of a termination for cause by Engineer.

2. Notwithstanding the foregoing, this Agreement will not terminate as a result of a substantial failure under Paragraph 6.05.A.1.a or 6.05.A.1.b.1 if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt of notice; provided, however, that if and to the extent such substantial failure cannot be reasonably

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

B. *Termination for Convenience:* Owner may terminate the Agreement for Owner's convenience effective upon the Engineer's receipt of written notice from Owner.

C. The terminating party under Paragraphs 6.05.A or 6.05.B may set the effective date of termination at a time up to 30 days later than otherwise provided to allow Engineer to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

D. In the event of any termination under Paragraph 6.05, Engineer will be entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Agreement and all reimbursable expenses incurred through the effective date of termination.

E. In the event of termination by Owner for convenience, or by Engineer for cause, Engineer shall be entitled, in addition to invoicing for those items identified in Paragraph 6.05.D, to invoice Owner and receive payment of a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with Engineer's Consultants, and other related close-out costs, using methods and rates for Additional Services as set forth in Article 4 and Appendix 1.

6.06 *Controlling Law*

A. This Agreement is to be governed by the law of the state in which the subject matter of the Study and Report Services is located.

6.07 *Successors, Assigns, and Beneficiaries*

A. Engineer is hereby bound and the successors, executors, administrators, and legal representatives of Engineer (and to the extent permitted by Paragraph 6.07.B the assigns of Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, or other third-party individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party. Any and all Documents prepared by Engineer, including but not limited to the Report to be prepared pursuant to Exhibit A, are prepared solely for the use and benefit of Owner, unless expressly agreed otherwise by Engineer.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.08 *Dispute Resolution*

A. Owner and Engineer agree to negotiate each dispute between them in good faith during the 30 days after notice of dispute. If negotiations are unsuccessful in resolving the dispute, then the parties may exercise their rights at law.

6.09 *Environmental Condition of Site*

A. Owner represents to Engineer that as of the Effective Date to the best of Owner's knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at or adjacent to any Site under study.

B. If Engineer encounters or learns of an undisclosed Constituent of Concern at any Site under study, then Engineer shall notify (1) Owner and (2) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

C. It is acknowledged by both parties that Engineer's scope of services does not include any services related to unknown or undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an undisclosed Constituent of Concern, then Owner shall promptly determine whether to retain a qualified expert to evaluate such condition or take any necessary corrective action, or provide notice to the owner of the Site.

D. If investigative or remedial action, or other professional services, are necessary with respect to undisclosed Constituents of Concern, or if investigative or remedial action beyond that reasonably contemplated is needed to address a disclosed or known Constituent of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until such portion of the Project is no longer affected.

E. If the presence at any Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under this Agreement, then the Engineer shall have the option of (1) accepting an equitable adjustment in its compensation or in the time of completion, or both; or (2) terminating this Agreement for cause on seven days notice.

F. Owner acknowledges that Engineer is performing professional services for Owner and that Engineer is not and shall not be required to become an "owner" "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, which are or may be encountered at or near any Site under study in connection with the Study and Report Services.

6.10 *Shared Negligence*

A. *Percentage Share of Negligence:* To the fullest extent permitted by Laws and Regulations, a party's total liability to the other party and anyone claiming by, through, or under the other party for any cost, loss, or damages caused in part by the negligence of the party and in part by the negligence of the other party or any other negligent entity or individual, shall not exceed the percentage share that the party's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

6.11 *Limitation of Engineer's Liability*

A. To the fullest extent permitted by law, the total liability, in the aggregate, of Engineer and Engineer's officers, directors, partners, members, employees, agents, and Consultants, or any of them, to Owner and anyone claiming by, through, or under Owner, for any and all injuries, losses,

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

damages and expenses whatsoever arising out of, resulting from, or in any way related to the Study and Report Services this Agreement, or the Project from any cause or causes including but not limited to the negligence, professional errors or omissions, strict liability, or breach of contract or warranty, express or implied, of Engineer or Engineer's officers, directors, partners, members, employees, agents, or Consultants, or any of them, shall not exceed the total amount of $100,000 or the total compensation paid to Engineer under this Agreement, whichever is greater.

6.12 *Records Retention*

A. Engineer shall maintain on file in legible form, for a period of five years following completion or termination of its services, all Documents, records (including cost records), and design calculations related to Engineer's services or pertinent to Engineer's performance under this Agreement. Upon Owner's request, Engineer shall provide a copy of any such item to Owner at cost.

6.13 *Miscellaneous Provisions*

A. *Notices:* Any notice required under this Agreement will be in writing, addressed to the appropriate party at its address on the signature page and given personally, by registered or certified mail postage prepaid, or by a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival:* All express representations, waivers, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability:* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Engineer, which agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

D. *Waiver:* A party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Accrual of Claims:* To the fullest extent permitted by Laws and Regulations, all causes of action arising under this Agreement shall be deemed to have accrued, and all statutory periods of limitation shall commence, no later than the date of completion of the Study and Report Services.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits and Appendix) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the exhibits, or in the following provisions:

1. *Additional Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 2 of Exhibit A of this Agreement.

2. *Agreement*—This written contract for study and report professional services between Owner and Engineer, including all exhibits identified in Paragraph 8.01 and any duly executed amendments.

3. *Basic Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 1 of Exhibit A of this Agreement.

4. *Capacity Assessment* - engineering analyses of the WCTS capacity derived from, but not limited to, flow monitoring data, remote monitoring equipment installed in the WCTS to

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

monitor sewer pipe surcharge, and other investigative results where applicable. This assessment shall identify those portions of the WCTS that are expected to cause or contribute to SSOs under existing and projected average and peak flows in dry and wet weather, and the degree to which those portions of the WCTS experience or cause SSOs under current or projected future conditions.

5. *Constituent of Concern*—Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5101 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, State, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

6. *Construction Cost*—The cost to Owner of the construction of a recommended solution presented in the Report furnished by Engineer under Exhibit A, or of a specific portion of the Project for which Engineer has agreed to provide opinions of cost. Construction Cost includes the cost of construction labor, services, materials, equipment, insurance, and bonding, and allows for contingencies. Construction Cost does not include costs of services of Engineer or other design professionals and consultants; cost of land or rights-of-way, or compensation for damages to property; Owner's costs for legal, accounting, insurance counseling, or auditing services; interest or financing charges incurred in connection with the Project; or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

7. *Constructor*—Any person or entity (not including the Engineer, its employees, agents, representatives, and consultants), performing or supporting construction activities relating to the Project, including but not limited to contractors, subcontractors, suppliers, Owner's work forces, utility companies, construction managers, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.

8. *Consultants*—Individuals or entities having a contract with Engineer to furnish services with respect to this Agreement as Engineer's independent professional associates and consultants; subcontractors; or vendors.

9. *Documents*—Data, studies, reports (including the Report referred to in Exhibit A), and other deliverables, whether in printed or electronic format, provided or furnished by Engineer to Owner pursuant to this Agreement.

10. *Effective Date*—The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, the date on which this Agreement is signed and delivered by the last of the parties to sign and deliver.

11. *Engineer*—The individual or entity named as such in this Agreement.

12. *Gravity Sewer Line or Gravity Sewer* - any pipe which is owned and operated by the City that receives, contains and conveys wastewater not normally under pressure, but is intended to flow unassisted under the influence of gravity.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

13. *Infiltration* - Water other than wastewater that enters the WCTS (including sewer service connections and foundation drains) from the ground through such means as defective pipes, pipe joints, connections, or manholes.

14. *Inflow* - Water other than wastewater that enters the WCTS (including sewer service connections) from sources such as, but not limited to, roof leaders, cellar drains, yard drains, area drains, drains from springs and swampy areas, manhole covers, cross connections between storm sewers and sanitary sewers, catch basins, cooling towers, storm waters, surface runoff, street wash waters, or drainage.

15. *I/I* - The total quantity of water from Infiltration, Inflow, and rainfall dependent Infiltration and Inflow without distinguishing the source.

16. *Laws and Regulations; Laws or Regulations*—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

17. *Major Gravity Line* - Any of the following:

    a. all Gravity Sewer Lines that are twelve (12) inches in diameter or larger;

    b. all Gravity Sewer Lines that convey wastewater from one pumping station service area to another pumping station service area; and

    c. all Gravity Sewer Lines that have caused or contributed, or that the City knows will likely cause or contribute to capacity-related SSOs.

18. *Owner*—The individual or entity with which Engineer has entered into this Agreement and for which Engineer's services are to be performed.

19. *Project*—The total undertaking to be accomplished for Owner by engineers, contractors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the Study and Report Services to be performed or furnished by Engineer under this Agreement are a part.

20. *Priority Area* – Those certain Sewersheds within the WCTS that have been prioritized by the City for sewer assessment and rehabilitation planning as part or this contract and are more particularly defined in Exhibit B, Priority Area Maps.

21. *Pump Station* - Facilities which are owned or operated by the City comprised of pumps which lift wastewater to a higher hydraulic elevation, including all related electrical, mechanical, and structural systems necessary to the operation of that pump station.

22. *Sanitary Sewer Overflow (SSO)* - Any discharge of wastewater to waters of the United States or the State from the City's Sewer System through a point source not specified in any NPDES permit, as well as any overflow, spill, or release of wastewater to public or private property from the Sewer System that may not have reached waters of the United States or the State, including all Building Backups.

23. *Sewershed* - The subdivisions of the City's WCTS containing sewers that are primarily hydraulically linked.

24. *Site*—One or more lands or areas that Engineer studies as the location or possible location of the Project.

25. *Total Project Costs*—The total cost of planning, studying, designing, constructing, testing, commissioning, and start-up of the Project, including Construction Cost and all other Project

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

labor, services, materials, equipment, insurance, and bonding costs, allowances for contingencies, and the total costs of services of Engineer and other design professionals and consultants, together with such other Project-related costs that Owner furnishes to Engineer for inclusion, including but not limited to cost of land, rights-of-way, compensation for damages to property, Owner's costs for legal, accounting, insurance counseling, and auditing services, interest and financing charges incurred in connection with the Project, and the cost of other services to be provided by others to Owner.

26. *Wastewater Collection and Transmission System (WCTS)* - The municipal wastewater collection, retention and transmission system, including all pipes, Force Mains, Gravity Sewer Lines, Pump Stations, pumps, manholes, and appurtenances thereto, which are owned or operated by the City

27. *Wastewater Treatment Plants (WWTPs)* - Devices or systems used in the storage, treatment, recycling, and reclamation of municipal wastewater. For purposes of this Consent Decree, this definition shall include all facilities owned, managed, operated, and maintained by the City, including but not limited to the South Lagoon and the North Lagoon, and all components of such sewage treatment plants.

ARTICLE 8 – EXHIBITS AND SPECIAL PROVISIONS

8.01 *Exhibits Included*

A. Exhibit A, Engineer's Services.

B. Appendix 1, Standard Hourly Rates and Reimbursable Expenses

C. The following additional exhibits: Exhibit B, Priority Area Maps

8.02 *Total Agreement*

A. This Agreement, (together with the exhibits included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a written instrument duly executed by both parties.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the Agreement. Such an individual shall have authority to transmit instructions, receive information, and render decisions relative to the Agreement on behalf of the respective party that the individual represents.

8.04 *Engineer's Certifications*

A. Engineer certifies that it has not engaged in corrupt, fraudulent, or coercive practices in competing for or in executing the Agreement. For the purposes of this Paragraph 8.04:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the selection process or in the Agreement execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the selection process or the execution of the Agreement to the detriment of Owner, or (b) to deprive Owner of the benefits of free and open competition;

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the selection process or affect the execution of the Agreement.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement, the Effective Date of which is indicated on page 1.

Owner: City of Hattiesburg

This is **EXHIBIT A**, Engineer's Services, referred to in and part of the Agreement between Owner and Engineer for Study and Report Professional Services dated January 12, 2018.

Engineer's Services

Article 1 of the Agreement is supplemented to include the following agreement of the parties:

Engineer shall provide Basic Services and Additional Services as set forth below.

PART 1 – BASIC SERVICES

A1.01 *Study and Report Services*

A. Priority Area Evaluation Report – the Priority Area Evaluation Report shall consist of the Engineer completing the following scope of work:

1. A thorough analysis of historical and current flow monitoring, inspection, rainfall and other data, including data collected during the evaluation of the Priority Area;

2. Identification of areas with Excessive I/I, such that these conditions are causing and/or contributing to SSOs and/or Prohibited Bypasses at a WWTP;

3. Identification of sources of I/I within the Priority Area, if identifiable, by manhole/line segment, street address, type (Infiltration or Inflow), source (e.g., "wall leakage"), and estimated flow from the source;

4. Identification of cross-connections between the WCTS and the Owner's municipal separate storm sewer system;

5. Identification and quantification of SSOs, including all potential SSOs identified pursuant to implementation of the SSER Work Plan;

6. Identification of portions of the WCTS within the Priority Area in which physical degradation is causing or contributing to SSOs;

7. Results of average and peak daily dry and wet weather flow measurements;

8. A determination of maximum Infiltration rate during periods of high ground water (in gpd/inch diameter-mile);

9. A determination of maximum hourly Inflow rate during wet weather for various storm durations and intensities (in gpd/inch diameter-mile);

10. A determination of peaking factors for the Priority Area (the ratio of measured peak flow to average dry weather flow as measured through the duration of the evaluation);

11. A summary of flow monitoring activities, to include, at a minimum, a map showing the location and type of each flow meter, problems encountered and deviations from the SSER Work Plan, and

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

a description of flow monitor calibration activities, including any scatter graphs and calibration and verification graphs;

12. A summary of field investigative activities performed to include, at a minimum: type of activity; number of activities performed (e.g., "100 out of 500 manholes inspected"), observations made under each activity (inspection procedure), and summaries of the results;

13. A summary of the structural defects identified in the WCTS in the Priority Area to include, at a minimum: number of each type of defect by line segment, manhole number or street address, and estimates of peak flow or impact on WCTS capacity (as appropriate) from defects in each line segment, based on a consistently applied set of stated criteria as set forth in the SSER Work Plan;

14. A summary of the technical approach utilized in carrying out the capacity assessment analyses outlined above;

15. A detailed description of any deviations from the capacity assessment outlined above, including a discussion of the reasons for such deviation;

16. Identification of all portions of the WCTS within the Priority Area with insufficient capacity to convey peak flows without experiencing surcharge sufficient to cause a SSO under either projected peak flows or projected average conditions or both;

17. A description of future projected flows;

18. Information on the predicted (e.g. Manning equation) and actual peak flow capacity of all Major Gravity Lines (by segment), all force mains, siphons, and Pump Stations;

19. Summaries of the number and footage of sewer segments surcharged, and the number of structures at which a SSO might be expected to occur under each condition investigated;

20. Mapping for each condition investigated, illustrating each pipe segment operating in surcharge, and each manhole or structure at which a SSO might be expected to occur;

21. Information regarding any Pump Station evaluations;

22. The results of the capacity assessment as required above; and

23. A summary of any capital projects implemented since commencement of the SSER Work Plan.

B. Priority Area Rehabilitation Plan - the Priority Area Rehabilitation Plan shall consist of the Engineer completing the following scope of work:

1. Identification of specific measures and schedules that, when implemented, will result in adequate capacity in the WCTS within the Priority Area to collect, convey and treat anticipated peak flows, without SSOs or prohibited bypasses at a WWTP;

2. Identification of the degree to which sources of excessive I/I shall be removed, and the degree to which excessive I/I removal is expected to alleviate capacity constraints, and propose specific remedial measures and schedules that will address those capacity limitations not expected to be

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

addressed by excessive I/I removal (anticipated I/I removal rates used in the development of the Rehabilitation Plan shall reflect current industry practice);

3. Identification of specific remedial measures and schedules to address capacity limitations that may also include increases in Pump Station and sewer line capacity, construction of storage or equalization basin facilities, or increases in WWTP capacity;

4. Identification of measures and schedules necessary to eliminate cross-connections between the WCTS and the Owner's municipal separate storm sewer system;

5. Identification of measures and schedules necessary to eliminate SSOs caused by physical degradation of sewers, inadequate Pump Station capacities, or inadequate Pump Station reliability;

6. Prioritized schedules for remedial measures based upon likely relative human health and environmental impact risks, SSO frequencies, and SSO volumes;

7. A description of the methodology used to apply the prioritization factors;

8. Estimated capital, operations and maintenance, and present value costs for each identified remedial measure in consistent, year-specific dollars;

9. Identification of the dates for preliminary design, complete design, complete permitting, contract award, construction commencement, and construction completion dates for each measure proposed.

A1.02 *Times for Rendering Services*

A. Furnish 3 review copies and one PDF copy of the Report and any other Study and Report Services deliverables to Owner within 360 calendar days of the Effective Date and review it with Owner. Within 75 calendar days of receipt, Owner shall submit to Engineer any comments regarding the Report and any other deliverables.

B. Revise the Report and any other Study and Report Phase deliverables in response to Owner's comments, as appropriate, and furnish 3 copies and one PDF copy of the revised Report and any other Study and Report Services deliverables to the Owner within 75 calendar days of receipt of Owner's comments.

C. Engineer's Study and Report Services will be considered complete on the date when Engineer has delivered to Owner the revised Report and any other Study and Report Phase deliverables.

PART 2 – ADDITIONAL SERVICES

A2.01 *Additional Services Requiring Owner's Written Authorization*

A. If authorized in writing by Owner, Engineer shall furnish or obtain from others Additional Services of the types listed below.

1. Preparation of applications and supporting documents for private or governmental grants, loans, or advances in connection with the Project.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. Preparation of environmental assessments and impact statements; and assistance in obtaining approvals of authorities having jurisdiction over the anticipated environmental impact of the Project.

3. Services to make measured drawings of existing conditions or facilities, to conduct tests or investigations of existing conditions or facilities, or to verify the accuracy of drawings or other information furnished by Owner or others.

4. Provide necessary field surveys and topographic and utility mapping to be used for design purposes. Comply with the scope of work and procedure for the identification and mapping of existing utilities selected and authorized by Owner pursuant to advice from Engineer based on ASCE 38, "Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data," as set forth in Paragraph A1.01.A.14 above. If no such scope of work and procedure for utility mapping has been selected and authorized, then at a minimum the utility mapping will include Engineer contacting utility owners and obtaining available information.

5. Services resulting from significant changes in the scope, extent, or character of the Project including, but not limited to, changes in size, complexity, Owner's schedule, character of construction, or method of financing; and revising the Report or other deliverables when such revisions are required by changes in Laws and Regulations enacted subsequent to the Effective Date or are due to any other causes beyond Engineer's control.

6. Services resulting from Owner's request to evaluate additional potential solutions beyond those identified in Paragraph A1.01.A.1.

7. Services required as a result of Owner providing incomplete or incorrect information to Engineer.

8. Providing renderings or models for Owner's use, including services in support of building information modeling or civil integrated management.

9. Undertaking investigations and studies including, but not limited to:

    a. detailed consideration of operations, maintenance, and overhead expenses;

    b. the preparation of feasibility studies (such as those that include projections of output capacity, utility project rates, project market demand, or project revenues) and cash flow analyses, provided that such services are based on the engineering and technical aspects of the Project, and do not include rendering advice regarding municipal financial products or the issuance of municipal securities;

    c. preparation of appraisals;

    d. evaluating processes available for licensing, and assisting Owner in obtaining process licensing;

    e. detailed quantity surveys of materials, equipment, and labor; and

    f. audits or inventories required in connection with construction performed or furnished by Owner.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

10. Providing assistance in responding to or investigating the presence of any Constituent of Concern at any Site, in compliance with current Laws and Regulations.

11. Services during out-of-town travel required of Engineer, other than for visits to the Site or Owner's office as required in Basic Services (Part 1 of Exhibit A).

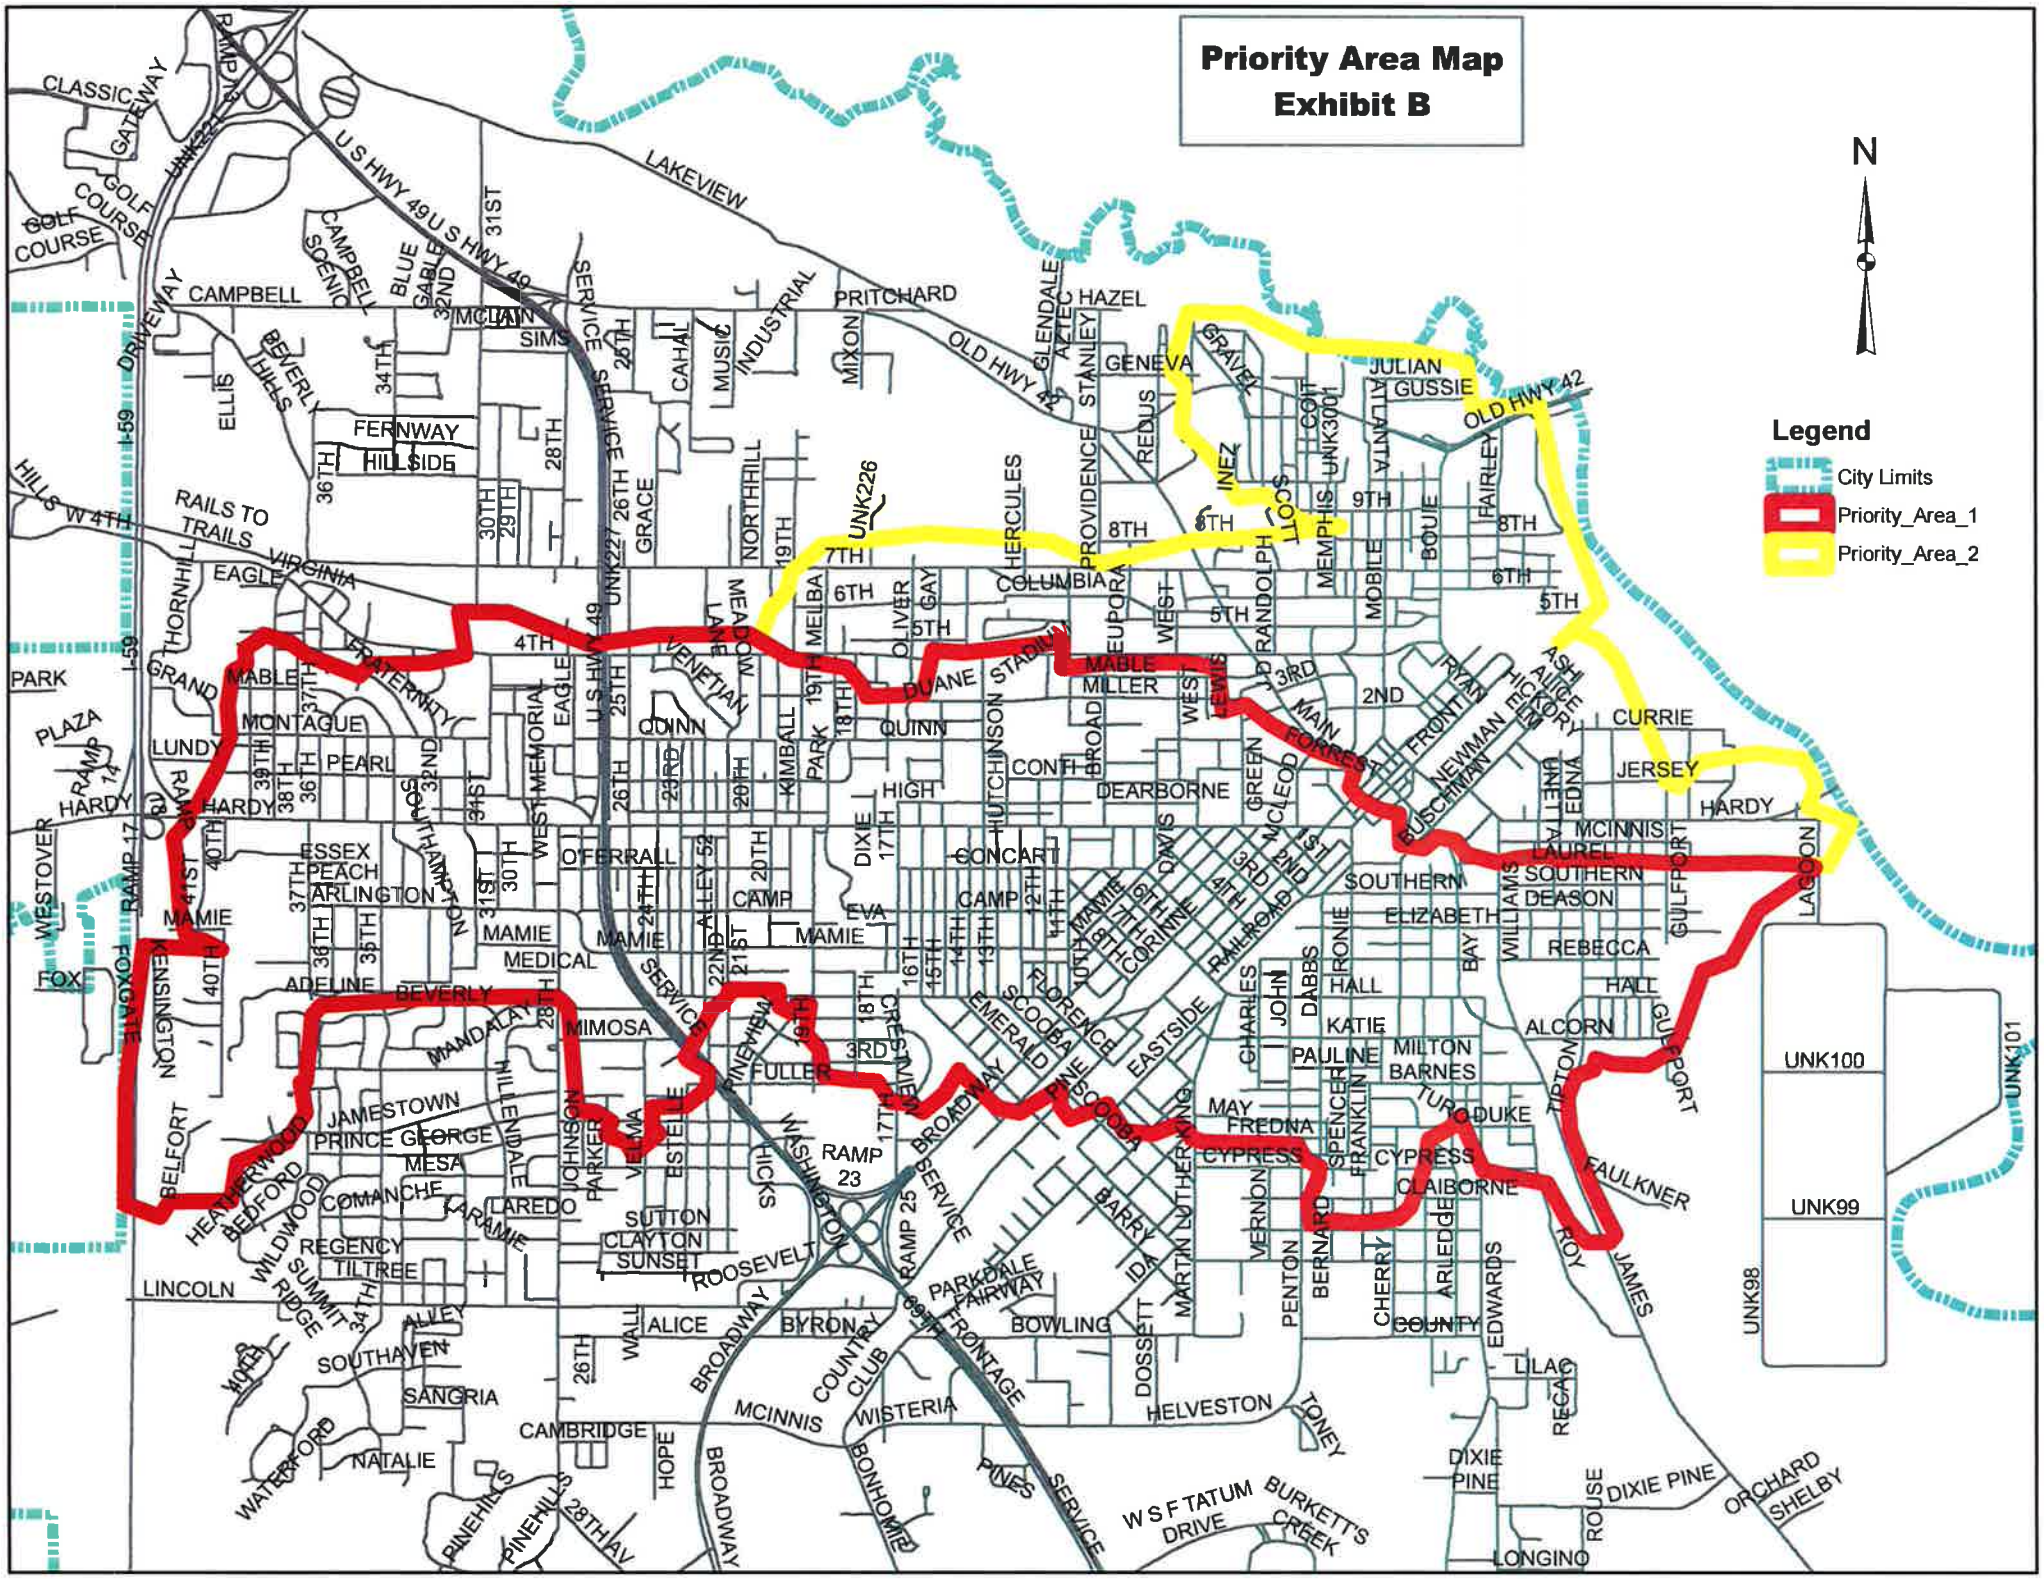
12. Preparing for, coordinating with, participating in and responding to structured independent review processes, including, but not limited to, construction management, cost estimating, project peer review, value engineering, and constructibility review requested by Owner; and performing or furnishing services required to revise studies, reports, or other documents as a result of such review processes.

13. Preparing to serve or serving as a consultant or witness for Owner in any litigation, arbitration, lien or bond claim, or other legal or administrative proceeding involving the Project.

14. Other services performed or furnished by Engineer not otherwise provided for in this Agreement.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Priority Area Map
Exhibit B



This is **Appendix 1**, Standard Hourly Rates and Reimbursable Expenses, referred to in and part of the Agreement Between Owner and Engineer for Study and Report Professional Services dated January 12, 2018.

Part One: Standard Hourly Rates Schedule

A. *Standard Hourly Rates:*

1. Standard Hourly Rates are set forth in this Appendix 1 and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.

2. The Standard Hourly Rates apply only as specified in Article 4 of the Agreement, and are subject to annual review and adjustment.

B. *Schedule:*

Hourly rates for services performed on or after the Effective Date are:

Senior Engineer	**$175/hour**
Project Engineer	**$150/hour**
Junior Engineer	**$125/hour**
Engineering Intern	**$105/hour**
Graduate Engineer	**$105/hour**
Senior AutoCad Technician	**$105/hour**
AutoCad Technician	**$90/hour**
Senior Resident Project Representative	**$95/hour**
Resident Project Representative	**$85/hour**
Field Crew	**$175/hour**
Administrative	**$45/hour**

Part Two: Reimbursable Expenses Factors

1. Engineer shall be entitled to reimbursement of expenses under Parts Two and Three only as specified in Article 4 of the Agreement.

2. Owner shall reimburse Engineer for the expenses listed in Part Three below subject to an administrative factor of 1.0, unless another factor is indicated for a specific Reimbursable Expense.

3. Owner shall reimburse Engineer for Engineer's Consultant's charges subject to an administrative factor of 1.1.

AGREEMENT
BETWEEN OWNER AND ENGINEER
FOR STUDY AND REPORT
PROFESSIONAL SERVICES

THIS IS AN AGREEMENT effective as of **December 5, 2017** ("Effective Date") between **The City of Hattiesburg**

("Owner") and **Shows, Dearman & Waits, Inc.** ("Engineer").

Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows: **Waste Collection System Evaluation Report and Rehabilitation Plan for Priority Area 1 & 2** ("Project").

Engineer's services under this Agreement are generally identified as follows: **See Appendix A** ("Study and Report Services").

Other terms used in this Agreement are defined in Article 7.

Owner and Engineer further agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer shall provide, or cause to be provided, the services set forth herein and in Exhibit A.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General*

A. Owner shall pay Engineer as set forth in Article 4 and Appendix 1.

B. Owner shall provide Engineer with all criteria and full information as to Owner's requirements for the Study and Report Services, including but not limited to design objectives and constraints; space, capacity and performance requirements; flexibility and expandability goals; any anticipated funding sources; and budgetary limitations.

C. Owner shall furnish to Engineer all existing studies, reports, and other available information pertinent to the Engineer's performance of the Study and Report Services, including reports and data relative to previous designs, construction, or investigation at or adjacent to any Site under consideration.

D. Following Engineer's assessment of initially-available Project data and information, and receipt of Engineer's advice regarding the need (if any) for additional Project-related data and information, Owner shall either (1) authorize Engineer to undertake Additional Services necessary to obtain such additional Project-related data and information, or (2) obtain, furnish, or otherwise make available (if necessary through title searches, or retention of specialists or consultants) such additional Project-related data and information. Such additional data and information would generally include the following:

Property descriptions.

1. Zoning, deed, and other land use restrictions.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. Utility information, reports, and mapping.

3. Property, boundary, easement, right-of-way, topographic, and other special surveys or data, including establishing relevant reference points.

4. Explorations and tests of subsurface conditions at or adjacent to a Site; geotechnical reports and investigations; drawings of physical conditions relating to existing surface or subsurface structures at a Site; hydrographic surveys, laboratory tests and inspections of samples, materials, and equipment; with appropriate professional interpretation of such information or data.

5. Environmental assessments, audits, investigations, and impact statements, and other relevant environmental, historical, or cultural studies relevant to the Project, the Site(s), and adjacent areas.

6. Data or consultations as required for the Project but not otherwise identified in this Agreement.

E. Owner shall advise Engineer of the identity and scope of services of any independent consultants retained by Owner to perform or furnish services pertinent to the Study and Report Services.

F. Owner shall arrange for safe access to and make all provisions for Engineer to enter upon public and private property as required for Engineer to perform services under the Agreement.

G. Owner shall inform Engineer in writing of any specific requirements of safety or security programs that are applicable to Engineer, as a visitor to any Site under study.

H. Owner shall examine all alternative solutions, studies, reports, sketches, Drawings, Specifications, proposals, and other documents presented by Engineer (including obtaining advice of an attorney, risk manager, insurance counselor, and other advisors or consultants as Owner deems appropriate with respect to such examination) and render in writing timely decisions pertaining thereto.

I. Owner shall inform Engineer regarding any need for assistance in evaluating the possible use of Project Strategies, Technologies, and Techniques, as defined in Exhibit A.

J. Owner shall advise Engineer as to whether Engineer's assistance is requested in identifying opportunities for enhancing the sustainability of the Project.

K. Recognizing and acknowledging that Engineer's services and expertise do not include the following services, Owner shall provide, as required for Engineer's performance of its Study and Report Services:

1. Accounting, bond and financial advisory (including, if applicable, "municipal advisor" services as described in Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, 2010, and the municipal advisor registration rules issued by the Securities and Exchange Commission), independent cost estimating, and insurance counseling services.

2. Legal services with regard to issues pertaining to the Project as Owner requires, or Engineer reasonably requests.

L. Owner shall be responsible for all requirements and instructions that it furnished to Engineer pursuant to this Agreement, and for the accuracy and completeness of all programs, reports, data, and other information furnished by Owner to Engineer pursuant to this Agreement. Engineer may use and rely upon such requirements, programs, instructions, reports, data, and information in performing or furnishing services under this Agreement, subject to any express limitations or reservations applicable to the furnished items.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

M. Owner shall give prompt written notice to Engineer whenever Owner observes or otherwise becomes aware of:

1. any development that affects the scope or time of performance of Engineer's services;

2. the presence of any Constituent of Concern at any Site; or

3. any relevant, material defect or nonconformance in Engineer's services or Owner's performance of its responsibilities under this Agreement.

ARTICLE 3 – SCHEDULE FOR RENDERING SERVICES

3.01 *Commencement*

A. Engineer is authorized to begin rendering services as of the Effective Date.

3.02 *Time for Completion*

A. Engineer shall complete its obligations within a reasonable time. Specific periods of time for rendering services or specific dates by which services are to be completed are provided in Exhibit A, and are hereby agreed to be reasonable.

B. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's services is impaired, or Engineer's services are delayed or suspended, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

ARTICLE 4 – INVOICES AND PAYMENTS

4.01 *Invoices*

A. *Preparation and Submittal of Invoices:* Engineer shall prepare invoices in accordance with its standard invoicing practices and the terms of this Article and Appendix 1. Engineer shall submit its invoices to Owner on a monthly basis. Invoices are due and payable within 45 days of receipt.

4.02 *Payments*

A. *Application to Interest and Principal:* Payment will be credited first to any interest owed to Engineer and then to principal.

B. *Failure to Pay:* If Owner fails to make payments due Engineer for services and expenses within 45 days after receipt of Engineer's invoice, then:

1. amounts due Engineer will be increased at the rate of 1.5% per month (or the maximum rate of interest permitted by law, if less) from said forty-fifth day; and

2. Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement until Owner has paid in full all amounts due for services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

C. *Disputed Invoices:* If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in writing of the specific basis for doing so, and the dispute dealt with as set out in Mississippi Code Ann. Section 31-7-305.

4.03 *Payment for Basic Services (Lump Sum Basis) and Additional Services*

A. Using the procedures set forth in this Article, Owner shall pay Engineer for Basic Services as follows:

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

1. A Lump Sum amount of **$359,820.**

2. In addition to the Lump Sum amount, reimbursement for the following expenses: **None**

B. The portion of the compensation amount billed monthly for Engineer's services will be based upon Engineer's estimate of the percentage of the Study and Report Services actually completed during the billing period.

C. For Additional Services, Owner shall pay Engineer an amount equal to the cumulative hours charged to providing the Additional Services by each class of Engineer's employees, times standard hourly rates for each applicable billing class; plus reimbursement of expenses incurred in connection with providing the Additional Services (including but not limited to expenses in the categories listed on the reimbursable expenses schedule in Appendix 1) and Engineer's Consultants' charges, if any.

D. Engineer's standard hourly rates and reimbursable expenses schedule are set forth in Appendix 1.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Probable Construction Cost*

A. Engineer's opinions (if any) of probable Construction Cost are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because of the limited and preliminary nature of the Study and Report Services, and because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer. If Owner requires greater assurance as to probable Construction Cost, then Owner agrees to obtain an independent cost estimate.

5.02 *Opinions of Total Project Costs*

A. The services, if any, of Engineer with respect to Total Project Costs shall be limited to assisting the Owner in tabulating the various categories that comprise Total Project Costs. Engineer assumes no responsibility for the accuracy of any opinions of Total Project Costs.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. *Standard of Care:* The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with any services performed or furnished by Engineer.

B. *Technical Accuracy:* Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct deficiencies in technical accuracy without additional compensation, unless such corrective action is directly attributable to deficiencies in Owner-furnished information.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

C. *Consultants:* Engineer may retain such Consultants as Engineer deems necessary to assist in the performance or furnishing of the services, subject to reasonable, timely, and substantive objections by Owner.

D. *Reliance on Others:* Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Engineer shall not be required to sign any document, no matter by whom requested, that would result in the Engineer having to certify, guarantee, or warrant the existence of conditions whose existence the Engineer cannot ascertain. Owner agrees not to make resolution of any dispute with the Engineer or payment of any amount due to the Engineer in any way contingent upon the Engineer signing any such document.

F. Engineer shall not have any construction-related duties under this Agreement. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at any Site, nor for any failure of a Constructor to comply with Laws and Regulations applicable to that Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.

G. Engineer is not required to provide and does not have any responsibility for surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements.

H. Engineer's services do not include providing legal advice or representation.

I. Engineer's services do not include (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission, or (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances.

6.02 *Use of Documents*

A. All Documents are instruments of service, and Engineer shall retain an ownership and property interest therein (including the copyright and the right of reuse at the discretion of the Engineer) whether or not the Study and Report Services or the Project is completed.

B. Owner may make and retain copies of Documents solely for Owner's information and reference in connection with the specific subject matter of the Documents, subject to receipt by Engineer of full payment for all services relating to preparation of the Documents, and subject to the following limitations: (1) Owner acknowledges that such Documents are not intended or represented to be suitable for use by Owner unless completed by Engineer; (2) if Engineer has completed a Report under this Agreement, and received full payment for such Report, then the Owner may furnish copies of the completed Report to Owner's consultants and design professionals for their reference in proceeding with design or similar services, provided that the Owner informs such consultants and design professionals of Engineer's ownership interests in the Report, and includes with the Report all Engineer's written statements regarding the purpose, scope, use, and limitations of the Report; (3) the Documents are not design or construction documents, (4) no

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Document shall be altered, modified, or reused by Owner or any third party for any purpose except with Engineer's express written consent; (5) any use, reuse, alteration, or modification of the Documents, except as authorized in this Agreement or by Engineer's written consent, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and Consultants; (6) nothing in this paragraph shall create any rights in third parties.

6.03 *Electronic Transmittals*

A. Owner and Engineer may transmit, and shall accept, Project-related correspondence, Documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with a mutually agreeable protocol.

B. If this Agreement does not establish protocols for electronic or digital transmittals, then Owner and Engineer shall jointly develop such protocols.

C. When transmitting items in electronic media or digital format, the transmitting party makes no representations as to long term compatibility, usability, or readability of the items resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the items, or from those established in applicable transmittal protocols.

6.04 *Insurance*

A. Engineer will maintain insurance coverage for Workers' Compensation, General Liability, Professional Liability, and Automobile Liability and will provide certificates of insurance to Owner upon request.

6.05 *Termination*

A. *Termination:* The obligation to provide further services under this Agreement may be terminated:

1. For cause,

a. By either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the Agreement's terms through no fault of the terminating party.

b. By Engineer:

1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or

2) upon seven days written notice if the Engineer's services are delayed for more than 90 days for reasons beyond Engineer's control.

c. Engineer shall have no liability to Owner on account of a termination for cause by Engineer.

2. Notwithstanding the foregoing, this Agreement will not terminate as a result of a substantial failure under Paragraph 6.05.A.1.a or 6.05.A.1.b.1 if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt of notice; provided, however, that if and to the extent such substantial failure cannot be reasonably

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

B. *Termination for Convenience:* Owner may terminate the Agreement for Owner's convenience effective upon the Engineer's receipt of written notice from Owner.

C. The terminating party under Paragraphs 6.05.A or 6.05.B may set the effective date of termination at a time up to 30 days later than otherwise provided to allow Engineer to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

D. In the event of any termination under Paragraph 6.05, Engineer will be entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Agreement and all reimbursable expenses incurred through the effective date of termination.

E. In the event of termination by Owner for convenience, or by Engineer for cause, Engineer shall be entitled, in addition to invoicing for those items identified in Paragraph 6.05.D, to invoice Owner and receive payment of a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with Engineer's Consultants, and other related close-out costs, using methods and rates for Additional Services as set forth in Article 4 and Appendix 1.

6.06 *Controlling Law*

A. This Agreement is to be governed by the law of the state in which the subject matter of the Study and Report Services is located.

6.07 *Successors, Assigns, and Beneficiaries*

A. Engineer is hereby bound and the successors, executors, administrators, and legal representatives of Engineer (and to the extent permitted by Paragraph 6.07.B the assigns of Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, or other third-party individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party. Any and all Documents prepared by Engineer, including but not limited to the Report to be prepared pursuant to Exhibit A, are prepared solely for the use and benefit of Owner, unless expressly agreed otherwise by Engineer.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.08 *Dispute Resolution*

A. Owner and Engineer agree to negotiate each dispute between them in good faith during the 30 days after notice of dispute. If negotiations are unsuccessful in resolving the dispute, then the parties may exercise their rights at law.

6.09 *Environmental Condition of Site*

A. Owner represents to Engineer that as of the Effective Date to the best of Owner's knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at or adjacent to any Site under study.

B. If Engineer encounters or learns of an undisclosed Constituent of Concern at any Site under study, then Engineer shall notify (1) Owner and (2) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

C. It is acknowledged by both parties that Engineer's scope of services does not include any services related to unknown or undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an undisclosed Constituent of Concern, then Owner shall promptly determine whether to retain a qualified expert to evaluate such condition or take any necessary corrective action, or provide notice to the owner of the Site.

D. If investigative or remedial action, or other professional services, are necessary with respect to undisclosed Constituents of Concern, or if investigative or remedial action beyond that reasonably contemplated is needed to address a disclosed or known Constituent of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until such portion of the Project is no longer affected.

E. If the presence at any Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under this Agreement, then the Engineer shall have the option of (1) accepting an equitable adjustment in its compensation or in the time of completion, or both; or (2) terminating this Agreement for cause on seven days notice.

F. Owner acknowledges that Engineer is performing professional services for Owner and that Engineer is not and shall not be required to become an "owner" "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, which are or may be encountered at or near any Site under study in connection with the Study and Report Services.

6.10 *Shared Negligence*

A. *Percentage Share of Negligence:* To the fullest extent permitted by Laws and Regulations, a party's total liability to the other party and anyone claiming by, through, or under the other party for any cost, loss, or damages caused in part by the negligence of the party and in part by the negligence of the other party or any other negligent entity or individual, shall not exceed the percentage share that the party's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

6.11 *Limitation of Engineer's Liability*

A. To the fullest extent permitted by law, the total liability, in the aggregate, of Engineer and Engineer's officers, directors, partners, members, employees, agents, and Consultants, or any of them, to Owner and anyone claiming by, through, or under Owner, for any and all injuries, losses,

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

damages and expenses whatsoever arising out of, resulting from, or in any way related to the Study and Report Services this Agreement, or the Project from any cause or causes including but not limited to the negligence, professional errors or omissions, strict liability, or breach of contract or warranty, express or implied, of Engineer or Engineer's officers, directors, partners, members, employees, agents, or Consultants, or any of them, shall not exceed the total amount of $100,000 or the total compensation paid to Engineer under this Agreement, whichever is greater.

6.12 *Records Retention*

A. Engineer shall maintain on file in legible form, for a period of five years following completion or termination of its services, all Documents, records (including cost records), and design calculations related to Engineer's services or pertinent to Engineer's performance under this Agreement. Upon Owner's request, Engineer shall provide a copy of any such item to Owner at cost.

6.13 *Miscellaneous Provisions*

A. *Notices:* Any notice required under this Agreement will be in writing, addressed to the appropriate party at its address on the signature page and given personally, by registered or certified mail postage prepaid, or by a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival:* All express representations, waivers, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability:* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Engineer, which agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

D. *Waiver:* A party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Accrual of Claims:* To the fullest extent permitted by Laws and Regulations, all causes of action arising under this Agreement shall be deemed to have accrued, and all statutory periods of limitation shall commence, no later than the date of completion of the Study and Report Services.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits and Appendix) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the exhibits, or in the following provisions:

1. *Additional Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 2 of Exhibit A of this Agreement.

2. *Agreement*—This written contract for study and report professional services between Owner and Engineer, including all exhibits identified in Paragraph 8.01 and any duly executed amendments.

3. *Basic Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 1 of Exhibit A of this Agreement.

4. *Capacity Assessment* - engineering analyses of the WCTS capacity derived from, but not limited to, flow monitoring data, remote monitoring equipment installed in the WCTS to

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

monitor sewer pipe surcharge, and other investigative results where applicable. This assessment shall identify those portions of the WCTS that are expected to cause or contribute to SSOs under existing and projected average and peak flows in dry and wet weather, and the degree to which those portions of the WCTS experience or cause SSOs under current or projected future conditions.

5. *Constituent of Concern*—Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5101 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, State, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

6. *Construction Cost*—The cost to Owner of the construction of a recommended solution presented in the Report furnished by Engineer under Exhibit A, or of a specific portion of the Project for which Engineer has agreed to provide opinions of cost. Construction Cost includes the cost of construction labor, services, materials, equipment, insurance, and bonding, and allows for contingencies. Construction Cost does not include costs of services of Engineer or other design professionals and consultants; cost of land or rights-of-way, or compensation for damages to property; Owner's costs for legal, accounting, insurance counseling, or auditing services; interest or financing charges incurred in connection with the Project; or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

7. *Constructor*—Any person or entity (not including the Engineer, its employees, agents, representatives, and consultants), performing or supporting construction activities relating to the Project, including but not limited to contractors, subcontractors, suppliers, Owner's work forces, utility companies, construction managers, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.

8. *Consultants*—Individuals or entities having a contract with Engineer to furnish services with respect to this Agreement as Engineer's independent professional associates and consultants; subcontractors; or vendors.

9. *Documents*—Data, studies, reports (including the Report referred to in Exhibit A), and other deliverables, whether in printed or electronic format, provided or furnished by Engineer to Owner pursuant to this Agreement.

10. *Effective Date*—The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, the date on which this Agreement is signed and delivered by the last of the parties to sign and deliver.

11. *Engineer*—The individual or entity named as such in this Agreement.

12. *Gravity Sewer Line or Gravity Sewer* - any pipe which is owned and operated by the City that receives, contains and conveys wastewater not normally under pressure, but is intended to flow unassisted under the influence of gravity.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

13. *Infiltration* - Water other than wastewater that enters the WCTS (including sewer service connections and foundation drains) from the ground through such means as defective pipes, pipe joints, connections, or manholes.

14. *Inflow* - Water other than wastewater that enters the WCTS (including sewer service connections) from sources such as, but not limited to, roof leaders, cellar drains, yard drains, area drains, drains from springs and swampy areas, manhole covers, cross connections between storm sewers and sanitary sewers, catch basins, cooling towers, storm waters, surface runoff, street wash waters, or drainage.

15. *I/I* - The total quantity of water from Infiltration, Inflow, and rainfall dependent Infiltration and Inflow without distinguishing the source.

16. *Laws and Regulations; Laws or Regulations*—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

17. *Major Gravity Line* - Any of the following:

    a. all Gravity Sewer Lines that are twelve (12) inches in diameter or larger;

    b. all Gravity Sewer Lines that convey wastewater from one pumping station service area to another pumping station service area; and

    c. all Gravity Sewer Lines that have caused or contributed, or that the City knows will likely cause or contribute to capacity-related SSOs.

18. *Owner*—The individual or entity with which Engineer has entered into this Agreement and for which Engineer's services are to be performed.

19. *Project*—The total undertaking to be accomplished for Owner by engineers, contractors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the Study and Report Services to be performed or furnished by Engineer under this Agreement are a part.

20. *Priority Area* – Those certain Sewersheds within the WCTS that have been prioritized by the City for sewer assessment and rehabilitation planning as part or this contract and are more particularly defined in Exhibit B, Priority Area Maps.

21. *Pump Station* - Facilities which are owned or operated by the City comprised of pumps which lift wastewater to a higher hydraulic elevation, including all related electrical, mechanical, and structural systems necessary to the operation of that pump station.

22. *Sanitary Sewer Overflow (SSO)* - Any discharge of wastewater to waters of the United States or the State from the City's Sewer System through a point source not specified in any NPDES permit, as well as any overflow, spill, or release of wastewater to public or private property from the Sewer System that may not have reached waters of the United States or the State, including all Building Backups.

23. *Sewershed* - The subdivisions of the City's WCTS containing sewers that are primarily hydraulically linked.

24. *Site*—One or more lands or areas that Engineer studies as the location or possible location of the Project.

25. *Total Project Costs*—The total cost of planning, studying, designing, constructing, testing, commissioning, and start-up of the Project, including Construction Cost and all other Project

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

labor, services, materials, equipment, insurance, and bonding costs, allowances for contingencies, and the total costs of services of Engineer and other design professionals and consultants, together with such other Project-related costs that Owner furnishes to Engineer for inclusion, including but not limited to cost of land, rights-of-way, compensation for damages to property, Owner's costs for legal, accounting, insurance counseling, and auditing services, interest and financing charges incurred in connection with the Project, and the cost of other services to be provided by others to Owner.

26. *Wastewater Collection and Transmission System (WCTS)* - The municipal wastewater collection, retention and transmission system, including all pipes, Force Mains, Gravity Sewer Lines, Pump Stations, pumps, manholes, and appurtenances thereto, which are owned or operated by the City

27. *Wastewater Treatment Plants (WWTPs)* - Devices or systems used in the storage, treatment, recycling, and reclamation of municipal wastewater. For purposes of this Consent Decree, this definition shall include all facilities owned, managed, operated, and maintained by the City, including but not limited to the South Lagoon and the North Lagoon, and all components of such sewage treatment plants.

ARTICLE 8 – EXHIBITS AND SPECIAL PROVISIONS

8.01 *Exhibits Included*

A. Exhibit A, Engineer's Services.

B. Appendix 1, Standard Hourly Rates and Reimbursable Expenses

C. The following additional exhibits: Exhibit B, Priority Area Maps

8.02 *Total Agreement*

A. This Agreement, (together with the exhibits included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a written instrument duly executed by both parties.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the Agreement. Such an individual shall have authority to transmit instructions, receive information, and render decisions relative to the Agreement on behalf of the respective party that the individual represents.

8.04 *Engineer's Certifications*

A. Engineer certifies that it has not engaged in corrupt, fraudulent, or coercive practices in competing for or in executing the Agreement. For the purposes of this Paragraph 8.04:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the selection process or in the Agreement execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the selection process or the execution of the Agreement to the detriment of Owner, or (b) to deprive Owner of the benefits of free and open competition;

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the selection process or affect the execution of the Agreement.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement, the Effective Date of which is indicated on page 1.

Owner: City of Hattiesburg

This is **EXHIBIT A**, Engineer's Services, referred to in and part of the Agreement between Owner and Engineer for Study and Report Professional Services dated January 12, 2018.

Engineer's Services

Article 1 of the Agreement is supplemented to include the following agreement of the parties:

Engineer shall provide Basic Services and Additional Services as set forth below.

PART 1 – BASIC SERVICES

A1.01 *Study and Report Services*

A. Priority Area Evaluation Report – the Priority Area Evaluation Report shall consist of the Engineer completing the following scope of work:

1. A thorough analysis of historical and current flow monitoring, inspection, rainfall and other data, including data collected during the evaluation of the Priority Area;

2. Identification of areas with Excessive I/I, such that these conditions are causing and/or contributing to SSOs and/or Prohibited Bypasses at a WWTP;

3. Identification of sources of I/I within the Priority Area, if identifiable, by manhole/line segment, street address, type (Infiltration or Inflow), source (e.g., "wall leakage"), and estimated flow from the source;

4. Identification of cross-connections between the WCTS and the Owner's municipal separate storm sewer system;

5. Identification and quantification of SSOs, including all potential SSOs identified pursuant to implementation of the SSER Work Plan;

6. Identification of portions of the WCTS within the Priority Area in which physical degradation is causing or contributing to SSOs;

7. Results of average and peak daily dry and wet weather flow measurements;

8. A determination of maximum Infiltration rate during periods of high ground water (in gpd/inch diameter-mile);

9. A determination of maximum hourly Inflow rate during wet weather for various storm durations and intensities (in gpd/inch diameter-mile);

10. A determination of peaking factors for the Priority Area (the ratio of measured peak flow to average dry weather flow as measured through the duration of the evaluation);

11. A summary of flow monitoring activities, to include, at a minimum, a map showing the location and type of each flow meter, problems encountered and deviations from the SSER Work Plan, and

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

a description of flow monitor calibration activities, including any scatter graphs and calibration and verification graphs;

12. A summary of field investigative activities performed to include, at a minimum: type of activity; number of activities performed (e.g., "100 out of 500 manholes inspected"), observations made under each activity (inspection procedure), and summaries of the results;

13. A summary of the structural defects identified in the WCTS in the Priority Area to include, at a minimum: number of each type of defect by line segment, manhole number or street address, and estimates of peak flow or impact on WCTS capacity (as appropriate) from defects in each line segment, based on a consistently applied set of stated criteria as set forth in the SSER Work Plan;

14. A summary of the technical approach utilized in carrying out the capacity assessment analyses outlined above;

15. A detailed description of any deviations from the capacity assessment outlined above, including a discussion of the reasons for such deviation;

16. Identification of all portions of the WCTS within the Priority Area with insufficient capacity to convey peak flows without experiencing surcharge sufficient to cause a SSO under either projected peak flows or projected average conditions or both;

17. A description of future projected flows;

18. Information on the predicted (e.g. Manning equation) and actual peak flow capacity of all Major Gravity Lines (by segment), all force mains, siphons, and Pump Stations;

19. Summaries of the number and footage of sewer segments surcharged, and the number of structures at which a SSO might be expected to occur under each condition investigated;

20. Mapping for each condition investigated, illustrating each pipe segment operating in surcharge, and each manhole or structure at which a SSO might be expected to occur;

21. Information regarding any Pump Station evaluations;

22. The results of the capacity assessment as required above; and

23. A summary of any capital projects implemented since commencement of the SSER Work Plan.

B. Priority Area Rehabilitation Plan - the Priority Area Rehabilitation Plan shall consist of the Engineer completing the following scope of work:

1. Identification of specific measures and schedules that, when implemented, will result in adequate capacity in the WCTS within the Priority Area to collect, convey and treat anticipated peak flows, without SSOs or prohibited bypasses at a WWTP;

2. Identification of the degree to which sources of excessive I/I shall be removed, and the degree to which excessive I/I removal is expected to alleviate capacity constraints, and propose specific remedial measures and schedules that will address those capacity limitations not expected to be

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

addressed by excessive I/I removal (anticipated I/I removal rates used in the development of the Rehabilitation Plan shall reflect current industry practice);

3. Identification of specific remedial measures and schedules to address capacity limitations that may also include increases in Pump Station and sewer line capacity, construction of storage or equalization basin facilities, or increases in WWTP capacity;

4. Identification of measures and schedules necessary to eliminate cross-connections between the WCTS and the Owner's municipal separate storm sewer system;

5. Identification of measures and schedules necessary to eliminate SSOs caused by physical degradation of sewers, inadequate Pump Station capacities, or inadequate Pump Station reliability;

6. Prioritized schedules for remedial measures based upon likely relative human health and environmental impact risks, SSO frequencies, and SSO volumes;

7. A description of the methodology used to apply the prioritization factors;

8. Estimated capital, operations and maintenance, and present value costs for each identified remedial measure in consistent, year-specific dollars;

9. Identification of the dates for preliminary design, complete design, complete permitting, contract award, construction commencement, and construction completion dates for each measure proposed.

A1.02 *Times for Rendering Services*

A. Furnish 3 review copies and one PDF copy of the Report and any other Study and Report Services deliverables to Owner within 360 calendar days of the Effective Date and review it with Owner. Within 75 calendar days of receipt, Owner shall submit to Engineer any comments regarding the Report and any other deliverables.

B. Revise the Report and any other Study and Report Phase deliverables in response to Owner's comments, as appropriate, and furnish 3 copies and one PDF copy of the revised Report and any other Study and Report Services deliverables to the Owner within 75 calendar days of receipt of Owner's comments.

C. Engineer's Study and Report Services will be considered complete on the date when Engineer has delivered to Owner the revised Report and any other Study and Report Phase deliverables.

PART 2 – ADDITIONAL SERVICES

A2.01 *Additional Services Requiring Owner's Written Authorization*

A. If authorized in writing by Owner, Engineer shall furnish or obtain from others Additional Services of the types listed below.

1. Preparation of applications and supporting documents for private or governmental grants, loans, or advances in connection with the Project.

Copyright © 2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. Preparation of environmental assessments and impact statements; and assistance in obtaining approvals of authorities having jurisdiction over the anticipated environmental impact of the Project.

3. Services to make measured drawings of existing conditions or facilities, to conduct tests or investigations of existing conditions or facilities, or to verify the accuracy of drawings or other information furnished by Owner or others.

4. Provide necessary field surveys and topographic and utility mapping to be used for design purposes. Comply with the scope of work and procedure for the identification and mapping of existing utilities selected and authorized by Owner pursuant to advice from Engineer based on ASCE 38, "Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data," as set forth in Paragraph A1.01.A.14 above. If no such scope of work and procedure for utility mapping has been selected and authorized, then at a minimum the utility mapping will include Engineer contacting utility owners and obtaining available information.

5. Services resulting from significant changes in the scope, extent, or character of the Project including, but not limited to, changes in size, complexity, Owner's schedule, character of construction, or method of financing; and revising the Report or other deliverables when such revisions are required by changes in Laws and Regulations enacted subsequent to the Effective Date or are due to any other causes beyond Engineer's control.

6. Services resulting from Owner's request to evaluate additional potential solutions beyond those identified in Paragraph A1.01.A.1.

7. Services required as a result of Owner providing incomplete or incorrect information to Engineer.

8. Providing renderings or models for Owner's use, including services in support of building information modeling or civil integrated management.

9. Undertaking investigations and studies including, but not limited to:

    a. detailed consideration of operations, maintenance, and overhead expenses;

    b. the preparation of feasibility studies (such as those that include projections of output capacity, utility project rates, project market demand, or project revenues) and cash flow analyses, provided that such services are based on the engineering and technical aspects of the Project, and do not include rendering advice regarding municipal financial products or the issuance of municipal securities;

    c. preparation of appraisals;

    d. evaluating processes available for licensing, and assisting Owner in obtaining process licensing;

    e. detailed quantity surveys of materials, equipment, and labor; and

    f. audits or inventories required in connection with construction performed or furnished by Owner.

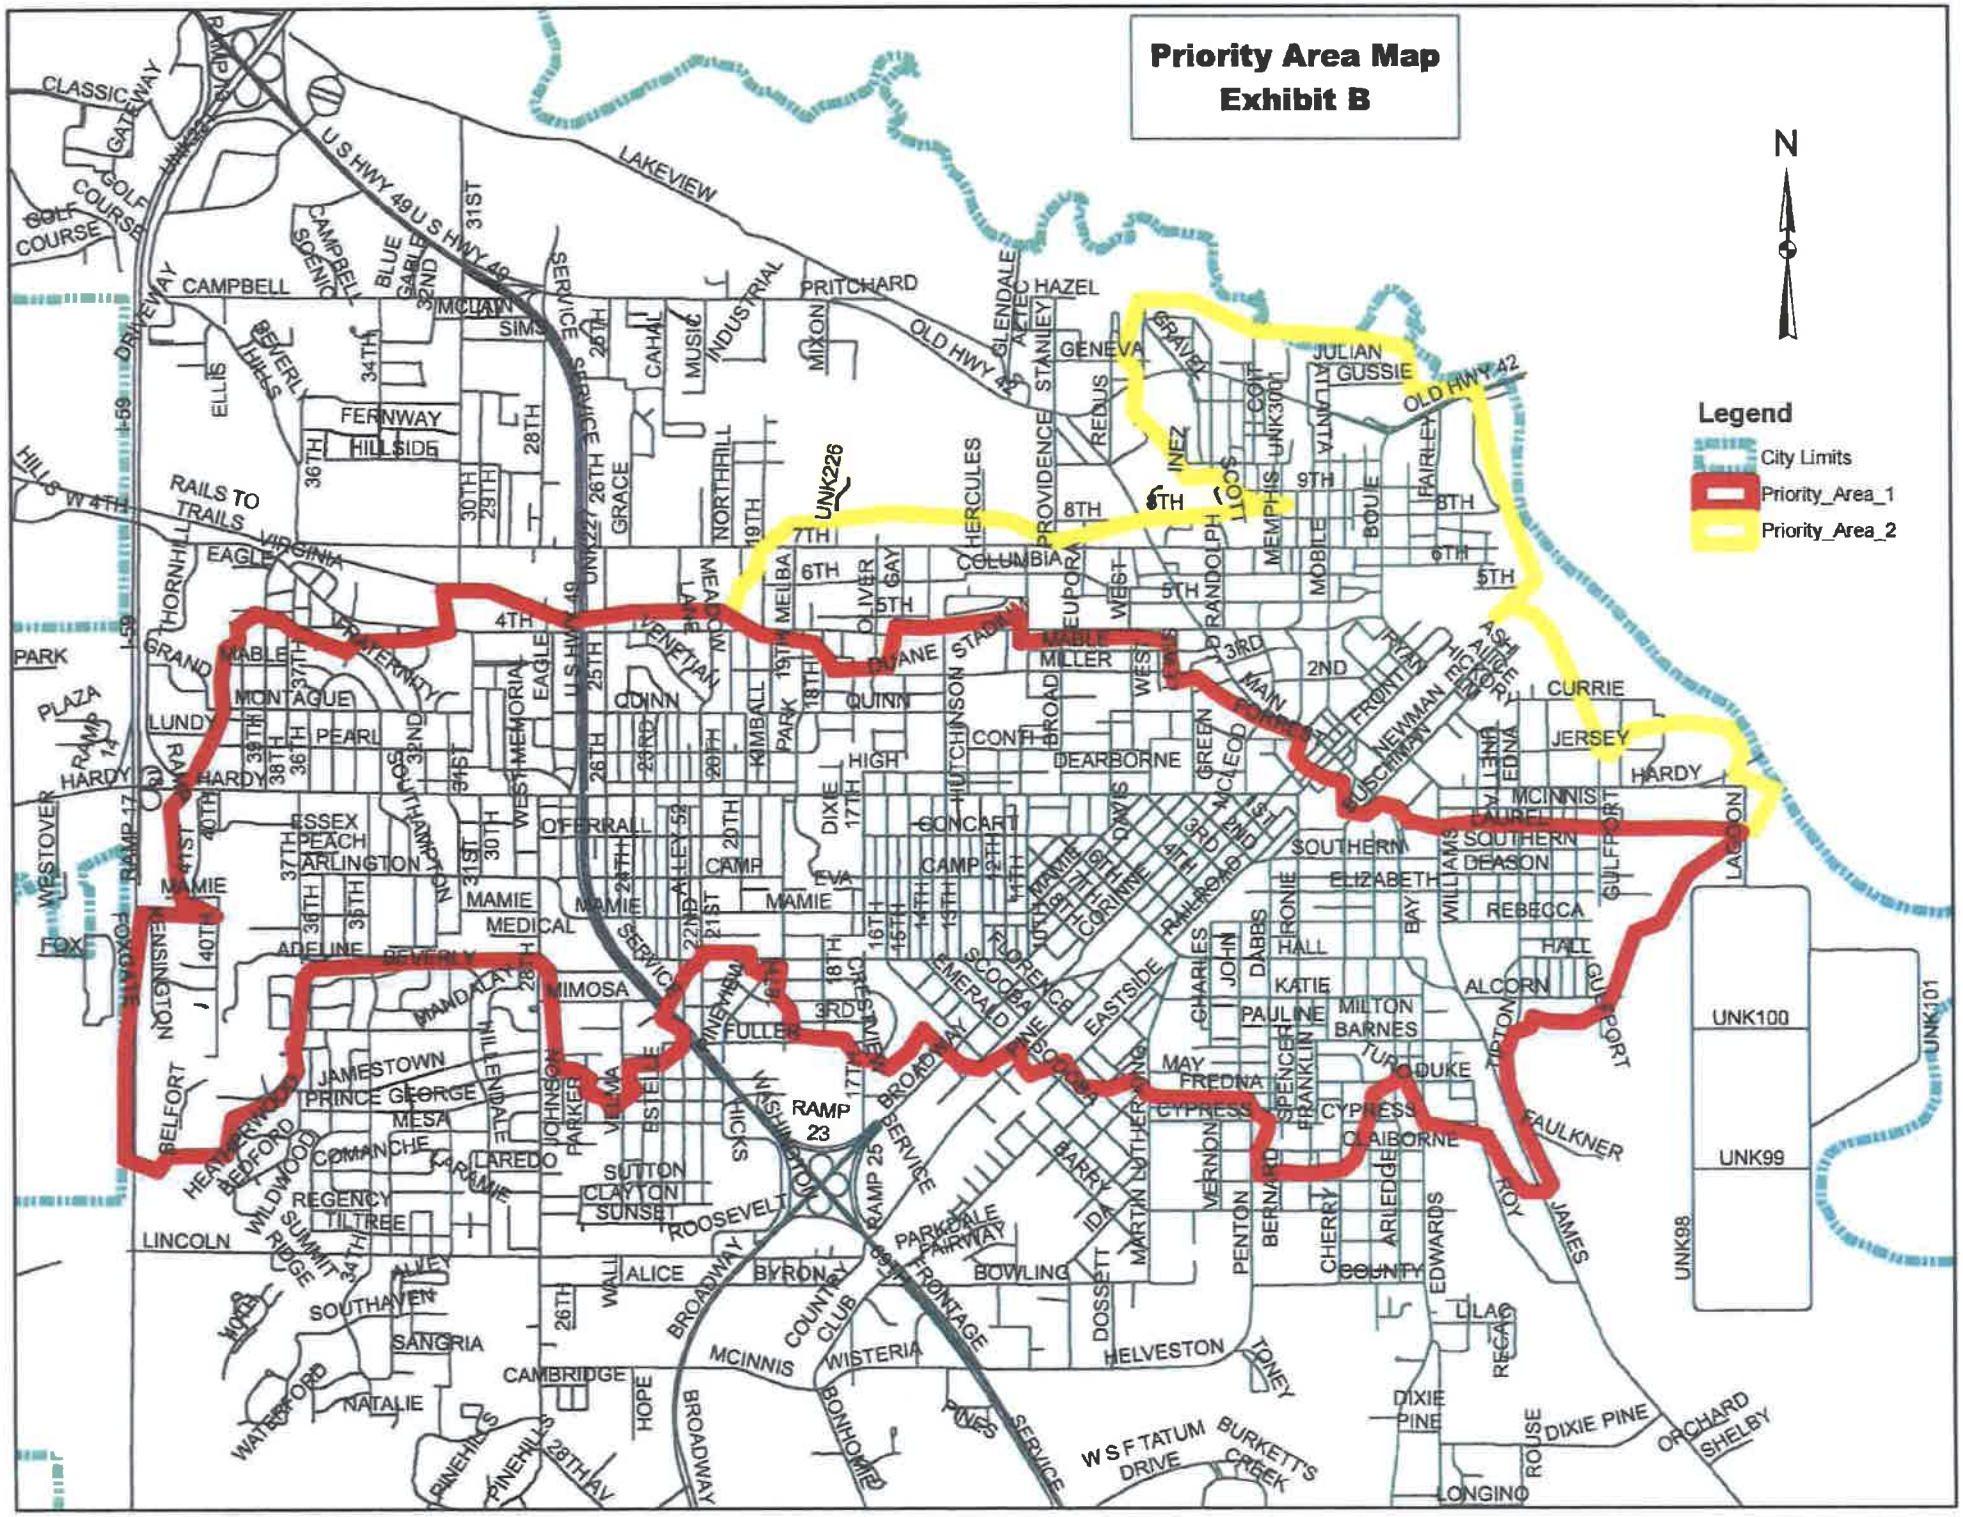
Priority Area Map
Exhibit B



This is **Appendix 1**, Standard Hourly Rates and Reimbursable Expenses, referred to in and part of the Agreement Between Owner and Engineer for Study and Report Professional Services dated January 12, 2018.

Part One: Standard Hourly Rates Schedule

A. *Standard Hourly Rates:*

1. Standard Hourly Rates are set forth in this Appendix 1 and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.

2. The Standard Hourly Rates apply only as specified in Article 4 of the Agreement, and are subject to annual review and adjustment.

B. *Schedule:*

Hourly rates for services performed on or after the Effective Date are:

Senior Engineer	**$175/hour**
Project Engineer	**$150/hour**
Junior Engineer	**$125/hour**
Engineering Intern	**$105/hour**
Graduate Engineer	**$105/hour**
Senior AutoCad Technician	**$105/hour**
AutoCad Technician	**$90/hour**
Senior Resident Project Representative	**$95/hour**
Resident Project Representative	**$85/hour**
Field Crew	**$175/hour**
Administrative	**$45/hour**

Part Two: Reimbursable Expenses Factors

1. Engineer shall be entitled to reimbursement of expenses under Parts Two and Three only as specified in Article 4 of the Agreement.

2. Owner shall reimburse Engineer for the expenses listed in Part Three below subject to an administrative factor of 1.0, unless another factor is indicated for a specific Reimbursable Expense.

3. Owner shall reimburse Engineer for Engineer's Consultant's charges subject to an administrative factor of 1.1.

AGREEMENT
BETWEEN OWNER AND ENGINEER
FOR PROFESSIONAL SERVICES

THIS IS AN AGREEMENT effective as of _____ ("Effective Date") between

City of Hattiesburg ("Owner") and

Shows, Dearman and Waits, Inc. ("Engineer").

Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows:

Upgrade the existing drainage system, replace the existing sanitary sewer system and replace the existing water lines along Katie Avenue & Arledge Street.

("Project").

Other terms used in this Agreement are defined in Article 7.

Engineer's services under this Agreement are generally identified as follows: [ ]

Owner and Engineer further agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer shall provide, or cause to be provided, the services set forth herein and in Exhibit A.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General*

A. Owner shall have the responsibilities set forth herein and in Exhibit B.

B. Owner shall pay Engineer as set forth in Article 4 and Exhibit C.

C. Owner shall be responsible for all requirements and instructions that it furnishes to Engineer pursuant to this Agreement, and for the accuracy and completeness of all programs, reports, data, and other information furnished by Owner to Engineer pursuant to this Agreement. Engineer may use and rely upon such requirements, programs, instructions, reports, data, and information in performing or furnishing services under this Agreement, subject to any express limitations or reservations applicable to the furnished items.

D. Owner shall give prompt written notice to Engineer whenever Owner observes or otherwise becomes aware of:

1. any development that affects the scope or time of performance of Engineer's services;

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. the presence at the Site of any Constituent of Concern; or

3. any relevant, material defect or nonconformance in: (a) Engineer's services, (b) the Work, (c) the performance of any Constructor, or (d) Owner's performance of its responsibilities under this Agreement.

ARTICLE 3 – SCHEDULE FOR RENDERING SERVICES

3.01 *Commencement*

A. Engineer is authorized to begin rendering services as of the Effective Date.

3.02 *Time for Completion*

A. Engineer shall complete its obligations within a reasonable time. Specific periods of time for rendering services, or specific dates by which services are to be completed, are provided in Exhibit A, and are hereby agreed to be reasonable.

B. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's services is impaired, or Engineer's services are delayed or suspended, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

C. If Owner authorizes changes in the scope, extent, or character of the Project or Engineer's services, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

D. Owner shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the Engineer's performance of its services.

E. If Engineer fails, through its own fault, to complete the performance required in this Agreement within the time set forth, as duly adjusted, then Owner shall be entitled, as its sole remedy, to the recovery of direct damages, if any, resulting from such failure.

ARTICLE 4 – INVOICES AND PAYMENTS

4.01 *Invoices*

A. *Preparation and Submittal of Invoices:* Engineer shall prepare invoices in accordance with its standard invoicing practices and the terms of Exhibit C. Engineer shall submit its invoices to Owner on a monthly basis. Invoices are due and payable within 45 days of receipt.

4.02 *Payments*

A. *Application to Interest and Principal:* Payment will be credited first to any interest owed to Engineer and then to principal.

B. *Failure to Pay*: If Owner fails to make any payment due Engineer for services and expenses within 45 days after receipt of Engineer's invoice, then:

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

1. amounts due Engineer will be increased at the rate of 1.5% per month (or the maximum rate of interest permitted by law, if less) from said forty-fifth day; and

2. Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement until Owner has paid in full all amounts due for services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

C. *Disputed Invoices:* If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in writing of the specific basis for doing so, and the dispute dealt with as set out in Mississippi Code Ann. Section 31-7-305.

D. *Sales or Use Taxes:* If after the Effective Date any governmental entity takes a legislative action that imposes additional sales or use taxes on Engineer's services or compensation under this Agreement, then Engineer may invoice such additional sales or use taxes for reimbursement by Owner. Owner shall reimburse Engineer for the cost of such invoiced additional sales or use taxes; such reimbursement shall be in addition to the compensation to which Engineer is entitled under the terms of Exhibit C.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Probable Construction Cost*

A. Engineer's opinions (if any) of probable Construction Cost are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer. If Owner requires greater assurance as to probable Construction Cost, then Owner agrees to obtain an independent cost estimate.

5.02 *Designing to Construction Cost Limit*

A. If a Construction Cost limit is established between Owner and Engineer, such Construction Cost limit and a statement of Engineer's rights and responsibilities with respect thereto will be specifically set forth in Exhibit F to this Agreement.

5.03 *Opinions of Total Project Costs*

A. The services, if any, of Engineer with respect to Total Project Costs shall be limited to assisting the Owner in tabulating the various categories that comprise Total Project Costs. Engineer assumes no responsibility for the accuracy of any opinions of Total Project Costs.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. *Standard of Care:* The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality.

B. *Technical Accuracy:* Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct deficiencies in technical accuracy without additional compensation, unless such corrective action is directly attributable to deficiencies in Owner-furnished information.

C. *Consultants:* Engineer may retain such Consultants as Engineer deems necessary to assist in the performance or furnishing of the services, subject to reasonable, timely, and substantive objections by Owner.

D. *Reliance on Others:* Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. *Compliance with Laws and Regulations, and Policies and Procedures:*

1. Engineer and Owner shall comply with applicable Laws and Regulations.

2. Engineer shall comply with any and all policies, procedures, and instructions of Owner that are applicable to Engineer's performance of services under this Agreement and that Owner provides to Engineer in writing, subject to the standard of care set forth in Paragraph 6.01.A, and to the extent compliance is not inconsistent with professional practice requirements.

3. This Agreement is based on Laws and Regulations and Owner-provided written policies and procedures as of the Effective Date. The following may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, or compensation:

   a. changes after the Effective Date to Laws and Regulations;

   b. the receipt by Engineer after the Effective Date of Owner-provided written policies and procedures;

   c. changes after the Effective Date to Owner-provided written policies or procedures.

F. Engineer shall not be required to sign any document, no matter by whom requested, that would result in the Engineer having to certify, guarantee, or warrant the existence of conditions whose existence the Engineer cannot ascertain. Owner agrees not to make resolution of any dispute with the Engineer or payment of any amount due to the Engineer in any way contingent upon the Engineer signing any such document.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

G. The general conditions for any construction contract documents prepared hereunder are to be in accordance with local, state and federal law.

H. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at the Site, nor for any failure of a Constructor to comply with Laws and Regulations applicable to that Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.

I. Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform the Work in accordance with the Construction Contract Documents.

J. Engineer shall not be responsible for any decision made regarding the Construction Contract Documents, or any application, interpretation, clarification, or modification of the Construction Contract Documents, other than those made by Engineer or its Consultants.

K. Engineer is not required to provide and does not have any responsibility for surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements.

L. Engineer's services do not include providing legal advice or representation.

M. Engineer's services do not include (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission, or (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances.

N. While at the Site, Engineer, its Consultants, and their employees and representatives shall comply with the applicable requirements of Contractor's and Owner's safety programs of which Engineer has been informed in writing.

6.02 *Design Without Construction Phase Services*

A. Engineer shall be responsible only for those Construction Phase services expressly required of Engineer in Exhibit A, Paragraph A1.05. With the exception of such expressly required services, Engineer shall have no design, Shop Drawing review, or other obligations during construction, and Owner assumes all responsibility for the application and interpretation of the Construction Contract Documents, review and response to Contractor claims, Construction Contract administration, processing of Change Orders and submittals, revisions to the Construction Contract Documents during construction, construction observation and review, review of Contractor's payment applications, and all other necessary Construction Phase administrative, engineering, and professional services. Owner waives all claims against the Engineer that may be connected in any way to

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Construction Phase administrative, engineering, or professional services except for those services that are expressly required of Engineer in Exhibit A.

6.03 *Use of Documents*

A. All Documents are instruments of service, and Engineer shall retain an ownership and property interest therein (including the copyright and the right of reuse at the discretion of the Engineer) whether or not the Project is completed.

B. If Engineer is required to prepare or furnish Drawings or Specifications under this Agreement, Engineer shall deliver to Owner at least one original printed record version of such Drawings and Specifications, signed and sealed according to applicable Laws and Regulations.

C. Owner may make and retain copies of Documents for information and reference in connection with the use of the Documents on the Project. Engineer grants Owner a limited license to use the Documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all services relating to preparation of the Documents, and subject to the following limitations: (1) Owner acknowledges that such Documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer; (2) any such use or reuse, or any modification of the Documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and Consultants; (3) such limited license to Owner shall not create any rights in third parties.

D. If Engineer at Owner's request verifies the suitability of the Documents, completes them, or adapts them for extensions of the Project or for any other purpose, then Owner shall compensate Engineer at rates or in an amount to be agreed upon by Owner and Engineer.

6.04 *Electronic Transmittals*

A. Owner and Engineer may transmit, and shall accept, Project-related correspondence, Documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with a mutually agreeable protocol.

B. If this Agreement does not establish protocols for electronic or digital transmittals, then Owner and Engineer shall jointly develop such protocols.

C. When transmitting items in electronic media or digital format, the transmitting party makes no representations as to long term compatibility, usability, or readability of the items resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the items, or from those established in applicable transmittal protocols.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.05 *Insurance*

A. Engineer shall procure and maintain insurance as set forth in Exhibit G. Engineer shall cause Owner to be listed as an additional insured on any applicable general liability insurance policy carried by Engineer.

B. Section Deleted

C. Owner shall require Contractor to purchase and maintain policies of insurance covering workers' compensation, general liability, motor vehicle damage and injuries, and other insurance necessary to protect Owner's and Engineer's interests in the Project. Owner shall require Contractor to cause Engineer and its Consultants to be listed as additional insureds with respect to such liability insurance purchased and maintained by Contractor for the Project.

D. Upon written request the Engineer shall deliver to the Owner certificates of insurance evidencing the coverages indicated in Exhibit G. Such certificates shall be furnished prior to commencement of Engineer's services and at renewals thereafter during the life of the Agreement.

E. All policies of property insurance relating to the Project, including but not limited to any builder's risk policy, shall allow for waiver of subrogation rights and contain provisions to the effect that in the event of payment of any loss or damage the insurers will have no rights of recovery against any insured thereunder or against Engineer or its Consultants. Owner and Engineer shall take appropriate measures in other Project-related contracts to secure waivers of rights consistent with those set forth in this paragraph.

F. All policies of insurance shall contain a provision or endorsement that the coverage afforded will not be canceled or reduced in limits by endorsement, and that renewal will not be refused, until at least 10 days prior written notice has been given to the primary insured. Upon receipt of such notice, the receiving party shall promptly forward a copy of the notice to the other party to this Agreement.

G. At any time, Owner may request that Engineer or its Consultants, at Owner's sole expense, provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Exhibit G. If so requested by Owner, and if commercially available, Engineer shall obtain and shall require its Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner, and Exhibit G will be supplemented to incorporate these requirements.

6.06 *Suspension and Termination*

A. *Suspension:*

1. *By Owner*: Owner may suspend the Project for up to 90 days upon seven days written notice to Engineer.

2. *By Engineer*: Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement if Owner has failed to pay Engineer for invoiced services

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

and expenses, as set forth in Paragraph 4.02.B, or in response to the presence of Constituents of Concern at the Site, as set forth in Paragraph 6.10.D.

B. *Termination*: The obligation to provide further services under this Agreement may be terminated:

1. For cause,

   a. by either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party.

   b. by Engineer:

      1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or

      2) upon seven days written notice if the Engineer's services for the Project are delayed or suspended for more than 90 days for reasons beyond Engineer's control, or as the result of the presence at the Site of undisclosed Constituents of Concern, as set forth in Paragraph 6.10.D.

      3) Engineer shall have no liability to Owner on account of such termination.

   c. Notwithstanding the foregoing, this Agreement will not terminate under Paragraph 6.06.B.1.a if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt thereof; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

2. For convenience, by Owner effective upon Engineer's receipt of notice from Owner.

C. *Effective Date of Termination:* The terminating party under Paragraph 6.06.B may set the effective date of termination at a time up to 30 days later than otherwise provided to allow Engineer to demobilize personnel and equipment from the Site, to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

D. *Payments Upon Termination:*

1. In the event of any termination under Paragraph 6.06, Engineer will be entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Agreement and all Reimbursable Expenses incurred through the effective date of termination. Upon making such payment, Owner shall have the limited

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

right to the use of Documents, at Owner's sole risk, subject to the provisions of Paragraph 6.03.

2. In the event of termination by Owner for convenience or by Engineer for cause, Engineer shall be entitled, in addition to invoicing for those items identified in Paragraph 6.06.D.1, to invoice Owner and receive payment of a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with Engineer's Consultants, and other related close-out costs, using methods and rates for Additional Services as set forth in Exhibit C.

6.07 *Controlling Law*

A. This Agreement is to be governed by the Laws and Regulations of the state in which the Project is located.

6.08 *Successors, Assigns, and Beneficiaries*

A. Engineer is hereby bound and the successors, executors, administrators, and legal representatives of Engineer (and to the extent permitted by Paragraph 6.08.B the assigns of Engineer) are hereby bound to the Owner to this Agreement and to the successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, money that is due or may become due) in this Agreement without the written consent of the other party, except to the extent that any assignment, subletting, or transfer is mandated by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, other third-party individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

3. Owner agrees that the substance of the provisions of this Paragraph 6.08.C shall appear in the Construction Contract Documents.

6.09 *Dispute Resolution*

A. Owner and Engineer agree to negotiate all disputes between them in good faith for a period of 30 days from the date of notice prior to invoking other provisions of this Agreement, or exercising their rights at law.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.10 *Environmental Condition of Site*

A. Owner represents to Engineer that as of the Effective Date to the best of Owner's knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at or adjacent to the Site.

B. If Engineer encounters or learns of an undisclosed Constituent of Concern at the Site, then Engineer shall notify (1) Owner and (2) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

C. It is acknowledged by both parties that Engineer's scope of services does not include any services related to unknown or undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an undisclosed Constituent of Concern, then Owner shall promptly determine whether to retain a qualified expert to evaluate such condition or take any necessary corrective action.

D. If investigative or remedial action, or other professional services, are necessary with respect to undisclosed Constituents of Concern, or if investigative or remedial action beyond that reasonably contemplated is needed to address a disclosed or known Constituent of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until such portion of the Project is no longer affected.

E. If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under this Agreement, then the Engineer shall have the option of (1) accepting an equitable adjustment in its compensation or in the time of completion, or both; or (2) terminating this Agreement for cause on seven days notice.

F. Owner acknowledges that Engineer is performing professional services for Owner and that Engineer is not and shall not be required to become an "owner," "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, which are or may be encountered at or near the Site in connection with Engineer's activities under this Agreement.

6.11 *Shared Negligence*

A. *Percentage Share of Negligence:* To the fullest extent permitted by Laws and Regulations, a party's total liability to the other party and anyone claiming by, through, or under the other party for any cost, loss, or damages caused in part by the negligence of the party and in part by the negligence of the other party or any other negligent entity or individual, shall not exceed the percentage share that the party's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

6.12 *Records Retention*

A. Engineer shall maintain on file in legible form, for a period of five years following completion or termination of its services, all Documents, records (including cost records), and design calculations related to Engineer's services or pertinent to Engineer's

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

performance under this Agreement. Upon Owner's request, Engineer shall provide a copy of any such item to Owner at cost.

6.13 *Miscellaneous Provisions*

A. *Notices:* Any notice required under this Agreement will be in writing, addressed to the appropriate party at its address on the signature page and given personally, by registered or certified mail postage prepaid, or by a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival:* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability:* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Engineer, which agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

D. *Waiver:* A party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Accrual of Claims:* To the fullest extent permitted by Laws and Regulations, all causes of action arising under this Agreement shall be deemed to have accrued, and all statutory periods of limitation shall commence, no later than the date of Substantial Completion.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits hereto) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the exhibits, or in the following definitions:

1. *Addenda*—Written or graphic instruments issued prior to the opening of bids which clarify, correct, or change the bidding requirements or the proposed Construction Contract Documents.

2. *Additional Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 2 of Exhibit A of this Agreement.

3. *Agreement*—This written contract for professional services between Owner and Engineer, including all exhibits identified in Paragraph 8.01 and any duly executed amendments.

4. *Application for Payment*—The form acceptable to Engineer which is to be used by Contractor during the course of the Work in requesting progress or final payments and

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

which is to be accompanied by such supporting documentation as is required by the Construction Contract.

5. *Basic Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 1 of Exhibit A of this Agreement.

6. *Change Order*—A document which is signed by Contractor and Owner and authorizes an addition, deletion, or revision in the Work or an adjustment in the Construction Contract Price or the Construction Contract Times, or other revision to the Construction Contract, issued on or after the effective date of the Construction Contract.

7. *Change Proposal*—A written request by Contractor, duly submitted in compliance with the procedural requirements set forth in the Construction Contract, seeking an adjustment in Construction Contract Price or Construction Contract Times, or both; contesting an initial decision by Engineer concerning the requirements of the Construction Contract Documents or the acceptability of Work under the Construction Contract Documents; challenging a set-off against payments due; or seeking other relief with respect to the terms of the Construction Contract.

8. *Constituent of Concern*—Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5501 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, State, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

9. *Construction Contract*—The entire and integrated written contract between the Owner and Contractor concerning the Work.

10. *Construction Contract Documents*—Those items designated as "Contract Documents" in the Construction Contract, and which together comprise the Construction Contract.

11. *Construction Contract Price*—The money that Owner has agreed to pay Contractor for completion of the Work in accordance with the Construction Contract Documents.

12. *Construction Contract Times*—The number of days or the dates by which Contractor shall: (a) achieve milestones, if any, in the Construction Contract; (b) achieve Substantial Completion; and (c) complete the Work.

13. *Construction Cost*—The cost to Owner of the construction of those portions of the entire Project designed or specified by or for Engineer under this Agreement, including construction labor, services, materials, equipment, insurance, and bonding costs, and allowances for contingencies. Construction Cost does not include costs of services of Engineer or other design professionals and consultants; cost of land or rights-of-way, or

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

compensation for damages to property; Owner's costs for legal, accounting, insurance counseling, or auditing services; interest or financing charges incurred in connection with the Project; or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

14. *Constructor*—Any person or entity (not including the Engineer, its employees, agents, representatives, and Consultants), performing or supporting construction activities relating to the Project, including but not limited to Contractors, Subcontractors, Suppliers, Owner's work forces, utility companies, other contractors, construction managers, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.

15. *Consultants*—Individuals or entities having a contract with Engineer to furnish services with respect to this Project as Engineer's independent professional associates and consultants; subcontractors; or vendors.

16. *Contractor*—The entity or individual with which Owner enters into a Construction Contract.

17. *Documents*—Data, reports, Drawings, Specifications, Record Drawings, building information models, civil integrated management models, and other deliverables, whether in printed or electronic format, provided or furnished in appropriate phases by Engineer to Owner pursuant to this Agreement.

18. *Drawings*—That part of the Construction Contract Documents that graphically shows the scope, extent, and character of the Work to be performed by Contractor.

19. *Effective Date*—The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, the date on which this Agreement is signed and delivered by the last of the parties to sign and deliver.

20. *Engineer*—The individual or entity named as such in this Agreement.

21. *Field Order*—A written order issued by Engineer which requires minor changes in the Work but does not change the Construction Contract Price or the Construction Contract Times.

22. *Laws and Regulations; Laws or Regulations*—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

23. *Owner*—The individual or entity named as such in this Agreement and for which Engineer's services are to be performed. Unless indicated otherwise, this is the same individual or entity that will enter into any Construction Contracts concerning the Project.

24. *Project*—The total undertaking to be accomplished for Owner by engineers, contractors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the services to be performed or furnished by Engineer under this Agreement are a part.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

25. *Record Drawings*—Drawings depicting the completed Project, or a specific portion of the completed Project, prepared by Engineer as an Additional Service and based on Contractor's record copy of all Drawings, Specifications, Addenda, Change Orders, Work Change Directives, Field Orders, and written interpretations and clarifications, as delivered to Engineer and annotated by Contractor to show changes made during construction.

26. *Reimbursable Expenses*—The expenses incurred directly by Engineer in connection with the performing or furnishing of Basic Services and Additional Services for the Project.

27. *Resident Project Representative*—The authorized representative of Engineer assigned to assist Engineer at the Site during the Construction Phase. As used herein, the term Resident Project Representative or "RPR" includes any assistants or field staff of Resident Project Representative. The duties and responsibilities of the Resident Project Representative, if any, are as set forth in Exhibit D.

28. *Samples*—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and that establish the standards by which such portion of the Work will be judged.

29. *Shop Drawings*—All drawings, diagrams, illustrations, schedules, and other data or information that are specifically prepared or assembled by or for Contractor and submitted by Contractor to illustrate some portion of the Work. Shop Drawings, whether approved or not, are not Drawings and are not Construction Contract Documents.

30. *Site*—Lands or areas to be indicated in the Construction Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements, and such other lands furnished by Owner which are designated for the use of Contractor.

31. *Specifications*—The part of the Construction Contract Documents that consists of written requirements for materials, equipment, systems, standards, and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable to the Work.

32. *Subcontractor*—An individual or entity having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work.

33. *Substantial Completion*—The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Construction Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

34. *Supplier*—A manufacturer, fabricator, supplier, distributor, materialman, or vendor having a direct contract with Contractor or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Contractor or a Subcontractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

35. *Total Project Costs*—The total cost of planning, studying, designing, constructing, testing, commissioning, and start-up of the Project, including Construction Cost and all other Project labor, services, materials, equipment, insurance, and bonding costs, allowances for contingencies, and the total costs of services of Engineer or other design professionals and consultants, together with such other Project-related costs that Owner furnishes for inclusion, including but not limited to cost of land, rights-of-way, compensation for damages to properties, Owner's costs for legal, accounting, insurance counseling, and auditing services, interest and financing charges incurred in connection with the Project, and the cost of other services to be provided by others to Owner.

36. *Work*—The entire construction or the various separately identifiable parts thereof required to be provided under the Construction Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction; furnishing, installing, and incorporating all materials and equipment into such construction; and may include related services such as testing, start-up, and commissioning, all as required by the Construction Contract Documents.

37. *Work Change Directive*—A written directive to Contractor issued on or after the effective date of the Construction Contract, signed by Owner and recommended by Engineer, ordering an addition, deletion, or revision in the Work.

B. *Day*:

1. The word "day" means a calendar day of 24 hours measured from midnight to the next midnight.

ARTICLE 8 – EXHIBITS AND SPECIAL PROVISIONS

8.01 *Exhibits Included:*

A. Exhibit A, Engineer's Services.

B. Exhibit B, Owner's Responsibilities.

C. Exhibit C, Payments to Engineer for Services and Reimbursable Expenses.

D. Exhibit D, Duties, Responsibilities and Limitations of Authority of Resident Project Representative.

E. Exhibit E, DELETED

F. Exhibit F, DELETED

G. Exhibit G, Insurance.

H. Exhibit H, DELETED

I. Exhibit I, Limitations of Liability.

J. Exhibit J, DELETED

K. Exhibit K, DELETED

8.02 *Total Agreement*

A. This Agreement, (together with the exhibits included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a written instrument duly executed by both parties.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the services to be performed or furnished by Engineer and responsibilities of Owner under this Agreement. Such an individual shall have authority to transmit instructions, receive information, and render decisions relative to this Agreement on behalf of the respective party whom the individual represents.

8.04 *Engineer's Certifications*

A. Engineer certifies that it has not engaged in corrupt, fraudulent, or coercive practices in competing for or in executing the Agreement. For the purposes of this Paragraph 8.04:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the selection process or in the Agreement execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the selection process or the execution of the Agreement to the detriment of Owner, or (b) to deprive Owner of the benefits of free and open competition;

3. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the selection process or affect the execution of the Agreement.

This is **EXHIBIT A**, consisting of 14 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Engineer's Services

Article 1 of the Agreement is supplemented to include the following agreement of the parties.

Engineer shall provide Basic and Additional Services as set forth below.

PART 1 – BASIC SERVICES

A1.01 *Study and Report Phase* - ***SECTION DELETED***

A1.02 *Preliminary Design Phase*

A. After issuance by Owner of any instructions of for use of Project Strategies, Technologies, and Techniques, or for inclusion of sustainable features in the design; and indication by Owner of any specific modifications or changes in the scope, extent, character, or design requirements of the Project desired by Owner, (1) Engineer and Owner shall discuss and resolve any necessary revisions to Engineer's compensation (through application of the provisions regarding Additional Services, or otherwise), or the time for completion of Engineer's services, resulting from the selected solution, related Project Strategies, Technologies, or Techniques, sustainable design instructions, or specific modifications to the Project, and (2) upon written from Owner, Engineer shall:

1. Prepare Preliminary Design Phase documents consisting of final design criteria, preliminary drawings, outline specifications, and written descriptions of the Project.

2. In preparing the Preliminary Design Phase documents, use any specific applicable Project Strategies, Technologies, and Techniques authorized by Owner and include sustainable features, as appropriate, pursuant to Owner's instructions.

3. Provide necessary field surveys and topographic and utility mapping for Engineer's design purposes. Comply with the scope of work and procedure for the identification and mapping of existing utilities selected and authorized by Owner pursuant to advice from Engineer based on ASCE 38, "Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data," as set forth in Paragraph A1.01.A.12 above. If no such scope of work and procedure for utility mapping has been selected and authorized, then at a minimum the utility mapping will include Engineer contacting utility owners and obtaining available information.

4. Visit the Site as needed to prepare the Preliminary Design Phase documents.

5. Advise Owner if additional reports, data, information, or services of the types described in Exhibit B are necessary and assist Owner in obtaining such reports, data, information, or services.

6. Continue to assist Owner with Project Strategies, Technologies, and Techniques that Owner has chosen to implement.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

7. Based on the information contained in the Preliminary Design Phase documents, prepare a revised opinion of probable Construction Cost, and assist Owner in tabulating the various cost categories which comprise Total Project Costs.

8. Obtain and review Owner's instructions regarding Owner's procurement of construction services (including instructions regarding advertisements for bids, instructions to bidders, and requests for proposals, as applicable), Owner's construction contract practices and requirements, insurance and bonding requirements, electronic transmittals during construction, and other information necessary for the finalization of Owner's bidding-related documents (or requests for proposals or other construction procurement documents), and Construction Contract Documents. Also obtain and review copies of Owner's design and construction standards, Owner's standard forms, general conditions (if other than EJCDC® C-700, Standard General Conditions of the Construction Contract, 2013 Edition), supplementary conditions, text, and related documents or content for Engineer to include in the draft bidding-related documents (or requests for proposals or other construction procurement documents), and in the draft Construction Contract Documents, when applicable.

9. Perform or provide the following other Preliminary Design Phase tasks or deliverables: N/A

10. Furnish 1 review copies of the Preliminary Design Phase documents, opinion of probable Construction Cost, and any other Preliminary Design Phase deliverables to Owner within 45 days of authorization to proceed with this phase, and review them with Owner. Within 15 days of receipt, Owner shall submit to Engineer any comments regarding the furnished items.

11. Revise the Preliminary Design Phase documents, opinion of probable Construction Cost, and any other Preliminary Design Phase deliverables in response to Owner's comments, as appropriate, and furnish to Owner 1 copies of the revised Preliminary Design Phase documents, revised opinion of probable Construction Cost, and any other deliverables within 60 days after receipt of Owner's comments.

B. Engineer's services under the Preliminary Design Phase will be considered complete on the date when Engineer has delivered to Owner the revised Preliminary Design Phase documents, revised opinion of probable Construction Cost, and any other Preliminary Design Phase deliverables.

A1.03 *Final Design Phase*

A. After acceptance by Owner of the Preliminary Design Phase documents, revised opinion of probable Construction Cost as determined in the Preliminary Design Phase, and any other Preliminary Design Phase deliverables, subject to any Owner-directed modifications or changes in the scope, extent, character, or design requirements of or for the Project, and upon authorization from Owner, Engineer shall:

1. Prepare final Drawings and Specifications indicating the scope, extent, and character of the Work to be performed and furnished by Contractor.

2. Visit the Site as needed to assist in preparing the final Drawings and Specifications.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. Provide technical criteria, written descriptions, and design data for Owner's use in filing applications for permits from or approvals of governmental authorities having jurisdiction to review or approve the final design; assist Owner in consultations with such authorities; and revise the Drawings and Specifications in response to directives from such authorities, as appropriate.

4. Advise Owner of any recommended adjustments to the opinion of probable Construction Cost.

5. After consultation with Owner, include in the Construction Contract Documents any specific protocols for the transmittal of Project-related correspondence, documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website. Any such protocols shall be applicable to transmittals between and among Owner, Engineer, and Contractor during the Construction Phase and Post-Construction Phase, and unless agreed otherwise shall supersede any conflicting protocols previously established for transmittals between Owner and Engineer.

6. Assist Owner in assembling known reports and drawings of Site conditions, and in identifying the technical data contained in such reports and drawings upon which bidders or other prospective contractors may rely.

7. In addition to preparing the final Drawings and Specifications, assemble drafts of other Construction Contract Documents based on specific instructions and contract forms, text, or content received from Owner.

8. Prepare or assemble draft bidding-related documents (or requests for proposals or other construction procurement documents), based on the specific bidding or procurement-related instructions and forms, text, or content received from Owner.

9. Perform or provide the following other Final Design Phase tasks or deliverables: N/A

10. Furnish for review by Owner, its legal counsel, and other advisors, 1 copies of the final Drawings and Specifications, assembled drafts of other Construction Contract Documents, the draft bidding-related documents (or requests for proposals or other construction procurement documents), and any other Final Design Phase deliverables, within 30 days of authorization to proceed with the Final Design Phase, and review them with Owner. Within 15 days of receipt, Owner shall submit to Engineer any comments regarding the furnished items, and any instructions for revisions.

11. Revise the final Drawings and Specifications, assembled drafts of other Construction Contract Documents, the draft bidding-related documents (or requests for proposals or other construction procurement documents), and any other Final Design Phase deliverables in accordance with comments and instructions from the Owner, as appropriate, and submit 1 final copies of such documents to Owner within 60 days after receipt of Owner's comments and instructions.

B. Engineer's services under the Final Design Phase will be considered complete on the date when Engineer has delivered to Owner the final Drawings and Specifications, other

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

assembled Construction Contract Documents, bidding-related documents (or requests for proposals or other construction procurement documents), and any other Final Design Phase deliverables.

C. In the event that the Work designed or specified by Engineer is to be performed or furnished under more than one prime contract, or if Engineer's services are to be separately sequenced with the work of one or more prime Contractors (such as in the case of fast-tracking), Owner and Engineer shall, prior to commencement of the Final Design Phase, develop a schedule for performance of Engineer's services during the Final Design, Bidding or Negotiating, Construction, and Post-Construction Phases in order to sequence and coordinate properly such services as are applicable to the work under such separate prime contracts. This schedule is to be prepared and included in or become an amendment to Exhibit A whether or not the work under such contracts is to proceed concurrently.

D. The number of prime contracts for Work designed or specified by Engineer upon which the Engineer's compensation has been established under this Agreement is one (1). If more prime contracts are awarded, Engineer shall be entitled to an equitable increase in its compensation under this Agreement.

A1.04 *Bidding or Negotiating Phase*

A. After acceptance by Owner of the final Drawings and Specifications, other Construction Contract Documents, bidding-related documents (or requests for proposals or other construction procurement documents), and the most recent opinion of probable Construction Cost as determined in the Final Design Phase, and upon written authorization by Owner to proceed, Engineer shall:

1. Assist Owner in advertising for and obtaining bids or proposals for the Work, assist Owner in issuing assembled design, contract, and bidding-related documents (or requests for proposals or other construction procurement documents) to prospective contractors, and, where applicable, maintain a record of prospective contractors to which documents have been issued, attend pre-bid conferences, if any, and receive and process contractor deposits or charges for the issued documents.

2. Prepare and issue Addenda as appropriate to clarify, correct, or change the issued documents.

3. Provide information or assistance needed by Owner in the course of any review of proposals or negotiations with prospective contractors.

4. Consult with Owner as to the qualifications of prospective contractors.

5. Consult with Owner as to the qualifications of subcontractors, suppliers, and other individuals and entities proposed by prospective contractors, for those portions of the Work as to which review of qualifications is required by the issued documents.

6. If the issued documents require, the Engineer shall evaluate and determine the acceptability of "or equals" and substitute materials and equipment proposed by prospective contractors, provided that such proposals are allowed by the bidding-related documents (or requests for proposals or other construction procurement

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

documents) prior to award of contracts for the Work. Services under this paragraph are subject to the provisions of Paragraph A2.02.A.2 of this Exhibit A.

7. Attend the bid opening, prepare bid tabulation sheets to meet Owner's schedule, and assist Owner in evaluating bids or proposals, assembling final contracts for the Work for execution by Owner and Contractor, and in issuing notices of award of such contracts.

8. If Owner engages in negotiations with bidders or proposers, assist Owner with respect to technical and engineering issues that arise during the negotiations.

9. Perform or provide the following other Bidding or Negotiating Phase tasks or deliverables: N/A

B. The Bidding or Negotiating Phase will be considered complete upon commencement of the Construction Phase or upon cessation of negotiations with prospective contractors (except as may be required if Exhibit F is a part of this Agreement).

A1.05 *Construction Phase*

A. Upon successful completion of the Bidding and Negotiating Phase, and upon written authorization from Owner, Engineer shall:

1. *General Administration of Construction Contract:* Consult with Owner and act as Owner's representative as provided in the Construction Contract. The extent and limitations of the duties, responsibilities, and authority of Engineer shall be as assigned in EJCDC® C-700, Standard General Conditions of the Construction Contract (2013 Edition), prepared by the Engineers Joint Contract Documents Committee, or other construction general conditions specified in this Agreement. If Owner, or Owner and Contractor, modify the duties, responsibilities, and authority of Engineer in the Construction Contract, or modify other terms of the Construction Contract having a direct bearing on Engineer, then Owner shall compensate Engineer for any related increases in the cost to provide Construction Phase services. Engineer shall not be required to furnish or perform services contrary to Engineer's responsibilities as a licensed professional. All of Owner's instructions to Contractor will be issued through Engineer, which shall have authority to act on behalf of Owner in dealings with Contractor to the extent provided in this Agreement and the Construction Contract except as otherwise provided in writing.

2. *Resident Project Representative (RPR):* Provide the services of an RPR at the Site to assist the Engineer and to provide more extensive observation of Contractor's work. Duties, responsibilities, and authority of the RPR are as set forth in Exhibit D. The furnishing of such RPR's services will not limit, extend, or modify Engineer's responsibilities or authority except as expressly set forth in Exhibit D.

3. *Selection of Independent Testing Laboratory:* Assist Owner in the selection of an independent testing laboratory to perform the services identified in Exhibit B, Paragraph B2.01.

4. *Pre-Construction Conference:* Participate in a pre-construction conference prior to commencement of Work at the Site.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5. *Electronic Transmittal Protocols:* If the Construction Contract Documents do not specify protocols for the transmittal of Project-related correspondence, documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, then together with Owner and Contractor jointly develop such protocols for transmittals between and among Owner, Contractor, and Engineer during the Construction Phase and Post-Construction Phase.

6. *Original Documents:* If requested by Owner to do so, maintain and safeguard during the Construction Phase at least one original printed record version of the Construction Contract Documents, including Drawings and Specifications signed and sealed by Engineer and other design professionals in accordance with applicable Laws and Regulations. Throughout the Construction Phase, make such original printed record version of the Construction Contract Documents available to Contractor and Owner for review.

7. *Schedules:* Receive, review, and determine the acceptability of any and all schedules that Contractor is required to submit to Engineer, including the Progress Schedule, Schedule of Submittals, and Schedule of Values.

8. *Baselines and Benchmarks:* As appropriate, establish baselines and benchmarks for locating the Work which in Engineer's judgment are necessary to enable Contractor to proceed.

9. *Visits to Site and Observation of Construction:* In connection with observations of Contractor's Work while it is in progress:

    a. Make visits to the Site at intervals appropriate to the various stages of construction, as Engineer deems necessary, to observe as an experienced and qualified design professional the progress of Contractor's executed Work. Such visits and observations by Engineer, and the Resident Project Representative, if any, are not intended to be exhaustive or to extend to every aspect of the Work or to involve detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in this Agreement and the Construction Contract Documents, but rather are to be limited to spot checking, selective sampling, and similar methods of general observation of the Work based on Engineer's exercise of professional judgment, as assisted by the Resident Project Representative, if any. Based on information obtained during such visits and observations, Engineer will determine in general if the Work is proceeding in accordance with the Construction Contract Documents, and Engineer shall keep Owner informed of the progress of the Work.

    b. The purpose of Engineer's visits to the Site, and representation by the Resident Project Representative, if any, at the Site, will be to enable Engineer to better carry out the duties and responsibilities assigned to and undertaken by Engineer during the Construction Phase, and, in addition, by the exercise of Engineer's efforts as an experienced and qualified design professional, to provide for Owner a greater degree of confidence that the completed Work will conform in general to the Construction Contract Documents and that Contractor has implemented and maintained the integrity of the design concept of the completed Project as a functioning whole as indicated in the Construction Contract Documents. Engineer shall not, during such visits or as a result of such observations of the Work,

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

supervise, direct, or have control over the Work, nor shall Engineer have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, for security or safety at the Site, for safety precautions and programs incident to any Constructor's work in progress, for the coordination of the Constructors' work or schedules, nor for any failure of any Constructor to comply with Laws and Regulations applicable to furnishing and performing of its work. Accordingly, Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish or perform the Work, or any portion of the Work, in accordance with the Construction Contract Documents.

10. *Defective Work:* Reject Work if, on the basis of Engineer's observations, Engineer believes that such Work is defective under the terms and standards set forth in the Construction Contract Documents. Provide recommendations to Owner regarding whether Contractor should correct such Work or remove and replace such Work, or whether Owner should consider accepting such Work as provided in the Construction Contract Documents.

11. *Compatibility with Design Concept:* If Engineer has express knowledge that a specific part of the Work that is not defective under the terms and standards set forth in the Construction Contract Documents is nonetheless not compatible with the design concept of the completed Project as a functioning whole, then inform Owner of such incompatibility, and provide recommendations for addressing such Work.

12. *Clarifications and Interpretations:* Accept from Contractor and Owner submittal of all matters in question concerning the requirements of the Construction Contract Documents (sometimes referred to as requests for information or interpretation—RFIs), or relating to the acceptability of the Work under the Construction Contract Documents. With reasonable promptness, render a written clarification, interpretation, or decision on the issue submitted, or initiate an amendment or supplement to the Construction Contract Documents.

13. *Non-reviewable Matters:* If a submitted matter in question concerns the Engineer's performance of its duties and obligations, or terms and conditions of the Construction Contract Documents that do not involve (1) the performance or acceptability of the Work under the Construction Contract Documents, (2) the design (as set forth in the Drawings, Specifications, or otherwise), or (3) other engineering or technical matters, then Engineer will promptly give written notice to Owner and Contractor that Engineer will not provide a decision or interpretation.

14. *Field Orders:* Subject to any limitations in the Construction Contract Documents, Engineer may prepare and issue Field Orders requiring minor changes in the Work.

15. *Change Orders and Work Change Directives:* Recommend Change Orders and Work Change Directives to Owner, as appropriate, and prepare Change Orders and Work Change Directives as required.

16. *Differing Site Conditions:* Respond to any notice from Contractor of differing site conditions, including conditions relating to underground facilities such as utilities, and

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

hazardous environmental conditions. Promptly conduct reviews and prepare findings, conclusions, and recommendations for Owner's use.

17. *Shop Drawings, Samples, and Other Submittals:* Review and approve or take other appropriate action with respect to Shop Drawings, Samples, and other required Contractor submittals, but only for conformance with the information given in the Construction Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated by the Construction Contract Documents. Such reviews and approvals or other action will not extend to means, methods, techniques, sequences, or procedures of construction or to safety precautions and programs incident thereto. Engineer shall meet any Contractor's submittal schedule that Engineer has accepted.

18. *Substitutes and "Or-equal":* Evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by Contractor, but subject to the provisions of Paragraph A2.02.A.2 of this Exhibit A.

19. *Inspections and Tests:*

    a. Receive and review all certificates of inspections, tests, and approvals required by Laws and Regulations or the Construction Contract Documents. Engineer's review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Construction Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or approvals comply with the requirements of the Construction Contract Documents. Engineer shall be entitled to rely on the results of such inspections and tests.

    b. As deemed reasonably necessary, request that Contractor uncover Work that is to be inspected, tested, or approved.

    c. Pursuant to the terms of the Construction Contract, require special inspections or testing of the Work, whether or not the Work is fabricated, installed, or completed.

20. *Change Proposals and Claims:* (a) Review and respond to Change Proposals. Review each duly submitted Change Proposal from Contractor and, within 30 days after receipt of the Contractor's supporting data, either deny the Change Proposal in whole, approve it in whole, or deny it in part and approve it in part. Such actions shall be in writing, with a copy provided to Owner and Contractor. If the Change Proposal does not involve the design (as set forth in the Drawings, Specifications, or otherwise), the acceptability of the Work, or other engineering or technical matters, then Engineer will notify the parties that the Engineer will not resolve the Change Proposal. (b) Provide information or data to Owner regarding engineering or technical matters pertaining to Claims.

21. *Applications for Payment:* Based on Engineer's observations as an experienced and qualified design professional and on review of Applications for Payment and accompanying supporting documentation:

    a. Determine the amounts that Engineer recommends Contractor be paid. Recommend reductions in payment (set-offs) based on the provisions for set-offs

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

stated in the Construction Contract. Such recommendations of payment will be in writing and will constitute Engineer's representation to Owner, based on such observations and review, that, to the best of Engineer's knowledge, information and belief, Contractor's Work has progressed to the point indicated, the Work is generally in accordance with the Construction Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Construction Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to Contractor's being entitled to such payment appear to have been fulfilled in so far as it is Engineer's responsibility to observe the Work. In the case of unit price Work, Engineer's recommendations of payment will include final determinations of quantities and classifications of the Work (subject to any subsequent adjustments allowed by the Construction Contract Documents).

b. By recommending payment, Engineer shall not thereby be deemed to have represented that observations made by Engineer to check the quality or quantity of Contractor's Work as it is performed and furnished have been exhaustive, extended to every aspect of Contractor's Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in this Agreement. Neither Engineer's review of Contractor's Work for the purposes of recommending payments nor Engineer's recommendation of any payment including final payment will impose on Engineer responsibility to supervise, direct, or control the Work, or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident thereto, or Contractor's compliance with Laws and Regulations applicable to Contractor's furnishing and performing the Work. It will also not impose responsibility on Engineer to make any examination to ascertain how or for what purposes Contractor has used the money paid to Contractor by Owner; to determine that title to any portion of the Work, including materials or equipment, has passed to Owner free and clear of any liens, claims, security interests, or encumbrances; or that there may not be other matters at issue between Owner and Contractor that might affect the amount that should be paid.

22. *Contractor's Completion Documents:* Receive from Contractor, review, and transmit to Owner maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance required by the Construction Contract Documents, certificates of inspection, tests and approvals, and Shop Drawings, Samples, and other data approved as provided under Paragraph A1.05.A.17. Receive from Contractor, review, and transmit to Owner the annotated record documents which are to be assembled by Contractor in accordance with the Construction Contract Documents to obtain final payment. The extent of Engineer's review of record documents shall be to check that Contractor has submitted all pages.

23. *Substantial Completion:* Promptly after notice from Contractor that Contractor considers the entire Work ready for its intended use, in company with Owner and Contractor, visit the Site to review the Work and determine the status of completion. Follow the procedures in the Construction Contract regarding the preliminary certificate of Substantial Completion, punch list of items to be completed, Owner's objections,

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

notice to Contractor, and issuance of a final certificate of Substantial Completion. Assist Owner regarding any remaining engineering or technical matters affecting Owner's use or occupancy of the Work following Substantial Completion.

24. *Other Tasks:* Perform or provide the following other Construction Phase tasks or deliverables: N/A

25. *Final Notice of Acceptability of the Work:* Conduct a final visit to the Project to determine if the Work is complete and acceptable so that Engineer may recommend, in writing, final payment to Contractor. Accompanying the recommendation for final payment, Engineer shall also provide a notice to Owner and Contractor in the form attached hereto as Exhibit E ("Notice of Acceptability of Work") that the Work is acceptable (subject to the provisions of the Notice and Paragraph A1.05.A.21.b) to the best of Engineer's knowledge, information, and belief, and based on the extent of the services provided by Engineer under this Agreement.

26. *Standards for Certain Construction-Phase Decisions:* Engineer will render decisions regarding the requirements of the Construction Contract Documents, and judge the acceptability of the Work, pursuant to the specific procedures set forth in the Construction Contract for initial interpretations, Change Proposals, and acceptance of the Work. In rendering such decisions and judgments, Engineer will not show partiality to Owner or Contractor, and will not be liable to Owner, Contractor, or others in connection with any proceedings, interpretations, decisions, or judgments conducted or rendered in good faith.

B. *Duration of Construction Phase:* The Construction Phase will commence with the execution of the first Construction Contract for the Project or any part thereof and will terminate upon written recommendation by Engineer for final payment to Contractors. If the Project involves more than one prime contract as indicated in Paragraph A1.03.D, then Construction Phase services may be rendered at different times in respect to the separate contracts. Subject to the provisions of Article 3, Engineer shall be entitled to an equitable increase in compensation if Construction Phase services (including Resident Project Representative services, if any) are required after the original date for completion and readiness for final payment of Contractor as set forth in the Construction Contract.

A1.06 *Post-Construction Phase*

A. Upon written authorization from Owner during the Post-Construction Phase, Engineer shall:

1. Together with Owner, visit the Project to observe any apparent defects in the Work, make recommendations as to replacement or correction of defective Work, if any, or the need to repair of any damage to the Site or adjacent areas, and assist Owner in consultations and discussions with Contractor concerning correction of any such defective Work and any needed repairs.

2. Together with Owner, visit the Project within one month before the end of the Construction Contract's correction period to ascertain whether any portion of the Work or the repair of any damage to the Site or adjacent areas is defective and therefore subject to correction by Contractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. Perform or provide the following other Post-Construction Phase tasks or deliverables: N/A

B. The Post-Construction Phase services may commence during the Construction Phase and, if not otherwise modified in this Exhibit A, will terminate twelve months after the commencement of the Construction Contract's correction period.

PART 2 – ADDITIONAL SERVICES

A2.01 *Additional Services Requiring Owner's Written Authorization*

A. If authorized in writing by Owner, Engineer shall provide Additional Services of the types listed below. These services are not included as part of Basic Services and will be paid for by Owner as indicated in Exhibit C.

1. Preparation of applications and supporting documents (in addition to those furnished under Basic Services) for private or governmental grants, loans, or advances in connection with the Project; preparation or review of environmental assessments and impact statements; review and evaluation of the effects on the design requirements for the Project of any such statements and documents prepared by others; and assistance in obtaining approvals of authorities having jurisdiction over the anticipated environmental impact of the Project.

2. Services to make measured drawings of existing conditions or facilities, to conduct tests or investigations of existing conditions or facilities, or to verify the accuracy of drawings or other information furnished by Owner or others.

3. Services resulting from significant changes in the scope, extent, or character of the portions of the Project designed or specified by Engineer, or the Project's design requirements, including, but not limited to, changes in size, complexity, Owner's schedule, character of construction, or method of financing; and revising previously accepted studies, reports, Drawings, Specifications, or Construction Contract Documents when such revisions are required by changes in Laws and Regulations enacted subsequent to the Effective Date or are due to any other causes beyond Engineer's control.

4. Services resulting from Owner's request to evaluate additional Study and Report Phase alternative solutions beyond those agreed to in Paragraph A1.01.A.1 and 2.

5. Services required as a result of Owner's providing incomplete or incorrect Project information to Engineer.

6. Providing renderings or models for Owner's use, including services in support of building information modeling or civil integrated management.

7. Undertaking investigations and studies including, but not limited to:

   a. detailed consideration of operations, maintenance, and overhead expenses;

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

b. the preparation of feasibility studies (such as those that include projections of output capacity, utility project rates, project market demand, or project revenues) and cash flow analyses, provided that such services are based on the engineering and technical aspects of the Project, and do not include rendering advice regarding municipal financial products or the issuance of municipal securities;

c. preparation of appraisals;

d. evaluating processes available for licensing, and assisting Owner in obtaining process licensing;

e. detailed quantity surveys of materials, equipment, and labor; and

f. audits or inventories required in connection with construction performed or furnished by Owner.

8. Furnishing services of Consultants for other than Basic Services.

9. Providing data or services of the types described in Exhibit B, when Owner retains Engineer to provide such data or services instead of Owner furnishing the same.

10. Providing the following services:

    a. Services attributable to more prime construction contracts than specified in Paragraph A1.03.D.

    b. Services to arrange for performance of construction services for Owner by contractors other than the principal prime Contractor, and administering Owner's contract for such services.

11. Services during out-of-town travel required of Engineer, other than for visits to the Site or Owner's office as required in Basic Services (Part 1 of Exhibit A).

12. Preparing for, coordinating with, participating in and responding to structured independent review processes, including, but not limited to, construction management, cost estimating, project peer review, value engineering, and constructability review requested by Owner; and performing or furnishing services required to revise studies, reports, Drawings, Specifications, or other documents as a result of such review processes.

13. Preparing additional bidding-related documents (or requests for proposals or other construction procurement documents) or Construction Contract Documents for alternate bids or cost estimates requested by Owner for the Work or a portion thereof.

14. Assistance in connection with bid protests, rebidding, or renegotiating contracts for construction, materials, equipment, or services, except when such assistance is required to complete services required by Paragraph 5.02.A and Exhibit F.

15. Preparing conformed Construction Contract Documents that incorporate and integrate the content of all Addenda and any amendments negotiated by Owner and Contractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

16. Providing Construction Phase services beyond the original date for completion and readiness for final payment of Contractor, but only if such services increase the total quantity of services to be performed in the Construction Phase, rather than merely shifting performance of such services to a later date.

17. Preparing Record Drawings, and furnishing such Record Drawings to Owner.

18. Supplementing Record Drawings with information regarding the completed Project, Site, and immediately adjacent areas obtained from field observations, Owner, utility companies, and other reliable sources.

19. Conducting surveys, investigations, and field measurements to verify the accuracy of Record Drawing content obtained from Contractor, Owner, utility companies, and other sources; revise and supplement Record Drawings as needed.

20. Preparation of operation, maintenance, and staffing manuals.

21. Protracted or extensive assistance in refining and adjusting of Project equipment and systems (such as initial startup, testing, and balancing).

22. Assistance to Owner in training Owner's staff to operate and maintain Project equipment and systems.

23. Assistance to Owner in developing systems and procedures for (a) control of the operation and maintenance of Project equipment and systems, and (b) related recordkeeping.

24. Preparing to serve or serving as a consultant or witness for Owner in any litigation, arbitration, lien or bond claim, or other legal or administrative proceeding involving the Project.

25. Overtime work requiring higher than regular rates.

26. Providing construction surveys and staking to enable Contractor to perform its work other than as required under Paragraph A1.05.A.8; any type of property surveys or related engineering services needed for the transfer of interests in real property; and providing other special field surveys.

27. Providing more extensive services required to enable Engineer to issue notices or certifications requested by Owner.

28. Extensive services required during any correction period, or with respect to monitoring Contractor's compliance with warranties and guarantees called for in the Construction Contract (except as agreed to under Basic Services).

29. Other additional services performed or furnished by Engineer not otherwise provided for in this Agreement.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

A2.02 *Additional Services Not Requiring Owner's Written Authorization*

A. Engineer shall advise Owner that Engineer is commencing to perform or furnish the Additional Services of the types listed below. For such Additional Services, Engineer need not request or obtain specific advance written authorization from Owner. Engineer shall cease performing or furnishing such Additional Services upon receipt of written notice to cease from Owner.

1. Services in connection with Work Change Directives and Change Orders to reflect changes requested by Owner.

2. Services in making revisions to Drawings and Specifications occasioned by the acceptance of substitute materials or equipment other than "or equal" items; services after the award of the Construction Contract in evaluating and determining the acceptability of a proposed "or equal" or substitution which is found to be inappropriate for the Project; evaluation and determination of an excessive number of proposed "or equals" or substitutions, whether proposed before or after award of the Construction Contract.

3. Services resulting from significant delays, changes, or price increases occurring as a direct or indirect result of materials, equipment, or energy shortages.

4. Additional or extended services arising from (a) the presence at the Site of any Constituent of Concern or items of historical or cultural significance, (b) emergencies or acts of God endangering the Work, (c) damage to the Work by fire or other causes during construction, (d) a significant amount of defective, neglected, or delayed Work, (e) acceleration of the progress schedule involving services beyond normal working hours, or (f) default by Contractor.

5. Services (other than Basic Services during the Post-Construction Phase) in connection with any partial utilization of the Work by Owner prior to Substantial Completion.

6. Evaluating unreasonable or frivolous requests for interpretation or information (RFIs), Change Proposals, or other demands from Contractor or others in connection with the Work, or an excessive number of RFIs, Change Proposals, or demands.

7. Reviewing a Shop Drawing or other Contractor submittal more than three times, as a result of repeated inadequate submissions by Contractor.

8. While at the Site, compliance by Engineer and its staff with those terms of Owner's or Contractor's safety program provided to Engineer subsequent to the Effective Date that exceed those normally required of engineering personnel by federal, State, or local safety authorities for similar construction sites.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **EXHIBIT B**, consisting of 3 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Owner's Responsibilities

Article 2 of the Agreement is supplemented to include the following agreement of the parties.

B2.01 In addition to other responsibilities of Owner as set forth in this Agreement, Owner shall at its expense:

A. Provide Engineer with all criteria and full information as to Owner's requirements for the Project, including design objectives and constraints, space, capacity and performance requirements, flexibility, and expandability, and any budgetary limitations.

B. Give instructions to Engineer regarding Owner's procurement of construction services (including instructions regarding advertisements for bids, instructions to bidders, and requests for proposals, as applicable), Owner's construction contract practices and requirements, insurance and bonding requirements, electronic transmittals during construction, and other information necessary for the finalization of Owner's bidding-related documents (or requests for proposals or other construction procurement documents), and Construction Contract Documents. Furnish copies (or give specific directions requesting Engineer to use copies already in Engineer's possession) of all design and construction standards, Owner's standard forms, general conditions (if other than EJCDC® C-700, Standard General Conditions of the Construction Contract, 2013 Edition), supplementary conditions, text, and related documents and content for Engineer to include in the draft bidding-related documents (or requests for proposals or other construction procurement documents), and draft Construction Contract Documents, when applicable. Owner shall have responsibility for the final content of (1) such bidding-related documents (or requests for proposals or other construction procurement documents), and (2) those portions of any Construction Contract other than the design (as set forth in the Drawings, Specifications, or otherwise), and other engineering or technical matters; and Owner shall seek the advice of Owner's legal counsel, risk managers, and insurance advisors with respect to the drafting and content of such documents.

C. Furnish to Engineer any other available information pertinent to the Project including reports and data relative to previous designs, construction, or investigation at or adjacent to the Site.

D. Following Engineer's assessment of initially-available Project information and data and upon Engineer's request, obtain, furnish, or otherwise make available (if necessary through title searches, or retention of specialists or consultants) such additional Project-related information and data as is reasonably required to enable Engineer to complete its Basic and Additional Services. Such additional information or data would generally include the following:

1. Property descriptions.

2. Zoning, deed, and other land use restrictions.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. Utility and topographic mapping and surveys.

4. Property, boundary, easement, right-of-way, and other special surveys or data, including establishing relevant reference points.

5. Explorations and tests of subsurface conditions at or adjacent to the Site; geotechnical reports and investigations; drawings of physical conditions relating to existing surface or subsurface structures at the Site; hydrographic surveys, laboratory tests and inspections of samples, materials, and equipment; with appropriate professional interpretation of such information or data.

6. Environmental assessments, audits, investigations, and impact statements, and other relevant environmental, historical, or cultural studies relevant to the Project, the Site, and adjacent areas.

7. Data or consultations as required for the Project but not otherwise identified in this Agreement.

E. Arrange for safe access to and make all provisions for Engineer to enter upon public and private property as required for Engineer to perform services under the Agreement.

F. Recognizing and acknowledging that Engineer's services and expertise do not include the following services, provide, as required for the Project:

1. Accounting, bond and financial advisory (including, if applicable, "municipal advisor" services as described in Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) and the municipal advisor registration rules issued by the Securities and Exchange Commission), independent cost estimating, and insurance counseling services.

2. Legal services with regard to issues pertaining to the Project as Owner requires, Contractor raises, or Engineer reasonably requests.

3. Such auditing services as Owner requires to ascertain how or for what purpose Contractor has used the money paid.

G. Provide the services of an independent testing laboratory to perform all inspections, tests, and approvals of samples, materials, and equipment required by the Construction Contract Documents (other than those required to be furnished or arranged by Contractor), or to evaluate the performance of materials, equipment, and facilities of Owner, prior to their incorporation into the Work with appropriate professional interpretation thereof. Provide Engineer with the findings and reports generated by testing laboratories, including findings and reports obtained from or through Contractor.

H. Provide reviews, approvals, and permits from all governmental authorities having jurisdiction to approve all phases of the Project designed or specified by Engineer and such reviews, approvals, and consents from others as may be necessary for completion of each phase of the Project.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

I. Advise Engineer of the identity and scope of services of any independent consultants employed by Owner to perform or furnish services in regard to the Project, including, but not limited to, cost estimating, project peer review, value engineering, and constructability review.

J. If Owner designates a construction manager or an individual or entity other than, or in addition to, Engineer to represent Owner at the Site, define and set forth as an attachment to this Exhibit B the duties, responsibilities, and limitations of authority of such other party and the relation thereof to the duties, responsibilities, and authority of Engineer.

K. If more than one prime contract is to be awarded for the Work designed or specified by Engineer, then designate a person or entity to have authority and responsibility for coordinating the activities among the various prime Contractors, and define and set forth the duties, responsibilities, and limitations of authority of such individual or entity and the relation thereof to the duties, responsibilities, and authority of Engineer as an attachment to this Exhibit B that is to be mutually agreed upon and made a part of this Agreement before such services begin.

L. Inform Engineer in writing of any specific requirements of safety or security programs that are applicable to Engineer, as a visitor to the Site.

M. Examine all alternative solutions, studies, reports, sketches, Drawings, Specifications, proposals, and other documents presented by Engineer (including obtaining advice of an attorney, risk manager, insurance counselor, financial/municipal advisor, and other advisors or consultants as Owner deems appropriate with respect to such examination) and render in writing timely decisions pertaining thereto.

N. Inform Engineer regarding any need for assistance in evaluating the possible use of Project Strategies, Technologies, and Techniques, as defined in Exhibit A.

O. Advise Engineer as to whether Engineer's assistance is requested in identifying opportunities for enhancing the sustainability of the Project.

P. Place and pay for advertisement for Bids in appropriate publications.

Q. Furnish to Engineer data as to Owner's anticipated costs for services to be provided by others (including, but not limited to, accounting, bond and financial, independent cost estimating, insurance counseling, and legal advice) for Owner so that Engineer may assist Owner in collating the various cost categories which comprise Total Project Costs.

R. Attend and participate in the pre-bid conference, bid opening, pre-construction conferences, construction progress and other job-related meetings, and Site visits to determine Substantial Completion and readiness of the completed Work for final payment.

S. Authorize Engineer to provide Additional Services as set forth in Part 2 of Exhibit A of the Agreement, as required.

T. Perform or provide the following: N/A

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **EXHIBIT C**, consisting of 7 pages, referred to in and part of the Agreement between Owner and Engineer for Professional Services dated [ ].

Payments to Engineer for Services and Reimbursable Expenses
COMPENSATION PACKET BC-1: Basic Services – Lump Sum

Article 2 of the Agreement is supplemented to include the following agreement of the parties:

ARTICLE 2 – OWNER'S RESPONSIBILITIES

C2.01 *Compensation for Basic Services (other than Resident Project Representative) – Lump Sum Method of Payment*

U. Owner shall pay Engineer for Basic Services set forth in Exhibit A, except for services of Engineer's Resident Project Representative, if any, as follows:

1. A Lump Sum amount of $**73,235** based on the following estimated distribution of compensation:

a.	Preliminary Design Phase	$**29,294**
b.	Final Design Phase	$**32,956**
c.	Bidding and Negotiating Phase	$**3,662**
d.	Construction Phase	$**7,323**

2. Engineer may alter the distribution of compensation between individual phases noted herein to be consistent with services actually rendered, but shall not exceed the total Lump Sum amount unless approved in writing by the Owner.

3. The Lump Sum includes compensation for Engineer's services and services of Engineer's Consultants, if any. Appropriate amounts have been incorporated in the Lump Sum to account for labor costs, overhead, profit, expenses, and Consultant charges.

4. In addition to the Lump Sum, Engineer is also entitled to reimbursement from Owner for the following Reimbursable Expenses: NONE

5. The portion of the Lump Sum amount billed for Engineer's services will be based upon Engineer's estimate of the percentage of the total services actually completed during the billing period. If any Reimbursable Expenses are expressly allowed, Engineer may also bill for any such Reimbursable Expenses incurred during the billing period.

V. *Period of Service:* The compensation amount stipulated in Compensation Packet BC-1 is conditioned on a period of service not exceeding 12 months. If such period of service is extended, the compensation amount for Engineer's services shall be appropriately adjusted.

COMPENSATION PACKET RPR-2:
Resident Project Representative – Standard Hourly Rates

Article 2 of the Agreement is supplemented to include the following agreement of the parties:

C2.04 *Compensation for Resident Project Representative Basic Services – Standard Hourly Rates Method of Payment*

A. *Owner shall pay Engineer for Resident Project Representative Basic Services as follows:*

1. *Resident Project Representative Services:* For services of Engineer's Resident Project Representative under Paragraph A1.05.A of Exhibit A, an amount equal to the cumulative hours charged to the Project by each class of Engineer's personnel times Standard Hourly Rates for each applicable billing class for all Resident Project Representative services performed on the Project, plus related Reimbursable Expenses and Engineer's Consultant's charges, if any. The total compensation under this paragraph is estimated to be $**56,960** based upon full-time RPR services on an eight-hour workday, Monday through Friday, over a **75** day construction schedule.

B. *Compensation for Reimbursable Expenses:*

1. For those Reimbursable Expenses that are not accounted for in the compensation for Basic Services under Paragraph C2.01, and are directly related to the provision of Resident Project Representative or Post-Construction Basic Services, Owner shall pay Engineer NONE.

C. *Other Provisions Concerning Payment Under this Paragraph C2.04:*

1. Whenever Engineer is entitled to compensation for the charges of Engineer's Consultants, those charges shall be the amounts billed by Engineer's Consultants to Engineer times a factor of **1.1**.

2. *Factors*: The external Reimbursable Expenses and Engineer's Consultant's factors include Engineer's overhead and profit associated with Engineer's responsibility for the administration of such services and costs.

3. *Estimated Compensation Amounts*:

a. Engineer's estimate of the amounts that will become payable for specified services are only estimates for planning purposes, are not binding on the parties, and are not the minimum or maximum amounts payable to Engineer under the Agreement.

b. When estimated compensation amounts have been stated herein and it subsequently becomes apparent to Engineer that the total compensation amount thus estimated will be exceeded, Engineer shall give Owner written notice thereof, allowing Owner to consider its options, including suspension or termination of Engineer's services for Owner's convenience. Upon notice Owner and Engineer promptly shall review the matter of services remaining to be performed and compensation for such services. Owner shall either exercise its right to suspend or

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

terminate Engineer's services for Owner's convenience, agree to such compensation exceeding said estimated amount, or agree to a reduction in the remaining services to be rendered by Engineer, so that total compensation for such services will not exceed said estimated amount when such services are completed. If Owner decides not to suspend Engineer's services during negotiations and Engineer exceeds the estimated amount before Owner and Engineer have agreed to an increase in the compensation due Engineer or a reduction in the remaining services, then Engineer shall be paid for all services rendered hereunder.

4. To the extent necessary to verify Engineer's charges and upon Owner's timely request, Engineer shall make copies of such records available to Owner at cost.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

COMPENSATION PACKET AS-1:
Additional Services – Standard Hourly Rates

Article 2 of the Agreement is supplemented to include the following agreement of the parties:

C2.05 Compensation for Additional Services – Standard Hourly Rates Method of Payment

A. Owner shall pay Engineer for Additional Services, if any, as follows:

1. *General*: For services of Engineer's personnel engaged directly on the Project pursuant to Paragraph A2.01 or A2.02 of Exhibit A, except for services as a consultant or witness under Paragraph A2.01.A.20, (which if needed shall be separately negotiated based on the nature of the required consultation or testimony) an amount equal to the cumulative hours charged to the Project by each class of Engineer's personnel times Standard Hourly Rates for each applicable billing class for all Additional Services performed on the Project, plus related Reimbursable Expenses and Engineer's Consultant's charges, if any.

B. *Compensation For Reimbursable Expenses:*

1. For those Reimbursable Expenses that are not accounted for in the compensation for Basic Services under Paragraph C2.01 and are directly related to the provision of Additional Services, Owner shall pay Engineer as mutually agreed upon by both parties.

2. The amounts payable to Engineer for Reimbursable Expenses, if any, will be the Additional Services-related internal expenses actually incurred or allocated by Engineer, plus all invoiced external Reimbursable Expenses allocable to such Additional Services, the latter multiplied by a factor of **1.1**.

3. The Reimbursable Expenses Schedule will be adjusted annually (as of January 1, 2019) to reflect equitable changes in the compensation payable to Engineer.

C. *Other Provisions Concerning Payment for Additional Services:*

1. Whenever Engineer is entitled to compensation for the charges of Engineer's Consultants, those charges shall be the amounts billed by Engineer's Consultants to Engineer times a factor of **1.1**.

2. *Factors:* The external Reimbursable Expenses and Engineer's Consultant's Factors include Engineer's overhead and profit associated with Engineer's responsibility for the administration of such services and costs.

3. To the extent necessary to verify Engineer's charges and upon Owner's timely request, Engineer shall make copies of such records available to Owner at cost.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **Appendix 2 to EXHIBIT C**, consisting of 1 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Standard Hourly Rates Schedule - 2018

A. *Standard Hourly Rates:*

1. Standard Hourly Rates are set forth in this Appendix 2 to this Exhibit C and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.

2. The Standard Hourly Rates apply only as specified in Article C2.

B. *Schedule:*

Hourly rates for services performed on or after the date of the Agreement are:

Senior Engineer	**$175/hour**
Project Engineer	**$150/hour**
Junior Engineer	**$125/hour**
Engineering Intern	**$105/hour**
Graduate Engineer	**$105/hour**
Senior AutoCad Technician	**$105/hour**
AutoCad Technician	**$90/hour**
Senior Resident Project Representative	**$95/hour**
Resident Project Representative	**$85/hour**
Field Crew	**$175/hour**
Administrative	**$45/hour**

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **EXHIBIT D**, consisting of 5 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Duties, Responsibilities, and Limitations of Authority of Resident Project Representative

Article 1 of the Agreement is supplemented to include the following agreement of the parties:

ARTICLE 1 - SERVICES OF ENGINEER

D1.01 *Resident Project Representative*

A. Engineer shall furnish a Resident Project Representative ("RPR") to assist Engineer in observing progress and quality of the Work. The RPR may provide full time representation or may provide representation to a lesser degree. RPR is Engineer's representative at the Site, will act as directed by and under the supervision of Engineer, and will confer with Engineer regarding RPR's actions.

B. Through RPR's observations of the Work, including field checks of materials and installed equipment, Engineer shall endeavor to provide further protection for Owner against defects and deficiencies in the Work. However, Engineer shall not, as a result of such RPR observations of the Work, supervise, direct, or have control over the Work, nor shall Engineer (including the RPR) have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, for security or safety at the Site, for safety precautions and programs incident to the Work or any Constructor's work in progress, for the coordination of the Constructors' work or schedules, or for any failure of any Constructor to comply with Laws and Regulations applicable to the performing and furnishing of its work. The Engineer (including RPR) neither guarantees the performances of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform the Work, or any portion of the Work, in accordance with the Construction Contract Documents. In addition, the specific terms set forth in Exhibit A, Paragraph A1.05, of this Agreement are applicable.

C. The duties and responsibilities of the RPR are as follows:

1. *General:* RPR's dealings in matters pertaining to the Work in general shall be with Engineer and Contractor. RPR's dealings with Subcontractors shall only be through or with the full knowledge and approval of Contractor. RPR shall generally communicate with Owner only with the knowledge of and under the direction of Engineer.

2. *Schedules:* Review the progress schedule, schedule of Shop Drawing and Sample submittals, schedule of values, and other schedules prepared by Contractor and consult with Engineer concerning acceptability of such schedules.

3. *Conferences and Meetings:* Attend meetings with Contractor, such as preconstruction conferences, progress meetings, job conferences, and other Project-related meetings (but not including Contractor's safety meetings), and as appropriate prepare and circulate copies of minutes thereof.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

4. *Safety Compliance:* Comply with Site safety programs, as they apply to RPR, and if required to do so by such safety programs, receive safety training specifically related to RPR's own personal safety while at the Site.

5. *Liaison:*

   a. Serve as Engineer's liaison with Contractor. Working principally through Contractor's authorized representative or designee, assist in providing information regarding the provisions and intent of the Construction Contract Documents.

   b. Assist Engineer in serving as Owner's liaison with Contractor when Contractor's operations affect Owner's on-Site operations.

   c. Assist in obtaining from Owner additional details or information, when required for proper execution of the Work.

6. *Clarifications and Interpretations:* Receive from Contractor submittal of any matters in question concerning the requirements of the Construction Contract Documents (sometimes referred to as requests for information or interpretation—RFIs), or relating to the acceptability of the Work under the Construction Contract Documents. Report to Engineer regarding such RFIs. Report to Engineer when clarifications and interpretations of the Construction Contract Documents are needed, whether as the result of a Contractor RFI or otherwise. Transmit Engineer's clarifications, interpretations, and decisions to Contractor. ,

7. *Shop Drawings and Samples:*

   a. Record date of receipt of Samples and Contractor-approved Shop Drawings.

   b. Receive Samples that are furnished at the Site by Contractor, and notify Engineer of availability of Samples for examination.

   c. Advise Engineer and Contractor of the commencement of any portion of the Work requiring a Shop Drawing or Sample submittal, if RPR believes that the submittal has not been received from Contractor, or has not been approved by Contractor or Engineer.

8. *Proposed Modifications:* Consider and evaluate Contractor's suggestions for modifications to the Drawings or Specifications, and report such suggestions, together with RPR's recommendations, if any, to Engineer. Transmit Engineer's response (if any) to such suggestions to Contractor.

9. *Review of Work; Defective Work:*

   a. Report to Engineer whenever RPR believes that any part of the Work is defective under the terms and standards set forth in the Construction Contract Documents, and provide recommendations as to whether such Work should be corrected, removed and replaced, or accepted as provided in the Construction Contract Documents.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

b. Inform Engineer of any Work that RPR believes is not defective under the terms and standards set forth in the Construction Contract Documents, but is nonetheless not compatible with the design concept of the completed Project as a functioning whole, and provide recommendations to Engineer for addressing such Work. ; and

c. Advise Engineer of that part of the Work that RPR believes should be uncovered for observation, or requires special testing, inspection, or approval.

10. *Inspections, Tests, and System Start-ups:*

a. Consult with Engineer in advance of scheduled inspections, tests, and systems start-ups.

b. Verify that tests, equipment, and systems start-ups and operating and maintenance training are conducted in the presence of appropriate Owner's personnel, and that Contractor maintains adequate records thereof.

c. Observe, record, and report to Engineer appropriate details relative to the test procedures and systems start-ups.

d. Observe whether Contractor has arranged for inspections required by Laws and Regulations, including but not limited to those to be performed by public or other agencies having jurisdiction over the Work.

e. Accompany visiting inspectors representing public or other agencies having jurisdiction over the Work, record the results of these inspections, and report to Engineer.

11. *Records*:

a. Maintain at the Site orderly files for correspondence, reports of job conferences, copies of Construction Contract Documents including all Change Orders, Field Orders, Work Change Directives, Addenda, additional Drawings issued subsequent to the execution of the Construction Contract, RFIs, Engineer's clarifications and interpretations of the Construction Contract Documents, progress reports, approved Shop Drawing and Sample submittals, and other Project-related documents.

b. Prepare a daily report or keep a diary or log book, recording Contractor's hours on the Site, Subcontractors present at the Site, weather conditions, data relative to questions of Change Orders, Field Orders, Work Change Directives, or changed conditions, Site visitors, deliveries of equipment or materials, daily activities, decisions, observations in general, and specific observations in more detail as in the case of observing test procedures; and send copies to Engineer.

c. Upon request from Owner to Engineer, photograph or video Work in progress or Site conditions.

d. Record and maintain accurate, up-to-date lists of the names, addresses, fax numbers, e-mail addresses, websites, and telephone numbers (including mobile

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

numbers) of all Contractors, Subcontractors, and major Suppliers of materials and equipment.

e. Maintain records for use in preparing Project documentation.

f. Upon completion of the Work, furnish original set of all RPR Project documentation to Engineer.

12. *Reports:*

a. Furnish to Engineer periodic reports as required of progress of the Work and of Contractor's compliance with the progress schedule and schedule of Shop Drawing and Sample submittals.

b. Draft and recommend to Engineer proposed Change Orders, Work Change Directives, and Field Orders. Obtain backup material from Contractor.

c. Furnish to Engineer and Owner copies of all inspection, test, and system start-up reports.

d. Immediately inform Engineer of the occurrence of any Site accidents, emergencies, acts of God endangering the Work, possible force majeure or delay events, damage to property by fire or other causes, or the discovery of any potential differing site condition or Constituent of Concern.

13. *Payment Requests:* Review applications for payment with Contractor for compliance with the established procedure for their submission and forward with recommendations to Engineer, noting particularly the relationship of the payment requested to the schedule of values, Work completed, and materials and equipment delivered at the Site but not incorporated in the Work.

14. *Certificates, Operation and Maintenance Manuals:* During the course of the Work, verify that materials and equipment certificates, operation and maintenance manuals and other data required by the Contract Documents to be assembled and furnished by Contractor are applicable to the items actually installed and in accordance with the Contract Documents, and have these documents delivered to Engineer for review and forwarding to Owner prior to payment for that part of the Work.

15. *Completion*:

a. Participate in Engineer's visits to the Site regarding Substantial Completion, assist in the determination of Substantial Completion, and prior to the issuance of a Certificate of Substantial Completion submit a punch list of observed items requiring completion or correction.

b. Participate in Engineer's visit to the Site in the company of Owner and Contractor, to determine completion of the Work, and prepare a final punch list of items to be completed or corrected by Contractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

c. Observe whether all items on the final punch list have been completed or corrected, and make recommendations to Engineer concerning acceptance and issuance of the Notice of Acceptability of the Work.

D. Resident Project Representative shall not:

1. Authorize any deviation from the Construction Contract Documents or substitution of materials or equipment (including "or-equal" items).

2. Exceed limitations of Engineer's authority as set forth in this Agreement.

3. Undertake any of the responsibilities of Contractor, Subcontractors, or Suppliers, or any Constructor.

4. Advise on, issue directions relative to, or assume control over any aspect of the means, methods, techniques, sequences or procedures of the Work, by Contractor or any other Constructor.

5. Advise on, issue directions regarding, or assume control over security or safety practices, precautions, and programs in connection with the activities or operations of Owner or Contractor.

6. Participate in specialized field or laboratory tests or inspections conducted off-site by others except as specifically authorized by Engineer.

7. Accept Shop Drawing or Sample submittals from anyone other than Contractor.

8. Authorize Owner to occupy the Project in whole or in part.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **EXHIBIT G**, consisting of 2 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Insurance

Paragraph 6.05 of the Agreement is supplemented to include the following agreement of the parties:

G6.05 *Insurance*

A. The limits of liability for the insurance required by Paragraph 6.05.A and 6.05.B of the Agreement are as follows:

1. By Engineer:

a. Workers' Compensation: Statutory

b. Employer's Liability --

1) Bodily injury, each accident: $100,000
2) Bodily injury by disease, each employee: $100,000
3) Bodily injury/disease, aggregate: $500,000

c. General Liability --

1) Each Occurrence (Bodily Injury and Property Damage): $1,000,000
2) General Aggregate: $2,000,000

d. Excess or Umbrella Liability --

1) Per Occurrence: $2,000,000
2) General Aggregate:

e. Automobile Liability --Combined Single Limit (Bodily Injury and Property Damage):

$1,000,000

f. Professional Liability –

1) Each Claim Made $1,000,000
2) Annual Aggregate $1,000,000

g. Other (specify): N/A

B. *Additional Insureds:*

1. The following individuals or entities are to be listed on Owner's general liability policies of insurance as additional insureds:

   a. Shows, Dearman and Waits, Inc.
   Engineer

   b. N/A
   Engineer's Consultant

   c. N/A
   Engineer's Consultant

   d. N/A
   [other]

2. During the term of this Agreement the Engineer shall notify Owner of any other Consultant to be listed as an additional insured on Owner's general liability policies of insurance.

3. The Owner shall be listed on Engineer's general liability policy as provided in Paragraph 6.05.A.

AGREEMENT
BETWEEN OWNER AND ENGINEER
FOR PROFESSIONAL SERVICES

THIS IS AN AGREEMENT effective as of _____ ("Effective Date") between

City of Hattiesburg ("Owner") and

Shows, Dearman and Waits, Inc. ("Engineer").

Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows:

Upgrade the existing drainage system, replace the existing sanitary sewer system and replace the existing water lines along Katie Avenue & Arledge Street.

("Project").

Other terms used in this Agreement are defined in Article 7.

Engineer's services under this Agreement are generally identified as follows: [ ]

Owner and Engineer further agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer shall provide, or cause to be provided, the services set forth herein and in Exhibit A.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General*

A. Owner shall have the responsibilities set forth herein and in Exhibit B.

B. Owner shall pay Engineer as set forth in Article 4 and Exhibit C.

C. Owner shall be responsible for all requirements and instructions that it furnishes to Engineer pursuant to this Agreement, and for the accuracy and completeness of all programs, reports, data, and other information furnished by Owner to Engineer pursuant to this Agreement. Engineer may use and rely upon such requirements, programs, instructions, reports, data, and information in performing or furnishing services under this Agreement, subject to any express limitations or reservations applicable to the furnished items.

D. Owner shall give prompt written notice to Engineer whenever Owner observes or otherwise becomes aware of:

1. any development that affects the scope or time of performance of Engineer's services;

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

2. the presence at the Site of any Constituent of Concern; or

3. any relevant, material defect or nonconformance in: (a) Engineer's services, (b) the Work, (c) the performance of any Constructor, or (d) Owner's performance of its responsibilities under this Agreement.

ARTICLE 3 – SCHEDULE FOR RENDERING SERVICES

3.01 *Commencement*

A. Engineer is authorized to begin rendering services as of the Effective Date.

3.02 *Time for Completion*

A. Engineer shall complete its obligations within a reasonable time. Specific periods of time for rendering services, or specific dates by which services are to be completed, are provided in Exhibit A, and are hereby agreed to be reasonable.

B. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's services is impaired, or Engineer's services are delayed or suspended, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

C. If Owner authorizes changes in the scope, extent, or character of the Project or Engineer's services, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

D. Owner shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the Engineer's performance of its services.

E. If Engineer fails, through its own fault, to complete the performance required in this Agreement within the time set forth, as duly adjusted, then Owner shall be entitled, as its sole remedy, to the recovery of direct damages, if any, resulting from such failure.

ARTICLE 4 – INVOICES AND PAYMENTS

4.01 *Invoices*

A. *Preparation and Submittal of Invoices:* Engineer shall prepare invoices in accordance with its standard invoicing practices and the terms of Exhibit C. Engineer shall submit its invoices to Owner on a monthly basis. Invoices are due and payable within 45 days of receipt.

4.02 *Payments*

A. *Application to Interest and Principal:* Payment will be credited first to any interest owed to Engineer and then to principal.

B. *Failure to Pay*: If Owner fails to make any payment due Engineer for services and expenses within 45 days after receipt of Engineer's invoice, then:

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

1. amounts due Engineer will be increased at the rate of 1.5% per month (or the maximum rate of interest permitted by law, if less) from said forty-fifth day; and

2. Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement until Owner has paid in full all amounts due for services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

C. *Disputed Invoices:* If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in writing of the specific basis for doing so, and the dispute dealt with as set out in Mississippi Code Ann. Section 31-7-305.

D. *Sales or Use Taxes:* If after the Effective Date any governmental entity takes a legislative action that imposes additional sales or use taxes on Engineer's services or compensation under this Agreement, then Engineer may invoice such additional sales or use taxes for reimbursement by Owner. Owner shall reimburse Engineer for the cost of such invoiced additional sales or use taxes; such reimbursement shall be in addition to the compensation to which Engineer is entitled under the terms of Exhibit C.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Probable Construction Cost*

A. Engineer's opinions (if any) of probable Construction Cost are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer. If Owner requires greater assurance as to probable Construction Cost, then Owner agrees to obtain an independent cost estimate.

5.02 *Designing to Construction Cost Limit*

A. If a Construction Cost limit is established between Owner and Engineer, such Construction Cost limit and a statement of Engineer's rights and responsibilities with respect thereto will be specifically set forth in Exhibit F to this Agreement.

5.03 *Opinions of Total Project Costs*

A. The services, if any, of Engineer with respect to Total Project Costs shall be limited to assisting the Owner in tabulating the various categories that comprise Total Project Costs. Engineer assumes no responsibility for the accuracy of any opinions of Total Project Costs.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. *Standard of Care:* The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality.

B. *Technical Accuracy:* Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct deficiencies in technical accuracy without additional compensation, unless such corrective action is directly attributable to deficiencies in Owner-furnished information.

C. *Consultants:* Engineer may retain such Consultants as Engineer deems necessary to assist in the performance or furnishing of the services, subject to reasonable, timely, and substantive objections by Owner.

D. *Reliance on Others:* Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. *Compliance with Laws and Regulations, and Policies and Procedures:*

1. Engineer and Owner shall comply with applicable Laws and Regulations.

2. Engineer shall comply with any and all policies, procedures, and instructions of Owner that are applicable to Engineer's performance of services under this Agreement and that Owner provides to Engineer in writing, subject to the standard of care set forth in Paragraph 6.01.A, and to the extent compliance is not inconsistent with professional practice requirements.

3. This Agreement is based on Laws and Regulations and Owner-provided written policies and procedures as of the Effective Date. The following may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, or compensation:

   a. changes after the Effective Date to Laws and Regulations;

   b. the receipt by Engineer after the Effective Date of Owner-provided written policies and procedures;

   c. changes after the Effective Date to Owner-provided written policies or procedures.

F. Engineer shall not be required to sign any document, no matter by whom requested, that would result in the Engineer having to certify, guarantee, or warrant the existence of conditions whose existence the Engineer cannot ascertain. Owner agrees not to make resolution of any dispute with the Engineer or payment of any amount due to the Engineer in any way contingent upon the Engineer signing any such document.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

G. The general conditions for any construction contract documents prepared hereunder are to be in accordance with local, state and federal law.

H. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at the Site, nor for any failure of a Constructor to comply with Laws and Regulations applicable to that Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.

I. Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform the Work in accordance with the Construction Contract Documents.

J. Engineer shall not be responsible for any decision made regarding the Construction Contract Documents, or any application, interpretation, clarification, or modification of the Construction Contract Documents, other than those made by Engineer or its Consultants.

K. Engineer is not required to provide and does not have any responsibility for surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements.

L. Engineer's services do not include providing legal advice or representation.

M. Engineer's services do not include (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission, or (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances.

N. While at the Site, Engineer, its Consultants, and their employees and representatives shall comply with the applicable requirements of Contractor's and Owner's safety programs of which Engineer has been informed in writing.

6.02 *Design Without Construction Phase Services*

A. Engineer shall be responsible only for those Construction Phase services expressly required of Engineer in Exhibit A, Paragraph A1.05. With the exception of such expressly required services, Engineer shall have no design, Shop Drawing review, or other obligations during construction, and Owner assumes all responsibility for the application and interpretation of the Construction Contract Documents, review and response to Contractor claims, Construction Contract administration, processing of Change Orders and submittals, revisions to the Construction Contract Documents during construction, construction observation and review, review of Contractor's payment applications, and all other necessary Construction Phase administrative, engineering, and professional services. Owner waives all claims against the Engineer that may be connected in any way to

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Construction Phase administrative, engineering, or professional services except for those services that are expressly required of Engineer in Exhibit A.

6.03 *Use of Documents*

A. All Documents are instruments of service, and Engineer shall retain an ownership and property interest therein (including the copyright and the right of reuse at the discretion of the Engineer) whether or not the Project is completed.

B. If Engineer is required to prepare or furnish Drawings or Specifications under this Agreement, Engineer shall deliver to Owner at least one original printed record version of such Drawings and Specifications, signed and sealed according to applicable Laws and Regulations.

C. Owner may make and retain copies of Documents for information and reference in connection with the use of the Documents on the Project. Engineer grants Owner a limited license to use the Documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all services relating to preparation of the Documents, and subject to the following limitations: (1) Owner acknowledges that such Documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer; (2) any such use or reuse, or any modification of the Documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and Consultants; (3) such limited license to Owner shall not create any rights in third parties.

D. If Engineer at Owner's request verifies the suitability of the Documents, completes them, or adapts them for extensions of the Project or for any other purpose, then Owner shall compensate Engineer at rates or in an amount to be agreed upon by Owner and Engineer.

6.04 *Electronic Transmittals*

A. Owner and Engineer may transmit, and shall accept, Project-related correspondence, Documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with a mutually agreeable protocol.

B. If this Agreement does not establish protocols for electronic or digital transmittals, then Owner and Engineer shall jointly develop such protocols.

C. When transmitting items in electronic media or digital format, the transmitting party makes no representations as to long term compatibility, usability, or readability of the items resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the items, or from those established in applicable transmittal protocols.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.05 *Insurance*

A. Engineer shall procure and maintain insurance as set forth in Exhibit G. Engineer shall cause Owner to be listed as an additional insured on any applicable general liability insurance policy carried by Engineer.

B. Section Deleted

C. Owner shall require Contractor to purchase and maintain policies of insurance covering workers' compensation, general liability, motor vehicle damage and injuries, and other insurance necessary to protect Owner's and Engineer's interests in the Project. Owner shall require Contractor to cause Engineer and its Consultants to be listed as additional insureds with respect to such liability insurance purchased and maintained by Contractor for the Project.

D. Upon written request the Engineer shall deliver to the Owner certificates of insurance evidencing the coverages indicated in Exhibit G. Such certificates shall be furnished prior to commencement of Engineer's services and at renewals thereafter during the life of the Agreement.

E. All policies of property insurance relating to the Project, including but not limited to any builder's risk policy, shall allow for waiver of subrogation rights and contain provisions to the effect that in the event of payment of any loss or damage the insurers will have no rights of recovery against any insured thereunder or against Engineer or its Consultants. Owner and Engineer shall take appropriate measures in other Project-related contracts to secure waivers of rights consistent with those set forth in this paragraph.

F. All policies of insurance shall contain a provision or endorsement that the coverage afforded will not be canceled or reduced in limits by endorsement, and that renewal will not be refused, until at least 10 days prior written notice has been given to the primary insured. Upon receipt of such notice, the receiving party shall promptly forward a copy of the notice to the other party to this Agreement.

G. At any time, Owner may request that Engineer or its Consultants, at Owner's sole expense, provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Exhibit G. If so requested by Owner, and if commercially available, Engineer shall obtain and shall require its Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner, and Exhibit G will be supplemented to incorporate these requirements.

6.06 *Suspension and Termination*

A. *Suspension:*

1. *By Owner*: Owner may suspend the Project for up to 90 days upon seven days written notice to Engineer.

2. *By Engineer*: Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement if Owner has failed to pay Engineer for invoiced services

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

and expenses, as set forth in Paragraph 4.02.B, or in response to the presence of Constituents of Concern at the Site, as set forth in Paragraph 6.10.D.

B. *Termination*: The obligation to provide further services under this Agreement may be terminated:

1. For cause,

   a. by either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party.

   b. by Engineer:

      1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or

      2) upon seven days written notice if the Engineer's services for the Project are delayed or suspended for more than 90 days for reasons beyond Engineer's control, or as the result of the presence at the Site of undisclosed Constituents of Concern, as set forth in Paragraph 6.10.D.

      3) Engineer shall have no liability to Owner on account of such termination.

   c. Notwithstanding the foregoing, this Agreement will not terminate under Paragraph 6.06.B.1.a if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt thereof; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

2. For convenience, by Owner effective upon Engineer's receipt of notice from Owner.

C. *Effective Date of Termination:* The terminating party under Paragraph 6.06.B may set the effective date of termination at a time up to 30 days later than otherwise provided to allow Engineer to demobilize personnel and equipment from the Site, to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

D. *Payments Upon Termination:*

1. In the event of any termination under Paragraph 6.06, Engineer will be entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Agreement and all Reimbursable Expenses incurred through the effective date of termination. Upon making such payment, Owner shall have the limited

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

right to the use of Documents, at Owner's sole risk, subject to the provisions of Paragraph 6.03.

2. In the event of termination by Owner for convenience or by Engineer for cause, Engineer shall be entitled, in addition to invoicing for those items identified in Paragraph 6.06.D.1, to invoice Owner and receive payment of a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with Engineer's Consultants, and other related close-out costs, using methods and rates for Additional Services as set forth in Exhibit C.

6.07 *Controlling Law*

A. This Agreement is to be governed by the Laws and Regulations of the state in which the Project is located.

6.08 *Successors, Assigns, and Beneficiaries*

A. Engineer is hereby bound and the successors, executors, administrators, and legal representatives of Engineer (and to the extent permitted by Paragraph 6.08.B the assigns of Engineer) are hereby bound to the Owner to this Agreement and to the successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, money that is due or may become due) in this Agreement without the written consent of the other party, except to the extent that any assignment, subletting, or transfer is mandated by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, other third-party individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

3. Owner agrees that the substance of the provisions of this Paragraph 6.08.C shall appear in the Construction Contract Documents.

6.09 *Dispute Resolution*

A. Owner and Engineer agree to negotiate all disputes between them in good faith for a period of 30 days from the date of notice prior to invoking other provisions of this Agreement, or exercising their rights at law.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

6.10 *Environmental Condition of Site*

A. Owner represents to Engineer that as of the Effective Date to the best of Owner's knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at or adjacent to the Site.

B. If Engineer encounters or learns of an undisclosed Constituent of Concern at the Site, then Engineer shall notify (1) Owner and (2) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

C. It is acknowledged by both parties that Engineer's scope of services does not include any services related to unknown or undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an undisclosed Constituent of Concern, then Owner shall promptly determine whether to retain a qualified expert to evaluate such condition or take any necessary corrective action.

D. If investigative or remedial action, or other professional services, are necessary with respect to undisclosed Constituents of Concern, or if investigative or remedial action beyond that reasonably contemplated is needed to address a disclosed or known Constituent of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until such portion of the Project is no longer affected.

E. If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under this Agreement, then the Engineer shall have the option of (1) accepting an equitable adjustment in its compensation or in the time of completion, or both; or (2) terminating this Agreement for cause on seven days notice.

F. Owner acknowledges that Engineer is performing professional services for Owner and that Engineer is not and shall not be required to become an "owner," "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, which are or may be encountered at or near the Site in connection with Engineer's activities under this Agreement.

6.11 *Shared Negligence*

A. *Percentage Share of Negligence:* To the fullest extent permitted by Laws and Regulations, a party's total liability to the other party and anyone claiming by, through, or under the other party for any cost, loss, or damages caused in part by the negligence of the party and in part by the negligence of the other party or any other negligent entity or individual, shall not exceed the percentage share that the party's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

6.12 *Records Retention*

A. Engineer shall maintain on file in legible form, for a period of five years following completion or termination of its services, all Documents, records (including cost records), and design calculations related to Engineer's services or pertinent to Engineer's

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

performance under this Agreement. Upon Owner's request, Engineer shall provide a copy of any such item to Owner at cost.

6.13 *Miscellaneous Provisions*

A. *Notices:* Any notice required under this Agreement will be in writing, addressed to the appropriate party at its address on the signature page and given personally, by registered or certified mail postage prepaid, or by a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival:* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability:* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Engineer, which agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

D. *Waiver:* A party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Accrual of Claims:* To the fullest extent permitted by Laws and Regulations, all causes of action arising under this Agreement shall be deemed to have accrued, and all statutory periods of limitation shall commence, no later than the date of Substantial Completion.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits hereto) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the exhibits, or in the following definitions:

1. *Addenda*—Written or graphic instruments issued prior to the opening of bids which clarify, correct, or change the bidding requirements or the proposed Construction Contract Documents.

2. *Additional Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 2 of Exhibit A of this Agreement.

3. *Agreement*—This written contract for professional services between Owner and Engineer, including all exhibits identified in Paragraph 8.01 and any duly executed amendments.

4. *Application for Payment*—The form acceptable to Engineer which is to be used by Contractor during the course of the Work in requesting progress or final payments and

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

which is to be accompanied by such supporting documentation as is required by the Construction Contract.

5. *Basic Services*—The services to be performed for or furnished to Owner by Engineer in accordance with Part 1 of Exhibit A of this Agreement.

6. *Change Order*—A document which is signed by Contractor and Owner and authorizes an addition, deletion, or revision in the Work or an adjustment in the Construction Contract Price or the Construction Contract Times, or other revision to the Construction Contract, issued on or after the effective date of the Construction Contract.

7. *Change Proposal*—A written request by Contractor, duly submitted in compliance with the procedural requirements set forth in the Construction Contract, seeking an adjustment in Construction Contract Price or Construction Contract Times, or both; contesting an initial decision by Engineer concerning the requirements of the Construction Contract Documents or the acceptability of Work under the Construction Contract Documents; challenging a set-off against payments due; or seeking other relief with respect to the terms of the Construction Contract.

8. *Constituent of Concern*—Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5501 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, State, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

9. *Construction Contract*—The entire and integrated written contract between the Owner and Contractor concerning the Work.

10. *Construction Contract Documents*—Those items designated as "Contract Documents" in the Construction Contract, and which together comprise the Construction Contract.

11. *Construction Contract Price*—The money that Owner has agreed to pay Contractor for completion of the Work in accordance with the Construction Contract Documents.

12. *Construction Contract Times*—The number of days or the dates by which Contractor shall: (a) achieve milestones, if any, in the Construction Contract; (b) achieve Substantial Completion; and (c) complete the Work.

13. *Construction Cost*—The cost to Owner of the construction of those portions of the entire Project designed or specified by or for Engineer under this Agreement, including construction labor, services, materials, equipment, insurance, and bonding costs, and allowances for contingencies. Construction Cost does not include costs of services of Engineer or other design professionals and consultants; cost of land or rights-of-way, or

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

compensation for damages to property; Owner's costs for legal, accounting, insurance counseling, or auditing services; interest or financing charges incurred in connection with the Project; or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

14. *Constructor*—Any person or entity (not including the Engineer, its employees, agents, representatives, and Consultants), performing or supporting construction activities relating to the Project, including but not limited to Contractors, Subcontractors, Suppliers, Owner's work forces, utility companies, other contractors, construction managers, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.

15. *Consultants*—Individuals or entities having a contract with Engineer to furnish services with respect to this Project as Engineer's independent professional associates and consultants; subcontractors; or vendors.

16. *Contractor*—The entity or individual with which Owner enters into a Construction Contract.

17. *Documents*—Data, reports, Drawings, Specifications, Record Drawings, building information models, civil integrated management models, and other deliverables, whether in printed or electronic format, provided or furnished in appropriate phases by Engineer to Owner pursuant to this Agreement.

18. *Drawings*—That part of the Construction Contract Documents that graphically shows the scope, extent, and character of the Work to be performed by Contractor.

19. *Effective Date*—The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, the date on which this Agreement is signed and delivered by the last of the parties to sign and deliver.

20. *Engineer*—The individual or entity named as such in this Agreement.

21. *Field Order*—A written order issued by Engineer which requires minor changes in the Work but does not change the Construction Contract Price or the Construction Contract Times.

22. *Laws and Regulations; Laws or Regulations*—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

23. *Owner*—The individual or entity named as such in this Agreement and for which Engineer's services are to be performed. Unless indicated otherwise, this is the same individual or entity that will enter into any Construction Contracts concerning the Project.

24. *Project*—The total undertaking to be accomplished for Owner by engineers, contractors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the services to be performed or furnished by Engineer under this Agreement are a part.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

25. *Record Drawings*—Drawings depicting the completed Project, or a specific portion of the completed Project, prepared by Engineer as an Additional Service and based on Contractor's record copy of all Drawings, Specifications, Addenda, Change Orders, Work Change Directives, Field Orders, and written interpretations and clarifications, as delivered to Engineer and annotated by Contractor to show changes made during construction.

26. *Reimbursable Expenses*—The expenses incurred directly by Engineer in connection with the performing or furnishing of Basic Services and Additional Services for the Project.

27. *Resident Project Representative*—The authorized representative of Engineer assigned to assist Engineer at the Site during the Construction Phase. As used herein, the term Resident Project Representative or "RPR" includes any assistants or field staff of Resident Project Representative. The duties and responsibilities of the Resident Project Representative, if any, are as set forth in Exhibit D.

28. *Samples*—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and that establish the standards by which such portion of the Work will be judged.

29. *Shop Drawings*—All drawings, diagrams, illustrations, schedules, and other data or information that are specifically prepared or assembled by or for Contractor and submitted by Contractor to illustrate some portion of the Work. Shop Drawings, whether approved or not, are not Drawings and are not Construction Contract Documents.

30. *Site*—Lands or areas to be indicated in the Construction Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements, and such other lands furnished by Owner which are designated for the use of Contractor.

31. *Specifications*—The part of the Construction Contract Documents that consists of written requirements for materials, equipment, systems, standards, and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable to the Work.

32. *Subcontractor*—An individual or entity having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work.

33. *Substantial Completion*—The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Construction Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

34. *Supplier*—A manufacturer, fabricator, supplier, distributor, materialman, or vendor having a direct contract with Contractor or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Contractor or a Subcontractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

35. *Total Project Costs*—The total cost of planning, studying, designing, constructing, testing, commissioning, and start-up of the Project, including Construction Cost and all other Project labor, services, materials, equipment, insurance, and bonding costs, allowances for contingencies, and the total costs of services of Engineer or other design professionals and consultants, together with such other Project-related costs that Owner furnishes for inclusion, including but not limited to cost of land, rights-of-way, compensation for damages to properties, Owner's costs for legal, accounting, insurance counseling, and auditing services, interest and financing charges incurred in connection with the Project, and the cost of other services to be provided by others to Owner.

36. *Work*—The entire construction or the various separately identifiable parts thereof required to be provided under the Construction Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction; furnishing, installing, and incorporating all materials and equipment into such construction; and may include related services such as testing, start-up, and commissioning, all as required by the Construction Contract Documents.

37. *Work Change Directive*—A written directive to Contractor issued on or after the effective date of the Construction Contract, signed by Owner and recommended by Engineer, ordering an addition, deletion, or revision in the Work.

B. *Day*:

1. The word "day" means a calendar day of 24 hours measured from midnight to the next midnight.

ARTICLE 8 – EXHIBITS AND SPECIAL PROVISIONS

8.01 *Exhibits Included:*

A. Exhibit A, Engineer's Services.

B. Exhibit B, Owner's Responsibilities.

C. Exhibit C, Payments to Engineer for Services and Reimbursable Expenses.

D. Exhibit D, Duties, Responsibilities and Limitations of Authority of Resident Project Representative.

E. Exhibit E, DELETED

F. Exhibit F, DELETED

G. Exhibit G, Insurance.

H. Exhibit H, DELETED

I. Exhibit I, Limitations of Liability.

J. Exhibit J, DELETED

K. Exhibit K, DELETED

8.02 *Total Agreement*

A. This Agreement, (together with the exhibits included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a written instrument duly executed by both parties.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the services to be performed or furnished by Engineer and responsibilities of Owner under this Agreement. Such an individual shall have authority to transmit instructions, receive information, and render decisions relative to this Agreement on behalf of the respective party whom the individual represents.

8.04 *Engineer's Certifications*

A. Engineer certifies that it has not engaged in corrupt, fraudulent, or coercive practices in competing for or in executing the Agreement. For the purposes of this Paragraph 8.04:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the selection process or in the Agreement execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the selection process or the execution of the Agreement to the detriment of Owner, or (b) to deprive Owner of the benefits of free and open competition;

3. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the selection process or affect the execution of the Agreement.

This is **EXHIBIT A**, consisting of 14 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Engineer's Services

Article 1 of the Agreement is supplemented to include the following agreement of the parties.

Engineer shall provide Basic and Additional Services as set forth below.

PART 1 – BASIC SERVICES

A1.01 *Study and Report Phase* - ***SECTION DELETED***

A1.02 *Preliminary Design Phase*

A. After issuance by Owner of any instructions of for use of Project Strategies, Technologies, and Techniques, or for inclusion of sustainable features in the design; and indication by Owner of any specific modifications or changes in the scope, extent, character, or design requirements of the Project desired by Owner, (1) Engineer and Owner shall discuss and resolve any necessary revisions to Engineer's compensation (through application of the provisions regarding Additional Services, or otherwise), or the time for completion of Engineer's services, resulting from the selected solution, related Project Strategies, Technologies, or Techniques, sustainable design instructions, or specific modifications to the Project, and (2) upon written from Owner, Engineer shall:

1. Prepare Preliminary Design Phase documents consisting of final design criteria, preliminary drawings, outline specifications, and written descriptions of the Project.

2. In preparing the Preliminary Design Phase documents, use any specific applicable Project Strategies, Technologies, and Techniques authorized by Owner and include sustainable features, as appropriate, pursuant to Owner's instructions.

3. Provide necessary field surveys and topographic and utility mapping for Engineer's design purposes. Comply with the scope of work and procedure for the identification and mapping of existing utilities selected and authorized by Owner pursuant to advice from Engineer based on ASCE 38, "Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data," as set forth in Paragraph A1.01.A.12 above. If no such scope of work and procedure for utility mapping has been selected and authorized, then at a minimum the utility mapping will include Engineer contacting utility owners and obtaining available information.

4. Visit the Site as needed to prepare the Preliminary Design Phase documents.

5. Advise Owner if additional reports, data, information, or services of the types described in Exhibit B are necessary and assist Owner in obtaining such reports, data, information, or services.

6. Continue to assist Owner with Project Strategies, Technologies, and Techniques that Owner has chosen to implement.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

7. Based on the information contained in the Preliminary Design Phase documents, prepare a revised opinion of probable Construction Cost, and assist Owner in tabulating the various cost categories which comprise Total Project Costs.

8. Obtain and review Owner's instructions regarding Owner's procurement of construction services (including instructions regarding advertisements for bids, instructions to bidders, and requests for proposals, as applicable), Owner's construction contract practices and requirements, insurance and bonding requirements, electronic transmittals during construction, and other information necessary for the finalization of Owner's bidding-related documents (or requests for proposals or other construction procurement documents), and Construction Contract Documents. Also obtain and review copies of Owner's design and construction standards, Owner's standard forms, general conditions (if other than EJCDC® C-700, Standard General Conditions of the Construction Contract, 2013 Edition), supplementary conditions, text, and related documents or content for Engineer to include in the draft bidding-related documents (or requests for proposals or other construction procurement documents), and in the draft Construction Contract Documents, when applicable.

9. Perform or provide the following other Preliminary Design Phase tasks or deliverables: N/A

10. Furnish 1 review copies of the Preliminary Design Phase documents, opinion of probable Construction Cost, and any other Preliminary Design Phase deliverables to Owner within 45 days of authorization to proceed with this phase, and review them with Owner. Within 15 days of receipt, Owner shall submit to Engineer any comments regarding the furnished items.

11. Revise the Preliminary Design Phase documents, opinion of probable Construction Cost, and any other Preliminary Design Phase deliverables in response to Owner's comments, as appropriate, and furnish to Owner 1 copies of the revised Preliminary Design Phase documents, revised opinion of probable Construction Cost, and any other deliverables within 60 days after receipt of Owner's comments.

B. Engineer's services under the Preliminary Design Phase will be considered complete on the date when Engineer has delivered to Owner the revised Preliminary Design Phase documents, revised opinion of probable Construction Cost, and any other Preliminary Design Phase deliverables.

A1.03 *Final Design Phase*

A. After acceptance by Owner of the Preliminary Design Phase documents, revised opinion of probable Construction Cost as determined in the Preliminary Design Phase, and any other Preliminary Design Phase deliverables, subject to any Owner-directed modifications or changes in the scope, extent, character, or design requirements of or for the Project, and upon authorization from Owner, Engineer shall:

1. Prepare final Drawings and Specifications indicating the scope, extent, and character of the Work to be performed and furnished by Contractor.

2. Visit the Site as needed to assist in preparing the final Drawings and Specifications.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. Provide technical criteria, written descriptions, and design data for Owner's use in filing applications for permits from or approvals of governmental authorities having jurisdiction to review or approve the final design; assist Owner in consultations with such authorities; and revise the Drawings and Specifications in response to directives from such authorities, as appropriate.

4. Advise Owner of any recommended adjustments to the opinion of probable Construction Cost.

5. After consultation with Owner, include in the Construction Contract Documents any specific protocols for the transmittal of Project-related correspondence, documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website. Any such protocols shall be applicable to transmittals between and among Owner, Engineer, and Contractor during the Construction Phase and Post-Construction Phase, and unless agreed otherwise shall supersede any conflicting protocols previously established for transmittals between Owner and Engineer.

6. Assist Owner in assembling known reports and drawings of Site conditions, and in identifying the technical data contained in such reports and drawings upon which bidders or other prospective contractors may rely.

7. In addition to preparing the final Drawings and Specifications, assemble drafts of other Construction Contract Documents based on specific instructions and contract forms, text, or content received from Owner.

8. Prepare or assemble draft bidding-related documents (or requests for proposals or other construction procurement documents), based on the specific bidding or procurement-related instructions and forms, text, or content received from Owner.

9. Perform or provide the following other Final Design Phase tasks or deliverables: N/A

10. Furnish for review by Owner, its legal counsel, and other advisors, 1 copies of the final Drawings and Specifications, assembled drafts of other Construction Contract Documents, the draft bidding-related documents (or requests for proposals or other construction procurement documents), and any other Final Design Phase deliverables, within 30 days of authorization to proceed with the Final Design Phase, and review them with Owner. Within 15 days of receipt, Owner shall submit to Engineer any comments regarding the furnished items, and any instructions for revisions.

11. Revise the final Drawings and Specifications, assembled drafts of other Construction Contract Documents, the draft bidding-related documents (or requests for proposals or other construction procurement documents), and any other Final Design Phase deliverables in accordance with comments and instructions from the Owner, as appropriate, and submit 1 final copies of such documents to Owner within 60 days after receipt of Owner's comments and instructions.

B. Engineer's services under the Final Design Phase will be considered complete on the date when Engineer has delivered to Owner the final Drawings and Specifications, other

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

assembled Construction Contract Documents, bidding-related documents (or requests for proposals or other construction procurement documents), and any other Final Design Phase deliverables.

C. In the event that the Work designed or specified by Engineer is to be performed or furnished under more than one prime contract, or if Engineer's services are to be separately sequenced with the work of one or more prime Contractors (such as in the case of fast-tracking), Owner and Engineer shall, prior to commencement of the Final Design Phase, develop a schedule for performance of Engineer's services during the Final Design, Bidding or Negotiating, Construction, and Post-Construction Phases in order to sequence and coordinate properly such services as are applicable to the work under such separate prime contracts. This schedule is to be prepared and included in or become an amendment to Exhibit A whether or not the work under such contracts is to proceed concurrently.

D. The number of prime contracts for Work designed or specified by Engineer upon which the Engineer's compensation has been established under this Agreement is one (1). If more prime contracts are awarded, Engineer shall be entitled to an equitable increase in its compensation under this Agreement.

A1.04 *Bidding or Negotiating Phase*

A. After acceptance by Owner of the final Drawings and Specifications, other Construction Contract Documents, bidding-related documents (or requests for proposals or other construction procurement documents), and the most recent opinion of probable Construction Cost as determined in the Final Design Phase, and upon written authorization by Owner to proceed, Engineer shall:

1. Assist Owner in advertising for and obtaining bids or proposals for the Work, assist Owner in issuing assembled design, contract, and bidding-related documents (or requests for proposals or other construction procurement documents) to prospective contractors, and, where applicable, maintain a record of prospective contractors to which documents have been issued, attend pre-bid conferences, if any, and receive and process contractor deposits or charges for the issued documents.

2. Prepare and issue Addenda as appropriate to clarify, correct, or change the issued documents.

3. Provide information or assistance needed by Owner in the course of any review of proposals or negotiations with prospective contractors.

4. Consult with Owner as to the qualifications of prospective contractors.

5. Consult with Owner as to the qualifications of subcontractors, suppliers, and other individuals and entities proposed by prospective contractors, for those portions of the Work as to which review of qualifications is required by the issued documents.

6. If the issued documents require, the Engineer shall evaluate and determine the acceptability of "or equals" and substitute materials and equipment proposed by prospective contractors, provided that such proposals are allowed by the bidding-related documents (or requests for proposals or other construction procurement

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

documents) prior to award of contracts for the Work. Services under this paragraph are subject to the provisions of Paragraph A2.02.A.2 of this Exhibit A.

7. Attend the bid opening, prepare bid tabulation sheets to meet Owner's schedule, and assist Owner in evaluating bids or proposals, assembling final contracts for the Work for execution by Owner and Contractor, and in issuing notices of award of such contracts.

8. If Owner engages in negotiations with bidders or proposers, assist Owner with respect to technical and engineering issues that arise during the negotiations.

9. Perform or provide the following other Bidding or Negotiating Phase tasks or deliverables: N/A

B. The Bidding or Negotiating Phase will be considered complete upon commencement of the Construction Phase or upon cessation of negotiations with prospective contractors (except as may be required if Exhibit F is a part of this Agreement).

A1.05 *Construction Phase*

A. Upon successful completion of the Bidding and Negotiating Phase, and upon written authorization from Owner, Engineer shall:

1. *General Administration of Construction Contract:* Consult with Owner and act as Owner's representative as provided in the Construction Contract. The extent and limitations of the duties, responsibilities, and authority of Engineer shall be as assigned in EJCDC® C-700, Standard General Conditions of the Construction Contract (2013 Edition), prepared by the Engineers Joint Contract Documents Committee, or other construction general conditions specified in this Agreement. If Owner, or Owner and Contractor, modify the duties, responsibilities, and authority of Engineer in the Construction Contract, or modify other terms of the Construction Contract having a direct bearing on Engineer, then Owner shall compensate Engineer for any related increases in the cost to provide Construction Phase services. Engineer shall not be required to furnish or perform services contrary to Engineer's responsibilities as a licensed professional. All of Owner's instructions to Contractor will be issued through Engineer, which shall have authority to act on behalf of Owner in dealings with Contractor to the extent provided in this Agreement and the Construction Contract except as otherwise provided in writing.

2. *Resident Project Representative (RPR):* Provide the services of an RPR at the Site to assist the Engineer and to provide more extensive observation of Contractor's work. Duties, responsibilities, and authority of the RPR are as set forth in Exhibit D. The furnishing of such RPR's services will not limit, extend, or modify Engineer's responsibilities or authority except as expressly set forth in Exhibit D.

3. *Selection of Independent Testing Laboratory:* Assist Owner in the selection of an independent testing laboratory to perform the services identified in Exhibit B, Paragraph B2.01.

4. *Pre-Construction Conference:* Participate in a pre-construction conference prior to commencement of Work at the Site.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

5. *Electronic Transmittal Protocols:* If the Construction Contract Documents do not specify protocols for the transmittal of Project-related correspondence, documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, then together with Owner and Contractor jointly develop such protocols for transmittals between and among Owner, Contractor, and Engineer during the Construction Phase and Post-Construction Phase.

6. *Original Documents:* If requested by Owner to do so, maintain and safeguard during the Construction Phase at least one original printed record version of the Construction Contract Documents, including Drawings and Specifications signed and sealed by Engineer and other design professionals in accordance with applicable Laws and Regulations. Throughout the Construction Phase, make such original printed record version of the Construction Contract Documents available to Contractor and Owner for review.

7. *Schedules:* Receive, review, and determine the acceptability of any and all schedules that Contractor is required to submit to Engineer, including the Progress Schedule, Schedule of Submittals, and Schedule of Values.

8. *Baselines and Benchmarks:* As appropriate, establish baselines and benchmarks for locating the Work which in Engineer's judgment are necessary to enable Contractor to proceed.

9. *Visits to Site and Observation of Construction:* In connection with observations of Contractor's Work while it is in progress:

    a. Make visits to the Site at intervals appropriate to the various stages of construction, as Engineer deems necessary, to observe as an experienced and qualified design professional the progress of Contractor's executed Work. Such visits and observations by Engineer, and the Resident Project Representative, if any, are not intended to be exhaustive or to extend to every aspect of the Work or to involve detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in this Agreement and the Construction Contract Documents, but rather are to be limited to spot checking, selective sampling, and similar methods of general observation of the Work based on Engineer's exercise of professional judgment, as assisted by the Resident Project Representative, if any. Based on information obtained during such visits and observations, Engineer will determine in general if the Work is proceeding in accordance with the Construction Contract Documents, and Engineer shall keep Owner informed of the progress of the Work.

    b. The purpose of Engineer's visits to the Site, and representation by the Resident Project Representative, if any, at the Site, will be to enable Engineer to better carry out the duties and responsibilities assigned to and undertaken by Engineer during the Construction Phase, and, in addition, by the exercise of Engineer's efforts as an experienced and qualified design professional, to provide for Owner a greater degree of confidence that the completed Work will conform in general to the Construction Contract Documents and that Contractor has implemented and maintained the integrity of the design concept of the completed Project as a functioning whole as indicated in the Construction Contract Documents. Engineer shall not, during such visits or as a result of such observations of the Work,

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

supervise, direct, or have control over the Work, nor shall Engineer have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, for security or safety at the Site, for safety precautions and programs incident to any Constructor's work in progress, for the coordination of the Constructors' work or schedules, nor for any failure of any Constructor to comply with Laws and Regulations applicable to furnishing and performing of its work. Accordingly, Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish or perform the Work, or any portion of the Work, in accordance with the Construction Contract Documents.

10. *Defective Work:* Reject Work if, on the basis of Engineer's observations, Engineer believes that such Work is defective under the terms and standards set forth in the Construction Contract Documents. Provide recommendations to Owner regarding whether Contractor should correct such Work or remove and replace such Work, or whether Owner should consider accepting such Work as provided in the Construction Contract Documents.

11. *Compatibility with Design Concept:* If Engineer has express knowledge that a specific part of the Work that is not defective under the terms and standards set forth in the Construction Contract Documents is nonetheless not compatible with the design concept of the completed Project as a functioning whole, then inform Owner of such incompatibility, and provide recommendations for addressing such Work.

12. *Clarifications and Interpretations:* Accept from Contractor and Owner submittal of all matters in question concerning the requirements of the Construction Contract Documents (sometimes referred to as requests for information or interpretation—RFIs), or relating to the acceptability of the Work under the Construction Contract Documents. With reasonable promptness, render a written clarification, interpretation, or decision on the issue submitted, or initiate an amendment or supplement to the Construction Contract Documents.

13. *Non-reviewable Matters:* If a submitted matter in question concerns the Engineer's performance of its duties and obligations, or terms and conditions of the Construction Contract Documents that do not involve (1) the performance or acceptability of the Work under the Construction Contract Documents, (2) the design (as set forth in the Drawings, Specifications, or otherwise), or (3) other engineering or technical matters, then Engineer will promptly give written notice to Owner and Contractor that Engineer will not provide a decision or interpretation.

14. *Field Orders:* Subject to any limitations in the Construction Contract Documents, Engineer may prepare and issue Field Orders requiring minor changes in the Work.

15. *Change Orders and Work Change Directives:* Recommend Change Orders and Work Change Directives to Owner, as appropriate, and prepare Change Orders and Work Change Directives as required.

16. *Differing Site Conditions:* Respond to any notice from Contractor of differing site conditions, including conditions relating to underground facilities such as utilities, and

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

hazardous environmental conditions. Promptly conduct reviews and prepare findings, conclusions, and recommendations for Owner's use.

17. *Shop Drawings, Samples, and Other Submittals:* Review and approve or take other appropriate action with respect to Shop Drawings, Samples, and other required Contractor submittals, but only for conformance with the information given in the Construction Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated by the Construction Contract Documents. Such reviews and approvals or other action will not extend to means, methods, techniques, sequences, or procedures of construction or to safety precautions and programs incident thereto. Engineer shall meet any Contractor's submittal schedule that Engineer has accepted.

18. *Substitutes and "Or-equal":* Evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by Contractor, but subject to the provisions of Paragraph A2.02.A.2 of this Exhibit A.

19. *Inspections and Tests:*

    a. Receive and review all certificates of inspections, tests, and approvals required by Laws and Regulations or the Construction Contract Documents. Engineer's review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Construction Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or approvals comply with the requirements of the Construction Contract Documents. Engineer shall be entitled to rely on the results of such inspections and tests.

    b. As deemed reasonably necessary, request that Contractor uncover Work that is to be inspected, tested, or approved.

    c. Pursuant to the terms of the Construction Contract, require special inspections or testing of the Work, whether or not the Work is fabricated, installed, or completed.

20. *Change Proposals and Claims:* (a) Review and respond to Change Proposals. Review each duly submitted Change Proposal from Contractor and, within 30 days after receipt of the Contractor's supporting data, either deny the Change Proposal in whole, approve it in whole, or deny it in part and approve it in part. Such actions shall be in writing, with a copy provided to Owner and Contractor. If the Change Proposal does not involve the design (as set forth in the Drawings, Specifications, or otherwise), the acceptability of the Work, or other engineering or technical matters, then Engineer will notify the parties that the Engineer will not resolve the Change Proposal. (b) Provide information or data to Owner regarding engineering or technical matters pertaining to Claims.

21. *Applications for Payment:* Based on Engineer's observations as an experienced and qualified design professional and on review of Applications for Payment and accompanying supporting documentation:

    a. Determine the amounts that Engineer recommends Contractor be paid. Recommend reductions in payment (set-offs) based on the provisions for set-offs

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

stated in the Construction Contract. Such recommendations of payment will be in writing and will constitute Engineer's representation to Owner, based on such observations and review, that, to the best of Engineer's knowledge, information and belief, Contractor's Work has progressed to the point indicated, the Work is generally in accordance with the Construction Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent tests called for in the Construction Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to Contractor's being entitled to such payment appear to have been fulfilled in so far as it is Engineer's responsibility to observe the Work. In the case of unit price Work, Engineer's recommendations of payment will include final determinations of quantities and classifications of the Work (subject to any subsequent adjustments allowed by the Construction Contract Documents).

b. By recommending payment, Engineer shall not thereby be deemed to have represented that observations made by Engineer to check the quality or quantity of Contractor's Work as it is performed and furnished have been exhaustive, extended to every aspect of Contractor's Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in this Agreement. Neither Engineer's review of Contractor's Work for the purposes of recommending payments nor Engineer's recommendation of any payment including final payment will impose on Engineer responsibility to supervise, direct, or control the Work, or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident thereto, or Contractor's compliance with Laws and Regulations applicable to Contractor's furnishing and performing the Work. It will also not impose responsibility on Engineer to make any examination to ascertain how or for what purposes Contractor has used the money paid to Contractor by Owner; to determine that title to any portion of the Work, including materials or equipment, has passed to Owner free and clear of any liens, claims, security interests, or encumbrances; or that there may not be other matters at issue between Owner and Contractor that might affect the amount that should be paid.

22. *Contractor's Completion Documents:* Receive from Contractor, review, and transmit to Owner maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance required by the Construction Contract Documents, certificates of inspection, tests and approvals, and Shop Drawings, Samples, and other data approved as provided under Paragraph A1.05.A.17. Receive from Contractor, review, and transmit to Owner the annotated record documents which are to be assembled by Contractor in accordance with the Construction Contract Documents to obtain final payment. The extent of Engineer's review of record documents shall be to check that Contractor has submitted all pages.

23. *Substantial Completion:* Promptly after notice from Contractor that Contractor considers the entire Work ready for its intended use, in company with Owner and Contractor, visit the Site to review the Work and determine the status of completion. Follow the procedures in the Construction Contract regarding the preliminary certificate of Substantial Completion, punch list of items to be completed, Owner's objections,

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

notice to Contractor, and issuance of a final certificate of Substantial Completion. Assist Owner regarding any remaining engineering or technical matters affecting Owner's use or occupancy of the Work following Substantial Completion.

24. *Other Tasks:* Perform or provide the following other Construction Phase tasks or deliverables: N/A

25. *Final Notice of Acceptability of the Work:* Conduct a final visit to the Project to determine if the Work is complete and acceptable so that Engineer may recommend, in writing, final payment to Contractor. Accompanying the recommendation for final payment, Engineer shall also provide a notice to Owner and Contractor in the form attached hereto as Exhibit E ("Notice of Acceptability of Work") that the Work is acceptable (subject to the provisions of the Notice and Paragraph A1.05.A.21.b) to the best of Engineer's knowledge, information, and belief, and based on the extent of the services provided by Engineer under this Agreement.

26. *Standards for Certain Construction-Phase Decisions:* Engineer will render decisions regarding the requirements of the Construction Contract Documents, and judge the acceptability of the Work, pursuant to the specific procedures set forth in the Construction Contract for initial interpretations, Change Proposals, and acceptance of the Work. In rendering such decisions and judgments, Engineer will not show partiality to Owner or Contractor, and will not be liable to Owner, Contractor, or others in connection with any proceedings, interpretations, decisions, or judgments conducted or rendered in good faith.

B. *Duration of Construction Phase:* The Construction Phase will commence with the execution of the first Construction Contract for the Project or any part thereof and will terminate upon written recommendation by Engineer for final payment to Contractors. If the Project involves more than one prime contract as indicated in Paragraph A1.03.D, then Construction Phase services may be rendered at different times in respect to the separate contracts. Subject to the provisions of Article 3, Engineer shall be entitled to an equitable increase in compensation if Construction Phase services (including Resident Project Representative services, If any) are required after the original date for completion and readiness for final payment of Contractor as set forth in the Construction Contract.

A1.06 *Post-Construction Phase*

A. Upon written authorization from Owner during the Post-Construction Phase, Engineer shall:

1. Together with Owner, visit the Project to observe any apparent defects in the Work, make recommendations as to replacement or correction of defective Work, if any, or the need to repair of any damage to the Site or adjacent areas, and assist Owner in consultations and discussions with Contractor concerning correction of any such defective Work and any needed repairs.

2. Together with Owner, visit the Project within one month before the end of the Construction Contract's correction period to ascertain whether any portion of the Work or the repair of any damage to the Site or adjacent areas is defective and therefore subject to correction by Contractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. Perform or provide the following other Post-Construction Phase tasks or deliverables: N/A

B. The Post-Construction Phase services may commence during the Construction Phase and, if not otherwise modified in this Exhibit A, will terminate twelve months after the commencement of the Construction Contract's correction period.

PART 2 – ADDITIONAL SERVICES

A2.01 *Additional Services Requiring Owner's Written Authorization*

A. If authorized in writing by Owner, Engineer shall provide Additional Services of the types listed below. These services are not included as part of Basic Services and will be paid for by Owner as indicated in Exhibit C.

1. Preparation of applications and supporting documents (in addition to those furnished under Basic Services) for private or governmental grants, loans, or advances in connection with the Project; preparation or review of environmental assessments and impact statements; review and evaluation of the effects on the design requirements for the Project of any such statements and documents prepared by others; and assistance in obtaining approvals of authorities having jurisdiction over the anticipated environmental impact of the Project.

2. Services to make measured drawings of existing conditions or facilities, to conduct tests or investigations of existing conditions or facilities, or to verify the accuracy of drawings or other information furnished by Owner or others.

3. Services resulting from significant changes in the scope, extent, or character of the portions of the Project designed or specified by Engineer, or the Project's design requirements, including, but not limited to, changes in size, complexity, Owner's schedule, character of construction, or method of financing; and revising previously accepted studies, reports, Drawings, Specifications, or Construction Contract Documents when such revisions are required by changes in Laws and Regulations enacted subsequent to the Effective Date or are due to any other causes beyond Engineer's control.

4. Services resulting from Owner's request to evaluate additional Study and Report Phase alternative solutions beyond those agreed to in Paragraph A1.01.A.1 and 2.

5. Services required as a result of Owner's providing incomplete or incorrect Project information to Engineer.

6. Providing renderings or models for Owner's use, including services in support of building information modeling or civil integrated management.

7. Undertaking investigations and studies including, but not limited to:

   a. detailed consideration of operations, maintenance, and overhead expenses;

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

b. the preparation of feasibility studies (such as those that include projections of output capacity, utility project rates, project market demand, or project revenues) and cash flow analyses, provided that such services are based on the engineering and technical aspects of the Project, and do not include rendering advice regarding municipal financial products or the issuance of municipal securities;

c. preparation of appraisals;

d. evaluating processes available for licensing, and assisting Owner in obtaining process licensing;

e. detailed quantity surveys of materials, equipment, and labor; and

f. audits or inventories required in connection with construction performed or furnished by Owner.

8. Furnishing services of Consultants for other than Basic Services.

9. Providing data or services of the types described in Exhibit B, when Owner retains Engineer to provide such data or services instead of Owner furnishing the same.

10. Providing the following services:

    a. Services attributable to more prime construction contracts than specified in Paragraph A1.03.D.

    b. Services to arrange for performance of construction services for Owner by contractors other than the principal prime Contractor, and administering Owner's contract for such services.

11. Services during out-of-town travel required of Engineer, other than for visits to the Site or Owner's office as required in Basic Services (Part 1 of Exhibit A).

12. Preparing for, coordinating with, participating in and responding to structured independent review processes, including, but not limited to, construction management, cost estimating, project peer review, value engineering, and constructability review requested by Owner; and performing or furnishing services required to revise studies, reports, Drawings, Specifications, or other documents as a result of such review processes.

13. Preparing additional bidding-related documents (or requests for proposals or other construction procurement documents) or Construction Contract Documents for alternate bids or cost estimates requested by Owner for the Work or a portion thereof.

14. Assistance in connection with bid protests, rebidding, or renegotiating contracts for construction, materials, equipment, or services, except when such assistance is required to complete services required by Paragraph 5.02.A and Exhibit F.

15. Preparing conformed Construction Contract Documents that incorporate and integrate the content of all Addenda and any amendments negotiated by Owner and Contractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

16. Providing Construction Phase services beyond the original date for completion and readiness for final payment of Contractor, but only if such services increase the total quantity of services to be performed in the Construction Phase, rather than merely shifting performance of such services to a later date.

17. Preparing Record Drawings, and furnishing such Record Drawings to Owner.

18. Supplementing Record Drawings with information regarding the completed Project, Site, and immediately adjacent areas obtained from field observations, Owner, utility companies, and other reliable sources.

19. Conducting surveys, investigations, and field measurements to verify the accuracy of Record Drawing content obtained from Contractor, Owner, utility companies, and other sources; revise and supplement Record Drawings as needed.

20. Preparation of operation, maintenance, and staffing manuals.

21. Protracted or extensive assistance in refining and adjusting of Project equipment and systems (such as initial startup, testing, and balancing).

22. Assistance to Owner in training Owner's staff to operate and maintain Project equipment and systems.

23. Assistance to Owner in developing systems and procedures for (a) control of the operation and maintenance of Project equipment and systems, and (b) related recordkeeping.

24. Preparing to serve or serving as a consultant or witness for Owner in any litigation, arbitration, lien or bond claim, or other legal or administrative proceeding involving the Project.

25. Overtime work requiring higher than regular rates.

26. Providing construction surveys and staking to enable Contractor to perform its work other than as required under Paragraph A1.05.A.8; any type of property surveys or related engineering services needed for the transfer of interests in real property; and providing other special field surveys.

27. Providing more extensive services required to enable Engineer to issue notices or certifications requested by Owner.

28. Extensive services required during any correction period, or with respect to monitoring Contractor's compliance with warranties and guarantees called for in the Construction Contract (except as agreed to under Basic Services).

29. Other additional services performed or furnished by Engineer not otherwise provided for in this Agreement.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

A2.02 *Additional Services Not Requiring Owner's Written Authorization*

A. Engineer shall advise Owner that Engineer is commencing to perform or furnish the Additional Services of the types listed below. For such Additional Services, Engineer need not request or obtain specific advance written authorization from Owner. Engineer shall cease performing or furnishing such Additional Services upon receipt of written notice to cease from Owner.

1. Services in connection with Work Change Directives and Change Orders to reflect changes requested by Owner.

2. Services in making revisions to Drawings and Specifications occasioned by the acceptance of substitute materials or equipment other than "or equal" items; services after the award of the Construction Contract in evaluating and determining the acceptability of a proposed "or equal" or substitution which is found to be inappropriate for the Project; evaluation and determination of an excessive number of proposed "or equals" or substitutions, whether proposed before or after award of the Construction Contract.

3. Services resulting from significant delays, changes, or price increases occurring as a direct or indirect result of materials, equipment, or energy shortages.

4. Additional or extended services arising from (a) the presence at the Site of any Constituent of Concern or items of historical or cultural significance, (b) emergencies or acts of God endangering the Work, (c) damage to the Work by fire or other causes during construction, (d) a significant amount of defective, neglected, or delayed Work, (e) acceleration of the progress schedule involving services beyond normal working hours, or (f) default by Contractor.

5. Services (other than Basic Services during the Post-Construction Phase) in connection with any partial utilization of the Work by Owner prior to Substantial Completion.

6. Evaluating unreasonable or frivolous requests for interpretation or information (RFIs), Change Proposals, or other demands from Contractor or others in connection with the Work, or an excessive number of RFIs, Change Proposals, or demands.

7. Reviewing a Shop Drawing or other Contractor submittal more than three times, as a result of repeated inadequate submissions by Contractor.

8. While at the Site, compliance by Engineer and its staff with those terms of Owner's or Contractor's safety program provided to Engineer subsequent to the Effective Date that exceed those normally required of engineering personnel by federal, State, or local safety authorities for similar construction sites.

Owner's Responsibilities

Article 2 of the Agreement is supplemented to include the following agreement of the parties.

B2.01 In addition to other responsibilities of Owner as set forth in this Agreement, Owner shall at its expense:

A. Provide Engineer with all criteria and full information as to Owner's requirements for the Project, including design objectives and constraints, space, capacity and performance requirements, flexibility, and expandability, and any budgetary limitations.

B. Give instructions to Engineer regarding Owner's procurement of construction services (including instructions regarding advertisements for bids, instructions to bidders, and requests for proposals, as applicable), Owner's construction contract practices and requirements, insurance and bonding requirements, electronic transmittals during construction, and other information necessary for the finalization of Owner's bidding-related documents (or requests for proposals or other construction procurement documents), and Construction Contract Documents. Furnish copies (or give specific directions requesting Engineer to use copies already in Engineer's possession) of all design and construction standards, Owner's standard forms, general conditions (if other than EJCDC® C-700, Standard General Conditions of the Construction Contract, 2013 Edition), supplementary conditions, text, and related documents and content for Engineer to include in the draft bidding-related documents (or requests for proposals or other construction procurement documents), and draft Construction Contract Documents, when applicable. Owner shall have responsibility for the final content of (1) such bidding-related documents (or requests for proposals or other construction procurement documents), and (2) those portions of any Construction Contract other than the design (as set forth in the Drawings, Specifications, or otherwise), and other engineering or technical matters; and Owner shall seek the advice of Owner's legal counsel, risk managers, and insurance advisors with respect to the drafting and content of such documents.

C. Furnish to Engineer any other available information pertinent to the Project including reports and data relative to previous designs, construction, or investigation at or adjacent to the Site.

D. Following Engineer's assessment of initially-available Project information and data and upon Engineer's request, obtain, furnish, or otherwise make available (if necessary through title searches, or retention of specialists or consultants) such additional Project-related information and data as is reasonably required to enable Engineer to complete its Basic and Additional Services. Such additional information or data would generally include the following:

1. Property descriptions.

2. Zoning, deed, and other land use restrictions.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

3. Utility and topographic mapping and surveys.

4. Property, boundary, easement, right-of-way, and other special surveys or data, including establishing relevant reference points.

5. Explorations and tests of subsurface conditions at or adjacent to the Site; geotechnical reports and investigations; drawings of physical conditions relating to existing surface or subsurface structures at the Site; hydrographic surveys, laboratory tests and inspections of samples, materials, and equipment; with appropriate professional interpretation of such information or data.

6. Environmental assessments, audits, investigations, and impact statements, and other relevant environmental, historical, or cultural studies relevant to the Project, the Site, and adjacent areas.

7. Data or consultations as required for the Project but not otherwise identified in this Agreement.

E. Arrange for safe access to and make all provisions for Engineer to enter upon public and private property as required for Engineer to perform services under the Agreement.

F. Recognizing and acknowledging that Engineer's services and expertise do not include the following services, provide, as required for the Project:

1. Accounting, bond and financial advisory (including, if applicable, "municipal advisor" services as described in Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) and the municipal advisor registration rules issued by the Securities and Exchange Commission), independent cost estimating, and insurance counseling services.

2. Legal services with regard to issues pertaining to the Project as Owner requires, Contractor raises, or Engineer reasonably requests.

3. Such auditing services as Owner requires to ascertain how or for what purpose Contractor has used the money paid.

G. Provide the services of an independent testing laboratory to perform all inspections, tests, and approvals of samples, materials, and equipment required by the Construction Contract Documents (other than those required to be furnished or arranged by Contractor), or to evaluate the performance of materials, equipment, and facilities of Owner, prior to their incorporation into the Work with appropriate professional interpretation thereof. Provide Engineer with the findings and reports generated by testing laboratories, including findings and reports obtained from or through Contractor.

H. Provide reviews, approvals, and permits from all governmental authorities having jurisdiction to approve all phases of the Project designed or specified by Engineer and such reviews, approvals, and consents from others as may be necessary for completion of each phase of the Project.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

I. Advise Engineer of the identity and scope of services of any independent consultants employed by Owner to perform or furnish services in regard to the Project, including, but not limited to, cost estimating, project peer review, value engineering, and constructability review.

J. If Owner designates a construction manager or an individual or entity other than, or in addition to, Engineer to represent Owner at the Site, define and set forth as an attachment to this Exhibit B the duties, responsibilities, and limitations of authority of such other party and the relation thereof to the duties, responsibilities, and authority of Engineer.

K. If more than one prime contract is to be awarded for the Work designed or specified by Engineer, then designate a person or entity to have authority and responsibility for coordinating the activities among the various prime Contractors, and define and set forth the duties, responsibilities, and limitations of authority of such individual or entity and the relation thereof to the duties, responsibilities, and authority of Engineer as an attachment to this Exhibit B that is to be mutually agreed upon and made a part of this Agreement before such services begin.

L. Inform Engineer in writing of any specific requirements of safety or security programs that are applicable to Engineer, as a visitor to the Site.

M. Examine all alternative solutions, studies, reports, sketches, Drawings, Specifications, proposals, and other documents presented by Engineer (including obtaining advice of an attorney, risk manager, insurance counselor, financial/municipal advisor, and other advisors or consultants as Owner deems appropriate with respect to such examination) and render in writing timely decisions pertaining thereto.

N. Inform Engineer regarding any need for assistance in evaluating the possible use of Project Strategies, Technologies, and Techniques, as defined in Exhibit A.

O. Advise Engineer as to whether Engineer's assistance is requested in identifying opportunities for enhancing the sustainability of the Project.

P. Place and pay for advertisement for Bids in appropriate publications.

Q. Furnish to Engineer data as to Owner's anticipated costs for services to be provided by others (including, but not limited to, accounting, bond and financial, independent cost estimating, insurance counseling, and legal advice) for Owner so that Engineer may assist Owner in collating the various cost categories which comprise Total Project Costs.

R. Attend and participate in the pre-bid conference, bid opening, pre-construction conferences, construction progress and other Job-related meetings, and Site visits to determine Substantial Completion and readiness of the completed Work for final payment.

S. Authorize Engineer to provide Additional Services as set forth in Part 2 of Exhibit A of the Agreement, as required.

T. Perform or provide the following: N/A

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **EXHIBIT C**, consisting of 7 pages, referred to in and part of the Agreement between Owner and Engineer for Professional Services dated [ ].

Payments to Engineer for Services and Reimbursable Expenses
COMPENSATION PACKET BC-1: Basic Services – Lump Sum

Article 2 of the Agreement is supplemented to include the following agreement of the parties:

ARTICLE 2 – OWNER'S RESPONSIBILITIES

C2.01 *Compensation for Basic Services (other than Resident Project Representative) – Lump Sum Method of Payment*

U. Owner shall pay Engineer for Basic Services set forth in Exhibit A, except for services of Engineer's Resident Project Representative, if any, as follows:

1. A Lump Sum amount of **$73,235** based on the following estimated distribution of compensation:

a.	Preliminary Design Phase	**$29,294**
b.	Final Design Phase	**$32,956**
c.	Bidding and Negotiating Phase	**$3,662**
d.	Construction Phase	**$7,323**

2. Engineer may alter the distribution of compensation between individual phases noted herein to be consistent with services actually rendered, but shall not exceed the total Lump Sum amount unless approved in writing by the Owner.

3. The Lump Sum includes compensation for Engineer's services and services of Engineer's Consultants, if any. Appropriate amounts have been incorporated in the Lump Sum to account for labor costs, overhead, profit, expenses, and Consultant charges.

4. In addition to the Lump Sum, Engineer is also entitled to reimbursement from Owner for the following Reimbursable Expenses: NONE

5. The portion of the Lump Sum amount billed for Engineer's services will be based upon Engineer's estimate of the percentage of the total services actually completed during the billing period. If any Reimbursable Expenses are expressly allowed, Engineer may also bill for any such Reimbursable Expenses incurred during the billing period.

V. *Period of Service:* The compensation amount stipulated in Compensation Packet BC-1 is conditioned on a period of service not exceeding 12 months. If such period of service is extended, the compensation amount for Engineer's services shall be appropriately adjusted.

COMPENSATION PACKET RPR-2:
Resident Project Representative – Standard Hourly Rates

Article 2 of the Agreement is supplemented to include the following agreement of the parties:

C2.04 *Compensation for Resident Project Representative Basic Services – Standard Hourly Rates Method of Payment*

A. *Owner shall pay Engineer for Resident Project Representative Basic Services as follows:*

1. *Resident Project Representative Services:* For services of Engineer's Resident Project Representative under Paragraph A1.05.A of Exhibit A, an amount equal to the cumulative hours charged to the Project by each class of Engineer's personnel times Standard Hourly Rates for each applicable billing class for all Resident Project Representative services performed on the Project, plus related Reimbursable Expenses and Engineer's Consultant's charges, if any. The total compensation under this paragraph is estimated to be **$56,960** based upon full-time RPR services on an eight-hour workday, Monday through Friday, over a **75** day construction schedule.

B. *Compensation for Reimbursable Expenses:*

1. For those Reimbursable Expenses that are not accounted for in the compensation for Basic Services under Paragraph C2.01, and are directly related to the provision of Resident Project Representative or Post-Construction Basic Services, Owner shall pay Engineer NONE.

C. *Other Provisions Concerning Payment Under this Paragraph C2.04:*

1. Whenever Engineer is entitled to compensation for the charges of Engineer's Consultants, those charges shall be the amounts billed by Engineer's Consultants to Engineer times a factor of **1.1**.

2. *Factors*: The external Reimbursable Expenses and Engineer's Consultant's factors include Engineer's overhead and profit associated with Engineer's responsibility for the administration of such services and costs.

3. *Estimated Compensation Amounts*:

a. Engineer's estimate of the amounts that will become payable for specified services are only estimates for planning purposes, are not binding on the parties, and are not the minimum or maximum amounts payable to Engineer under the Agreement.

b. When estimated compensation amounts have been stated herein and it subsequently becomes apparent to Engineer that the total compensation amount thus estimated will be exceeded, Engineer shall give Owner written notice thereof, allowing Owner to consider its options, including suspension or termination of Engineer's services for Owner's convenience. Upon notice Owner and Engineer promptly shall review the matter of services remaining to be performed and compensation for such services. Owner shall either exercise its right to suspend or

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

terminate Engineer's services for Owner's convenience, agree to such compensation exceeding said estimated amount, or agree to a reduction in the remaining services to be rendered by Engineer, so that total compensation for such services will not exceed said estimated amount when such services are completed. If Owner decides not to suspend Engineer's services during negotiations and Engineer exceeds the estimated amount before Owner and Engineer have agreed to an increase in the compensation due Engineer or a reduction in the remaining services, then Engineer shall be paid for all services rendered hereunder.

4. To the extent necessary to verify Engineer's charges and upon Owner's timely request, Engineer shall make copies of such records available to Owner at cost.

COMPENSATION PACKET AS-1:
Additional Services – Standard Hourly Rates

Article 2 of the Agreement is supplemented to include the following agreement of the parties:

C2.05 Compensation for Additional Services – Standard Hourly Rates Method of Payment

A. Owner shall pay Engineer for Additional Services, if any, as follows:

1. *General*: For services of Engineer's personnel engaged directly on the Project pursuant to Paragraph A2.01 or A2.02 of Exhibit A, except for services as a consultant or witness under Paragraph A2.01.A.20, (which if needed shall be separately negotiated based on the nature of the required consultation or testimony) an amount equal to the cumulative hours charged to the Project by each class of Engineer's personnel times Standard Hourly Rates for each applicable billing class for all Additional Services performed on the Project, plus related Reimbursable Expenses and Engineer's Consultant's charges, if any.

B. *Compensation For Reimbursable Expenses:*

1. For those Reimbursable Expenses that are not accounted for in the compensation for Basic Services under Paragraph C2.01 and are directly related to the provision of Additional Services, Owner shall pay Engineer as mutually agreed upon by both parties.

2. The amounts payable to Engineer for Reimbursable Expenses, if any, will be the Additional Services-related internal expenses actually incurred or allocated by Engineer, plus all invoiced external Reimbursable Expenses allocable to such Additional Services, the latter multiplied by a factor of **1.1**.

3. The Reimbursable Expenses Schedule will be adjusted annually (as of January 1, 2019) to reflect equitable changes in the compensation payable to Engineer.

C. *Other Provisions Concerning Payment for Additional Services:*

1. Whenever Engineer is entitled to compensation for the charges of Engineer's Consultants, those charges shall be the amounts billed by Engineer's Consultants to Engineer times a factor of **1.1**.

2. *Factors:* The external Reimbursable Expenses and Engineer's Consultant's Factors include Engineer's overhead and profit associated with Engineer's responsibility for the administration of such services and costs.

3. To the extent necessary to verify Engineer's charges and upon Owner's timely request, Engineer shall make copies of such records available to Owner at cost.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **Appendix 2 to EXHIBIT C**, consisting of 1 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Standard Hourly Rates Schedule - 2018

A. *Standard Hourly Rates:*

1. Standard Hourly Rates are set forth in this Appendix 2 to this Exhibit C and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.

2. The Standard Hourly Rates apply only as specified in Article C2.

B. *Schedule:*

Hourly rates for services performed on or after the date of the Agreement are:

Senior Engineer	**$175/hour**
Project Engineer	**$150/hour**
Junior Engineer	**$125/hour**
Engineering Intern	**$105/hour**
Graduate Engineer	**$105/hour**
Senior AutoCad Technician	**$105/hour**
AutoCad Technician	**$90/hour**
Senior Resident Project Representative	**$95/hour**
Resident Project Representative	**$85/hour**
Field Crew	**$175/hour**
Administrative	**$45/hour**

Duties, Responsibilities, and Limitations of Authority of Resident Project Representative

Article 1 of the Agreement is supplemented to include the following agreement of the parties:

ARTICLE 1 - SERVICES OF ENGINEER

D1.01 *Resident Project Representative*

A. Engineer shall furnish a Resident Project Representative ("RPR") to assist Engineer in observing progress and quality of the Work. The RPR may provide full time representation or may provide representation to a lesser degree. RPR is Engineer's representative at the Site, will act as directed by and under the supervision of Engineer, and will confer with Engineer regarding RPR's actions.

B. Through RPR's observations of the Work, including field checks of materials and installed equipment, Engineer shall endeavor to provide further protection for Owner against defects and deficiencies in the Work. However, Engineer shall not, as a result of such RPR observations of the Work, supervise, direct, or have control over the Work, nor shall Engineer (including the RPR) have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, for security or safety at the Site, for safety precautions and programs incident to the Work or any Constructor's work in progress, for the coordination of the Constructors' work or schedules, or for any failure of any Constructor to comply with Laws and Regulations applicable to the performing and furnishing of its work. The Engineer (including RPR) neither guarantees the performances of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform the Work, or any portion of the Work, in accordance with the Construction Contract Documents. In addition, the specific terms set forth in Exhibit A, Paragraph A1.05, of this Agreement are applicable.

C. The duties and responsibilities of the RPR are as follows:

1. *General:* RPR's dealings in matters pertaining to the Work in general shall be with Engineer and Contractor. RPR's dealings with Subcontractors shall only be through or with the full knowledge and approval of Contractor. RPR shall generally communicate with Owner only with the knowledge of and under the direction of Engineer.

2. *Schedules:* Review the progress schedule, schedule of Shop Drawing and Sample submittals, schedule of values, and other schedules prepared by Contractor and consult with Engineer concerning acceptability of such schedules.

3. *Conferences and Meetings:* Attend meetings with Contractor, such as preconstruction conferences, progress meetings, job conferences, and other Project-related meetings (but not including Contractor's safety meetings), and as appropriate prepare and circulate copies of minutes thereof.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

4. *Safety Compliance:* Comply with Site safety programs, as they apply to RPR, and if required to do so by such safety programs, receive safety training specifically related to RPR's own personal safety while at the Site.

5. *Liaison:*

   a. Serve as Engineer's liaison with Contractor. Working principally through Contractor's authorized representative or designee, assist in providing information regarding the provisions and intent of the Construction Contract Documents.

   b. Assist Engineer in serving as Owner's liaison with Contractor when Contractor's operations affect Owner's on-Site operations.

   c. Assist in obtaining from Owner additional details or information, when required for proper execution of the Work.

6. *Clarifications and Interpretations:* Receive from Contractor submittal of any matters in question concerning the requirements of the Construction Contract Documents (sometimes referred to as requests for information or interpretation—RFIs), or relating to the acceptability of the Work under the Construction Contract Documents. Report to Engineer regarding such RFIs. Report to Engineer when clarifications and interpretations of the Construction Contract Documents are needed, whether as the result of a Contractor RFI or otherwise. Transmit Engineer's clarifications, interpretations, and decisions to Contractor. ,

7. *Shop Drawings and Samples:*

   a. Record date of receipt of Samples and Contractor-approved Shop Drawings.

   b. Receive Samples that are furnished at the Site by Contractor, and notify Engineer of availability of Samples for examination.

   c. Advise Engineer and Contractor of the commencement of any portion of the Work requiring a Shop Drawing or Sample submittal, if RPR believes that the submittal has not been received from Contractor, or has not been approved by Contractor or Engineer.

8. *Proposed Modifications:* Consider and evaluate Contractor's suggestions for modifications to the Drawings or Specifications, and report such suggestions, together with RPR's recommendations, if any, to Engineer. Transmit Engineer's response (if any) to such suggestions to Contractor.

9. *Review of Work; Defective Work:*

   a. Report to Engineer whenever RPR believes that any part of the Work is defective under the terms and standards set forth in the Construction Contract Documents, and provide recommendations as to whether such Work should be corrected, removed and replaced, or accepted as provided in the Construction Contract Documents.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

b. Inform Engineer of any Work that RPR believes is not defective under the terms and standards set forth in the Construction Contract Documents, but is nonetheless not compatible with the design concept of the completed Project as a functioning whole, and provide recommendations to Engineer for addressing such Work. ; and

c. Advise Engineer of that part of the Work that RPR believes should be uncovered for observation, or requires special testing, inspection, or approval.

10. *Inspections, Tests, and System Start-ups:*

a. Consult with Engineer in advance of scheduled inspections, tests, and systems start-ups.

b. Verify that tests, equipment, and systems start-ups and operating and maintenance training are conducted in the presence of appropriate Owner's personnel, and that Contractor maintains adequate records thereof.

c. Observe, record, and report to Engineer appropriate details relative to the test procedures and systems start-ups.

d. Observe whether Contractor has arranged for inspections required by Laws and Regulations, including but not limited to those to be performed by public or other agencies having jurisdiction over the Work.

e. Accompany visiting inspectors representing public or other agencies having jurisdiction over the Work, record the results of these inspections, and report to Engineer.

11. *Records*:

a. Maintain at the Site orderly files for correspondence, reports of job conferences, copies of Construction Contract Documents including all Change Orders, Field Orders, Work Change Directives, Addenda, additional Drawings issued subsequent to the execution of the Construction Contract, RFIs, Engineer's clarifications and interpretations of the Construction Contract Documents, progress reports, approved Shop Drawing and Sample submittals, and other Project-related documents.

b. Prepare a daily report or keep a diary or log book, recording Contractor's hours on the Site, Subcontractors present at the Site, weather conditions, data relative to questions of Change Orders, Field Orders, Work Change Directives, or changed conditions, Site visitors, deliveries of equipment or materials, daily activities, decisions, observations in general, and specific observations in more detail as in the case of observing test procedures; and send copies to Engineer.

c. Upon request from Owner to Engineer, photograph or video Work in progress or Site conditions.

d. Record and maintain accurate, up-to-date lists of the names, addresses, fax numbers, e-mail addresses, websites, and telephone numbers (including mobile

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

numbers) of all Contractors, Subcontractors, and major Suppliers of materials and equipment.

e. Maintain records for use in preparing Project documentation.

f. Upon completion of the Work, furnish original set of all RPR Project documentation to Engineer.

12. *Reports:*

a. Furnish to Engineer periodic reports as required of progress of the Work and of Contractor's compliance with the progress schedule and schedule of Shop Drawing and Sample submittals.

b. Draft and recommend to Engineer proposed Change Orders, Work Change Directives, and Field Orders. Obtain backup material from Contractor.

c. Furnish to Engineer and Owner copies of all inspection, test, and system start-up reports.

d. Immediately inform Engineer of the occurrence of any Site accidents, emergencies, acts of God endangering the Work, possible force majeure or delay events, damage to property by fire or other causes, or the discovery of any potential differing site condition or Constituent of Concern.

13. *Payment Requests:* Review applications for payment with Contractor for compliance with the established procedure for their submission and forward with recommendations to Engineer, noting particularly the relationship of the payment requested to the schedule of values, Work completed, and materials and equipment delivered at the Site but not incorporated in the Work.

14. *Certificates, Operation and Maintenance Manuals:* During the course of the Work, verify that materials and equipment certificates, operation and maintenance manuals and other data required by the Contract Documents to be assembled and furnished by Contractor are applicable to the items actually installed and in accordance with the Contract Documents, and have these documents delivered to Engineer for review and forwarding to Owner prior to payment for that part of the Work.

15. *Completion*:

a. Participate in Engineer's visits to the Site regarding Substantial Completion, assist in the determination of Substantial Completion, and prior to the issuance of a Certificate of Substantial Completion submit a punch list of observed items requiring completion or correction.

b. Participate in Engineer's visit to the Site in the company of Owner and Contractor, to determine completion of the Work, and prepare a final punch list of items to be completed or corrected by Contractor.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

c. Observe whether all items on the final punch list have been completed or corrected, and make recommendations to Engineer concerning acceptance and issuance of the Notice of Acceptability of the Work.

D. Resident Project Representative shall not:

1. Authorize any deviation from the Construction Contract Documents or substitution of materials or equipment (including "or-equal" items).

2. Exceed limitations of Engineer's authority as set forth in this Agreement.

3. Undertake any of the responsibilities of Contractor, Subcontractors, or Suppliers, or any Constructor.

4. Advise on, issue directions relative to, or assume control over any aspect of the means, methods, techniques, sequences or procedures of the Work, by Contractor or any other Constructor.

5. Advise on, issue directions regarding, or assume control over security or safety practices, precautions, and programs in connection with the activities or operations of Owner or Contractor.

6. Participate in specialized field or laboratory tests or inspections conducted off-site by others except as specifically authorized by Engineer.

7. Accept Shop Drawing or Sample submittals from anyone other than Contractor.

8. Authorize Owner to occupy the Project in whole or in part.

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

This is **EXHIBIT G**, consisting of 2 pages, referred to in and part of the **Agreement between Owner and Engineer for Professional Services** dated _____.

Insurance

Paragraph 6.05 of the Agreement is supplemented to include the following agreement of the parties:

G6.05 *Insurance*

A. The limits of liability for the insurance required by Paragraph 6.05.A and 6.05.B of the Agreement are as follows:

1. By Engineer:

a. Workers' Compensation: Statutory

b. Employer's Liability --

1) Bodily injury, each accident: $100,000
2) Bodily injury by disease, each employee: $100,000
3) Bodily injury/disease, aggregate: $500,000

c. General Liability --

1) Each Occurrence (Bodily Injury and Property Damage): $1,000,000
2) General Aggregate: $2,000,000

d. Excess or Umbrella Liability --

1) Per Occurrence: $2,000,000
2) General Aggregate:

e. Automobile Liability --Combined Single Limit (Bodily Injury and Property Damage):

$1,000,000

f. Professional Liability –

1) Each Claim Made $1,000,000
2) Annual Aggregate $1,000,000

g. Other (specify): N/A

Copyright © 2014 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

B. *Additional Insureds:*

1. The following individuals or entities are to be listed on Owner's general liability policies of insurance as additional insureds:

   a. Shows, Dearman and Waits, Inc.
   Engineer

   b. N/A
   Engineer's Consultant

   c. N/A
   Engineer's Consultant

   d. N/A
   [other]

2. During the term of this Agreement the Engineer shall notify Owner of any other Consultant to be listed as an additional insured on Owner's general liability policies of insurance.

3. The Owner shall be listed on Engineer's general liability policy as provided in Paragraph 6.05.A.

STATE OF MISSISSIPPI

COUNTY OF FORREST

AGREEMENT

WHEREAS, the **Hattiesburg Exchange Club and Dixie Youth Inc.**, hereinafter hereinafter referred to as "**City**", has entered into discussion with view of Association and Dixie Youth Inc. developing and promoting **Dixie Youth Baseball** for Hattiesburg residents, and the parties hereto desire to reduce to writing their agreement of understanding with a properly executed copy of Agreement provided to each party. Association and Dixie Youth Inc. and City do hereby agree and obligate themselves as follows, to-wit:

I.

Association and Dixie Youth Inc. will hereby develop and promote **Dixie Youth Baseball** for Hattiesburg area residents for a period of one (1) year beginning on the 1st day of October 2017, and terminating on the 30th day of September 2018. Association and Dixie Youth Inc. shall be responsible for operation of the baseball program including, but not limited to **organization of league, obtaining coaches, obtaining officials, collection of fees, setting schedules, limiting rosters and other related duties and responsibilities.** The program will operate **March 1, 2018** thru **August 31, 2018.** Concessions, tournaments, clinics and other money-making events will be covered by a separate agreement. Association and Dixie Youth Inc. shall provide to the City a written practice and game schedule. This schedule shall be inclusive of all scheduled dates and fields to be used. Season schedules shall be provided to the City no later than two (2) weeks prior to the start of the season. Make-up game schedules shall be provided to the City no later than one (1) day prior to the scheduled make-up game. All recreation league regular ending tournament schedules shall be provided to the City no later than one (1) week prior to the start of the scheduled tournament. All other tournaments, (sub-district, district, state, national, etc) shall be addressed by a separate contract. It shall be the

responsibility of the Association and Dixie Youth Inc. to confirm potential post-season tournament dates with the City before bidding if use of City facilities or any maintenance for the particular post-season tournament will be required. Program playing field specifications shall be provided to the City no less than (4) weeks prior to the start of the program.

II.

City shall be responsible for maintaining the **Larry Doleac Youth Baseball Complex** as described in Attachment I for providing seating and electricity.

The City of Hattiesburg shall provide **Fifteen-Thousand Dollars ($15,000.00)** for the payment of officials and equipment and maintenance expenditures. The City does reserve the right to use facilities for other functions. See Attachment IIa for Policy on General Use of Facilities.

III.

Association and Dixie Youth Inc. does hereby obligate itself to comply with the policies of the City: That all recreation programs shall be open to all citizens of the Hattiesburg area regardless of his/her ability to pay any fees charged for participation in said programs; and that the City nondiscrimination policy (Attachment IIb) shall be observed. See Attachment II for all pertinent City policies.

IV.

It is understood by and between parties that this Agreement may be terminated by either party for any reason upon thirty (30) days written notice of their intention to terminate this Agreement.

V.

Association and Dixie Youth Inc. does hereby agree that it will hold harmless and indemnify the City from any and all liability and damages of any kind whatsoever resulting from the operation of this recreational program. The Liability Policy of the City is attached as Attachment IIc.

Association and Dixie Youth Inc. does hereby agree to appropriately acknowledge City contribution to the program in a public manner such as on ad boards, patches, and in all media.

Association and Dixie Youth Inc. does hereby obligate itself to comply with National Standards for Youth Sports and Coach Review Policy (Attachment IId and IIe, respectively) adopted by the City Council.

VI.

Association and Dixie Youth Inc. does hereby obligate itself to comply with the Sports Participation Policy that is attached as Attachment IIF.

VII.

CITY OF HATTIESBURG

NATIONAL STANDARDS FOR YOUTH SPORTS POLICY

These standards are endorsed and supported by
26 National Agencies and Organizations

STANDARD #1 – PROPER SPORTS ENVIRONMENT
Parents must consider and carefully choose the proper environment for their child, including the appropriate age and development for participation, the type of sport, the rules in the sport, the age range of the participants, and the proper level of physical and emotional stress.

STANDARD #2 – PROGRAMS BASED ON THE WELL-BEING OF CHILDREN
Parents must select youth sports programs that are developed and organized to enhance the emotional, physical, social, and educational well being of children.

STANDARD #3 – DRUG AND ALCOHOL – FREE ENVIRONMENT
Parents must encourage a drug and alcohol-free environment for their children.

STANDARD #4 – PART OF A CHILD'S LIFE
Parents must recognize that youth sports are only a small part of a child's life.

STANDARD # 5 – TRAINING
Parents must insist that coaches are trained and certified.

STANDARD #6 – PARENTS' ACTIVE ROLE
Parents must make a serious effort to take an active role in the youth sports experience of their child providing a positive support as a spectator, coach, and league administrator and/or caring parent.

STANDARD #7 – POSITIVE ROLE MODELS
Parents must be a positive role model exhibiting sportsmanlike behavior at game, practices, and home, while also giving positive reinforcement to their child and support to their child's coaches.

STANDARD #8 – PARENTAL COMMITMENT
Parents must demonstrate their commitment to their child's youth sports experience by annually signing a parental code of ethics.

STANDARD #9 – SAFE-PLAYING SITUATION
Parents must insist on safe-playing facilities, healthful playing situation, and proper first-aid applications, should the need arise.

STANDARD #10 – EQUAL PLAY OPPORTUNITY
Parents, coaches, and league administrators must provide equal sports play opportunity for all youth regardless of race, creed, sex, or economic status of ability.

STANDARD # 11 - DRUG AND ALCOHOL-FREE ADULTS
Parents must be rug and alcohol-free at youth league sporting events.

AGREEMENT
ATTACHMENT IIe

CITY OF HATTIESBURG

COACH REVIEW POLICY

Whereas, the City of Hattiesburg requires completion of a certification program for youth sport coaches whereby the coaches are schooled in the psychology of coaching youth sports, maximizing performance, injury prevention, first aid, and emphasizes a drug and alcohol-free environment for youth sports and recognizes the great influence youth coaches have on our youth.

AGREEMENT
ATTACHMENT IIf

CITY OF HATTIESBURG

YOUTH SPORTS PARTICIPATION POLICY

The Hattiesburg Parks and Recreation Division offers a diversified youth sports program designed to meet the recreational needs of the Hattiesburg area. The City's philosophy is to promote the development of strong character, a good attitude, and a sense of responsibility and citizenship in participants, using a recreation as a vehicle.

This philosophy, as important as it is, must be carried out primarily by volunteers, with support and guidance provided by the Parks and Recreation Division staff, underscoring the importance of recruiting the best volunteers available-people who can apply the City's philosophy for the good of the children involved.

Every sport sponsored by the Parks and Recreation Division is conducted on facilities provided and maintained by the City of Hattiesburg, funded in large part by the citizens of Hattiesburg. This policy necessitates a move toward more participation by every member of recreation league team.

The City feels strongly that the sport programs offered to the children of Hattiesburg should be fun, educational, and developmental; and the only way to teach these values is for the children to participate a substantial amount of time in each competitive event. Every league within the City, without exception, will follow the following guidelines.

In all games, all registered participants shall play in the following sports a minimum of:

Football – 4 minutes of the game (Flag Football)
Basketball – 2 minutes (Elementary School Age)
Soccer – One Full Half (HYSA)

Baseball and Softball – each player must at least play 3 consecutive defensive outs, and bat once in a full game. In games shortened due to the 10-run rule, acts of God, time limit expiration or other reasons will require the time at bat.

Note: A manager or coach is not required to play a player who is ill, injured or is under reasonable disciplinary restrictions or for other justifiable reasons, provided he informs the opposing coach and scorekeeper prior to the beginning of the game.

In order to assist the teams and coaches and to insure maximum participation of all children, the number of members on a team should be limited as follows:

(1)	Football	20 players
(2)	Basketball	10 players
(3)	Soccer	14 players
(4)	Baseball	14 players
(5)	Softball	14 players

The limitation of players on teams may mean the additional of other divisions within leagues and the addition of multiple all-star teams within leagues. This is viewed again, to be an opportunity to bring about additional participation for children within City recreation programs. In all-star competition, the number of children participating on each team may be increased according to the rules of the organization sponsoring the all-star program.

Every league within the City of Hattiesburg must comply with and follow this policy and insure that each coach and league official is familiar with the policy and complies at all times. If a coach fails to play a child the minimum participation limit, the following sanctions will be imposed on said coach, <u>without exception</u>, to-wit:

(1) The first offense will result in the coach receiving a letter or reprimand from the governing board of the league. The child concerned will play the entire next game.

(2) The second offense by the same coach will result in the coach being suspended from the league for the next week. The child concerned will play the entire next game.

(3) The third offense by the same coach will result in expulsion of the coach from any City program in any and all capacities for a minimum of two (2) calendar years. The child concerned will play the entire next game.

(4) If any coach fails to play any child as required in any league championship game or any play-off game affecting the league championship, then that coach, no matter which offense, will be suspended from the league and unable to participate in any post-season activities. The team that fails to have full participation by all players will forfeit the game.

(5) If any coach fails to play any child as required herein in any all-star or tournament game, then that coach, no matter which offense, will be expelled from coaching in any City program in any and all capacities for a minimum of two (2) calendar years.

The individual leagues will notify the Hattiesburg Recreation Department whenever it becomes necessary to take any action against a coach for failure to comply with the participation policy.

A copy of this participation policy shall be provided to each child at registration of any sport within the City of Hattiesburg.

The purpose of a sports league is to insure participation for all children within the City of Hattiesburg; the purpose of a participation policy is to insure a sports league for all the children of Hattiesburg.

WORKSHEET INSTRUCTIONS

I. Supplies, Expenses and Related Purchases Worksheet:

Program personnel shall complete worksheet by listing the name of the vendor, date items were purchased, invoice number, total of the invoice and a brief description of items purchased on that invoice. All invoices MUST be turned in with worksheets at the end of the program for accounting purposes.

II. Daily Program Time Sheet:

If officials, scorekeepers, or other program personnel are funded through monies provided by the City, a daily accounting of these expenditures must be maintained. The daily timesheet must list the date the individual worked, they're name, address, social security number, number of games or hours they worked, total amount paid for particular day/night, and their signature.

III. Total Hours/Games Recap Sheet:

This sheet is a recap of the daily time sheets. At the completion of the program, the time sheets for each individual should be totaled and entered on the recap sheet. The daily timesheets MUST accompany the recap sheets at the end of the program for accounting purposes.

NOTE: Please return all expenditure reports to the City of Hattiesburg, City Clerks Office, 200 Forrest Street, Hattiesburg, MS 39401. If you have questions, please call (601) 545-4667.

All invoices **MUST** be turned in with worksheets at the end of the program for accounting purposes.

II. Daily Program Time Sheet:

If officials, scorekeepers, or other program personnel are funded through monies provided by the City, a daily accounting of these expenditures must be maintained. The daily timesheet must list the date the individual worked, they're name, address, social security number, number of games or hours they worked, total amount paid for particular day/night, and their signature.

III. Total Hours/Games Recap Sheet:

This sheet is a recap of the daily time sheets. At the completion of the program, the time sheets for each individual should be totaled and entered on the recap sheet. The daily timesheets **MUST** accompany the recap sheets at the end of the program for accounting purposes.

NOTE: Please return all expenditure reports to the City of Hattiesburg, City Clerks Office, 200 Forrest Street, Hattiesburg, MS 39401. If you have questions, please call (601) 545-4667.

STATE OF MISSISSIPPI

COUNTY OF FORREST

AGREEMENT

WHEREAS, the **Noon Day Optimist Club**, hereinafter referred to as "**Association**" and the **City of Hattiesburg, Mississippi**, a municipal corporation, hereinafter referred to as "**City**", has entered into discussion with view of Association developing and promoting **Dixie Boys Baseball** for Hattiesburg residents, and the parties hereto desire to reduce to writing their agreement of understanding with a properly executed copy of Agreement provided to each party. Association and City do hereby agree and obligate themselves as follows, to-wit:

I.

Association will hereby develop and promote **Dixie Boys Baseball** for Hattiesburg area residents for a period of one (1) year beginning on the 1st day of October 2017, and termination on the 30th day of September 2018. Association shall be responsible for operation of the baseball program including, but not limited to **organization of league, obtaining coaches, obtaining officials, collection of fees, setting schedules, limiting rosters** and other related duties and responsibilities. The program will operate **March 1, 2018** thru **September 30, 2018**. Concessions, tournaments, clinics, and other moneymaking events will be covered by a separate agreement. Association shall provide to the City a written practice and game schedule. This schedule shall be inclusive of all scheduled dates and fields to be used. Season schedules shall be provided to the City no later than two (2) weeks prior to the start of the season. Make-up game schedules shall be provided to the

City no later than one (1) day prior to the scheduled make-up game. All recreation league regular season ending tournament schedules shall be provided to the City no later than one (1) week prior to the start of the scheduled tournament. All other tournaments, (sub-district, district, state, national, etc), shall be addressed by a separate contract. It shall be the responsibility of the Association to confirm potential post-season tournament dates with the City before bidding if use of City facilities or any maintenance for the particular post-season tournament will be required. Program playing field specifications shall be provided to the City no less than four (4) weeks prior to the start of the program.

II.

City shall be responsible for maintaining **Jack Cameron Baseball Field at Kamper Park** as described in Attachment I for providing seating and electricity.

The City shall provide **Twelve Thousand Two Hundred Dollars ($12,200.00)** to be applied to the payment of officials and equipment (to include **baseballs, baseball bats, baseball pants, catchers equipment, batting helmets and other necessary equipment)**. The appropriate expenditure reports (Attachment III) shall be completed and filed with the City by October 31, 2018. The City does reserve the right to use facilities for other functions. See Attachment IIa for Policy on General Public Use of Facilities.

III.

Association does hereby obligate itself to comply with the policies of the City: That all recreation programs shall be open to all citizens of the Hattiesburg area regardless of his/her ability to pay any fees charged for participation in said programs; and that the City nondiscrimination policy (Attachment IIb) shall be observed. See Attachment II for all pertinent City policies.

IV.

It is understood by and between parties that this Agreement may be terminated by either party for any reason upon thirty (30) days written notice of their intention to terminate this Agreement.

V.

Association does hereby agree that it will hold harmless and indemnify the City from any and all liability and damages of any kind whatsoever resulting from the operation of this recreational program. The Liability Policy of the City is attached as Attachment IIc.

Association does hereby agree to appropriately acknowledge City contribution to the programming a public manner such as on ad boards, patches, and in all media. Association does hereby obligate itself to comply with National Standards for Youth Sports and Coach Review Policy (Attachments IId and IIe, respectively) adopted by the City Council.

VI.

Association does hereby obligate itself to comply with the Sports Participation Policy, which is attached as Attachment IIf.

VII.

CITY OF HATTIESBURG

NATIONAL STANDARDS FOR YOUTH SPORTS POLICY

These standards are endorsed and supported by
26 National Agencies and Organizations

STANDARD #1 – PROPER SPORTS ENVIRONMENT
Parents must consider and carefully choose the proper environment for their child, including the appropriate age and development for participation, the type of sport, the rules in the sport, the age range of the participants, and the proper level of physical and emotional stress.

STANDARD #2 – PROGRAMS BASED ON THE WELL-BEING OF CHILDREN
Parents must select youth sports programs that are developed and organized to enhance the emotional, physical, social, and educational well being of children.

STANDARD #3 – DRUG AND ALCOHOL – FREE ENVIRONMENT
Parents must encourage a drug and alcohol-free environment for their children.

STANDARD #4 – PART OF A CHILD'S LIFE
Parents must recognize that youth sports are only a small part of a child's life.

STANDARD # 5 – TRAINING
Parents must insist that coaches are trained and certified.

STANDARD #6 – PARENTS' ACTIVE ROLE
Parents must make a serious effort to take an active role in the youth sports experience of their child providing a positive support as a spectator, coach, and league administrator and/or caring parent.

STANDARD #7 – POSITIVE ROLE MODELS
Parents must be a positive role model exhibiting sportsmanlike behavior at game, practices, and home, while also giving positive reinforcement to their child and support to their child's coaches.

STANDARD #8 – PARENTAL COMMITMENT
Parents must demonstrate their commitment to their child's youth sports experience by annually signing a parental code of ethics.

STANDARD #9 – SAFE-PLAYING SITUATION
Parents must insist on safe-playing facilities, healthful playing situation, and proper first-aid applications, should the need arise.

STANDARD #10 – EQUAL PLAY OPPORTUNITY
Parents, coaches, and league administrators must provide equal sports play opportunity for all youth regardless of race, creed, sex, or economic status of ability.

STANDARD # 11 - DRUG AND ALCOHOL-FREE ADULTS
Parents must be rug and alcohol-free at youth league sporting events.

AGREEMENT

CITY OF HATTIESBURG

COACH REVIEW POLICY

Whereas, the City of Hattiesburg requires completion of a certification program for youth sport coaches whereby the coaches are schooled in the psychology of coaching youth sports, maximizing performance, injury prevention, first aid, and emphasizes a drug and alcohol-free environment for youth sports and recognizes the great influence youth coaches have on our youth.

AGREEMENT
ATTACHMENT IIf

CITY OF HATTIESBURG

YOUTH SPORTS PARTICIPATION POLICY

The Hattiesburg Parks and Recreation Division offers a diversified youth sports program designed to meet the recreational needs of the Hattiesburg area. The City's philosophy is to promote the development of strong character, a good attitude, and a sense of responsibility and citizenship in participants, using a recreation as a vehicle.

This philosophy, as important as it is, must be carried out primarily by volunteers, with support and guidance provided by the Parks and Recreation Division staff, underscoring the importance of recruiting the best volunteers available-people who can apply the City's philosophy for the good of the children involved.

Every sport sponsored by the Parks and Recreation Division is conducted on facilities provided and maintained by the City of Hattiesburg, funded in large part by the citizens of Hattiesburg. This policy necessitates a move toward more participation by every member of recreation league team.

The City feels strongly that the sport programs offered to the children of Hattiesburg should be fun, educational, and developmental; and the only way to teach these values is for the children to participate a substantial amount of time in each competitive event. Every league within the City, without exception, will follow the following guidelines.

In all games, all registered participants shall play in the following sports a minimum of:

Football – 4 minutes of the game (Flag Football)
Basketball – 2 minutes (Elementary School Age)
Soccer – One Full Half (HYSA)

Baseball and Softball – each player must at least play 3 consecutive defensive outs, and bat once in a full game. In games shortened due to the 10-run rule, acts of God, time limit expiration or other reasons will require the time at bat.

Note: A manager or coach is not required to play a player who is ill, injured or is under reasonable disciplinary restrictions or for other justifiable reasons, provided he informs the opposing coach and scorekeeper prior to the beginning of the game.

In order to assist the teams and coaches and to insure maximum participation of all children, the number of members on a team should be limited as follows:

(1)	Football	20 players
(2)	Basketball	10 players
(3)	Soccer	14 players
(4)	Baseball	14 players
(5)	Softball	14 players

The limitation of players on teams may mean the additional of other divisions within leagues and the addition of multiple all-star teams within leagues. This is viewed again, to be an opportunity to bring about additional participation for children within City recreation programs. In all-star competition, the number of children participating on each team may be increased according to the rules of the organization sponsoring the all-star program.

Every league within the City of Hattiesburg must comply with and follow this policy and insure that each coach and league official is familiar with the policy and complies at all times. If a coach fails to play a child the minimum participation limit, the following sanctions will be imposed on said coach, <u>without exception</u>, to-wit:

(1) The first offense will result in the coach receiving a letter or reprimand from the governing board of the league. The child concerned will play the entire next game.

(2) The second offense by the same coach will result in the coach being suspended from the league for the next week. The child concerned will play the entire next game.

(3) The third offense by the same coach will result in expulsion of the coach from any City program in any and all capacities for a minimum of two (2) calendar years. The child concerned will play the entire next game.

(4) If any coach fails to play any child as required in any league championship game or any play-off game affecting the league championship, then that coach, no matter which offense, will be suspended from the league and unable to participate in any post-season activities. The team that fails to have full participation by all players will forfeit the game.

(5) If any coach fails to play any child as required herein in any all-star or tournament game, then that coach, no matter which offense, will be expelled from coaching in any City program in any and all capacities for a minimum of two (2) calendar years.

The individual leagues will notify the Hattiesburg Recreation Department whenever it becomes necessary to take any action against a coach for failure to comply with the participation policy.

A copy of this participation policy shall be provided to each child at registration of any sport within the City of Hattiesburg.

The purpose of a sports league is to insure participation for all children within the City of Hattiesburg; the purpose of a participation policy is to insure a sports league for all the children of Hattiesburg.

STATE OF MISSISSIPPI

COUNTY OF FORREST

AGREEMENT

THIS AGREEMENT is entered into by and between, the **Hattiesburg Youth Soccer Association**, A Mississippi non-profit corporation, hereinafter referred to as **"HYSA"** and the **City of Hattiesburg, Mississippi,** a municipal corporation, hereinafter referred to as **"City"**, for the purpose of evidencing their agreement of understanding concerning the development and promotion of **Soccer Programs** for Hattiesburg area residents, and as such HYSA and the City do hereby agree and obligate themselves as follow, to-wit:

I.

HYSA has a long standing relationship with the City and will continue to develop and promote **Soccer Programs** at all levels of play for Hattiesburg area residents for a period of one (1) year beginning on the 1st day of October 2017, and terminating on the 30th day of September 2018. HYSA shall have the right and responsibility to operate all aspects of the youth soccer program including, but not limited to, organization of league, games, practices, obtaining coaches, obtaining officials, collection of fees, setting schedules, limiting rosters, soccer equipment, concessions, clinics, camps, tournaments and other related activities, duties and responsibilities.

HYSA shall provide to the City a written schedule before the start of its league play, games, practices, tournament, clinics, camps, and other related activities. The schedule(s) shall be inclusive of all scheduled dates and fields to be used and shall be provided tothe City no later than one (1) week prior to start of the event. All other tournaments, (sub-district, district, state, national, etc.) for which HYSA may bid to host shall be coordinated with the City

before bidding, as City facilities and maintenancefor the particular post-season tournament will be required. Program playing field specifications shall be provided to the City no less than two (2) weeks prior to the start of the program.

II

City shall be responsible for maintaining Tatum Park Soccer Complex as described in Attachment I for providing seating and electricity. In addition, City shall be responsible for maintaining all aspects of the Tatum Park Soccer Complex in good condition and fields to game ready specifications, including but not limited to the following on an as needed basis: mow and maintain the grass in a healthy state through the use of water, sprinkler system, fertilization, overseeding with rye, spraying for weeds, insect spraying, sanding to fill low areas, maintain proper grade of fields and maintaining good drainage for fields, lining fields for play, cleaning restrooms and facility areas including trash/garbage pickup, parking lots, roads, adequate lights, light poles, security, utilities, physical structures and related needs.

The City shall provide **Ten Thousand, Dollars ($10,000.00)** to be applied to the payment of referees, coaches, tournament expenses, equipment (may include items such as soccer balls, nets, goals, flags, etc), and to scholarship children who are residents of the city and who can't afford to pay full fee. The appropriate expenditure reports (Attachment III) shall be completed and filed with the City by October 31, 2018. HYSA shall have first priority use of and access to all Tatum Park soccer fields and related facilities for practices, games, clinics, camps, tournaments, and related activities, except that City does reserve the right to use said facilities for other functions if HYSA does not give the City at least thirty(30) days advance notice of its intended use of Tatum Park, and the City shall coordinate the scheduling of its functions with HYSA so as to prevent the scheduling of functions that are detrimental to HYSA's overall soccer program. See Attachment IIa for Policy on General Public Use of Facilities.

III.

HYSA does hereby obligate itself to comply with the policies of the City: That all soccer programs shall be open to all citizens of the Hattiesburg area regardless of his/her ability to pay full fees charged for participation in said programs; and that the City's nondiscrimination policy(Attachment IIb) shall be observed. See Attachment II for all pertinent City policies.

IV.

It is understood by and between parties that this Agreement may be terminated by either party for any reason upon ninty (90) days written notice of their intention to terminate this Agreement.

V.

HYSA does hereby agree that it will hold harmless and indemnify the City from any and all liability and damages of any kind whatsoever resulting from the negligent or intential tortious operation of the soccer program. The Liability Policy of the City is attached as Attachment IIc.

HYSA does hereby agree to appropriately acknowledge City's contribution to the Soccer Program in a public manner, through the use of such media that is appropiate. HYSA does hereby obligate itself to comply with National Standards for Youth Sports and Coach Review Policy(Attachments IId and IIe, respectively) adopted by the City Council.

VI.

HYSA does hereby obligate itself to comply with the Sports Participation Policy, which is attached as Attachment IIf.

VII.

WITNESS the signatures of HYSA and the City to duplicate originals of this Agreement on this, the ____day of _____, A.D., _____.

NATIONAL STANDARDS FOR YOUTH SPORTS POLICY

These standards are endorsed and supported by
26 National Agencies and Organizations

STANDARD #1 – PROPER SPORTS ENVIRONMENT
Parents must consider and carefully choose the proper environment for their child, including the appropriate age and development for participation, the type of sport, the rules in the sport, the age range of the participants, and the proper level of physical and emotional stress.

STANDARD #2 – PROGRAMS BASED ON THE WELL-BEING OF CHILDREN
Parents must select youth sports programs that are developed and organized to enhance the emotional, physical, social, and educational well being of children.

STANDARD #3 – DRUG AND ALCOHOL – FREE ENVIRONMENT
Parents must encourage a drug and alcohol-free environment for their children.

STANDARD #4 – PART OF A CHILD'S LIFE
Parents must recognize that youth sports are only a small part of a child's life.

STANDARD # 5 – TRAINING
Parents must insist that coaches are trained and certified.

STANDARD #6 – PARENTS' ACTIVE ROLE
Parents must make a serious effort to take an active role in the youth sports experience of their child providing a positive support as a spectator, coach, and league administrator and/or caring parent.

STANDARD #7 – POSITIVE ROLE MODELS
Parents must be a positive role model exhibiting sportsmanlike behavior at game, practices, and home, while also giving positive reinforcement to their child and support to their child's coaches.

STANDARD #8 – PARENTAL COMMITMENT
Parents must demonstrate their commitment to their child's youth sports experience by annually signing a parental code of ethics.

STANDARD #9 – SAFE-PLAYING SITUATION
Parents must insist on safe-playing facilities, healthful playing situation, and proper first-aid applications, should the need arise.

STANDARD #10 – EQUAL PLAY OPPORTUNITY
Parents, coaches, and league administrators must provide equal sports play opportunity for all youth regardless of race, creed, sex, or economic status of ability.

STANDARD # 11 - DRUG AND ALCOHOL-FREE ADULTS
Parents must be rug and alcohol-free at youth league sporting events.

AGREEMENT

CITY OF HATTIESBURG

COACH REVIEW POLICY

Whereas, the City of Hattiesburg requires completion of a certification program for youth sport coaches whereby the coaches are schooled in the psychology of coaching youth sports, maximizing performance, injury prevention, first aid, and emphasizes a drug and alcohol-free environment for youth sports and recognizes the great influence youth coaches have on our youth.

AGREEMENT
ATTACHMENT IIf

CITY OF HATTIESBURG

YOUTH SPORTS PARTICIPATION POLICY

The Hattiesburg Parks and Recreation Division offers a diversified youth sports program designed to meet the recreational needs of the Hattiesburg area. The City's philosophy is to promote the development of strong character, a good attitude, and a sense of responsibility and citizenship in participants, using a recreation as a vehicle.

This philosophy, as important as it is, must be carried out primarily by volunteers, with support and guidance provided by the Parks and Recreation Division staff, underscoring the importance of recruiting the best volunteers available-people who can apply the City's philosophy for the good of the children involved.

Every sport sponsored by the Parks and Recreation Division is conducted on facilities provided and maintained by the City of Hattiesburg, funded in large part by the citizens of Hattiesburg. This policy necessitates a move toward more participation by every member of recreation league team.

The City feels strongly that the sport programs offered to the children of Hattiesburg should be fun, educational, and developmental; and the only way to teach these values is for the children to participate a substantial amount of time in each competitive event. Every league within the City, without exception, will follow the following guidelines.

In all games, all registered participants shall play in the following sports a minimum of:

Football – 4 minutes of the game (Flag Football)
Basketball – 2 minutes (Elementary School Age)
Soccer – One Full Half (HYSA)

Baseball and Softball – each player must at least play 3 consecutive defensive outs, and bat once in a full game. In games shortened due to the 10-run rule, acts of God, time limit expiration or other reasons will require the time at bat.

Note: A manager or coach is not required to play a player who is ill, injured or is under reasonable disciplinary restrictions or for other justifiable reasons, provided he informs the opposing coach and scorekeeper prior to the beginning of the game.

In order to assist the teams and coaches and to insure maximum participation of all children, the number of members on a team should be limited as follows:

(1)	Football	20 players
(2)	Basketball	10 players
(3)	Soccer	14 players
(4)	Baseball	14 players
(5)	Softball	14 players

The limitation of players on teams may mean the additional of other divisions within leagues and the addition of multiple all-star teams within leagues. This is viewed again, to be an opportunity to bring about additional participation for children within City recreation programs. In all-star competition, the number of children participating on each team may be increased according to the rules of the organization sponsoring the all-star program.

Every league within the City of Hattiesburg must comply with and follow this policy and insure that each coach and league official is familiar with the policy and complies at all times. If a coach fails to play a child the minimum participation limit, the following sanctions will be imposed on said coach, <u>without exception</u>, to-wit:

(1) The first offense will result in the coach receiving a letter or reprimand from the governing board of the league. The child concerned will play the entire next game.

(2) The second offense by the same coach will result in the coach being suspended from the league for the next week. The child concerned will play the entire next game.

(3) The third offense by the same coach will result in expulsion of the coach from any City program in any and all capacities for a minimum of two (2) calendar years. The child concerned will play the entire next game.

(4) If any coach fails to play any child as required in any league championship game or any play-off game affecting the league championship, then that coach, no matter which offense, will be suspended from the league and unable to participate in any post-season activities. The team that fails to have full participation by all players will forfeit the game.

(5) If any coach fails to play any child as required herein in any all-star or tournament game, then that coach, no matter which offense, will be expelled from coaching in any City program in any and all capacities for a minimum of two (2) calendar years.

The individual leagues will notify the Hattiesburg Recreation Department whenever it becomes necessary to take any action against a coach for failure to comply with the participation policy.

A copy of this participation policy shall be provided to each child at registration of any sport within the City of Hattiesburg.

The purpose of a sports league is to insure participation for all children within the City of Hattiesburg; the purpose of a participation policy is to insure a sports league for all the children of Hattiesburg.

WORKSHEET INSTRUCTIONS

I. Supplies, Expenses and Related Purchases Worksheet:

Program personnel shall complete worksheet by listing the name of the vendor, date items were purchased, invoice number, total of the invoice and a brief description of items purchased on that invoice. All invoices MUST be turned in with worksheets at the end of the program for accounting purposes.

II. Daily Program Time Sheet:

If officials, scorekeepers, or other program personnel are funded through monies provided by the City, a daily accounting of these expenditures must be maintained. The daily timesheet must list the date the individual worked, they're name, address, social security number, number of games or hours they worked, total amount paid for particular day/night, and their signature.

III. Total Hours/Games Recap Sheet:

This sheet is a recap of the daily time sheets. At the completion of the program, the time sheets for each individual should be totaled and entered on the recap sheet. The daily timesheets MUST accompany the recap sheets at the end of the program for accounting purposes.

NOTE: Please return all expenditure reports to the City of Hattiesburg, City Clerks Office, 200 Forrest Street, Hattiesburg, MS 39401. If you have questions, please call (601) 545-4667.

STATE OF MISSISSIPPI

COUNTY OF FORREST

REVISED AGREEMENT

WHEREAS, the **Hattiesburg Chapter of the Hattiesburg Little League Association**, hereinafter referred to as "**Association**" and the **City of Hattiesburg, Mississippi**, a municipal corporation, hereinafter referred to as "**City**", has entered into Discussion with view of Association developing and promoting **Little League and Senior League Baseball** for Hattiesburg residents, and the parties hereto desire to reduce to writing their agreement of understanding with a properly executed copy of Agreement provided to each party. Association and City do hereby agree and obligate themselves as follows, to-wit:

I.

Association will hereby develop and promote **Little League and Senior League Baseball** for Hattiesburg area residents for a period of one (1) year beginning on the 1st day of October 2017, and terminating on the 30th day of September 2018. Association shall be responsible for operation of **The Baseball Program** including, but not limited to **organization of Leagues, obtaining Coaches, obtaining officials, collection of fees, setting schedules, limiting rosters** and other related duties and responsibilities. The program will operate **March 1, 2018** thru **August 31, 2018.** Concessions, tournaments, clinics, and other money-making events will be covered by a separate agreement. Association shall provide to the City a written practice and game schedule. This schedule shall be inclusive of all scheduled dates and fields to be used. Season schedules shall be provided to the City no later than two (2) weeks prior to the start of the season. Make-up

game schedules shall be provided to the City no later than one (1) day prior to the scheduled make-up game. All recreation league regular season ending tournament schedules shall be provided to the City no later than one (1) week prior to the start of the scheduled tournament. All other tournaments, (sub-district, district, state, national, etc.), shall be addressed by a separated contract. It shall be the responsibility of the Association to confirm potential post-season tournament dates with the City before bidding if use of City facilities or any maintenance for the particular post-season tournament will be required. Program playing field specifications shall be provided to the City no less than four (4) weeks prior to the start of the program.

II.

City shall be responsible for maintaining **The Dahmer Park Baseball Fields** as described in Attachment I for providing seating and electricity.

The City shall provide **Eighteen Thousand, Seven Hundred Eighty Four Dollars ($18,784.00)** to be applied to the payment of officials and equipment (to include **Baseballs, Baseball Bats, Baseball pants, Catchers Equipment and Batting Helmet**s, **and Other Equipment as Necessary**). **The City of Hattiesburg shall provide Fourteen Thousand, Two Hundred Eighty Four Dollars ($14,284.00); Forrest County shall provide Four Thousand, Five Hundred Dollars ($4,500.00) as per Forrest County Minute Order 637-0454 dated May 15, 2017.** The appropriate expenditure reports (Attachment III) shall be completed and filed with the City by October 31, 2018. The City does reserve the right to use facilities for other functions. See Attachment IIa for Policy on General Public Use of Facilities.

III.

Association does hereby obligate itself to comply with the policies of the City: That all recreation programs shall be open to all citizens of the Hattiesburg area regardless of his/her ability to pay any fees charged for participation in said programs; and that the City nondiscrimination policy (Attachment IIb) shall be observed. See Attachment II for all pertinent City policies.

IV.

It is understood by and between parties that this Agreement may be terminated by either party for any reason upon thirty (30) days written notice of their intention to terminate this Agreement.

V.

Association does hereby agree that it will hold harmless and indemnify the City from any and all liability and damages of any kind whatsoever resulting from the operation of this recreational program. The Liability Policy of the City is attached as Attachment IIc.

Association does hereby agree to appropriately acknowledge City contribution to the programming a public manner such as on ad boards, patches, and in all media. Association does hereby obligate itself to comply with National Standards for Youth Sports and Coach Review Policy (Attachments IId and IIe, respectively) adopted by the City Council.

VI.

Association does hereby obligate itself to comply with the Sports Participation Policy which is attached as Attachment IIf.

NATIONAL STANDARDS FOR YOUTH SPORTS POLICY

These standards are endorsed and supported by
26 National Agencies and Organizations

STANDARD #1 – PROPER SPORTS ENVIRONMENT
Parents must consider and carefully choose the proper environment for their child, including the appropriate age and development for participation, the type of sport, the rules in the sport, the age range of the participants, and the proper level of physical and emotional stress.

STANDARD #2 – PROGRAMS BASED ON THE WELL-BEING OF CHILDREN
Parents must select youth sports programs that are developed and organized to enhance the emotional, physical, social, and educational well being of children.

STANDARD #3 – DRUG AND ALCOHOL – FREE ENVIRONMENT
Parents must encourage a drug and alcohol-free environment for their children.

STANDARD #4 – PART OF A CHILD'S LIFE
Parents must recognize that youth sports are only a small part of a child's life.

STANDARD # 5 – TRAINING
Parents must insist that coaches are trained and certified.

STANDARD #6 – PARENTS' ACTIVE ROLE
Parents must make a serious effort to take an active role in the youth sports experience of their child providing a positive support as a spectator, coach, and league administrator and/or caring parent.

STANDARD #7 – POSITIVE ROLE MODELS
Parents must be a positive role model exhibiting sportsmanlike behavior at game, practices, and home, while also giving positive reinforcement to their child and support to their child's coaches.

STANDARD #8 – PARENTAL COMMITMENT
Parents must demonstrate their commitment to their child's youth sports experience by annually signing a parental code of ethics.

STANDARD #9 – SAFE-PLAYING SITUATION
Parents must insist on safe-playing facilities, healthful playing situation, and proper first-aid applications, should the need arise.

STANDARD #10 – EQUAL PLAY OPPORTUNITY
Parents, coaches, and league administrators must provide equal sports play opportunity for all youth regardless of race, creed, sex, or economic status of ability.

STANDARD # 11 - DRUG AND ALCOHOL-FREE ADULTS
Parents must be rug and alcohol-free at youth league sporting events.

AGREEMENT

CITY OF HATTIESBURG

COACH REVIEW POLICY

Whereas, the City of Hattiesburg requires completion of a certification program for youth sport coaches whereby the coaches are schooled in the psychology of coaching youth sports, maximizing performance, injury prevention, first aid, and emphasizes a drug and alcohol-free environment for youth sports and recognizes the great influence youth coaches have on our youth.

AGREEMENT
ATTACHMENT IIf

CITY OF HATTIESBURG

YOUTH SPORTS PARTICIPATION POLICY

The Hattiesburg Parks and Recreation Division offers a diversified youth sports program designed to meet the recreational needs of the Hattiesburg area. The City's philosophy is to promote the development of strong character, a good attitude, and a sense of responsibility and citizenship in participants, using a recreation as a vehicle.

This philosophy, as important as it is, must be carried out primarily by volunteers, with support and guidance provided by the Parks and Recreation Division staff, underscoring the importance of recruiting the best volunteers available-people who can apply the City's philosophy for the good of the children involved.

Every sport sponsored by the Parks and Recreation Division is conducted on facilities provided and maintained by the City of Hattiesburg, funded in large part by the citizens of Hattiesburg. This policy necessitates a move toward more participation by every member of recreation league team.

The City feels strongly that the sport programs offered to the children of Hattiesburg should be fun, educational, and developmental; and the only way to teach these values is for the children to participate a substantial amount of time in each competitive event. Every league within the City, without exception, will follow the following guidelines.

In all games, all registered participants shall play in the following sports a minimum of:

Football – 4 minutes of the game (Flag Football)
Basketball – 2 minutes (Elementary School Age)
Soccer – One Full Half (HYSA)

Baseball and Softball – each player must at least play 3 consecutive defensive outs, and bat once in a full game. In games shortened due to the 10-run rule, acts of God, time limit expiration or other reasons will require the time at bat.

Note: A manager or coach is not required to play a player who is ill, injured or is under reasonable disciplinary restrictions or for other justifiable reasons, provided he informs the opposing coach and scorekeeper prior to the beginning of the game.

In order to assist the teams and coaches and to insure maximum participation of all children, the number of members on a team should be limited as follows:

(1)	Football	20 players
(2)	Basketball	10 players
(3)	Soccer	14 players
(4)	Baseball	14 players
(5)	Softball	14 players

The limitation of players on teams may mean the additional of other divisions within leagues and the addition of multiple all-star teams within leagues. This is viewed again, to be an opportunity to bring about additional participation for children within City recreation programs. In all-star competition, the number of children participating on each team may be increased according to the rules of the organization sponsoring the all-star program.

Every league within the City of Hattiesburg must comply with and follow this policy and insure that each coach and league official is familiar with the policy and complies at all times. If a coach fails to play a child the minimum participation limit, the following sanctions will be imposed on said coach, <u>without exception</u>, to-wit:

(1) The first offense will result in the coach receiving a letter or reprimand from the governing board of the league. The child concerned will play the entire next game.

(2) The second offense by the same coach will result in the coach being suspended from the league for the next week. The child concerned will play the entire next game.

(3) The third offense by the same coach will result in expulsion of the coach from any City program in any and all capacities for a minimum of two (2) calendar years. The child concerned will play the entire next game.

(4) If any coach fails to play any child as required in any league championship game or any play-off game affecting the league championship, then that coach, no matter which offense, will be suspended from the league and unable to participate in any post-season activities. The team that fails to have full participation by all players will forfeit the game.

(5) If any coach fails to play any child as required herein in any all-star or tournament game, then that coach, no matter which offense, will be expelled from coaching in any City program in any and all capacities for a minimum of two (2) calendar years.

The individual leagues will notify the Hattiesburg Recreation Department whenever it becomes necessary to take any action against a coach for failure to comply with the participation policy.

A copy of this participation policy shall be provided to each child at registration of any sport within the City of Hattiesburg.

The purpose of a sports league is to insure participation for all children within the City of Hattiesburg; the purpose of a participation policy is to insure a sports league for all the children of Hattiesburg.

Title

Authorize Mayor to execute lighting agreement with Pearl River Valley Electric Power Association for installation of security light (M26-100) on existing pole near the intersection of Poplar Loop Rd. and Jervis Mims Rd for an approximate increase of $8.75 to the monthly bill.

Summary

Authorize Mayor to execute lighting agreement with Pearl River Valley Electric Power Association for installation of security light (M26-100) on existing pole at location R4-65 for an approximate increase of $8.75 to the monthly bill.

PEARL RIVER VALLEY ELECTRIC POWER ASSOCIATION
Columbia, Hattiesburg, Purvis, & Wiggins, Mississippi

OUTDOOR AREA LIGHTING AGREEMENT

Location: R4-65 Name or Membership City of Hattiesburg

The undersigned (hereinafter "Applicant") hereby request Pearl River Valley Electric Power Association (hereinafter "Association") to install and maintain outdoor Lights/poles/transformers (hereafter "Lighting") described below and agrees to lease said Lighting according to Association's applicable Lighting Rate Schedules upon the following terms and conditions, whereby:

ITEM	QTY	Type Lighting/Pole/Transformers	(Std) (Non-Std)	Watts/Height/KVA	Voltage
Poles					
Lighting	1	M26-100			
Transformers					

A. The term "**Agreement**" as used herein shall mean and includes:
1. Document herewith executed;
2. Association's Outdoor Lighting Rate Schedule, attached hereto;
3. Right-of-way easement executed by Applicant on said property and on file with Association;
4. Association's Service Rules and Regulations, and Bylaws, available upon request.

B. Association will furnish and Applicant will receive and pay for electric outdoor-area Lighting service as herein specified in accordance with provisions of this agreement and service there under.

C. When "street" Lighting is installed by Applicant within a development under contract with Association, Applicant will be refunded cost of one "standard" Lighting (street) for every four Comfort Advantage Homes constructed during contract period designated within the "Agreement for Underground Electric Facilities."

D. ASSOCIATION AGREES TO:
1. Furnish and install Association's standard outdoor Lighting facilities itemized above at locations designated by Applicant, all of which will remain the property of Association;
2. Maintain Lighting without charge, except where abnormal maintenance problems occur from abuse, and will repair or replace Lighting within two (2) business days after receiving notification of a problem, unless providentially hindered; however, should the supply of electric energy be interrupted or fail for any reason, such interruptions shall not constitute a breach of this agreement, nor shall Association be liable for damages and/or injuries by reason of such interruption or failure;
3. Supply additional standard outdoor Lighting as Applicant requests during the continuance of the agreement, or any renewal, thereof, which shall become subject to this agreement and shall be considered in all respects as though a part of this agreement described herein;
4. Install, furnish, and maintain any special facilities required to furnish outdoor Lighting service provided Association is reimbursed for additional facilities;
5. Change location of any Lighting at request of Applicant, provided change is engineering feasible and all necessary expenses incurred in connection of such change are borne by Applicant;
6. Reserve the right to remove Lighting for non-payment of the monthly charges associated with this agreement or for abnormal maintenance problems from abuse.

E. APPLICANT AGREES TO:
1. **Guarantee a minimum lease period of** 1 **years**, beginning from the date of installation and continuing thereafter from year to year, unless terminated by written notice by either party to the other. ***Should Lighting be disconnected within minimum lease period, Applicant agrees to pay Association the greater of $100 per light or contract balance of the minimum lease period.*** In addition, should Applicant request Lighting to be reinstalled within 90 days, all applicable construction and service fees must be paid by Applicant;
2. Grant Association free and continuous ingress, egress, and right-of-way easement , including all permits, franchises, or authority, necessary to construct, operate, maintain, upgrade, inspect, and/or replace Lighting upon Applicant's property and/or along streets;
3. Pay all applicable facilities, installation cost, and taxes for providing the necessary service voltage to serve Lighting if the correct service voltage is not available;
4. Pay a monthly lease as set by the amount in Association's current rate schedule and any other applicable charges mentioned within this agreement as set from time to time by Association's Board of Directors. It is also agreed that whenever Association has a rate modification, a corresponding modification may be made in the monthly lease for the outdoor Lighting upon notification by Association;
5. Pay any applicable relocation and service fees and taxes if Applicant requests Lighting to be relocated, including signing a new agreement and, when applicable, pay Association balance of lease period. If relocation cost is less than the balance of lease period, Applicant may retain existing agreement provided he pay all applicable cost and service fees;
6. Protect Association's equipment in every possibly manner and permit Association to maintain and service Lighting as required. If excessive maintenance problems occur caused from abuse (vandalism, Lighting shot for second time, vehicle accident, etc.), Applicant agrees to pay for all abnormal maintenance cost within Association's current Fees and Charges;
7. Pay cost difference between non-standard and Association's standard Lighting equipment when Applicant request Association to install a non-standard Lighting facilities. Applicant understands that Association will not be responsible for maintaining spare units of non-standard Lighting equipment; and, Association may substitute similar Lighting facilities to replace non-standard Lighting facilities if the original installed Lighting facilities selected by Applicant become obsolete or discontinued. Applicant is responsible for stocking spare non-standard Lighting facilities selected by Applicant in case non-standard Lighting facilities needs to be replaced or repaired;
8. When applicable, pay in advance a security deposit and/or construction charge consisting of $ N/A per Lighting, $ N/A per Lighting transformer, and $ N/A tax, or total cost of $ see attached based on Association's current Fees and Charges as set from time to time by Association's Board of Directors: staking report for break down of cost.

8.a When Lighting Agreement is for a development, in lieu of paying the total construction charge in advance, Association will accept a minimum payment of $ N/A up front with the balance paid over a N/A year period (one year for every ten lots not to exceed five years) provided Applicant furnishes Association either an irrevocable Letter of Credit or Security Bond in the amount of $ N/A for securing Applicant's share of underground construction cost (see also Developer's Agreement). At end of specified time period, Applicant shall pay balance of all unpaid construction fees, less any Comfort Advantage Lighting Program rebates. For every four "Comfort Advantage" residences constructed within Development and within the specified time period from the date of the Developer's Agreement for Underground Electric Facilities, Association will refund the cost of one standard Lighting fixture.

9. Indemnify and hold harmless Association against any and all claims, losses, expenses, fees including attorney fees, costs, and judgments asserted against Association for damages and/or injuries as a result of the Lighting layout, installation and/or illumination levels that may deviate or not meet the Illuminating Engineering Society's (IES) Lighting standards as a result of the irregular or non-standard placement of Lighting due to Applicant specifying specific location of Lighting or limiting the quantity of Lighting to number shown above for the total area to be illuminated, and/or physical constraints such as spacing between lot lines, street layout, etc.

F. Any additional or unusual charges required for additional facilities, location expenses, relocation fees, etc. must be approved on an individual basis by Applicant in advance.

G. Upon execution of this agreement by both contracting parties and payment by Applicant, Association will proceed with placing orders for necessary materials and equipment and will pursue construction until completion of the project, unless prevented from doing so by Applicant. Association shall not be responsible for delays of suppliers, strikes, civic disorders, acts of God or other events over which it has no control.

H. Lighting facilities installed hereunder shall remain the property of Association and Association shall have the right to inspect, substitute, repair, upgrade, relocate, or remove within the designated utility easement, and to make such changes, alternatives, substitutions, additions, or deletions to its facilities as it may deem advisable. Upon termination of this agreement and/or facility damages described in paragraph E.6 above, Association shall have the right to remove from the streets or property of Applicant, any equipment which Association may have installed to provide service hereunder.

I. Agreement shall not be binding upon Association until it has been approved in writing, endorsed below by duly authorized representatives of Association and it supersedes, when executed, all preceding Lighting agreements for service provided for. All previous communications between parties hereto whether oral or written, with reference to subject matter of this agreement, are hereby abrogated, and no modification hereof shall be binding unless it shall be in writing duly accepted by Applicant and Association. This agreement shall not be assigned by Applicant without written consent of Association.

PEARL RIVER VALLEY ELECTRIC POWER ASSOCIATION
Columbia, Hattiesburg, Purvis, & Wiggins, Mississippi

OUTDOOR AREA LIGHTING AGREEMENT

Location: R4-65 Name or Membership City of Hattiesburg

The undersigned (hereinafter "Applicant") hereby request Pearl River Valley Electric Power Association (hereinafter "Association") to install and maintain outdoor Lights/poles/transformers (hereafter "Lighting") described below and agrees to lease said Lighting according to Association's applicable Lighting Rate Schedules upon the following terms and conditions, whereby:

ITEM	QTY	Type Lighting/Pole/Transformers	(Std) (Non-Std)	Watts/Height/KVA	Voltage
Poles					
Lighting	1	M26-100			
Transformers					

A. The term "**Agreement**" as used herein shall mean and includes:
1. Document herewith executed;
2. Association's Outdoor Lighting Rate Schedule, attached hereto;
3. Right-of-way easement executed by Applicant on said property and on file with Association;
4. Association's Service Rules and Regulations, and Bylaws, available upon request.

B. Association will furnish and Applicant will receive and pay for electric outdoor-area Lighting service as herein specified in accordance with provisions of this agreement and service there under.

C. When "street" Lighting is installed by Applicant within a development under contract with Association, Applicant will be refunded cost of one "standard" Lighting (street) for every four Comfort Advantage Homes constructed during contract period designated within the "Agreement for Underground Electric Facilities."

D. **ASSOCIATION AGREES TO:**
1. Furnish and install Association's standard outdoor Lighting facilities itemized above at locations designated by Applicant, all of which will remain the property of Association;
2. Maintain Lighting without charge, except where abnormal maintenance problems occur from abuse, and will repair or replace Lighting within two (2) business days after receiving notification of a problem, unless providentially hindered; however, should the supply of electric energy be interrupted or fail for any reason such interruptions shall not constitute a breach of this agreement, nor shall Association be liable for damages and/or injuries by reason of such interruption or failure;
3. Supply additional standard outdoor Lighting as Applicant requests during the continuance of the agreement, or any renewal, thereof, which shall become subject to this agreement and shall be considered in all respects as though a part of this agreement described herein;
4. Install, furnish, and maintain any special facilities required to furnish outdoor Lighting service provided Association is reimbursed for additional facilities;
5. Change location of any Lighting at request of Applicant, provided change is engineering feasible and all necessary expenses incurred in connection of such change are borne by Applicant;
6. Reserve the right to remove Lighting for non-payment of the monthly charges associated with this agreement or for abnormal maintenance problems from abuse.

E. **APPLICANT AGREES TO:**
1. **Guarantee a minimum lease period of** 1 **years**, beginning from the date of installation and continuing thereafter from year to year, unless terminated by written notice by either party to the other. ***Should Lighting be disconnected within minimum lease period, Applicant agrees to pay Association the greater of $100 per light or contract balance of the minimum lease period.*** In addition, should Applicant request Lighting to be reinstalled within 90 days, all applicable construction and service fees must be paid by Applicant;
2. Grant Association free and continuous ingress, egress, and right-of-way easement , including all permits, franchises, or authority, necessary to construct, operate, maintain, upgrade, inspect, and/or replace Lighting upon Applicant's property and/or along streets;
3. Pay all applicable facilities, installation cost, and taxes for providing the necessary service voltage to serve Lighting if the correct service voltage is not available;
4. Pay a monthly lease as set by the amount in Association's current rate schedule and any other applicable charges mentioned within this agreement as set from time to time by Association's Board of Directors. It is also agreed that whenever Association has a rate modification, a corresponding modification may be made in the monthly lease for the outdoor Lighting upon notification by Association;
5. Pay any applicable relocation and service fees and taxes if Applicant requests Lighting to be relocated, including signing a new agreement and, when applicable, pay Association balance of lease period. If relocation cost is less than the balance of lease period, Applicant may retain existing agreement provided he pay all applicable cost and service fees;
6. Protect Association's equipment in every possibly manner and permit Association to maintain and service Lighting as required. If excessive maintenance problems occur caused from abuse (vandalism, Lighting shot for second time, vehicle accident, etc.), Applicant agrees to pay for all abnormal maintenance cost within Association's current Fees and Charges;
7. Pay cost difference between non-standard and Association's standard Lighting equipment when Applicant request Association to install a non-standard Lighting facilities. Applicant understands that Association will not be responsible for maintaining spare units of non-standard Lighting equipment; and, Association may substitute similar Lighting facilities to replace non-standard Lighting facilities if the original installed Lighting facilities selected by Applicant become obsolete or discontinued. Applicant is responsible for stocking spare non-standard Lighting facilities selected by Applicant in case non-standard Lighting facilities needs to be replaced or repaired;
8. When applicable, pay in advance a security deposit and/or construction charge consisting of $ N/A per Lighting, $ N/A per Lighting transformer, and $ N/A tax, or total cost of $ see attached based on Association's current Fees and Charges as set from time to time by Association's Board of Directors: staking report for break down of cost.

8.a When Lighting Agreement is for a development, in lieu of paying the total construction charge in advance, Association will accept a minimum payment of $ N/A up front with the balance paid over a N/A year period (one year for every ten lots not to exceed five years) provided Applicant furnishes Association either an irrevocable Letter of Credit or Security Bond in the amount of $ N/A for securing Applicant's share of underground construction cost (see also Developer's Agreement). At end of specified time period, Applicant shall pay balance of all unpaid construction fees, less any Comfort Advantage Lighting Program rebates. For every four "Comfort Advantage" residences constructed within Development and within the specified time period from the date of the Developer's Agreement for Underground Electric Facilities, Association will refund the cost of one standard Lighting fixture.

9. Indemnify and hold harmless Association against any and all claims, losses, expenses, fees including attorney fees, costs, and judgments asserted against Association for damages and/or injuries as a result of the Lighting layout, installation and/or illumination levels that may deviate or not meet the Illuminating Engineering Society's (IES) Lighting standards as a result of the irregular or non-standard placement of Lighting due to Applicant specifying specific location of Lighting or limiting the quantity of Lighting to number shown above for the total area to be illuminated, and/or physical constraints such as spacing between lot lines, street layout, etc.

F. Any additional or unusual charges required for additional facilities, location expenses, relocation fees, etc. must be approved on an individual basis by Applicant in advance.

G. Upon execution of this agreement by both contracting parties and payment by Applicant, Association will proceed with placing orders for necessary materials and equipment and will pursue construction until completion of the project, unless prevented from doing so by Applicant. Association shall not be responsible for delays of suppliers, strikes, civic disorders, acts of God or other events over which it has no control.

H. Lighting facilities installed hereunder shall remain the property of Association and Association shall have the right to inspect, substitute, repair, upgrade, relocate, or remove within the designated utility easement, and to make such changes, alternatives, substitutions, additions, or deletions to its facilities as it may deem advisable. Upon termination of this agreement and/or facility damages described in paragraph E.6 above, Association shall have the right to remove from the streets or property of Applicant, any equipment which Association may have installed to provide service hereunder.

I. Agreement shall not be binding upon Association until it has been approved in writing, endorsed below by duly authorized representatives of Association and it supersedes, when executed, all preceding Lighting agreements for service provided for. All previous communications between parties hereto whether oral or written, with reference to subject matter of this agreement, are hereby abrogated, and no modification hereof shall be binding unless it shall be in writing duly accepted by Applicant and Association. This agreement shall not be assigned by Applicant without written consent of Association.

RE: Intersection Lighting

To: Whom It May Concern

Mississippi Power Company (MPC) appreciates the opportunity to provide you with a LED lighting conversion proposal for twelve of your intersections in Hattiesburg, MS. Our proposal includes the replacement of your existing fixtures with LED fixtures that will improve uniformity and relieve the city of maintenance cost.

The advantages of using MPC to provide your lighting installation and/or maintenance includes our 24-hour call center, over 80+ years of lighting experience, quick response from local experienced employees, utility-grade material, and monthly bill. Below is a list of those intersections affected along with the number of fixtures at each location.

Intersections/# Fixtures: 3-Hardy St. & W-I59 Off Ramp, 2-Hardy 49 & PRC Boulevard, 6-Hwy 11 & W Tatum, 2-Hwy 11 & Parkway, 4-Hardy St & Hwy 49 ,4-Hardy St & Westover Dr., 1-Hardy St &40th. Ave., 2-Hardy St & 38th Ave., 2-Hardy St & 34th Ave., 2-Hardy St & 31St Ave., 4-Hardy St & 29th Ave., 2-Bonhomie & W Tatum

Scope of Work:

Remove: (34) fixtures Customer owned fixtures and discard

Install:

- (32) 225W LED Black Fixtures
- (2) 225W LED Gray Fixtures
- **Monthly Lease Cost: $714.00* ($21.00 per fixture)**

** 7-year minimum lease term required and includes complete maintenance of lighting fixture and bracket s only.*

Applicable taxes not included. This agreement contains confidential and proprietary pricing information that shall be kept as confidential to the fullest extent permitted by Mississippi law. This proposal is good for 60 days.

We will be glad to meet with you and discuss in more detail if you would like. My contact information is provided below. Thank you for the opportunity to serve your lighting needs. Pricing is good for 60 days.

Sincerely,

Greg Parker

1. **Lighting Equipment Lease.** Mississippi Power Company ("MPC") will lease to Customer the "Facilities" described on Page 1 of this Lease Agreement ("Agreement") for use at the "Premises" (the "Service Address" shown on Page 1). Customer grants a license of right of access to MPC (and to MPC's representatives and contractors) to enter the Premises to install, connect, inspect, maintain, test, replace, repair, or remove the Facilities; to remove or disconnect pre-existing equipment as noted; or to conduct any other Agreement-related activity (collectively, the "MPC Activities"). Customer acknowledges that the Facilities, though attached to real property, will always remain the exclusive personal property of MPC and that MPC may remove the facilities when this Agreement ends. Customer also acknowledges that regulatory change during the Agreement term may require MPC to modify or replace some Facilities.

2. **Term.** The "Initial Term" of this Agreement is the period stated on Page 1, calculated from the date of the first monthly bill. After the Initial Term, the Agreement will automatically renew on an annual basis until terminated by either Customer or MPC by providing written notice of intent to terminate to the other party at least 30 days before the desired termination date. MPC's address for notice is Mississippi Power Company, ATTN: Marketing Lighting Services, PO Box 4079, Gulfport, MS 39502-4079. Customer's address for notice is the Mailing Address shown on Page 1.

3. **Payment.** MPC will invoice Customer per the terms stated on Page 1. Customer agrees to pay the amount billed by the due date. If there is a balance outstanding past the due date, Customer agrees to also pay a 1.5% late fee on the unpaid monthly balance and also acknowledges that Customer may be required to pay a deposit of up to two times the Monthly Charge in order to continue service. CUSTOMER ACKNOWLEDGES THAT MPC MAKES NO REPRESENTATION OR WARRANTY REGARDING TREATMENT OF THIS TRANSACTION BY THE INTERNAL REVENUE SERVICE OR THE STATUS OF THIS AGREEMENT UNDER ANY FEDERAL OR STATE TAX LAW; CUSTOMER ENTERS INTO THIS AGREEMENT IN SOLE RELIANCE UPON CUSTOMER'S OWN ADVISORS.

4. **Equipment Protection.** Throughout this Agreement's term, Customer will inform its personnel (and any contractor or person performing construction at the Premises or digging near MPC's Facilities) of the Facilities presence. Either Customer or the other party must provide notices and locate requests to the Mississippi One Call System and must coordinate all activities with the One Call Center and with all utility facility owners or operators as required by the then current Mississippi One Call Law. Customer further acknowledges that any such work may require compliance with certain laws and regulations, including, without limitation, the Mississippi High Voltage Power Lines Act, Miss. Code Ann. §§ 45-15-1, et seq., and regulations of the Occupational Safety and Health Administration. These laws and regulations shall be independently consulted by Customer to determine if any additional compliance measures shall be undertaken by Customer prior to commencement of any work; provided, however, that no work shall be performed until such consultation and compliance has been completed. As between Customer and MPC, Customer will bear all costs arising from failure to comply with these laws or for Facility damage caused by anyone other than MPC (or MPC's representatives or contractors). IF THE FACILITIES ARE DAMAGED, CUSTOMER WILL REPORT THE DAMAGE TO MPC AS SOON AS POSSIBLE BY CALLING 800-487-3275.

5. **Maintenance/Repairs.** During this Agreement's term, MPC will maintain the Facilities and will bear the cost of routine repair or replacement. All non-routine maintenance or repair can be done at the Customer's request and will be billed to Customer at then-current MPC rates. Customer must notify MPC of any need for Facility repair by calling 877-656-1836. If the Facility damage was caused by Customer or third party, Customer will reimburse MPC for the repair or replacement cost. Either Party shall be excused from performance of its obligations hereunder other than accrued payment obligations and shall not be construed to be in default in respect of such obligations to the extent that, and for so long as, failure to perform such obligations is due to a Force Majeure Event defined as any occurrence, nonoccurrence or set of circumstances that is beyond the reasonable control of such Party.

6. **Safety/Damages.** CUSTOMER ACKNOWLEDGES SOLE RESPONSIBILITY FOR THE SAFETY OF THE PREMISES AND ACKNOWLEDGES THAT MPC NEITHER HAS, NOR ASSUMES, ANY OBLIGATION TO ENSURE THE PREMISES' SAFETY. MPC makes no covenant, warranty, or representation of any kind (including warranty of fitness for a particular purpose or of merchantability) regarding the equipment or any MPC activity under this agreement. Customer will not be entitled to indirect or consequential damages from MPC of any kind (including loss of revenue, loss of actual or anticipated profits, loss of capital costs, loss of business reputation, or punitive damages) arising from any damage or delay involving the Facilities or this Agreement.

7. **Indemnity.** To the fullest extent allowed by law, Customer agrees to indemnify, defend (if requested by MPC), and hold harmless MPC and its affiliates and contractors (and their officers, directors, employees, representatives, and agents) from and against any claim, demand, damage, expense (including attorney's fees and court costs), action, proceeding, judgment, penalty, fine, cost, or other liability (whether based upon tort, breach of contract, strict liability, equity, or otherwise) of any kind or nature for bodily injury (including death) to persons, damage to real or personal property (including loss of use), monetary damage, or equitable relief caused by or arising out of any act or omission of Customer involving this Agreement, the Facilities, or the Premises, in whatever manner caused and regardless of whether caused by or arising out of the joint, concurrent, or contributory (but not sole) negligence of MPC, any other person indemnified under this Agreement, or any other person not a party to this Agreement.

8. **Default.** Customer will be in default if any amount owed under this Agreement is not paid within 45 days of billing. MPC's waiver of any past default will not waive any other default. If default occurs, MPC may, at its discretion, immediately terminate this Agreement, collect all past due amounts and all amounts due for the Facilities during the Agreement's remaining term, remove the Facilities from the Premises, and seek any other available remedy. MPC shall be entitled to reasonable attorney's fees, costs and expenses associated with any claim or litigation concerning Customer's default of this Agreement.

9. **Entire Agreement.** This Agreement contains the parties' entire agreement relating to the Facilities and replaces any prior agreement, written or oral. This Agreement may be modified only by an amendment signed by each party, except that updated contact information (e.g. address, phone number, etc) may be provided at any time by written notice to the other party. This Agreement will be governed by Mississippi law. If any provision is ruled invalid or unenforceable, the Agreement as a whole will not be affected. In this Agreement, "including" means "including, but not limited to."

10. **Pole Attachments.** If Customer desires to attach anything to any Facilities (poles, light fixtures, brackets, etc), Customer must first obtain MPC's written permission. Customer must contact MPC's Lighting Services Business Unit at 877-656-1836 to obtain the proper pole attachment authorization.

11. **Customer Representations.** Customer represents to MPC that: (i) Customer is expressly authorized by all Premises owners (and any other party with rights in the Premises) to enter into this Agreement and to authorize the MPC Activities (including the use of vehicles, equipment, tools, and materials necessary); (ii) all Premises property lines are clearly and accurately marked; and (iii) the Premises' final grade will vary no more than 6" from the grade existing at the time of Facility installation.

    a. **Customer Duty.** If MPC agrees to allow Customer to perform any part of the Facility installation (including trenching) itself or through a third party, Customer warrants that its work will meet MPC's installation specifications (which will be provided to the Customer). Customer will bear all reasonable additional costs arising from Customer's non-compliance with MPC's specifications or lack of timely (i.e. 10 days) notice to MPC that MPC's portion of the Facilities installation can commence.

    b. **Underground Facilities/Obstructions.** Because MPC's Activities may require excavation or digging, Customer acknowledges that **Customer must mark all underground obstructions and private utilities and facilities (e.g. gas lines, water lines, sewer lines, irrigation facilities, low voltage data or communication cables or lines, etc) at the Premises.** Customer warrants either that: (i) all underground obstructions and private utilities and facilities have been marked or will be marked before MPC commences Facility installation or other MPC Activities involving excavation or digging; or (ii) there are no underground obstructions or private utilities or facilities at the Premises.

    c. **Unforeseen Conditions.** If Customer fails to properly mark or identify a private utility or facility or other underground obstruction, and damage occurs in connection with MPC's Activities, Customer agrees that, as between Customer and MPC, Customer will bear sole responsibility for any and all damages incurred, including MPC and/or third-party damages, and that MPC will have no liability for any damage or resulting delay. Customer also acknowledges that the estimated charges shown on Page 1 include no allowance for any subsurface rock, wetlands, underground stream, buried waste, unsuitable or unstable soil, underground obstruction, archeological artifact, burial ground, threatened or endangered species, hazardous substance, etc. not known to Customer or properly identified and marked by Customer. If an unforeseen condition is encountered, MPC, in its sole discretion, may stop all MPC Activity until Customer either remedies the unforeseen condition or agrees to reimburse all MPC expenses arising from the unforeseen condition. Customer will bear all costs of any Facility modification or change requested by Customer or dictated by unforeseen conditions or circumstances outside MPC's control.

CITY OF HATTIESBURG COMMUNITY DEVELOPMENT
Homeowner Rehabilitation/Reconstruction Program
Project HRRP

Contractor & Owner Agreement

THIS AGREEMENT, made the 6th day of February, 2018 and between the City of Hattiesburg Community Development Division (COHCD) Homeowner Rehabilitation/Reconstruction Program (HRRP) and Bettye Hill of 413 South 13th Avenue, hereinafter called Owner, and _____, with its principal place of business located at _____, Hattiesburg, Mississippi _____, hereinafter called the Contractor.

WITNESSETH

1. SCOPE OF WORK

The Contractor shall furnish all labor, materials, tools, supplies, supervision and other services and shall perform all operations necessary and required to satisfactorily complete the work shown on the drawings, work write-up (Exhibit 1), work agreement (Exhibit 2) and described in the specifications and other Contract Documents prepared for the **413 South 13th Avenue** Project by COHCD, said work to be performed on the structure(s)/property located at **413 South 13th Avenue**, Hattiesburg, Mississippi, all in accordance with terms of the Contract Documents.

2. TIME OF COMPLETION

The Owner/COHCD shall issue a written Notice to Proceed within 5 days from the date of the Owner/COHCD signing of this Agreement, accepting the Contractor's bid and proposal, providing the Contractor has obtained the necessary permits and related documents (if needed) and has presented them to the Owner/COHCD. If the Notice to Proceed is not received by the Contractor within this 5 day period, the Contractor may at his option terminate his obligation under this Agreement, provided he has obtained the necessary permits and related documentation within (15) days from the date of the Owner's/COHCD's signing of this Agreement, the Owner/COHCD has the option of terminating the Contract for cause.

The Contractor shall commence working within ten (10) calendar days, as time is of the essence in the completion of this contract, after issuance of the Notice to Proceed, and it is to be completed within sixty (60) working days after the issuance of the Notice to Proceed. **One hundred dollars ($100.00) per day, as liquidated damages, will be deducted from the final payment for every day project rehabilitation completion exceeds sixty (60) working days.** The Owner/COHCD has the option of terminating the Contract for failure to commence work within the time allowed by the Contract Agreement.

3. COMPENSATION

As full consideration for the satisfactory performance by Contractor of this Contract, the Owner/COHCD shall pay to the Contractor the sum of _____ ( ) subject to any written additions or deductions provided and incorporated herein, in accordance with the payment provisions of this Contract.

4. CHANGES IN THE WORK

The Owner/COHCD without invalidating the Contract may order Changes in Work consisting of additions, deletions, or modifications, the Contract Sum and the Contract Time being adjusted accordingly. All such Changes in the Work shall be authorized by written Change Order signed by the Owner and COHCD or their duly authorized agent.

The Contract Sum and the Contract Time may be changed by a Change Order. The cost or credit to the Owner/COHCD from a Change in the Work shall be determined by mutual agreement before executing the Work involved.

5. CORRECTION OF WORK

The Contractor shall correct any work that fails to conform to the requirements of the Contract Documents where such failure to conform appears during the progress of the Work, and shall remedy any defects due to faulty materials, equipment or workmanship which appears within a period of one year from the Date of substantial Completion of the Contract or within such longer period of time as may be prescribed by law or by the terms of any applicable special guarantee required by the Contract Documents. The provisions of this statement apply to Work done by Subcontractors as well as to Work done by direct employees of the Contractor.

6. TERMINATION BY THE OWNER

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents or fails to perform any provisions of the Contract, the Owner/COHCD may, after seven days written notice to the Contractor and without prejudice to any other remedy they may have, make good such deficiencies and may deduct the cost thereof from the payment then or thereafter due the Contractor. If the Contractor's workmanship is deficient and he fails to remedy such work within a specified time period, the Owner/COHCD, at their option, may terminate the Contract and take possession of the site and all materials, supplies and equipment incorporated in the work thereon. The Owner/COHCD may finish the Work by whatever method they may deem expedient. If the unpaid balance of the Contract Sum exceeds the expenses of finishing the Work, such excess shall be paid to the Contractor for approved work completed, but if such expense exceeds such unpaid balance, the Contractor shall pay the difference to the Owner/COHCD.

7. PAYMENTS/DRAWS

Payments may be withheld on account of (1) defective Work not remedied, (2) claims filed, (3) failure of the Contractor to make payments properly to Subcontractors or for labor, materials or equipment, (4) damage to another contractor or (5) unsatisfactory prosecution of the Work of the Contractor.

Final payment shall not be due until the Contractor has delivered to the Owner/CHOCD filed lien waivers/releases, indemnifying them against any lien.

The making of final payment shall constitute a waiver of all claims by the Owner/COHCD except those arising from (1) unsettled liens, (2) faulty or defective Work appearing after Substantial Completion, (3) failure of Work to comply with the Requirements of the Contract Documents or (4) terms of any special guarantees required

by the Contract Documents. The acceptance of the final payment shall constitute a wavier of all claims by the Contractor except those preciously made in writing and still unsettled.

1. _____
2. _____
3. _____
4. _____
5. _____

8. ACCEPTANCE AND FINAL PAYMENT

Final payment shall be due thirty (30) days after completion and acceptance of the work, provided the Contract has been satisfactorily performed, subject to the provision of the General Conditions of the Contract.

9. DEED RESTRICTION

There will be deed restriction attached to **413 South 13th Avenue** for five (5) years. Homeowner agrees to occupy the rehabilitated home for five (5) years after rehabilitation activities are completed. The homeowner agrees to pay the prorated grant amount and legal fees associated with securing repayment to the City of Hattiesburg in the event the property is sold, transferred or disposed of prior to the expiration of the five (5) year affordability period. **Homeowner acknowledges and agrees that this contract shall be binding on his/hers/their heirs, executors and assigns.**

10. ASSIGNMENT OF CONTRACT

This agreement may not be assigned to any Contractor or Agent of Contractor. IN WITNESS WHEREOF, the parties hereto executed this Agreement the _____ day of _____, 2018.

CITY OF HATTIESBURG COMMUNITY DEVELOPMENT
Homeowner Rehabilitation/Reconstruction Program
Project HRRP

Contractor & Owner Agreement

THIS AGREEMENT, made the 6th day of February, 2018 and between the City of Hattiesburg Community Development Division (COHCD) Homeowner Rehabilitation/Reconstruction Program (HRRP) and Bettye Hill of 413 South 13th Avenue, hereinafter called Owner, and _____, with its principal place of business located at _____, Hattiesburg, Mississippi _____, hereinafter called the Contractor.

WITNESSETH

1. SCOPE OF WORK

The Contractor shall furnish all labor, materials, tools, supplies, supervision and other services and shall perform all operations necessary and required to satisfactorily complete the work shown on the drawings, work write-up (Exhibit 1), work agreement (Exhibit 2) and described in the specifications and other Contract Documents prepared for the **413 South 13th Avenue** Project by COHCD, said work to be performed on the structure(s)/property located at **413 South 13th Avenue**, Hattiesburg, Mississippi, all in accordance with terms of the Contract Documents.

2. TIME OF COMPLETION

The Owner/COHCD shall issue a written Notice to Proceed within 5 days from the date of the Owner/COHCD signing of this Agreement, accepting the Contractor's bid and proposal, providing the Contractor has obtained the necessary permits and related documents (if needed) and has presented them to the Owner/COHCD. If the Notice to Proceed is not received by the Contractor within this 5 day period, the Contractor may at his option terminate his obligation under this Agreement, provided he has obtained the necessary permits and related documentation within (15) days from the date of the Owner's/COHCD's signing of this Agreement, the Owner/COHCD has the option of terminating the Contract for cause.

The Contractor shall commence working within ten (10) calendar days, as time is of the essence in the completion of this contract, after issuance of the Notice to Proceed, and it is to be completed within sixty (60) working days after the issuance of the Notice to Proceed. **One hundred dollars ($100.00) per day, as liquidated damages, will be deducted from the final payment for every day project rehabilitation completion exceeds sixty (60) working days.** The Owner/COHCD has the option of terminating the Contract for failure to commence work within the time allowed by the Contract Agreement.

3. COMPENSATION

As full consideration for the satisfactory performance by Contractor of this Contract, the Owner/COHCD shall pay to the Contractor the sum of _____ ( ) subject to any written additions or deductions provided and incorporated herein, in accordance with the payment provisions of this Contract.

4. CHANGES IN THE WORK

The Owner/COHCD without invalidating the Contract may order Changes in Work consisting of additions, deletions, or modifications, the Contract Sum and the Contract Time being adjusted accordingly. All such Changes in the Work shall be authorized by written Change Order signed by the Owner and COHCD or their duly authorized agent.

The Contract Sum and the Contract Time may be changed by a Change Order. The cost or credit to the Owner/COHCD from a Change in the Work shall be determined by mutual agreement before executing the Work involved.

5. CORRECTION OF WORK

The Contractor shall correct any work that fails to conform to the requirements of the Contract Documents where such failure to conform appears during the progress of the Work, and shall remedy any defects due to faulty materials, equipment or workmanship which appears within a period of one year from the Date of substantial Completion of the Contract or within such longer period of time as may be prescribed by law or by the terms of any applicable special guarantee required by the Contract Documents. The provisions of this statement apply to Work done by Subcontractors as well as to Work done by direct employees of the Contractor.

6. TERMINATION BY THE OWNER

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents or fails to perform any provisions of the Contract, the Owner/COHCD may, after seven days written notice to the Contractor and without prejudice to any other remedy they may have, make good such deficiencies and may deduct the cost thereof from the payment then or thereafter due the Contractor. If the Contractor's workmanship is deficient and he fails to remedy such work within a specified time period, the Owner/COHCD, at their option, may terminate the Contract and take possession of the site and all materials, supplies and equipment incorporated in the work thereon. The Owner/COHCD may finish the Work by whatever method they may deem expedient. If the unpaid balance of the Contract Sum exceeds the expenses of finishing the Work, such excess shall be paid to the Contractor for approved work completed, but if such expense exceeds such unpaid balance, the Contractor shall pay the difference to the Owner/COHCD.

7. PAYMENTS/DRAWS

Payments may be withheld on account of (1) defective Work not remedied, (2) claims filed, (3) failure of the Contractor to make payments properly to Subcontractors or for labor, materials or equipment, (4) damage to another contractor or (5) unsatisfactory prosecution of the Work of the Contractor.

Final payment shall not be due until the Contractor has delivered to the Owner/CHOCD filed lien waivers/releases, indemnifying them against any lien.

The making of final payment shall constitute a waiver of all claims by the Owner/COHCD except those arising from (1) unsettled liens, (2) faulty or defective Work appearing after Substantial Completion, (3) failure of Work to comply with the Requirements of the Contract Documents or (4) terms of any special guarantees required

by the Contract Documents. The acceptance of the final payment shall constitute a wavier of all claims by the Contractor except those preciously made in writing and still unsettled.

1. _____
2. _____
3. _____
4. _____
5. _____

8. ACCEPTANCE AND FINAL PAYMENT

Final payment shall be due thirty (30) days after completion and acceptance of the work, provided the Contract has been satisfactorily performed, subject to the provision of the General Conditions of the Contract.

9. DEED RESTRICTION

There will be deed restriction attached to **413 South 13th Avenue** for five (5) years. Homeowner agrees to occupy the rehabilitated home for five (5) years after rehabilitation activities are completed. The homeowner agrees to pay the prorated grant amount and legal fees associated with securing repayment to the City of Hattiesburg in the event the property is sold, transferred or disposed of prior to the expiration of the five (5) year affordability period. **Homeowner acknowledges and agrees that this contract shall be binding on his/hers/their heirs, executors and assigns.**

RE: Gordon's Creek-Depot District Buschman St to River Ave

Mr. Rutland:

This letter is to serve as the Certificate of Warranty and Guarantee that work will not be defective, as required by the contract for the above listed project. The one year warranty period shall begin on September 20, 2017 and expire on September 19, 2018.

Thank you,

Doug Parten
Project Manager

MERCHANTS
BONDING COMPANY™

POWER OF ATTORNEY

Know All Persons By These Presents, that MERCHANTS BONDING COMPANY (MUTUAL) and MERCHANTS NATIONAL BONDING, INC., both being corporations of the State of Iowa (herein collectively called the "Companies") do hereby make, constitute and appoint, individually,

Angie M. Strickland

their true and lawful Attorney-in-Fact, to sign its name as surety(ies) and to execute, seal and acknowledge any and all bonds, undertakings, contracts and other written instruments in the nature thereof, on behalf of the Companies in their business of guaranteeing the fidelity of persons, guaranteeing the performance of contracts and executing or guaranteeing bonds and undertakings required or permitted in any actions or proceedings allowed by law.

Surety Bond #: MSC53060
Principal: Floore Industrial Contractors, Inc.
Obligee: City of Hattiesburg, MS

This Power-of-Attorney is granted and is signed and sealed by facsimile under and by authority of the following By-Laws adopted by the Board of Directors of Merchants Bonding Company (Mutual) on April 23, 2011 and amended August 14, 2015 and adopted by the Board of Directors of Merchants National Bonding, Inc., on October 16, 2015.

"The President, Secretary, Treasurer, or any Assistant Treasurer or any Assistant Secretary or any Vice President shall have power and authority to appoint Attorneys-in-Fact, and to authorize them to execute on behalf of the Company, and attach the seal of the Company thereto, bonds and undertakings, recognizances, contracts of indemnity and other writings obligatory in the nature thereof."

"The signature of any authorized officer and the seal of the Company may be affixed by facsimile or electronic transmission to any Power of Attorney or Certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligations of the Company, and such signature and seal when so used shall have the same force and effect as though manually fixed."

In connection with obligations in favor of the Florida Department of Transportation only, it is agreed that the power and aut hority hereby given to the Attorney-in-Fact includes any and all consents for the release of retained percentages and/or final estimates on engineering and construction contracts required by the State of Florida Department of Transportation. It is fully understood that consenting to the State of Florida Department of Transportation making payment of the final estimate to the Contractor and/or its assignee, shall not relieve this surety company of any of its obligations under its bond.

In connection with obligations in favor of the Kentucky Department of Highways only, it is agreed that the power and authority hereby given to the Attorney-in-Fact cannot be modified or revoked unless prior written personal notice of such intent has been given to the Commissioner-Department of Highways of the Commonwealth of Kentucky at least thirty (30) days prior to the modification or revocation.

In Witness Whereof, the Companies have caused this instrument to be signed and sealed this 4th day of January, 2018.

CITY OF HATTIESBURG

COMMUNITY DEVELOPEMNT BLOCK GRANT
BASIC REHABILITATION/EMERGENCY REPAIR PROGRAM (HOUSING)
HABITAT FOR HUMANITY
SUBRECIPIENT AGREEMENT

THIS contract (hereinafter the "AGREEMENT"), is made and entered into this 6th day of February, 2018 by and between the CITY OF HATTIESBURG, MISSISSIPPI, (hereinafter called the "Grantee"), located at 200 Forrest Street, Hattiesburg, Mississippi 39401 and Habitat for Humanity (hereinafter called the "Subrecipient"), located in the City of Hattiesburg (5191 Highway 42) for an amount not to exceed **$10,000.00 per project for a minimum of three (3) projects, and not to exceed a total amount of $30,000 for the period covered in this agreement. For the purposes of this agreement, project is defined as an emergency repair as defined by the City of Hattiesburg's CDBG/HOME Housing Rehabilitation/Reconstruction and Repair Program Manual (Section III, (A & C)), and performed on a single-family owner-occupied dwelling.** This agreement shall terminate on or before the 5th day of February, 2020, unless amended by written instrument as provided for herein.

WHEREAS, the Grantee wishes to engage the Subrecipient to assist the Grantee in utilizing such funds for: The City's Emergency Repair Program {Entitlement}

NOW, THEREFORE, it is agreed between the parties hereto that:

1. SCOPE OF SERVICE

A. Activities

The Subrecipient will procure and/or provide all skilled and unskilled labor in a manner satisfactory to the Grantee and consistent with any standards required as a condition of providing these funds. Subrecipient's use of these funds shall be limited to the procurement of materials and services needed in performing eligible Basic Rehabilitation and or emergency repairs for eligible applicants, as well as a payment of 10% per project (Project Delivery fee), payable to the subrecipient upon successful completion of each unit. Activities in such program must be eligible under the Community Development Block Grant Program. Project Delivery fee may not exceed fifteen percent (15%) of the total Subrecipient project cost for any project, and the Grantee will make reduction to the fee as necessary.

Program Delivery

The Subrecipient will provide labor, whether paid or volunteer, to execute repairs on single-family owner-occupied homes, within the scope of its mission using standard materials necessary in eliminating the conditions that are deemed an immediate threat to the health, safety, or welfare of the occupants.

The Subrecipient will collect applicant information on Grantee-provided forms and determine eligibility for assistance. Applications will be forwarded to the Grantee for final verification of eligibility. For eligible projects, the Subrecipient will provide case management and the City of Hattiesburg will reimburse up to $10,000 per project for associated expenses, including a flat fee of $500.00 for project delivery. Project Delivery fee may not exceed fifteen percent (15%) of the total Subrecipient project cost for any project, and the Grantee will make reduction to the fee as necessary. The Subrecipient may forgo the project delivery fee if it wishes to apply those funds to project costs.

General Administration

The City of Hattiesburg and the Subrecipient will maintain program and financial records documenting eligibility, provisions of services, and Subrecipient's expenses relative to the project as a result of assistance provided through the CDBG Program.

B. National Objectives

The City of Hattiesburg certifies that the activities carried out with funds provided under this Agreement will meet one or more of the CDBG program's national Objectives – 1) project benefits low-moderate income persons, 2) aid in the prevention or elimination of slums and/or blight, 3) meet community development needs having a particular urgency – as defined in 24 CFR Part 570.208.

C. Implementation Schedule

Unless amended by mutual written agreement by the Subrecipient and the Grantee, the Subrecipient will perform the described tasks in conformance with the schedule below.

TASK/ PROGRAM GOAL	DATE
Basic Rehabilitation or Emergency repairs to single-family owner-occupied homes within the city limits	**February 6, 2018 – February 6, 2020**
Completion of 1st Project	**May 7, 2018**
Completion of 2nd Project	**September 8, 2018**

Completion of 3rd Project	**May 28, 2019**
Completion & Submission of Final Report	**February 5, 2020**

D. Performance Monitoring

The Grantee will monitor the performance of the Subrecipient against the goals and performance standards required herein. Substandard performance as determined by the Grantee will constitute non-compliance with this Agreement. If action to correct such substandard performance is not taken by the Subrecipient within (10) days after being notified by the Grantee, contract termination will begin and all funding will end. Subrecipient must return any unused funds promptly.

II. TIME OF PERFORMANCE

Services of the Subrecipient shall start on the 6th day of February, 2018, and end on the 5th day of February, 2020. The term of this Agreement and the provisions shall be terminated, unless amended by written instrument.

III. BUDGET

It is understood that project costs by line item below may vary depending on the scope of each project undertaken. As such, the "Per Project" budgets below are example guidelines for sample projects with costs of up to $5,000 and $10,000, respectively. The "Total Cost" amounts by line item are firm, and variances to these amounts up to 10% require written approval from the Director of the Department of Federal & State Programs. Cumulative variances to line items of more than 10% over the life of this agreement will require a formal agreement amendment.

	$5,000 Project	**$10,000 Project**	**Total Max**
Project Delivery	**$500.00**	**$500.00**	**$2,500.00**
Materials & Contractors	**$4,500.00**	**$9,500.00**	**$27,000.00**
Total Costs	**$5,000.00**	**$10,000.00**	**$30,000.00**

Any indirect costs charged must be consistent with the conditions of Paragraph VIII (C) (2) of this Agreement. In addition, the Grantee may require a more detailed budget breakdown than the one contained herein, and the Subrecipient shall provide such supplementary budget information in a timely fashion in the form and content prescribed by the Grantee. Any

amendments to this budget must be approved in writing by the Grantee and the Subrecipient.

IV. PAYMENT

It is expressly agreed and understood that the total amount to be paid by the Grantee under this Agreement shall not exceed **$10,000.00 per project**. Drawdowns for the payment of eligible expenses shall be made against the line item budget specified in Paragraph III herein and in accordance with performance. The Subrecipient will be reimbursed, on no more than a monthly basis, provided verification of eligible expenses is provided.

Payments to the Subrecipient may be contingent upon the certification of the Subrecipient's financial management system in accordance with the acceptable standards specified in OMB Circular A-110.

V. NOTICES

Communication and details concerning this Agreement shall be directed to the following Agreement representatives:

Grantee	Breakthrough Community Services
City of Hattiesburg Director Department of Urban Development CDBG 601-545-4590 601-554-1006	Michael Pascarella,, Executive Director 5191 Highway 42 Hattiesburg, MS 39401 Phone: (601) 582-4663 Fax: 601-582-8282

VI. SPECIAL CONDITIONS

Lead and/or Asbestos Testing and/or Abatement

For eligible units assisted under this agreement, where it is necessary to test or abate lead or asbestos in the course of work, reasonable and necessary expenses for such testing and/or abatement will not be charged against the $10,000 cap per unit or the $30,000 cap for the gross amount of the agreement. Such lead and/or asbestos testing and/or abatement expenses should be documented separately from routine unit expenses, and will be reimbursed independently. Requests for such funds and their subsequent reimbursement will follow the same procedure as routine requests for funds.

Prior to ordering lead or asbestos testing or abatement, the Subrecipient should consult the City of Hattiesburg Housing Program Inspector. Under advisement from the Housing Program Inspector, the Subrecipient may proceed in ordering lead and/or asbestos testing and/or abatement in accordance with subcontracting and procurement requirements

contained herein. The Subrecipient may only use city-approved contractors for such testing and/or abatement.

Utilization of Funds

If the Subrecipient fails to comply with the terms of this Agreement, such as C. Implementation Schedule or the expenditure of 50% of obligated funds by September 8, 2018, the Grantee can terminate this without giving a 30-day notice. See Section H. Suspension or Termination.

VII. GENERAL CONDITIONS

A. General Compliance

The Subrecipient agrees to comply with the requirements of Title 24 of the Code of Federal Regulations, Part 570 [the Department of Housing and Urban Development regulations concerning Community Development Block Grants (CDBG)]. The Subrecipient also agrees to comply with all other applicable Federal, State and local laws, regulations, and policies governing the funds provided under this Agreement. The subrecipient further agrees to utilize funds available under this Agreement to supplement rather than supplant funds otherwise available.

B. "Independent Contractor"

Nothing contained in this Agreement is intended to, or shall be construed in any manner, as creating or establishing the relationship of employer/employee between the parties. The Subrecipient shall at all times remain an "independent contractor" with respect to the services to be performed under this Agreement. The Grantee shall be exempt from payment of all Unemployment Compensation, FICA, retirement, life and/or medical insurance and Workers' Compensation Insurance as the Subrecipient is an independent subrecipient.

C. Liability and Hold Harmless

The Subrecipient shall not, without prior written permission of the City specifically authorizing them to do so, represent or hold themselves out to others as an agent of or on behalf of the City of Hattiesburg

The Subrecipient, to the extent permitted by law, shall hold harmless, defend and indemnify the Grantee from any and all claims, actions, suits, charges, and judgments whatsoever that arise out of the Subrecipient's performance or nonperformance of the services or subject matter called for in this Agreement.

D. Workers' Compensation

The Subrecipient shall provide Workers' Compensation Insurance coverage for all of its employees involved in the performance of this Agreement.

E. Insurance

The Subrecipient shall carry sufficient insurance coverage to protect Agreement assets from loss due to theft, fraud and/or undue physical damage. The Subrecipient shall comply with insurance requirement of OMB Circular A-110, Bonding and Insurance.

F. Grantor Recognition

The Subrecipient shall insure recognition of the role the grantor agency in providing services through this Agreement. All activities, facilities and items utilized pursuant to this Agreement shall be prominently labeled as to funding source. In addition, the Subrecipient will include reference to the support provided herein in all publications made possible with funds available under this Agreement.

G. Amendments

The Grantee or Subrecipient may amend this Agreement at any time provided such amendments make specific reference to this Agreement, and are executed in writing, signed by a duly authorized representative of both organizations. Such amendments shall not invalidate this Agreement, nor relieve the Grantee or Subrecipient from its obligations under this Agreement.

The Grantee may, in its discretion, amend this Agreement to conform with Federal, State, or local governmental guidelines, policies and available funding amounts, or for other reasons. If such amendments result in a change in funding, the scope of services, or schedule of activities to be undertaken as part of this Agreement, such modifications will be incorporated only by written amendments signed by both Grantee and Subrecipient.

This Agreement contains the entire understanding of the parties, and any change of any term or provision of the Agreement can be approved by the by the City Council. Any such amendment shall be attached to and made a part of this Agreement.

H. Suspension or Termination

Either party may terminate this Agreement at any time by giving written notice to the other party of such termination and specifying the effective date of such termination. Partial termination of the Scope of Services in Paragraph I. A above may only be undertaken with he prior approval of the Grantee. In the event of any termination for convenience and at any time, at the Grantee's

option, all finished or unfinished documents, carpenter's materials, reports or other materials prepared by the Subrecipient under this Agreement shall, at the option of the Grantee, become the property of the Grantee, and the Subrecipient shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents or materials prior to termination.

The Grantee may also suspend or terminate this Agreement, in whole or in part without notice, if the Subrecipient materially fails to comply with any term of this Agreement, or with any of the rules, regulations or provisions referred to herein and all payments shall cease; and the Grantee may declare the Subrecipient ineligible for any further participation in the Grantee's Agreements, in addition to other remedies as provided by law. In the event there is probable cause to believe the Subrecipient is in noncompliance with any applicable rules or regulations, the Grantee may withhold up to fifteen (15) percent of said Agreement funds to be paid for past work until such time as the Subrecipient is found to be in compliance by the Grantee, or is otherwise adjudicated to be in compliance.

I. Networking and Coordination

There will be periodic networking and coordination meetings of all agencies receiving CDBG funds from the City of Hattiesburg. Meetings will be chaired by the Community Development Administrator or his designee. These meetings will provide opportunities for information sharing, technical assistance, updates of Federal, State and local requirements. The meeting will be approximately one hour at a mutually agreed upon time.

VIII. ADMINISTRATIVE REQUIREMENTS

A. Financial Management

1. Accounting Standards

The Subrecipient agrees to comply with OMB Circular A-110 and agrees to adhere to the accounting principles and procedures required therein, utilize adequate internal controls, and maintain necessary source documentation for all cost incurred.

2. Cost Principles

The Subrecipient shall administer its program in conformance with OMB Circular A-122 "Cost Principles for Non-Profit, or A-21 "Cost Principles for Educational Institutions," as applicable. These principles shall be applied for all costs incurred whether charged on a direct or indirect basis.

If the Subrecipient is a governmental or quasi-governmental agency, the applicable sections of 24 CFR Part 85, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local governments," and OMB Circular A-87 would apply to this Agreement.

B. Documentation and Record-Keeping

1. Records to be Maintained

The Subrecipient shall maintain all records required by the Federal regulations specified in 24 CFR Part 570.506, which are pertinent to the activities to be funded under this Agreement. Such records shall include but not limited to:

a. Records providing a full description of each activity undertaken;
b. Records demonstrating that each activity undertaken meets one of the National Objectives of the CDBG program;

2. Retention

The Subrecipient shall retain all records pertinent to expenditures incurred under this Agreement for a period of five (5) years after the termination of all activities funded under this Agreement. Records for non-expendable property acquired with funds under this must be retained for four (4) years after final disposition of such property. Records for any displaced person must be kept for five (5) years after he/she has received final payment. Notwithstanding the above, if there is litigation, claims, audits, negotiations or other actions that involve any of the records cited and that have started before expiration of the five-year period, then such records must be retained until completion of the actions and resolution of all issues, or the expiration of the five-year period, whichever occurs later.

3. Client Data

The Grantee shall conduct all activities related to determining the eligibility of its program participants. Such determinations must adhere to the same guidelines, policies, procedures, regulations used by the Grantee when determining eligibility for its several other CDBG programs. The Grantee and Subrecipient shall maintain client data demonstrating client eligibility for services provided. Such data shall include, but is not limited to, client name, address, income level or other basis for determining eligibility, and description of service provided.

4. Disclosures

The Subrecipient understands that client information collected under this Agreement is private and the use or disclosure of such information, when not directly connected with the administration of the Grantee's or Subrecipient's responsibilities with respect to services provided under this Agreement, is prohibited unless consent is obtained from such person receiving service and, in case of a minor, that of a responsible parent/guardian.

5. Property Records

The Subrecipient shall maintain real material inventory records which clearly identify materials purchased, and improved properties.

6. Close-Outs

The Subrecipient's obligation to the Grantee shall not end until all close-out requirements are completed. Activities during this close-out period shall include, but are not limited to: making final payments, disposing of program assets (including the return of all unused materials and determining the custodian ship of records.

7. Audits and Inspections

All Subrecipient records with respect to any matters covered by this Agreement shall be made available to the Grantee, their designees or the Federal Government, at any time during normal business hours, as often as the Grantee deems necessary, to audit, examine, and make excerpts or transcripts of all relevant data. Any deficiencies noted in audit reports must be fully cleared by the Subrecipient within 30 days after receipt by the Subrecipient. Failure of the Subrecipient to comply with the above audit requirements will constitute a violation of this Agreement and may result in the withholding of future payments. The Subrecipient hereby agrees to have an annual agency audit conducted in accordance with current Grantee policy concerning Subrecipient audits and, as applicable OMB Circular A-133.

C. Reporting and Payment Procedures

1. Payment Procedures

The Grantee will pay to the Subrecipient funds available under this Agreement based upon information submitted by the Subrecipient and consistent with an approved budget and Grantee policy concerning payments. Payments will be made for eligible expenses actually paid by the Subrecipient (reimbursement). Payments will be adjusted by the

Grantee in accordance with program income balances available in Subrecipient accounts. In addition, the Grantee reserves the right to liquidate funds available under this Agreement for costs incurred by the Grantee on behalf of the Subrecipient.

2. Progress Report

The Subrecipient shall submit progress reports to the Grantee in the form, content and frequency as required by the Grantee. The Progress Reports are due quarterly and/or whenever payment requests are submitted.

D. Procurement

1. Compliance

The Subrecipient shall comply with current Grantee policy concerning the purchase of materials and shall maintain inventory records.

2. OMB Standards

The Subrecipient shall procure all materials in accordance with the requirements of OMB Circular A-110, Procurement Standards, as well as, applicable sections of 24 CFR Part 85. Further, any subcontracts executed in connection with the implementation of this grant must adhere to the same standards.

3. Travel

The Subrecipient shall obtain written approval from the Grantee for any travel outside the metropolitan area with funds provided under this Agreement.

X. PERSONNEL AND PARTICIPANT CONDITIONS

A. Civil Rights

1. Compliance

The Subrecipient agrees to comply with Title VI of the Civil rights of 1964 as amended, title VIII of the Civil Rights Act of 1968 as amended, Section 104(b) and Section 109 of title I of Housing and Community Development Act of 1974 as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Executive Order 11063, and with Executive Order 11246 as amended by Executive Order 11375 and 12086.

2. Nondiscrimination

The Subrecipient will not discriminate against any employee or applicant for employment because of race, color, creed, religion, ancestry, national origin, sex, disability, age, marital/familial status, or status with regard to public assistance. The Subrecipient will take affirmative action to insure that all employment practices are free from such discrimination. Such employment practices include but are limited to the following: hiring, upgrading, demotion, transfer, recruitment, or recruitment advertising, layoff, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. The Subrecipient agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting agency setting forth the provisions of this nondiscrimination clause.

3. Land Covenants

This Agreement is subject to the requirements of Title VI of the Civil Rights Act of 1964 and of 24 CFR 570.601 and 602. In regard to sale, lease, or other transfer of land acquired, cleared or improved with assistance provided under this contract, the Subrecipient shall cause or require a covenant running with the land to be inserted in the deed or lease for such transfer, prohibiting discrimination herein defined, in the sale, lease or rental, or in the use or occupancy of such land, or in any improvements erected thereon, providing that the City of Hattiesburg and the United States are beneficiaries of and entitled to enforce such covenants. The Subrecipient, in undertaking its obligation to carry out the program assisted hereunder, agrees to take such measures as are necessary to enforce such covenant, and will not itself so discriminate.

4. Section 504

The Subrecipient agrees to comply with any Federal regulations issued pursuant to compliance with Section 504 of the Rehabilitation Act of 1974, which prohibits the discrimination against persons with disabilities in any Federally assisted program. The Grantee shall provide the Subrecipient with any guidelines necessary for compliance with that portion of the regulations in force during the term of this Agreement.

B. Affirmative Action

1. Plan

The Subrecipient agrees that it shall be committed to carrying out pursuant to the Grantee's specifications an Affirmative Action Program in keeping with

the principles as provided in President's Executive Order 11246 of September 24, 1965.

2. W/MBE

The subrecipient will use its best efforts to afford minority- and women-owned business enterprises the maximum practicable opportunity to participate in the performance of this Agreement. As used in this Agreement, the term "minority and female business enterprise" means a business that is at least fifty (51) percent owned and controlled by minority group members or women. For the purpose of this definition, "minority group members" are African-Americans, Spanish-speaking, Spanish surnamed, or Spanish-heritage Americans, Asian-Americans, and American Indians. The Subrecipient may rely on written representation by businesses regarding their status as minority and female business enterprises in lieu of and independent investigation.

3. Access to Records

The Subrecipient shall furnish and cause each of its own subrecipients or subcontractors to furnish all information and reports required hereunder and will permit access to its books, records and accounts by the Grantee, HUD, or its agents, or other authorized Federal officials for purposes of investigation to ascertain compliance with the rules, regulations and provisions stated herein.

4. Notifications

The Subrecipient will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understandings, a notice, provided by the agency contracting officer, advising the labor union or workers' representative of the Subrecipient's commitments hereunder, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

5. EEO/AA Statement

The Subrecipient will, in all solicitations or advertisements for employees placed by or on behalf of the Subrecipient, state that it is an Equal Opportunity or Affirmative Action employer.

6. Subcontracting Provisions

The Subrecipient will include the provisions of Paragraph X. A, Civil Rights, and B, Affirmative Action, in every subcontract or purchase orders, specifically or by reference, so that such provisions will be binding upon each of its subrecipients or subcontracts.

C. Employment Restrictions

1. Prohibited Activity

The subrecipient is prohibited from using funds provided herein or personnel employed in the administration of the program for: political activities, sectarian or religious activities, lobbying, political patronage and/or nepotism activities.

2. Labor Standards

The Subrecipient agrees to comply with the requirements of the Secretary of Labor in accordance with the Davis-Bacon Act as amended, the provisions of Contract: Work Hours and Safety Standards Act, the Copeland "Anti-Kickback" Act and all other applicable Federal, State and local laws and regulations pertaining to labor standards insofar as those acts apply to the performance of this Agreement. The Subrecipient shall maintain documentation which demonstrates compliance with hour and wage requirements of this part. Such documentation shall be made available to the Grantee for review upon request.

The Subrecipient agrees that, except with respect to the rehabilitation of residential property containing less than eight (8) units, all contracts engaged in under in excess of $2,000.00 for repair work financed in whole or part with the assistance provided under this Agreement, shall comply with Federal requirements adopted by the Grantee pertaining to such Agreements/Contracts and with the applicable requirements of the regulations of the Department of Labor, under 29 CFR Parts 1, 3, 5, and 7 governing the payment of wages and ratio of apprentices and trainees to journeyman workers; provide, that if wages higher than those required under the regulations are imposed by state or local laws, nothing hereunder is intended to relieve the Subrecipient of its obligation, if any, to require payment of the higher wage. The Subrecipient will cause or require to be inserted in full, in all contracts subject to such regulations, provisions meeting the requirements of this paragraph.

3. "Section 3" Clause

a. Compliance

Compliance with the provisions of Section 3, the regulations set forth in 24 CFR 135, and all applicable rules and orders issued hereunder prior to the execution of this Agreement, shall be a condition of the Federal financial assistance provided under this

Agreement and binding upon the Grantee, the Subrecipient and any of the Subrecipient's subrecipients and subcontractors, their successors and assigns, to those sanctions specified by the Agreement through which Federal assistance is provided. The Subrecipient certifies and agrees that no contractual or other disability exist which would prevent compliance with these requirements.

The Subrecipient further agrees to comply with these "Section 3" requirements and to include the following language in all subcontracts executed under this Agreement.

> "The work to be performed under this contract is a project assisted under a program providing direct Federal financial from HUD and is subject to the requirements of Section 3 of the Housing and Community Development Act of 1968, as amended, 12 U.S.C. 1701. Section 3 requires that to the greatest extent feasible, opportunities for training and employment be given to low-and very low-income residents of the project area and contracts for work in connection with the project be awarded to business concerns that provide economic opportunities for low-and very low-income persons residing in the metropolitan area in which the project is located."

The Subrecipient further agrees to ensure that opportunities for training and employment arising in connection with a housing rehabilitation, housing construction, or public construction project are given to low-and very low-income persons residing within the metropolitan area in which the CDBG funded project is located; and where feasible, priority should be given to low-and very low-income persons within the service area of the project or neighborhood in which the project is located, and to low-and very low-income participants in other HUD programs; and award contracts for work undertaken in connection to housing rehabilitation, housing construction, or other public construction project are given to business concerns that provide economic opportunities for low- and very low-income persons residing within the metropolitan area in which CDBG funded projects are located; and where feasible, priority should be given to business concerns which provide economic opportunities to low-and very low-income residents within the service area or neighborhood in which projects are located, and to low-and very low-income participants in other HUD programs.

The subrecipient certifies and agrees that no contractual or other legal incapacity exists which would prevent compliance with these requirements.

b. Notifications

The Subrecipient agrees to send to each labor organization or representative of workers with which it has a collective bargaining agreement or other contract or understanding, if any, a notice advising said labor organization or workers' representative of its commitments under this Section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

c. Subcontracts

The Subrecipient will include this Section 3 clause in every subcontract and will take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the grantor agency. The Subrecipient will not subcontract with any entity where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR 135 and will not let any subcontract unless the entity has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

D. Conduct

1. Assignability

The Subrecipient shall not assign or transfer any interest in this Agreement without the prior written consent of the Grantee. Notice of any such assignment or transfer shall be furnished promptly to the Grantee.

2. Subcontracts

a. Approvals

The Subrecipient shall not enter into subcontracts with any agency or individual in the performance of this contract without the written consent of the Grantee prior to the execution of such agreement.

b. Monitoring

The Subrecipient will monitor all subcontracted services on a regular basis to assure contract compliance. Results of monitoring efforts shall be summarized in written reports and supported with documented evidence of follow-up actions to correct areas of noncompliance.

c. Content

The sub-recipient shall cause all the provisions of this Agreement in its entirety to be included in and made a part of any subcontract executed in the performance of this Agreement.

d. Selection Process

The Subrecipient shall undertake to insure that all subcontracts let in the performance of this Agreement shall be awarded on a fair and open competition basis. Executed copies of all subcontracts shall be forwarded to the Grantee along with documentation concerning the selection process.

3. Hatch Act

The Subrecipient agrees that no funds provided, nor personnel employed under this Agreement, shall be in any way to any extent be engaged in the conduct of political activities in violation of Chapter 15 of the Title V of the United States Code.

4. Conflict of Interest

The Subrecipient agrees to abide by the provisions of 24 CFR 570.611 with respect to conflicts of interest and covenants that it presently has no financial interest and shall not acquire any financial interest, direct or indirect, which would conflict in any manner or degree with the performance of services required under this Agreement. The Subrecipient further covenants that in performance of this Agreement; no person having such a financial interest shall be employed or retained by the Subrecipient hereunder. These conflict of interest provisions apply to any person who is an employee, agent, consultant, officer, or elected official or appointed official of the Grantee, or any designated public agencies or subrecipients which are receiving funds under the CDBG Entitlement Program.

5. Lobbying

The Subrecipient hereby certifies that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer of employee of Congress, or an employee of a member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan , or cooperative agreement;

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form- LLL, "Disclosure form to Report Lobbying," in accordance with its instructions.

c. It will require that the language of paragraph (d) of this certification be included in award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly; and

d. <u>Lobbying Certification – Paragraph d</u>

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000.00 and not more than $100,000.00 for each such failure.

6. Copyright

If this Agreement results in any copyrightable materials or inventions, the Grantee and/or grantor agency reserves the right to royalty-free, non-exclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use, the work for governmental purposes.

7. Religious Organization

The Subrecipient agrees that funds provided under this Agreement will not be utilized for religious activities, to promote religious interest, or for the benefit of a religious organization in accordance with the Federal regulations specified in 24 CFR 570.200(j).

XI. ENVIRONMENTAL CONDITIONS

A. Air and Water

The Subrecipient agrees to comply with the following requirements in so far as they apply to the performance of this Agreement:

- Clean Air Act, 42 U.S.C., 7401, et seq..
- Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251, et seq., as amended 1318 relating to inspection, monitoring, entry, reports, and information, as well as other requirements specified in said Section 114 and Section 308, and all regulations and guidelines issued hereunder.
- Environmental Protection Agency (EPA) regulations pursuant to 40 CFR, Part 50, as amended.

B. Flood Disaster Protection

In accordance with the requirements of the Flood Disaster Protection Act of 1973, the Subrecipient shall assure that for activities located in an area identified by FEMA as having special flood hazards, flood insurance under the National flood Insurance Program is obtained and maintained as a condition of financial assistance for acquisition or construction purposes (including rehabilitation).

C. Lead Based Paint

The Subrecipient agrees that any repair of residential structures with assistance provided under this Agreement shall be subject to HUD Lead-Based Paint Regulations at 24 CFR 570.608, and 24 CFR Part 35. Such

regulations pertain to all HUD-assisted housing and require that all owners, prospective owners, and tenants of properties constructed prior to 1978 be properly notified that such properties may include lead-based paint. Such notification shall point out the hazards of lead-based paint and explain the symptoms, treatment and precautions that should be taken when dealing with lead-based paint poisoning and the advisability and availability of blood level screening for children under the age of seven. The notice should also point out that if lead-based paint is found on the property, abatement measures may be undertaken.

D. Historic Preservation

The Subrecipient agrees to comply with the Historic Preservation requirements set forth in the National Historic Preservation Act of 1966, as amended and the procedures set forth in 36 CFR, Part 800, Advisory Council on Historic Preservation Procedures for Protection of Historic Properties, insofar as they apply to the performance of this Agreement.

In general, this requires concurrence from the State Historic Preservation Officer for all rehabilitation and demolition of historic properties that are fifty years old or older or that are included on the Federal, state or local historic property list.

XII. SEVERABILITY

If any provision of this Agreement is held invalid, the remainder of the Agreement shall not be affected hereby and all other parts of this Agreement shall nevertheless be in full force and effect.

IN WITNESS THEREOF,

The City of Hattiesburg and the AWARDEE have caused their signatures to be hereunto affixed and duly attested

Attachment to CDBG Basic Rehabilitation and Emergency Repair Agreement
Step-by-Step Process Guide

Abbreviations: HI – Housing Inspector (Robert Jones)
HC – Housing Coordinator (Kevin Jordan)
CDM – Community Development Manager (Clarence Williams)

- Identify potential applicant
  - See the attached "Case Management" document for additional details.
- Confirm clear ownership of home by current resident(s).
  - If property was purchased by tax sale and/or as heir property, the deed/title must be quieted and confirmed.
- Confirm taxes are up to date (if not, they will need to bring them current at some point before a Homeowner Agreement is established)
- An abbreviated assessment of the emergency repair that is needed – this is not necessarily a full work write up, but just a quick assessment to determine whether or not the emergencies can be addressed within the $10,000 limitation.
  - Emergency Repairs address only major home systems: structural, electrical, roofing, plumbing.
  - Basic Rehabilitation work includes that listed under Emergency Repair but also may also include cosmetic items and may also address some blighting conditions.
  - Pictures of the house should be taken for the file. Pictures should include at a minimum several angles of the exterior (even if no exterior work is to be done), and pictures of any potential work areas on the interior to substantiate the need and document the file.
- Turn in abbreviated write up and pictures to HI and CDM – this step is optional, but may help speed up the process of getting the environmental review completed.
- Complete the full application including the gathering of all income verification.
  - See the attached "Case Management" document for additional details.
- Turn in the full application and all related information to HC.
- Schedule a site visit with HI. The purpose of this visit will be to complete an official work write up. Subrecipient staff should complete the write up with a proposed budget, and turn in to HI for review. If pictures were not already supplied, they should be turned in at this time. If any edits, additions, etc. are necessary, HI will notify.
- If the write-up warrants lead and/or asbestos testing, HI will order the tests.
- Environmental Clearance – at this point in the process, nothing further can happen until the City's environmental review is complete. This may require results of lead/asbestos tests, approval from MDAH, and/or public notification (worst-case scenario).
- The subrecipient can procure a contractor (NOT before the environmental clearance is attained)
- A Homeowner Agreement will go before the City Council for approval
- The Homeowner and contractor/subrecipient will sign agreements
- If lead and/or asbestos abatement is required, the City will coordinate with the homeowner and order the abatement.
- HC will issue a Notice to Proceed.
- The subrecipient/contractor should acquire the necessary permit(s).
- The contractor can begin work.
- HI should be notified when the contractor begins work, and should be notified before any scheduled inspection by building/land code.
- Requests for funds are on a reimbursement basis. Along with request from Subrecipient, include invoice(s) from contractors.

- No work or change order is authorized unless HI has seen and verified the need, and has authorized the work. If work is done outside what is approved, Subrecipient will be responsible for the cost.
- Reimbursement can only be made on requests when HI has verified that work is done to code or specifications.
- Any work done, material purchased, or cost incurred prior to environmental clearance AND a homeowner agreement is NOT eligible for reimbursement.

Case Management

- This program is for **Verified Homeowners ONLY!** (Homeowners must have owned and lived in the home for at least one (1) year!)
- Race and Ethnic date Reporting Form needs to be completed by YOU (Case Management)
- Program assistance is not available to employees or relatives of the City of Hattiesburg
- **ALL ORIGINAL DOCUMENTS MUST BE SUBMITTED** to the City of Hattiesburg Community Development office for the program files (Applications, Check Lists, Supporting Documents, Notarized Documents, **Verifications (MUST BE SUBMITTED TO AND COMPLETED BY THE VERIFYING AGENCY AND RETURNED TO YOU!)**, etc. - per HUD guidelines) **NO COPIES!**
- **Homeowners should only submit copies of personal documents** they should hold on to (such as: Social Security Cards, Drivers Licenses, Deeds, Tax Receipts, etc.) the Community Development Office is not responsible for personal documents
- **Documents needing to be notarized must be completed and submitted with the Housing Assistance Application Packet** (Memorandum of Understanding, Unemployment Certification – full page or bottom half, whatever is applicable)
- **All forms should be completed** even if it is just with N/A (exception: only Verification Forms that apply must be completed; others can be discarded)
- **It is very important that ALL household income is reported** – if unreported income is discovered later the Homeowner may be required to repay any and/or all grants funds expended and legal fees associated with securing repayment to the City of Hattiesburg

***Please interview homeowners before having them complete an application. You should know that they fit the program before giving them an application! This will save a lot of time and frustration for the homeowners!

CITY OF HATTIESBURG

COMMUNITY DEVELOPEMNT BLOCK GRANT
BASIC REHABILITATION/EMERGENCY REPAIR PROGRAM (HOUSING)
HABITAT FOR HUMANITY
SUBRECIPIENT AGREEMENT

THIS contract (hereinafter the "AGREEMENT"), is made and entered into this 6th day of February, 2018 by and between the CITY OF HATTIESBURG, MISSISSIPPI, (hereinafter called the "Grantee"), located at 200 Forrest Street, Hattiesburg, Mississippi 39401 and Habitat for Humanity (hereinafter called the "Subrecipient"), located in the City of Hattiesburg (5191 Highway 42) for an amount not to exceed **$10,000.00 per project for a minimum of three (3) projects, and not to exceed a total amount of $30,000 for the period covered in this agreement. For the purposes of this agreement, project is defined as an emergency repair as defined by the City of Hattiesburg's CDBG/HOME Housing Rehabilitation/Reconstruction and Repair Program Manual (Section III, (A & C)), and performed on a single-family owner-occupied dwelling.** This agreement shall terminate on or before the 5th day of February, 2020, unless amended by written instrument as provided for herein.

WHEREAS, the Grantee wishes to engage the Subrecipient to assist the Grantee in utilizing such funds for: The City's Emergency Repair Program {Entitlement}

NOW, THEREFORE, it is agreed between the parties hereto that:

1. SCOPE OF SERVICE

A. Activities

The Subrecipient will procure and/or provide all skilled and unskilled labor in a manner satisfactory to the Grantee and consistent with any standards required as a condition of providing these funds. Subrecipient's use of these funds shall be limited to the procurement of materials and services needed in performing eligible Basic Rehabilitation and or emergency repairs for eligible applicants, as well as a payment of 10% per project (Project Delivery fee), payable to the subrecipient upon successful completion of each unit. Activities in such program must be eligible under the Community Development Block Grant Program. Project Delivery fee may not exceed fifteen percent (15%) of the total Subrecipient project cost for any project, and the Grantee will make reduction to the fee as necessary.

Program Delivery

The Subrecipient will provide labor, whether paid or volunteer, to execute repairs on single-family owner-occupied homes, within the scope of its mission using standard materials necessary in eliminating the conditions that are deemed an immediate threat to the health, safety, or welfare of the occupants.

The Subrecipient will collect applicant information on Grantee-provided forms and determine eligibility for assistance. Applications will be forwarded to the Grantee for final verification of eligibility. For eligible projects, the Subrecipient will provide case management and the City of Hattiesburg will reimburse up to $10,000 per project for associated expenses, including a flat fee of $500.00 for project delivery. Project Delivery fee may not exceed fifteen percent (15%) of the total Subrecipient project cost for any project, and the Grantee will make reduction to the fee as necessary. The Subrecipient may forgo the project delivery fee if it wishes to apply those funds to project costs.

General Administration

The City of Hattiesburg and the Subrecipient will maintain program and financial records documenting eligibility, provisions of services, and Subrecipient's expenses relative to the project as a result of assistance provided through the CDBG Program.

B. National Objectives

The City of Hattiesburg certifies that the activities carried out with funds provided under this Agreement will meet one or more of the CDBG program's national Objectives – 1) project benefits low-moderate income persons, 2) aid in the prevention or elimination of slums and/or blight, 3) meet community development needs having a particular urgency – as defined in 24 CFR Part 570.208.

C. Implementation Schedule

Unless amended by mutual written agreement by the Subrecipient and the Grantee, the Subrecipient will perform the described tasks in conformance with the schedule below.

TASK/ PROGRAM GOAL	DATE
Basic Rehabilitation or Emergency repairs to single-family owner-occupied homes within the city limits	**February 6, 2018 – February 6, 2020**
Completion of 1st Project	**May 7, 2018**
Completion of 2nd Project	**September 8, 2018**

Completion of 3rd Project	**May 28, 2019**
Completion & Submission of Final Report	**February 5, 2020**

D. Performance Monitoring

The Grantee will monitor the performance of the Subrecipient against the goals and performance standards required herein. Substandard performance as determined by the Grantee will constitute non-compliance with this Agreement. If action to correct such substandard performance is not taken by the Subrecipient within (10) days after being notified by the Grantee, contract termination will begin and all funding will end. Subrecipient must return any unused funds promptly.

II. TIME OF PERFORMANCE

Services of the Subrecipient shall start on the 6th day of February, 2018, and end on the 5th day of February, 2020. The term of this Agreement and the provisions shall be terminated, unless amended by written instrument.

III. BUDGET

It is understood that project costs by line item below may vary depending on the scope of each project undertaken. As such, the "Per Project" budgets below are example guidelines for sample projects with costs of up to $5,000 and $10,000, respectively. The "Total Cost" amounts by line item are firm, and variances to these amounts up to 10% require written approval from the Director of the Department of Federal & State Programs. Cumulative variances to line items of more than 10% over the life of this agreement will require a formal agreement amendment.

	$5,000 Project	$10,000 Project	Total Max
Project Delivery	**$500.00**	**$500.00**	**$2,500.00**
Materials & Contractors	**$4,500.00**	**$9,500.00**	**$27,000.00**
Total Costs	**$5,000.00**	**$10,000.00**	**$30,000.00**

Any indirect costs charged must be consistent with the conditions of Paragraph VIII (C) (2) of this Agreement. In addition, the Grantee may require a more detailed budget breakdown than the one contained herein, and the Subrecipient shall provide such supplementary budget information in a timely fashion in the form and content prescribed by the Grantee. Any

amendments to this budget must be approved in writing by the Grantee and the Subrecipient.

IV. PAYMENT

It is expressly agreed and understood that the total amount to be paid by the Grantee under this Agreement shall not exceed **$10,000.00 per project**. Drawdowns for the payment of eligible expenses shall be made against the line item budget specified in Paragraph III herein and in accordance with performance. The Subrecipient will be reimbursed, on no more than a monthly basis, provided verification of eligible expenses is provided.

Payments to the Subrecipient may be contingent upon the certification of the Subrecipient's financial management system in accordance with the acceptable standards specified in OMB Circular A-110.

V. NOTICES

Communication and details concerning this Agreement shall be directed to the following Agreement representatives:

Grantee	Breakthrough Community Services
City of Hattiesburg Director Department of Urban Development CDBG 601-545-4590 601-554-1006	Michael Pascarella,, Executive Director 5191 Highway 42 Hattiesburg, MS 39401 Phone: (601) 582-4663 Fax: 601-582-8282

VI. SPECIAL CONDITIONS

Lead and/or Asbestos Testing and/or Abatement

For eligible units assisted under this agreement, where it is necessary to test or abate lead or asbestos in the course of work, reasonable and necessary expenses for such testing and/or abatement will not be charged against the $10,000 cap per unit or the $30,000 cap for the gross amount of the agreement. Such lead and/or asbestos testing and/or abatement expenses should be documented separately from routine unit expenses, and will be reimbursed independently. Requests for such funds and their subsequent reimbursement will follow the same procedure as routine requests for funds.

Prior to ordering lead or asbestos testing or abatement, the Subrecipient should consult the City of Hattiesburg Housing Program Inspector. Under advisement from the Housing Program Inspector, the Subrecipient may proceed in ordering lead and/or asbestos testing and/or abatement in accordance with subcontracting and procurement requirements

contained herein. The Subrecipient may only use city-approved contractors for such testing and/or abatement.

Utilization of Funds

If the Subrecipient fails to comply with the terms of this Agreement, such as C. Implementation Schedule or the expenditure of 50% of obligated funds by September 8, 2018, the Grantee can terminate this without giving a 30-day notice. See Section H. Suspension or Termination.

VII. GENERAL CONDITIONS

A. General Compliance

The Subrecipient agrees to comply with the requirements of Title 24 of the Code of Federal Regulations, Part 570 [the Department of Housing and Urban Development regulations concerning Community Development Block Grants (CDBG)]. The Subrecipient also agrees to comply with all other applicable Federal, State and local laws, regulations, and policies governing the funds provided under this Agreement. The subrecipient further agrees to utilize funds available under this Agreement to supplement rather than supplant funds otherwise available.

B. "Independent Contractor"

Nothing contained in this Agreement is intended to, or shall be construed in any manner, as creating or establishing the relationship of employer/employee between the parties. The Subrecipient shall at all times remain an "independent contractor" with respect to the services to be performed under this Agreement. The Grantee shall be exempt from payment of all Unemployment Compensation, FICA, retirement, life and/or medical insurance and Workers' Compensation Insurance as the Subrecipient is an independent subrecipient.

C. Liability and Hold Harmless

The Subrecipient shall not, without prior written permission of the City specifically authorizing them to do so, represent or hold themselves out to others as an agent of or on behalf of the City of Hattiesburg

The Subrecipient, to the extent permitted by law, shall hold harmless, defend and indemnify the Grantee from any and all claims, actions, suits, charges, and judgments whatsoever that arise out of the Subrecipient's performance or nonperformance of the services or subject matter called for in this Agreement.

D. Workers' Compensation

The Subrecipient shall provide Workers' Compensation Insurance coverage for all of its employees involved in the performance of this Agreement.

E. Insurance

The Subrecipient shall carry sufficient insurance coverage to protect Agreement assets from loss due to theft, fraud and/or undue physical damage. The Subrecipient shall comply with insurance requirement of OMB Circular A-110, Bonding and Insurance.

F. Grantor Recognition

The Subrecipient shall insure recognition of the role the grantor agency in providing services through this Agreement. All activities, facilities and items utilized pursuant to this Agreement shall be prominently labeled as to funding source. In addition, the Subrecipient will include reference to the support provided herein in all publications made possible with funds available under this Agreement.

G. Amendments

The Grantee or Subrecipient may amend this Agreement at any time provided such amendments make specific reference to this Agreement, and are executed in writing, signed by a duly authorized representative of both organizations. Such amendments shall not invalidate this Agreement, nor relieve the Grantee or Subrecipient from its obligations under this Agreement.

The Grantee may, in its discretion, amend this Agreement to conform with Federal, State, or local governmental guidelines, policies and available funding amounts, or for other reasons. If such amendments result in a change in funding, the scope of services, or schedule of activities to be undertaken as part of this Agreement, such modifications will be incorporated only by written amendments signed by both Grantee and Subrecipient.

This Agreement contains the entire understanding of the parties, and any change of any term or provision of the Agreement can be approved by the by the City Council. Any such amendment shall be attached to and made a part of this Agreement.

H. Suspension or Termination

Either party may terminate this Agreement at any time by giving written notice to the other party of such termination and specifying the effective date of such termination. Partial termination of the Scope of Services in Paragraph I. A above may only be undertaken with he prior approval of the Grantee. In the event of any termination for convenience and at any time, at the Grantee's

option, all finished or unfinished documents, carpenter's materials, reports or other materials prepared by the Subrecipient under this Agreement shall, at the option of the Grantee, become the property of the Grantee, and the Subrecipient shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents or materials prior to termination.

The Grantee may also suspend or terminate this Agreement, in whole or in part without notice, if the Subrecipient materially fails to comply with any term of this Agreement, or with any of the rules, regulations or provisions referred to herein and all payments shall cease; and the Grantee may declare the Subrecipient ineligible for any further participation in the Grantee's Agreements, in addition to other remedies as provided by law. In the event there is probable cause to believe the Subrecipient is in noncompliance with any applicable rules or regulations, the Grantee may withhold up to fifteen (15) percent of said Agreement funds to be paid for past work until such time as the Subrecipient is found to be in compliance by the Grantee, or is otherwise adjudicated to be in compliance.

I. Networking and Coordination

There will be periodic networking and coordination meetings of all agencies receiving CDBG funds from the City of Hattiesburg. Meetings will be chaired by the Community Development Administrator or his designee. These meetings will provide opportunities for information sharing, technical assistance, updates of Federal, State and local requirements. The meeting will be approximately one hour at a mutually agreed upon time.

VIII. ADMINISTRATIVE REQUIREMENTS

A. Financial Management

1. Accounting Standards

The Subrecipient agrees to comply with OMB Circular A-110 and agrees to adhere to the accounting principles and procedures required therein, utilize adequate internal controls, and maintain necessary source documentation for all cost incurred.

2. Cost Principles

The Subrecipient shall administer its program in conformance with OMB Circular A-122 "Cost Principles for Non-Profit, or A-21 "Cost Principles for Educational Institutions," as applicable. These principles shall be applied for all costs incurred whether charged on a direct or indirect basis.

If the Subrecipient is a governmental or quasi-governmental agency, the applicable sections of 24 CFR Part 85, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local governments," and OMB Circular A-87 would apply to this Agreement.

B. Documentation and Record-Keeping

1. Records to be Maintained

The Subrecipient shall maintain all records required by the Federal regulations specified in 24 CFR Part 570.506, which are pertinent to the activities to be funded under this Agreement. Such records shall include but not limited to:

a. Records providing a full description of each activity undertaken;
b. Records demonstrating that each activity undertaken meets one of the National Objectives of the CDBG program;

2. Retention

The Subrecipient shall retain all records pertinent to expenditures incurred under this Agreement for a period of five (5) years after the termination of all activities funded under this Agreement. Records for non-expendable property acquired with funds under this must be retained for four (4) years after final disposition of such property. Records for any displaced person must be kept for five (5) years after he/she has received final payment. Notwithstanding the above, if there is litigation, claims, audits, negotiations or other actions that involve any of the records cited and that have started before expiration of the five-year period, then such records must be retained until completion of the actions and resolution of all issues, or the expiration of the five-year period, whichever occurs later.

3. Client Data

The Grantee shall conduct all activities related to determining the eligibility of its program participants. Such determinations must adhere to the same guidelines, policies, procedures, regulations used by the Grantee when determining eligibility for its several other CDBG programs. The Grantee and Subrecipient shall maintain client data demonstrating client eligibility for services provided. Such data shall include, but is not limited to, client name, address, income level or other basis for determining eligibility, and description of service provided.

4. Disclosures

The Subrecipient understands that client information collected under this Agreement is private and the use or disclosure of such information, when not directly connected with the administration of the Grantee's or Subrecipient's responsibilities with respect to services provided under this Agreement, is prohibited unless consent is obtained from such person receiving service and, in case of a minor, that of a responsible parent/guardian.

5. Property Records

The Subrecipient shall maintain real material inventory records which clearly identify materials purchased, and improved properties.

6. Close-Outs

The Subrecipient's obligation to the Grantee shall not end until all close-out requirements are completed. Activities during this close-out period shall include, but are not limited to: making final payments, disposing of program assets (including the return of all unused materials and determining the custodian ship of records.

7. Audits and Inspections

All Subrecipient records with respect to any matters covered by this Agreement shall be made available to the Grantee, their designees or the Federal Government, at any time during normal business hours, as often as the Grantee deems necessary, to audit, examine, and make excerpts or transcripts of all relevant data. Any deficiencies noted in audit reports must be fully cleared by the Subrecipient within 30 days after receipt by the Subrecipient. Failure of the Subrecipient to comply with the above audit requirements will constitute a violation of this Agreement and may result in the withholding of future payments. The Subrecipient hereby agrees to have an annual agency audit conducted in accordance with current Grantee policy concerning Subrecipient audits and, as applicable OMB Circular A-133.

C. Reporting and Payment Procedures

1. Payment Procedures

The Grantee will pay to the Subrecipient funds available under this Agreement based upon information submitted by the Subrecipient and consistent with an approved budget and Grantee policy concerning payments. Payments will be made for eligible expenses actually paid by the Subrecipient (reimbursement). Payments will be adjusted by the

Grantee in accordance with program income balances available in Subrecipient accounts. In addition, the Grantee reserves the right to liquidate funds available under this Agreement for costs incurred by the Grantee on behalf of the Subrecipient.

2. Progress Report

The Subrecipient shall submit progress reports to the Grantee in the form, content and frequency as required by the Grantee. The Progress Reports are due quarterly and/or whenever payment requests are submitted.

D. Procurement

1. Compliance

The Subrecipient shall comply with current Grantee policy concerning the purchase of materials and shall maintain inventory records.

2. OMB Standards

The Subrecipient shall procure all materials in accordance with the requirements of OMB Circular A-110, Procurement Standards, as well as, applicable sections of 24 CFR Part 85. Further, any subcontracts executed in connection with the implementation of this grant must adhere to the same standards.

3. Travel

The Subrecipient shall obtain written approval from the Grantee for any travel outside the metropolitan area with funds provided under this Agreement.

X. PERSONNEL AND PARTICIPANT CONDITIONS

A. Civil Rights

1. Compliance

The Subrecipient agrees to comply with Title VI of the Civil rights of 1964 as amended, title VIII of the Civil Rights Act of 1968 as amended, Section 104(b) and Section 109 of title I of Housing and Community Development Act of 1974 as amended, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Executive Order 11063, and with Executive Order 11246 as amended by Executive Order 11375 and 12086.

2. Nondiscrimination

The Subrecipient will not discriminate against any employee or applicant for employment because of race, color, creed, religion, ancestry, national origin, sex, disability, age, marital/familial status, or status with regard to public assistance. The Subrecipient will take affirmative action to insure that all employment practices are free from such discrimination. Such employment practices include but are limited to the following: hiring, upgrading, demotion, transfer, recruitment, or recruitment advertising, layoff, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. The Subrecipient agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting agency setting forth the provisions of this nondiscrimination clause.

3. Land Covenants

This Agreement is subject to the requirements of Title VI of the Civil Rights Act of 1964 and of 24 CFR 570.601 and 602. In regard to sale, lease, or other transfer of land acquired, cleared or improved with assistance provided under this contract, the Subrecipient shall cause or require a covenant running with the land to be inserted in the deed or lease for such transfer, prohibiting discrimination herein defined, in the sale, lease or rental, or in the use or occupancy of such land, or in any improvements erected thereon, providing that the City of Hattiesburg and the United States are beneficiaries of and entitled to enforce such covenants. The Subrecipient, in undertaking its obligation to carry out the program assisted hereunder, agrees to take such measures as are necessary to enforce such covenant, and will not itself so discriminate.

4. Section 504

The Subrecipient agrees to comply with any Federal regulations issued pursuant to compliance with Section 504 of the Rehabilitation Act of 1974, which prohibits the discrimination against persons with disabilities in any Federally assisted program. The Grantee shall provide the Subrecipient with any guidelines necessary for compliance with that portion of the regulations in force during the term of this Agreement.

B. Affirmative Action

1. Plan

The Subrecipient agrees that it shall be committed to carrying out pursuant to the Grantee's specifications an Affirmative Action Program in keeping with

the principles as provided in President's Executive Order 11246 of September 24, 1965.

2. W/MBE

The subrecipient will use its best efforts to afford minority- and women-owned business enterprises the maximum practicable opportunity to participate in the performance of this Agreement. As used in this Agreement, the term "minority and female business enterprise" means a business that is at least fifty (51) percent owned and controlled by minority group members or women. For the purpose of this definition, "minority group members" are African-Americans, Spanish-speaking, Spanish surnamed, or Spanish-heritage Americans, Asian-Americans, and American Indians. The Subrecipient may rely on written representation by businesses regarding their status as minority and female business enterprises in lieu of and independent investigation.

3. Access to Records

The Subrecipient shall furnish and cause each of its own subrecipients or subcontractors to furnish all information and reports required hereunder and will permit access to its books, records and accounts by the Grantee, HUD, or its agents, or other authorized Federal officials for purposes of investigation to ascertain compliance with the rules, regulations and provisions stated herein.

4. Notifications

The Subrecipient will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understandings, a notice, provided by the agency contracting officer, advising the labor union or workers' representative of the Subrecipient's commitments hereunder, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

5. EEO/AA Statement

The Subrecipient will, in all solicitations or advertisements for employees placed by or on behalf of the Subrecipient, state that it is an Equal Opportunity or Affirmative Action employer.

6. Subcontracting Provisions

The Subrecipient will include the provisions of Paragraph X. A, Civil Rights, and B, Affirmative Action, in every subcontract or purchase orders, specifically or by reference, so that such provisions will be binding upon each of its subrecipients or subcontracts.

C. Employment Restrictions

1. Prohibited Activity

The subrecipient is prohibited from using funds provided herein or personnel employed in the administration of the program for: political activities, sectarian or religious activities, lobbying, political patronage and/or nepotism activities.

2. Labor Standards

The Subrecipient agrees to comply with the requirements of the Secretary of Labor in accordance with the Davis-Bacon Act as amended, the provisions of Contract: Work Hours and Safety Standards Act, the Copeland "Anti-Kickback" Act and all other applicable Federal, State and local laws and regulations pertaining to labor standards insofar as those acts apply to the performance of this Agreement. The Subrecipient shall maintain documentation which demonstrates compliance with hour and wage requirements of this part. Such documentation shall be made available to the Grantee for review upon request.

The Subrecipient agrees that, except with respect to the rehabilitation of residential property containing less than eight (8) units, all contracts engaged in under in excess of $2,000.00 for repair work financed in whole or part with the assistance provided under this Agreement, shall comply with Federal requirements adopted by the Grantee pertaining to such Agreements/Contracts and with the applicable requirements of the regulations of the Department of Labor, under 29 CFR Parts 1, 3, 5, and 7 governing the payment of wages and ratio of apprentices and trainees to journeyman workers; provide, that if wages higher than those required under the regulations are imposed by state or local laws, nothing hereunder is intended to relieve the Subrecipient of its obligation, if any, to require payment of the higher wage. The Subrecipient will cause or require to be inserted in full, in all contracts subject to such regulations, provisions meeting the requirements of this paragraph.

3. "Section 3" Clause

a. Compliance

Compliance with the provisions of Section 3, the regulations set forth in 24 CFR 135, and all applicable rules and orders issued hereunder prior to the execution of this Agreement, shall be a condition of the Federal financial assistance provided under this

Agreement and binding upon the Grantee, the Subrecipient and any of the Subrecipient's subrecipients and subcontractors, their successors and assigns, to those sanctions specified by the Agreement through which Federal assistance is provided. The Subrecipient certifies and agrees that no contractual or other disability exist which would prevent compliance with these requirements.

The Subrecipient further agrees to comply with these "Section 3" requirements and to include the following language in all subcontracts executed under this Agreement.

> "The work to be performed under this contract is a project assisted under a program providing direct Federal financial from HUD and is subject to the requirements of Section 3 of the Housing and Community Development Act of 1968, as amended, 12 U.S.C. 1701. Section 3 requires that to the greatest extent feasible, opportunities for training and employment be given to low-and very low-income residents of the project area and contracts for work in connection with the project be awarded to business concerns that provide economic opportunities for low-and very low-income persons residing in the metropolitan area in which the project is located."

The Subrecipient further agrees to ensure that opportunities for training and employment arising in connection with a housing rehabilitation, housing construction, or public construction project are given to low-and very low-income persons residing within the metropolitan area in which the CDBG funded project is located; and where feasible, priority should be given to low-and very low-income persons within the service area of the project or neighborhood in which the project is located, and to low-and very low-income participants in other HUD programs; and award contracts for work undertaken in connection to housing rehabilitation, housing construction, or other public construction project are given to business concerns that provide economic opportunities for low- and very low-income persons residing within the metropolitan area in which CDBG funded projects are located; and where feasible, priority should be given to business concerns which provide economic opportunities to low-and very low-income residents within the service area or neighborhood in which projects are located, and to low-and very low-income participants in other HUD programs.

The subrecipient certifies and agrees that no contractual or other legal incapacity exists which would prevent compliance with these requirements.

b. Notifications

The Subrecipient agrees to send to each labor organization or representative of workers with which it has a collective bargaining agreement or other contract or understanding, if any, a notice advising said labor organization or workers' representative of its commitments under this Section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

c. Subcontracts

The Subrecipient will include this Section 3 clause in every subcontract and will take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the grantor agency. The Subrecipient will not subcontract with any entity where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR 135 and will not let any subcontract unless the entity has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

D. Conduct

1. Assignability

The Subrecipient shall not assign or transfer any interest in this Agreement without the prior written consent of the Grantee. Notice of any such assignment or transfer shall be furnished promptly to the Grantee.

2. Subcontracts

a. Approvals

The Subrecipient shall not enter into subcontracts with any agency or individual in the performance of this contract without the written consent of the Grantee prior to the execution of such agreement.

b. Monitoring

The Subrecipient will monitor all subcontracted services on a regular basis to assure contract compliance. Results of monitoring efforts shall be summarized in written reports and supported with documented evidence of follow-up actions to correct areas of noncompliance.

c. Content

The sub-recipient shall cause all the provisions of this Agreement in its entirety to be included in and made a part of any subcontract executed in the performance of this Agreement.

d. Selection Process

The Subrecipient shall undertake to insure that all subcontracts let in the performance of this Agreement shall be awarded on a fair and open competition basis. Executed copies of all subcontracts shall be forwarded to the Grantee along with documentation concerning the selection process.

3. Hatch Act

The Subrecipient agrees that no funds provided, nor personnel employed under this Agreement, shall be in any way to any extent be engaged in the conduct of political activities in violation of Chapter 15 of the Title V of the United States Code.

4. Conflict of Interest

The Subrecipient agrees to abide by the provisions of 24 CFR 570.611 with respect to conflicts of interest and covenants that it presently has no financial interest and shall not acquire any financial interest, direct or indirect, which would conflict in any manner or degree with the performance of services required under this Agreement. The Subrecipient further covenants that in performance of this Agreement; no person having such a financial interest shall be employed or retained by the Subrecipient hereunder. These conflict of interest provisions apply to any person who is an employee, agent, consultant, officer, or elected official or appointed official of the Grantee, or any designated public agencies or subrecipients which are receiving funds under the CDBG Entitlement Program.

5. Lobbying

The Subrecipient hereby certifies that:

a. No Federal appropriated funds have been paid or will be paid, by or on behalf of it, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer of employee of Congress, or an employee of a member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan , or cooperative agreement;

b. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a Federal contract, grant, loan, or cooperative agreement, it will complete and submit Standard Form- LLL, "Disclosure form to Report Lobbying," in accordance with its instructions.

c. It will require that the language of paragraph (d) of this certification be included in award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly; and

d. <u>Lobbying Certification – Paragraph d</u>

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000.00 and not more than $100,000.00 for each such failure.

6. Copyright

If this Agreement results in any copyrightable materials or inventions, the Grantee and/or grantor agency reserves the right to royalty-free, non-exclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use, the work for governmental purposes.

7. Religious Organization

The Subrecipient agrees that funds provided under this Agreement will not be utilized for religious activities, to promote religious interest, or for the benefit of a religious organization in accordance with the Federal regulations specified in 24 CFR 570.200(j).

XI. ENVIRONMENTAL CONDITIONS

A. Air and Water

The Subrecipient agrees to comply with the following requirements in so far as they apply to the performance of this Agreement:

- Clean Air Act, 42 U.S.C., 7401, et seq..
- Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251, et seq., as amended 1318 relating to inspection, monitoring, entry, reports, and information, as well as other requirements specified in said Section 114 and Section 308, and all regulations and guidelines issued hereunder.
- Environmental Protection Agency (EPA) regulations pursuant to 40 CFR, Part 50, as amended.

B. Flood Disaster Protection

In accordance with the requirements of the Flood Disaster Protection Act of 1973, the Subrecipient shall assure that for activities located in an area identified by FEMA as having special flood hazards, flood insurance under the National flood Insurance Program is obtained and maintained as a condition of financial assistance for acquisition or construction purposes (including rehabilitation).

C. Lead Based Paint

The Subrecipient agrees that any repair of residential structures with assistance provided under this Agreement shall be subject to HUD Lead-Based Paint Regulations at 24 CFR 570.608, and 24 CFR Part 35. Such

regulations pertain to all HUD-assisted housing and require that all owners, prospective owners, and tenants of properties constructed prior to 1978 be properly notified that such properties may include lead-based paint. Such notification shall point out the hazards of lead-based paint and explain the symptoms, treatment and precautions that should be taken when dealing with lead-based paint poisoning and the advisability and availability of blood level screening for children under the age of seven. The notice should also point out that if lead-based paint is found on the property, abatement measures may be undertaken.

D. Historic Preservation

The Subrecipient agrees to comply with the Historic Preservation requirements set forth in the National Historic Preservation Act of 1966, as amended and the procedures set forth in 36 CFR, Part 800, Advisory Council on Historic Preservation Procedures for Protection of Historic Properties, insofar as they apply to the performance of this Agreement.

In general, this requires concurrence from the State Historic Preservation Officer for all rehabilitation and demolition of historic properties that are fifty years old or older or that are included on the Federal, state or local historic property list.

XII. SEVERABILITY

If any provision of this Agreement is held invalid, the remainder of the Agreement shall not be affected hereby and all other parts of this Agreement shall nevertheless be in full force and effect.

IN WITNESS THEREOF,
The City of Hattiesburg and the AWARDEE have caused their signatures to be hereunto affixed and duly attested

Attachment to CDBG Basic Rehabilitation and Emergency Repair Agreement
Step-by-Step Process Guide

Abbreviations: HI – Housing Inspector (Robert Jones)
HC – Housing Coordinator (Kevin Jordan)
CDM – Community Development Manager (Clarence Williams)

- Identify potential applicant
  - See the attached "Case Management" document for additional details.
- Confirm clear ownership of home by current resident(s).
  - If property was purchased by tax sale and/or as heir property, the deed/title must be quieted and confirmed.
- Confirm taxes are up to date (if not, they will need to bring them current at some point before a Homeowner Agreement is established)
- An abbreviated assessment of the emergency repair that is needed – this is not necessarily a full work write up, but just a quick assessment to determine whether or not the emergencies can be addressed within the $10,000 limitation.
  - Emergency Repairs address only major home systems: structural, electrical, roofing, plumbing.
  - Basic Rehabilitation work includes that listed under Emergency Repair but also may also include cosmetic items and may also address some blighting conditions.
  - Pictures of the house should be taken for the file. Pictures should include at a minimum several angles of the exterior (even if no exterior work is to be done), and pictures of any potential work areas on the interior to substantiate the need and document the file.
- Turn in abbreviated write up and pictures to HI and CDM – this step is optional, but may help speed up the process of getting the environmental review completed.
- Complete the full application including the gathering of all income verification.
  - See the attached "Case Management" document for additional details.
- Turn in the full application and all related information to HC.
- Schedule a site visit with HI. The purpose of this visit will be to complete an official work write up. Subrecipient staff should complete the write up with a proposed budget, and turn in to HI for review. If pictures were not already supplied, they should be turned in at this time. If any edits, additions, etc. are necessary, HI will notify.
- If the write-up warrants lead and/or asbestos testing, HI will order the tests.
- Environmental Clearance – at this point in the process, nothing further can happen until the City's environmental review is complete. This may require results of lead/asbestos tests, approval from MDAH, and/or public notification (worst-case scenario).
- The subrecipient can procure a contractor (NOT before the environmental clearance is attained)
- A Homeowner Agreement will go before the City Council for approval
- The Homeowner and contractor/subrecipient will sign agreements
- If lead and/or asbestos abatement is required, the City will coordinate with the homeowner and order the abatement.
- HC will issue a Notice to Proceed.
- The subrecipient/contractor should acquire the necessary permit(s).
- The contractor can begin work.
- HI should be notified when the contractor begins work, and should be notified before any scheduled inspection by building/land code.
- Requests for funds are on a reimbursement basis. Along with request from Subrecipient, include invoice(s) from contractors.

- No work or change order is authorized unless HI has seen and verified the need, and has authorized the work. If work is done outside what is approved, Subrecipient will be responsible for the cost.
- Reimbursement can only be made on requests when HI has verified that work is done to code or specifications.
- Any work done, material purchased, or cost incurred prior to environmental clearance AND a homeowner agreement is NOT eligible for reimbursement.

Case Management

- This program is for **Verified Homeowners ONLY!** (Homeowners must have owned and lived in the home for at least one (1) year!)
- Race and Ethnic date Reporting Form needs to be completed by YOU (Case Management)
- Program assistance is not available to employees or relatives of the City of Hattiesburg
- **ALL ORIGINAL DOCUMENTS MUST BE SUBMITTED** to the City of Hattiesburg Community Development office for the program files (Applications, Check Lists, Supporting Documents, Notarized Documents, **Verifications (MUST BE SUBMITTED TO AND COMPLETED BY THE VERIFYING AGENCY AND RETURNED TO YOU!)**, etc. - per HUD guidelines) **NO COPIES!**
- **Homeowners should only submit copies of personal documents** they should hold on to (such as: Social Security Cards, Drivers Licenses, Deeds, Tax Receipts, etc.) the Community Development Office is not responsible for personal documents
- **Documents needing to be notarized must be completed and submitted with the Housing Assistance Application Packet** (Memorandum of Understanding, Unemployment Certification – full page or bottom half, whatever is applicable)
- **All forms should be completed** even if it is just with N/A (exception: only Verification Forms that apply must be completed; others can be discarded)
- **It is very important that ALL household income is reported** – if unreported income is discovered later the Homeowner may be required to repay any and/or all grants funds expended and legal fees associated with securing repayment to the City of Hattiesburg

***Please interview homeowners before having them complete an application. You should know that they fit the program before giving them an application! This will save a lot of time and frustration for the homeowners!

Title

Adopt an order to approve the sale of personal service weapons to Officer Benjamin Deen's widow, Robin Deen, and Officer Liquori Tate's mother, Youlander Ross, pursuant to Mississippi Code Annotated 45-9-131.

Summary

Adopt an order to approve the sale of personal service weapon Glock Model 22 Asset ID 17244 Serial Number MUY502 to Officer Benjamin Deen's widow, Robin Deen, and personal service weapon Glock Model 22 Asset ID 17199 Serial Number MUY457 to Officer Liquori Tate's mother, Youlander Ross.

HATTIESBURG POLICEMEN'S BENEFIT FUND, Inc.

300 KLONDYKE STREET
HATTIESBURG, MISSISSIPPI 39401

January 22, 2018

Chief Anthony Parker
Hattiesburg Police Department
300 Klondyke Street
Hattiesburg, MS 39401

Ref: Officer Liquori Tate's Service Weapon

Dear Chief Parker,

I am writing this letter to ask you to allow the ***Hattiesburg Police Department's Benevolent Association*** to purchase the service weapon (Asset ID 17199, Glock 22, Serial # MUY457) of Officer Liquori Tate for the sum of One Dollar ($1.00). After the purchase of the weapon, it will be given to Officer Tate's mother, Youlander Ross. Mississippi State Law (*MS statute 45-9-131*) allows the sidearm of a law enforcement officer who is killed in the line of duty to be purchased and then given to the family. This procedure has been approved for retiring officers, as it references the same statute.

Should you need any additional information, please don't hesitate to contact me.

Sincerely,

Capt. Shannon Harris, President
Hattiesburg Police Department's Benevolent Assoc.

HATTIESBURG POLICEMEN'S BENEFIT FUND, Inc.

300 KLONDYKE STREET
HATTIESBURG, MISSISSIPPI 39401

January 22, 2018

Chief Anthony Parker
Hattiesburg Police Department
300 Klondyke Street
Hattiesburg, MS 39401

Ref: Officer Benjamin Deen's Service Weapon

Dear Chief Parker,

I am writing this letter to ask you to allow the ***Hattiesburg Police Department's Benevolent Association*** to purchase the service weapon (Asset ID 17244, Glock 22, Serial # MUY502) of Officer Benjamin Deen for the sum of One Dollar ($1.00). After the purchase of the weapon, it will be given to Officer Deen's wife, Robin Deen. Mississippi State Law (*MS statute 45-9-131*) allows the sidearm of a law enforcement officer who is killed in the line of duty to be purchased and then given to the family. This procedure has been approved for retiring officers, as it references the same statute.

Should you need any additional information, please don't hesitate to contact me.

Sincerely,

Shannon Harris

Capt. Shannon Harris, President
Hattiesburg Police Department's Benevolent Assoc.

THE CITY OF HATTIESBURG

One of America's Great Small Cities!

Anthony Parker, Chief of Police

MEMORANDUM

TO: Mayor Barker and Council

FROM: Chief Anthony Parker

DATE: January 24, 2018

RE: **Purchase of Service Weapons**

Officer Benjamin Deen & Officer Liquori Tate was killed in the line of duty on May 9, 2015. I am requesting that the Hattiesburg Police Department Benefit Fund is allowed to purchase their service weapons per MS Code 45-9-131, which allows the sidearm of a law enforcement officer who is killed in the line of duty to be purchased and then given to the family. After the purchase of the weapons, they will be given to Mrs. Robin Deen (Officer Deen) and Youlander Ross (Officer Tate).

The following is a description of the weapons to be purchased:

Officer Benjamin Deen Glock 22, serial number MUY502, Asset ID 17244
Officer Liquori Tate Glock 22, serial number MUY457, Asset ID 17199

Thank you for your attention to this matter. If there is additional information that is needed, please let me know.

Action Text: A MOTION was made by Council Vice President Dryden and seconded by Council Member George to Adopt revised City of Hattiesburg Employee Handbook.

A Subidiary MOTION was made by Council Member Delgado and seconded by Council Member George to TABLE to Adopt revised City of Hattiesburg Employee Handbook.

Council member Delgado asked that the administration look at the part of the handbook that addresses the distribution of approved time when employees resign; she said that people resign for different reasons, and asked whether those who resign should be treated differently than those who are terminated.

Following discussion, the Motion to Table received the affirmative vote of the Council as follows:

EMPLOYEE HANDBOOK

January 2018
PROPOSED EDITION

INTRODUCTION

This Handbook has been adopted by the City Council of Hattiesburg, Mississippi (hereinafter "the City"), to inform you about the City's employment policies and procedures, and to summarize the employee obligations owed by you to the City, as your employer, as well as the employee benefits available to you as a City employee. It is your responsibility to read your Handbook and familiarize yourself with the information it contains, and thereafter to refer to it whenever you have a question. If you have a question that is not answered by the Handbook, ask your department head, the Human Resources Department or the City Clerk.

As a City employee, the taxpayers and citizens of Hattiesburg, Mississippi, collectively are your ultimate "boss". You are an integral part of a diversified work force which has the single purpose of serving the taxpayers and citizens of our city. The skills and experience you bring to your job are an important aspect of providing this service. Your day to day and occasional contacts with individual citizens will often be the only basis by which they are able to determine the efficiency, professionalism and responsiveness of the whole of City government. Therefore, it is of the utmost importance you always make the best possible impression when you are interacting with members of the general public. Your job, as is each job with the City, is an essential part of the overall operation of our City. As an employee, we all are counting on you to always provide honest, efficient, reliable and courteous service.

The City administration, acting by and through the elected City Council, reserves the right to amend, modify, supplement or cancel this Handbook at any time whatsoever, including, without limitation, any or all of the various policies, rules, procedures, and programs outlined within this Handbook. Whenever the masculine gender (he, him, his) is used, it also refers to the feminine gender (she, her, hers).

This handbook is not to be construed in any manner as a contract of employment. It does not create a contractual relationship between the City and any employee, nor shall anything in this Handbook be deemed to imply a guarantee of continued employment or benefits for any length of time whatsoever. This Handbook filly preserves the EMPLOYMENT AT WILL doctrine. Although it is hoped your employment relationship with us will be for an extended duration, you or the City of Hattiesburg may terminate this employment relationship at any time, with or without cause or notice. No director, chief, supervisor, manager, or representative of the City of Hattiesburg has the authority to enter into any agreement with you for employment for any specified period of time or to make any promises or commitments contrary to the at-will relationship between you and the City of Hattiesburg.

Fair Labor Standards Act – Safe Harbor Policy

The City of Hattiesburg (COH) intends to comply with all federal regulations with respect to the Fair Labor Standards (FLSA). In this regard, the FLSA provides an exemption from both minimum wage and overtime payment for employees employed in a bona fide executive, administrative, professional and computer positions. To qualify for an overtime exemption, an employee generally must be paid no less than $23,660 a year or $455 per week on a salary basis (certain exempt computer employees may be paid at least $455 on a salary basis or on an hourly basis at a rate not less than $27.63 per hour.)

Being paid on a "salary basis" refers to an employee who regularly receives a predetermined amount of compensation each pay period on a weekly or less frequent basis which cannot be reduced because of variations in the quality or quantity of work. Subject to the exceptions listed below, an exempt employee must receive his or her full salary for any workweek in which the employee performs any work, regardless of the number of days or hours worked. Exempt employees do not need to be paid for any work week in which they perform no work and will not be paid, unless appropriate accrued leave is utilized. If deductions are made from an employee's predetermined salary because of the employer's operating requirements, that employee is not paid on a "salary basis." If the employee is ready, willing, and able to work, deductions may not be made for time when work is not available.

Deductions from pay are permissible when an exempt employee is:

- absent from work for one or more full days for personal reasons, other than sickness or disability;
- absent from work for one or more full days due to sickness and disability, if the deduction is made in accordance with a bona fide plan, policy or practice of providing compensation for salary lost due to illness;
- in receipt of amounts such as jury or witness fees; or
- on an unpaid disciplinary suspension for one or more full days, imposed in good faith for workplace conduct rule infractions.

Also, the COH is not required to pay an employee's full salary in the initial or final week of employment, for penalties imposed in good faith for infractions of safety rules of major significance, or for weeks in which an exempt employee takes unpaid leave under the Family and Medical Leave Act. In these circumstances, either a partial-day or full-day deduction may be made. Finally, as a public sector employer, the COH operates under principles of public accountability, which permit deductions from the pay of an exempt employee for partial-day or full-day absences due to illness, injury, or personal reasons when accrued paid leave is not used by an employee because:

- permission for its use has not been sought or has been sought and denied;
- accrued leave has been exhausted; or
- the employee chooses to use leave without pay, if such leave is available.

The COH has classified those positions which are considered to be "exempt." It is the policy of the

COH to comply with the “salary basis” requirements of the FLSA with regard to exempt employees. If you believe that an improper deduction has been made to your salary, you should immediately report this information to the Human Resources Department. Reports of an improper deduction from wages will be promptly investigated. If it is determined that an improper deduction has occurred, you will be promptly reimbursed for improper deduction.

CHAPTER ONE
EMPLOYMENT INFORMATION

1–1. At-Will Employment

Employment with the City of Hattiesburg is on an at-will basis. At-will means employment with the City may be ended at any time, for any reason, with or without cause by either you or the City of Hattiesburg. You should not rely upon any written or verbal statement to the contrary, no matter who provides it, as it is invalid. This handbook does not alter the at-will relationship, and nothing in this handbook should be interpreted as a guarantee of continued employment.

1-2. Equal Employment Opportunity

The City of Hattiesburg is committed to providing employment opportunities for all qualified employees and applicants. The City of Hattiesburg also seeks to employ the most competent, qualified, and motivated individuals into available positions, while remaining in compliance with federal and state requirements against discrimination due to race, gender, gender identity, sexual orientation, personal or family genetic predisposition, age, religious beliefs, national origin, veteran, and/or disability status. The City provides reasonable accommodation to individuals with a disability during the application process and as an employee. The obligation applies to all terms, condition and privileges of employment including, but not limited to: hiring, placement, upgrading, transfer and demotion, termination, and/or suspension, recruitment, advertising or compensation, treatment during employment, selection of training, and social and recreational programs.

1-3. Commitment to Diversity

The City of Hattiesburg is committed to being a diverse organization and actively seeks to recognize, value, and incorporate diversity in its services, policies and operations, vendors and workforce. In the event you have a work-related dispute or complaint, please raise your concern in accordance with the City of Hattiesburg's Grievance policy found in this handbook.

1-4. Immigration Employment Law Compliance

The City of Hattiesburg only employs citizens of the United States and alien persons who are authorized to work in the United States. Newly hired employees must complete the federal government I-9 eligibility verification form and present documentation to the Human Resources Department establishing employment eligibility and identity. The City of Hattiesburg uses the E-Verify government system to help establish eligibility.

If you do not present the required verification information that establishes your right to work in the United States, you will not be permitted to work.

1-5. Infectious Diseases

The City of Hattiesburg does not discriminate against individuals with infectious diseases, including those who are infected with the Acquired Immune Deficiency Syndrome (AIDS) virus. The City will make reasonable accommodations for such individuals who are otherwise qualified to perform their assigned job duties. While privacy of the individual will be protected, the City reserves the right to inform any employee who might have been exposed to infectious diseases in a medically recognized situation.

1-6. Employment of Relatives

Your relatives who apply for employment with the City of Hattiesburg are eligible to be employed unless specifically prohibited by the state nepotism law or unless there is the possibility that public safety will be compromised. These individuals will be evaluated on their qualifications for the position and their relationship to you will be neither an advantage nor disadvantage. However, relatives employed with the City are not to be placed in close working proximity to each other and are not to supervise each other, directly or indirectly.

If you apply for an internal transfer to an available position, your relationship to the supervisor/manager, etc. of the position will be taken into consideration before a transfer is approved.

For the purposes of this policy, a relative is defined as:

Relative by Blood	**Relative by Marriage**
Parent	Spouse
Child	Stepchild
Grandparent	Stepparent
Grandchild	Parent In-Law
Sibling	Sibling In-Law

AND any other relative who lives in your household.

It is your responsibility to inform management when a relationship (as defined above) exists. Failure to do so could result in disciplinary action.

1-7. Employment Process

A. Position Announcement

In general, positions which have been approved to be filled and open to all candidates will be posted in Human Resources, on the City's website, the Job Line, and at various departmental locations. In addition, notice of position openings will be sent to the MS Employment Security office and sent out using the City's social media process. The City does, however, retain the discretion to allow department heads to verbally announce an opening and hire from within the department. Interested, qualified individuals may apply on-line by going to the City's website or by coming to the HR Department.

To ensure the City reviews applications that are from candidates currently interested in a position, only applications for posted positions are accepted and applicants must submit a new application to be considered for additional positions that become open.

Employees are encouraged to apply for a transfer should a position come open they are qualified for and interested in and the employee is out of their probationary period. When applying for an internal transfer which requires testing for skills such as Typing, Word and/or Excel, you will be required to submit to these skills tests.

To allow ample opportunity for internal transfer requests, vacant positions are posted a minimum of five (5) days before a selection is made and a job offer extended. The interview process will not begin until the minimum 5 day posting requirement is met.

You may apply for the next available Police or Fire Academy only when such applications are being actively recruited, in accordance with Civil Service guidelines. You must meet the minimum requirements for the position(s).

B. Probation Period

You are considered to be on probationary status for a period of six (6) months (12 months for sworn police and fire personnel). This probationary period gives you the opportunity to become familiar with the job and your supervisor an opportunity to evaluate your performance. As a standard practice, you will be evaluated at 2 months, 4 months and 5 months of employment. Should you not be performing at an acceptable level, your supervisor may establish a performance improvement plan.

During this period of employment, you may be reassigned or terminated without grievance or appeal rights.

If you are a temporary employee and are subsequently hired into a full-time position, you will serve a full six months (one year if sworn personnel) probation period; this period begins with the first workday in the permanent position.

C. Duty Assignment

Your supervisor is responsible for assigning duties, and you are expected to carry out these assignments to the best of your ability with a cooperative and helpful attitude. You may not change assignments without the knowledge and permission of your supervisor.

1-8. Classification of Employees

Fair Labor Standards Act Classifications

All paid positions with the City of Hattiesburg are classified as either exempt or nonexempt from the overtime provisions of the Fair Labor Standards Act (FLSA). For purposes of salary administration and eligibility for overtime payments, employees are classified as follows:

Non-exempt employees

Employees who are required to be paid overtime or compensatory time at the rate of one and one-half times the employee's regular rate of pay for all hours worked in excess of forty hours in a workweek, in accordance with applicable federal wage and hour laws, or more frequently in accordance with certain state or local wage and hour laws.

Exempt employees

Employees who are not required to be paid overtime or compensatory time in accordance with applicable federal wage and hour laws for work performed in excess of forty (40) hours in a workweek. Executives, professional employees, certain administrative and computer employees are typically exempt.

Job titles do not determine exempt status. In order for an exemption to apply, an employee's specific job duties and salary must meet all the requirements of the Department of Labor's regulations and must be approved by your Director and by Administration. If you are in an exempt classification, please be sure to read the Safe Harbor Policy at the beginning of this handbook.

Types of Employees

1. Elected and Appointed Officials - Mayor, Council Member, Director/Chief, City Attorney, Municipal City Clerk, Deputy Municipal Clerk, Deputy

Municipal Court Clerk, Clerk of Council, Deputy Clerk of Council, Municipal Court Clerk, Municipal Judge, Municipal Prosecutor, and Municipal Public Defender.

2. Permanent Full Time – Employees, who are hired to work longer than six months, and who are regularly scheduled to work forty hours in a work week; or, if a sworn police or fire employee hired to work their scheduled FSLA cycle.
3. Permanent Part Time – employees who are hired to work longer than six months, and who are regularly scheduled to work less than forty hours in a work week. These employees are not entitled to full time benefits. They may, however, be required to participate in the Public Employees Retirement System. Human Resources will make that determination. These employees may work more than part-time hours on a temporary basis only, but will remain classified as part-time.

4. Temporary – employees hired to work less than 4 1/2 months because of seasonal needs or emergency situations. Such employees may work full time hours or part time hours. These employees are not entitled to employee benefits including participation in the Public Employees Retirement System.

5. Inactive – employees who, for whatever reason, are unable to work, have no available leave time, and are not eligible or no longer eligible for Family Medical Leave. Employees on inactive status will no longer continue to accrue benefits and are responsible for paying their single health and life insurance premium and any other voluntary deductions. Employees can only remain on inactive status for 6 months. At 6 months of inactive status if the employee is unable to return to work, the employee's employment will automatically be terminated. Nothing in the previous statement shall prohibit from reapplying for employment.

1-9. Retirement

To be classified as a retiree with the City of Hattiesburg, you as an employee must meet the established criteria for eligibility for service retirement benefits under the Public Employees Retirement System (PERS) or the Municipal System. You also must be employed with the City when you become eligible and at the time you apply for retirement benefits.

To be eligible for service retirement benefits under PERS, you must have four (4) years of contributing membership service if you began paying into the retirement system before 07/01/07. If you began paying into the retirement system 07/01/07 or later, you must have eight (8) years of contributing membership AND be age 60 or older. You may begin drawing retirement benefits at any age if you have 30 years of creditable service in the retirement system (25 years of creditable service if hired 6/30/11 or before) or you are approved for

disability retirement benefits by the retirement system. Benefits are based on the number of years of creditable service you have accrued and on the average of the greatest four years of compensation you earned.

For details, please see the Public Employee's Retirement System website at www.pers.ms.gov.

1.10. Compensation

The City of Hattiesburg has established by Ordinance a classification/compensation plan known as the Hattiesburg Variable Plan (HAV PAY). All employee salary ranges fall under this plan. The City encourages all pay be direct deposited into a checking or savings account and have established relationships with financial institutions to help employees meet this standard if needed.

A. Pay Period

The City's workweek begins on Saturday and ends on the following Friday. There are two workweeks in a pay period. Therefore, each paycheck you receive will be payment for hours worked or accrued leave time taken for the previous two workweeks.

You are responsible for clocking in when you begin work and out when you leave work into the City's time keeping system by entering your Employee ID Number and your biometric fingerprint. Employees may also be required to clock in/out for their meal period. Your biometric fingerprint clocking your work time is the official record of the time you have worked and is used to determine your pay.

Information on your pay will only be given only to you, unless you have submitted signed authorization to your supervisor or to Human Resources identifying someone else who is allowed to obtain your pay information. The person you give permission to obtain this information for you must present picture identification for verification.

B. Rate of Pay

The City of Hattiesburg has established wage guidelines and ranges for all positions, including sworn police and fire personnel. Compensation paid is within this established range. There are exceptions, but they occur rarely and only with prior approval of the Mayor. The City will attempt, for the benefit of employees, to maintain wages that are competitive with those paid for similar work by other cities and local industry.

1-11. Work Hours

Workdays for City employees are based on the type of work done and are set by individual

departments. A "normal" workweek is 40 hours for non-sworn employees. Sworn employees are paid every two weeks, but their assigned work hours will be different. However, in certain instances work schedules may vary and various employees may work different schedules because of our responsibility to the citizens of the City of Hattiesburg. Your supervisor determines scheduling of your work hours and any unpaid meal period.

Changes in work schedules are announced as far in advance as practicable. You, as an employee, may not change your established work hours without prior approval from your supervisor.

You may be required to be on call, either occasionally or regularly. If placed on call, you must be readily available to be reached by telephone or pager.

1-12. Meal Period

You are normally given a meal period break during the workday. Meal periods are typically 30 minutes to one hour and you generally are not compensated. Meal periods are scheduled in advance at the discretion of your supervisor. You are required to take your meal period away from your work station area. The City provides a break area for employees who wish to remain at their job location during their meal period.

In rare circumstances, and only with your supervisor's prior approval and there is productive work available, you will be allowed to skip or shorten the meal period to shorten your workday or to make up worktime missed.

1-13. Work Breaks

Breaks may be provided, but not required, and must be approved by the supervisor and scheduled for the convenience of the department. In no case shall there be more than two breaks per eight (8) hour shift, and each break should be no more than fifteen (15) minutes long.

1-14. Overtime

If you are required to work beyond the normal work week or work cycle, you should be granted equal time off during that same work week so the total actual hours worked is the normal total hours in a workweek.

When this is impossible or impractical, if you are a nonexempt employee, you will be paid at one and one-half times your normal hourly rate of pay or accrue compensatory time at the rate of one and one-half hours for all hours worked beyond the normal work week (must work a minimum of 40 hours) in accordance with the Fair Labor Standards Act – FLSA. You may

work overtime ONLY with prior authorization of your supervisor and are required to work additional hours as instructed. You will need to provide an explanation of overtime worked to your supervisor so it can be entered into the timekeeping system as an explanation of duties performed to warrant additional work time. If you fail to clock in/out when working or do not report additional time worked to your supervisor during the pay period it is earned, it can be reported and calculated for inclusion on the next paycheck. A manual check will not be issued to pay over-time hours not included when you fail to use the timekeeping system or report your work hours within the required timeframe. You may have to wait until the next regularly scheduled pay date.

When calculating overtime, do not count holidays or accrued leave time (personal, sick or compensatory hours) as hours worked.

1-15. Compensatory Time

You may, at times, receive credit for compensatory leave. This generally happens when your manager considers it essential you work after normal hours and you are unable to flex the time out during the same workweek.

If you are a non-exempt, non-sworn employee, you may earn compensatory time -- instead of cash overtime pay - at a rate of an hour and half for each hour worked over forty (40) hours in a workweek (as defined in Department of Labor regulations). You are limited to 240 hours of earned compensatory time. Sworn Police and Fire have different limits.

Any compensatory hours you earn above the maximum will not be accrued but will be paid out to you. You must first exhaust all accrued compensatory hours when requesting personal leave. Your accrued unused compensatory time will be paid to you when you attain exempt status or leave City employment.

1-16. Promotions

A promotion is the movement of an employee from one position to another position that requires a higher level of skill and/or responsibility. It is also usually assigned to a higher pay range.

After you have served six (6) months in a position or meet the established standards for sworn personnel, you may apply for promotional opportunities through the internal transfer process.

1-17. Internal Transfer

Whenever possible, the City of Hattiesburg promotes and encourages personal and/or professional growth and development for its employees through internal transfers, promotions, and training and educational opportunities. Occasionally, the City will opt to change an

employee's duties or position, not at the individual's request, but as a result of some other need, for instance job performance or elimination of the position.

There are two types of transfer requests for non-sworn employees:

A. Employee Request

You may request a transfer to an approved and posted position by submitting a completed Application for Transfer Form and a resume. Applicants must also meet the minimum criteria as listed below:

- You have held your current position for at least six (6) months.
- You have met or exceed the minimum requirements for the position.
- You have a satisfactory job performance and attendance record.
- The position has been approved to be filled and is posted.
- If the position requires candidates to successfully pass a typing test and/or other Clerical Skills test, internal transfer applicants who meet all other minimum requirements will be scheduled for testing.
- An approval for a transfer is at the discretion of the manager with the position open, it is not a guarantee.

The section on the form that you complete must be submitted to your manager. To give you ample time to apply for a transfer and perform any required tests, available positions are posted for a minimum of 5 working days before a hiring decision is made.

Internal transfer requests are only given more consideration than an outside applicant when all other qualifications are equal. Management will consider your ability, employment record and other qualifications in deciding whether to select you for a transfer. (In the event that two or more employees apply for a transfer to the same position and ALL qualifications - including education, initiative, attitude and other factors - are essentially the same among all applicants, the job will be awarded to the employee with seniority.)

If you request and receive a transfer, you will be placed on a six (6) month probationary period to determine job suitability. If your performance in the new position is unsatisfactory, your employment may be terminated if an alternative solution is not determined.

Your pay may be adjusted (either increased or decreased) to accommodate new job duties.

B. Management Transfer

Occasionally, the organizational needs of the City warrant movement of an employee to a different position. Because this movement is at the discretion of management, the previous criteria established for an employee internal transfer does not apply.

If you are a management-transferred employee, you will also be placed on a six (6) month probationary period to determine job suitability. If your performance in the new position is unsatisfactory, your employment may be terminated if an alternative solution is not determined.

If you receive a management transfer, you may receive an adjustment in your pay (either increase or decrease) to fit the responsibilities and the budget of the new position.

1-18. Personnel Records, References and Privacy

Personnel records shall be maintained for each employee in Human Resources. These records are the property of the City and are confidential. Departments are permitted to maintain additional files of employee information, but the official employment record is the one in Human Resources. All appropriate documentation must be forwarded to Human Resources to be included in this file. As an employee of the City, you are required to notify Human Resources of any changes in personal status (i.e.; marital status, number of dependents, beneficiaries, home address, telephone number, etc.) and of any additional educational and skill training you acquire after you are hired.

You may view your personnel records by notifying Human Resources and scheduling a time for inspection that is mutually convenient. If you are a current employee, you may request a copy of your file. Former employees are only allowed access to their employment files by court order.

All inquiries concerning current and former employees shall be referred to the Human Resources Department.

1-19. Performance Evaluations

As a City of Hattiesburg employee, your job performance will be evaluated to help identify your successes as well as areas that need improvement. Newly hired employees and employees who transfer to a new position, will be evaluated several times over the 6 month probationary period (note: Fire and Police Sworn Personnel are under a 1 year probationary period). Evaluations allow your supervisor to measure your work against the requirements of

the position and to assess specific behaviors related to your job performance. As part of the process, you will be given the opportunity to review the evaluation and to set goals. If improvement is needed, your supervisor will work with you to develop an action plan that notes any required improvements and provides a time frame for achieving them.

You will be re-evaluated at the appropriate time to determine if improvement has been made; if you are unwilling or unable to make necessary adjustments, termination may be considered.

Performance evaluations will become a permanent part of your personnel file.

1-20. Travel and Expenses

If you are required to travel in the performance of an official duty, City policy allows you to be reimbursed for reasonable expenses incurred as allowed by policy. You are required to use city-owned vehicles when traveling unless circumstances prohibit and you have obtained prior written approval for use of a personal vehicle from your Director or Manager. You can be reimbursed for overnight lodging if you have proper authorization and receipts, and if travel circumstances prevent departure and return on the same day. You are expected to exercise the same care incurring expenses as a prudent person traveling for personal reasons.

It is your responsibility to obtain information regarding the City's travel reimbursement procedure from your department's purchasing and travel manual before you travel. To be reimbursed for any travel expenses, you must follow pre-established rules and regulations. The Purchasing Division is available to answer any additional questions you may have.

1-21. Polygraph Examination

As a condition of employment with the City, applicants for certain positions may be required to take a post-offer of employment polygraph examination. These are positions of trust that involve the handling of cash, property, evidence, equipment, confidential information, civilian law enforcement position, and/or those occupations designated as Deputy Municipal Clerk or Deputy Court Clerk. Results will not be used as the only factor in the hiring decision.

Employees may also be required to participate in specific-issue polygraph examinations during an investigation. It is a condition of employment with the City that you fully cooperate with any law enforcement agency's criminal investigation. Refusing or failing a polygraph with supporting evidence may result in disciplinary action, up to and including termination of employment. Results of a polygraph will be confidential and will be shared only with those who are in a "need-to-know" position.

1-22. Information Technology

The use of computer, electronic mail and Internet systems is reserved for the conduct of

business within the City of Hattiesburg. Any unauthorized access or use of the City of Hattiesburg's computer systems is strictly prohibited. The City has established a computing policy. Upon employment, you are given a copy and are responsible for compliance. The City of Hattiesburg's computing Policy is incorporated by reference herein. A violation of this policy may result in disciplinary action ranging from a verbal warning up to discharge from employment.

1-23. Position which requires Bonding

If you were hired into a position which requires you to be bonded or should you transfer to a position which requires you to be bonded, you will **not be allowed to work** in that position until you successfully complete the bonding process and have been bonded. The bond will be paid for by the City. You are also responsible to remain in compliance with all bonding requirements to ensure your bond does not lapse. Failure to obtain bonding will mean termination of your employment should alternative arrangements not be feasible.

CHAPTER TWO
STANDARDS OF EMPLOYEE CONDUCT

2.1. Attendance

Regardless of your position or the duties you perform, you are a valuable employee and your presence is needed if the City is to function properly and efficiently. It is your responsibility to be ready and able to work at the start of your shift.

If for any reason you cannot report to duty or are unable to report to work on time, you must follow pre-established guidelines and notify your supervisor prior to the start of your scheduled work time. Your manager will provide you instructions on how you are to contact your department should an unforeseen circumstance occur.

If you report to work after the scheduled start time, even if it is due to circumstances beyond your control, you will be considered tardy and may be subject to disciplinary action.

If you are absent three or more consecutive days without proper notice or explanation to your supervisor, you may be considered to have abandoned your position and your employment will be terminated.

2.2. Commitment During Work Hours

While at work, you should apply yourself to your assigned duties during the entire work period for which you are being compensated, except for reasonable time needed to take care of personal needs, as approved by your supervisor.

2.3. Resignation

You are required to submit a written resignation to your supervisor if you want to terminate your employment. You should provide a minimum resignation period ("notice") of ten (10) working days. You may not use compensatory time, personal time, or sick leave during your resignation period. If you happen to fall ill during your resignation period, you must submit a doctor's excuse to be allowed to use accrued sick time. The resignation period may be extended for the number of days missed due to illness.

If your resignation period ends on a scheduled holiday, you must work the day after the holiday to be eligible to receive holiday pay.

2.4. Conflict of Interest

You should be very careful to avoid using, or appearing to use, your position with the City of Hattiesburg for personal gain. As an employee, you are not to engage in any activity, whether in private or on official City business, which may pose or appear to pose a conflict of interest.

2.5. Political Activity

You shall not be compelled to participate in any political campaign, nor may you do so voluntarily while on paid duty time. You are encouraged to register to vote and to exercise that right in local, state, and federal elections. You are allowed to voice your opinion on issues and candidates on your own time and as a private citizen, but may not wear buttons, T-shirts, caps, stickers, etc., endorsing a particular candidate or party as part of your work attire or uniform.

2.6. Outside Employment

You are not prohibited from holding outside employment as long as it does not interfere with the performance of your duties, does not create a conflict of interest, and as long as you have informed your supervisor of your outside employment. However, you may not work for another employer while being paid accrued sick leave hours.

2.7. Workplace Violence

Safety of employees is our highest concern. We encourage you always to be alert to the possibility of workplace violence, and require that you immediately report all acts of violence or threats of violence to your supervisor. All reports of violence will be handled in a confidential manner, with information released only to those who have a need to know. Every effort will be made to protect the safety and anonymity of anyone who comes forward with concerns about a threat or act of violence. You are given a copy of the City's Work Place Violence Policy upon employment. This policy is incorporated by reference herein. A violation of this policy may result in disciplinary action ranging from a verbal warning up to discharge from employment.

2-8. Harassment – including Harassment of a Sexual Nature

The City is committed in providing a work environment that is free from the hostile atmosphere created by harassment or intimidation. Unlawful harassment of any kind will not be tolerated. Harassment based upon an individual's sex, race, ethnicity, national origin, age, religion, or any other characteristics protected by law will not be tolerated. All employees, including management personnel, both elected and unelected, are expected and required to abide by this policy.

Use of racial or ethnic derogatory remarks, jokes, or gestures will not be allowed, the same shall be investigated, and disciplinary action shall be taken, whenever found warranted.

Harassment of a sexual nature is also prohibited. Sexual harassment does not refer to occasional compliments of a socially acceptable nature. It refers to behavior that is not welcome, that is personally offensive, that lowers morale and that, therefore, interferes with work effectiveness. Specifically, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitutes sexual harassment when: (1) submission to or rejection of such conduct is made either explicitly or implicitly a term or condition of an individual's employment, (2) submission to or rejection of such conduct by an individual is used as the basis for decisions about employment, promotion, transfer, selection for training, performance evaluations, benefits, or other terms and conditions of employment; or (3) such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile, or offensive work environment.

If you believe you have been harassed on the basis of your sex, race, national origin, ethnicity, religion, or any other legally protected background as described in this Handbook, by any individual, including management personnel, employed by the City, you should immediately report the incident too your Director, the Human Resources Manager, the Chief Administrative Officer or the City Clerk. If your supervisor is one of the above or it involves a Council member, you should report harassing conduct to the Mayor. Such charges shall be promptly investigated and, if substantiated, the offending individual will be appropriately disciplined. To the extent possible, all persons involved in a complaint of harassment will be given the utmost protection of privacy, and such matters will be handled as discreetly and confidentially as possible. Persons complaining of harassment will be protected from reprisals and retaliation by other employees as a result of such complaints, and any claim of retaliation, or complaint of filing false harassment claims, shall be investigated and disciplinary action and disciplinary action shall be taken, whenever found warranted.

2-9. Substance Abuse in the Workplace

The City of Hattiesburg is committed to maintaining a workplace free of alcohol or drug abuse, and therefore prohibits the sale, possession, and use of alcohol and/or drugs. You will be tested -- and must successfully pass -- a drug and/or alcohol test before the offer of employment is confirmed. You are subject to testing during your employment with the City for reasonable suspicion and after an accident/incident. A positive test is grounds for immediate termination. Employees in the positions of sworn police, sworn fire, equipment operators, plant operators, employees in Mass Transit, and any other position requiring a CDL are subject to random testing. Should you face the problem of drug/alcohol abuse, please know that you have the option, before testing, of accepting help through the City's Employee Assistance program. However, you can't ask for help after an incident or accident has already occurred. In addition, accessing the Employee Assistance Program does not mean you can't

be disciplined if warranted if you violate City policy, even if the discipline is for actions that are traceable to substance abuse. You are given a copy of the City's Substance Abuse in the Workplace Policy and Program upon employment. This policy is incorporated by reference herein. A violation of this policy may result in disciplinary action ranging from a verbal warning up to discharge from employment.

2-10. Intimate Relationships

You, as an employee, are encouraged to socialize and develop professional relationships in the workplace provided that these relationships do not interfere with the work performance of you or the other person. When you engage in personal relationships (including romantic and sexual relationships) you should always be aware of your professional responsibilities and assure that the relationship does not raise concerns about favoritism, bias, ethics and conflict of interest.

Romantic or sexual relationships between employees, even if consensual, where one individual has influence or control over the other's conditions of employment are inappropriate and prohibited. These relationships or behavior will not be tolerated and will result in disciplinary action up to and including immediate termination of employment for both parties. If such a relationship currently exists or develops, it must be disclosed to the next level of authority.

2-11. Personal Phone Calls or Text Messages

Please place your cell phone on vibrate or silent mode when in city buildings. No-hands free cell phone devices are to be worn while at work at any time.

In conducting personal business while at work, you are expected to exercise the same discretion when using personal cellular phones as when using City of Hattiesburg phones. Making or receiving personal calls or text messages during the workday, regardless of the phone used, will interfere with productivity and may distract others.

You are asked to keep personal phone calls, received or made, during work hours to a minimum and to limit them to no more than three (3) minutes at a time. Although the City of Hattiesburg understands you may have personal obligations you feel demand immediate attention, City policy requires you make and receive personal phone calls and/or text messages during non-work-time. Please make sure family members and friends are made aware and adhere to the City's policy.

If an emergency arises, you may be contacted through your supervisor.

You should have no expectation of privacy in the use of City owned cell-phones, computers or other electronic devices. These devices may be searched and monitored.

2-12. Personal Use of City Provided Cellular Phones or Devices

Business cellular phones or other devices may be issued to employees as a necessary part of their jobs. City-issued cellular phones or devices are to be used for business purposes only. If you use a city-issued phone or other device for personal business, you may be required to reimburse the City.

As stated previously, employees should have no expectation of privacy in the use of City owned cell-phones, pagers, computers or other electronic devices. These devices may be searched and monitored.

2-13. Safety Issues for Use of Cellular Phones or Devices

City employees are bombarded with distractions when driving. Limiting the use of cellular devices during this time is one way to minimize the risk of an accident for our employees. Safety must come before all other concerns.

If your job responsibilities include regular or occasional driving, whether in a City-owned or personal vehicle, while on City time, you are expected to refrain from using any type of cell phone while driving a vehicle. Sending or reading text messages, surfing the Internet, receiving or responding to email, and checking text messages is **prohibited** while driving. (Note: Bluetooth may be used for conversation only in vehicles that have capability.)

You should pull safely off of the road and stop your vehicle before placing or accepting a phone call or reading/sending a text message. Texting while driving is not only against City policy but it is also illegal.

You are acting outside the scope of your employment if you use a cell-phone while driving. You are never to place yourself or others at risk to fulfill business needs.

If you are charged with traffic violations occurring because you were driving while using a City-issued or personal cell phone or other device or sending/reading text messages, you will be solely responsible for all liabilities that result from your actions and will be subject to disciplinary action up to and including termination of employment.

2-14. Assigned City Equipment

If you have been assigned City equipment for the performance of your job duties, it must be returned in good condition by your last day of employment or when requested. Should you fail to do so, the fair market value of the equipment may be withheld from your earnings or accrued time.

You are also expected to protect City equipment (i.e., cellular phone, radio, laptop, etc.) assigned to you from loss, damage, or theft. You may be responsible for repaying the City for lost or damaged equipment assigned to your care. If equipment assigned to you is stolen, you must complete a police report. City policy prohibits the misuse or use of City equipment for personal business. You should have no expectation of privacy in the use of City-owned cell phones, pagers, computers or other electronic devices. These devices may be searched and monitored.

2-15. Assignment or Use of City Vehicle

If you are assigned or use a city vehicle and receive a vehicle citation while using that vehicle you are personally responsible for reporting the incident to you immediate supervisor and payment of the citation in a timely manner. Depending on the circumstances you may be subject to disciplinary action up to and including termination of employment.

2-16. Smoking in the Workplace

The City of Hattiesburg is a smoke-free work environment. Breaks may be provided, but are not required and must be scheduled for the convenience of the department. If a break is provided, you may smoke in designated areas only and follow the City of Hattiesburg's Smoking Ordinance. Each break should be no more than fifteen (15) minutes long, and in no case should you take more than two breaks per eight (8) hour shift. Employees are not allowed to smoke in any City owned vehicle.

2-17. Driver's License

As an employee with the City of Hattiesburg you will have the potential to operate a City vehicle, motorized equipment (i.e., tractor, backhoe, etc.), or your personal vehicle while working. Therefore, unless specifically exempted by your Department Director and Administration, you are required to have and maintain a valid MS driver's license throughout the course of your employment. State law requires MS residents obtain a Mississippi license within 30 days, even if their previous license has not expired.

You are required to immediately report to your supervisor should your license expire, or becomes suspended or invalid for any reason.

If you are not exempted from having a valid driver's license for you to perform your day to day job duties and your license becomes *suspended* you will be suspended for 3 work days and given no more than 90 days to have your license reinstated. During this 90-day period of time, and only if it is feasible, you will be temporarily reassigned to duties which do not require a license. If temporary reassignment is not feasible, you will not be able to work until you obtain your valid license (you can use available Personal Leave or will be in a non-paid status.)

Failure to comply with these requirements may result in disciplinary actions up to and including termination of your employment.

2-18. Dress Code

The dress code and appearance of City employees is a direct reflection on the professionalism of our services. City employees meet with the public daily as part of their regular work day. A neat, well-groomed employee will present a positive image of the City and demonstrate the pride of our City employees. Our appearance and attire have a definite impact on the way we are perceived by others and the confidence that citizens have in our ability to provide quality services.

City employees are expected to be neat, clean, and dress in attire appropriate to their positions. The following information should guide employees on proper dress in the workplace. Although it is difficult to develop a policy that will cover all individual variations in dress and style for each work situation or circumstance, the following guidelines have been established based on public image, job safety, and personal hygiene.

Non-Uniformed Personnel – Office Environment:

The following items of clothing are considered inappropriate for the office environment (Guidelines apply to full-time, part-time, interns, work-study, etc.)

- T-shirts or sweatshirts (unless with supervisor approval)
- Tube tops, halter tops, tank tops, muscle shirts
- Sweat pants or workout clothes
- Any clothing that is overly revealing or outlandish so as to cause distraction
- Clothing with advertisements (City-related logos are acceptable)
- Body-hugging clothing, including leggings and spandex garments
- Shorts
- Jeans (except on Casual Fridays)
- Military or hunting clothes
- Athletic shoes, tennis shoes, flip flops

Leggings are allowed if paired with an appropriate upper garment that is no more than 3 inches above the knee. Cardigan sweaters, dresses or full-length blazers are recommended attire with leggings. Long shirts are not considered a dress. The employee should be conscious of the length of attire to ensure professionalism is maintained.

Casual Friday is considered a casual dress day. Although considered more casual than the normal business attire, the guidelines set forth previously are to be followed. Jeans must not be overly worn, faded, or in disrepair.

Field workers in the office setting for a full day shall follow the same guidelines for non-uniformed personnel.

Please exercise good judgment when dressing for work. Violations will be just cause to require that you leave the work site to change into appropriate attire; you **will not** be paid for work time missed if you are required to change clothes.

2-19. City Identification Badges

Upon employment, you are provided a City badge identifying you as an employee and listing your position and department. Badges are to be worn while at work and when on official City business unless you are working in certain outside jobs and wear a city uniform with your name on the shirt.

You are required to return your badge to your supervisor if you resign or your employment is terminated. If a badge is lost, there is a replacement fee to obtain a new one. Damaged badges will be replaced at no cost.

2-20. Solicitation

The City of Hattiesburg limits solicitation and distribution on its premises because such activities can interfere with normal City operations, can be detrimental to efficiency, can be annoying, and can pose a threat to security.

Persons who are not employed by the City are prohibited from soliciting funds or signatures, conducting membership drives, posting, distributing literature or gifts, offering to sell or to purchase merchandise or services (except by representative of properly identified supplies), or engaging in any other solicitation, distribution, or similar activity on City property. The City of Hattiesburg may authorize a limited number of fund drives by employees on behalf of charitable organizations.

The City will permit employees to engage in solicitation or distribution of literature for any group or organization, including charitable organizations, within the following guidelines:

- The sale of merchandise is limited to City functions and activities. Solicitation and distribution of literature with proper approval from Administration should not interfere with work time of either the employee making the solicitation or distribution, or the targeted employee. The term “work time” does not include an employee’s authorized lunch or rest period or other time when the employee is not required to be working.

- The City of Hattiesburg maintains bulletin boards to communicate City information to employees and to post notices required by law. Any unauthorized posting of

notices, photographs, or other printed or written material on bulletin boards or any other City property is prohibited. There is only one community bulletin board. It is located on the second floor of City Hall outside of Council Chambers.

CHAPTER THREE
EMPLOYMENT BENEFITS

3-1. Holidays

Full-time employees receive regular pay for ten (10) legal holidays and for any other day proclaimed as a holiday by the Governor or the President of the United States (section 3-3-7, Mississippi Code of 1972, Annotated, as amended).

If you are a full-time employee, you are required to work your regularly scheduled workday immediately before and after a scheduled holiday to be eligible to receive holiday pay, unless you are on an approved leave of absence, or have requested and been approved in advance to use your accrued personal time off. If you do not have available personal time, you must work the workday immediately before and after a holiday to be eligible to receive pay for the holiday. If you become sick and have to miss the day before or after a holiday, you must submit a physician's certification of illness or a physician's excuse to your supervisor immediately upon your return to work to be eligible for the holiday pay.

The legal holidays are as follows:

January 1	New Year's Day
The Third Monday of January	Martin Luther King's Birthday
The Third Monday of February	Washington's Birthday/President's Day
The Last Monday of April	Confederate Memorial Day [the City substitutes the Friday before Easter Sunday (Good Friday) in lieu of Confederate Memorial Day]
The Last Monday of May	Memorial Day
July 4	Independence Day
The First Monday of September	Labor Day
November 11	Armistice or Veteran's Day

A day fixed by proclamation by the Governor of Mississippi as a day of Thanksgiving, which shall be fixed to correspond to the date proclaimed by the President of the United States.	Thanksgiving Day
December 25	Christmas Day

The exact dates for observing holidays are published following formal Council adoption each year. If you are a full-time employee who is required to work on an announced holiday, you will receive holiday pay (or equitable compensatory time) and pay for actual hours worked. Holiday pay does not count as hours worked for determining overtime. If you are an exempt employee scheduled to work during a holiday, you may take the holiday at a later date as approved by your supervisor. A holiday cannot be taken before it occurs.

The City of Hattiesburg reserves the right to decrease or add additional holidays each year, as it deems appropriate.

3-2. Personal Leave

A. Accrual

Full-time employees accrue personal leave time based on continuous full-time employment. You are not allowed to use accrued personal leave until you have reached your six-month period of full-time employment.

Full time employees accrue personal leave time hours as indicated below:

Continuing Full Time Employment	**Days* Earned Annually**
1 month - 2 years	12
25 months - 12 years	18
145 months - 20 years	24
241 months and longer	27

* Per state law, a day is defined as eight (8) hours for all employees who work 2080 hours in a year and twelve (12) hours for employees who work 2756 hours in a year.

Advances on personal leave are not permitted.

B. Accumulation

There is no limit to the accumulation of personal leave. Unused personal leave will be carried over from year to year.

C. Payout

If you are resigning or retiring, upon separation of employment you may request to be paid up to 30 days (240 hours) of earned, unused personal leave. All remaining unused accrued personal leave will be certified to the Public Employees Retirement System (PERS) for award as creditable service under the state retirement plan.

D. Personal Leave Request

All personal leave off must be requested and approved in advance by your manager/supervisor. Occasionally situations may arise where you need to be off and requesting off in advance is not an option. Those situations will be handled on a case by case basis and are at the sole discretion of your supervisor.

When requesting off three (3) or more consecutive days, you should provide your manager a minimum of two (2) work weeks of notice. Some departments may require longer, so be sure to check with your supervisor. Unused Holidays and accrued compensatory time must be exhausted before you may use accrued personal leave.

3-3. Sick Leave

A. Accrual

As a full-time employee, you accrue sick leave at the rate of one day a month. Per state law, a day is defined as eight (8) hours for employees who work 2080 hours in a year and twelve (12) hours for employees who work 2756 hours in a year. Leave cannot be taken before it is earned.

You are eligible to request to use sick leave as soon as it is accrued.

B. Accumulation

There is no limit to the accumulation of sick leave. Unused sick leave will be carried over from year to year.

C. Usage

You may only use accrued sick leave for the following reasons:

1. Absence from work due to personal illness
2. Absence from work for a doctor's appointment (includes dentist, eye, etc.)

3. Absence from work due to an approved Family Medical Leave qualifying event (even if a family member)
4. Absence from work (maximum of 3 days) for the death of an immediate family member (spouse, child, parent, brother, sister, grandparents, grandchildren, or similar relationships that are "in-law" or "step."). This is called Emergency Leave.

D. Documentation Required

You are required to submit a physician's certification of illness (sick excuse) before you will be allowed to use accrued sick time for the following reasons:

- on the 3rd consecutive day of illness
- for a medical condition that will require periodic absences from work for a time frame beyond your initial absences
- for a Family Medical Leave event
- when your supervisor has notified you in writing that a physician's certificate of illness will be required for further absences for a specific period of time due to illness/doctor's appointment
- when you miss work due to illness the work day before or the work day after a holiday.

If at anytime, 10% or more of employees scheduled to work in a department designated as vital to the safety of the City of Hattiesburg (Sworn Fire and Police) or to ensure City functions (Sanitation, Water, Mass Transit, etc.) are out at the same time due to illness, all employees who missed work during that period will be required to present a doctor's certificate of illness upon their return to work.

E. Payout

You will not be paid out your accumulated, unused sick hours upon separation of employment. Rather, the unused hours will be certified to the Public Employee's Retirement System (PERS) for award as creditable service under the state retirement plan.

3-4. Administrative Leave

A. Administrative Leave - With Pay

The Mayor may grant you administrative leave with pay when you must serve as a juror, City witness or party litigant in City-related cases, as verified by the clerk of the applicable court (such leave will be in addition to any fees paid for such services). Verification must accompany your timesheet.

The Mayor may also grant administrative leave with pay for a specific length of time if you are involved in a traumatic situation and leave is recommended by your

Chief or Director, or if you are under investigation for a violation of City policy and it is in the best interest of the City that you not appear at work. This type of administrative leave is usually of a short duration.

The Mayor may also grant administrative leave with pay in the event of extreme weather conditions or in the event of a man-made, technological, or natural disaster or emergency.

B. Administrative Leave - Without Pay

As a City employee, you may be placed on leave without pay for disciplinary reasons and upon approval of your Chief or Director and the Mayor. However, the Mayor may permit you to continue to work when you, with a recommendation from your Director, request instead that a like number of days be deducted from your personal or compensatory leave accumulation, or a combination thereof. Suspension for disciplinary reasons with pay is prohibited.

In extreme and rare situations, you may be allowed to take leave without pay for a period of time not to exceed six (6) months. Leave without pay is granted on a case-by-case basis after all accrued leave is exhausted and if you are not eligible or no longer eligible for Family and Medical Leave. Your Chief or Director, with the Mayor's knowledge and approval, may grant leave without pay for up to one (1) month; only the Mayor can approve leave without pay for periods longer than one month (up to six months).

While on leave without pay, you will be placed on inactive status and will not be eligible to accrue benefits. You also will be responsible for paying individual or family insurance premium(s) each month to maintain coverage. You may choose to drop coverage if it is not under the Section 125 Cafeteria plan, however, if health insurance is terminated you will have to wait until the first of the month after 90 days of active status for your health insurance to go back into effect. You will not be able to pick up coverage again on optional benefits such as dental, vision, etc. until the City's annual open enrollment period.

Upon your timely return from an approved Administrative Leave - Without Pay, you will be guaranteed your prior position or a position of equal status and equal pay.

3-5. Leave of Absence from Work

The City follows all legal requirements for allowing employees to be off from work

including Pregnancy, Family and Medical Leave, and Military. A leave of absence is granted when your department can spare you, when your employee record justifies the privilege, and/or when there is a legal requirement to do so. An approved leave of absence does not guarantee you a job when you are able to return to work, except for Military and Medical Leave. Please contact the Human Resources Department for specifics on any leave of absence from work.

3-6. Jury Duty and Court Appearances

If you are selected for Jury duty, special leave with pay will be granted at your normal rate of pay. You must present a certificate from the court that indicates the date(s) of service to the Human Resources Department.

Should the court excuse you during your normal work hours, you are to report to work.

3-7. Voting

The City of Hattiesburg fully supports our democratic system and affords all of its employees an opportunity to exercise their right to vote. Upon the approval of your supervisor or manager, you may take up to two hours of compensatory or accumulated personal leave should it be impossible to vote either before or after your normal work schedule.

3-8. Employee Assistance Program

As an employee of The City of Hattiesburg, you have access to the Employee Assistance Program (EAP). EAP offers a variety of services to you and your spouse, and/or your dependent children, including personal assessments, referrals, counseling, and educational information to assist in resolving personal problems.

All contacts with EAP are handled professionally and are strictly confidential.

You have two avenues of referral:

- Self- Referral - You recognize that there is a problem and call the EAP to request an assessment. After the assessment, a recommendation and referral will be made for counseling or treatment.
- Supervisor /Mandatory Referral - A supervisor, recognizing a decline in job performance and suspecting that personal problems may be a significant factor, consults with Human Resources and directs you to obtain an assessment from EAP. After the assessment has been completed, a

recommendation and referral will be made and counseling or treatment may begin if needed. As a condition of continued employment, you are required to abide by the recommendation from EAP.

Please contact the Human Resources Department for information on the City's current provider.

3-9. Employee Health Clinic

Employees and eligible dependents may access the City's Employee Health Clinic. It is staffed by a Nurse Practitioner and a Lab Technician to provide free non-emergency health care. All services provided at the clinic are FREE! Un-insured City employees and their eligible dependents may also use the clinic but are required to pay a fee for each office visit and pay the cost for labs performed.

3-10. Employee Professional Development/Training

As an employee you may be afforded an opportunity to enhance your work skills. Details on training offered will be provided by your supervisor**.**

3-11. Worker's Compensation

The Mississippi Workers' Compensation Law covers all City employees. This law provides certain benefits in the event you suffer a work-related illness or injury. In case of a work-related fatality, this law guarantees the payments of benefits to your spouse and/or dependents. These benefits are provided at no cost to you or your dependents. Contact the Risk Management department for specifics.

You must report any work-related illness or injury to your immediate supervisor as soon as possible so appropriate medical treatment can be arranged. Timely reporting also insures you will be paid all wage loss benefits without undue delay.

3-12. Payroll Deductions for Benefits

Full-time, regular status employees are entitled to receive health, dental, or vision group insurance. Only single group health is provided free of charge. If you elect to cover yourself, you may also elect to cover your dependent(s).

<u>Dependent Classification</u>

You must be legally married in order to insure someone as a spouse.

To insure a child as a dependent, he/she MUST be:

- You or your spouse's biological child, OR
- You or your spouse's legally adoptive child, OR
- You or your spouse's legal foster child, OR
- You or your spouse is the legal guardian of the child, AND
- The child is age 26 or under to be covered under the group health plan, OR age 25 and under AND a full-time student at a college or university to be covered under the group dental or vision plan. For the group dental and vision plans, the college or university must provide verification of full-time enrollment status each fall by September 15 and again in the spring semester by January 15 of each year the dependent remains covered.

A. Health Insurance

As a full-time, regular status employee, you are provided health insurance coverage by the City of Hattiesburg on the first of the month following the completion of sixty (60) days of continuous full-time employment. Dependent coverage is available and is paid through payroll deduction. Should you wish to add dependent coverage at a later date, it can only be done during the City's annual Open Enrollment period unless you have a "qualifying event."

Changes must be made within 31 days of the "qualifying event." Please contact Human Resources if you have questions about "qualifying events."

If you enter into an inactive status, you are responsible for paying the total premium for single health (as well as family health, if applicable) until the time you return to full-time active status.

Upon termination/retirement you may elect to remain on the City's health insurance for the time period allowed by the Consolidated Omnibus Budget Reconciliation Act (COBRA). You are responsible for paying the total monthly premium.

B. Basic Life Insurance

As a full-time, regular status employee, you are provided a Basic Term Life and Accidental Death and Dismemberment Insurance policy of $20,000. The effective date of coverage is the same as the health insurance, on the first of the month following the completion of sixty (60) days of continuous full-time employment.

C. Optional Term Life Insurance

As a full-time, regular status employee, you are provided an opportunity to purchase additional term life insurance. Group rates are based on your age. Coverage may

also be obtained on your spouse and/or dependent children if you choose the additional voluntary life. If a newly eligible employee, you are given a one-time opportunity to obtain up to a $100,000 policy without underwriting requirements. Spouses and dependents do not have the same guarantee. The effective date of coverage is the first of the month following the completion of sixty (60) days of continuous full-time employment. After initial eligibility, coverage can only be added during the City's annual Open Enrollment period.

D. Dental Insurance

As a full-time, regular status employee, you may elect to purchase group dental insurance, paying your premiums through payroll deduction. The effective date of coverage is the first of the month after sixty (60) days of continuous full-time employment. Dependent coverage is also available. Should you wish to add dependent coverage at a later date, it can only be done during the City's annual Open Enrollment period unless you have a "qualifying event." Changes must be made within 31 days of the "qualifying event." After initial eligibility, coverage can only be added during the City's annual Open Enrollment period.

Upon termination/retirement you may elect to remain on the City's health insurance for the time period allowed by the Consolidated Omnibus Budget Reconciliation Act (COBRA). You are responsible for paying the total monthly premium.

E. Vision Insurance

As a full-time, regular status employee, you may elect to purchase group vision insurance, paying your premiums though payroll deduction. The effective date of coverage is the first of the month after sixty (60) days of continuous full-time employment. Dependent coverage is also available. Should you wish to add dependent coverage at a later date, it can only be done during the City's annual

Open Enrollment period unless you have a "qualifying event." Changes must be made within 31 days of the "qualifying event." After initial eligibility, coverage can only be added during the City's annual Open Enrollment period.

Upon termination/retirement you may elect to remain on the City's health insurance for the time period allowed by the Consolidated Omnibus Budget Reconciliation Act (COBRA). You are responsible for paying the total monthly premium.

F. Retirement

Another one of the great benefits you receive as an employee working for the City is your required participation in the Public Employee's Retirement System (PERS)

of Mississippi. If you are an eligible employee, both you and the City contribute a percentage of your gross pay each payroll towards your individual retirement account. Currently you will be required to contribute 9% of your gross and the City will contribute 15.75%! This contribution rate may be adjusted in the future by the PERS retirement system. Please go to the Public Employees Retirement System website at www.pers.state.ms.us for additional information as well as current percentages.

If you do not retire but leave public service, you may obtain a refund of your contributions, less 20% withholding for income tax purposes. A penalty may be accessed; retirement contributions are not taxable until they are withdrawn. Please contact the Human Resources Department for additional information.

G. Deferred Compensation

Deferred Compensation is a supplemental, voluntary savings plan administered by the Public Employee's Retirement System offering tax advantages to participants. If you choose to participate, you may set aside part of your salary each year; income tax liability is postponed on that part of the salary until the year you receive the deferred amount. Interest and/or earnings also are tax deferred until withdrawal. Please contact Human Resources for more information

H. Section 125 Cafeteria Plan

The City of Hattiesburg participates in a tax savings mechanism permitted by

Section 125 of the Internal Revenue Code and Sections 25-17-1 to 25-17-9, Mississippi Code of 1972, Annotated, as amended. A Section 125 plan, also legally known as a "cafeteria plan," allows you to payroll deduct, before taxes, premiums

paid for health, dental, vision, accident, and other policies. If you place an item under the cafeteria plan, you are prohibited by law from dropping the elected coverage for one year or until the next "Open Enrollment" effective date, unless you experience an eligible "qualifying event." A qualifying event includes marriage or divorce, employment termination, birth or adoption of a child, and loss of a dependent due to age or death. If you experience a qualifying event, you may make changes to your coverage within 31 days of the qualifying event; any changes must be directly related to the qualifying event. Contact Human Resources for specifics on participating in this plan.

I. Social Security

The City and you (through payroll deduction) each contribute a percentage of your

gross taxable income for Social Security/Medicare contributions. Federal law determines the amount to be withheld.

J. Federal and State Income Taxes

As required by law, the City will deduct federal and state income taxes from each of your paychecks. The amount withheld is based on your gross income, marital status, and the number of exemptions you claim and the current tax table.

K. Credit Unions

As a City employee, you may join Central Sunbelt's Federal Credit Union and Southern Mississippi Federal Credit Union for savings or checking accounts or personal loans and have those items withheld as payroll deductions.

L. Garnishments

The City of Hattiesburg will process employee garnishments as required by law. Should you be involved in a garnishment, please know that as long as your financial concerns do not interfere with your job performance, the City of Hattiesburg will merely make the deductions and payments as required. If they do interfere with your job performance, the City may take disciplinary action, as related to your job performance.

M. Optional Deductions

During Open Enrollment, authorized vendors will be on hand to offer additional insurances, such as accident/disability, life, etc. You may sign up for these items and have them payroll deducted during the Open Enrollment Period. In addition, you may join the Family Y and/or the Institute for Wellness and Sports Medicine any time during the year and have those monthly fees payroll deducted.

3-13. Grievance Process

The City of Hattiesburg does its best to provide you fair and equitable treatment. It also encourages you to discuss problems that may arise concerning your working conditions or the treatment you receive in the workplace. Therefore, a grievance process has been established to provide you a mechanism to resolve your issues of concern and a subsequent appeals process.

Ultimately, the grievance process is designed to**:**

- Resolve the grievance in a manner that is timely and that avoids bias and unfair employment practices;
- Settle the dispute at the lowest management level possible;
- Correct the cause of the grievance, if appropriate and if possible, and prevent future similar complaints;
- Afford the aggrieved party all the applicable safeguards of procedural due-process; and
- Guarantee that as an employee who files a grievance, you are free from reprisal.

The grievance procedure is a step-structured, time-limited process. You may file a formal grievance through this process. However, if you are sworn Police or Fire personnel you are not to use this process, please refer to your Civil Service grievance guidelines.

Employment actions or issues that you may dispute (grieve) are listed below:

- Disciplinary actions (non-sworn personnel only);
- Application of personnel policies, procedures, rules, regulations, ordinances, and statutes;
- Acts of reprisal against you for filing a grievance;
- Complaints of discrimination on the basis of race, color, creed, political affiliation, religion, age, disability, national origin, or gender;
- Performance appraisal ratings, if they affect or potentially may affect your employment status or compensation.

If the employment action is a suspension, demotion, or a reduction in pay, you may dispute these issues by submitting a written, signed, dated document directly with the Chief Administrative Officer (CAO) within five (5) working days from the employment action. The CAO will meet with you within five (5) working days of receiving the document of dispute, and after consultation with the Mayor, will provide you a written response within ten (10) working days of this meeting. This written decision will be final.

The following are employment actions or issues that you may NOT dispute (grieve):

- Issues which are pending or have been concluded by direct appeal through administrative or judicial procedures;
- Relocation or transfer;
- Temporary work assignments which do not exceed 90 days;
- Budget and organizational structure, including the number or assignment of employees or positions in any organizational unit;

- Performance standards and performance elements established as criteria for performance appraisal;
- The selection of an individual to fill a position through promotion, transfer, or demotion, unless it is alleged that selection is in violation of a written City policy or Civil Service statutes;
- Internal security practices;
- Termination or lay-off from duties because of lack of work, reduction of the work force or job abolishment;
- Any matter which is not within the jurisdiction or control of the appointing authority;
- The content of published City or department policy;
- An action by the City pursuant to federal or state law;
- Establishment and revision of the compensation plan (HAV Pay), position classification, and general benefits;
- At Will Employment.

Technical Assistance The Human Resources Division, will provide technical assistance in grieving/appealing issues or actions. Such assistance will not include the actual preparing of grievances/appeals and responses, but may include reviewing drafts to assure the forms are technically correct.

Grievance Procedure:

Step I.

a. You should first discuss the issue with your immediate supervisor and make every effort to resolve the issue before filing a formal grievance. Submit your concerns in writing to your immediate supervisor within five (5) working days of the effective date of the action causing concern. There is not a form that you must use, just write your complaint. Be specific as possible. Include dates, people involved, etc. to fully explain what happened. Be sure to include your signature and the date on the document you submit to your manager.

b. Your immediate supervisor will meet in person with you within five (5) working days of receiving your written grievance.

c. After your meeting, you will receive a response in writing from your Supervisor within five (5) working days.

Step II.

a. If you do not agree with your supervisor's response, you may, if desired, further grieve the issue by submitting to your Department Director a signed and dated written document stating you do not agree with the outcome of your meeting with your supervisor and the reason for your disagreement. Be specific. You must submit this

written document within five (5) working days of your immediate supervisor's written response.

b. Your Department Director will meet with you within five (5) working days of receiving your grievance to discuss your concerns. You will receive a written response within five (5) working days of that meeting.

Step III.

a. Finally, if you do not agree with the Director's written response, you may further grieve the issue with the Chief Administrative Officer (CAO) by submitting to your Department Director a signed and dated, written document stating you do not agree with the outcome of your meeting and the reason(s) why. Be very specific. This written document must be submitted within five (5) working days of your receipt of your Director's written response.

b. The CAO (or designated other) will meet with you within five (5) working days of receiving your grievance, and will respond in writing within ten (10) working days of that meeting. The CAO's decision will be final. Should the Department Director or CAO not be available, a person may be designated to act in their stead to continue the process. The CAO or designee's decision will be final.

Time Limit: If you do not initiate the grievance of an issue within the time as set forth above, it will be dismissed. Also, if your grievance is not advanced to the next step within the specified time limit, or within an agreed upon extension of that limit, it will be considered settled on the basis of the response. Time limits on each step may be extended by mutual agreement of the parties involved. The extension must be in writing, dated, and signed by all parties.

CHAPTER FOUR
EMPLOYEE DISCIPLINE

4-1. Discipline Procedures

The City is committed to a disciplinary procedure that is more corrective and constructive than punitive. Disciplinary actions may arise when an employee violates any rules, regulations, or policies/procedures governing his/her employment, when an employee is guilty of offenses or misconduct which violate general rules of civil behavior, or for offenses against the City.

Normally, the disciplinary procedure to be followed is progressive in nature, as outlined below. However, each situation is considered individually, and the City reserves the right to bypass any of the normal process should circumstances warrant.

A. Oral Reprimand - Designed to allow a supervisor to give informal, corrective guidance to an employee for a minor infraction or misbehavior.

B. Written Reprimand - Designed to be issued when an employee has committed a more serious infraction or misbehavior or has repeated a minor infraction or misbehavior for which he/she has already been warned.

C. Suspension-Without Pay - This action may be taken when an employee has committed a third infraction or misbehavior for which he/she has been reprimanded twice, either orally or in writing, previously or if an infraction or misconduct of a more serious nature occurs. An employee may be suspended without pay for up to five (5) working days. For suspensions greater than one day, the days will be consecutive work days. When, in the opinion of the director/chief, actual time-off would hinder the operation of the division/department, the employee may be offered the opportunity to have an equivalent number of days deducted from his/her vacation leave and/or compensatory time accruals. In either case, the notice of suspension will include notification of his/her grievance/appeal rights.

D. Termination: - When infractions or acts of misconduct are repeated or where a single infraction or misconduct is severe, an employee may be terminated from City employment. Terminations will be effective immediately with the employee being advised of his/her grievance/appeal rights.

E. Personal Conduct - City employees are always in the public eye. It is, therefore, especially important that actions which bring discredit to the City should be avoided

in our relationships with the public and each other as fellow employees. Conduct by employees should conform to published rules and regulations and accepted customs and standards of courtesy, conduct and cooperation. Listed below are examples of actions and conduct (although this is not an exhaustive list) which are unacceptable to the City and will result in disciplinary action, up to and including termination of employment. This policy is not all-inclusive, and the City of Hattiesburg reserves the right to add to or amend to this policy as necessary.

a. Unauthorized absences or excessive tardiness. Three (3) days no call, no show employee is subject to immediate termination.
b. Abuse of City Leave Policy
c. Leaving work without permission or stopping work before time authorized
d. Conviction of a felony or a crime involving moral turpitude, or a job- related Misdemeanor, or conviction of embezzlement
e. Conduct unbecoming a City employee
f. Negligence in performing job duties
g. Failure to follow instructions of individuals in line of supervisory authority
h. Insubordination
I. Willful disregard or violation of safety rules
j. Failure to report an accident, incident and/or injury
k. Unauthorized use or mis-use of City equipment or property (including traffic signal control devices)
l. Theft or removal of City property or that of a fellow employee
m. Involvement in an accident chargeable to the employee while operating a City vehicle
n. Accidents/incidents chargeable to the employee that result in injury and/or property damage
o. Possession, use, distribution or sale of drugs or alcohol on the job
p. Reporting to work under the influence of alcohol or drugs
q. Testing positive (as defined by the alcohol/drug testing policy) on an alcohol/drug test
r. Falsifying leave or work records, giving false information, or giving false testimony in an administrative or judicial proceeding
s. Use of abusive language
t. Threats against supervisors, co-workers, or other individuals encountered in the performance of his/her duties
u. Fighting on the job
v. Failure to cooperate in an internal investigation, including but not limited to, taking a polygraph examination
w. Failure of a supervisor to discipline his/her employees at all or consistently

CHAPTER FIVE
EMPLOYEE ATTENDANCE

5-1. EMPLOYEE ATTENDANCE

There are two types of missed work time: Tardy or an Absence.

A. Tardiness

It is important for the operations of the City of Hattiesburg that you are at work and available to begin working at your scheduled start time. Tardiness causes undue hardship on co-workers and diminishes the City of Hattiesburg's service to its citizens.

Tardiness is defined as beginning the workday after your scheduled start time without prior authorization or returning from a rest or lunch period after your scheduled return time without prior authorization; even if you clocked in within the established rounding window for the timekeeping system and your pay is not being adjusted for the minutes late (docked). For any tardy in excess of 2 hours, you will be dismissed for the remainder of the day and will not be allowed to use accrued leave time.

This policy is not all-inclusive, and the City of Hattiesburg reserves the right to add to or amend to this policy as necessary.

B. Absences

There are two types of absences from work; Excused Absence and Unexcused Absence

Excused Absence

For an absence from work to be considered excused, your supervisor must approve the absence **prior** to your missing work. Under certain circumstances (i.e.; absences falling under FMLA, etc.) absences may be excused after an absence. To ensure departmental needs are being met and to allow proper scheduling, you should request time off less than 4 hours at least 12 hours in advance. Time off of 4 hours or more should be requested at least 3 workdays in advance.

Unexcused Absence

An unexcused absence should only occur in cases of unforeseeable circumstances or emergencies.

You are required to personally notify your supervisor that you need time off before the start of your work shift, unless you are hospitalized or otherwise physically unable to do so. Divisions may establish specific guidelines setting the minimum amount of notice that must be given and how you are to call in. Be sure to follow these guidelines to ensure you are meeting your departmental requirements.

If you are abusing your accumulated leave time, your manager may notify you in writing that you will not be allowed future use of your accumulated sick leave time without a written physician's excuse until notified in writing the requirement is lifted.

You are required to work your scheduled work day immediately before or after a City approved Holiday to be eligible for Holiday pay unless you are on approved paid Leave (Personal or Sick.

This policy is not all-inclusive, and the City of Hattiesburg reserves the right to add or amend to this policy as deemed necessary.

CHAPTER SIX
LEAVE PAYMENT – RESIGNATION OR TERMINATION OF EMPLOYMENT

The City of Hattiesburg has established the following guidelines for paying your accrued personal leave, accrued sick, and earned compensatory time when you terminate (leave) employment.

6-1. Resigning and Terminated Employee

A. Personal Leave Hours

If you have been employed in a permanent full-time position six months or greater and resign from the City of Hattiesburg, your final check may include pay for unused personal leave; state statute limits this pay to thirty (30) days of accrued hours (total of 240).

As standard procedure, Human Resources will pay your available accrued hours (up to 240 hours) on your final check unless you submit a written request for **less** hours to the Human Resources Department by 5:00 p.m. the Monday before the Friday of your final payday (should that Monday be a holiday, you will need to contact Human Resources before the holiday to make other arrangements).

Any time you have remaining after the payout will be certified to the Public Employees Retirement System (PERS) for award as creditable service under the state retirement plan.

B. Sick Hours

You cannot be paid for accrued, unused sick hours when you are resigning. Instead, all unused time will be certified to the Public Employees Retirement System (PERS) for award as creditable service under the state retirement plan. You may not use sick hours during a resignation period unless you have presented a physician's certification of illness for the time you are sick or for the time you are visiting a doctor.

C. Compensatory Hours

Your unused earned compensatory hours will be paid out on your final payroll check. You may not use compensatory hours during a resignation period.

6-2. Retiring Employee

A. Personal Leave Hours

If you are retiring, you will be allowed to remain on payroll (if desired and you have sufficient unused accrued personal leave time) for up to 30 workdays. A workday is defined as 8 hours, therefore, the total can be no more than 240 hours. You may not use earned, unused sick leave or compensatory time, and at no time will you be allowed to remain on payroll after this date.

State statute allows you to receive a lump-sum payment on your final check for accrued personal leave hours of up to 240 hours.

As standard procedure, Human Resources will pay your available accrued hours (up to 240 hours) on your final check unless you submit a written request for less hours to the Human Resources Department by 5:00 p.m. the Monday before the Friday of your final payday (should that Monday be a holiday, you will need to contact Human Resources before the holiday to make other arrangements).

Any accrued time you have remaining after the payout will be certified to the Public Employees Retirement System (PERS) for award as creditable service under the state retirement plan.

B. Sick Hours

You cannot be paid for accrued, unused sick hours when you are retiring. Instead, all unused time will be certified to the Public Employees Retirement System (PERS) for award as creditable service under the state retirement plan. You may not use sick hours during a resignation period unless you have presented a physician's certification of illness for the time you are sick or for the time you are visiting a doctor.

C. Compensatory Hours

When you retire, your unused earned compensatory hours will be paid out on your final payroll check. You may not use compensatory hours during your resignation period.

Background

A native of Hattiesburg, I returned to this community in 2009 to become the third generation of my family's business, The Galey Agency, Inc., now referred to as SouthGroup Insurance Services. I currently serve as the President of our Agency. My primary focus is risk management and surety bonding in the field of construction. Prior to returning to the family business, I operated a real estate investment and development company in Florida. I am also a veteran of the United States Navy where I served as a Hospital Corpsman and was trained in the Fleet Marine Force for the purpose of providing medical support for the Marine Corps.

Ginger,

This is my official letter of resignation from the Hattiesburg Planning Commission and Board of Adjustments, effective August 3, 2017. With all of my life changes, I cannot be as committed as is necessary to serve. Please know that the past four years have been an honor and pleasure, as well as, an educational experience for me.

Sincerely,
Peggy Horton

Re: Rental Agreement

Mayor and Council:

Please accept this letter as a formal request to enter into a rental agreement with Toshiba Business Solutions. This contract is for a Lexmark XC8160 multi-functional copier in the amount of $216.86 per month for 48 months with Toshiba Business Solution. This copier will be located in the Hattiesburg Police Department Community Relations Division. This agreement will be for the period beginning February 2018 and ending February 2019.

Attached is a copy of the rental agreement.

As always, should you have any questions or concerns in reference to this information, please do not hesitate to contact me.

Sincerely,

Anthony Parker

AP/dmm

RENTAL AGREEMENT
FOR USE BY MISSISSIPPI AGENCIES & GOVERNING AUTHORITIES AND VENDORS
(applicable to equipment rental transactions)

This Rental Agreement (hereinafter referred to as Agreement) is entered into by and between City Of Mississippi Hattiesburg, MS (hereinafter referred to as Customer), and Toshiba Business Solutions, GA/MS (hereinafter referred to as Vendor). This Agreement becomes effective upon signature by Customer and Vendor, and shall take precedence over all agreements and understandings between the parties. Vendor, by its acceptance hereof, agrees to rent to Customer, and Customer, by its acceptance hereof, agrees to rent from Vendor, the equipment, including applicable software and services to render it continually operational, listed in Exhibit A, which is attached hereto and incorporated herein.

1. CUSTOMER ACCOUNT ESTABLISHMENT:

A. A separate Vendor Customer Number will be required for each specific customer/installation location.

B. The Customer is identified as the entity on the first line of the "bill-to" address. All invoices and notices of changes will be sent to the "bill-to" address in accordance with Paragraph 8 herein.

C. Ship-to and/or Installed-at address is the location to which the initial shipment of equipment/supplies will be made and the address to which service representatives will respond. Subsequent shipments of supplies for installed equipment will also be delivered to the "installed-at" address unless otherwise requested.

D. Unless creditworthiness for this Customer Number has been previously established by Vendor, Vendor's Credit Department may conduct a credit investigation for this Agreement. Notwithstanding delivery of equipment, Vendor may revoke this Agreement by written notice to the Customer if credit approval is denied within thirty (30) days after the date this Agreement is accepted for Vendor by an authorized representative.

2. EQUIPMENT SELECTION, PRICES, AND AGREEMENT: The Customer has selected and Vendor agrees to provide the equipment, including applicable software and services to render it continually operational, identified on Exhibit A attached to this Agreement. The specific prices, inclusive of applicable transportation charges, are as set forth on the attached Exhibit A. The parties understand and agree that the Customer is exempt from the payment of taxes.

3. SHIPPING AND TRANSPORTATION: Vendor agrees to pay all non-priority, ground shipping, transportation, rigging and drayage charges for the equipment from the equipment's place of manufacture to the installation address of the equipment as specified under this Agreement. If any form of express shipping method is requested, it will be paid for by Customer.

4. RISK OF LOSS OR DAMAGE TO EQUIPMENT: While in transit, Vendor shall assume and bear the entire risk of loss and damage to the equipment from any cause whatsoever. If, during the period the equipment is in Customer's possession, due to gross negligence of the customer, the equipment is lost or damaged, then, the customer shall bear the cost of replacing or repairing said equipment.

5. DELIVERY, INSTALLATION, ACCEPTANCE, AND RELOCATION:

A. DELIVERY: Vendor shall deliver the equipment to the location specified by Customer and pursuant to the delivery schedule agreed upon by the parties. If, through no fault of the Customer, Vendor is unable to deliver the equipment or software, the prices, terms and conditions will remain unchanged until delivery is made by Vendor. If, however, Vendor does not deliver the equipment or software within ten (10) working days of the delivery due date, Customer shall have the right to terminate the order without penalty, cost or expense to Customer of any kind whatsoever.

B. INSTALLATION SITE: At the time of delivery and during the period Vendor is responsible for maintenance of the equipment, the equipment installation site must conform to Vendor's published space, electrical and environmental requirements; and the Customer agrees to provide, at no charge, reasonable access to the equipment and to a telephone for local or toll free calls.

C. INSTALLATION DATE: The installation date of the equipment shall be that date as is agreed upon by the parties, if Vendor is responsible for installing the equipment.

D. ACCEPTANCE: Unless otherwise agreed to by the parties, Vendor agrees that Customer shall have ten (10) working days from date of delivery and installation, to inspect, evaluate and test the equipment to confirm that it is in good working order.

E. RELOCATION: Customer may transfer equipment to a new location by notifying Vendor in writing of the transfer at least thirty (30) calendar days before the move is made. If Vendor is responsible for maintenance of the equipment, this notice will enable Vendor to provide technical assistance in the relocation efforts, if needed, as well as to update Vendor's records as to machine location. There will be no cessation of rental charges during the period of any such transfer. The Vendor's cost of moving and reinstalling equipment from one location to another is not included in this Agreement, and Customer agrees to pay Vendor, after receipt of invoice of Vendor's charges with respect to such moving of equipment, which will be billed to Customer in accordance with Vendor's standard practice then in effect for commercial users of similar equipment or software and payment remitted in accordance with Paragraph 8 herein.

6. RENTAL TERM: The rental term for each item of equipment shall be that as stated in the attached Exhibit A. If the Customer desires to continue renting the equipment at the expiration of the original rental agreement, the Customer must enter into a new rental agreement which shall be separate from this Agreement. There will be no automatic renewals allowed. There shall be no option to purchase.

7. OWNERSHIP: Unless the Customer has obtained title to the equipment, title to the equipment shall be and remain vested at all times in Vendor or its assignee and nothing in this Agreement shall give or convey to Customer any right, title or interest therein, unless purchased by Customer. Nameplates, stencils or other indicia of Vendor's ownership affixed or to be affixed to the equipment shall not be removed or obliterated by Customer.

8. PAYMENTS:

A. INVOICING AND PAYMENTS: The charges for the equipment, software or services covered by this Agreement are specified in the attached Exhibit A. Charges for any partial month for any item of equipment shall be prorated based on a thirty (30) day month. Vendor shall submit an invoice with the appropriate documentation to Customer.

1. E-PAYMENT: The Vendor agrees to accept all payments in United States currency via the State of Mississippi's electronic payment and remittance vehicle. The Customer agrees to make payment in accordance with Mississippi law on "Timely Payments for Purchases by Public Bodies", Section 31-7-301, *et seq.* of the 1972 Mississippi Code Annotated, as amended, which generally provides for payment of undisputed amounts by the agency within forty-five (45) days of receipt of the invoice.

2. PAYMODE: Payments by state agencies using Mississippi's Accountability System for Government Information and Collaboration (MAGIC) shall be made and remittance information provided electronically as directed by the State. The State, may at its sole discretion, require the Vendor to submit invoices and supporting documentation electronically at any time during the term of this Agreement. These payments shall be deposited into the bank account of the Vendor's choice. The Vendor understands and agrees that the State is exempt from the payment of taxes. All payments shall be in United States currency.

B. METER READINGS: If applicable, the Customer shall provide accurate and timely meter readings at the end

of each applicable billing period on the forms or other alternative means specified by Vendor. Vendor shall have the right, upon reasonable prior notice to Customer, and during Customer's regular business hours, to inspect the equipment and to monitor the meter readings. If Customer meter readings are not received in the time to be agreed upon by the parties, the meter readings may be obtained electronically or by other means or may be estimated by Vendor subject to reconciliation when the correct meter reading is received by Vendor.

C. COPY CREDITS: If applicable, if a copier is being rented, the Customer will receive one (1) copy credit for each copy presented to Vendor which, in the Customer's opinion, is unusable and also for each copy which was produced during servicing of the equipment. Copy credits will be issued only if Vendor is responsible for providing equipment services or maintenance services (except time and materials maintenance). Copy credits will be reflected on the invoice as a reduction in the total copy volume, except for run length plans which will be credited at a specific copy credit rate as shown on the applicable price list.

9. USE OF EQUIPMENT: Customer shall operate the equipment according to the manufacturer's specifications and documented instructions. Customer agrees not to employ or use additional attachments, features or devices on the equipment or make changes or alterations to the equipment covered hereby without the prior written consent of Vendor in each case, which consent shall not be unreasonably withheld.

10. MAINTENANCE SERVICES, EXCLUSIONS, AND REMEDIES:

A. SERVICES: If Vendor is responsible for providing equipment services, maintenance services (except for time and materials), or warranty services: (1) Vendor shall install and maintain the equipment and make all necessary adjustments and repairs to keep the equipment in good working order. (2) Parts required for repair may be used or reprocessed in accordance with Vendor's specifications and replaced parts are the property of Vendor, unless otherwise specifically provided on the price lists. (3) Services will be provided during Customer's usual business hours. (4) If applicable, Customer will permit Vendor to install, at no cost to Customer, all retrofits designated by Vendor as mandatory or which are designed to insure accuracy of meters.

B. EXCLUSIONS: The following is not within the scope of services: (1) Provision and installation of optional retrofits. (2) Services connected with equipment relocation. (3) Installation/removal of accessories, attachments or other devices. (4) Exterior painting or refinishing of equipment. (5) Maintenance, installation or removal of equipment or devices not provided by Vendor. (6) Performance of normal operator functions as described in applicable Vendor operator manuals. (7) Performance of services necessitated by accident; power failure; unauthorized alteration of equipment or software; tampering; service by someone other than Vendor; causes other than ordinary use; interconnection of equipment by electrical, or electronic or mechanical means with noncompatible equipment, or failure to use operating system software. If Vendor provides, at the request of the Customer, any of the services noted above, the Customer may be billed by Vendor at a rate not to exceed the Master State Prices Agreement between the Vendor and the State of Mississippi, or in the absence of such agreement at the then current time and materials rates.

C. REMEDIES: If during the period in which Vendor is providing maintenance services, Vendor is unable to maintain the equipment in good working order, Vendor will, at no additional charge, provide either an identical replacement or another product that provides equal or greater capabilities.

11. HOLD HARMLESS: To the fullest extent allowed by law, Vendor shall indemnify, defend, save and hold harmless, protect, and exonerate the Customer and the State of Mississippi, its Commissioners, Board Members, officers, employees, agents, and representatives from and against all claims, demands, liabilities, suits, actions, damages, losses, and costs of every kind and nature whatsoever, including, without limitation, court costs, investigative fees and expenses, and attorneys' fees, arising out of or caused by Vendor and/or its partners, principals, agents, employees, and/or subcontractors in the performance of or failure to perform this Agreement. In the Customer's sole discretion, Vendor may be allowed to control the defense of any such claim, suit, etc. In the event Vendor defends said claim, suit, etc., Vendor shall use legal counsel acceptable to the Customer; Vendor shall be solely liable for all reasonable costs and/or expenses associated with such defense and the Customer shall be entitled to participate in said defense. Vendor shall not settle any claim, suit, etc., without the Customer's concurrence,

which the Customer shall not unreasonably withhold.

12. ALTERATIONS, ATTACHMENTS, AND SUPPLIES:

A. If Customer makes an alteration, attaches a device or utilizes a supply item that increases the cost of services, Vendor will either propose an additional service charge or request that the equipment be returned to its standard configuration or that use of the supply item be discontinued. If, within five (5) days of such proposal or request, Customer does not remedy the problem or agree in writing to do so within a reasonable amount of time, Vendor shall have the right to terminate this Agreement as provided herein. If Vendor believes that an alteration, attachment or supply item affects the safety of Vendor personnel or equipment users, Vendor shall notify Customer of the problem and may withhold maintenance until the problem is remedied.

B. Unless Customer has obtained title to the equipment free and clear of any Vendor security interest, Customer may not remove any ownership identification tags on the equipment or allow the equipment to become fixtures to real property.

13. ASSIGNMENT: The Vendor shall not assign, subcontract or otherwise transfer in whole or in part, its right or obligations under this Agreement without prior written consent of the Customer. Any attempted assignment or transfer without said consent shall be void and of no effect.

14. GOVERNING LAW: This Agreement shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding its conflicts of laws provisions, and any litigation with respect thereto shall be brought in the courts of said state. The Vendor shall comply with applicable federal, state, and local laws and regulations.

15. NOTICE: Any notice required or permitted to be given under this Agreement shall be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Vendor:

Name **Shelby Turnage**
Title **Account Executive**
Address **990 North 16th Ave**
City, State, & Zip Code **Laurel, MS 39440**

For the Customer:

Name **Destiny McGinty**
Title **Technical Services Division Manager**
Address **300 Klondyke Street**
City, State, & Zip Code **Hattiesburg, MS 39402**

16. WAIVER: Failure by the Customer at any time to enforce the provisions of this Agreement shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of this Agreement or any part thereof or the right of the Customer to enforce any provision at any time in accordance with its terms.

17. CAPTIONS: The captions or headings in this Agreement are for convenience only, and in no way define, limit or describe the scope or intent of any provision or section of this Agreement.

18. SEVERABILITY: If any term or provision of this Agreement is prohibited by the laws of the State of Mississippi or declared invalid or void by a court of competent jurisdiction, the remainder of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

19. THIRD PARTY ACTION NOTIFICATION: Vendor shall give Customer prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Vendor by any entity that may result in litigation related in any way to this Agreement.

20. AUTHORITY TO CONTRACT: Vendor warrants that it is a validly organized business with valid authority to enter into this Agreement and that entry into and performance under this Agreement is not restricted or prohibited by any loan,

security, financing, contractual or other agreement of any kind, and notwithstanding any other provision of this Agreement to the contrary, that there are no existing legal proceedings, or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under this Agreement.

21. RECORD RETENTION AND ACCESS TO RECORDS: The Vendor agrees that the Customer or any of its duly authorized representatives at any time during the term of this Agreement shall have unimpeded, prompt access to and the right to audit and examine any pertinent books, documents, papers, and records of the Vendor related to the Vendor's charges and performance under this Agreement. All records related to this Agreement shall be kept by the Vendor for a period of three (3) years after final payment under this Agreement and all pending matters are closed unless the Customer authorizes their earlier disposition. However, if any litigation, claim, negotiation, audit or other action arising out of or related in any way to this Agreement has been started before the expiration of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved. The Vendor agrees to refund to the Customer any overpayment disclosed by any such audit arising out of or related in any way to this Agreement.

22. EXTRAORDINARY CIRCUMSTANCES: If either party is rendered unable, wholly or in part, by reason of strikes, accidents, acts of God, weather conditions or any other acts beyond its control and without its fault or negligence to comply with any obligations or performance required under this Agreement, then such party shall have the option to suspend its obligations or performance hereunder until the extraordinary performance circumstances are resolved. If the extraordinary performance circumstances are not resolved within a reasonable period of time, however, the non-defaulting party shall have the option, upon prior written notice, of terminating the Agreement.

23. TERMINATION: This Agreement may be terminated as follows: (a) Customer and Vendor mutually agree to the termination, or (b) If either party fails to comply with the terms and conditions of this Agreement and that breach continues for thirty (30) days after the defaulting party receives written notice from the other party, then the non-defaulting party has the right to terminate this Agreement. The non-defaulting party may also pursue any remedy available to it in law or in equity. Upon termination, all obligations of Customer to make payments required hereunder shall cease.

24. AVAILABILITY OF FUNDS: It is expressly understood and agreed that the obligation of the Customer to proceed under this Agreement is conditioned upon the appropriation of funds by the Mississippi State Legislature and the receipt of state and/or federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the federal government to provide funds or of the State of Mississippi to appropriate funds or the discontinuance or material alteration of the program under which funds were provided or if funds are not otherwise available to the Customer, the Customer shall have the right upon ten (10) working days written notice to the Vendor, to terminate this Agreement without damage, penalty, cost or expenses to the Customer of any kind whatsoever. The effective date of termination shall be as specified in the notice of termination.

25. MODIFICATION OR RENEGOTIATION: This Agreement may be modified, altered or changed only by written agreement signed by the parties hereto. The parties agree to renegotiate the Agreement if federal, state and/or the Customer's revisions of any applicable laws or regulations make changes in this Agreement necessary.

26. WARRANTIES: Vendor warrants that the equipment, when operated according to the manufacturer's specifications and documented instructions, shall perform the functions indicated by the specifications and documented literature. Vendor may be held liable for any damages caused by failure of the equipment to function according to specifications and documented literature published by the manufacturer of the equipment.

27. E-VERIFY COMPLIANCE: If applicable, the Vendor represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act of 2008, Section 71-11-1, *et seq.* of the Mississippi Code Annotated (Supp 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. The Vendor agrees to maintain records of such compliance and, upon request of the State and

approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the Customer. The Vendor further represents and warrants that any person assigned to perform services hereafter meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject the Vendor to the following: (1) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (2) the loss of any license, permit, certification or other document granted to the Vendor by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (3) both --in the event of such cancellation/termination, the Vendor would also be liable for any additional costs incurred by the Customer due to the contract cancellation or loss of license or permit.

28. HARD DRIVE SECURITY: Vendor must properly format the hard drive, deleting all information, or replace the hard drive with a new hard drive prior to storing or re-selling the equipment. The Customer may request to retain the hard drive for a nominal fee. Vendor will supply written notification to the Customer that all data has been made inaccessible. This notification must be provided with forty-five (45) days of the equipment being returned to the Vendor.

29. ENTIRE AGREEMENT: This Agreement constitutes the entire agreement of the parties with respect to the equipment, software or services described herein and supersedes and replaces any and all prior negotiations, understandings and agreements, written or oral, between the parties relating hereto. No terms, conditions, understandings, usages of the trade, course of dealings or agreements, not specifically set out in this Agreement or incorporated herein, shall be effective or relevant to modify, vary, explain or supplement this Agreement.

30. TRANSPARENCY: This Agreement, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," codified as Section 25-61-1 et seq., Mississippi Code Annotated and exceptions found in Section 79-23-1 of the Mississippi Code Annotated (1972, as amended). In addition, this Agreement is subject to provisions of the Mississippi Accountability and Transparency Act of 2008 (MATA), codified as Section 27-104-151 of the Mississippi Code Annotated (1972, as amended). Unless exempted from disclosure due to a court-issued protective order, this Agreement is required to be posted to the Department of Finance and Administration's independent agency contract website for public access. Prior to posting the Agreement to the website, any information identified by the Vendor as trade secrets, or other proprietary information including confidential vendor information, or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes will be redacted. A fully executed copy of this Agreement shall be posted to the State of Mississippi's accountability website at: http://www.transparency.mississippi.gov.

31. COMPLIANCE WITH LAWS: The Vendor understands that the Customer is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on race, color, creed, sex, age, national origin, physical handicap, disability, genetic information, or any other consideration made unlawful by federal, state, or local laws. All such discrimination is unlawful and the Vendor agrees during the term of the Agreement that the Vendor will strictly adhere to this policy in its employment practices and provision of services. The Vendor shall comply with, and all activities under this Agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

For the faithful performance of the terms of this Agreement, the parties have caused this Agreement to be executed by their undersigned representatives.

A. A separate Vendor Customer Number will be required for each specific customer/installation location.

B. The Customer is identified as the entity on the first line of the "bill-to" address. All invoices and notices of changes will be sent to the "bill-to" address in accordance with Paragraph 8 herein.

C. Ship-to and/or Installed-at address is the location to which the initial shipment of equipment/supplies will be made and the address to which service representatives will respond. Subsequent shipments of supplies for installed equipment will also be delivered to the "installed-at" address unless otherwise requested.

D. Unless creditworthiness for this Customer Number has been previously established by Vendor, Vendor's Credit Department may conduct a credit investigation for this Agreement. Notwithstanding delivery of equipment, Vendor may revoke this Agreement by written notice to the Customer if credit approval is denied within thirty (30) days after the date this Agreement is accepted for Vendor by an authorized representative.

2. EQUIPMENT SELECTION, PRICES, AND AGREEMENT: The Customer has selected and Vendor agrees to provide the equipment, including applicable software and services to render it continually operational, identified on Exhibit A attached to this Agreement. The specific prices, inclusive of applicable transportation charges, are as set forth on the attached Exhibit A. The parties understand and agree that the Customer is exempt from the payment of taxes.

3. SHIPPING AND TRANSPORTATION: Vendor agrees to pay all non-priority, ground shipping, transportation, rigging and drayage charges for the equipment from the equipment's place of manufacture to the installation address of the equipment as specified under this Agreement. If any form of express shipping method is requested, it will be paid for by Customer.

4. RISK OF LOSS OR DAMAGE TO EQUIPMENT: While in transit, Vendor shall assume and bear the entire risk of loss and damage to the equipment from any cause whatsoever. If, during the period the equipment is in Customer's possession, due to gross negligence of the customer, the equipment is lost or damaged, then, the customer shall bear the cost of replacing or repairing said equipment.

5. DELIVERY, INSTALLATION, ACCEPTANCE, AND RELOCATION:

A. DELIVERY: Vendor shall deliver the equipment to the location specified by Customer and pursuant to the delivery schedule agreed upon by the parties. If, through no fault of the Customer, Vendor is unable to deliver the equipment or software, the prices, terms and conditions will remain unchanged until delivery is made by Vendor. If, however, Vendor does not deliver the equipment or software within ten (10) working days of the delivery due date, Customer shall have the right to terminate the order without penalty, cost or expense to Customer of any kind whatsoever.

B. INSTALLATION SITE: At the time of delivery and during the period Vendor is responsible for maintenance of the equipment, the equipment installation site must conform to Vendor's published space, electrical and environmental requirements; and the Customer agrees to provide, at no charge, reasonable access to the equipment and to a telephone for local or toll free calls.

C. INSTALLATION DATE: The installation date of the equipment shall be that date as is agreed upon by the parties, if Vendor is responsible for installing the equipment.

D. ACCEPTANCE: Unless otherwise agreed to by the parties, Vendor agrees that Customer shall have ten (10) working days from date of delivery and installation, to inspect, evaluate and test the equipment to confirm that it is in good working order.

E. RELOCATION: Customer may transfer equipment to a new location by notifying Vendor in writing of the transfer at least thirty (30) calendar days before the move is made. If Vendor is responsible for maintenance of the equipment, this notice will enable Vendor to provide technical assistance in the relocation efforts, if needed, as well as to update Vendor's records as to machine location. There will be no cessation of rental charges during the period of any such transfer. The Vendor's cost of moving and reinstalling equipment from one location to another is not included in this Agreement, and Customer agrees to pay Vendor, after receipt of invoice of Vendor's charges with respect to such moving of equipment, which will be billed to Customer in accordance with Vendor's standard practice then in effect for commercial users of similar equipment or software and payment remitted in accordance with Paragraph 8 herein.

6. RENTAL TERM: The rental term for each item of equipment shall be that as stated in the attached Exhibit A. If the Customer desires to continue renting the equipment at the expiration of the original rental agreement, the Customer must enter into a new rental agreement which shall be separate from this Agreement. There will be no automatic renewals allowed. There shall be no option to purchase.

7. OWNERSHIP: Unless the Customer has obtained title to the equipment, title to the equipment shall be and remain vested at all times in Vendor or its assignee and nothing in this Agreement shall give or convey to Customer any right, title or interest therein, unless purchased by Customer. Nameplates, stencils or other indicia of Vendor's ownership affixed or to be affixed to the equipment shall not be removed or obliterated by Customer.

8. PAYMENTS:

A. INVOICING AND PAYMENTS: The charges for the equipment, software or services covered by this Agreement are specified in the attached Exhibit A. Charges for any partial month for any item of equipment shall be prorated based on a thirty (30) day month. Vendor shall submit an invoice with the appropriate documentation to Customer.

1. E-PAYMENT: The Vendor agrees to accept all payments in United States currency via the State of Mississippi's electronic payment and remittance vehicle. The Customer agrees to make payment in accordance with Mississippi law on "Timely Payments for Purchases by Public Bodies", Section 31-7-301, *et seq.* of the 1972 Mississippi Code Annotated, as amended, which generally provides for payment of undisputed amounts by the agency within forty-five (45) days of receipt of the invoice.

2. PAYMODE: Payments by state agencies using Mississippi's Accountability System for Government Information and Collaboration (MAGIC) shall be made and remittance information provided electronically as directed by the State. The State, may at its sole discretion, require the Vendor to submit invoices and supporting documentation electronically at any time during the term of this Agreement. These payments shall be deposited into the bank account of the Vendor's choice. The Vendor understands and agrees that the State is exempt from the payment of taxes. All payments shall be in United States currency.

B. METER READINGS: If applicable, the Customer shall provide accurate and timely meter readings at the end

of each applicable billing period on the forms or other alternative means specified by Vendor. Vendor shall have the right, upon reasonable prior notice to Customer, and during Customer's regular business hours, to inspect the equipment and to monitor the meter readings. If Customer meter readings are not received in the time to be agreed upon by the parties, the meter readings may be obtained electronically or by other means or may be estimated by Vendor subject to reconciliation when the correct meter reading is received by Vendor.

C. COPY CREDITS: If applicable, if a copier is being rented, the Customer will receive one (1) copy credit for each copy presented to Vendor which, in the Customer's opinion, is unusable and also for each copy which was produced during servicing of the equipment. Copy credits will be issued only if Vendor is responsible for providing equipment services or maintenance services (except time and materials maintenance). Copy credits will be reflected on the invoice as a reduction in the total copy volume, except for run length plans which will be credited at a specific copy credit rate as shown on the applicable price list.

9. USE OF EQUIPMENT: Customer shall operate the equipment according to the manufacturer's specifications and documented instructions. Customer agrees not to employ or use additional attachments, features or devices on the equipment or make changes or alterations to the equipment covered hereby without the prior written consent of Vendor in each case, which consent shall not be unreasonably withheld.

10. MAINTENANCE SERVICES, EXCLUSIONS, AND REMEDIES:

A. SERVICES: If Vendor is responsible for providing equipment services, maintenance services (except for time and materials), or warranty services: (1) Vendor shall install and maintain the equipment and make all necessary adjustments and repairs to keep the equipment in good working order. (2) Parts required for repair may be used or reprocessed in accordance with Vendor's specifications and replaced parts are the property of Vendor, unless otherwise specifically provided on the price lists. (3) Services will be provided during Customer's usual business hours. (4) If applicable, Customer will permit Vendor to install, at no cost to Customer, all retrofits designated by Vendor as mandatory or which are designed to insure accuracy of meters.

B. EXCLUSIONS: The following is not within the scope of services: (1) Provision and installation of optional retrofits. (2) Services connected with equipment relocation. (3) Installation/removal of accessories, attachments or other devices. (4) Exterior painting or refinishing of equipment. (5) Maintenance, installation or removal of equipment or devices not provided by Vendor. (6) Performance of normal operator functions as described in applicable Vendor operator manuals. (7) Performance of services necessitated by accident; power failure; unauthorized alteration of equipment or software; tampering; service by someone other than Vendor; causes other than ordinary use; interconnection of equipment by electrical, or electronic or mechanical means with noncompatible equipment, or failure to use operating system software. If Vendor provides, at the request of the Customer, any of the services noted above, the Customer may be billed by Vendor at a rate not to exceed the Master State Prices Agreement between the Vendor and the State of Mississippi, or in the absence of such agreement at the then current time and materials rates.

C. REMEDIES: If during the period in which Vendor is providing maintenance services, Vendor is unable to maintain the equipment in good working order, Vendor will, at no additional charge, provide either an identical replacement or another product that provides equal or greater capabilities.

11. HOLD HARMLESS: To the fullest extent allowed by law, Vendor shall indemnify, defend, save and hold harmless, protect, and exonerate the Customer and the State of Mississippi, its Commissioners, Board Members, officers, employees, agents, and representatives from and against all claims, demands, liabilities, suits, actions, damages, losses, and costs of every kind and nature whatsoever, including, without limitation, court costs, investigative fees and expenses, and attorneys' fees, arising out of or caused by Vendor and/or its partners, principals, agents, employees, and/or subcontractors in the performance of or failure to perform this Agreement. In the Customer's sole discretion, Vendor may be allowed to control the defense of any such claim, suit, etc. In the event Vendor defends said claim, suit, etc., Vendor shall use legal counsel acceptable to the Customer; Vendor shall be solely liable for all reasonable costs and/or expenses associated with such defense and the Customer shall be entitled to participate in said defense. Vendor shall not settle any claim, suit, etc., without the Customer's concurrence,

which the Customer shall not unreasonably withhold.

12. ALTERATIONS, ATTACHMENTS, AND SUPPLIES:

A. If Customer makes an alteration, attaches a device or utilizes a supply item that increases the cost of services, Vendor will either propose an additional service charge or request that the equipment be returned to its standard configuration or that use of the supply item be discontinued. If, within five (5) days of such proposal or request, Customer does not remedy the problem or agree in writing to do so within a reasonable amount of time, Vendor shall have the right to terminate this Agreement as provided herein. If Vendor believes that an alteration, attachment or supply item affects the safety of Vendor personnel or equipment users, Vendor shall notify Customer of the problem and may withhold maintenance until the problem is remedied.

B. Unless Customer has obtained title to the equipment free and clear of any Vendor security interest, Customer may not remove any ownership identification tags on the equipment or allow the equipment to become fixtures to real property.

13. ASSIGNMENT: The Vendor shall not assign, subcontract or otherwise transfer in whole or in part, its right or obligations under this Agreement without prior written consent of the Customer. Any attempted assignment or transfer without said consent shall be void and of no effect.

14. GOVERNING LAW: This Agreement shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding its conflicts of laws provisions, and any litigation with respect thereto shall be brought in the courts of said state. The Vendor shall comply with applicable federal, state, and local laws and regulations.

15. NOTICE: Any notice required or permitted to be given under this Agreement shall be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Vendor:	**For the Customer:**
Name **Shelby Turnage**	Name **Destiny McGinty**
Title **Account Executive**	Title **Technical Services Division Manager**
Address **990 North 16th Ave**	Address **300 Klondyke Street**
City, State, & Zip Code **Laurel, MS 39440**	City, State, & Zip Code **Hattiesburg, MS 39402**

16. WAIVER: Failure by the Customer at any time to enforce the provisions of this Agreement shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of this Agreement or any part thereof or the right of the Customer to enforce any provision at any time in accordance with its terms.

17. CAPTIONS: The captions or headings in this Agreement are for convenience only, and in no way define, limit or describe the scope or intent of any provision or section of this Agreement.

18. SEVERABILITY: If any term or provision of this Agreement is prohibited by the laws of the State of Mississippi or declared invalid or void by a court of competent jurisdiction, the remainder of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

19. THIRD PARTY ACTION NOTIFICATION: Vendor shall give Customer prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Vendor by any entity that may result in litigation related in any way to this Agreement.

20. AUTHORITY TO CONTRACT: Vendor warrants that it is a validly organized business with valid authority to enter into this Agreement and that entry into and performance under this Agreement is not restricted or prohibited by any loan,

security, financing, contractual or other agreement of any kind, and notwithstanding any other provision of this Agreement to the contrary, that there are no existing legal proceedings, or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under this Agreement.

21. RECORD RETENTION AND ACCESS TO RECORDS: The Vendor agrees that the Customer or any of its duly authorized representatives at any time during the term of this Agreement shall have unimpeded, prompt access to and the right to audit and examine any pertinent books, documents, papers, and records of the Vendor related to the Vendor's charges and performance under this Agreement. All records related to this Agreement shall be kept by the Vendor for a period of three (3) years after final payment under this Agreement and all pending matters are closed unless the Customer authorizes their earlier disposition. However, if any litigation, claim, negotiation, audit or other action arising out of or related in any way to this Agreement has been started before the expiration of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved. The Vendor agrees to refund to the Customer any overpayment disclosed by any such audit arising out of or related in any way to this Agreement.

22. EXTRAORDINARY CIRCUMSTANCES: If either party is rendered unable, wholly or in part, by reason of strikes, accidents, acts of God, weather conditions or any other acts beyond its control and without its fault or negligence to comply with any obligations or performance required under this Agreement, then such party shall have the option to suspend its obligations or performance hereunder until the extraordinary performance circumstances are resolved. If the extraordinary performance circumstances are not resolved within a reasonable period of time, however, the non-defaulting party shall have the option, upon prior written notice, of terminating the Agreement.

23. TERMINATION: This Agreement may be terminated as follows: (a) Customer and Vendor mutually agree to the termination, or (b) If either party fails to comply with the terms and conditions of this Agreement and that breach continues for thirty (30) days after the defaulting party receives written notice from the other party, then the non-defaulting party has the right to terminate this Agreement. The non-defaulting party may also pursue any remedy available to it in law or in equity. Upon termination, all obligations of Customer to make payments required hereunder shall cease.

24. AVAILABILITY OF FUNDS: It is expressly understood and agreed that the obligation of the Customer to proceed under this Agreement is conditioned upon the appropriation of funds by the Mississippi State Legislature and the receipt of state and/or federal funds. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, either through the failure of the federal government to provide funds or of the State of Mississippi to appropriate funds or the discontinuance or material alteration of the program under which funds were provided or if funds are not otherwise available to the Customer, the Customer shall have the right upon ten (10) working days written notice to the Vendor, to terminate this Agreement without damage, penalty, cost or expenses to the Customer of any kind whatsoever. The effective date of termination shall be as specified in the notice of termination.

25. MODIFICATION OR RENEGOTIATION: This Agreement may be modified, altered or changed only by written agreement signed by the parties hereto. The parties agree to renegotiate the Agreement if federal, state and/or the Customer's revisions of any applicable laws or regulations make changes in this Agreement necessary.

26. WARRANTIES: Vendor warrants that the equipment, when operated according to the manufacturer's specifications and documented instructions, shall perform the functions indicated by the specifications and documented literature. Vendor may be held liable for any damages caused by failure of the equipment to function according to specifications and documented literature published by the manufacturer of the equipment.

27. E-VERIFY COMPLIANCE: If applicable, the Vendor represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act of 2008, Section 71-11-1, *et seq.* of the Mississippi Code Annotated (Supp 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. The Vendor agrees to maintain records of such compliance and, upon request of the State and

approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the Customer. The Vendor further represents and warrants that any person assigned to perform services hereafter meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject the Vendor to the following: (1) termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (2) the loss of any license, permit, certification or other document granted to the Vendor by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year, or (3) both --in the event of such cancellation/termination, the Vendor would also be liable for any additional costs incurred by the Customer due to the contract cancellation or loss of license or permit.

28. HARD DRIVE SECURITY: Vendor must properly format the hard drive, deleting all information, or replace the hard drive with a new hard drive prior to storing or re-selling the equipment. The Customer may request to retain the hard drive for a nominal fee. Vendor will supply written notification to the Customer that all data has been made inaccessible. This notification must be provided with forty-five (45) days of the equipment being returned to the Vendor.

29. ENTIRE AGREEMENT: This Agreement constitutes the entire agreement of the parties with respect to the equipment, software or services described herein and supersedes and replaces any and all prior negotiations, understandings and agreements, written or oral, between the parties relating hereto. No terms, conditions, understandings, usages of the trade, course of dealings or agreements, not specifically set out in this Agreement or incorporated herein, shall be effective or relevant to modify, vary, explain or supplement this Agreement.

30. TRANSPARENCY: This Agreement, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," codified as Section 25-61-1 et seq., Mississippi Code Annotated and exceptions found in Section 79-23-1 of the Mississippi Code Annotated (1972, as amended). In addition, this Agreement is subject to provisions of the Mississippi Accountability and Transparency Act of 2008 (MATA), codified as Section 27-104-151 of the Mississippi Code Annotated (1972, as amended). Unless exempted from disclosure due to a court-issued protective order, this Agreement is required to be posted to the Department of Finance and Administration's independent agency contract website for public access. Prior to posting the Agreement to the website, any information identified by the Vendor as trade secrets, or other proprietary information including confidential vendor information, or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes will be redacted. A fully executed copy of this Agreement shall be posted to the State of Mississippi's accountability website at: http://www.transparency.mississippi.gov.

31. COMPLIANCE WITH LAWS: The Vendor understands that the Customer is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on race, color, creed, sex, age, national origin, physical handicap, disability, genetic information, or any other consideration made unlawful by federal, state, or local laws. All such discrimination is unlawful and the Vendor agrees during the term of the Agreement that the Vendor will strictly adhere to this policy in its employment practices and provision of services. The Vendor shall comply with, and all activities under this Agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

I hereby certify that The City of Hattiesburg is continuing to implement the activities on the attached pages as credited under the Community Rating System and described in our original application to the CRS and subsequent modifications.

I hereby certify that, to the best of my knowledge and belief, we are maintaining in force all flood insurance policies that have been required of us as a condition of federal financial assistance for insurable buildings owned by us and located in the Special Flood Hazard Area (SFHA) shown on our Flood Insurance Rate Map. I further understand that disaster assistance for any community-owned building located in the SFHA is reduced by the amount of National Flood Insurance Program (NFIP) flood insurance coverage (structure and contents) that a community should be carrying on the building, regardless of whether the community is carrying a policy.

COMMUNITY RATING SYSTEM ANNUAL RECERTIFICATION

Your community has been verified as receiving CRS credit for the following activities. If your community is still implementing these activities the CRS coordinator is required to put his or her initials in the blank and attach the appropriate items. The numbers refer to the activity number which is found in the CRS Coordinator's Manual. If the word "attached" is used you must provide documentation material for that activity. If no material has been acquired for that activity please explain why there is no material from the past year.

NW 310 EC: We are maintaining Elevation Certificates on all new and substantially improved buildings in our Special Flood Hazard Area, and make copies of Elevation Certificates available at our present office location. [____ Initial here if you have had no new construction or substantial improvements in the last year]

NW 310 EC: Attached is the permit list for new or substantially improved structures that have been completed in the last year. Exhibit A

NW 310 EC: Attached are the Elevation Certificates for new or substantially improved structures that have been completed in the last year that are included on the above permit list. Exhibit B

NW 320 MI 1: We are providing basic flood information to inquirers.

NW 320 MI: Attached is a copy of the publicity for the credited elements of this service this year. Exhibit C
no mailed - see add comments, but on file in office and available.

NW 320 MI: Attached is a copy of one page of the log, a letter, or other record that we kept on this service this year. Exhibit D

NW 320 MI: We are continuing to keep our FIRM updated and maintain old copies of our FIRM.

NW 330 OP: We continue to conduct or provide all credited outreach projects.

NW 340 ODR: People looking to purchase floodprone property are being advised of the flood hazard through our credited hazard disclosure measures.

NW 350 LIB/LPD: Our public library continues to maintain flood protection materials.

NW 350 WEB: We continue to conduct an annual review and update of the information and links in our flood protection website. Exhibit E

NW 360 PPA: We continue to provide flood protection advice to inquirers.

NW 360 PPA: Attached is a copy of the document that told others about this service this year. Exhibit C + F

County Lamar/Forrest

COMMUNITY RATING SYSTEM ANNUAL RECERTIFICATION

NK 410 MAP: We continue to use our additional regulatory flood data before a new development can proceed in our floodplain.

NK 420 OSP: We continue to preserve our open space in the floodplain.

NK 430 We continue to enforce the floodplain management provisions of our zoning, subdivision and building code ordinances for which we are receiving credit. [____] Initial here if you have amended your floodplain regulations. Attach a copy of the amendment.

NK 430 RA-1: We continue to employ those staff credited for attaining their CFM, and those who have attended the credited training courses.

NK 440 AMD: We continue to use and update our flood data maintenance system on an annual basis as needed.

NK 450 SMR: We continue to enforce the stormwater management and low impact development provisions of our zoning, subdivision and building code ordinances for new developments in the watershed. [NK] Initial here if you have amended your stormwater management regulations. Attach a copy of the amendment. (Excerpts from new LDC) Exhibit G

NK 450 ESC/WQ: We continue to enforce the provisions of our zoning, subdivision and building codes as they pertain to erosion and sediment control and water quality.

NK 502 RL: We currently have 22 repetitive loss properties and send our notice to ____ properties in the repetitive loss areas.

add. See comments 502 RL: Attached is a copy of this year's notice on property protection, flood insurance and financial assistance that we sent to our repetitive loss areas.

NK 510 FMP: Attached is a copy of our floodplain management plan's annual progress and/or a copy of the annual progress report on the recommendations of the repetitive loss area analyses. Exhibit H

NK 510 FMP: We have provided copies of this progress report to our governing board, local media, and the state NFIP Coordinating office.

NK 520 AR: We continue to maintain as open space the lots where buildings were acquired or relocated out of the floodplain. [____] Initial here if there have been any changes (additions or deletions) to the parcels credited as open space. Attach a description of those changes.

NK 540 CDR: We continue to implement our drainage system maintenance program.

Community Hattiesburg, City of State MS CID 280053

County Lamar/Forrest

COMMUNITY RATING SYSTEM ANNUAL RECERTIFICATION

NVL 540 CDR: Attached is a copy of a typical inspection report and a copy of the record that shows that any needed maintenance was performed on the credited components of our drainage system. Exhibit I

NOTE: Please do not mail or ship packages that need a signature.

Additional Comments:

as stated in Mitigation Strategy 2a - due to major staff changes the mailouts were not done in 2017, but will resume by May 2018.

12. Acreage of area(s) affected by corporate limits changes (+ or –)	0	NA	
13. Current acreage of the SFHA (aSFHA) (total lines 10–12)	6948		
14. Primary source for building data: GIS & Energov (Permit Software), R3SM Data			
15. Primary source for area data: GIS			
16. Period covered: Jan 1, 2017 - Dec 31, 2017	Current FIRM date 3/2/10, 3/16/15		
If available, the following data would be useful:			
17. Number of new manufactured homes installed since last report	0		
18. Number of other new 1–4 family buildings constructed since last report			
19. Number of all other buildings constructed/installed since last report			

Comments:

(Please note the number of the line to which the comment refers.)

Community Hattiesburg, City of State MS CID 280053

County Lamar/Forrest

COMMUNITY RATING SYSTEM ANNUAL RECERTIFICATION

Instructions for CRS Program Data Table

At the first verification visit after the 2013 *CRS Coordinator's Manual* takes effect, ONLY LINES 6 AND 13 NEED TO BE COMPLETED. These lines form the baseline data about the number of buildings and area of the SFHA for when the table is completed as part of the next annual recertification. The "period covered" entered in line 16 is the date that lines 6 and 13 are first completed.

The entire table is completed at all subsequent annual recertifications and cycle verification visits. The information in lines 6 and 13 from the last report is transferred to lines 1 and 10 in the next report.

Instructions for the Columns

Column A numbers are for the SFHA (the A and V Zones shown on the Flood Insurance Rate Map) (FIRM)). Use the FIRM currently in effect, not a draft or pending revision.

Column B is completed only if the community receives CRS credit for regulating floodplain development outside the SFHA under Activity 410 (Floodplain Mapping) or Activity 430 (Higher Regulatory Standards).

Column C numbers help relate what happens in the floodplain to what is happening in the rest of the community.

Enter "0" if there are no numbers to report for this period. Do not leave a cell blank. Do not fill in the shaded boxes.

Instructions for the Lines

Lines 1-7 deal with buildings.

- Section 301.a of the *CRS Coordinator's Manual* defines what constitutes a "building" and lists examples of structures that are not counted as "buildings" by the CRS.
- Section 302.a of the *CRS Coordinator's Manual* describes how the CRS counts buildings. For example, accessory structures are not counted.
- As noted in Section 302.a, to determine building counts, communities may use any method that yields reasonably good estimates of the number of buildings. Examples of acceptable methods are listed in Section 302.a. Precision is less important for large numbers. For example, the impact of the numbers will not change much if there are 10,000 buildings or 10,100 buildings.
- If a building is out of the SFHA, but in a parcel that is partly in the SFHA, it is not counted in column A—In the SFHA.
- In line 14, note how the building counts were obtained or estimated. Use the comments area, if needed.

Line 4 refers to map revisions. These include physical map revisions, Letters of Map Revision (LOMR), and Letters of Map Amendment (LOMA). If a building is removed from the SFHA by FEMA through a LOMA, but the community still administers its floodplain management regulations on the property, the building should not be included in the line 4 count in column A—In the SFHA. However, communities that still regulate areas removed by LOMAs can receive credit under Activities 410 or 430. If the community is receiving such credit, the building should be counted under column B—In a regulated floodplain outside the SFHA.

Line 7 is for the total number of buildings that were substantially improved plus the number of buildings that were substantially damaged during the period covered.

Lines 10–13 deal with areas.

- Section 403.e of the *CRS Coordinator's Manual* discusses calculating areas for CRS purposes.

CRS Activity 510

Progress Report

Date this Report was Prepared: January 26, 2018

Name of Community: City of Hattiesburg

Name of Plan: Multi Hazard Mitigation Plan(MHMP) / Floodplain Management Plan (FMP)

Date of Adoption of Plan: MHMP – October 2007 FMP – October 1999

5 Year CRS Expiration Date: 2019

1. How can a copy of the original plan or area analysis report be obtained:
   Request to the CRS Coordinator through the Planning Department.

2. Describe how this evaluation report was prepared and how it was submitted to the governing body, released to the media, and made available to the public:
   Prepared by new CRS Coordinator with the assistance of the retired Floodplain Manager/ CRS Coordinator. It has been placed on the council's agenda for action February 6, 2017. It was made availabe to the media and the public through Legistar, a researchable program where all city council items are stored.

3. Provide a review of each recommendation or action item in the action plan or area analysis report, including a statement on how much was accomplished during the previous year:

See Attached ***(Exhibit H)***

4. Discuss why any objectives were not reached or why implementation is behind schedule:
   The annual mail out of our Flood Damage, Prevention and Reduction Brochure to every city resident.was not completed in 2017, due to major staff changes, including Mayor, Department Director and multiple support staff. However, in late October the City Council hired a retired Floodplain Manager and CRS Coordinator to come back to work and train new staff to get the City back on track with our flood related issues and reporting. We expect brochures to be mailed no later than the end of May, 2018.

5. What are the recommendations for new projects or revised recommendations?
   None at this time; however, the city plans to update the Floodplain Management Plan this year and incorporate it into the Multihazard Mitigation Plan which is scheduled to be revised by February 2019.

ATTACHED EXHIBITS LIST:

A. Permit List

B. Elevation Certificate Copies (4), Activity 310

C. Flood Damage Prevention and Reduction Brochure, Activity 320, 330, 340, 350, 360, 430, 502, 510, 540, 610 and Mitigation Strategy 2a.

D. Flood Insurance Rate Map Information (1 page log) Activity 320 and 360

E. Screenshot of Flood Information on Website Activitiy 350

F. Disaster Recovery Flyer Activity 360

G. Exerpts from New Land Development Code (Stormwater, Zoning, Sub-Divisions, Greenspace and Buffers)

EXHIBIT B

U.S. DEPARTMENT OF HOMELAND SECURITY
Federal Emergency Management Agency
National Flood Insurance Program

OMB No. 1660-0008
Expiration Date: November 30, 2018

ELEVATION CERTIFICATE

Important: Follow the instructions on pages 1–9.

Copy all pages of this Elevation Certificate and all attachments for (1) community official, (2) insurance agent/company, and (3) building owner.

SECTION A – PROPERTY INFORMATION		FOR INSURANCE COMPANY USE
A1. Building Owner's Name Bertha Goins		Policy Number:
A2. Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No. 915 Whitney Street		Company NAIC Number:
City Hattiesburg	State Mississippi	ZIP Code 39401

A3. Property Description (Lot and Block Numbers, Tax Parcel Number, Legal Description, etc.)
Lot 4, Blk 3 of Yellow Pine Park Addition to City of Hattiesburg

A4. Building Use (e.g., Residential, Non-Residential, Addition, Accessory, etc.) Residential

A5. Latitude/Longitude: Lat. 31 20 19.85 Long. -89 17 20.52 Horizontal Datum: ☐ NAD 1927 ☒ NAD 1983

A6. Attach at least 2 photographs of the building if the Certificate is being used to obtain flood insurance.

A7. Building Diagram Number 8

A8. For a building with a crawlspace or enclosure(s):

a) Square footage of crawlspace or enclosure(s) 1,092 sq ft

b) Number of permanent flood openings in the crawlspace or enclosure(s) within 1.0 foot above adjacent grade 11

c) Total net area of flood openings in A8.b 1,144 sq in

d) Engineered flood openings? ☐ Yes ☒ No

A9. For a building with an attached garage:

a) Square footage of attached garage 300 sq ft

b) Number of permanent flood openings in the attached garage within 1.0 foot above adjacent grade 2

c) Total net area of flood openings in A9.b 224 sq in

d) Engineered flood openings? ☐ Yes ☒ No

SECTION B – FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

B1. NFIP Community Name & Community Number	B2. County Name	B3. State
Hattiesburg, City of 280053	Forrest	Mississippi

B4. Map/Panel Number	B5. Suffix	B6. FIRM Index Date	B7. FIRM Panel Effective/ Revised Date	B8. Flood Zone(s)	B9. Base Flood Elevation(s) (Zone AO, use Base Flood Depth)
28035C0108	D	03/16/2015	03/02/2010	AE	147.9

B10. Indicate the source of the Base Flood Elevation (BFE) data or base flood depth entered in Item B9:
☐ FIS Profile ☒ FIRM ☐ Community Determined ☐ Other/Source:

B11. Indicate elevation datum used for BFE in Item B9: ☐ NGVD 1929 ☒ NAVD 1988 ☐ Other/Source:

B12. Is the building located in a Coastal Barrier Resources System (CBRS) area or Otherwise Protected Area (OPA)? ☐ Yes ☒ No

Designation Date: ☐ CBRS ☐ OPA

SECTION C – BUILDING ELEVATION INFORMATION (SURVEY REQUIRED)

C1. Building elevations are based on: ☐ Construction Drawings* ☐ Building Under Construction* ☒ Finished Construction

*A new Elevation Certificate will be required when construction of the building is complete.

C2. Elevations – Zones A1–A30, AE, AH, A (with BFE), VE, V1–V30, V (with BFE), AR, AR/A, AR/AE, AR/A1–A30, AR/AH, AR/AO. Complete Items C2.a–h below according to the building diagram specified in Item A7. In Puerto Rico only, enter meters.

Benchmark Utilized: City of Hattiesburg MH A-232 Vertical Datum: 146.92 feet

Indicate elevation datum used for the elevations in items a) through h) below.

☐ NGVD 1929 ☒ NAVD 1988 ☐ Other/Source:

Datum used for building elevations must be the same as that used for the BFE.

		Check the measurement used.	
a) Top of bottom floor (including basement, crawlspace, or enclosure floor)	149.57	☒ feet	☐ meters
b) Top of the next higher floor	n/a	☒ feet	☐ meters
c) Bottom of the lowest horizontal structural member (V Zones only)	n/a	☒ feet	☐ meters
d) Attached garage (top of slab)	147.65	☒ feet	☐ meters
e) Lowest elevation of machinery or equipment servicing the building (Describe type of equipment and location in Comments)	146.5	☒ feet	☐ meters
f) Lowest adjacent (finished) grade next to building (LAG)	146.3	☒ feet	☐ meters
g) Highest adjacent (finished) grade next to building (HAG)	147.5	☒ feet	☐ meters
h) Lowest adjacent grade at lowest elevation of deck or stairs, including structural support	146.5	☒ feet	☐ meters

SECTION D – SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION

This certification is to be signed and sealed by a land surveyor, engineer, or architect authorized by law to certify elevation information. *I certify that the information on this Certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.*

Were latitude and longitude in Section A provided by a licensed land surveyor? ☒ Yes ☐ No ☐ Check here if attachments.

SECTION E – BUILDING ELEVATION INFORMATION (SURVEY NOT REQUIRED) FOR ZONE AO AND ZONE A (WITHOUT BFE)

For Zones AO and A (without BFE), complete Items E1–E5. If the Certificate is intended to support a LOMA or LOMR-F request, complete Sections A, B,and C. For Items E1–E4, use natural grade, if available. Check the measurement used. In Puerto Rico only, enter meters.

E1. Provide elevation information for the following and check the appropriate boxes to show whether the elevation is above or below the highest adjacent grade (HAG) and the lowest adjacent grade (LAG).

a) Top of bottom floor (including basement, crawlspace, or enclosure) is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

b) Top of bottom floor (including basement, crawlspace, or enclosure) is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the LAG.

E2. For Building Diagrams 6–9 with permanent flood openings provided in Section A Items 8 and/or 9 (see pages 1–2 of Instructions), the next higher floor (elevation C2.b in the diagrams) of the building is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

E3. Attached garage (top of slab) is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

E4. Top of platform of machinery and/or equipment servicing the building is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

E5. Zone AO only: If no flood depth number is available, is the top of the bottom floor elevated in accordance with the community's floodplain management ordinance? ☐ Yes ☐ No ☐ Unknown. The local official must certify this information in Section G.

SECTION F – PROPERTY OWNER (OR OWNER'S REPRESENTATIVE) CERTIFICATION

The property owner or owner's authorized representative who completes Sections A, B, and E for Zone A (without a FEMA-issued or community-issued BFE) or Zone AO must sign here. The statements in Sections A, B, and E are correct to the best of my knowledge.

Property Owner or Owner's Authorized Representative's Name

SECTION G – COMMUNITY INFORMATION (OPTIONAL)

The local official who is authorized by law or ordinance to administer the community's floodplain management ordinance can complete Sections A, B, C (or E), and G of this Elevation Certificate. Complete the applicable item(s) and sign below. Check the measurement used in Items G8–G10. In Puerto Rico only, enter meters.

G1. ☐ The information in Section C was taken from other documentation that has been signed and sealed by a licensed surveyor, engineer, or architect who is authorized by law to certify elevation information. (Indicate the source and date of the elevation data in the Comments area below.)

G2. ☐ A community official completed Section E for a building located in Zone A (without a FEMA-issued or community-issued BFE) or Zone AO.

G3. ☐ The following information (Items G4–G10) is provided for community floodplain management purposes.

G4. Permit Number	G5. Date Permit Issued	G6. Date Certificate Of Compliance/Occupancy Issued

G7. This permit has been issued for: ☐ New Construction ☐ Substantial Improvement

G8. Elevation of as-built lowest floor (including basement) of the building: _____._____ ☐ feet ☐ meters Datum _____

G9. BFE or (in Zone AO) depth of flooding at the building site: _____._____ ☐ feet ☐ meters Datum _____

G10. Community's design flood elevation: _____._____ ☐ feet ☐ meters Datum _____

OMB No. 1660-0008
Expiration Date: July 31, 2015

SECTION A – PROPERTY INFORMATION

FOR INSURANCE COMPANY USE
Policy Number:
Company NAIC Number:

A1. Building Owner's Name: Mar-Jac Poultry, LLC

A2. Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No.: 1301 James Street

City: Hattiesburg State: MS ZIP Code: 39401

A3. Property Description (Lot and Block Numbers, Tax Parcel Number, Legal Description, etc.): Expansion - see attached legal description and comments section

A4. Building Use (e.g., Residential, Non-Residential, Addition, Accessory, etc.): Industrial

A5. Latitude/Longitude: Lat. N31.306452 Long. W89.277272 Horizontal Datum: ☐ NAD 1927 ☒ NAD 1983

A6. Attach at least 2 photographs of the building if the Certificate is being used to obtain flood insurance. n/a

A7. Building Diagram Number 1B

A8. For a building with a crawlspace or enclosure(s):
a) Square footage of crawlspace or enclosure(s): N/A sq ft
b) Number of permanent flood openings in the crawlspace or enclosure(s) within 1.0 foot above adjacent grade: N/A
c) Total net area of flood openings in A8.b: N/A sq in
d) Engineered flood openings? ☐ Yes ☐ No

A9. For a building with an attached garage:
a) Square footage of attached garage: N/A sq ft
b) Number of permanent flood openings in the attached garage within 1.0 foot above adjacent grade: N/A
c) Total net area of flood openings in A9.b: N/A sq in
d) Engineered flood openings? ☐ Yes ☐ No

SECTION B – FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

B1. NFIP Community Name & Community Number			B2. County Name		B3. State
City of Hattiesburg 280053			Forrest County		MS
B4. Map/Panel Number	B5. Suffix	B6. FIRM Index Date	B7. FIRM Panel Effective/ Revised Date	B8. Flood Zone(s)	B9. Base Flood Elevation(s) (Zone AO, use base flood depth)
28035C00117	E	March 16, 2015	March 16, 2015	A	145.25

B10. Indicate the source of the Base Flood Elevation (BFE) data or base flood depth entered in Item B9:
☐ FIS Profile ☐ FIRM ☐ Community Determined ☒ Other/Source: Contour Interpolation

B11. Indicate elevation datum used for BFE in Item B9: ☐ NGVD 1929 ☐ NAVD 1988 ☒ Other/Source: Contour Interpolation

B12. Is the building located in a Coastal Barrier Resources System (CBRS) area or Otherwise Protected Area (OPA)? ☐ Yes ☒ No
Designation Date: n/a / ____ / ____ ☐ CBRS ☐ OPA

SECTION C – BUILDING ELEVATION INFORMATION (SURVEY REQUIRED)

C1. Building elevations are based on: ☐ Construction Drawings* ☐ Building Under Construction* ☒ Finished Construction
*A new Elevation Certificate will be required when construction of the building is complete.

C2. Elevations – Zones A1–A30, AE, AH, A (with BFE), VE, V1–V30, V (with BFE), AR, AR/A, AR/AE, AR/A1–A30, AR/AH, AR/AO. Complete Items C2.a–h below according to the building diagram specified in Item A7. In Puerto Rico only, enter meters.

Benchmark Utilized: ____ Vertical Datum: ____

Indicate elevation datum used for the elevations in items a) through h) below. ☐ NGVD 1929 ☒ NAVD 1988 ☐ Other/Source: ____
Datum used for building elevations must be the same as that used for the BFE.

		Check the measurement used.	
a) Top of bottom floor (including basement, crawlspace, or enclosure floor)	147.9	☒ feet	☐ meters
b) Top of the next higher floor	n/a	☐ feet	☐ meters
c) Bottom of the lowest horizontal structural member (V Zones only)	n/a	☐ feet	☐ meters
d) Attached garage (top of slab)	n/a	☐ feet	☐ meters
e) Lowest elevation of machinery or equipment servicing the building (Describe type of equipment and location in Comments)	147.0	☒ feet	☐ meters
f) Lowest adjacent (finished) grade next to building (LAG)	144.7	☒ feet	☐ meters
g) Highest adjacent (finished) grade next to building (HAG)	147.9	☒ feet	☐ meters
h) Lowest adjacent grade at lowest elevation of deck or stairs, including structural support	n/a	☐ feet	☐ meters

SECTION D – SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION

This certification is to be signed and sealed by a land surveyor, engineer, or architect authorized by law to certify elevation information. *I certify that the information on this Certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.*

☐ Check here if comments are provided on back of form.
☒ Check here if attachments.

Were latitude and longitude in Section A provided by a licensed land surveyor? ☒ Yes ☐ No

SECTION D – SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION (CONTINUED)

Copy both sides of this Elevation Certificate for (1) community official, (2) insurance agent/company, and (3) building owner.

Comments This is for the entire project (Phase 1 & Phase 2 - shipping dock, MDM dock, de-bone, marination and processing plant) as depicted on the enclosed survey. The highest centerline of James Street elevation is 146.0 in front of the building. See attached BFE development documentation. Refer to Elevation Survey dated 6-14-17 attached.

Signature [signature] Date 7/20/17

SECTION E – BUILDING ELEVATION INFORMATION (SURVEY NOT REQUIRED) FOR ZONE AO AND ZONE A (WITHOUT BFE)

For Zones AO and A (without BFE), complete Items E1–E5. If the Certificate is intended to support a LOMA or LOMR-F request, complete Sections A, B, and C. For Items E1–E4, use natural grade, if available. Check the measurement used. In Puerto Rico only, enter meters.

E1. Provide elevation information for the following and check the appropriate boxes to show whether the elevation is above or below the highest adjacent grade (HAG) and the lowest adjacent grade (LAG).

a) Top of bottom floor (including basement, crawlspace, or enclosure) is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

b) Top of bottom floor (including basement, crawlspace, or enclosure) is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the LAG.

E2. For Building Diagrams 6–9 with permanent flood openings provided in Section A Items 8 and/or 9 (see pages 8–9 of Instructions), the next higher floor (elevation C2.b in the diagrams) of the building is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

E3. Attached garage (top of slab) is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

E4. Top of platform of machinery and/or equipment servicing the building is _____ . _____ ☐ feet ☐ meters ☐ above or ☐ below the HAG.

E5. Zone AO only: If no flood depth number is available, is the top of the bottom floor elevated in accordance with the community's floodplain management ordinance? ☐ Yes ☐ No ☐ Unknown. The local official must certify this information in Section G.

SECTION F – PROPERTY OWNER (OR OWNER'S REPRESENTATIVE) CERTIFICATION

The property owner or owner's authorized representative who completes Sections A, B, and E for Zone A (without a FEMA-issued or community-issued BFE) or Zone AO must sign here. The statements in Sections A, B, and E are correct to the best of my knowledge.

Property Owner or Owner's Authorized Representative's Name

Address City State ZIP Code

Signature Date Telephone

☐ Check here if attachments.

SECTION G – COMMUNITY INFORMATION (OPTIONAL)

The local official who is authorized by law or ordinance to administer the community's floodplain management ordinance can complete Sections A, B, C (or E), and G of this Elevation Certificate. Complete the applicable item(s) and sign below. Check the measurement used in Items G8–G10. In Puerto Rico only, enter meters.

G1. ☐ The information in Section C was taken from other documentation that has been signed and sealed by a licensed surveyor, engineer, or architect who is authorized by law to certify elevation information. (Indicate the source and date of the elevation data in the Comments area below.)

G2. ☐ A community official completed Section E for a building located in Zone A (without a FEMA-issued or community-issued BFE) or Zone AO.

G3. ☐ The following information (Items G4–G10) is provided for community floodplain management purposes.

G4. Permit Number	G5. Date Permit Issued	G6. Date Certificate Of Compliance/Occupancy Issued

G7. This permit has been issued for: ☐ New Construction ☐ Substantial Improvement

G8. Elevation of as-built lowest floor (including basement) of the building: _____ . _____ ☐ feet ☐ meters Datum _____

G9. BFE or (in Zone AO) depth of flooding at the building site: _____ . _____ ☐ feet ☐ meters Datum _____

G10. Community's design flood elevation: _____ . _____ ☐ feet ☐ meters Datum _____

Project Narrative:

Mar Jac Poultry, LLC is proposing to expand its operations at their existing facility located at 1301 James Street. Proposed construction will affect several parcels which combine for a total site of 18.3 acres. There will be 2 phases for this project. Portions of Phase 1 and Phase 2 will be built within the FEMA designated Zone A without an assigned elevation (F.I.R.M. Community Panel Number 28035C0117E with an effective date March 16, 2015.

BFE Determination:

A topographic survey was produced by the Mississippi licensed surveyor American Surveying & Mapping, Inc. for this project. The contour interval is 0.5'. The FEMA map was overlaid on the survey in order to develop the Base Flood Elevation (BFE) using the Contour Interpolation Method.

BFE (North side) = 145.0

BFE (South side) = 145.25

Developed BFE = 145.0 + 0.25 (1/2 contour interval) = 145.25

Refer to the attached sketch for associated BFE interpolations.

A PART OF THE SOUTHWEST QUARTER (SW 1/4) OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, FORREST COUNTY, MISSISSIPPI, MORE PARTICULARLY DESCRIBED AS FOLLOWS: COMMENCING AT THE INTERSECTION OF THE EAST RIGHT-OF-WAY LINE OF THE FORMER MISSISSIPPI CENTRAL RAILROAD NOW ILLINOIS CENTRAL RAILROAD COMPANY AND THE SOUTH LINE OF SAID SECTION 14, THENCE RUN EAST 394.8 FEET, THENCE RUN NORTH 568.2 FEET TO THE POINT OF BEGINNING, THENCE RUN NORTH 29 DEGREES EAST 648.4 FEET, THENCE RUN NORTH 470 FEET TO THE CENTER OF BURKETT'S CREEK, THENCE RUN SOUTH 59 DEGREES WEST AND ALONG THE CENTER OF SAID CREEK 100 FEET, THENCE RUN SOUTH 83 DEGREES 15 MINUTES WEST AND ALONG THE CENTER OF SAID CREEK 55 FEET, THENCE RUN SOUTH 53 DEGREES 15 MINUTES WEST AND ALONG THE CENTER OF SAID CREEK 78 FEET, THENCE RUN SOUTH 65 DEGREES 15 MINUTES WEST AND ALONG THE CENTER OF SAID CREEK 132 FEET, THENCE RUN SOUTH 2 DEGREES 30 MINUTES WEST AND ALONG THE CENTER OF SAID CREEK 60 FEET, THENCE RUN SOUTH 42 DEGREES 30 MINUTES WEST AND ALONG THE CENTER OF SAID CREEK 96 FEET, THENCE RUN NORTH 56 DEGREES WEST AND ALONG THE CENTER OF SAID CREEK 66 FEET, THENCE RUN SOUTH 51 DEGREES WEST AND ALONG THE CENTER OF SAID CREEK 55 FEET, THENCE RUN NORTH 42 DEGREES 45 MINUTES WEST AND ALONG THE CENTER OF SAID CREEK 90 FEET, THENCE RUN NORTH 59 DEGREES 30 MINUTES WEST AND ALONG THE CENTER OF SAID CREEK 109 FEET, THENCE RUN NORTH 55 DEGREES WEST AND ALONG THE CENTER OF SAID CREEK 79.5 FEET TO A POINT ON THE EAST RIGHT-OF-WAY LINE OF SAID RAILROAD; THENCE RUN SOUTH AND ALONG THE SAID RIGHT-OF-WAY 684 FEET, MORE OR LESS, TO THE NORTH BOUNDARY LINE OF PROPERTY CONVEYED BY GRANTOR TO HATTIESBURG GROCERY COMPANY, BY DEED DATED OCTOBER 19, 1976; THENCE EAST ALONG SAID NORTH BOUNDARY LINE 400 FEET TO THE NORTHEAST CORNER OF PROPERTY CONVEYED TO SAID HATTIESBURG GROCERY COMPANY; THENCE SOUTH TO THE POINT OF BEGINNING.

LESS AND EXCEPT QUITCLAIM DEED FROM MARSHAL DURBIN POULTRY CO., INC. TO UNIVERSITY OF SOUTHERN MISSISSIPPI FOUNDATION, DATED AUGUST 22, 1994, RECORDED SEPTEMBER 8, 1994 IN BOOK 718, PAGE 56, FORREST COUNTY, MISSISSIPPI RECORDS, AND BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCE AT THE INTERSECTION OF THE EAST RIGHT-OF-WAY LINE OF FORMER MISSISSIPPI CENTRAL RAILROAD, NOW ILLINOIS CENTRAL RAILROAD COMPANY, AND THE SOUTH LINE OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, FORREST COUNTY, MISSISSIPPI, AND RUN EAST FOR 394.80 FEET; THENCE RUN NORTH FOR 568.20 FEET TO A 3/4' REBAR; THENCE RUN NORTH 29 DEGREES 00 MINUTES 00 SECONDS EAST FOR 648.20 FEET TO A 3/4" REBAR; THENCE RUN NORTH FOR 69.26 FEET TO A 3/4" IRON PIPE AND THE POINT OF BEGINNING; FROM THE POINT OF BEGINNING RUN NORTH 41 DEGREES 51 MINUTES 51 SECONDS

WEST FOR 148.43 FEET TO A 3/4" IRON PIPE; THENCE RUN WEST FOR 386.23 FEET TO THE CENTERLINE OF BURKETT'S CREEK; THENCE RUN NORTH 38 DEGREES 48 MINUTES 25 SECONDS EAST ALONG SAID CENTERLINE FOR 74.49 FEET; THENCE RUN SOUTH 74 DEGREES 47 MINUTES 46 SECONDS EAST ALONG SAID CENTERLINE FOR 87.84 FEET; THENCE RUN NORTH 04 DEGREES 05 MINUTES 06 SECONDS EAST ALONG SAID CENTERLINE FOR 34.62 FEET; THENCE RUN NORTH 24 DEGREES 01 MINUTE 20 SECONDS WEST ALONG SAID CENTERLINE FOR 66.45 FEET; THENCE RUN SOUTH 86 DEGREES 04 MINUTES 40 SECONDS EAST ALONG SAID CENTERLINE FOR I 09.90 FEET; THENCE RUN NORTH 33 DEGREES 48 MINUTES 48 SECONDS EAST ALONG SAID CENTERLINE FOR 131.98 FEET; THENCE RUN NORTH 84 DEGREES 34 MINUTES. 27 SECONDS EAST ALONG SAID CENTERLINE FOR 89.81 FEET; THENCE RUN NORTH 51 DEGREES 06 MINUTES 13 SECONDS EAST ALONG SAID CENTERLINE FOR 110.41 FEET; THENCE RUN SOUTH FOR 420.74 FEET BACK TO THE POINT OF BEGINNING, SAID PARCEL OF LAND IS PART OF THE SOUTHWEST QUARTER (SW 1/4) OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13
WEST, FORREST COUNTY, MISSISSIPPI, AND CONTAINS 1.84 ACRES, MORE OR LESS.

AS TO TRACT 2, BOOK 715, PAGE 566:

TWO PARCELS OF LAND LOCATED IN THE SOUTHWEST QUARTER (SW 1/4) OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, OF THE ST. STEPHEN'S MERIDIAN AT HATTIESBURG, FORREST COUNTY, MISSISSIPPI, DESCRIBED AS FOLLOWS:

PARCEL NO. I: COMMENCING AT THE INTERSECTION OF THE SOUTH LINE OF SAID SECTION 14 AND A LINE THAT LIES PARALLEL TO AND 50 FEET EASTERLY FROM THE CENTERLINE OF THE ILLINOIS CENTRAL GULF RAILROAD COMPANY'S CENTRAL DISTRICT MAIN TRACKS; THENCE RUN NORTHERLY, ALONG THE LAST SAID PARALLEL LINE FOR 50 FEET TO THE POINT OF BEGINNING; THENCE CONTINUING NORTHERLY RUN ALONG THE LAST SAID PARALLEL LINE, FOR 750 FEET; THENCE RUN EASTERLY, AT A RIGHT ANGLE, PARALLEL TO THE LAST SAID SOUTH LINE, FOR 350 FEET; THENCE RUN SOUTHERLY, AT A RIGHT ANGLE, PARALLEL TO SAID CENTERLINE OF MAIN TRACK, FOR 700 FEET; THENCE RUN SOUTHWESTERLY, AT AN ANGLE TO THE RIGHT OF 45 DEGREES, FOR 70.7 FEET; THENCE RUN WESTERLY, AT AN ANGLE TO THE RIGHT OF 45 DEGREES, BEING PARALLEL TO AND 50 FEET NORTHERLY FROM SAID SOUTH LINE OF SECTION 14, FOR 300 FEET, TO THE POINT OF BEGINNING;

PARCEL NO.2: BEGINNING AT THE INTERSECTION OF THE SOUTH LINE OF SAID SECTION 14 AND A LINE THAT LIES PARALLEL TO AND 50 FEET EASTERLY FROM THE CENTERLINE OF THE ILLINOIS CENTRAL GULF RAILROAD COMPANY'S CENTRAL DISTRICT MAIN TRACK; THENCE RUN NORTHERLY, ALONG THE LAST SAID PARALLEL LINE, FOR 50 FEET; THENCE RUN EASTERLY, PARALLEL TO AND 50 FEET NORTHERLY FROM THE SAID SOUTH LINE OF SECTION 14, FOR 300 FEET;

THENCE RUN NORTHEASTERLY, AT AN ANGLE TO THE LEFT OF 45 DEGREES, FOR 70.7 FEET; THENCE RUN NORTHERLY, AT AN ANGLE TO THE LEFT OF 45 DEGREES, PARALLEL TO SAID CENTERLINE OF MAIN TRACK, FOR 700 FEET TO A POINT, SAID POINT BEING THE NORTHEASTERLY COMER OF PARCEL NO. 1; THENCE RUN EASTERLY, AT A RIGHT ANGLE, FOR 44.8 FEET; THENCE RUN SOUTHERLY, AT A RIGHT ANGLE, FOR 800 FEET TO THE SAID SOUTH LINE OF SECTION 14; THENCE RUN WESTERLY, ALONG THE LAST SAID SOUTH LINE, FOR 394.8 FEET TO THE POINT OF BEGINNING;

TOGETHER WITH ALL IMPROVEMENTS THEREON AND APPURTENANCES THEREUNTO BELONGING;

AS TO TRACT 3, BOOK 307, PAGE 485:

A PART OF THE SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, FORREST COUNTY, MISSISSIPPI, MORE PARTICULARLY DESCRIBED AS COMMENCING AT THE SOUTHEAST COMER OF SAID SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER AND RUN THENCE WEST 105 FEET, MORE OR LESS, TO THE POINT OF INTERSECTION OFTHE WEST LINE OF THE RIGHT OF WAY OF THE MISSISSIPPI CENTRAL RAILROAD COMPANY AND THE SOUTH LINE OF SAID SECTION 14, AND THENCE RUN NORTH ALONG THE WEST LINE OF SAID RAILROAD RIGHT OF WAY A DISTANCE OF 442 FEET TO AND FOR A POINT OF BEGINNING; AND FROM SAID POINT OF BEGINNING RUN THENCE NORTH ALONG THE WEST LINE OF SAID RAILROAD RIGHT OF WAY A DISTANCE OF 695.8 FEET; RUN THENCE WEST A DISTANCE OF 725.7 FEET TO THE NORTH-EASTERLY BOUNDARY LINE OF THE RIGHT OF WAY OF OLD MISSISSIPPI U.S. HIGHWAY NO. 49; RUN THENCE IN A SOUTHEASTERLY DIRECTION ALONG THE NORTHEASTERLY BOUNDARY LINE OF SAID HIGHWAY RIGHT OF WAY A DISTANCE OF 754.8 FEET; AND THENCE RUN EAST A DISTANCE OF 433.2 FEET TO SAID POINT OF BEGINNING, CONTAINING 9.26 ACRES, MORE OR LESS;

TOGETHER WITH ALL IMPROVEMENTS THEREON AND APPURTENANCES THEREUNTO BELONGING;

AS TO TRACT 4, BOOK 557, PAGE 553 (LEASEHOLD):

PARCEL NO. 1: A PART OF THE WEST HALF OF THE SOUTHWEST QUARTER OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, FORREST COUNTY, MISSISSIPPI, MORE PARTICULARLY DESCRIBED AS COMMENCING AT THE SOUTHEAST CORNER OF THE SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SAID SECTION 14 AND RUN THENCE WEST 100 FEET, MORE OR LESS, TO THE POINT OF INTERSECTION OF THE WEST LINE OF THE RIGHT OF WAY OF THE MISSISSIPPI CENTRAL RAILROAD COMPANY AND THE SOUTH LINE OF SAID SECTION 14 AND RUN THENCE NORTH ALONG THE WEST LINE OF SAID RAILROAD RIGHT OF WAY A DISTANCE OF 1137.8 FEET TO AND FOR A POINT OF

BEGINNING; AND FROM SAID POINT OF BEGINNING THENCE RUN NORTH ALONG THE WEST LINE OF SAID RAILROAD RIGHT OF WAY A DISTANCE OF 366 FEET; RUN THENCE SOUTH 86 DEGREES, 55 MINUTES WEST A DISTANCE OF 860.8 FEET TO THE NORTHEASTERLY BOUNDARY LINE OF THE RIGHT OF WAY OF OLD MISSISSIPPI U. S. HIGHWAY NO. 49; RUN THENCE IN A SOUTHEASTERLY DIRECTION ALONG THE NORTHEASTERLY BOUNDARY LINE OF SAID HIGHWAY RIGHT OF WAY A DISTANCE OF 34 7.1 FEET; AND RUN THENCE EAST A DISTANCE OF 725.7 FEET TO SAID POINT OF BEGINNING; LESS AND EXCEPT, FIRST, A PARCEL USED AS A CEMETERY, A PART OF WHICH IS SITUATED IN THE ABOVE DESCRIBED LAND, WHICH FIRST EXCEPTED PARCEL IS DESCRIBED AS COMMENCING AT THE NORTHEAST CORNER OF THE SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SAID SECTION 14 AND RUN THENCE WEST A DISTANCE OF 845 FEET TO THE POINT OF BEGINNING OF SAID FIRST EXCEPTED PARCEL AND FROM SAID POINT OF BEGINNING RUN THENCE NORTH 39.6 FEET; RUN THENCE WEST 58.8 FEET; RUN THENCE SOUTH 54.78 FEET; RUN, THENCE EAST A DISTANCE OF 58.8 FEET AND RUN THENCE NORTH A DISTANCE OF I 5. I 3 FEET TO THE POINT OF BEGINNING OF SAID FIRST EXCEPTED PARCEL; AND ALSO, LESS AND EXCEPT, SECONDLY, A PART OF THE NORTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, FORREST COUNTY, MISSISSIPPI, BEING MORE DEFINITELY AND PARTICULARLY DESCRIBED AS FOLLOWS, TO-WIT; COMMENCING AT THE SOUTHEAST CORNER OF THE SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SAID SECTION, TOWNSHIP AND RANGE, RUN THENCE WEST A DISTANCE OF I 00 FEET, MORE OR LESS, TO A POINT ON THE WEST RIGHT OF WAY LINE OF THE MISSISSIPPI CENTRAL RAILROAD, RUN THENCE NORTH AND ALONG SAID WEST RIGHT OF WAY LINE, OF SAID MISSISSIPPI CENTRAL RAILROAD A DISTANCE OF 1503.8 FEET, RUN THENCE SOUTH 86 DEGREES 55 MINUTES WEST A DISTANCE OF 440.8 FEET TO AND FOR A POINT OF BEGINNING OF SAID SECONDLY EXCEPTED PARCEL OF LAND, AND FROM THIS POINT OF BEGINNING RUN THENCE SOUTH 67 DEGREES WEST A DISTANCE OF 342.5 FEET TO A FENCE CORNER, SAID CORNER BEING THE NORTHEAST CORNER OF A PRIVATE CEMETERY, RUN THENCE IN A SOUTHWESTERLY DIRECTION AND ALONG SAID CEMETERY FENCE A DISTANCE OF 56.4 FEET TO A POINT ON THE NORTHEASTERLY RIGHT OF WAY LINE OF THAT CERTAIN PAVED PUBLIC ROAD VARIOUSLY REFERRED TO AND IDENTIFIED AS OLD HIGHWAY NO. 49 AND/OR JAMES STREET IN THE CITY OF HATTIESBURG, MISSISSIPPI, RUN THENCE IN A NORTHWESTERLY DIRECTION AND ALONG SAID NORTHEASTERLY RIGHT OF WAY LINE OF SAID PUBLIC ROAD A DISTANCE OF 131 FEET AND RUN THENCE NORTH 86 DEGREES 55 MINUTES EAST A DISTANCE OF 420 FEET TO THE POINT OF BEGINNING; SAID SECONDLY EXCEPTED PARCEL OF LAND CONTAINING, IN THE AGGREGATE, 0.61 ACRES, MORE OR LESS; THE LAND ABOVE DESCRIBED COVETED BY THIS CONVEYANCE CONTAINING 5.59 ACRES, MORE OR LESS; TOGETHER WITH ALL OF THE BUILDINGS, IMPROVEMENTS AND APPURTENANCES LOCATED UPON, BELONGING TO AND CONSTITUTING A PART OF THE LAND HEREINABOVE DESCRIBED.

AND ALSO:

PARCEL NO. II: A PART OF THE NORTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, FORREST COUNTY, MISSISSIPPI, BEING MORE DEFINITELY AND PARTICULARLY DESCRIBED AS FOLLOWS, TO-WIT: COMMENCING AT THE SOUTHEAST CORNER OF THE SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SAID SECTION, TOWNSHIP AND RANGE, RUN THENCE WEST A DISTANCE OF 100 FEET, MORE OR LESS, TO A POINT ON THE WEST RIGHT OF WAY LINE OF THE MISSISSIPPI CENTRAL RAILROAD, RUN THENCE NORTH AND ALONG SAID WEST RIGHT OF WAY LINE OF SAID MISSISSIPPI CENTRAL RAILROAD A DISTANCE OF 1503.8 FEET TO AND FOR A POINT OF BEGINNING OF THE PARCEL OF LAND HEREIN DESCRIBED, AND FROM THIS POINT OF BEGINNING RUN THENCE SOUTH 86 DEGREES 55 MINUTES WEST A DISTANCE OF 440.8 FEET, RUN THENCE NORTH 67 DEGREES EAST A DISTANCE OF 324 FEET, RUN THENCE SOUTH 81 DEGREES 15 MINUTES EAST A DISTANCE OF 143.7 FEET AND RUN THENCE SOUTH 85.5 FEET TO THE POINT OF BEGINNING; SAID PARCEL OF LAND CONTAINING, IN THE AGGREGATE, 0.64 ACRES, MORE OR LESS;

AND ALSO:

PARCEL NO. III:

A PART OFTHE SOUTHWEST QUARTER OF THE SOUTHWEST QUARTER OF SECTION 14, TOWNSHIP 4 NORTH, RANGE 13 WEST, FORREST COUNTY, MISSISSIPPI, MORE PARTICULARLY DESCRIBED AS COMMENCING AT THE SOUTHEAST CORNER OF SAID SOUTHWEST QUARTER OFTHE SOUTHWEST QUARTER AND RUN THENCE WEST 100 FEET, MORE OR LESS, TO THE POINT OF INTERSECTION OFTHE WEST LINE OF THE RIGHT OF WAY OF THE MISSISSIPPI CENTRAL RAILROAD COMPANY AND THE SOUTH LINE OF SAID SECTION 14 TO AND FOR A POINT OF BEGINNING; AND FROM SAID POINT OF BEGINNING RUN THENCE NORTH ALONG THE WEST LINE OF SAID RAILROAD RIGHT OF WAY A DISTANCE OF 442 FEET; RUN THENCE WEST A DISTANCE OF 433.2 FEET TO THE NORTHEASTERLY BOUNDARY LINE OF THE RIGHT OF WAY OF OLD MISSISSIPPI U.S. HIGHWAY NO. 49; RUN THENCE IN A SOUTHEASTERLY DIRECTION ALONG THE NORTHEASTERLY BOUNDARY LINE OF SAID HIGHWAY RIGHT OF WAY A DISTANCE OF 4 79.5 FEET TO THE SOUTH LINE OF SAID SECTION 14; AND RUN THENCE EAST ALONG THE SOUTH LINE OF SAID SECTION 14 A DISTANCE OF 247.4 FEET TO SAID POINT OF BEGINNING, CONTAINING 3.45 ACRES, MORE OR LESS; TOGETHER WITH ALL OF THE BUILDINGS, IMPROVEMENTS AND APPURTENANCES LOCATED UPON, BELONGING TO AND CONSTITUTING A PART OF THE LAND HEREINABOVE DESCRIBED.

OMB No. 1660-0008
Expiration Date: November 30, 2018

ELEVATION CERTIFICATE

Important: Follow the instructions on pages 1–9

Copy all pages of this Elevation Certificate and all attachments for (1) community official, (2) insurance agent/company, and (3) building owner.

SECTION A – PROPERTY INFORMATION

	FOR INSURANCE COMPANY USE
A1. Building Owner's Name Gary Walters	Policy Number:
A2. Building Street Address (including Apt., Unit, Suite, and/or Bldg. No.) or P.O. Route and Box No. 1400 1/2 East Hardy Street	Company NAIC Number:

City	State	ZIP Code
Hattiesburg	Mississippi	39401

A3. Property Description (Lot and Block Numbers, Tax Parcel Number, Legal Description, etc.)
Tax Parcel 2-030L-11-153.00

A4. Building Use (e.g., Residential, Non-Residential, Addition, Accessory, etc.) Non-Residential

A5. Latitude/Longitude: Lat. 31.3252 Long. 89.2764 Horizontal Datum: ☐ NAD 1927 ☒ NAD 1983

A6. Attach at least 2 photographs of the building if the Certificate is being used to obtain flood insurance.

A7. Building Diagram Number 1B

A8. For a building with a crawlspace or enclosure(s):

a) Square footage of crawlspace or enclosure(s) _____ sq ft

b) Number of permanent flood openings in the crawlspace or enclosure(s) within 1.0 foot above adjacent grade _____

c) Total net area of flood openings in A8.b _____ sq in

d) Engineered flood openings? ☐ Yes ☐ No

A9. For a building with an attached garage:

a) Square footage of attached garage _____ sq ft

b) Number of permanent flood openings in the attached garage within 1.0 foot above adjacent grade _____

c) Total net area of flood openings in A9.b _____ sq in

d) Engineered flood openings? ☐ Yes ☐ No

SECTION B – FLOOD INSURANCE RATE MAP (FIRM) INFORMATION

B1. NFIP Community Name & Community Number	B2. County Name	B3. State
City of Hattiesburg 2800530109E	Forrest	Mississippi

B4. Map/Panel Number	B5. Suffix	B6. FIRM Index Date	B7. FIRM Panel Effective/ Revised Date	B8. Flood Zone(s)	B9. Base Flood Elevation(s) (Zone AO, use Base Flood Depth)
28035C0109	E	03/16/2015	03/16/2015	AE	145.4

B10. Indicate the source of the Base Flood Elevation (BFE) data or base flood depth entered in Item B9:
☐ FIS Profile ☒ FIRM ☐ Community Determined ☐ Other/Source: _____

B11. Indicate elevation datum used for BFE in Item B9: ☐ NGVD 1929 ☒ NAVD 1988 ☐ Other/Source: _____

B12. Is the building located in a Coastal Barrier Resources System (CBRS) area or Otherwise Protected Area (OPA)? ☐ Yes ☒ No
Designation Date: _____ ☐ CBRS ☐ OPA

SECTION C – BUILDING ELEVATION INFORMATION (SURVEY REQUIRED)

C1. Building elevations are based on: ☒ Construction Drawings* ☐ Building Under Construction* ☐ Finished Construction

*A new Elevation Certificate will be required when construction of the building is complete

C2. Elevations – Zones A1–A30, AE, AH, A (with BFE), VE, V1–V30, V (with BFE), AR, AR/A, AR/AE, AR/A1–A30, AR/AH, AR/AO. Complete Items C2.a–h below according to the building diagram specified in Item A7 In Puerto Rico only, enter meters.

Benchmark Utilized: Flynt Office BM Vertical Datum: NAD 1988

Indicate elevation datum used for the elevations in items a) through h) below.

☐ NGVD 1929 ☒ NAVD 1988 ☐ Other/Source:

Datum used for building elevations must be the same as that used for the BFE.

		Check the measurement used	
a) Top of bottom floor (including basement, crawlspace, or enclosure floor)	148.32	☒ feet	☐ meters
b) Top of the next higher floor	N/A	☒ feet	☐ meters
c) Bottom of the lowest horizontal structural member (V Zones only)	N/A	☒ feet	☐ meters
d) Attached garage (top of slab)	N/A	☒ feet	☐ meters
e) Lowest elevation of machinery or equipment servicing the building (Describe type of equipment and location in Comments)	N/A	☒ feet	☐ meters
f) Lowest adjacent (finished) grade next to building (LAG)	144.2	☒ feet	☐ meters
g) Highest adjacent (finished) grade next to building (HAG)	146.3	☒ feet	☐ meters
h) Lowest adjacent grade at lowest elevation of deck or stairs, including structural support	N/A	☒ feet	☐ meters

SECTION D – SURVEYOR, ENGINEER, OR ARCHITECT CERTIFICATION

This certification is to be signed and sealed by a land surveyor, engineer, or architect authorized by law to certify elevation information. *I certify that the information on this Certificate represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S Code, Section 1001.*

Were latitude and longitude in Section A provided by a licensed land surveyor? ☒ Yes ☐ No ☒ Check here if attachments.

Certifier's Name	License Number	
R. Allen Flynt	PS-01762	
Title: Professional Surveyor		
Company Name: Flynt and Associates, PLLC		
Address: 518 Old Richton Road		
City: Petal	State: Mississippi	ZIP Code: 39465
Signature: R. Allen Flynt	Date: 07/25/2017	Telephone: (601) 582-1818

Place Seal Here

Copy all pages of this Elevation Certificate and all attachments for (1) community official, (2) insurance agent/company, and (3) building owner

Comments (including type of equipment and location, per C2(e), if applicable)
Flood certificate for 24' x 50' (1,200 square foot) show room expansion toward E. Hardy Street

The centerline of Davis Street due east of the south line of the existing building is at elevation 141 70.
The centerline of East Hardy due south of the center of the existing building is at elevation 144 88

GENERAL INFORMATION 360-PPA

This brochure is mailed annually to provide flood safety information, and requirements for development within designated flood areas, to all property owners and residents of the City of Hattiesburg. The current flood maps for the City of Hattiesburg became effective on March 2, 2010, and reflect the most accurate data available. If you are unsure of the status of your property, please contact the City of Hattiesburg Planning Division at the number provided on this brochure. Floodplain maps, reference materials, elevation certificate records, and other floodplain information are available in the Planning and Land Code Departments located at City Hall, as well as the City of Hattiesburg website. Additional reference materials are also available at the Hattiesburg Public Library and the U.S.M. Cook Memorial Library. 340 OOR

FLOOD INSURANCE 340-OOR

The City of Hattiesburg has enacted and enforces ordinances designed to minimize the severity of future flood damages. By doing so, relatively low cost flood insurance is made available from the Federal government through licensed property insurance agents. This insurance may be obtained to cover future flood related losses to most structures and their contents. **FLOOD DAMAGE IS NOT COVERED BY NORMAL HOMEOWNERS' INSURANCE. YOU DO NOT HAVE TO LIVE IN A FLOOD ZONE TO PURCHASE FLOOD INSURANCE.**

THE FLOOD HAZARD 330-OP

The flood hazard in Hattiesburg comes primarily from the Leaf River and its tributary Creeks including: Gordon, Mixon, Burkett and Priest. Some areas experience local flooding not directly associated with a river or creek. Floods in Hattiesburg are of relatively short duration.

After an intense rainfall, flood waters can rise at a rate of two to three feet per hour reaching maximum stage in two hours (or less). Flood waters in some areas of the city can attain substantial velocities. April 6, 1983 was the last flood involving major river flooding with a river stage of 29.19 ft, and over 32 million dollars in damage. Flash flooding, caused by intense rainfall from a thunderstorm or several thunderstorms, is the more prevalent form of flooding in Hattiesburg and has the capability to tear out trees, destroy buildings, and wash out bridges

FLOOD SAFETY 360-PPA

Flooding presents many personal safety hazards which you should consider and take the necessary precautions. Among these:

- Turn off your electricity by tripping the circuit breakers or removing fuses.
- Turn off natural gas connections.
- Plan a safe escape route to higher ground.
- Stay away from the banks of ditches or streams which may be unstable.
- Do not attempt to cross a flooded stream on foot or by car. (strong currents or deep water may not be evident on the surface).
- Do not attempt to cross a flooded street or side walk. Water does not have to be deep to float a car or to cause you to lose your footing.
- Do not attempt to go outside or drive during a flash flood. Sight-seeing by foot, motor vehicle or 4-wheelers is dangerous. STAY INSIDE - more lives are lost due to flash flooding than any other type flooding.

FLOOD WARNING SYSTEM 610 - ETR

The Emergency Management District maintains gauges on the Leaf River and Gordon's Creek, which are read daily. The National Weather Service network is also monitored on a 24 hour/ 7 day basis.

In the event of a flood, the Emergency Management District will immediately notify all local television and radio stations, local schools, government offices, etc.

PROTECTION ASSISTANCE 360-PPA

Many buildings can be protected against flooding by "retrofitting". Retrofitting is the process of changing an existing structure in some manner. It includes techniques such as waterproofing walls and doors (used where flood elevations on the structure can withstand the pressure exerted by the water), adding waterproof fences (usually brick or concrete) with sealing gates, and even elevating the building above flood levels. Emergency measures you can take during a flood which will help reduce property damage include:

- Place furniture on beds, then place personal items on top of the furniture.
- Anchor, secure or weigh down items which may float or move and become "battering rams."
- Move cardboard and newspapers to high ground. Otherwise, they may disinter grate and/or clog drains when the flood waters recede.
- Remove wood drawers from built-ins (cabinets, etc.) and furniture. The wood can swell when wet and damage the unit.
- Place glass items in plastic bags to prevent pieces from spreading if breakage occurs.
- Put chemicals (insecticides, weed killers, those that give off heat, explosive or toxic gases when exposed to water) in waterproof containers and remove to high areas of building.
- Protect valuable machinery and equipment by enclosing them in waterproof containers. Weigh down large appliances with sandbags. When appropriate, appliances such as dishwashers, washing machines and horizontal freezers, should be filled with clean water.

360 PPA

- **IF** a qualified structural engineer has determined your structure can withstand the anticipated flood water depths, seal off all water entry points. Otherwise, let the flood water in by allowing all doors (inside and out) and windows to remain open when you expect flood waters to rise above table height on the first floor.
- Sandbag entry ways to prevent water from entering structure due to traffic driving through flooded streets.
- Avoid backflow of sewer lines by closing off all sewer line entries into the house. If this is a somewhat regular occurrence during heavy rains, you may consider installing a backflow prevention device on your sewer line. If you have a backflow prevention valve, be sure it is properly maintained.
- Disconnect the electrical supply of heavy, unmovable appliances. All appliances must be disconnected prior to reestablishing electrical service. Getting around debris or wreckage to get to electrical outlets after a flood may be difficult and/or dangerous.
- Do not place or build solid fences or other obstructions that would impede water flow. The Building Official, or Floodplain Manager, can make site visits to advise property owners of the appropriate protection procedures, can review and critique retrofitting plans for feasibility, and provide other site-specific flood and flood related data, such as floor elevations, data on historical flooding and other information that relates a flood threat to a specific neighborhood or property.

510-FMP

FLOODPLAIN DEVELOPMENT 430

To help limit the severity of floods and resulting damages, a Building Permit must first be obtained any time development is to take place within Hattiesburg. The proposed work is checked for compliance with the City's Flood Damage Prevention Ordinance. This ordinance is designed to reduce property loss during a flood event, therefore, development within the floodplain is closely controlled. "Development" means "any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures (including fences), mining, dredging, tilling, grading, paving (including driveways), excavating, drilling operations, or permanent storage of materials." You should always check with the Floodplain Manager/CRS Coordinator at the number provided, as well as obtain applicable permits, before carrying out any of these types of work, or if you suspect work is being done that has not been permitted by the City.

SUBSTANTIAL IMPROVEMENT REGULATIONS 430

The City of Hattiesburg has flood damage prevention regulations that may affect how you remodel, renovate, or add-on to your building. If your home is within a Special Flood Hazard Area, then the "cumulative substantial improvement" rule may apply. "Cumulative substantial improvement" means any reconstruction, rehabilitation, addition, or other improvement to a structure totaling 50% of the fair market value of the structure during a 5-year period. Should the amount of work reach, or exceed 50%, then the entire structure must be brought into compliance with Hattiesburg's flood damage prevention regulations. Substantially damaged structures, due to fire or any other reason, must be brought up to the same standards if the cost of repairs equals or exceeds 50% of the structure's value before it was damaged and must be elevated above the base flood elevation.

540-CDR

DRAINAGE SYSTEM MAINTENANCE AND PROHIBITING STREAM DUMPING

The City assumes responsibility for drainage ways on City property (such as through a City park or under a City street). Individual property owners are responsible for maintaining the drainage systems on their property, as well as the free flow of water within the Special Flood Hazard Area. They should not erect solid fences near drainage ditches that would prohibit water flow, and they should regularly check for, and remove, accumulated debris or man-made obstructions. Improper maintenance should be reported to the **City Action Line at: 545-4500**. It is unlawful for any person to throw, deposit, empty, drain or run into any creek or tributary, their margins, slopes or banks, any garbage, rubbish, refuse of any kind. It is also unlawful for any person to build any structure (including fences or walking bridges) over any creek, tributary, or any part thereof without first obtaining a permit. This ensures that the structure in no way obstructs the flow of water in the creek or causes an accumulation of debris, logs, trees, trash or any other matter in the creek or its tributaries.

RE: Flood Insurance Rate Map (FIRM) Information
TO WHOM IT MAY CONCERN:

The property located at: 606 S. 22nd Ave. also known as a portion of the property located at PPIN Number 26939 [or legal description if needed] has been located on our Flood Insurance Rate Map (FIRM). The following information is provided:

Hattiesburg's Community NFIP number is 280053

The properties are located in that portion of the City in Forrest County __X___ or Lamar County _____

The properties are located on panel number: 104 of 300 on Map Number: 28035C0104D

The date of the FIRM index: 03/02/10

The property is located in FIRM zone: __X, AE____

The main building on the property:

_____ is located within a Special Flood Hazard Area (100 year area, known as an "A" or "AE" Zone). Federal law requires that a flood insurance policy be obtained as a condition of a federally backed mortgage or loan that is secured by a building located in a Special Flood Hazard Area. It is up to the lender to determine whether flood insurance is required for this property. Flood insurance is available in Hattiesburg; ask your insurance agent or company about the National Flood Insurance Program. YOUR HOMEOWNER'S INSURANCE DOES NOT COVER FLOODING. More information on flood insurance is attached.

___X___ is not located in a Special Flood Hazard Area. However, the property may still be subject to local drainage problems or other unmapped flood hazard. Flood insurance is available and may be obtained at non-floodplain rates. Ask your insurance agent or company about the National Flood Insurance Program. YOUR HOMEOWNER'S INSURANCE DOES NOT COVER FLOODING. A flood insurance policy may be required by a lender.

_____ A determination of the building's exact location cannot be made on the FIRM. A copy of the FIRM is attached for your information.

NOTE: This information is based on the FIRM for this community. This letter does not imply that the referenced property will or will not be free from flooding or damage. A property not in a Special Flood Hazard Area may be damaged by a flood greater than that predicted on the FIRM or from a local drainage problem not shown on the map. This letter does not create liability on the part of the City, or any officer or employee thereof for any damage that results from reliance on this information.

Please check with your flood insurance provider to determine whether your addition will be covered under your flood insurance policy.

City of Hattiesburg
DISASTER RECOVERY
ASSISTANCE

Victim of the Recent Tornado?

Apply for FEMA Disaster Assistance NOW!

First: Call (800) 621-3362 / TTY (800) 462-7585 or visit www.DisasterAssistance.gov.

Second: Once issued a FEMA number, IMMEDIATELY visit the Disaster Recovery Center housed within the City of Hattiesburg's C.E. Roy Community Center, located at 300 E 5th St.

Hours of Operation: 8:00 a.m.- 7:00 p.m.

You do not have to wait until you receive a packet before visiting the Disaster Recovery Center.

Please note: if you are eligible for an Individual Assistance grant you are not required to pay back the grant to FEMA. However, loans from SBA must be repaid.

If you are denied, you have the right to appeal.

ITEMS YOU WILL NEED TO APPLY:

Social Security number
Address of the location where the damage occurred (pre-disaster address)
Current address
Current telephone number
Insurance information
Total household annual income
Routing and account number for your checking or savings account (this allows FEMA to directly transfer disaster assistance funds into your bank account).

EXHIBIT F 360-PPA

SECTION 4. ZONING DISTRICTS ESTABLISHED, MAP

4.1 Types of Zoning Districts.

4.1.1 All areas within the zoning jurisdiction of Hattiesburg are divided into zoning districts. Zoning districts within the City fall within one of the following three categories.

4.1.2 **Base Districts.** Each base district category serves a different purpose and imposes its own set of requirements and restrictions on the use of land in addition to the general requirements and restrictions imposed on all land or uses within the zoning jurisdiction. A base district may be layered with an overlay district.

4.1.3 **Special Districts.** Special districts are a type of base district established to implement detailed plans adopted by the City of Hattiesburg such as the Comprehensive Plan, area plans, and corridor plans. The regulations contained within the LDC for such districts are provided as a framework for review and approval. A significant part of the detail for each district is contained within the plan itself and must be reflected in proposed district site plans and documentation.

4.1.4 **Overlay Districts.** Overlay districts are established to provide for certain additional requirements, to permit uses not otherwise permitted in the underlying base district, to prohibit uses allowed in the underlying base district, or to establish special development requirements for uses permitted in the base district. Thus, where overlay districts exist and there is a conflict between the requirements or uses specified between the overlay and the underlying district, the standards of the overlay district shall prevail. Otherwise, the standards of the underlying district shall also be in effect for any area additionally zoned for an overlay district.

4.2 Establishment of Districts.

The following zoning districts are hereby established as follows:

Table 4.2-1 Base Districts 450-SMR

District Abbreviation, Name	District Category
A-1, General Agricultural	Agricultural
A-2, Agricultural Residential	Agricultural
R-1A, Single-family Residential	Residential
R-1B, Single-family Residential	Residential
R-1C, Single-family Residential	Residential
R-2, Two Family Residential	Residential
R-3, Multi-Family Residential	Residential
B-1, Professional Business	Commercial
B-2, Neighborhood Business	Commercial
B-3, Community Business	Commercial
B-4, Downtown Business	Mixed Use
B-5, Regional Business	Commercial
I-1, Light Industrial	Industrial
I-2, Heavy Industrial	Industrial
Form-Based District	Mixed-Use

Table 4.2-2 List of Special Districts

District Abbreviation, Name	District Category
PMU, Planned Mixed-Use District	Mixed-Use
CD, Corridor District	Mixed-Use
FP, Floodplain Overlay District	Overlay
HD, Historic Overlay District	Overlay

4.3 Official Zoning Map.

4.3.1 **Zoning Map Is A Part Of This Code.** The boundaries of zones established by this Land Development Code shall be shown on a map or series of maps entitled Official Zoning Map. Such map or maps together with all matters shown on such maps are adopted and approved and collectively constitute the Official Zoning Map. The Official Zoning Map is incorporated by reference and made a part of the Land Development Code.

SECTION 9. ENVIRONMENTAL STANDARDS

9.1 STORMWATER. 450-SMR

9.1.1 Purpose. The purpose of these regulations is to safeguard persons, protect property, prevent damage to the environment and promote the public welfare by guiding, regulating, and controlling the design, construction, use and maintenance of all stormwater facilities and development. It is more specifically the intent of these regulations to address requirements under the federal Clean Water Act, National Pollution Discharge Elimination System Phase II or any appropriate national standard.

9.1.2 Definitions

9.1.2.1 Best Management Practices (BMPs) - schedules of activities, prohibitions of practices, general good housekeeping practices, pollution prevention and educational practices, maintenance procedures, and other management practices to prevent or reduce the discharge of pollutants directly or indirectly to stormwater , receiving waters, or stormwater conveyance systems. BMPs also include treatment practices, operating procedures, and practices to control site runoff, spillage or leaks, sludge or water disposal, or drainage from raw materials storage.

9.1.2.2 Clearing - any activity which removes part or all of the vegetative ground cover and/or trees including, but not limited to, root mat removal and/or topsoil removal.

9.1.2.3 Design Storm - design criteria used for sizing stormwater management facilities and their conveyance. Design storms are a combination of the design storm return period (which refers to the frequency) and the storm duration (which defines the rainfall depth or intensity). A prescribed hyetograph and total precipitation amount (for a specific duration recurrence frequency) are used to estimate runoff for a hypothetical storm for the purposes of analyzing existing drainage, designing new drainage facilities, or assessing other impacts of a proposed project on the flow of surface water.

9.1.2.4 Fill - the deposit of soil, rock or other material placed by man.

9.1.2.5 Grading - any excavating or filling of earth materials or any combination thereof.

9.1.2.6 Illicit Discharge - any direct or indirect non-stormwater discharge to the storm drain system, except as exempted in this Ordinance.

9.1.2.7 Land Disturbance Activity - any clearing, filling, excavation or grading activity on one or more contiguous undeveloped lots.

9.1.2.8 Low Impact Design (LID) - an approach to land development/redevelopment that works with nature to manage stormwater as close to its source as possible. It includes principles such as bioretention facilities, rain gardens, vegetated rooftops, rain barrels, and permeable pavements.

9.1.2.9 National Pollution Discharge Elimination System (NPDES) permit - a permit issued pursuant to 33 U.S.C. Chapter 26 Water Pollution Prevention and Control, Subchapter IV Permits and Licenses, Section 1342 that authorizes the discharge or pollutants to waters of the United States, whether the permit is applicable on an individual, group, or general area-wide basis.

9.1.2.10 Stormwater Pollution Prevention Plan (SWPPP) - a document which describes the best management practices and activities to be implemented by a person or business to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to stormwater, stormwater conveyance systems, and/or receiving waters to the maximum extent practicable.

9.1.2.11 Stormwater - water induced or created from precipitation whether rain, snow or ice and either stored, collected, detained, absorbed, or discharged.

9.1.3 Post Development Discharge. Post-development discharge rates shall not exceed pre-develop-

bc

ment discharge rates from any development site. Engineering detail and documentation including a stormwater plan for the site shall be required at the time of application as specified herein.

9.1.4 Illicit Discharges and Connections.

9.1.4.1 It shall be unlawful for any person to allow discharges to the city stormwater drainage system that are not composed entirely of stormwater runoff, or to contribute to increased non-point source pollution and degradation of receiving waters.

9.1.4.2 It shall be unlawful for any person, or to allow others under its control, to throw, deposit, empty, drain, discharge or to permit to be thrown, deposited, emptied, drained or discharged into the city stormwater drainage system or watercourses located within the city limits any materials, including but not limited to pollutants or waters containing pollutants that cause or contribute to a violation of applicable water quality standards, or stormwater.

9.1.4.3 Discharge exemptions.

1. Discharges specified in writing by the city or other authorized enforcement agency as being necessary to protect public health and safety;
2. Water line flushing performed by a government agency or utility authority; and
3. The following activities and discharge of any other water source not containing pollutants:
   a. Landscape irrigation or lawn watering;
   b. Rising groundwater;
   c. Ground water infiltration to storm drains;
   d. Uncontaminated pumped ground water;
   e. Foundation or footing drains (not including active groundwater dewatering systems);
   f. Crawl space pumps;
   g. Air conditioning condensation;
   h. Springs;
   i. Non-commercial washing of vehicles;
   j. Natural riparian habitat or wetland flows;
   k. Swimming pools;
   l. Firefighting activities; and
   m. External building wash down.
   n. The prohibition shall not apply to any non-stormwater discharge permitted under NPDES permit, waiver, or waste discharge order issued to the discharger and administrated under the authority of the Federal Environmental Protection Agency, provided that the discharge is in full compliance with all requirements of the permit, waiver, or order and other applicable laws and regulations, and provided that written approval has been granted for any discharge to the stormwater drainage system.

9.1.4.4 Illegal Connections.

a. The construction, connection, use, maintenance or continued existence of any illegal connections to the city stormwater drainage system is prohibited. This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.

b. A person is considered to be in violation of this chapter if the person connects a line conveying sewage to the city's stormwater drainage system, or allows such a connection to continue.

c. Improper connections in violation of this section must be disconnected and redirected, if necessary, to an approved onsite wastewater management system or the sanitary sewer system upon approval by the appropriate city department or other authorized enforcement agency.

   1. Any drain or conveyance that has no been documented in plans, maps or equivalent, and which may be connected to the city's stormwater drainage system,

bc

of impervious surface.

9.1.6.3 Curb and guttering that directs the first one inch of rainfall to an offsite stormwater conveyance shall be prohibited unless such conveyance is designed to discharge to an adjacent bioretention island or detention pond that has been approved by the City and is part of an approved stormwater plan.

9.1.6.4 Shared parking shall be used whenever possible.

9.1.6.5 Open space areas set aside in residential cluster developments may be used for onsite treatment of stormwater consistent with an approved stormwater plan.

9.1.7 Storm Drainage System Design. All storm drainage systems shall meet the following standards. For design elements not covered by the following standards, the standards approved by MDOT or AASHTO, whichever is most stringent, shall prevail.

9.1.7.1 General Standards.

1. The design of stormwater drainage systems shall insure adequate control of stormwater runoff through the use of properly sized and positioned drainage structures including both conventional and low impact development structures.

2. The design of stormwater drainage systems shall be compatible with a stormwater drainage plan approved for the site by the City Engineer at a site plan review meeting. Minimum right-of-way required by the plan shall be dedicated.

3. Drainage facilities shall be designed to prevent damage to adjacent properties.

- Accommodation of Upstream Drainage Areas: A culvert or other drainage facility shall in each case be large enough to accommodate potential runoff from the entire upstream drainage area as determined by the design engineer. The City Engineer shall approve the necessary size of the facility, based on the provisions of the construction standards and specifications assuming conditions of maximum potential watershed development.

- Effect on Downstream Drainage Areas: The Developer's Engineer shall also study the effect of each subdivision on existing downstream drainage facilities outside the area of the development

- Design Storm Frequency: Projects shall be designed for the twenty-five (25) year, twenty-four 24 hour frequency storm event. Peak discharge rates for fifty (50) and one hundred (100) year frequency storm events shall be calculated and the effect of these storms on the stormwater system shown. This shall be submitted as part of the Land Disturbance Permit application.

9.1.7.2 Low Impact System Design. Natural and vegetated stormwater management systems such as swales, constructed wetlands, and bioretention cells may be used to manage stormwater and comply with federal and local stormwater regulations. All low impact stormwater systems shall meet the intent and specifications specified in Erosion Control, Sediment Control and Stormwater Management on Construction Sites and Urban Areas, Volume 2, Stormwater Management, published by the Mississippi Department of Environmental Quality (MDEQ) or current version thereof, unless otherwise specified in these regulations.

9.1.7.3 Storm Drainage Pipe and Culverts.

1. Pipe and culvert sizes shall be selected by use of computed hydrological and hydraulic data. Design flows shall be based on climatic factors such as rainfall intensity, duration, frequency and distribution and physiographic factors such as size, shape, and slope of drainage area, anticipated land use or cover, surface infiltration condition, soil type and topographical condition. Pipe selection shall be based on its hydraulic capacity con-

shall be located by the owner or occupant of that property upon receipt of a written notice of violation from the city requiring that such locating be completed; and

2. The format in which the written results of the investigation will be provided to the city shall include, but not be limited to, the following:

- Identification of the drain or conveyance as storm sewer, sanitary sewer or other;
- Identification of the outfall location or point of connection to the stormwater drain system, sanitary sewer system or other discharge point; and
- Information regarding sizing, content and volume of outfall, and date of connection to the city system.
- Specify a reasonable time period, within which the location of the drain or conveyance is to be completed.

9.1.5 Notification of Spills. Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials from that facility or operation that are resulting or may result in illegal discharges or pollutants discharging into stormwater, the city stormwater drainage system, state or United State waters, said person shall take all necessary steps to ensure the discovery, containment, and clean-up of such release.

9.1.5.1 In the event of a release of hazardous materials, said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services.

9.1.5.2 In the event of a release of non-hazardous materials, said person shall notify the Director of Engineering or his/her representative in person or by telephone or e-mail no later than the next business day. Notifications in person or by phone shall be confirmed by written notice addressed and mailed, certified receipt required, to the Engineering Department within three business days of the verbal notice.

9.1.5.3 If the discharge of prohibited material emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least three years. Said person also shall take immediate steps to ensure no recurrence of the discharge or spill.

9.1.5.4 Any violation of this section is subject to the violations and penalties and prosecution found in the Hattiesburg Land Development Code.

9.1.6 Low Impact Design Encouraged. In order to balance growth needs with environmental protection, reduce municipal infrastructure and utility maintenance costs (e.g. streets, curbs, gutters, sidewalks, storm sewer), reduce stormwater management costs, preserve the integrity of ecological and biological systems, protect water quality by reducing sediment, nutrient, and toxic loads to water bodies, and to preserve trees and natural vegetation, low impact design is encouraged for all non-residential projects and all residential projects containing more than 10 dwelling units. All projects are encouraged to meet the following criteria.

9.1.6.1 Site design. Site design shall minimize impervious surface and alteration of natural vegetation and topography, and shall meet the following requirements:

i. Clearing and re-grading on a development site shall be minimized.

ii. Clearing shall be done in phases to minimize the amount of bare ground at any one time.

9.1.6.2 New streets, whether dedicated to the public or private internal drives serving multiple tenants on a single parcel, shall be designed in such a way as to minimize the total amount

tc

may complete the work with the owner responsible for all the costs.

9.1.7.7 Additional Site Plan Requirements. In addition to all other site plan or subdivision plat submittal requirements, the following information shall be shown on or submitted along with applications for land development or land subdivision where there are additions or alterations to existing natural or manmade stormwater infrastructure.

1. The location of all private drainageways.

2. Ownership, intended or actual, of all private drainageways.

9.1.7.8 Box Culverts and Bridges. The structural design of all box culverts or bridges shall conform to the standards established by MDOT. Bridges requiring spans greater than 19 feet shall be constructed of reinforced concrete or structural steel with a reinforced concrete deck. No mud sills or timber grills will be permitted for bridge foundations. All bridges shall be provided with substantial guard rails on both sides of two five foot sidewalks.

9.1.7.9 Additional Site Plan Requirements. In addition to all other site plan or subdivision plat submittal requirements, the following information shall be shown on or submitted along with applications for land development or land subdivision where there are additions or alterations to existing natural or man-made stormwater infrastructure.

i. The location of all private drainage ways.

ii. Ownership, intended or actual, of all private drainage ways.

iii. A proposed maintenance plan for all private stormwater infrastructure. Such plan shall be required to be recorded in the Chancery Clerk's office after approval by the City prior to issuance of a certificate of occupancy or other use of the property.

iv. The location of all maintenance easements providing access to any stormwater structure such as detention ponds and bioretention areas.

9.2 Sedimentation and Erosion Control. 450-ESCANQ

In order to safeguard persons, protect property, and prevent damage to the natural environment, habitat and stormwater systems in Hattiesburg the following regulations are hereby established to guide and control the design, construction, use, and maintenance of any development or other activity that disturbs the topsoil or alters the flow of stormwater as a result from land disturbance activity within the City.

9.2.1 Land Disturbance Permit Required. No land disturbance, construction or land development activity may commence, and no land owner or land developer shall receive Site Plan Approval, preliminary plat approval, or any building, grading or other land development permits required for land disturbance activities without first meeting the requirements of this ordinance. Permits fo land disturbance and storm water pollution prevention plans (SWPPP) are required as follows.

9.2.1.1 Less Than One-Half Acre (21,780 square feet) of Land Disturbed. Land disturbance activity on a site from one-half acre to 0.999 acres shall require a Land Disturbance Permit and shall follow best management practices. If the site has, at a minimum, one-half acre (21,780 square feet) of impervious area, a SWPPP and storm water calculations shall be required. Additional information may be requested at site plan review.

9.2.1.2 One-Half Acre to 0.999 Acre of Land Disturbed. A City of Hattiesburg Land Disturbance Permit is required. A SWPP is not required.

9.2.1.3 One Acre to 4.999 Acres of Land Disturbed. A City of Hattiesburg Land Disturbance Permit, a Small Construction General Permit, a Notice of Intent (NOI) and SWPPP are required. The application packets are available from the City of Hattiesburg's Department of Urban Development. (MDEQ's approval of

tc

sidering size, slope, and roughness characteristics as well as its tendency to become choked and the ability to clean and remove obstructions. Selection is subject to Engineer's approval.

2. Cross drains shall be provided to accommodate all natural water flow and shall be of sufficient length to permit construction of a full width roadway including side slopes. Headwalls or flared end sections as well as channel bottom and slope protection shall be provided at the upstream and discharge end of the cross drain as required by the City Engineer.

3. Pipe material must be approved by the City Engineer, however, corrugated metal pipe is prohibited.

9.1.7.4 Streets, Curb and Gutter, Inlets and Parking.

1. The horizontal and vertical alignment of streets shall be compatible with the storm water runoff system and drainage design.

2. Street grades shall be coordinated with lot drainage as proposed in the grading plan.

3. The hydraulic capacity of the curb and gutter shall be determined by accepted engineering procedure taking into consideration roughness, street cross-slope, and street gradient, and allowable spread of water over the travel line.

4. Curb inlets shall be designed in accordanced with MDOT standards.

9.1.7.5 Detention and Retention Areas.

1. Retention and Detention areas shall be landscaped. A vegetated green space shall be placed and maintained around stormwater runoff storage areas.

2. Retention and Detention areas with a water surface area smaller than 1,000 sq. ft. shall have a five foot vegetated green space around the perimeter and a 10 foot vegetated green space around the perimeter of areas larger than 1,000 sq. ft.

3. Design of vegetated green space required by this subsection, including materials to be used shall be submitted on a landscaping plan for the site and shall be subject to site plan approval as part of a land development permit application.

9.1.7.6 Maintenance Agreements.

1. A legally binding Maintenance Agreement specifying the parties responsible for the proper operation and maintenance for all permanent stormwater management facilities shall be included as part of the Land Disturbance Permit application and secured prior to the issuance for any permits for land disturbance activities.

2. Enforceable operations and maintenance agreements included as part of the covenant are required to ensure the system will function as designed during and after construction. The Maintenance Agreement will include any and all maintenance easements required to access and inspect the stormwater treatment practices, and to perform routine maintenance as necessary to ensure proper functioning of the stormwater treatment practices. The parties responsible for the documented SWPPP BMPs shall make records of the installation, maintenance and repairs of the facility and shall retain these records for at least 5 years. These records shall be made available to the City of Hattiesburg during inspection of the facility and at other reasonable times upon request.

3. Failure of the owner or operator to maintain the premises shall be cause for the city to take action and to remedy the violation. If the owner fails to perform the maintenance the City of Hattiesburg

2. Utilization of construction BMPs are required throughout demolition or development/redevelopment until such time as a certificate of occupancy is issued or until permanent vegetation is established.

3. Post-Construction BMPs are required to be installed and maintained until such time as either title transfers or the approved use of the subject property changes. A new SWPPP must be submitted by the new owner at any time there is a change in use of the property.

9.2.5.2 BMP selection is site specific, dependent upon site conditions and proposed activities, thus each project's MDEQ or city-approved SWPPP, if required, will identify appropriate pre-construction, construction and post-construction BMPs that will be subject to ongoing inspection by the city.

9.2.5.3 The Erosion Control, Sediment Control and Stormwater Management on Construction Sites and Urban Areas manual, prepared by the Mississippi Department of Environmental Quality, identifies BMPs acceptable to the City of Hattiesburg and related standards for the prevention, treatment and control of non-point sources (NPS).

9.2.5.4 Acceptable methods for accomplishing the installation and maintenance of site specific BMPs is provided in detail in the Erosion Control, Sediment Control and Storm water Management an Construction Sites and Urban Areas, Volume 2, Storm Water Management, published by the Mississippi Department of Environmental Quality (MDEQ) or current version thereof.

9.2.6 Permit Procedures.

9.2.6.1 Responsibilities. The following responsibilities will apply to this ordinance:

a. Site Design and Review Committee. The City of Hattiesburg Site Design and Review Committee shall be responsible for reviewing and approving SWPPPs and BMPs when part of an applicable development.

b. Director of Engineering. The Director of Engineering or his/her designee shall be responsible for review of all Land Disturbance Permits. The Director of Engineering or his/her designee shall also be responsible for monitoring and inspecting construction projects in accordance with this Ordinance. This shall include enforcement of properties found non-compliant with this ordinance. The Engineering Department will coordinate with the Department of Urban Development on enforcement issues.

c. Building Official. The Building Official, acting as a representative of the Urban Development Department, or his/her designee shall be responsible for receiving and issuing land disturbance permits, subject to approval. Other responsibilities may include monitoring and inspecting, as required of properties with approved Land Disturbance Permits.

9.2.6.2 Application. Applications for a Land Disturbance Permit may be obtained at the City of Hattiesburg's Building Office in the Department of Urban Development and shall be returned to this office when the application is completed.

9.2.6.3 Review. The Land Disturbance Permit application will be reviewed by the Director of Engineering or his/her designee in accordance with all the requirements of this Ordinance. If required, the Director of Engineering or his/her designee shall submit his recommendation for the application to the Site Design and Review Committee for review.

9.2.6.4 Permit Issuance. Upon approval by the Director of Engineering and the Site Design and Review Committee, if required, the City of Hattiesburg's Building Office in the Department of Urban Development shall issue a Land Disturbance Permit to the applicant.

9.2.6.5 Inspection. The City of Hattiesburg Engineering Department will inspect all projects issued a Land Disturbance Permit upon initia installation of all erosion and sedimentation control devices. The Engineering Department will also conduct random inspections

tc

the Small Construction General Permit application is not required, unless deemed necessary.).

9.2.1.4 Five Acres or Greater. A City of Hattiesburg Land Disturbance Permit, a MDEQ Large Construction Permit, NOI and SWPPP are required. The Large Construction General Permit package must be submitted directly to MDEQ, Jackson, MS. No permits will be issued pending MDEQ approval of a Large Construction General permit. Copies of the permit application and subsequent modifications and approvals shall be submitted to the City of Hattiesburg Site and Design Review Committee.

Table 9.2 Land Disturbance Permit Requirements

Acre(s) Disturbed	Land Disturbance Permit Required from the City	Construction Permits (including Notice of Intent & SWPPP) Required	Submittal and Approval Required by:
Less than ½ acre (21,780 sq. ft.)	Yes	No	City
0.5 (½) acre to 0.999 acre	Yes	No	City
1 acre to 4.999 acres	Yes	Small Construction General Permit	City
5 acres or greater	Yes	MDEQ Large Construction General Permit	MDEQ

9.2.2 Land Disturbance Permit Exceptions. No land disturbance permit is required for the following activities.

9.2.2.1 Any emergency activity that is immediately necessary for the protection of life, property, or natural resources.

9.2.2.2 Existing nursery, agricultural or silvicultural operations conducted as a permitted main or accessory use.

9.2.2.3 Activities not requiring a permit from the City of Hattiesburg are subject to fines for not complying with BMPs.

9.2.2.4 If waters of the United States are being filled, rerouted or dammed, the applicant shall provide proof of issuance of applicable permits/approvals from the U.S. Army Corps of Engineers.

9.2.2.5 No land disturbance or construction related permits will be issued by the City of Hattiesburg for developments five acres or larger without MDEQ approval of the Large Construction General permit. Subsequent plan modifications and approvals shall be made available to the City.

9.2.3 Area Limited. Clearing and grading shall be limited to that portion of a lot or development tract for which a valid land disturbance permit has been issued.

9.2.4 Stabilization Required. All lots or tracts cleared or graded shall be stabilized with manmade or vegetative cover.

9.2.4.1 Soil must be stabilized within seven days of clearing or inactivity in construction.

9.2.4.2 If vegetative erosion control methods, such as seeding, have not become established within two weeks, the City of Hattiesburg may require the site to be reseeded, or that a non-vegetative option be employed.

9.2.4.3 Any temporary soil stockpiles shall be stabilized or protected with sediment trapping measures to prevent erosion.

9.2.4.4 Selected permanent or temporary erosion control measures should be appropriate for the time of year, site conditions and estimated duration of use.

9.2.5 Installation of BMP's required prior to land disturbance activities.

9.2.5.1 Installation of BMPs, which address stormwater runoff, shall be required for all projects involving land disturbance activities within the City of Hattiesburg. BMPs shall be in place upon commencement of construction.

1. Utilization of pre-construction BMPs is required prior to the commencement of demolition or development/redevelopment activities.

tbc

9.2.8.4 To obtain inspections, the permittee shall notify the Director of Engineering after installation of sediment and erosion measures and at least two days prior to any land disturbance activities.

9.2.8.5 Permittee Inspection Requirements.

a. The permittee or his/her representative shall make regular weekly inspections of all control measures in accordance with the inspection schedule outlined on the approved Storm Water Pollution Prevention Plan. The purpose of such inspections will be to determine the overall effectiveness of the control plan and the need for additional control measures. All inspections shall be documented in written form.

b. Inspection of all erosion controls and other SWPPP requirements shall be performed by the permittee or his/her representative during land disturbing activities. Inspections shall be performed as follows.

1. At least once a week.

2. Within 24 hours of the end of a storm event of a half-inch or greater.

3. As often as is necessary to ensure that appropriate erosion and sediment controls have been properly constructed and maintained and determine if additional or alternative control measures are required.

4. All inspections associated with a Small Construction or Large Construction General Permit must be documented and certified, as required by the permit.

5. Documentation must include the day and time the inspection was performed, who performed the inspection, any deficiencies noted, and corrective action needed. Documentation of all inspections must be kept with the SWPPP. Inspections must continue until such time that planned construction activities have been completed, land disturbing activities have ceased and disturbed areas have been stabilized with no significant erosion occurring.

9.3 FLOODPLAIN MANAGEMENT. 310-ODR

The City of Hattiesburg Floodplain Management Ordinance adopted as Chapter 10 of the City's Code of Ordinances, as amended, shall be a part of this Land Development Code as fully as if set forth herein in its entirety. All regulations within that ordinance shall apply to any lands for which a Floodplain Overlay District has been established.

9.4 RIPARIAN BUFFERS AND BANK STABILIZATION. 450-SMR 450 ESC/WQ

9.4.1 Riparian Buffer Required. A minimum 25 foot undisturbed vegetated buffer is required along all perennial streams and around all other water bodies including wetlands. A minimum 10 foot undisturbed vegetated buffer is required along all intermittent streams.

9.4.1.1 Exceptions. Ephemeral streams, ditches, and manmade ponds and lakes located outside of natural drainageways shall not be subject to the provisions of this subsection.

9.4.2 Measurement. The buffer shall be measured landward from the top of bank of streams, the mean high water line of all ponds and lakes, and the upland edge of wetlands.

9.4.3 Permitted Uses and Activities. The following uses and activities shall be permitted by right in all riparian buffers subject to any other conditions required by this Code.

9.4.3.1 Natural or pervious footpaths no more than four feet in width providing a homeowner direct access to the stream or water body.

9.4.3.2 Passive recreational and educational uses that require limited areas of disturbance and minimal impervious surfaces including non-motorized recreational and greenway trails constructed of natural or pervious surfaces located no closer than 25 feet from the stream or water body within existing or planned public or private easements, approved as part of a site specific development

bc

throughout the construction of the project to ensure proper maintenance of BMPs is occurring and the requirements of this ordinance are being met.

9.2.6.6 Enforcement. The City of Hattiesburg Engineering Department will provide enforcement of the Stormwater Ordinance in coordination with the Department of Urban Development.

9.2.7 Stormwater Pollution Prevention Plan (SWPPP). A SWPPP shall be developed and implemented by the owner or operator of Small and Large Construction General permit projects or as requested by the City Engineer. The Stormwater Pollution Prevention Plan (SWPPP) shall at a minimum, be in accordance with the standards set forth in the "MS Storm Water Pollution Prevention Plan (SWPPP) Guidance Manual for Construction Activities" or MDEQ equivalent. The planning and design manual can be obtained from the Mississippi Department of Environmental Quality, Jackson, Mississippi.

9.2.7.1 The SWPPP must include a description of the appropriate control measures (i.e., BMPs) that will be implemented as part of the construction activity to control pollutants in stormwater discharges.

a. The SWPPP shall be retained at the permitted site or locally available. A copy of the SWPPP and all inspections reports must be made available to the City of Hattiesburg and/or MDEQ inspectors for review at the time of an on-site inspection.

b. BMPs shall be in place upon commencement of construction.

c. The Director of Engineering or their designated representative may notify the owner or operator at any time that the SWPPP does not meet the minimum requirements of this permit. After notification, the owner or operator shall amend the SWPPP, implement the changes and certify in writing to the Director of Engineering that the requested changes shall be made within 5 business days.

d. The owner or operator shall amend the SWPPP and implement the changes before there is a change in land disturbance, construction, operation, or maintenance, which may potentially affect the discharge of pollutants to State waters.

9.2.7.2 The owner or operator shall amend the SWPPP and implement the changes if the SWPPP proves to be ineffective in controlling stormwater pollutants including, but not limited to, significant sediment leaving the site and non-functioning BMPs.

9.2.8 Inspections.

9.2.8.1 Right of Entry for Inspections.

a. When any new drainage control facility is installed on private property, or when any new connection is made between private property and a public drainage control system, sanitary sewer or combined sewer, the property owner shall grant to the city the right to enter the property at reasonable times and in a reasonable manner for the purpose of inspection. This includes the right to enter a property whenever there is a reasonable basis to believe that a violation of this Ordinance is occurring or has occurred, and to enter when necessary for abatement of a public nuisance or corrections of a violation of this Ordinance.

b. All drainage facilities located on private property, whether dedicated to the city or not, shall be accessible at all times for inspection by the city.

9.2.8.2 City Inspections. The Director of the Engineering Department or his/her designated representative shall coordinate all inspections required by this ordinance and shall notify the permittee wherein the work fails to comply with this ordinance or their approved Storm Water Pollution Prevention Plan.

9.2.8.3 Plans bearing the stamp of approval of the Site Design and Review Committee shall be maintained at the project site and made available for periodic inspection by the City of Hattiesburg and/or MDEQ during the progress of the work.

tc

stormwater and floodwater, recharging groundwater, and providing important wildlife habitat.

9.5.2 Activities Limited. The following activities shall not be permitted within or adjacent to any wetland unless otherwise approved as part of a Land Development or Floodplain Permit.

9.5.2.1 Removing, excavating, disturbing or dredging soil, sand, gravel, minerals, organic matter or materials of any kind.

9.5.2.2 Dumping, discharging or filling any material.

9.5.2.3 Draining, flooding or disturbing the water level or water table.

9.5.2.4 Alteration, construction, reconstruction, or demolition of any structure or infrastructure, including driving pilings or placing obstructions.

9.5.2.5 Destroying or altering wetland vegetation through clearing, harvesting, shading or planting vegetation that would alter the wetland or buffer character; provided, that these activities are not part of a permitted siviculture use.

9.5.2.6 Activities that result in significant changes in water temperature, physical or chemical characteristics of the wetland or buffer, including water quantity and quality, soil flow, or natural contours.

9.5.2.7 Any other activity potentially affecting a wetland or wetland buffer not otherwise exempt from this Code.

9.5.3 Activities Exempted. The following activities are exempt from the requirements of this section.

9.5.3.1 Work such as mowing, maintenance, cleaning, excavation, or repair/replacement of flow control structures of artificially created wetlands intentionally created from non-wetland sites, including but not limited to grass-lined swales, irrigation and drainage ditches, detention facilities, and landscaping features. In those cases where stormwater control structures or devices were previously permitted in regulated wetlands, the only exempt activity shall be allowed and it shall be limited to the minimum necessary to maintain the outlet or inlet structure. If the wetland requires additional work to maintain storage capacity as envisioned per the original permit approval, a report shall be prepared by a qualified wetland specialist that analyzes the extent, type, and function of wetland to determine the extent of the regulated or exempt activity.

9.5.3.2 Work in wetlands unintentionally created as a result of road, street, or highway construction.

9.5.3.3 Maintenance, operation and reconstruction of existing roads, streets, railroad lines, utilities and associated structures undertaken pursuant to best management practices, provided activities shall not increase the impervious area by more than two hundred square feet and disturbed areas are restored to an acceptable usable condition as required by the City Engineer.

9.5.3.4 Normal maintenance, repair and reconstruction of private or publicly-owned structure undertaken pursuant to City Engineer approved best management practices; provided, that reconstruction of any structures shall not impact more than 1,000 square feet of wetlands, including their associated buffers, and shall not increase the structural footprint.

9.5.3.5 Site investigation work and studies necessary to prepare land use applications, including soils tests, water quality studies, wildlife studies and similar tests and investigations; provided, that any disturbance of the wetland shall be the minimum necessary to carry out the work or studies.

9.5.3.6 Education activities, scientific research, and outdoor recreational activities, including but not limited to, interpretive field trips, bird watching and hiking and associated interpretive signage that will not have a significant effect on the wetland.

9.5.3.7 Emergency activities that are required due to acts of nature or emergency utility repairs that are necessary to prevent an immediate

bc

plan.

9.4.3.3 Buffer planting that does not require grubbing or grading of more than 100 square feet or the removal of natural cover for more than 48 hours.

9.4.3.4 Streambank stabilization including live staking and other natural planting techniques to control erosion.

9.4.3.5 Maintenance of plant materials as needed, including pruning, trimming and removal of dead or dying plant materials, including underbrush, invasive plant management, and removal of hazardous trees where owners' property or adjacent properties, or the health and safety of the general public or employees are in danger of damage or where slope stabilization could be negatively affected where otherwise consistent with the requirements of this Code.

9.4.3.6 Maintenance, operation and reconstruction of existing roads, streets, railroad lines, utilities and associated structures undertaken pursuant to best management practices, provided activities shall not increase the impervious area by more than two hundred square feet and disturbed areas are restored to an acceptable usable condition as required by the City Engineer.

9.4.3.7 Normal maintenance, repair and reconstruction of private or publicly-owned structures undertaken pursuant to City Engineer approved best management practices; provided, that reconstruction of any structures shall not significantly impact the performance of buffers, and shall not increase structural footprint.

9.4.3.8 Site investigation work and studies necessary to prepare land use applications, including soils tests, water quality studies, wildlife studies and similar tests and investigations; provided, that any disturbance of the buffer shall be the minimum necessary to carry out the work or studies.

9.4.3.9 Education activities, scientific research, and outdoor recreational activities, including but not limited to, interpretive field trips, bird watching and hiking and associated interpretive signage that will not have a significant effect on the buffer.

9.4.3.10 Emergency activities that are required due to acts of nature or emergency utility repairs that are necessary to prevent an immediate threat to public health, safety or property.

9.4.4 Prohibited Uses and Activities. Any use or activity not expressly permitted by 9.4.3 shall be prohibited.

9.4.5 Protection During Development and Construction. Existing vegetation in riparian buffers shall be protected during all development and construction activities unless expressly permitted by the City for removal. Buffers shall be effectively demarcated in the field to prevent accidental disturbance. The drip line of trees within the buffer shall be protected even when they lie outside the minimum buffer and shall be included in the demarcated area. The method of demarcation shall be approved by the City Arborist and must at minimum be consistent with generally accepted best management practices.

9.4.6 Discharge. No stormwater shall be directly discharged into a jurisdictional wetland without onsite pretreatment.

9.4.7 Use of Natural Streambank and Shoreline Stabilization Required. Unless otherwise approved by the City Engineer, only natural streambank and shoreline stabilization may be used along any perennial stream or water body. Natural stabilization includes bioengineering techniques such as live staking, root wads, tree revetments and the limited, strategic use of large rocks. Loose gravel, sand, rip rap, wire mesh and similar materials not commonly used in bioengineering shall not be used.

9.5 WETLANDS

9.5.1 Purpose. The purpose of these regulations is to protect public health, safety and general welfare by protecting the integrity of jurisdictional wetlands. Wetlands perform important biological and physical functions such as helping to maintain water quality, storing and conveying

tc

the zoning district in which they are located. In no case shall such bonuses permit the building or development to encroach upon any required buffer or open space; however, minimum setbacks may be reduced by up to 20% to accommodate the increased density.

9.7.4.2 Fee Waiver. All fees related to land development approval shall be waived for all eligible development.

9.7.4.3 Tax Abatement. Abatement of any taxes as specified by City policy for any green, development, infill, or grayfield development located within an adopted Central Business District or Redevelopment Area.

threat to public health, safety or property.

9.5.3.8 Minor activities such as invasive plant management; snagging of dead, dying, or diseased vegetation; and removal of hazardous trees where owners' property or adjacent properties, or the health and safety of the general public or employees are in danger of damage or where slope stabilization could be negatively affected that are determined by the City to have minimal impacts to wetlands and wetland buffers.

9.5.3.9 Construction of new utility facilities or improvements to existing utility facilities that take place within existing improved right-of-way or existing impervious surface that does not increase the amount of impervious surface, or the use of trenchless technology that would not disturb the wetland or wetland buffer such as boring, tunneling or jacking under a wetland.

9.6 Grading and Clearing.

9.6.1 Permit. No lot shall be graded or disturbed prior to issuance of a Land Development Permit.

9.6.2 Area Limited. Clearing and grading shall be limited to that portion of a lot or development tract for which a valid building permit has been issued or for which a preliminary plat has been approved.

9.6.3 Stabilization Required. All lots or tracts cleared or graded shall be stabilized with manmade or vegetative cover as required by the landscaping provisions of this Code.

9.6.4 Activities Exempted. Any activities related to commercial tree harvesting, bona fide agricultural operations, and the creation or extension of public infrastructure or other activities occurring within a public right-of-way for which a Land Development Permit is not required shall not be subject to the grading and clearing regulations, but shall meet any and all other applicable regulations contained within this Code.

9.7 Green Development, Infill and Grayfield Development

9.7.1 Purpose. The City encourages the creation of green development, infill development and grayfield development and establishes incentives for such in order to:

- Promote energy independence
- Conserve natural resources
- Encourage clean energy
- Improve environmental quality
- Maximize public investment and minimize public cost
- Reduce sprawl and greenfield development

9.7.2 Definitions. As used in this Section, green development shall mean any one or a number of sustainable land development or building construction practices certified by the US Green Building Council or comparable organization approved by the City. Infill development shall mean the location of new development on parcels, whether or not previously developed, that are surrounded on two or more sides by existing development or development-related infrastructure. Grayfield development is a particular type of infill development that occurs on previously developed parcels that are underused, obsolete, or in a state of disrepair or decline.

9.7.3 Applications and Review. Developers, homeowners and contractors may apply for one or more of the following incentives. The Director shall review each application and shall determine whether or not the project is eligible for these incentives. Applications shall be submitted prior to construction.

9.7.4 Incentives Available. The following incentives shall be available for eligible projects as noted.

9.7.4.1 Density Bonus. All eligible residential developments shall be granted a density bonus equal to 130% of the maximum dwelling units per acre permitted in the zoning district in which they are located. All eligible non-residential and mixed use buildings shall be granted a density bonus equal to 130% of the maximum floor area ratio permitted in

ANNUAL PROGRESS REPORT
ON THE PROPOSED AND CURRENT ACTIVITIES
OUTLINED IN THE MULTI-JURISDICTIONAL

MULTI-HAZARD MITIGATION PLAN

FOR THE CITY OF HATTIESBURG, MS
(Activity 510)
January 2018

MITIGATION STRATEGY 1: **ENCOURAGE THE DEVELOPMENT OF NEW BUILDINGS AND INFRASTRUCTURE AND THE MAINTENANCE OF EXISTING FACILITIES AND INFRASTRUCTURE THAT WILL MITIGATE HAZARDS.**

Actions:

a. **Mitigate County critical facilities located in Special Flood Hazard Areas:**

1. Funding is still a problem for the City to address this mitigation measure. While grants are available, many of the facilities are privately owned and the City is unable to address private interest.

2. City staff is still searching for funding for City owner facilities. Applying for MEMA grants is still an option; however, we have not found any in time to meet Notice of Intent and Pre-Application deadlines in a timely manner.

b. **Mitigate critical facilities with generators**:

1. Thirty-eight (38) facilities in City have been equipped with generators since Hurricane Katrina.

c. **Create a plan that addresses current and future issues in Forrest County:**

1. As reported previously the City's portion of this item was completed in December 2008, when the City Council approved our Comprehensive Plan, ending a 2-year process that was heavily influenced by public participation.

d. **Reestablish corridors along river and streambeds in Forrest County:**

1. Grant application was not approved, so still pursuing other funding sources.

e. **Actively pursue and buy those properties that are considered repetitive loss properties:**

1. The City's Engineer and staff have discussed many potential projects, including possible buyouts; however, the cost benefit analysis has prohibited pursuing thus far.

Exhibit "H"

f. **Adoption of building codes in Forrest County that will address new buildings.**

1. This measure affects only Forrest County, as the City has adopted codes and is currently operating under the 2012 ICC and the 2011 NEC codes.

g. Discourage development within the Special Flood Hazard Area and in the floodway.

1. In January 2018, the City adopted the State Model Ordinance with increased regulatory matters, such as higher standards for critical facilities in 100 or 500-year zone. We also increased cumlative substantial damage and improvement periods to 10 years. *(See Exhibit C)*

h. Address the threat of unhealthy trees that are near critical facilities.

1. Grants were previously requested for this effort, but were not approved. Other funding sources still need to be identified.

i. Enhance shelter capabilities.

1. As previously reported, in August 27, 2010 the City received grants from FEMA/MEMA for the installation of fourteen (14) Safe Rooms at various publicly owned critical facilities to house first responders, city staff, etc. during a hazardous event. Two (2) were removed due to flood being in a flood zone and extreme elevation requirement making them infeasible projects; however, the other twelve (12) were installed and completed.

2. In 2009 a Forrest County Shelter was built, and the EOC office built an addition to their operations to house emergency responders during a hazardous event. Although not built by the City, both structures are located within the Hattiesburg City limits, and utilized by the city.

3. Twelve safe room for schools in unincorporated areas were approved in 2017, with construction to begin soon. The City intends to file for this same grant on the next round of available grant funds.

Exhibit "H"

MITIGATION STRATEGY 2: FOSTER AN ON-GOING COMMUNITY EDUCATION PROGRAM ON HAZARD MITIGATION SAFETY AND PREPARATION.

Actions:

a. **Educate property owners residing in flood zones on the flood risks and the benefits of acquiring flood insurance.**

1. The annual mail out of our Flood Damage, Prevention and Reduction Brochure to every city resident.was not completed in 2017, due to major staff changes, including Mayor, Department Director and multiple support staff. However, in late October the City Council hired a retired Floodplain Manager and CRS Coordinator to come back to work and train new staff to get the City back on track with our flood related issues and reporting. We expect brochures to be mailed no later than the end of May, 2018.

2. We also continue to distribute the Hurricane Evacuation Guide, Flood Damage Prevention and Reduction Ordinances, the National Flood Insurance Program, and Preparation Planning Brochure in numerous ways.

3. Our annual Night Out Against Crime Kickoff was held July 27, 2017 with over 900 citizen attendees. At that event the Planning Department had a booth and distributed literature such as Planning Brochures, Flood Damage Prevention, and Reduction brochure, National Flood Insurance Program brochure, and Stormwater Management Information. Forrest County participates in the City's Night Out Against Crime Program and passed out their "Summary of Development Process" to all attendees.

b. **Educate the citizens of Forrest County regarding stormwater, natural hazards and all related items.**

1. As stated in 2a above, the brochure to be mailed in May 2018 will address many of these items.

2. In 2008 we created a Storm Water brochure, and have held several training sessions for citizens and staff regarding storm water mitigation and compliance issues. Our latest training session for staff was November 2017 and we showed the two videos purchased ***Ground Control - Stormwater Pollution Prevention for Construction Sites*** and ***Municipal Storm Water Pollution Prevention – Storm Watch***.

3. Planning staff still utilizes a list of local surveyors and engineers which is provided to all flood permit applicants that may need an Elevation Certificate and/or structural engineering work done.

4. Planning staff still holds Pre-Application meetings with all applicants as outlined in previous reports.

Exhibit "H"

5. The regional Pinebelt Stormwater Task Force Committee still holds an annual household hazardous waste day entitled "Amnesty Day" with this year's event scheduled for April 21. DEQ grant application has been submitted and approved for this event.

6. The Task Force once again participated in the Earth Day event held by our Parks and Recreation Department. This event is held at Town Square Park and open to the general public. We continue to utilize the storm drain model built for us, and cover many topics, such as Storm Water, Recycling, Keeping Hattiesburg / Forrest County Beautiful, keeping trash out of our streets, motor oils, etc. out of our yards, and not putting (or blowing) trash and debris into streets that may clog drains and potential flood homes.

7. The city has a Sustainability Officer who implements many outreach programs, including afterschool and summer programs. These programs target 3rd graders through highschool, and discuss storm drains (and how they work) approximately six times a year.

c. Alert citizens of approaching life-threatening weather events.

1. 100 NOAA Radios were purchased in 2015 and 77 have been distributed thus far.

2. A FEMA/MEMA grant was obtained in late 2010 and seven (7) Emergency Warning Signals (Sirens) have since been installed per the map provided previously showing locations.

4. The Flood Inundation Map Project is completed and accessible here: http://water.weather.gov/ahps2/inundation/index.php?gage=hatm6.

MITIGATION STRATEGY 3: ENHANCE RESPONSE PROCEDURES AND CAPABILITIES.

Actions:

a. Address the local need of debris removal and related items after a storm.

1. Grants were requested for this effort, but were not approved. Other funding sources still need to be identified.

2. Our GIS Master Plan for all infrastructure and parcels in the city is currently in place and greatly utilized.

b. Provide first responders in Petal with necessary equipment and training to respond to gas plant disasters.

1. This measure affects only City of Petal.

c. Develop a police response unit in Petal designed to deter acts of terrorism.

1. This measure affects only City of Petal.

Exhibit "H"

MITIGATION STRATEGY 4: UTILIZE TECHNOLOGY TO PROTECT AND DEVELOP RECORDS AND DATA.

Actions:

a. **Convert existing parcel data to a format accessible by other governmental offices and the general public.**

   1. Forrest County completed this project using a third party – a company called Tri-State Consulting Services Inc., and the City and citizens now have access to all information and maps.

b. **Map groundwater-flooding areas.**

   1. The City still utilizes the map created by the original Floodplain Management Plan, which identifies all flooding outside SFHA, including flash, creek, street, drainage and even erosion areas. This is updated upon any notice from citizens of problems and is entitled the Community Assessed Hazard Area (CAHA) Map.

   2. As previously stated, the Flood Inundation Map Project is complete and accessible here: http://water.weather.gov/ahps2/inundation/index.php?gage=hatm6.

c. **Preserve classified, confidential and/or important governmental documents.**

   1. The City Council switched to open, or "paperless" government in 2011 (via Legistar and LaserFiche). All agendas and the documents associated wih each item, as well are availble.
   2. Forrest County also have their records scanned and preserved, thus allowing the city access.
   3. All floodplain/CRS records are scanned and preserved off-site as a backup of our records.
   4. Our city clerk and several other staff have attended classes on preserving records and were intrical in setting up both the Legistar and LaserFiche programs.

Exhibit "H"

ANNUAL PROGRESS REPORT
ON THE PROPOSED AND CURRENT ACTIVITIES
OUTLINED IN OUR

FLOODPLAIN MANAGEMENT PLAN

FOR THE CITY OF HATTIESBURG, MS
(Activity 510)
September 2018

PUBLIC EDUCATION AND AWARENESS:

In early May 2018, the City of Hattiesburg C.R.S. Coordinator will mail our Flood Damage Prevention and Reduction Brochure to all city residents. There has been no significant change in the previously reported ratios of 93% residential and 7% commercial in the Special Flood Hazard Areas.

The City will also mail at that time Notice to those Realtors, Lenders, and Insurance Agents, which provide Flood Insurance Rate Map Determination information.

Our D-FIRMS were effective as of March 2010, and we continue to utilize the GIS layers on all site reviews.

All previously outlined brochures are still available in various locations of the City.

The Site Plan Review (SPR) Committee still meets weekly to review all development plans submitted, except for single-family residential. The City still has two Certified Floodplain Managers on staff (Planning Manager and the Building Official) for reviewing and approving permits and issuing Certificates of Occupancy. The new CRS Coordinator is in the process of scheduling classes for both NFIP and CRS courses and will take the exam upon completion.

FLOOD PROTECTION ASSISTANCE:

The City still performs annual maintenance along Gordon's Creek, the Leaf River and the Bouie River. Full reports of these inspections are maintained in the Public Works Department, and are available upon request.

We continue to receive calls from the public and all departments of the City with any known "problems" through our Action Line. Staff and Administration monitor all reported calls.

Other drainage work continues to be done.

Exhibit "H"

We still continue to give on-site assistance to citizens regarding ways to protect their property from future flooding. We also still maintain a library of FEMA technical bulletins and booklets on a variety of flood related issues, as does our local public and university libraries

FLOOD HAZARD AREA MAPPING:

We continue to update our GIS maps as Letters of Map Amendment are received.

Our GIS system continues to maintain many map layers, all of which are available to all departments and citizens for permitting or development use.

PUBLIC INVOLVEMENT:
(See the first paragraph of the "Increase Flood Education" section of this report).

STATEMENT OF GOALS:

Address Repetitive Loss Areas
We continue to perform drainage work to reduce flooding.

Increase Floodplain Education
We continue to meet with various groups to discuss flood zones, repetitive loss and community assessed hazard areas for each neighborhood.

The City of Hattiesburg continues to distribute NOAA radios to our senior citizens and low income households. To date, approximately 77 have been distributed since 2015. The criteria brochure has previously been submitted for your review.

We again presented information at the Earth Day Event.

Provide Continuous Drainage Work
We continue to do drainage ditch bank stabilization, widening and slope protection in all areas of the City.

Exhibit "H"

Revise Floodplain Ordinances and Continue coordination with Other Agencies

Our Multi-Hazard Mitigation Plan is due to be revised in late 2018. The City plans to include a Program for Public Information Strategy Team and revise and incorporate our current Floodplain Management Plan into the Multi-Hazard Mititgation Plan.

In updating our Multi-Hazard Mitigation Plan, we continue to work with both Lamar and Forrest Counties on many projects that affect the City, as well as with critical care facilities, businesses and officials.

The Regional Pine Belt Stormwater Committee is currently in the planning stages of our next Annual Amnesty Day Event to be held April 21, 2018.

As stated in the Mitigatin section of the annual report, a retired Floodplain Manager/CRS Coordinator has been hired to train current staff, and they plan to submit a modification application this year.

ALTERNATIVE AND RECOMMENDED MEASURES:

Preventive Activities

We continue to utilize our Comprehensive Plan for 2008-2028, 30-year Metropolitan Transportation Plan, and other codes to address several flood related issues.

As an MS-4 for Stormwater Management, we continue to hold training and other events through the Pinebelt Stormwater Task Force, such as: our annual Amnesty Day (Right-Way-to-Throw-Away), Earth Day events described in the Mitigation Plan Report under Mitigation Strategy 2b.

Property Protection

As stated above, our Flood Hazard Prevention Ordinance was updated earlier year and may again be updated again this year as part of the modification application.

The Planning Division completed to process of developing the LDC in 2018.

The Land Development Staff continues to check flood zones prior to any building, grading, sign or other permit issuance, and receives elevation certificates as required. As stated in Mitigation Strategy 2 b4 and 2 b5, we maintain and distribute a list of local surveyors and engineers, and require pre-application meetings for all development.

FLOOD WARNING PROGRAM:

The Emergency Management District still receives readings twice a day from the Jackson Weather Service for river flooding, and still maintains their own gauges on the Leaf River and Gordon's Creek, which are read daily.

Our outreach documents were amended several years ago to reflect this information.

As we previously stated, the Mississippi Department of Environmental Quality and NOAA created the Flood Inundation Maps for this area. This project is completed and fully operational here: http://water.weather.gov/ahps2/inundation/index.php?gage=hatm6.

SUMMARY:

Hattiesburg continues to make a concentrated effort to create a solid base of information on our floodplain, repetitive loss and community flood hazard areas. Hattiesburg continues to strive to reduce flooding in our City, thereby minimizing property losses to our citizens through projects such as the site plan review and permit process, and most importantly, the many creek, channel and stabilization works in progress or proposed within our City.

In 2013 upon receiving a new CRS Manual, the city reverted from a Class 6 CRS rating to a Class 8. As stated in Mitigation Strategy 2, the city is working hard to train new staff and regain a better CRS rating. Our plans are currently to submit a modification application in 2018 under the new 2017 CRS Manual, thus giving our citizens an even greater discount on flood insurance.

INDEXING INSTRUCTIONS: Lots 3 – 12, Block 5 of the Pine Crest Second Survey to the City of Hattiesburg, Section 7, T-4-North, R-13-W, Forrest County, Mississippi

STATE OF MISSSISSIPPI

County of Forrest

City of Hattiesburg

TEMPORARY CONSTRUCTION EASEMENT

For and in consideration of the sum of Ten Dollars ($10.00), cash in hand paid, the receipt and sufficiency of all of which is hereby acknowledged and confessed, including the benefits to be derived herefrom, **CHARLES O. MIDDLEBROOKS, JR., JERALD EDWIN LEVINS AND KEITH ALAN STOCKETT, as Trustees of 38th Avenue Baptist Church**, do hereby grant and convey unto the **CITY OF HATTIESBURG, MISSISSIPPI**, a municipal corporation, a Temporary Construction Easement for the North 38th Avenue Sidewalk Project as hereinafter described, with full and free right, liberty and authority to enter upon and dig, construct and maintain incidental construction. Said Temporary Construction Easement is located and situated in the City of Hattiesburg, Forrest County, Mississippi and more particularly described as follows, to-wit:

A parcel of land being located in Lots 3 - 12, Block 5 of the Pine Crest Second Survey to the City of Hattiesburg, Section 7, Township 4 North, Range 13 West, Forrest County, Mississippi, having bearings based upon Grid North and being more particularly described as follows:

Commencing at the Northwest Corner of Block 5 of the Pine Crest Second Survey to the City of Hattiesburg, thence run South 00 degrees 14 minutes 29 seconds West for 26.00 feet to a point on the Southern right-of-way of Morningside Drive; thence run along said right-of-way North 44 degrees 52 minutes 38 seconds East for a distance of 14.23 feet to and for the POINT OF BEGINNING; thence continue along said right-of-way North 44 degrees 52 minutes 38 seconds East for a distance of 14.07 feet; thence run along said right-of-way North 89 degrees 50 minutes 37 seconds East for 5.12 feet; thence leaving said right-of-way run South 00 degrees 14 minutes 29 seconds West for a distance of 329.14 feet; thence run North 89 degrees 49 minutes 54 seconds West for a distance of 3.00 feet; thence run South 00 degrees 14 minutes 29 seconds West for a distance of 150.00 feet to a point on the South line of Lot 3; thence run along the South line of said Lot 3 North 89 degrees 49 minutes 54 seconds West for a distance of 12.00 feet; thence run North 00 degrees 14 minutes 29 seconds East for a distance of 45.58 feet; thence run South 89 degrees 45 minutes 31 seconds East for a distance of 4.95 feet; thence run North 00 degrees 06 minutes 32 seconds East for a distance of 12.00 feet; thence run North 89 degrees 45 minutes 31 seconds West for a distance of 4.93 feet; thence run North 00 degrees 14 minutes 29 seconds East for a distance of 101.19 feet; thence run South 89 degrees 45 minutes 31 seconds East for a distance of 4.77 feet; thence run North 00 degrees 09 minutes 42 seconds East for a distance of 12.00 feet; thence run North 89 degrees 45 minutes 31 seconds West for a distance of 4.75 feet; thence run North 00 degrees 14 minutes 29 seconds East for a distance of 48.84 feet; thence run South 89 degrees 45 minutes 31 seconds East for a distance of 4.68 feet; thence run North 00 degrees 09 minutes 42 seconds East for a distance of 12.00 feet; thence run North 89 degrees 45 minutes 31 seconds West for a distance of 4.67 feet; thence run North 00 degrees 14 minutes 29 seconds East a distance of 237.50 feet back to the POINT OF BEGINNING. Said parcel contains 0.15 acres (6,615 square feet), more or less.

The Grantee, the City of Hattiesburg, Mississippi, is hereby given the right to do whatever may be necessary and proper for the enjoyment of the rights herein granted, including the right of ingress and egress and the right to clear said right of way above described of such trees and shrubs as may be necessary for the full enjoyment of the rights herein granted. This construction easement will revert to the Grantor upon completion of construction.

I/we fully understand that we have the right to receive just compensation for the real property herein described based on an appraisal of said property. I/we hereby waive our right to just compensation and donate the real property herein described to the City of Hattiesburg.

I/We further understand that we have the right to request that a fair market value appraisal of the property be made and I/we hereby waive that right.

WITNESS THE SIGNATURE OF THE GRANTORS, on this, the 28th day of January, A.D., 2018.

TEMPORARY CONSTRUCTION EASEMENT

For and in consideration of the sum of Ten Dollars ($10.00), cash in hand paid, the receipt and sufficiency of all of which is hereby acknowledged and confessed, including the benefits to be derived herefrom, **CHARLES O. MIDDLEBROOKS, JR., JERALD EDWIN LEVINS AND KEITH ALAN STOCKETT, as Trustees of 38th Avenue Baptist Church**, do hereby grant and convey unto the CITY OF HATTIESBURG, MISSISSIPPI, a municipal corporation, a Temporary Construction Easement for the North 38th Avenue Sidewalk Project as hereinafter described, with full and free right, liberty and authority to enter upon and dig, construct and maintain incidental construction. Said Temporary Construction Easement is located and situated in the City of Hattiesburg, Forrest County, Mississippi and more particularly described as follows, to-wit:

A parcel of land being located in the Southwest 1/4 of the Southwest 1/4 of Section 6, Township 4 North, Range 13 West, Forrest County, Mississippi, having bearings based upon Grid North and being more particularly described as follows:

Commencing at the Intersection of Southern right-of-way of Azalea Drive and the Eastern right-of-way of North 38th Avenue, City of Hattiesburg, thence run along said Southern right-of-way of Azalea Drive South 89 degrees 22 minutes 58 seconds East for a distance of 9.36 feet; thence leaving said right-of-way run South 00 degrees 12 minutes 59 seconds East for a distance of 16.99 feet to and for the POINT OF BEGINNING; thence run North 90 degrees 00 minutes 00 seconds East for a distance of 5.74 feet; thence run South 00 degrees 00 minutes 00 seconds East for a distance of 70.00 feet; thence run North 90 degrees 00 minutes 00 seconds West for a distance of 8.00 feet; thence run North 00 degrees 29 minutes 00 seconds East for a distance of 9.88 feet; thence run North 02 degrees 17 minutes 35 seconds East for a distance of 54.32 feet; thence run North for a distance of 5.85 feet back to the POINT OF BEGINNING. Said parcel contains 0.01 acres (483 square feet), more or less.

The Grantee, the City of Hattiesburg, Mississippi, is hereby given the right to do whatever may be necessary and proper for the enjoyment of the rights herein granted, including the right of ingress and egress and the right to clear said right of way above described of such trees and shrubs as may be necessary for the full enjoyment of the rights herein granted. This construction easement will revert to the Grantor upon completion of construction.

I/we fully understand that we have the right to receive just compensation for the real property herein described based on an appraisal of said property. I/we hereby waive our right to just compensation and donate the real property herein described to the City of Hattiesburg. I/We further understand that we have the right to request that a fair market value appraisal of the property be made and I/we hereby waive that right.

RE: Hattiesburg Public Safety Complex – Demolition Project

Dear Lamar:

Please find attached our Certified Bid Tabulation for the bids received on Thursday, January 25, 2018 for the Hattiesburg Public Safety Complex Demolition Project. We received Six (6) competitive bids with the lowest being from Codaray Construction, LLC, of Sumrall, who proposed to complete the demolition and abatement for $ 494,942.00 in 180 calendar days. There were no additive or deductive alternates with this project. We have evaluated the information provided and recommend that you award the base bid to this contractor.

We have attached our due diligence information for your review. We plan to attach this to the Owner/General Contractor Contract, also.

Sincerely,

Larry A. Albert

ADVERTISEMENT FOR BIDS

Sealed bids will be received by the City of Hattiesburg at the Hattiesburg City Council Chamber located at 200 Forrest Street, Hattiesburg, MS, 39401 until 10 a.m. local time on Thursday, January 25, 2018, at which time all proposals will be opened and read aloud for:

Hattiesburg Public Safety Complex Demolition Package
701 James Street
Hattiesburg, Mississippi 39401

Bid documents may be obtained from Albert & McCleskey Associate Architects via ar-architects.sharefile.com. Login information (username and password) will be provided by Albert & McCleskey Associate Architects (601) 544-1970. Bid documents are also available in hard copy form for a deposit of $75.00 per set of documents, made payable to Albert & McCleskey Associate Architects. 100% of the deposit will be refunded to all document holders upon the return of the documents to the Architect in good condition no later than 10 calendar days after the bid date. Bid preparation shall be in accordance with Instructions to Bidders bound in the Project Manual.

A Pre-bid meeting will be held on Tuesday, January 16, 2017 at 2:00 p.m. at The Hattiesburg Public Safety Complex site. Attendance by all Bidders is strongly encouraged.

Each bid must be received in a sealed envelope which is marked in the lower left-hand corner with the legend, "Hattiesburg Public Safety Complex Demolition Package".

No bid may be withdrawn for a period of sixty (60) days. The lowest and best proposal received will be accepted, subject to the provisions of Section 31-7-13 of the Mississippi Code of 1972, Annotated and Amended, and other applicable State law; but the Council reserves the right to reject any or all proposals received and to waive informalities or irregularities therein.

Authorized by:
Kermas Eaton
City of Hattiesburg

END OF FORM OF PROPOSAL

SECTION 00 10 00

INSTRUCTIONS TO BIDDERS

PART 1 - GENERAL

1.01 **QUESTIONS:** Questions shall be directed to the Professional. Bidders finding discrepancies in or omissions from the Drawings or Project Manual, or requiring clarification or interpretation of the Bidding Documents, shall submit written requests to the Architect within the proper timeframe as defined by the State of Mississippi Bid Laws. Interpretations, corrections and modifications of the Bidding Documents will be made by addendum. Specific cutoff dates regarding submission of questions or issuance of addenda shall be provided at the Pre-Bid Conference, if applicable, and/or by addendum. Any interpretations, corrections or modifications to the Bidding Documents made in any manner other than by addendum shall not be binding and shall not be relied upon when submitting bids. If Contractor does not notify the Professional about discrepancies within proper time during bidding, bids shall be based on the most expensive combination of quality and quantity of work indicated.

1.02 **BIDDER'S QUALIFICATIONS:**

A. **Certificate of Responsibility:** The Mississippi State Board of Contractors is responsible for issuing Certificates of Responsibility to Contractors. To be awarded a Contract for public work, Sections 31-3-15 and 31-3-21 of the **Mississippi Code 1972, Annotated** requires a Contractor to have a current Certificate of Responsibility at bid time and during the entire length of the job. The Certificate of Responsibility number issued becomes a significant item in all public bidding.

B. **Bid Under $50,000:** If a Bidder submits a bid not exceeding $50,000, no Certificate of Responsibility number is required; however, a notation stating the *bid does not exceed $50,000* must appear on the face of the envelope, or a Certificate of Responsibility number.

C. **Bid Over $50,000:** Each Bidder submitting a bid in excess of $50,000 must show its Certificate of Responsibility number on the bid and on the face of the envelope containing the bid.

D. **Joint Venture Bid:** When multiple Contractors submit a joint venture bid in excess of $50,000, a *joint venture* Certificate of Responsibility number must be shown on the bid and on the face of the envelope containing the bid. If the Multiple-Contractor joint venture has no *joint venture* Certificate of Responsibility number, each of the Contractors participating in the bid must indicate their individual Certificate of Responsibility numbers on the bid and on the face of the envelope.

1.03 **NON-RESIDENT BIDDER:** When a non-resident Bidder (a Contractor whose principal place of business is outside the State of Mississippi) submits a bid for a Mississippi public works project, one of the following is required and shall be submitted with the Proposal Form:

A. **Copy of Law:** If the non-resident Bidder's state has a resident Bidder preference law, a copy of that law shall be submitted with the Proposal Form.

B. **Statement:** If the state has no such law, then a statement indicating *the State of (Name of State) has no resident Contractor preference law* shall be submitted with the Proposal Form.

1.04 **DISQUALIFICATION OF BIDDER:** A Bidder may be disqualified for any of the following reasons:

A. Bidder being in arrears on existing Contracts.

B. Bidder being in litigation (currently or in the past) with the Owner, or the Using Agency.

C. Bidder having defaulted on a previous Contract.
D. Bidder being in litigation with the Architect currently or in past projects.

1.05 **CONDITIONS OF WORK:** Each Bidder must fully inform himself of all conditions relating to the construction of the Project and employment of labor thereon. Failure to do so will not relieve a successful Bidder of obligations to furnish all material and labor necessary to carry out the provisions of the Contract. Insofar as possible, the Bidder must employ methods, or means, which will not cause interruption of, or interference with, the work of any other Bidder, or Contractor.

1.06 **EXAMINATION OF SITE:** All Bidders, including the general Contractor and Subcontractors, shall visit the building site, compare the Drawings and Project Manual with any work in place and be informed of all conditions. Failure to visit the site will in no way relieve the successful Bidder from furnishing any materials or performing any work required to complete work in accordance with Drawings and Project Manual without additional cost to the Owner.

1.07 **LAWS AND REGULATIONS:** The Bidder's attention is directed to the fact that all applicable Federal, State and Local laws, rules and regulations of all authorities having jurisdiction over construction of the Project apply to the Contract.

1.08 **OBLIGATION OF BIDDER:** At the bid opening, each Bidder will be presumed to have inspected the site, read and become thoroughly familiar with the Drawings and the Project Manual, including all addenda.

1.09 **BIDDING DOCUMENTS:** The Bidding Documents include the Bidding Requirements and the proposed Contract Documents. The Bidding Requirements consist of the Advertisement or Invitation to Bid, Instructions to Bidders, Supplementary Instructions to Bidders, the Form of Proposal, and any other sample bidding and contract forms. The proposed Contract Documents consists of the Standard Form of Agreement Between Owner and Contractor, the General Conditions of the Contract for Construction (along with any Supplementary, Special or other Conditions), Drawings, Specifications and all addenda issued prior to the execution of the Contract.

1.10 **ISSUANCE OF BIDDING DOCUMENTS:** Only complete sets of Bidding Documents will be issued to Bidders. The Bidding Documents are to be viewed and considered in their entirety, and the Owner and Architect assume no responsibility for misunderstandings of the Bidding Documents due to the use of partial or incomplete sets. Bidding Documents are intended strictly for the purpose of obtaining bids on the work defined therein, and no license of use is granted by their issuance to a Bidder.

1.11 **ELECTRONIC BIDDING DOCUMENTS:** In addition to physical sets of Bidding Documents, electronic copies, in PDF format, may be issued via Albert & McCleskey Associates Architects secure electronic file server. Bidders will be issued a username and password to access the file server with permission granted to view, download and print the Bidding Documents specific to the Project being bid. Once issued, Bidders are responsible for maintaining their own passwords as Albert & McCleskey Associates Architects does not have access to this personal information. The same username and password will be utilized by the Bidder for any subsequent responses to Advertisements or Invitations to Bid, as well as throughout the Project's Construction Administration phase should the Bidder be awarded the Contract. Bidders are responsible for any hardware and/or software requirements to view and utilize the electronic Bidding Documents.

1.12 **BID DOCUMENT DEPOSIT AND RETURN:** Complete sets of Bidding Documents may be obtained from Albert & McCleskey Associates Architects, which may be contacted at 601-544-1970. The deposit amount and nature of its refundability shall be as defined in the Advertisement or Invitation to Bid. If designated as refundable, deposits will be refunded to Bidders who return complete and fully bound sets of Bidding Documents, free of any damage, markings, or annotations, within 10 calendar days of the bid opening date. No partial refunds will be given for damaged Bidding Documents.

PART 2 - PROPOSAL FORM

2.01 **METHOD OF BIDDING:** Lump sum, single bids received on a general contract will include general, mechanical and electrical construction and all work shown on Drawings or specified in the Project Manual.

2.02 **PROPOSAL FORMS:** The Bidder shall make all proposals on forms provided and shall fill all applicable blank spaces without interlineations or alteration and must not contain recapitulation of the work to be done. All sums shall be expressed in both written and numerical formats with the written amount taking precedence should a discrepancy exist. No oral, telegraphic, facsimile, or any other electronic format of proposals shall be considered.

2.03 **TIME OF COMPLETION:** The Bidder shall agree to commence work on, or before, a date specified in a written *Notice to Proceed* and fully complete the Project within the calendar days indicated on the Proposal Form.

2.04 **ALTERNATES:** The Proposal Form shall contain a brief description of each alternate modifying the scope of work. The Bidder shall write out the numerical amount for each alternate. Refer to Section 01035 entitled *Alternates* for additional information.

2.05 **SUBSTITUTIONS:** No substitutions, qualifications or redefining of the Specification requirements are allowed to be marked on the Proposal Form, unless specifically required by the Bid Documents. Refer to Section 01 63 00 entitled *Substitutions and Product Options* which covers procedures after the award of Contract.

2.06 **ADDENDA:** Any addenda to the Drawings or Project Manual issued before or during the time of bidding shall be included in the proposal and become a part of the Contract. Addenda will be issued only to those Bidders who have obtained complete sets of Bidding Documents directly from the office of Albert & McCleskey Associates Architects. Any Bidder who obtains Bidding Documents from any other source, such as plan rooms, shall be responsible for ensuring receipt of addenda from that same source. The Proposal Form will have ample space to indicate the receipt of addenda. When completing the Proposal Form, the Bidder shall list the addendum number and the date received in spaces provided.

2.07 **BIDDER IDENTIFICATION:**

A. **Signature:** The Proposal Form shall be signed by any individual authorized to enter into a binding agreement for the Business making the bid proposal.
B. **Name of Business:** The name appearing on the Proposal Form shall be the same as the name appearing in the current Mississippi State Board of Contractors Roster.
C. **Legal Address:** The address appearing on the Proposal Form shall be the same address appearing in the current Mississippi State Board of Contractors Roster.

D. **Certificate of Responsibility Number(s):** The Certificate of Responsibility Number(s) appearing on the Proposal Form shall be the same number appearing in the current Mississippi State Board of Contractors Roster.

2.08 **BID SECURITY:** The Bid Security shall be in the form of a Bid Bond or a Certified Check:

A. **Bid Bond:** The Bidder may submit a Bid Bond by a Surety licensed in the State of Mississippi in the amount of five percent (5%) of the base bid. The Bid Bond shall be duly executed by the Bidder, the Surety and a Mississippi resident agent. (No standard form is required for the Bid Bond.)

B. **Certified Check:** The Bidder may submit a certified check made out to the Owner's Name (listed on the Form of Proposal) in the amount of five percent (5%) of the base bid. All checks received from Bidders will be returned upon request, unless a Bidder is one (1) of the three (3) apparent low Bidders. The three (3) apparent low Bidder's checks will be held for forty-five (45) days, unless a Contract is awarded and executed in less time.

2.09 **POWER OF ATTORNEY:** Each bid security must be accompanied by an appropriate Power of Attorney. A Power of Attorney is not necessary to accompany a certified check.

PART 3 - SUBMITTING THE PROPOSAL FORM

3.01 **SUBMITTAL:** A bid must be delivered to the address indicated on the Advertisement for Bids prior to the time and date stated. Bids shall be submitted in **duplicate** and sealed in an opaque envelope marked, mailed or hand-delivered as follows:

(In upper left-hand corner)
Name of Firm
(As it appears in the current Mississippi
State Board of Contractors Roster)
BID FOR: **HATTIESBURG PUBLIC SAFETY COMPLEX DEMO PACKAGE**
BID OPENING: (*place bid date and time here)*

(Bid shall be addressed and delivered to)
BID FOR HATTIESBURG PUBLIC SAFETY COMPLEX DEMO PACKAGE
ATTENTION: KERMAS EATON
P.O. Box 1898
Hattiesburg, Mississippi 39403-1898

(In lower left-hand corner)
Certificate of Responsibility # _____ (for over $50,000.00)
Under $50,000.00 (add statement)

If the Bid is mailed or sent via private carrier, the bid envelope shall be placed inside a second envelope to prevent inadvertent, premature opening of the Proposal. If the bid is sent via private carrier then send it to: ALBERT & MCCLESKEY ASSOCIATES ARCHITECTS 200 Forrest St., Hattiesburg, MS 39401. **IT IS THE BIDDERS RESPONSIBILITY TO ENSURE THAT HIS OR HER BID HAS BEEN RECEIVED BY THE CONTACT LISTED ABOVE OR LISTED ON THE ADVERTISEMENT TO BID BEFORE THE BID OPENING TIME. THE OWNER RESERVES THE RIGHT TO WAIVE ANY BIDS NOT RECEIVED BY HIM BEFORE THE BID TIME.**

3.02 **MODIFICATION TO BID:** A bidder may modify the bid prior to the scheduled closing time indicated in the Advertisement for Bids in the following manner:

A. **Notification on Envelope:** A modification may be written on the outside of the sealed envelope containing the bid and initialed by an owner representative.

3.03 **WITHDRAWAL OF BID:** Any bid may be withdrawn prior to the scheduled time for opening of bids. However, bids may not be withdrawn until sixty (60) days after bid opening. Any withdrawn Bid, if fully compliant with the Instructions to Bidders, may be resubmitted up to the time and date indicated for Bid Opening.

PART 4 - BID OPENING AND AWARD OF CONTRACT

4.01 **OPENING OF BIDS:** Bids will be publicly opened shortly after the time stated in the Advertisement for Bids. Bidder representatives are invited; however, attendance is not mandatory.

4.02 **IRREGULARITIES:** The omission of any information requested on the Proposal Form may be considered as an informality or irregularity by the awarding public body when, in its opinion, the omitted information does not alter the amounts contained in the submitted bid proposal or place other Bidders at a disadvantage.

4.03 **PROTEST:** Any protest must be delivered in writing to the Owner within twenty-four (24) hours after the bid opening.

4.04 **ERRORS:** Any claim of error and request for release from bid must be delivered in writing to the Owner within twenty- four (24) hours after the bid opening. The Bidder shall provide sufficient documentation with the written request clearly proving an error was made.

4.05 **AWARD OF CONTRACT:** The Owner reserves the right to reject any or all bids. A Contract will be awarded on the basis of the low base bid, or low combination of base bid and those alternates selected by the Owner in any order determined to be in the best interest of the Owner and which produces a total cost within available funds. Any Bid not accompanied by all data required by the Bidding Documents, including Bid Security, or any Bid which is considered to be incomplete or irregular in any way is subject to rejection.

4.06 **FAILURE TO ENTER INTO A CONTRACT:** The Bidder shall forfeit the Bid Security to the Owner as liquidated damages for failure, or refusal, to execute and deliver the Contract, Bond and Certificate of Insurance within ten (10) days after notice of the acceptance of the bid.

4.07 **SECURITY FOR FAITHFUL PERFORMANCE:** Simultaneously with delivery of the executed Contract, the Contractor will furnish a Performance Bond, or Bonds, as security for faithful performance of all Work in connection with this Contract; a Labor and Materials Payment Bond, as security for the payment of all persons supplying labor or materials for completion of the Work in connection with this Contract; and a Bond of Payment of Taxes and other Assessments, as security for payment of all taxes and assessments in connection with this Contract. The Surety on such Bond, or Bonds, will be a duly authorized surety company satisfactory to the Owner and meeting all of the following requirements:

A. Licensed at the time of award by the State of Mississippi's Commissioner of Insurance for the purpose of providing surety.
B. Listed at the time of award in the Department of the Treasury's **Federal Register** as a company holding certificates of authority as acceptable sureties on Federal Bonds, commonly referred to as the Treasury List.
C. All Bonds shall be executed on the form provided in the Project Manual under Section 00 60 00 entitled *Contract Bond*.
D. All Bonds shall be countersigned by a Mississippi resident agent with the name and address typed, or lettered legibly.
E. All Bonds must be accompanied by an appropriate Power of Attorney.

END OF SECTION

SECTION 00 50 00

AGREEMENT FORM

PART ONE - GENERAL

1.01 DESCRIPTION

A. SCOPE: The agreement form between the Owner and the Contractor shall be AIA Document A101, 2007 Edition, where the basis of payment is a stipulated sum.

B. COPY: Contractors are presumed to be familiar with this document, a copy of which may be obtained from the Professional or examined in this office.

C. LIQUIDATED DAMAGES: Time being of the essence and a matter of material consideration thereof, a reasonable estimate in advance is established to cover losses incurred by the Owner if the project is not substantially complete on the date set forth in the Contract Documents. The Contractor and his Surety will be liable for and will pay the Owner the sums stipulated in Paragraph 2.2 of the Standard Form of Agreement Between the Owner and the Contractor as fixed and agreed as liquidated damages for each calendar day of delay until the work is substantially complete, unless circumstances dictate otherwise in the discretion of the Owner.

THE AMOUNT OF LIQUIDATED DAMAGES SET FOR THIS PROJECT IS:

********** Five Hundred Dollars ($500.00) per day **********

D. APPLICATION FOR PAYMENT: See *Section 01 27 00 Applications for Payment* for requirements.

E. FORM OF PROPOSAL: The Contractor's "Form of Proposal" (bid form) is part of the Contract Documents.

F. CONTRACT TIME: As stipulated (or as bid) in the "Form of Proposal".

G. RETAINAGE: The Owner will retain, until the Work is one hundred percent (100%) complete, ten percent (10%) of the amount due the Contractor on account of progress payments. No reduction in retainage will be made until final payment is made, except that when the initial contract award is in an amount equal to or greater than $750,000.00, then whenever such Work is fifty percent (50%) complete and on schedule and satisfactory, in the opinion of the Professional with concurrence of the Owner, fifty percent (50%) of the retainage will be returned to the Contractor and five percent (5%) will be retained on all subsequent progress payments.

END OF SECTION

SECTION 00 60 00

CONTRACT BOND

I. PREAMBLE

KNOW ALL MEN BY THESE PRESENTS: THAT _____, Principal, a _____, residing at _____, authorized to do business in the State of Mississippi under the laws thereof, and _____Surety, a corporation of the State of_____, authorized to do business in the State of Mississippi under the laws thereof, are held and firmly bound unto_____, Obligee, hereinafter referred to as "Owner," for the use and benefit of the Owner and those claimants and others set forth herein below and described in Sections 31-5-51 and 31-5-3, **Mississippi Code of 1972, Annotated**, as amended, in the amount of _____Dollars ($_____), lawful money of the United States, for the payment whereof Principal and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these present.

WHEREAS, Principal has by written agreement dated _____, 20_____, entered into a Contract with the Owner for the following:

_____
_____
_____

as provided in said Contract and in accordance with the Contract Documents. All of the terms and provisions of the above mentioned Contract, drawings, Project Manual, and addenda are by reference made a part hereof and fully incorporated herein, and are hereinafter referred to as "the Contract." All of the terms and provisions of Sections 31-5-51, 31-5-3, supra, Section 31-5-53 of the **Mississippi Code of 1972, Annotated**, as amended, and all other code sections cited herein are also by reference made a part hereof and fully incorporated herein.

II. PERFORMANCE BOND

NOW, THEREFORE, the condition of this Performance Bond is such that if Principal shall promptly and faithfully perform said Contract, then this obligation shall be null and void; otherwise, it shall remain in full force and effect, subject however, to the following conditions:

Whenever the Owner has performed its obligation but the Principal has defaulted under the terms of the Contract, or any portion thereof, and the Owner has declared the Principal to be in default, the Surety shall promptly:

1. Remedy the default, or
2. Complete the Contract in accordance with its terms and conditions, or
3. Procure the completion of the Contract in accordance with its terms and conditions.

Even if there should be a succession of defaults, the Surety is responsible for completion of the Contract. The Surety shall provide sufficient funds to pay the cost of completion of the Contract in its entirety including other costs and

damages for which the Surety may be liable there under, less the balance of the Contract price. The term "balance of the Contract price," as used in this paragraph, shall mean the total amount payable by Owner to Principal under the Contract and any Change Orders thereto, less the amount paid by Owner to Principal.

III. LABOR AND MATERIAL PAYMENT BOND

NOW, THEREFORE, the condition of this Labor and Material Payment Bond is such that if Principal shall promptly make payments to all persons supplying labor or material used in the prosecution of the work under said Contract, then this obligation shall be null and void; otherwise, it shall remain in full force and effect; however, the Owner shall not be liable for the payment of any costs or expenses of any suit described in Subsection (2) of Section 31-5-51, supra.

IV. BOND FOR PAYMENT OF TAXES AND OTHER ASSESSMENTS

NOW THEREFORE, the condition of this Bond for Payment of Taxes and Other Assessments is such that if Principal shall promptly make payment of all taxes, licenses, assignments, contributions, damages, penalties, and interest thereon, when and as the same may lawfully be due the State of Mississippi, or any County, Municipality, Board, Department, Commission, or political subdivision thereof, by reason of and directly connected with the performance of said Contract or any part thereof as provided by Sections 27-65-1, 27-65-21, 27-67-1, and 31-5-3, **Mississippi Code 1972, Annotated**, or any other applicable statute or other authority, then this obligation shall be null and void; otherwise, it shall remain in full force and effect.

V. GENERAL CONDITIONS

The following conditions apply to all three (3) of the above-mentioned Bonds:

1. The Performance Bond is for an amount equal to the full amount of said Contract.
2. The Labor and Material Payment Bond is for an amount equal to the full amount of said Contract.
3. If any changes are made in the work, or any extensions of time are granted, or any increases in the total dollar amount of the Contract are made, such changes, extensions, increases, or other forbearance on the part of either the Owner or the Principal will not, in any way, release the Principal and Surety, or either of them, from their liability hereunder, or any portion thereof, notice to the Surety of any such change, extension, increase, or forbearance being expressly waived.
4. These Bonds are governed by and shall be construed in accordance with Mississippi law. Any inconsistency with these Bonds and any provision of Mississippi law shall be remedied by deleting the inconsistent portion of these Bonds and leaving the remaining consistent portions in full force and effect.

CERTIFICATE OF INSURANCE INSTRUCTIONS

1. The *Certificate of Insurance* is a tabulation of insurance required for this Project as specified in Article 11 entitled *Insurance and Bonds* in the General Conditions (AIA Document A201, 2007 Edition).

2. The *Certificate of Insurance* must be completed, certified by the original signature of a Mississippi Resident Insurance Agency and bound in each set of the Contract Documents.

3. Indicate Insured, Project, Companies providing coverage, policy numbers and policy periods in the blanks as applicable.

4. If the "OWNERS/CONTRACTORS PROTECTIVE LIABILITY" insurance is part of the Commercial General Liability Insurance Policy, or included by endorsement, indicate the policy number and period of the CGL policy in the "OWNERS/CONTRACTORS PROTECTIVE LIABILITY" blank spaces.

5. Automobile Liability Insurance may be provided which covers Bodily Injury and Property Damage in one (1) Combined Single Limit, or may be provided with separate minimum limits as shown on the Certificate of Insurance and specified in Article 11 of the Supplementary Conditions. The person signing the Certificate of Insurance should show which option the Contractor has selected by marking out the coverage that is not provided under the policies indicated.

6. OTHER INSURANCE (if required) will be indicated by typing in the "OTHER" block and detailed in Article 11 of the Supplementary Conditions.

7. CERTIFICATION wording may not be changed without specific written approval from the Owner.

8. "Riders", Binders, TBA, TBD, or other unsolicited attachments, are not allowed as part of the *Certificate of Insurance* unless specifically requested in writing by the Owner, or specified as part of the requirements for this Project.

9. CAUTION: The *Certificate of Insurance* is intended to be used for all Projects. The Contractor must provide all insurance specified in the Contract Documents for this Project, whether indicated on this form, or not. The Contractor must verify all insurance has been provided as required.

SECTION 00 70 00

GENERAL CONDITIONS

PART 1 - GENERAL

1.01 DESCRIPTION

A. **SCOPE:** The **General Conditions of the Contract for Construction**, AIA Document A201, 2007 Edition, Articles 1 through 14 inclusive, is a part of this Contract and is incorporated herein.

B. **COPY:** Contractors are presumed to be familiar with AIA Document A201, a copy of which may be obtained from the Professional, or examined in the Professional's office.

END OF SECTION

SECTION 00 80 00

SUPPLEMENTARY CONDITIONS

PART 1 - GENERAL

1.01 DESCRIPTION

A. **Owner:** These supplements are necessary because the Owner is an agency, or political subdivision, of the State of Mississippi and occupies a different position from that of the usual Owner.

B. **Document:** The following supplements modify, change, delete from, or add to the **General Conditions of the Contract**, AIA Document A201, 2007. When any Article of the **General Conditions** is modified, or deleted, by these *Supplementary Conditions*, the unaltered provisions of that Article, Paragraph, Subparagraph, or Clause will remain in effect.

Article 1 GENERAL PROVISIONS

No supplementary conditions.

Article 2 OWNER

No supplementary conditions.

Article 3 CONTRACTOR

No supplementary conditions.

Article 4 ARCHITECT

No supplementary conditions.

Article 5 SUBCONTRACTORS

No supplementary conditions.

Article 6 CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

No supplementary conditions.

Article 7 CHANGES IN THE WORK

No supplementary conditions.

Article 8 TIME

8.1 **DEFINITIONS**

8.1.3 Change this Subparagraph to read as follows:

The date of Substantial Completion is the date certified by the Architect and approved by the Owner in accordance with Paragraph 9.8 entitled "Substantial Completion."

8.3.1 Change this Subparagraph to read as follows:

If the Contractor is delayed at any time in the commencement or progress of the Work by any act of neglect of the Owner or the Architect, or by any employee of either, or by changes ordered in the Work, or by labor disputes, fire, unusual delay in deliveries, unavoidable casualties or any causes beyond the Contractor's control, or by any other causes which the Architect determines may justify the delay, then the Contract Time may be extended by Change Order for such reasonable time as the Architect may determine, subject to the Owner's approval. Any claim for loss or any delay occasioned by any separate Contractor, or Subcontractor, shall be settled between the Contractor and such other separate Contractor, or Subcontractors.

Article 9 PAYMENTS AND COMPLETION

9.3 **APPLICATIONS FOR PAYMENT**

9.3.1 Add a new sentence to the end of this Subparagraph:

The form of Application for Payment will be AIA Document G702, Application and Certification for Payment, supported by AIA Document G703, Continuation Sheet, or a computer generated form containing similar data.

9.3.1.3 Add a new Clause to Subparagraph 9.3.1 as follows:

The Owner will retain, until the Work is one hundred percent (100%) complete, ten percent (10%) of the amount due the Contractor on account of progress payments. No reduction in retainage will be made until final payment is made, except that when the initial contract award is in an amount equal to or greater than $750,000.00, then whenever such Work is fifty percent (50%) complete and on schedule and satisfactory, in the opinion of the Professional with concurrence of the Owner, fifty percent (50%) of the retainage will be returned to the Contractor and five percent (5%) will be retained on all subsequent progress payments.

9.3.1.4 Add a new Clause to Subparagraph 9.3.1 as follows:

The Contractor must submit each month with this Application for Payment a separate letter stating that he is requesting an extension of time or that he had no need for an extension for that period of time. No payment on a monthly application will be made until the letter is received. Complete justification such as weather reports or other pertinent correspondence must be included for each day's request for extension. A Contractor's letter, or statement, will not be considered as adequate justification. The receipt of this request and data by the Owner will not be considered as Owner approval in any way.

9.3.2.1 Add a new Clause to Subparagraph 9.3.2 as follows:

Payment on materials stored at some location other than the building site, may be approved by the Architect and the Owner after the Contractor has submitted the following items:

.1 An acceptable Lease Agreement between the General Contractor and the owner of the land, or building, where the materials are stored covering the specific area where the materials are located.
.2 Consent of Surety, or other acceptable Bond, to cover the materials stored off-site.
.3 All Perils Insurance coverage for the full value of the materials stored off-site.
.4 A Bill of Sale from the Manufacturer to the General Contractor for the stored materials.
.5 A complete list and inventory of materials manufactured, stored and delivered to the storage site and of materials removed from the storage site and delivered to the job site.
.6 A review by the Architect of the materials stored off-site prior to release of payment.
.7 Guarantee no storage costs, additional delivery fees, or subsequent costs to the Owner.

9.6.8 Add a new Subparagraph as follows:

The amount retained by the Contractor from each payment to each Subcontractor and material supplier will not exceed the percentage retained by the Owner from the Contractor.

9.7 **FAILURE OF PAYMENT**

9.7.1 Change this Subparagraph to read as follows:

The Contractor and the Owner shall be subject to the remedies as prescribed in Section 31-5-25 of the Mississippi Code 1972, Annotated.

9.8 **SUBSTANTIAL COMPLETION**

9.8.4 Add a new sentence at the end of this Subparagraph:

Substantial Completion shall not be established and final until the Owner approves the Architect's ***Certificate of Substantial Completion****.*

9.11 **LIQUIDATED DAMAGES** *(add this paragraph heading and subsequent paragraph below)*

9.11.1 Add a new Paragraph as follows:

Time being of the essence and a matter of material consideration thereof, a reasonable estimate in advance is established to cover losses incurred by the Owner if the project is not substantially complete on the date set forth in the Contract Documents. The Contractor and his Surety will be liable for and will pay the Owner the sums stipulated in Paragraph 2.2 of the Standard Form of Agreement Between the Owner and the Contractor as fixed and agreed as liquidated damages for each calendar day of delay until the work is substantially complete unless circumstances dictate otherwise in the discretion of the Owner.

Article 10 PROTECTION OF PERSONS AND PROPERTY

10.2 **SAFETY OF PERSONS AND PROPERTY**

10.2.5 Change this Subparagraph to read as follows:

The Contractor shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property referred to in Clauses 10.2.1.2 and 10.2.1.3 caused in whole or in part by the Contractor, a Subcontractor, a Sub-Subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible for Clauses 10.2.1.2 and 10.2.1.3, except damage or loss attributable to acts or omissions of the Owner or Architect and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Paragraph 3.18.

10.3 **HAZARDOUS MATERIALS**

10.3.2 Delete this Subparagraph in its entirety.

10.3.3 Delete this Subparagraph in its entirety.

Article 11 INSURANCE AND BONDS

11.1 **CONTRACTOR'S LIABILITY INSURANCE**

11.1.4 Add a new Subparagraph as follows:

The Contractor's limits of liability shall be written for not less than the following:

.1 GENERAL LIABILITY: Commercial General Liability
(Including XCU)
General Aggregate..... $ 1,000,000.00 Aggregate
Products & Completed Operations..... $ 1,000,000.00 Aggregate
Personal & Advertising Injury ..... $ 500,000.00 Per Occurrence
Bodily Injury & Property Damage..... $ 500,000.00 Per Occurrence
Fire Damage Liability ..... $ 50,000.00 Per Occurrence
Medical Expense ..... $ 5,000.00 Per Person

.2 OWNERS & CONTRACTORS PROTECTIVE LIABILITY:
Bodily Injury & Property Damage..... $ 1,000,000.00 Aggregate
Bodily Injury & Property Damage..... $ 500,000.00 Per Occurrence

.3 AUTOMOBILE LIABILITY:
(Owned, Non-owned & Hired Vehicles) Contractor Insurance Option Number 1:
Bodily Injury & Property Damage..... $ 500,000.00 Per Occurrence
(Combined Single Limit)

Contractor Insurance Option Number 2:
Bodily Injury ..... $ 250,000.00 Per Person
Bodily Injury ..... $ 500,000.00 Per Accident
Property Damage..... $ 100,000.00 Per Occurrence

.4 EXCESS LIABILITY:
(Umbrella on projects over $500,000)
Bodily Injury & Property Damage ..... $ 1,000,000.00 Aggregate
(Combined Single Limit)

.5 WORKERS' COMPENSATION: (As required by Statute)
EMPLOYERS' LIABILITY:
Accident.....$ 100,000.00 Per Occurrence
Disease ..... $ 500,000.00 Policy Limit
Disease ..... $ 100,000.00 Per Employee

.6 PROPERTY INSURANCE:
Builder's Risk ..... $ Equal to Value of Work
or
Installation Floater .....$ Equal to Value of Work

11.1.5 Add a new Subparagraph as follows:

Furnish one (1) copy of the Standard Construction Contract Certificate of Insurance Form for each copy of the Standard Form of Agreement Between Owner and Contractor specifically setting forth evidence of all coverage required by Subparagraphs 11.1.1, 11.1.2 and 11.1.3. Furnish to the Owner copies of any endorsements that are subsequently issued amending limits of coverage.

11.1.6 Add a new Subparagraph as follows:

If the coverages are provided on a claims-made basis, the policy date or retroactive date shall predate the Contract; the termination date, or the policy, or applicable extended reporting period shall be no earlier than the termination date of coverages required to be maintained after final payment.

11.2 **OWNER'S LIABILITY INSURANCE**

11.2.1 Delete this Subparagraph in its entirety and substitute the following:

The Contractor shall purchase and maintain such insurance as will protect the Owner from his contingent liability to others for damages because of bodily injury, including death, and property damage, which may arise from operations under this Contract and other liability for damages which the Contractor is required to insure under any provision of this Contract. Certificate of this insurance will be filed with the Owner and will be the same limits set forth in 11.1.4.

11.3 **PROPERTY INSURANCE**

11.3.1 Change the first line in this Subparagraph to read as follows:

The Contractor shall purchase....

11.3.1.2 Delete this Clause under Subparagraph 11.4.1 in its entirety.

11.3.1.3 Change the following Clause in this Subparagraph to read as follows:

If the property insurance requires deductibles, the Contractor shall pay costs not covered because of such deductibles.

11.3.2 Delete this Subparagraph in its entirety.

11.3.3 Delete this Subparagraph in its entirety.

11.3.4 Delete this Subparagraph in its entirety.

11.3.5 Delete this Subparagraph in its entirety.

11.3.6 Delete this Subparagraph in its entirety.

11.3.10 Change this Subparagraph to read as follows:

The Owner as fiduciary shall have power to adjust and settle a loss with Insurers unless one of the parties in interest shall object in writing within five (5) days after occurrence of loss.

Article 12 UNCOVERING AND CORRECTION OF WORK

No supplementary conditions.

Article 13 MISCELLANEOUS PROVISIONS

No supplementary conditions.

Article 14 TERMINATION OR SUSPENSION OF THE CONTRACT

No supplementary conditions.

Article 15 CLAIMS AND DISPUTES

No supplementary conditions.

END OF SECTION

SECTION 01 11 00

SUMMARY OF WORK

1.01 WORK COVERED BY CONTRACT DOCUMENTS

A. **Work Covered**: Work covered by the Contract Documents is as shown in drawings and described in words in the Project Manual. The Project Title and location is indicated on the first page of this Project Manual.
   1. **TAX CREDITS: The general contractor is forbidden to take tax credits from this building as be IRS 179 D (Application of Notice 2006-52; Deductions for Energy Efficient Commercial Buildings); bulletin 2008-14, notice 2008-40.** This rule allows energy tax credits for government buildings but only to those responsible for designing the buildings.

B. **Start of Work**: Work shall be started immediately upon issuance of a *Notice to Proceed*. Prior to this, all Contracts and beginning documents will have been executed and insurance in force.

C. **Time of Completion**: The completion of this Work is to be on, or before, the time indicated in the *Standard Form of Agreement Between the Owner and the Contractor*.

D. **Contractor's Duties**:
   1. Except as specifically noted, provide and pay for:
      a. Labor, materials and equipment.
      b. Tools, construction equipment and machinery.
      c. Water, heat and utilities required for construction.
      d. Other facilities and services necessary for proper execution and completion of the Work.
   2. Pay legally required sales, consumer, use, payroll, privilege and other taxes.
   3. Secure and pay for, as necessary for proper execution and completion of work, and as applicable at the time of the receipt of the bids:
      a. Permits.
      b. Government fees.
      c. Licenses.
   4. Give required notices.
   5. Comply with codes, ordinances, rules, regulations, orders and other legal requirements of public authorities which bear on performance of work.
   6. Promptly submit written notice to Professional of observed variance of Contract Documents from legal requirements. It is not the Contractor's responsibility to make certain that drawings and specifications comply with codes and regulations. Appropriate modifications to Contract Documents will adjust necessary changes. Assume responsibility for work known to be contrary to such requirements, without notice.
   7. Enforce strict discipline and good order among employees. Do not employ or work unfit persons, or persons, not skilled in assigned task.
   8. Provide a written safety plan.

E. **Hazardous Materials**: The Prime General Contractor is responsible for the removal and disposal of any hazardous materials encountered in the performance of the Contract requirements. Hazardous Containing Materials [HCM] include, but are not limited to, Asbestos and Lead Paint and should be identified and removed as a part of the Contract. The absence of details does not relieve the Prime General Contractor from the responsibility of removal and disposal; but, a Change Order could be executed in the absence of identified HCM in the documents.

F. **Post-bid Submittals and Subcontractors List:** The Prime General Contractor will submit to the Owner the following items within seven (7) days after written notice of contract award by the Owner:
   1. Designation of the Work to be performed by the Bidder's own forces.
   2. Names of manufacturers, products, and the suppliers of principal items or systems of materials and equipment proposed for the Work.
   3. Names of persons or entities proposed for the principal portions of the Work, including those who are to furnish materials or equipment fabricated to a special design. Those persons or entities proposed by the Prime General Contractor are subject to the following:
      a. The Bidder will be required to establish to the satisfaction of the Owner and Architect the reliability and responsibility of the persons or entities proposed to furnish and perform the Work described in the Bidding Documents.
      b. Prior to execution of the Contract, the Architect will notify the Bidder in writing if either the Owner or Architect, after due investigation, has reasonable objection to a person or entity proposed by the bidder. If the Owner or Architect has reasonable objection to a proposed person or entity, the Bidder may, at the Bidder's option, (1) withdraw the Bid or (2) submit an acceptable substitute person or entity with an adjustment in the Base Bid or Alternate Bid to cover the difference in cost occasioned by such substitution. The Owner may accept the adjusted bid price or disqualify the Bidder. In the event of either withdrawal or disqualification, bid security will not be forfeited by the Bidder.
      c. Persons or entities proposed by the Bidder and to whom the Owner and Architect have made no reasonable objection must be used in the Work for which they were proposed and shall not be changed except with the written consent of the Owner and Architect.

G. **Coordination**: The Prime General Contractor is responsible for the coordination of the total project. All other Prime Contractors and all Subcontractors will cooperate with the Prime General Contractor to facilitate the general progress of the Work. Each trade shall afford all other trades every reasonable opportunity for the installation of their work. Refer to Section 01 41 00 entitled *Project Coordination*.

1.02 CONTRACTS

A. **Contracts**: Construct work under a single Prime General Contract. Refer to Section 00 50 00 entitled *Agreement Form*.

1.03 WORK BY OTHERS

A. **Work by Others:** Work by Others shall be described in each appropriate Project Manual section and noted on the Drawings.

1.04 OWNER-FURNISHED PRODUCTS

A. **Products Furnished by Owner**: Products furnished by Owner shall be described in each appropriate Project Manual section and noted on the Drawings.

B. **Products**: Delivered and unloaded at site.

C. **Owner's Duties**:
   1. Schedule delivery date with Supplier in accordance with construction schedule.

2. Obtain installation drawings and instructions.
3. Submit claims for transportation damages.
4. Arrange Guarantees, Warranties, etc.

D. **Contractor's Duties**:
1. Designate required delivery date for each product in construction schedule.
2. Promptly inspect delivered products, report missing, damaged, or defective items.
3. Handle at site, including uncrating and storage.
4. Protect from exposure to elements and from damage.
5. Repair or replace damaged items resulting from Contractor's operations.
6. Install and make final connections.

1.05 CONTRACTOR'S USE OF PREMISES

A. Confine operations at site to areas permitted by:
1. Law.
2. Ordinances.
3. Permits.
4. Contract Documents.
5. Owner.

B. Do not unreasonably encumber site with materials or equipment.

C. Do not load structure with weight that will endanger structure.

D. Assume full responsibility for protection and safekeeping of products stored on premises.

E. Move any stored products which interfere with operations of Owner or other Contractors.

F. Obtain and pay for use of additional storage or work areas needed for operations.

G. Limit use of site for work and storage to the area indicated in the drawings.

H. The Contractor, all Subcontractors, and all employees thereof shall designate the employee parking area. This designated parking area is not to be used for material storage or staging. The Contractor shall be responsible for keeping this area clean and shall check to ensure such at the end of each day.

I. Material storage and trailers for material storage shall be located within the Construction Limits as indicated on the drawings or as directed by the Owner.

1.06 SUMMARY OF WORK SUPPLEMENT

A. Refer to Section 01 90 00 entitled *Division One Supplement* for Project specific summary of work requirements

1.07 GOVERNING PROVISIONS

A. As required by all provisions listed or shown in these Contract Documents.

END OF SECTION

SECTION 01 20 00

ALLOWANCES

1.01 DESCRIPTION

A. **Related Work Specified Elsewhere**: Sections of Specifications as listed under Schedule of Allowances.

B. **Allowances for Products**:
1. Purchase products under each allowance as directed by the Professional.
2. Amount of each allowance includes:
   a. Net cost of product.
   b. Delivery and unloading at site.
   c. Applicable taxes.
3. In addition to amounts of allowances, include in bid, for inclusion in Contract sum, Contractor's costs for (*note that the items listed below are NOT included in the allowance value)*:
   a. Handling at site, including uncrating and storage.
   b. Protection from elements and damage.
   c. Labor, installation and finishing.
   d. Other expenses required to complete installation.
   e. Overhead and profit.

C. **Selection of Products**:
1. **Architect's Duties**: Consult with Contractor in consideration of products and Suppliers; make selections, designate products to be used; and, notify Contractor in writing.
2. **Contractor's Duties**: Assist Professional in determining qualified Suppliers; obtain multiple proposals from Suppliers when requested by the Professional; and, make appropriate recommendations for consideration of the Professional. Contractor must then provide the Professional with an itemized invoice for Allowance items. Upon notification of selection, enter Purchase Agreement with designated Supplier.

D. **Delivery**: The Contractor is responsible for arranging all delivery and unloading and should promptly inspect products for damage or defects and submit claims for transportation damage.

E. **Installation**: Comply with requirements of referenced specification section.

F. **Adjustment of Costs**: Should actual purchase cost be more, or less, than the specified allowance amount, the Contract Sum will be adjusted by Change Order equal to the amount of the difference.

1.02 SCHEDULE OF ALLOWANCES

A. Refer to Section 01 90 00 entitled *Division One Supplement* for Project specific Schedule of Allowances.

END OF SECTION

SECTION 01 21 00

PROJECT MEETINGS

1.01 DESCRIPTION

A. **Pre-Construction Meeting**: The Architect will schedule a pre-construction meeting as soon as possible after the award of Contract and the issuance of a *Notice to Proceed*.

1. **Attendance**:
   a. Owner
   b. Professional and Consultants
   c. General Contractor
   d. Major Subcontractors, including mechanical and electrical
   e. Representatives of governmental, or other regulatory agencies
2. **Pre-Construction Meeting Minimum Agenda**: (prepared by the Architect)
   a. Distribute and discuss list of major Subcontractors and construction schedule
   b. Critical work sequencing
   c. Designation of responsible personnel
   d. Procedures for maintaining record documents
   e. Use of premises, including office and storage areas
   f. Owner's requirements
   g. Security procedures
   h. Housekeeping procedures
3. **Utilities**: A written agreement must be reached on how all utilities will be furnished and the rates the Contractor will be charged. This agreement should be resolved at this meeting. Refer to Section 01 50 00 entitled *Construction Facilities and Temporary Controls* of this Project Manual for additional utility requirements.

B. **Progress Meetings**:

1. The Contractor will schedule regular meetings at the time of the pre-construction conference
2. **Contractor's Responsibilities**: The General Contractor will administer all progress meetings which include the following:
   a. Prepare agenda
   b. Distribute written notice of meetings seven (7) days in advance
   c. Make physical arrangements for and presiding at the meetings
   d. Record minutes
   e. Distribute copies of the minutes to participants within four (4) days
3. Hold all meetings as progress of work dictates
4. **Attendance**:
   a. Owner
   b. Professional and Consultants
   c. General Contractor
   d. Subcontractors, as pertinent to the agenda
5. **Minimum Agenda**:
   a. Review, approve minutes of the previous meeting
   b. Review work progress since last meeting
   c. Note field reviews, problems and decisions
   d. Identify problems which impede planned progress

e. Review off-site fabrication problems
f. Revise construction schedule, as indicated
g. Plan progress during the next work period
h. Review proposed changes
i. Review Submittal Logs, RFI Logs & RFP Logs
j. Review Contractor's Builder's Risk Insurance
k. Review Contract Completion Date
l. Complete other current business

END OF SECTION

SECTION 01 27 00

APPLICATIONS FOR PAYMENT

1.01 SCOPE

A. This Section describes procedures for preparing and submitting Applications for Payment by the Contractor.

B. Some Owners have specific requirements for procedures regarding applications for payment. These requirements will be outlined at the Pre-Construction Meeting and are expected to be followed in place of and/or in addition to the requirements listed in this Section.

1.02 APPLICATIONS FOR PAYMENT

A. **Format**:

1. Applications for Payments will be prepared on AIA forms G702 - *Application and Certificate for Payment* and G703 - *Continuation Sheet*; or, a computer-generated form containing similar data may be used.

B. **Preparation of Application**:

1. Present required information in typewritten form
2. Execute certification by signature of authorized officer
3. Use data from approved *Schedule of Values*. Provide dollar value in each column for each line item for portion of Work performed and for stored products.
4. List each authorized Change Order as an extension on continuation sheet, listing Change Order number and dollar amount as for an original Item of Work.
5. Prepare Application for Final Payment as specified in Section 01 77 00 entitled *Contract Closeout.*

C. **Submittal Procedures**:

1. Submit five (5) copies of each Application for Payment
2. Submit an updated construction schedule with each Application for Payment as described in Section 01 31 00 entitled *Progress Schedule.* Submit Rain Days Log as required by Section 01 31 00 *Progress Schedules,* paragraph F.
3. Submit requests for payment at intervals agreed upon by the Professional, Owner and Contractor.
4. Submit requests to the Professional at agreed upon times, or as may be directed otherwise.

D. **Substantiating Data**:

1. Submit data justifying dollar amounts in question when such information is needed.
2. Provide one (1) copy of the data with a cover letter for each submittal.
3. Indicate the Application number, date and line item number and description.

END OF SECTION

SECTION 01 27 50

VALUE ENGINEERING (VE)

1.01 DESCRIPTION

A. **Allowable:** Value Engineering (VE) is function of the OWNER and can ONLY be performed if approved to be OR allowed to be by the OWNER of the project.

B. **Scope**: All Value Engineering proposals must be submitted in writing in schedule form. Each VE item must be independently and chronologically numbered with a full description of the scope of work changed, a reference to the drawing(s) and specification(s) effected, and an exact cost value (savings) to the project listed.

C. **Approvals:** There is to be no Value Engineering by the Contractor without the involvement of the Architect and Engineer whose work is affected. All VE items MUST be approved by the Architect/Engineer team before they are presented as an option for the Owner.

END OF SECTION

SECTION 01 28 00

CHANGE ORDER PROCEDURES

1.01 SCOPE

A. This Section describes the procedures for processing Change Orders by the Professional and the Contractor.

1.02 CHANGE ORDER PROCEDURES

A. **Change Proposed by Professional**: The Professional may issue a Proposal Request to the Contractor which includes a detailed description of a proposed change with supplementary or revised Drawings and Specifications and a change in Contract Time for executing the change. The Contractor will prepare and submit an estimate within ten (10) days.

B. **Change Proposed by Contractor**: The Contractor may propose a change by submitting a request for change to the Professional, describing the proposed change and its full effect on the Work, with a statement describing the reason for the change, and the effect on the Contract Sum and Contract Time with full documentation and a statement describing the effect on Work by separate or other Contractors. Document any requested substitutions in accordance with Section 01 63 00 entitled *Substitutions and Product Options*.

C. **Contractor's Documentation**:
1. Maintain detailed records of Work completed on a time and material basis. Provide full information required for evaluation of proposed changes, and substantiate costs of changes in the Work.
2. Document each quotation for a change in cost or time with sufficient data allowing evaluation of the quotation.
3. On request, provide additional data to support computations:
   a. Quantities of products, labor, and equipment
   b. Taxes, insurance and bonds
   c. Overhead and profit
   d. Justification for any change in Contract Time
   e. Credit for deletions from Contract, similarly documented
4. Support each claim for additional costs, and for Work completed on a time and material basis, with additional information:
   a. Origin and date of claim
   b. Dates and times work was performed and by whom
   c. Time records and wage rates paid
   d. Invoices and receipts for products, equipment, and subcontracts, similarly documented.

D. **Construction Change Directive**: The Professional may issue a document, approved by the Owner, instructing the Contractor to proceed with a change in the Work, for subsequent inclusion in a Change Order. The document will describe changes in the Work, and will designate method of determining any change in Contract Sum or Contract Time. The change in Work will be promptly executed.

E. **Format**: The Professional will prepare five (5) originals of the Change Order using the AIA Form G701*Change Order Form*.

F. **Types of Change Orders**:
   1. **Stipulated Sum Change Order**: Based on Proposal Request and Contractor's fixed price quotation, or Contractor's request for a Change Order as approved by the Professional.
   2. **Unit Price Change Order**: For pre-determined unit prices and quantities, the Change Order will be executed on a fixed unit price basis. For unit costs or quantities of units of work which are not pre- determined, execute Work under a Construction Change Directive. Changes in Contract Sum or Contract Time will be computed as specified for Time and Material Change Order.
   3. **Time and Material Change Order**: Submit itemized account and supporting data after completion of change, within time limits indicated in the *Standard Form of Agreement Between the Owner and the Contractor*. The Professional will determine the change allowable in Contract Sum and Contract Time as provided in the Contract Documents. The Contractor shall maintain detailed records of Work accomplished on Time and Material basis and shall provide full information required for evaluation of proposed changes, and to substantiate costs for changes in the Work. For time to be considered as “rain days” see the requirements in *Section 01 31 00 Progress Schedules*, paragraph F.

G. **Execution of Change Order**: The Professional will issue Change Orders for signatures of parties as provided in the *Standard Form of Agreement Between the Owner and the Contractor*. Final execution of all Change Orders requires approval by the Owner.

H. **Correlation of Contractor Submittals**: The Contract shall promptly revise *Schedule of Values* and the *Application for Payment* forms to record each authorized Change Order as a separate line item and adjust the Contract Sum. Promptly revise progress schedules to reflect any change in Contract Time, revise sub-schedules to adjust time for other items of Work affected by the change and resubmit. Promptly enter changes in Project Record Documents.

END OF SECTION

SECTION 01 29 00

SCHEDULE OF VALUES

1.01 DESCRIPTION

A. **Scope**: Submit a *Schedule of Values* to the Professional at least ten (10) days prior to submitting the first Application for Payment. Upon the Professional's request, the Contractor will provide supportive data substantiating their correctness. Use *Schedule of Values* only as basis for Contractor's Application for Payment.

B. **Form of Submittal**: Submit Schedule of Values on AIA Document G703, or computer-generated form containing similar style, using Table of Contents of these Specifications as basis for format for listing costs of work for sections under Divisions 2-48. Identify each line item with number and title as listed in Table of Contents in these Specifications.

C. **Preparing Schedule of Values**:
1. Itemize separate line item cost for each of the following general cost items: Performance and Payment Bonds, field supervision and layout, temporary facilities and controls, mobilization and taxes.
2. Itemize separate line item cost for work required by each Section of these Specifications. Break down installed cost into labor and materials with overhead and profit.
3. For each line item which has installed value of more than $20,000, break down costs to list major products for operations under each item, rounding figures to nearest dollar. Make sum of total costs of all items listed in Schedule equal to total Contract sum.
4. If a value line item scope of work or material is determined not necessary and removed from the contract, then the Schedule of Values line item will be used as the real cost for that item.

D. **Preparing Schedule of Unit Material Values**:
1. Submit separate Schedule of unit prices for materials to be stored on which progress payments will be made. Make form of submittal parallel to Schedule of Values with each line item identified same as line item in Schedule of Values. Include in unit prices only: cost of material, delivery, unloading at site, and sales tax.
2. Make sure unit prices multiplied by quantities equal material cost of that item in Schedule of Values.

END OF SECTION

SECTION 01 31 00

PROGRESS SCHEDULES

1.01 DESCRIPTION

A. **Scope**: Provide projected construction schedules for entire work and revise periodically and at the request of the Architect. The following is a minimum requirement and other type schedules are acceptable with Owner's approval. This type of schedule is acceptable for any Project whose initial Contract award amount if **less than** one (1) million dollars ($1,000,000).

B. **Form of Schedules**: Prepare in form of horizontal bar chart.
1. Provide separate horizontal bar column for each trade or operation.
2. Place in order of the Table of Contents of Specifications.
3. Identify each column by major Specification section number.
4. Identify the first work day of each week by horizontal time scale.
5. Scale and space to allow for updating.

C. **Contents of Schedule**:
1. Provide complete sequence of construction by activity.
2. Indicate dates for beginning and completion of each stage of construction.
3. Identify work of separate floors, separate phases, or other logically grouped activities.
4. Show projected percentage of completion for each item of work as of first day of month.

D. **Updating**:
1. Show all changes occurring since previous submission of updated schedule.
2. Indicate progress of each activity and completion dates.

E. **Submittals**:
1. Submit initial schedules to the Professional within fifteen (15) days after date of Notice to Proceed.
2. Submit to Professional periodically updated schedules accurately depicting progress to first day of each month.
3. Submit two (2) copies, one (1) to be retained by the Professional and the other forwarded to the Owner.

F. **Rain Days:**
1. The General Contractor must keep a rain gauge at the job site and record any measurable rain that occurs to successfully submit for Rain Days. The Contractor can utilize official recordings from the National Weather Service if a nearby weather station is available (within 5 miles). The Contractor shall submit a Ray Days Log with every application for payment. This Log shall include the day and amount of rain received (in inches). If there are zero rain days during a period, the Contractor shall submit the Log with "zero" days listed.
2. The Contractor shall figure the following number of rain days for each month listed below in his schedule: January-7 days; February-6 days; March-7 days; April-5 days; May-6 days; June-6 days; July-9 days; August-7 days; September-6 days; October-4 days; November-5 days; December-7 days.
3. Request for rain days shall not be made unless the number of days per month amounting to 1/10" or more exceeds the number of days on the above chart.

4. Request for rain days shall not be made after the building is "dried in" (air/vapor barrier and/or waterproofing layers for roof and all walls installed per specifications) and conditions are such that work can continue unimpeded by inclement weather.

END OF SECTION

SECTION 01 33 00

SHOP DRAWINGS, PRODUCT DATA AND SAMPLES

1.01 DESCRIPTION

A. **Scope:** Submit to the Professional shop drawings, product data and samples required by Specification sections.

B. **Shop Drawings:** Original drawings prepared by Contractor, Subcontractor, Supplier, or Distributor which illustrate some portion of the Work; showing fabrication, layout, setting, or erection details.

1. Prepared by a qualified detailer.
2. Identify details by reference to sheet and detail numbers shown on Contract drawings.
3. Minimum sheet size: 8 1/2" x 11"

C. **Product Data**:

1. **Manufacturer's Standard Schematic Drawings**: Modify drawings to delete information which is not applicable to the Project. Supplement standard information to provide additional information applicable to the Project.
2. **Manufacturer's Catalog Sheets, Brochures, Diagrams, Schedules, Performance Charts, Illustrations and Other Standard Descriptive Data**: Clearly mark each copy to identify pertinent materials, products, or models. Show dimensions and clearances required. Show performance characteristics and capacities, wiring diagrams and controls.

D. **Samples**: Physical examples to illustrate materials, equipment or workmanship and to establish standard by which completed work is judged.

1. **Office Samples**: Of sufficient size and quantity to clearly illustrate functional characteristics of products or material with integrally related parts and attachment devices and full range of color samples. After review, samples remain the property of the Professional until completion of the construction project.

E. **Field Samples and Mock-ups**:

1. Erect on project site at location acceptable to Professional. Construct each sample, or mock-up, completely including work of all trades required in finished work.
2. The Superintendent shall get samples of all major materials at full size before ordering the remaining quantities of specified materials. If samples are not approved before the materials are delivered, then the Contractor will be responsible (for the additional time and cost) for replacing non-approved materials with materials that match the approved field sample or mock-up. The mock-up samples will be installed in the size and locations as called for in the drawings. Where mock-ups shown in drawings do not designate size, they shall be 4 ft by 4 by ft min or shall be approved by Architect for size and location. Most mock-up samples will be installed in place but a few will be installed on the ground outside the building for permanent comparison (exemplifying the quality of work expected) to installed work. Any mock-ups required by the specifications that are not shown in the drawings will still abide by the requirements of this Section.

F. **Contractor's Responsibilities**:

1. Review shop drawings, product data and samples prior to submission.
2. Verify field measurements, field construction criteria, catalog numbers and similar data.
3. Coordinate each submittal with requirements of work and of Contract Documents.
4. Contractor's responsibility for errors and omissions in submittals is not relieved by the

Professional's review of submittals.

5. Contractor's responsibility for deviations in submittals from requirements of Contract Documents is not relieved by Professional's review of submittals unless Professional gives written acceptance of specific deviations.
6. Notify Professional in writing at the time of submission of deviations in submittals from requirements of Contract Documents.
7. Begin no work requiring submittals until the return of submittals bearing Professional's stamp and initials, or signature indicating review.
8. After Professional's review, distribute copies.

G. **Submission Requirements**:

1. Schedule submission with ample time before dates reviewed submittals will be needed.
2. Preferred media for shop drawings and submittals is PDF format send via e-mail. If electronic submittals are not obtainable, then contractor shall send required number of copies (stated at the pre-construction meeting) on opaque bond paper.
3. Submit number of copies of shop drawings and product data which Contractor requires for distribution, plus one (1) copy to be retained by the Professional. Provide two (2) copies to be retained by the Professional for all submittals seeking a Civil, Structural, Mechanical or Electrical review.
4. Submit number of samples specified in each Specification section.
5. Accompany submittals with transmittal letter, in duplicate, containing date, Project title and number; Contractor's name and address; the number of each shop drawings, product data and samples submitted; notification of deviations from Contract Documents; and, other pertinent data.
6. Submittals shall include:
   a. Date and revision dates.
   b. Project title and number.
   c. The names of the Professional, Contractor, Supplier, Manufacturer and separate detailer, when pertinent.
   d. Identification of product, or material.
   e. Relation to adjacent structure, or materials.
   f. Field dimensions clearly identified as such.
   g. Specification section number.
   h. Applicable standards such as ASTM number, or federal specifications.
   i. A blank space (4" x 4") for the Professional's stamp.
   j. Identification of deviations from Contract Documents.
   k. Contractor's stamp, initialed or signed, certifying the review of submittal, verification of field measurements and compliance with Contract Documents.
7. All shop drawings and product submittals shall be provided as soon as possible to prevent dealing with discontinued products and delays in the project. Untimely submission will be considered mismanagement by the Contractor.

H. **Resubmission Requirements**:

1. **Shop Drawings**: Revise initial drawings, as required, and resubmit as specified for initial submittal. Indicate on the drawings any changes which have been made other than those required by the Professional.
2. **Product Data and Samples**: Submit new data and samples, as required, for initial submittal.

I. **Distribution of Submittals After Review**:
   1. Distribute copies of shop drawings and product data which carry Professional's stamp to Contractor's file, job site file, Subcontractor, Supplier and Fabricator.
   2. Distribute samples as directed.

J. **Professional's Duties:**
   1. Review submittals with reasonable promptness.
   2. Review for design concept of Project and information given in Contract Documents.
   3. Review of separate item does not constitute review of an assembly in which item functions.
   4. Affix stamp and initials, or signature, certifying the review of submittal.
   5. Return submittals to Contractor for distribution.

END OF SECTION

SECTION 01 35 00

ALTERNATES

1.01 DESCRIPTION

A. **Scope**: This section describes the changes to be made under each alternate.

B. **General**: The referenced Specification sections contain the pertinent requirements for materials and methods to achieve the work described herein. Coordinate related work and modify surrounding work, as required, to complete the Project under each alternate designated in the Contract.

1.02 DESCRIPTION OF ALTERNATES

A. Refer to Section 01 90 00 entitled *Division One Supplement* for Project specific description of project Alternates.

END OF SECTION

SECTION 01 41 00

PROJECT COORDINATION

1.01 DESCRIPTION

A. **Scope**: To set forth procedures, conditions and responsibility for coordination of the total project.

B. **Project Coordinator**: The General Contractor will designate one (1) individual as Project Coordinator or Superintendent, as referred to in the General Conditions. Prior to beginning the Work, the name and qualifications will be submitted, in writing, to the Professional. Upon the approval of the Professional and the Owner, the Project Coordinator will remain until the Project is completed and cannot be removed during construction without the written consent of the Owner and the Professional.

C. **Superintendent**:
1. The Superintendent will write down all instructions given by Professionals on site reviews and will send copies to the Owner and Architect within 4 working days.
2. The Superintendent shall be accompanied by the Architect during the review of the work at all times. If the Superintendent is not present with a note pad to make notes of issues, then the Architect will leave the job site.
3. The Superintendent must be at the job site at all times during the working day. It is understood that sometime the Superintendent must leave the job for various reasons. When this occurs, the Contractor shall notify the Architect. If the Superintendent must be away from the job site for more than an hour, than the Contractor shall supply a suitable temporary Superintendent to replace him during his absence.

1.02 DUTIES OF PROJECT COORDINATOR

A. **General**:
1. **Coordination**: Coordinate the work of all Subcontractors and Material Suppliers.
2. **Supervision**: Supervise the activities of every phase of work taking place on the Project.
3. **Mechanical/Electrical**: Take special care to coordinate and supervise the work of the plumbing, heating and cooling and electrical Subcontractors.
4. **Communication**: Establish lines of authority and communication at the job site.
5. **Location**: The Project Coordinator must be present on the job all of the time.
6. **Permits**: Assist in obtaining building and special permits required for construction.

B. **Interpretations of Contract Documents**:
1. **Consultation**: Consult with Architects and Engineers to obtain interpretations.
2. **Assistance**: Assist in resolution of any questions.
3. **Transmission**: Transmit written interpretations to concerned parties.

C. **Cessation of Work**: Stop all work not in accordance with the requirements of the Contract Documents.

D. **Division One**: Coordinate and assist in the preparation of all requirements of Division One and specifically as follows:

1. **Cutting and Patching**: Supervise and control all cutting and patching of other trades' work.
2. **Project Meetings**: Schedule and preside at all project meetings. The Contractor must provide complete and comprehensive meeting minutes within 4 working days of any project meetings.
3. **Construction Schedules**: Prepare and submit all construction schedules; supervise work to monitor compliance with schedules.
4. **Shop Drawings, Product Data and Samples**: Administer the processing of all submittals required by the Project Manual.
5. **Schedule of Values**: Assist in preparation and be knowledgeable of each entry in the Schedule of Values.
6. **Testing**: Coordinate all required testing.
7. **Temporary Facilities and Controls**: Allocate, maintain and monitor all temporary facilities.
8. **Substitutions and Product Options**: Administer the processing of all substitutions.
9. **Project Closeout**: Conduct final inspections and assist in collection and preparation of closeout documents.
10. **Cleaning**: Direct and execute a continuing cleaning program throughout construction, requiring each trade to dispose their own debris.
11. **Project Record Documents**: Maintain up-to-date project record documents. These documents are to be presented at all monthly project meetings for review by the Architect.
12. **Safety Measures**: Plan and enforce all safety requirements.

E. **Changes**: Recommend and assist in the preparation of requests to the Professional for any changes in the Contract.

F. **Application for Payment**: Assist in the preparation and be knowledgeable of each entry in the Application and Certificate for Payment.

1.03 SUBCONTRACTOR'S DUTIES

A. **General**: The Subcontractor is responsible for coordinating and supervising employees in the work to be accomplished under their part of the Contract.

B. **Schedules**: Conduct work to assure compliance with construction schedules.

C. **Suppliers**: Transmit all instructions to Material Suppliers.

D. **Cooperation**: Cooperate with the Project Coordinator and other Subcontractors.

1.04 OWNER-PURCHASED PRODUCTS

A. **General**: Cooperate, accept delivery, arrange storage and protect Owner-purchased products until installation, or final acceptance.

END OF SECTION

SECTION 01 42 00

ABBREVIATIONS AND STANDARDS

PART ONE - GENERAL

1.01 THE CONTRACT DOCUMENTS

A. **DRAWINGS**: The drawings are those enumerated in the list of drawings and identified in the agreement. The drawings, in many instances, are schematic and do not define exact locations of every part and piece of equipment. Items furnished may vary in dimension from the specific item called for in the Contract Documents. In such cases, determine exact position of each part by "on the job" measurements and drawings from equipment suppliers. Coordinate with other Work.

B. **SPECIFICATION SECTIONS**: Each section governs the complete work of the title, along with work related to the title, no matter where such work is shown on the drawings or mentioned in the specifications.

C. **SPECIFICATION FORM**: These specifications are of the abbreviated, simplified or streamlined type and include incomplete sentences. Omission of words or phrases such as "The contractor shall", "in conformity therewith", "shall be", "as noted on the drawings", "per the plans", "a", "the", and "all" are intentional. Omitted words or phrases shall be supplied by inference in the same manner as they are when a "note" occurs on the drawings.

D. **ARCHITECT'S AUTHORITY**: Wherever the words "equal", "approved equal", "approved", "satisfactory", "directed", "submitted", "inspected", "selected", or similar words or phrases are used, it shall be assumed that these are actions or opinions of the Architect. An example of such completed phrase is "approved by the Architect."

E. **APPLICABILITY OF WORK AND WORK RESTRICTIONS**: (Unless specifically noted otherwise) The Contractor shall perform all work shown, mentioned or inferred and shall comply with all work restrictions.

1.02 REFERENCE STANDARDS AND INDUSTRY SPECIFICATIONS

A. **MINIMUM SPECIFICATIONS**: Any material or operation specified by reference to published specifications of a manufacturer, a society, an association, a code, or other published standard, shall comply with requirements on the listed document which is current and has been officially published on date of receipt of bids. In cases of a conflict within the Contract Documents or between Contract Documents and Governing Codes the more stringent requirements shall govern.

B. **CERTIFICATION**: The Contractor, when requested, shall furnish an affidavit from the manufacturer certifying that materials and manufacturers products delivered to the job meet requirements specified. However, affidavit shall not relieve the Contractor for responsibility of compliance with any added requirements of Contract Documents.

END OF SECTION

SECTION 01 50 00

CONSTRUCTION FACILITIES AND TEMPORARY CONTROLS

1.01 DESCRIPTION

A. **Scope**: Work required under this section consists of all temporary construction facilities, services and related items to complete the work indicated on the drawings and described in the Project Manual. All requirements in this Section shall only be in effect if not specifically covered in Division 0. If requirements in this Section conflict with requirements in Division 0, then the requirements in Division 0 shall override the requirements in this Section.

B. **Standards**:
1. Conform to or exceed all temporary construction requirements stated in the current edition of the **International Building Code** [Chapter entitled *Safeguards During Construction*].
2. Refer to Article 10.1.1 in Section 00 70 00 entitled *General Conditions*.

C. **Materials**: All materials required by the Work of this section shall be as specified in the respective sections.

1.02 FACILITIES AND CONTROLS

A. **Access**: The Prime General Contractor shall provide an adequate access and/or roads to the site of the structure, if required for the prosecution of work; and, should also provide and maintain at least one (1) temporary, or permanent, access to each working elevation to be permanently occupied. If requested, the Architect will be provided keys to access the site after hours.

B. **Hoisting Facilities**: The Prime General Contractor shall be responsible for providing suitable capacity and hoisting facilities for all people and materials. The use of the hoisting facilities shall be by agreement of the Prime General Contractor and the individual Contractor.

C. **Field Office and Sheds**: always, the Prime General Contractor shall provide and maintain a weatherproof office with telephone, which may also be used by Subcontractors, the Owner and the Professional. Office location will be approved by the Owner. Each general and individual Contractor shall provide suitable watertight/dampproof sheds to house their construction materials.

D. **Sanitation Facilities**: The Prime General Contractor is responsible for furnishing adequate temporary toilet facilities on the job site.

E. **Drinking Water**: The Prime General Contractor shall provide always sanitary drinking water facilities for all workmen on the job including ice, when required, and paper cups, etc.

F. **Fire Protection**: The Prime General Contractor shall provide general temporary fire protection. Subcontractors will be responsible for their own.

G. **Storage**: The Prime General Contractor shall coordinate the allocation of storage areas to the various Subcontractors.

H. **Temporary Heat**: The Prime General Contractor shall provide heat, fuel and services, as necessary, to

protect all work from dampness and cold until final acceptance. If in the late stages of the construction, mechanical and electrical installations will permit, the mechanical and electrical facilities may be used to provide heat and ventilation. However, the Owner is saved harmless of any costs of operation or responsibility as to acceptance of mechanical and/or electrical installations.

I. **Temporary Utilities During Construction**: The Prime General Contractor shall make arrangements for and furnish all water, electricity (lighting and power) and other utilities necessary for construction purposes. Should temporary utilities for construction be tapped off existing (Owner supplied) utilities, then the prime general contractor should propose to the Owner and Architect how these utilities will be furnished. If the Owner's existing utilities must be used to provide these requirements, then a written agreement must be reached on how all utilities (water and electricity) will be furnished and the rates the Contractor will be charged. If the written agreement is not filed with the Owner, the Contractor waives all rights as to the rates charged. The Owner will then determine all utility rates and assess the charges before final payment is rendered.

J. **Permanent Utility Hook-up**:
Water: See Civil Drawings
Natural Gas: See Civil Drawings
Electricity: See Electrical Drawings

(Note: See Civil and Electrical Drawings for Utility Information and Contact Info if the information is not listed above; if info listed above is different from those listed in Civil and Electrical Drawings then default with info in drawings and call Architect for clarification).

K. **Project Sign**:
1. The requirements and layout for this sign are in *Section 01 90 00 Division One Supplement*.
2. No other signs shall be displayed on the job site without permission of the Professional. The display of sign advertisements is strictly prohibited.

END OF SECTION

SECTION 01 63 00

SUBSTITUTIONS AND PRODUCT OPTIONS

1.01 DESCRIPTION

A. **Scope**: To set forth the procedure and conditions for substitutions and to give the product options available to the Contractor.

1.02 PRODUCTS LIST

A. Within thirty (30) days after the Contract has been signed, the Contractor will submit to the Professional five (5) copies of a complete list of all products proposed for installation.
B. Tabulate the list by Specification sections.
C. For products specified under reference standards, include with listing of each product:
   1. Name and address of Manufacturer.
   2. Trade name.
   3. Model, or catalog designation.
   4. Manufacturer's data.
   5. Performance and test data.
   6. Reference standards.

1.03 CONTRACTOR'S OPTIONS

A. For products specified only by reference standards, select any product meeting product standards by any Manufacturer.

B. For products specified by naming a minimum of three (3) products or Manufacturers, select any product and Manufacturer named.

C. For product specified by naming one (1) or more products, but indicating the option of selecting equivalent products by stating "or equal" after specified product, Contractor must submit request, as required for substitution, for any product not specifically named.

D. For products specified by naming only one (1) product and Manufacturer, an equivalent product will always be accepted if it is equal in all respects. The Contractor must submit a request for substitution as set forth in this Section.

E. For products specified by naming only one (1) product and Manufacturer and stating no substitutions will be accepted, there is no option and no substitutions will be allowed. This option must have written approval by the Owner before bidding.

1.04 SUBSTITUTIONS

A. Professional will not consider requests for substitutions during bidding.

B. Within thirty (30) days after the Contract has been signed, the Professional will consider formal

requests from the Contractor for substitution of products in place of those specified. Submit five (5) copies of the request for substitutions. Include in the request:

1. Complete data substantiating compliance of proposed substitutions with Contract Documents.
2. For products:
   a. Product identification including Manufacturer's name and address.
   b. Manufacturer's literature: Product description, performance and test data and reference standards.
   c. Samples.
   d. Name and address of similar products on which product was used and date of installation.
3. For construction methods:
   a. Detailed description of proposed method.
   b. Drawings illustrating methods.
4. Itemized comparison of proposed substitutions with product or method specified.
5. Data relating to changes in construction schedule.
6. Accurate cost data on proposed substitution in comparison with product or method specified.

C. In making request for substitution, Contractor represents:
   1. Proposed product, or method, has been investigated and determined that it is equal or superior in all respects to that specified.
   2. The same guarantee will be provided for substitutions as for product or method specified.
   3. Installation of accepted substitutions will be coordinated into the Work, making such changes required of work to be complete in all respects.
   4. All claims for additional costs related to substitution which consequently become apparent will be waived.
   5. Cost data is complete and includes all related costs under the Contract.

D. Substitutions will not be considered if:
   1. Indicated, or implied, on shop drawings or product data submittals without formal request submitted in accordance with this Section.
   2. Acceptance will require substantial revision of Contract Documents.
   3. In the Professional's judgment, the product, or material, is not equal.
   4. The Contractor does not submit as required in paragraph “B” above.

END OF SECTION

SECTION 01 65 00

STARTING OF SYSTEMS

1.01 GENERAL

A. **Scope**: This Section describes the procedures for startup of all building equipment and systems including necessary demonstration and instructions.

1.02 STARTING SYSTEMS

A. Coordinate Schedule for start-up of various equipment and systems.

B. Notify Professional and Owner seven (7) days prior to start-up of each system.

C. Verify each piece of equipment or system has been checked for proper lubrication, drive rotation, belt tension, control sequence, or other conditions which may cause damage.

D. Verify that tests, meter readings and specified electrical characteristics agree with those required by the equipment or system manufacturer.

E. Verify wiring and support components for equipment are complete and tested.

F. Execute start-up under supervision of responsible Contractors' personnel in accordance with manufacturers' instructions.

G. When specified in individual specification Sections, require Manufacturer to provide authorized representative to be present at site to inspect, check and approve equipment or system installation prior to start-up, and to supervise placing equipment or system in operation.

H. Submit a written report that equipment or system has been properly installed and is functioning correctly.

1.03 DEMONSTRATION AND INSTRUCTIONS

A. Demonstrate operation and maintenance of Products to Owner's personnel prior to date of Substantial Completion.

B. Utilize operation and maintenance manuals as basis for instruction. Review contents of manual with Owner's personnel in detail to explain all aspects of operation and maintenance.

C. Demonstrate start-up, operation, control, adjustment, trouble-shooting, servicing, maintenance, and shutdown of each item of equipment at agreed-upon times, at designated location.

D. Prepare and insert additional data in operations and maintenance manuals when need for additional data becomes apparent during instruction.

E. Owner Training by the Equipment Manufacturer may be done during NON-BUSINESS HOURS; Manufacturer shall include pricing for overtime pay in the bid associated with training sessions that occur after 5pm, before 8am or during weekends to accommodate the Owner's scheduling.

END OF SECTION

SECTION 01 73 00

CUTTING AND PATCHING

1.01 GENERAL DESCRIPTION

A. **Scope**: To set forth broad, general conditions covering cutting and patching that applies to everyone and everything on the job.

B. Execute cutting including excavating, fitting, or patching of work required to:
1. Make several parts fit properly.
2. Uncover work to provide for installation of ill-timed work.
3. Remove and replace defective work.
4. Remove and replace work not conforming to Contract requirements.
5. Install specified work in existing construction.

C. In addition to Contract requirements, upon Professional's written instructions:
1. Uncover work for observation of covered work.
2. Remove samples of installed materials for testing.
3. Remove work to provide alteration of existing work.

D. Do not cut or alter work of another Contractor without permission.

E. **Payment of Costs**: Costs caused by ill-timed, or defective work or work not conforming to Contract Documents will be borne by party responsible for ill-timed, defective work, or non-conforming work.

1.02 MATERIALS/PRODUCTS

A. **Materials for Replacement or Work Removed**: Comply with Specifications for type of work to be accomplished.

1.03 EXECUTION

A. **Inspection**: Inspect existing conditions of work, including elements subject to movement, or damage during cutting and patching.

B. **Preparation Prior to Cutting**: Provide shoring, bracing and support, as required, to maintain structural integrity of the building. Provide protection for other portions of work and protection from the elements.

C. **Performance**:
1. Execute cutting and demolition by methods which prevent damage to other work and will provide surfaces to receive installation of repairs and new work.
2. Execute excavating and backfilling by methods which prevent damage to other work and prevent settlement.
3. Restore work which has been cut or removed; install new products to provide completed work in accordance with requirements of Contract Documents.

4. Refinish entire surfaces, as necessary, to provide an even finish. Refinish continuous surfaces to the nearest intersection and assemblies entirely.

END OF SECTION

SECTION 01 74 00

CLEANING

1.01 DESCRIPTION

A. **Scope**: Maintain premises and adjacent public properties from accumulations of waste, debris and rubbish caused by operations. At completion of work, remove waste materials, rubbish, tools, equipment, machinery and surplus materials and clean all sight-exposed surfaces; leave Project clean and ready for occupancy.

1.02 PRODUCTS

A. **Materials**: Use only cleaning materials recommended by Manufacturer of surface to be cleaned. Use cleaning materials only on surfaces recommended by the cleaning materials Manufacturer.

1.03 EXECUTION

A. **During Construction**: Execute cleaning to insure that building, grounds and adjacent public properties are maintained free from accumulations of waste materials and rubbish. The Contractor shall wet down dry materials and rubbish to lay dust and prevent blowing dust. At reasonable intervals during progress of work, the Contractor shall clean site and adjacent public properties and dispose of waste materials, debris and rubbish. Remove waste materials, debris and rubbish from site and legally dispose of at public or private dumping areas off Owner's property. Vacuum clean interior building areas when ready to receive finish painting and continue vacuum cleaning on an as-needed basis until building is ready for substantial completion or occupancy. Handle materials in a controlled manner with as few handlings as possible; do not drop or throw materials from heights. The Contractor shall schedule cleaning operations so that dust or other contaminants resulting from cleaning process will not fall on wet or newly painted surfaces.

B. **Final Cleaning**: Employ experienced workmen, or professional cleaners, for final cleaning. In preparation for substantial completion or occupancy, conduct final inspection of sight-exposed interior and exterior surfaces and concealed spaces. Remove grease, dust, dirt, stains, labels, fingerprints and other foreign materials from sight- exposed finishes. Repair, patch and touch up marred surfaces to specified finish to match adjacent surfaces. Broom clean paved surfaces; rake clean other surfaces of grounds. Replace air conditioning filters, if units were operated during construction. Clean ducts, blowers and coils if air conditioning units were operated without filters during construction. Maintain cleaning until Project, or respective portions thereof, is occupied by Owner.

END OF SECTION

SECTION 01 75 00

PROJECT RECORD DOCUMENTS

1.01 DESCRIPTION

A. **Scope**: To set forth the procedure and requirements for keeping project record documents.

B. **Maintenance Documents**:
1. Maintain one (1) copy of all the following: Contract drawings, Project Manual, Addenda, Change Order(s), reviewed shop drawings, reviewed submittals, hardware schedules, filed and laboratory test records, equipment brochures, parts list, operating instructions and other modifications to the Contract.
2. Store documents apart from documents used for construction.
3. Maintain documents in clean, dry, legible condition. Do not use record documents for construction purposes.
4. Make documents available, always, for inspection by the Professional and the Owner.

C. **Recording**:
1. **General**: Mark all modifications in red pencil. Keep record documents current. Do not permanently conceal any work until required information has been recorded.
2. **Contract Drawings**: Legibly mark to record actual construction.
   a. Horizontal and vertical location of underground utilities and appurtenances referenced to permanent surface improvements.
   b. Location of internal utilities and appurtenances concealed in construction referenced to visible and accessible features of structure.
   c. Field changes in dimension and detail.
   d. Changes made by change order(s) or field order(s).
   e. <u>All Subcontractors shall assist the General Contractor in providing the project record documents. This will assist the Owner in maintenance as well as future modifications to the building and site.</u>
3. **Project Manual and Addenda**: Legibly mark up each section to record Manufacturer, trade name, catalog number and Supplier of each product and item of equipment installed.
4. **Shop Drawings**: Maintain as record documents. Legibly mark drawings to record changes made after review.
5. <u>**Project Record Drawings in CAD Format**: When required, Contractor is to make project record changes on Architect provided CAD drawings as well. These changes will reflect construction and building systems and shall be as accurate as possible.</u>

D. <u>**Equipment Training:** All training required by the Mechanical, Electrical, etc. specifications of regarding operations of equipment shall be digital video recorded digitally by the General Contractor and distributed to the Owner (via close-out documents), Architect and Engineers.</u>

E. **Submittal**: At completion of Project, deliver two (2) copies of each record document to the Professional, who will transmit both sets to the Owner. The Contractor shall clearly itemize all Project Record Documents on his transmittal.

END OF SECTION

SECTION 01 77 00

CONTRACT CLOSEOUT

1.01 DESCRIPTION

A. **Scope**: The work required in this Section consists of the final inspections and the submission of all closeout documents and related items to complete the Work indicated on the Drawings and described in the Project Manual. Note that Final Inspection assumes all requirements of Substantial Completion have been met (see *Substantial Completion* in the *A201 Contract General Conditions*).

1.02 FINAL INSPECTIONS

A. **Professional's Inspection**: The Contractor shall make written request for a final inspection to the Professional; notice to be given ten (10) days prior to the inspection. A list of any deficiencies, compiled by the Professional, will be corrected by the Contractor. If, in the Professional's judgment, the Project is not ready for a final inspection, the Professional may schedule another inspection.

1. If the Contractor’s list contains an unreasonable number of items (deemed by the Architect), the Architect will not visit the site for Final Inspection until most of these corrections have been made.

B. **Owner's Inspection**: After the Professional has ascertained the Project to be ready; an Owner's inspection will be scheduled within ten (10) days thereafter. The Contractor will have ten (10) days after the Owner's acceptance to make any corrections of punch list items and to submit closeout documents.

C. **Correction of Work Before Final Payment**: The Contractor shall promptly remove from the Owner's premises all materials condemned for failure to conform to the Contract, whether incorporated in the Work or not, and the Contractor shall, at his own expense, replace such condemned materials with those conforming to the requirements of the Contract. Failure to remedy such defects after ten (10) days written notice will allow the Owner to make good such defects and such costs shall be deducted from the balance due the Contractor, or charged to the Contractor in the event no payment is due.

D. **Training:** The Contractor shall coordinate with the Owner all training required by the Specifications. The Contractor will video (at the Contractor’s expense) all sessions and provide two (2) copies to the Owner and one (1) to the Architect as part of the Contract Closeout.

1.03 CLOSEOUT DOCUMENTS

Unless otherwise notified, the Contractor shall submit to the Owner through the Professional, three (3) copies of the following before final payment is made:

A. **Request for Final Payment**: AIA Document G702, current edition, completed in full or a computer-generated form having similar data.

B. **Consent of Surety Company to Final Payment**: AIA Document G707, current edition, completed in full by the Bonding company.

C. **Power of Attorney**: Closeout documents should be accompanied by an appropriate Power of Attorney.

D. **Release of Liens and Certification that All Bills Have Been Paid**: AIA Document G706A, current edition, completed in full or a sworn statement and affidavit from the Contractor to the Owner stating that all bills for this job have been paid and that the Owner is released from all claims and/or damages.

E. **Contractor's Affidavit of Payment of Debts and Claims**: AIA Document G706, current edition, completed in full.

F. **Guarantee of Work**: Sworn statement that all work is guaranteed against defects in materials and workmanship for one (1) year from date of Owner's acceptance, except where specified for longer periods.
   1. Word the Guarantee as follows:
      We hereby guarantee all work performed by us on the above captioned Project to be free from defective materials and workmanship for a period of one (1) year or such longer period as may be called for in the Contract Documents for such portions of the Work. Note: The Contractor shall not modify or add additional clauses or amendments to this statement.
   2. All guarantees and warranties shall be obtained in the Owner's name.
   3. Within the Guaranty period, if repairs or changes are requested in connection with guaranteed work which, in the opinion of the Owner, are rendered necessary as a result of the use of materials, equipment or workmanship which are inferior, defective or not in accordance with the terms of the Contract, the Contractor shall promptly, upon receipt of notice from and without expense to the Owner, place in satisfactory condition building, site, equipment or contents thereof. The Contractor shall make good any work, materials, equipment or contents of said buildings or site which may be disturbed by fulfilling any such Guaranty.
   4. If, after notice, the Contractor fails to proceed promptly to comply with the terms of the Guaranty, the Owner may have the defects corrected and the Contractor and his Sureties shall be liable for all expense incurred.
   5. All special guarantees applicable to definite parts of the work stipulated in the Project Manual or other documents forming part of the Contract shall be subject to the terms of this paragraph during the first year of the life of such special guaranty.

G. **Project Record Document**: Furnish all other record documents as set forth in Section 01 75 00 entitled *Project Record Documents*.

H. **Additional Documents Specified Within the Project Manual**: Provide all additional certificates, warranties, guarantees, bonds or documents as called for in the individual sections of the Project Manual. The Contractor is responsible for examining the Project Manual for these requirements.

END OF SECTION

SECTION 01 90 00

DIVISION ONE SUPPLEMENT

PART 1 - SUMMARY OF WORK SUPPLEMENT

1.01 WORK SEQUENCE

A. Owner will NOT occupy the building during construction.

B. Construct work in stages as follows:
   1. N/A.

PART 2 - ALLOWANCE SUPPLEMENT

2.01 SCHEDULE OF ALLOWANCES – N/A

PART 3 - ALTERNATE SUPPLEMENT

3.01 DESCRIPTION OF ALTERNATES – N/A

PART 4 – PROJECT SIGN SUPPLEMENT

4.01 **Project Sign Requirements**: The Prime General Contractor shall erect on adequate supports and maintain one (1) neatly constructed and painted 3/4" thick plywood sign approximately eight (8) feet by eight (8) feet. The project sign will consist of a large printed image of the building provided by the Architect. The Architect will also provide colors, lettering, logos, layout and location for the project sign.

END OF SECTION

SECTION 01 94 00

ADDENDA

1.01 ADDENDA

Any Addendum issued on this Project will be included in Section 01 94 00 and become a part of the *Standard Form of Agreement Between the Owner and the Contractor*.

END OF SECTION

SECTION 01 95 00

ARCHITECT'S SPECIAL CONDITIONS

PART ONE - GENERAL

1.01 OWNERSHIP OF DRAWING AND SPECIFICATIONS

A. The drawings and specifications and copies thereof furnished by the Architect are his property. All such copies shall be returned to the office of the Architect and shall not be used on any other work. The drawings and specifications are instruments of the Architectural Service rendered.

1.02 VERIFICATION OF DIMENSIONS
