November 19, 2018

To the City Council
Attention: Mr. Carter Carroll, President
City of Hattiesburg, Mississippi
Post Office Box 1898
Hattiesburg, Mississippi 39401

Dear Mr. Carroll:

You have requested that we audit the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Hattiesburg, Mississippi, as of September 30, 2018, and for the year then ended, and the related notes to the financial statements, which collectively comprise the City of Hattiesburg, Mississippi's basic financial statements as listed in the table of contents.

In addition, we will audit the entity's compliance over major federal award programs for the period ended September 30, 2018. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audits will be conducted with the objectives of our expressing an opinion on each opinion unit and an opinion on compliance regarding the entity's major federal award programs.

Accounting principles generally accepted in the United States of America require that supplementary information, such as management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by accounting principles generally accepted in the United States of America. This RSI will be subjected to certain limited procedures but will not be audited:

- Management's Discussion and Analysis (MD&A)
- Budgetary Comparison Schedules for the General Fund and major Special Revenue Funds
- Schedule of City's Proportionate Share of the Net Pension Liability – PERS and PFDR
- Schedule of City's Contributions – PERS and PFDR
- Schedule of City's Liability for Other Postemployment Benefits (OPEB)
- Schedule of City's Contributions for Other Postemployment Benefits (OPEB)

Supplementary information other than RSI will accompany the City of Hattiesburg, Mississippi's basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the supplementary information to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on the following supplementary information in relation to the financial statements as a whole:

- Schedule of Expenditures of Federal Awards
- Schedule of Surety Bonds for Municipal Officials
- Full Cost Accounting – Solid Waste Management Services
- Nonmajor and Agency Combining Fund Statements
- Budgetary Statement of Departmental Expenditures – General Fund

Schedule of Expenditures of Federal Awards

We will subject the schedule of expenditures of federal awards to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the schedule to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements as a whole.

Also, the document we submit to you will include the following other additional information that will not be subjected to the auditing procedures applied in our audit of the financial statements:

- Statistical Information necessary for the Comprehensive Annual Financial Report presentation

Data Collection Form

Prior to the completion of our engagement, we will complete the sections of the Data Collection Form that are our responsibility. The form will summarize our audit findings, amounts and conclusions. It is management's responsibility to submit a reporting package including financial statements, schedule of expenditure of federal awards, summary schedule of prior audit findings and corrective action plan along with the Data Collection Form to the federal audit clearinghouse. The financial reporting package must be text searchable, unencrypted, and unlocked. Otherwise, the reporting package will not be accepted by the federal audit clearinghouse. We will assist you in the electronic submission and certification. You may request from us copies of our report for you to include with the reporting package submitted to pass-through entities.

The Data Collection Form is required to be submitted within the *earlier* of 30 days after receipt of our auditors' reports or nine months after the end of the audit period, unless specifically waived by a federal cognizant or oversight agency for audits. Data Collection Forms submitted untimely are one of the factors in assessing programs at a higher risk.

Audit of the Financial Statements

We will conduct our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America; the audit requirements of Title

2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and, in accordance with any state or regulatory audit requirements. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. If appropriate, our procedures will therefore include tests of documentary evidence that support the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of cash, investments, and certain other assets and liabilities by correspondence with creditors and financial institutions. As part of our audit process, we will request written representations from your attorneys, and they may bill you for responding. At the conclusion of our audit, we will also request certain written representations from you about the financial statements and related matters.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or noncompliance (whether caused by errors, fraudulent financial reporting, misappropriation of assets, detected abuse, or violations of laws or governmental regulations) may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS and Government Auditing Standards of the Comptroller General of the United States of America and, in accordance with any state or regulatory audit requirements. Please note that the determination of abuse is subjective and *Government Auditing Standards* does not require auditors to detect abuse.

In making our risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit. Our responsibility as auditors is, of course, limited to the period covered by our audit and does not extend to any other periods.

We will issue a written report upon completion of our audit of the City of Hattiesburg, Mississippi's basic financial statements. Our report will be addressed to the City Council of the City of Hattiesburg, Mississippi. We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance over financial reporting will not be an objective of the audit and, therefore, no such opinion will be expressed.

Audit of Major Program Compliance

Our audit of the City of Hattiesburg, Mississippi's major federal award program(s) compliance will be conducted in accordance with the requirements of the Single Audit Act, as amended; and the Uniform Guidance, and will include tests of accounting records, a determination of major programs in accordance with the Uniform Guidance and other procedures we consider necessary to enable us to express such an opinion on major federal award program compliance and to render the required reports. We cannot provide assurance that an unmodified opinion on compliance will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or withdraw from the engagement.

The Uniform Guidance requires that we also plan and perform the audit to obtain reasonable assurance about whether the entity has complied with applicable laws and regulations and the provisions of contracts and grant agreements applicable to major federal award programs. Our procedures will consist of determining major federal programs and performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the entity's major programs. The purpose of those procedures will be to express an opinion on the entity's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Also, as required by the Uniform Guidance, we will perform tests of controls to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each of the entity's major federal award programs. However, our tests will be less in scope than would be necessary to render an opinion on these controls and, accordingly, no opinion will be expressed in our report.

We will issue a report on compliance that will include an opinion or disclaimer of opinion regarding the entity's major federal award programs, and a report on internal controls over compliance that will report any significant deficiencies and material weaknesses identified; however, such report will not express an opinion on internal control.

Management's Responsibilities

Our audit will be conducted on the basis that management and, when appropriate, those charged with governance acknowledge and understand that they have responsibility:

1. For the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America;
2. For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error;
3. For identifying, in its accounts, all federal awards received and expended during the period and the federal programs under which they were received, including federal awards and funding increments received prior to December 26, 2014 (if any), and those received in accordance with the Uniform Guidance (generally received after December 26, 2014);
4. For maintaining records that adequately identify the source and application of funds for federally funded activities;

5. For preparing the schedule of expenditures of federal awards (including notes and noncash assistance received) in accordance with the Uniform Guidance;
6. For the design, implementation, and maintenance of internal control over federal awards;
7. For establishing and maintaining effective internal control over federal awards that provides reasonable assurance that the nonfederal entity is managing federal awards in compliance with federal statutes, regulations, and the terms and conditions of the federal awards;
8. For identifying and ensuring that the entity complies with federal statutes, regulations, and the terms and conditions of federal award programs and implementing systems designed to achieve compliance with applicable federal statutes, regulations, and the terms and conditions of federal award programs;
9. For disclosing accurately, currently, and completely the financial results of each federal award in accordance with the requirements of the award;
10. For identifying and providing report copies of previous audits, attestation engagements, or other studies that directly relate to the objectives of the audit, including whether related recommendations have been implemented;
11. For taking prompt action when instances of noncompliance are identified;
12. For addressing the findings and recommendations of auditors, for establishing and maintaining a process to track the status of such findings and recommendations and taking corrective action on reported audit findings from prior periods and preparing a summary schedule of prior audit findings;
13. For following up and taking corrective action on current year audit findings and preparing a corrective action plan for such findings;
14. For submitting the reporting package and data collection form to the appropriate parties;
15. For making the auditor aware of any significant contractor relationships where the contractor is responsible for program compliance;
16. To provide us with:
    a. Access to all information of which [*management*] is aware that is relevant to the preparation and fair presentation of the financial statements, and relevant to federal award programs, such as records, documentation, and other matters;
    b. Additional information that we may request from [*management*] for the purpose of the audit; and
    c. Unrestricted access to persons within the entity from whom we determine it necessary to obtain audit evidence.
17. For adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the current year period(s) under audit are immaterial, both individually and in the aggregate, to the financial statements as a whole;
18. For maintaining adequate records, selecting and applying accounting principles, and safeguarding assets;
19. For taking reasonable measures to safeguard protected personally identifiable and other sensitive information; and
20. For confirming your understanding of your responsibilities as defined in this letter to us in your management representation letter.

With regard to the schedule of expenditures of federal awards referred to above, you acknowledge and understand your responsibility (a) for the preparation of the schedule of expenditures of federal awards in accordance with the Uniform Guidance, (b) to provide us with the appropriate written representations regarding the schedule of expenditures of federal awards, (c) to include our report on the schedule of expenditures of federal awards in any document that contains the schedule of expenditures of federal awards and that indicates that we have reported on such schedule, and (d) to present the schedule of expenditures of federal awards with the audited financial statements, or if the schedule will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the schedule of expenditures of federal awards no later than the date of issuance by you of the schedule and our report thereon.

As part of our audit process, we will request from management and, when appropriate, those charged with governance, written confirmation concerning representations made to us in connection with the audit.

We understand that your employees will prepare all confirmations we request and will locate any documents or invoices selected by us for testing.

Fees and Timing

We expect to begin our audit on approximately November 26, 2018 and to issue our reports no later than March 15, 2019.

Paige M. Johnson, CPA, is the engagement partner for the audit services specified in this letter. Her responsibilities include supervising TMH's services performed as part of this engagement and signing or authorizing another qualified firm representative to sign the audit report.

Our fees are based on the amount of time required at various levels of responsibility, plus actual out-of-pocket expenses. Invoices will be rendered every two weeks and are payable upon presentation. We estimate that our fee for the audit of fiscal year 2018 will be One Hundred Eighty Thousand Dollars and No Cents ($180,000.00), plus report reproduction costs for all reports. We will notify you immediately of any circumstances we encounter that could significantly affect this initial fee estimate. Whenever possible, we will attempt to use the City of Hattiesburg, Mississippi's personnel to assist in the preparation of schedules and analyses of accounts. This effort could substantially reduce our time requirements and facilitate the timely conclusion of the audit.

Other Matters

As part of our procedures, TMH expects to perform the following nonattest services for the City of Hattiesburg, Mississippi:

- Preparation of draft financial statements with note disclosures from the trial balance provided by the City of Hattiesburg, Mississippi;
- Preparation of cash to accrual journal entries; and
- Preparation of GASB conversion entries for governmental funds.

With respect to any nonattest services we perform, the City of Hattiesburg, Mississippi's management is responsible for (a) making all management decisions and performing all management functions; (b) assigning a competent individual to oversee the services; (c) evaluating the adequacy of the services performed; (d)

evaluating and accepting responsibility for the results of the services performed; and (e) establishing and maintaining internal controls, including monitoring ongoing activities.

During the course of the engagement, we may communicate with you or your personnel via fax or e-mail, and you should be aware that communication in those mediums contains a risk of misdirected or intercepted communications.

The audit documentation for this engagement is the property of TMH and constitutes confidential information. However, we may be requested to make certain audit documentation available to the Office of the State Auditor and federal agencies and the U.S. Government Accountability Office pursuant to authority given to it by law or regulation, or to peer reviewers. If requested, access to such audit documentation will be provided under the supervision of TMH's personnel. Furthermore, upon request, we may provide copies of selected audit documentation to these agencies and regulators. The regulators and agencies may intend, or decide, to distribute the copies of information contained therein to others, including other governmental agencies. We agree to retain our audit documentation or work papers for a period of at least five years from the date of our report.

Further, we will be available during the year to consult with you on financial management and accounting matters of a routine nature.

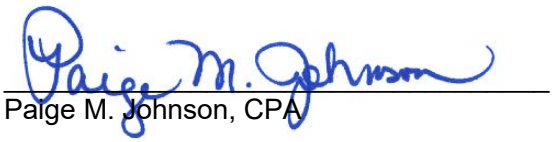
During the course of the audit, we may observe opportunities for economy in, or improved controls over, your operations. We will bring such matters to the attention of the appropriate level of management, either orally or in writing.

We agree to retain our audit documentation or work papers for a period of at least five years from the date of our report.

You agree to inform us of facts that may affect the financial statements of which you may become aware during the period from the date of the auditor's report to the date the financial statements are issued.

At the conclusion of our audit engagement, we will communicate to the City Council the following significant findings from the audit:

- Our view about the qualitative aspects of the entity's significant accounting practices;
- Significant difficulties, if any, encountered during the audit;
- Uncorrected misstatements, other than those we believe are trivial, if any;
- Disagreements with management, if any;
- Other findings or issues, if any, arising from the audit that are, in our professional judgment, significant and relevant to those charged with governance regarding their oversight of the financial reporting process;
- Material, corrected misstatements that were brought to the attention of management as a result of our audit procedures;
- Representations we requested from management;
- Management's consultations with other accountants, if any; and
- Significant issues, if any, arising from the audit that were discussed, or the subject of correspondence, with management.



In accordance with the requirements of *Government Auditing Standards*, we have attached a copy of our latest external peer review report of our firm for your consideration and files.

Please sign and return the attached copy of this letter to indicate your acknowledgment of, and agreement with, the arrangements for our audit of the financial statements compliance over major federal award programs including our respective responsibilities.

We appreciate the opportunity to be your financial statement auditors and look forward to working with you and your staff. We believe this letter accurately summarized the significant terms of our engagement as described in this letter.

Respectfully,

TMH

Paige M. Johnson, CPA

System Review Report

May 18, 2016

To the Members of
Topp McWhorter Harvey, PLLC
and the Peer Review Committee of the Mississippi Society of CPAs

We have reviewed the system of quality control for the accounting and auditing practice of **Topp McWhorter Harvey, PLLC** (the firm) in effect for the year ended December 31, 2015. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants. As a part of our peer review, we considered reviews by regulatory entities, if applicable, in determining the nature and extent of our procedures. The firm is responsible for designing a system of quality control and complying with it to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Our responsibility is to express an opinion on the design of the system of quality control and the firm's compliance therewith based on our review. The nature, objectives, scope, limitations of, and the procedures performed in a System Review are described in the standards at www.aicpa.org/prsummary.

As required by the standards, engagements selected for review included engagements performed under *Government Auditing Standards* and audits of employee benefit plans.

In our opinion, the system of quality control for the accounting and auditing practice of **Topp McWhorter Harvey, PLLC** in effect for the year ended December 31, 2015, has been suitably designed and complied with to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Firms can receive a rating of *pass*, *pass with deficiency(ies)* or *fail*. **Topp McWhorter Harvey, PLLC** has received a peer review rating of *pass*.

Davis Kinard & Co, PC

Certified Public Accountants

November 19, 2018

To the City Council
Attention: Mr. Carter Carroll, President
City of Hattiesburg, Mississippi
Post Office Box 1898
Hattiesburg, Mississippi 39401

Dear Mr. Carroll:

You have requested that we audit the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Hattiesburg, Mississippi, as of September 30, 2018, and for the year then ended, and the related notes to the financial statements, which collectively comprise the City of Hattiesburg, Mississippi's basic financial statements as listed in the table of contents.

In addition, we will audit the entity's compliance over major federal award programs for the period ended September 30, 2018. We are pleased to confirm our acceptance and our understanding of this audit engagement by means of this letter. Our audits will be conducted with the objectives of our expressing an opinion on each opinion unit and an opinion on compliance regarding the entity's major federal award programs.

Accounting principles generally accepted in the United States of America require that supplementary information, such as management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the required supplementary information (RSI) in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist primarily of inquiries of management regarding their methods of measurement and presentation, and comparing the information for consistency with management's responses to our inquiries. We will not express an opinion or provide any form of assurance on the RSI. The following RSI is required by accounting principles generally accepted in the United States of America. This RSI will be subjected to certain limited procedures but will not be audited:

- Management's Discussion and Analysis (MD&A)
- Budgetary Comparison Schedules for the General Fund and major Special Revenue Funds
- Schedule of City's Proportionate Share of the Net Pension Liability – PERS and PFDR
- Schedule of City's Contributions – PERS and PFDR
- Schedule of City's Liability for Other Postemployment Benefits (OPEB)
- Schedule of City's Contributions for Other Postemployment Benefits (OPEB)

Supplementary information other than RSI will accompany the City of Hattiesburg, Mississippi's basic financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the supplementary information to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on the following supplementary information in relation to the financial statements as a whole:

- Schedule of Expenditures of Federal Awards
- Schedule of Surety Bonds for Municipal Officials
- Full Cost Accounting – Solid Waste Management Services
- Nonmajor and Agency Combining Fund Statements
- Budgetary Statement of Departmental Expenditures – General Fund

Schedule of Expenditures of Federal Awards

We will subject the schedule of expenditures of federal awards to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling the schedule to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and additional procedures in accordance with auditing standards generally accepted in the United States of America. We intend to provide an opinion on whether the schedule of expenditures of federal awards is presented fairly in all material respects in relation to the financial statements as a whole.

Also, the document we submit to you will include the following other additional information that will not be subjected to the auditing procedures applied in our audit of the financial statements:

- Statistical Information necessary for the Comprehensive Annual Financial Report presentation

Data Collection Form

Prior to the completion of our engagement, we will complete the sections of the Data Collection Form that are our responsibility. The form will summarize our audit findings, amounts and conclusions. It is management's responsibility to submit a reporting package including financial statements, schedule of expenditure of federal awards, summary schedule of prior audit findings and corrective action plan along with the Data Collection Form to the federal audit clearinghouse. The financial reporting package must be text searchable, unencrypted, and unlocked. Otherwise, the reporting package will not be accepted by the federal audit clearinghouse. We will assist you in the electronic submission and certification. You may request from us copies of our report for you to include with the reporting package submitted to pass-through entities.

The Data Collection Form is required to be submitted within the *earlier* of 30 days after receipt of our auditors' reports or nine months after the end of the audit period, unless specifically waived by a federal cognizant or oversight agency for audits. Data Collection Forms submitted untimely are one of the factors in assessing programs at a higher risk.

Audit of the Financial Statements

We will conduct our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America; the audit requirements of Title

2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and, in accordance with any state or regulatory audit requirements. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error, fraudulent financial reporting, misappropriation of assets, or violations of laws, governmental regulations, grant agreements, or contractual agreements.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. If appropriate, our procedures will therefore include tests of documentary evidence that support the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of cash, investments, and certain other assets and liabilities by correspondence with creditors and financial institutions. As part of our audit process, we will request written representations from your attorneys, and they may bill you for responding. At the conclusion of our audit, we will also request certain written representations from you about the financial statements and related matters.

Because of the inherent limitations of an audit, together with the inherent limitations of internal control, an unavoidable risk that some material misstatements or noncompliance (whether caused by errors, fraudulent financial reporting, misappropriation of assets, detected abuse, or violations of laws or governmental regulations) may not be detected exists, even though the audit is properly planned and performed in accordance with U.S. GAAS and Government Auditing Standards of the Comptroller General of the United States of America and, in accordance with any state or regulatory audit requirements. Please note that the determination of abuse is subjective and *Government Auditing Standards* does not require auditors to detect abuse.

In making our risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. However, we will communicate to you in writing concerning any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we have identified during the audit. Our responsibility as auditors is, of course, limited to the period covered by our audit and does not extend to any other periods.

We will issue a written report upon completion of our audit of the City of Hattiesburg, Mississippi's basic financial statements. Our report will be addressed to the City Council of the City of Hattiesburg, Mississippi. We cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for us to modify our opinions, add an emphasis-of-matter or other-matter paragraph(s), or withdraw from the engagement.

In accordance with the requirements of *Government Auditing Standards*, we will also issue a written report describing the scope of our testing over internal control over financial reporting and over compliance with laws, regulations, and provisions of grants and contracts, including the results of that testing. However, providing an opinion on internal control and compliance over financial reporting will not be an objective of the audit and, therefore, no such opinion will be expressed.

Audit of Major Program Compliance

Our audit of the City of Hattiesburg, Mississippi's major federal award program(s) compliance will be conducted in accordance with the requirements of the Single Audit Act, as amended; and the Uniform Guidance, and will include tests of accounting records, a determination of major programs in accordance with the Uniform Guidance and other procedures we consider necessary to enable us to express such an opinion on major federal award program compliance and to render the required reports. We cannot provide assurance that an unmodified opinion on compliance will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or withdraw from the engagement.

The Uniform Guidance requires that we also plan and perform the audit to obtain reasonable assurance about whether the entity has complied with applicable laws and regulations and the provisions of contracts and grant agreements applicable to major federal award programs. Our procedures will consist of determining major federal programs and performing the applicable procedures described in the U.S. Office of Management and Budget *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of the entity's major programs. The purpose of those procedures will be to express an opinion on the entity's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Also, as required by the Uniform Guidance, we will perform tests of controls to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each of the entity's major federal award programs. However, our tests will be less in scope than would be necessary to render an opinion on these controls and, accordingly, no opinion will be expressed in our report.

We will issue a report on compliance that will include an opinion or disclaimer of opinion regarding the entity's major federal award programs, and a report on internal controls over compliance that will report any significant deficiencies and material weaknesses identified; however, such report will not express an opinion on internal control.

Management's Responsibilities

Our audit will be conducted on the basis that management and, when appropriate, those charged with governance acknowledge and understand that they have responsibility:

1. For the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America;
2. For the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error;
3. For identifying, in its accounts, all federal awards received and expended during the period and the federal programs under which they were received, including federal awards and funding increments received prior to December 26, 2014 (if any), and those received in accordance with the Uniform Guidance (generally received after December 26, 2014);
4. For maintaining records that adequately identify the source and application of funds for federally funded activities;

5. For preparing the schedule of expenditures of federal awards (including notes and noncash assistance received) in accordance with the Uniform Guidance;
6. For the design, implementation, and maintenance of internal control over federal awards;
7. For establishing and maintaining effective internal control over federal awards that provides reasonable assurance that the nonfederal entity is managing federal awards in compliance with federal statutes, regulations, and the terms and conditions of the federal awards;
8. For identifying and ensuring that the entity complies with federal statutes, regulations, and the terms and conditions of federal award programs and implementing systems designed to achieve compliance with applicable federal statutes, regulations, and the terms and conditions of federal award programs;
9. For disclosing accurately, currently, and completely the financial results of each federal award in accordance with the requirements of the award;
10. For identifying and providing report copies of previous audits, attestation engagements, or other studies that directly relate to the objectives of the audit, including whether related recommendations have been implemented;
11. For taking prompt action when instances of noncompliance are identified;
12. For addressing the findings and recommendations of auditors, for establishing and maintaining a process to track the status of such findings and recommendations and taking corrective action on reported audit findings from prior periods and preparing a summary schedule of prior audit findings;
13. For following up and taking corrective action on current year audit findings and preparing a corrective action plan for such findings;
14. For submitting the reporting package and data collection form to the appropriate parties;
15. For making the auditor aware of any significant contractor relationships where the contractor is responsible for program compliance;
16. To provide us with:
    a. Access to all information of which [*management*] is aware that is relevant to the preparation and fair presentation of the financial statements, and relevant to federal award programs, such as records, documentation, and other matters;
    b. Additional information that we may request from [*management*] for the purpose of the audit; and
    c. Unrestricted access to persons within the entity from whom we determine it necessary to obtain audit evidence.
17. For adjusting the financial statements to correct material misstatements and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the current year period(s) under audit are immaterial, both individually and in the aggregate, to the financial statements as a whole;
18. For maintaining adequate records, selecting and applying accounting principles, and safeguarding assets;
19. For taking reasonable measures to safeguard protected personally identifiable and other sensitive information; and
20. For confirming your understanding of your responsibilities as defined in this letter to us in your management representation letter.

With regard to the schedule of expenditures of federal awards referred to above, you acknowledge and understand your responsibility (a) for the preparation of the schedule of expenditures of federal awards in accordance with the Uniform Guidance, (b) to provide us with the appropriate written representations regarding the schedule of expenditures of federal awards, (c) to include our report on the schedule of expenditures of federal awards in any document that contains the schedule of expenditures of federal awards and that indicates that we have reported on such schedule, and (d) to present the schedule of expenditures of federal awards with the audited financial statements, or if the schedule will not be presented with the audited financial statements, to make the audited financial statements readily available to the intended users of the schedule of expenditures of federal awards no later than the date of issuance by you of the schedule and our report thereon.

As part of our audit process, we will request from management and, when appropriate, those charged with governance, written confirmation concerning representations made to us in connection with the audit.

We understand that your employees will prepare all confirmations we request and will locate any documents or invoices selected by us for testing.

Fees and Timing

We expect to begin our audit on approximately November 26, 2018 and to issue our reports no later than March 15, 2019.

Paige M. Johnson, CPA, is the engagement partner for the audit services specified in this letter. Her responsibilities include supervising TMH's services performed as part of this engagement and signing or authorizing another qualified firm representative to sign the audit report.

Our fees are based on the amount of time required at various levels of responsibility, plus actual out-of-pocket expenses. Invoices will be rendered every two weeks and are payable upon presentation. We estimate that our fee for the audit of fiscal year 2018 will be One Hundred Eighty Thousand Dollars and No Cents ($180,000.00), plus report reproduction costs for all reports. We will notify you immediately of any circumstances we encounter that could significantly affect this initial fee estimate. Whenever possible, we will attempt to use the City of Hattiesburg, Mississippi's personnel to assist in the preparation of schedules and analyses of accounts. This effort could substantially reduce our time requirements and facilitate the timely conclusion of the audit.

Other Matters

As part of our procedures, TMH expects to perform the following nonattest services for the City of Hattiesburg, Mississippi:

- Preparation of draft financial statements with note disclosures from the trial balance provided by the City of Hattiesburg, Mississippi;
- Preparation of cash to accrual journal entries; and
- Preparation of GASB conversion entries for governmental funds.

With respect to any nonattest services we perform, the City of Hattiesburg, Mississippi's management is responsible for (a) making all management decisions and performing all management functions; (b) assigning a competent individual to oversee the services; (c) evaluating the adequacy of the services performed; (d)

evaluating and accepting responsibility for the results of the services performed; and (e) establishing and maintaining internal controls, including monitoring ongoing activities.

During the course of the engagement, we may communicate with you or your personnel via fax or e-mail, and you should be aware that communication in those mediums contains a risk of misdirected or intercepted communications.

The audit documentation for this engagement is the property of TMH and constitutes confidential information. However, we may be requested to make certain audit documentation available to the Office of the State Auditor and federal agencies and the U.S. Government Accountability Office pursuant to authority given to it by law or regulation, or to peer reviewers. If requested, access to such audit documentation will be provided under the supervision of TMH's personnel. Furthermore, upon request, we may provide copies of selected audit documentation to these agencies and regulators. The regulators and agencies may intend, or decide, to distribute the copies of information contained therein to others, including other governmental agencies. We agree to retain our audit documentation or work papers for a period of at least five years from the date of our report.

Further, we will be available during the year to consult with you on financial management and accounting matters of a routine nature.

During the course of the audit, we may observe opportunities for economy in, or improved controls over, your operations. We will bring such matters to the attention of the appropriate level of management, either orally or in writing.

We agree to retain our audit documentation or work papers for a period of at least five years from the date of our report.

You agree to inform us of facts that may affect the financial statements of which you may become aware during the period from the date of the auditor's report to the date the financial statements are issued.

At the conclusion of our audit engagement, we will communicate to the City Council the following significant findings from the audit:

- Our view about the qualitative aspects of the entity's significant accounting practices;
- Significant difficulties, if any, encountered during the audit;
- Uncorrected misstatements, other than those we believe are trivial, if any;
- Disagreements with management, if any;
- Other findings or issues, if any, arising from the audit that are, in our professional judgment, significant and relevant to those charged with governance regarding their oversight of the financial reporting process;
- Material, corrected misstatements that were brought to the attention of management as a result of our audit procedures;
- Representations we requested from management;
- Management's consultations with other accountants, if any; and
- Significant issues, if any, arising from the audit that were discussed, or the subject of correspondence, with management.

In accordance with the requirements of *Government Auditing Standards*, we have attached a copy of our latest external peer review report of our firm for your consideration and files.

Please sign and return the attached copy of this letter to indicate your acknowledgment of, and agreement with, the arrangements for our audit of the financial statements compliance over major federal award programs including our respective responsibilities.

We appreciate the opportunity to be your financial statement auditors and look forward to working with you and your staff. We believe this letter accurately summarized the significant terms of our engagement as described in this letter.

Respectfully,

TMH

Paige M. Johnson

System Review Report

May 18, 2016

To the Members of
Topp McWhorter Harvey, PLLC
and the Peer Review Committee of the Mississippi Society of CPAs

We have reviewed the system of quality control for the accounting and auditing practice of **Topp McWhorter Harvey, PLLC** (the firm) in effect for the year ended December 31, 2015. Our peer review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants. As a part of our peer review, we considered reviews by regulatory entities, if applicable, in determining the nature and extent of our procedures. The firm is responsible for designing a system of quality control and complying with it to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Our responsibility is to express an opinion on the design of the system of quality control and the firm's compliance therewith based on our review. The nature, objectives, scope, limitations of, and the procedures performed in a System Review are described in the standards at www.aicpa.org/prsummary.

As required by the standards, engagements selected for review included engagements performed under *Government Auditing Standards* and audits of employee benefit plans.

In our opinion, the system of quality control for the accounting and auditing practice of **Topp McWhorter Harvey, PLLC** in effect for the year ended December 31, 2015, has been suitably designed and complied with to provide the firm with reasonable assurance of performing and reporting in conformity with applicable professional standards in all material respects. Firms can receive a rating of *pass*, *pass with deficiency(ies)* or *fail*. **Topp McWhorter Harvey, PLLC** has received a peer review rating of *pass*.

MINUTES OF THE

REGULAR MEETING OF THE

HATTIESBURG PLANNING COMMISSION

November 7, 2018

The Hattiesburg Planning Commission did meet in a regular session on November 7, 2018 at 1:00 p.m. at the Jackie Dole Community Center, 220 West Front Street, Hattiesburg, Mississippi. Richard Conville, Chairman, presided over the meeting. A quorum was indicated and the attendance was as follows:

Commissioners Present: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners Absent: Charlene Allshouse
James Hughes

Also Present: Ginger Maddox Lowrey, AICP, Planning Division Manager
Andrew Ellard, Urban Development Director
Steve Mitchell, Building Division
Caroline Miles, Planner

Chairman Conville declared the meeting of the Hattiesburg Planning Commission open and in session at 1:04 P.M.

INVOCATION

Chairman Conville held the invocation, remembering the upcoming anniversary of the Night of Broken Glass (Nov. 9) and centennial of the end of World War I (Nov 11); he called for a moment of silence and reflection.

AGENDA REVIEW

There came the matter of the November 2018 Agenda. A request was made by Chairman Conville for a motion to approve the November 2018 Agenda. A motion was made to approve the November 2018 Agenda by Commissioner Ray and seconded by Commissioner Hinton.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett

REPORTS

BUILDING REPORT

There came the matter of the Building Inspection Report. A report for October was provided by Steve Mitchell. This was the first report for Fiscal Year 2019.

PLANNING REPORT

There came the matter of the Planning Report by Ginger M. Lowrey, AICP, Planning Division Manager. On October 16, 2018 the City Council reviewed the following Hattiesburg Planning Commission recommendations and voted as follows: The City Council approved rezoning of 5583 Hwy 42 from R-1C to B-3 (HPC approval upheld); An appeal filed by Clint Walker for the digital billboard on Hwy 49 was rescinded by the petitioner before the hearing was set; The Conditional Use for a new Digital Billboard located at 6505 Hwy 49 North was denied (HPC denial upheld); The Dabbs Street re-zoning from B-2 to B-3 was denied (HPC denial upheld). A memo written by Andrew Ellard, Director of Urban Development, was provided to all Commissioners, regarding the City's wishes to withdraw the application to rezone certain R-1A parcels of land on Dabbs Street that were removed from the initial application to rezone due to public notification errors. This memo is on file.

CHAIRMAN'S REPORT

There came the matter of the Chairman's Report by Chairman Dick Conville. The Chair has selected a nominating committee for a new 2019 positions, composed of Commissioners Corts (Chair), Sims, and Ray. Chairman Conville has withdrawn his name from consideration. There will be a report next month for 2019 positions.

PUBLIC HEARING – PLANNING COMMISSION

Chairman Conville declared the Public Hearing for the Planning Commission open at 1:12 P.M. and read the rules and procedures of the hearing.

There came the matter of Item A (Zoning change), Jimmie Dale Odom, Owner, as required in the Land Development Code, Ord. No. 3209, to change the zoning classification for a certain property located at 5387 Hwy 42 (Parcel 2-029C-04-172.00, PPIN 20711, Ward 2) from Section 4.5.13, I-1 (Light Industrial) District to Section 4.5.12, B-5 (Regional Business) District.

	Name	Address	City/State
Presented by:	Jimmie Dale Odom	5387 Hwy 42 Bypass	Hattiesburg, MS
Proponents:	None		
Opponents:	None		
Other:	Raylawni Branch	853 N. Main St.	Hattiesburg, MS

Chairman Conville declared the Public Hearing closed and the Business Meeting open to vote on the request. Commissioner Sims made a motion to approve the request for rezoning because there is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the Comprehensive Plan. The motion was seconded by Commissioner Waites.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

There came the matter of Item B (Zoning change), Emily Patterson Kleinman, Applicant, and Robert Steve Patterson, Owner, as required in the Land Development Code, Ord. No. 3209, to change the zoning classification for a certain property located at 5436 Hwy 42 (Parcel 2-029B-03-085.00, PPIN 25089; 2-029B-03-134.00, PPIN 25090, Ward 2) from Section 4.5.9, B-2 (Neighborhood Business) District to Section 4.5.10, B-3 (Community Business) District.

	Name	Address	City/State
Presented by:	Emily Patterson Kleinman	8 Lafayette Dr.	Hattiesburg, MS
Proponents:	Steve Patterson	5436 Old Hwy 42	Hattiesburg, MS
Opponents:	None		
Other:	Raylawni Branch	853 N. Main St.	Hattiesburg, MS

Chairman Conville declared the Public Hearing closed and the Business Meeting open to vote on the request. Commissioner Corts made a motion to approve the request for rezoning because there is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the Comprehensive Plan. Planning Commission
Case Fact Sheet

Property Owner: Jimmie Dale Odom

Address of Properties:	**Tax Parcels**	**PPIN:**	**Ward:**
5387 Hwy 42	2-029C-04-172.00	20711	2

Request: **Zoning Change**

Purpose of Request: To consider an application to change the zoning classification for a certain property located at 5387 Hwy 42 (Parcel 2-029C-04-172.00, PPIN 20711, Ward 2) from Section 4.5.13, I-1 (Light Industrial) District to Section 4.5.12, B-5 (Regional Business) District.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 4 **Zoning Districts Established**

4.5.13 I-1 Light Industrial District. The purpose of the I-1 District is to provide for the development of research, light industrial, office parks, warehouse, and distribution centers consistent with comprehensive planning policies. This district is consistent with the Industry and Corporate Office District in the Comprehensive Plan

4.5.10 B-3 Community Business District: The purpose of the B-3 District is to provide for retail, personal service, and offices in locations with convenient access to the community consistent with comprehensive planning policies. This district is consistent with the Community Business District in the Comprehensive Plan.

Additional Use Conditions: 5.4.7 Automotive and Truck Repair, Maintenance, Rental and Sales.

5.4.7.1 Display of Vehicles for Sale or Lease.

i. Vehicles for sale or lease may be displayed in the established front yard provided that no vehicle shall be displayed within fifteen feet of the street right-of-way.

ii. All new display areas shall be paved.

5.4.7.2 Outdoor Storage.

i. A motor vehicle repair, service, body or paint shop which has wrecked, partially dismantled, or inoperative vehicles located on-site shall store these vehicles in an enclosed building or in a separate motor vehicle storage yard which meets the requirements of this ordinance for such yards.

ii. Storage areas are exempt from the interior landscaping requirements for parking lots. However, the perimeter landscaping requirements of parking lots shall apply to such storage areas

iii. Storage areas may only be located behind the principal building and/or its accessory buildings, and shall not be placed within 100 feet of any property line that abuts a thoroughfare or local public street

5.4.7.3 Speakers. Businesses are prohibited from using amplified speaker/public address systems except within fully enclosed building(s).

5.4.7.4 Car washes, Automatic and Full Service.

i. All exterior walls and accessory washing areas shall be constructed so that they match the principal structure in design and materials.

ii. The outdoor service area of a car wash shall be placed and screened in accordance with the standards for on-site parking.

iii. Car washes, vacuums, and similar service devices shall be a minimum of 50 feet from the nearest portion of an adjacent residential zoning district or lot containing a legal, conforming residential use for facilities that do not include an automatic dryer. Where automatic dryers are installed, separation shall be 500 feet from the nearest lot line of an adjacent residential zoning district or lot containing a legal, conforming residential use.

iv. Any mobile detailing service must utilize a water containment system to prevent stormwater system pollution.

v. Car washes accessory to a principal use shall be located in the side or rear yard only.

vi. Hours of operation shall be no earlier than 8:00 a.m. and no later than 11:00 p.m.

5.4.7.5 Repair.

i. The number of outside stored vehicles awaiting repair is limited to no more than 5 or 1 per service bay, whichever is greater.

ii. Accessory junk yards including the storage of vehicles used for parts are not permitted.

Present Zoning: This parcel is currently zoned I-1 (Light Industrial District).

Item: A
Jimmie Dale Odom, Owner
Request for a **Zoning Change**

Present Use: Mixed commercial include retail and automotive repair & maintenance.

Surrounding Zoning and Land Use:

North: B-3 (Community Business) District/ Auto Filling Station
South: I-1 (Light Industrial) District / Residential
East: I-1 (Light Industrial) District / Grocery Retail
West: B-5 (Regional Business) District/ Agricultural-related retail

Most Nearly Bounded By (streets): This parcel is accessible from the North by Hwy 42, the West by Redus Street. It is bound on the East by Gravel Street and the South by E Red Street.

Letters or Concerns stated: The Planning Division Office has not received any letters or other written communications relative to this case as of October 26, 2018

History / Background: Applicant is requesting to down-zone the property to B-5 to accommodate a wider range of commercial development. At this time, the owner is seeking to accommodate a new use of "Automotive rental and sales", which is only allowed in B-3 & B-5 with conditions.

Basis for Approval:

1. There is a mistake in the original zoning.
2. The character of the neighborhood **(has / has not)** changed substantially so that rezoning is clearly justified and there **(is / is not)** a public need for the rezoning
3. Annexation

Rezoning Information *(1 page)*

One of the following conditions must be met before a rezoning can be recommended.
Check the condition(s) most applicable to your request and explain in writing.

A. There is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the Comprehensive Plan.

B. There is a mistake in the original zoning.

C. Annexation

Detailed explanation of condition(s) most applicable to your request: (Please print or type.)

I Jimmy Dale Odom proposing that 5387 Highway 42 from I-1 zone to B-5. The Industrial Park is no longer in this area, and the building should not be under light industrial zoning. B-5 zoning will be better suited for this area, and surrounding business.

MINUTES OF THE

REGULAR MEETING OF THE

HATTIESBURG PLANNING COMMISSION

November 7, 2018

The Hattiesburg Planning Commission did meet in a regular session on November 7, 2018 at 1:00 p.m. at the Jackie Dole Community Center, 220 West Front Street, Hattiesburg, Mississippi. Richard Conville, Chairman, presided over the meeting. A quorum was indicated and the attendance was as follows:

Commissioners Present: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners Absent: Charlene Allshouse
James Hughes

Also Present: Ginger Maddox Lowrey, AICP, Planning Division Manager
Andrew Ellard, Urban Development Director
Steve Mitchell, Building Division
Caroline Miles, Planner

Chairman Conville declared the meeting of the Hattiesburg Planning Commission open and in session at 1:04 P.M.

INVOCATION

Chairman Conville held the invocation, remembering the upcoming anniversary of the Night of Broken Glass (Nov. 9) and centennial of the end of World War I (Nov 11); he called for a moment of silence and reflection.

AGENDA REVIEW

There came the matter of the November 2018 Agenda. A request was made by Chairman Conville for a motion to approve the November 2018 Agenda. A motion was made to approve the November 2018 Agenda by Commissioner Ray and seconded by Commissioner Hinton.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

MINUTES REVIEW

There came the matter of the October 3, 2018, minutes. A request was made by Chairman Conville for a motion to approve the October 3, 2018 minutes. A motion was made by Commissioner Waites to approve the minutes and seconded by Commissioner Corts.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

REPORTS

BUILDING REPORT

There came the matter of the Building Inspection Report. A report for October was provided by Steve Mitchell. This was the first report for Fiscal Year 2019.

PLANNING REPORT

There came the matter of the Planning Report by Ginger M. Lowrey, AICP, Planning Division Manager. On October 16, 2018 the City Council reviewed the following Hattiesburg Planning Commission recommendations and voted as follows: The City Council approved rezoning of 5583 Hwy 42 from R-1C to B-3 (HPC approval upheld); An appeal filed by Clint Walker for the digital billboard on Hwy 49 was rescinded by the petitioner before the hearing was set; The Conditional Use for a new Digital Billboard located at 6505 Hwy 49 North was denied (HPC denial upheld); The Dabbs Street re-zoning from B-2 to B-3 was denied (HPC denial upheld). A memo written by Andrew Ellard, Director of Urban Development, was provided to all Commissioners, regarding the City's wishes to withdraw the application to rezone certain R-1A parcels of land on Dabbs Street that were removed from the initial application to rezone due to public notification errors. This memo is on file.

CHAIRMAN'S REPORT

There came the matter of the Chairman's Report by Chairman Dick Conville. The Chair has selected a nominating committee for a new 2019 positions, composed of Commissioners Corts (Chair), Sims, and Ray. Chairman Conville has withdrawn his name from consideration. There will be a report next month for 2019 positions.

PUBLIC HEARING – PLANNING COMMISSION

Chairman Conville declared the Public Hearing for the Planning Commission open at 1:12 P.M. and read the rules and procedures of the hearing.

There came the matter of Item A (Zoning change), Jimmie Dale Odom, Owner, as required in the Land Development Code, Ord. No. 3209, to change the zoning classification for a certain property located at 5387 Hwy 42 (Parcel 2-029C-04-172.00, PPIN 20711, Ward 2) from Section 4.5.13, I-1 (Light Industrial) District to Section 4.5.12, B-5 (Regional Business) District.

5436 Hwy 42	2-029B-03-085.00; 2-029B-03-134.00	25089 25090	2

Request: **Zoning Change**

Purpose of Request: To change the zoning classification for a certain property located at 5436 Hwy 42 (Parcel 2-029B-03-085.00, PPIN 25089; 2-029B-03-134.00, PPIN 25090, Ward 2) from Section 4.5.9, B-2 (Neighborhood Business) District to Section 4.5.10, B-3 (Community Business) District.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 4 **Zoning Districts Established**

4.5.9 B-2 Neighborhood Business District. The purpose of the B-2 District is to provide for retail and personal service uses in locations convenient to residential neighborhoods consistent with comprehensive planning policies. This district is consistent with the Neighborhood Business District in the Comprehensive Plan.

4.5.10 B-3 Community Business District: The purpose of the B-3 District is to provide for retail, personal service, and offices in locations with convenient access to the community consistent with comprehensive planning policies. This district is consistent with the Community Business District in the Comprehensive Plan.

Additional Use Conditions: 5.4.7 Automotive and Truck Repair, Maintenance, Rental and Sales.

5.4.7.1 Display of Vehicles for Sale or Lease.

i. Vehicles for sale or lease may be displayed in the established front yard provided that no vehicle shall be displayed within fifteen feet of the street right-of-way.

ii. All new display areas shall be paved.

5.4.7.2 Outdoor Storage.

i. A motor vehicle repair, service, body or paint shop which has wrecked, partially dismantled, or inoperative vehicles located on-site shall store these vehicles in an enclosed building or in a separate motor vehicle storage yard which meets the requirements of this ordinance for such yards.

ii. Storage areas are exempt from the interior landscaping requirements for parking lots. However, the perimeter landscaping requirements of parking lots shall apply to such storage areas

iii. Storage areas may only be located behind the principal building and/or its accessory buildings, and shall not be placed within 100 feet of any property line that abuts a thoroughfare or local public street

5.4.7.3 Speakers. Businesses are prohibited from using amplified speaker/public address systems except within fully enclosed building(s).

5.4.7.4 Car washes, Automatic and Full Service.

i. All exterior walls and accessory washing areas shall be constructed so that they match the principal structure in design and materials.

ii. The outdoor service area of a car wash shall be placed and screened in accordance with the standards for on-site parking.

iii. Car washes, vacuums, and similar service devices shall be a minimum of 50 feet from the nearest portion of an adjacent residential zoning district or lot containing a legal, conforming residential use for facilities that do not include an automatic dryer. Where automatic dryers are installed, separation shall be 500 feet from the nearest lot line of an adjacent residential zoning district or lot containing a legal, conforming residential use.

iv. Any mobile detailing service must utilize a water containment system to prevent stormwater system pollution.

v. Car washes accessory to a principal use shall be located in the side or rear yard only.

vi. Hours of operation shall be no earlier than 8:00 a.m. and no later than 11:00 p.m.

5.4.7.5 Repair.

i. The number of outside stored vehicles awaiting repair is limited to no more than 5 or 1 per service bay, whichever is greater.

ii. Accessory junk yards including the storage of vehicles used for parts are not permitted.

Present Zoning: This parcel is currently zoned B-2 (Neighborhood Business District).

Item: B
Emily Patterson Kleinman, Applicant
Robert Steve Patterson, Owner
Request for a **Zoning Change**

Present Use: Automotive repair

Surrounding Zoning and Land Use:

North: R-1C (Single-Family Residential) District / Residential
South: B-2 (Neighborhood Business) District/ Auto Commercial
East: B-2 (Neighborhood Business) District/ Commercial
West: B-3 (Community Business) District/ Commercial

Most Nearly Bounded By (streets): This parcel is accessible from the South by Hwy 42, the West by Kinnard Street. It is bound on the East by Scott Street and the North by Clark Street.

Letters or Concerns stated: The Planning Division Office has not received any letters or other written communications relative to this case as of October 26, 2018

History / Background: The existing business, Patterson Auto Electric, is considered Auto Repair, and is "grandfathered" as a legal non-conforming use. Auto Repair is allowed in Zones B-3 & B-5 with Conditions.

The applicant is requesting to expand business to include auto sales. The proposed expansion to Auto Sales requires a zoning change. "Automotive rental and sales" is allowed in B-3 and B-5 with Conditions.

Hard surface parking will be required for storage of vehicle inventory. Site and Design Review Committee will review the design of the new required parking prior to permitting.

Basis for Approval:

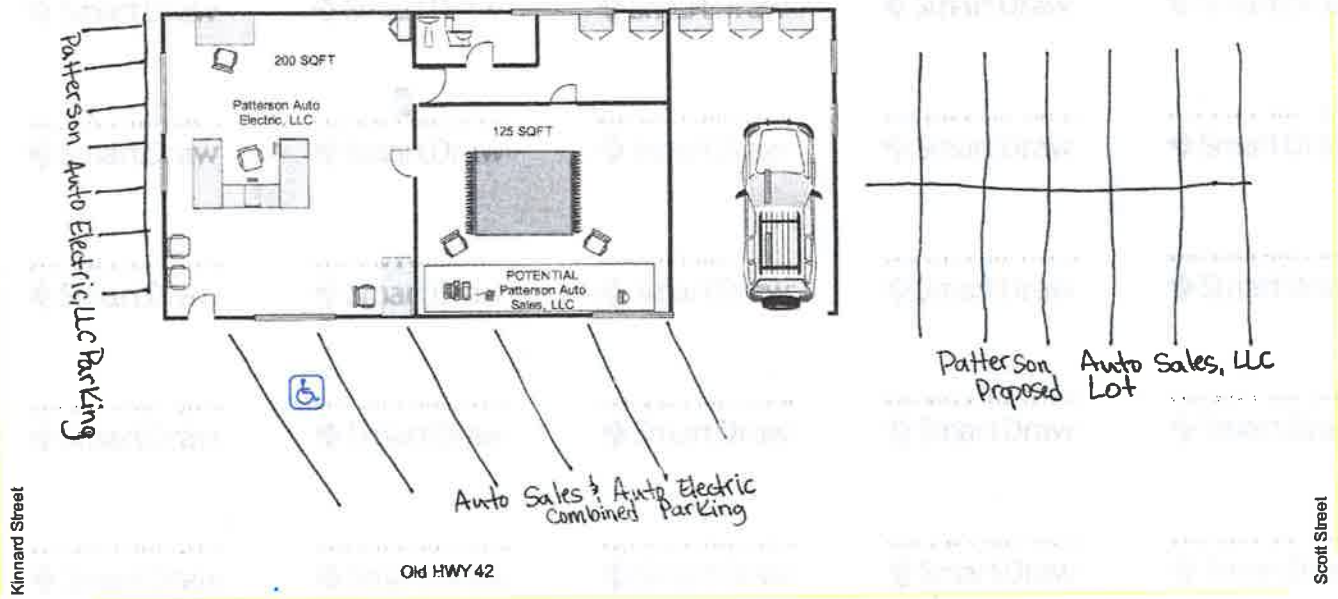
1. There is a mistake in the original zoning.
2. The character of the neighborhood **(has / has not)** changed substantially so that rezoning is clearly justified and there **(is / is not)** a public need for the rezoning
3. Annexation

Rezoning Information *(1 page)*

One of the following conditions must be met before a rezoning can be recommended.
Check the condition(s) most applicable to your request and explain in writing.

(A.) There is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the Comprehensive Plan.

B. There is a mistake in the original zoning.



C. Annexation

Detailed explanation of condition(s) most applicable to your request: (Please print or type.)

We currently operate Patterson Auto Electric, LLC & have done so for more than 30 years. Some of the time we end up with vehicles the owners would rather us sell than repair. We are trying to have our address re-zoned so that we may do so out of the same business location. We feel we could offer safe, dependable & affordable vehicles to the area. We are a family owned & operated business.

Thank you for your time & consideration of this application.

ORDINANCE NUMBER _____

OF THE

CITY OF HATTIESBURG, MISSISSIPPI

AN ORDINANCE CHANGING AND AMENDING THE COMPREHENSIVE ZONING DISTRICT MAP, ADOPTED AS PART OF THE LAND DEVELOPMENT CODE ORDINANCE NO. 3209, AS AMENDED, OF THE CITY OF HATTIESBURG, MISSISSIPPI FOR A CERTAIN PROPERTY LOCATED AT 5436 HWY 42 (PARCEL 2-029B-03-085.00, PPIN 25089; 2-029B-03-134.00, PPIN 25090, WARD 2) FROM SECTION 4.5.9, B-2 (NEIGHBORHOOD BUSINESS) DISTRICT TO SECTION 4.5.10, B-3 (COMMUNITY BUSINESS) DISTRICT.

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. That the Comprehensive Zoning District Map, adopted as part of the Comprehensive Zoning Ordinance No. 3209, as amended, of the City of Hattiesburg, Mississippi, be and the same is hereby changed and amended. The Hattiesburg Planning Commission recommended to Approve said change in zoning for the following reasons:

There is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the comprehensive plan

Said properties are described as follows:
Lot 1 Less H/W and Less part of Joe Clay, Block 11 of the C. F. WILLIAMS SUBDIVISION, City of Hattiesburg, County of Forrest, State of Mississippi;
ALSO BEING DESCRIBED AS FOLLOWS:
West 140 feet of Lot One (1) lying North of Highway 11 Bypass of the C. F. WILLIAMS SUBDIVISION , Block 11 of the MARY ANDERSON FIRST SURVEY,

as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi; together with all improvements thereon and appurtenances thereunto belonging. AND Beginning at the NE Corner of Lot 1, Block 11 of the C.F. Williams Subdivision of the Anderson 1st Survey, City of Hattiesburg, Forrest County, Mississippi, thence run West along Geneva Street 90 feet; thence run South 51 feet to the R.O.W. of proposed Highway; thence run in an easterly direction along said Highway R.O.W. to Scott Street approximately 90 feet; thence run North along the West boundary of Scott Street for 53 feet to the P.O.B.

SECTION 2. Except as hereby expressly changed and amended, the aforesaid Comprehensive Zoning District Map and the Land Development Code Ordinance No. 3209, as amended, of said City of Hattiesburg, Mississippi, shall be and remain in full force and form as adopted.

SECTION 3. That this Ordinance take effect and be in force thirty (30) days from and after passage as provided by law.

The foregoing Ordinance having been reduced to writing, the same was introduced by Council member _____ seconded by Council member _____ and was adopted by the following vote to-wit:

MINUTES OF THE

REGULAR MEETING OF THE

HATTIESBURG PLANNING COMMISSION

November 7, 2018

The Hattiesburg Planning Commission did meet in a regular session on November 7, 2018 at 1:00 p.m. at the Jackie Dole Community Center, 220 West Front Street, Hattiesburg, Mississippi. Richard Conville, Chairman, presided over the meeting. A quorum was indicated and the attendance was as follows:

Commissioners Present: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners Absent: Charlene Allshouse
James Hughes

Also Present: Ginger Maddox Lowrey, AICP, Planning Division Manager
Andrew Ellard, Urban Development Director
Steve Mitchell, Building Division
Caroline Miles, Planner

Chairman Conville declared the meeting of the Hattiesburg Planning Commission open and in session at 1:04 P.M.

INVOCATION

Chairman Conville held the invocation, remembering the upcoming anniversary of the Night of Broken Glass (Nov. 9) and centennial of the end of World War I (Nov 11); he called for a moment of silence and reflection.

AGENDA REVIEW

There came the matter of the November 2018 Agenda. A request was made by Chairman Conville for a motion to approve the November 2018 Agenda. A motion was made to approve the November 2018 Agenda by Commissioner Ray and seconded by Commissioner Hinton.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

MINUTES REVIEW

There came the matter of the October 3, 2018, minutes. A request was made by Chairman Conville for a motion to approve the October 3, 2018 minutes. A motion was made by Commissioner Waites to approve the minutes and seconded by Commissioner Corts.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett

Paul Sims
Kenneth Waites

Commissioners voting nay: None

REPORTS

BUILDING REPORT

There came the matter of the Building Inspection Report. A report for October was provided by Steve Mitchell. This was the first report for Fiscal Year 2019.

PLANNING REPORT

There came the matter of the Planning Report by Ginger M. Lowrey, AICP, Planning Division Manager. On October 16, 2018 the City Council reviewed the following Hattiesburg Planning Commission recommendations and voted as follows: The City Council approved rezoning of 5583 Hwy 42 from R-1C to B-3 (HPC approval upheld); An appeal filed by Clint Walker for the digital billboard on Hwy 49 was rescinded by the petitioner before the hearing was set; The Conditional Use for a new Digital Billboard located at 6505 Hwy 49 North was denied (HPC denial upheld); The Dabbs Street re-zoning from B-2 to B-3 was denied (HPC denial upheld). A memo written by Andrew Ellard, Director of Urban Development, was provided to all Commissioners, regarding the City's wishes to withdraw the application to rezone certain R-1A parcels of land on Dabbs Street that were removed from the initial application to rezone due to public notification errors. This memo is on file.

CHAIRMAN'S REPORT

There came the matter of the Chairman's Report by Chairman Dick Conville. The Chair has selected a nominating committee for a new 2019 positions, composed of Commissioners Corts (Chair), Sims, and Ray. Chairman Conville has withdrawn his name from consideration. There will be a report next month for 2019 positions.

PUBLIC HEARING – PLANNING COMMISSION

Chairman Conville declared the Public Hearing for the Planning Commission open at 1:12 P.M. and read the rules and procedures of the hearing.

There came the matter of Item A (Zoning change), Jimmie Dale Odom, Owner, as required in the Land Development Code, Ord. No. 3209, to change the zoning classification for a certain property located at 5387 Hwy 42 (Parcel 2-029C-04-172.00, PPIN 20711, Ward 2) from Section 4.5.13, I-1 (Light Industrial) District to Section 4.5.12, B-5 (Regional Business) District.

	Name	Address	City/State
Presented by:	Jimmie Dale Odom	5387 Hwy 42 Bypass	Hattiesburg, MS
Proponents:	None		
Opponents:	None		
Other:	Raylawni Branch	853 N. Main St.	Hattiesburg, MS

Chairman Conville declared the Public Hearing closed and the Business Meeting open to vote on the request. Commissioner Sims made a motion to approve the request for rezoning because there is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the Comprehensive Plan. The motion was seconded by Commissioner Waites.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

There came the matter of Item B (Zoning change), Emily Patterson Kleinman, Applicant, and Robert Steve Patterson, Owner, as required in the Land Development Code, Ord. No. 3209, to change the zoning classification for a certain property located at 5436 Hwy 42 (Parcel 2-029B-03-085.00, PPIN 25089; 2-029B-03-134.00, PPIN 25090, Ward 2) from Section 4.5.9, B-2 (Neighborhood Business) District to Section 4.5.10, B-3 (Community Business) District.

Planning Commission
Case Fact Sheet

Property Applicant:	Zach New, New Learning Resources School District
Property Owner:	Joseph B. McMillon Family Trust

Address of Properties:	**Tax Parcels**	**PPIN:**	**Ward:**
2233 South 40th Ave	057A-25-001.000	11516	3

Request: **Zoning Change**

Purpose of Request: To change the zoning classification for a certain property located at 2233 South 40th Avenue (Parcel 057A-25-001.000; PPIN 11516, Ward 3) from Section 4.5.1, A-1 (Agricultural) District to Section 4.5.3 R-1A (Residential) District.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 4 **Zoning Districts Established**

4.5.1 A-1 Agricultural District: The purpose of the A-1 Agricultural District is to permit agricultural uses and low-density residential development. This district is consistent with the Rural Residential / Agricultural District in the Comprehensive Plan. The district is intended to encourage and protect rural uses from urbanization until such is warranted and appropriate change in district classification is made.

4.5.3 R-1A Residential District: The purpose of the R-1A District is to permit single-family residential uses with related recreational, religious and educational facilities. This district is consistent with the Neighborhood Conservation 1 and 2 districts in the Comprehensive Plan. This zoning district encourages protected

lower density residential neighborhoods with only institutional uses and open space.

5.4 Additional Use Conditions 5.4.37 Schools.
5.4.37.1 Accessory and incidental buildings shall be placed within established rear yards and side yards that do not abut a street.
5.4.37.2 Schools shall be planned, sized and sited to serve as community assets and to integrate with and complement surrounding development. Whenever possible, large schools on greenfield sites away from city should be avoided.
5.4.37.3 Truck driving schools with outdoor maneuvering areas shall not be permitted in any residential or mixed use district.

Present Zoning: This parcel is currently zoned A-1 (Agricultural District).

Present Use: Single family residential

Surrounding Zoning and Land Use:

North: A-1 (Agricultural) District/ Undeveloped, City water tower
South: R-1C (Single Family Residential) District / Residential, Subdivision
East: R-1C (Single Family Residential) District / Undeveloped residential
West: R-1C (Single Family Residential) District/ Undeveloped, across I-59

Most Nearly Bounded By (streets): This parcel is accessible from the East by S 40th Ave, the North by Water Tank Lane. It is bound on the South by Canal Drive and the West by Interstate 59.

Letters or Concerns stated: The Planning Division Office has received an inquiry relative to this case on October 25, 2018

History / Background: The applicant is requesting a zoning change to R-1A to accommodate a proposed new use of a school. "K-12 Schools" are permitted with conditions in all Residential and Commercial zones. However, they are not permitted in Agricultural zones.

The Conditions established in 5.4.37, above, may be included in a motion for approval of said zoning.

The Applicant's Summary discusses use of the land to include equestrian facilitates. However, "livestock", as defined in the Code of Ordinances, is not permitted in residentially zoned properties and would not be permitted in the event the property is rezoned to R-1A.
A preliminary review of the development occurred on September

20, 2018. Utilities are not currently sufficient but are available and would be addressed in the development of the site. Redevelopment of the property will require Site and Design Review by City staff.

This area is identified as a Neighborhood Conservation District 2 on the Future Land Use Map. Schools are cited within the description as a use found within this district.

Basis for Approval:

1. The character of the neighborhood **(has / has not)** changed substantially so that rezoning is clearly justified and there **(is / is not)** a public need for the rezoning
2. There is a mistake in the original zoning.
3. Annexation

Rezoning Information *(1 page)*

One of the following conditions must be met before a rezoning can be recommended.
Check the condition(s) most applicable to your request and explain in writing.

A. There is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the Comprehensive Plan.

B. There is a mistake in the original zoning.

C. Annexation

Detailed explanation of condition(s) most applicable to your request: (Please print or type.)

See attached

The proposed site will be used for the campus of South New Summit School. South New Summit School is a non – public, special purpose school designed to serve children with learning differences. The school is K-12 in scope and is a part of a larger school district, New Learning Resources School District, with campuses in Greenwood and Jackson, Mississippi.

South New Summit School will provide an array of educational services on campus that will serve the students' academic, social, and emotional growth. Along with a fully accredited K-12 school, the campus will house space for dyslexia therapy, speech therapy, reading interventions, and on-site vocational training. Students being served at the school are eligible for a standard high school diploma or the New Summit Career Preparatory Diploma.

Of particular interest to the school district is the amount of land that would be available to the students on the proposed site. In both the Jackson and Greenwood campuses, there are robust gardening and agriculture programs. Working in conjunction with Whole Foods Market and Mississippi State University, students in the district have successfully maintained gardens on our campuses with much less space. The produce has been used to cook in the schools' cafeterias and café and to provide students with nutrition and agriculture classes.

It is our belief that the proposed site would offer students a unique opportunity to expand the district's nutritional and agricultural instruction. The space available allows South New Summit School's students the opportunity to engage in large scale agricultural projects which have not been possible at our two other schools. This instruction provides our students who are entering the workforce with valuable work experience that would allow them to quickly gain employment after graduation.

With this acreage, our school would have sufficient land available for equestrian and equine therapy for children with learning differences and those in the autism community. We desire to meet the emotional and social needs and cognitive skill development in our students with learning differences through equestrian therapy. This site would provide a peaceful environment for children to flourish under the direction of our highly trained professional staff, while upholding the integrity of the surrounding neighborhoods.

INDEXING INSTRUCTIONS:

ORDINANCE NUMBER _____

OF THE

CITY OF HATTIESBURG, MISSISSIPPI

AN ORDINANCE CHANGING AND AMENDING THE COMPREHENSIVE ZONING DISTRICT MAP, ADOPTED AS PART OF THE LAND DEVELOPMENT CODE ORDINANCE NO. 3209, AS AMENDED, OF THE CITY OF HATTIESBURG, MISSISSIPPI FOR A CERTAIN PROPERTY LOCATED AT 2233 SOUTH 40TH AVENUE (PARCEL 057A-25-001.000; PPIN 11516, WARD 3) FROM SECTION 4.5.1, A-1 (AGRICULTURAL) DISTRICT TO SECTION 4.5.3 R-1A (RESIDENTIAL) DISTRICT.

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. That the Comprehensive Zoning District Map, adopted as part of the Comprehensive Zoning Ordinance No. 3209, as amended, of the City of Hattiesburg, Mississippi, be and the same is hereby changed and amended. The Hattiesburg Planning Commission recommended to Deny said change in zoning for the following reasons:

There is not a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is not a public need for the change in question, based on the comprehensive plan

Said properties are described as follows:
Begin at the NE corner of the NE 1/4 of the NE 1/4 of Section 25, T-4 n, R-14-W, Lamar County, Mississippi, and run South along the East line of said Section for 661 feet to the South line of the N 1/2 of the said NE 1/4 of the NE 1/4, thence run West along said South line for 24.9 feet, thence run N 62°W for 37.5 feet to the Southeast line of a County Road, thence run Southwesterly along the Southeast line of said County Road for 29.8 feet to the intersection with the South line of said N 1/2 of NE 1/4 of NE

1/4, thence run West along said South line for 1,273.7 feet to the intersection with the East ROW line of the Interstate Highway No. 59, thence run Northerly along the East ROW line of said Highway for 662.4 feet to the intersection with the North line of Section 25, thence run Easterly along the North line of Section 25 for 1,402.7 feet to the Point of Beginning, the said described property being part of the N 1/2 of the NE 1/4 of the NE 1/4 of Section 25, T-4-N, R-14-W, Lamar County, Mississippi, and comprising 20.92, acres, more or less.

SECTION 2. Except as hereby expressly changed and amended, the aforesaid Comprehensive Zoning District Map and the Land Development Code Ordinance No. 3209, as amended, of said City of Hattiesburg, Mississippi, shall be and remain in full force and form as adopted.

SECTION 3. That this Ordinance take effect and be in force thirty (30) days from and after passage as provided by law.

The foregoing Ordinance having been reduced to writing, the same was introduced by Council member _____ seconded by Council member _____ and was adopted by the following vote to-wit:

INDEXING INSTRUCTIONS: Being the Northern 51.5 feet of a 20 foot wide Northeast / Southwest un-improved alley along the Southeastern line of Lot 9 of Block 179 of the D. H. McInnis 1st Addition Subdivision located in the SE ¼ of the NW ¼ of Section 10, T-4-N, R-13-W, City of Hattiesburg, Forrest County, MS.

ORDINANCE NUMBER_____

OF THE

CITY OF HATTIESBURG, MISSISSIPPI

AN ORDINANCE CLOSING AND VACATING A PORTION OF THE ALLEY WHICH IS LOCATED ON THE PROPERTY OF 130 WEST FRONT STREET (PARCEL 2-029J-10-241.00; PPIN 21900; WARD 4) AND IS BOUNDED BY WEST RAILROAD STREET TO THE SOUTH, MAIN STREET TO THE NORTHEAST, AND FORREST STREET TO THE SOUTHWEST THAT IS CURRENTLY PLATTED AND EXISTING. IN THE CITY OF HATTIESBURG, MISSISSIPPI

WHEREAS, a portion of a platted alley, which is located on the property of 130 West Front Street (Parcel 2-029J-10-241.00; PPIN 21900) and is bounded by West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest; and

WHEREAS, all of the owners of property adjacent to said portion of the undeveloped alley have requested the Mayor and Council of the City of Hattiesburg, Mississippi, close and vacate said portion of the alley described below, have consented to the closing and vacating of said portion the undeveloped alley described below, subject to the waiting period of thirty (30) days from the date of publication of this ordinance, and have waived any and all rights to any compensation and/or damages that might otherwise be due to them as abutting landowners as a result of the closing and vacating thereof; and

WHEREAS, the Mayor and City Council do now find, determine and adjudge that said portion of the platted alley, which is located on the property of 130 West Front Street (Parcel 2-029J-10-241.00; PPIN 21900) and is bounded by West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest described below is not needed as a public street, and

that the public interest, welfare and convenience require that said portion of the alley described below be closed and vacated, that it would be in the best interest of the City of Hattiesburg. The City of Hattiesburg and the Mayor and Council further find and adjudicate that no compensation for the closing and vacating of said portion of the undeveloped alley described below is due to the owners of the property abutting thereon**.**

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. That a portion of the alley, which is located on the property of 130 West Front Street (Parcel 2-029J-10-241.00; PPIN 21900) and is bounded by West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest located in the City of Hattiesburg, Forrest County, Mississippi, and being more particularly described as follows:

A PART THE ALLEY ALONG THE SOUTHEASTERN SIDE OF LOTS 7 & 9, IN BLOCK 179 OF THE D.H. MCINNIS ADDITION OR SURVEY, IN THE CITY OF HATTIESBURG, COUNTY OF FORREST, STATE OF MISSISSIPPI AS PER MAP OR PLAT THEREOF IN THE OFFICE OF THE CHANCERY CLERK OF SAID COUNTY AND BEING MORE PARTICULARLY DESCRIBED AS COMMENCING AT AN EXTERIOR BUILDING CORNER REPRESENTING THE EAST CORNER OF BLOCK 162 OF THE CRITTENDEN SURVEY, IN THE CITY OF HATTIESBURG, COUNTY OF FORREST, STATE OF MISSISSIPPI AS PER MAP OR PLAT THEREOF IN THE OFFICE OF THE CHANCERY CLERK OF SAID COUNTY AND THE INTERSECTION OF THE NORTHWESTERN RIGHT OF WAY LINE OF WEST FRONT STREET AND THE SOUTHWESTERN RIGHT OF WAY LINE OF MAIN STREET, PAVED PUBLIC ROADWAYS, THENCE RUN S46°13’02”E FOR 49.34 FEET TO THE NORTH CORNER OF SAID BLOCK 179 AND THE INTERSECTION OF THE SOUTHEASTERN RIGHT OF WAY LINE OF SAID WEST FRONT STREET AND SAID SOUTHWESTERN RIGHT OF WAY LINE OF MAIN STREET, THENCE RUN S44°37’31”W ALONG THE NORTHWESTERN LINE OF SAID BLOCK 179 AND SAID SOUTHEASTERN RIGHT OF WAY LINE FOR 159.21 FEET TO A CHISELED ‘X’ IN CONCRETE, THENCE RUN S45°10’35”E FOR 180.10 FEET TO A POINT ON THE SOUTHEASTERN LINE OF SAID LOT 7 AND THE POINT OF BEGINNING; THENCE CONTINUE S45°10’35”E FOR 20.00 FEET TO A MAG NAIL IN PAVEMENT REPRESENTING A POINT ON THE NORTHWESTERN RIGHT OF WAY LINE OF NORFOLK SOUTHERN RAILROAD, THENCE RUN S44°43’29”W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 26.96 FEET TO A MAG NAIL IN PAVEMENT REPRESENTING THE INTERSECTION OF AN EXTENSION OF THE NORTHEASTERN LINE OF SAID LOT 9 AND SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE, THENCE CONTINUE S44°43’29”W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 51.50 FEET TO A MAG NAIL IN PAVEMENT, THENCE CONTINUE S44°43’29”W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 116.56 FEET TO A 1 INCH ROUND IRON PIN, THENCE RUN S43°56’38”W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 14.89 FEET TO A 1 INCH ROUND IRON PIN, THENCE RUN N45°11’28”W FOR 20.00 FEET TO A POINT ON

MINUTES OF THE

REGULAR MEETING OF THE

HATTIESBURG PLANNING COMMISSION

November 7, 2018

The Hattiesburg Planning Commission did meet in a regular session on November 7, 2018 at 1:00 p.m. at the Jackie Dole Community Center, 220 West Front Street, Hattiesburg, Mississippi. Richard Conville, Chairman, presided over the meeting. A quorum was indicated and the attendance was as follows:

Commissioners Present: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners Absent: Charlene Allshouse
James Hughes

Also Present: Ginger Maddox Lowrey, AICP, Planning Division Manager
Andrew Ellard, Urban Development Director
Steve Mitchell, Building Division
Caroline Miles, Planner

Chairman Conville declared the meeting of the Hattiesburg Planning Commission open and in session at 1:04 P.M.

INVOCATION

Chairman Conville held the invocation, remembering the upcoming anniversary of the Night of Broken Glass (Nov. 9) and centennial of the end of World War I (Nov 11); he called for a moment of silence and reflection.

AGENDA REVIEW

There came the matter of the November 2018 Agenda. A request was made by Chairman Conville for a motion to approve the November 2018 Agenda. A motion was made to approve the November 2018 Agenda by Commissioner Ray and seconded by Commissioner Hinton.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

MINUTES REVIEW

There came the matter of the October 3, 2018, minutes. A request was made by Chairman Conville for a motion to approve the October 3, 2018 minutes. A motion was made by Commissioner Waites to approve the minutes and seconded by Commissioner Corts.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

REPORTS

BUILDING REPORT

There came the matter of the Building Inspection Report. A report for October was provided by Steve Mitchell. This was the first report for Fiscal Year 2019.

PLANNING REPORT

There came the matter of the Planning Report by Ginger M. Lowrey, AICP, Planning Division Manager. On October 16, 2018 the City Council reviewed the following Hattiesburg Planning Commission recommendations and voted as follows: The City Council approved rezoning of 5583 Hwy 42 from R-1C to B-3 (HPC approval upheld); An appeal filed by Clint Walker for the digital billboard on Hwy 49 was rescinded by the petitioner before the hearing was set; The Conditional Use for a new Digital Billboard located at 6505 Hwy 49 North was denied (HPC denial upheld); The Dabbs Street re-zoning from B-2 to B-3 was denied (HPC denial upheld). A memo written by Andrew Ellard, Director of Urban Development, was provided to all Commissioners, regarding the City's wishes to withdraw the application to rezone certain R-1A parcels of land on Dabbs Street that were removed from the initial application to rezone due to public notification errors. This memo is on file.

CHAIRMAN'S REPORT

There came the matter of the Chairman's Report by Chairman Dick Conville. The Chair has selected a nominating committee for a new 2019 positions, composed of Commissioners Corts (Chair), Sims, and Ray. Chairman Conville has withdrawn his name from consideration. There will be a report next month for 2019 positions.

PUBLIC HEARING – PLANNING COMMISSION

Chairman Conville declared the Public Hearing for the Planning Commission open at 1:12 P.M. and read the rules and procedures of the hearing.

There came the matter of Item A (Zoning change), Jimmie Dale Odom, Owner, as required in the Land Development Code, Ord. No. 3209, to change the zoning classification for a certain property located at 5387 Hwy 42 (Parcel 2-029C-04-172.00, PPIN 20711, Ward 2) from Section 4.5.13, I-1 (Light Industrial) District to Section 4.5.12, B-5 (Regional Business) District.

	Name	Address	City/State
Presented by:	Jimmie Dale Odom	5387 Hwy 42 Bypass	Hattiesburg, MS
Proponents:	None		
Opponents:	None		
Other:	Raylawni Branch	853 N. Main St.	Hattiesburg, MS

Chairman Conville declared the Public Hearing closed and the Business Meeting open to vote on the request. Commissioner Sims made a motion to approve the request for rezoning because there is a material change in the circumstances and conditions of the neighborhood and area surrounding the petitioned property and there is a public need for the change in question, based on the Comprehensive Plan. The motion was seconded by Commissioner Waites.

Commissioners voting aye: Ricardo Bryant
Dick Conville, Chairman
Judy Corts
Amy Hinton, Vice-Chairman
Mark Miller
Rhoda A. Pickett
Rebekah Ray
Paul Sims
Kenneth Waites

Commissioners voting nay: None

There came the matter of Item B (Zoning change), Emily Patterson Kleinman, Applicant, and Robert Steve Patterson, Owner, as required in the Land Development Code, Ord. No. 3209, to change the zoning classification for a certain property located at 5436 Hwy 42 (Parcel 2-029B-03-085.00, PPIN 25089; 2-029B-03-134.00, PPIN 25090, Ward 2) from Section 4.5.9, B-2 (Neighborhood Business) District to Section 4.5.10, B-3 (Community Business) District.

History / Background: See "Hattiesburg Planning Commission Street or Alley Closing" application and "Exhibit B to Street Closing Application" which includes a history and explanation of the property ownership.

Basis for Approval: Approve or Deny an application to close and vacate the alley, which is located on the property of 130 West Front Street (Parcel 2-029J-10-241.00; PPIN 21900; Ward 4) and is bounded by West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest.

HATTIESBURG PLANNING COMMISSION
STREET OR ALLEY CLOSING

RECEIVED
SEP 2[illegible] 18
BY:

Date: 9/20/18

Fee: $300.00 per application

INSTRUCTIONS

1. For your benefit, a pre-application conference is suggested.

2. Send completed application and all supporting documents to:

   City of Hattiesburg
   Planning Division-Dept. Of Urban Development
   Post Office Box 1898
   Hattiesburg, MS 39403-1898

3. For further information and assistance in preparing this application, contact the Planning Division by phone at 601-545-4599 or 601.545-4591, or in person in their office on the second floor of City Hall, 200 Forrest Street.

4. Please keep a copy of your application, and review applicable City ordinances and State law.

   NOTE: This application will be deemed preliminary until it is certified as complete by the Hattiesburg Planning Commission or the Director of Urban Development. Additional information may be requested.

PLEASE PRINT OR TYPE ALL INFORMATION.

1. Reason(s) for closing the street/alley:

   The alley has never been used for public purposes. Additional information is set forth on Exhibit B attached hereto.

2. Legal description of the street/alley or portion thereof to be closed: (To be provide by applicant's Engineer or Surveyor.)
   See legal description included on Exhibit A attached hereto.

3. Current name of street/alley and intersecting streets/alleys or street names bounding alley:
West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest.

4. A Tax Block(s) and Lot(s) involved in closing request:
Lots 7, 8 and 9 of Block 179 in the D.H. McInnis Addition.
Parcel 2-029J-10-241.00 (PINN 21900)

5. Describe existing development on property adjacent to the street/alley (i.e.: type of land uses, number of occupied dwelling units, business, height of buildings, etc.) And surrounding property within 400 feet.
Paved parking lot with striped parking; a four story brick and concrete building 43.43 ft. (front) and 59.93 ft (rear); and a restaurant - Coney Island Lunch Stand (which is actually a vacated portion of the alley we are requesting be vacated).

6. Describe the effect the proposed street/alley closing will have on existing development and the transportation system within the affected area.
Closing the alley will not have a negative effect on existing development or the transportation system as the alley has never been used for public purposes.

7. Have applications for zoning, variance, building permit, or other applications been filed?

_____ Yes _____ No None in connection with this vacation of alley request

If yes, provide reference numbers and dates: _____

8. Acknowledgment of property owners adjacent to the street/alley closing. Include all names and addresses and a legal opinion or affidavit attesting to the signatures of all owners of record. The affidavit must be sworn to before a notary public or other appropriate official.
See Exhibit B attached hereto.

9. Architect/Engineer: (If applicable)

Name: Nick Connolly, Shows, Dearman & Waits, Inc. Phone: 601-544-1821
Address: 301 2nd Ave., Hattiesburg, MS 39041

ALLEY LEGAL DESCRIPTION

State of Mississippi
County of Forrest
City of Hattiesburg

A part the alley along the Southeastern side of Lots 7 & 9, in Block 179 of the D.H. McInnis Addition or Survey, in the City of Hattiesburg, County of Forrest, State of Mississippi as per map or plat thereof in the Office of the Chancery Clerk of said County and being more particularly described as **Commencing** at an Exterior Building Corner representing the East Corner of Block 162 of the Crittenden Survey, in the City of Hattiesburg, County of Forrest, State of Mississippi as per map or plat thereof in the Office of the Chancery Clerk of said County and the Intersection of the Northwestern Right of Way Line of West Front Street and the Southwestern Right of Way Line of Main Street, paved public roadways, thence run S46°13'02"E for 49.34 feet to the North Corner of said Block 179 and the Intersection of the Southeastern Right of Way Line of said West Front Street and said Southwestern Right of Way Line of Main Street, thence run S44°37'31"W along the Northwestern Line of said Block 179 and said Southeastern Right of Way Line for 159.21 feet to a Chiseled 'X' in Concrete, thence run S45°10'35"E for 180.10 feet to a Point on the Southeastern Line of said Lot 7 and the **Point of Beginning**; thence continue S45°10'35"E for 20.00 feet to a Mag Nail in Pavement representing a Point on the Northwestern Right of Way Line of Norfolk Southern Railroad, thence run S44°43'29"W along said Northwestern Railroad Right of Way Line for 26.96 feet to a Mag Nail in Pavement representing the Intersection of an extension of the Northeastern Line of said Lot 9 and said Northwestern Railroad Right of Way Line, thence continue S44°43'29"W along said Northwestern Railroad Right of Way Line for 51.50 feet to a Mag Nail in Pavement, thence continue S44°43'29"W along said

Northwestern Railroad Right of Way Line for 116.56 feet to a 1 Inch Round Iron Pin, thence run S43°56'38"W along said Northwestern Railroad Right of Way Line for 14.89 feet to a 1 Inch Round Iron Pin, thence run N45°11'28"W for 20.00 feet to a Point on the Southeastern Line of said Lot 9, thence run N43°56'41"E along said Southeastern Lot Line for 14.90 feet, thence run N44°43'29"E along said Southeastern Lot Line for 116.67 feet to a Chiseled 'X' in Concrete, thence continue N44°43'29"E along said Southeastern Lot Line for 51.50 feet to a Chiseled 'X' in a Metal Ramp representing the East Corner of said Lot 9 and the South Corner of said Lot 7, thence run N44°43'29"E along said Southeastern Line of Lot 7 for 26.84 feet to the **Point of Beginning**, comprising **0.10 Acres (4,198 Square Feet)**, more or less.

Exhibit B

to

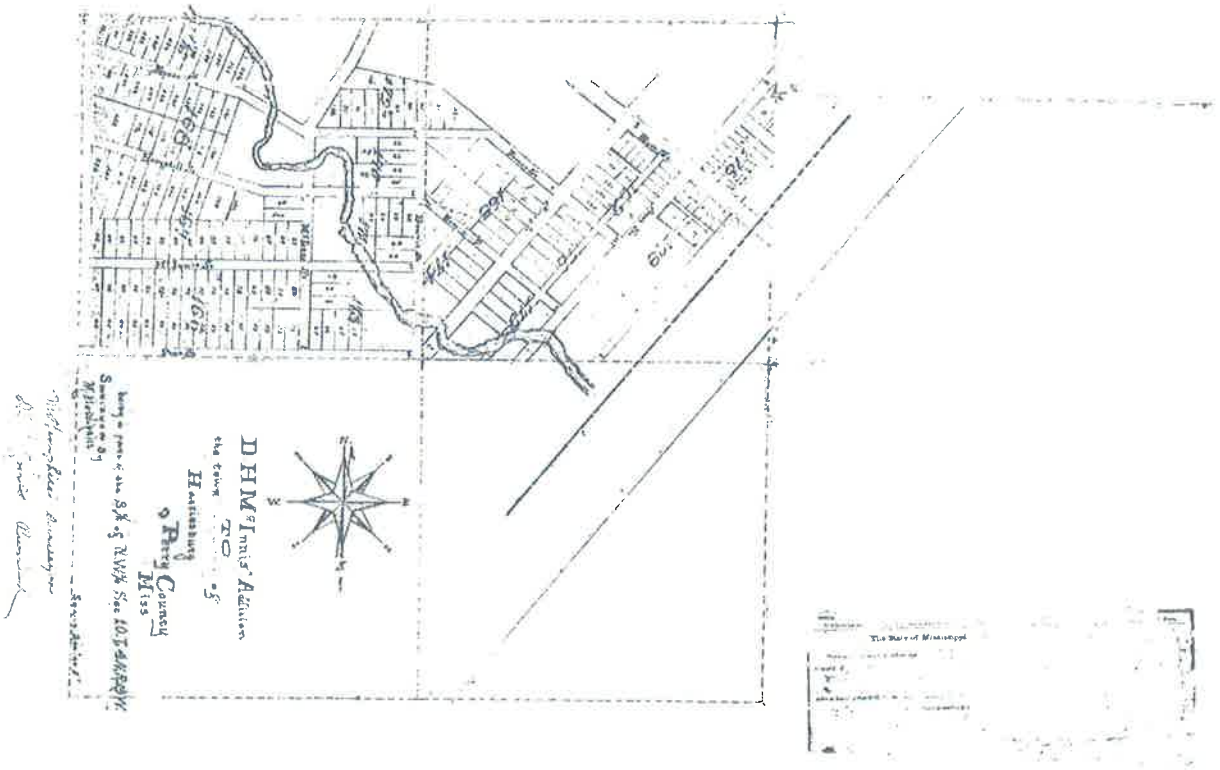
Street Closing Application

EXPLANATION OF AFFECTED PROPERTY OWNERS OR BUSINESSES and
REASON FOR VACATION REQUEST

Hub City Lofts 2, LLC, a Mississippi limited liability company ("Hub City") is the record owner of certain property (the "Property") located at 130 West Front Street in the City of Hattiesburg (the "City") on which the requested Alley (as defined below) to be vacated is located.

The Property is located within Lots 7, 8, and 9 of Block 179 (the "Block") in the D.H. McInnis Addition (the "Plat"). See the original plat filed in the office of the Chancery Clerk of Forrest County, and also a county tax parcel map ("Tax Parcel Map") that gives a depiction of the Property and surrounding area on Exhibit A attached hereto. The area for improvements, as originally platted, was to be 180 feet wide with a 20 foot wide alley (the "Alley") between West Front Street and the supposed Northwestern Right of Way line of the Norfolk Southern Railroad (the "Railroad"); however, based on the improvements on the Property, the full 200 feet, including the Alley, was used for the construction of commercial buildings and parking areas. A depiction of the Property is shown on Exhibit B attached hereto as certain parcels. The record legal descriptions for Parcels 2 & 3 make no reference to the Alley, but do call out the right of way line of the Railroad. The record legal description for Parcel 7 makes no reference to the said Right of Way line of the Railroad, but does call out the same distances as Parcels 2 & 3. The record legal description for Parcel 1 is described as Northeastern 51.5 feet of Lot 9 of the Block. As such, the record legal description for Parcel 1 does not include the 20 foot wide Alley as shown on the Plat, and therefore, there is a 20 foot gap as shown in red on Exhibit B (the "Gap").

Other alleys within this Block have been vacated (see Book 533 at Page 307 and Book 112 at Page 316). In addition, a portion of the Alley that lies closer to Main Street has been vacated by the City per the notation on the Tax Parcel Map. See below the red box and above "286." This vacated portion of the Alley is currently being operated as Coney Island Lunch Stand.



Hub City requests the vacation of the Alley in order to remove the Gap from the legal description of the Property. Hub City is the property owner to the north of the Alley and the City is the property owner to the south of the Alley by virtue of West Railroad Street ("RR Street"). There is a possibility that the Railroad owns the property to the south of the alley by virtue of West Railroad Street being the Northwestern Right of Way line of the Railroad; however, on July 3, 1883, D.H. McInnis, who platted the Property and owned land surrounding the Property, conveyed certain property, including RR Street, to the New Orleans and North Eastern Railroad Company in Book 1 at Page 108. This deed stipulated "...said lands so conveyed be used (for) rail road purposes only." It is our understanding that the Railroad intended to build a train station on the property closer to the actual railroad line, and part of the conveyed property would be the access drive. When the Railroad decided not to build the train station, and the property was therefore not used for "rail road purposes only", the property should have reverted back to D. H. McInnis. It is not clear from any further records whether or not the property, including RR Street, did indeed revert back to D. H. McInnis and whether he subsequently platted the property and thereby dedicated this roadway to the City. As RR Street has long been used for public access, it is our position that the City owns RR Street.

Once the Alley has been formally vacated by the City, Hub City will respectfully request that the Railroad and the City quitclaim to Hub City any interest either may have in and to the Alley in order to remove any cloud on the title to the Property. A representative from the Railroad has given email confirmation that the Railroad does not and never has claimed interest in and to the Alley and also set forth the process for obtaining the Quitclaim Deed from it. See e-mail included as Exhibit C attached hereto. Given the foregoing, it is our position that there is no need for an additional acknowledgement of any property owner adjacent to the Alley.

INDEXING INSTRUCTIONS: Being the Northern 51.5 feet of a 20 foot wide Northeast / Southwest un-improved alley along the Southeastern line of Lot 9 of Block 179 of the D. H. McInnis 1st Addition Subdivision located in the SE ¼ of the NW ¼ of Section 10, T-4-N, R-13-W, City of Hattiesburg, Forrest County, MS.

There came on for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **20th** day of **November, 2018**, the following Ordinance:

ORDINANCE NUMBER 3244

OF THE

CITY OF HATTIESBURG, MISSISSIPPI

AN ORDINANCE CLOSING AND VACATING A PORTION OF THE ALLEY WHICH IS LOCATED ON THE PROPERTY OF 130 WEST FRONT STREET (PARCEL 2-029J-10-241.00; PPIN 21900; WARD 4) AND IS BOUNDED BY WEST RAILROAD STREET TO THE SOUTH, MAIN STREET TO THE NORTHEAST, AND FORREST STREET TO THE SOUTHWEST THAT IS CURRENTLY PLATTED AND EXISTING.

WHEREAS, a portion of a platted alley, which is located on the property of 130 West Front Street (Parcel 2-029J-10-241.00; PPIN 21900) and is bounded by West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest; and

WHEREAS, all of the owners of property adjacent to said portion of the undeveloped alley have requested the Mayor and Council of the City of Hattiesburg, Mississippi, close and vacate said portion of the alley described below, have consented to the closing and vacating of said portion the undeveloped alley described below, subject to the waiting period of thirty (30) days from the date of publication of this ordinance, and have waived any and all rights to any compensation and/or damages that might otherwise be due to them as abutting landowners as a result of the closing and vacating thereof; and

WHEREAS, the Mayor and City Council do now find, determine and adjudge that said portion of the platted alley, which is located on the property of 130 West Front Street (Parcel 2-029J-10-241.00; PPIN 21900) and is bounded by West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest described below is not needed as a public street, and

that the public interest, welfare and convenience require that said portion of the alley described below be closed and vacated, that it would be in the best interest of the City of Hattiesburg. The City of Hattiesburg and the Mayor and Council further find and adjudicate that no compensation for the closing and vacating of said portion of the undeveloped alley described below is due to the owners of the property abutting thereon.

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. That a portion of the alley, which is located on the property of 130 West Front Street (Parcel 2-029J-10-241.00; PPIN 21900) and is bounded by West Railroad Street to the South, Main Street to the Northeast, and Forrest Street to the Southwest located in the City of Hattiesburg, Forrest County, Mississippi, and being more particularly described as follows:

A PART THE ALLEY ALONG THE SOUTHEASTERN SIDE OF LOTS 7 & 9, IN BLOCK 179 OF THE D.H. MCINNIS ADDITION OR SURVEY, IN THE CITY OF HATTIESBURG, COUNTY OF FORREST, STATE OF MISSISSIPPI AS PER MAP OR PLAT THEREOF IN THE OFFICE OF THE CHANCERY CLERK OF SAID COUNTY AND BEING MORE PARTICULARLY DESCRIBED AS COMMENCING AT AN EXTERIOR BUILDING CORNER REPRESENTING THE EAST CORNER OF BLOCK 162 OF THE CRITTENDEN SURVEY, IN THE CITY OF HATTIESBURG, COUNTY OF FORREST, STATE OF MISSISSIPPI AS PER MAP OR PLAT THEREOF IN THE OFFICE OF THE CHANCERY CLERK OF SAID COUNTY AND THE INTERSECTION OF THE NORTHWESTERN RIGHT OF WAY LINE OF WEST FRONT STREET AND THE SOUTHWESTERN RIGHT OF WAY LINE OF MAIN STREET, PAVED PUBLIC ROADWAYS, THENCE RUN S46°13'02"E FOR 49.34 FEET TO THE NORTH CORNER OF SAID BLOCK 179 AND THE INTERSECTION OF THE SOUTHEASTERN RIGHT OF WAY LINE OF SAID WEST FRONT STREET AND SAID SOUTHWESTERN RIGHT OF WAY LINE OF MAIN STREET, THENCE RUN S44°37'31"W ALONG THE NORTHWESTERN LINE OF SAID BLOCK 179 AND SAID SOUTHEASTERN RIGHT OF WAY LINE FOR 159.21 FEET TO A CHISELED 'X' IN CONCRETE, THENCE RUN S45°10'35"E FOR 180.10 FEET TO A POINT ON THE SOUTHEASTERN LINE OF SAID LOT 7 AND THE POINT OF BEGINNING; THENCE CONTINUE S45°10'35"E FOR 20.00 FEET TO A MAG NAIL IN PAVEMENT REPRESENTING A POINT ON THE NORTHWESTERN RIGHT OF WAY LINE OF NORFOLK SOUTHERN RAILROAD, THENCE RUN S44°43'29"W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 26.96 FEET TO A MAG NAIL IN PAVEMENT REPRESENTING THE INTERSECTION OF AN EXTENSION OF THE NORTHEASTERN LINE OF SAID LOT 9 AND SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE, THENCE CONTINUE S44°43'29"W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 51.50 FEET TO A MAG NAIL IN PAVEMENT, THENCE CONTINUE S44°43'29"W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 116.56 FEET TO A 1 INCH ROUND IRON PIN, THENCE RUN S43°56'38"W ALONG SAID NORTHWESTERN RAILROAD RIGHT OF WAY LINE FOR 14.89 FEET TO A 1 INCH ROUND IRON PIN, THENCE RUN N45°11'28"W FOR 20.00 FEET TO A POINT ON

THE SOUTHEASTERN LINE OF SAID LOT 9, THENCE RUN N43°56'41"E ALONG SAID SOUTHEASTERN LOT LINE FOR 14.90 FEET, THENCE RUN N44°43'29"E ALONG SAID SOUTHEASTERN LOT LINE FOR 116.67 FEET TO A CHISELED 'X' IN CONCRETE, THENCE CONTINUE N44°43'29"E ALONG SAID SOUTHEASTERN LOT LINE FOR 51.50 FEET TO A CHISELED 'X' IN A METAL RAMP REPRESENTING THE EAST CORNER OF SAID LOT 9 AND THE SOUTH CORNER OF SAID LOT 7, THENCE RUN N44°43'29"E ALONG SAID SOUTHEASTERN LINE OF LOT 7 FOR 26.84 FEET TO THE POINT OF BEGINNING, COMPRISING 0.10 ACRES (4,198 SQUARE FEET), MORE OR LESS.

SECTION 2. That the City Engineer has recommended that said portion of the unnamed alleys described above be closed and vacated. That the portion of the unnamed alley described above is not a necessary means of access to any other property. That whenever there are existing utilities present in the areas that have been requested for closure, that utility company shall maintain an easement as long as that utility is present. That it would be in the best interest of the City to close and vacate the same.

SECTION 3. That this Ordinance take effect and be in force thirty (30) days from and after passage as provided by law.

The foregoing Ordinance having been reduced to writing, the same was introduced by Council member Delgado seconded by Council member George and was adopted by the following vote to-wit:

MEMORANDUM

TO	***:***	***Mayor Barker, Members of City Council***
FROM	***:***	***Connie Everett, Interim CFO***
DATE	***:***	***November 20, 2018***
SUBJECT	***:***	***Proposed Amendments, FY 2019***

Below is a list of the most significant proposed amendments to the FY 2019 budget. Attached is a more detailed list of proposed changes to the General Fund, detailing the impact to the Fund's budgeted ending cash. Descriptions are also included for proposed changes to the budgets of other funds.

- Beginning fund balances for all funds have been adjusted from estimated to actual.
- With the exception of a few critical areas where no budget for an expenditure line exists, any open purchase orders carried from FY 2018 are being absorbed in the FY 2019 budgets.

Significant items specifically for the **General Fund** include:

- Budgeted ending cash remains the same.
- The NRCS drainage grant amount is reduced since the City is not the lead agency. Only the actual City cost is budgeted, rather than the full project cost.
- Budgets for salary adjustments previously approved are included.
- Budget savings generated from salary adjustments have been set aside toward fund balance or special projects.

If you have questions concerning the information presented, please give me a call.

RECAP OF PROPOSED AMENDMENTS
NOVEMBER 20, 2018
FY 2019

There came on for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **20th** day of **November, 2018**, the following Resolution:

RESOLUTION 2018-183

WHEREAS, the Mayor and City Council of the City of Hattiesburg, Mississippi, have determined that expenditures within the City will exceed the original budget appropriation; and

WHEREAS, the additional appropriation needed is in excess of ten percent (10%) of the original appropriation, and in accordance with Section 21-35-25 of the Mississippi Code of 1972, as amended, shall be published;

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF HATTIESBURG:

Section 1. That the following budget amendments are hereby authorized to be made in the City's General Fund Police Capital Outlay Unappropriated Fund Balance:

ORIGINAL BALANCE	CUMULATIVE AMENDMENTS	AMENDED BUDGET	DESCRIPTION OF ITEMS NOT PREVIOUSLY LISTED
$275,000	$201,000	$476,000	Adjust for prior yr purchase orders for patrol cars

Adopt a Resolution authorizing Requisition No. 71 from the Project Fund Construction Account in connection with that certain loan agreement, dated as of December 19, 2013, by and between the Mississippi Development Bank and the City of Hattiesburg.

Summary

Project Resolution Requisition No. 71 - 2013 Bonds

Budget Information

105695

The City Council of the City of Hattiesburg, Mississippi (the "City") acting for and on behalf of the City, took up for consideration the matter of requesting and authorizing Requisition No. **71** from the Project Fund Construction Account in connection with the loan agreement between the Mississippi Development Bank and the City dated December 19, 2013. After discussion of the subject, Council Member _____ offered and moved for the adoption of the following resolution:

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI (THE "CITY") AUTHORIZING REQUISITION NO. 71 FROM THE PROJECT FUND CONSTRUCTION ACCOUNT IN CONNECTION WITH THAT CERTAIN LOAN AGREEMENT, DATED AS OF DECEMBER 19, 2013, BY AND BETWEEN THE MISSISSIPPI DEVELOPMENT BANK AND THE CITY.

Whereas, on December 19, 2013 the City entered into a loan with the Mississippi Development Bank in an amount not to exceed $28,000,000 (the "Loan") pursuant to the terms and conditions of that certain loan agreement, dated as of December 19, 2013, by and between the Mississippi Development Bank and the City (the "Loan Agreement").

Whereas, the City Council of the City now finds it necessary to approve Requisition No. **71** from the Project Fund Construction Account under the Loan in the total aggregate amount of **$326,960.17** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. The City Council of the City hereby authorizes and approves Requisition No. **71** from the Project Fund Construction Account under the Loan in the total aggregate amount of **Three Hundred Twenty-six Thousand Nine Hundred Sixty and 17/100 Dollars ($326,960.17)** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

SECTION 2. The City Council hereby directs Hancock Bank, as Trustee to disburse funds of Requisition No. **71** in the total aggregate amount of **Three Hundred Twenty-six Thousand Nine Hundred Sixty and 17/100 Dollars ($326,960.17)** as authorized herein, as more particularly described in Exhibit A.

SECTION 3. The Mayor and City Clerk are hereby authorized and directed for and on behalf of the City to take any and all action as may be required by the City to carry out and give effect to the aforesaid documents authorized pursuant to this Resolution and to execute all papers, documents, certificates and other instruments that may be required for the carrying out of the authority conferred by this Resolution in order to evidence the authority.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member _____ seconded by Council Member _____, and was adopted by the following vote, to wit:

YEAS: NAYS: ABSENT:

The motion having received the affirmative vote of a majority of the Council members present, the President declared the motion carried and the resolution adopted, on this the **20th day** of **November**, 2018.

(SEAL)

ATTEST: **ADOPTED:**

_____ _____

CLERK OF COUNCIL **PRESIDENT**

The above and foregoing Resolution having been submitted to and approved by the Mayor, this the **20th day** of **November**, 2018.

Hattiesburg, Mississippi does hereby certify to Hancock Bank, as trustee in respect to the referenced Bonds (the Trustee"):

(1) The amounts herein requisitioned to be paid to the above-designated payees are for the items or services hereinabove described.
(2) The items or services listed above for which payment is proposed to be made hereunder have not formed the basis for any payment heretofore made from the Project Fund Construction Account.
(3) Each of the items was reasonable and necessary in connection with the "Construction Project" being financed pursuant to the Loan Agreement dated as of December 19, 2013 (the "Loan Agreement").
(4) The payment herein authorized and approved is a proper charge against the Project Fund Construction Account as provided for in Section 3 of the Loan Agreement.
(5) The invoices or statements from the contractor, vendor or other payee or other document supporting the amounts requisitioned herein are on file with the City.

CITY OF HATTIESBURG, MISSISSIPPI

By: _____
Title: Mayor or City Clerk
(Authorized City Representative)

There came on for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **20th** day of **November, 2018**, the following Resolution:

RESOLUTION 2018-184

The City Council of the City of Hattiesburg, Mississippi (the "City") acting for and on behalf of the City, took up for consideration the matter of requesting and authorizing Requisition No. **71** from the Project Fund Construction Account in connection with the loan agreement between the Mississippi Development Bank and the City dated December 19, 2013. After discussion of the subject, Council Member George offered and moved for the adoption of the following resolution:

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI (THE "CITY") AUTHORIZING REQUISITION NO. 71 FROM THE PROJECT FUND CONSTRUCTION ACCOUNT IN CONNECTION WITH THAT CERTAIN LOAN AGREEMENT, DATED AS OF DECEMBER 19, 2013, BY AND BETWEEN THE MISSISSIPPI DEVELOPMENT BANK AND THE CITY.

Whereas, on December 19, 2013 the City entered into a loan with the Mississippi Development Bank in an amount not to exceed $28,000,000 (the "Loan") pursuant to the terms and conditions of that certain loan agreement, dated as of December 19, 2013, by and between the Mississippi Development Bank and the City (the "Loan Agreement").

Whereas, the City Council of the City now finds it necessary to approve Requisition No. **71** from the Project Fund Construction Account under the Loan in the total aggregate amount of **$326,960.17** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. The City Council of the City hereby authorizes and approves Requisition No. **71** from the Project Fund Construction Account under the Loan in the total aggregate amount of **Three Hundred Twenty-six Thousand Nine Hundred Sixty and 17/100 Dollars ($326,960.17)** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

SECTION 2. The City Council hereby directs Hancock Bank, as Trustee to disburse funds of Requisition No. **71** in the total aggregate amount of **Three Hundred Twenty-six Thousand Nine Hundred Sixty and 17/100 Dollars ($326,960.17) as** authorized herein, as more particularly described in Exhibit A.

SECTION 3. The Mayor and City Clerk are hereby authorized and directed for and on behalf of the City to take any and all action as may be required by the City to carry out and give effect to the aforesaid documents authorized pursuant to this Resolution and to execute all papers, documents, certificates and other instruments that may be required for the carrying out of the authority conferred by this Resolution in order to evidence the authority.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member George, seconded by Council Member Delgado, and was adopted by the following vote, to wit:

YEAS:	**NAYS:**	**ABSENT:**
George	**None**	**None**
Delgado		
Carroll		
Dryden (via teleconference)		
Brown		

The President thereby declared the motion carried and the Resolution adopted this the **20th** day of **November, 2018**.

(S E A L)

Attn: Lamar Rutland, P.E.

Re: **Sewer Extension Along Lamar Blvd**
City of Hattiesburg

Dear Lamar:

Enclosed please find Pay Estimate No. 3 for the above referenced project in the amount of $111,656.23.

Should you have any questions and/or comments, please, do not hesitate to contact me.

Sincerely,

Shea E. McNease, P.E.
Project Engineer

/aa

Contractor's Application For Payment No. 3

	Application Period: Beginning: 5/26/2018 Ending: 9/30/2018	Application Date: 2-Oct-18
To (Owner): CITY OF HATTIESBURG	From (Contractor): C.B. DEVELOPERS, INC.	Via (Engineer): SHOWS, DEATMAN & WAITS
Project: SEWER EXTENSION ALONG LAMAR BLVD	Contract:	
Owner's Contract No.: Not Applicable	Contractor's Project No.:	Engineer's Project No.:

Change Order Summary

Approved Change Orders		
Number	Additions	Deductions
TOTALS	$ -	$ -
NET CHANGE BY CHANGE ORDERS	$ -	

1. ORIGINAL CONTRACT PRICE	$	392,099.40
2. Net change by Change Orders	$	-
3. CURRENT CONTRACT PRICE (LINE 1 + 2)	$	392,099.40
4. TOTAL COMPLETED AND STORED TO DATE (Column F on Progress Estimates)	$	374,763.07
5. RETAINAGE:		
a. 5.0 % x Work Completed	$	18,738.15
b. 5.0% x Stored Material	$	-
c. Total Retainage (line 5a + line 5b)	$	18,738.15
6. AMOUNT ELIGIBLE TO DATE (Line 4 - Line 5c)	$	356,024.92
7. LESS PREVIOUS PAYMENTS (Line 6 from prior Application)	$	244,368.69
8. AMOUNT DUE THIS APPLICATION	$	***111,656.23***
9. BALANCE TO FINISH, PLUS RETAINAGE (Column G on Progress Estimate + Line 5 above)	$	17,336.33

CONTRACTOR'S CERTIFICATION

The undersigned Contractor certifies that: (1) all previous progress payments received from Owner on account of Work done under the Contract have been applied on account to discharge Contractor's legitimate obligations incurred in connection with Work covered by prior Applications for Payment; (2) title of all Work, materials and equipment incorporated in said Work or otherwise listed in or covered by this Application for Payment will pass to Owner at time of payment free and clear of all Liens, security interests and encumbrances (except such as are covered by a Bond acceptable to Owner indemnifying Owner against any such Liens, security interest or encumbrances); and (3) all Work covered by this Application for Payment is in accordance with the Contract Documents and is not defective.

By: Date: 10/2/2018

Payment of: **$111,656.23**
(Line 8 or other - attach explanation of other amount)

Is recommended by: (Engineer) 10/15/18 (Date)

Payment of: $111,656.23
(Line 8 or other - attach explanation of other amount)

Is approved by: (Owner) (Date)

Is approved by: (Owner) (Date)

Approved by: (Funding Agency, if applicable) (Date)

Title

Adopt a Resolution authorizing Requisition No. 30 from the Project Fund Construction Account in connection with a certain loan agreement dated August 18, 2016, by and between the Mississippi Development Bank and the City of Hattiesburg.

Summary

2016 Bond Requisition No. 30

The City Council of the City of Hattiesburg, Mississippi (the "City") acting for and on behalf of the City, took up for consideration the matter of requesting and authorizing Requisition No. **30** from the Project Fund Construction Account in connection with the loan agreement between the Mississippi Development Bank and the City dated August 18, 2016. After discussion of the subject, Council Member _____ offered and moved for the adoption of the following resolution:

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI (THE "CITY") AUTHORIZING REQUISITION NO. 28 FROM THE PROJECT FUND CONSTRUCTION ACCOUNT IN CONNECTION WITH THAT CERTAIN LOAN AGREEMENT, DATED AS OF AUGUST 18, 2016, BY AND BETWEEN THE MISSISSIPPI DEVELOPMENT BANK AND THE CITY.

Whereas, on August 18, 2016 the City entered into a loan with the Mississippi Development Bank in an amount not to exceed $25,000,000 (the "Loan") pursuant to the terms and conditions of that certain loan agreement, dated as of August 18, 2016, by and between the Mississippi Development Bank and the City (the "Loan Agreement").

Whereas, the City Council of the City now finds it necessary to approve Requisition No. **30** from the Project Fund Construction Account under the Loan in the total aggregate amount of **$125,437.50** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. The City Council of the City hereby authorizes and approves Requisition No. **30** from the Project Fund Construction Account under the Loan in the total aggregate amount of **One Hundred Twenty-five Thousand Four Hundred Thirty-Seven and 50/100 dollars ($125,437.50)** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

SECTION 2. The City Council hereby directs Regions Bank, as Trustee to disburse funds of Requisition No.**30** in the total aggregate amount of **One Hundred Twenty-five Thousand Four Hundred Thirty-Seven and 50/100 dollars ($125,437.50)** as authorized herein, as more particularly described in Exhibit A.

SECTION 3. The Mayor and City Clerk are hereby authorized and directed for and on behalf of the City to take any and all action as may be required by the City to carry out and give effect to the aforesaid documents authorized pursuant to this Resolution and to execute all papers, documents, certificates and other instruments that may be required for the carrying out of the authority conferred by this Resolution in order to evidence the authority.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member _____ seconded by Council Member _____, and was adopted by the following vote, to wit:

YEAS: NAYS: ABSENT:

The motion having received the affirmative vote of a majority of the Council members present, the President declared the motion carried and the resolution adopted, on this the **20th day** of **November, 2018**.

(SEAL)

ATTEST: **ADOPTED:**

Hattiesburg, Mississippi does hereby certify to Regions Bank, as trustee in respect to the referenced Bonds (the Trustee"):

(1) The amounts herein requisitioned to be paid to the above-designated payees are for the items or services hereinabove described.
(2) The items or services listed above for which payment is proposed to be made hereunder have not formed the basis for any payment heretofore made from the Series 2016 Project Fund Construction Account.
(3) Each of the items was reasonable and necessary in connection with the "Construction Project" being financed pursuant to the Loan Agreement dated as of August 18, 2016 (the "Loan Agreement").
(4) The payment herein authorized and approved is a proper charge against the Series 2016 Project Fund Construction Account as provided for in Section 3 of the Loan Agreement.
(5) The invoices or statements from the contractor, vendor or other payee or other document supporting the amounts requisitioned herein are on file with the City.

CITY OF HATTIESBURG, MISSISSIPPI

By: _____
Title: Mayor or City Clerk
(Authorized City Representative)

As Approved by:

Regions Commercial Equipment Finance, LLC
As Purchaser

_____
Authorized Officer

There came on for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **20th** day of **November, 2018**, the following Resolution:

RESOLUTION 2018-185

The City Council of the City of Hattiesburg, Mississippi (the "City") acting for and on behalf of the City, took up for consideration the matter of requesting and authorizing Requisition No. **30** from the Project Fund Construction Account in connection with the loan agreement between the Mississippi Development Bank and the City dated August 18, 2016. After discussion of the subject, Council Member George offered and moved for the adoption of the following resolution:

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI (THE "CITY") AUTHORIZING REQUISITION NO. 30 FROM THE PROJECT FUND CONSTRUCTION ACCOUNT IN CONNECTION WITH THAT CERTAIN LOAN AGREEMENT, DATED AS OF AUGUST 18, 2016, BY AND BETWEEN THE MISSISSIPPI DEVELOPMENT BANK AND THE CITY.

Whereas, on August 18, 2016 the City entered into a loan with the Mississippi Development Bank in an amount not to exceed $25,000,000 (the "Loan") pursuant to the terms and conditions of that certain loan agreement, dated as of August 18, 2016, by and between the Mississippi Development Bank and the City (the "Loan Agreement").

Whereas, the City Council of the City now finds it necessary to approve Requisition No. **30** from the Project Fund Construction Account under the Loan in the total aggregate amount of **$125,437.50** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. The City Council of the City hereby authorizes and approves Requisition No. **30** from the Project Fund Construction Account under the Loan in the total aggregate amount of **One Hundred Twenty-five Thousand Four Hundred Thirty-Seven and 50/100 dollars ($125,437.50)** for the purpose of paying Water & Sewer Projects in connection with the loan as more particularly described in Exhibit A.

SECTION 2. The City Council hereby directs Regions Bank, as Trustee to disburse funds of Requisition No.**30** in the total aggregate amount of **One Hundred Twenty-five Thousand Four Hundred Thirty-Seven and 50/100 dollars ($125,437.50)** as authorized herein, as more particularly described in Exhibit A.

SECTION 3. The Mayor and City Clerk are hereby authorized and directed for and on behalf of the City to take any and all action as may be required by the City to carry out and give effect to the aforesaid documents authorized pursuant to this Resolution and to execute all papers, documents, certificates and other instruments that may be required for the carrying out of the authority conferred by this Resolution in order to evidence the authority.

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member George, seconded by Council Member Delgado, and was adopted by the following vote, to wit:

YEAS:	**NAYS:**	**ABSENT:**
George	**None**	**None**
Delgado		
Carroll		
Dryden (via teleconference)		
Brown		

The President thereby declared the motion carried and the Resolution adopted this the **20th** day of **November, 2018**.

(S E A L)

ATTEST:

CLERK OF COUNCIL

ADOPTED:

COUNCIL PRESIDENT

The above and foregoing Resolution, having been submitted to and approved by the Mayor, this the **20th** day of **November, 2018**.

RE: **Infrastructure Management Phase I**

Dear Mr. Rutland:

The City of Hattiesburg has been in the process of modernizing the management of city infrastructure, especially the city owned water transmission and sanitary sewer system. Some of these measures have been mapping of the water and sewer system and the creation of a baseline geospatial information system (GIS), strategic investigation of the sewer system and routine maintenance and cleaning of the sewer system. Phase I of the sewer management process involves the development of management programs and related form documents to memorialize certain operational aspects of the sewer system. As the deliverables for Sewer Management Phase I are reaching the final stages of development, there has been a realization that there are organizational and technological tools that will aid in implementing certain programs. These tools will also assist in more efficient management of the City's infrastructure assets. The following is a proposal to provide mapping revision services and sanitary sewer overflow (SSO) reporting services. These foundational asset and data management services are pursuant to more consistent regulatory compliance and more efficient implementation of the aforementioned infrastructure management programs.

For Phase I of the infrastructure management program SDW, Incorporated proposes the following scope of work:

Mapping Revision:

- Provide a digital application to facilitate the revision and updating of the City's water and sewer system maps.
- Produce and maintain a database of map changes generated by the aforementioned application.

- Revise the City's water and sewer system maps using a geospatial information system in accordance with the map changes noted in the aforementioned database.

- Revise the City's water and sewer system maps using a geospatial information system through the uploading of record drawings from projects which improve or modify the aforementioned systems.

- Verify noted map changes through surveying services provided by SDW, Inc. when deemed necessary.

- Provide the City of Hattiesburg with updated GIS maps, database and digital field maps on a quarterly basis.

The above referenced services can be provided on a monthly basis for $5,000/month.

Sanitary Sewer Overflow (SSO) Reporting:

- Provide a digital application to facilitate the reporting of SSO's by City personnel, in order to facilitate compliance with Mississippi Department of Environmental Quality (MDEQ) and United States Environmental Protection Agency (EPA) SSO reporting requirements. The application should at a minimum allow for the recording of the date, time, location (street address, latitude and longitude), source, estimated duration, estimated volume, receiving water (if any), and cause of all SSOs.

- Produce and maintain a database of reported SSO's generated by the aforementioned application, remote monitoring equipment and the City Action Call Center. All the aforementioned information will be provided by the City of Hattiesburg.

- Provide the City of Hattiesburg with updated map locations of reported SSO's using a geospatial information system (GIS).

- Provide the City of Hattiesburg with quarterly reports of all SSO's occurring in the applicable three (3) month period, in order to facilitate compliance with MDEQ and EPA SSO reporting requirements.

The above referenced services can be provided on a monthly basis for $3,200/month.

I appreciate this opportunity to provide you with these services and look forward to continued relationship with the City of Hattiesburg. Should you have questions or comments, please do not hesitate to contact me.

Sincerely,

Shea McNease, P.E.

ANNEX A
AMENDMENT TO MOU

Item 1: City of Hattiesburg, Mississippi

Item 2: **Phase I -** Funds will be used for the following with changes and modifications agreed to by all parties:

The Forrest General Hospital portion of the project will consist of roadway improvements to the following corridors:
1. US Highway 49 between O'Ferral and Mimosa Lane
2. Mamie Street between S 28th Avenue and S 25th Avenue
3. Adeline Street between S 28th Avenue and US Highway 49 (commencing +/- 450 feet West of US Highway 49 to US Highway 49)
4. US Highway 49 East Frontage Road between Camp Street and Mamie Street
5. US Highway 49 West Frontage Road between Camp Street and Adeline Street

The work will consist of the following:
1. Installation of traffic signal at US Highway 49 and Camp Street
2. Installation of traffic signal at US Highway 49 at Adeline Street
3. Realignment of Mamie Street West of US Highway 49
4. Conversion of both the East and West US Highway 49 Frontage Roads to single lane roadways to provide traffic flow directions necessary to properly route traffic.
5. Abandonment of existing Mamie Street corridor to be utilized as the Emergency Room Entrance.
6. Removal of existing traffic signal at US Highway 49 and Mamie Street.
7. Reconfiguring of US Highway 49 median to accommodate the removal of an existing turn lane at Mamie Street and the addition of turn lanes at Camp and Adeline.

Phase II – Funds will be used for road improvements on 31st Street from Hardy Street to Pearl Street which includes curb and gutter.

Item 3: Midtown Hattiesburg Master Plan Project

Item 4: March 23, 2015

Item 5: **Phase I -** $2,500,000 or such other amount as may subsequently be agreed to by the Political Subdivision, MDA and OSA.
Phase II - $784,500 or such other amount as may subsequently be agreed to by the Political Subdivision, MDA and OSA.

Item 6: Such amount necessary for the Political Subdivision to fund the complete implementation of the project in item 2. The Political Subdivision will accept responsibility for right-of-way acquisition, maintenance of the roadway improvements and utilities

Item 7: Three years from the date of this Memorandum of Understanding

2019- MEMORANDUM OF AGREEMENT

This agreement constitutes a Memorandum of Understanding (MOU) between Downtown Hattiesburg Association, (DHA), a designated Mississippi Main Street Association (MMSA) member, and the City of Hattiesburg for the purpose of the continued participation in the Mississippi Main Street Program and engaging the services of DHA in the operation and implementation of the Main Street program for Downtown Hattiesburg.

The mission of Downtown Hattiesburg is to create a program that will encourage and promote the economic growth and development of downtown Hattiesburg through, planning, beautification, and preservation of our central business district in order to build a competitive local and regional arts district and business market, and support our growing tourism industry.

MMSA is under contract with the Mississippi Development Authority to administer the Main Street Program and to provide technical assistance and training to selected communities.

FOR GOOD CONSIDERATION, THE City of Hattiesburg agrees to contract with DHA on the following terms and conditions:

Section I: City of Hattiesburg Agrees to:

1. The City of Hattiesburg will fund DHA on an annual basis and in an amount not less than $ 30,000.00.
2. Funding for FY19 to DHA appropriated by Forrest County Board of Supervisors in the amount of $25,000.00 on September 4th, 2018, per minute book 660 page 595 to be included in funding total in the amount of $55,000.00.
3. The City of Hattiesburg agrees to expend in-kind services to provide office space for DHA to operate.
4. The City agrees to extend the use of certain City facilities and parks at no charge for DHA coordinated or sponsored events and activities.
5. The City agrees to permit DHA the use of certain City services at no charge for DHA coordinated or sponsored events and activities.

Section II: MS Main Street Association Agrees to:

1. Designate an MMSA team member to be the point of contact for the local program director. This team member will be available to answer questions, provide collateral materials, review and approve monthly reports and conduct basic ongoing training for the certified main street program.

2. Provide at least one annual Main Street Four Point Approach™ 101 training open to all program directors, local board members, local committee members and local government representatives from the Main Street communities. MMSA will provide all necessary materials related to training.

3. Provide regional training and meeting opportunities for local program directors.

4. Hold an annual program directors' retreat.

5. Provide an on-site work session, as requested by the local program director, for development of goals, objectives and guidance with the local program's annual work plan.

6. MMSA will also provide guidelines, updates and other materials designed to assist in the ongoing educational process.

7. Provide quarterly regional trainings, workshops or conferences to further develop and refine the skills of the program director and local participants. (Each local program is required to send a representative to at least three of these trainings per year.) The National Main Street Conference, Back Stage Pass, and the Destination Downtown Conference both qualify as "official training."

8. Provide one on-site technical visit and other technical services as requested by the local program director. A technical assistance form must be filled out and sent to the Director of Field Services. At that point, the request will be put in the queue and will be considered in the order of other pending requests. Matching funds from the local program may be required.
   Technical services may include, but are not limited to: design services (design renderings, design guidance, assistance with design guidelines or ordinances, historic preservation, tax credits, etc.), market analysis, new director training, communications & marketing assistance, retail training or assistance, festival development or evaluation, small event development or evaluation, volunteer training, budget development, economic development projects, and business recruitment, retention & expansion assistance.

9. Facilitate and promote ongoing media coverage of the Mississippi Main Street Program and its individual local programs.

10. Provide and grant each certified Main Street program use of the official MMSA Community logo and other promotional materials with the Mississippi Main Street Association branding.

11. Conduct periodic on-site evaluations of each program's progress as needed or requested by local program director.

12. Provide all member programs with regular updates on industry news, grant opportunities and information from our partner organizations.

13. Provide legislative education and advocacy for our member programs on the local, state and national level.

14. Approve and monitor requested data from monthly reports submitted by local program in a timely manner.

15. Provide an Annual Awards application where the local program may submit nominations and be judged by an impartial jury of professionals with the opportunity of winning and being recognized at the Annual Awards Luncheon in June.

Section III: DHA Agrees To:

_____1. Continue to employ a Director/Program Coordinator who will be responsible for the day-to-day

administration of the Main Street Program.

_____2. Expend funds and in-kind services for maintaining an office with the necessary travel and operating budget for the local director to attend meetings, state trainings and other events as needed.

_____3. Continue to implement the Four Point Approach™ methodology recommended by the National Main Street Center and the Mississippi Main Street Association, including development of an annual written Work Plan for the local Main Street Program and the establishment of a strong, broad-based organizational system to include projects (with a designated chairperson and task team) with transformational strategies in organization, promotion, design and economic vitality.

_____4. File all applicable IRS forms in accordance with state and federal taxation laws. Programs may be required to register as a Mississippi charitable organization with the Mississippi Secretary of State's office.

_____5. Provide information and reporting for monitoring the progress of the Main Street Program, submit regular monthly reports using online format provided by MMSA, and provide other information requested by MMSA on or before the identified deadlines.

_____6. Send the local program director (or *another representative) to three MMSA trainings per year. The community shall be responsible for the director's travel costs and expenses associated with these meetings. *If the director cannot attend, another program representative should attend to represent the community.

Important: MMSA allows for training substitutions when necessary. The approved substitutions for a missed training are: MEDC Annual Meeting or MEDC Winter Conference, MHT Annual Meeting, MDAH Preservation Boot Camp and the National Main Street Conference. It is the director's responsibility to email confirmation to MMSA that an approved substitute training was attended.

_____7. Fill out the MMSA technical assistance form when requesting a service. The Director of Field Services will take into consideration: if the local Main Street program is certified and in good standing with the current MOA, if necessary funds are available or whether a match from the local program is required, and consider when the request arrives in consideration of prior requests from other local programs.

_____8. Maintain an active membership and current fee-paid status in the Mississippi Main Street Association, participating at the Main Street Program membership level.

_____9. Make best effort to include the MMSA logo on printed and electronic materials (website, newsletters, Facebook, etc.).

_____10. Be a Network Member, in good standing, of the National Main Street Center.

_____11. Maintain broad-based public and private sector community support for the local program.

_____12. Provide the MMSA Director of Training & Information Services news of your local program's endeavors, accomplishments and events in order that MMSA may promote them in all of our mediums.

_____13. Complete the Annual Director's Survey (online) sent via email with MOA by Jan. 31, 2019.

Section IV: MMSA, DHA and the City of Hattiesburg jointly agree that:

1. The term of this agreement shall be the fiscal year 2019 beginning on October 1, 2018 and ending on September 31, 2019. It may be extended or revised by both parties.

2. If funds anticipated for continued fulfillment are, at any time, not forthcoming or insufficient for continuation of the contractual agreement, then either party shall have the right to amend or terminate this agreement without penalty by giving not less than sixty (60) days written notice to the other party.
3. Should a local Main Street program fail to comply with the provisions of this annual Memorandum of Agreement (MOA) by June 30, 2019, the Main Street State Board of Directors may choose to have the Executive Director send that program a written initial warning. At that time the local program will be placed on probationary status and ineligible for any services from MMSA until the program is compliant. The probation period will be extended for up to six months.
4. Should a program find itself on probation, MMSA will help the community draft a plan to regain their certification as a designated Main Street community, if the community so desires. If the local program fails to comply with the provisions of the annual MOA within the probation period, the program will be de-certified from MMSA with an official letter on behalf of the MMSA Board. At that point, the community would have to start a new application process if they wish to rejoin the association.
5. They shall jointly hold each other harmless for any activities of the other including but not limited to general liability, automobile liability, worker's compensation and employer's liability.

Witness whereof, the parties have executed this agreement.

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter the "MOU") is entered into between the Department of Finance and Administration (hereinafter the "DFA") and the City of Hattiesburg for the purpose of establishing the agreed upon conditions under which the DFA may disburse funds to assist the City of Hattiesburg in paying costs associated with the local project (hereinafter the "Project") specified in Section 13 (2) (k) of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (hereinafter the "Act"). This MOU is entered into pursuant to, and subject to the terms of the Act, which authorizes an amount not to exceed Four Hundred Thousand (amount, i.e. One Hundred) Dollars and No/100 $ 400,000.00 (amount, i.e., $100), for the Project. **(PLEASE NOTE THAT IT IS YOUR RESPONSIBILITY TO SPEND THE FUNDS RECEIVED FROM THE STATE IN ACCORDANCE WITH THE LEGISLATION.)**

RECITALS

WHEREAS, the Act establishes the 2018 Transportation and Infrastructure Improvements Fund for the purpose of providing funds to the City of Hattiesburg to pay the costs of the Project; and

WHEREAS, pursuant to the Act, funds are being transferred in accordance with House Bill 1, 2018 First Extraordinary Session, Laws of 2018 and Section 12 of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (the "State Funds") to fund the Project; and

WHEREAS, the City of Hattiesburg shall maintain the State Funds in a separate account; and

WHEREAS, the Act authorizes the DFA within its discretion, to disburse monies in the 2018 Transportation and Infrastructure Improvements Fund to pay the costs of the Project; and

WHEREAS, the DFA has requested the City of Hattiesburg to maintain on file the documentation listed in "Exhibit A" attached hereto and incorporated herein by reference, to the extent required by State of Mississippi state bidding laws; and

WHEREAS, the City of Hattiesburg agrees to make every effort to expend the funds within thirty-six (36) months from the date of receipt; and

WHEREAS, for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs shall have been in accordance with the Act; and

WHEREAS, the City of Hattiesburg agrees that if any proceeds from the State funds are remaining at the completion of the Project, said funds shall be expended pursuant to the Act; and

WHEREAS, the City of Hattiesburg agrees to provide quarterly reports to the DFA that summarize the expenditures of the Act proceeds and provides an update on the status of the Project. The quarterly reports must be provided on a form prescribed by the DFA and must include all invoices associated with the reported expenditures. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide to the DFA a final report no more than thirty (30) days after final expenditure of funds, summarizing the expenditures and use of the proceeds upon completion of the Project and include all invoices that have not previously been submitted; and

WHEREAS, the DFA finds, consistent with the Act, that it is in the best interest of the DFA and the City of Hattiesburg that the funds on deposit in the 2018 Transportation and Infrastructure Improvements Fund for the City of Hattiesburg should be disbursed to the City of Hattiesburg and that the City of Hattiesburg shall directly administer the expenditure of such funds for the Project.

NOW THEREFORE, IT IS MUTUALLY AGREED BY THE DEPARTMENT OF FINANCE AND ADMINISTRATION AND THE City of Hattiesburg AS FOLLOWS:

SECTION 1. Each and all of the facts and findings set forth in the preamble clauses of this memorandum are hereby found and determined to be true and accurate and are incorporated herein by this reference thereto as though set forth again in words and figures.

SECTION 2. The DFA, pursuant to the Act, shall disburse the State Funds from the 2018 Transportation and Infrastructure Improvements Fund upon the written request of the City of Hattiesburg to pay the costs associated the Project.

SECTION 3. The City of Hattiesburg certifies and agrees to use all funds received from the 2018 Transportation and Infrastructure Improvements Fund within the recommended thirty-six (36) month time period and **solely** for the costs of the Project as set forth in the Act and upon the terms and provisions of this MOU. Failure on the part of the City of Hattiesburg to adhere to any provision within this MOU may result in immediate action by the State to recover any unexpended funds.

SECTION 4. The City of Hattiesburg agrees to properly and competitively execute such procurements in accordance with state law. Failure to adhere may cause the DFA to withhold all sums for the project or seek recovery of same. Further, the City of Hattiesburg agrees to maintain on file the documentation listed in Exhibit A attached hereto and incorporated herein, in accordance with the law and the recitals of this MOU.

SECTION 5. The City of Hattiesburg agrees to provide the DFA quarterly notarized reports as set forth hereinabove, in a format prescribed by the DFA. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide the DFA with a final report summarizing the expenditures and use of the State

Funds proceeds no more than thirty (30) days after final expenditure of the State Funds.

SECTION 6. The City of Hattiesburg certifies that for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs are in accordance with the Act.

SECTION 7. The City of Hattiesburg agrees to maintain copies of all invoices and similar documentation for each expenditure of all funds received from the 2018 Transportation and Infrastructure Improvements Fund sufficient to satisfy and confirm, to DFA's satisfaction, that such funds have been expended **solely** for the costs of the Project as authorized and provided by the Act.

SECTION 8. The City of Hattiesburg agrees to administer the project with respect to construction to be completed in accordance with the state procurement laws.

SECTION 9. The City of Hattiesburg agrees that if any proceeds from the State Funds are remaining at the completion of the Project, said funds shall be expended in accordance with the Act.

(The remainder of this page left blank intentionally)

SECTION 10. All notices or information pursuant to this MOU shall be provided as follows:

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

PO BOX 1898

Requester's name and address (optional)

6 City, state, and ZIP code

HATTIESBURG, MS 39403

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

6	4	–	6	0	0	4	3	2

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here **Signature of U.S. person** ▶ Lisa Hanson **Date** ▶ 1/31/18

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter the "MOU") is entered into between the Department of Finance and Administration (hereinafter the "DFA") and the City of Hattiesburg for the purpose of establishing the agreed upon conditions under which the DFA may disburse funds to assist the City of Hattiesburg in paying costs associated with the local project (hereinafter the "Project") specified in Section 13 (2) (k) of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (hereinafter the "Act"). This MOU is entered into pursuant to, and subject to the terms of the Act, which authorizes an amount not to exceed Four Hundred Thousand (amount, i.e. One Hundred) Dollars and No/100 $ 400,000.00 (amount, i.e., $100), for the Project. **(PLEASE NOTE THAT IT IS YOUR RESPONSIBILITY TO SPEND THE FUNDS RECEIVED FROM THE STATE IN ACCORDANCE WITH THE LEGISLATION.)**

RECITALS

WHEREAS, the Act establishes the 2018 Transportation and Infrastructure Improvements Fund for the purpose of providing funds to the City of Hattiesburg to pay the costs of the Project; and

WHEREAS, pursuant to the Act, funds are being transferred in accordance with House Bill 1, 2018 First Extraordinary Session, Laws of 2018 and Section 12 of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (the "State Funds") to fund the Project; and

WHEREAS, the City of Hattiesburg shall maintain the State Funds in a separate account; and

WHEREAS, the Act authorizes the DFA within its discretion, to disburse monies in the 2018 Transportation and Infrastructure Improvements Fund to pay the costs of the Project; and

WHEREAS, the DFA has requested the City of Hattiesburg to maintain on file the documentation listed in "Exhibit A" attached hereto and incorporated herein by reference, to the extent required by State of Mississippi state bidding laws; and

WHEREAS, the City of Hattiesburg agrees to make every effort to expend the funds within thirty-six (36) months from the date of receipt; and

WHEREAS, for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs shall have been in accordance with the Act; and

WHEREAS, the City of Hattiesburg agrees that if any proceeds from the State funds are remaining at the completion of the Project, said funds shall be expended pursuant to the Act; and

WHEREAS, the City of Hattiesburg agrees to provide quarterly reports to the DFA that summarize the expenditures of the Act proceeds and provides an update on the status of the Project. The quarterly reports must be provided on a form prescribed by the DFA and must include all invoices associated with the reported expenditures. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide to the DFA a final report no more than thirty (30) days after final expenditure of funds, summarizing the expenditures and use of the proceeds upon completion of the Project and include all invoices that have not previously been submitted; and

WHEREAS, the DFA finds, consistent with the Act, that it is in the best interest of the DFA and the City of Hattiesburg that the funds on deposit in the 2018 Transportation and Infrastructure Improvements Fund for the City of Hattiesburg should be disbursed to the City of Hattiesburg and that the City of Hattiesburg shall directly administer the expenditure of such funds for the Project.

NOW THEREFORE, IT IS MUTUALLY AGREED BY THE DEPARTMENT OF FINANCE AND ADMINISTRATION AND THE City of Hattiesburg AS FOLLOWS:

SECTION 1. Each and all of the facts and findings set forth in the preamble clauses of this memorandum are hereby found and determined to be true and accurate and are incorporated herein by this reference thereto as though set forth again in words and figures.

SECTION 2. The DFA, pursuant to the Act, shall disburse the State Funds from the 2018 Transportation and Infrastructure Improvements Fund upon the written request of the City of Hattiesburg to pay the costs associated the Project.

SECTION 3. The City of Hattiesburg certifies and agrees to use all funds received from the 2018 Transportation and Infrastructure Improvements Fund within the recommended thirty-six (36) month time period and **solely** for the costs of the Project as set forth in the Act and upon the terms and provisions of this MOU. Failure on the part of the City of Hattiesburg to adhere to any provision within this MOU may result in immediate action by the State to recover any unexpended funds.

SECTION 4. The City of Hattiesburg agrees to properly and competitively execute such procurements in accordance with state law. Failure to adhere may cause the DFA to withhold all sums for the project or seek recovery of same. Further, the City of Hattiesburg agrees to maintain on file the documentation listed in Exhibit A attached hereto and incorporated herein, in accordance with the law and the recitals of this MOU.

SECTION 5. The City of Hattiesburg agrees to provide the DFA quarterly notarized reports as set forth hereinabove, in a format prescribed by the DFA. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide the DFA with a final report summarizing the expenditures and use of the State

Funds proceeds no more than thirty (30) days after final expenditure of the State Funds.

SECTION 6. The City of Hattiesburg certifies that for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs are in accordance with the Act.

SECTION 7. The City of Hattiesburg agrees to maintain copies of all invoices and similar documentation for each expenditure of all funds received from the 2018 Transportation and Infrastructure Improvements Fund sufficient to satisfy and confirm, to DFA's satisfaction, that such funds have been expended **solely** for the costs of the Project as authorized and provided by the Act.

SECTION 8. The City of Hattiesburg agrees to administer the project with respect to construction to be completed in accordance with the state procurement laws.

SECTION 9. The City of Hattiesburg agrees that if any proceeds from the State Funds are remaining at the completion of the Project, said funds shall be expended in accordance with the Act.

(The remainder of this page left blank intentionally)

SECTION 10. All notices or information pursuant to this MOU shall be provided as follows:

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter the "MOU") is entered into between the Department of Finance and Administration (hereinafter the "DFA") and the City of Hattiesburg for the purpose of establishing the agreed upon conditions under which the DFA may disburse funds to assist the City of Hattiesburg in paying costs associated with the local project (hereinafter the "Project") specified in Section 13 (2) (k) of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (hereinafter the "Act"). This MOU is entered into pursuant to, and subject to the terms of the Act, which authorizes an amount not to exceed Four Hundred Thousand (amount, i.e. One Hundred) Dollars and No/100 $ 400,000.00 (amount, i.e., $100), for the Project. **(PLEASE NOTE THAT IT IS YOUR RESPONSIBILITY TO SPEND THE FUNDS RECEIVED FROM THE STATE IN ACCORDANCE WITH THE LEGISLATION.)**

RECITALS

WHEREAS, the Act establishes the 2018 Transportation and Infrastructure Improvements Fund for the purpose of providing funds to the City of Hattiesburg to pay the costs of the Project; and

WHEREAS, pursuant to the Act, funds are being transferred in accordance with House Bill 1, 2018 First Extraordinary Session, Laws of 2018 and Section 12 of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (the "State Funds") to fund the Project; and

WHEREAS, the City of Hattiesburg shall maintain the State Funds in a separate account; and

WHEREAS, the Act authorizes the DFA within its discretion, to disburse monies in the 2018 Transportation and Infrastructure Improvements Fund to pay the costs of the Project; and

WHEREAS, the DFA has requested the City of Hattiesburg to maintain on file the documentation listed in "Exhibit A" attached hereto and incorporated herein by reference, to the extent required by State of Mississippi state bidding laws; and

WHEREAS, the City of Hattiesburg agrees to make every effort to expend the funds within thirty-six (36) months from the date of receipt; and

WHEREAS, for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs shall have been in accordance with the Act; and

WHEREAS, the City of Hattiesburg agrees that if any proceeds from the State funds are remaining at the completion of the Project, said funds shall be expended pursuant to the Act; and

WHEREAS, the City of Hattiesburg agrees to provide quarterly reports to the DFA that summarize the expenditures of the Act proceeds and provides an update on the status of the Project. The quarterly reports must be provided on a form prescribed by the DFA and must include all invoices associated with the reported expenditures. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide to the DFA a final report no more than thirty (30) days after final expenditure of funds, summarizing the expenditures and use of the proceeds upon completion of the Project and include all invoices that have not previously been submitted; and

WHEREAS, the DFA finds, consistent with the Act, that it is in the best interest of the DFA and the City of Hattiesburg that the funds on deposit in the 2018 Transportation and Infrastructure Improvements Fund for the City of Hattiesburg should be disbursed to the City of Hattiesburg and that the City of Hattiesburg shall directly administer the expenditure of such funds for the Project.

NOW THEREFORE, IT IS MUTUALLY AGREED BY THE DEPARTMENT OF FINANCE AND ADMINISTRATION AND THE City of Hattiesburg AS FOLLOWS:

SECTION 1. Each and all of the facts and findings set forth in the preamble clauses of this memorandum are hereby found and determined to be true and accurate and are incorporated herein by this reference thereto as though set forth again in words and figures.

SECTION 2. The DFA, pursuant to the Act, shall disburse the State Funds from the 2018 Transportation and Infrastructure Improvements Fund upon the written request of the City of Hattiesburg to pay the costs associated the Project.

SECTION 3. The City of Hattiesburg certifies and agrees to use all funds received from the 2018 Transportation and Infrastructure Improvements Fund within the recommended thirty-six (36) month time period and **solely** for the costs of the Project as set forth in the Act and upon the terms and provisions of this MOU. Failure on the part of the City of Hattiesburg to adhere to any provision within this MOU may result in immediate action by the State to recover any unexpended funds.

SECTION 4. The City of Hattiesburg agrees to properly and competitively execute such procurements in accordance with state law. Failure to adhere may cause the DFA to withhold all sums for the project or seek recovery of same. Further, the City of Hattiesburg agrees to maintain on file the documentation listed in Exhibit A attached hereto and incorporated herein, in accordance with the law and the recitals of this MOU.

SECTION 5. The City of Hattiesburg agrees to provide the DFA quarterly notarized reports as set forth hereinabove, in a format prescribed by the DFA. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide the DFA with a final report summarizing the expenditures and use of the State

Funds proceeds no more than thirty (30) days after final expenditure of the State Funds.

SECTION 6. The City of Hattiesburg certifies that for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs are in accordance with the Act.

SECTION 7. The City of Hattiesburg agrees to maintain copies of all invoices and similar documentation for each expenditure of all funds received from the 2018 Transportation and Infrastructure Improvements Fund sufficient to satisfy and confirm, to DFA's satisfaction, that such funds have been expended **solely** for the costs of the Project as authorized and provided by the Act.

SECTION 8. The City of Hattiesburg agrees to administer the project with respect to construction to be completed in accordance with the state procurement laws.

SECTION 9. The City of Hattiesburg agrees that if any proceeds from the State Funds are remaining at the completion of the Project, said funds shall be expended in accordance with the Act.

PO BOX 1898

Requester's name and address (optional)

6 City, state, and ZIP code

HATTIESBURG, MS 39403

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter the "MOU") is entered into between the Department of Finance and Administration (hereinafter the "DFA") and the City of Hattiesburg for the purpose of establishing the agreed upon conditions under which the DFA may disburse funds to assist the City of Hattiesburg in paying costs associated with the local project (hereinafter the "Project") specified in Section 13 (2) (1) of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (hereinafter the "Act"). This MOU is entered into pursuant to, and subject to the terms of the Act, which authorizes an amount not to exceed One Hundred Thousand (amount, i.e. One Hundred) Dollars and No/100 $ 100,000.00 (amount, i.e., $100), for the Project. **(PLEASE NOTE THAT IT IS YOUR RESPONSIBILITY TO SPEND THE FUNDS RECEIVED FROM THE STATE IN ACCORDANCE WITH THE LEGISLATION.)**

RECITALS

WHEREAS, the Act establishes the 2018 Transportation and Infrastructure Improvements Fund for the purpose of providing funds to the City of Hattiesburg to pay the costs of the Project; and

WHEREAS, pursuant to the Act, funds are being transferred in accordance with House Bill 1, 2018 First Extraordinary Session, Laws of 2018 and Section 12 of Senate Bill 2002, 2018 First Extraordinary Session, Laws of 2018 (the "State Funds") to fund the Project; and

WHEREAS, the City of Hattiesburg shall maintain the State Funds in a separate account; and

WHEREAS, the Act authorizes the DFA within its discretion, to disburse monies in the 2018 Transportation and Infrastructure Improvements Fund to pay the costs of the Project; and

WHEREAS, the DFA has requested the City of Hattiesburg to maintain on file the documentation listed in "Exhibit A" attached hereto and incorporated herein by reference, to the extent required by State of Mississippi state bidding laws; and

WHEREAS, the City of Hattiesburg agrees to make every effort to expend the funds within thirty-six (36) months from the date of receipt; and

WHEREAS, for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs shall have been in accordance with the Act; and

WHEREAS, the City of Hattiesburg agrees that if any proceeds from the State funds are remaining at the completion of the Project, said funds shall be expended pursuant to the Act; and

WHEREAS, the City of Hattiesburg agrees to provide quarterly reports to the DFA that summarize the expenditures of the Act proceeds and provides an update on the status of the Project. The quarterly reports must be provided on a form prescribed by the DFA and must include all invoices associated with the reported expenditures. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide to the DFA a final report no more than thirty (30) days after final expenditure of funds, summarizing the expenditures and use of the proceeds upon completion of the Project and include all invoices that have not previously been submitted; and

WHEREAS, the DFA finds, consistent with the Act, that it is in the best interest of the DFA and the City of Hattiesburg that the funds on deposit in the 2018 Transportation and Infrastructure Improvements Fund for the City of Hattiesburg should be disbursed to the City of Hattiesburg and that the City of Hattiesburg shall directly administer the expenditure of such funds for the Project.

NOW THEREFORE, IT IS MUTUALLY AGREED BY THE DEPARTMENT OF FINANCE AND ADMINISTRATION AND THE City of Hattiesburg AS FOLLOWS:

SECTION 1. Each and all of the facts and findings set forth in the preamble clauses of this memorandum are hereby found and determined to be true and accurate and are incorporated herein by this reference thereto as though set forth again in words and figures.

SECTION 2. The DFA, pursuant to the Act, shall disburse the State Funds from the 2018 Transportation and Infrastructure Improvements Fund upon the written request of the City of Hattiesburg to pay the costs associated the Project.

SECTION 3. The City of Hattiesburg certifies and agrees to use all funds received from the 2018 Transportation and Infrastructure Improvements Fund within the recommended thirty-six (36) month time period and **solely** for the costs of the Project as set forth in the Act and upon the terms and provisions of this MOU. Failure on the part of the City of Hattiesburg to adhere to any provision within this MOU may result in immediate action by the State to recover any unexpended funds.

SECTION 4. The City of Hattiesburg agrees to properly and competitively execute such procurements in accordance with state law. Failure to adhere may cause the DFA to withhold all sums for the project or seek recovery of same. Further, the City of Hattiesburg agrees to maintain on file the documentation listed in Exhibit A attached hereto and incorporated herein, in accordance with the law and the recitals of this MOU.

SECTION 5. The City of Hattiesburg agrees to provide the DFA quarterly notarized reports as set forth hereinabove, in a format prescribed by the DFA. The first quarterly report shall be provided within ninety (90) days of the effective date of this MOU, and thereafter within thirty (30) days of each calendar quarter end. The City of Hattiesburg shall also provide the DFA with a final report summarizing the expenditures and use of the State

Funds proceeds no more than thirty (30) days after final expenditure of the State Funds.

SECTION 6. The City of Hattiesburg certifies that for all State Funds used to reimburse the City of Hattiesburg for costs of the Project that occurred prior to the effective date of this MOU, such prior Project costs are in accordance with the Act.

SECTION 7. The City of Hattiesburg agrees to maintain copies of all invoices and similar documentation for each expenditure of all funds received from the 2018 Transportation and Infrastructure Improvements Fund sufficient to satisfy and confirm, to DFA's satisfaction, that such funds have been expended **solely** for the costs of the Project as authorized and provided by the Act.

SECTION 8. The City of Hattiesburg agrees to administer the project with respect to construction to be completed in accordance with the state procurement laws.

SECTION 9. The City of Hattiesburg agrees that if any proceeds from the State Funds are remaining at the completion of the Project, said funds shall be expended in accordance with the Act.

There came on for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the 20th day of November, 2018, the following Resolution:

A RESOLUTION BY THE HATTIESBURG CITY COUNCIL TO APPROVE AND AUTHORIZE EXECUTION OF AN INTERLOCAL AGREEMENT BETWEEN THE CITY OF HATTIESBURG POLICE DEPARTMENT, FORREST COUNTY SHERIFF'S OFFICE AND THE TWELFTH CIRCUIT COURT NARCOTICS ENFORCEMENT TEAM (12NET) REGARDING THE ENFORCEMENT OF CONTROLLED SUBSTANCES, AND FOR RELATED PURPOSES

WHEREAS, the Board of Supervisors of Forrest County, Mississippi, the duly elected governing body of said county with the duty in law of adequately funding the operations of the Office of Sheriff, as required by MISS. CODE ANN. § 19-25-13 (1972), as amended; and

WHEERAS, the Sheriff of Forrest County is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within the said county pursuant to MISS. CODE ANN. § 41-29-109 (1972), as amended; and

WHEREAS, the City Council for the City of Hattiesburg, Mississippi, the duly elected governing body of said municipality with the duty in law of adequately funding the operations if the Hattiesburg Police Department, as required by MISS. CODE ANN. § 21-21-3 (1972), as amended; and

WHEREAS, the Hattiesburg Police Department is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within the boundaries of the City of Hattiesburg pursuant to MISS CODE ANN. §41-29-109 (1972), as amended; and

WHERAS, the District Attorney's Office is charge with the prosecution of felony criminal offenses in the Twelfth Circuit Court District; and

WHERAS, the above-named parties find and declared that a coordinated effort within said county and municipality to enforce the criminal laws of the State of Mississippi regarding controlled substances would provide the maximum effectiveness and efficiency in the enforcement of such laws for the least cost to the taxpayers and do hereby agree to enter into that certain Interlocal Agreement (Exhibit A).

NOW THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COUNCIL OF HATTIESBURG, MISSISSIPPI AS FOLLOWS;

SECTION 1. That the matters, facts, and things recited in the Preamble hereto are hereby adopted as the official findings of the Governing Authority.

SECTION 2. That the proposed Interlocal Agreement be and the same is hereby approved in substantially the form attached hereto and the Mayor be hereby authorized to execute the same on behalf of the City of Hattiesburg and directed for submission to the Attorney General of the State of Mississippi and filed for record with the Chancery Clerk of Forrest County; with a copy of said Agreement to be filed with the Secretary of State Department of Audit within sixty (60) days after approval.

SECTION 3. That this Resolution shall be in effect according to law, and shall be spread upon the minutes of the Hattiesburg City Council;

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member _____ seconded by Council Member _____, and was adopted by the following vote, to wit:

YEAS: **NAYS:** **ABSENT:**

The President thereby declared the motion carried and the Resolution adopted this the **20th** day of **November, 2018**.

The above and foregoing Resolution, having been submitted to and approved by the Mayor, this the **20th** day of **November, 2018**.

ATTEST: **APPROVED:**

_____ _____

CITY CLERK **MAYOR**

TWELFTH CIRCUIT COURT
NARCOTICS ENFORCEMENT TEAM
INTER-LOCAL AGREEMENT

This Agreement made the _____ day of _____, 2018, by the Board of Supervisors of Forrest County, the Sheriff of Forrest County, Council for the City of Hattiesburg, the Hattiesburg Police Department, and the District Attorney's Office for the Twelfth Circuit Court District of Mississippi.

W I T N E S S E T H

Whereas, the Board of Supervisors of Forrest County, Mississippi, the duly elected governing body of said county with the duty in law of adequately funding the operations of the Office of Sheriff, as required by MISS. CODE ANN. § 19-25-13 (1972), as amended; and

Whereas, the Sheriff of Forrest County is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within said county pursuant to MISS. CODE ANN. §41-29-109 (1972), as amended; and

Whereas, the City Council for the City of Hattiesburg, Mississippi, the duly elected governing body of said municipality with the duty in law of adequately funding the operations of the Hattiesburg Police Department, as required by MISS. CODE ANN. § 21-21-3 (1972), as amended; and

Whereas, the Hattiesburg Police Department is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within the boundaries of the City of Hattiesburg pursuant to MISS. CODE ANN. § 41-29-109

(1972), as amended; and

Whereas, the District Attorney's Office is charged with the prosecution of felony criminal offenses in the Twelfth Circuit Court District; and

Whereas, all of the above parties find and declare that violations of the controlled substances laws within the above-named county and municipality constitute a significant portion of all felony violations committed within said county and municipality and that coordinated law enforcement by the parties, as an exercise of their police power and their duty to protect the public from criminal activity, would effectively reduce these violations, particularly those of unlawful sale, manufacture and distribution of controlled substances; and

Whereas, the above-named parties find and declare that a coordinated effort within said county and municipality to enforce the criminal laws of the State of Mississippi regarding controlled substances would provide the maximum effectiveness and efficiency in the enforcement of such laws for the least cost to the taxpayers; and

Whereas, the parties hereto find and declare that the joint effort authorized by this Agreement will make the most efficient use of their powers by enabling them to cooperate on a basis of mutual advantage and hereby provide a vital service that will best serve the geographic, economic, and population factors which influence the needs and development of these communities; and

Whereas, the parties hereby state their benefits that such an efficient, coordinated law enforcement effort may best be accomplished through a formal agreement pursuant to the

authority of the Inter-Local Cooperation Act of 1974, and MISS. CODE ANN. § 17-13-11 (1972), as amended, which requires approval by the Attorney General of an agreement executed pursuant to MISS. CODE ANN. § 17-13-1, et seq. (1972), as amended.

Now, Therefore, for and in consideration of the mutual covenants and agreements contained herein and pursuant to the authority of MISS. CODE ANN. § 17-13-1, et seq. (1972), as amended, the Board of Supervisors of Forrest County, the Sheriff of Forrest County, the Council of the City of Hattiesburg, the Hattiesburg Police Department, and the District Attorney's Office of the Twelfth Circuit Court District (also collectively or individually called Agencies or Agents) hereby agree as follows:

I. This Agreement shall take effect upon the date of approval by Attorney General of Mississippi, and shall continue in force and effect until terminated by all parties hereto. This Agreement may be modified by the parties hereto; however, any modification of this Agreement shall be approved by the Attorney General prior to implementation of the modification.

II. A. There is hereby established a joint, cooperative effort to enforce the criminal laws of the State of Mississippi regarding controlled substances in the aforementioned areas. For the purpose of this Agreement, this joint effort and personnel involved therein shall be referred to as Twelfth Circuit Court Narcotics Enforcement Team (hereinafter "12NET"). The primary objective of 12NET shall be enforcement of the Uniform Controlled Substances Law.

B. A secondary objective shall be the collection, analysis and dissemination

to authorized users of general criminal and drug intelligence. Full coordination and cooperation in the sharing of appropriate intelligence among all state, county and city agencies within the geographical area served by 12NET is encouraged.

C. 12NET shall concentrate the enforcement activities within Forrest County. Individual officers may engage in enforcement activities outside the agency by whom they are employed only if the lawful authority in the jurisdiction in which they are to operate has duly appointed such officers to be law enforcement officers within said jurisdiction, authorizing such officers to enforce the law in that jurisdiction. In addition, individual officers may not conduct law enforcement activities outside their original jurisdictions without the express approval of the Commander. The head of each law enforcement agency shall submit to the Commander a letter appointing such officers/deputies deemed appropriate by them for consideration as 12NET agents to perform duties inside the area covered by this Agreement. Individual officers will not be assigned to participate in non-Twelfth Circuit Court Narcotics Enforcement Team cases outside the jurisdiction of their employing agency.

D. 12NET shall have only the powers and authority granted the counties and cities by statute, particularly those set forth in the preamble to this Agreement, and shall have no powers or authority except that which may be granted the Agencies in the enforcement of the criminal laws regrading controlled substances.

E. The specific statutory authority vested in each party to this Agreement is MISS. CODE ANN. § 41-29-109, et seq. (1972), as amended.

III. A Commander shall be selected by the agreement of the parties hereto. The

Commander shall be responsible for preparation and delivery of all reports, collection and preservation of evidence, evidence chain of custody, documentation relating to informants, and accounting and monetary operations. The Commander shall have operational command of 12NET. The Commander shall operate pursuant to state law, and the regulations and policies of the participating agencies. The Commander shall comply with all accounting requirements imposed by law and by direction of the Auditor of the State of Mississippi.

IV. Each participating agency shall pay its own expenses.

V. A. Each participating agency shall, through its chief law enforcement officer, assign personnel to temporary, part-time or full-time duty with 12NET. Any such person assigned shall work under the immediate supervision and direction of the Commander. However, any disciplinary actions beyond dismissal from 12NET, shall be administrated by the officer's parent agency. The Commander shall have authority to temporarily suspend any agent from 12NET. Final action shall be vested with the District Attorney, respective Sheriff, and respective Chief of Police.

B. All matters concerning employment compensation, wage and hour concerns under the Fair Labor Standards Act (FLSA), Workers Compensation, and any other matters relating to employer-employee relations are the sole responsibility of the employee's primary agency. Legal representation for claims arising from the performance of duties under this Agreement must come from each officer's permanent employer. Each Agency has liability insurance or is otherwise covered by the Mississippi Tort Claims Act.

C. All officers assigned to 12NET will be subject to random urinalysis

and/or polygraph testing at the discretion of the District Attorney, Sheriff, Chief of Police, or the Commander.

D. The fidelity bond of the officers assigned by the Agencies shall be paid by their Agencies. All officers must be individually named on their Agencies' bonds. Blanket bonds are not sufficient.

E. Agencies shall compensate their officers and defray their expenses while such officers operate under this contract. Officers assigned to 12NET shall receive normal compensation and expenses in the manner currently used by participating Agencies.

VI. A. The Commander shall be responsible for establishing procedures for the proper conduct of financial affairs, in accordance with existing State Department of Audit regulations, including procedures which may be necessary to ensure that regulations for use of funds by the participating Agencies are followed.

B. Participating Agencies may supply sums of money to be used in procuring evidence, as defined in MISS. CODE ANN. § 99-27-37 (1972), as amended, which shall be expended and accounted for. It is understood that 12NET does not have the authority to own or hold assets independently of the participating Agencies.

C. The District Attorney's Office of the Twelfth Circuit Court District shall handle all forfeitures arising from seizures made under this Agreement and shall receive 10% of said forfeitures before division plus court and publication costs. Whenever forfeiture money is involved, mailing costs, filing fees, the District Attorney's 10%, and other miscellaneous costs shall be deducted from the forfeiture proceeds. Distribution of forfeited

money shall be made as follows:

12NET INITIATED CASES
10% to the Twelfth Circuit District Attorney's Office
10% to Forrest County for supplemental pay of the Asset Forfeiture Officer
40% to 12NET
20% each to the Forrest County Sheriff's Department and Hattiesburg Police Department

HATTIESBURG INITIATED CASES
10% to the Twelfth Circuit District Attorney's Office
10% to Forrest County for supplemental pay of the Asset Forfeiture Officer
40% to 12NET
40% to Hattiesburg Police Department

FORREST COUNTY INITIATED CASES
10% to the Twelfth Circuit District Attorney's Office
10% to Forrest County for supplemental pay of the Asset Forfeiture Officer
40% to 12NET
40% to Forrest County Sheriff's Department

Distribution of forfeited vehicles, guns or other property shall be made as follows:

All 12NET gun seizures and Hattiesburg Police Department gun seizures shall be turned over to the Forrest County Sheriff's Department to be sold at public auction with all proceeds therefrom going to 12NET to be placed in the 12NET operating fund. All 12NET vehicle seizures shall be turned over to Forrest County, Mississippi, to be utilized by 12NET in its operations, or to be sold at public auction with all proceeds therefrom going to 12NET to be placed in the 12NET operating fund. All other seizures shall go to the seizing agency, which agency shall then be responsible for all maintenance, insurance, and other costs associated with the property.

D. The allocation, distribution and timing of distributions may be amended

or changed by approval of the majority vote of 12NET members. In the event more than one agency participated in the forfeiture and the members cannot agree on the distribution of the assets, the District Attorney for the Twelfth Circuit Court District shall make the ruling on the distribution of the assets.

E. Each agency shall be responsible for maintenance of their vehicles. The use by 12NET of any existing equipment or materials owned by member agencies shall not be construed to transfer title to 12NET.

F. All news releases pertaining to 12NET enforcement activity shall be formulated by the Commander and the heads of the affected law enforcement agencies.

VII. A. Any party to this Agreement may terminate its participation in 12NET by giving notice in writing to the other parties. Such notice shall be forwarded by certified mail, return receipt requested, or by hand delivery. In the event any party hereto terminates participation in 12NET, the remaining parties may continue to operate under this Agreement.

B. No amendment to this Agreement shall be effective unless it is set forth in writing and adopted by all parties hereto in the manner provided by law and under this Agreement. New law enforcement agencies may be admitted to participate in 12NET by unanimous approval of the participating agencies.

C. Any and all personal property acquired for the operation of 12NET shall be acquired in the name of and title shall vest in the party to this Agreement who shall have provided the funds with which the property was acquired. A complete inventory of the property and the owner thereof shall be maintained by the Commander. Upon termination

of this Agreement, all equipment, materials and other tangible items purchased shall be the property of the agency which provided funds for the purchase and shall be delivered to the agency within thirty (30) days after termination of this Agreement. Any property purchased with joint funds or otherwise acquired by 12NET shall, upon agreement and total dissolution of 12NET, be divided among the agencies participating in 12NET at such time according to agreement reached by the agencies. If no agreement is reached by such agencies within thirty (30) days of dissolution, then property purchased with joint funds or otherwise acquired by 12NET shall be sold and, after deducting sale costs, the proceeds shall be equally divided among the agencies participating in the Agreement. Participating Agencies may own assets which, per this Agreement, are made available for use by 12NET. The participating Agencies may jointly own some or all of the assets.

D. This Agreement shall be submitted to the Attorney General of the State of Mississippi for approval and shall thereafter be filed for record with the Chancery Clerk of Forrest County, and a copy of the Agreement shall be filed with the Secretary of State Department of Audit within sixty (60) days after approval. 12NET shall operate under the name Twelfth Circuit Court Narcotics Enforcement Team and shall be filed with the appropriate agencies under this name.

IN WITNESS WHEREOF, the parties hereto have executed this agreement by their duly authorized representatives with full rights, powers and authority and on the date as set out above:

_____

Patricia W. Burchell

There came on for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **20th** day of **November, 2018**, the following Resolution:

RESOLUTION 2018-186

A RESOLUTION BY THE HATTIESBURG CITY COUNCIL TO APPROVE AND AUTHORIZE EXECUTION OF AN INTERLOCAL AGREEMENT BETWEEN THE CITY OF HATTIESBURG POLICE DEPARTMENT, FORREST COUNTY SHERIFF'S OFFICE AND THE TWELFTH CIRCUIT COURT NARCOTICS ENFORCEMENT TEAM (12NET) REGARDING THE ENFORCEMENT OF CONTROLLED SUBSTANCES, AND FOR RELATED PURPOSES

WHEREAS, the Board of Supervisors of Forrest County, Mississippi, the duly elected governing body of said county with the duty in law of adequately funding the operations of the Office of Sheriff, as required by MISS. CODE ANN. § 19-25-13 (1972), as amended; and

WHEERAS, the Sheriff of Forrest County is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within the said county pursuant to MISS. CODE ANN. § 41-29-109 (1972), as amended; and

WHEREAS, the City Council for the City of Hattiesburg, Mississippi, the duly elected governing body of said municipality with the duty in law of adequately funding the operations if the Hattiesburg Police Department, as required by MISS. CODE ANN. § 21-21-3 (1972), as amended; and

WHEREAS, the Hattiesburg Police Department is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within the boundaries of the City of Hattiesburg pursuant to MISS CODE ANN. §41-29-109 (1972), as amended; and

WHERAS, the District Attorney's Office is charge with the prosecution of felony criminal offenses in the Twelfth Circuit Court District; and

WHERAS, the above-named parties find and declared that a coordinated effort within said county and municipality to enforce the criminal laws of the State of Mississippi regarding controlled substances would provide the maximum effectiveness and efficiency in the enforcement of such laws for the least cost to the taxpayers and do hereby agree to enter into that certain Interlocal Agreement (Exhibit A).

NOW THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COUNCIL OF HATTIESBURG, MISSISSIPPI AS FOLLOWS;

SECTION 1. That the matters, facts, and things recited in the Preamble hereto are hereby adopted as the official findings of the Governing Authority.

SECTION 2. That the proposed Interlocal Agreement be and the same is hereby approved in substantially the form attached hereto and the Mayor be hereby authorized to execute the same on behalf of the City of Hattiesburg and directed for submission to the Attorney General of the State of Mississippi and filed for record with the Chancery Clerk of Forrest County; with a copy of said Agreement to be filed with the Secretary of State Department of Audit within sixty (60) days after approval.

SECTION 3. That this Resolution shall be in effect according to law, and shall be spread upon the minutes of the Hattiesburg City Council;

The above and foregoing Resolution, after having been first reduced to writing, was introduced by Council Member George, seconded by Council Member Delgado, and was adopted by the following vote, to wit:

George	**None**	**None**
Delgado		
Carroll		
Dryden (via teleconference)		
Brown		

The President thereby declared the motion carried and the Resolution adopted this the **20th** day of **November, 2018**.

(S E A L)

ATTEST: **ADOPTED:**

Ronda S. Cole

CLERK OF COUNCIL **COUNCIL PRESIDENT**

The above and foregoing Resolution, having been submitted to and approved by the Mayor, this the **20th** day of **November, 2018**.

ATTEST: **APPROVED:**

CITY CLERK **MAYOR**

TWELFTH CIRCUIT COURT
NARCOTICS ENFORCEMENT TEAM
INTER-LOCAL AGREEMENT

This Agreement made the _____ day of _____, 2018, by the Board of Supervisors of Forrest County, the Sheriff of Forrest County, Council for the City of Hattiesburg, the Hattiesburg Police Department, and the District Attorney's Office for the Twelfth Circuit Court District of Mississippi.

W I T N E S S E T H

Whereas, the Board of Supervisors of Forrest County, Mississippi, the duly elected governing body of said county with the duty in law of adequately funding the operations of the Office of Sheriff, as required by MISS. CODE ANN. § 19-25-13 (1972), as amended; and

Whereas, the Sheriff of Forrest County is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within said county pursuant to MISS. CODE ANN. §41-29-109 (1972), as amended; and

Whereas, the City Council for the City of Hattiesburg, Mississippi, the duly elected governing body of said municipality with the duty in law of adequately funding the operations of the Hattiesburg Police Department, as required by MISS. CODE ANN. § 21-21-3 (1972), as amended; and

Whereas, the Hattiesburg Police Department is charged by law with the responsibility of enforcing the criminal laws of the State of Mississippi regarding controlled substances within the boundaries of the City of Hattiesburg pursuant to MISS. CODE ANN. § 41-29-109

(1972), as amended; and

Whereas, the District Attorney's Office is charged with the prosecution of felony criminal offenses in the Twelfth Circuit Court District; and

Whereas, all of the above parties find and declare that violations of the controlled substances laws within the above-named county and municipality constitute a significant portion of all felony violations committed within said county and municipality and that coordinated law enforcement by the parties, as an exercise of their police power and their duty to protect the public from criminal activity, would effectively reduce these violations, particularly those of unlawful sale, manufacture and distribution of controlled substances; and

Whereas, the above-named parties find and declare that a coordinated effort within said county and municipality to enforce the criminal laws of the State of Mississippi regarding controlled substances would provide the maximum effectiveness and efficiency in the enforcement of such laws for the least cost to the taxpayers; and

Whereas, the parties hereto find and declare that the joint effort authorized by this Agreement will make the most efficient use of their powers by enabling them to cooperate on a basis of mutual advantage and hereby provide a vital service that will best serve the geographic, economic, and population factors which influence the needs and development of these communities; and

Whereas, the parties hereby state their benefits that such an efficient, coordinated law enforcement effort may best be accomplished through a formal agreement pursuant to the

authority of the Inter-Local Cooperation Act of 1974, and MISS. CODE ANN. § 17-13-11 (1972), as amended, which requires approval by the Attorney General of an agreement executed pursuant to MISS. CODE ANN. § 17-13-1, et seq. (1972), as amended.

Now, Therefore, for and in consideration of the mutual covenants and agreements contained herein and pursuant to the authority of MISS. CODE ANN. § 17-13-1, et seq. (1972), as amended, the Board of Supervisors of Forrest County, the Sheriff of Forrest County, the Council of the City of Hattiesburg, the Hattiesburg Police Department, and the District Attorney's Office of the Twelfth Circuit Court District (also collectively or individually called Agencies or Agents) hereby agree as follows:

I. This Agreement shall take effect upon the date of approval by Attorney General of Mississippi, and shall continue in force and effect until terminated by all parties hereto. This Agreement may be modified by the parties hereto; however, any modification of this Agreement shall be approved by the Attorney General prior to implementation of the modification.

II. A. There is hereby established a joint, cooperative effort to enforce the criminal laws of the State of Mississippi regarding controlled substances in the aforementioned areas. For the purpose of this Agreement, this joint effort and personnel involved therein shall be referred to as Twelfth Circuit Court Narcotics Enforcement Team (hereinafter "12NET"). The primary objective of 12NET shall be enforcement of the Uniform Controlled Substances Law.

B. A secondary objective shall be the collection, analysis and dissemination

to authorized users of general criminal and drug intelligence. Full coordination and cooperation in the sharing of appropriate intelligence among all state, county and city agencies within the geographical area served by 12NET is encouraged.

C. 12NET shall concentrate the enforcement activities within Forrest County. Individual officers may engage in enforcement activities outside the agency by whom they are employed only if the lawful authority in the jurisdiction in which they are to operate has duly appointed such officers to be law enforcement officers within said jurisdiction, authorizing such officers to enforce the law in that jurisdiction. In addition, individual officers may not conduct law enforcement activities outside their original jurisdictions without the express approval of the Commander. The head of each law enforcement agency shall submit to the Commander a letter appointing such officers/deputies deemed appropriate by them for consideration as 12NET agents to perform duties inside the area covered by this Agreement. Individual officers will not be assigned to participate in non-Twelfth Circuit Court Narcotics Enforcement Team cases outside the jurisdiction of their employing agency.

D. 12NET shall have only the powers and authority granted the counties and cities by statute, particularly those set forth in the preamble to this Agreement, and shall have no powers or authority except that which may be granted the Agencies in the enforcement of the criminal laws regrading controlled substances.

E. The specific statutory authority vested in each party to this Agreement is MISS. CODE ANN. § 41-29-109, et seq. (1972), as amended.

III. A Commander shall be selected by the agreement of the parties hereto. The

Commander shall be responsible for preparation and delivery of all reports, collection and preservation of evidence, evidence chain of custody, documentation relating to informants, and accounting and monetary operations. The Commander shall have operational command of 12NET. The Commander shall operate pursuant to state law, and the regulations and policies of the participating agencies. The Commander shall comply with all accounting requirements imposed by law and by direction of the Auditor of the State of Mississippi.

IV. Each participating agency shall pay its own expenses.

V. A. Each participating agency shall, through its chief law enforcement officer, assign personnel to temporary, part-time or full-time duty with 12NET. Any such person assigned shall work under the immediate supervision and direction of the Commander. However, any disciplinary actions beyond dismissal from 12NET, shall be administrated by the officer's parent agency. The Commander shall have authority to temporarily suspend any agent from 12NET. Final action shall be vested with the District Attorney, respective Sheriff, and respective Chief of Police.

B. All matters concerning employment compensation, wage and hour concerns under the Fair Labor Standards Act (FLSA), Workers Compensation, and any other matters relating to employer-employee relations are the sole responsibility of the employee's primary agency. Legal representation for claims arising from the performance of duties under this Agreement must come from each officer's permanent employer. Each Agency has liability insurance or is otherwise covered by the Mississippi Tort Claims Act.

C. All officers assigned to 12NET will be subject to random urinalysis

and/or polygraph testing at the discretion of the District Attorney, Sheriff, Chief of Police, or the Commander.

D. The fidelity bond of the officers assigned by the Agencies shall be paid by their Agencies. All officers must be individually named on their Agencies' bonds. Blanket bonds are not sufficient.

E. Agencies shall compensate their officers and defray their expenses while such officers operate under this contract. Officers assigned to 12NET shall receive normal compensation and expenses in the manner currently used by participating Agencies.

VI. A. The Commander shall be responsible for establishing procedures for the proper conduct of financial affairs, in accordance with existing State Department of Audit regulations, including procedures which may be necessary to ensure that regulations for use of funds by the participating Agencies are followed.

B. Participating Agencies may supply sums of money to be used in procuring evidence, as defined in MISS. CODE ANN. § 99-27-37 (1972), as amended, which shall be expended and accounted for. It is understood that 12NET does not have the authority to own or hold assets independently of the participating Agencies.

C. The District Attorney's Office of the Twelfth Circuit Court District shall handle all forfeitures arising from seizures made under this Agreement and shall receive 10% of said forfeitures before division plus court and publication costs. Whenever forfeiture money is involved, mailing costs, filing fees, the District Attorney's 10%, and other miscellaneous costs shall be deducted from the forfeiture proceeds. Distribution of forfeited

money shall be made as follows:

12NET INITIATED CASES
10% to the Twelfth Circuit District Attorney's Office
10% to Forrest County for supplemental pay of the Asset Forfeiture Officer
40% to 12NET
20% each to the Forrest County Sheriff"s Department and Hattiesburg Police Department

HATTIESBURG INITIATED CASES
10% to the Twelfth Circuit District Attorney's Office
10% to Forrest County for supplemental pay of the Asset Forfeiture Officer
40% to 12NET
40% to Hattiesburg Police Department

FORREST COUNTY INITIATED CASES
10% to the Twelfth Circuit District Attorney's Office
10% to Forrest County for supplemental pay of the Asset Forfeiture Officer
40% to 12NET
40% to Forrest County Sheriff's Department

Distribution of forfeited vehicles, guns or other property shall be made as follows:

All 12NET gun seizures and Hattiesburg Police Department gun seizures shall be turned over to the Forrest County Sheriff's Department to be sold at public auction with all proceeds therefrom going to 12NET to be placed in the 12NET operating fund. All 12NET vehicle seizures shall be turned over to Forrest County, Mississippi, to be utilized by 12NET in its operations, or to be sold at public auction with all proceeds therefrom going to 12NET to be placed in the 12NET operating fund. All other seizures shall go to the seizing agency, which agency shall then be responsible for all maintenance, insurance, and other costs associated with the property.

D. The allocation, distribution and timing of distributions may be amended

or changed by approval of the majority vote of 12NET members. In the event more than one agency participated in the forfeiture and the members cannot agree on the distribution of the assets, the District Attorney for the Twelfth Circuit Court District shall make the ruling on the distribution of the assets.

E. Each agency shall be responsible for maintenance of their vehicles. The use by 12NET of any existing equipment or materials owned by member agencies shall not be construed to transfer title to 12NET.

F. All news releases pertaining to 12NET enforcement activity shall be formulated by the Commander and the heads of the affected law enforcement agencies.

VII. A. Any party to this Agreement may terminate its participation in 12NET by giving notice in writing to the other parties. Such notice shall be forwarded by certified mail, return receipt requested, or by hand delivery. In the event any party hereto terminates participation in 12NET, the remaining parties may continue to operate under this Agreement.

B. No amendment to this Agreement shall be effective unless it is set forth in writing and adopted by all parties hereto in the manner provided by law and under this Agreement. New law enforcement agencies may be admitted to participate in 12NET by unanimous approval of the participating agencies.

C. Any and all personal property acquired for the operation of 12NET shall be acquired in the name of and title shall vest in the party to this Agreement who shall have provided the funds with which the property was acquired. A complete inventory of the property and the owner thereof shall be maintained by the Commander. Upon termination

of this Agreement, all equipment, materials and other tangible items purchased shall be the property of the agency which provided funds for the purchase and shall be delivered to the agency within thirty (30) days after termination of this Agreement. Any property purchased with joint funds or otherwise acquired by 12NET shall, upon agreement and total dissolution of 12NET, be divided among the agencies participating in 12NET at such time according to agreement reached by the agencies. If no agreement is reached by such agencies within thirty (30) days of dissolution, then property purchased with joint funds or otherwise acquired by 12NET shall be sold and, after deducting sale costs, the proceeds shall be equally divided among the agencies participating in the Agreement. Participating Agencies may own assets which, per this Agreement, are made available for use by 12NET. The participating Agencies may jointly own some or all of the assets.

D. This Agreement shall be submitted to the Attorney General of the State of Mississippi for approval and shall thereafter be filed for record with the Chancery Clerk of Forrest County, and a copy of the Agreement shall be filed with the Secretary of State Department of Audit within sixty (60) days after approval. 12NET shall operate under the name Twelfth Circuit Court Narcotics Enforcement Team and shall be filed with the appropriate agencies under this name.

SUBRECIPIENT GRANT AWARD

Subrecipient: **CITY OF HATTIESBURG FIRE DEPARTMENT**
(Task Force III Equipment)

Project Title(s): Homeland Security Grant Program

Grant Period: 11-01-18 – 10-31-19 Date of Award: 09-19-18

Total Amount of Award: **$10,000.00** Grant No.: **18HS205T**

In accordance with the provisions of Federal Fiscal Year 2018 Homeland Security Grant Program, the Mississippi Office of Homeland Security (MOHS), State Administrative Agency (SAA), hereby awards to the foregoing Subrecipient a grant in the federal amount shown above. The CFDA number is 97.067 and MOHS federal grant number is **EMW-2018-SS-00009**. Authorizing Authority for Program: Section 2002 of the *Homeland Security Act of 2002*, as amended (Pub. L. No. 107-296), (6 U.S.C. 603).

Payment of Funds: The original signed copy of this Award must be signed by the Official Authorized to Sign in the space below and returned to the MOHS **no later than December 17, 2018**. **The grant shall be effective upon return of this form and final approval the MOHS of the grant budget and program narrative.** Grant funds will be disbursed to subgrantees (according to the approved project budget) upon receipt of evidence that funds have been invoiced and products received and/or that funds have been expended (i.e., invoices, contracts, itemized expenses, etc.).

I certify that I understand and agree that funds will only be expended for those projects outlined in the funding amounts as individually listed above. I also certify that I understand and agree to comply with the general and fiscal terms and conditions of the grant including special conditions and the Mississippi Department of Public Safety, Office of Homeland Security, Homeland Security Grant Program, Policies and Procedures Manual; to comply with provisions of the Act governing these funds and all other federal laws and regulations; that all information is correct; that there has been appropriate coordination with affected agencies; that I am duly authorized to commit the applicant to these requirements; that costs incurred prior to grant application approval will result in the expenses being absorbed by the subrecipient; and that all agencies involved with this project understand that all federal funds are limited to a twelve-month period.

Supplantation: The Act requires that subrecipients provide assurance that subrecipient funds will not be used to supplant or replace local or state funds or other resources that would otherwise have been available for homeland security activities. In compliance with that mandate, I certify that the receipt of federal funds through the MOHS shall in no way supplant or replace state or local funds or other resources that would have been made available for homeland security activities.

ACCEPTANCE FOR THE SUBRECIPIENT

Signature of Official Authorized to Sign

Signature of MOHS Director

SUBRECIPIENT AWARD NOTICE: THIS AWARD IS SUBJECT TO THE GRANT SPECIAL CONDITIONS AND FINAL APPROVAL BY THE MOHS OF THE SUBRECIPIENT'S GRANT PROGRAM BUDGET AND NARRATIVE.

GRANT RECIPIENT AGREEMENT

1. The designated representative certifies that he/she has legal authority to receive assistance.

2. The Applicant shall provide all necessary financial and managerial resources to meet the terms and conditions of receiving Federal and State assistance.

3. The Applicant shall use awarded funds solely for the purpose for which these funds are provided and as approved by the DPS Authorized Representative.

4. The Applicant is aware of and shall comply with cost-sharing requirements, if applicable.

5. The Applicant shall establish and maintain a proper accounting system to record expenditures of awarded funds in accordance with generally accepted accounting standards and OMB Circulars 2 CFR 200 as applicable and/or as directed by the DPS Authorized Representative.

6. The Applicant shall comply with the Single Audit Act of 1984 and will provide copies of audit reports when issued, 44CFR Part 14.

7. The Applicant shall give State and Federal agencies designated by the DPS Authorized Representative access to and the right to examine all records and documents related to use of award funds.

8. The Applicant shall return to the State, within thirty (30) days of such request by the DPS Authorized Representative, any advance funds which are not supported by audit or other Federal or State review of documentation by the Applicant.

9. The Applicant shall comply with all applicable provisions of Federal and State laws and regulations in regard to procurement of goods and services.

10. The Applicant shall comply with regulations implementing the Drug-Free Workplace Act of 1988, 44CFR Part 17, Subpart F.

11. The Applicant shall comply with all Federal and State statutes and regulations relating to non-discrimination.

12. The Applicant shall comply with provisions of the Hatch Act limiting political activities of public employees and 44CFR Part 18, New Restrictions on Lobbying.

13. The Applicant shall comply, as applicable, with provisions of the Davis-Bacon Act relating to labor standards.

14. The Applicant shall not enter into any contracts or purchase merchandise from any party or vendor which is disbarred or suspended from participating in Federal assistance programs.

Grant Recipient Representative Date

MISSISSIPPI OFFICE OF HOMELAND SECURITY

STATE HOMELAND SECURITY GRANT PROGRAM SPECIAL CONDITIONS

* *

1. All sub-grantees must comply with the National Incident Management System (NIMS) minimum requirements as specified in the Fiscal Year 2006 Homeland Security Grant Program Guidelines and Application Kit, page 47-48. By September 30, 2006, all jurisdictions must be fully NIMS compliant. FY06 and FY07 Homeland Security grant funds are contingent on NIMS compliance.

2. All sub-grantees must comply and be familiar with Homeland Security Presidential Directive-8, with regards to the IED Scenario, as mandated by the Office of Domestic Preparedness.

3. All sub-grantees are required to modify their existing incident management and emergency operations plans in accordance with the National Response Plan's coordinating structures, processes, and protocols.

4. All sub-grantees are required by the Office of Domestic Preparedness to use the Global Justice Data Model specifications and guidelines regarding the use of XML for all HSGP awards.

5. Prior to the obligation or expenditure of any funds awarded through this grant, the Sub-recipient must become a legal signatory of the Statewide Mutual Agreement, maintained by the STATE EMERGENCY MANAGEMENT AGENCY. Furthermore, the Sub-grantee agree and understand that by allowing any agency to receive direct or indirect support from these grant funds without becoming a legal signatory to the said agreement is a direct violation of the terms and conditions of this grant award.

6. All SHSP sub-grantees must fully engage citizens by expanding plans and task force memberships to address citizen participation; awareness and outreach to inform and engage the public; include citizens in training and exercise; and develop or expand programs that integrate citizen/volunteer support for the emergency responder disciplines.

7. Recurring costs/fees are not allowable for funding under the 2006 HSGP. Internet service fees, radio service fees, cellular phone fees, satellite phone fees, etc. paid for with grant funds are for 12 months during the year of equipment purchase only.

8. Position descriptions for each person to be paid with grant funds and organizational chart identifying grant funded position(s).

9. A physical inventory of property and equipment (as defined in Section IV, D.) must be taken and the results reconciled with the property control form at least once every two years. This report must be prepared and submitted by the sub-recipient to the SAA by January 31 of each year beginning in calendar year 2016.

10. The MOHS requires that property acquired with grant funds be tagged and tracked using a computer-based inventory system.

11. The FCC has chosen the Project 25 suite of standards for voice and low-moderate speed data interoperability. In an effort to realize improved interoperability, all radios purchased under this grant should be APCO 25 compliant.

12. The Budget Worksheet and/or Budget Narrative pages for this grant need to be revised before obligation of any grant funds.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above conditions.

STATE OF MISSISSIPPI
AND
GOVERNOR PHIL BRYANT

HOMELAND SECURITY COOPERATIVE AGREEMENT

Between

CITY OF HATTIESBURG FIRE DEPARTMENT

AND

MISSISSIPPI DEPARTMENT OF PUBLIC SAFETY

HOMELAND SECURITY
COOPERATIVE AGREEMENT (CA)

On behalf of Governor Phil Bryant, this Cooperative Agreement is entered into between the Department of Public Safety, Office of Homeland Security, hereto referred to as *Recipient*, and the City of Hattiesburg Fire Department hereto referred to as Sub-recipient.

Article I. Purpose

The purpose of this Cooperative Agreement (CA) is to utilize 100% federal funding (no match required) provided through FEMA, U.S. Department of Homeland Security to enhance capabilities within the State of Mississippi to respond to acts of domestic and international terrorism including the use of weapons of mass destruction. The Department of Public Safety, Office of Homeland Security will accomplish this by prioritizing and facilitating the delivery and use of federal financial assistance as identified in the published Office for Domestic Preparedness Homeland Security Grant Program Guidance (attached). This enables the Sub-recipient to exercise management discretion and control in achieving the specified objectives of this Cooperative Agreement within the State of Mississippi. It is intended that this partnership will result in the development of a competent and sustainable system designed to provide prevention/deterrence and emergency response to a potential terrorism event within the State.

Article II. Budget Narrative

The objectives outlined within the performance period of this Cooperative Agreement will be supportive of the priorities defined in the State Homeland Security Three-Year Strategic Plan in the form of equipment, planning, training, exercise, management and administration funding and shall be in compliance with FEMA Homeland Security Grant Program Guidance.

Article III. Period of Performance

The period of performance for this Cooperative Agreement shall begin on the date of acceptance of the **SUBRECIPIENT AWARD** execution and shall continue through the period of SUBRECIPIENT AWARD unless terminated by the Department of Public Safety. Future SUBRECIPIENT AWARDS for supporting the requirements of the jurisdiction may be awarded under the terms of this agreement through additional sub grants so long as all signatory officials remain unchanged.

Article IV. Reports

The Quarterly Report and financial reports: Request for reimbursement is due within 30 days after each reporting quarter: 1st Quarter, October-December, 2nd Quarter,

January-March; 3rd Quarter, April-June; 4th Quarter, July-September.

The Quarterly and Progress reports must be submitted so that progress can be tracked and outcomes evaluated.

Article V. Roles and Responsibilities

A. Local *Sub recipient General Guidance*

1. The local *Sub-recipient* shall develop and improve their capability to combat the affects of a terrorism event. This is accomplished through the purchase of specialized equipment as identified in the published OJP selected equipment list or support of planning, exercises or training activities associated with the prevention, response or recovery from terrorism incidents.

2. The chief elected official is responsible for committing to the terms of this CA, budgeting local funds to purchase equipment or support jurisdictional exercise, training and planning efforts for executing this CA on behalf of the Sub-recipient *'s* jurisdiction.

3. The Sub-Recipient shall designate a *Sub-recipient* public official as the Sub-recipient Grant Administrator (SGA) for developing and attaching the CA scope of work to Appendices A & B, obtaining project approval from respective officials, reporting, submitting applications to Recipient, equipment distribution, training, and obtaining and submitting supporting documentation and requests for reimbursement on behalf of the Sub-recipient to *Recipient* for repayment. **The SGA shall be responsible for reporting to the Mississippi Office of Homeland Security (MSOHS) via the Biannual Strategy Implementation Report (BSIR)**

B. Local Homeland Security Program Guidance

The Homeland Security Grant Program (HSGP) through the State Homeland Security Program (SHSP) provides funds for homeland security and emergency operations planning; the purchase of specialized equipment to enhance the capability of State and local agencies to prevent, respond to, and mitigate incidents of terrorism involving the use of chemical, biological, radiological, nuclear, and explosive (CBRNE) weapons and cyber attacks; for costs related to the design, development, and conduct of a State CBRNE and cyber security training programs and attendance at ODP-sponsored CBRNE training courses; for costs related to the design, development, conduct, and evaluation of CBRNE and cyber security exercises; and for costs associated with implementing State Homeland Security Assessments and Strategies (SHSAS). See

Annex A (Local Homeland Security Program) for specific guidance, policies, and reporting requirements.

C. State *Recipient*

1. The *Recipient* shall be the Department of Public Safety, Office of Homeland Security, acting on behalf of the State of Mississippi.

2. The Commissioner of the Department of Public Safety (DPS) or the Commissioner's Designee is the state signatory official and shall be the principal state official responsible for committing the state to the terms of this agreement. The DPS Commissioner, or his designee acting in the absence of the Commissioner, will exercise final approval authority of all *Sub-recipient* applications, grant awards, allocations, and requests for reimbursements and for ensuring overall *Recipient* administration.

3. The DPS, Office of Homeland Security, is designated the Recipient Point-of- Contact (POC) for assisting the *Sub-recipient* in developing the authorized equipment purchase list, specialized training requirements, and for providing overall day-to-day program management.

D. Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms

The SAA will take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps will include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration, the Minority Business Development Agency of the Department of Commerce and MS Development Authority Office of Minority Business.
6. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.

Article VI. Funding Consideration

The *Recipient* POC will receive and review *Sub-recipient's* application and forward to the SAA Director for approval. After approval the *Recipient* will issue a sub-recipient award letter, which authorizes the *Sub-recipient* to expend local funds and be reimbursed pursuant to the terms of this CA. **Local funds expended prior to the date of the award letter are not authorized to be reimbursed.**

When the *Sub-recipient* has expended funds awarded, the SGA will prepare and submit a Request for Reimbursement to the *Recipient POC.* This request shall contain all appropriate supporting documentation to substantiate expenses made in accordance with all applicable requirements. The *Recipient POC* will review the reimbursement package for completeness and forward to the *Recipient* Office of the Comptroller for payment.

A. The *Recipient* will not be liable under this Agreement for any amount greater than the award allocated by the Office for Domestic Preparedness to the State for the grant performance period.

B. No cost or obligation shall be incurred by the *Recipient* under this Agreement unless and until the *Recipient* advises the *Sub-recipient* in writing that the application has been approved and funds are available.

C. Reimbursement will be made by the *Recipient* to the *Sub-recipient* based on the **Mississippi Sub-recipient Reporting Worksheet.** Required documentation must accompany the worksheet.

D. Reimbursement is contingent upon the funds being expended in accordance with all applicable local and state regulations, as well as Federal regulations, policies, guidelines, and submission for reimbursement made in accordance with the SAA's grant policies and procedures manual.

E. *Sub-recipient's* requests for advance of funds to support purchases of equipment or other expenditures must be requested in writing to the recipient POC explaining the justification for the request. Reasons, i.e., shortage of local funds or items not contained in current annual jurisdictional budget must be accompanied by purchase orders.

F. *Sub-recipient's* Request for Reimbursement and other required financial reports will be submitted to the *Recipient* with a copy of all receipt(s) or invoices showing that authorized equipment or other expenditures such as personnel, supplies, etc. has been paid for in-full by *Sub-recipient* and attached to an approved grant application.

Article VII. Maintenance, Replacement costs and Use of Equipment, Sell & Disposal

A. Equipment purchased under the terms of this CA will be stored, maintained and used in accordance with the purpose and objectives of this Cooperative Agreement. The equipment may be used for terrorism training and exercise purposes and in response to an actual terrorism event. If the equipment is used in response to a non-terrorist related event, then any maintenance or replacement costs will be the sole responsibility of the *Sub-recipients*.

B. The sub-recipient is required to maintain an equipment inventory list that contains the following information: equipment description, identification/serial number, title holder, acquisition date, cost, percentage of federal funds used in the cost, location, use and condition, and disposition date.

C. Instructions on how to sell and/or dispose of equipment, please visit our website at www.homelandsecurity.ms.gov. (Click on the tab Grants / Grant Forms)

Article VIII. Nonperformance

Failure by the *Sub-recipient* to comply with the terms of this Cooperative Agreement may result in suspension from the program and loss of any outstanding grant fund allocation balance, as determined by the *Recipient*. Failure to expend all grant funds awarded (by date stated on Awards Letter) and to comply with Recipient request and guidelines will result in the reallocation of unspent grant funds and the immediate redistribution of all equipment purchased with grant funds. In addition, the failure to maintain adequate response capability (as determined by the MOHS) will also result in the reallocation of grant funds and the immediate redistribution of all equipment purchased with grant funds.

Article IX. Administrative Provisions

The *Recipient* and *Sub-recipient* agree to carry out the administrative and financial requirements of this Agreement in accordance with the policies and procedures established by FEMA and set forth in other applicable state and federal guides. The Biannual Strategy Implementation Report (BSIR) will update information on obligations, expenditures, and progress made on activities and will include an update of all information submitted in that report.

C. Other Provisions

1. Nothing in this agreement is intended to conflict with current laws or regulations of Mississippi or your jurisdiction. If a term of this agreement is inconsistent with such authority, then that term shall be invalid, but the remaining terms and conditions of this agreement shall remain in full force and effect.

2. Sub-recipient is required to ensure that grant monies are used to support all Emergency Service related agencies and departments, specifically law enforcement, fire and rescue. Senior officials of these agencies must sign this agreement and familiarize themselves with the rules and regulations governing each grant program. They are encouraged to work together in determining and prioritizing their needs and requirements prior to submitting their plan.

3. If the sub-recipient (organization/jurisdiction) expends $750,000 or more in federal funds (from all sources including pass-through sub awards) in the sub-recipient's (organization/jurisdiction) fiscal year (12-month turnaround reporting period) is required to have a single organization/jurisdiction wide audit conducted in accordance with 2 CFR 200.

4. All final requests for reimbursement must be received in the Mississippi Office of Homeland Security no later than 45 days after the period of performance.

5. Sub-recipient is required to complete EHP Review as required for Equipment Purchases and any type of Construction.

6. All sub-recipients (and or jurisdictions) must also maintain membership in the Emergency Management Assistance Compact (EMAC) to facilitate the mutual aid of capabilities in order to be eligible for Department of Homeland Security (DHS) grant funding and reimbursement of DHS grant funds.

7. **Effective October 1, 2010 ALL sub-recipients are required to have and furnish a Dun and Bradstreet Data Universal Numbering System (DUNS) number to the Mississippi Office of Homeland Security as a component of the Article IX. A DUNS number is the nine digit number established and assigned by Dun and Bradstreet, Inc (D&B) to uniquely identify business entities. If your jurisdiction does not have a DUNS number, one may be obtained from D&B by**

telephone (currently 866-705-5711) or the Internet (currently at http://fedgov.dnb.com/webform).
NO GRANT AWARD LETTER WILL BE ISSUED WITHOUT THE SUB RECIPIENT HAVING A DUNS NUMBER.

Article X. Monitoring

A. Management Decision

Management will evaluate audit findings, questioned costs and corrective action plans. The issuance of a written decision will be issued to the sub-recipient, which will entail whether or not the audit finding is sustained; the reasons for the decision; the expected action of the sub-recipient to repay any disallowed costs, make financial adjustments or take other actions; the reference number(s) the auditor assigned to each audit finding; and a description of any appeal process available to the sub-recipient regarding the management decision, as required by 2 CFR 200.521. If the sub-recipient has not completed corrective action, a timetable follow-up will be given.

B. Audit Review Follow-Up

- Contacts sub-recipient(s) for additional information as needed.

- Determines course of action for federal program audit findings, financial statement audit findings, negative disclosures (such as financial capacity concerns) and schedule of expenditures of federal awards deficiencies. Depending on the issue or combination of issues, procedures may be modified to ensure efficient and effective resolution.

- Updates the status of each audit review until all follow-up actions are completed and the file is closed.

Article XI. Execution

IN WITNESS WHEREOF, the parties names herein have duly executed this Cooperative Agreement on the date set forth below:

SUBRECIPIENT: CITY OF HATTIESBURG FIRE DEPARTMENT ATTEST:

By: _____ Date: _____
Authorized Official

DUNS Number: _____

APPROVED: **State of Mississippi**

By: _____ Date: 10-17-18
Executive Director
Mississippi Office of Homeland Security

STATE HOMELAND SECURITY

GRANT PROGRAM

LOCAL HOMELAND SECURITY PROGRAM FISCAL

YEAR 2018

TOTAL AWARD: **$10,000.00**

Allowable Equipment Costs

Allowable equipment categories for FY18 HSGP are listed on the web-based Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by ODP and the Oklahoma City National Memorial Institute for the Prevention of Terrorism (MIPT) at http://www.rkb.us. The website is designed to provide emergency responders, purchasers, and planners with a trusted, integrated, online source of information on products, standards, certifications, grants, and other equipment related information. By integrating this information, which includes the Inter-Agency Board's (IAB) Standardized Equipment List (SEL) and the AEL from ODP, into one location, responders, vendors, standards organizations, training facilities, and grant making organizations have a trusted first source to answering questions such as:

- What equipment is on the market?
- Has it been certified?
- If so, to what standard?
- What training is needed to use it effectively?
- Are there experts available for consultation and questions?

The FY18 HSGP, AEL is housed on the RKB and relies heavily on the SEL developed by the IAB for Equipment Standardization and Interoperability. The 2018 AEL has been modified to facilitate cross-referencing of the SEL in an effort to eliminate redundancy. Both the AEL and SEL are available on the RKB, which also offers an interactive version that provides links to corresponding SEL items and commercial products. In some cases, items on the SEL are not allowable under FY18 HSGP or will not be eligible for purchase unless specific conditions are met. In addition, some items eligible under this grant program are beyond the scope of the SEL and thus will only appear in the AEL.

Planning Costs Allowable

SHSP funds may be used for a range of homeland security planning activities, including the following:

Developing and implementing homeland security support programs and adopting DHS national initiatives including but not limited to the following:

- Costs associated with the implementation and adoption HSPD-8 initiatives
- Costs associated with the implementation and adoption of NIMS
- Costs associated with the modifying existing incident management and emergency operations plans to ensure proper alignment with the NRP coordinating structures, processes, and protocols
- Establishment or enhancement of mutual aid agreements
- Development of communications and interoperability protocols and solutions
- Conducting local, regional, and tribal program implementation meetings
- Developing or updating resource inventory assets in accordance to typed resource definitions issued by the NIC
- Design state and local geospatial data systems
- Development of related critical infrastructure terrorism prevention activities including:
    - o Planning for enhancing security during heightened alerts, during terrorist incidents and/or during mitigation and recovery
    - o Public information/education: printed and electronic materials, public service announcements, seminars/town hall meetings, web postings coordinated through local Citizen Corps Councils
    - o Citizen Corps activities in communities surrounding critical infrastructure sites, including Neighborhood Watch, VIPS, and other opportunities for citizen participation
    - o Evaluating CIP security equipment and/or personnel requirements to protect and secure sites
    - o CIP cost assessments, including resources (financial, personnel, etc.) required for security enhancements/deployments.

Develop and enhance plans and protocols, including but not limited to:

- Develop or enhance emergency operations plans and operating procedures
- Develop terrorism prevention/deterrence plans
- Develop plans, procedures, and requirements for the management of infrastructure and resources related to HSGP and implementation of State or Urban Area Homeland Security Strategies
- Develop or enhance border security plans
- Develop or enhance cyber security plans
- Develop or enhance cyber risk mitigation plans
- Develop or enhance agriculture/food security risk mitigation, response, and recovery plans
- Develop public/private sector partnership emergency response, assessment, and resource sharing plans
- Develop or update local or regional communications plans
- Development of plans to support and assist special needs jurisdictions, such as port authorities and rail and mass transit agencies
- Development or enhancement of continuity of operations and continuity of government plans
- Development or enhancement of existing catastrophic incident response and recovery plans to include and integrate federal assets provided under the NRP.

Develop or conduct assessments, including but not limited to:

- Conduct point vulnerability assessments at critical infrastructure sites/key assets and develop remediation/security plans
- Conduct cyber risk and vulnerability assessments
- Conducting assessments and exercises of existing catastrophic incident response and recovery plans and capabilities to identify critical gaps that cannot be met by existing local and state resources
- Activities which directly support the identification of specific catastrophic incident priority response and recovery projected needs
- Activities which directly support the identification and advance preparation of predesignated temporary housing sites; for example:
    - o Conducting assessments and studies to identify qualified candidate sites
    - o Obtaining accurate site surveys and existing utility information
    - o Coordinating zoning requirements and necessary permits and/or waivers
    - o Coordinating environmental impact requirements related to a selected site
    - o Coordinating historic preservation requirements related to a selected site.

Allowable Training Costs

Local jurisdictions may use HSGP funds to enhance the capabilities of state and local emergency preparedness and response personnel through development of a state homeland security training program. Allowable training-related costs under ODP grant programs include: 1) establishment of CBRNE terrorism and cyber security training programs within existing training academies, universities or junior colleges; and 2) overtime and backfill costs associated with attendance at ODP-sponsored and ODP approved CBRNE and cyber security training courses.

The target audience for training courses include emergency preparedness, prevention and response personnel, emergency managers and public/elected officials within the following disciplines: firefighters, law enforcement, emergency management, emergency medical services, hazardous materials, public works, public health, health care, public safety communications, governmental administrative, cyber security and private security providers. The homeland security training program should also include training for citizens in awareness, preparedness, prevention, response skills, and volunteer activities and be coordinated through state and local Citizen Corps Councils.
Local jurisdictions are encouraged to adopt current ODP awareness and performance level courses. In order to deliver these courses, state and local instructors must have been certified to deliver the course by successfully completing ODP train-the-trainer courses. Detailed descriptions of ODP courses are included in the *ODP CBRNE Training Course Catalog* at http://www.ojp.usdoj.gov/odp/docs/coursecatalog.pdf. Programs of instruction for these courses will be made available upon request to assist efforts to institutionalize these training programs at the state and local levels.

ODP will conduct periodic reviews of all state and urban area training funded by ODP. These reviews may include requests for all course materials and physical observation of participation in the funded training. If these reviews determine that courses are outside the scope of this guidance, recipients will be asked to reimburse grant fund expended in support of those efforts.

ODP provides the following definitions of key training terms to facilitate a common understanding of the FY18 HSGP guidance:

- **ODP Courses:** Those courses developed for and/or delivered by institutions and organizations funded by ODP.
- **Federal Courses Related to CBRNE Terrorism:** Those courses developed for and or delivered by institutions funded by federal entities other than ODP which fall within the ODP mission scope: of which is to prepare state and local personnel to prevent, respond to, and recover from acts of terrorism involving CBRNE weapons.
- **Non-Federal Courses:** Those courses developed for and or delivered by institutions or organizations other than federal entities or ODP.

In addition, local jurisdictions shall follow accepted principles of instructional systems design, employing the Analysis, Design, Development, Implementation, and Evaluation (ADDIE) model or equivalent methodologies. (The ADDIE process is explained in greater depth in the *ODP Blended Learning Strategy* available on the ODP website at: http://www.ojp.usdoj.gov/odp/blendedlearning.) Local jurisdictions shall apply these methodologies to ensure that complete curriculum exists for training funded by ODP grant. Complete curriculum consists of:

• **Level of Training.** The state or urban area will identify the level(s) of training of the course(s) and materials submitted. Each submission must be identified as Awareness, Performance–Defense (Occupational Safety and Health Administration (OSHA) Operations), Performance–Offensive (OSHA Technician), or Planning/Management (OSHA Incident Command) levels. More detailed descriptions of the levels can be found at http://www.ojp.usdoj.gov/odp/training.htm or http://www.osha.gov.

• **Program of Instruction/Syllabus.** The program of instruction or syllabus is an outline or matrix of the course content. It addresses the scope of the training, course learning objectives, duration of the training (broken-down by module, session, or lesson), resource requirements, instructor to student ratio and an evaluation strategy. These items are not all-inclusive, but are the minimum categories that should be addressed.

• **Training Support Package.** The training support package includes all of the materials associated with the delivery of a training course. The following items should be included:

  o **Instructor Guide/Instructor Outline/Instructor Lesson Plans:** The published instructor material that contains course text and special instructor notes that provides the information to deliver the material

- **Participant Manual/Guide/Workbook**: The published student material that contains the supporting information in booklet or handout form that the participant has available for reference
- **Audio/Visual Support Materials:** Any audio/visual components that are part of any learning module, session, lesson, or that supports the overall training being delivered
- **Special Support Materials:** Any descriptions of practical exercises, tabletop exercises, hands-on exercises, or other material that supports learning objectives

• **Module/Session/Lesson Content.** Training courses should be designed based on a building block approach. Each sub-component in the course should be titled as a module, session, or lesson. Regardless of the title, each module, session, or lesson, should have a Lesson Administration Page that outlines the following:

- **Scope Statement:** A brief description of the content of the module, session or lesson
- **Terminal Learning Objectives:** An action verb statement that outlines what the participant is expected to learn or be capable of performing at the conclusion of the module, session, or lesson. There should be only one terminal learning objective per module, session, or lesson
- **Enabling Learning Objectives:** Enabling learning objectives are the incremental learning objectives that support the terminal learning objective. There should be at least one enabling learning objective per module, session or lesson. Each enabling learning objective must be a measurable performance statement that enables the participant to demonstrate achievement of the terminal learning objective
- **Resource List:** A listing of the resources needed to successfully accomplish the module, session, or lesson
- **Instructor to Participant Ratio:** The instructor to participant requirement for successful presentation of the material (e.g., 1:25)
- **Reference List**: A listing of all reference materials used to develop the module, session, or lesson (This information may also be included as a bibliography).
- **Practical Exercise Statement:** This describes any exercises associated with the module, session, or lesson
- **Evaluation Strategy:** This defines the strategy used to evaluate the module, session, or lesson (e.g., written and/or performance test).

Conditional Approvals of Non-ODP Courses. In contrast to FY04, no conditional approvals, in advance of an independent third-party subject matter expert (SME) review, will be granted in FY18 for use of ODP funds to develop or institutionalize non-ODP courses. ODP will require local jurisdictions to adhere to a streamlined course approval process. Please see *Appendix E: Overview of Approval Process for Non-ODP Developed Courses* for more information. Courses will either be approved or disapproved following this review process.

Attending Other Federal Courses Related to CBRNE Terrorism. Local jurisdictions are no longer required to submit requests for personnel to attend certain Federal courses that fall within the ODP mission scope of preparing state and local personnel to prevent,

respond to, and recover from acts of terrorism involving CBRNE weapons. In lieu of requesting approval, local jurisdictions will be required to submit information on all federal training they are supporting with ODP funds via the Training section of the ODP website (http://www.ojp.usdoj.gov/odp/training.htm). This information will consist of course title, level of the training, the training provider, the date of the course, the number of individuals to be trained, and the sponsoring jurisdiction.

Several broad categories of courses will automatically be included in the list of eligible federal courses:

- All NIMS training approved by the NIMS Integration Center (NIC) is eligible for use of ODP funds.
- All Incident Command System (ICS) training offered through the National Fire Academy and the Emergency Management Institute is eligible for use of ODP funds. This guidance applies to resident training, train-the-trainer, and field delivery of courses.

A list of federal courses that fall within the ODP mission scope is included in *Appendix F: Federal Training Course List.*

These courses must build additional capabilities that 1) meet a specific need identified through the homeland security assessment process, and 2) comport with the State or Urban Area Homeland Security Strategy.

Federal funds must be used to supplement—not supplant—existing funds that have been appropriated for the same purpose. Thus, if the state or urban area has already budgeted for personnel to attend courses, ODP funds may only be used to send additional individuals above and beyond those previously budgeted.

Eligibility of Hazardous Materials Courses. Hazardous materials courses, including basic, operations, and technician level courses, are eligible for support through ODP funds **only if the course *fully* addresses the hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*.** If the hazardous materials course does ***not fully*** address the hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, then the course is not considered an allowable use of ODP funds.

The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.

Eligibility of Search and Rescue, Special Weapons and Tactics (SWAT), and Medical Trauma Courses. On September 1, 2004, ODP issued Information Bulletin #132 on the

Interagency Security Plan, available at http://www.ojp.usdoj.gov/odp/docs/bulletins.htm. In this bulletin, ODP expanded the allowable use of grant funds to support additional training in the areas of search and rescue, SWAT, and medical trauma provided certain requirements were met. The following sections provide further detail on these initiatives.

• *Eligibility of Search and Rescue Courses:* Local jurisdictions shall conduct search and rescue training in compliance with:

- o NFPA 1670, *Standard on Operations and Training for Technical Rescue and Search Incidents*
- o NFPA 1006, *Standard for Rescue Technician Professional Qualifications* Only Urban Search and Rescue (USAR) courses approved by FEMA and delivered by FEMA-certified providers are eligible for use of ODP funds. A list of these courses and providers will be maintained by ODP in coordination with FEMA.

The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.

If the basic, foundational USAR course fully addresses the fire service and or hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational USAR course does **not** fully address these sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, then the student must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the USAR course to be considered an allowable use of ODP funds.

These USAR courses are intended to build a critical capacity at the state and local levels. **The execution of this training in the stated capacity-building context is unrelated to designation of national USAR teams. Therefore, local jurisdictions and UASI jurisdictions may not request such designation based on training.**

• *Eligibility of SWAT Courses:* SWAT courses, including basic, foundational courses, are eligible for support through ODP funds, provided that the training meets the following requirements:

- o The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.
- o Local jurisdictions shall conduct training in compliance with state and local regulations and policies governing the certification of SWAT personnel.

- Trainees shall be sworn officers and shall have completed a Basic SWAT school accredited by the appropriate state-level criminal justice organization.
- Training shall be conducted by instructors certified by a state or national level criminal justice organization
- The State or Urban Area shall develop and implement a safety plan excluding service ammunition and weapons from the training site and shall not employ live chemical agents (to include OC) or impact weapons during the training
- If a foundational SWAT course fully addresses the law enforcement sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational SWAT course does **not** fully address the law enforcement sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* then the student must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the foundational SWAT course to be considered an allowable use of ODP funds.

• *Eligibility of Medical Trauma Courses:* Medical trauma courses—including basic, foundational courses—are eligible for support through ODP funds, provided that the training meets the following requirements:

- The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.
- Local jurisdictions shall conduct training in compliance with NFPA 473, *Standard Competencies for EMS Personnel Responding to Hazardous Materials Incidents.*
- Local jurisdictions shall conduct training in compliance with state and local regulations and policies governing the certification of EMS providers.
- Local jurisdictions shall coordinate their efforts with the closest MMRS jurisdiction.
- Trainees shall have completed a basic Emergency Medical Technician (EMT) certification per the state or local accreditation requirements. This type of training may not be funded with ODP monies.
- If a foundational medical trauma course fully addresses the emergency medical services sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational medical trauma course does **not** fully address the emergency medical services sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* then the student Must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the foundational medical trauma course to be considered an allowable use of ODP funds.

Evaluation of ODP Training Courses. The goal of evaluating ODP training courses is to determine how much a participant's knowledge, skills, and abilities change after completion of a course relative to knowledge, skills, and abilities prior to the class. ODP utilizes a self-assessment methodology and collects information via a standardized evaluation form. The form is designed to gather data about the course and participant, including data such as the participant's professional discipline and years of service. Additionally, the evaluation measures the participant's knowledge relative to a set of standardized learning objectives both before and after taking the course.

If a state or local jurisdiction uses ODP funds to provide ODP-approved courses, the state or local jurisdiction must use the standard evaluation form to collect data about the course and its participants. An ODP-approved course is defined as one developed by the state or local jurisdiction and approved by ODP for delivery. If the state or local jurisdiction receives training through its ODP course allocation, the training partner delivering the course is responsible for data collection and entry. Similarly, if the state or local jurisdiction enters into a direct contract with one of the ODP training partners, training partner is still responsible for the data collection and entry function.

However, if the ODP-sponsored course is delivered by a state or local organization, the course provider is responsible for collecting data on the course and its participants. As part of the course approval process, the course developer establishes a set of course objectives directly tied to the course content. The objectives are incorporated into the standardized course evaluation form. Course participants are required to complete all fields and the course instructor is responsible for ensuring that all forms are complete. Course providers are granted access to and enter data into the ODP Secure Portal. Costs related to developing and administering the self-assessment and collecting information via a standardized evaluation form is allowable.

Allowable Exercise Costs

Exercises conducted with ODP support (grant funds or direct support) must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Volumes I-III contain guidance and recommendations for designing, developing, conducting, and evaluating exercises. HSEEP Volumes I-III can be found at ODP's website at http://www.ojp.usdoj.gov/odp/exercises.htm. Volume IV, which contains sample exercise materials and documents, can be found on ODP's Secure Portal at https://odp.esportals.com or http://www.llis.gov.

Exercise Planning Workshop. Local jurisdictions must conduct an annual Exercise Planning Workshop (EPW) to examine the progress and effectiveness of their current exercise strategy and program. A Multiyear Exercise Plan and schedule must be produced from the EPW and submitted through ODP's Secure Portal Exercise Scheduler located at https://odp.esportals.com. Refer to HSEEP Volume III, Chapter 2 for further guidance on EPWs and the Multiyear Exercise Plan and schedule.

Exercise Scenarios. The scenarios used in SHSP, UASI, and LETPP-funded exercises must be terrorism-related and based on the state's/urban area's homeland security strategy and plans. Acceptable scenarios for exercises include: chemical, biological, radiological, nuclear, explosive, cyber and agricultural. Recipients that need further clarification on scenarios should consult with their ODP Exercise Manager for assistance and/or approval. Fifteen all-hazards National Planning Scenarios, including twelve terrorism scenarios, have been developed, and will be made available for use in national, federal, state, and local homeland security preparedness activities. Citizen participation in exercises is encouraged to include back filling non-professional tasks for first responders deployed on exercise, administrative and logistical assistance with exercise implementation, and providing simulated victims, press, and members of the public. Citizen participation in exercises should be coordinated with local Citizen Corps Council(s).

Recipients that wish to expend funds on models, simulations, or games (MS&G) must consult with "Review of Models, Simulations, and Games for Domestic Preparedness Training and Exercising, Volume III," which provides an overview and analysis of existing models, simulations and games. This report is available at http://www.ojp.usdoj.gov/odp/exercies.htm

Recipients must justify the purchase and use of a given MS&G product/service, by a) documenting the training and/or exercise objective(s), b) documenting how the selected product/service will support those objectives, and c) justification for the chosen product category (potentially referring to Volume III benefits/limitations). The form for this justification can be found at http://www.ojp.usdoj.gov/odp/exercises.htm.

If a state or urban area will be hosting an upcoming special event (e.g., Superbowl, G-8 Summit, etc.), or they anticipate that they will apply to be a venue for a future Top Officials (TOPOFF) exercise, they should plan to use SHSP or UASI funding to fund training and exercise activities in preparation for that event.

All tabletop exercises (TTXs), drills, functional exercises (FEs), and full-scale exercises (FSEs) will be evaluated and performance based. An After Action Report (AAR) and Improvement Plan will be prepared and submitted to DHS/ODP following every TTX, drill, FE, and FSE. AAR/IPs must be provided to ODP within 60 days following completion of each exercise (see HSEEP Volume II, Appendix A). Currently, these AAR/IPs can be submitted through the ODP Secure Portal. However ODP is working with other agencies to develop a national reporting system. ***A state or local jurisdiction that conducts an exercise using SHSP, UASI, and LETPP funds must follow the HSEEP doctrine and protocol contained in Volume II.***

Local jurisdictions are encouraged to develop a self-sustaining State Homeland Security Exercise and Evaluation Program which is modeled after the national HSEEP. This may include, for example: hiring dedicated exercise program staff, awareness seminars on HSEEP, attending exercise training courses, and maintaining a system to track the completion and submission of AARs and Improvement Plans from exercises (including costs associated with meeting with local units of government to define procedures).

Allowable Management and Administrative Costs

All programs within HSGP have allowable M&A costs for both the state-level as well as the local unit of government, urban area, or designated sub-recipient.

- **SHSP, UASI, LETPP, CCP, MMRS:** No more than ***5% of the total amount*** allocated to the state for each program within HSGP may be retained at the state level and used for M&A purposes. These state M&A funds must be included in the total funds retained by the state. In addition, local jurisdiction sub-recipients may retain and use up to ***5% of their sub-award*** for local M&A purposes.

Unauthorized Program Expenditures

Unauthorized program expenditures include: 1) expenditures for items such as general use software (word processing, spreadsheet, graphics, etc), general-use computers (other than for allowable M&A activities, or otherwise associated preparedness or response functions) and related equipment, general-use vehicles, licensing fees, weapons systems and ammunition; 2) activities unrelated to the completion and implementation of the SHSP; 3) other items not in accordance with the Authorized Equipment List or previously listed as allowable costs; and, 4) construction or renovation of facilities.

SUBRECIPIENT GRANT AWARD

Subrecipient: **CITY OF HATTIESBURG FIRE DEPARTMENT**
(Task Force III Equipment)

Project Title(s): Homeland Security Grant Program

Grant Period: 11-01-18 – 10-31-19 Date of Award: 09-19-18

Total Amount of Award: **$10,000.00** Grant No.: **18HS205T**

In accordance with the provisions of Federal Fiscal Year 2018 Homeland Security Grant Program, the Mississippi Office of Homeland Security (MOHS), State Administrative Agency (SAA), hereby awards to the foregoing Subrecipient a grant in the federal amount shown above. The CFDA number is 97.067 and MOHS federal grant number is **EMW-2018-SS-00009**. Authorizing Authority for Program: Section 2002 of the *Homeland Security Act of 2002*, as amended (Pub. L. No. 107-296), (6 U.S.C. 603).

Payment of Funds: The original signed copy of this Award must be signed by the Official Authorized to Sign in the space below and returned to the MOHS **no later than December 17, 2018**. **The grant shall be effective upon return of this form and final approval the MOHS of the grant budget and program narrative.** Grant funds will be disbursed to subgrantees (according to the approved project budget) upon receipt of evidence that funds have been invoiced and products received and/or that funds have been expended (i.e., invoices, contracts, itemized expenses, etc.).

I certify that I understand and agree that funds will only be expended for those projects outlined in the funding amounts as individually listed above. I also certify that I understand and agree to comply with the general and fiscal terms and conditions of the grant including special conditions and the Mississippi Department of Public Safety, Office of Homeland Security, Homeland Security Grant Program, Policies and Procedures Manual; to comply with provisions of the Act governing these funds and all other federal laws and regulations; that all information is correct; that there has been appropriate coordination with affected agencies; that I am duly authorized to commit the applicant to these requirements; that costs incurred prior to grant application approval will result in the expenses being absorbed by the subrecipient; and that all agencies involved with this project understand that all federal funds are limited to a twelve-month period.

Supplantation: The Act requires that subrecipients provide assurance that subrecipient funds will not be used to supplant or replace local or state funds or other resources that would otherwise have been available for homeland security activities. In compliance with that mandate, I certify that the receipt of federal funds through the MOHS shall in no way supplant or replace state or local funds or other resources that would have been made available for homeland security activities.

ACCEPTANCE FOR THE SUBRECIPIENT

Signature of Official Authorized to Sign

Signature of MOHS Director

SUBRECIPIENT AWARD NOTICE: THIS AWARD IS SUBJECT TO THE GRANT SPECIAL CONDITIONS AND FINAL APPROVAL BY THE MOHS OF THE SUBRECIPIENT'S GRANT PROGRAM BUDGET AND NARRATIVE.

GRANT RECIPIENT AGREEMENT

1. The designated representative certifies that he/she has legal authority to receive assistance.

2. The Applicant shall provide all necessary financial and managerial resources to meet the terms and conditions of receiving Federal and State assistance.

3. The Applicant shall use awarded funds solely for the purpose for which these funds are provided and as approved by the DPS Authorized Representative.

4. The Applicant is aware of and shall comply with cost-sharing requirements, if applicable.

5. The Applicant shall establish and maintain a proper accounting system to record expenditures of awarded funds in accordance with generally accepted accounting standards and OMB Circulars 2 CFR 200 as applicable and/or as directed by the DPS Authorized Representative.

6. The Applicant shall comply with the Single Audit Act of 1984 and will provide copies of audit reports when issued, 44CFR Part 14.

7. The Applicant shall give State and Federal agencies designated by the DPS Authorized Representative access to and the right to examine all records and documents related to use of award funds.

8. The Applicant shall return to the State, within thirty (30) days of such request by the DPS Authorized Representative, any advance funds which are not supported by audit or other Federal or State review of documentation by the Applicant.

9. The Applicant shall comply with all applicable provisions of Federal and State laws and regulations in regard to procurement of goods and services.

10. The Applicant shall comply with regulations implementing the Drug-Free Workplace Act of 1988, 44CFR Part 17, Subpart F.

11. The Applicant shall comply with all Federal and State statutes and regulations relating to non-discrimination.

12. The Applicant shall comply with provisions of the Hatch Act limiting political activities of public employees and 44CFR Part 18, New Restrictions on Lobbying.

13. The Applicant shall comply, as applicable, with provisions of the Davis-Bacon Act relating to labor standards.

14. The Applicant shall not enter into any contracts or purchase merchandise from any party or vendor which is disbarred or suspended from participating in Federal assistance programs.

MISSISSIPPI OFFICE OF HOMELAND SECURITY

STATE HOMELAND SECURITY GRANT PROGRAM SPECIAL CONDITIONS

* *

1. All sub-grantees must comply with the National Incident Management System (NIMS) minimum requirements as specified in the Fiscal Year 2006 Homeland Security Grant Program Guidelines and Application Kit, page 47-48. By September 30, 2006, all jurisdictions must be fully NIMS compliant. FY06 and FY07 Homeland Security grant funds are contingent on NIMS compliance.

2. All sub-grantees must comply and be familiar with Homeland Security Presidential Directive-8, with regards to the IED Scenario, as mandated by the Office of Domestic Preparedness.

3. All sub-grantees are required to modify their existing incident management and emergency operations plans in accordance with the National Response Plan's coordinating structures, processes, and protocols.

4. All sub-grantees are required by the Office of Domestic Preparedness to use the Global Justice Data Model specifications and guidelines regarding the use of XML for all HSGP awards.

5. Prior to the obligation or expenditure of any funds awarded through this grant, the Sub-recipient must become a legal signatory of the Statewide Mutual Agreement, maintained by the STATE EMERGENCY MANAGEMENT AGENCY. Furthermore, the Sub-grantee agree and understand that by allowing any agency to receive direct or indirect support from these grant funds without becoming a legal signatory to the said agreement is a direct violation of the terms and conditions of this grant award.

6. All SHSP sub-grantees must fully engage citizens by expanding plans and task force memberships to address citizen participation; awareness and outreach to inform and engage the public; include citizens in training and exercise; and develop or expand programs that integrate citizen/volunteer support for the emergency responder disciplines.

7. Recurring costs/fees are not allowable for funding under the 2006 HSGP. Internet service fees, radio service fees, cellular phone fees, satellite phone fees, etc. paid for with grant funds are for 12 months during the year of equipment purchase only.

8. Position descriptions for each person to be paid with grant funds and organizational chart identifying grant funded position(s).

9. A physical inventory of property and equipment (as defined in Section IV, D.) must be taken and the results reconciled with the property control form at least once every two years. This report must be prepared and submitted by the sub-recipient to the SAA by January 31 of each year beginning in calendar year 2016.

10. The MOHS requires that property acquired with grant funds be tagged and tracked using a computer-based inventory system.

11. The FCC has chosen the Project 25 suite of standards for voice and low-moderate speed data interoperability. In an effort to realize improved interoperability, all radios purchased under this grant should be APCO 25 compliant.

12. The Budget Worksheet and/or Budget Narrative pages for this grant need to be revised before obligation of any grant funds.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above conditions.

STATE OF MISSISSIPPI
AND
GOVERNOR PHIL BRYANT

HOMELAND SECURITY COOPERATIVE AGREEMENT

Between

CITY OF HATTIESBURG FIRE DEPARTMENT

AND

MISSISSIPPI DEPARTMENT OF PUBLIC SAFETY

HOMELAND SECURITY
COOPERATIVE AGREEMENT (CA)

On behalf of Governor Phil Bryant, this Cooperative Agreement is entered into between the Department of Public Safety, Office of Homeland Security, hereto referred to as *Recipient*, and the City of Hattiesburg Fire Department hereto referred to as Sub-recipient.

Article I. Purpose

The purpose of this Cooperative Agreement (CA) is to utilize 100% federal funding (no match required) provided through FEMA, U.S. Department of Homeland Security to enhance capabilities within the State of Mississippi to respond to acts of domestic and international terrorism including the use of weapons of mass destruction. The Department of Public Safety, Office of Homeland Security will accomplish this by prioritizing and facilitating the delivery and use of federal financial assistance as identified in the published Office for Domestic Preparedness Homeland Security Grant Program Guidance (attached). This enables the Sub-recipient to exercise management discretion and control in achieving the specified objectives of this Cooperative Agreement within the State of Mississippi. It is intended that this partnership will result in the development of a competent and sustainable system designed to provide prevention/deterrence and emergency response to a potential terrorism event within the State.

Article II. Budget Narrative

The objectives outlined within the performance period of this Cooperative Agreement will be supportive of the priorities defined in the State Homeland Security Three-Year Strategic Plan in the form of equipment, planning, training, exercise, management and administration funding and shall be in compliance with FEMA Homeland Security Grant Program Guidance.

Article III. Period of Performance

The period of performance for this Cooperative Agreement shall begin on the date of acceptance of the **SUBRECIPIENT AWARD** execution and shall continue through the period of SUBRECIPIENT AWARD unless terminated by the Department of Public Safety. Future SUBRECIPIENT AWARDS for supporting the requirements of the jurisdiction may be awarded under the terms of this agreement through additional sub grants so long as all signatory officials remain unchanged.

Article IV. Reports

The Quarterly Report and financial reports: Request for reimbursement is due within 30 days after each reporting quarter: 1st Quarter, October-December, 2nd Quarter,

January-March; 3rd Quarter, April-June; 4th Quarter, July-September.

The Quarterly and Progress reports must be submitted so that progress can be tracked and outcomes evaluated.

Article V. Roles and Responsibilities

A. Local *Sub recipient General Guidance*

1. The local *Sub-recipient* shall develop and improve their capability to combat the affects of a terrorism event. This is accomplished through the purchase of specialized equipment as identified in the published OJP selected equipment list or support of planning, exercises or training activities associated with the prevention, response or recovery from terrorism incidents.

2. The chief elected official is responsible for committing to the terms of this CA, budgeting local funds to purchase equipment or support jurisdictional exercise, training and planning efforts for executing this CA on behalf of the Sub-recipient*'s* jurisdiction.

3. The Sub-Recipient shall designate a *Sub-recipient* public official as the Sub-recipient Grant Administrator (SGA) for developing and attaching the CA scope of work to Appendices A & B, obtaining project approval from respective officials, reporting, submitting applications to Recipient, equipment distribution, training, and obtaining and submitting supporting documentation and requests for reimbursement on behalf of the Sub-recipient to *Recipient* for repayment. **The SGA shall be responsible for reporting to the Mississippi Office of Homeland Security (MSOHS) via the Biannual Strategy Implementation Report (BSIR)**

B. Local Homeland Security Program Guidance

The Homeland Security Grant Program (HSGP) through the State Homeland Security Program (SHSP) provides funds for homeland security and emergency operations planning; the purchase of specialized equipment to enhance the capability of State and local agencies to prevent, respond to, and mitigate incidents of terrorism involving the use of chemical, biological, radiological, nuclear, and explosive (CBRNE) weapons and cyber attacks; for costs related to the design, development, and conduct of a State CBRNE and cyber security training programs and attendance at ODP-sponsored CBRNE training courses; for costs related to the design, development, conduct, and evaluation of CBRNE and cyber security exercises; and for costs associated with implementing State Homeland Security Assessments and Strategies (SHSAS). See

Annex A (Local Homeland Security Program) for specific guidance, policies, and reporting requirements.

C. State *Recipient*

1. The *Recipient* shall be the Department of Public Safety, Office of Homeland Security, acting on behalf of the State of Mississippi.

2. The Commissioner of the Department of Public Safety (DPS) or the Commissioner's Designee is the state signatory official and shall be the principal state official responsible for committing the state to the terms of this agreement. The DPS Commissioner, or his designee acting in the absence of the Commissioner, will exercise final approval authority of all *Sub-recipient* applications, grant awards, allocations, and requests for reimbursements and for ensuring overall *Recipient* administration.

3. The DPS, Office of Homeland Security, is designated the Recipient Point-of- Contact (POC) for assisting the *Sub-recipient* in developing the authorized equipment purchase list, specialized training requirements, and for providing overall day-to-day program management.

D. Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms

The SAA will take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps will include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration, the Minority Business Development Agency of the Department of Commerce and MS Development Authority Office of Minority Business.
6. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.

Article VI. Funding Consideration

The *Recipient* POC will receive and review *Sub-recipient's* application and forward to the SAA Director for approval. After approval the *Recipient* will issue a sub-recipient award letter, which authorizes the *Sub-recipient* to expend local funds and be reimbursed pursuant to the terms of this CA. **Local funds expended prior to the date of the award letter are not authorized to be reimbursed.**

When the *Sub-recipient* has expended funds awarded, the SGA will prepare and submit a Request for Reimbursement to the *Recipient POC.* This request shall contain all appropriate supporting documentation to substantiate expenses made in accordance with all applicable requirements. The *Recipient POC* will review the reimbursement package for completeness and forward to the *Recipient* Office of the Comptroller for payment.

A. The *Recipient* will not be liable under this Agreement for any amount greater than the award allocated by the Office for Domestic Preparedness to the State for the grant performance period.

B. No cost or obligation shall be incurred by the *Recipient* under this Agreement unless and until the *Recipient* advises the *Sub-recipient* in writing that the application has been approved and funds are available.

C. Reimbursement will be made by the *Recipient* to the *Sub-recipient* based on the **Mississippi Sub-recipient Reporting Worksheet.** Required documentation must accompany the worksheet.

D. Reimbursement is contingent upon the funds being expended in accordance with all applicable local and state regulations, as well as Federal regulations, policies, guidelines, and submission for reimbursement made in accordance with the SAA's grant policies and procedures manual.

E. *Sub-recipient's* requests for advance of funds to support purchases of equipment or other expenditures must be requested in writing to the recipient POC explaining the justification for the request. Reasons, i.e., shortage of local funds or items not contained in current annual jurisdictional budget must be accompanied by purchase orders.

F. *Sub-recipient's* Request for Reimbursement and other required financial reports will be submitted to the *Recipient* with a copy of all receipt(s) or invoices showing that authorized equipment or other expenditures such as personnel, supplies, etc. has been paid for in-full by *Sub-recipient* and attached to an approved grant application.

Article VII. Maintenance, Replacement costs and Use of Equipment, Sell & Disposal

A. Equipment purchased under the terms of this CA will be stored, maintained and used in accordance with the purpose and objectives of this Cooperative Agreement. The equipment may be used for terrorism training and exercise purposes and in response to an actual terrorism event. If the equipment is used in response to a non-terrorist related event, then any maintenance or replacement costs will be the sole responsibility of the *Sub-recipients*.

B. The sub-recipient is required to maintain an equipment inventory list that contains the following information: equipment description, identification/serial number, title holder, acquisition date, cost, percentage of federal funds used in the cost, location, use and condition, and disposition date.

C. Instructions on how to sell and/or dispose of equipment, please visit our website at www.homelandsecurity.ms.gov. (Click on the tab Grants / Grant Forms)

Article VIII. Nonperformance

Failure by the *Sub-recipient* to comply with the terms of this Cooperative Agreement may result in suspension from the program and loss of any outstanding grant fund allocation balance, as determined by the *Recipient*. Failure to expend all grant funds awarded (by date stated on Awards Letter) and to comply with Recipient request and guidelines will result in the reallocation of unspent grant funds and the immediate redistribution of all equipment purchased with grant funds. In addition, the failure to maintain adequate response capability (as determined by the MOHS) will also result in the reallocation of grant funds and the immediate redistribution of all equipment purchased with grant funds.

Article IX. Administrative Provisions

The *Recipient* and *Sub-recipient* agree to carry out the administrative and financial requirements of this Agreement in accordance with the policies and procedures established by FEMA and set forth in other applicable state and federal guides. The Biannual Strategy Implementation Report (BSIR) will update information on obligations, expenditures, and progress made on activities and will include an update of all information submitted in that report.

C. Other Provisions

1. Nothing in this agreement is intended to conflict with current laws or regulations of Mississippi or your jurisdiction. If a term of this agreement is inconsistent with such authority, then that term shall be invalid, but the remaining terms and conditions of this agreement shall remain in full force and effect.

2. Sub-recipient is required to ensure that grant monies are used to support all Emergency Service related agencies and departments, specifically law enforcement, fire and rescue. Senior officials of these agencies must sign this agreement and familiarize themselves with the rules and regulations governing each grant program. They are encouraged to work together in determining and prioritizing their needs and requirements prior to submitting their plan.

3. If the sub-recipient (organization/jurisdiction) expends $750,000 or more in federal funds (from all sources including pass-through sub awards) in the sub-recipient's (organization/jurisdiction) fiscal year (12-month turnaround reporting period) is required to have a single organization/jurisdiction wide audit conducted in accordance with 2 CFR 200.

4. All final requests for reimbursement must be received in the Mississippi Office of Homeland Security no later than 45 days after the period of performance.

5. Sub-recipient is required to complete EHP Review as required for Equipment Purchases and any type of Construction.

6. All sub-recipients (and or jurisdictions) must also maintain membership in the Emergency Management Assistance Compact (EMAC) to facilitate the mutual aid of capabilities in order to be eligible for Department of Homeland Security (DHS) grant funding and reimbursement of DHS grant funds.

7. **Effective October 1, 2010 ALL sub-recipients are required to have and furnish a Dun and Bradstreet Data Universal Numbering System (DUNS) number to the Mississippi Office of Homeland Security as a component of the Article IX. A DUNS number is the nine digit number established and assigned by Dun and Bradstreet, Inc (D&B) to uniquely identify business entities. If your jurisdiction does not have a DUNS number, one may be obtained from D&B by**

telephone (currently 866-705-5711) or the Internet (currently at http://fedgov.dnb.com/webform).
NO GRANT AWARD LETTER WILL BE ISSUED WITHOUT THE SUB RECIPIENT HAVING A DUNS NUMBER.

Article X. Monitoring

A. Management Decision

Management will evaluate audit findings, questioned costs and corrective action plans. The issuance of a written decision will be issued to the sub-recipient, which will entail whether or not the audit finding is sustained; the reasons for the decision; the expected action of the sub-recipient to repay any disallowed costs, make financial adjustments or take other actions; the reference number(s) the auditor assigned to each audit finding; and a description of any appeal process available to the sub-recipient regarding the management decision, as required by 2 CFR 200.521. If the sub-recipient has not completed corrective action, a timetable follow-up will be given.

B. Audit Review Follow-Up

- Contacts sub-recipient(s) for additional information as needed.

- Determines course of action for federal program audit findings, financial statement audit findings, negative disclosures (such as financial capacity concerns) and schedule of expenditures of federal awards deficiencies. Depending on the issue or combination of issues, procedures may be modified to ensure efficient and effective resolution.

- Updates the status of each audit review until all follow-up actions are completed and the file is closed.

Article XI. Execution

IN WITNESS WHEREOF, the parties names herein have duly executed this Cooperative Agreement on the date set forth below:

SUBRECIPIENT: CITY OF HATTIESBURG FIRE DEPARTMENT ATTEST:

By: _____ Date: 11/20/2018
Authorized Official

DUNS Number: 079448130

APPROVED: **State of Mississippi**

By: _____ Date: 10-17-18
Executive Director
Mississippi Office of Homeland Security

STATE HOMELAND SECURITY

GRANT PROGRAM

LOCAL HOMELAND SECURITY PROGRAM FISCAL YEAR 2018

TOTAL AWARD: **$10,000.00**

Allowable Equipment Costs

Allowable equipment categories for FY18 HSGP are listed on the web-based Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by ODP and the Oklahoma City National Memorial Institute for the Prevention of Terrorism (MIPT) at http://www.rkb.us. The website is designed to provide emergency responders, purchasers, and planners with a trusted, integrated, online source of information on products, standards, certifications, grants, and other equipment related information. By integrating this information, which includes the Inter-Agency Board's (IAB) Standardized Equipment List (SEL) and the AEL from ODP, into one location, responders, vendors, standards organizations, training facilities, and grant making organizations have a trusted first source to answering questions such as:

- What equipment is on the market?
- Has it been certified?
- If so, to what standard?
- What training is needed to use it effectively?
- Are there experts available for consultation and questions?

The FY18 HSGP, AEL is housed on the RKB and relies heavily on the SEL developed by the IAB for Equipment Standardization and Interoperability. The 2018 AEL has been modified to facilitate cross-referencing of the SEL in an effort to eliminate redundancy. Both the AEL and SEL are available on the RKB, which also offers an interactive version that provides links to corresponding SEL items and commercial products. In some cases, items on the SEL are not allowable under FY18 HSGP or will not be eligible for purchase unless specific conditions are met. In addition, some items eligible under this grant program are beyond the scope of the SEL and thus will only appear in the AEL.

Planning Costs Allowable

SHSP funds may be used for a range of homeland security planning activities, including the following:

Developing and implementing homeland security support programs and adopting DHS national initiatives including but not limited to the following:

- Costs associated with the implementation and adoption HSPD-8 initiatives
- Costs associated with the implementation and adoption of NIMS
- Costs associated with the modifying existing incident management and emergency operations plans to ensure proper alignment with the NRP coordinating structures, processes, and protocols
- Establishment or enhancement of mutual aid agreements
- Development of communications and interoperability protocols and solutions
- Conducting local, regional, and tribal program implementation meetings
- Developing or updating resource inventory assets in accordance to typed resource definitions issued by the NIC
- Design state and local geospatial data systems
- Development of related critical infrastructure terrorism prevention activities including:
    - o Planning for enhancing security during heightened alerts, during terrorist incidents and/or during mitigation and recovery
    - o Public information/education: printed and electronic materials, public service announcements, seminars/town hall meetings, web postings coordinated through local Citizen Corps Councils
    - o Citizen Corps activities in communities surrounding critical infrastructure sites, including Neighborhood Watch, VIPS, and other opportunities for citizen participation
    - o Evaluating CIP security equipment and/or personnel requirements to protect and secure sites
    - o CIP cost assessments, including resources (financial, personnel, etc.) required for security enhancements/deployments.

Develop and enhance plans and protocols, including but not limited to:

- Develop or enhance emergency operations plans and operating procedures
- Develop terrorism prevention/deterrence plans
- Develop plans, procedures, and requirements for the management of infrastructure and resources related to HSGP and implementation of State or Urban Area Homeland Security Strategies
- Develop or enhance border security plans
- Develop or enhance cyber security plans
- Develop or enhance cyber risk mitigation plans
- Develop or enhance agriculture/food security risk mitigation, response, and recovery plans
- Develop public/private sector partnership emergency response, assessment, and resource sharing plans
- Develop or update local or regional communications plans
- Development of plans to support and assist special needs jurisdictions, such as port authorities and rail and mass transit agencies
- Development or enhancement of continuity of operations and continuity of government plans
- Development or enhancement of existing catastrophic incident response and recovery plans to include and integrate federal assets provided under the NRP.

Develop or conduct assessments, including but not limited to:

- Conduct point vulnerability assessments at critical infrastructure sites/key assets and develop remediation/security plans
- Conduct cyber risk and vulnerability assessments
- Conducting assessments and exercises of existing catastrophic incident response and recovery plans and capabilities to identify critical gaps that cannot be met by existing local and state resources
- Activities which directly support the identification of specific catastrophic incident priority response and recovery projected needs
- Activities which directly support the identification and advance preparation of predesignated temporary housing sites; for example:
    - o Conducting assessments and studies to identify qualified candidate sites
    - o Obtaining accurate site surveys and existing utility information
    - o Coordinating zoning requirements and necessary permits and/or waivers
    - o Coordinating environmental impact requirements related to a selected site
    - o Coordinating historic preservation requirements related to a selected site.

Allowable Training Costs

Local jurisdictions may use HSGP funds to enhance the capabilities of state and local emergency preparedness and response personnel through development of a state homeland security training program. Allowable training-related costs under ODP grant programs include: 1) establishment of CBRNE terrorism and cyber security training programs within existing training academies, universities or junior colleges; and 2) overtime and backfill costs associated with attendance at ODP-sponsored and ODP approved CBRNE and cyber security training courses.

The target audience for training courses include emergency preparedness, prevention and response personnel, emergency managers and public/elected officials within the following disciplines: firefighters, law enforcement, emergency management, emergency medical services, hazardous materials, public works, public health, health care, public safety communications, governmental administrative, cyber security and private security providers. The homeland security training program should also include training for citizens in awareness, preparedness, prevention, response skills, and volunteer activities and be coordinated through state and local Citizen Corps Councils.
Local jurisdictions are encouraged to adopt current ODP awareness and performance level courses. In order to deliver these courses, state and local instructors must have been certified to deliver the course by successfully completing ODP train-the-trainer courses. Detailed descriptions of ODP courses are included in the *ODP CBRNE Training Course Catalog* at http://www.ojp.usdoj.gov/odp/docs/coursecatalog.pdf. Programs of instruction for these courses will be made available upon request to assist efforts to institutionalize these training programs at the state and local levels.

ODP will conduct periodic reviews of all state and urban area training funded by ODP. These reviews may include requests for all course materials and physical observation of participation in the funded training. If these reviews determine that courses are outside the scope of this guidance, recipients will be asked to reimburse grant fund expended in support of those efforts.

ODP provides the following definitions of key training terms to facilitate a common understanding of the FY18 HSGP guidance:

- **ODP Courses:** Those courses developed for and/or delivered by institutions and organizations funded by ODP.
- **Federal Courses Related to CBRNE Terrorism:** Those courses developed for and or delivered by institutions funded by federal entities other than ODP which fall within the ODP mission scope: of which is to prepare state and local personnel to prevent, respond to, and recover from acts of terrorism involving CBRNE weapons.
- **Non-Federal Courses:** Those courses developed for and or delivered by institutions or organizations other than federal entities or ODP.

In addition, local jurisdictions shall follow accepted principles of instructional systems design, employing the Analysis, Design, Development, Implementation, and Evaluation (ADDIE) model or equivalent methodologies. (The ADDIE process is explained in greater depth in the *ODP Blended Learning Strategy* available on the ODP website at: http://www.ojp.usdoj.gov/odp/blendedlearning.) Local jurisdictions shall apply these methodologies to ensure that complete curriculum exists for training funded by ODP grant. Complete curriculum consists of:

• **Level of Training.** The state or urban area will identify the level(s) of training of the course(s) and materials submitted. Each submission must be identified as Awareness, Performance–Defense (Occupational Safety and Health Administration (OSHA) Operations), Performance–Offensive (OSHA Technician), or Planning/Management (OSHA Incident Command) levels. More detailed descriptions of the levels can be found at http://www.ojp.usdoj.gov/odp/training.htm or http://www.osha.gov.

• **Program of Instruction/Syllabus.** The program of instruction or syllabus is an outline or matrix of the course content. It addresses the scope of the training, course learning objectives, duration of the training (broken-down by module, session, or lesson), resource requirements, instructor to student ratio and an evaluation strategy. These items are not all-inclusive, but are the minimum categories that should be addressed.

• **Training Support Package.** The training support package includes all of the materials associated with the delivery of a training course. The following items should be included:

  o **Instructor Guide/Instructor Outline/Instructor Lesson Plans:** The published instructor material that contains course text and special instructor notes that provides the information to deliver the material

- **Participant Manual/Guide/Workbook**: The published student material that contains the supporting information in booklet or handout form that the participant has available for reference
- **Audio/Visual Support Materials:** Any audio/visual components that are part of any learning module, session, lesson, or that supports the overall training being delivered
- **Special Support Materials:** Any descriptions of practical exercises, tabletop exercises, hands-on exercises, or other material that supports learning objectives

• **Module/Session/Lesson Content.** Training courses should be designed based on a building block approach. Each sub-component in the course should be titled as a module, session, or lesson. Regardless of the title, each module, session, or lesson, should have a Lesson Administration Page that outlines the following:

- **Scope Statement:** A brief description of the content of the module, session or lesson
- **Terminal Learning Objectives:** An action verb statement that outlines what the participant is expected to learn or be capable of performing at the conclusion of the module, session, or lesson. There should be only one terminal learning objective per module, session, or lesson
- **Enabling Learning Objectives:** Enabling learning objectives are the incremental learning objectives that support the terminal learning objective. There should be at least one enabling learning objective per module, session or lesson. Each enabling learning objective must be a measurable performance statement that enables the participant to demonstrate achievement of the terminal learning objective
- **Resource List:** A listing of the resources needed to successfully accomplish the module, session, or lesson
- **Instructor to Participant Ratio:** The instructor to participant requirement for successful presentation of the material (e.g., 1:25)
- **Reference List**: A listing of all reference materials used to develop the module, session, or lesson (This information may also be included as a bibliography).
- **Practical Exercise Statement:** This describes any exercises associated with the module, session, or lesson
- **Evaluation Strategy:** This defines the strategy used to evaluate the module, session, or lesson (e.g., written and/or performance test).

Conditional Approvals of Non-ODP Courses. In contrast to FY04, no conditional approvals, in advance of an independent third-party subject matter expert (SME) review, will be granted in FY18 for use of ODP funds to develop or institutionalize non-ODP courses. ODP will require local jurisdictions to adhere to a streamlined course approval process. Please see *Appendix E: Overview of Approval Process for Non-ODP Developed Courses* for more information. Courses will either be approved or disapproved following this review process.

Attending Other Federal Courses Related to CBRNE Terrorism. Local jurisdictions are no longer required to submit requests for personnel to attend certain Federal courses that fall within the ODP mission scope of preparing state and local personnel to prevent,

respond to, and recover from acts of terrorism involving CBRNE weapons. In lieu of requesting approval, local jurisdictions will be required to submit information on all federal training they are supporting with ODP funds via the Training section of the ODP website (http://www.ojp.usdoj.gov/odp/training.htm). This information will consist of course title, level of the training, the training provider, the date of the course, the number of individuals to be trained, and the sponsoring jurisdiction.

Several broad categories of courses will automatically be included in the list of eligible federal courses:

- All NIMS training approved by the NIMS Integration Center (NIC) is eligible for use of ODP funds.
- All Incident Command System (ICS) training offered through the National Fire Academy and the Emergency Management Institute is eligible for use of ODP funds. This guidance applies to resident training, train-the-trainer, and field delivery of courses.

A list of federal courses that fall within the ODP mission scope is included in *Appendix F: Federal Training Course List.*

These courses must build additional capabilities that 1) meet a specific need identified through the homeland security assessment process, and 2) comport with the State or Urban Area Homeland Security Strategy.

Federal funds must be used to supplement—not supplant—existing funds that have been appropriated for the same purpose. Thus, if the state or urban area has already budgeted for personnel to attend courses, ODP funds may only be used to send additional individuals above and beyond those previously budgeted.

Eligibility of Hazardous Materials Courses. Hazardous materials courses, including basic, operations, and technician level courses, are eligible for support through ODP funds **only if the course *fully* addresses the hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*.** If the hazardous materials course does ***not fully*** address the hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, then the course is not considered an allowable use of ODP funds.

The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.

Eligibility of Search and Rescue, Special Weapons and Tactics (SWAT), and Medical Trauma Courses. On September 1, 2004, ODP issued Information Bulletin #132 on the

Interagency Security Plan, available at http://www.ojp.usdoj.gov/odp/docs/bulletins.htm. In this bulletin, ODP expanded the allowable use of grant funds to support additional training in the areas of search and rescue, SWAT, and medical trauma provided certain requirements were met. The following sections provide further detail on these initiatives.

• *Eligibility of Search and Rescue Courses:* Local jurisdictions shall conduct search and rescue training in compliance with:

- o NFPA 1670, *Standard on Operations and Training for Technical Rescue and Search Incidents*
- o NFPA 1006, *Standard for Rescue Technician Professional Qualifications* Only Urban Search and Rescue (USAR) courses approved by FEMA and delivered by FEMA-certified providers are eligible for use of ODP funds. A list of these courses and providers will be maintained by ODP in coordination with FEMA.

The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.

If the basic, foundational USAR course fully addresses the fire service and or hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational USAR course does **not** fully address these sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, then the student must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the USAR course to be considered an allowable use of ODP funds.

These USAR courses are intended to build a critical capacity at the state and local levels. **The execution of this training in the stated capacity-building context is unrelated to designation of national USAR teams. Therefore, local jurisdictions and UASI jurisdictions may not request such designation based on training.**

• *Eligibility of SWAT Courses:* SWAT courses, including basic, foundational courses, are eligible for support through ODP funds, provided that the training meets the following requirements:

- o The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.
- o Local jurisdictions shall conduct training in compliance with state and local regulations and policies governing the certification of SWAT personnel.

- o Trainees shall be sworn officers and shall have completed a Basic SWAT school accredited by the appropriate state-level criminal justice organization.
- o Training shall be conducted by instructors certified by a state or national level criminal justice organization
- o The State or Urban Area shall develop and implement a safety plan excluding service ammunition and weapons from the training site and shall not employ live chemical agents (to include OC) or impact weapons during the training
- o If a foundational SWAT course fully addresses the law enforcement sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational SWAT course does **not** fully address the law enforcement sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* then the student must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the foundational SWAT course to be considered an allowable use of ODP funds.

• *Eligibility of Medical Trauma Courses:* Medical trauma courses—including basic, foundational courses—are eligible for support through ODP funds, provided that the training meets the following requirements:

- o The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.
- o Local jurisdictions shall conduct training in compliance with NFPA 473, *Standard Competencies for EMS Personnel Responding to Hazardous Materials Incidents.*
- o Local jurisdictions shall conduct training in compliance with state and local regulations and policies governing the certification of EMS providers.
- o Local jurisdictions shall coordinate their efforts with the closest MMRS jurisdiction.
- o Trainees shall have completed a basic Emergency Medical Technician (EMT) certification per the state or local accreditation requirements. This type of training may not be funded with ODP monies.
- o If a foundational medical trauma course fully addresses the emergency medical services sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational medical trauma course does **not** fully address the emergency medical services sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* then the student Must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the foundational medical trauma course to be considered an allowable use of ODP funds.

Evaluation of ODP Training Courses. The goal of evaluating ODP training courses is to determine how much a participant's knowledge, skills, and abilities change after completion of a course relative to knowledge, skills, and abilities prior to the class. ODP utilizes a self-assessment methodology and collects information via a standardized evaluation form. The form is designed to gather data about the course and participant, including data such as the participant's professional discipline and years of service. Additionally, the evaluation measures the participant's knowledge relative to a set of standardized learning objectives both before and after taking the course.

If a state or local jurisdiction uses ODP funds to provide ODP-approved courses, the state or local jurisdiction must use the standard evaluation form to collect data about the course and its participants. An ODP-approved course is defined as one developed by the state or local jurisdiction and approved by ODP for delivery. If the state or local jurisdiction receives training through its ODP course allocation, the training partner delivering the course is responsible for data collection and entry. Similarly, if the state or local jurisdiction enters into a direct contract with one of the ODP training partners, training partner is still responsible for the data collection and entry function.

However, if the ODP-sponsored course is delivered by a state or local organization, the course provider is responsible for collecting data on the course and its participants. As part of the course approval process, the course developer establishes a set of course objectives directly tied to the course content. The objectives are incorporated into the standardized course evaluation form. Course participants are required to complete all fields and the course instructor is responsible for ensuring that all forms are complete. Course providers are granted access to and enter data into the ODP Secure Portal. Costs related to developing and administering the self-assessment and collecting information via a standardized evaluation form is allowable.

Allowable Exercise Costs

Exercises conducted with ODP support (grant funds or direct support) must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Volumes I-III contain guidance and recommendations for designing, developing, conducting, and evaluating exercises. HSEEP Volumes I-III can be found at ODP's website at http://www.ojp.usdoj.gov/odp/exercises.htm. Volume IV, which contains sample exercise materials and documents, can be found on ODP's Secure Portal at https://odp.esportals.com or http://www.llis.gov.

Exercise Planning Workshop. Local jurisdictions must conduct an annual Exercise Planning Workshop (EPW) to examine the progress and effectiveness of their current exercise strategy and program. A Multiyear Exercise Plan and schedule must be produced from the EPW and submitted through ODP's Secure Portal Exercise Scheduler located at https://odp.esportals.com. Refer to HSEEP Volume III, Chapter 2 for further guidance on EPWs and the Multiyear Exercise Plan and schedule.

Exercise Scenarios. The scenarios used in SHSP, UASI, and LETPP-funded exercises must be terrorism-related and based on the state's/urban area's homeland security strategy and plans. Acceptable scenarios for exercises include: chemical, biological, radiological, nuclear, explosive, cyber and agricultural. Recipients that need further clarification on scenarios should consult with their ODP Exercise Manager for assistance and/or approval. Fifteen all-hazards National Planning Scenarios, including twelve terrorism scenarios, have been developed, and will be made available for use in national, federal, state, and local homeland security preparedness activities. Citizen participation in exercises is encouraged to include back filling non-professional tasks for first responders deployed on exercise, administrative and logistical assistance with exercise implementation, and providing simulated victims, press, and members of the public. Citizen participation in exercises should be coordinated with local Citizen Corps Council(s).

Recipients that wish to expend funds on models, simulations, or games (MS&G) must consult with "Review of Models, Simulations, and Games for Domestic Preparedness Training and Exercising, Volume III," which provides an overview and analysis of existing models, simulations and games. This report is available at http://www.ojp.usdoj.gov/odp/exercies.htm

Recipients must justify the purchase and use of a given MS&G product/service, by a) documenting the training and/or exercise objective(s), b) documenting how the selected product/service will support those objectives, and c) justification for the chosen product category (potentially referring to Volume III benefits/limitations). The form for this justification can be found at http://www.ojp.usdoj.gov/odp/exercises.htm.

If a state or urban area will be hosting an upcoming special event (e.g., Superbowl, G-8 Summit, etc.), or they anticipate that they will apply to be a venue for a future Top Officials (TOPOFF) exercise, they should plan to use SHSP or UASI funding to fund training and exercise activities in preparation for that event.

All tabletop exercises (TTXs), drills, functional exercises (FEs), and full-scale exercises (FSEs) will be evaluated and performance based. An After Action Report (AAR) and Improvement Plan will be prepared and submitted to DHS/ODP following every TTX, drill, FE, and FSE. AAR/IPs must be provided to ODP within 60 days following completion of each exercise (see HSEEP Volume II, Appendix A). Currently, these AAR/IPs can be submitted through the ODP Secure Portal. However ODP is working with other agencies to develop a national reporting system. ***A state or local jurisdiction that conducts an exercise using SHSP, UASI, and LETPP funds must follow the HSEEP doctrine and protocol contained in Volume II.***

Local jurisdictions are encouraged to develop a self-sustaining State Homeland Security Exercise and Evaluation Program which is modeled after the national HSEEP. This may include, for example: hiring dedicated exercise program staff, awareness seminars on HSEEP, attending exercise training courses, and maintaining a system to track the completion and submission of AARs and Improvement Plans from exercises (including costs associated with meeting with local units of government to define procedures).

Allowable Management and Administrative Costs

All programs within HSGP have allowable M&A costs for both the state-level as well as the local unit of government, urban area, or designated sub-recipient.

- **SHSP, UASI, LETPP, CCP, MMRS:** No more than ***5% of the total amount*** allocated to the state for each program within HSGP may be retained at the state level and used for M&A purposes. These state M&A funds must be included in the total funds retained by the state. In addition, local jurisdiction sub-recipients may retain and use up to ***5% of their sub-award*** for local M&A purposes.

Unauthorized Program Expenditures

Unauthorized program expenditures include: 1) expenditures for items such as general use software (word processing, spreadsheet, graphics, etc), general-use computers (other than for allowable M&A activities, or otherwise associated preparedness or response functions) and related equipment, general-use vehicles, licensing fees, weapons systems and ammunition; 2) activities unrelated to the completion and implementation of the SHSP; 3) other items not in accordance with the Authorized Equipment List or previously listed as allowable costs; and, 4) construction or renovation of facilities.

Designation of Sub-recipient Grant Administrator (SGA) STATE HOMELAND SECURITY PROGRAM

The following person is officially appointed to represent your jurisdiction as the *Sub-recipient* Grant Administrator (SGA) and is hereby duly authorized to fulfill the terms of this Cooperative Agreement during the performance period on behalf of the *Sub-recipient.*

Name: Chris Carr (Sub-recipient Grant Administrator) Title: Director of Training

Organization Name: City of Hattiesburg Fire Department

Mailing Address: 53 Academy Drive

City: Hattiesburg Zip Code 39401

Telephone Number: (601) 545-4650 Fax Number: ( )

Cellular Number: ( ) Pager Number: ( )

Email Address: ccarr@hattiesburgms.com

Appointed by: Toby Barker (Print Name) Date: 11/20/2018

Signature: Title: Mayor

Mississippi Department of Public Safety
Office of Homeland Security

GRANT TERMS AND CONDITIONS

NOTE: THE GRANT TERMS AND CONDITIONS MUST BE SUBMITTED WITH GRANT APPLICATION

GRANT NO. 18HS205T

CERTIFICATION BY PROJECT DIRECTOR *

I certify that I understand and agree to comply with the general and fiscal provisions of this grant application including the terms and conditions; to comply with provisions of the regulations governing these funds and all other federal and state laws; that all information presented is correct; that there has been appropriate coordination with affected agencies; that I am duly authorized by the Applicant to perform the tasks of Project Director as they relate to the requirements of this grant application; that costs incurred prior to Grantee approval may result in the expenditures being absorbed by the subgrantee; and, that the receipt of these grant funds through the Grantee will not supplant state or local funds.

Name: Chris Carr (Please Print or Type)

Title: Director of Training

Agency: City of Hattiesburg Fire Department

Mailing Address: 53 Academy Drive

Hattiesburg, MS 39401

Phone Number: 601-545-4650

STATE OF MISSISSIPPI
DEPARTMENT OF PUBLIC SAFETY
OFFICE OF HOMELAND SECURITY

PHIL BRYANT
GOVERNOR

MARSHALL L. FISHER
COMMISSIONER

SUBRECIPIENT GRANT AWARD

Subrecipient: **CITY OF HATTIESBURG FIRE DEPARTMENT**
(Task Force III Equipment)

Project Title(s): Homeland Security Grant Program

Grant Period: 11-01-18 – 10-31-19 Date of Award: 09-19-18

Total Amount of Award: **$10,000.00** Grant No.: **18HS205T**

In accordance with the provisions of Federal Fiscal Year 2018 Homeland Security Grant Program, the Mississippi Office of Homeland Security (MOHS), State Administrative Agency (SAA), hereby awards to the foregoing Subrecipient a grant in the federal amount shown above. The CFDA number is 97.067 and MOHS federal grant number is **EMW-2018-SS-00009**. Authorizing Authority for Program: Section 2002 of the *Homeland Security Act of 2002*, as amended (Pub. L. No. 107-296), (6 U.S.C. 603).

Payment of Funds: The original signed copy of this Award must be signed by the Official Authorized to Sign in the space below and returned to the MOHS **no later than December 17, 2018**. **The grant shall be effective upon return of this form and final approval the MOHS of the grant budget and program narrative.** Grant funds will be disbursed to subgrantees (according to the approved project budget) upon receipt of evidence that funds have been invoiced and products received and/or that funds have been expended (i.e., invoices, contracts, itemized expenses, etc.).

I certify that I understand and agree that funds will only be expended for those projects outlined in the funding amounts as individually listed above. I also certify that I understand and agree to comply with the general and fiscal terms and conditions of the grant including special conditions and the Mississippi Department of Public Safety, Office of Homeland Security, Homeland Security Grant Program, Policies and Procedures Manual; to comply with provisions of the Act governing these funds and all other federal laws and regulations; that all information is correct; that there has been appropriate coordination with affected agencies; that I am duly authorized to commit the applicant to these requirements; that costs incurred prior to grant application approval will result in the expenses being absorbed by the subrecipient; and that all agencies involved with this project understand that all federal funds are limited to a twelve-month period.

Supplantation: The Act requires that subrecipients provide assurance that subrecipient funds will not be used to supplant or replace local or state funds or other resources that would otherwise have been available for homeland security activities. In compliance with that mandate, I certify that the receipt of federal funds through the MOHS shall in no way supplant or replace state or local funds or other resources that would have been made available for homeland security activities.

ACCEPTANCE FOR THE SUBRECIPIENT

Signature of Official Authorized to Sign

Signature of MOHS Director

SUBRECIPIENT AWARD NOTICE: THIS AWARD IS SUBJECT TO THE GRANT SPECIAL CONDITIONS AND FINAL APPROVAL BY THE MOHS OF THE SUBRECIPIENT'S GRANT PROGRAM BUDGET AND NARRATIVE.

GRANT RECIPIENT AGREEMENT

1. The designated representative certifies that he/she has legal authority to receive assistance.

2. The Applicant shall provide all necessary financial and managerial resources to meet the terms and conditions of receiving Federal and State assistance.

3. The Applicant shall use awarded funds solely for the purpose for which these funds are provided and as approved by the DPS Authorized Representative.

4. The Applicant is aware of and shall comply with cost-sharing requirements, if applicable.

5. The Applicant shall establish and maintain a proper accounting system to record expenditures of awarded funds in accordance with generally accepted accounting standards and OMB Circulars 2 CFR 200 as applicable and/or as directed by the DPS Authorized Representative.

6. The Applicant shall comply with the Single Audit Act of 1984 and will provide copies of audit reports when issued, 44CFR Part 14.

7. The Applicant shall give State and Federal agencies designated by the DPS Authorized Representative access to and the right to examine all records and documents related to use of award funds.

8. The Applicant shall return to the State, within thirty (30) days of such request by the DPS Authorized Representative, any advance funds which are not supported by audit or other Federal or State review of documentation by the Applicant.

9. The Applicant shall comply with all applicable provisions of Federal and State laws and regulations in regard to procurement of goods and services.

10. The Applicant shall comply with regulations implementing the Drug-Free Workplace Act of 1988, 44CFR Part 17, Subpart F.

11. The Applicant shall comply with all Federal and State statutes and regulations relating to non-discrimination.

12. The Applicant shall comply with provisions of the Hatch Act limiting political activities of public employees and 44CFR Part 18, New Restrictions on Lobbying.

13. The Applicant shall comply, as applicable, with provisions of the Davis-Bacon Act relating to labor standards.

14. The Applicant shall not enter into any contracts or purchase merchandise from any party or vendor which is disbarred or suspended from participating in Federal assistance programs.

Grant Recipient Representative

Date

MISSISSIPPI OFFICE OF HOMELAND SECURITY

STATE HOMELAND SECURITY GRANT PROGRAM SPECIAL CONDITIONS

* *

1. All sub-grantees must comply with the National Incident Management System (NIMS) minimum requirements as specified in the Fiscal Year 2006 Homeland Security Grant Program Guidelines and Application Kit, page 47-48. By September 30, 2006, all jurisdictions must be fully NIMS compliant. FY06 and FY07 Homeland Security grant funds are contingent on NIMS compliance.

2. All sub-grantees must comply and be familiar with Homeland Security Presidential Directive-8, with regards to the IED Scenario, as mandated by the Office of Domestic Preparedness.

3. All sub-grantees are required to modify their existing incident management and emergency operations plans in accordance with the National Response Plan's coordinating structures, processes, and protocols.

4. All sub-grantees are required by the Office of Domestic Preparedness to use the Global Justice Data Model specifications and guidelines regarding the use of XML for all HSGP awards.

5. Prior to the obligation or expenditure of any funds awarded through this grant, the Sub-recipient must become a legal signatory of the Statewide Mutual Agreement, maintained by the STATE EMERGENCY MANAGEMENT AGENCY. Furthermore, the Sub-grantee agree and understand that by allowing any agency to receive direct or indirect support from these grant funds without becoming a legal signatory to the said agreement is a direct violation of the terms and conditions of this grant award.

6. All SHSP sub-grantees must fully engage citizens by expanding plans and task force memberships to address citizen participation; awareness and outreach to inform and engage the public; include citizens in training and exercise; and develop or expand programs that integrate citizen/volunteer support for the emergency responder disciplines.

7. Recurring costs/fees are not allowable for funding under the 2006 HSGP. Internet service fees, radio service fees, cellular phone fees, satellite phone fees, etc. paid for with grant funds are for 12 months during the year of equipment purchase only.

8. Position descriptions for each person to be paid with grant funds and organizational chart identifying grant funded position(s).

9. A physical inventory of property and equipment (as defined in Section IV, D.) must be taken and the results reconciled with the property control form at least once every two years. This report must be prepared and submitted by the sub-recipient to the SAA by January 31 of each year beginning in calendar year 2016.

10. The MOHS requires that property acquired with grant funds be tagged and tracked using a computer-based inventory system.

11. The FCC has chosen the Project 25 suite of standards for voice and low-moderate speed data interoperability. In an effort to realize improved interoperability, all radios purchased under this grant should be APCO 25 compliant.

12. The Budget Worksheet and/or Budget Narrative pages for this grant need to be revised before obligation of any grant funds.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above conditions.

Signature of the Chief Executive Officer	11/20/2018 Date

STATE OF MISSISSIPPI
AND
GOVERNOR PHIL BRYANT

HOMELAND SECURITY COOPERATIVE AGREEMENT

Between

CITY OF HATTIESBURG FIRE DEPARTMENT

AND

MISSISSIPPI DEPARTMENT OF PUBLIC SAFETY

HOMELAND SECURITY
COOPERATIVE AGREEMENT (CA)

On behalf of Governor Phil Bryant, this Cooperative Agreement is entered into between the Department of Public Safety, Office of Homeland Security, hereto referred to as *Recipient*, and the City of Hattiesburg Fire Department hereto referred to as Sub-recipient.

Article I. Purpose

The purpose of this Cooperative Agreement (CA) is to utilize 100% federal funding (no match required) provided through FEMA, U.S. Department of Homeland Security to enhance capabilities within the State of Mississippi to respond to acts of domestic and international terrorism including the use of weapons of mass destruction. The Department of Public Safety, Office of Homeland Security will accomplish this by prioritizing and facilitating the delivery and use of federal financial assistance as identified in the published Office for Domestic Preparedness Homeland Security Grant Program Guidance (attached). This enables the Sub-recipient to exercise management discretion and control in achieving the specified objectives of this Cooperative Agreement within the State of Mississippi. It is intended that this partnership will result in the development of a competent and sustainable system designed to provide prevention/deterrence and emergency response to a potential terrorism event within the State.

Article II. Budget Narrative

The objectives outlined within the performance period of this Cooperative Agreement will be supportive of the priorities defined in the State Homeland Security Three-Year Strategic Plan in the form of equipment, planning, training, exercise, management and administration funding and shall be in compliance with FEMA Homeland Security Grant Program Guidance.

Article III. Period of Performance

The period of performance for this Cooperative Agreement shall begin on the date of acceptance of the **SUBRECIPIENT AWARD** execution and shall continue through the period of SUBRECIPIENT AWARD unless terminated by the Department of Public Safety. Future SUBRECIPIENT AWARDS for supporting the requirements of the jurisdiction may be awarded under the terms of this agreement through additional sub grants so long as all signatory officials remain unchanged.

Article IV. Reports

The Quarterly Report and financial reports: Request for reimbursement is due within 30 days after each reporting quarter: 1st Quarter, October-December, 2nd Quarter,

January-March; 3rd Quarter, April-June; 4th Quarter, July-September.

The Quarterly and Progress reports must be submitted so that progress can be tracked and outcomes evaluated.

Article V. Roles and Responsibilities

A. Local *Sub recipient General Guidance*

1. The local *Sub-recipient* shall develop and improve their capability to combat the affects of a terrorism event. This is accomplished through the purchase of specialized equipment as identified in the published OJP selected equipment list or support of planning, exercises or training activities associated with the prevention, response or recovery from terrorism incidents.

2. The chief elected official is responsible for committing to the terms of this CA, budgeting local funds to purchase equipment or support jurisdictional exercise, training and planning efforts for executing this CA on behalf of the Sub-recipient *'s* jurisdiction.

3. The Sub-Recipient shall designate a *Sub-recipient* public official as the Sub-recipient Grant Administrator (SGA) for developing and attaching the CA scope of work to Appendices A & B, obtaining project approval from respective officials, reporting, submitting applications to Recipient, equipment distribution, training, and obtaining and submitting supporting documentation and requests for reimbursement on behalf of the Sub-recipient to *Recipient* for repayment. **The SGA shall be responsible for reporting to the Mississippi Office of Homeland Security (MSOHS) via the Biannual Strategy Implementation Report (BSIR)**

B. Local Homeland Security Program Guidance

The Homeland Security Grant Program (HSGP) through the State Homeland Security Program (SHSP) provides funds for homeland security and emergency operations planning; the purchase of specialized equipment to enhance the capability of State and local agencies to prevent, respond to, and mitigate incidents of terrorism involving the use of chemical, biological, radiological, nuclear, and explosive (CBRNE) weapons and cyber attacks; for costs related to the design, development, and conduct of a State CBRNE and cyber security training programs and attendance at ODP-sponsored CBRNE training courses; for costs related to the design, development, conduct, and evaluation of CBRNE and cyber security exercises; and for costs associated with implementing State Homeland Security Assessments and Strategies (SHSAS). See

Annex A (Local Homeland Security Program) for specific guidance, policies, and reporting requirements.

C. State *Recipient*

1. The *Recipient* shall be the Department of Public Safety, Office of Homeland Security, acting on behalf of the State of Mississippi.

2. The Commissioner of the Department of Public Safety (DPS) or the Commissioner's Designee is the state signatory official and shall be the principal state official responsible for committing the state to the terms of this agreement. The DPS Commissioner, or his designee acting in the absence of the Commissioner, will exercise final approval authority of all *Sub-recipient* applications, grant awards, allocations, and requests for reimbursements and for ensuring overall *Recipient* administration.

3. The DPS, Office of Homeland Security, is designated the Recipient Point-of- Contact (POC) for assisting the *Sub-recipient* in developing the authorized equipment purchase list, specialized training requirements, and for providing overall day-to-day program management.

D. Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms

The SAA will take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps will include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists.
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises.
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises.
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration, the Minority Business Development Agency of the Department of Commerce and MS Development Authority Office of Minority Business.
6. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.

Article VI. Funding Consideration

The *Recipient* POC will receive and review *Sub-recipient's* application and forward to the SAA Director for approval. After approval the *Recipient* will issue a sub-recipient award letter, which authorizes the *Sub-recipient* to expend local funds and be reimbursed pursuant to the terms of this CA. **Local funds expended prior to the date of the award letter are not authorized to be reimbursed.**

When the *Sub-recipient* has expended funds awarded, the SGA will prepare and submit a Request for Reimbursement to the *Recipient POC.* This request shall contain all appropriate supporting documentation to substantiate expenses made in accordance with all applicable requirements. The *Recipient POC* will review the reimbursement package for completeness and forward to the *Recipient* Office of the Comptroller for payment.

A. The *Recipient* will not be liable under this Agreement for any amount greater than the award allocated by the Office for Domestic Preparedness to the State for the grant performance period.

B. No cost or obligation shall be incurred by the *Recipient* under this Agreement unless and until the *Recipient* advises the *Sub-recipient* in writing that the application has been approved and funds are available.

C. Reimbursement will be made by the *Recipient* to the *Sub-recipient* based on the **Mississippi Sub-recipient Reporting Worksheet.** Required documentation must accompany the worksheet.

D. Reimbursement is contingent upon the funds being expended in accordance with all applicable local and state regulations, as well as Federal regulations, policies, guidelines, and submission for reimbursement made in accordance with the SAA's grant policies and procedures manual.

E. *Sub-recipient's* requests for advance of funds to support purchases of equipment or other expenditures must be requested in writing to the recipient POC explaining the justification for the request. Reasons, i.e., shortage of local funds or items not contained in current annual jurisdictional budget must be accompanied by purchase orders.

F. *Sub-recipient's* Request for Reimbursement and other required financial reports will be submitted to the *Recipient* with a copy of all receipt(s) or invoices showing that authorized equipment or other expenditures such as personnel, supplies, etc. has been paid for in-full by *Sub-recipient* and attached to an approved grant application.

Article VII. Maintenance, Replacement costs and Use of Equipment, Sell & Disposal

A. Equipment purchased under the terms of this CA will be stored, maintained and used in accordance with the purpose and objectives of this Cooperative Agreement. The equipment may be used for terrorism training and exercise purposes and in response to an actual terrorism event. If the equipment is used in response to a non-terrorist related event, then any maintenance or replacement costs will be the sole responsibility of the *Sub-recipients*.

B. The sub-recipient is required to maintain an equipment inventory list that contains the following information: equipment description, identification/serial number, title holder, acquisition date, cost, percentage of federal funds used in the cost, location, use and condition, and disposition date.

C. Instructions on how to sell and/or dispose of equipment, please visit our website at www.homelandsecurity.ms.gov. (Click on the tab Grants / Grant Forms)

Article VIII. Nonperformance

Failure by the *Sub-recipient* to comply with the terms of this Cooperative Agreement may result in suspension from the program and loss of any outstanding grant fund allocation balance, as determined by the *Recipient*. Failure to expend all grant funds awarded (by date stated on Awards Letter) and to comply with Recipient request and guidelines will result in the reallocation of unspent grant funds and the immediate redistribution of all equipment purchased with grant funds. In addition, the failure to maintain adequate response capability (as determined by the MOHS) will also result in the reallocation of grant funds and the immediate redistribution of all equipment purchased with grant funds.

Article IX. Administrative Provisions

The *Recipient* and *Sub-recipient* agree to carry out the administrative and financial requirements of this Agreement in accordance with the policies and procedures established by FEMA and set forth in other applicable state and federal guides. The Biannual Strategy Implementation Report (BSIR) will update information on obligations, expenditures, and progress made on activities and will include an update of all information submitted in that report.

C. Other Provisions

1. Nothing in this agreement is intended to conflict with current laws or regulations of Mississippi or your jurisdiction. If a term of this agreement is inconsistent with such authority, then that term shall be invalid, but the remaining terms and conditions of this agreement shall remain in full force and effect.

2. Sub-recipient is required to ensure that grant monies are used to support all Emergency Service related agencies and departments, specifically law enforcement, fire and rescue. Senior officials of these agencies must sign this agreement and familiarize themselves with the rules and regulations governing each grant program. They are encouraged to work together in determining and prioritizing their needs and requirements prior to submitting their plan.

3. If the sub-recipient (organization/jurisdiction) expends $750,000 or more in federal funds (from all sources including pass-through sub awards) in the sub-recipient's (organization/jurisdiction) fiscal year (12-month turnaround reporting period) is required to have a single organization/jurisdiction wide audit conducted in accordance with 2 CFR 200.

4. All final requests for reimbursement must be received in the Mississippi Office of Homeland Security no later than 45 days after the period of performance.

5. Sub-recipient is required to complete EHP Review as required for Equipment Purchases and any type of Construction.

6. All sub-recipients (and or jurisdictions) must also maintain membership in the Emergency Management Assistance Compact (EMAC) to facilitate the mutual aid of capabilities in order to be eligible for Department of Homeland Security (DHS) grant funding and reimbursement of DHS grant funds.

7. **Effective October 1, 2010 ALL sub-recipients are required to have and furnish a Dun and Bradstreet Data Universal Numbering System (DUNS) number to the Mississippi Office of Homeland Security as a component of the Article IX. A DUNS number is the nine digit number established and assigned by Dun and Bradstreet, Inc (D&B) to uniquely identify business entities. If your jurisdiction does not have a DUNS number, one may be obtained from D&B by**

telephone (currently 866-705-5711) or the Internet (currently at http://fedgov.dnb.com/webform).
NO GRANT AWARD LETTER WILL BE ISSUED WITHOUT THE SUB RECIPIENT HAVING A DUNS NUMBER.

Article X. Monitoring

A. Management Decision

Management will evaluate audit findings, questioned costs and corrective action plans. The issuance of a written decision will be issued to the sub-recipient, which will entail whether or not the audit finding is sustained; the reasons for the decision; the expected action of the sub-recipient to repay any disallowed costs, make financial adjustments or take other actions; the reference number(s) the auditor assigned to each audit finding; and a description of any appeal process available to the sub-recipient regarding the management decision, as required by 2 CFR 200.521. If the sub-recipient has not completed corrective action, a timetable follow-up will be given.

B. Audit Review Follow-Up

- Contacts sub-recipient(s) for additional information as needed.

- Determines course of action for federal program audit findings, financial statement audit findings, negative disclosures (such as financial capacity concerns) and schedule of expenditures of federal awards deficiencies. Depending on the issue or combination of issues, procedures may be modified to ensure efficient and effective resolution.

- Updates the status of each audit review until all follow-up actions are completed and the file is closed.

Article XI. Execution

IN WITNESS WHEREOF, the parties names herein have duly executed this Cooperative Agreement on the date set forth below:

SUBRECIPIENT: CITY OF HATTIESBURG FIRE DEPARTMENT ATTEST:

By: _____ Date: 11/20/2018
Authorized Official

DUNS Number: 079448130

APPROVED: **State of Mississippi**

By: _____ Date: 10-17-18
Executive Director
Mississippi Office of Homeland Security

STATE HOMELAND SECURITY

GRANT PROGRAM

LOCAL HOMELAND SECURITY PROGRAM FISCAL YEAR 2018

TOTAL AWARD: **$10,000.00**

Allowable Equipment Costs

Allowable equipment categories for FY18 HSGP are listed on the web-based Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by ODP and the Oklahoma City National Memorial Institute for the Prevention of Terrorism (MIPT) at http://www.rkb.us. The website is designed to provide emergency responders, purchasers, and planners with a trusted, integrated, online source of information on products, standards, certifications, grants, and other equipment related information. By integrating this information, which includes the Inter-Agency Board's (IAB) Standardized Equipment List (SEL) and the AEL from ODP, into one location, responders, vendors, standards organizations, training facilities, and grant making organizations have a trusted first source to answering questions such as:

- What equipment is on the market?
- Has it been certified?
- If so, to what standard?
- What training is needed to use it effectively?
- Are there experts available for consultation and questions?

The FY18 HSGP, AEL is housed on the RKB and relies heavily on the SEL developed by the IAB for Equipment Standardization and Interoperability. The 2018 AEL has been modified to facilitate cross-referencing of the SEL in an effort to eliminate redundancy. Both the AEL and SEL are available on the RKB, which also offers an interactive version that provides links to corresponding SEL items and commercial products. In some cases, items on the SEL are not allowable under FY18 HSGP or will not be eligible for purchase unless specific conditions are met. In addition, some items eligible under this grant program are beyond the scope of the SEL and thus will only appear in the AEL.

Planning Costs Allowable

SHSP funds may be used for a range of homeland security planning activities, including the following:

Developing and implementing homeland security support programs and adopting DHS national initiatives including but not limited to the following:

- Costs associated with the implementation and adoption HSPD-8 initiatives
- Costs associated with the implementation and adoption of NIMS
- Costs associated with the modifying existing incident management and emergency operations plans to ensure proper alignment with the NRP coordinating structures, processes, and protocols
- Establishment or enhancement of mutual aid agreements
- Development of communications and interoperability protocols and solutions
- Conducting local, regional, and tribal program implementation meetings
- Developing or updating resource inventory assets in accordance to typed resource definitions issued by the NIC
- Design state and local geospatial data systems
- Development of related critical infrastructure terrorism prevention activities including:
    - o Planning for enhancing security during heightened alerts, during terrorist incidents and/or during mitigation and recovery
    - o Public information/education: printed and electronic materials, public service announcements, seminars/town hall meetings, web postings coordinated through local Citizen Corps Councils
    - o Citizen Corps activities in communities surrounding critical infrastructure sites, including Neighborhood Watch, VIPS, and other opportunities for citizen participation
    - o Evaluating CIP security equipment and/or personnel requirements to protect and secure sites
    - o CIP cost assessments, including resources (financial, personnel, etc.) required for security enhancements/deployments.

Develop and enhance plans and protocols, including but not limited to:

- Develop or enhance emergency operations plans and operating procedures
- Develop terrorism prevention/deterrence plans
- Develop plans, procedures, and requirements for the management of infrastructure and resources related to HSGP and implementation of State or Urban Area Homeland Security Strategies
- Develop or enhance border security plans
- Develop or enhance cyber security plans
- Develop or enhance cyber risk mitigation plans
- Develop or enhance agriculture/food security risk mitigation, response, and recovery plans
- Develop public/private sector partnership emergency response, assessment, and resource sharing plans
- Develop or update local or regional communications plans
- Development of plans to support and assist special needs jurisdictions, such as port authorities and rail and mass transit agencies
- Development or enhancement of continuity of operations and continuity of government plans
- Development or enhancement of existing catastrophic incident response and recovery plans to include and integrate federal assets provided under the NRP.

Develop or conduct assessments, including but not limited to:

- Conduct point vulnerability assessments at critical infrastructure sites/key assets and develop remediation/security plans
- Conduct cyber risk and vulnerability assessments
- Conducting assessments and exercises of existing catastrophic incident response and recovery plans and capabilities to identify critical gaps that cannot be met by existing local and state resources
- Activities which directly support the identification of specific catastrophic incident priority response and recovery projected needs
- Activities which directly support the identification and advance preparation of predesignated temporary housing sites; for example:
    - o Conducting assessments and studies to identify qualified candidate sites
    - o Obtaining accurate site surveys and existing utility information
    - o Coordinating zoning requirements and necessary permits and/or waivers
    - o Coordinating environmental impact requirements related to a selected site
    - o Coordinating historic preservation requirements related to a selected site.

Allowable Training Costs

Local jurisdictions may use HSGP funds to enhance the capabilities of state and local emergency preparedness and response personnel through development of a state homeland security training program. Allowable training-related costs under ODP grant programs include: 1) establishment of CBRNE terrorism and cyber security training programs within existing training academies, universities or junior colleges; and 2) overtime and backfill costs associated with attendance at ODP-sponsored and ODP approved CBRNE and cyber security training courses.

The target audience for training courses include emergency preparedness, prevention and response personnel, emergency managers and public/elected officials within the following disciplines: firefighters, law enforcement, emergency management, emergency medical services, hazardous materials, public works, public health, health care, public safety communications, governmental administrative, cyber security and private security providers. The homeland security training program should also include training for citizens in awareness, preparedness, prevention, response skills, and volunteer activities and be coordinated through state and local Citizen Corps Councils.
Local jurisdictions are encouraged to adopt current ODP awareness and performance level courses. In order to deliver these courses, state and local instructors must have been certified to deliver the course by successfully completing ODP train-the-trainer courses. Detailed descriptions of ODP courses are included in the *ODP CBRNE Training Course Catalog* at http://www.ojp.usdoj.gov/odp/docs/coursecatalog.pdf. Programs of instruction for these courses will be made available upon request to assist efforts to institutionalize these training programs at the state and local levels.

ODP will conduct periodic reviews of all state and urban area training funded by ODP. These reviews may include requests for all course materials and physical observation of participation in the funded training. If these reviews determine that courses are outside the scope of this guidance, recipients will be asked to reimburse grant fund expended in support of those efforts.

ODP provides the following definitions of key training terms to facilitate a common understanding of the FY18 HSGP guidance:

- **ODP Courses:** Those courses developed for and/or delivered by institutions and organizations funded by ODP.
- **Federal Courses Related to CBRNE Terrorism:** Those courses developed for and or delivered by institutions funded by federal entities other than ODP which fall within the ODP mission scope: of which is to prepare state and local personnel to prevent, respond to, and recover from acts of terrorism involving CBRNE weapons.
- **Non-Federal Courses:** Those courses developed for and or delivered by institutions or organizations other than federal entities or ODP.

In addition, local jurisdictions shall follow accepted principles of instructional systems design, employing the Analysis, Design, Development, Implementation, and Evaluation (ADDIE) model or equivalent methodologies. (The ADDIE process is explained in greater depth in the *ODP Blended Learning Strategy* available on the ODP website at: http://www.ojp.usdoj.gov/odp/blendedlearning.) Local jurisdictions shall apply these methodologies to ensure that complete curriculum exists for training funded by ODP grant. Complete curriculum consists of:

• **Level of Training.** The state or urban area will identify the level(s) of training of the course(s) and materials submitted. Each submission must be identified as Awareness, Performance–Defense (Occupational Safety and Health Administration (OSHA) Operations), Performance–Offensive (OSHA Technician), or Planning/Management (OSHA Incident Command) levels. More detailed descriptions of the levels can be found at http://www.ojp.usdoj.gov/odp/training.htm or http://www.osha.gov.

• **Program of Instruction/Syllabus.** The program of instruction or syllabus is an outline or matrix of the course content. It addresses the scope of the training, course learning objectives, duration of the training (broken-down by module, session, or lesson), resource requirements, instructor to student ratio and an evaluation strategy. These items are not all-inclusive, but are the minimum categories that should be addressed.

• **Training Support Package.** The training support package includes all of the materials associated with the delivery of a training course. The following items should be included:

  o **Instructor Guide/Instructor Outline/Instructor Lesson Plans:** The published instructor material that contains course text and special instructor notes that provides the information to deliver the material

- **Participant Manual/Guide/Workbook**: The published student material that contains the supporting information in booklet or handout form that the participant has available for reference
- **Audio/Visual Support Materials:** Any audio/visual components that are part of any learning module, session, lesson, or that supports the overall training being delivered
- **Special Support Materials:** Any descriptions of practical exercises, tabletop exercises, hands-on exercises, or other material that supports learning objectives

• **Module/Session/Lesson Content.** Training courses should be designed based on a building block approach. Each sub-component in the course should be titled as a module, session, or lesson. Regardless of the title, each module, session, or lesson, should have a Lesson Administration Page that outlines the following:

- **Scope Statement:** A brief description of the content of the module, session or lesson
- **Terminal Learning Objectives:** An action verb statement that outlines what the participant is expected to learn or be capable of performing at the conclusion of the module, session, or lesson. There should be only one terminal learning objective per module, session, or lesson
- **Enabling Learning Objectives:** Enabling learning objectives are the incremental learning objectives that support the terminal learning objective. There should be at least one enabling learning objective per module, session or lesson. Each enabling learning objective must be a measurable performance statement that enables the participant to demonstrate achievement of the terminal learning objective
- **Resource List:** A listing of the resources needed to successfully accomplish the module, session, or lesson
- **Instructor to Participant Ratio:** The instructor to participant requirement for successful presentation of the material (e.g., 1:25)
- **Reference List**: A listing of all reference materials used to develop the module, session, or lesson (This information may also be included as a bibliography).
- **Practical Exercise Statement:** This describes any exercises associated with the module, session, or lesson
- **Evaluation Strategy:** This defines the strategy used to evaluate the module, session, or lesson (e.g., written and/or performance test).

Conditional Approvals of Non-ODP Courses. In contrast to FY04, no conditional approvals, in advance of an independent third-party subject matter expert (SME) review, will be granted in FY18 for use of ODP funds to develop or institutionalize non-ODP courses. ODP will require local jurisdictions to adhere to a streamlined course approval process. Please see *Appendix E: Overview of Approval Process for Non-ODP Developed Courses* for more information. Courses will either be approved or disapproved following this review process.

Attending Other Federal Courses Related to CBRNE Terrorism. Local jurisdictions are no longer required to submit requests for personnel to attend certain Federal courses that fall within the ODP mission scope of preparing state and local personnel to prevent,

respond to, and recover from acts of terrorism involving CBRNE weapons. In lieu of requesting approval, local jurisdictions will be required to submit information on all federal training they are supporting with ODP funds via the Training section of the ODP website (http://www.ojp.usdoj.gov/odp/training.htm). This information will consist of course title, level of the training, the training provider, the date of the course, the number of individuals to be trained, and the sponsoring jurisdiction.

Several broad categories of courses will automatically be included in the list of eligible federal courses:

- All NIMS training approved by the NIMS Integration Center (NIC) is eligible for use of ODP funds.
- All Incident Command System (ICS) training offered through the National Fire Academy and the Emergency Management Institute is eligible for use of ODP funds. This guidance applies to resident training, train-the-trainer, and field delivery of courses.

A list of federal courses that fall within the ODP mission scope is included in *Appendix F: Federal Training Course List.*

These courses must build additional capabilities that 1) meet a specific need identified through the homeland security assessment process, and 2) comport with the State or Urban Area Homeland Security Strategy.

Federal funds must be used to supplement—not supplant—existing funds that have been appropriated for the same purpose. Thus, if the state or urban area has already budgeted for personnel to attend courses, ODP funds may only be used to send additional individuals above and beyond those previously budgeted.

Eligibility of Hazardous Materials Courses. Hazardous materials courses, including basic, operations, and technician level courses, are eligible for support through ODP funds **only if the course *fully* addresses the hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*.** If the hazardous materials course does ***not fully*** address the hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, then the course is not considered an allowable use of ODP funds.

The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.

Eligibility of Search and Rescue, Special Weapons and Tactics (SWAT), and Medical Trauma Courses. On September 1, 2004, ODP issued Information Bulletin #132 on the

Interagency Security Plan, available at http://www.ojp.usdoj.gov/odp/docs/bulletins.htm. In this bulletin, ODP expanded the allowable use of grant funds to support additional training in the areas of search and rescue, SWAT, and medical trauma provided certain requirements were met. The following sections provide further detail on these initiatives.

• *Eligibility of Search and Rescue Courses:* Local jurisdictions shall conduct search and rescue training in compliance with:

- o NFPA 1670, *Standard on Operations and Training for Technical Rescue and Search Incidents*
- o NFPA 1006, *Standard for Rescue Technician Professional Qualifications* Only Urban Search and Rescue (USAR) courses approved by FEMA and delivered by FEMA-certified providers are eligible for use of ODP funds. A list of these courses and providers will be maintained by ODP in coordination with FEMA.

The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.

If the basic, foundational USAR course fully addresses the fire service and or hazardous materials sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational USAR course does **not** fully address these sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, then the student must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the USAR course to be considered an allowable use of ODP funds.

These USAR courses are intended to build a critical capacity at the state and local levels. **The execution of this training in the stated capacity-building context is unrelated to designation of national USAR teams. Therefore, local jurisdictions and UASI jurisdictions may not request such designation based on training.**

• *Eligibility of SWAT Courses:* SWAT courses, including basic, foundational courses, are eligible for support through ODP funds, provided that the training meets the following requirements:

- o The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.
- o Local jurisdictions shall conduct training in compliance with state and local regulations and policies governing the certification of SWAT personnel.

- Trainees shall be sworn officers and shall have completed a Basic SWAT school accredited by the appropriate state-level criminal justice organization.
- Training shall be conducted by instructors certified by a state or national level criminal justice organization
- The State or Urban Area shall develop and implement a safety plan excluding service ammunition and weapons from the training site and shall not employ live chemical agents (to include OC) or impact weapons during the training
- If a foundational SWAT course fully addresses the law enforcement sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence*, no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational SWAT course does **not** fully address the law enforcement sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* then the student must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the foundational SWAT course to be considered an allowable use of ODP funds.

• *Eligibility of Medical Trauma Courses:* Medical trauma courses—including basic, foundational courses—are eligible for support through ODP funds, provided that the training meets the following requirements:

- The training must not supplant existing resources, but rather must build additional capabilities above and beyond those that currently exist. Any additional capabilities pursued through these training opportunities must meet a specific need identified through the homeland security assessment process and must comport with the State or Urban Area Homeland Security Strategy.
- Local jurisdictions shall conduct training in compliance with NFPA 473, *Standard Competencies for EMS Personnel Responding to Hazardous Materials Incidents.*
- Local jurisdictions shall conduct training in compliance with state and local regulations and policies governing the certification of EMS providers.
- Local jurisdictions shall coordinate their efforts with the closest MMRS jurisdiction.
- Trainees shall have completed a basic Emergency Medical Technician (EMT) certification per the state or local accreditation requirements. This type of training may not be funded with ODP monies.
- If a foundational medical trauma course fully addresses the emergency medical services sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* no additional CBRNE-specific training is necessary for eligibility purposes. However, if the foundational medical trauma course does **not** fully address the emergency medical services sections included in the *ODP Emergency Responder Guidelines* and the *ODP Homeland Security Guidelines for Prevention and Deterrence,* then the student Must also complete follow-on CBRNE awareness training within a reasonable timeframe in order for the foundational medical trauma course to be considered an allowable use of ODP funds.

Evaluation of ODP Training Courses. The goal of evaluating ODP training courses is to determine how much a participant's knowledge, skills, and abilities change after completion of a course relative to knowledge, skills, and abilities prior to the class. ODP utilizes a self-assessment methodology and collects information via a standardized evaluation form. The form is designed to gather data about the course and participant, including data such as the participant's professional discipline and years of service. Additionally, the evaluation measures the participant's knowledge relative to a set of standardized learning objectives both before and after taking the course.

If a state or local jurisdiction uses ODP funds to provide ODP-approved courses, the state or local jurisdiction must use the standard evaluation form to collect data about the course and its participants. An ODP-approved course is defined as one developed by the state or local jurisdiction and approved by ODP for delivery. If the state or local jurisdiction receives training through its ODP course allocation, the training partner delivering the course is responsible for data collection and entry. Similarly, if the state or local jurisdiction enters into a direct contract with one of the ODP training partners, training partner is still responsible for the data collection and entry function.

However, if the ODP-sponsored course is delivered by a state or local organization, the course provider is responsible for collecting data on the course and its participants. As part of the course approval process, the course developer establishes a set of course objectives directly tied to the course content. The objectives are incorporated into the standardized course evaluation form. Course participants are required to complete all fields and the course instructor is responsible for ensuring that all forms are complete. Course providers are granted access to and enter data into the ODP Secure Portal. Costs related to developing and administering the self-assessment and collecting information via a standardized evaluation form is allowable.

Allowable Exercise Costs

Exercises conducted with ODP support (grant funds or direct support) must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Volumes I-III contain guidance and recommendations for designing, developing, conducting, and evaluating exercises. HSEEP Volumes I-III can be found at ODP's website at http://www.ojp.usdoj.gov/odp/exercises.htm. Volume IV, which contains sample exercise materials and documents, can be found on ODP's Secure Portal at https://odp.esportals.com or http://www.llis.gov.

Exercise Planning Workshop. Local jurisdictions must conduct an annual Exercise Planning Workshop (EPW) to examine the progress and effectiveness of their current exercise strategy and program. A Multiyear Exercise Plan and schedule must be produced from the EPW and submitted through ODP's Secure Portal Exercise Scheduler located at https://odp.esportals.com. Refer to HSEEP Volume III, Chapter 2 for further guidance on EPWs and the Multiyear Exercise Plan and schedule.

Exercise Scenarios. The scenarios used in SHSP, UASI, and LETPP-funded exercises must be terrorism-related and based on the state's/urban area's homeland security strategy and plans. Acceptable scenarios for exercises include: chemical, biological, radiological, nuclear, explosive, cyber and agricultural. Recipients that need further clarification on scenarios should consult with their ODP Exercise Manager for assistance and/or approval. Fifteen all-hazards National Planning Scenarios, including twelve terrorism scenarios, have been developed, and will be made available for use in national, federal, state, and local homeland security preparedness activities. Citizen participation in exercises is encouraged to include back filling non-professional tasks for first responders deployed on exercise, administrative and logistical assistance with exercise implementation, and providing simulated victims, press, and members of the public. Citizen participation in exercises should be coordinated with local Citizen Corps Council(s).

Recipients that wish to expend funds on models, simulations, or games (MS&G) must consult with "Review of Models, Simulations, and Games for Domestic Preparedness Training and Exercising, Volume III," which provides an overview and analysis of existing models, simulations and games. This report is available at http://www.ojp.usdoj.gov/odp/exercies.htm

Recipients must justify the purchase and use of a given MS&G product/service, by a) documenting the training and/or exercise objective(s), b) documenting how the selected product/service will support those objectives, and c) justification for the chosen product category (potentially referring to Volume III benefits/limitations). The form for this justification can be found at http://www.ojp.usdoj.gov/odp/exercises.htm.

If a state or urban area will be hosting an upcoming special event (e.g., Superbowl, G-8 Summit, etc.), or they anticipate that they will apply to be a venue for a future Top Officials (TOPOFF) exercise, they should plan to use SHSP or UASI funding to fund training and exercise activities in preparation for that event.

All tabletop exercises (TTXs), drills, functional exercises (FEs), and full-scale exercises (FSEs) will be evaluated and performance based. An After Action Report (AAR) and Improvement Plan will be prepared and submitted to DHS/ODP following every TTX, drill, FE, and FSE. AAR/IPs must be provided to ODP within 60 days following completion of each exercise (see HSEEP Volume II, Appendix A). Currently, these AAR/IPs can be submitted through the ODP Secure Portal. However ODP is working with other agencies to develop a national reporting system. ***A state or local jurisdiction that conducts an exercise using SHSP, UASI, and LETPP funds must follow the HSEEP doctrine and protocol contained in Volume II.***

Local jurisdictions are encouraged to develop a self-sustaining State Homeland Security Exercise and Evaluation Program which is modeled after the national HSEEP. This may include, for example: hiring dedicated exercise program staff, awareness seminars on HSEEP, attending exercise training courses, and maintaining a system to track the completion and submission of AARs and Improvement Plans from exercises (including costs associated with meeting with local units of government to define procedures).

Allowable Management and Administrative Costs

All programs within HSGP have allowable M&A costs for both the state-level as well as the local unit of government, urban area, or designated sub-recipient.

- **SHSP, UASI, LETPP, CCP, MMRS:** No more than ***5% of the total amount*** allocated to the state for each program within HSGP may be retained at the state level and used for M&A purposes. These state M&A funds must be included in the total funds retained by the state. In addition, local jurisdiction sub-recipients may retain and use up to ***5% of their sub-award*** for local M&A purposes.

Unauthorized Program Expenditures

Unauthorized program expenditures include: 1) expenditures for items such as general use software (word processing, spreadsheet, graphics, etc), general-use computers (other than for allowable M&A activities, or otherwise associated preparedness or response functions) and related equipment, general-use vehicles, licensing fees, weapons systems and ammunition; 2) activities unrelated to the completion and implementation of the SHSP; 3) other items not in accordance with the Authorized Equipment List or previously listed as allowable costs; and, 4) construction or renovation of facilities.

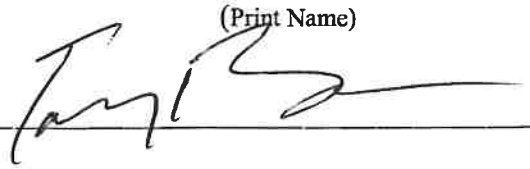
Designation of Sub-recipient Grant Administrator (SGA) STATE HOMELAND SECURITY PROGRAM

The following person is officially appointed to represent your jurisdiction as the *Sub-recipient* Grant Administrator (SGA) and is hereby duly authorized to fulfill the terms of this Cooperative Agreement during the performance period on behalf of the *Sub-recipient.*

Name: Chris Carr (Sub-recipient Grant Administrator) Title: Director of Training

Organization Name: City of Hattiesburg Fire Department

Mailing Address: 53 Academy Drive



City: Hattiesburg Zip Code 39401

Telephone Number: (601) 545-4650 Fax Number: ( )

Cellular Number: ( ) Pager Number: ( )

MEMORANDUM OF UNDERSTANDING

This document constitutes a MEMORANDUM OF UNDERSTANDING (MOU) made and entered into, among Pearl River Community College, herein referred to as PRCC, the City of Hattiesburg, herein referred to as COH, and Southern Mississippi Planning and Development District, Inc., herein referred to as SMPDD.

The MOU promotes higher education opportunities at PRCC for eligible participants who reside in the City of Hattiesburg. An annual allocation not to exceed $20,000.00 will be sent from the COH to SMPDD and then to PRCC to be used for a specified economic development program, i.e., tuition assistance to eligible participants who reside in the City of Hattiesburg, in accordance with authorizing statutes, including but not limited to, Mississippi Code 17-19-1. See also Mississippi Attorney General's opinion 2011-00078.

The PRCC City Tuition Assistance Program (CTAP) will provide tuition for four consecutive semesters of higher education at PRCC. Through the CTAP program, applicants may pursue any degree or certificate offered at PRCC. There will be no income requirement on the grant being offered. Non-tuition related expenses such as supplies, books, fees and room and board are not included in the tuition assistance program. SMPDD shall serve as a fiscal agent for the CTAP program, with no other programmatic or administrative duties.

High School Equivalency (HSE) certificate recipients that are residents of the City of Hattiesburg are also eligible. These students must matriculate into the credit bearing classes during the semester immediately following the completion of the HSE certificate or the very next semester when the desired program is scheduled to begin. Proof of residency may be required. Participation in this program is contingent upon the availability of program funding. Award amounts are subject to change. The CTAP amount is a possible maximum of the current cost of tuition.

All students must complete the CTAP application prior to receiving any tuition assistance. All CTAP awards will be based on other aid received and are subject to CTAP program guidelines.

This Memorandum of Understanding shall be effective upon the signatures of all parties.

Grantee, the following described property lying and being situated in Hattiesburg, Forrest County, Mississippi, and more particularly described on Exhibit A attached hereto:

(SEE EXHIBIT "A")

Forrest County
Tax Parcel No.: 2-038H-15-195.00
PPIN: 26860

To the extent permitted by law, the Grantee herein accepts the responsibility for any environmental issues related to the subject property except for any environmental issues caused by the Grantor.

The above property is conveyed "as is" "where is" and without benefit of a survey or title opinion and the granter and grantee are aware of this. The Grantee acknowledges that it is accepting the property solely in reliance on Grantee's own investigation, and the property is in "as is" "where is" condition with all faults and defects, latent or otherwise. Grantee expressly acknowledges that, in consideration of the agreement of Grantor herein, and except as otherwise specified herein, Grantor makes and has made no representations or warranties, express or implied, or arising by operation of law, including, but not limited to, any warranty as to condition, merchantability or fitness for a particular use or purpose, with respect to the property or any matter related thereto.

Grantee fully releases and discharges Grantor from and relinquishes all rights, claims and actions that Grantee may have or acquire against Grantor which arise out of or are in any way connected with the condition or the property, including without limitation (a) any matter set forth in the previous paragraphs, (b) the presence of hazardous materials on, under or about any part of the property (including, but not limited to any undiscovered hazardous materials located beneath the surface of the property), and (c) violations of any hazardous materials laws pertaining to the property or the activities thereon. This applies to all described rights, claims and actions, whether known or unknown, foreseen or unforeseen, present or future. The provisions of this section shall be effective as of the date of signing of this document and shall survive the termination date of this agreement.

Said property is not a part of the homestead of the grantor.

The Property is conveyed subject to all easements, roadways, servitudes, restrictive covenants and oil, gas and other mineral reservations, exceptions, conveyances, leases and other matters of record.

It is further understood and agreed by the parties that, if and when the Grantee demolishes any current structures on the Property, it will leave intact the former interior wall that is currently supporting the Grantor's warehouse, so the said wall will remain and serve as the warehouse's exterior wall.

It is further understood and agreed that this instrument constitutes the entire agreement between the Grantors and the Grantee, there being no oral agreements or representations of any kind.

WITNESS MY SIGNATURE on this, the ____ day of _____, 2018.

c/o Lamar Rutland
P.O. Box 1898,
Hattiesburg, MS 39401

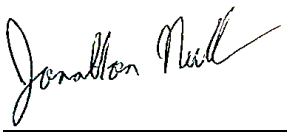
Re: 2.40 acres located at 1300 Edwards Street, Hattiesburg, Forrest County, MS

Dear Mr. Lamar,

At your request and authorization, I have completed a real estate appraisal of the above referenced property. The property has been inspected, and an investigation of the current real estate market has been completed. All property rights were appraised, the purpose of which was to estimate the property's "Market Value." Based on my investigation, it is my opinion that the market value of the Fee Simple interest of the above referenced property as of March 27th, 2018 is:

INDICATED "AS-IS" VALUE			
Parcel A	2.22 acres	$15,000/acre	$33,300
Parcel B	0.18 acres	$10,000/acre	$1,800

The property is improved with a large manufacturing building, a large concrete base/ pad, with supporting streel structure. During this report, I questioned Lamar Rutland, City engineer in regards to any potential salvage value in the remaining structure. Mr. Rutland stated that he was not aware of any salvage value and stated that no salvage value report had been done.



On March 30th, 2018, I emailed Southern Recycling and Demolition in regards to any salvage value that may exist on the site. I received a return response from Southern Recycling on April 5th, 2018. I also spoke with Southern Recycling via telephone on April 5th, 2018.

Southern recycling stated a demolition charge of $150,000 was estimated, with a residual salvage value of $25,000, after the cost of demolition considered. However, Southern Recycling stated that the demolition charge of $150,000 did not included the entire concrete slab, and the remaining demolition would most likely cost the residual salvage value of $25,000. Based on our email correspondence and phone conversations, there appears to be no salvage value, with any salvage value being generally offset by the demolition charge. Therefore, I have considered that any salvage value would offset the demolition charge, and I have valued the property as land only- with no value to the buildings.

I am not an expert in salvage value, demolition cost, remediation costs, manufacturing plant salvage values, etc. Therefore, I make no warranty as to there being any salvage value or guarantee to the demolition charges. I have used the email correspondence and conversations to derive a value opinion only. The use of the demolition charge or salvage value conclusions should not be used by the potential buyer or seller, without further investigation. It is understood that the seller or buyer will conduct their own salvage value investigation to verify the statements above.

This is appraisal is intended to comply with the Uniform Standards of Professional Appraisal Practice. The appraisers certify that they are competent to document this assignment.

Respectfully submitted,

Jonathon Null, MAI

APPRAISER'S CERTIFICATION

I certify, to the best of my knowledge and belief…

1. The statements of fact contained in this report are true and correct.

2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased professional analyses, opinions and conclusions.

3. I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest or bias with respect to the parties involved.

4. My compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.

5. My analyses, opinions, and conclusions were developed, and this has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.

6. Jonathon Null has made a personal inspection of the property that is the subject of this report.

7. No one provided significant professional assistance other than the person(s) signing this report.

8. The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and Standards of Professional Practice of the American Institute.

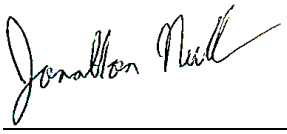
9. I certify that the use of this report is subject to the requirements of the Appraisal Institute relating to reviews by its duly authorized representatives.

10. This appraisal assignment was not based on a requested minimum valuation, a specific valuation or the approval of a loan.

11. As of the date of this report, I have completed the Standards and Ethics education requirements for (Candidates or Practicing Affiliates) of the Appraisal Institute.

12. As of the date of this report, I Jonathon Null have completed the continuing education program for Designated Members of the Appraisal Institute.

13. This property was previously appraised by Jonathon Null in April of 2018. The report prepared in September of 2018 is a revision of this previous report.



INDICATED "AS-IS" VALUE			
Parcel A	2.22 acres	$15,000/acre	$33,300
Parcel B	0.18 acres	$10,000/acre	$1800

The property is improved with a large manufacturing building, a large concrete base/ pad, with supporting streel structure. During this report, I questioned Lamar Rutland, City engineer in regards to any potential salvage value in the remaining structure. Mr. Rutland stated that he was not aware of any salvage value, and stated that no salvage value report had been done.

On March 30th, 2018, I emailed Southern Recycling and Demolition in regards to any salvage value that may exist on the site. I received a return response from Southern Recycling on April 5th, 2018. I also spoke with Southern Recycling via telephone on April 5th, 2018.

Southern recycling stated a demolition charge of $150,000 was estimated, with a residual salvage value of $25,000, after the cost of demolition considered. However, Southern Recycling stated that the demolition charge of $150,000 did not included the entire concrete slab, and the remaining demolition would most likely cost the residual salvage value of $25,000. Based on our email correspondence and phone conversations, there appears to be no salvage value, with any salvage value being generally offset by the demolition charge. Therefore, I have considered that any salvage value would offset the demolition charge, and I have valued the property as land only- with no value to the buildings.

I am not an expert in salvage value, demolition cost, remediation costs, manufacturing plant salvage values, etc. Therefore, I make no warranty as to there being any salvage value or guarantee to the demolition charges. ASSUMPTIONS AND LIMITING CONDITIONS

The appraisal report has been made subject to the following general assumptions and limiting conditions:

1. Title to the property is assumed to be merchantable, unless otherwise stated, and no responsibility is taken for the legal description or for matters of legal or title consideration.

2. The appraisal assumes the property to be free of any liens or encumbrances and is analyzed as though free of indebtedness unless otherwise stated.

3. The appraisal assumes responsible and competent ownership and management of the subject property.

4. The information furnished by others and contained in the appraisal report is considered reliable and correct. However, no responsibility is assumed for its accuracy.

5. Any plot plans, sketches, drawings, or other exhibits in this report are included only to assist the reader in visualizing the property. The utilization of the land and improvements is assumed to be within the boundaries of the property described and that there are no encroachments unless otherwise stated in the report. No survey has been made for this report and any responsibility for such is assumed.

6. The site is assumed to be free of adverse soil conditions that would, in any way, affect the value of the property. No liability is assumed for these conditions or for engineering studies necessary to discover them.

7. Complete compliance with all federal, state, and local environmental regulations and laws are assumed, unless otherwise stated, defined, and considered in the appraisal report. The property was previously used as a large manufacturing plant, which has been closed

for an extended period. No environmental report was provided to the appraiser, and no known environmental conditions exist. For the purposes of this report, I have assumed that no environmental conditions or hazardous materials remain from the previous manufacturing operation.

8. Complete compliance with all applicable zoning and use regulations are assumed, unless otherwise stated, defined, and considered in the appraisal report.

9. The appraisal assumes that all required licenses, certificates, consent, or other legislative or administrative authority from any federal, state, or local government or private entity, has been or can be renewed for the use upon which the estimate of market value contained in this report is based.

10. Any distribution of the estimated market value contained in this appraisal report between land and improvements, applies only under the utilization program stated in the report. The separate allocations for land and improvements must not be used in conjunction with any other appraisal report or market study and, if used in this manner, are invalid.

11 .Possessors of this report have no right of publication of it, and it may not be used for any purpose by any other person other than the person to whom it is addressed without written permission of the appraiser and, in the event of proper written permission, only in its entirety.

12. Employment and authorization to conduct this appraisal and the resulting appraisal report do not require further consultation or court testimony unless mutually satisfactory arrangements are made in advance.

13. This report, either all or in part, especially any value conclusions or reference to the identity of the appraiser or the firm with which the appraiser is associated, will not be disseminated to the public through advertising, public relations, news, sales, or other means without prior written consent of the appraiser.

NOTICE REGARDING HAZARDOUS WASTES OR SUBSTANCES AND UNDERGROUND STORAGE TANKS

Comprehensive federal and state laws and regulations have been enacted in the last few years in an effort to develop controls over the use, storage, handling, cleanup, removal and disposal of hazardous wastes or substances. Some of these laws and regulations, such as the so called "Superfund Act," provide for broad liability schemes wherein an owner, tenant or other user of the property may be liable for cleanup costs and damages regardless of the fault. Other laws and regulations set standards for the handling of asbestos or establish requirements for the use, modification, abandonment, or closing of underground storage tanks.

It is not practical or possible to list all such laws and regulations in this Notice. Therefore, owners, buyers, tenants, and lenders involved with the property which is the subject of this report, and any other user and/or users of this report are urged to consult legal counsel to determine their respective rights and liabilities with respect to the proposed transaction involving the subject of this appraisal. If hazardous wastes or substances have been, or are going to be used, or if underground storage tanks are present, it is essential that legal and technical advice be obtained in determining, among other things, what permits and approvals have been or may be required, if any, estimated costs and expenses associated with the use, storage, handling, cleanup, removal or disposal of the hazardous wastes or substances, and what contractual provisions and protections are necessary or desirable. It may also be important to obtain expert assistance for site investigations and building inspections. The past uses of the property typically provide valuable information as to the likelihood of hazardous wastes or substances, or underground storage tanks being on the property. The subject site is the centralized center of operations for the Warren Paving operation, and appears to have both underground and aboveground storage tanks of varying sizes, along with pumping systems at several locations.

The Appraisers have not made investigations or obtained reports regarding the subject matter of this Notice, except as may be specifically described within the body of this appraisal. The Appraisers made no representations

regarding the existence or nonexistence of hazardous wastes or substances or storage tanks on the property. The user and/or users of this report should contact a professional, such as a civil engineer, geologist, industrial hygienist or other persons with experience in these matters to provide advice concerning the property.

The term "hazardous wastes or substances" are used in this Notice in its broadest sense and includes, but is not limited to, petroleum base products, paints and solvents, lead, cyanide, DDT, printing inks, acids, pesticides, ammonium compounds, asbestos, PCB's and any storage tanks that may be present on all types of real property. This Notice is therefore meant to apply to any type of real property, whether improved or unimproved.

POTENTIAL SALVAGE VALUE

The property is improved with a large manufacturing building, a large concrete base/ pad, with supporting streel structure. During this report, I questioned Lamar Rutland, City engineer in regards to any potential salvage value in the remaining structure. Mr. Rutland stated that he was not aware of any salvage value and stated that no salvage value report had been done.

On March 30th, 2018, I emailed Southern Recycling and Demolition in regards to any salvage value that may exist on the site. I received a return response from Southern Recycling on April 5th, 2018. I also spoke with Southern Recycling via telephone on April 5th, 2018.

Southern recycling stated that a demolition charge of $150,000 was estimated, with a residual salvage value of $25,000, after the cost of demolition considered. However, Southern Recycling stated that the demolition charge of $150,000 did not included the entire concrete slab, and the remaining demolition would most likely cost the residual salvage value of $25,000. Based on our email correspondence and phone conversations, there appears to be no salvage value, with any salvage value being generally

offset by the demolition charge. Therefore, I have considered that any salvage value would offset the demolition charge, and I have valued the property as land only- with no value to the buildings.

I am not an expert in salvage value, demolition cost, remediation costs, manufacturing plant salvage values, etc. Therefore, I make no warranty as to there being any salvage value or guarantee to the demolition charges. I have used the email correspondence and conversations to derive a value opinion only. The use of the demolition charge or salvage value conclusions should not be used by the potential buyer or seller, without further investigation. It is understood that the seller or buyer will conduct their own salvage value investigation to verify the statements above.

SUMMARY OF SALIENT FACTS AND CONCLUSIONS

LOCATION: The property is located at 1300 Edwards Street, Hattiesburg, Mississippi.

CURRENT OWNERSHIP: The current owners are Hattiesburg Area Habitat for Humanity according to the Tax Assessor's website and is listed as PPIN 26860/45338

PPIN	Owner	Size	Comments
26860	Hattiesburg Area Habitat for Humanity	2.22 Ac	Large Manufacturing Building
45338 (portion)	Hattiesburg Area Habitat for Humanity	0.18 Ac	Vacant Land

IMPROVEMENT DATA: The property is improved with several abandoned manufacturing buildings that have not been used in many years. The buildings are in various states of decay, and they do not appear to have any remaining economic life.

The value stated in this report is the land value only.

PURPOSE OF REPORT The purpose of this report is to formulate and express an estimate of the market value of the subject property as defined by FDIC Regulation 12 CFR Part 323.2(f). It is understood that the intended use of this report is for loan underwriting purposes.

PROPERTY RIGHTS APPRAISED: Fee Simple

CLIENT/INTENDED USER: The intended user of this report is City of Hattiesburg, and their duly authorized agents.

INTENDED USE: The intended use of this report is for loan underwriting and/or credit decisions by the client and/or participants. The intended use of this report has not affected the appraisal process nor any of the data used in this report.

CURRENT USE Abandoned manufacturing building

DATES OF INSPECTION: March 27th, 2018

DATE OF REPORT: October 3rd , 2018

EFFECTIVE DATE OF VALUATION: March 27th, 2018

MARKET VALUE:

INDICATED "AS-IS" VALUE			
Parcel A	2.22 acres	$15,000/acre	$33,300
Parcel B	0.18 acres	$10,000/acre	$1,800

SCOPE OF WORK The Scope of Work included:

a) an inspection of the subject property and the research and collection of data pertaining to recent economic development and real estate sales activity in Hattiesburg, Mississippi, as well as other parts of the region. The Sales Comparison approaches to value were used. Information was collected from courthouse records, files of reliable real estate professionals, property owners and developers, the search of public records through the use of commercial sources of data such as printed comparable data services and computerized databases. Search parameters such as dates of sales, leases, locations, sizes, and types of properties were started with relatively narrow constraints and, if necessary, were expanded until the appraiser had either retrieved data sufficient (in the appraiser's opinion) to estimate market value, or until the appraiser believed that he had reasonably exhausted the available pool of data. Efforts were made to verify the data with persons directly involved in the transactions such as buyers, seller, brokers, or agents. At the appraiser's discretion, some data were used without personal verification if, in the appraiser's opinion, the data appeared to be correct. In addition, the appraiser considered any appropriate listings or properties found through observation during appraiser's data collection process. The appraiser reported only the data deemed to be pertinent to the valuation problem;

b) has investigated and analyzed any pertinent easements or restrictions, on the Fee Simple ownership of the subject property. It is the client's responsibility to supply the appraiser with a title report. If a title report is not available, the appraiser will rely on a visual inspection and identify any readily apparent easements or restrictions;

c) has analyzed the data found and has reached conclusions regarding the market value, as defined in the report, of the subject property as of the date of value using appropriate valuation approach(es) identified above;

d) has prepared the appraisal in compliance with the Uniform Standards of Professional Appraisal Practice as promulgated by The Appraisal Foundation and the Code of Professional Ethics and Certification Standard of the Appraisal Institute;

e) has prepared a Summary Appraisal Report, as defined in USPAP, which includes photographs of the subject property, descriptions of the subject neighborhood, the site, and any improvements on the site, a description of the zoning, a highest and best use analysis, a summary of the most important sales used in the appraiser's valuation, a reconciliation and conclusion, and other data deemed by the appraiser to be relevant to the assignment. Pertinent data and analyses not included in the report may be retained in the appraiser's files.

f) This appraisal report is an estimate of market value of the property, assuming quality materials, workmanship and properly functioning equipment and mechanics of the building. It does not serve as a home or building inspection, structural inspection, environmental or pest inspection. In preparing this report, the appraiser is not acting as a home or building inspector, engineer, surveyor, or pest inspector. In performing the limited inspection of this property, areas that were readily accessible were visually observed and the review is superficial only. This inspection is not technically exhaustive and does not offer warranties or guarantees of any kind. It is advised to have the structure inspected by an inspector or other suitable

professional that offers such warranted or guaranteed inspection of the structural, environmental aspects, or other areas of concern.

EXTENT OF INSPECTION

The subject property and neighborhood have been inspected and its characteristics and trends in development observed. All inspections and data collections were completed by Jonathon Null on March 27th, 2018. This included an interior and exterior visual inspection of the subject's readily accessible areas and an inspection of the general area. A revised report was requested by the client in September of 2018. A new site inspection was not performed for this revision. The property was assumed to be in similar condition and use.

APPRAISAL HISTORY

This property was previously appraised by Jonathon Null in April of 2018. The report prepared in September of 2018 is a revision of this previous report.

COMPETENCY

The appraisers responsible for this appraisal report certify that we are competent to appraise property in the Hattiesburg area. This firm has appraised numerous retail, restaurant, office and industrial properties in the past. In the course of preparing this appraisal, we have searched the local and regional market for information pertaining to these type properties and to the conditions of the overall market. Therefore, through association, prior appraisal history and knowledge, current research and inspections, we certify that we are competent to appraise the subject property.

MARKETING PERIOD

In applying the market value definition of this appraisal, a reasonable exposure time of 24-48 months has been estimated. In arriving at this estimate we have considered the local economy and supply and demand; information gathered through comparable sales verification; and interviews with knowledgeable market participants. These individuals included real estate agents and brokers, bank loan officers and economic development officials.

Marketing time, however, is an estimate of the amount of time it takes to sell a property interest at the estimated market value during the period after the effective date of the appraisal. An estimate of marketing time is not intended to be a prediction of a date of sale. It is inappropriate to assume that the value as of the effective date of an appraisal remains stable during a marketing period. Additionally, the appraiser(s) have considered market factors external to this appraisal report and have concluded that a reasonable marketing time for the subject is 24-48 months.

EXTRAORDINARY ASSUMPTIONS

Southern recycling stated that a demolition charge of $150,000 was estimated, with a residual salvage value of $25,000, after the cost of demolition considered. However, Southern Recycling stated that the demolition charge of $150,000 did not included the entire concrete slab, and the remaining demolition would most likely cost the residual salvage value of $25,000. Based on our email correspondence and phone conversations, there appears to be no salvage value, with any salvage value being generally offset by the demolition charge. Therefore, I have considered that any salvage value would offset the demolition charge, and I have valued the property as land only- with no value to the buildings.

I am not an expert in salvage value, demolition cost, remediation costs, manufacturing plant salvage values, etc. Therefore, I make no warranty as to there being any salvage value or guarantee to the demolition charges. I have used the email correspondence and conversations to derive a value opinion only. The use of the demolition charge or salvage value conclusions should not be used by the potential buyer or seller, without further investigation. It is understood that the seller or buyer will conduct their own salvage value investigation to verify the statements above.

Furthermore, the property has been previously used for heavy manufacturing, no environmental survey has been provided to the appraiser. I assume that there are no environmental conditions or hazardous materials remaining from the previous manufacturing use. For the valuation of this report, I assume that the property is free and clear of any and all environmental issues.

HYPOTHETICAL CONDITIONS

None

MARKET VALUE

Market Value is defined as the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale, as of a specified date, and the passing of title from seller to buyer under conditions whereby:

A) Buyer and seller are typically motivated;

B) Both parties are well informed or well advised, and each acting in what he considers his own best interest;

C) A reasonable time is allowed for exposure in the open market;

D) Payment is made in terms of cash in U.S. dollars, or in terms of financial arrangements comparable thereto; and,

E) The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

AREA ANALYSIS

LOCATION

Hattiesburg is centrally located to several major markets, thus its nickname the "Hub City." Some of these markets include:

Distance From Hattiesburg MSA	
MS Gulf Coast	70 mi
Mobile, AL	86 mi
Jackson, MS	86 mi
New Orleans, LA	103 mi
Memphis, TN	301 mi
Atlanta, GA	382 mi
Dallas, TX	451 mi

POPULATION

The following statistics are available from the US Census Bureau. The chart exhibits the trend in population for the region from 2010 to 2020 (2010 for Forrest and Lamar Counties). The Hattiesburg MSA's population grew by 15.4% between 2000 and 2010. Lamar County led the way with a 42.5% growth rate during that time period. The diverse economy continues to grow as Hattiesburg MSA emerges as a leading area in the Gulf South.

Population

(US Census Bureau, ESRI, 2015)

Year	Lamar County	Forrest County	Perry County	Hattiesburg MSA
2020*	60,909	79,747	12,253	152,909

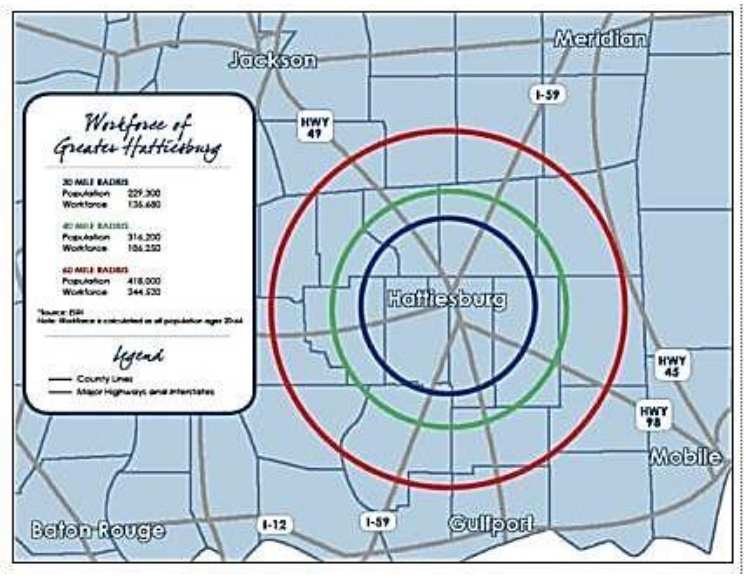
BUSINESS AND INDUSTRY



There are approximately 92 manufacturing firms in the county, employing 5,300 workers. Hattiesburg has a fully-developed industrial park with 325 available spaces.

The agriculture income for the county averages $20 million annually. Forestry is the county's largest agri-business, producing about $8 million in sales. Tables of the largest manufactures and employers are shown below.

The Hattiesburg MSA had a 2013 annual average unemployment rate of 7.3%.

Unemployment Rates
(BLS, 2014)

Year	Hattiesburg MSA (%)	Mississippi (%)	United States (%)
2014*	6.5	7.8	6.5
2013	7.3	8.6	7.4

ECONOMIC BASE

Hattiesburg, also known as the "Hub City," is within 100 miles of the state capital, Jackson, as well as the Gulf Coast, New Orleans, LA, and Mobile, AL. The greater Hattiesburg area is the

educational, retail, and medical center for more than a quarter of a million people throughout southeast Mississippi. Hattiesburg MSA is the site of numerous small and several large corporations. The largest employers in terms of total employment in Hattiesburg MSA are summarized in the chart below.

EDUCATION

The Hattiesburg area has 22 public schools. The Hattiesburg Area Education Foundation provides private funding and special programs to most of these schools to enhance the fundamental curriculum. The business community takes an active role in augmenting the school system through the Adopt-A-School program.

Hattiesburg is home to the University of Southern Mississippi with an enrollment of more than 12,000 students and William Carey College with an enrollment of about 2,000 students. U.S.M. has recently opened a new $19 million Polymer Science Research

Facility that is paralleled by no other in the United States. Jones County Junior College and Pearl River Community College are both within easy driving distance.

GOVERNMENT Hattiesburg has a mayor/council type of government. Forrest County has a five-member board of supervisors.

COMMUNICATIONS **Newspaper** - *Hattiesburg American* (daily) and *Advertiser News* (weekly) is two papers serving Hattiesburg.

Radio Station - Hattiesburg has ten AM/FM stations.

Television - There are two local TV stations and one cable TV company serving the Hattiesburg area.

LAW ENFORCEMENT AND

EMERGENCY SERVICES Hattiesburg has a force of 90 officers in the city and 33 in the county. The fire department includes 96 firefighters located at 7 stations.

MEDICAL SERVICES Hattiesburg serves as the medical hub of South Mississippi, with two hospitals with 704 beds, the largest multi-specialty clinic in the state, a full service regional reference laboratory, 230 doctors and 43 dentists.

TRANSPORTATION

Highways - Interstate Highway 59, U.S. Highways 49, 98 and 11, and State Highway 42 serve Hattiesburg.

Airports - Pine Belt Airport is for commercial use and has a 6,500 foot runway. Bobby Chain Municipal Airport, noncommercial, has a 6,250 foot runway.

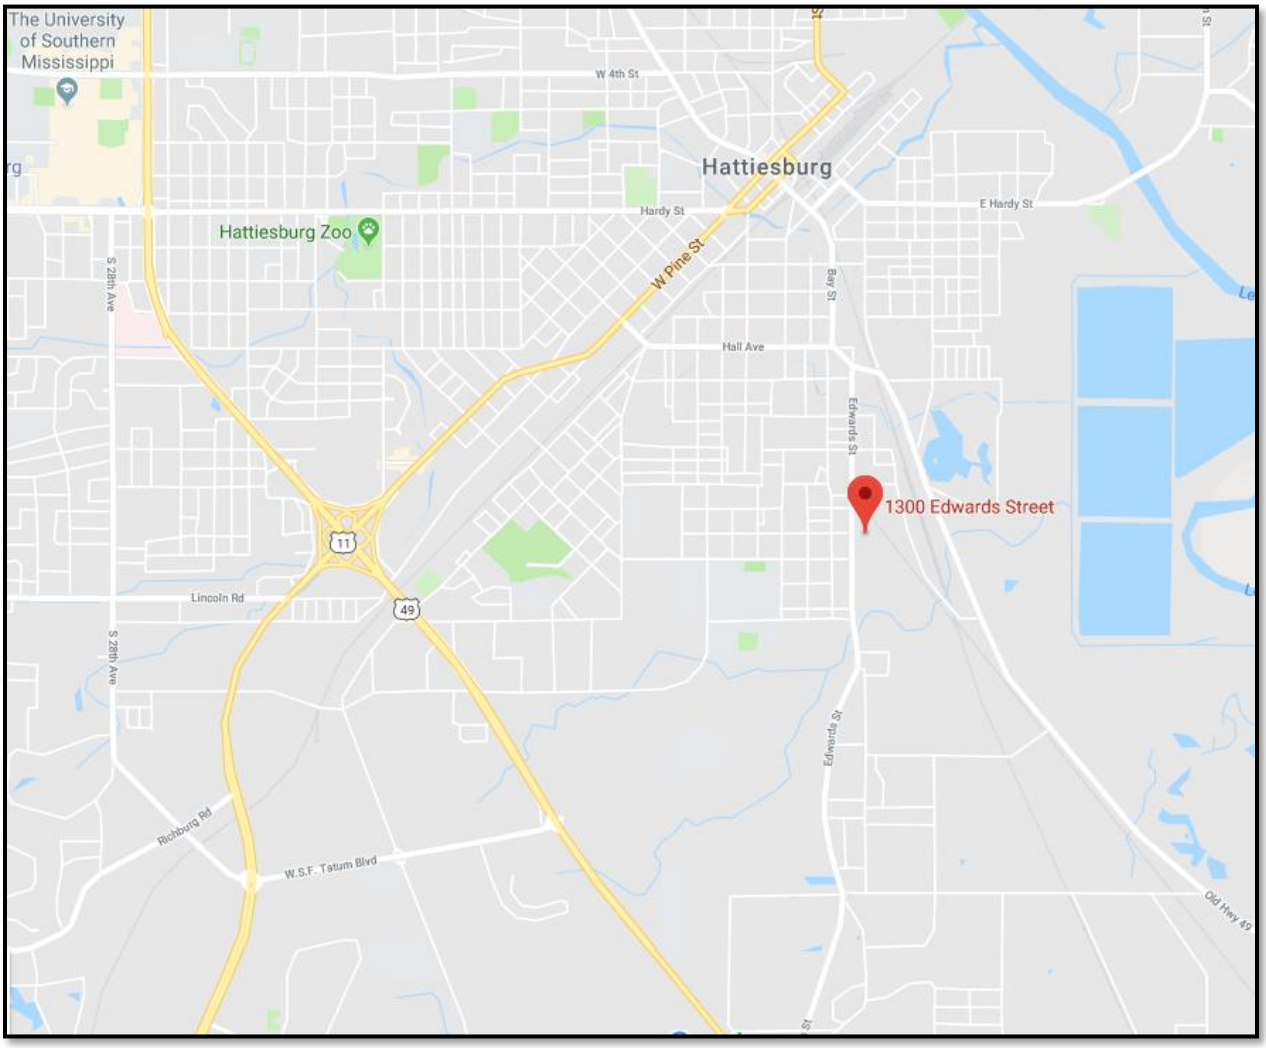
Railroads - Hattiesburg is served by Amtrak, Midsouth Rail, Illinois Central Gulf and Norfolk Southern.

Motor Freight Carriers - Serving Hattiesburg is 17 truck lines and 15 local terminals.

PARKS AND RECREATION

Kamper Park and Zoo, Pep's Point Water Park, Camp Shelby War Museum, Hattiesburg Historical Society, Paul B. Johnson State Park, seven local golf courses;

U.S.M. - Natural Science Museum and Woods Art Gallery; and William Carey College - Lucille Parker Gallery.



NEIGHBORHOOD SUMMARY

The subject is located along the Edwards street corridor to south of downtown Hattiesburg. It is located within the city limits, and among a variety of industrial uses. Other uses have developed in the area in the past prior to more restrictive zoning codes, and as a result, the area is primarily a mixed use area.

In past several years, there has been some amount of industrial activity in the City of Hattiesburg. However, little recent activity has been noted in the area.

In conclusion, the industrial market in the older areas of the City of Hattiesburg has been inactive in the past several years. The value outlook for the subject neighborhood would be poor to fair.

2.22 ACRES

SITE DESCRIPTION

LOCATION	2.22 acres fronting on Edwards Street, with +/- 420' of frontage, with 220 of depth, being part of Sections 15, and 22 Township 4 N, Range 13 W, Forrest County, Mississippi.
SIZE, SHAPE AND FRONTAGE	Rectangular in shape, with dimensions of 420x 220',
TOPOGRAPHY AND DRAINAGE	The topography of the +/-2.22 site is mostly level. Drainage for the site appears to be adequate.
FLOOD INFORMATION	According to Flood Insurance Rate Map Community panel number 28035C0116D, dated March 2nd, 2010, the subject property is not located in a designated flood zone
ZONING	The site is zoned I-1 (Light Industrial District) by the City of Hattiesburg.
ACCESS AND VISIBILITY	The property has good visibility from Edwards Street. There is access from both Edwards Street and Tuscan Avenue. Regional access is provided by Highways 49 and 98, and Interstate 59.
HIGHEST AND BEST USE	2.22 acres fronts on Edwards Street, and is large enough for a wide variety of uses. The property is encumbered by an abandoned manufacturing building that needs to be demolished/ removed. This building is too far depreciated to be considered to have any value as a remodeled structure. This area of Hattiesburg has low demand for new development, and any proposed use may require extended marketing periods. Overall, the site is physically large enough to accommodate a new industrial use, and the site is limited by zoning for industrial uses. Therefore, considering the large size, the industrial zoning, the access to rail services, and the location, the only feasible use would be for some sort of Industrial type use. This use would require demolition of the existing manufacturing building.

Parcel B

0.18 ACRES

SITE DESCRIPTION

LOCATION	0.18 acres located on and off of Tuscan Avenue, being part of Sections 15, and 22 Township 4 N, Range 13 W, Forrest County, Mississippi.
SIZE, SHAPE AND FRONTAGE	2 irregularly shaped parcels, non contiguous. The 54' x 24' parcel within the same PPIN # has been excluded from this valuation.
TOPOGRAPHY AND DRAINAGE	The topography of the +/-0.18 site is mostly level. Drainage for the site appears to be adequate.
FLOOD INFORMATION	According to Flood Insurance Rate Map Community panel number 28035C0116D, dated March 2nd, 2010, the subject property is not located in a designated flood zone
ZONING	The site is zoned I-1 (Light Industrial District) by the City of Hattiesburg.
ACCESS AND VISIBILITY	The 2 non- contiguous parcels are located off of Edwards Street on Tuscan Avenue.
HIGHEST AND BEST USE	The two non-contiguous parcels are not large enough to be of any substantial use, and the irregular shapes would result in limited demand. Additionally, there is a variety of remnant industrial material and buildings located on these parcels. Due to the irregular shape, remaining improvements, and location, the highest and best use of these parcels was considered to be assemblage to the surrounding industrial zoned land.

One of the non- contiguous parcels located on Parcel B.

One of the non- contiguous parcels located on Parcel B.

VALUATION PROCESS OF THE REAL ESTATE:

In order to estimate the market value of a property, three approaches to value are typically used. The three approaches are the Cost Approach, the Sales Comparison Approach, and the Income Capitalization Approach.

The Cost Approach develops an estimate of value by first estimating the reproduction or replacement cost of the building and site improvements. Once this is completed, depreciation due to physical, functional, and external factors is estimated and subtracted from the cost new of the improvements to yield the depreciated cost. The existing buildings on the site are far too depreciated to have any contributory value, and the buildings require demolition. Therefore, the cost approach to value would not apply.

The Sales Comparison Approach develops a value estimate by comparing similar properties that have recently sold to the subject property. Adjustments are quantified and applied to the comparables to account for any dissimilarities between them and the subject property. The Sales Comparison Approach reconciles the adjusted prices into a value estimate. Due to the highest and best use being for some sort of industrial use, I researched local industrial land sales, and included these sales in my valuation.

The Income Capitalization Approach is based on a concept which suggests that the value of a property tends to be set by the cost of acquiring an equally desirable substitute property offering similar economic benefits. The value estimate is predicated upon discounting these benefits (cash flows and reversion) using one of several capitalization methods employing a market derived investment return rates. In addition to return rates, the element of cash flow is a market derived or supported, including rents, expenses, and vacancy rates. Therefore, as with the other approaches, the validity of the Income Capitalization Approach depends on adequate data.

The buildings were too far depreciated to produce any rental income. The Income Approach was not done.

The value estimates from each approach are reconciled into a final value estimate. The reconciliation entails a review of the entire appraisal and consideration of the relative strengths and weaknesses of each approach to value. In the final value estimate, the greatest weight is given the approach which is deemed the most reliable and appropriate for the subject property.

LAND SALE NO. 1

Property Identification	
Record ID	4368
Property Type	Commercial Land
Address	1809 Edwards St., Hattiesburg, Forrest County, Mississippi
Location	Hattiesburg Southeast

Sale Data	
Grantor	Mississippi District Council Assemblies of God
Grantee	Clarence Sanders and Charlotte Sanders
Sale Date	May 16, 2006
Deed Book/Page	1008/430
Financing	Owner financing
Sale Price	$18,000
Cash Equivalent	$18,000

Land Data	
Topography	Wooded

Property Name	Walters Stock Pile Site
Address	104 Faulkner Road, Hattiesburg, Forrest County, Mississippi
Sale Data	
Grantor	Thomas Hickman
Grantee	George Walters
Sale Date	August 22, 2014
Deed Book/Page	1190 p.531, Inst#727583
Verification	George Walters; 601(580-1198)
Sale Price	$25,000
Cash Equivalent	$25,000
Land Data	
Zoning	A-1 and A-2, Agricultural
Topography	level
Shape	Rectangular
Rail Service	Abandoned spur along west line
Flood Info	Leaf River
Land Size Information	
Gross Land Size	2.730 Acres or 118,919 SF
Useable Land Size	2.700 Acres or 117,612 SF, 98.90%
Indicators	
Sale Price/Gross Acre	$9,158
Sale Price/Gross SF	$0.21

Remarks

This site was purchased for use as a stock pile facility. The buyer stated he needed a site away from buildings and other areas where the dust could be a problem. The stock piled concrete is crushed and used for base material for parking lots and road work. The site had an old cemetery on the SE corner that reduced the useable area to around 2.70 acres. The site was used by the purchaser as a stockpile area (by verbal agreement) prior to the purchase and he had a large amount of material on the site at the time of purchase, which may warrant a conditions of sale adjustment.

Land Size Information

Gross Land Size	13.370 Acres or 582,397 SF

Indicators

Sale Price/Gross Acre	$17,140 Actual or $26,980 Adjusted
Sale Price/Gross SF	$0.39 Actual or $0.62 Adjusted

Remarks

This property is located along the west side of Old Hwy 49 South and the north side of Aero Smith Drive, within the City of Richland. At the time of salle the property was unimproved and mostly level and at road grade. The property is part of a large tract of land previously obtained by the City of Richland and was subdivided into smaller industrial sites. These properties were subject to a special tax assessment for previous unpaid taxes. The buyer had the option of paying a lump sum payment or annual payments over a defined term. Per the confirming source the additional cost for the delinquent taxes was approximately $1,640/acre for the following six years or as a lump sum one time payment could be made at the time of sale at $131,561. This additional cost is being added to the price for the indicated total sales prices of this property.

Land Sale No. 8

Property Identification

Record ID	4043
Address	Hattiesburg, Forrest County, Mississippi
Location	Between Lakeview Road and Highway 42

Sale Data

Financing	Cash to Seller
Verification	Claude Sanders - MS Power by Pat Hodo
Sale Price	$150,000
Cash Equivalent	$150,000

Land Data

Zoning	I-1, Light Industrial
Topography	Sloping
Shape	Rectangular
Flood Info	Approximately 25% in flood zone

Land Size Information

Gross Land Size	14.320 Acres or 623,779 SF

Indicators

Sale Price/Gross Acre	$10,475
Sale Price/Gross SF	$0.24

Land Sale No. 8 (Cont.)

Remarks

This is a rectangular tract of land located at the rear of the MS Power site. The NE corner of the tract is located in a flood zone. After purchase, a metal shop building with gravel parking was built on the area located outside of the flood zone. The tract has no frontage, but the parent tract was a larger parcel with frontage on Lakeview Road. There was minimal regrowth timber on the property with no assigned value.

Legal: SW1/4, of Section 32, 5N, 13W, Forrest County

LAND SALE NO. 9

LOCATION:	Hattiesburg Industrial Park, 457 J.M. Tatum Drive, Forrest Co, Hattiesburg, Ms
GRANTORS:	Joseph F. Tatum Jr. and Mary Tatum
GRANTEES:	U.S.A. Yeast Company, LLC
DATE:	December 18, 2001
SALE PRICE:	$362,785
PRICE/ACRE:	$11,280
SIZE:	32.16 Acres
LEGAL DESCRIPTION	A part of the NE 1/4 of Section 36, Township 4 North, Range 13 West, City of Hattiesburg, Forrest County, Mississippi.
SOURCE:	Grantee

COMMENTS: The property is the site of the new USA Yeast plant, located at 457 J.M. Tatum Drive, in the city limits of Hattiesburg, Forrest County, Mississippi. It is triangular in shape with approximately 1481.38 feet of frontage on J.M. Tatum Drive. The topography of the site is basically level and appears to have adequate surface drainage. No detrimental easements or other conditions which would adversely affect the subject site were visually apparent. The property has good access from Highway 49 to J.M. Tatum Drive. Zoned I-1, Light Industrial

LAND SALE NO. 10

Property Identification	
Property Name	WIS-PAK, Inc.
Address	Hattiesburg, Forrest County, Mississippi
Location	John Tatum Industrial Drive and W.L. Runnels Drive
Sale Data	
Grantor	Forrest County Industrial Park Commission
Grantee	Wis - Pak, Inc.
Sale Date	October 08, 2008

Land Sale No. 12 (Cont.)

Land Size Information

Gross Land Size	51.930 Acres or 2,262,071 SF

Indicators

Sale Price/Gross Acre	$14,000 Actual or $14,000 Adjusted
Sale Price/Gross SF	$0.32 Actual or $0.32 Adjusted

Remarks

This property is located west side of Hwy. 49N. north od Collins Industrial Park in Covington County, MS. From inspection, it appears that this property fronts Hwy. 49. From the tax map the property does not and the City of Collins still owns the front. There was no easement conveyed at the time of sale. Sanderson Farms installed a circular railroad spur after the sale. Bob Shumate, Collins Public Works Director, indicated the spur was all on the Sanderson property. The tax map indicated that part of the spur is on property stilled owned by the City of Collins.

Direction: Take Hwy. 49 north from Collins; go approx. 1.5 miles north from Hwy. 84; property is on the east side approx. 1/4 mile north of Collins Industrial Park Rd.

COMPARABLE LAND SALES SUMMARY TABLE

No.	Location	Zoning- Use	Sale Date	Price	Size in Acres	Price/ Acre

ANALYSIS OF LAND SALES

The array of data suggests possible adjustments for various characteristics of each transaction in comparison with the subject site. This comparison of land sales to the subject property is the basis for determining a value indication of the subject site as though vacant. The analysis of these adjustments is found in the following paragraphs.

PROPERTY RIGHTS

All comparables convey or propose to convey fee simple rights; therefore, no adjustment is required for this factor.

FINANCING TERMS

The adjustment for financing considers the effect that seller financing has on the purchase price of a property. Below market interest rates or seller financing are typically reflected in higher prices per square foot. No adjustment for financing is was required.

CONDITIONS OF SALE

Adjustments for conditions of sale usually reflect the motivations of the buyer and the seller. Sales 6 and 9

were tracts of land in local industrial parks that were sold for development. These tracts were marketed by a development organization, and although incentives for land purchases are often considered to attract development, these sales were all considered indicative of typical conditions for industrial tracts of land. No adjustments are required.

LOCATION

This category accounts for differences in access, visibility, and exposure between the comparables and the subject. Several of the sales are located in established industrial parks, which have quicker and more convenient access to major traffic corridors.

SIZE

The subject is 2.40 acres, and a size adjustment would apply.

ACCESS

The subject site is a +/-2.40 acre parcel located along Edwards Street, in an area that has been developed over a period of time and is no longer a primary industrial area in Hattiesburg. The access was considered to be handled in the location adjustment.

MARKET CONDITIONS

The majority of the sales are older sales, which reflect some demand for industrial uses in the past. The most recent developments in the industrial market has been related to utility and municipal demand. We have considered the market conditions and the sales dates of the land sales relative to the current market and made some minor adjustments.

CORRELATION

We have contacted the Hattiesburg Area Development Partnership (ADP), and have been informed that additional land is available in the Hattiesburg Industrial Park. In the past, any available land has been traditionally listed at $10,000 per acre. Based on the principle of substitution, this would typically reflect market value for industrial land that mirrored the available industrial park sites. However, the most recent sale in the industrial park indicates that land is often sold at lower than list price as incentives for new operations.

No.	Location	Zoning- Use	Sale Date	Size in Acres	Price/ Acre	Adjustments
1.	Edwards Street	A-1	05/16/2006	2.0 acres	$9,000	Similar location, size
2.	104 Faulkner	A-1	08/22/2014	2.70 acres	$9,158	Similar location, size
3.	130 Tatum drive	I-1	05/01/2004	2.45 acres	$10,003	Similar size, superior location
4.	Kola Road, Collins	Industrial	09/10/2013	2.89 acres	$20,761	Similar size, superior location
5.	Spector Street, Meridian	I-1 Industrial plant built	04/29/2009	5.01 acres	$15,000	Similar size, better access and location
6.	JM Tatum Drive	I-1	07/19/2007	10.60 acres	$17,988	Superior location, larger
7.	Old Hwy 49	Heavy industrial	09/10/2013	13.37 acres	$17,140	Larger, superior location
8.	Lakeview and Hwy 42	Industrial	12/16/2003	14.32 acres	$10,475	Similar location, larger, inferior topo
9.	JM Tatum Drive	I-1	12/18/2001	32.16 acres	$11,280	Larger, superior location
10.	John Tatum Drive	I-1	10/08//2008	40 acres	$5,125	Larger, superior location
11.	Sullivan Kilrain	None	02/26/2009	43.30 acres	$9,800	Larger, superior location
12.	Hwy 49, Collins	Industrial- Plant Built	02/02/2006	51.93 acres	$14,000	Larger, superior access and location

The sales were analyzed based on their location, access, uses, and size. Generally speaking, those sales that were located in established industrial parks sold for $11,000-$20,000 per acre, and were considered superior in access, location, and market potential.

The most similar sales were the industrial type sales which occurred on Edwards and Faulkner street in Hattiesburg, which sold for $9,000-$9,158 per acre. These sales were given some consideration.

Finally, due to the quantity of data, I analyzed the entire data set in relation to all of the sales, as well as the “small”

industrial sales (2.0-5.01 acres). A summary of these findings is shown in the table below.

Sale #	Acres	Price Per Acre
1	2	$ 9,000
2	2.7	$ 9,158
3	2.45	$ 10,003
4	2.89	$ 20,761
5	5.01	$ 15,000
6	10.6	$ 17,988
7	13.37	$ 17,140
8	14.32	$ 10,475
9	32.16	$ 11,280
10	40	$ 5,125
11	43.3	$ 9,800
12	51.93	$ 14,000
Average	18.39	$ 12,478
Ave. of Smal Sales	3.01	$ 12,784

The sales had price per acre values ranging from $9,000-$20,761 per acre, with an overall average of $12,478/acre. The average industrial sale was 18.39 acres.

The “small” industrial sales (2.0-5.01 acres) had an average size of 3.01 acres, with an average price per acre value of $12,784 per acre.

RECONCILIATION AND FINAL VALUE ESTIMATE

Overall, I have concluded a higher unit value for parcel A due to its more useable size, its frontage on Edwards Street, and is regular shape. A unit value of $15,000/acre has been adopted for Parcel A.

Parcel B is non- contiguous, highly irregular in shape, and only has a value to be assembled into the adjoining industrial land. Due to these restraints, a unit value in the lower range, or $10,000/acre was adopted for Parcel B.

INDICATED "AS-IS" VALUE			
Parcel A	2.22 acres	$15,000/acre	$33,300
Parcel B	0.18 acres	$10,000/acre	$1,800

The property is improved with a large manufacturing building, a large concrete base/ pad, with supporting streel structure. During this report, I questioned Lamar Rutland, City engineer in regards to any potential salvage value in the remaining structure. Mr. Rutland stated that he was not aware of any salvage value, and stated that no salvage value report had been done.

On March 30th, 2018, I emailed Southern Recycling and Demolition in regards to any salvage value that may exist on the site. I received a return response from Southern Recycling on April 5th, 2018. I also spoke with Southern Recycling via telephone on April 5th, 2018.

Southern recycling stated that a demolition charge of $150,000 was estimated, with a residual salvage value of $25,000, after the cost of demolition considered. However, Southern Recycling stated that the demolition charge of $150,000 did not included the entire concrete slab, and the remaining demolition would most likely cost the residual salvage value of $25,000. Based on our email correspondence and phone conversations, there appears to be no salvage value, with any salvage value being generally offset by the demolition charge. Therefore, I have considered that any salvage value would offset the demolition charge, and I have valued the property as land only- with no value to the buildings.

I am not an expert in salvage value, demolition cost, remediation costs, manufacturing plant salvage values, etc. Therefore, I make no warranty as to there being any salvage value or guarantee to the demolition charges. I have used the email correspondence and conversations to derive a value opinion only. The use of the demolition charge or salvage value conclusions should not be used by the potential buyer or seller, without further investigation. It is understood that the seller or buyer will conduct their own salvage value investigation to verify the statements above.

ADDENDA

APPRAISAL ASSUMPTIONS

This appraisal report has been made with the following assumptions:

1. No responsibility is assumed for the legal description or for matters including legal or title considerations. Title to the property is assumed to be marketable unless otherwise stated.

2. The property is appraised free and clear of any or all liens or encumbrances unless otherwise stated.

3. Responsible ownership and competent property management are assumed.

4. The information furnished by others is believed to be reliable. However, no warranty is given for its accuracy.

5. All engineering is assumed to be correct. The plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.

6. It is assumed that there are no hidden or unapparent conditions of the property, subsoil, or structures that render it more or less valuable. No responsibility is assumed for such conditions or for arranging for engineering studies that may be required to discover them.

7. It is assumed that there is full compliance with all applicable federal, state, local environmental regulations and laws unless a noncompliance is stated, defined and given consideration in the appraisal report.

8. It is assumed that all applicable zoning/use regulations and restrictions have been complied with, unless it has been otherwise stated, defined and considered in the appraisal report.

9. It is assumed that all required licenses, certificate of occupancy, consents, or other legislative or administrative authority from any local, state, or

national government or private entity or organization has been or can be obtained or renewed for any use on which the value estimate contained in this report is based.

10. It is assumed that the utilization of the land and/or improvements are within the boundaries or property lines of the property described and that there is no encroachment or trespass unless noted in the report.

LIMITING CONDITIONS

This appraisal has been made with the following limiting conditions:

1. The distribution, if any, of the total valuation in this report between land and improvements applies only under the stated program of utilization. The separate allocations for land and buildings must not be used in conjunction with any other appraisal and are invalid if so used.

2. Possession of this report, or a copy thereof, does not carry with it the right of publication. It may not be used for any purpose by any person other than the party to whom it is addressed without the written consent of the appraiser, and in any event only with proper written qualification and only in its entirety.

3. The appraiser herein by reason of this appraisal is not required to give further consultation, testimony, or be in attendance in court with reference to the property in question unless arrangements have been previously made.

4. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraiser, or the firm with which the appraiser is connected) will be disseminated to the public through advertising, public relations, news, sales, or other media without the prior written consent and approval of the appraiser.

5. Unless otherwise stated in this report, the existence of hazardous substances, including without limitation asbestos, polychlorinated biphenyls, petroleum leakage, or agricultural chemicals, which may or may not be present on the property, or other environmental conditions, was not called to the attention of nor did the appraiser become aware of such during the appraiser's inspection. The appraiser has no knowledge of the existence of such materials on or in the property unless otherwise stated. The appraiser, however, is not qualified to test such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde

foam insulation, or other hazardous substances or environmental conditions, any effect the value of the property, the value estimated is predicated on the assumption that there is no such condition on or in the property or in such proximity thereto that it would cause a loss in value. No responsibility is assumed for any such conditions, nor for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in the field of environmental impacts upon real estate if so desired.

RE: Demolition of Old Manufacturing Building

We have reviewed the information you sent regarding this project and have prepared the following estimates for your review:

Demolition of building and concrete foundation:	$150,000.00
Value of the steel structure after cost of demolition and processing:	$ 25,000.00

The concrete does have salvage value, however the cost of slab demo and removal would be about the same as the salvage value.

These estimates exclude and environmental remediation that may be needed as well as any site restoration.

Please feel free to contact me with any questions or clarifications and thanks for contacting us about the project.

Sincerely,

Sarah Hickman

As the bids are read, list the Contractor, Surety and Amount of Bid. As bids are opened, the computer will rank them in order from the lowest to the highest. The default bid will be 9,999,999 in order to rank the projects in proper order. If the contractor is disqualified due to ommissions or errors in the bid, then enter a "x" in the amount of bid column for that contractor. When finished entering bids hit Ctrl-e to get to the Bidtab. To make adjustments on the above portion hit Ctrl-g from the Bidtab portion.

ORDER OF THE CITY OF HATTIESBURG *BOARD OF ALDERMEN*
AWARDING CONTRACT AND ESTABLISHING THE PROJECT FUND
DEPARTMENT OF ECONOMIC AND COMMUNITY DEVELOPMENT PROJECT NO. DECD-0018(STG)50
HATTIESBURG, *MISSISSIPPI*

WHEREAS, the Department of Economic and Community Development has approved this Political Subdivision's application for the captioned project as required by Senate Bill 3042, 1990 regular Legislative Session, and

WHEREAS, WE, THE BOARD OF ALDERMAN of the city of HATTIESBURG *Mississippi, having advertised for bids on the above numbered project, and proof of publication of said advertisement having been filed with the Clerk of the City in the manner and form required by statute, and*

WHEREAS, said Board has on this the 27TH *day of* SEPTEMBER, 2010, *received and opened Bids on said project, and*

WHEREAS, the lowest regular bid was submitted by PRECISION CONSTRUCTION *of* HATTIESBURG, MS, *in the amount of $* 767,067.00 ;

NOW THEREFORE, it is hereby ordered by the board of Aldermen of the city of HATTIESBURG *that the contract be awarded to* PRECISION CONSTRUCTION, *subject to the approval of the State Aid Engineer and DECD, and that the Mayor of the City be and is hereby authorized to execute the contract with the contractor after a satisfactory performance bond has been furnished.*

IT IS FURTHER ORDERED and the State Aid Engineer is hereby authorized to recommend that the Department of Economic and Community Development establish a Project Fund in the amount of $ 826,400.00 *(including approximately 5% contingencies) and an additional amount, based on* 15.0 *% of the construction cost to cover engineering services of $* 118,100.00 *for a total of $* 944,500.00. *The Project Fund shall be comprised of $* 160,000.00 *County/City/other funds and Economic and Community Development Funds (not to exceed) $* 784,500.00; *such project fund being for the purpose of covering the cost of all construction estimates and engineering services authorized under this project.*

IT IS FURTHER ORDERED that the Mayor is hereby authorized to execute supplemental agreements to the original contract which do not increase the cost of the project in excess of the project funds authorized herein. It is further ordered that the State Aid Engineer be furnished a certified copy of this order.

RE: 31st Avenue Improvements
DECD-0018(34)BO

Dear Mr. Rutland,

Please find enclosed the State Aid Bid Tabulation for the two bids opened for the referenced project on September 27, 2018 at 10 a.m. Another bid was received electronically; however, it was a stripped bid as was not read aloud.

It is my recommendation that the City accept the bid of Precision Construction as the lowest and best bid in the amount of their proposal, $787,087.00 pending project budget review. Given this proposal and adding five percent continency and adjusting design fees to reflect the higher construction cost, State Aid estimates that the total project cost is now $944,500.00. The Mississippi Development Authority has issued a revised MOU with the City and State Aid increasing MDA's contribution from $500,000 to $784,500 for this project. That leaves the City only having to provide $160,000 which it has already deposited with MDA.

If the City elects to move forward with this project, I have enclosed State Aid's Required Board Order Form to be executed by the City and returned to me for further processing.

If you have any questions about this information, please give me a call.

Sincerely,

NEEL-SCHAFFER, INC.

Douglas M. Wimberly, PS, PE

Mr. Carter Carroll, President
Hattiesburg City Council
P.O. Box 1898
Hattiesburg, MS 39403

Dear Mr. Carroll:

I am requesting to be added to the City Council agenda for your November meeting. Specifically, Sacred Heart Catholic School is holding its 6th annual Crusader 5K Run on Friday, November 30, 2018, beginning and ending in Town Square Park, and we would like to request the council's permission, pursuant to Ordinance 3148, to sell beer at that event. Our Parade Permit request has already been submitted and approved by the Hattiesburg Police Department.

Please contact me if you require any further documentation, or if you have any questions about this request prior to the September meeting.

Warmest Regards,

Amy Hinton

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the City Council
City of Hattiesburg, Mississippi

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Hattiesburg, Mississippi, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The City of Hattiesburg, Mississippi's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the

financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Hattiesburg, Mississippi, as of September 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Deficit Fund Balance

As described in Note 16 to the financial statements, deficit fund balances were reported in certain governmental funds as a result of modified accrual recognition of expenditures for which reimbursements were not available resources. Our opinion is not modified with respect to this matter.

Matters Related to Funding

Subsequent to September 30, 2017, certain federal and state grant reimbursements were delayed because of delinquency in submission of City annual financial reports. In addition, the City's credit rating was suspended in November 2016. Our opinion is not modified with respect to these matters.

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis (MD&A), budgetary comparison schedules for the general fund, trend factors and schedules of funding progress of the City's defined benefit pension plans, and trend factors and schedules of funding progress and employer contributions for the City's other postemployment benefit plans (OPEB) that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Hattiesburg, Mississippi's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2018, on our consideration of the City of Hattiesburg, Mississippi's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Hattiesburg, Mississippi's internal control over financial reporting and compliance.

TMH

Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position September 30, 2017

Total *fund balances* for governmental funds (Exhibit C)		$ 21,853,116
Total *net position* reported for governmental activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:		
Land	$ 29,934,169	
Construction in progress	1,620,996	
Infrastructure, net of $86,751,847 accumulated depreciation	64,096,840	
Buildings and improvements, net of $27,043,565 accumulated depreciation	35,147,908	
Machinery and equipment, net of $30,484,690 accumulated depreciation	5,475,559	
Total capital assets		136,275,472
Other long-term assets are not available to pay for current period expenditures and therefore are reported as deferred revenue in the funds.		3,203,825
Receivables not received within thirty days of year end are not reported in the funds.		2,477,842
Notes receivable are not available to pay for current period expenditures and therefore are not reported in the funds.		3,509,683
Deferred outflows related to pensions are not reported in the funds		6,225,650

The notes to the financial statements are an integral part of this statement.

EXHIBIT C.1
PAGE 2 OF 2

CITY OF HATTIESBURG, MISSISSIPPI

Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position September 30, 2017

Deferred inflow related to pension are not reported in the funds.		$ (930,448)
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. Interest on long-term debt is not accrued in the governmental funds, but rather is recognized as an expenditure when due. All liabilities – both current and long-term – are reported in the statement of net position.		
Balances for these liabilities at September 30, 2017 are:		
Accrued interest on bonds and notes		(297,253)
General obligation bonds	$ (7,165,000)	
Limited obligation tax increment financing bonds	(11,061,000)	
Limited obligation economic development bonds and notes	(1,827,482)	
Unamortized premiums on bonds	(174,026)	
Certificates of participation	(5,300,000)

EXHIBIT D.1
PAGE 1 OF 2

CITY OF HATTIESBURG, MISSISSIPPI

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended September 30, 2017

Net change in *fund balances* - governmental funds (Exhibit D)	$ (2,348,998)
The change in *net position* reported for governmental activities in the statement of activities is different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense ($8,218,289) exceeded capital outlay ($7,722,358) in the current period.	(495,931)
Intergovernmental revenues are recognized on the full-accrual basis in the statement of activities for revenues received thirty days after year end. This is the amount of effect of the change in revenue.	(113,759)
Fine revenue deferred in the funds for the modified accrual basis during the current year decreased because prior year recognition would have been required on the Statement of Activities using the full-accrual basis of accounting.	289,744
Proceeds from the sale of capital assets ($2,362) are reported in the governmental funds. However, in the statement of net position the net gain is recorded ($1,484).	(878)
Proceeds from issuance of long-term debt are reported in the governmental funds. However, in the statement of net position a long-term liability is recorded. Repayments of long-term debt are reported as expenses in the governmental funds but are recorded against the liability in the statement of net position. Thus, the change in net positions differs from the change in fund balances by the amount of the debt repayments.	3,858,694

The notes to the financial statements are an integral part of this statement.

EXHIBIT D.1
PAGE 2 OF 2

CITY OF HATTIESBURG, MISSISSIPPI

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended September 30, 2017

Under the modified accrual basis of accounting used in governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The following adjustments combine the net changes of the two balances:		
Accounts payable	$ 150,000	
Compensated absences	415,168	
Amortization of certificate of participation premium	13,157	
Amortization of bond premium	43,507	
Accrued interest on bonds and notes	112,350	
Combined adjustment		$ 734,182
Change related to pension deferred outflows and inflows and obligations		(3,381,546)
Change related to other post employment benefit obligations		(543,609)
Governmental funds report annual note repayment received ($195,856) as the installment receipt of the sale of real estate. In the statement of activities, only the portion of these payments attributable to interest is reported as interest revenue ($139,156).		(56,700)
Change in *net position* of governmental activities (Exhibit B)		$ (2,058,801)

The notes to the financial statements are an integral part of this statement.

NOTES TO THE FINANCIAL STATEMENTS

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Information

The City of Hattiesburg, Mississippi (the City) was incorporated in 1884 under the laws of the State of Mississippi and presently operates under a Mayor/Council form of government. It is the third largest municipality in the state with nearly 50,000 residents. The policy-making and legislative authority, as well as budgetary responsibilities, are vested with the City Council. The following services are provided by the City: Public safety (Police, Fire, and Code Enforcement), Public Works, Engineering, Solid Waste Collection, Water and Sewer, Culture and Recreation, Mass Transit, Federal Programs, Urban Development, and General Administrative Services.

The accounting and reporting framework and the more significant accounting policies and practices are discussed in subsequent sections of this Note. The remainder of the notes are organized to provide explanations, including required disclosures, of the City's financial activities.

B. Reporting Entity

The City is a charter city in which citizens elect the mayor at large and five council members by wards. The accompanying financial statements present the City's primary government and its component unit, an entity for which the government is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the primary government.

Discretely presented component unit - The Hattiesburg Convention Commission (the Commission) is composed of a seven member board whose members are appointed by the Hattiesburg City Council. The purpose of the Commission is to promote conventions and tourism. The Commission has authority over all matters relating to the establishment, development, construction, furnishing, and equipping of convention and tourism related facilities. The Commission is primarily funded by a 2% sales tax on local food, beverage, and alcoholic beverage package retailer permits. The Commission is presented as a governmental fund type. Pursuant to component unit criteria guidelines, the Commission is presented as a discretely presented component unit based upon the budgetary oversight provided by the City in conjunction with other related criteria including, but not limited to, the City's ability to make board appointments and the Commission's status as a legally separate entity.

A separate financial statement of the Commission can be obtained by contacting the Hattiesburg Convention Commission, 1 Convention Center Plaza, Hattiesburg, Mississippi 39401.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

C. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from a certain legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The major individual governmental fund and the major individual enterprise fund are reported as separate columns in the fund financial statements. Internal activities, including interfund transfers and due to/due from balances attributable to governmental activities have been eliminated for government-wide financial statement presentation purposes.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied based on historical trends of collections in relation to assessments. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE THREE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental fund:

General Fund - The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Activities accounted for in the general fund include police and fire protection, public services, general government, sanitation, city courts, urban development, and other services.

The City reports the following major proprietary fund:

Combined Water and Sewer System Fund - The Combined Water and Sewer System Fund accounts for the activities of the water and sewer system. The City operates the sewage treatment plant, sewage pumping stations and collection systems, and the water distribution system.

Additionally, the City reports the following fund types:

Special Revenue Funds - These funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE FOUR
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Debt Service Funds - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest on long-term debt.

Capital Project Funds - These funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Agency Funds - The City's agency funds account for employee payroll tax withholdings, initial tax deposits from the county tax collectors, initial special sales tax receipts, the Police and Firemen Disability and Relief Fund, and the Forrest County Industrial Park Commission Fund.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE FIVE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

The proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer system enterprise fund are charges to customers for sales and services. The water and sewer system also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Deposits and investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

To maximize interest earnings, the City's cash resources are combined to form a cash pool. Excluded from this pool is the cash of the Water and Sewer Fund, the 1999 Tax Increment Financing Bond and Interest and Construction Funds, the Water and Sewer USA Yeast Bond and Interest and Construction Funds, the Community Development Block Grant Fund for Entitlement and HOME Entitlement, the 2001 Bond Construction Fund, the 1998 Infrastructure Fund, the Group Insurance Trust Fund, the Series 2006 Water and Sewer Bond Funds, and certain other legally restricted funds.

Investments for the City and its component unit are reported at fair value.

Receivables and payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE SIX
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

All sales taxes, property taxes, and notes receivables are considered collectible; therefore no reduction has been made for an allowance for these receivables. Fees paid in lieu of ad valorem taxes pursuant to separate agreements are recognized when collected or when probability of receipt is reasonably certain. Fines receivable is reported net of allowance for uncollectible accounts in the amount of $17,915,651 at September 30, 2017. Credits against fines are applied for any jail time served, community service, or electronic monitoring. Since any such credits are not known until actual events occur, the amounts of those credits cannot be reasonably estimated before they are earned. Therefore, future credits to be applied against existing fines receivable are not estimated or reflected in the City's financial statements.

Customer accounts receivable in the enterprise fund are attributable to unpaid balances at year-end for charges for services and are netted with an allowance for doubtful accounts. The City estimates the allowance for doubtful water and sewer account balances based upon a review of outstanding balances and status of customer accounts and upon consideration of historical collection trends and other factors.

Property taxes are levied annually for the upcoming fiscal year beginning October 1st on property values assessed as of the previous January 1st. Such levy, which establishes a lien against the underlying property, is made by the City Council in September before the beginning of the fiscal year. Property taxes are recognized in the year for which they are levied. Property tax statements on real property are typically mailed in December each year, with the taxes due annually on February 1st. All taxes are collected and remitted to the City on a monthly basis by Forrest and Lamar County governments. Delinquent tax payments, received throughout the year, are recognized as revenue in the year received. Property with delinquent taxes as of August is subject to sale for collection of such taxes. Property taxes on vehicles are assessed annually and become due throughout the year based upon the month of acquisition.

Inventories and prepaid items

All inventories are valued at the lower of cost using the first-in/first-out (FIFO) method or market. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE SEVEN
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, street lights, sewer and water lines, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, equipment, and infrastructure of the primary government, as well as the component unit, is depreciated using the straight line method over the following estimated useful lives:

Buildings and improvements	20 – 50 years
Infrastructure	18 – 50 years
Machinery and equipment	5 – 10 years

Net pension liability

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's pension plans and additions to/deductions from the plan's net position have been determined on the same basis as they are reported by Public Employees' Retirement System of Mississippi. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE EIGHT
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Deferred outflows/inflows of resources

Deferred outflows of resources are a separate financial statement element that represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports prepaid insurance on the Water & Sewer Revenue Bonds in the government-wide and the proprietary statements of net position as a deferred outflow of resources. Bond insurance paid from debt proceeds as a credit enhancement feature with the bonds is deferred and amortized over the life of the bonds. In addition, deferred outflows include amounts related to pensions, including contributions to the employee pension plans subsequent to the measurement date of the actuarial valuations for the plans.

Deferred inflows of resources are a separate financial statement element that represents an acquisition of net position or fund balance that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds report unavailable revenues from special assessments, and these amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Both the government-wide statements and governmental funds report property taxes levied for the subsequent year, which are deferred and recognized as an inflow of resources in the period for which they are levied. The government-wide statements also reflect pension related items resulting from the difference between estimated and actual return on pension plan investments, which are being amortized over a five year period using the straight-line method.

Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation, sick pay, overtime, and holiday pay benefits. There is no liability for unpaid accumulated sick leave since the City does not have a policy to pay any amounts when employees separate from service with the government. All vacation, overtime, and holiday pay is accrued when incurred in the government-wide financial statements and in the proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they are expected to be paid from current resources, for example, as a result of employee resignations and retirements, based on management's estimates.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE NINE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Long-term obligations

In the government-wide financial statements and the proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond discounts and premiums are amortized over the life of the related bonds. Bond issuance costs, other than prepaid insurance costs, are recognized as expenses in the period incurred. Prepaid insurance costs are reported as an asset and are recognized as expenses over the duration of the related debt.

Governmental fund types recognize bond issuance costs during the current period. The face amount of debt is reported as other financing sources, and bond discount is recorded as another financing use. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as other services in expenditures.

Net position

The government-wide statement of net position presents financial information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Net position invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back any unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through enabling creditors, grantors, or laws or regulations of other governments.

Fund balance policies

The City provides fund balance categories to report the nature and extent of the constraints placed on the government's fund balances. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- *Nonspendable fund balance* – amounts that are not in spendable form, such as inventories and prepaid items, or are legally or contractually required to remain intact.
- *Restricted fund balance* – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government) through constitutional provisions, or by enabling legislation.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE TEN
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

- *Committed fund balance* – amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City Council, the government's highest level of decision-making authority.
- *Assigned fund balance* – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- *Unassigned fund balance* – residual amounts that are available for any purpose; positive amounts are reported only in the general fund.

The City Council, the City's highest level of decision-making authority, establishes, modifies, or rescinds fund balance commitments by passage of resolutions that also establish the City's spending policy, which prescribes that restricted fund balance amounts are to be spent first, followed by committed, assigned, and lastly, unassigned fund balances.

The City does not have a formal minimum fund balance policy but transfers resources among funds as necessary to address any deficiencies at the fund level.

F. Budgets and Budgetary Accounting

The City's procedures for establishing its budget and for reporting budgetary data reflected in the financial statements are as follows:

1. In August, the City's Chief Financial Officer submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.

2. Prior to September 15, the budget is legally enacted through the passage of an ordinance by the City Council. The budget may be subsequently amended by action of the City Council.

3. The City's Chief Financial Officer is authorized to transfer budgeted amounts within departments within the published expenditure categories; however, any revisions that alter the total expenditures of any fund must be approved by the City Council.

4. All funds, with the exception of Agency Funds, are budgeted, including the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, and Proprietary Funds. These budgets are prepared on a cash basis, modified for encumbrances for goods and services which have been received.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO THE FINANCIAL STATEMENTS
PAGE ELEVEN
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Each fund's appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Pursuant to the Mississippi State Department of Audit's prescribed format, expenditures are budgeted by department and class as follows: personal services, supplies, other services and charges, capital outlays, transfers, and debt service. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. All budget revisions at this level are subject to final approval of the City Council. Cumulative increases to departmental expenditures in excess of 10% must also be published in the local newspaper.

Encumbrances arise from the issuance of purchase orders, which must be within the adopted budgetary limits. Encumbrances are recorded when purchase orders are issued but are not considered expenditures until liabilities for payments are incurred upon receipt of goods or services. Encumbrances do not lapse at the close of the fiscal year but are carried forward. If necessary, subsequent year budgets are amended to cover prior year encumbrances.

G. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. This affects the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from these estimates. Significant estimates which could change in the near-term include collectible portions of receivables from property taxes levied but not yet due, the allowance for doubtful Water and Sewer customer accounts receivable, the net collectible amounts of Municipal Court fines receivable, claims liabilities for the employee health insurance plan, useful lives of capital assets, and liabilities for pension and other post-employment benefits. In addition, long-term and current portions of compensated absences are based on estimates and assumptions relating to when earned compensated absences will be paid. Actual results may differ from those estimates.

H. Changes in Accounting Standards

The City implemented the following standards issued by the Governmental Accounting Standards Board (GASB) in the current fiscal year as required: GASB Statement No. 77, *Tax Abatement Disclosures* and GASB Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73*. The provisions of these standards have been incorporated into the financial statements and notes.

NOTE 2 - PRIOR PERIOD ADJUSTMENTS

A summary of prior period adjustments reflected on the City's financial statements is presented below:

Explanation	Amount
Exhibit B (Governmental Activities)	
Correction of Error:	
To adjust compensated absences balance	$ (1,306,603)
Exhibit B (Business-Type Activities) and Exhibit F	
Correction of Error:	
To adjust other liablities balance from prior years	$ 265,691
To adjust compensated absences balance	(108,431)
	$ 157,260

NOTE 3 - DEPOSITS

Deposits - The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation (FDIC).

The carrying amount of the City's deposits with financial institutions reported in the government-wide statements was $26,891,601 (exclusive of cash with fiscal agents disclosed below). The bank balance was $27,439,541. The City's long standing, although not formally adopted, investment policy is based upon all bank accounts being fully collateralized (using the procedures described above) and interest-bearing with rates updated on a quarterly basis and benchmarked using verifiable appropriate federal funds rates. Interest is calculated using average balances and recorded monthly.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE THIRTEEN
YEAR ENDED SEPTEMBER 30, 2017

NOTE 3 - DEPOSITS (Cont.)

Custodial credit risk - deposits - Custodial credit risk is defined as the risk that, in the event of a financial institutions failure, the government's deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk. As of September 30, 2017, the City's bank balance was not exposed to custodial credit risk because deposits are covered by the State Treasurer collateral pool.

Cash with fiscal agents - The carrying amount of the City's cash with fiscal agents held by financial institutions was $27,704,679.

Interest rate risk - The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTE 4 - NOTES RECEIVABLE

In 2010, the City Council authorized a purchase of property located at 510 West Pine Street for the Sacred Heart Catholic Parish. Pursuant to the terms of this agreement, the City financed the purchase price of $2,500,000 through the issuance of the City's General Obligation Pool Loan Refunding Bonds, Series 2010, to be repaid over 20 years with the final bonds maturing July 1, 2030. The Diocese of Biloxi executed a $2,500,000 promissory note requiring annual payments not to exceed $219,000 at an interest rate not to exceed 5.5% to coincide with the scheduled principal, interest and servicing fees attributable to the City's Series 2010 bonds. At September 30, 2017, the balance of this note receivable was $1,915,000.

In 2012, the City Council authorized a loan agreement and promissory note for $2,000,000 to be repaid over 20 years, at a rate of 2% in monthly installments of $10,118, commencing February 1, 2013 and continuing until February 1, 2033. This arrangement was executed pursuant to Katrina Supplemental CDBG Program grant agreements that resulted in loan funding for site acquisition for two historic downtown buildings, with monthly repayments required from the City to the Mississippi Development Authority (MDA). Under the terms of the loan agreement, HCL Leverage Lender, LLC will remit the above-noted monthly payments to the City, and after the receipt of these payments, the City will in turn remit the resulting payments to MDA. At September 30, 2017, the balance of this note receivable was $1,594,683.

YEAR ENDED SEPTEMBER 30, 2017

NOTE 5 - CAPITAL ASSETS (Cont.)

Depreciation expense was charged to the functions/programs of the governmental activities of the City as follows:

Governmental Activities:	
General government	$ 235,748
Public safety	933,047
Public works – which includes the depreciation of infrastructure assets	5,323,388
Health and welfare	23,408
Other services	469,890
Culture and recreation	564,576
Mass transit	668,232
Total depreciation expense - governmental activities	$ 8,218,289

NOTE 6 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

Balances due to/from various City funds at September 30, 2017, consist of the following:

Receivable Fund	Payable Fund	Amount
General fund	Nonmajor governmental funds	$ 567,199
General fund	Combined water and sewer system	243,287
Nonmajor governmental funds	Combined water and sewer system	8,500
Nonmajor governmental funds	General fund	91,759
Nonmajor governmental funds	Nonmajor governmental funds	10,128
Combined water and sewer system	General fund	152,764
Total		$ 1,073,637

The outstanding balances between funds result mainly from the time lag between the dates that goods and services are provided or reimbursable expenditures occur and satisfaction of those amounts. These balances are expected to be collected within one year.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE SEVENTEEN
YEAR ENDED SEPTEMBER 30, 2017

NOTE 6 - INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS (Cont.)

Advances to/from other funds for governmental funds at September 30, 2017, consist of the following:

Receivable Fund	Payable Fund	Amount
General fund	Nonmajor governmental fund	$ 300,000

The amount payable to the General Fund is attributable to working capital loans made to the Community Development Block Grant Fund. None of the balance shown is scheduled to be collected in the subsequent year.

The composition of interfund transfers for the year ended September 30, 2017, is as follows:

	Transfers In:		
Transfers out:	General Fund	Nonmajor Governmental Funds	Total
General fund	$ -	$ 3,460,000	$ 3,460,000
Nonmajor governmental funds	94,391	211,591	305,982
Combined water and sewer system	306,908	-	306,908
Total	$ 401,299	$ 3,671,591	$ 4,072,890

Interfund transfers are authorized components of the budget and are typically used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the fund collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE EIGHTEEN
YEAR ENDED SEPTEMBER 30, 2017

NOTE 7 - AD VALOREM TAXES LEVIED FOR OTHER GOVERNMENTAL ENTITIES

Section 35-57-1 et seq., Mississippi Code 1972, requires that the City levy and collect all taxes for and on behalf of the municipal separate school district. Section 39-3-7, Mississippi Code 1972, authorizes the City to levy and collect a tax not in excess of three mills for the support of any public library system located within the municipality.

For the reported fiscal year, the following ad valorem tax levies were made in accordance with the applicable statutory requirements and authorizations:

Entity/Purpose of Levy	Applicable State Law	Mills Levied
School District:		
Operational Support	37-57-105	57.69
School Bonded Indebtedness	37-59-23	7.37
Library (support, upkeep and maintenance of Hattiesburg Public Library System)	39-3-7	1.95

NOTE 8 - CLAIMS AND JUDGMENTS

The City provides employee health and accident coverage through a self-insurance program that utilizes a plan administrator as its claims-servicing organization, with the City retaining the risk of loss on all claims to which the City is exposed. Premium payments into the plan are established as a part of the City's budgetary process and upon consideration of actuarial recommendations are provided by the plan administrator. The City has opted to set premium rates for individual and family coverage at somewhat lower levels than those recommended. Therefore, additional costs not expected to be covered by premiums are separately budgeted in individual funds in which related payroll costs are incurred. When necessary based upon the claims paid during the fiscal year, the City makes supplemental transfers from payroll budgets of various funds into separate self-insurance fund accounts, which are included in the general fund for financial reporting purposes for fiscal year 2017.

To limit its exposure to risk under this self-insured program, the City maintains reinsurance which provides two separate stop loss coverages: specific and aggregate. These coverages are provided by an outside commercial carrier. For fiscal year 2017, the specific coverage begins when an individual participant's claim exceeds $100,000, with unlimited maximum benefit per covered person. The aggregate policy covers all submitted claims in excess of the minimum aggregate deductible, which is the greater of $4,226,552 or 95% or the annualized first monthly aggregate deductible. Maximum covered expenses of $100,000 per covered person accumulate toward the unlimited maximum aggregate benefit.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE NINETEEN
YEAR ENDED SEPTEMBER 30, 2017

NOTE 8 - CLAIMS AND JUDGMENTS (Cont.)

Claims expenses and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The following table provides changes in the balances of claims liabilities for fiscal year 2017:

Unpaid claims, beginning of fiscal year	$ 338,721
Plus: Incurred claims (including IBNRs)	4,579,322
Less: Claims payments	(4,573,286)
Unpaid claims, end of fiscal year	$ 344,757

Cash on deposit in the Group Insurance Fund at September 30, 2017 was $235,190. Based on the above projection of net unpaid claims in excess of cash on deposit, interfund receivables were established from the respective operating funds at September 30, 2017.

NOTE 9 - LEASE OBLIGATIONS

The City has entered into various lease agreements as lessee for financing equipment purchases and for a major energy improvement project for various City facilities. The assets under capital lease have useful lives ranging from 7 to 10 years for machinery and equipment and from 10 to 15 years for buildings and improvements and are being depreciated based on those useful lives.

For fiscal year 2017, the assets recorded under capital leases and included in capital assets in the accompanying statement of net position are as follows:

Governmental Activities:

Machinery and equipment	$ 3,856,259
Buildings and improvements	7,726,727
Less accumulated depreciation	(1,953,597)
Net book value	$ 9,629,389
Current year depreciation expense	$ 556,666

NOTE 9 - LEASE OBLIGATIONS (Cont.)

These leases qualify as capital leases for accounting purposes and therefore, have been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of minimum lease payments as of September 30, 2017 are as follows:

Year Ending September 30,	Governmental Activities
2018	$ 1,360,098
2019	980,957
2020	732,406
2021	568,822
2022	585,887
2023-2027	3,107,476
2028-2032	3,447,342
Total minimum lease payments	10,782,988
Less: amount representing interest	(1,729,400)
Present value of minimum lease payments	$ 9,053,588

NOTE 10 - LONG-TERM LIABILITIES

General Obligation Bonds and Notes

The City issues general obligation bonds and notes to provide funds for the acquisition and construction of major capital facilities. General obligation bonds and notes are direct obligations and pledge the full faith and credit of the City and have been issued for both governmental and business-type activities. Notes are generally issued with a five-year maturity. The City has no special assessment bonds or anticipation notes at September 30, 2017. Bonds are generally issued as serial bonds with essentially level principal and interest payments maturing each year with maturities that range from 5 to 20 years. General obligation notes and bonds outstanding at September 30, 2017 are as follows:

(See Table on Next Page)

Economic Development Limited Obligation Bonds and Notes

The City also has issued limited obligation debt for economic development purposes that is repaid from revenues pledged under the terms of the respective contractual agreements made pursuant to the authorization for these projects by the governing authorities. Thus, future revenues are pledged in the amount of future debt service requirements. These limited obligation bonds and notes are generally issued with essentially level annual principal and interest payments with maturities that range from 10 to 20 years. Limited obligation bonds and notes outstanding at September 30, 2017 are as follows:

Economic Development Limited Obligation Bonds and Notes

Governmental Activities:	Sale Date	Original Borrowing	Interest Rates to Maturity	Final Maturity	Outstanding 9/30/17
MDB Limited Obligation Bonds (Church)	2009	$ 2,937,000	2.90 - 6.00%*	2030	$ 225,352

Limited Obligation Tax Increment Financing Bonds

Tax increment financing (TIF) bonds are issued by the City to provide funds for the acquisition and construction of infrastructure and related improvements in conjunction with commercial development projects. Bonds are generally issued as serial bonds with essentially level principal and interest payments with maturities that range from 10 to 20 years. These bonds are secured by the payment of the incremental increase in City property taxes from each project's TIF taxing district as authorized under the TIF plan document approved by the governing authorities. These bonds may also be secured by county participation as authorized by executed interlocal agreements pledging incremental increase in county property taxes in the TIF taxing district. Limited obligation TIF bonds outstanding at September 30, 2017 are as follows:

Limited Obligation TIF Bonds

Governmental Activities:	Sale Date	Original Borrowing	Interest Rates to Maturity	Final Maturity	Outstanding 9/30/17
Chauvet Square	2003	$ 1,100,000	4.50 - 5.35%	2023	$ 480,000

Total					$ 11,061,000

Certificates of Participation

In accordance with Section 31-8-1, et seq. Miss. Code Ann. (1972), the City issued Certificates of Participation and transferred the proceeds to the Southern Mississippi Investment Company, Inc. (Corporation). The funds were used to construct a City Public Safety Complex, including renovations of an existing building to be used as a multi-purpose building and a Parks and Recreation administration building.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE TWENTY-THREE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 10 - LONG-TERM LIABILITIES (Cont.)

At completion, the Corporation entered into a 20 year agreement with the City, with the City being obligated to make payments to the Corporation equal to the principal and interest payments on the debt. When the debt is paid, the City will assume ownership of the facilities. The obligation is not a general obligation and does not constitute a pledge of full faith and credit of the City. There is an unamortized premium of $263,142 which is not included in the principal in the following schedule:

Certificates of Participation

Governmental Activities:	Sale Date	Original Borrowing	Interest Rates to Maturity	Final Maturity	Outstanding 9/30/17
Certificates of Participation	2016	$ 5,300,000	3.00 - 5.00%	2035	$ 5,300,000

Business-type Activities (Water and Sewer) Revenue Bonds

In addition to water and sewer general obligation bonds, the City also issues water and sewer revenue bonds to provide funds for the acquisition and construction of water and sewer system infrastructure and related improvements and system rehabilitation. These bonds are secured by water and sewer operating revenues and are subject to the requirements of the respective revenue bond documents. These bond documents include important parity debt requirements with the issuance of each new series of revenue bonds and require annual net revenue tests to be performed in accordance with the prescribed calculations.

Bonds are generally issued as serial bonds with essentially level principal and interest payments maturing each year with maturities that range from 15 to 25 years. Revenue bonds outstanding at September 30, 2017 are as follows:

Revenue Bonds

Business-type Activities:	Sale Date	Original Borrowing	Interest Rates to Maturity	Final Maturity	Outstanding 9/30/17
W&S Revenue Project, Series 2012	2012	$ 12,500,000	2.50 - 5.00%	2032	$ 10,095,000

YEAR ENDED SEPTEMBER 30, 2017

NOTE 10 - LONG-TERM LIABILITIES (Cont.)

Business-type Activities (Water and Sewer) State Revolving Loan Fund (SRF) Notes

In addition to water and sewer revenue bonds, the City has utilized financing available under the State of Mississippi Revolving Loan Fund (SRF) program to provide funds for qualified sewer projects. Monthly principal and interest payments for the repayment of these notes is deducted from the City's monthly sales tax diversion payments from the Mississippi Department of Revenue, with monthly reimbursements to the City's general fund being made from monthly operating sewer system revenues as authorized by the City's budget document. The SRF notes outstanding at September 30, 2017 are as follows:

State Revolving Loan Funds

Business-type Activities:	Sale Date	Original Borrowing	Interest Rates to Maturity	Final Maturity	Outstanding 9/30/2017
SRF #3	1999	$ 1,293,195	4.50%	2019	$ 120,683

Compensated Absences

Vested or accumulated vacation leave, holiday leave, and accrued overtime that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave, holiday leave, and accrued overtime that are not expected to be liquidated with expendable available financial resources are reported as noncurrent liabilities. In accordance with the provisions of ASC 710-10-20, *Compensation*, no liability is recorded for nonvesting accumulating rights to receive sick pay benefits. Compensated absences at September 30, 2017 are as follows:

	Governmental Activities	Business-Type Activities	Primary Government
Accrued vacation pay	$ 1,280,950	$ 96,403	$ 1,377,353
Accrued overtime pay	13,905	654	14,559
Accrued holiday pay	67,716	-	67,716
Total	$ 1,362,571	$ 97,057	$ 1,459,628

During the year ended September 30, 2017, interest expense paid for governmental activities and business-type activities totaled $1,119,296 and $2,389,665, respectively.

NOTE 11 - SCHEDULE OF STATUTORY DEBT LIMITATIONS

The City is subject to the limitations of indebtedness prescribed by Section 21-33-303, Mississippi Code 1972. No municipality may issue bonds secured by a pledge of its full faith and credit in an amount which, when added to the then outstanding bond indebtedness of such municipality, would exceed the 15% and 20% tests prescribed in Section 21-33-303. These percentages are applied to the assessed value of the taxable property within such municipality, with certain types of bond issues being excluded from the authorized debt limit tests. Presented in the schedule below are the calculations of the applicable statutory debt limitations as of September 30, 2017:

(See Table on Next Page)

Margin for additional debt [a] minus [b]		$ 61,385,944	$ 71,825,258

NOTE 12 - TAX ABATEMENTS

GASB Statement No. 77, *Tax Abatement Disclosures,* defines a tax abatement as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they would otherwise be entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the government or citizens of those governments.

The City negotiates property tax abatements on an individual basis. All abatements are for 5 and/or 10 years and are for economic development purposes. The City had three types of abatements, one of which provides for the abatement of school or state tax levies, as follows:

Section 27-31-101 and 27-31-105, Miss. Code (Ann.) 1972 – All allowable tax levies
There are twenty-four companies that have tax abatements under this statute.

Section 17-21-5, Miss. Code (Ann.) 1972 – Historic district exemptions
There are seven companies that had tax abatements under this statute.

Section 27-31-104, Miss. Code (Ann.) 1972 – Payment-in-lieu of taxes
There is one company that had tax abatements under this statute.

(See Table on Next Page)

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE THIRTY
YEAR ENDED SEPTEMBER 30, 2017

NOTE 12 - TAX ABATEMENTS (Cont.)

Category	Amount of Taxes Abated During the Fiscal Year	Direct Employment Impact	Indirect Employment Impact
Construction and expansion of a manufacturing facility	$ 1,472,568	5,421 jobs	4,762 jobs
Historic district exemptions	35,402	13 jobs	5 jobs
Fee-in-lieu exemptions	296,251	-	-

The projected public investment for jobs impacted by industrial expansions is $272 per direct job and $145 per indirect job. The projected public investment for historic district exemptions is $2,723 per direct job and $1,970 per indirect job.

The economic impact information presented above was compiled by consultants contracted by the City and was prepared in conjunction with fiscal year 2017 tax abatement totals obtained from the Forrest County Tax Assessor's office. There were no tax abatement agreements for Lamar County properties in fiscal year 2017.

The companies were required to comply with certain special provisions, and did so in order to receive the abatements, and the City made no commitments as part of the agreements other than to reduce taxes.

NOTE 13 - RELATED ORGANIZATION

The following related organization is excluded from the financial reporting entity because the City's accountability does not extend beyond making appointments. Audited financial statements are available from the organization.

Hattiesburg Tourism Commission - The Commission consists of seven members appointed by the Mayor and ratified by the City Council. Funding is from a special tax levied upon the gross proceeds from hotel and motel overnight room rentals. The City collects that tax and distributes it to the Tourism Commission. Amounts disbursed for the fiscal year ended September 30, 2017 totaled $672,705. Amount due from special tax agency fund to the Tourism Commission at September 30, 2017 was $35,102 and was included in the accompanying statement of fiduciary net position under the caption due to other funds and was distributed within thirty days.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE THIRTY-ONE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 14 - JOINT VENTURES

The City of Hattiesburg is a participant with Forrest County in a joint venture authorized by Section 57-31-1, Mississippi Code Annotated (1972), to operate the Forrest County Industrial Park Commission. The joint venture was created to develop and operate an industrial park complex for citizens of Forrest County and the City of Hattiesburg. The Commission is governed by a ten member board. The governing authorities of the City of Hattiesburg and the Forrest County Board of Supervisors each appoint five members. Each entity is obligated to provide equal funding for the ongoing financial support of the Commission. A separate financial statement of the Forrest County Industrial Park Commission can be obtained by contacting the Commission at Post Office Box 1898, Hattiesburg, Mississippi 39403.

The City of Hattiesburg is a participant with Forrest County, Jones County, and the State of Mississippi to operate the Hattiesburg/Laurel Regional Airport Authority authorized by Section 61-3-5, Mississippi Code Annotated (1972). The joint venture, governed by a five member board of commissioners, was created to maintain and develop the Authority for the City and aforementioned counties. Each governmental entity appoints one board member. A separate financial statement of the Hattiesburg/Laurel Regional Airport Authority can be obtained by contacting the Authority at 1002 Terminal Drive, Moselle, Mississippi 39459.

The City of Hattiesburg is a participant with Forrest County and the City of Petal in a joint venture authorized by Section 39-3-38, Mississippi Code Annotated (1972) to operate the Library of Hattiesburg, Petal, and Forrest County. The joint venture was created to provide free public library service to the citizens of Forrest County and the Cities of Hattiesburg and Petal. The library is governed by a fifteen member board appointed by the governments involved as follows: City of Hattiesburg - six members; Forrest County - six members; and City of Petal - three members. Each entity is obligated by contract to levy not less than 1.25 mills as authorized by Sections 39-3-35 and 39-3-37, Mississippi Code Annotated (1972), for the ongoing financial support of the library. A separate financial statement of the library can be obtained by contacting the Library at 329 Hardy Street, Hattiesburg, Mississippi 39401.

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS

The Emergency Management District provides emergency services to the City of Hattiesburg and Forrest County. The entity is controlled by an eight member council. The Council is chosen as follows by the following authorities: Mayor of Hattiesburg - one; Forrest County Board of Supervisors - one; Sheriff of Forrest County - one; AAA Ambulance - one; Hattiesburg Police Chief - one; Hattiesburg Fire Chief - one; the University of Southern Mississippi - one; and Forrest General Hospital - one. Operating funds are provided by state grants, E-911 charges and direct contributions.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE THIRTY-TWO
YEAR ENDED SEPTEMBER 30, 2017

NOTE 16 - DEFICIT FUND BALANCES OF INDIVIDUAL FUNDS

At September 30, 2017, the City's Community Development Block Grant Fund and the Airport Improvement Fund reported deficit fund balances of $40,913 and $228,397, respectively, which are attributable to the cumulative effect of program expenditures in excess of grant reimbursements.

NOTE 17 - COMMITMENTS

Significant encumbrances at September 30, 2017, included $147,124 for paving projects, $248,410 police cars and radio equipment, $49,950 for bus stops improvements, and $13,286 for fire department furniture.

September 30, 2017	**Amount**
Airport Improvements	$ 888,075
Infrastructure Projects	834,100
Water & Sewer Projects	703,100
Commitments for construction projects in progess, end of fiscal year	$ 2,425,275

NOTE 18 - CONTINGENCIES

USA Yeast Facility - During fiscal year 2015, the City completed construction of a wastewater pretreatment facility, or evaporator plant for a manufacturing facility located within the City. Project costs were funded with CDBG Economic Development Grant funds and with private funds provided by the manufacturer. Under the terms of the grant agreement, the City has title to assets constructed with grant funds, and the manufacturing company owns the assets constructed with its funds. Pursuant to an agreement between the City and the company and to terms of the CDBG grant agreement, title to the equipment and components will transfer to the company upon expiration of the agreement on December 31, 2021. In conjunction with this project, the City has a ground lease for company property on which the evaporator plant is located. This lease requires payment of $1 per year and expires December 31, 2021.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE THIRTY-THREE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 18 - CONTINGENCIES (Cont.)

Mississippi Department of Environmental Quality Consent Order - Stipulated Order Terminating Amended Consent Judgment - In August 2017, GRN, the City and MDEQ, the parties involved in the rehabilitation and improvement of the City's sewer system mandated under the Amended Agreed Order, negotiated a settlement. Pursuant to this settlement, a conditional Stipulated Order Terminating Amended Consent Judgment (the Stipulated Order) was entered on August 23, 2017. Terms of the Stipulated Order include submission of a revised permit request for the South Lagoon which incorporates certain monitoring requirements. Upon issuance of the amended permit and entry of a separate Agreed Order by the Mississippi Commission on Environmental Quality establishing a stipulated penalty of $1,500 per day for future violations, the Amended Consent Judgment will automatically terminate. The stipulated order further requires the City to provide certain effluent and performance information to GRN for a limited time.

As a result, the litigation aspect of this matter is conditionally concluded, and the City is also conditionally no longer liable for unpaid fines, penalties or construction obligations under the Amended Consent Judgment, subject to the City complying with terms of the Stipulated Order. The Stipulated Order precludes the City from having to immediately move forward to construct a fully mechanical wastewater treatment plant at an estimated cost exceeding $150 million, as was required by the Amended Consent Judgment. As a result of relief granted under the Stipulated Order, the City has suspended certain project elements that were in development and design stages in prior years. The City expects that it will continue its efforts to improve the performance of the existing lagoon treatment system and also expects that modifications to the system may be recommended, potentially requiring additional capital outlays. However, the cost of any such improvements and modifications is not determinable at this time.

Litigation - The City is party to various legal proceedings which normally occur in governmental operations. While the City cannot predict the results of any litigation, legal counsel for the City of Hattiesburg believes that it has meritorious defenses for those actions, proceedings and claims, or they are without merit or are of such kind, or involve such amounts, that unfavorable dispositions not covered by insurance resulting from such litigation would not materially affect the financial statements of the City of Hattiesburg, Mississippi. The City includes anticipated attorney fees for ongoing matters in its annual budget for the year in which such fees are incurred.

Federal Grants - In the normal course of operations, the City receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as the result of these audits is not believed to be material.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE THIRTY-FOUR
YEAR ENDED SEPTEMBER 30, 2017

NOTE 18 - CONTINGENCIES (Cont.)

Group Insurance Programs - The City obtains its workers' compensation, general and automobile liability insurance through certain group insurance programs of the Mississippi Municipal Service Company. Under these programs and pursuant to State of Mississippi regulations, participants are jointly and severally liable for claims incurred; however, the City has experienced no loss under such provisions and cannot reasonably estimate the amount or possibility of losses under these programs.

Self-Funded Health Insurance Program - The City provides health insurance to its employees under a self-insured program, as previously described. The City obtains reinsurance to protect against significant loss; however, under the terms of such reinsurance policies, the City is ultimately responsible for covered claims. While the City estimates and recognizes expected claims liabilities related to this program, the amount or possibility of any additional loss cannot be reasonably estimated.

NOTE 19 - OTHER POSTEMPLOYMENT BENEFITS

The City allows eligible retirees to obtain health insurance by participating in its self-funded health insurance plan provided to employees and certain eligible dependents. Retirees are eligible for these benefits upon attaining age 60 with 8 years of service or any age with 25 years of service for medical benefits. Since retirees may obtain health insurance by participating in a group with active employees and consequently receive a health insurance premium rate differential, such postemployment healthcare benefits are reportable by the City under GASB Statement 45 as a single employer defined benefit health care plan. This type of plan is considered an "other postemployment benefit plan", or "OPEB".

Plan Description - The City provides health insurance coverage to participating eligible retirees through its single employer defined benefit healthcare plan, which is a self-funded plan administered by United Healthcare. The plan also provides health benefits to employees and their eligible dependents. The portion of the plan attributable to retirees represents other postemployment benefits for financial reporting purposes. Although the City expects to continue the plan indefinitely, it has the right to discontinue, alter, or modify the plan in whole or in part at any time and for any reason, at its sole determination. The Plan does not issue a stand-alone financial report. Instead, accounts of the Plan are included in the financial statements of the City. The City Council must approve any changes to the Plan provisions.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE THIRTY-FIVE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 19 - OTHER POSTEMPLOYMENT BENEFITS (Cont.)

Funding Policy - Benefits of the plan are self-insured by the City. The City maintains an account for the purpose of paying claims and administrative costs of its self-funded health insurance plan. The account requires that a minimum balance be maintained, and the City deposits additional funds for claims incurred and anticipated payments on a pay-as-you-go basis. Balances in the account belong to the City. Amounts contributed to this account are earmarked for plan expenses but may be revoked at the City's discretion. Therefore, balances are reported in assets of the general fund, and employer contributions are not recognized until payment of claims by the administrator to retirees or their beneficiaries.

Participating retirees make monthly contributions through premium payments based on coverage type. Monthly retiree contributions for single and family coverage for the fiscal year ended September 30, 2017 totaled $388 and $638, respectively. For the years ended September 30, 2017, 2016, and 2015, the City contributed $211,305, $161,224, and $149,281, respectively, to the plan for expected payouts for retiree benefits, which represented 26.38%, 21.20%, and 20.97%, respectively, of the actuarially determined annual required contribution of $800,903, $762,287, and $712,017, respectively. No amounts have been contributed to finance future medical benefits under the plan for either current or future retirees.

Annual OPEB Cost and Net OPEB Obligation - The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a closed 30 year period. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation related to the plan:

Increase in net OPEB obligation	589,598	600,143	562,736
Net OPEB obligation - beginning of year	1,162,879	562,736	-
Net OPEB obligation - end of year	$ 1,752,477	$ 1,162,879	$ 562,736

Funded Status and Funding Progress - As of October 1, 2017, the most recent actuarial valuation date, the plan was unfunded. The actuarial accrued liability for benefits was $6,605,614, which was also the amount of the unfunded actuarial accrued liability (UAAL).

NOTE 19 - OTHER POSTEMPLOYMENT BENEFITS (Cont.)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the October 1, 2017, actuarial valuation, the entry age normal level percent of salary actuarial cost method was used. The actuarial assumptions included an annual healthcare cost trend rate of 8% initially, grading uniformly to 5% over a 10-year period, a 4% discount rate, a 2.5% salary scale, and 100% participation rate of eligible future retirees. The UAAL is being amortized as a level percentage of projected payroll over a closed 30 year period. The remaining amortization period at September 30, 2017 was 27 years. Pre-65 annual per capital medical claims costs are assumed to be $8,927 per participant per year at age 65, and claims are assumed to decrease 3% per attained age. No claims costs are assumed for post-65 retirees. Additionally, administrative costs were assumed to be $383 per retiree per year and were assumed to increase 5% annually.

NOTE 20 - DEFINED BENEFIT PENSION PLANS

Public Employees Retirement Plans

Pension Plan Descriptions - The City contributes to the PERS cost-sharing multiple-employer defined benefit pension plan (the Cost-Sharing Plan), which covers all eligible employees, except certain sworn and uniformed policemen and firemen who participate in the City of Hattiesburg Police and Fire Disability and Relief Fund (PFDR), also administered by PERS. Both plans provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. PFDR Plan members consist of all full-time sworn and uniformed policemen and firemen who were employed by July 1, 1987. All full-time sworn and uniformed policemen and firemen employed after July 1, 1987, participate in the Cost-Sharing Plan. The PFDR Plan is affiliated with the Mississippi Municipal Retirement

CITY OF HATTIESBURG, MISSISSIPPI

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

System (MRS), an agent multiple-employer defined benefit pension plan, and as of June 30, 2017, included one active member and 147 retirees and beneficiaries currently receiving benefits. Benefit provisions for both plans are established by State law and may be amended only by the State of Mississippi Legislature. The Plans' provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. § 25-11-1 et seq. (1972, as amended), and may be amended only by the Mississippi Legislature.

PERS is administered by a 10-member Board of Trustees that includes: the State Treasurer; one gubernatorial appointee who is a member of PERS; two state employees; two PERS retirees; and one representative each from public schools and community colleges, state universities, municipalities, and counties. With the exception of the State Treasurer and the gubernatorial appointee, all members are elected to staggered six-year terms by the constituents they represent.

The Board of Trustees is responsible for the general administration and proper operation of PERS. The executive director is designated by the Board to lead and conduct all business for PERS. PERS operates under legislative mandate with respect to administrative budgets, human resources, and purchasing guidelines.

The financial statements of PERS are prepared using the economic resources measurement focus and accrual basis of accounting. Member and employer contributions are recognized as revenue when due pursuant to legal requirements; investment income is recognized when earned. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Expenses are recognized when the corresponding liability is incurred, regardless of when the payment is made. Investments are reported at fair value. Financial statements are prepared in accordance with requirements of the Governmental Accounting Standards Board {GASB). Under these requirements, PERS is considered a component unit of the State of Mississippi for financial reporting purposes and, as such, the financial statements issued by PERS are included in the State of Mississippi's Comprehensive Annual Financial Report. PERS issues a publicly available financial report that includes financial statements and required supplementary information. Supporting actuarial information for the Cost-Sharing Plan is also provided in the GASB Statement No. 68 Report for the PERS prepared as of June 30, 2017. The auditor's opinion on that report, which includes in an accompanying schedule of collective pension amounts as of June 30, 2017 and for the year then ended is also available. PERS also issues a publicly available financial report for the MRS, which includes separate information for the PFDR plan. All such information is available at www.pers.ms.gov or may be obtained by writing to Public Employees Retirement System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444- PERS.

YEAR ENDED SEPTEMBER 30, 2017

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

Cost-Sharing Plan Benefits Provided - Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of the Cost-Sharing Plan before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of the Cost-Sharing Plan before July 1, 2011), plus 2.5% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less.

Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of the Cost-Sharing Plan before July 1, 2007). The Cost-Sharing Plan also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

A cost-of-living adjustment payment is made to eligible retirees and beneficiaries equal to 3.0% of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of the Cost-Sharing Plan before July 1, 2011), with 3.0% compounded for each fiscal year thereafter.

PFDR Plan Benefits Provided - MRS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Membership eligibility and benefit provisions are governed by the general laws of the State of Mississippi, as well as local and private legislation enacted by the Mississippi State Legislature. Statutes may only be amended by the Mississippi Legislature. The PFDR retirement allowance is payable under this plan to any member who retires and has completed at least 20 years of creditable service, regardless of age. The retirement benefits are calculated in an amount equal to 50% of the employee's average compensation, plus 1.7% of average compensation for each year of credited service over 20 with an aggregate amount not to exceed 66-2/3%. Annual cost-of-living (COLA) adjustments are made to allowances of all retirees and beneficiaries, as further described below. Disability and death benefits are also provided under the plan. Upon a member's termination for any reason before retirement, that member's accumulated contributions are refunded.

YEAR ENDED SEPTEMBER 30, 2017

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

Cost-Sharing Plan Contributions - Employer and member contributions are based on actuarially determined rates that, expressed as percentages of annual covered payroll, are adequate to accumulate sufficient assets to pay benefits when due and are determined through the most recent June 30 annual valuation. Employer contribution rates consist of an amount for service cost; the amount estimated to finance benefits earned by current members during the year; and an amount for amortization of the unfunded actuarial accrued liability. Contribution requirements of PERS members and employers are established by the State of Mississippi Legislature, and at September 30, 2017, PERS members were required to contribute 9% of their annual salary, and employers were required to contribute 15.75% of covered payroll. The City's contributions (employer share only) to PERS for the years ended September 30, 2017, 2016 and 2015 were $3,707,145, $3,738,948, and $3,501,030, respectively, equal to the required contributions each year.

PFDR Funding Policy - The PERS System Board of Trustees establishes the funding policy for MRS plans. The funding policy for PFDR provides for periodic employer contributions at actuarially determined rates, expressed as millage rate tax applied to assessed property tax values, and active employee contributions at stated rates. The employee contribution rate as of September 30, 2017, was 10% of covered payroll. Contributions under this funding policy, established beginning in the 2011-2012 fiscal year, will generate an ultimate asset reserve level equal to a reasonable percentage (initially 100% - 150%) of the next year's projected benefit payment. At that point, actuarially determined employer contributions will be set equal to the fiscal year's projected benefit payments and adjusted as necessary to maintain the assets at the established reserve level; however, ultimately the City has the option of determining the contribution rate to set as its certified millage rate. The millage rate set by the City must be at a level that will ensure actuarial soundness of the System.

In developing the annual required contribution shown in the following paragraphs, the normal cost and actuarial accrued liability are determined using the entry age actuarial cost method. Unfunded actuarial accrued liability is being amortized on a closed basis as a level dollar amount over a remaining amortization period of twenty years. The asset valuation method used is a 5-year smoothed market method. The City has the option to set property tax rates to allow for extended contributions beyond 2020 under the funding policy adopted by the PERS Board of Trustees in February 2011. The millage rates certified as of September 30, 2016 under the Pre-2011 and Post-2011 Funding Policy rates are 17.97 mills and 3.08 mills, respectively. The actual tax levy set in 2016 for the pension fund for policemen and firemen for the year ended September 30, 2017 was 3.11 mills.

For the year ended September 30, 2017, contributions totaling $1,340,135 ($1,334,659 employer and $5,476 employee) were made in accordance with contribution requirements determined by an actuarial valuation of the System as of June 30, 2017. The employer's annual required contribution (ARC) was actuarially determined to be $1,586,000 (consisting of $-0- normal ARC and $1,586,000 accrued liability ARC).

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE FORTY-ONE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

Pension Liabilities and Pension Expense - At September 30, 2017, the City reported a liability of approximately $75,623,233 for its proportionate share of the collective net pension liability of the Cost-Sharing Plan and the net pension liability allocated to PFDR. The net pension liability (NPL) for both plans was measured as of June 30, 2017, and the total pension liability (TPL) used to calculate the NPL was determined by an actuarial valuation as of June 30, 2017 for the Cost-Sharing Plan and for the PFDR Plan. The NPL recorded as of September 30, 2017, and the pension expense recognized by the City for the year ended September 30, 2017, was as follows:

	Cost - Sharing Plan	PFDR	Total
Net pension liability	$ 60,775,128	$ 14,848,105	$ 75,623,233
Net pension expense	$ 5,956,556	$ 1,777,950	$ 7,734,506

The NPL is the difference between the TPL and the pension plans' fiduciary net position (FNP). The TPL is the present value of the pension benefits that are allocated to current members due to past service by entry age normal actuarial cost method. The TPL includes benefits related to projected salary and service, and automatic cost of living adjustments. The FNP is determined on the same basis as that used by the pension plans. The City's proportion of the collective Cost-Sharing Plan NPL was based on the employers' shares of contributions to the pension plan relative to the total employer contributions of all participating PERS employers. At June 30, 2017 the City's proportion was 0.365585% as compared to its proportion measured at June 30, 2016 of 0.356159%, or an increase of 0.009426%.

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

The change in the NPL for PFDR was as follows:

Year Ended September 30, 2017	Total Pension Liability	Fiduciary Net Position	Net Pension Liability
Service cost	$ -	$ -	$ -
Interest	2,698,813	-	2,698,813
Changes of assumptions	145,391	-	145,391
Difference between expected and actual experience	251,676	-	251,676
Contributions - employer	-	1,346,302	(1,346,302)
Contributions - employee	-	5,383	(5,383)
Net investment income	-	2,778,391	(2,778,391)
Benefit payments, including refunds of employee contributions	(3,394,117)	(3,394,117)	-
Administrative expense	-	(26,926)	26,926
Other changes	-	(16,601)	16,601
Net change	(298,237)	692,432	(990,669)
Net pension liability, beginning of year	36,520,448	20,681,674	15,838,774
Net pension liability, end of year	$ 36,222,211	$ 21,374,106	$ 14,848,105

Sensitivity to the City's Proportionate Share of the Net Pension Liabilities to Changes in the Discount Rate - The following table presents the City's net pension liabilities calculated using the discount rate of 7.75%, as well as what the System's net pension liabilities would be if they were calculated using a discount rate that is 1-percentage point lower (6.75%) or 1-percentage point higher (8.75%) than the current rate:

	1% Decrease	Current Rate	1% Increase
Cost-sharing plan net pension liability	$ 83,736,022	$ 60,775,128	$ 50,013,755
PFDR plan net pension liability	$ 18,033,715	$ 14,848,105	$ 12,107,795

YEAR ENDED SEPTEMBER 30, 2017

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Cost - Sharing Plan		PFDR
September 30, 2017	**Deferred Outflows of Resources**	**Deferred Inflows of Resources**	**Deferred Outflows of Resources**
Differences between expected and actual experience	$ 614,051	$ 311,868	$ -
Changes of assumptions	949,970	72,830	-
Net difference between projected and actual earnings on investments	-	624,246	563,375
Changes in proportion and differences between employer contributions and proportionate share of contribution	3,431,999	-	-
Employer contributions subsequent to the measurement date	974,967	-	109,247
Total	$ 5,970,987	$ 1,008,944	$ 672,622

Deferred outflows of resources related to the Cost-Sharing Plan and PFDR resulting from City contributions subsequent to June 30, 2017 (the measurement date) were $974,967 and $109,247, respectively, and will be recognized as a reduction of the net pension liability in the year ending September 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as an addition to (reduction of) pension expense as follows:

(See Table on Next Page)

CITY OF HATTIESBURG, MISSISSIPPI

YEAR ENDED SEPTEMBER 30, 2017

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

	Cost - Sharing Plan		PFDR
Year Ending September 30,	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources
2018	$ 1,678,321	$ (318,381)	$ 312,485
2019	1,678,321	(318,381)	312,485
2020	1,262,970	(216,119)	80,309
2021	376,808	(156,063)	(141,904)
Total	$ 4,996,420	$ (1,008,944)	$ 563,375

Recognition of pension-related deferred inflows and deferred outflows is reflected in changes in unrestricted net position.

Actuarial Assumptions - For determining employer contribution rates, the actuary evaluates the assets of the plans based on a five-year smoothed expected return with 20% of a year's excess or shortfall of expected return recognized each year for five years. The TPL was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Cost - Sharing Plan	PFDR Plan
Inflation	3.00%	3.75%
Investment rate of return (net of plan investment expense and inflation)	7.75%	7.75%
Projected salary increases, including inflation	3.25% - 18.50%	4.00% - 5.50%

The actuarial assumptions used in the Cost-Sharing Plan actuarial valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016. The experience report was dated April 18, 2017.

Mortality rates for the Cost-Sharing Plan were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with mortality improvements based on Scale BB projected to 2022 and set forward one year for males.

CITY OF HATTIESBURG, MISSISSIPPI

NOTES TO FINANCIAL STATEMENTS
PAGE FORTY-FIVE
YEAR ENDED SEPTEMBER 30, 2017

NOTE 20 - DEFINED BENEFIT PENSION PLANS (Cont.)

The long-term expected rate of return on Cost-sharing pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of geometric real rates of return for each major asset class in the Cost-Sharing Plan are as follows:

Investment Asset Class	Target Allocation	Long-Term Expected Rate of Return
U.S. Broad	27.00%	4.60%
International equity	18.00%	4.50%
Emerging markets equity	4.00%	4.75%
Global	12.00%	4.75%
Fixed income	18.00%	0.75%
Real estate	10.00%	3.50%
Private equity	8.00%	5.10%
Emerging debt	2.00%	2.25%
Cash	1.00%	0.00%
Total	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 7.75% for both pension plans. The projection of cash flows used to determine the discount rate for the Cost-Sharing Plan assumed that plan member contributions will be made at the current contribution rate (9.00%) and that the employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, components of the pension plans' fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

YEAR ENDED SEPTEMBER 30, 2017

NOTE 21 - DISCRETELY PRESENTED COMPONENT UNIT (Cont.)

The City entered into a contract with the Commission and the Hattiesburg Tourism Commission during fiscal year 2010 for the management of the Hattiesburg Zoo at Kamper Park. In May 2012, a new agreement was entered into with the Commission that allowed for the Commission to accept full financial responsibility for any subsidy requirement necessary for operations of the Hattiesburg Zoo, thus ending the monthly management fee as contained in the original contract. Six months prior to the end date of the contract (September 30, 2020), all parties agree to review the financial status of the Zoo operations to consider whether any revisions to the financial plan are necessary.

During the year ended September 30, 2017, the Commission contracted for certain capital projects. The Commission transferred completed construction projects totaling $24,733 to the City, which are reflected in capital assets of the City as of September 30, 2017.

NOTE 22 - SUBSEQUENT EVENTS

Management has evaluated subsequent events after the financial statement date of September 30, 2017 through November 15, 2018, which is the date the financial statements were available to be issued. Significant subsequent events are described below.

Commitments for Additional Debt

In August 2018, the City approved the defeasance of the Taxable General Obligation Bonds, Series 2010 in the amount of $2,560,000.

In April 2018, the City approved an Interlocal Cooperation Agreement with Forrest County in connection with the Hardy Street South Project. In September 2015, the City approved a Development Agreement that included the issuance of limited obligation tax increment financing (TIF) bonds in an amount not to exceed $1,000,000 for a term of up to 20 years for this project. These TIF bonds have not yet been issued.

In October 2018, the City adopted the intent resolution for the issuance of general obligation bonds to be sold by the Mississippi Development Authority of the State of Mississippi in an aggregate amount not to exceed $45,000,000. These bonds are to be used to provide funding for various infrastructure projects, municipal building and improvement projects, and other purposes authorized under Mississippi Code Ann. Sections 21-33-301et seq. and Sections 31-25-1 et seq.

YEAR ENDED SEPTEMBER 30, 2017

NOTE 22 - SUBSEQUENT EVENTS (Cont.)

Annexation

The City is in the process of expanding its corporate limits through the process of annexation which, pursuant to State law, requires Chancery Court ratification of the City's adopted ordinance. In conjunction with its annexation activities, the City is party to various litigation with Lamar County, the City of Petal, and Bellevue incorporators. The outcome of these cases and effects on annexation endeavors is not determinable due to the early stages of the matters.

Ad Valorem Tax Exemption

The City was named as a defendant, along with Forrest County, in an action by Kohler Co. seeking significant tax exemptions beyond the ten-year exemptions permitted by statute. The case is in its early stages and therefore no probability of outcome can be predicted.

Matters Related to Funding

Subsequent to September 30, 2017, certain Federal and State grant reimbursements were delayed because of delinquency in submission of the City’s annual financial reports. In addition, the City's credit rating was suspended in November 2016.

CITY OF HATTIESBURG

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED SEPTEMBER 30, 2017

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant expenditure activity of the City of Hattiesburg under programs of the federal government for the year ended September 30, 2017. Because the Schedule presents only a selected portion of the operations of the City of Hattiesburg, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the City of Hattiesburg.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures

Expenditures on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Pass-Through Entity Identifying Numbers

Pass-through entity identifying numbers are presented when available.

NOTE 3 - PAYMENTS MADE TO SUBRECIPIENTS

Federal funds provided to subrecipients from the Community Development Block Grants/State's Program and from the Home Investment Partnerships Program during the year ended September 30, 2017 totaled $141,447 and $56,625, respectively.

NOTE 4 - DE MINIMIS COST RATE

The City elected not to recover indirect costs for federal programs using the 10% de minimis cost rate allowed by the Uniform Guidance in Section 414.

Schedule 2

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Hattiesburg, Mississippi, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City of Hattiesburg, Mississippi's basic financial statements, and have issued our report thereon dated November 15, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Hattiesburg, Mississippi's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Hattiesburg, Mississippi's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Hattiesburg, Mississippi's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

HATTIESBURG
2 Southern Pointe Parkway, Suite 100
Hattiesburg, MS 39401-8025

P. O. Drawer 15099
Hattiesburg, MS 39404-5099

COLUMBIA

GULFPORT
2019 23rd Avenue
Gulfport, MS 39501-2968

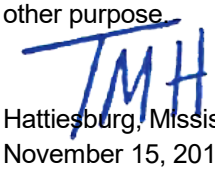
P. O. Box 1842
Gulfport, MS 39502-1842

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2017-001 through 2017-012, 2017-014, and 2017-015 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency as described in the accompanying schedule of findings and questioned costs as item 2017-013 to be a significant deficiency.

Compliance and Other Matters



As part of obtaining reasonable assurance about whether the City of Hattiesburg, Mississippi's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2017-010 through 2017-015.

City of Hattiesburg's Response to Findings

The City of Hattiesburg, Mississippi's response to the findings identified in our audit is described in Appendix A to the accompanying schedule of findings and questioned costs. The City of Hattiesburg, Mississippi's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Hattiesburg, Mississippi
November 15, 2018

Schedule 3

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

Report on Compliance for Each Major Federal Program

We have audited the City of Hattiesburg, Mississippi's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City of Hattiesburg, Mississippi's major federal programs for the year ended September 30, 2017. The City of Hattiesburg, Mississippi's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and terms and conditions of federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City of Hattiesburg, Mississippi's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Hattiesburg, Mississippi's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

HATTIESBURG
2 Southern Pointe Parkway, Suite 100
Hattiesburg, MS 39401-8025

P. O. Drawer 15099
Hattiesburg, MS 39404-5099

COLUMBIA
150 Old Highway 98 E
Columbia, MS 39429-6447

P. O. Box 609
Columbia, MS 39429-0609

GULFPORT
2019 23rd Avenue
Gulfport, MS 39501-2968

P. O. Box 1842
Gulfport, MS 39502-1842

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

We believe that our audit provides a reasonable basis for our qualified opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City of Hattiesburg, Mississippi's compliance.

Basis for Qualified Opinion on the Highway Planning and Construction Program

As described in the accompanying schedule of findings and questioned costs, the City of Hattiesburg, Mississippi did not comply with requirements regarding CFDA 20.205 Highway Planning and Construction Program as described in Finding 2017-010 for Procurement and Suspension and Debarment. Compliance with such requirement is necessary, in our opinion, for the City of Hattiesburg, Mississippi to comply with the requirements applicable to that program.

Qualified Opinion on the Highway Planning and Construction Program

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the City of Hattiesburg, Mississippi complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Highway Planning and Construction Program for the year ended September 30, 2017.

Basis for Qualified Opinion on the Disaster Grants-Public Assistance Program

As described in the accompanying schedule of findings and questioned costs, the City of Hattiesburg, Mississippi did not comply with requirements regarding CFDA 97.036 Disaster Grants – Public Assistance Program as described in Finding 2017-015 for Reporting. Compliance with such requirement is necessary, in our opinion, for the City of Hattiesburg, Mississippi to comply with the requirements applicable to that program.

Qualified Opinion on the Disaster Grants-Public Assistance Program

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the City of Hattiesburg, Mississippi complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Highway Planning and Construction Program for the year ended September 30, 2017.

Unmodified Opinion on the Community Development Block Grants/Entitlement Grants Program

In our opinion, the City of Hattiesburg, Mississippi complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Community Development Block Grants/Entitlement Grants Program identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs for the year ended September 30, 2017.

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as Findings 2017-011 through 2017-014. Our opinion on each major federal program is not modified with respect to these matters.

The City of Hattiesburg Mississippi's response to the noncompliance findings identified in our audit is described in Appendix A to the accompanying schedule of findings and questioned costs. The City of Hattiesburg, Mississippi's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control over Compliance

Management of the City of Hattiesburg, Mississippi is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Hattiesburg, Mississippi's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Hattiesburg, Mississippi's internal control over compliance.

Our consideration of internal control over compliance was for the limited purposes described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as Findings 2017-010 through 2017-012, 2017-014, and 2017-015 to be material weaknesses.

To the Honorable Mayor and Members of the City Council
City of Hattiesburg, Mississippi

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as Finding 2017-013 to be a significant deficiency.

The City of Hattiesburg, Mississippi's response to the internal control over compliance findings identified in our audit is described in Appendix A to the accompanying schedule of findings and questioned costs. The City of Hattiesburg, Mississippi's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SCHEDULE 4
PAGE 1 OF 22

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued on the financial statements:

Opinion Unit	Opinion
Governmental Activities	Unmodified
Business-type Activities	Unmodified
Discretely Presented Component Unit	Unmodified
General Fund	Unmodified
Aggregate Remaining Governmental Funds	Unmodified
Combined Water and Sewer System	Unmodified

Internal control over financial reporting:	
Material weakness identified?	Yes
Significant deficiency identified not considered to be a material weakness?	Yes
Noncompliance material to financial statements noted?	Yes

Federal Awards

Internal control over the major federal program:	
Material weaknesses identified?	Yes
Significant deficiencies identified?	Yes
Type of auditor's report issued on compliance for the major program:	
Community Development Block Grants/Entitlement Grants	Unmodified
Highway Planning and Construction	Qualified
Disaster Grants – Public Assistance (Presidentially Declared Disasters)	Qualified
Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?	Yes

SCHEDULE 4
PAGE 2 OF 22

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section I - Summary of Auditor's Results (Cont.)

Identification of the major federal program:

CFDA Number	Name of Federal Program or Cluster
14.218	Community Development Block Grants/Entitlement Grants
20.205	Highway Planning and Construction
97.036	Disaster Grants – Public Assistance (Presidentially Declared Disasters)

Dollar threshold used to distinguish between Type A and Type B programs: $750,000

Auditee qualified as low-risk auditee? No

Section II - Financial Statement Findings

Finding:

Finding # 2017-001 Entity-Level Control Environment and Risk Assessment Processes

Finding Type: Material Weakness

Criteria - The Committee of Sponsoring Organizations of the Treadway Commission (COSO) model has been adopted as the generally accepted framework for evaluating internal controls framework, organizational structure, assignment of authority and responsibility, estimating the potential significance of risks relevant to achievement of financial reporting objectives, and responding to such risks represent elements of entity-level internal controls.

Condition - The City did not timely initiate or make substantial progress in implementation of corrective actions in response to material weaknesses and significant deficiencies in internal control identified in its financial statement audit for the year ended September 30, 2015.

Context - The City has previously developed a comprehensive plan in response to certain material entity-level control weaknesses related to financial reporting, but the City had not yet implemented corrective actions during fiscal year 2016.

Cause - The City's organizational structure, depth of resources of personnel with suitable knowledge and skill in financial reporting, and process for evaluating and addressing risks related to financial reporting result in entity-level control weaknesses.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-001 Entity-Level Control Environment and Risk Assessment Processes (Cont.)

Effect - Previously identified material weaknesses and significant deficiencies in internal control, along with other deficiencies, continued unmitigated in fiscal year 2017.

Identification of Repeat Finding 2016-001

Recommendation - The Administration should take steps to implement corrective actions for identified material weaknesses and significant deficiencies in internal controls and assess its overall control environment and risk assessment processes.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-002 Entity-Level Information, Communication and Monitoring

Finding Type: Material weakness

Criteria - The City must maintain effective internal accounting procedures over information, communication, and monitoring functions that relate to financial reporting and legal compliance.

Condition - The City's financial reporting system and monitoring processes lack sufficient depth and structure to ensure that all relevant information is timely identified, communicated to appropriate financial and accounting personnel, assessed for financial reporting impact, and assimilated into the financial reporting process.

Context - The City’s centralized accounting system does not have a structured and cohesive process to obtain, maintain, and analyze data from varied sources as part of its information management and financial reporting system or to communicate and educate departmental personnel regarding criteria and responsibilities for conveyance of information.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-002 Entity-Level Information, Communication and Monitoring (Cont.)

Cause - The City's entity-wide controls and procedures do not effectively ensure that all relevant information is timely incorporated into the financial reporting process. In addition, lines of authority and responsibility under the City's organizational structure are incompatible with the structure of its financial reporting process. Further, the City has experienced significant turnover of management personnel in recent years. Staff turnover has caused loss of knowledge base, including familiarity with informal and undocumented procedures performed in prior years.

Effect - Deficiencies in information and communication processes cause delays in completion of the annual financial reporting process thus limiting the City's ability to meet legal, regulatory, and contractual deadlines for submission of annual financial statements.

Identification of Repeat Finding 2016-002

Recommendation - The City should immediately develop and implement procedures to enhance its process for timely identifying, maintaining, conveying, and reporting information relevant to financial reporting. Procedures should be formally documented and incorporated into the financial reporting process on an ongoing basis, and personnel responsible for financial reporting monitoring and oversight should have appropriate levels of authority in order to enforce accountability of personnel responsible for accumulating, maintaining, and communicating data.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-003 Timeliness of Financial Reporting

Finding Type: Material Weakness

Criteria - Title 2 U.S. Code of Federal Regulations (CFR) Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), Mississippi law, and terms of various bonds, grants, contracts, and agreements impose financial reporting requirements and deadlines for submission by the City of annual financial statements presented in accordance with U.S. generally accepted accounting principles.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-003 Timeliness of Financial Reporting (Cont.)

Condition - During the year ended September 30, 2017, the City failed to meet financial reporting deadlines for its financial statements for the fiscal year ended September 30, 2016. Also, the city failed to meet financial reporting deadlines for submitting its financial statements for the year ended September 30, 2017.

Context - The City did not complete its financial reporting process before financial reporting deadlines had passed.

Cause - The financial reporting system of the City was not adequate for timely production of financial statements. See also Finding 2017-004.

Effect - Failure to maintain compliance with financial reporting requirements and deadlines exposes the City to risk of delay or curtailment of funding. Costs of funds may also increase because of liquidity drains or noncompliance with reporting requirements.

Identification of Repeat Finding 2016-003

Recommendation - The City should implement procedures that will allow for timely financial reporting in accordance with all applicable reporting deadlines.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-004 Financial Statement Adjustment, Close, and Disclosure

Finding Type: Material weakness

Criteria - The City's internal accounting controls, including year-end procedures, should be sufficient to ensure that amounts are properly classified, that accounts are properly valued, and that pertinent rights and obligations are properly reflected in the financial statements in accordance with U.S. generally accepted accounting principles.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-004 Financial Statement Adjustment, Close, and Disclosure (Cont.)

Condition - The City does not routinely maintain data necessary to prepare required conversions from its cash basis accounting records to the modified accrual and/or accrual bases of accounting required for financial reporting purposes. Additionally, City's accounting system does not consistently ensure proper cut-off and valuation or completeness of transactions and balances at year-end for reporting purposes.

Context - The City's financial reporting system centers on its budgetary cash basis accounting processes and this typically requires extensive manual processes after the end of the fiscal year for financial reporting purposes. These year-end processes have become increasingly difficult due to the complexity of governmental financial reporting requirements. In particular, the City does not routinely capture and maintain data necessary for conversion of cash basis to appropriate fund and accrual basis financial presentation or for preparation of necessary disclosures and supplementary information reported in its financial statements. Further, the City does not routinely perform valuation assessments, such as estimates of impairment of carrying value of its long-term assets or estimates of net realizable values of receivables, in order to determine whether financial statement adjustments are appropriate.

Cause - The City's reliance on its budgetary cash basis general ledger system and year-end conversion processes to provide financial reporting information does not allow for the timely preparation of its basic financial statements along with the necessary disclosures and supplemental schedules.

Effect - The City cannot readily prepare conversion adjustments required for financial reporting purposes and cannot readily produce necessary disclosures and supplemental schedules and increases the risk of omission of information which should be reported under U.S. generally accepted accounting principles.

Identification of Repeat Finding 2016-004

Recommendation - The City should develop a plan to address deficiencies in its financial statement adjustment, close, and disclosure processes.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding:

Finding # 2017-005 Municipal Court Fines

Finding Type: Material weakness

Criteria - Internal accounting controls should be sufficient to ensure that recorded Municipal Court fines and related accounts receivable and assessments payable balances are complete, accurate, properly valued, and reported in the proper period. In addition, State law requires maintenance of permanent Court dockets and minute records, as well as an accounts receivable system which is reconciled monthly and periodically aged and analyzed.

Condition - The City lacks sufficient internal controls over Municipal Court fines to ensure that all amounts are properly recorded, that only authorized transactions are accurately recorded in the proper period, that gross balances outstanding represent valid underlying amounts, that State assessments are properly applied, that nonmonetary credits and adjustments are properly authorized and recorded, and that estimates of net realizable value take into account collection activity, nonmonetary credits and other pertinent data. City procedures related to Municipal Court fines are not adequate to achieve compliance with requirements of Mississippi law or to ensure integrity of recorded amounts.

The City does not exercise appropriate oversight of the Municipal Court accounting process. Case management activities, including both manual procedures and software application processes, are not adequate to ensure completeness or accuracy of data or to assure that errors and irregularities are prevented or detected and corrected on a timely basis. In addition, system-generated reports are not adequate to support reconciliation and roll-forward of case balances or to facilitate effective review. Periodic analyses are neither prepared nor reported to management for review, and the City lacks formal procedures and methodology to support its estimated net realizable value of outstanding fines.

Context - The Municipal Court department is responsible for maintaining detail case data, including original estimated fines, adjusted fines as legally imposed, payments and nonmonetary credits applied against fines, mandated State assessments, and various data related to each citation and offense. The City utilizes specialized peripheral software systems to record and maintain case information and related activity.

SCHEDULE 4
PAGE 8 OF 22

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-005 Municipal Court Fines (Cont.)

Amounts of fines receivable and State assessments payable for each case are maintained in the separate peripheral system but are not recorded in the City's general ledger system. Instead, the general ledger reflects only daily cash receipt amounts, summarized by account, and detail of expenditures, which consist primarily of payments of State assessments. Recorded cash receipts and disbursements are the only information routinely reported to or reviewed by management. However, since the cash basis excludes amounts of fines imposed, related State assessment obligations, adjustments to case amounts, nonmonetary credits, and balances outstanding, it is insufficient to allow effective monitoring of case balances or activity related to fines.

Receivables and payables are recognized only for annual financial reporting purposes and are not reconciled or reviewed periodically. Year-end recognition of these balances, net of the allowance for uncollectible accounts, is based upon retrospective review of data available after fiscal year-end.

Subsidiary software does not effectively maintain accounting period cut-off data and there are system design and limitations that result in the reports that do not accurately reflect accounting period cut-off since records do not consistently or effectively capture dates upon which case fines legally attach or base balance calculations on dates of underlying transactions. This lack of proper accounting period information also distorts the aging analyses of outstanding balances that are required by law and are essential support for estimating collectability.

The City did not timely or effectively monitor data recorded into the subsidiary system or reports generated therefrom to ensure completeness, accuracy, or agreement to underlying records. Further, access to subsidiary computer system functions was not effectively restricted, and personnel duties were not adequately segregated to ensure that employees could not commit and conceal errors or irregularities. No procedures are routinely performed to monitor accuracy or completeness of cases initially recorded into the subsidiary records maintained in specialized application software or to reconcile or monitor recorded activity in those cases. The City did not prepare analyses or reconciliations of nonmonetary credits applied against fines for jail time served, community service, or house arrest, and other account adjustments were not monitored or reconciled.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-005 Municipal Court Fines (Cont.)

Cause - The City has not established appropriate procedures for accounting for Municipal Court fines in accordance with U.S. generally accepted accounting principles or to comply with Mississippi law. City personnel responsible for Municipal Court accounting and case management lack sufficient skill, knowledge, and expertise to administer the process and lack an understanding of basic requirements for accounting for Court fines in accordance with U.S. generally accepted accounting principles and Mississippi law.

The City has not established and enforced effective segregation of duties for case management processes, including limiting access to information technology system functions, and the current application software used for case management and accounting is not adequate to meet requirements of State law or to produce sufficient financial reports. The City did not prepare interim or annual reconciliations or analyses of Municipal Court fines receivable or related assessments payable, compare recorded fines to underlying Court documents, or maintain an effective audit trail of account adjustments for the year ended September 30, 2017.

Effect - The City's systems and procedures for accounting for Municipal Court fines do not achieve effective control over completeness, accuracy, or cut-off of recorded amounts and do not meet applicable requirements of State law. Data deficiencies, system limitations, absence of effective procedures, and lack of effective oversight impede the City's ability to properly account for its fines revenues and assess collectability of its related receivable balances and State assessment obligations.

Identification of Repeat Finding 2016-005

Recommendation - The City should develop a comprehensive plan for addressing deficiencies in its Municipal Court accounting systems and procedures that allows for daily verification of case data entry and daily roll-forward of balances in fines and assessments. The City should also develop procedures to capture dates of legal attachment for all fines, as well as procedures to monitor that such data is timely and properly maintained. Additionally, the City should prepare, reconcile, review, and retain monthly case detail and summary reports, including account aging reports that are reported to appropriate City management for review and approval.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding:

Finding # 2017-006 Water and Sewer Customer Accounts Receivable

Finding Type: Material weakness

Criteria - Internal accounting controls should be sufficient to ensure that recorded Water and Sewer System customer accounts receivable are complete, accurate, properly valued, and reported in the proper period.

Condition - The City's internal controls for recording and reconciling Water and Sewer customer account balances outstanding are not sufficient to ensure that account balances are accurate and does not allow for the proper evaluation of collectability. The City does not routinely perform reconciliations or analyses of customer receivable detail records. Additionally, aged receivable reports do not segregate finance charges from service fees, thereby distorting brackets and limiting effectiveness for monitoring propriety of service cut-off and assessing overall collectability. The City is also unable to produce reliable reports of subsequent collections on year-end outstanding balances for proper assessment of collectability and has no formal documentation of methodology or calculations supporting its estimated allowance for doubtful accounts.

Context - The City utilizes a separate module of its general ledger accounting software for its Water and Sewer billing functions that does not include an interface with the City's general ledger accounting system, and the City does not routinely review, reconcile, or analyze aggregate Water and Sewer customer account receivables.

Cause - While the City routinely processes and reviews billing route reports and reports of unpaid accounts subject to service cut-off, City procedures do not require periodic generation, reconciliation, and retention of detail accounts receivable and activity reports.

Effect - Without timely reconciliations and proper aging of its customer account balances and related activity, the City cannot readily determine net realizable value of outstanding Water and Sewer customer accounts receivable at fiscal year-end. This lack of timely review and reconciliation of subsidiary account balances could allow significant errors to go undetected.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-006 Water and Sewer Customer Accounts Receivable (Cont.)

Identification of Repeat Finding 2016-006

Recommendation - The City should implement procedures to routinely prepare and reconcile Water and Sewer customer accounts receivable activity and balances at each interim period, and a formal analysis of collectability of outstanding balances should be performed on at least an annual basis in order to estimate the related allowance for doubtful accounts.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-007 Water and Sewer Billings

Finding Type: Material weakness

Criteria - Effective internal accounting controls should ensure that recorded transactions pursuant to billings for all Water and Sewer services are complete and accurate.

Condition - The City's internal controls do not include analysis of accounting data in conjunction with the Water and Sewer volumes that are processed and billed. The City also does not formally document, reconcile, or monitor adjustments to customer billings to ensure propriety and accuracy.

Context - The City was unable to explain increases in unaccounted for water volume or to readily provide amounts attributable to usage by City facilities.

Cause - Certain City facilities are not metered for Water and Sewer volume, and no periodic review of volumes not billed, also known as "unaccounted for" volumes, is performed.

Effect - As a result of ineffective control procedures, there is a risk that the City could fail to detect Water and Sewer usage at unmetered locations or significant leaks in City infrastructure. Unmetered usage would not be routinely billed by the City, resulting in failure to realize related revenues.

Identification of Repeat Finding 2016-007

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-007 Water and Sewer Billings (Cont.)

Recommendation - We recommend that the City install meters at all City facilities to monitor Water and Sewer system internal usage. In addition, we recommend that the City generate periodic reports of volumes used in order to monitor economic resources and system usage to facilitate effective management of "unaccounted for" volumes.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-008 Water and Sewer Customer Meter Deposits

Finding Type: Material Weakness

Criteria - Effective internal accounting controls should ensure that recorded liabilities for customer meter deposits accurately reflect detail balances and that activity in such accounts is properly recorded and reported.

Condition - The City's liability for customer meter deposits does not agree to its customer detail records, and no effective reconciliation has been performed. Additionally, meter deposits applied against customer account balances are not timely reconciled.

Context - The City does not routinely generate, reconcile, or review reports of Water & Sewer System customer meter deposit balances. Additionally, meter deposit rates vary by nature of customer and meter, and rates change from time to time pursuant to City Council action. However, the City has no effective procedures to ensure that amounts reflected in subsidiary account detail are reasonable.

Cause - The City's procedures for reviewing customer meter deposit balances are not adequate to ensure that recorded amounts are reasonable and consistent with established rates. In addition, reconciliations of balances and periodic activity are not routinely performed.

Effect - The City has been unable to ascertain the cumulative amount of unrecorded applied meter deposits or to identify the nature and amounts of other errors.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-008 Water and Sewer Customer Meter Deposits (Cont.)

Identification of Repeat Finding 2016-008

Recommendation - The City should perform a review of its subsidiary records of customer meter deposits, and any errors that are identified should be corrected. The City should also implement procedures to routinely prepare and reconcile customer meter deposit activity and balances.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-009 Capital Assets

Finding Type: Material weakness

Criteria - Internal controls over capital assets should be sufficient to ensure that assets are properly recorded, depreciated, assessed for impairment, and reported. Detail subsidiary ledgers should be reconciled on a timely basis, and disposals should be timely recognized and reported. Rights and obligations related to ownership and pledges of capital assets should also be properly reported.

Condition - The City's procedures and controls are not sufficient to ensure that all City-owned assets are properly recorded. Additionally, the City's procedures related to construction projects are not sufficient to ensure that all project costs are identified and captured in the proper period.

Context - Existing accounting procedures do not ensure inclusion of contributed assets received or transfers of infrastructure from developers or other governmental entities, and the City does not routinely reconcile capital outlay expenditures to additions to fixed assets and additional inventoried items. The City does not routinely monitor assets acquired with grants or other restricted funds to ensure that any disposition of those assets is in accordance with terms of agreements and/or regulations and to ensure proper disclosure of commitments relating to those assets. Also, the City does not periodically assess its long-term assets for impairment nor does the City have an adequate system of accounting for its construction project activity.

SCHEDULE 4
PAGE 14 OF 22

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section II - Financial Statement Findings (Cont.)

Finding # 2017-009 Capital Assets (Cont.)

Cause - The City did not routinely and formally reconcile capital asset subsidiary detail to its financial statements, and the City does not maintain a comprehensive schedule of construction projects sufficient to support financial reporting.

Effect - The City's procedures are not adequate to ensure that capital outlay expenditures are reported in the proper period, properly classified as capital expenditure or expense, or that interest is properly capitalized for proprietary fund projects. Detail records are not timely reconciled to detect errors or irregularities, or to ensure that required disclosures are accurate and complete.

The City's deficiencies in procedures related to construction projects and capital assets indicate material weaknesses in internal controls over financial reporting.

Identification of Repeat Finding 2016-009

Recommendation - The City should take immediate steps to develop and implement a comprehensive system for accounting for capital assets, including construction projects. Subsidiary records should include adequate descriptions and should be periodically reviewed to identify any assets no longer in service or those with indicated impairment.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Section III - Federal Awards Findings and Questioned Costs

Finding:

Finding: # 2017-010 Procurement and Suspension and Debarment (I)

Finding Type: Material Weakness

Program Tested: CFDA No. 20.205: Highway Planning and Construction

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding: # 2017-010 Procurement and Suspension and Debarment (I) (Cont.)

Criteria - According to the Uniform Guidance, Section 200.212 of 2 CFR, Subpart C - Pre-Federal Award Requirements, non-federal entities and contractors are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

Condition - The City does not have adequate internal control procedures in place to monitor compliance with the federal debarment and suspension regulations for contracts and subawards.

Questioned Costs - Undetermined

Effect - The City could contract with parties that have been debarred or suspended by the federal government.

Cause - The City has experienced substantial turnover of personnel assigned to perform these procedures and has not monitored compliance with these provisions.

Identification of Repeat Finding 2016-010

Recommendation - The City should implement procedures to ensure compliance with the debarment and suspension regulations for contracts related to federal programs.

Views of responsible officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-011 Federal Expenditure Management (A/B, C, G, H, L)

Finding Type: Material Weakness

Program Tested: CFDA No. 20.205: Highway Planning and Construction

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding # 2017-011 Federal Expenditure Management (A/B, C, G, H, L) (Cont.)

Criteria - Section 200.300 of 2 CFR, Subpart D - Post Federal Award Requirements, requires Federal costs to be identified in accordance with cost principles and grant requirements. Financial management systems, including records documenting compliance with Federal statutes, regulations, and the terms and conditions of the Federal award, must be sufficient to permit the preparation of reports required by general and program specific terms and conditions and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the Federal statutes, regulations, and the terms and conditions of the Federal award. The financial management system must provide for identification of the Federal program, CFDA title and number, award identification number and year, name of the Federal agency and any pass-through entity, as well as accurate, current, and complete disclosure of financial results of each Federal award program. Records must adequately identify the source and application of funds for federally-funded activities and must contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, expenditures, income and interest, and such information must be supported by source documentation.

Condition - Federal and non-Federal expenditures were not readily identifiable from grant records maintained by the City for the year ended September 30, 2017. Costs allowable and not allowable are not specifically identified in financial records or reconciled to reimbursement requests. Category of cost, such as program delivery or administrative cost, is not initially captured upon recording expenditures in the City's financial records, and adjustments to classifications are not timely reconciled to underlying accounts or submitted reimbursement requests. Transaction dates are based on cash payment processing, and payment release dates and service periods for underlying costs are not readily determinable.

Questioned Costs - Undetermined

Context - The City utilizes fund accounts in its general ledger system to capture, maintain, and report activity related to its grant programs. The City also utilizes peripheral manual and electronic applications in its grant administration process. However, these procedures do not readily provide data necessary to distinguish Federal expenditures from non-Federal costs incurred. Total program cost is not segregated between allowable and unallowable costs, and expenditures of Federal funds are not segregated from costs funded by matching funds or other funds. Further, expenditures are captured solely on a cash basis, and dates of underlying activity are not contemporaneously captured to identify expenditure date for Federal purposes.

SCHEDULE 4
PAGE 17 OF 22

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding # 2017-011 Federal Expenditure Management (A/B, C, G, H, L) (Cont.)

Cause - The City's general ledger system structure lacks complexity necessary to capture all accounting data related to Federal program expenditures, and peripheral systems and procedures are not sufficient to readily fill the gap in that data so that all categories of costs of Federal programs may be readily identified and reported.

Effect - The City was unable to readily segregate Federal from non-Federal program expenditures or reconcile reimbursement requests to specific Federal expenditures.

Identification of Repeat Finding 2016-011

Recommendation - The City should immediately implement procedures to maintain comprehensive schedules of program expenditures that distinguish Federal and non-Federal expenditures and identify matching funds provided. Reconciliations of Federal expenditures to allowable costs and total program expenditures should be timely performed and monitored. Reimbursement requests should be reconciled to supporting schedules of Federal expenditures, and appropriate cut-off should be established for periodic reporting.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-012 Non-compliance resulting from deficiencies in financial statement internal control over timeliness of financial reporting (L)

Finding Type: Material Weakness

Program Tested: CFDA No. 20.205: Highway Planning and Construction

Criteria - According to the Uniform Guidance, 2 CFR 200.501(a), non-Federal entities that expend $750,000 or more in a year in Federal awards shall have a single or program specific audit conducted for that year in accordance with the provisions of these parts. Guidance on determining Federal awards expended is provided in §_.205 and 2 CFR 200.502. The audit package and the data collection form shall be submitted 30 days after receipt of the auditor's report(s), or 9 months after the end of the fiscal year - whichever comes first - pursuant to Uniform Guidance 2 CFR 200.512(a).

SCHEDULE 4
PAGE 18 OF 22

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding # 2017-012 Non-compliance resulting from deficiencies in financial statement internal control over timeliness of financial reporting (L) (Cont.)

Condition - The City's audit package for the fiscal year ended September 30, 2017 was not timely submitted to the Federal Audit Clearinghouse.

Questioned Costs - Undetermined

Context - See Financial Statement Finding # 2017-003.

Cause - See Financial Statement Finding # 2017-003.

Effect - The City did not comply with Federal Single Audit requirements for timely submission of its audit package.

Identification of Repeat Finding 2016-012

Recommendation - See Financial Statement Finding # 2017-003.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding # 2017-013 Non-compliance resulting from deficiencies in financial statement internal control over financial statement adjustment close, and disclosure (A/B, C, G, H, L)

Finding Type: Significant Deficiency/Significant Noncompliance

Program Tested: CFDA No. 20.205: Highway Planning and Construction

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding # 2017-013 Non-compliance resulting from deficiencies in financial statement internal control over financial statement adjustment close, and disclosure (A/B, C, G, H, L) (Cont.)

Criteria - According to the Uniform Guidance, the auditee shall identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity. The auditee shall also maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs and prepare appropriate financial statements, including the schedule of expenditures of Federal awards. In addition, Title 2: Grants and Agreements, Part 200 - *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, Subpart D - Post Federal Award Requirements section 200.302(b), each non-Federal entity's financial management system must provide accurate, current, and complete disclosure of the financial results of each Federal award or program in accordance with the appropriate reporting requirements, including distinguishing allowable costs from costs not allowable, direct costs from indirect costs, and Federal expenditures from costs paid to meet match requirements or paid from other non-Federal funds.

Condition - The City did not contemporaneously distinguish allowable Federal program costs from ineligible costs, distinguish Federal expenditures from non-Federal expenditures, or specifically identify costs used to meet match and cost-sharing requirements. In addition, the City had no effective processes to ensure that direct and indirect costs were treated consistently among all Federal awards administered by various City departments.

Questioned Costs - Undetermined

Context - See Financial Statement Finding # 2017-004.

Cause - See Financial Statement Finding # 2017-004.

Effect - The City could not readily produce schedules of its Federal program costs, obligated funds, or funds receivable. Further, the City could not reconcile obligated, expended, received, and available Federal funds to its accounting records.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding # 2017-013 Non-compliance resulting from deficiencies in financial statement internal control over financial statement adjustment close, and disclosure (A/B, C, G, H, L) (Cont.)

Identification of Repeat Finding 2016-013

Recommendation - See Financial Statement Finding # 2017-004.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding 2017-014 Non-compliance resulting from deficiencies in financial statement internal control over capital assets (A/B, F)

Finding Type: Material Weakness

Program Tested: CFDA No. 20.205: Highway Planning and Construction

Criteria - Costs incurred for capital assets are subject to property standards prescribed in the Uniform Guidance 2 CFR, Subpart D - Post Federal Award Requirements.

Condition - The City does not adequately account for its capital projects funded by Federal awards. Project detail records do not adequately identify allowable and unallowable costs or matching fund obligations, and Federal and non-Federal expenditures are not effectively segregated or reconciled to reimbursement requests. The City does not effectively monitor its capital project cost reimbursement requests prepared by third party service providers or recalculate and reconcile Federal costs to those reimbursement requests. The City does not critically evaluate the terms of its Federal awards and agreements related to property ownership and reversionary provisions in order to assess its rights and obligations under such agreements and to ensure that capital assets and commitments are properly monitored.

In addition, the City could not readily provide a list of assets subject to reversionary provisions if not continually used for appropriate program purposes and therefore could not demonstrate effective monitoring of ongoing use of such Federally-funded assets.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding 2017-014 Non-compliance resulting from deficiencies in financial statement internal control over capital assets (A/B, F) (Cont.)

Questioned Costs - Undetermined

Context - See Financial Statement Finding # 2017-009.

Cause - See Financial Statement Finding # 2017-009.

Effect - The City may be subject to disallowed costs or obligations under reversionary provisions for assets acquired or constructed using Federal funds, and the amounts of potential disallowed costs could be material.

Identification of Repeat Finding 2016-014

Recommendation - See Financial Statement Finding # 2017-009.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

Finding:

Finding 2017-015 Non-compliance resulting from (L) grant reporting requirements

Finding Type: Material Weakness

Program Tested: CFDA No. 97.036: Disaster Grants – Public Assistance (Presidentially Declared Disasters)

Criteria - Progress status reports are required quarterly in accordance with 2 CFR 200 policy requirements.

Condition - Quarterly progress reports for disaster-related expenditures were found to be inaccurate or unavailable. These quarterly reports are prescribed in the City's executed State-Local Disaster Assistance Agreement and, pursuant to that agreement, the City is required to document the anticipated completion date for each project, together with any other circumstance that may affect the completion date, the scope of the work, the project costs, and any other factors that many affect compliance with the Agreement.

CITY OF HATTIESBURG, MISSISSIPPI

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED SEPTEMBER 30, 2017

Section III - Federal Awards Findings and Questioned Costs (Cont.)

Finding 2017-015 Non-compliance resulting from (L) grant reporting requirements (Cont.)

Questioned Costs - Undetermined

Context - The City contracted with independent consultants in order to obtain assistance in the processing of disaster-related expenditures and to meet administrative requirements. The City did not effectively monitor the timely filings of accurate quarterly progress reports.

Cause - The City experienced significant administrative staff turnover in the months preceding the disaster, and whereas the City did obtain independent assistance of the processing of disaster-related transactions, there were no reliable monitoring procedures in place over the quarterly reporting requirements.

Effect - The City may be subject to disallowed costs or deobligation of funds as a result of non-compliance with failure to submit prescribed quarterly progress reports on a timely basis.

Recommendation - The City should immediately implement procedures that will result in the filing of all required quarterly progress reports.

Views of Responsible Officials - The City's Corrective Action Plan is presented on Appendix A.

CITY OF HATTIESBURG, MISSISSIPPI

AUDITEE CORRECTIVE ACTION PLAN

Year Ended September 30, 2017

APPENDIX A

Mayor

Toby Barker

Jeffrey George	*Deborah Denard Delgado*	*Carter Carroll*	*Mary Dryden*	*Nicholas Brown*

Auditee Corrective Action Plan

The City of Hattiesburg respectfully submits the following corrective action plan

Audit Period: September 30, 2017

The findings discussed below are numbered consistently with the numbers assigned in the schedule of findings and questioned costs.

Corrective Action Plan for Financial Statement Findings

2017-001 Entity-Level Control Environment and Risk Assessment Processes

The City's Administration acknowledges the importance of the control environment and, in particular, the organizational structure, with the assignment of authority and responsibility in addressing risks relevant to the achievement of financial reporting objectives. The incoming Administration has initiated an entity-wide assessment of the existing organizational structure, and establishment and monitoring of internal controls will be an inherent component of this assessment. We expect this process to be completed by late fall, 2018.

Name of Responsible Person:	Ann Jones, Chief Administrative Officer; Connie Everett, Interim Chief Financial Officer
Name of Department Contact:	Ann Jones, Chief Administrative Officer
Expected Date of Completion:	Fall 2018

2017-002 Entity-Level Information, Communication and Monitoring

Please note in the section "Views of Responsible Officials": The City agrees with this finding in general, but with certain qualifications.

Auditee Corrective Action Plan (Cont.)

As noted in Finding 2017-002, the City "utilizes a centralized system of accounting for its budgetary cash basis transactions." This accounting system has consistently allowed for the accurate and timely financial reports that provide, at all times, a reliable monitoring of the City's compliance with its legally adopted budgets. There will typically be significant conversion procedures at year-end that are necessary for financial reporting purposes, and this will, we believe, be the norm for most local governments as opposed to the periodic accounting cut-off data for conversion from budgetary cash basis to financial reporting basis.

The Administration's efforts to promptly assess the existing internal control structure will incorporate the identification of opportunities to improve upon the production of financial information pursuant to specific items noted in Finding 2016-002. Some Items, such as list of active Federal awards, will be implemented immediately. Other items, such as a list of debt compliance, have always been readily available.

Name of Responsible Person:	Connie Everett, Interim Chief Financial Officer
Name of Department Contact:	Lisa Hanson, Comptroller
Expected Date of Completion:	Fall 2018

2017-003 Timeliness of Financial Reporting

As noted in the City's response to Finding 2016-002, the City's accounting system does provide reliable and timely budgetary basis financial reporting. The Administration is committed to facilitating procedures that will allow for the financial reporting accounting conversion process at year-end to be completed on a timely basis in order to allow for the City to meet all financial reporting deadlines.

The Administration acknowledges that there are important reporting deadlines for the 2017 audit that have already not been met. It is our firm commitment to complete the 2017 audit as quickly and efficiently as possible. The Administration will ascertain that the 2018 audit reporting process meets all applicable deadlines.

Name of Responsible Person:	Connie Everett, Interim Chief Financial Officer
Name of Department Contact:	Lisa Hanson, Comptroller
Expected Date of Completion:	Fall 2018

2017-004 Financial Statement Adjustment, Close, and Disclosure

In 2017, the City's Comptroller was allowed to add a CPA to her existing staff. Finding 2017-004 emphasizes the “increasing complexity of financial reporting requirements", and it includes other notations that generally describe the difficulties encountered by the City in its financial accounting functions. Other points, including the need for a formal process for ensuring the accuracy and completeness of various peripheral systems and reconciliation procedures, are, in the opinion of the Administration, valid concerns.

Auditee Corrective Action Plan (Cont.)

As noted in our response to findings 2017-002 and 2017-003, the City will continue to produce reliable and timely budgetary basis accounting reports, and the Accounting Department will facilitate improved conversion procedures that are needed in order for the financial statements to be prepared in accordance with generally accepted accounting principles. We anticipate substantial improvements will be made in conjunction with the 2018 audit in the fall months of 2018.

Name of Responsible Person:	Lisa Hanson, Comptroller
Expected Date of Completion:	Fall 2018

2017-005 Municipal Court Fines

The Administration will assess the ongoing difficulties experienced pursuant to the court fines recordkeeping function. If the determination is made that additional training and/or independent Information Technology services are necessary, the City will immediately take corrective measures to allow for reliable financial statement reporting as well as compliance with applicable state law. This assessment began in August 2017 and is ongoing; other measures, if required, will be implemented in fall 2018.

Name of Responsible Person:	Ann Jones, Chief Administrative Officer
Name of Department Contact:	Ann Jones, Chief Administrative Officer; Greg Ladner, Assistant to Mayor
Estimated Date of Completion:	Will depend upon Information Technology assessment

2017-006 Water and Sewer Customer Accounts Receivable

The Administration will implement procedures to routinely prepare and reconcile Water and Sewer customer accounts receivable activity and balances periodically, along with a formal analysis of the collectability of outstanding balances in order to estimate the related allowances for doubtful accounts. The centralized accounting department does provide a daily tracking of recorded receipts in conjunction with the daily deposits at the bank, and this has provided a reliable internal control procedure. There may be a need, however, for the water and sewer billing office staff to assist in the maintenance of important subsidiary records that are subject to routine oversight by the accounting department.

Assessment of operations may reveal the need for additional training of personnel on accounting procedures, and the Information Technology staff may need to assist in facilitation of these shared responsibilities. Implementation began in fall 2017 and is ongoing.

Name of Responsible Person:	Allen Howe, Director of Water and Sewer
Name of Department Contact:	Wanda Turner, Office Manager
Estimated Date of Completion:	Fall 2018

Auditee Corrective Action Plan (Cont.)

2017-007 Water and Sewer Billings

The Administration will assess the current organizational structure as it relates to the water and sewer billing function. In particular, the Administration will emphasize the need for periodic analysis procedures to be performed. We have initiated our efforts to ascertain any problems that may need to be addressed in order to implement these reports and agree that an enhanced role by the Customer Accounts staff may be appropriate. These initial efforts were began in May 2018 and are ongoing.

Name of Responsible Person:	Allen Howe, Director of Water and Sewer
Name of Department Contact:	Wanda Turner, Office Manager
Estimated Date of Completion:	Fall 2018

2017-008 Water and Sewer Customer Meter Deposits

As noted in Finding 2017-007, the City will assess the current water and sewer organizational structure as a component of the Administration's entity-wide study of the existing assignment of responsibilities and personnel assessment. The improvements needed for meter deposit subsidiary records may require a reassignment of duties, improved reporting procedures and/or cross-training with existing accounting and Information Technology personnel. The importance of routine reconciliation procedures will be emphasized, and we anticipate these procedures to be implemented in fall 2018.

Name of Responsible Person:	Allen Howe, Director of Water and Sewer
Name of Department Contact:	Wanda Turner, Office Manager; Angie Sanford, Information Technology Manager
Estimated Date of Completion:	Fall 2018

2017-009 Capital Assets

The City will implement a comprehensive system of policies and procedures for accounting for capital assets. This system will accommodate both approved construction projects and acquisitions of assets achieved outside the routine cash disbursement process, as well as any contributions or transfers of fixed assets to the City. Additionally, fixed asset subsidiary records will include adequate descriptions to allow management to identify specific asset items, and the system will allow for periodic review by the City's management team for the identification of impaired assets or assets no longer in service. As noted, these procedures should allow for adequate training of employees for proper coding as well as ascertaining that capitalization policies and procedures are followed. The Administration will schedule capitalization policies and procedures training sessions for the various operating departments in fall 2018 to update responsible employees and answer any questions they may have.

Name of Responsible Person:	Connie Everett, Interim Chief Financial Officer; Ann Jones, Chief Administrative Officer
Name of Department Contact:	Lamar Rutland, Director of Engineering; Lisa Hanson, Comptroller
Estimated Date of Completion:	Fall 2018

Auditee Corrective Action Plan (Cont.)

2017-010 Procurement and Suspension and Debarment (I)
CFDA No. 20.205: Highway Planning and Construction

The City's Purchasing Department has the designated responsibility of monitoring compliance with the federal debarment and suspension regulations for contracts and subawards. Due to staffing changes over the past two years of department managers, as well as subordinate staff, this function was not assigned to a new staff person. This procedure should be conducted in the Purchasing Department, and current staff will be advised to reinstate this procedure.

Name of Responsible Person:	Connie Everett, Interim Chief Financial Officer
Name of Department Contacts:	Sylvester London, Assistant Division Manager and Michael Pope, Purchasing Assistant
Expected Date of Completion:	Fall 2018

2017-011 Federal Expenditure Management (A/B, C, G, H, L)
CFDA No. 20.205: Highway Planning and Construction

The City acknowledges that detailed information distinguishing federal and non-federal expenditures is not easily identified within the current accounting structure. The ability to track expenditures in this manner does exist and will be implemented in the current accounting system. Supporting spreadsheets can be developed within the departments responsible for documenting federal and non-federal expenditures to provide added documentation.

Name of Responsible Person:	Lamar Rutland, City Engineer
Expected Date of Completion:	Fall 2018

2017-012 Non-Compliance Resulting from Deficiencies in Financial Statement Internal Control over Timeliness of Financial Reporting (L)

The Administration acknowledges that there are important reporting deadlines for submission of completed audits to the Federal Audit Clearinghouse. The City's position concerning current financial statement reporting abilities has been addressed in the response to Finding 2017-002 and Finding 2017-003. It is the incoming Administration's intent to explore updating financial software in order to more easily comply with financial reporting requirements. In the interim, efforts will be made to for timely completion of the 2018 audit.

Name of Responsible Persons:	Lisa Hanson, Comptroller; Connie Everett, Interim Chief Financial Officer
Name of Department Contact:	Ann Jones, Chief Administrative Officer
Expected Date of Completion:	Fall 2018 and ongoing

Auditee Corrective Action Plan (Cont.)

2017-013 Non-Compliance Resulting from Deficiencies in Financial Statement Internal Control over Financial Statement Adjustment, Close, and Disclosure (A/B, C, G, H L)

As discussed in the City's response to Financial Statement Finding 2017-004, the City has added to its Accounting Department staff an individual who has the capability of undertaking the more complex aspects of financial statement reporting, in order to ensure compliance with guidelines. In addition, as stated above, the City intends to explore updating the financial software in order to more easily comply with financial reporting requirements. In the interim, supplementary schedules can be developed to better track federal program costs and funds received and expended.

Name of Responsible Person: Lisa Hanson, Comptroller
Expected Date of Completion: Fall 2018 and ongoing

2017-014 Non-Compliance Resulting From Deficiencies in Financial Statement Internal Control over Capital Assets (A/B, F)

The City acknowledges that deficiencies exist in current procedure as to detailed accounting procedure for recording capital assets and accounting for federal grant monies associated with capital assets. The capability exists within the current accounting system for better segregation of federal and non-federal expenditures and allowable and unallowable costs. Supplementary schedules can be maintained in the City Engineer's office for projects that department oversees, in order to provide an additional level of detail and accountability.

Name of Responsible Persons: Lamar Rutland, City Engineer; Lisa Hanson, Comptroller; Connie Everett, Interim Chief Financial Officer
Name of Department Contact: Ann Jones, Chief Administrative Officer
Expected Date of Completion: Fall 2018 and ongoing

Finding 2017-015 Non-compliance resulting from reporting requirements (L)

The City acknowledges that deficiencies existed in procedures related to timely reporting of quarterly project status records. Subsequent to the change in the municipal election in 2017, the city administration experienced several staffing changes and reassignment of responsibilities. The designation of Applicant-Agent for federal disaster reporting was reassigned, and this individual was unaware of the quarterly reporting requirements. During fiscal year 2018, this individual was trained as to the responsibilities of the Applicant-Agent with respect to the reporting requirements, and the deficiency has been corrected.

Name of Responsible Person: Kermas Eaton, City Clerk
Name of Department Contact: Ann Jones, Chief Administrative Officer
Expected Date of Completion: Fall 2018

CITY OF HATTIESBURG, MISSISSIPPI

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended September 30, 2017

Mayor
Toby Barker

COUNCIL - WARD ONE *Jeffrey George*
COUNCIL - WARD TWO *Deborah Denard Delgado*
COUNCIL - WARD THREE *Carter Carroll*
COUNCIL - WARD FOUR *Mary Dryden*
COUNCIL - WARD FIVE *Nicholas Brown*

Summary Schedule of Prior Audit Findings
Year Ended September 30, 2017

The following is an update of the prior audit findings and is prepared in accordance with Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.*

2016-001 Entity-Level Control Environment and Risk Assessment Process

Condition **-** This finding was a material weakness stating that entity-wide controls and procedures were not effectively initiated or implemented for corrective actions in response to material weaknesses and significant deficiencies in internal control identified in its financial statement audit for the year ended September 30, 2014.

Recommendation **-** The auditor recommended that the City take steps to implement corrective actions for identified material weaknesses and significant deficiencies in internal controls.

Current Status **-** In early 2018, the Administration implemented changes to the organizational structure, adding a Department of Finance and Procurement, and assigning responsibility for this function to the Chief Financial Officer. The change has provided improved communication and oversight for financial functions with the City Clerk and the Department of Administration. An additional accountant was hired in early 2017, and that position serves as liaison with the various city departments to ensure greater accountability and documentation of ongoing projects.

2016-002 Entity-Level Information, Communication and Monitoring

Condition **-** This finding was a material weakness stating that entity-wide controls and procedures did not effectively ensure that all information relevant to the financial reporting process was timely identified and communicated for assessment of financial reporting impact and for assimilation into the financial reporting process.

Recommendation **-** The auditor recommended that the City formalize its information, communications, and monitoring processes to ensure that data from external and internal sources is timely captured, retained, and available for financial reporting purposes. Management concurred with the recommendation and indicated that the procedures would be implemented.

Summary Schedule of Prior Audit Findings Year Ended September 30, 2017 (Cont.)

Current Status - As mentioned in the current status to Finding 2016-001, the additional accountant hired in 2017 has been assigned the responsibility of communicating with various city departments to ensure proper capture and documentation of financial information on various projects. This position is responsible for compiling and documenting information for federal awards, and preparation and maintenance of supplementary spreadsheets has been developed and is being utilized at this time. City Administration acknowledges that updating the financial software is necessary in order to properly report financial information in accordance with generally accepted accounting principles, and the Administration has engaged a consultant to perform a needs assessment. Evaluation of available software will be paired with the results of the needs assessment to determine the software best suited to the City's needs. Selection and implementation of updated financial software will follow. In the interim, greater emphasis is being placed on capture and documentation of required information, as stated above.

2016-003 Timeliness of Financial Reporting

Condition - This finding was a material weakness stating the City failed to meet financial reporting deadlines for submitting its financial statements for the year ended September 30, 2016.

Recommendation - The auditor recommended that the City should take steps to overhaul its financial reporting process to enable it to meet its legal, regulatory, and contractual financial reporting requirements.

Current Status - As stated in the current status to Finding 2016-002, the City has engaged a consultant to conduct a needs assessment to determine the appropriate financial software, as well as supplementary software for other city departments which can integrate with the financial software, to ensure the City's ability to meet the required reporting requirements. Upon selection of an audit firm to perform the 2016 and 2017 audits, the City officials stressed the importance of expeditious completion of the audits. As a result, the 2016 audit was completed in six months, and the 2017 audit is expected to be complete in November 2018. The 2018 audit will begin immediately thereafter.

2016-004 Financial statement Adjustment, Close, and Disclosure

Condition - This finding was a material weakness stating that the City's internal accounting controls were not sufficient to ensure that transactions and account balances were properly reported in conformity with bases of accounting required by generally accepted accounting principles .

Recommendation - The auditor recommended that the City assess the quality of existing peripheral processes and implement effective control procedures to ensure that data maintained therein is accurate and that errors or irregularities are prevented or timely detected and corrected. Management concurred with the recommendation and indicated that the procedures would be implemented.

Summary Schedule of Prior Audit Findings Year Ended September 30, 2017 (Cont.)

Current Status - As stated in the current status to Finding 2016-002, a needs assessment and subsequent selection and implementation of updated financial software is underway. The Administration acknowledges that during the period 2014 – 2017, staffing changes due to retirements resulted in loss of institutional knowledge which had, in the past, afforded timely and accurate production of financial information at year-end. The Administration has taken steps to provide the needed support and institutional knowledge to ensure improvement in this area through the hiring process and subsequent training of current staff.

2016-005 Municipal Court Fines

Condition - This finding was a material weakness stating that the City's internal controls are not adequate to ensure that Municipal Court fines are properly valued and reported.

Recommendation - The auditor recommended that the City generate, reconcile, review, and retain monthly receivable detail and summary reports, including agings of outstanding fines account balances and that the City analyze periodic reports and related trends in assessing collectability and in estimating the allowance for doubtful accounts. Management concurred with the recommendation and indicated that the procedures would be implemented.

Current Status - . The Administration reorganized the Municipal Court system in 2018, with selection of new judges and support personnel. The staff has been analyzing the court software and obtaining training in order to assess modifications necessary to meet reporting requirements. The City has engaged auditors to work with Court personnel to assess prior years' data to determine outstanding fines account balances to correct reporting deficiencies. It is believed that, with additional staff training and assessment of software modifications needed, that the Court software will be adequate to provide accurate data presentation. The needs assessment being conducted, as mentioned in the current status to Finding 2016-002, will serve to determine whether the current Court software will be compatible with future selection of financial reporting software.

2016-006 Water and Sewer Customer Accounts Receivable

Condition - This finding was a material weakness stating that the City's internal controls for recording and reconciling customer account balances outstanding are not sufficient to ensure that account balances are accurate and reflect valid amounts receivable and that collectability is properly evaluated.

Recommendation - The auditor recommended that the City develop and implement procedures to routinely prepare and reconcile Water and Sewer customer accounts receivable activity and balances at each interim period and that formal analysis of collectability of outstanding balances should be prepared to estimate the related allowance for doubtful accounts. Management concurred with the recommendation and indicated that the procedures would be implemented.

Summary Schedule of Prior Audit Findings Year Ended September 30, 2017 (Cont.)

Current Status - . The Administration adjusted the organization structure of the Water & Sewer Department by placing responsibility for the Billing Office with the Water & Sewer Director. (It was previously the responsibility of the Director of Administration.) Review of current procedures has been completed, and adjustments have been made for better accountability and communication with the service departments. An outside company has been contracted with to aid in evaluation of water meter performance in order to assess lost revenue. Non-functioning meters are being replaced. New procedures are assessed after implementation to determine their viability, and adjustments are made as needed.

2016-007 Water and Sewer Billings

Condition - This finding was a material weakness stating that the City's internal controls do not include analysis of accounting data in conjunction with underlying operations data for Water and Sewer volumes processed and billed, and that the City does not formally document, reconcile, and monitor adjustments to customer billings to ensure propriety and accuracy.

Recommendation - The auditor recommended that the City install meters at all City facilities to monitor volumes used and to generate periodic reports of City usage in order to monitor economic resources sand system usage to facilitate effective management of unaccounted for volumes.

Current Status - Adjustments to the use of a work order system in conjunction with the method by which problems, such as water leaks, are reported has resulted in shorter response time in addressing problem areas. Engineering analysis of areas where aging infrastructure could contribute to unaccounted for water losses has been conducted and priority for repairs established. Feasibility of metering city properties to measure unbilled water usage has been reviewed, and the formula by which unaccounted for water loss has also been reviewed for accuracy.

2016-008 Water and Sewer Customer Meter Deposits

Condition - This finding was a material weakness stating that the City's liability for customer meter deposits does not agree to its customer detail records, and that meter deposits are not timely and effectively reconciled.

Recommendation - The auditor recommended that the City perform a review of its subsidiary records of customer meter deposits and perform timely reconciliations at interim periods.

Current Status - The Billing Office, with the assistance of the Information Technology department, has begun the process of reconciling outstanding meter deposits. Each account is reviewed to determine whether the deposit was returned and, if so, that account is removed from the outstanding balance list. Additionally, meter deposits are now applied to the final bill when a customer closes an account, thereby reducing or eliminating a deposit balance. Once the review is complete, the Billing Office will develop the procedures necessary to reconcile and account for the meter deposits on hand.

Summary Schedule of Prior Audit Findings Year Ended September 30, 2017 (Cont.)

2016-009 Capital assets

Condition - This finding was a material weakness stating that the City did not appropriately identify and accurately capture, maintain, and report activity and balances relating to capital assets.

Recommendation - The auditor recommended that the City implement policies and procedures to initially identify capital asset transactions, enhance detail data maintained, perform periodic reconciliations of detail, review propriety of account coding, and recommendation and indicated that the procedures would be implemented.

Current Status - The Accounting Department has obtained additional training for and has implemented use of a subsidiary asset management system, which will capture asset information and provide the needed reports. The Chief Financial Officer will provide additional oversight to ensure that this subsidiary system is updated throughout the year. The City's staff engineer, as well as engineer consultants, will be included when assessing potential impairment as well as reporting construction in progress.

2016-010 Procurement and Suspension and Debarment (I)
CFDA No. 20.205: Highway Planning and Construction

Condition - This finding was a material weakness stating that the City did not have adequate internal controls in place to monitor compliance with the federal debarment and suspension regulations for contracts and subawards.

Recommendation - The Auditor recommended that the City implement procedures to ensure compliance with debarment and suspension regulations for contracts related to federal programs.

Current Status - Not corrected. In September 2018, the City Council adopted an amendment to the City's procurement manual establishing procedures for monitoring compliance with federal debarment and suspension regulations when selecting vendors for materials or services which are funded in whole or in part with federal grants. Implementation of this procedure began immediately.

2016-011 Federal Expenditure Management (A/B, C, G, H, L)
CFDA No. 20.205: Highway Planning and Construction

Condition - This finding was a material weakness stating that federal and non-federal expenditures were not readily identifiable from grant records maintained by the City for the year ended September 30, 2015.

Recommendation - The auditor recommended that the City should implement procedures to maintain comprehensive schedules of program expenditures that distinguish Federal and non-federal expenditures and identifying matching funds provided. Management concurred with the recommendation and indicated that the procedures would be implemented.

Summary Schedule of Prior Audit Findings Year Ended September 30, 2017 (Cont.)

Current Status - As stated in the current status to Finding 2016-002, the accountant hired in 2017 has been assigned the responsibility federal expenditure management. Spreadsheets have been developed and are being utilized for each project, identifying expenditures as federal and non-federal, as well as identifying matching funds received.

With respect to capture of administrative costs on federally funded programs, the Metropolitan Planning Organization department charges a 10% administrative overhead on eligible expenditures (personnel and travel). This is the de minimis rate allowable by the Uniform Guidance. The Guidance indicates that if/when using the de minimis rate, no negotiation is necessary. The City does not charge an overhead rate on other grants because, in many cases, it is impractical and in some cases it may not be allowed. The MPO serves other jurisdictions besides the City of Hattiesburg, and charging the de minimis rate is the least the MPO can do to ensure that ancillary services rendered for the benefit of those other jurisdictions are at least minimally recouped.

2016-012 Non-compliance resulting from deficiencies in the financial statement internal control over timeliness of financial reporting (L)

Condition - This finding was a material weakness stating that the City did not timely submit the required annual reporting package to the Federal Audit Clearinghouse.

Recommendation - The auditor recommended that the City implement procedures to overhaul the financial reporting process to enable it to meet its legal, regulatory and contractual financial reporting requirements. Management concurred with the recommendation and indicated that the procedures would be implemented.

Current Status - As stated in current status to Findings 2016-002 and 2016-003, the City has retained a consultant to conduct a needs assessment for the purpose of updating the financial software, as well as determining the software needs of other city departments. The City officials have also engaged an alternate audit firm to conduct the 2016 and 2017 audits, and stressed the importance of expeditiously producing the audits. The 2016 audits is complete, and the 2017 audit is very near completion. It is expected that the 2018 audit will begin in November 2018.

2016-013 Non-compliance resulting from deficiencies in financial statement internal control over financial statement adjustment, close and disclosure (A/B, C, G, H, L)

Condition - This finding was a material weakness for the CDBG and Airport Improvement projects and a significant deficiency for the Highway Planning and Construction project stating that the City did not distinguish allowable federal program costs from ineligible costs, distinguish federal expenditures from non-federal expenditures or specifically identify costs used to meet match and cost-sharing requirements.

Recommendation - The auditor recommended that the City implement procedures to address deficiencies in its financial statement adjustment, close and disclosure processes, specifically to address procedures related to the annual conversion process from budgetary cash basis accounting records to the bases of financial reporting required under U.S. GAAP. Management concurred with the recommendation and indicated that the procedures would be implemented.

Summary Schedule of Prior Audit Findings Year Ended September 30, 2017 (Cont.)

Current Status - As stated in the current status to Finding 2016-002, the Accounting Department now has an accountant assigned with the task of developing spreadsheets to document expenditures on federally funded projects and properly segregate federal and non-federal expenditure amounts. These procedures have been implemented and are currently in use.

With respect to capture of administrative costs on federally funded programs, the Metropolitan Planning Organization department charges a 10% administrative overhead on eligible expenditures (personnel and travel). This is the de minimis rate allowable by the Uniform Guidance. The Guidance indicates that if/when using the de minimis rate, no negotiation is necessary. The City does not charge an overhead rate on other grants because, in many cases, it is impractical and in some cases it may not be allowed. The MPO serves other jurisdictions besides the City of Hattiesburg, and charging the de minimis rate is the least the MPO can do to ensure that ancillary services rendered for the benefit of those other jurisdictions are at least minimally recouped.

2016-014 Non-compliance resulting from deficiencies in financial statement internal control over capital assets (A/B, F)

Condition - This finding was a material weakness stating that the City did not adequately account for its capital projects funded by Federal awards and that project detail records do not adequately identify allowable and unallowable costs or matching funds.

Recommendation - The auditor recommended that the City implement procedures to develop and implement a comprehensive system for accounting for capital assets, including construction projects, that will incorporate policies and procedures for recording and valuing capital asset additions, with segregation for those purchased or constructed with federal funds. Management concurred with this recommendation and indicated that the procedures would be implemented.

Current Status - The Accounting Department is now using a subsidiary asset management software, which will track capital assets, including construction projects. This system, in conjunction with other subsidiary spreadsheets can also identify expenditures which purchased or constructed with federal funds. Communication with the City Engineer to ascertain that all such projects are appropriately documented will be part of the process.

Schedule 5

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

To the Honorable Mayor and City Council
City of Hattiesburg, Mississippi

We have audited the basic financial statements of the City of Hattiesburg, Mississippi as of and for the year ended September 30, 2017, and have issued our report dated November 15, 2018. We have conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*.

As required by the state legal compliance audit program prescribed by the Office of the State Auditor, we have also performed procedures to test compliance with certain state laws and regulations. However, providing an opinion on compliance with state laws and regulations was not the objective of our audit and, accordingly, we do not express such an opinion.

The results of those procedures and our audit of the general purpose financial statements disclosed material instances of noncompliance with State laws and regulations. Our findings and recommendations and your responses are as follows:

Finding 1 - Fixed Asset Accounting

The City's procedures for determining the total acquisition cost of fixed assets and maintaining fixed asset detail did not comply with accounting system procedures prescribed by the Municipal Auditing and Accounting Guide.

Criteria, Context, and Condition

The property accounting system must follow prescribed procedures for recording acquisition cost of fixed assets, and certain professional fees, such as appraisal, architectural, engineering, and legal fees, should also be capitalized into fixed asset records. Additionally, the City's property accounting system must maintain the required fixed asset data elements as listed in the Municipal Auditing and Accounting Guide.

GULFPORT
2019 23rd Avenue
Gulfport, MS 39501-2968

P. O. Box 1842
Gulfport, MS 39502-1842

To the Honorable Mayor and City Council
City of Hattiesburg, Mississippi

Recommendation

The Administration should implement procedures to properly capture and maintain fixed asset detail, including the required data elements, in accordance with prescribed procedures.

Response

The City Administration agrees with this finding, and management is in the process of implementing a corrective action plan to address all fixed asset recordkeeping requirements.

Finding 2 - City Court Accounting Procedures

The City's accounting procedures for Municipal Court fines receivable are not in compliance with accounting system procedures prescribed by the State Auditor under Mississippi law. Noncompliance with prescribed Court accounting procedures is a recurring finding. See also related Findings 3 and 4.

Criteria, Context, and Condition

Pursuant to Mississippi Code Section 21-23-11 and the Municipal Auditing and Accounting Guide issued by the Office of the State Auditor. The City must maintain separate accounting records for the Municipal Court; the Court records must include an accounts receivable system that allows for balancing receivable accounts monthly, and periodic analysis of aging data. Relevant reports should be made to the judge and City Council as those parties may require. In addition, pursuant to Mississippi Code Section 99-19-73 and the Municipal Auditing and Accounting Guide, State-imposed Court assessments collected by the Municipal Court must be settled monthly with the Department of Finance and Administration.

Although the City routinely records fines by case and posts collections against those fines in a subsidiary ledger system, it was unable to generate an accurate summary or aging of outstanding accounts as of September 30, 2017 or during the year then ended. Further, the City did not provide related reports to the judge and City Council during the year ended September 30, 2017.

City procedures do not include reconciliation or roll-forward of gross case activity. In addition, subsidiary account records do not include complete information from which to generate reports of fines which have met criteria for accounting recognition. Further, subsidiary account records are not adequately controlled to ensure completeness, accuracy, and integrity of data. Allocation of cash collections among City fines and various State-imposed assessments is not verified for accuracy or reconciled to periodic changes in balances of underlying detail.

To the Honorable Mayor and City Council
City of Hattiesburg, Mississippi

The City undertook a project to assess deficiencies in its Court accounting and reporting system in order to develop a corrective action plan. However, development of an appropriate corrective action plan had not been completed as of the date of this report.

Recommendation

The Administration should immediately implement procedures to ensure completeness and integrity of Court data. The City should implement procedures to produce periodic detail reports of outstanding balances and case fine activity, as well as to timely reconcile related balances. Ongoing assessment of the adequacy of the case management software applications utilized by the Municipal Court should be completed, and the City's corrective action plan should address any noted accounting or reporting limitations. Use of peripheral applications and procedures should be commenced immediately to address and contain identified deficiencies in existing systems. Periodic reports should be made to the judge and the City Council and should include balances of outstanding fines, aging of outstanding accounts, and related roll-forwards and analyses of activity. Activity roll-forwards should include, at a minimum, beginning balances, new case dispositions, collections, nonmonetary credits, other adjustments, and ending balances. In addition, reports of corresponding assessments payable on fines should be periodically produced, reconciled, analyzed, and provided to the judge and the City Council.

Response

The City Administration agrees with this finding. As of July 2017, the newly elected Administration has undertaken the task of assessment of the Municipal Court operations. All aspects of operations will be assessed, from current software to personnel. If current software is deemed inadequate to satisfy the City's Court functions, as well as those required by State of Mississippi reporting, the City's Information Technology Department will assist Municipal Court personnel with reviewing and procuring new software. Additionally, personnel will be evaluated during this process to determine what training may be necessary to ensure optimal functioning of the department.

Finding 3 - Municipal Court Docket and Minutes

For the year ended September 30, 2017, the City did not maintain permanent dockets or minute records of Municipal Court actions as required by State law.

To the Honorable Mayor and City Council
City of Hattiesburg, Mississippi

Criteria, Context, and Condition

Mississippi Code Section 21-23-11 requires the clerk of the Municipal Court to keep permanent dockets of all cases, as well as a minute record of all orders and judgments. Pursuant to that Code section, one record may serve as both the docket record and the minute record. However, for the year ended September 30, 2017, the City did not maintain a permanent, unalterable docket of cases or minute record of Court actions on those cases. Instead, physical dockets used in Court were discarded upon data entry into application software. Internal controls over case entry and adjustment were not adequate to ensure completeness or accuracy of data. Further, since dockets and case activity maintained electronically could be subsequently altered, such records did not meet the standard of permanence required for dockets or provide a reliable minute record as required by Mississippi law.

Recommendation

The Administration should immediately implement procedures to retain physical Municipal Court dockets, upon the face of which all orders and judgments of the Court are entered, to serve as the combined permanent docket and minute record. Those permanent records should be reconciled periodically to case data recorded in subsidiary systems, and differences or exceptions should be timely investigated and resolved.

Response

The City Administration agrees with this finding, and management has developed a corrective action plan for addressing this issue. Initial phases of the corrective action plan, which ensure that all physical Court dockets are permanently retained, are being implemented. Additional phases for reconciling permanent docket detail to recorded case data are in the process of implementation and are expected to be fully implemented by fall 2018. In addition, the City's Administration will be assessing current software to determine if conversion to a new system is warranted. The Information Technology Department will assist in assessment efforts to determine corrective measures necessary to address reporting deficiencies.

Finding 4 - Control over Police Tickets

For the year ended September 30, 2017, the City did not maintain effective control over issued and unissued Police ticket books in accordance with the Municipal Auditing and Accounting Guide.

To the Honorable Mayor and City Council
City of Hattiesburg, Mississippi

Criteria, Context, and Condition

Pursuant to Mississippi Code Section 63-9-21 and the Municipal Auditing and Accounting Guide require that the City must maintain certain records related to uniform traffic tickets used by police officers. The clerk of the Municipal Court is required to keep a record of all traffic ticket books issued, including to whom those books are issued, and is required to maintain and account for all such ticket books in accordance with prescribed procedures.

During the year ended September 30, 2017, the City did not maintain complete records of ticket books, issue them consecutively, or account for tickets issued and returned.

Recommendation

The City should immediately implement procedures to control issuance, recordkeeping, and monitoring of uniform traffic ticket books in accordance with procedures prescribed by State law and the Office of the State Auditor.

Response

The City Administration agrees with this finding and will be performing a full assessment of current software and department procedures to determine necessary changes. Implementation may necessitate additional training of personnel and/or procurement of new or additional software to implement a corrective action plan related to Municipal Court accounting records, which will incorporate procedures related to control over Police tickets.

Finding 5 - Vehicle Markings

During fiscal year 2017, not all City vehicles were appropriately marked pursuant to Mississippi Code of 1972, Annotated. Noncompliance with vehicle marking procedures is a recurring finding.

Criteria, Context, and Condition

Section 25-1-87, Mississippi Code of 1972, Annotated, requires that all municipal vehicles, except police vehicles used for undercover operation and authorized by governing authorities, be marked in accordance with specified standards regarding nature, size and color contrast.

Determination was made that not all City-owned vehicles have proper markings as required under State law.

To the Honorable Mayor and City Council
City of Hattiesburg, Mississippi

Recommendation

The City should take necessary steps to ensure that all of their vehicles have proper markings as required by law, and that the Administration assign responsibility for the continued compliance with these requirements to appropriate official(s).

Response

The City Administration agrees with this finding and has implemented procedures under which all purchased vehicles will be marked with standard signage applied by the Public Works department mechanical shop.

Finding 6 - Annual Inventory of Assets

The City did not conduct an annual inventory of its assets in accordance with the guidelines established by the Office of the State Auditor.

Criteria, Context, and Condition

The Municipal Audit and Accounting Guide published by the State of Mississippi Office of the State Auditor requires municipalities to conduct a “thorough inventory of all fixed assets” at the end of each fiscal year in order to verify the existence of all fixed assets. The Municipal Audit and Accounting Guide also prescribes inventory procedures to be followed, including the assignment of the general oversight of the inventory process to an appropriate municipal officer, the use of inventory forms and a tagging system, and the investigation of discrepancies and missing inventory tags.

Recommendation

The City should follow the specific instructions of the Municipal Audit and Accounting Guide in order to update the City inventory records. This process, as prescribed by the Office of the State Auditor, must be considered to be an important legal compliance procedure that must be performed at the end of each fiscal year.

Response

The City Administration agrees with this finding and has implemented procedures to update the City’s detailed fixed asset inventory records. Additionally, the prescribed update of inventory records will be completed at the end of each fiscal year on a timely basis.

To the Honorable Mayor and City Council
City of Hattiesburg, Mississippi

Finding 7 - Municipal Compliance Questionnaire

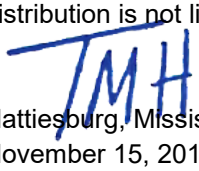
The City did not complete the Municipal Compliance Questionnaire for fiscal year 2017 on a timely basis as prescribed by the Municipal Audit and Accounting Guide.

Criteria, Context, and Condition

The Municipal Audit and Accounting Guide published by the State of Mississippi Office of the State Auditor requires that the Municipal Compliance Questionnaire be completed at the end of the municipality's fiscal year and be entered onto the official minutes of the governing authorities at their next regular meeting. The City did not complete the fiscal year 2017 questionnaire in the manner prescribed in the Guide.

Recommendation

The City should complete the Municipal Compliance Questionnaire each year at its first regularly scheduled City Council meeting in October and the questionnaire should be recorded into the official minutes.



Response

The City Administration did prepare the fiscal year 2017 Municipal Compliance Questionnaire for inclusion into the official minutes in March 2018. The City will ascertain that future Municipal Compliance Questionnaires will be completed at the end of each fiscal year for inclusion in the minutes of the first scheduled October City Council meeting.

[See also Schedule 4 - Schedule of Findings and Questioned Costs.]

The Office of the State Auditor or a public accounting firm will review, on a subsequent year's audit engagement, the findings in this report to ensure that corrective action has been taken.

This report is intended for the information of the City of Hattiesburg, Mississippi's management, Honorable Mayor and the City Council, and the Mississippi Office of the State Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

AMENDMENT TO AGREEMENT

HOMEOWNERSHIP AGREEMENT BETWEEN THE CITY OF HATTIESBURG AND COMMUNITY CONNECTIONS

THIS AGREEMENT, entered into this 4th day of May, 2010, by and between the City of Hattiesburg (hereinafter referred to as the "CITY"), and **Community Connections, Inc.**, a nonprofit corporation (hereinafter referred to as the "DEVELOPER") whose principal office is located at **215 Mobile Street, Hattiesburg, MS.**

WHEREAS, on the 4th day of December, 2018, the CITY and the DEVELOPER wish to change the scope of the May 4, 2010 agreement as well as all subsequent amendments prior to the 4th day of December, 2018 to allow the DEVELOPER to operate the developed property as a HOME-funded homebuyer development project;

WHEREAS, the CITY is a recipient of HOME Investment Partnerships grant funds from the United States Department of Housing and Urban Development (HUD) pursuant to 24 CFR 92; and

WHEREAS, the CITY wishes to engage the DEVELOPER to assist the City in utilizing such funds;

WHEREAS, the DEVELOPER has been selected to utilize HOME funds to develop and sell **One (1)** single-family home(s) to income eligible household(s) as outlined in this agreement;

NOW, THEREFORE in consideration of the mutual covenants and obligations herein contained, including the Exhibits, and subject to the terms and conditions hereinafter stated, the parties hereto understand and agree as follows:

Section I – Definitions

a. **CITY** – is hereby defined as the Department of Federal and State Programs the agency administering the HOME Program for the CITY of Hattiesburg. For the purpose of this Agreement and all administration of HOME funds, the CITY shall execute fiscal and programmatic control of this agreement. The term "Approval by the CITY" or like term used in this Agreement shall in no way relieve the DEVELOPER from any duties or responsibilities under the terms of this Agreement, or obligation under State or local law or regulation.

b. **CHDO** – Community Housing Development Organization as defined in 92.2 of the HOME rule.

c. **DIRECTOR** – is hereby defined as the Director of the Department of Urban Development of the CITY of Hattiesburg.

d. **DEVELOPER FEE** – is hereby defined as the amount of money the CITY agrees to pay and the DEVELOPER agrees to accept as payment in full for the professional, technical and construction services rendered pursuant to this Agreement.

e. **WORK** – is hereby defined as all the professional, technical and construction services to be rendered or provided by the DEVELOPER as described herein.

f. **HOME** – is hereby defined as the HOME Investment Partnerships Program as described in 24 CFR Part 92, under the authority of 42 U.S.C. 3535 (d) and 12701 - 12839.

g. **IDIS** – Integrated Disbursement and Information System.

h. **PROJECT COMPLETION** – the project has received a certificate of occupancy or other local certification indicating that construction or rehabilitation has been completed, the CITY has signed off on all work and the work has been performed to the satisfaction of the CITY, the CITY has received all required documents from the DEVELOPER and the project is fully occupied by income eligible households. All documents that enforce the affordability period must be recorded.

Section II – Term of Agreement

The term of this Agreement shall commence on **May 4, 2010, having thereafter been amended for changes in scope and herein further amended** and shall end on or before the Project Completion deadline of **January 31, 2019**;

The CITY shall provide HOME funds in an amount not to exceed **$59, 318.80 ($50,000 in CHDO Reserve Funding and $9,318.80 in CHDO Operating Funding)**, in accordance with the attached budget hereby attached as Exhibit **(n/a as funds were expended according to a budget under a previously executed agreement related to this project site). It is acknowledged by the CITY and the DEVELOPER, however, that these funds were disbursed under the terms of a previously existing agreement which is herein amended, and that this agreement is hereby established solely as an administrative tool prescribed to see through the completion of the project and the fulfillment of the affordability period. No additional HOME funds will be expended in completing this project.**

Interim Milestones/Deadlines (list below):

Milestones	***Deadline***
All related development having been complete prior to this amendment, the only	
Remaining benchmark is the sale of the home to an eligible buyer, expected as follows:	
Home sold by Community Connections and reported to City by January 31, 2019.	

1. This project is subject to ongoing affordability requirements of the HOME program for 15 years from the date of project completion. During this compliance period, DEVELOPER

will assure continued compliance with HOME requirements for HOME-assisted homebuyer project. This includes monitoring units for principal residency and recapture of funds if the property is sold and is no longer the primary residence of the homebuyer.

2. Timely completion of the work specified in this agreement is an integral and essential part of performance.

3. The expenditure of HOME funds is subject to Federal deadlines and could result in the loss of the Federal funds. By the acceptance and execution of this Agreement, it is understood and agreed by the DEVELOPER that the PROJECT will be completed as expeditiously as possible and that the DEVELOPER will make every effort to ensure that the project will not be delayed.

4. Failure to meet these deadlines can result in cancellation of this Agreement and the revocation of HOME funds.

5. Since it is mutually agreed that time is of the essence in regard to this Agreement, the DEVELOPER shall cause appropriate provisions to be inserted in all contracts or subcontracts relative to the work tasks required by this Agreement, in order to ensure that the PROJECT will be completed according to the timetable set forth. It is intended that such provisions inserted in any subcontracts be, to the fullest extent permitted by law and equity, binding for the benefit of the CITY and enforceable by the CITY against the DEVELOPER and its successors and assigns to the project or any part thereof or any interest therein.

6. In the event the DEVELOPER is unable to meet the above schedule or complete the above services because of delays resulting from Acts of God, untimely review and approval by the CITY and other governmental authorities having jurisdiction over the PROJECT, or other delays that are not caused by the DEVELOPER; the CITY shall grant a reasonable extension of time for completion of the WORK. It shall be the responsibility of the DEVELOPER to notify the CITY promptly in writing whenever a delay is anticipated or experienced, and to inform the CITY of all facts and details related to the delay.

Section III – Scope of Work

A detailed scope of work is attached as exhibit **(n/a – as development-related scope of work was fulfilled prior to the establishment of this amendment, the remaining scope of work is to sell the unit to a HOME qualified homebuyer and to see to the fulfillment of the affordability period.).** The DEVELOPER, in close coordination with the CITY, shall perform all professional services (the "WORK") necessary to complete the development and occupancy of the following project in full compliance with the terms of this Agreement:

Project Description:
The project at 620 Barkley Road, having been constructed under the terms of the agreement prior to this amendment is to be converted into a homebuyer project for an income-eligible

household. The project will remain as an affordable unit for the duration of the affordability period. HOME funds having been used prior to this amendment, no additional HOME funds will be expended in the completion of this activity.

Project Addresses:
620 Barkley Road, Hattiesburg, MS 39401

Legal Description:
PARCEL NO. 5: A part and parcel of the NE ¼ of the NE ¼ of Section 27, Township 4 North, Range 13 West, Forrest County, Mississippi, more particularly described as follows: Commence at the Northeast corner of the NE ¼ of the NE ¼ of sold Section 27; thence run S0018'32"E and along the East line of the said NE ¼ of the NE ¼ for 20.00 feet; thence run S89DEG 58'40"W and along the South margin line of Barkley Road for 117.92 feet to an iron pin and to the Point of Beginning; thence run South margin line of Barkley Road for 117.92 feet to an iron pin and to the Point of Beginning; thence run S00DEG 16'42"E for 150.00 feet to an Iron pin; thence run S89DEG 58'139"W for 98.00 feet to an Iron pin; thence run N00DEG 14'52"W for 150.00 feet to an Iron pin on the South margin line of Barkley Road; thence run NE89DEG 58'40"E and along the South margin line of Barkley Road for 97.92 feet to the Point of Beginning; containing 0.34 acre, more or less.

Section IV – Reimbursement of Expenses

1. ***No additional HOME funds will be expended or reimbursed as part of this agreement – as specified previously in Sections II and III. Under the agreement, prior to this amendment, $59,318.80 in HOME funds is already expended.**

2. The CITY reserves the right to inspect records and Project sites to determine that reimbursement and compensation requests are reasonable. The CITY also reserves the right to hold payment until adequate documentation has been provided and reviewed.

3. The CITY shall have the right to review and audit all records of the DEVELOPER pertaining to any payment by the CITY. Said records shall be maintained for a period of five years after the affordability period ends.

Section V – Project Requirements

The DEVELOPER agrees to comply with all requirements of the HOME Program as stated in 24 CFR Part 92. In addition, the DEVELOPER must comply with the following requirements specific to this project, including but not limited to, the following:

1. No HOME project funds will be advanced, and no costs can be incurred, until the CITY has conducted an environmental review of the proposed project site as required under 24 CFR Part 58. The environmental review may result in a decision to proceed with, modify or cancel the project. **(n/a – no additional funds are being expended. The environmental review was conducted appropriately at an earlier stage.).**

2. Notwithstanding any provision of this Agreement, the parties hereto agree and acknowledge that this Agreement does not constitute a commitment of funds or site approval, and that such commitment of funds or approval may occur only upon satisfactory completion of an environmental review and receipt by the CITY of a release of funds from HUD under 24 CFR Part 58.

3. Further, the DEVELOPER will not undertake or commit any funds to physical or choice-limiting actions, including property acquisition, demolition, rehabilitation, conversion, repair or construction prior to the environmental clearance, and must indicate that the violation of this provision may result in the denial of any funds under the Agreement.

4. HOME funds advanced to the project will be secured by a note and mortgage, and a land covenant as required by 24 CFR Part 92.

5. The DEVELOPER will ensure that any expenditure of HOME funds will be in compliance with the requirements at 92.206, and acknowledges that HOME funds will only be provided as reimbursement for eligible costs incurred, including actual expenditures or invoices for work completed.

6. The DEVELOPER will not acquire property that is occupied. All properties acquired under this program must be vacant or occupied by the seller. All acquisitions under this program are voluntary acquisitions. If the project is occupied at the time of this commitment, the DEVELOPER, using non-HOME funds, will comply with the relocation requirements of 24 CFR 92.353. The DEVELOPER will provide the seller with a voluntary acquisition notice if the property is being purchased with HOME funds.

7. The DEVELOPER shall assure compliance with 24 CFR 92.251 as relates to Property Standards and local codes, Accessibility Standards under 24 CFR 92.251(a)(3), Model Energy Code standards, as applicable, and Lead Based Paint Requirements as found in 24 CFR 92.355 and 24 CFR Part 35.

8. The DEVELOPER will be monitored by the CITY for compliance with the regulations of 24 CFR 92 for the compliance period specified above. The DEVELOPER will provide reports and access to project files and the project site as requested by the CITY during the project term and for five (5) years after the affordability period ends.

9. The DEVELOPER shall ensure that any contractor, subcontractor or participant awarded work under this contract has not been debarred, suspended or determined ineligible to perform work funded by HUD. To determine if a contractor, subcontractor or participant has been debarred, suspended or determined ineligible go to: https://www.epls.gov/.

10. The DEVELOPER (as a CHDO) may retain proceeds as defined in 24 CFR 92.2 from the grant funds provided under this Agreement. The proceeds are to be used for eligible affordable housing activities to benefit low-income families.

11. The DEVELOPER agrees that any news release, article, public service announcement or advertisement or any other type of publicity pertaining to this Project (program literature, brochures, project sign and letterhead) must recognize the City of Hattiesburg and the U.S. Department of Housing and Urban Development HOME Investment Partnerships Program as providing funds for this Project.

12. Subsidy layering. Before committing funds to a Project, the CITY or the DEVELOPER must evaluate the project and will not invest any more HOME funds, in combination with other governmental assistance, than is necessary to provide affordable housing. The cost of this review will be borne by the CITY or the DEVELOPER and this expense may be eligible for reimbursement by HOME funds provided under this Agreement. The DEVELOPER is responsible to ensure that the costs are reasonable.

13. The Developer will include green features, universal design features in its projects to greatest extent feasible and will ensure that all appliances are energy star rated appliances.

14. The CITY will take a 2nd or higher position on its mortgage if required by other funding sources to ensure the feasibility and development of the Project.

15. All claims, disputes and other matters in question arising out of, or relating to, the construction Agreement or the breech thereof, and except for the claims which have been waived by the making or acceptance of the final payment shall be decided by arbitration in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association, unless the parties mutually agree otherwise. This agreement to arbitrate shall be specifically enforceable under the prevailing arbitration law.

16. The maximum per unit subsidy that may be invested on a per-unit basis in affordable housing may not exceed the per-unit dollar limitations established under section 221(d)(3)(ii) of the National Housing Act (12 U.S.C. 17151(d)(3)(ii)) for elevator-type projects that apply to the area in which the housing is located.

17. Affordability period.

Homeownership assistance HOME amount per-unit	**Minimum period of affordability in years**
Under $15,000	5
$15,000 to $40,000	10
Over $40,000	15

The funds provided to eligible households to make the unit affordable under this program are subject to affordability requirements in accordance with 92.254. During the affordability period the homebuyer must maintain the home as his/her principal place of residence at all times. The assistance is forgiven 20%, 10% or 7% a year over the

affordability period. At the end of the affordability period the mortgage lien is released in full if the owner has complied with all of the terms of the program.

18. The DEVELOPER will also comply with the CITY of Hattiesburg's minority outreach WBE/MBE program to ensure the inclusion, to the maximum extent possible, of minorities and women, and entities owned by minorities and women, including, without limitation, real estate firms, construction firms, appraisal firms, management firms, financial institutions, investment banking firms, underwriters, accountants, and providers of legal services, in all contracts entered into with such persons or entities, public and private, in order to facilitate the activities of the CITY to provide affordable housing.

19. The CITY has the right to reject participation in the project from any contractor that has done previous business with the CITY and has failed to comply with the requirements of the program or who has been involved in litigation with the CITY.

20. All housing assisted with HOME funds is subject to the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4821-4846), the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4851-4856), and implementing regulations at Part 35, Subparts A, B, J, K, M and R of this title outlined in 92.355.
21. The DEVELOPER must have developed a waiting list of buyers that are determined eligible by the CHDO under the HOME program requirements. There shall be no less than one (1) eligible buyer for each unit to be sold.

22. The DEVELOPER will ensure that occupancy complies with the requirements of 92.254(a)(6). The DEVELOPER will ensure that the project is eligible under 92.214, and that it will meet the applicable standards of 24 CFR 92.252-253 at occupancy and for the minimum compliance period. The project must meet the State of Mississippi building Construction Codes and the City of Hattiesburg local building codes.

23. The designated HOME-assisted project will meet the affordability requirements as found in 24 CFR 92.252. The DEVELOPER shall collect and maintain project beneficiary information pertaining to household size, income levels, racial characteristics, and the presence of Female Households in order to determine low and moderate-income benefit in a cumulative and individual manner. Income documentation shall be in a form consistent with HOME requirements as stated in the HUD ***"Technical Guide for Determining Income and Allowances Under the HOME Program"*** in accordance with the requirements under 24 CFR Part 5 found at: http://www.hud.gov/offices/cpd/affordablehousing/library/modelguides/2005/1780.cfm.

24. The homebuyer will maintain adequate hazard and flood insurance coverage, if applicable, on the property acquired, during the affordability period and will name the City of Hattiesburg as an additional insured.

25. The DEVELOPER will ensure that all HOME assisted units meet the following requirements:

a) The housing must be single-family housing or condominiums. No manufactured housing is allowed to be purchased under this program.

b) The housing must be modest housing as follows:

1. In the case of acquisition of newly constructed housing or standard housing, the housing has a purchase price for the type of single-family housing that does not exceed $148,000; based on HOME Affordable Homeownership limits for the area. The most current HUD limits can be found at:

http://www.hud.gov/offices/cpd/affordablehousing/programs/home/limits/maxprice.cfm

26. Type of Ownership: The property must be acquired in fee simple title by both the DEVELOPER and, subsequently, the HOMEBUYER.

27. The housing must meet the accessibility requirements at 24 CFR part 8, which implements Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and covered multifamily dwellings, as defined at 24 CFR 100.205, which implement the Fair Housing Act (42 U.S.C. 3601-3619).

28. Should the HOMEBUYER sells his or her property, during the affordability period, HUD resale provisions shall apply as outlined in 92.254 (a)(5)(i): 1) The property is sold to another low-income homebuyer shall use the property as his or her principal residence; 2) The original homebuyer shall receive a fair return on investment, (i.e., the homebuyer's downpayment plus capital improvements made to the house); and 3) The property is sold at a price that is "affordable to a reasonable range of low-income buyers.

In the event that a HOMEBUYER, rents the home, or fails to keep the home as their primary residence, or foreclosed by any mortgage holder during the affordability period the CITY will be forced to foreclose on the entire loan amount less any amount forgiven based on a prorate portion of the affordability period fulfilled.

The housing must be acquired by a HOMEBUYER whose household qualifies as a low-income household and the housing must be the principal residence of the household throughout the affordability period. Low income is defined as households whose income does not exceed 80% of the area median income as defined by HUD and adjusted for household size. The household will be determined income eligible in accordance with IRS 1040 adjusted gross income as outlined in 92.203 (b) (3). The DEVELOPER is responsible for qualifying the household as income eligible for assistance. Income documentation shall be in a form consistent with HOME requirements as stated in the HUD "Technical Guide for Determining Income and Allowances under the HOME Program found at: http://www.hud.gov/offices/cpd/affordablehousing/library/modelguides/2005/1780.cfm.

Consequently, if the proceeds exceed the loan amount as set forth herein, the HOMEBUYER will be entitled to retain any remaining proceeds of the sale. If there are no net proceeds, then no repayment will be required. The net proceeds due for HOME Repayment must be returned to the CITY immediately upon receipt.

29. Once initial eligibility of the HOMEBUYER is determined, the DEVELOPER is required to:

    a) Submit the income verification information to the CITY for review. The CITY will notify the DEVELOPER that it concurs with the applicant's eligibility for the program and the CITY will provide written approval for the DEVELOPER to issue an award letter to the applicant.

    Income verifications under the HOME program must be dated no earlier than six (6) months prior to receipt of assistance. After six months, applicant verifications must be redone and household income must be recalculated to determine that the household still meets the income requirements.

    b) Collect and maintain project beneficiary information pertaining to household size, income levels, racial characteristics, and the presence of Female Headed Households in order to determine low and moderate-income benefit in a cumulative and individual manner.

30. The CITY retains the right to withhold payment if the DEVELOPER fails to carry out the activities authorized under this Agreement in accordance with the timeline and schedule provided. Time is of the essence under this Agreement and the HOME program sets specific deadlines for reporting of expenditure of funds. The DEVELOPER must comply with the timeframes stipulated under this Agreement and in the event that the project cannot be completed on schedule, the DEVELOPER must immediately notify the CITY. Refer to Section II (6) for factors beyond the DEVELOPER'S control. Specific penalties for non-performance are outlined in Section VI (8) of this Agreement.

31. In the selection of occupants for Project units, the DEVELOPER shall comply with all nondiscrimination requirements of 24 CFR 92.350.

32. The DEVELOPER will comply with the City of Hattiesburg's Affirmative Fair Housing Policy in marketing the homes for sale.

    a. The DEVELOPER will use the Fair Housing and Equal Opportunity Logo in all of its advertising for properties built with HOME funds.

    b. The DEVELOPER will post a Fair Housing poster in its office in a location that is visible to the public being served under the HOME program. For a Spacing copy of the poster go to: http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_7802.pdf

c. All advertising, applications and marketing tools prepared by the DEVELOPER for the sale of HOME assisted units shall include the following language "We comply with the Fair Housing Law. Our office does not discriminate on the basis of race, color, national origin, religion, sex, familial status or disability".

d. The DEVELOPER will provide all program participants with a copy of the "Fair Housing Equal Opportunity for All" brochure. A copy of the brochure can be found at: http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_12146.pdf

33. The CITY shall record a mortgage and note on the property when sold for the affordability period in compliance with 24 CFR 92.254 and that the CITY will monitor each unit for principal residency on an annual basis.

34. Each year, the DEVELOPER will mail a form letter to the HOMEBUYER requesting that they confirm their continued occupancy of the property for the term of the affordability period. The form shall be retained in a file by the DEVELOPER as documentation that the unit remains occupied by the original HOMEBUYER. These files shall be available to the CITY upon request.

Section VI - Funding and Method of Payment

1. The DEVELOPER may be obtaining funding for the project from various sources. The maximum amount payable by CITY under this Agreement shall be **Zero and 00/100 ($0.00) – having invested $59,318.80 under the agreement prior to this amendment.** The City's payment shall always be a proportionate share of all funds invested in the project. The HOME Funds provided by CITY to the DEVELOPER shall be in the form of a deferred payment forgivable loan, 0% interest, forgiven pro rata over the course of the affordability period. At Loan closing, the DEVELOPER shall execute and CITY shall record, at the DEVELOPER's expense, in the Public Records of Forrest County, Mississippi, a Deed of Trust to ensure that the HOME assisted units are sold to income eligible buyers. This mortgage, note and restrictive covenant will be released as units are sold to income eligible buyers, which will be required to accept a similar Deed of Trust for an appropriate affordability period.

2. Project expenses (excluding DEVELOPER Fees) shall be paid on a reimbursement basis based on vouchers for actual expenses incurred or paid by the DEVELOPER. Requests for payment must be submitted by the DEVELOPER on forms specified by the CITY **(see Chapter 5.3 of the CHDO Policies & Procedures)** with adequate and proper documentation of eligible costs incurred in compliance with 92.206 and necessary for reporting to HUD in IDIS. All such expenses shall be in conformance with the approved Project budget. Budget revision and approval by the CITY shall be required prior to payment of any expenses not conforming to the approved project budget.

3. Payment request shall not exceed one payment per month and payments must be submitted along with any progress reports required by the CITY. The CITY retains the right to withhold payment for missing and incomplete progress reports.

4. The CITY will retain 10% of each payment draw until Project completion. When the DEVELOPER submits all required documentation for final payment including; but not limited to, a project completion report, receipts, final invoices and HOMEBUYER information, releases of liens, final inspection and Certificate of Completion from the building department, the CITY will release the final 10% withheld.

5. The CITY reserves the right to inspect records and the Project site to determine that reimbursement and compensation requests are reasonable. The CITY also reserves the right to hold payment until adequate documentation has been provided and reviewed.

6. The CITY shall have the right to review and audit all records of the DEVELOPER pertaining to any payment by the CITY. Said records shall be maintained for a period of five (5) years after the affordability period ends.

7. DEVELOPER Fee

   A DEVELOPER'S Fee is compensation to the developer for the time and risk involved to develop the project. It is typically based on the size of the project, the total development cost and the risk associated with the project. The DEVELOPER's fee is expressed as a percentage of the total **HOME-investment portion of** the development cost. DEVELOPERS who perform work in a timely fashion and comply with the timelines outlined in the Agreement will receive a DEVELOPER's fee of no more than 10% of the total HOME funds awarded under the Agreement.

   The DEVELOPER fee will be paid as follows:

   (Inapplicable to this activity, CHDO Operating Funds having been included in the scope of the agreement prior to this amendment and are referenced in Section II, herein.)

8. Project Penalties

   Time is of the essence in the completion of all projects under the HOME program. DEVELOPERs who do not perform in accordance with the timeline and budget stipulated in the Agreement will be subject to penalties for lack of performance. The CITY will closely monitor performance and will enforce the following penalties when the CHDO fails to carry out its contractual obligations under the Agreement.

   a) For new construction projects that involve site acquisition:
      1. Failure by the DEVELOPER to provide a warranty deed showing ownership and title to property according to the timeline stipulated in the Agreement will result in the cancellation of the Agreement. The Agreement will be null and void and no compensation will be paid to the DEVELOPER for expenses incurred related to the acquisition of the property.

b) For existing properties already owned by the DEVELOPER
    1. Failure by the DEVELOPER to provide an active building permit issued by the City of Hattiesburg building department within the timeline stipulated in the Agreement will result in the cancellation of the Agreement. The contract will be null and void and no compensation will be paid to the DEVELOPER for expenses incurred up to the date that the Agreement is cancelled or thereafter.

c) Failure by the DEVELOPER to meet the 50% completion timeline outlined in the Agreement will result in a loss of 50% of the total DEVELOPER fee approved under the Agreement.

d) Failure of the DEVELOPER to complete 100% of the project within the timeline specified in the Agreement will result in:
    1. A 50% reduction of the DEVELOPER fee authorized under the terms of the Agreement **and**
    2. Suspension of the CHDO from participation under the HOME program for not less than one (1) year after the date the project is completed, or the next CHDO reservation funding cycle, whichever occurs later.

e) The CITY retains the right to require a CHDO who has failed to comply with the terms outlined in the Agreement, to transfer title and ownership of the property to the CITY or an agency designated by the CITY to carry out the terms and conditions of the contract in a timely manner. The CITY will consider the CITY's total investment in the property, the stage of project construction, the feasibility that the project will be completed by the HOME program deadlines by the current developer, the date the project will be completed by the new developer and the timing for meeting a national objective up to and including occupancy of the unit. The decision to transfer the title of the property will be based on the decision that is in the best interest of the HOME program, the City of Hattiesburg and its residents. The final decision to transfer title of the property will require approval by the City of Hattiesburg City Council.

f) Developers that experience delays caused by reasons beyond their control in accordance with Section II (6) of this Agreement must submit the reasons for delay and supporting documentation in writing to the Program Director. Extensions will be reviewed by the Director in consultation with City staff. The DEVELOPER will be notified in writing of the department decision to approve the Project delay.

g) At the time that the CITY approves project delay, new timelines will be established for the Project in the form of an amendment to the existing contract. The DEVELOPER must comply with the new timelines. Failure by the DEVELOPER to comply with the new timeliness will trigger the penalties stated above.

9. The DEVELOPER shall have standards of financial accountability that conform to 24 CFR 84.21, "Standards for Financial Management Systems;"

10. HOME Funds shall not be reimbursed by the CITY until the funds are needed for the payment of Eligible Costs. All HOME Funds not expended within the term of this Agreement shall remain in the custody and control of the CITY. The CITY may reallocate unexpended HOME Funds to other HOME Program projects if approved for funding by the Governing Body.

11. The DEVELOPER shall pay its subcontractors and suppliers within thirty (30) days following receipt of payment from CITY for such subcontracted work or supplies, if all required and supporting documentation is provided and the work is completed in accordance with the contract documents.

12. For purposes of this section, Requests for Payment, reports and other documentation required under this Agreement, must be submitted within sixty (60) days of project completion. Reports submitted after that date may not be honored by the CITY, at the discretion of the CITY.

13. The DEVELOPER shall furnish to the CITY all reports required by HUD and such additional reports as may be necessary to comply with all applicable laws, regulations, guidelines, and conditions specified in this Agreement and further, the DEVELOPER and any contractors or subcontractors shall provide any other reports deemed necessary by the CITY.

14. The CITY, HUD or the Comptroller General of the United States or any of their duly authorized representatives shall at all times have the right and option to monitor, inspect, audit, and review the Developer's performance and operation of the HOME program to be performed under this Agreement; and in connection therewith, all of the above mentioned entities shall have the right to inspect any and all records, books, documents, or papers of the DEVELOPER, Contractor and the subcontractors of Contractor, for the purpose of making audit examination, excerpts and transcriptions.

Section VII - CHDO Proceeds

The City of Hattiesburg will allow CHDOs that utilize CHDO reservation funds to develop, rehabilitate, sell or rent housing benefiting income eligible households to retain project proceeds.

Definition of Project Proceeds:

Project proceeds are funds generated by the project and paid to the DEVELOPER from activities carried out with HOME funds. Projects proceeds include:

1. Proceeds from the disposition by sale or long-term lease of real property acquired, rehabilitated, or constructed with HOME funds or matching contributions;

2. Payments of principal and interest on loans made using HOME funds;

3. Proceeds from the sale of loans made with HOME funds;

4. Proceeds from the sale of obligations secured by loans made with HOME funds;

5. Interest earned on program income pending its disposition; and

6. Any other interest or return on the investment permitted under § 92.205(b) of HOME funds

All project proceeds received by the CHDO must be used for affordable housing activities to benefit low-income households.

The CHDO will be required to track the investment of project proceeds for housing activities to benefit low-income households. The CHDO must maintain supporting documentation related to the use of these funds for monitoring purposes.

Eligible Uses of Project Proceeds:

CHDOs allowed to retain project proceeds must use the funds for housing activities to benefit low-income families as required by 24 CFR 92.300(a)(2). Low-income households are defined as those that do not exceed 80% of the Area Median Income as established by HUD on an annual basis.

Affordable housing activities which may be funded with CHDO proceeds include, but are not limited to: emergency repairs, project operating costs and reserves, housing refinancing costs, CHDO operating expenses, and homebuyer counseling.

CHDO proceeds which are retained by a CHDO are not subject to the requirements of the HOME regulations, except for 24 CFR 92.300(a)(2). Thus, the Davis-Bacon Act, National Environmental Policies Act and Uniform Relocation Assistance and Real Property Acquisition Policies Act do not apply to the use of CHDO proceeds. However, because CHDO proceeds are derived from the expenditure of HOME funds, any activities which are funded with CHDO proceeds may not be contributed as match.

Section VIII – Repayment of Loan

1. All HOME funds are subject to repayment in the event the project does not meet the project requirements as outlined in this Agreement.

2. It is understood that upon the completion of the project, any HOME funds reserved, but not expended under this Agreement, will revert to the CITY.

3. Sale of the property to another party may occur only with the approval of the CITY. Provisions in those documents will provide for the extinguishment of the requirements only in the event of a third-party foreclosure or deed in lieu of foreclosure. The CITY will be a

third party to the agreement between the DEVELOPER and the HOMEBUYER to ensure enforcement of the affordability requirements.

4. The DEVELOPER shall lend the HOME funds to the individual buyers as a subsidy in an amount sufficient to make the purchase affordable. Any HOME funds that reduce the price of the property below the fair market value of the property shall be secured by a HOME note and mortgage as required in 92.254(a)(5)(ii), using the note and mortgage prescribed or approved by the CITY and consistent with the method identified in the CITY's Consolidated Plan.

    a. Prior to each closing with each HOMEBUYER, the DEVELOPER will provide to the CITY the preliminary settlement statement, along with the reconciliation statement and the draft note and mortgage. The reconciliation statement shall account for the pro-ration of HOME project funds to the individual unit, and identify those funds that are to be loaned to the buyer as "Buyer subsidies" secured by the HOME note, the pro-rated HOME development funds that are to be forgiven as "Development subsidies", and the amount of DEVELOPER fee or sales proceeds to be retained from settlement funds.

Section IX – CHDO Provisions

1. If the DEVELOPER is a CHDO, the requirements in this section apply to CHDO developers, sponsors and owners. It is understood that the DEVELOPER has certified that it is and will maintain CHDO status for the term of the AGREEMENT in accordance with 24 CFR 92. DEVELOPER agrees to provide information as may be requested by the CITY to document its continued compliance, including but not limited to an annual board roster and certification of continued compliance.

2. Any funds advanced as the CHDO as pre-development funds must be in compliance with 92.301, and are forgivable only under the terms in 92.301.

3. Any funds advanced to the CHDO as CHDO Operating Expenses must be expended in compliance with 24 CFR 92.208. The City of Hattiesburg can provide up to five (5) percent of its fiscal year HOME allocation for operating expenses to the CHDO. These funds may not be used to pay operating expenses incurred by a CHDO acting as a subrecipient or contractor under the HOME Program. Operating expenses means reasonable and necessary costs for the operation of the CHDO. Such costs include salaries, wages, and other employee compensation and benefits; employee education, training, and travel; rent; utilities; communication costs; taxes; insurance; equipment; materials and supplies. The requirements and limitations on the receipt of these funds by CHDOs are set forth in 92.300(e) and (f).

Section X – Procurement Standards

1. The DEVELOPER shall establish procurement procedures to ensure that materials and services are obtained in a cost-effective manner. The DEVELOPER's procurement

procedures must be approved by the CITY. All costs will be reviewed by the CITY to assure reasonableness.

2. In addition, it is understood that any DEVELOPER that can be considered to be a religious or faith-based organization shall abide by all portions of 24 CFR 92.257.

Section XI – Conflict of Interest Provisions

1. The DEVELOPER warrants and covenants that it presently has no interest and shall not acquire any interest, directly or indirectly, which could conflict in any manner or degree with the performance of its services hereunder. The DEVELOPER further warrants and covenants that in the performance of this contract, no person having such interest shall be employed.

2. No persons who exercise or have exercised any functions or responsibilities with respect to activities assisted with HOME funds or who are in a position to participate in a decision making process or gain inside information with regard to these activities, may obtain a financial interest or benefit from a HOME-assisted activity, or have an interest in any contract, subcontract or agreement with respect thereto, or the proceeds thereunder, either for themselves or those with whom they have family or business ties, during their tenure or for one (1) year thereafter.

3. The conflict of interest provisions applies to any person, employee, agent, consultant, officer, or elected official or appointed official of the CITY. If it is determined that a conflict of interest exists, the CITY will be immediately notified. The CITY will follow the process outlined in 32.356 and request an opinion from HUD to determine if a conflict of interest exists.

4. No owner, developer or sponsor of a project assisted with HOME funds (or officer, employee, agent or consultant of the owner, developer or sponsor) whether private, for profit or non-profit, including CHDOs when acting as an owner, developer or sponsor may occupy a HOME-assisted affordable housing unit in a project. This provision does not apply to an individual who receives HOME funds to acquire or rehabilitate his or her principal residence or to an employee or agent of the owner or developer of a rental housing project who occupies a housing unit as the project manager or maintenance worker.

5. The CITY may grant exceptions or forward the requests to HUD as permitted by24 CFR 92.356, 85.36 and 84.42, as they apply.

Section XII – City Responsibilities

The CITY shall furnish the DEVELOPER with the following services and information from existing CITY records and CITY files:

1. The CITY shall provide to the DEVELOPER information regarding its requirements for the Project.

2. The CITY will provide the DEVELOPER with any changes in HOME regulations or program limits that affect the project, including but not limited to, income limits, property value limits and rent limits.

3. The CITY will conduct progress inspections of work completed to protect its interests as lender and regulatory authority for the project, and will provide information to the DEVELOPER regarding any progress inspections or monitoring to assist it in ensuring compliance.

4. The CITY's review and approval of the WORK will relate only to overall compliance with the general requirements of this Agreement and HOME regulations, and all CITY regulations and ordinances.

5. The CITY shall monitor, review, and evaluate the financial procedures of the DEVELOPER through documents submitted to the CITY and on-site monitoring. The DEVELOPER shall provide to the CITY such reports, and make available to the CITY such records that will be necessary for a proper financial evaluation. With reasonable notice (generally ten (10) working days) being given to the DEVELOPER, the CITY shall schedule at least one on-site visit during the term of said Agreement and other visits that may be needed.

6. The CITY shall monitor, review, and evaluate the DEVELOPER. Fiscal reports will be reviewed and evaluated in terms of the total budget and accomplishments in relationship to expenditures. With reasonable notice (generally ten (10) working days) being given to the DEVELOPER, the Department shall schedule at least one (1) on-site visit and other visits that may be needed during the course of said Agreement. At such times and in such forms as the CITY may require, there shall be furnished to the CITY such statements, records, data, and information as may be necessary.

7. Within a reasonable period of time (generally 45 days) after the monitoring visit, the CITY shall furnish to the DEVELOPER a letter and any necessary reports summarizing the monitoring visit. Such letters and reports will include any findings or concerns and recommendations for improvement.

8. The DEVELOPER shall have 30 days from the receipt of a financial or programmatic monitoring letter to address any findings or concerns. Should the concerns not be addressed in a manner acceptable to the CITY, this Agreement shall be terminated in accordance with the provisions for termination outlined in this Agreement.

9. Nothing contained herein shall relieve the DEVELOPER of any responsibility as provided under this Agreement.

Section XIII – Equal Employment Opportunity

During the performance of this contract, the DEVELOPER agrees as follows:

1. The DEVELOPER will not discriminate against any employee or applicant for employment because of race, color, religion, sex, handicap, familial status, or national origin. The DEVELOPER will take affirmative action to ensure the applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, familial status, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The DEVELOPER agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer of the CITY setting forth the provisions of this nondiscrimination clause.

2. The DEVELOPER will, in all solicitations or advertisements for employees placed by or on behalf of the DEVELOPER, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

3. The DEVELOPER will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the CITY's contracting officer, advising the labor union or worker's representative of the DEVELOPER's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

4. The DEVELOPER will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

5. The DEVELOPER will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the CITY and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and order.

6. In the event the DEVELOPER is found to be in noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations or orders, this contract may be canceled, terminated or suspended in whole or in part and the DEVELOPER may be declared ineligible for further government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965 or by rule, regulations, or order of the Secretary of Labor or as otherwise provided by law.

7. The DEVELOPER will include the provisions of this Agreement in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24,1965, so that such provisions will be binding upon each subcontractor or vendor. The DEVELOPER will take such action with respect to any subcontract or purchase order as the CITY may direct as a means of enforcing such provisions, including sanctions for noncompliance**.**

Section XIV – Section 3 Compliance

The DEVELOPER agrees to comply with the federal regulations governing training, employment and business opportunities as follows:

1. The work to be performed under this contract is subject to the requirements of Section3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of ~~S~~section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

2. The DEVELOPER will comply with HUD's regulations in 24 CFR Part 135, which implement Section 3. As evidenced by the execution of this Agreement, the DEVELOPER certifies that they are under no contractual or other impediment that would prevent them from complying with 24 CFR Part 135 of the regulations.

3. The DEVELOPER, its contractors and subcontractors, if applicable agree to send to each labor organization or representative of workers with which the DEVELOPER, its contractors and subcontractors has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers' representative of the DEVELOPER, its contractors and subcontractors commitments under this Section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

4. The DEVELOPER, its contractors and subcontractors agree to include this Section 3 clause in every subcontract subject to compliance with regulations in 24 CFR part 135, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The DEVELOPER and its contractors will not subcontract with any subcontractor where the DEVELOPER or its contractors has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.

5. The DEVELOPER, its contractors and subcontractors will certify that any vacant employment positions, including training positions, that are filled (1) after the

DEVELOPER, its contractors and subcontractors are selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR Part 135 require employment opportunities to be directed, were not filled to circumvent the DEVELOPER or contractor's obligations under 24 CFR part 135.

6. Noncompliance with HUD's regulations in 24 CFR Part 135 may result in sanctions, termination of this Agreement for default, and debarment or suspension from future HUD assisted contracts.

Section XV – Compliance with Federal, State & Local Laws

1. The DEVELOPER covenants and warrants that it will comply with all applicable laws, ordinances, codes, rules and regulations of the state, local, and Federal governments, and all amendments thereto, including, but not limited to; Title 8 of the Civil Rights Act of 1968 PL.90-284; Executive Order 11063 on Equal Opportunity and Housing, Section 3 of the Housing and Urban Development Act of 968; Housing and Community Development Act of 1974, as well as all requirements set forth in 24 CFR 92 of the HOME INVESTMENT PARTNERSHIP PROGRAM. The DEVELOPER covenants and warrants that it will indemnify and hold the City forever free and harmless with respect to any and all damages whether directly or indirectly arising out of the provisions and maintenance of this contract.

2. The DEVELOPER agrees to comply with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), Section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection CITY regulations (40 CFR Part 15).

3. The DEVELOPER further warrants and agrees to include or cause to be included the criteria and requirements of this section in every non-exempt subcontract in excess of $100,000. The DEVELOPER also agrees to take such action as the Federal, state or local government may direct to enforce aforesaid provisions.

4. Minority/Women's Businesses, Executive Orders 11625, 12432, and 12138 Under Executive Orders 11625, 12432, and 12138, the CITY must prescribe procedures acceptable to HUD for minority outreach programs to ensure that they are making concerted efforts to attract minority groups to the procurement process. The Developer agrees to assist the City to the greatest extent possible to meet the goals and objectives of this section. The DEVELOPER will submit, on an annual basis, a listing of all MBE/WBE contracts awarded including dollar amount of the contract and how the business qualifies.

   The regulations require that the following minimum affirmative steps are taken to ensure MBE/WBE is afforded every opportunity to participate in generated contracts.

   a) Placing minorities and women on solicitation lists;
   b) Assuring that MBE and WBE firms are solicited whenever they are potential sources;

c) Dividing the total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business enterprises, and women business enterprises;
d) Where the requirement permits, establishing delivery schedules that encourage participation by small and minority business enterprises, and women business enterprises;
e) Using the services and assistance of the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
f) Requiring the prime contractor, if subcontractors are to be let, to take all the same.

5. Drug-Free Workplace: The Drug-Free Workplace Act of 1988 (41 U.S.C. 701, *et seq.)* and HUD's implementing regulations at 24 CFR Part 21.

   DEVELOPERS are required to provide a drug-free workplace by taking the following steps. DEVELOPER and third-party contractor/consultants failing to meet these requirements will be subject to penalties:

   a) Publish and give a policy statement to all covered employees informing them that the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in the covered workplace and specifying the actions that will be taken against employees who violate the policy.
   b) Establish a drug-free awareness program to make employees aware of: a) the dangers of drug abuse in the workplace; b) the policy of maintaining a drug-free workplace; c) any available drug counseling, rehabilitation, and employee assistance programs; and d) the penalties that may be imposed upon employees for drug abuse violations.
   c) Notify employees that as a condition of employment on a Federal contract or grant, the employee must: a) abide by the terms of the policy statement; and b) notify the employer, within five (5) calendar days, if he or she is convicted of a criminal drug violation in the workplace.
   d) Notify the contracting or granting agency within ten (10) days after receiving notice that a covered employee has been convicted of a criminal drug violation in the workplace.
   e) Impose a penalty on or require satisfactory participation in a drug abuse assistance or rehabilitation program by any employee who is convicted of a reportable workplace drug conviction.
   f) Make an ongoing, good faith effort to maintain a drug-free workplace by meeting the requirements of the Act.

Section XVI – Enforcement, Suspension and Termination

In accordance with 24 CFR 85.43, suspension or termination may occur if the DEVELOPER materially fails to comply with any term of the award.

If, through any cause, the DEVELOPER shall fail to fulfill in timely and proper manner its obligations under this contract, or if the DEVELOPER shall violate any of the covenants, agreements, or stipulations of this contract, the CITY shall thereupon have the right to terminate

this contract by giving written notice to the DEVELOPER of such termination and specifying the effective date thereof, at least five (5) days before the effective date of such termination. In such event, the DEVELOPER shall be entitled to receive just and equitable compensation for any work satisfactorily completed hereunder to the date of said termination.

Notwithstanding the above, the DEVELOPER shall not be relieved of liability to the CITY for damages sustained by the CITY by virtue of any breach of the contract by the DEVELOPER and the CITY may withhold any payments to the DEVELOPER until such time as the exact amount of damages due the CITY from the DEVELOPER is determined whether by court of competent jurisdiction or otherwise.

24 CFR 92.504(c)(13) contains provisions for the enforcement of this Agreement. In accordance with 24 CFR 85.43, this Agreement may be suspended or terminated prior to the expiration of the term by unanimous written Agreement by the parties to this Agreement. The CITY may also unilaterally terminate or suspend this Agreement, in whole or in part, upon ten (10) day written notice from the CITY to the DEVELOPER including, but not limited to the following reasons:

1. Failure to perform the services set forth in the scope of services and requirements incident thereto.
2. Failure to comply with the provisions of this Agreement.
3. Making unauthorized or improper use of funds provided under this Agreement.
4. Submission of an application, report or other documents pertaining to this Agreement which contains misrepresentation of any material aspect.
5. The carrying out of the Scope of Services or the objectives of this Agreement is rendered improvable, unfeasible, impossible, or illegal.
6. Failure of the U.S. Department of Housing and Urban Development (HUD) to make funds available or if HUD suspends funds for any reason.
7. Upon the determination of the CITY that the Agreement be suspended or terminated, without cause.
8. Termination or suspension shall not affect otherwise valid and allowable obligations incurred in good faith prior to receipt of a notice of termination or suspension.

Section XVII – Termination for Convenience of the CITY

In accordance with 24 CFR 85.44 the CITY may terminate for its convenience this Agreement at any time by giving at least thirty (30) day's notice in writing to the DEVELOPER. If the contract is terminated by the CITY, as provided herein, the City will reimburse for any actual and approved expenses incurred, including those costs involved in terminating the contracts and shutting down the work as of the date of notice, and the DEVELOPER will be paid as a FEE an amount which bears the same ratio to the total compensation as the services actually performed to the total service of the DEVELOPER covered by this Agreement, less payments of compensation previously made. Claims and disputes between the parties will be submitted to the American Arbitration Association for resolution. Award or judgment may be entered in any court having jurisdiction thereof.

Section XVIII – Default-Loss of Grant Funds

If the DEVELOPER fails in any manner to fully perform and carry out any of the terms, covenants, and conditions of the Agreement, and more particularly if the DEVELOPER refuses or fails to proceed with the work with such diligence as will insure its completion within the time fixed by the schedule set forth in this Agreement, the DEVELOPER shall be in default and notice in writing shall be given to the DEVELOPER of such default by the CITY or an agent of the CITY. If the DEVELOPER fails to cure such default within such time as may be required by such notice, the CITY, may at its option terminate and cancel the contract.

In the event of such termination, all grant funds awarded to the DEVELOPER pursuant to this agreement shall be immediately revoked and any approvals related to the PROJECT shall immediately be deemed revoked and canceled. In such event, the DEVELOPER will no longer be entitled to receive any compensation for work undertaken after the date of the termination of this Agreement, as the grant funds will no longer be available for this project.

Such termination shall not effect or terminate any of the rights of the CITY as against the DEVELOPER then existing, or which may thereafter accrue because of such default, and the foregoing provision shall be in addition to all other rights and remedies available to the CITY under the law and the note and mortgage (if in effect), including but not limited to compelling the DEVELOPER to complete the project in accordance with the terms of this Agreement, in a court of equity. The waiver of a breach of any term, covenant or condition hereof shall not operate as a waiver of any subsequent breach of the same or any other term, covenant, or condition hereof.

Section XIX – Reporting Responsibilities

The DEVELOPER agrees to submit monthly reports to the CITY on the progress of the project. Reports are due the 15th of each month and will cover activities for the prior month. The CITY retains the right to request additional documentation to comply with HUD's reporting requirements. If the DEVELOPER fails to submit the monthly progress reports by the due date, no payments will be made to the DEVELOPER under this Agreement until all outstanding reports have been submitted.

The CITY will send the DEVELOPER one (1) reminder notice if the report has not been received fourteen (14) days after the due date. If the DEVELOPER has not submitted a report fourteen (14) days after the date on the reminder notice, the CITY will have the option to terminate the contract as described in this agreement. In addition, the DEVELOPER agrees to provide the CITY information as required to determine program eligibility, and financial records pertinent to the project.

At project completion, the DEVELOPER will provide a Project Progress Report signifying completion, with all data and supporting documentation for project closeout as may be required by the CITY.

Section XX – Inspection, Monitoring & Access to Records

1. All records will be maintained by the DEVELOPER for five (5) years after the affordability of the homebuyer ends.

2. The CITY reserves the right to inspect, monitor, and observe work and services performed by the DEVELOPER at any and all reasonable times.

3. The CITY reserves the right to audit the records of the DEVELOPER any time during the performance of this Agreement and for a period of five (5) years after final payment is made under this Agreement.

4. The DEVELOPER will provide the CITY with a certified audit of the Developer's records representing the Fiscal Year during which the PROJECT becomes complete pursuant to the requirements of OMB Circular A-133.

5. Access shall be immediately granted to the CITY, HUD, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, project site access, and records of the DEVELOPER or its contractors which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

6. The DEVELOPER shall maintain all records required by the Federal regulations specified in 92.508 that are pertinent to the activities to be funded under this Agreement. Such records include but are not limited to:

    a) A full description of each project assisted with HOME funds, including the location, form of HOME assistance, and tenants assisted with HOME funds.

    b) The source and application of funds for each project, including supporting documentation in accordance with 24 CFR 85.20.

    c) Records demonstrating that each rental housing project meets the minimum per-unit subsidy amount of § 92.205(c), the maximum per-unit subsidy amount of § 92.250(a) and the subsidy layering guidelines adopted in accordance with § 92.250(b).

    d) Records demonstrating that each project meets the property standards of § 92.251 and the lead-based paint requirements of § 92.355.

    e) Records demonstrating that each family is income eligible in accordance with § 92.203.

    f) Records demonstrating that each rental housing project meets the affordability and income targeting requirements of § 92.252 for the required period. Records must be kept for each family assisted.

    g) Records demonstrating that each multifamily rental housing project involving rehabilitation with refinancing complies with the refinancing guidelines established in accordance with § 92.206(b).

h) Records demonstrating that any pre-award costs charged to the HOME allocation meet the requirements of § 92.212.

i) Records demonstrating that a site and neighborhood standards review was conducted for each project which includes new construction of rental housing assisted under this part to determine that the site meets the requirements of 24 CFR 983.6(b), in accordance with § 92.202.

Section XXI – General Conditions

1. All notices or other communication which shall or may be given pursuant to this Agreement shall be in writing and shall be delivered by personal service, or by registered mail addressed to the other party at the address indicated herein or as the same may be changed from time to time. Such notice shall be deemed given on the day on which personally served; or, if by mail, on the fifth day after being posted or the date of actual receipt, whichever is earlier. Notices shall be mailed to the following address:

CITY address: **City of Hattiesburg, Department of Urban Development, P.O. Box 1898, Hattiesburg, MS 39403-1898**

DEVELOPER address: **Community Connections, Attn: Demetria Farve, P.O. Box 18612, Hattiesburg, MS 39404**

2. Title and paragraph headings are for convenient reference and are not a part of this Agreement.

3. In the event of conflict between the terms of this Agreement and any terms or conditions contained in any attached documents, the terms in this Agreement shall rule.

4. No waiver or breach of any provision of this Agreement shall constitute a waiver of a subsequent breach of the same or any other provision hereof, and no waiver shall be effective unless made in writing.

5. The parties hereto agree that this Agreement shall be construed and enforced according to the laws of the State of Mississippi.

6. Should any provisions, paragraphs, sentences, words or phrases contained in this Agreement be determined by a court of competent jurisdiction to be invalid, illegal or otherwise unenforceable under the laws of the State of Mississippi or the City of Hattiesburg, such provisions, paragraphs, sentences, words or phrases shall be deemed modified to the extent necessary in order to conform with such laws, or if not modifiable to conform with such laws, then same shall be deemed severable, and in either event, the remaining terms and provisions of this Agreement shall remain unmodified and in full force and effect.

7. The DEVELOPER shall comply with the provisions of the Copeland Anti-Kick-Back Act (18 U.S.C. 874) as supplemented in the AGENCY of Labor Regulations (29 CFR Part 3), as amended.

8. The DEVELOPER shall comply with the provisions of sections 103 and 107 of the Contract Work Hours and Safety Standard Act (40 U.S.C. 327-330) as supplemented by AGENCY of Labor regulations (29 CFR, Part 5), as amended.

9. The DEVELOPER further warrants and agrees to include or cause to be included the criteria and requirements of this section in every nonexempt subcontract. The DEVELOPER also agrees to take such action as the Federal, state or local government may direct to enforce aforesaid provisions.

10. The obligations undertaken by the DEVELOPER pursuant to this Agreement shall not be delegated or assigned to any other person or agency unless the CITY shall first consent to the performance or assignment of such service or any part thereof by another person or agency.

11. The Agreement shall be binding upon the parties hereto, their heirs, executors, legal representative, successors and assigns.

12. DEVELOPER and its employees and agents shall be deemed to be independent contractors, and not agents or employees of the CITY, and shall not attain any rights or benefits under the civil service or pension ordinances of the CITY, or any rights generally afforded classified or unclassified employee; further they shall not be deemed entitled to state Compensation benefits as an employee of the CITY.

13. Funding for this Agreement is contingent on the availability of funds and continued authorization for program activities and is subject to amendment or termination due to lack of funds, or authorization, reduction of funds, and/or change in regulations.

Section XXII – Insurance

1. The DEVELOPER during the construction period shall keep the property acquired under this Agreement insured against loss by fire, extended flood coverage, vandalism and malicious mischief, hazards, and such may require and in such amounts as CITY may require. The insurance requirements shall remain in effect until the property is sold to an income eligible buyer. The CITY shall be named as an additional insured.

2. A Commercial General Liability Insurance Policy shall be provided which shall contain minimum limits of one million dollars ($1,000,000.00) per occurrence combined single limit for bodily injury liability and property damage liability. Coverage must be afforded on a form no more restrictive than the latest edition of the Commercial General Liability Policy, without restrictive endorsements, as filed by the Insurance Services Office and shall include Premises and/or operations, independent contractors, Broad Form Contractual

Coverage applicable to this specific Contract, including any hold harmless and/or indemnification agreement.

3. Personal Injury Coverage with Employee and Contractual Exclusions removed, with minimum limits of coverage equal to those required for Bodily Injury Liability and Property Damage Liability. The DEVELOPER shall carry Workers' Compensation insurance for all employees in compliance with the "Workers' Compensation Law" of the State of Mississippi and all applicable federal laws.

4. The DEVELOPER shall require its General Contractor to provide Builder's Risk Insurance in the amount of one hundred percent (100%) of replacement value of the completed structure until Project completion. Such Builder's Risk policy shall be an all risk form with a deductible not to exceed ten thousand ~~d~~ollars ($10,000.00) each claim and shall contain a loss payable clause to include the CITY. The DEVELOPER shall furnish to the CITY Certificates of Insurance or endorsements evidencing the insurance coverage specified by this Article prior to beginning performance of work under this Agreement. Coverage shall not cease and is to remain in force until all performance required work is completed.

5. The DEVELOPER shall furnish copies of all licenses and certifications of Public Liability Insurance for all HOME projects upon request by the CITY.

XXIII - Indemnification

1. The DEVELOPER shall at all times hereafter indemnify, hold harmless and defend the CITY, its officers, agents, servants, and employees against any and all claims, losses, liabilities, and expenditures of any kind, including attorney fees, court costs, and expenses, caused by any intentional, reckless, or negligent act or omission of the DEVELOPER, its employees, agents, servants, or officers, or accruing, resulting from, or related to the subject matter of this Agreement including, without limitation, any and all claims, demands, or causes of action of any nature whatsoever resulting from injuries or damages sustained by any person or property. The provisions of this section shall survive the expiration or earlier termination of this Agreement. To the extent considered necessary by the CITY, any sums due to the DEVELOPER under this Agreement may be retained by the CITY until all of the CITY's claims for indemnification pursuant to this Agreement have been settled or otherwise resolved; and any amount withheld shall not be subject to payment of interest by the CITY.

2. In the event that the DEVELOPER contracts with a third party ("Contractor") to provide the construction related services set forth herein, any contract with such third party shall include the following provisions:

    a. Indemnification: To the fullest extent permitted by law, Contractor shall indemnify and hold harmless CITY, its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of

Contractor and persons employed or utilized by Contractor in the performance of this Contract. These indemnifications shall survive the term of this Contract.

3. The DEVELOPER shall comply with the anti-lobbying legislation set forth in 24 CFR 91.225 in the CITY's Consolidated Plan submitted to HUD for the HOME Program; both incorporated herein by reference.

4. The DEVELOPER shall indemnify and hold the CITY harmless from and against any negligent claims, liabilities, losses and causes of action which may arise out of DEVELOPER's activities under this Agreement, including all other acts or omissions to act on the part of DEVELOPER, including any person acting for or on its behalf, and, from and against any orders, judgments, or decrees which may be entered, and from and against all costs, attorney's fees, expenses and liabilities incurred in the defense of any such claims, or in the investigation thereof.

AMENDMENT TO AGREEMENT

HOMEOWNERSHIP AGREEMENT BETWEEN THE CITY OF HATTIESBURG AND COMMUNITY CONNECTIONS

THIS AGREEMENT, entered into this 4th day of May, 2010, by and between the City of Hattiesburg (hereinafter referred to as the "CITY"), and **Community Connections, Inc.**, a nonprofit corporation (hereinafter referred to as the "DEVELOPER") whose principal office is located at **215 Mobile Street, Hattiesburg, MS.**

WHEREAS, on the 4th day of December, 2018, the CITY and the DEVELOPER wish to change the scope of the May 4, 2010 agreement as well as all subsequent amendments prior to the 4th day of December, 2018 to allow the DEVELOPER to operate the developed property as a HOME-funded homebuyer development project;

WHEREAS, the CITY is a recipient of HOME Investment Partnerships grant funds from the United States Department of Housing and Urban Development (HUD) pursuant to 24 CFR 92; and

WHEREAS, the CITY wishes to engage the DEVELOPER to assist the City in utilizing such funds;

WHEREAS, the DEVELOPER has been selected to utilize HOME funds to develop and sell **One (1)** single-family home(s) to income eligible household(s) as outlined in this agreement;

NOW, THEREFORE in consideration of the mutual covenants and obligations herein contained, including the Exhibits, and subject to the terms and conditions hereinafter stated, the parties hereto understand and agree as follows:

Section I – Definitions

a. **CITY** – is hereby defined as the Department of Federal and State Programs the agency administering the HOME Program for the CITY of Hattiesburg. For the purpose of this Agreement and all administration of HOME funds, the CITY shall execute fiscal and programmatic control of this agreement. The term "Approval by the CITY" or like term used in this Agreement shall in no way relieve the DEVELOPER from any duties or responsibilities under the terms of this Agreement, or obligation under State or local law or regulation.

b. **CHDO** – Community Housing Development Organization as defined in 92.2 of the HOME rule.

c. **DIRECTOR** – is hereby defined as the Director of the Department of Urban Development of the CITY of Hattiesburg.

d. **DEVELOPER FEE** – is hereby defined as the amount of money the CITY agrees to pay and the DEVELOPER agrees to accept as payment in full for the professional, technical and construction services rendered pursuant to this Agreement.

e. **WORK** – is hereby defined as all the professional, technical and construction services to be rendered or provided by the DEVELOPER as described herein.

f. **HOME** – is hereby defined as the HOME Investment Partnerships Program as described in 24 CFR Part 92, under the authority of 42 U.S.C. 3535 (d) and 12701 - 12839.

g. **IDIS** – Integrated Disbursement and Information System.

h. **PROJECT COMPLETION** – the project has received a certificate of occupancy or other local certification indicating that construction or rehabilitation has been completed, the CITY has signed off on all work and the work has been performed to the satisfaction of the CITY, the CITY has received all required documents from the DEVELOPER and the project is fully occupied by income eligible households. All documents that enforce the affordability period must be recorded.

Section II – Term of Agreement

The term of this Agreement shall commence on **May 4, 2010, having thereafter been amended for changes in scope and herein further amended** and shall end on or before the Project Completion deadline of **January 31, 2019**;

The CITY shall provide HOME funds in an amount not to exceed **$59, 318.80 ($50,000 in CHDO Reserve Funding and $9,318.80 in CHDO Operating Funding)**, in accordance with the attached budget hereby attached as Exhibit **(n/a as funds were expended according to a budget under a previously executed agreement related to this project site). It is acknowledged by the CITY and the DEVELOPER, however, that these funds were disbursed under the terms of a previously existing agreement which is herein amended, and that this agreement is hereby established solely as an administrative tool prescribed to see through the completion of the project and the fulfillment of the affordability period. No additional HOME funds will be expended in completing this project.**

Interim Milestones/Deadlines (list below):

Milestones	***Deadline***
All related development having been complete prior to this amendment, the only remaining benchmark is the sale of the home to an eligible buyer, expected as follows:	
Home sold by Community Connections and reported to City by January 31, 2019.	

1. This project is subject to ongoing affordability requirements of the HOME program for 15 years from the date of project completion. During this compliance period, DEVELOPER

will assure continued compliance with HOME requirements for HOME-assisted homebuyer project. This includes monitoring units for principal residency and recapture of funds if the property is sold and is no longer the primary residence of the homebuyer.

2. Timely completion of the work specified in this agreement is an integral and essential part of performance.

3. The expenditure of HOME funds is subject to Federal deadlines and could result in the loss of the Federal funds. By the acceptance and execution of this Agreement, it is understood and agreed by the DEVELOPER that the PROJECT will be completed as expeditiously as possible and that the DEVELOPER will make every effort to ensure that the project will not be delayed.

4. Failure to meet these deadlines can result in cancellation of this Agreement and the revocation of HOME funds.

5. Since it is mutually agreed that time is of the essence in regard to this Agreement, the DEVELOPER shall cause appropriate provisions to be inserted in all contracts or subcontracts relative to the work tasks required by this Agreement, in order to ensure that the PROJECT will be completed according to the timetable set forth. It is intended that such provisions inserted in any subcontracts be, to the fullest extent permitted by law and equity, binding for the benefit of the CITY and enforceable by the CITY against the DEVELOPER and its successors and assigns to the project or any part thereof or any interest therein.

6. In the event the DEVELOPER is unable to meet the above schedule or complete the above services because of delays resulting from Acts of God, untimely review and approval by the CITY and other governmental authorities having jurisdiction over the PROJECT, or other delays that are not caused by the DEVELOPER; the CITY shall grant a reasonable extension of time for completion of the WORK. It shall be the responsibility of the DEVELOPER to notify the CITY promptly in writing whenever a delay is anticipated or experienced, and to inform the CITY of all facts and details related to the delay.

Section III – Scope of Work

A detailed scope of work is attached as exhibit **(n/a – as development-related scope of work was fulfilled prior to the establishment of this amendment, the remaining scope of work is to sell the unit to a HOME qualified homebuyer and to see to the fulfillment of the affordability period.).** The DEVELOPER, in close coordination with the CITY, shall perform all professional services (the "WORK") necessary to complete the development and occupancy of the following project in full compliance with the terms of this Agreement:

Project Description:
The project at 620 Barkley Road, having been constructed under the terms of the agreement prior to this amendment is to be converted into a homebuyer project for an income-eligible

household. The project will remain as an affordable unit for the duration of the affordability period. HOME funds having been used prior to this amendment, no additional HOME funds will be expended in the completion of this activity.

Project Addresses:
620 Barkley Road, Hattiesburg, MS 39401

Legal Description:
See Forrest County parcel PPIN # 42483

Section IV – Reimbursement of Expenses

1. ***No additional HOME funds will be expended or reimbursed as part of this agreement – as specified previously in Sections II and III. Under the agreement, prior to this amendment, $59,318.80 in HOME funds is already expended.**

2. The CITY reserves the right to inspect records and Project sites to determine that reimbursement and compensation requests are reasonable. The CITY also reserves the right to hold payment until adequate documentation has been provided and reviewed.

3. The CITY shall have the right to review and audit all records of the DEVELOPER pertaining to any payment by the CITY. Said records shall be maintained for a period of five years after the affordability period ends.

Section V – Project Requirements

The DEVELOPER agrees to comply with all requirements of the HOME Program as stated in 24 CFR Part 92. In addition, the DEVELOPER must comply with the following requirements specific to this project, including but not limited to, the following:

1. No HOME project funds will be advanced, and no costs can be incurred, until the CITY has conducted an environmental review of the proposed project site as required under 24 CFR Part 58. The environmental review may result in a decision to proceed with, modify or cancel the project. **(n/a – no additional funds are being expended. The environmental review was conducted appropriately at an earlier stage.).**

2. Notwithstanding any provision of this Agreement, the parties hereto agree and acknowledge that this Agreement does not constitute a commitment of funds or site approval, and that such commitment of funds or approval may occur only upon satisfactory completion of an environmental review and receipt by the CITY of a release of funds from HUD under 24 CFR Part 58.

3. Further, the DEVELOPER will not undertake or commit any funds to physical or choice-limiting actions, including property acquisition, demolition, rehabilitation, conversion, repair or construction prior to the environmental clearance, and must indicate that the violation of this provision may result in the denial of any funds under the Agreement.

4. HOME funds advanced to the project will be secured by a note and mortgage, and a land covenant as required by 24 CFR Part 92.

5. The DEVELOPER will ensure that any expenditure of HOME funds will be in compliance with the requirements at 92.206, and acknowledges that HOME funds will only be provided as reimbursement for eligible costs incurred, including actual expenditures or invoices for work completed.

6. The DEVELOPER will not acquire property that is occupied. All properties acquired under this program must be vacant or occupied by the seller. All acquisitions under this program are voluntary acquisitions. If the project is occupied at the time of this commitment, the DEVELOPER, using non-HOME funds, will comply with the relocation requirements of 24 CFR 92.353. The DEVELOPER will provide the seller with a voluntary acquisition notice if the property is being purchased with HOME funds.

7. The DEVELOPER shall assure compliance with 24 CFR 92.251 as relates to Property Standards and local codes, Accessibility Standards under 24 CFR 92.251(a)(3), Model Energy Code standards, as applicable, and Lead Based Paint Requirements as found in 24 CFR 92.355 and 24 CFR Part 35.

8. The DEVELOPER will be monitored by the CITY for compliance with the regulations of 24 CFR 92 for the compliance period specified above. The DEVELOPER will provide reports and access to project files and the project site as requested by the CITY during the project term and for five (5) years after the affordability period ends.

9. The DEVELOPER shall ensure that any contractor, subcontractor or participant awarded work under this contract has not been debarred, suspended or determined ineligible to perform work funded by HUD. To determine if a contractor, subcontractor or participant has been debarred, suspended or determined ineligible go to: https://www.epls.gov/.

10. The DEVELOPER (as a CHDO) may retain proceeds as defined in 24 CFR 92.2 from the grant funds provided under this Agreement. The proceeds are to be used for eligible affordable housing activities to benefit low-income families.

11. The DEVELOPER agrees that any news release, article, public service announcement or advertisement or any other type of publicity pertaining to this Project (program literature, brochures, project sign and letterhead) must recognize the City of Hattiesburg and the U.S. Department of Housing and Urban Development HOME Investment Partnerships Program as providing funds for this Project.

12. Subsidy layering. Before committing funds to a Project, the CITY or the DEVELOPER must evaluate the project and will not invest any more HOME funds, in combination with other governmental assistance, than is necessary to provide affordable housing. The cost of this review will be borne by the CITY or the DEVELOPER and this expense may be

eligible for reimbursement by HOME funds provided under this Agreement. The DEVELOPER is responsible to ensure that the costs are reasonable.

13. The Developer will include green features, universal design features in its projects to greatest extent feasible and will ensure that all appliances are energy star rated appliances.

14. The CITY will take a 2nd or higher position on its mortgage if required by other funding sources to ensure the feasibility and development of the Project.

15. All claims, disputes and other matters in question arising out of, or relating to, the construction Agreement or the breech thereof, and except for the claims which have been waived by the making or acceptance of the final payment shall be decided by arbitration in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association, unless the parties mutually agree otherwise. This agreement to arbitrate shall be specifically enforceable under the prevailing arbitration law.

16. The maximum per unit subsidy that may be invested on a per-unit basis in affordable housing may not exceed the per-unit dollar limitations established under section 221(d)(3)(ii) of the National Housing Act (12 U.S.C. 17151(d)(3)(ii)) for elevator-type projects that apply to the area in which the housing is located.

17. Affordability period.

Homeownership assistance HOME amount per-unit	Minimum period of affordability in years
Under $15,000	5
$15,000 to $40,000	10
Over $40,000	15

The funds provided to eligible households to make the unit affordable under this program are subject to affordability requirements in accordance with 92.254. During the affordability period the homebuyer must maintain the home as his/her principal place of residence at all times. The assistance is forgiven 20%, 10% or 7% a year over the affordability period. At the end of the affordability period the mortgage lien is released in full if the owner has complied with all of the terms of the program.

18. The DEVELOPER will also comply with the CITY of Hattiesburg's minority outreach WBE/MBE program to ensure the inclusion, to the maximum extent possible, of minorities and women, and entities owned by minorities and women, including, without limitation, real estate firms, construction firms, appraisal firms, management firms, financial institutions, investment banking firms, underwriters, accountants, and providers of legal services, in all contracts entered into with such persons or entities, public and private, in order to facilitate the activities of the CITY to provide affordable housing.

19. The CITY has the right to reject participation in the project from any contractor that has done previous business with the CITY and has failed to comply with the requirements of the program or who has been involved in litigation with the CITY.

20. All housing assisted with HOME funds is subject to the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4821-4846), the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4851-4856), and implementing regulations at Part 35, Subparts A, B, J, K, M and R of this title outlined in 92.355.

21. The DEVELOPER must have developed a waiting list of buyers that are determined eligible by the CHDO under the HOME program requirements. There shall be no less than one (1) eligible buyer for each unit to be sold.

22. The DEVELOPER will ensure that occupancy complies with the requirements of 92.254(a)(6). The DEVELOPER will ensure that the project is eligible under 92.214, and that it will meet the applicable standards of 24 CFR 92.252-253 at occupancy and for the minimum compliance period. The project must meet the State of Mississippi building Construction Codes and the City of Hattiesburg local building codes.

23. The designated HOME-assisted project will meet the affordability requirements as found in 24 CFR 92.252. The DEVELOPER shall collect and maintain project beneficiary information pertaining to household size, income levels, racial characteristics, and the presence of Female Households in order to determine low and moderate-income benefit in a cumulative and individual manner. Income documentation shall be in a form consistent with HOME requirements as stated in the HUD ***"Technical Guide for Determining Income and Allowances Under the HOME Program"*** in accordance with the requirements under 24 CFR Part 5 found at: http://www.hud.gov/offices/cpd/affordablehousing/library/modelguides/2005/1780.cfm.

24. The homebuyer will maintain adequate hazard and flood insurance coverage, if applicable, on the property acquired, during the affordability period and will name the City of Hattiesburg as an additional insured.

25. The DEVELOPER will ensure that all HOME assisted units meet the following requirements:
    a) The housing must be single-family housing or condominiums. No manufactured housing is allowed to be purchased under this program.

    b) The housing must be modest housing as follows:

        1. In the case of acquisition of newly constructed housing or standard housing, the housing has a purchase price for the type of single-family housing that does not exceed $148,000; based on HOME Affordable Homeownership limits for the area. The most current HUD limits can be found at:

http://www.hud.gov/offices/cpd/affordablehousing/programs/home/limits/maxprice.cfm

26. Type of Ownership: The property must be acquired in fee simple title by both the DEVELOPER and, subsequently, the HOMEBUYER.

27. The housing must meet the accessibility requirements at 24 CFR part 8, which implements Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and covered multifamily dwellings, as defined at 24 CFR 100.205, which implement the Fair Housing Act (42 U.S.C. 3601-3619).

28. Should the HOMEBUYER sells his or her property, during the affordability period, HUD resale provisions shall apply as outlined in 92.254 (a)(5)(i): 1) The property is sold to another low-income homebuyer shall use the property as his or her principal residence; 2) The original homebuyer shall receive a fair return on investment, (i.e., the homebuyer's downpayment plus capital improvements made to the house); and 3) The property is sold at a price that is "affordable to a reasonable range of low-income buyers.

    In the event that a HOMEBUYER, rents the home, or fails to keep the home as their primary residence, or foreclosed by any mortgage holder during the affordability period the CITY will be forced to foreclose on the entire loan amount less any amount forgiven based on a prorate portion of the affordability period fulfilled.

    The housing must be acquired by a HOMEBUYER whose household qualifies as a low-income household and the housing must be the principal residence of the household throughout the affordability period. Low income is defined as households whose income does not exceed 80% of the area median income as defined by HUD and adjusted for household size. The household will be determined income eligible in accordance with IRS 1040 adjusted gross income as outlined in 92.203 (b) (3). The DEVELOPER is responsible for qualifying the household as income eligible for assistance. Income documentation shall be in a form consistent with HOME requirements as stated in the HUD "Technical Guide for Determining Income and Allowances under the HOME Program found at: http://www.hud.gov/offices/cpd/affordablehousing/library/modelguides/2005/1780.cfm.

    Consequently, if the proceeds exceed the loan amount as set forth herein, the HOMEBUYER will be entitled to retain any remaining proceeds of the sale. If there are no net proceeds, then no repayment will be required. The net proceeds due for HOME Repayment must be returned to the CITY immediately upon receipt.

29. Once initial eligibility of the HOMEBUYER is determined, the DEVELOPER is required to:

    a) Submit the income verification information to the CITY for review. The CITY will notify the DEVELOPER that it concurs with the applicant's eligibility for the program and the CITY will provide written approval for the DEVELOPER to issue an award letter to the applicant.

Income verifications under the HOME program must be dated no earlier than six (6) months prior to receipt of assistance. After six months, applicant verifications must be redone and household income must be recalculated to determine that the household still meets the income requirements.

b) Collect and maintain project beneficiary information pertaining to household size, income levels, racial characteristics, and the presence of Female Headed Households in order to determine low and moderate-income benefit in a cumulative and individual manner.

30. The CITY retains the right to withhold payment if the DEVELOPER fails to carry out the activities authorized under this Agreement in accordance with the timeline and schedule provided. Time is of the essence under this Agreement and the HOME program sets specific deadlines for reporting of expenditure of funds. The DEVELOPER must comply with the timeframes stipulated under this Agreement and in the event that the project cannot be completed on schedule, the DEVELOPER must immediately notify the CITY. Refer to Section II (6) for factors beyond the DEVELOPER'S control. Specific penalties for non-performance are outlined in Section VI (8) of this Agreement.

31. In the selection of occupants for Project units, the DEVELOPER shall comply with all nondiscrimination requirements of 24 CFR 92.350.

32. The DEVELOPER will comply with the City of Hattiesburg's Affirmative Fair Housing Policy in marketing the homes for sale.

a. The DEVELOPER will use the Fair Housing and Equal Opportunity Logo in all of its advertising for properties built with HOME funds.

b. The DEVELOPER will post a Fair Housing poster in its office in a location that is visible to the public being served under the HOME program. For a Spacing copy of the poster go to: http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_7802.pdf

c. All advertising, applications and marketing tools prepared by the DEVELOPER for the sale of HOME assisted units shall include the following language "We comply with the Fair Housing Law. Our office does not discriminate on the basis of race, color, national origin, religion, sex, familial status or disability".

d. The DEVELOPER will provide all program participants with a copy of the "Fair Housing Equal Opportunity for All" brochure. A copy of the brochure can be found at: http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_12146.pdf

33. The CITY shall record a mortgage and note on the property when sold for the affordability period in compliance with 24 CFR 92.254 and that the CITY will monitor each unit for principal residency on an annual basis.

34. Each year, the DEVELOPER will mail a form letter to the HOMEBUYER requesting that they confirm their continued occupancy of the property for the term of the affordability period. The form shall be retained in a file by the DEVELOPER as documentation that the unit remains occupied by the original HOMEBUYER. These files shall be available to the CITY upon request.

Section VI - Funding and Method of Payment

1. The DEVELOPER may be obtaining funding for the project from various sources. The maximum amount payable by CITY under this Agreement shall be **Zero and 00/100 ($0.00) – having invested $59,318.80 under the agreement prior to this amendment.** The City's payment shall always be a proportionate share of all funds invested in the project. The HOME Funds provided by CITY to the DEVELOPER shall be in the form of a deferred payment forgivable loan, 0% interest, forgiven pro rata over the course of the affordability period. At Loan closing, the DEVELOPER shall execute and CITY shall record, at the DEVELOPER's expense, in the Public Records of Forrest County, Mississippi, a Deed of Trust to ensure that the HOME assisted units are sold to income eligible buyers. This mortgage, note and restrictive covenant will be released as units are sold to income eligible buyers, which will be required to accept a similar Deed of Trust for an appropriate affordability period.

2. Project expenses (excluding DEVELOPER Fees) shall be paid on a reimbursement basis based on vouchers for actual expenses incurred or paid by the DEVELOPER. Requests for payment must be submitted by the DEVELOPER on forms specified by the CITY **(see Chapter 5.3 of the CHDO Policies & Procedures)** with adequate and proper documentation of eligible costs incurred in compliance with 92.206 and necessary for reporting to HUD in IDIS. All such expenses shall be in conformance with the approved Project budget. Budget revision and approval by the CITY shall be required prior to payment of any expenses not conforming to the approved project budget.

3. Payment request shall not exceed one payment per month and payments must be submitted along with any progress reports required by the CITY. The CITY retains the right to withhold payment for missing and incomplete progress reports.

4. The CITY will retain 10% of each payment draw until Project completion. When the DEVELOPER submits all required documentation for final payment including; but not limited to, a project completion report, receipts, final invoices and HOMEBUYER information, releases of liens, final inspection and Certificate of Completion from the building department, the CITY will release the final 10% withheld.

5. The CITY reserves the right to inspect records and the Project site to determine that reimbursement and compensation requests are reasonable. The CITY also reserves the right to hold payment until adequate documentation has been provided and reviewed.

6. The CITY shall have the right to review and audit all records of the DEVELOPER pertaining to any payment by the CITY. Said records shall be maintained for a period of five (5) years after the affordability period ends.

7. DEVELOPER Fee

   A DEVELOPER'S Fee is compensation to the developer for the time and risk involved to develop the project. It is typically based on the size of the project, the total development cost and the risk associated with the project. The DEVELOPER's fee is expressed as a percentage of the total **HOME-investment portion of** the development cost. DEVELOPERS who perform work in a timely fashion and comply with the timelines outlined in the Agreement will receive a DEVELOPER's fee of no more than 10% of the total HOME funds awarded under the Agreement.

   The DEVELOPER fee will be paid as follows:

   (Inapplicable to this activity, CHDO Operating Funds having been included in the scope of the agreement prior to this amendment and are referenced in Section II, herein.)

8. Project Penalties

   Time is of the essence in the completion of all projects under the HOME program. DEVELOPERs who do not perform in accordance with the timeline and budget stipulated in the Agreement will be subject to penalties for lack of performance. The CITY will closely monitor performance and will enforce the following penalties when the CHDO fails to carry out its contractual obligations under the Agreement.

   a) For new construction projects that involve site acquisition:
      1. Failure by the DEVELOPER to provide a warranty deed showing ownership and title to property according to the timeline stipulated in the Agreement will result in the cancellation of the Agreement. The Agreement will be null and void and no compensation will be paid to the DEVELOPER for expenses incurred related to the acquisition of the property.

   b) For existing properties already owned by the DEVELOPER
      1. Failure by the DEVELOPER to provide an active building permit issued by the City of Hattiesburg building department within the timeline stipulated in the Agreement will result in the cancellation of the Agreement. The contract will be null and void and no compensation will be paid to the DEVELOPER for expenses incurred up to the date that the Agreement is cancelled or thereafter.

   c) Failure by the DEVELOPER to meet the 50% completion timeline outlined in the Agreement will result in a loss of 50% of the total DEVELOPER fee approved under the Agreement.

d) Failure of the DEVELOPER to complete 100% of the project within the timeline specified in the Agreement will result in:
    1. A 50% reduction of the DEVELOPER fee authorized under the terms of the Agreement **and**
    2. Suspension of the CHDO from participation under the HOME program for not less than one (1) year after the date the project is completed, or the next CHDO reservation funding cycle, whichever occurs later.

e) The CITY retains the right to require a CHDO who has failed to comply with the terms outlined in the Agreement, to transfer title and ownership of the property to the CITY or an agency designated by the CITY to carry out the terms and conditions of the contract in a timely manner. The CITY will consider the CITY's total investment in the property, the stage of project construction, the feasibility that the project will be completed by the HOME program deadlines by the current developer, the date the project will be completed by the new developer and the timing for meeting a national objective up to and including occupancy of the unit. The decision to transfer the title of the property will be based on the decision that is in the best interest of the HOME program, the City of Hattiesburg and its residents. The final decision to transfer title of the property will require approval by the City of Hattiesburg City Council.

f) Developers that experience delays caused by reasons beyond their control in accordance with Section II (6) of this Agreement must submit the reasons for delay and supporting documentation in writing to the Program Director. Extensions will be reviewed by the Director in consultation with City staff. The DEVELOPER will be notified in writing of the department decision to approve the Project delay.

g) At the time that the CITY approves project delay, new timelines will be established for the Project in the form of an amendment to the existing contract. The DEVELOPER must comply with the new timelines. Failure by the DEVELOPER to comply with the new timeliness will trigger the penalties stated above.

9. The DEVELOPER shall have standards of financial accountability that conform to 24 CFR 84.21, "Standards for Financial Management Systems;"

10. HOME Funds shall not be reimbursed by the CITY until the funds are needed for the payment of Eligible Costs. All HOME Funds not expended within the term of this Agreement shall remain in the custody and control of the CITY. The CITY may reallocate unexpended HOME Funds to other HOME Program projects if approved for funding by the Governing Body.

11. The DEVELOPER shall pay its subcontractors and suppliers within thirty (30) days following receipt of payment from CITY for such subcontracted work or supplies, if all required and supporting documentation is provided and the work is completed in accordance with the contract documents.

12. For purposes of this section, Requests for Payment, reports and other documentation required under this Agreement, must be submitted within sixty (60) days of project completion. Reports submitted after that date may not be honored by the CITY, at the discretion of the CITY.

13. The DEVELOPER shall furnish to the CITY all reports required by HUD and such additional reports as may be necessary to comply with all applicable laws, regulations, guidelines, and conditions specified in this Agreement and further, the DEVELOPER and any contractors or subcontractors shall provide any other reports deemed necessary by the CITY.

14. The CITY, HUD or the Comptroller General of the United States or any of their duly authorized representatives shall at all times have the right and option to monitor, inspect, audit, and review the Developer's performance and operation of the HOME program to be performed under this Agreement; and in connection therewith, all of the above mentioned entities shall have the right to inspect any and all records, books, documents, or papers of the DEVELOPER, Contractor and the subcontractors of Contractor, for the purpose of making audit examination, excerpts and transcriptions.

Section VII - CHDO Proceeds

The City of Hattiesburg will allow CHDOs that utilize CHDO reservation funds to develop, rehabilitate, sell or rent housing benefiting income eligible households to retain project proceeds.

Definition of Project Proceeds:

Project proceeds are funds generated by the project and paid to the DEVELOPER from activities carried out with HOME funds. Projects proceeds include:

1. Proceeds from the disposition by sale or long-term lease of real property acquired, rehabilitated, or constructed with HOME funds or matching contributions;

2. Payments of principal and interest on loans made using HOME funds;

3. Proceeds from the sale of loans made with HOME funds;

4. Proceeds from the sale of obligations secured by loans made with HOME funds;

5. Interest earned on program income pending its disposition; and

6. Any other interest or return on the investment permitted under § 92.205(b) of HOME funds

All project proceeds received by the CHDO must be used for affordable housing activities to benefit low-income households.

The CHDO will be required to track the investment of project proceeds for housing activities to benefit low-income households. The CHDO must maintain supporting documentation related to the use of these funds for monitoring purposes.

Eligible Uses of Project Proceeds:

CHDOs allowed to retain project proceeds must use the funds for housing activities to benefit low-income families as required by 24 CFR 92.300(a)(2). Low-income households are defined as those that do not exceed 80% of the Area Median Income as established by HUD on an annual basis.

Affordable housing activities which may be funded with CHDO proceeds include, but are not limited to: emergency repairs, project operating costs and reserves, housing refinancing costs, CHDO operating expenses, and homebuyer counseling.

CHDO proceeds which are retained by a CHDO are not subject to the requirements of the HOME regulations, except for 24 CFR 92.300(a)(2). Thus, the Davis-Bacon Act, National Environmental Policies Act and Uniform Relocation Assistance and Real Property Acquisition Policies Act do not apply to the use of CHDO proceeds. However, because CHDO proceeds are derived from the expenditure of HOME funds, any activities which are funded with CHDO proceeds may not be contributed as match.

Section VIII – Repayment of Loan

1. All HOME funds are subject to repayment in the event the project does not meet the project requirements as outlined in this Agreement.

2. It is understood that upon the completion of the project, any HOME funds reserved, but not expended under this Agreement, will revert to the CITY.

3. Sale of the property to another party may occur only with the approval of the CITY. Provisions in those documents will provide for the extinguishment of the requirements only in the event of a third-party foreclosure or deed in lieu of foreclosure. The CITY will be a third party to the agreement between the DEVELOPER and the HOMEBUYER to ensure enforcement of the affordability requirements.

4. The DEVELOPER shall lend the HOME funds to the individual buyers as a subsidy in an amount sufficient to make the purchase affordable. Any HOME funds that reduce the price of the property below the fair market value of the property shall be secured by a HOME note and mortgage as required in 92.254(a)(5)(ii), using the note and mortgage prescribed or approved by the CITY and consistent with the method identified in the CITY's Consolidated Plan.

    a. Prior to each closing with each HOMEBUYER, the DEVELOPER will provide to the CITY the preliminary settlement statement, along with the reconciliation

statement and the draft note and mortgage. The reconciliation statement shall account for the pro-ration of HOME project funds to the individual unit, and identify those funds that are to be loaned to the buyer as "Buyer subsidies" secured by the HOME note, the pro-rated HOME development funds that are to be forgiven as "Development subsidies", and the amount of DEVELOPER fee or sales proceeds to be retained from settlement funds.

Section IX – CHDO Provisions

1. If the DEVELOPER is a CHDO, the requirements in this section apply to CHDO developers, sponsors and owners. It is understood that the DEVELOPER has certified that it is and will maintain CHDO status for the term of the AGREEMENT in accordance with 24 CFR 92. DEVELOPER agrees to provide information as may be requested by the CITY to document its continued compliance, including but not limited to an annual board roster and certification of continued compliance.

2. Any funds advanced as the CHDO as pre-development funds must be in compliance with 92.301, and are forgivable only under the terms in 92.301.

3. Any funds advanced to the CHDO as CHDO Operating Expenses must be expended in compliance with 24 CFR 92.208. The City of Hattiesburg can provide up to five (5) percent of its fiscal year HOME allocation for operating expenses to the CHDO. These funds may not be used to pay operating expenses incurred by a CHDO acting as a subrecipient or contractor under the HOME Program. Operating expenses means reasonable and necessary costs for the operation of the CHDO. Such costs include salaries, wages, and other employee compensation and benefits; employee education, training, and travel; rent; utilities; communication costs; taxes; insurance; equipment; materials and supplies. The requirements and limitations on the receipt of these funds by CHDOs are set forth in 92.300(e) and (f).

Section X – Procurement Standards

1. The DEVELOPER shall establish procurement procedures to ensure that materials and services are obtained in a cost-effective manner. The DEVELOPER's procurement procedures must be approved by the CITY. All costs will be reviewed by the CITY to assure reasonableness.

2. In addition, it is understood that any DEVELOPER that can be considered to be a religious or faith-based organization shall abide by all portions of 24 CFR 92.257.

Section XI – Conflict of Interest Provisions

1. The DEVELOPER warrants and covenants that it presently has no interest and shall not acquire any interest, directly or indirectly, which could conflict in any manner or degree with the performance of its services hereunder. The DEVELOPER further warrants and

covenants that in the performance of this contract, no person having such interest shall be employed.

2. No persons who exercise or have exercised any functions or responsibilities with respect to activities assisted with HOME funds or who are in a position to participate in a decision making process or gain inside information with regard to these activities, may obtain a financial interest or benefit from a HOME-assisted activity, or have an interest in any contract, subcontract or agreement with respect thereto, or the proceeds thereunder, either for themselves or those with whom they have family or business ties, during their tenure or for one (1) year thereafter.

3. The conflict of interest provisions applies to any person, employee, agent, consultant, officer, or elected official or appointed official of the CITY. If it is determined that a conflict of interest exists, the CITY will be immediately notified. The CITY will follow the process outlined in 32.356 and request an opinion from HUD to determine if a conflict of interest exists.

4. No owner, developer or sponsor of a project assisted with HOME funds (or officer, employee, agent or consultant of the owner, developer or sponsor) whether private, for profit or non-profit, including CHDOs when acting as an owner, developer or sponsor may occupy a HOME-assisted affordable housing unit in a project. This provision does not apply to an individual who receives HOME funds to acquire or rehabilitate his or her principal residence or to an employee or agent of the owner or developer of a rental housing project who occupies a housing unit as the project manager or maintenance worker.

5. The CITY may grant exceptions or forward the requests to HUD as permitted by24 CFR 92.356, 85.36 and 84.42, as they apply.

Section XII – City Responsibilities

The CITY shall furnish the DEVELOPER with the following services and information from existing CITY records and CITY files:

1. The CITY shall provide to the DEVELOPER information regarding its requirements for the Project.

2. The CITY will provide the DEVELOPER with any changes in HOME regulations or program limits that affect the project, including but not limited to, income limits, property value limits and rent limits.

3. The CITY will conduct progress inspections of work completed to protect its interests as lender and regulatory authority for the project, and will provide information to the DEVELOPER regarding any progress inspections or monitoring to assist it in ensuring compliance.

4. The CITY's review and approval of the WORK will relate only to overall compliance with the general requirements of this Agreement and HOME regulations, and all CITY regulations and ordinances.

5. The CITY shall monitor, review, and evaluate the financial procedures of the DEVELOPER through documents submitted to the CITY and on-site monitoring. The DEVELOPER shall provide to the CITY such reports, and make available to the CITY such records that will be necessary for a proper financial evaluation. With reasonable notice (generally ten (10) working days) being given to the DEVELOPER, the CITY shall schedule at least one on-site visit during the term of said Agreement and other visits that may be needed.

6. The CITY shall monitor, review, and evaluate the DEVELOPER. Fiscal reports will be reviewed and evaluated in terms of the total budget and accomplishments in relationship to expenditures. With reasonable notice (generally ten (10) working days) being given to the DEVELOPER, the Department shall schedule at least one (1) on-site visit and other visits that may be needed during the course of said Agreement. At such times and in such forms as the CITY may require, there shall be furnished to the CITY such statements, records, data, and information as may be necessary.

7. Within a reasonable period of time (generally 45 days) after the monitoring visit, the CITY shall furnish to the DEVELOPER a letter and any necessary reports summarizing the monitoring visit. Such letters and reports will include any findings or concerns and recommendations for improvement.

8. The DEVELOPER shall have 30 days from the receipt of a financial or programmatic monitoring letter to address any findings or concerns. Should the concerns not be addressed in a manner acceptable to the CITY, this Agreement shall be terminated in accordance with the provisions for termination outlined in this Agreement.

9. Nothing contained herein shall relieve the DEVELOPER of any responsibility as provided under this Agreement.

Section XIII – Equal Employment Opportunity

During the performance of this contract, the DEVELOPER agrees as follows:

1. The DEVELOPER will not discriminate against any employee or applicant for employment because of race, color, religion, sex, handicap, familial status, or national origin. The DEVELOPER will take affirmative action to ensure the applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, familial status, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation;

and selection for training, including apprenticeship. The DEVELOPER agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer of the CITY setting forth the provisions of this nondiscrimination clause.

2. The DEVELOPER will, in all solicitations or advertisements for employees placed by or on behalf of the DEVELOPER, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

3. The DEVELOPER will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the CITY's contracting officer, advising the labor union or worker's representative of the DEVELOPER's commitments under Section 202 of Executive Order No. 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

4. The DEVELOPER will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

5. The DEVELOPER will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to its books, records, and accounts by the CITY and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and order.

6. In the event the DEVELOPER is found to be in noncompliance with the nondiscrimination clauses of this contract or with any of such rules, regulations or orders, this contract may be canceled, terminated or suspended in whole or in part and the DEVELOPER may be declared ineligible for further government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965 or by rule, regulations, or order of the Secretary of Labor or as otherwise provided by law.

7. The DEVELOPER will include the provisions of this Agreement in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24,1965, so that such provisions will be binding upon each subcontractor or vendor. The DEVELOPER will take such action with respect to any subcontract or purchase order as the CITY may direct as a means of enforcing such provisions, including sanctions for noncompliance.

Section XIV – Section 3 Compliance

The DEVELOPER agrees to comply with the federal regulations governing training, employment and business opportunities as follows:

1. The work to be performed under this contract is subject to the requirements of Section3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u (Section 3). The purpose of Section 3 is to ensure that employment and other economic opportunities generated by HUD assistance or HUD-assisted projects covered by Section 3, shall, to the greatest extent feasible, be directed to low- and very low-income persons, particularly persons who are recipients of HUD assistance for housing.

2. The DEVELOPER will comply with HUD's regulations in 24 CFR Part 135, which implement Section 3. As evidenced by the execution of this Agreement, the DEVELOPER certifies that they are under no contractual or other impediment that would prevent them from complying with 24 CFR Part 135 of the regulations.

3. The DEVELOPER, its contractors and subcontractors, if applicable agree to send to each labor organization or representative of workers with which the DEVELOPER, its contractors and subcontractors has a collective bargaining agreement or other understanding, if any, a notice advising the labor organization or workers' representative of the DEVELOPER, its contractors and subcontractors commitments under this Section 3 clause, and will post copies of the notice in conspicuous places at the work site where both employees and applicants for training and employment positions can see the notice. The notice shall describe the Section 3 preference, shall set forth minimum number and job titles subject to hire, availability of apprenticeship and training positions, the qualifications for each; and the name and location of the person(s) taking applications for each of the positions; and the anticipated date the work shall begin.

4. The DEVELOPER, its contractors and subcontractors agree to include this Section 3 clause in every subcontract subject to compliance with regulations in 24 CFR part 135, and agrees to take appropriate action, as provided in an applicable provision of the subcontract or in this Section 3 clause, upon a finding that the subcontractor is in violation of the regulations in 24 CFR part 135. The DEVELOPER and its contractors will not subcontract with any subcontractor where the DEVELOPER or its contractors has notice or knowledge that the subcontractor has been found in violation of the regulations in 24 CFR part 135.

5. The DEVELOPER, its contractors and subcontractors will certify that any vacant employment positions, including training positions, that are filled (1) after the DEVELOPER, its contractors and subcontractors are selected but before the contract is executed, and (2) with persons other than those to whom the regulations of 24 CFR Part 135 require employment opportunities to be directed, were not filled to circumvent the DEVELOPER or contractor's obligations under 24 CFR part 135.

6. Noncompliance with HUD's regulations in 24 CFR Part 135 may result in sanctions, termination of this Agreement for default, and debarment or suspension from future HUD assisted contracts.

Section XV – Compliance with Federal, State & Local Laws

1. The DEVELOPER covenants and warrants that it will comply with all applicable laws, ordinances, codes, rules and regulations of the state, local, and Federal governments, and all amendments thereto, including, but not limited to; Title 8 of the Civil Rights Act of 1968 PL.90-284; Executive Order 11063 on Equal Opportunity and Housing, Section 3 of the Housing and Urban Development Act of 968; Housing and Community Development Act of 1974, as well as all requirements set forth in 24 CFR 92 of the HOME INVESTMENT PARTNERSHIP PROGRAM. The DEVELOPER covenants and warrants that it will indemnify and hold the City forever free and harmless with respect to any and all damages whether directly or indirectly arising out of the provisions and maintenance of this contract.

2. The DEVELOPER agrees to comply with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), Section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection CITY regulations (40 CFR Part 15).

3. The DEVELOPER further warrants and agrees to include or cause to be included the criteria and requirements of this section in every non-exempt subcontract in excess of $100,000. The DEVELOPER also agrees to take such action as the Federal, state or local government may direct to enforce aforesaid provisions.

4. Minority/Women's Businesses, Executive Orders 11625, 12432, and 12138 Under Executive Orders 11625, 12432, and 12138, the CITY must prescribe procedures acceptable to HUD for minority outreach programs to ensure that they are making concerted efforts to attract minority groups to the procurement process. The Developer agrees to assist the City to the greatest extent possible to meet the goals and objectives of this section. The DEVELOPER will submit, on an annual basis, a listing of all MBE/WBE contracts awarded including dollar amount of the contract and how the business qualifies.

   The regulations require that the following minimum affirmative steps are taken to ensure MBE/WBE is afforded every opportunity to participate in generated contracts.

   a) Placing minorities and women on solicitation lists;
   b) Assuring that MBE and WBE firms are solicited whenever they are potential sources;
   c) Dividing the total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business enterprises, and women business enterprises;
   d) Where the requirement permits, establishing delivery schedules that encourage participation by small and minority business enterprises, and women business enterprises;
   e) Using the services and assistance of the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
   f) Requiring the prime contractor, if subcontractors are to be let, to take all the same.

5. Drug-Free Workplace: The Drug-Free Workplace Act of 1988 (41 U.S.C. 701, *et seq.)* and HUD's implementing regulations at 24 CFR Part 21.

   DEVELOPERS are required to provide a drug-free workplace by taking the following steps. DEVELOPER and third-party contractor/consultants failing to meet these requirements will be subject to penalties:

   a) Publish and give a policy statement to all covered employees informing them that the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in the covered workplace and specifying the actions that will be taken against employees who violate the policy.
   b) Establish a drug-free awareness program to make employees aware of: a) the dangers of drug abuse in the workplace; b) the policy of maintaining a drug-free workplace; c) any available drug counseling, rehabilitation, and employee assistance programs; and d) the penalties that may be imposed upon employees for drug abuse violations.
   c) Notify employees that as a condition of employment on a Federal contract or grant, the employee must: a) abide by the terms of the policy statement; and b) notify the employer, within five (5) calendar days, if he or she is convicted of a criminal drug violation in the workplace.
   d) Notify the contracting or granting agency within ten (10) days after receiving notice that a covered employee has been convicted of a criminal drug violation in the workplace.
   e) Impose a penalty on or require satisfactory participation in a drug abuse assistance or rehabilitation program by any employee who is convicted of a reportable workplace drug conviction.
   f) Make an ongoing, good faith effort to maintain a drug-free workplace by meeting the requirements of the Act.

Section XVI – Enforcement, Suspension and Termination

In accordance with 24 CFR 85.43, suspension or termination may occur if the DEVELOPER materially fails to comply with any term of the award.

If, through any cause, the DEVELOPER shall fail to fulfill in timely and proper manner its obligations under this contract, or if the DEVELOPER shall violate any of the covenants, agreements, or stipulations of this contract, the CITY shall thereupon have the right to terminate this contract by giving written notice to the DEVELOPER of such termination and specifying the effective date thereof, at least five (5) days before the effective date of such termination. In such event, the DEVELOPER shall be entitled to receive just and equitable compensation for any work satisfactorily completed hereunder to the date of said termination.

Notwithstanding the above, the DEVELOPER shall not be relieved of liability to the CITY for damages sustained by the CITY by virtue of any breach of the contract by the DEVELOPER and the CITY may withhold any payments to the DEVELOPER until such time as the exact amount of damages due the CITY from the DEVELOPER is determined whether by court of competent jurisdiction or otherwise.

24 CFR 92.504(c)(13) contains provisions for the enforcement of this Agreement. In accordance with 24 CFR 85.43, this Agreement may be suspended or terminated prior to the expiration of the term by unanimous written Agreement by the parties to this Agreement. The CITY may also unilaterally terminate or suspend this Agreement, in whole or in part, upon ten (10) day written notice from the CITY to the DEVELOPER including, but not limited to the following reasons:

1. Failure to perform the services set forth in the scope of services and requirements incident thereto.
2. Failure to comply with the provisions of this Agreement.
3. Making unauthorized or improper use of funds provided under this Agreement.
4. Submission of an application, report or other documents pertaining to this Agreement which contains misrepresentation of any material aspect.
5. The carrying out of the Scope of Services or the objectives of this Agreement is rendered improvable, unfeasible, impossible, or illegal.
6. Failure of the U.S. Department of Housing and Urban Development (HUD) to make funds available or if HUD suspends funds for any reason.
7. Upon the determination of the CITY that the Agreement be suspended or terminated, without cause.
8. Termination or suspension shall not affect otherwise valid and allowable obligations incurred in good faith prior to receipt of a notice of termination or suspension.

Section XVII – Termination for Convenience of the CITY

In accordance with 24 CFR 85.44 the CITY may terminate for its convenience this Agreement at any time by giving at least thirty (30) day's notice in writing to the DEVELOPER. If the contract is terminated by the CITY, as provided herein, the City will reimburse for any actual and approved expenses incurred, including those costs involved in terminating the contracts and shutting down the work as of the date of notice, and the DEVELOPER will be paid as a FEE an amount which bears the same ratio to the total compensation as the services actually performed to the total service of the DEVELOPER covered by this Agreement, less payments of compensation previously made. Claims and disputes between the parties will be submitted to the American Arbitration Association for resolution. Award or judgment may be entered in any court having jurisdiction thereof.

Section XVIII – Default-Loss of Grant Funds

If the DEVELOPER fails in any manner to fully perform and carry out any of the terms, covenants, and conditions of the Agreement, and more particularly if the DEVELOPER refuses or fails to proceed with the work with such diligence as will insure its completion within the time fixed by the schedule set forth in this Agreement, the DEVELOPER shall be in default and notice in writing shall be given to the DEVELOPER of such default by the CITY or an agent of the CITY. If the DEVELOPER fails to cure such default within such time as may be required by such notice, the CITY, may at its option terminate and cancel the contract.

In the event of such termination, all grant funds awarded to the DEVELOPER pursuant to this agreement shall be immediately revoked and any approvals related to the PROJECT shall

immediately be deemed revoked and canceled. In such event, the DEVELOPER will no longer be entitled to receive any compensation for work undertaken after the date of the termination of this Agreement, as the grant funds will no longer be available for this project.

Such termination shall not effect or terminate any of the rights of the CITY as against the DEVELOPER then existing, or which may thereafter accrue because of such default, and the foregoing provision shall be in addition to all other rights and remedies available to the CITY under the law and the note and mortgage (if in effect), including but not limited to compelling the DEVELOPER to complete the project in accordance with the terms of this Agreement, in a court of equity. The waiver of a breach of any term, covenant or condition hereof shall not operate as a waiver of any subsequent breach of the same or any other term, covenant, or condition hereof.

Section XIX – Reporting Responsibilities

The DEVELOPER agrees to submit monthly reports to the CITY on the progress of the project. Reports are due the 15th of each month and will cover activities for the prior month. The CITY retains the right to request additional documentation to comply with HUD's reporting requirements. If the DEVELOPER fails to submit the monthly progress reports by the due date, no payments will be made to the DEVELOPER under this Agreement until all outstanding reports have been submitted.

The CITY will send the DEVELOPER one (1) reminder notice if the report has not been received fourteen (14) days after the due date. If the DEVELOPER has not submitted a report fourteen (14) days after the date on the reminder notice, the CITY will have the option to terminate the contract as described in this agreement. In addition, the DEVELOPER agrees to provide the CITY information as required to determine program eligibility, and financial records pertinent to the project.

At project completion, the DEVELOPER will provide a Project Progress Report signifying completion, with all data and supporting documentation for project closeout as may be required by the CITY.

Section XX – Inspection, Monitoring & Access to Records

1. All records will be maintained by the DEVELOPER for five (5) years after the affordability of the homebuyer ends.

2. The CITY reserves the right to inspect, monitor, and observe work and services performed by the DEVELOPER at any and all reasonable times.

3. The CITY reserves the right to audit the records of the DEVELOPER any time during the performance of this Agreement and for a period of five (5) years after final payment is made under this Agreement.

4. The DEVELOPER will provide the CITY with a certified audit of the Developer's records representing the Fiscal Year during which the PROJECT becomes complete pursuant to the requirements of OMB Circular A-133.

5. Access shall be immediately granted to the CITY, HUD, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, project site access, and records of the DEVELOPER or its contractors which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

6. The DEVELOPER shall maintain all records required by the Federal regulations specified in 92.508 that are pertinent to the activities to be funded under this Agreement. Such records include but are not limited to:

    a) A full description of each project assisted with HOME funds, including the location, form of HOME assistance, and tenants assisted with HOME funds.

    b) The source and application of funds for each project, including supporting documentation in accordance with 24 CFR 85.20.

    c) Records demonstrating that each rental housing project meets the minimum per-unit subsidy amount of § 92.205(c), the maximum per-unit subsidy amount of § 92.250(a) and the subsidy layering guidelines adopted in accordance with § 92.250(b).

    d) Records demonstrating that each project meets the property standards of § 92.251 and the lead-based paint requirements of § 92.355.

    e) Records demonstrating that each family is income eligible in accordance with § 92.203.

    f) Records demonstrating that each rental housing project meets the affordability and income targeting requirements of § 92.252 for the required period. Records must be kept for each family assisted.

    g) Records demonstrating that each multifamily rental housing project involving rehabilitation with refinancing complies with the refinancing guidelines established in accordance with § 92.206(b).

    h) Records demonstrating that any pre-award costs charged to the HOME allocation meet the requirements of § 92.212.

    i) Records demonstrating that a site and neighborhood standards review was conducted for each project which includes new construction of rental housing assisted under this part to determine that the site meets the requirements of 24 CFR 983.6(b), in accordance with § 92.202.

h) Records demonstrating that any pre-award costs charged to the HOME allocation meet the requirements of § 92.212.

i) Records demonstrating that a site and neighborhood standards review was conducted for each project which includes new construction of rental housing assisted under this part to determine that the site meets the requirements of 24 CFR 983.6(b), in accordance with § 92.202.

Section XXI – General Conditions

1. All notices or other communication which shall or may be given pursuant to this Agreement shall be in writing and shall be delivered by personal service, or by registered mail addressed to the other party at the address indicated herein or as the same may be changed from time to time. Such notice shall be deemed given on the day on which personally served; or, if by mail, on the fifth day after being posted or the date of actual receipt, whichever is earlier. Notices shall be mailed to the following address:

CITY address: **City of Hattiesburg, Department of Urban Development, P.O. Box 1898, Hattiesburg, MS 39403-1898**

DEVELOPER address: **Community Connections, Attn: Demetria Farve, P.O. Box 18612, Hattiesburg, MS 39404**

2. Title and paragraph headings are for convenient reference and are not a part of this Agreement.

3. In the event of conflict between the terms of this Agreement and any terms or conditions contained in any attached documents, the terms in this Agreement shall rule.

4. No waiver or breach of any provision of this Agreement shall constitute a waiver of a subsequent breach of the same or any other provision hereof, and no waiver shall be effective unless made in writing.

5. The parties hereto agree that this Agreement shall be construed and enforced according to the laws of the State of Mississippi.

6. Should any provisions, paragraphs, sentences, words or phrases contained in this Agreement be determined by a court of competent jurisdiction to be invalid, illegal or otherwise unenforceable under the laws of the State of Mississippi or the City of Hattiesburg, such provisions, paragraphs, sentences, words or phrases shall be deemed modified to the extent necessary in order to conform with such laws, or if not modifiable to conform with such laws, then same shall be deemed severable, and in either event, the remaining terms and provisions of this Agreement shall remain unmodified and in full force and effect.

9. The DEVELOPER further warrants and agrees to include or cause to be included the criteria and requirements of this section in every nonexempt subcontract. The DEVELOPER also agrees to take such action as the Federal, state or local government may direct to enforce aforesaid provisions.

10. The obligations undertaken by the DEVELOPER pursuant to this Agreement shall not be delegated or assigned to any other person or agency unless the CITY shall first consent to the performance or assignment of such service or any part thereof by another person or agency.

11. The Agreement shall be binding upon the parties hereto, their heirs, executors, legal representative, successors and assigns.

12. DEVELOPER and its employees and agents shall be deemed to be independent contractors, and not agents or employees of the CITY, and shall not attain any rights or benefits under the civil service or pension ordinances of the CITY, or any rights generally afforded classified or unclassified employee; further they shall not be deemed entitled to state Compensation benefits as an employee of the CITY.

13. Funding for this Agreement is contingent on the availability of funds and continued authorization for program activities and is subject to amendment or termination due to lack of funds, or authorization, reduction of funds, and/or change in regulations.

Section XXII – Insurance

1. The DEVELOPER during the construction period shall keep the property acquired under this Agreement insured against loss by fire, extended flood coverage, vandalism and malicious mischief, hazards, and such may require and in such amounts as CITY may require. The insurance requirements shall remain in effect until the property is sold to an income eligible buyer. The CITY shall be named as an additional insured.

2. A Commercial General Liability Insurance Policy shall be provided which shall contain minimum limits of one million dollars ($1,000,000.00) per occurrence combined single limit for bodily injury liability and property damage liability. Coverage must be afforded on a form no more restrictive than the latest edition of the Commercial General Liability Policy, without restrictive endorsements, as filed by the Insurance Services Office and shall include Premises and/or operations, independent contractors, Broad Form Contractual Coverage applicable to this specific Contract, including any hold harmless and/or indemnification agreement.

3. Personal Injury Coverage with Employee and Contractual Exclusions removed, with minimum limits of coverage equal to those required for Bodily Injury Liability and Property Damage Liability. The DEVELOPER shall carry Workers' Compensation insurance for all employees in compliance with the "Workers' Compensation Law" of the State of Mississippi and all applicable federal laws.

4. The DEVELOPER shall require its General Contractor to provide Builder's Risk Insurance in the amount of one hundred percent (100%) of replacement value of the completed structure until Project completion. Such Builder's Risk policy shall be an all risk form with a deductible not to exceed ten thousand dollars ($10,000.00) each claim and shall contain a loss payable clause to include the CITY. The DEVELOPER shall furnish to the CITY Certificates of Insurance or endorsements evidencing the insurance coverage specified by this Article prior to beginning performance of work under this Agreement. Coverage shall not cease and is to remain in force until all performance required work is completed.

5. The DEVELOPER shall furnish copies of all licenses and certifications of Public Liability Insurance for all HOME projects upon request by the CITY.

XXIII - Indemnification

1. The DEVELOPER shall at all times hereafter indemnify, hold harmless and defend the CITY, its officers, agents, servants, and employees against any and all claims, losses, liabilities, and expenditures of any kind, including attorney fees, court costs, and expenses, caused by any intentional, reckless, or negligent act or omission of the DEVELOPER, its employees, agents, servants, or officers, or accruing, resulting from, or related to the subject matter of this Agreement including, without limitation, any and all claims, demands, or causes of action of any nature whatsoever resulting from injuries or damages sustained by any person or property. The provisions of this section shall survive the expiration or earlier termination of this Agreement. To the extent considered necessary by the CITY, any sums due to the DEVELOPER under this Agreement may be retained by the CITY until all of the CITY's claims for indemnification pursuant to this Agreement have been settled or otherwise resolved; and any amount withheld shall not be subject to payment of interest by the CITY.

2. In the event that the DEVELOPER contracts with a third party ("Contractor") to provide the construction related services set forth herein, any contract with such third party shall include the following provisions:

    a. Indemnification: To the fullest extent permitted by law, Contractor shall indemnify and hold harmless CITY, its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of Contractor and persons employed or utilized by Contractor in the performance of this Contract. These indemnifications shall survive the term of this Contract.

3. The DEVELOPER shall comply with the anti-lobbying legislation set forth in 24 CFR 91.225 in the CITY's Consolidated Plan submitted to HUD for the HOME Program; both incorporated herein by reference.

4. The DEVELOPER shall indemnify and hold the CITY harmless from and against any negligent claims, liabilities, losses and causes of action which may arise out of DEVELOPER's activities under this Agreement, including all other acts or omissions to

Contractor and persons employed or utilized by Contractor in the performance of this Contract. These indemnifications shall survive the term of this Contract.

3. The DEVELOPER shall comply with the anti-lobbying legislation set forth in 24 CFR 91.225 in the CITY's Consolidated Plan submitted to HUD for the HOME Program; both incorporated herein by reference.

4. The DEVELOPER shall indemnify and hold the CITY harmless from and against any negligent claims, liabilities, losses and causes of action which may arise out of DEVELOPER's activities under this Agreement, including all other acts or omissions to act on the part of DEVELOPER, including any person acting for or on its behalf, and, from and against any orders, judgments, or decrees which may be entered, and from and against all costs, attorney's fees, expenses and liabilities incurred in the defense of any such claims, or in the investigation thereof.

IN WITNESS THEREOF,

CITY OF HATTIESBURG
NOTICE OF ADOPTION OF ORDINANCE

Notice is hereby given of the title and of a general summary of the subject matter contained in Ordinance No. 3241, duly adopted and approved by the City Council of the City of Hattiesburg on October 2, 2018. A complete copy of the Ordinance is available for public inspection during normal and regular business hours in the office of the City Clerk of the City of Hattiesburg, 200 Forrest Street, Hattiesburg, Mississippi, 39401.

The title of the Ordinance is:

CITY OF HATTIESBURG
ORDINANCE NO. 3241
AN ORDINANCE AMENDING CHAPTER 21-2(D)(4) OF THE CODE OF ORDINANCES FOR THE CITY OF HATTIESBURG, MISSISSIPPI, BEING ORDINANCE NUMBER 3167, AS AMENDED BY ORDINANCE NUMBER 3197, AND AS AMENDED BY ORDINANCE NUMBER 3206, TO ADDRESS MEASUREMENT OF SANITARY SEWER EFFLUENT FLOW FOR ANY INDIVIDUAL, CORPORATION, PARTNERSHIP, SOLE PROPRIETORSHIP OR OTHER LEGAL ENTITY WITH A METER SIZE 2 INCHES OR LARGER.

A general summary of the subject matter of the Ordinance is contained in its title.

This notice constitutes compliance with Sections 13-3-31 and 21-17-19 of the Mississippi Code Annotated (1972) as amended.

The above and foregoing Ordinance, after having been first reduced to writing, was introduced by Councilmember Delgado, seconded by Councilmember Brown and was adopted by the following roll call votes, to wit:

Yeas: George, Delgado, Carroll, Dryden, Brown
Absent: None
Nays: None

WHEREUPON the President declared the motion carried and the Ordinance adopted, this the 2nd day of October, 2018.

(SEAL) ATTEST: /s/ Ronda S. Cole, Clerk of Council
ADOPT: /s/ Carter Carroll, President

The above and foregoing Ordinance, having been submitted and approved by the Mayor, this the 2nd day of October, 2018.

ATTEST: /s/ Kermas Eaton, City Clerk
APPROVED: /s/ Toby Barker, Mayor

Published on Oct 11th, 2018.

THE STATE OF MISSISSIPPI TO ANY AND ALL OTHER PARTIES HAVING AN INTEREST IN THAT PROPERTY
DESCRIBED AS COMMENCE AT THE NORTHWESTERN CORNER OF LOT 11, BLOCK 2 OF THE E. P. CASSIDY SURVEY OF THE CITY OF HATTIESBURG, LOCATED IN THE NW 1/4 OF THE NW 1/4 OF SECTION 16, T-4-N, R-13-W, FORREST COUNTY, MS; AND THENCE RUN SOUTHWESTERLY ALONG THE WESTERN LINE OF SAID LOT 11 FOR 130 FEET TO AND FOR THE POINT-OF-BEGINNING, THENCE CONTINUE SOUTHWESTERLY ALONG THE WESTERN LINE OF SAID LOT 11 FOR 50 FEET TO THE SOUTHWESTERN CORNER OF SAID LOT 11, AND THENCE RUN SOUTHEASTERLY ALONG THE SOUTHERN LINE OF SAID LOT 11 FOR 69.73 FEET TO THE SOUTHEASTERN CORNER OF SAID LOT 11, THENCE RUN NORTHEASTERLY ALONG THE EASTERN LINE OF SAID LOT 11 FOR 50 FEET, THENCE RUN NORTHWESTERLY FOR 69.73 FEET BACK TO THE POINT-OF-BEGINNING. THE ABOVE HEREIN DESCRIBED PERMANENT EASEMENT CONTAINS 0.08 ACRES, MORE OR LESS.
NOTICE TO DEFENDANT
THE COMPLAINT OR PETITION WHICH IS ATTACHED TO THIS SUMMONS IS IMPORTANT AND YOU MUST TAKE IMMEDIATE ACTION TO PROTECT YOUR RIGHTS.
You have been made a Defendant in the suit filed in this Court by the City of Hattiesburg, Mississippi, a municipal corporation, seeking to acquire by eminent domain the property described as commence at the Northwestern corner of lot 11, block 2 of the E. P. Cassidy survey of the City of Hattiesburg, located in the NW 1/4 of the NW 1/4 of Section 16, T-4-N, R-13-W, Forrest County, MS; and thence run Southwesterly along the Western line of said lot 11 for 130 feet to and for the point-of-beginning, thence continue Southwesterly along the Western line of said lot 11 for 50 feet to the Southwestern corner of said lot 11, and thence run Southeasterly along the Southern line of said lot 11 for 69.73 feet to the Southeastern corner of said lot 11, thence run Northeasterly along the Eastern line of said lot 11 for 50 feet, thence run Northwesterly for 69.73 feet back to the point-of-beginning. The above herein described permanent easement contains 0.08 acres, more or less. Defendants other than you in this action are Joe Clayton, the State of Mississippi and the Hattiesburg Public School District.
You are summoned to appear and defend against the complaint or petition filed against you in this action at 9:30 A.M. on the 7th day of November, 2018, in the courtroom of the Forrest County Courthouse at Hattiesburg, Mississippi, and in case of your failure to appear and defend, a judgment will be entered against you for the money or other things demanded in the complaint or petition.
You are not required to file an answer or other pleading but you may do so if you desire.
Issued under my hand and the seal of said court, this 29th day of August, 2018.

PUBLIC HEARING

NOTICE is hereby given that a petition has been filed by Ashley Robinson, Owner, as required in the Land Development Code, Ord. No. 3209, to vary from Section 6, Table 6.1 which states the minimum side setback for property located in an R-1A Zone is ten (10) feet and instead allow a side setback of five (5) feet for a variance of five (5) feet for the following properties located in the Mandalay Villas at Greystone subdivision at the intersection of J. Ed Turner Drive and Topanga Trail (Lot #1 052B-03-004.046, 31719; Lot #3 052B-03-004.048, 31721; Lot #5 052B-03-004.050, 31723; Lot #7 052B-03-004.052, 31725; Lot #9 052B-03-004.054, 31727; Lot #11 052B-03-004.056, 31729; Lot #19 052B-03-004.064, 31737; Lot #21 052B-03-004.067, 31740; Lot #23 052B-03-004.069, 31742; Lot #25 052B-03-004.071, 31744; Lot #27 052B-03-004. 073, 31746; Lot #29 052B-03-004.076, 31749; Lot #31 052B-03-004.078, 31751; Lot #33 052B-03-004.080, 31753; Lot #35 052B-03-004.083, 31756; Lot #37 052B-03-004.085, 31758; Lot #39 052B-03-004.087, 31760; Lot #41 052B-03-004.089, 31762; Lot #43 052B-03-004.091, 31764; Lot #45 052B-03-004.093, 31766; Lot #47 052B-03-004.095, 31768; Lot #49 052B-03-004.097, 31770; Ward 1). Said property being more particularly described as follows, to-wit:

A part of the Northeast ¼ of the Northwest ¼ of Section 3, Township 4 North, Range 14 West, Lamar County, Mississippi, being more particularly described as: Commencing at the Northeast corner of said Section 3; thence run S89°35'03"W along the North line of said Section 3 for 3069.76 feet to the Point of Beginning; thence run South for 885.33 feet to a point on the North Right-of-Way line of Longleaf Trace (Rails to Trails); thence run S88°07'46"W along said North Right-of-Way line for 700.37 feet; thence run North for 903.11 feet to a point on the said North line of said Section 3; thence run N89°35'03"E along said North line for 700.02 feet to the Point of Beginning, comprising 14.37 Acres, more or less (Lots 1-49 including Northeast and Southeast Detention Ponds).

After hearing, the Hattiesburg Board of Adjustment recommended that the petition be Approved, and John Eye, being aggrieved with the recommendation, filed a request for hearing before the Mayor and City Council of the City of Hattiesburg, as provided by law.

NOW, THEREFORE, NOTICE IS GIVEN that a public hearing in relation to the petition as hereinabove set forth will be held at 4:00 p.m., Monday, October 15, 2018, in the City Hall Building, Second Floor, City Council Room, 200 Forrest Street, Hattiesburg, Mississippi, at which time and at which said hearing all parties of interest and citizens shall have an opportunity to be heard.

WITNESS my signature and the official seal of said City on this, the 20th day of September, 2018.

PUBLIC HEARING

NOTICE is hereby given that a petition has been filed by Robert Green to appeal the Planning Commission's recommendation for the petition filed by The City of Hattiesburg to change the zoning classification for certain properties located along Dabbs Street from Pauline Avenue to Fredna Avenue (PPIN 13837, Parcel 2-038B-15-227.00; PPIN 13840, Parcel 2-038B-15-226.00; PPIN 13839, Parcel 2-038B-15-236.00; PPIN 45414, Parcel 2-038B-15-237.00; PPIN 13856, Parcel 2-038B-15-238.00; PPIN 13855, Parcel 2-038B-15-239.00; PPIN 13864, Parcel 2-038B-15-281.00; PPIN 13877, Parcel 2-038B-15-284.00; PPIN 13934, Parcel 2-038B-15-324.00; PPIN 13949, Parcel 2-038B-15-327.00; PPIN 13951, Parcel 2-038B-15-326.00; PPIN 13950, Parcel 2-038B-15-325.00; PPIN 13863, Parcel 2-038B-15-283.00; PPIN 13862, Parcel 2-038B-15-282.00; PPIN 13861, Parcel 2-038B-15-235.00; PPIN 13860, Parcel 2-038B-15-234.00; PPIN 13859, Parcel 2-038B-15-233.00; PPIN 13858, Parcel 2-038B-15-232.00; PPIN 13800, Parcel 2-038B-15-231.00; PPIN 13799, Parcel 2-038B-15-230.00; PPIN13798,Parcel 2-038B-15-229.00.,Ward 2) from Section 4.5.9, B-2, (Neighborhood Business) District to Section 4.5.10, B-3, (Community Business) District on behalf of the Katie-John-Dabbs Neighborhood Association.

Said property being more particularly described as follows, to-wit:

Being part of the NW ¼ of the NW ¼ and the SW ¼ of the NW ¼ of Section 15, T-4-N, R-13-W, City of Hattiesburg , Forrest County, MS, more particularly described as follows; Begin at the Northeast corner of Block 107 of the Robertson Place Subdivision, and thence run West along the South right-of-way of Pauline Avenue for 85 feet, thence run South for 143 feet, thence run West for 15 feet, thence run South 67 feet to the South line of said block 107 and the North line of Block 2 of the J. H. Buschman Subdivision, thence run West along said North line for 10 feet, thence run South 100 feet to South line of said Block 2 and the North right-of-way of Rosa Avenue, thence continue South for 50 feet to the South right-of-way of Rosa Avenue and the North line of Block 7 of said J. H. Buschman Subdivision, thence continue South for 100 feet to the Northwest corner of Lot 15 of said Block 7, thence run East for 50 feet to the Northeast corner of said Lot 15, thence run South 100 feet to the South line of said Block 7 and the North right-of-way of Willis Avenue, thence continue South for 50 feet to the Northwest corner of Lot 1 of Block 10 of said J.H. Buschman Subdivision and the South right-of-way of Willis Avenue, thence continue South for 200 feet along the West line of Lots 1 and 16 of said Block 10 to the North right-of-way of May Avenue and the South line of said Block 10, thence continue South for 50 feet to the North line of Block 15 of said J. H. Buschman Subdivision and the South right-of-way of May Avenue, thence continue South for 200 feet along the West line of Lots 1 and 16 of said Block 15 to the North right-of-way of Fredna Avenue and the South line of said Block 15, thence run East along the North right-of-way of Fredna Avenue for 60 feet to the Southeast corner of said Block 15 and the West right-of-way of Dabbs Street, thence continue East for 60 feet to the Southwest corner of Block 16 of said J. H. Buschman Subdivision and the East right-of-way of Dabbs Street, thence continue East for 55 feet along the North right-of-way of Fredna Avenue to the Southeast corner of said Block 16 and the West right-of-way of Richard Collins Drive, thence run North along the East line of Blocks 16, 9, 8 and 1 of said J. H. Buschman Subdivision and along the West right-of-way of Richard Collins Drive for 850 feet to the Northeast corner of said Block 1 and the South right-of-way of Milton Barnes Avenue, thence run West for 55 feet to the Northwest corner of said Block 1 and the East right-of-way of Dabbs Street, thence run North for 30 feet, more or less, to the Southwest corner of Block 106 of the Robertson Place Subdivision and the North right-of-way of Milton Barnes Avenue, thence continue North along the East right-of-way of Dabbs Street and along the West line of said Block 106 for 210 feet, more or less, to the South right-of-way of Pauline Avenue, thence run West for 60 feet back to the Point-of-Beginning. The above herein described district contains 4.42 acres, more or less.

After hearing, the Hattiesburg Planning Commission recommended that the petition be Denied, and Robert Green, being aggrieved with the recommendation, filed a request for hearing before the Mayor and City Council of the City of Hattiesburg, as provided by law.

NOW, THEREFORE, NOTICE IS GIVEN that a public hearing in relation to the petition as hereinabove set forth will be held at 4:00 p.m., Monday, October 15, 2018, in the City Hall Building, Second Floor, City Council Room, 200 Forrest Street, Hattiesburg, Mississippi, at which time and at which said hearing all parties of interest and citizens shall have an opportunity to be heard.

WITNESS my signature and the official seal of said City on this, the 20th day of September, 2018.

PUBLIC NOTICE AND ORDER OF MAYOR AND COUNCIL OF THE CITYOF HATTIESBURG, MISSISSIPPI, ADOPTING A MOTOR VEHICLE ASSESMENT SCHEDULE FOR THE CITY OF HATTIESBURG, MISSISSIPPI FOR THE FISICAL YEAR BEGINNING OCTOBER 1, 2018 AND ENDING SEPTEMBER 30, 2019

WHEREAS, the Mayor and Council of the City of Hattiesburg, Mississippi, have received from the Mississippi Department of Revenue notice of the adoption of the Motor Vehicle Assessment Schedule by said department for the fiscal year 2018-19; and

WHEREAS, the hard copy schedule of assessments by property code is no longer produced and the assessment schedule for passenger vehicles and lights trucks in produced only the computer system of the county tax collector, and is the schedule that is subject for adoption; and

WHEREAS, the Mayor and Council of said City desire to adopt the same for the City of Hattiesburg in assessing and collecting ad valorem taxes on motor vehicles for the ensuing year.

IT IS THEREFORE, HEREBY ORDERED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI, TO-WIT:

The Motor Vehicle Assessment Schedule for the fiscal year 2018-19 adopted by the Mississippi Department of Revenue under the provisions of the Motor Vehicle Ad Valorem Tax Act of 1958, as amended by Laws of 1960, being Section 27-51-21, Mississippi Code of 1972, Annotated, is hereby adopted as the Motor Vehicle Assessment Schedule for the City of Hattiesburg, MS, for the fiscal year beginning October 1, 2018 and ending September 30, 2019.

A public hearing of the Mayor and Council of the City of Hattiesburg will be held in the City Hall located 200 Forrest Street in said City at 4:00 October 15, 2018, for the purpose of hearing and taking action on any complaint or objection filed in writing objection to and petitioning for a special reduction of any portion of said motor vehicle assessment schedule affecting the complainant directly. Said motor vehicle assessment schedule is open for public inspection and examination in the Office of the Forrest and Lamar County Tax Collectors until the date and time of said hearing.

This order is entered, and the Clerk of the City of Hattiesburg, Mississippi, shall have published in a newspaper, published and having a general circulation in the City of Hattiesburg, a certified copy hereof, pursuant to and as NOTICE under the provisions of the Motor Vehicle Ad Valorem Tax Act of 1958, and Chapter 273 of the Laws of 1960, otherwise designated as Section 27-51-21 of the Mississippi Code Of 1972, Annotated.

SO ORDERED AND APPROVED on this 18th day of September, 2018.

ATTEST:
/s/ Kermas Eaton
CITY CLERK

/s/ Toby Barker
MAYOR

NOTICE TO CONSULTANTS

The City of Hattiesburg, MS is soliciting Statements of Qualification from consulting firms to provide professional design, engineering and construction oversight and management services for the construction of a new fire station for the City of Hattiesburg. Submit six (6) copies sealed of qualification statements and letters of interest no later than October 4, 2018 to:

City of Hattiesburg
City Clerk's Office
P. O. Box 1898
Hattiesburg, MS 39403-1898
Consulting Services RFQ

Direct all questions to Lamar Rutland, Director of Engineering at 601-545-4540. The City reserves the right to waive any informality and minor irregularities in the submittals and select the consultant deemed to be the best qualified to serve the interests of the City, or may reject all submittals. DBE firms are encouraged to apply.

Project Duties include (not prioritized) as follows:

Conceptual Design, Design, Bidding and Construction of a new Fire Station for the City of Hattiesburg. This will include but is not limited to: Conceptual Design, Site Engineering, Compliance with FEMA Requirements, Site Grading and Layout, Cost Estimates, Value Engineering, Material selection, Final Design, Creation of the bid documents, assisting the City through the Bid process and Construction oversight.

Submittals shall include the following:

Letter of Interest (maximum five pages)

Team Organizational Chart

Project Approach Section (maximum two pages)

Submittals will be evaluated using a scoring system with ten categories. Each category will be assigned an importance factor (below average importance, average importance, above average importance) and a range of possible points (1-Poor to 5-Excellent). The total score will be the sum of earned points (multiplied by the importance factor) in each category. The categories are: 1. Professional integrity and competence; 2. Firm's background and key members; 3. Consultant's understanding of and perception of project; 4. Capability to perform all aspects of the project including liaison with State and Federal Agencies, planning, design and contract administration; 5. Capability to meet schedules or deadlines; 6. Capability to complete projects without major cost overruns; 7. Familiarity with location of the project; 8. Current workload; 9. Number of previous projects; 10. Quality of projects previously undertaken.

Acknowledge receipt of any issued Addenda in the Letter of Interest. This advertisement shall void all previous related advertisements.

NOTICE TO AIRPORT CONSULTANTS

The City of Hattiesburg, MS is soliciting Statements of Qualification from consulting firms to provide professional airport planning, engineering and airport construction management services for the Hattiesburg Bobby L. Chain Municipal Airport (HBG). Submit six (6) copies sealed of qualification statements and letters of interest no later than October 4, 2018 to:

City of Hattiesburg
City Clerk's Office
P. O. Box 1898
Hattiesburg, MS 39403-1898

Airport Consulting Services RFQ

Direct all questions to Lamar Rutland, Director of Engineering at 601-545-4540. All proposals will be evaluated based on FAA Advisory circular 150/1500-14D, Mississippi DOT Aeronautics Division guidelines and on compliance with this request. The City reserves the right to waive any informality and minor irregularities in the submittals and select the consultant deemed to be the best qualified to serve the interests of the City and the Airport in the opinion of the City or may also reject all submittals. Projects funded through FAA grants will be subject to the provisions of Executive Order 11246 (Affirmative Action to Ensure Equal Employment Opportunity) and to the provisions of the Department of Transportation Regulations 49 CFR Part 26 (Disadvantaged Business Enterprise Participation). DBE firms are encouraged to apply. The consultant will assist the City in grant requests and grants will be the source of consultant compensation. Possible projects include (not prioritized) as follows:

Runway, Taxiway, and Apron Pavement Improvements with Marking and Signage; ISL MALSR Installation: Land Acquisition and Relocation Assistance with any required project specific environmental update; Safety Area Improvement; Apron Expansion; RWY 31 Extension; Airport Layout Plan (ALP) Update; Navaid, Lighting Improvement; Access and Perimeter Obstruction Removal; Utility Relocation and Replacement; T-Hangars; Fencing, Airfield Drainage.

Submittals shall include the following:
1. Letter of Interest (maximum five pages)
2. Team Organizational Chart
3. Project Approach Section (maximum two pages)

Submittals will be evaluated using a scoring system with ten categories. Each category will be assigned an importance factor (below average importance, average importance, above average importance) and a range of possible points (1-Poor to 5-Excellent). The total score will be the sum of earned points (multiplied by the importance factor) in each category. The categories are: 1. Professional integrity and competence; 2. Firm's background and key members; 3. Consultant's understanding of and perception of project; 4. Capability to perform all aspects of the project including liaison with State and Federal Agencies, planning, design and contract administration; 5. Capability to meet schedules or deadlines; 6. Capability to complete projects without major cost overruns; 7. Familiarity with location of the project; 8. Current workload; 9. Number of previous Airport projects; 10. Quality of projects previously undertaken.

Acknowledge receipt of any issued Addenda in the Letter of Interest.

NOTICE TO CONSULTANTS

The City of Hattiesburg, MS is soliciting Statements of Qualification from consulting firms to provide professional design, engineering and airport construction oversight and management services for the construction of a new fire station for the City of Hattiesburg. Submit six (6) copies sealed of qualification statements and letters of interest no later than October 4, 2018 to:

City of Hattiesburg
City Clerk's Office
P. O. Box 1898
Hattiesburg, MS 39403-1898

Consulting Services RFQ

Direct all questions to Lamar Rutland, Director of Engineering at 601-545-4540. The City reserves the right to waive any informality and minor irregularities in the submittals and select the consultant deemed to be the best qualified to serve the interests of the City, or may reject all submittals DBE firms are encouraged to apply.

Project Duties include (not prioritized) as follows:

Conceptual Design, Design, Bidding and Construction of a new Fire Station for the City of Hattiesburg. This will include but is not limited to: Conceptual Design, Site Engineering, Compliance with FEMA Requirements, Site Grading and Layout, Cost Estimates, Value Engineering, Material selection, Final Design, Creation of the bid documents, assisting the City through the Bid process and Construction oversight.

Submittals shall include the following:
1. Letter of Interest (maximum five pages)
2. Team Organizational Chart
3. Project Approach Section (maximum two pages)

Submittals will be evaluated using a scoring system with ten categories. Each category will be assigned an importance factor (below average importance, average importance, above average importance) and a range of possible points (1-Poor to 5-Excellent). The total score will be the sum of earned points (multiplied by the importance factor) in each category. The categories are: 1. Professional integrity and competence; 2. Firm's background and key members; 3. Consultant's understanding of and perception of project; 4. Capability to perform all aspects of the project including liaison with State and Federal Agencies, planning, design and contract administration; 5. Capability to meet schedules or deadlines; 6. Capability to complete projects without major cost overruns; 7. Familiarity with location of the project; 8. Current workload; 9. Number of previous Airport projects; 10. Quality of projects previously undertaken.

Acknowledge receipt of any issued Addenda in the Letter of Interest.

Summary

Acknowledge and Accept bids for Term Bid Item #11 - Chlorine Gas and Sulfud Dioxide

M E M O R A N D U M

TO: Mayor and Council

FROM: Michael Pope, Purchasing

DATE: November 7, 2018

SUBJECT: Term Bids

After review of the bids received from various vendors on September 20, 2018 for purchases of commodities required in the operation of the water department, it is my recommendation that the following actions be taken in acceptance of bids for the following item:

Item #11 - Chlorine Gas and Sulfur Dioxide - Accept the bid of Allied Universal as the lowest and best bid received.

Should you have any questions concerning this recommendation, please contact my office.

NOTICE TO BIDDERS

NOTICE is hereby given that the Mayor and Council of the City of Hattiesburg, Mississippi will receive sealed bids until 10:00 A.M., Thursday, September 20th, 2018, in the City Clerk's Office in the City Hall of said City for furnishing the City's requirements for the following supplies, to-wit:

ITEM #11: CHLORINE GAS AND SULFUR DIOXIDE FOR THE CITY OF HATTIESBURG WATER DEPARTMENT

The above shall be bid upon and delivered as per detailed specifications on file in the Office of the City Clerk, 200 Forrest Street, Hattiesburg, Mississippi, 39403, (601) 545-4552, which may be obtained upon request.

SEALED BIDS:

Sealed bids must be received in a sealed envelope which is marked in the lower left-hand corner with the word BID and the NAME OF ITEM on which bid is being made and the DATE OF BID OPENING.

ELECTRONIC BIDS:

Official bid documents can be downloaded from Central Bidding at www.centralbidding.com. Electronic bids can be submitted at www.centralbidding.com. For any questions relating to the electronic bidding process, please call Central Bidding at 225-810-4814.

The lowest and best bid received will be accepted, subject to the provisions of Section 31-7-13 of the Mississippi Code of 1972, Annotated as Amended, and other applicable State law; but the Council reserves the right to reject any or all bids received and to waive formalities.

PUBLISHED by Order of the Council on this, the 21st day of August, 2018.

305-463-8369 fax

AFFIDAVIT

This is to certify that as required, all Chlorine to be furnished to City of Hattiesburg will comply with applicable ANSI/AWWA B-301-81 Standards and NSF requirements of this Specification or as may be amended.

Cristhianne Munguia
Bid Coordinator

Subscribed and sworn to before me

My Comm. Expires Sep 18, 2020

SAFETY DATA SHEET

1. Identification

Product identifier	**Chlorine**
Other means of identification	
SDS number	AUC-005
Synonyms	Liquid Chlorine * Elemental Chlorine * Molecular chlorine * Compressed Chlorine Gas
Recommended use	Production of chlorinated inorganic and organic chemicals; bleaching agent for paper, textiles and fabrics; used in water purification, sewage disinfection and food processing.
Recommended restrictions	Professional use only

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name	Allied Universal Corporation	
Address	3901 N.W. 115th Avenue Miami, FL 33178 United States	
Telephone	General:	1-305-888-2623
	24-Hour alert:	1-786-522-0207
Website	www.allieduniversal.com	
E-mail	Not available.	
Contact person	Operations Department	
Emergency phone number	CHEMTREC	1-800-424-9300 (US/Canada) +01 703-527-3887 (International)
Supplier	Refer to Manufacturer	

2. Hazard(s) identification

Physical hazards	Oxidizing gases	Category 1
	Gases under pressure	Liquefied gas
Health hazards	Acute toxicity, inhalation	Category 2
	Skin corrosion/irritation	Category 1
	Serious eye damage/eye irritation	Category 1
	Specific target organ toxicity, single exposure	Category 3 respiratory tract irritation
Environmental hazards	Hazardous to the aquatic environment, long-term hazard	Category 1

OSHA defined hazards This mixture does not meet the classification criteria according to OSHA HazCom 2012.

Label elements

Signal word Danger

Hazard statement May cause or intensify fire; oxidizer. Contains gas under pressure; may explode if heated. Causes severe skin burns and eye damage. Fatal if inhaled. May cause respiratory irritation. Very toxic to aquatic life.

Precautionary statement

Prevention Keep/Store away from clothing and other combustible materials. Keep reduction valves free from grease and oil. Do not breathe gas. Use only outdoors or in a well-ventilated area. Wear respiratory protection. Wash hands and face thoroughly after handling. Wear protective gloves/clothing and eye/face protection. Avoid release to the environment.

Response	Specific treatment is urgent (see this label). IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. In case of fire: Stop leak if safe to do so. Collect spillage.
Storage	Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	No OSHA defined hazard classes. Other hazards which do not result in classification: Toxic fumes, gases or vapors may evolve on burning. Chlorine is extremely corrosive to most metals in the presence of moisture (> 150 ppm water and/or -40 degrees F dew point) or at high temperatures. Combines with water to produce hydrochloric and hypochlorous acid. Severe, short-term exposures may cause long-lasting respiratory effects, e.g. Reactive Airways Dysfunction (RADS), due to the material's severe irritating properties. Contact with liquefied gas might cause frostbites, in some cases with tissue damage. Direct contact with liquefied gas may cause frostbite and corrosive injury to the eyes.
Supplemental information	Keep away from heat. Make sure valves on gas cylinders are fully opened when gas is used. Open cylinder valve slowly to prevent rapid decompression and damage to valve seat. Use smallest possible amounts in designated areas with adequate ventilation. Liquid chlorine lines must have suitable expansion chambers between block valves due to high coefficient of expansion. Shut flow off at cylinder valve and not just at the regulator after use. Use a suitable hand truck to move cylinders; do not drag, roll, slide, or drop. Secure cylinders in an upright position at all times, close all valves when not in use. Establish written emergency plan and special training where chlorine is used. Regularly inspect and test piping and containers used for chlorine service.

3. Composition/information on ingredients

Substances

Chemical name	Common name and synonyms	CAS number	%
Chlorine	Liquid Chlorine Elemental Chlorine Molecular chlorine Compressed Chlorine Gas	7782-50-5	99.5

4. First-aid measures

Inhalation	Take proper precautions to ensure your own safety before attempting rescue (e.g. wear appropriate protective equipment, use the buddy system). IF INHALED: Remove person to fresh air and keep comfortable for breathing. If breathing is difficult, trained personnel should give oxygen. If breathing stops, provide artificial respiration. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Immediately call a POISON CENTER or doctor/physician.
Skin contact	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Do not rub area of contact. Gently remove clothing or jewelry. Carefully cut around clothing that sticks to the skin. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or doctor/physician. Discard any shoes or clothing items that cannot be decontaminated.
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Take care not to rinse contaminated water into the unaffected eye or onto the face. Do not rub eyes. Immediately call a POISON CENTER or doctor/physician.
Ingestion	Not an expected route of entry under normal conditions of use. If ingestion of a large amount does occur, call a poison control center immediately. Do not induce vomiting. Never give anything by mouth to a victim who is unconscious or is having convulsions.

Most important symptoms/effects, acute and delayed	Fatal if inhaled. Immediately dangerous to life or health (IDLH) at 10 ppm. May cause severe irritation to the nose, throat, and respiratory tract. Symptoms may include coughing, choking and wheezing. Could also cause tightness in the chest, a blue discolouration of the skin (cyanosis), severe headache, nausea, vomiting and fainting. Inhalation could result in pulmonary edema (fluid accumulation). Symptoms of pulmonary edema (chest pain, shortness of breath) may be delayed. May result in unconsciousness and possibly death. Severe, short-term exposures may cause long-lasting respiratory effects, e.g. Reactive Airways Dysfunction (RADS), due to the material's severe irritating properties. With this condition, asthma-like symptoms and increased reactivity of the airways is experienced. Direct skin contact may cause corrosive skin burns, deep ulcerations and possibly permanent scarring. If product is sprayed directly on skin, symptoms of frostbite may be experienced including numbness, prickling and itching. Corrosive to the eyes and may cause severe damage including blindness. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. If product is sprayed directly into the eyes, could cause freezing of the eye.
Indication of immediate medical attention and special treatment needed	Immediate medical attention is required. Fatal if inhaled. Causes chemical burns. Symptoms may be delayed. Keep victim under observation. Medical supervision for minimum 48 hours. Provide general supportive measures and treat symptomatically.
General information	First-aid procedures should be reviewed by appropriate personnel familiar with chlorine and its conditions of use in the workplace. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media	Extinguishing media - small fires: Dry chemicals. Carbon dioxide (CO_2). Extinguishing media - large fires: Water Spray or Fog. Foam.
Unsuitable extinguishing media	Use water with caution. May react with water. Do not use direct water spray or water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Pressurized container may explode when exposed to heat or flame. May react to cause fire and or explosion upon contact with many organic compounds, ammonia, hydrogen and with many metals at elevated temperatures. Chlorine will support the burning of most combustible materials. Combines with water to produce hydrochloric and hypochlorous acid. Liquefied chlorine can accumulate static charge by flow or agitation, since it has a very low electrical conductivity. Chlorine containers or cylinders may vent rapidly or rupture violently, if exposed to fire or excessive heat for a sufficient period of time. Intense local heat (above 200 deg C) on the steel walls of chlorine cylinders can cause an iron/chlorine fire resulting in rupture of the container. Vapors are heavier than air and may spread along floors. Toxic fumes, gases or vapors may evolve on burning.
Special protective equipment and precautions for firefighters	Firefighters should wear full protective clothing including self contained breathing apparatus. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. A full-body chemical resistant suit should be worn.
Fire fighting equipment/instructions	Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Move containers from fire area if you can do so without risk. Remove combustible materials. Stop the flow of gas before extinguishing fire, if safe to do so. Use water spray to direct escaping gas away from workers if it is necessary to stop the flow of gas. Cool containers exposed to heat with water spray and remove container, if no risk is involved. Stay away from ends of cylinders and withdraw immediately in case of rising sounds or discolouration of containers. Do not allow run-off from fire fighting to enter drains or water courses. Dike for water control.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	The product itself does not burn. However, material is considered to be an oxidizing gas. Supporter of combustion and can intensify a fire.
Hazardous combustion products	Toxic chemicals are formed when combustible materials burn in chlorine. These may include corrosive hydrogen chloride gas and other chlorine compounds.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Restrict access to area until completion of clean-up. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Consider initial downwind evacuation for at least 500 meters (1/3 mile). Ensure clean-up is conducted by trained personnel only. Ventilate closed spaces before entering them. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Stop the flow of material, if this is without risk. Use only non-sparking tools. Keep combustibles (wood, paper, oil, etc.) away from spilled material. Remove or isolate incompatible materials as well as other hazardous materials. Do not spray leak with water since a reaction producing corrosive hypochlorous and hydrochloric acids occurs, which can aggravate the leak.

May be absorbed and neutralized into solutions of caustic soda, or lime and placed in polypropylene, polyvinyl chloride, fibreglass or lead containers. Since hypochlorites are formed, the solutions must be treated with a reducing agent such as sodium sulfite before disposal. Do not immerse container in caustic solution.

Large Spills: Large uncontrollable leaks require environmental considerations and possible evacuation of the surrounding area. When possible draw off chlorine to process or disposal system .

Contact the proper local authorities.

For waste disposal, see section 13 of the SDS.

Environmental precautions

Avoid release to the environment. Prevent entry into waterways, sewer, basements or confined areas. Contact local authorities in case of spillage to drain/aquatic environment.

7. Handling and storage

Precautions for safe handling

Establish written emergency plan and special training where chlorine is used.

Use only outdoors or in a well-ventilated area. Wear respiratory protection. Wear protective gloves/clothing and eye/face protection. See Section 8 of the SDS for Personal Protective Equipment. Do not breathe gas. Avoid contact with eyes, skin, and clothing. Regularly inspect and test piping and containers used for chlorine service. Liquid chlorine lines must have suitable expansion chambers between block valves due to high coefficient of expansion. Keep away from heat. Keep/Store away from clothing and other combustible materials. Keep reduction valves free from grease and oil. Use only chlorine compatible lubricants. Use smallest possible amounts in designated areas with adequate ventilation. Shut flow off at cylinder valve and not just at the regulator after use. Use a suitable hand truck to move cylinders; do not drag, roll, slide, or drop. Protect against physical damage. Wash hands after handling and before eating.

Conditions for safe storage, including any incompatibilities

Store in steel pressure cylinders in a cool, dry area outdoors or in well-ventilated, detached or segregated areas of non-combustible construction. Keep container tightly closed. Store locked up. Protect from sunlight. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Do not store near combustible materials. Wood and other organic materials should not be used on floors, structural materials, or ventilation systems in the storage area. Store away from incompatible materials (see Section 10 of the SDS). Secure cylinders in an upright position at all times, close all valves when not in use. Use a "first in - first out" inventory system to prevent full cylinders from being stored for excessive periods of time. Store at temperatures not exceeding 55°C (131°F). For the specified temperature the system pressure is 225 psig (1551 kPa).

8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Material	Type	Value
Chlorine (CAS 7782-50-5)	Ceiling	3 mg/m3 1 ppm

US. ACGIH Threshold Limit Values

Material	Type	Value
Chlorine (CAS 7782-50-5)	STEL	1 ppm
	TWA	0.5 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Material	Type	Value
Chlorine (CAS 7782-50-5)	Ceiling	1.45 mg/m3 0.5 ppm

Biological limit values

No biological exposure limits noted for the ingredient(s).

Exposure guidelines

The NIOSH IDLH concentration for Chlorine is 10 ppm.

Appropriate engineering controls	Ensure adequate ventilation, especially in confined areas. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. In case of insufficient ventilation, wear suitable respiratory equipment.

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear eye/face protection. Chemical goggles are recommended. Wear a full-face respirator, if needed. A full face shield may also be necessary. Eye wash fountains are required.
Skin protection	
Hand protection	Wear appropriate chemical-resistant gloves. Advice should be sought from glove suppliers.
Other	Wear appropriate chemical-resistant clothing. Where contact is likely, wear chemical-resistant gloves, a chemical suit and rubber boots. Eye wash facilities and emergency shower must be available when handling this product.
Respiratory protection	Up to 5 ppm: A NIOSH/MSHA approved air-purifying respirator with the appropriate chemical cartridges or a positive-pressure, air-supplied respirator may be used to reduce exposure. Up to 10 ppm: A SAR (supplied air respirator) operated in a continuous flow mode or powered air purifying respirator with cartridge(s); a full facepiece chemical cartridge respirator with cartridge(s); a gas mask with canister; a full facepiece SCBA (self contained breathing apparatus) ; or a full facepiece SAR may be used to reduce exposure. EMERGENCY OR PLANNED ENTRY INTO UNKNOWN CONCENTRATIONS OR IDLH CONDITIONS: Positive pressure, full-facepiece SCBA; or positive pressure, full-facepiece SAR with an auxiliary positive pressure SCBA. Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134). Advice should be sought from respiratory protection specialists.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Do not breathe gas. Avoid contact with eyes, skin and clothing. Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke when using the product. Wash hands before breaks and immediately after handling the product. Remove soiled clothing and wash it thoroughly before reuse. Inform laundry personnel of contaminant's hazards.

9. Physical and chemical properties

Appearance	
Physical state	Gas (or liquid under pressure).
Form	Compressed liquefied gas.
Color	Amber color; vaporizes to greenish, yellow gas.
Odor	Pungent suffocating odor
Odor threshold	0.02 - 3.4 ppm (detection)
pH	Not applicable (reacts with water to form an acidic solution)
Melting point/freezing point	-149.8 °F (-101 °C)
Initial boiling point and boiling range	-30.28 °F (-34.6 °C)
Flash point	Not Applicable
Evaporation rate	Not Applicable.Gas at normal temperatures.
Flammability (solid, gas)	The product is not flammable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not Applicable
Flammability limit - upper (%)	Not Applicable
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	638.4 kPa @ 20°C (68°F) 4788 mm Hg @ 20°C (68°F)
Vapor density	2.49 @ 0°C (32°F) (Air = 1)
Relative density	3.21 kg/m³ @ 0°C (32°F)

Solubility(ies)	
Solubility (water)	6.3 mg/l (Slightly soluble)
Solubility (other)	Soluble in dimethylformamide, disulfur dichloride, benzene, chloroform, carbon tetrachloride, hexachlorobutadiene, tetrachloroethane, pentachloroethane, chlorobenzene, nitrobenzene, glacial acetic acid (99.84%) and other chlorides
Partition coefficient (n-octanol/water)	Not applicable (gas)
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Viscosity temperature	Not Applicable (Gas)
Other information	
Critical temperature	290.75 °F (143.75 °C)
Explosive properties	Not explosive.
Molecular weight	70.91
Oxidizing properties	Strong oxidizing agent because of its electron-transfer capabilities. Supporter of combustion and can intensify a fire. Note, that Chlorine does not yield oxygen or any other oxidizing substance.
Specific gravity	0.003 @ 0°C (32°F)

10. Stability and reactivity

Reactivity	Combines with water to produce hydrochloric and hypochlorous acid. These acids can decompose to hydrochloric acid and oxygen. Contact with combustible material may cause fire.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.Chlorine is extremely corrosive to most metals in the presence of moisture (> 150 ppm water and/or -40 degrees F dew point) or at high temperatures. Will support or initiate combustion or explosion of organic matter and other oxidizable material. Note, that Chlorine does not yield oxygen or any other oxidizing substance. Liquid or gaseous chlorine can react violently with many combustible materials, and other chemicals, including water. Metal halides, carbon, finely divided metals and sulfides can accelerate the rate of chlorine reactions. Chlorine reacts with carbon monoxide to produce toxic phosgene, and sulfur dioxide to produce sulfuryl chloride. Intense local heat (above 200 deg C) on the steel walls of chlorine cylinders can cause an iron/chlorine fire resulting in rupture of the container.
Conditions to avoid	Keep away from combustible materials. Avoid contact with incompatible materials. Keep away from heat. Do not use in areas without adequate ventilation.
Incompatible materials	Tin; Metals; Sulfides; Titanium. Reacts with most metals at high temperatures. Reacts with water to produce hydrochloric aids, which are corrosive to most metals. Ammonia, elemental metals, certain metal hydroxides, carbides, nitrides, oxides, phosphides and sulfides, easily oxidized materials, organic materials, reducing agents, alkalis and unstable and reactive compounds.
Hazardous decomposition products	Hydrogen chloride gas. Hydrochloric acid. Hypochlorous acid.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Very toxic by inhalation. Fatal if inhaled. May cause severe irritation to the nose, throat, and respiratory tract.
Skin contact	Causes skin burns. Contact with liquefied gas might cause frostbites, in some cases with tissue damage. Not expected to be absorbed through the skin.
Eye contact	Causes severe eye burns. If product is sprayed directly into the eyes, could cause freezing of the eye.
Ingestion	Not an expected route of entry under normal conditions of use.

Most important symptoms/effects, acute and delayed

Fatal if inhaled. Immediately dangerous to life or health (IDLH) at 10 ppm. May cause severe irritation to the nose, throat, and respiratory tract. Symptoms may include coughing, choking and wheezing. Could also cause tightness in the chest, a blue discolouration of the skin (cyanosis), severe headache, nausea, vomiting and fainting. Inhalation could result in pulmonary edema (fluid accumulation). Symptoms of pulmonary edema (chest pain, shortness of breath) may be delayed. May result in unconsciousness and possibly death. Severe, short-term exposures may cause long-lasting respiratory effects, e.g. Reactive Airways Dysfunction (RADS), due to the material's severe irritating properties. With this condition, asthma-like symptoms and increased reactivity of the airways is experienced.
Direct skin contact may cause corrosive skin burns, deep ulcerations and possibly permanent scarring. If product is sprayed directly on skin, symptoms of frostbite may be experienced including numbness, prickling and itching.
Corrosive to the eyes and may cause severe damage including blindness. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. If product is sprayed directly into the eyes, could cause freezing of the eye.

Information on toxicological effects

Acute toxicity

Hazardous by OSHA criteria. Classification:
Acute Toxicity (inhalation - gas) - Category 2. Fatal if inhaled.
See below for individual ingredient acute toxicity data.

Product	Species	Test Results
Chlorine (CAS 7782-50-5)		
Acute		
Dermal		
LD50	Rabbit	No data in literature.
Inhalation		
LC50	Rat	147 ppm, 4 Hours
Oral		
LD50	Rat	No data in literature.

Skin corrosion/irritation

Hazardous by OSHA criteria. Classification:
Skin corrosion/irritation - Category 1. Causes severe skin burns.

Serious eye damage/eye irritation

Hazardous by OSHA criteria. Classification:
Serious eye damage/eye irritation - Category 1. Causes serious eye damage.

Respiratory or skin sensitization

Respiratory sensitization

This product is not expected to cause respiratory sensitization.

Skin sensitizer

This product is not expected to cause skin sensitization.

Germ cell mutagenicity

Not expected to be mutagenic.

Carcinogenicity

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. See below for ingredients present on regulatory lists.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure

Hazardous by OSHA criteria. Classification:
Specific Target Organ Toxicity (STOT), Single Exposure. Category 3. May cause respiratory irritation.

Specific target organ toxicity - repeated exposure

Not expected to be hazardous by OSHA criteria.

Aspiration toxicity

Not likely, due to the form of the product. Not expected to be an aspiration hazard.

Chronic effects

Prolonged or repeated exposure to low concentrations may cause drying and cracking of the skin, respiratory effects, gum disorders and painless destruction of teeth
Limited occupational studies with long-term exposure to low concentrations, have not shown significant respiratory effects.
Long-term animal studies confirm that chlorine is a severe irritant to the upper and lower respiratory tract.

12. Ecological information

Ecotoxicity

Very toxic to aquatic life. See below for individual ingredient ecotoxicity data.

Product		Species	Test Results
Chlorine (CAS 7782-50-5)			
Aquatic			
Acute			
Crustacea	EC50	Water flea (Daphnia magna)	0.005 mg/l, 48 hours (mg Free Available Chlorine/L)
Fish	LC50	Rainbow trout,donaldson trout (Oncorhynchus mykiss)	0.014 mg/l, 96 hours

Persistence and degradability Free chlorine is consumed upon contact with living tissues making measurement of biodegradation impossible and unnecessary.

Bioaccumulative potential Not expected to be bio accumulative.

Mobility in soil The product itself has not been tested.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations Dispose in accordance with all applicable regulations.

Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

DOT

UN number UN1017

UN proper shipping name Chlorine (CHLORINE)

Transport hazard class(es)

Class 2.3

Subsidiary risk 5.1, 8

Label(s) 2.3, 5.1, 8

Packing group Not applicable.

Environmental hazards

Marine pollutant Yes

Special precautions for user Read safety instructions, SDS and emergency procedures before handling.
US CERCLA Reportable Quantity (RQ): 10 lbs / 4.54 kg

Special provisions 2, B9, B14, N86, T50, TP19

AFFIDAVIT

This is to certify that as required, all Sulfur Dioxide to be furnished to City of Hattiesburg will comply with ANSI/AWWA standards and NSF 60 Standard or as may be amended.

Cristhianne Munguia
Bid Coordinator

Subscribed and sworn to before me

SAFETY DATA SHEET

1. Identification

Product identifier **Sulfur Dioxide**

Other means of identification

SDS number AUC-009

Synonyms Sulfur oxide * Sulfurous acid anhydride * Sulfur oxide * Sulphur dioxide

Recommended use Synthetic/Analytical chemistry

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name	Allied Universal Corporation	
Address	3901 N.W. 115th Avenue Miami, FL 33178 United States	
Telephone	General:	1-305-888-2623
	24-Hour alert:	1-786-522-0207
Website	www.allieduniversal.com	
E-mail	Not available.	
Contact person	Operations Department	
Emergency phone number	CHEMTREC	1-800-424-9300 (US/Canada) +01 703-527-3887 (International)

Supplier Refer to Manufacturer

2. Hazard(s) identification

Physical hazards	Gases under pressure	Liquefied gas
Health hazards	Acute toxicity, inhalation	Category 3
	Skin corrosion/irritation	Category 1
	Serious eye damage/eye irritation	Category 1
	Germ cell mutagenicity	Category 2
	Specific target organ toxicity, single exposure	Category 3 respiratory tract irritation

Environmental hazards This mixture does not meet the classification criteria according to OSHA HazCom 2012.

OSHA defined hazards This mixture does not meet the classification criteria according to OSHA HazCom 2012.

Label elements

Signal word Danger

Hazard statement Contains gas under pressure; may explode if heated. Causes severe skin burns and eye damage. Toxic if inhaled. May cause respiratory irritation. Suspected of causing genetic defects.

Precautionary statement

Prevention Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe gas. Use only outdoors or in a well-ventilated area. Wash hands and face thoroughly after handling. Wear protective gloves/clothing and eye/face protection.

Response IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician. Specific treatment (see this label). Wash contaminated clothing before reuse.

Storage	Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	No OSHA defined hazard classes. Other hazards which do not result in classification: Toxic fumes, gases or vapours may evolve on burning. Severe, short-term exposures may cause long-lasting respiratory effects, e.g. Reactive Airways Dysfunction (RADS), due to the material's severe irritating properties. Contact with liquefied gas might cause frostbites, in some cases with tissue damage. Direct contact with liquefied gas may cause frostbite and corrosive injury to the eyes.
Supplemental information	Keep away from heat. Make sure valves on gas cylinders are fully opened when gas is used. Open cylinder valve slowly to prevent rapid decompression and damage to valve seat. Use smallest possible amounts in designated areas with adequate ventilation. Shut flow off at cylinder valve and not just at the regulator after use. Use a suitable hand truck to move cylinders; do not drag, roll, slide, or drop. Secure cylinders in an upright position at all times, close all valves when not in use. Establish written emergency plan and special training where chlorine is used. Regularly inspect and test piping and containers used for Sulfur dioxide service.

3. Composition/information on ingredients

Substances

Chemical name	Common name and synonyms	CAS number	%
Sulfur dioxide	Sulfur oxide Sulfurous acid anhydride Sulfur oxide Sulfur dioxide	7446-09-5	100

4. First-aid measures

Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. If breathing is difficult, trained personnel should give oxygen. If breathing stops, provide artificial respiration. Immediately call a POISON CENTER or doctor/physician.
Skin contact	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Do not rub area of contact. Gently remove clothing or jewelry. Carefully cut around clothing that sticks to the skin. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or doctor/physician. Discard any shoes or clothing items that cannot be decontaminated.
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Take care not to rinse contaminated water into the unaffected eye or onto the face. Do not rub eyes. Immediately call a POISON CENTER or doctor/physician.
Ingestion	Not an expected route of entry under normal conditions of use. If ingestion of a large amount does occur, call a poison control center immediately. Do not induce vomiting. Never give anything by mouth to a victim who is unconscious or is having convulsions.
Most important symptoms/effects, acute and delayed	Toxic if inhaled. Suspected of causing genetic defects. May cause severe irritation to the nose, throat, and respiratory tract. Symptoms may include coughing, choking and wheezing. Could also cause tightness in the chest, a blue discolouration of the skin (cyanosis), severe headache, nausea, vomiting and fainting. Inhalation could result in pulmonary edema (fluid accumulation). Symptoms of pulmonary edema (chest pain, shortness of breath) may be delayed. May result in unconsciousness and possibly death. Severe, short-term exposures may cause long-lasting respiratory effects, e.g. Reactive Airways Dysfunction (RADS), due to the material's severe irritating properties. With this condition, asthma-like symptoms and increased reactivity of the airways is experienced. Direct skin contact may cause corrosive skin burns, deep ulcerations and possibly permanent scarring. If product is sprayed directly on skin, symptoms of frostbite may be experienced including numbness, prickling and itching. Corrosive to the eyes and may cause severe damage including blindness. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. If product is sprayed directly into the eyes, could cause freezing of the eye.
Indication of immediate medical attention and special treatment needed	Toxic if inhaled. Immediate medical attention is required. Causes chemical burns. Symptoms may be delayed. Keep victim under observation. Medical supervision for minimum 48 hours. Provide general supportive measures and treat symptomatically.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

Suitable extinguishing media
Use media suitable to the surrounding fire such as water fog or fine spray, alcohol foams, carbon dioxide and dry chemical.

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
Pressurized container may explode when exposed to heat or flame. Vapors are heavier than air and may spread along floors. Contact with some powdered metals and with alkali metals, such as sodium or potassium may cause fires and explosions. Heat from a surrounding fire can rupture cylinders, causing a dangerous explosion and the release of toxic sulfur dioxide gas. Cylinders have fusible metal plugs, which melt at 73.9 deg C (165 deg F), releasing sulfur dioxide.

Special protective equipment and precautions for firefighters
Firefighters should wear full protective clothing including self contained breathing apparatus. Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Fire fighting equipment/instructions
Move containers from fire area if you can do so without risk. Stop the flow of gas before extinguishing fire, if safe to do so. Use water spray to direct escaping gas away from workers if it is necessary to stop the flow of gas. Cool containers exposed to heat with water spray and remove container, if no risk is involved. Stay away from ends of cylinders and withdraw immediately in case of rising sounds or discolouration of containers. Do not allow run-off from fire fighting to enter drains or water courses. Dike for water control.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
Pressurized container may explode when exposed to heat or flame. The product itself does not burn.

Hazardous combustion products
Sulfur oxides.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Restrict access to area until completion of clean-up. Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Consider initial downwind evacuation for at least 500 meters (1/3 mile). Ensure clean-up is conducted by trained personnel only. Ventilate closed spaces before entering them. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
Stop the flow of material, if this is without risk.

Environmental precautions
Avoid release to the environment. Prevent entry into waterways, sewer, basements or confined areas. Contact local authorities in case of spillage to drain/aquatic environment.

7. Handling and storage

Precautions for safe handling
Obtain special instructions before use. Use only outdoors or in a well-ventilated area. Wear protective gloves/clothing and eye/face protection. See Section 8 of the SDS for Personal Protective Equipment. Do not breathe gas. Avoid contact with eyes, skin, and clothing. Keep away from heat. Keep reduction valves free from grease and oil. Use smallest possible amounts in designated areas with adequate ventilation. Shut flow off at cylinder valve and not just at the regulator after use. Use a suitable hand truck to move cylinders; do not drag, roll, slide, or drop. Protect against physical damage. Wash hands after handling and before eating.

Conditions for safe storage, including any incompatibilities
Store in steel pressure cylinders in a cool, dry area outdoors or in well-ventilated, detached or segregated areas of non-combustible construction. Keep container tightly closed. Store locked up. Protect from sunlight. Store in a well-ventilated place. Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Store away from incompatible materials (see Section 10 of the SDS). Secure cylinders in an upright position at all times, close all valves when not in use. Use a "first in - first out" inventory system to prevent full cylinders from being stored for excessive periods of time.

8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Material	Type	Value
Sulfur dioxide (CAS 7446-09-5)	PEL	13 mg/m3
		5 ppm

US. ACGIH Threshold Limit Values

Material	Type	Value
Sulfur dioxide (CAS 7446-09-5)	STEL	0.25 ppm

US. NIOSH: Pocket Guide to Chemical Hazards

Material	Type	Value
Sulfur dioxide (CAS 7446-09-5)	STEL	13 mg/m3
		5 ppm
	TWA	5 mg/m3
		2 ppm

Biological limit values No biological exposure limits noted for the ingredient(s).

Exposure guidelines The NIOSH IDLH concentration for Sulfur dioxide is 100 ppm.

Appropriate engineering controls Ensure adequate ventilation, especially in confined areas. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. In case of insufficient ventilation, wear suitable respiratory equipment.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear eye/face protection. Chemical goggles are recommended. A full face shield may also be necessary.
Eye wash fountains are required.

Skin protection

Hand protection Wear appropriate chemical-resistant gloves. Advice should be sought from glove suppliers.

Other Wear appropriate chemical-resistant clothing. Where contact is likely, wear chemical-resistant gloves, a chemical suit and rubber boots.
Eye wash facilities and emergency shower must be available when handling this product.

Respiratory protection A NIOSH/MSHA approved air-purifying respirator with the appropriate chemical cartridges or a positive-pressure, air-supplied respirator may be used to reduce exposure.
Respirators should be selected based on the form and concentration of contaminants in air, and in accordance with OSHA (29 CFR 1910.134).
Advice should be sought from respiratory protection specialists.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Do not breathe gas. Avoid contact with eyes, skin and clothing. Handle in accordance with good industrial hygiene and safety practice. Do not eat, drink or smoke when using the product. Wash hands before breaks and immediately after handling the product. Remove soiled clothing and wash it thoroughly before reuse. Inform laundry personnel of contaminant's hazards.

9. Physical and chemical properties

Appearance

Physical state Gas.

Form Compressed liquefied gas.

Color Colorless

Odor Pungent suffocating odor

Odor threshold Not available.

pH Not available.

Melting point/freezing point -97.6 °F (-72 °C)

Initial boiling point and boiling range 14 °F (-10 °C)

Flash point Does not burn

Evaporation rate Not available.

Flammability (solid, gas) The product is not flammable.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) Not applicable

Flammability limit - upper (%)	Not applicable
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	34 psig
Vapor density	2.25 at 0°C
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Soluble
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not applicable
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Critical temperature	314.33 °F (156.85 °C)
Density	0.17 lb/ft 3
Explosive properties	Not explosive.
Molecular formula	SO2
Molecular weight	64.06 g/mol
Oxidizing properties	None known.
Specific gravity	0.17 lb/ft3

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport. Forms sulfurous acid solution on reaction with water. In some cases, sulfur dioxide behaves as both a reducing and oxidizing agent (metals such as tin, iron and magnesium burn in sulfur dioxide to form mixed sulfides and oxides).
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur. Forms sulfurous acid solution on reaction with water.
Conditions to avoid	Keep away from combustible materials. Avoid contact with incompatible materials. Keep away from heat. Keep away from direct sunlight. Do not use in areas without adequate ventilation. Exposure to water vapor.
Incompatible materials	Chlorates. Metal Oxides. Potassium. Sodium. Fluorine. Halogens. Acetylides. Bases.
Hazardous decomposition products	None known, refer to hazardous combustion products in Section 5.

11. Toxicological information

Information on likely routes of exposure

Inhalation	Toxic if inhaled. May cause severe irritation to the nose, throat, and respiratory tract.
Skin contact	Causes skin burns. Contact with liquefied gas might cause frostbites, in some cases with tissue damage. Not expected to be absorbed through the skin.
Eye contact	Causes severe eye burns. If product is sprayed directly into the eyes, could cause freezing of the eye.
Ingestion	Not an expected route of entry under normal conditions of use.

Most important symptoms/effects, acute and delayed

Toxic if inhaled.
Suspected of causing genetic defects. May cause severe irritation to the nose, throat, and respiratory tract. Symptoms may include coughing, choking and wheezing. Could also cause tightness in the chest, a blue discolouration of the skin (cyanosis), severe headache, nausea, vomiting and fainting. Inhalation could result in pulmonary edema (fluid accumulation). Symptoms of pulmonary edema (chest pain, shortness of breath) may be delayed. May result in unconsciousness and possibly death. Severe, short-term exposures may cause long-lasting respiratory effects, e.g. Reactive Airways Dysfunction (RADS), due to the material's severe irritating properties. With this condition, asthma-like symptoms and increased reactivity of the airways is experienced.
Direct skin contact may cause corrosive skin burns, deep ulcerations and possibly permanent scarring. If product is sprayed directly on skin, symptoms of frostbite may be experienced including numbness, prickling and itching.
Corrosive to the eyes and may cause severe damage including blindness. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. If product is sprayed directly into the eyes, could cause freezing of the eye.

Information on toxicological effects

Acute toxicity

Hazardous by OSHA criteria. Acute Toxicity (inhalation - gas) - Category 3. Toxic if inhaled.

Product	Species	Test Results
Sulfur dioxide (CAS 7446-09-5)		
Acute		
Dermal		
		No Data in Literature
Inhalation		
LC50	Rat	1260 ppm, 4 hours
Oral		
		No Data in Literature

Skin corrosion/irritation

Hazardous by OSHA criteria. Classification:
Skin corrosion/irritation - Category 1 Causes severe skin burns.

Serious eye damage/eye irritation

Hazardous by OSHA criteria. Classification:
Serious eye damage/eye irritation - Category 1 Causes serious eye damage.

Respiratory or skin sensitization

Respiratory sensitization

This product is not expected to cause respiratory sensitization. May cause asthma-like reaction in hyper-sensitive persons.

Skin sensitizer

This product is not expected to cause skin sensitization.

Germ cell mutagenicity

Hazardous by OSHA criteria. Classification: Germ cell mutagenicity - Category 2
Suspected of causing genetic defects.

Carcinogenicity

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. See below for ingredients present on regulatory lists.

IARC Monographs. Overall Evaluation of Carcinogenicity

Sulfur dioxide (CAS 7446-09-5) 3 Not classifiable as to carcinogenicity to humans.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure

Hazardous by OSHA criteria. Classification:
Specific Target Organ Toxicity (STOT), Single Exposure. Category 3. May cause respiratory irritation.

Specific target organ toxicity - repeated exposure

Not expected to be hazardous by OSHA criteria.

Aspiration toxicity

Not expected to be an aspiration hazard.

Chronic effects

Prolonged or repeated inhalation of fumes or vapours, may cause chronic lung effects, such as bronchitis.

12. Ecological information

Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

Biodegradation is not applicable to inorganic substances.

Bioaccumulative potential	Not expected to be bio accumulative.
Mobility in soil	High water solubility indicates a high mobility in soil.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

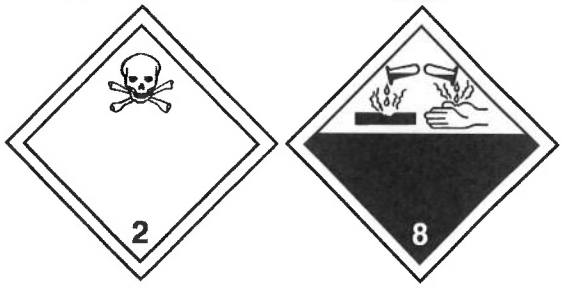
DOT

UN number	UN1079
UN proper shipping name	Sulfur dioxide (RQ = 500)
Transport hazard class(es)	
Class	2.3
Subsidiary risk	8
Label(s)	2.3, 8
Packing group	Not applicable.
Special precautions for user	Read safety instructions, SDS and emergency procedures before handling. US CERCLA Reportable Quantity (RQ): 10 lbs / 4.54 kg
Special provisions	3, B14, T50, TP19
Packaging exceptions	None
Packaging non bulk	304
Packaging bulk	314, 315

IATA

UN number	UN1079
UN proper shipping name	Sulfur dioxide
Transport hazard class(es)	
Class	2.3
Subsidiary risk	8
Packing group	Not applicable.
Environmental hazards	No.
ERG Code	2CP
Special precautions for user	Read safety instructions, SDS and emergency procedures before handling. Refer to Special Provision A2 for shipping information.
Other information	
Passenger and cargo aircraft	Forbidden
Cargo aircraft only	Forbidden

IMDG



UN number	UN1079
UN proper shipping name	Sulfur Dioxide
Transport hazard class(es)	
Class	2.3
Subsidiary risk	8
Packing group	Not applicable.
Environmental hazards	
Marine pollutant	No.
EmS	F-C, S-U
Special precautions for user	Read safety instructions, SDS and emergency procedures before handling.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not available.

DOT

IATA; IMDG

General information None.

15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
All components are on the U.S. EPA TSCA Inventory List.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

WARRANTY DEED

INDEXING INSTRUCTIONS: Part of Lot 6, Block 19 of the Pinecrest Second Survey, City of Hattiesburg, NW ¼ of the NW ¼ of Section 7, T-4-N, R-13-W, Forrest County, Mississippi

WHEREAS, **LLOYD M. MILLER,** is the owner of certain property as described below and desires to dedicate said property to the **City of Hattiesburg, a Municipal Corporation,** for sidewalk construction along 38th Avenue; and

WHEREAS, the **City of Hattiesburg** is willing to accept dedication of such property thereof further described herein below;

NOW, THEREFORE, and in consideration of EIGHT THOUSAND, TWO HUNDRED THIRTEEN AND NO/1OO DOLLARS ($8,213.00), cash in hand paid, the Grantor hereby grant, bargain, sell, convey and warrant for public use and maintenance to the Grantee and its successors and assigns (hereafter, all references to the Grantee include its successors and assigns), the following described property lying and being situated in Forrest County, Mississippi, and being more particularly described as follows, to-wit:

A parcel of land being located in Lot 6 and part of a vacated alley, Block 19 of the Pine Crest Second Survey to the City of Hattiesburg, Forrest County, Mississippi, having bearings based upon Grid North and being more particularly described as follows:

Beginning at the Northwest Corner of Lot 6, Block 19 of the Pine Crest Second Survey to the City of Hattiesburg, said point also being a point on the Southern right-of-way of Montague Boulevard, thence run along said right-of-way South 88 degrees 49 minutes 11 seconds East for a distance of 21.90 feet;

Initials: _____

Forrest County Tax Parcel No. 2-028L-07-145.00 **38th Avenue Project**

thence leaving said right-of-way run South 06 degrees 37 minutes 10 seconds West for a distance of 86.45 feet; thence run South 00 degrees 13 minutes 38 seconds West for a distance of 37.85 feet; thence run South 90 degrees 00 minutes 00 seconds West for a distance of 1.00 feet; thence run South 00 degrees 20 minutes 56 seconds West for a distance of 39.40 feet to a point on the centerline of a vacated alley; thence run along said centerline North 88 degrees 45 minutes 09 seconds West for a distance of 11.23 feet to a point on the Eastern right-of-way of North 38th Avenue; thence run along said right-of-way North 00 degrees 14 minutes 29 seconds East for a distance of 163.33 feet back to the POINT OF BEGINNING. Said parcel contains 0.05 acres (2,381 square feet), more or less.

For the same consideration, the undersigned, does hereby grant, bargain, sell, convey and warrant unto the City of Hattiesburg, Mississippi, a municipal corporation for construction purposes a temporary easement, with full and free right, liberty and authority to enter upon and dig, construct and maintain incidental construction through, over, on and across the following described land:

A parcel of land being located in Lot 6 and part of a vacated alley, Block 19 of the Pine Crest Second Survey to the City of Hattiesburg, Forrest County, Mississippi, having bearings based upon Grid North and being more particularly described as follows:

Commencing at the Northwest Corner of Lot 6, Block 19 of the Pine Crest Second Survey to the City of Hattiesburg, said point also being a point on the Southern right-of-way of Montague Boulevard, thence run along said right-of-way South 88 degrees 49 minutes 11 seconds East for a distance of 21.90 feet to and for the POINT OF BEGINNING; thence continue along said right-of-way South 88 degrees 49 minutes 11 seconds East for a distance of 10.05 feet; thence leaving said right-of-way run South 06 degrees 37 minutes 10 seconds West for a distance of 86.84 feet; thence run South 00 degrees 13 minutes 38 seconds West for a distance of 34.98 feet; thence run North 90 degrees 00 minutes 00 seconds East for a distance of 3.00 feet; thence run South 00 degrees 00 minutes 00 seconds East for a distance of 41.99 feet to a point on the centerline of a vacated alley; thence run along said centerline North 88 degrees 45 minutes 09 seconds West for a distance of 14.25 feet; thence run North 00 degrees 20 minutes 56 seconds East for a distance of 39.40 feet; thence run North 90 degrees 00 minutes 00 seconds East for a distance of 1.00 feet; thence run North 00 degrees 13 minutes 38 seconds East for a distance of 37.85 feet; thence run North 06 degrees 37 minutes 10 seconds East for a distance of 86.45 feet back to the POINT OF BEGINNING. Said parcel contains 0.04 acres (1,808 square feet), more or less.

This dedication shall run with the land and be binding upon the parties, their successors, assigns, personal representatives and heirs.

The grantor herein further warrants that the above described property is no part of a homestead.

Nothing in this deed shall create any right in the public or any third party to maintain any suit or action against any party hereto.

If any provision of this deed is determined to be invalid by a court of competent jurisdiction, the remainder of this deed shall not be affected thereby.

The Grantee, acting by and through its Mayor, duly authorized by action of City Council of the City of Hattiesburg, accepts the conveyance of the property described hereinabove.

The Grantor does hereby acknowledge full satisfaction all rights and privileges pursuant to Public Law 91-646, and under the "Real Property Acquisition Policies Law," plus any rights and privileges under the "Relocation Assistance Law," as well as any rights under Mississippi Code Section 43-37-3 pertaining to acquisition of property by public agencies.

The Grantor fully understands that it has the right to receive just compensation for the real property herein described based on an appraisal of said property, and accepts the above stated consideration as just compensation for the real property.

Initials: _____

It is further understood and agreed that the consideration herein named is in full, complete and final payment and settlement of any claims or demands for damage accrued, accruing, or to accrue to the grantor herein, its successors, assigns, or legal representatives, for or on account of the construction of the proposed highway, change of grade, water damage, and/or any other damage, right or claim whatsoever.

It is further understood and agreed that this instrument constitutes the entire agreement between the grantor and the grantee, there being no oral agreements or representations of any kind.

WITNESS THE SIGNATURE of the undersigned as of the 2nd day of November, 2018.

FORREST COUNTY CIRCUIT CLERK

VERSUS **CIVIL ACTION NO. C018-790**

JOE CLAYTON, THE STATE OF MISSISSIPPI, THE HATTIESBURG PUBLIC SCHOOL DISTRICT, AND ANY AND ALL OTHER PARTIES HAVING AN INTEREST IN THAT PROPERTY DESCRIBED AS COMMENCE AT THE NORTHWESTERN CORNER OF LOT 11, BLOCK 2 OF THE E. P. CASSIDY SURVEY OF THE CITY OF HATTIESBURG, LOCATED IN THE NW 1/4 OF THE NW 1/4 OF SECTION 16, T-4-N, R-13-W, FORREST COUNTY, MS; AND THENCE RUN SOUTHWESTERLY ALONG THE WESTERN LINE OF SAID LOT 11 FOR 130 FEET TO AND FOR THE POINT-OF-BEGINNING, THENCE CONTINUE SOUTHWESTERLY ALONG THE WESTERN LINE OF SAID LOT 11 FOR 50 FEET TO THE SOUTHWESTERN CORNER OF SAID LOT 11, AND THENCE RUN SOUTHEASTERLY ALONG THE SOUTHERN LINE OF SAID LOT 11 FOR 69.73 FEET TO THE SOUTHEASTERN CORNER OF SAID LOT 11, THENCE RUN NORTHEASTERLY ALONG THE EASTERN LINE OF SAID LOT 11 FOR 50 FEET, THENCE RUN NORTHWESTERLY FOR 69.73 FEET BACK TO THE POINT-OF- BEGINNING. THE ABOVE HEREIN DESCRIBED PERMANENT EASEMENT CONTAINS 0.08 ACRES, MORE OR LESS.

JUDGMENT

IN THIS CAUSE, Plaintiff, City of Hattiesburg, Mississippi, a municipal corporation, filed a Complaint to Condemn on August 29, 2018, to acquire certain property described in Exhibit "A" attached hereto and incorporated herein. The Court finds that process was served according to law and all parties are before the Court, and that the Court has jurisdiction over the parties and the subject matter.

THIS CAUSE came on to be heard on the 7th day of November, 2018. The Court called this matter for hearing and counsel for Plaintiff made an appearance on behalf of Plaintiff.

At the request of Plaintiff, this matter was submitted to the Court pursuant to §11-27-13, Mississippi Code of 1972, Annotated, without a jury. The Court called on Plaintiff to provide

testimony concerning the value of the property in question and public use thereof. Plaintiff, having filed a Statement of Value in this cause, offered testimony in support of said value as to the amount of just compensation that would be due Defendants as a result of this condemnation. Defendants, having filed no Statement of Value, offered no evidence as to the amount of just compensation due.

The Court finds that an Entry of Appearance and Disclaimer was filed by the Hattiesburg Public School District by its General Counsel, Hon. Percy Watson; the State of Mississippi was served with process by service on Hon. Jim Hood, Attorney General; Plaintiff was unable to serve the summons and complaint to Joe Clayton after multiple attempts; that the Plaintiff proceeded to publish summons by publication for Joe Clayton and any and all unknown parties in *The Hattiesburg Post*, a newspaper published in Forrest County, Mississippi, on September 13th, September 20th and September 27th, 2018; that the Proof of Publication is on file with the Clerk of this Court.

The Court, having heard and considered the testimony offered in this matter, FINDS, ADJUDICATES AND ORDERS as follows:

1. That the amount of just compensation due Defendants for the taking of Defendants' property as described in Exhibit "A" attached hereto is $2,092.00, which is the total amount due inclusive of all interest, and that the subject property is being acquired by Plaintiff for a public use.
2. Based upon the testimony provided to the Court, the Court directs the Clerk, upon receipt of all compensation from Plaintiff, to disburse all such funds to all Defendants.

3. That this Court does hereby vest title and possession to the property described in Exhibit "A" in Plaintiff, and it may be appropriated to the public use as prayed for in the Complaint; let Plaintiff pay the costs, for which execution may issue.
4. That the Chancery Clerk of Forrest County, Mississippi, is hereby ordered to cancel that certain Lis Pendens Notice filed in Lis Pendens Book 11 at page 248.
5. That a copy of this Judgment shall be certified and filed in the Land Deed records of the Chancery Clerk's office of Forrest County, Mississippi, and be enrolled according to law.

SO ORDERED AND ADJUDGED on this, the 1st day of November, 2018.

HONORABLE MICHAEL W. MCPHAIL,
JUDGE, SPECIAL COURT OF EMINENT DOMAIN

THE STATE OF MISSISSIPPI

County of Forrest

City of Hattiesburg

For and in consideration of the sum of Ten Dollars ($10.00), cash in hand paid, and other good and valuable considerations, including the benefits to be derived herefrom, the receipt and sufficiency of which is hereby acknowledged, I/we, the undersigned (the "Grantor"), hereby grant, bargain, sell, and convey unto the City of Hattiesburg, Mississippi, a municipal corporation, **Permanent Right-of-Way** over, across and upon a parcel of real property, for the construction and maintenance of sidewalks and lighting (the "Right of Way Easement Area") situated and located in the City of Hattiesburg, County of Forrest, State of Mississippi, more particularly and certainly described as follows:

A parcel of land being located in Lot 1 and 11, Block 1 of Southern Heights Subdivision in the City of Hattiesburg, Forrest County, Mississippi, having bearings based upon Grid North and being more particularly described as follows:

Beginning at the Northwest Corner of Lot 1, Block 1 of Southern Heights Subdivision in the City of Hattiesburg, said point also being a point on the Southern right-of-way of West Fourth Street, thence run along said right-of-way South 71 degrees 27 minutes 31 seconds East for a distance of 22.71 feet; thence leaving said right-of-way run South 31 degrees 45 minutes 33 seconds West for a distance of 10.94 feet; thence run South 74 degrees 02 minutes 29 seconds West for a distance of 22.49 feet; thence run South 36 degrees 05 minutes 32 seconds West for a distance of 14.43 feet; thence run South 29 degrees 30 minutes 34 seconds West for a distance of 6.61 feet; thence run South 26 degrees 18 minutes 27 seconds West for a distance of 35.92 feet; thence run South 28 degrees 45 minutes 55 seconds West for a distance of 54.31 feet; thence run South 24 degrees 27 minutes 31 seconds West for a distance of 54.45 feet; thence run South 24 degrees 42 minutes 10 seconds West for a distance of 15.74 feet; thence run South 67 degrees 27 minutes 56 seconds East for a distance of 3.46 feet; thence run South 24 degrees 01 minutes 35 seconds West for a distance of 4.32 feet to a point on the South line of Lot 11; thence run along the South line of said Lot 11 North 77 degrees 23 minutes 02 seconds West for a distance of 11.56 feet to a point on the Eastern right-of-way of North 38th Avenue; thence run and along said right-of-way North 27 degrees 51 minutes 56 seconds East for a distance of 211.00 feet back to the POINT OF BEGINNING. Said parcel contains 0.03 acres (1,268 square feet), more or less.

The Grantee herein is given full rights to do whatever may be reasonably necessary and proper for the enjoyment of the Right-of-Way Easement granted herein, including the right of ingress and egress and the right to clear said Easement Area of selected vegetation such as shrubs, trees, and other vegetation, change of grade, installation and/or removal of pavements and any other structure named herein or otherwise as may be necessary to maintain a said Easement Area. The Grantee will restore any damage to the Grantor's adjacent property caused by this action or Grantee's use of the Easement Area.

I, the undersigned (the "Grantor"), hereby grant, bargain, sell, and convey unto the City of Hattiesburg, Mississippi, a municipal corporation, **Temporary Construction Easement** over, across and upon a parcel of real property, for the construction and maintenance of sidewalks and lighting (the "Temporary Constructions Easement Area") situated and located in the City of Hattiesburg, County of Forrest, State of Mississippi, more particularly and certainly described as follows:

A parcel of land being located in Lot 1 and 11, Block 1 of Southern Heights Subdivision in the City of Hattiesburg, Forrest County, Mississippi, having bearings based upon Grid North and being more particularly described as follows:
Commencing at the Northwest Corner of Lot 1, Block 1 of Southern Heights Subdivision in the City of Hattiesburg, said point also being a point on the Southern right-of-way of West Fourth Street, thence run along said right-of-way South 71 degrees 27 minutes 31 seconds East for a distance of 22.71 feet to and for the POINT OF BEGINNING; thence continue along said right-of-way South 71 degrees 27 minutes 31 seconds East for a distance of 5.14 feet; thence leaving said right-of-way run South 31 degrees 45 minutes 33 seconds West for a distance of 14.05 feet; thence run South 74 degrees 02 minutes 29 seconds West for a distance of 22.71 feet; thence run South 36 degrees 05 minutes 32 seconds West for a distance of 12.43 feet; thence run South 29 degrees 30 minutes 34 seconds West for a distance of 6.18 feet; thence run South 26 degrees 18 minutes 27 seconds West for a distance of 35.88 feet; thence run South 28 degrees 45 minutes 55 seconds West for a distance of 54.22 feet; thence run South 24 degrees 27 minutes 31 seconds West for a distance of 54.28 feet; thence run South 24 degrees 42 minutes 10 seconds West for a distance of 19.62 feet to a point on the South line of Lot 11; thence run along the South line of said Lot 11 North 77 degrees 23 minutes 02 seconds West for a distance of 1.52 feet; thence run North 24 degrees 01 minutes 35 seconds East for a distance of 4.32 feet; thence run North 67 degrees 27 minutes 56 seconds West for a distance of 3.46 feet; thence

run North 24 degrees 42 minutes 10 seconds East for a distance of 15.74 feet; thence run North 24 degrees 27 minutes 31 seconds East for a distance of 54.45 feet; thence run North 28 degrees 45 minutes 55 seconds East for a distance of 54.31 feet; thence run North 26 degrees 18 minutes 27 seconds East for a distance of 35.92 feet; thence run North 29 degrees 30 minutes 34 seconds East for a distance of 6.61 feet; thence run North 36 degrees 05 minutes 32 seconds East for a distance of 14.43 feet; thence run North 74 degrees 02 minutes 29 seconds East for a distance of 22.49 feet; thence run North 31 degrees 45 minutes 33 seconds East a distance of 10.94 feet back to the POINT OF BEGINNING. Said parcel contains 0.02 acres (1,082 square feet), more or less.

Grantor shall remain responsible for ad valorem taxes.

This dedication shall run with the land and be binding upon the parties, their successors, assigns, personal representatives and heirs.

The grantor herein further warrants that the above described property is no part of a homestead.

Nothing in this deed shall create any right in the public or any third party to maintain any suit or action against any party hereto.

If any provision of this deed is determined to be invalid by a court of competent jurisdiction, the remainder of this deed shall not be affected thereby.

The Grantee, acting by and through its Mayor, duly authorized by action of City Council of the City of Hattiesburg, accepts the conveyance of the property described hereinabove.

The Grantor acknowledges the existence of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91-646, and acknowledge that it is aware of its rights under said Act, including but not limited to:

(1) Notification of the Grantee's desire to obtain the property enclosing a copy of the Act;

(2) An opportunity to receive an appraisal and to accompany the appraiser during the initial inspection, and

(3) An opportunity to have the value of the property determined by a court of competent jurisdiction and to be compensated therefor.

The Grantor does hereby waive all rights and privileges pursuant to Public Law 91-646, and under the "Real Property Acquisition Policies Law," plus any rights and privileges under the "Relocation Assistance Law," as well as any rights under Mississippi Code Section 43-37-3 pertaining to acquisition of property by public agencies.

The Grantor fully understands that it has the right to receive just compensation for the real property herein described based on an appraisal of said property. The Grantor waives its right to just compensation from the Grantee and donates the real property herein described to the City of Hattiesburg, Mississippi.

The Grantor further understands that it has the right to request that a fair market value appraisal of the property be made and the Grantor hereby waives that right.

_____ (Initial of Grantor or Grantor's designated representative)

_____ (Initial of City's designated representative).

It is further understood and agreed that the consideration herein named is in full, complete and final payment and settlement of any claims or demands for damage accrued, accruing, or to accrue to the grantor herein, its successors, assigns, or legal representatives, for or on account of the construction of the proposed highway, change of grade, water damage, and/or any other damage, right or claim whatsoever.

It is further understood and agreed that this instrument constitutes the entire agreement between the grantor and the grantee, there being no oral agreements or representations of any kind.

WITNESS THE SIGNATURE of the undersigned as of the 5th day of November, 2018.

Grantor:

R. Allen Morgan

R. ALLEN MORGAN

COUNTY OF Lamar

Personally appeared before me, the undersigned authority in and for the said county and state, on this 5th day of December, 2018, within my jurisdiction, the within named **R. ALLEN MORGAN**, who acknowledged that he executed the above and foregoing instrument.
