**Planning Commission
Case Fact Sheet**

Applicant: City of Hattiesburg

Request: To consider an application to amend the Comprehensive Plan. Amendments are proposed within the text as well as the Future Land Use Map, Appendix C: Maps. The general intent of the proposed amendment is to support commercial activity along the Dabbs Street Corridor of both existing and new businesses.

Applicant Summary: The request is to amend Chapter 7 Land Use and Development, Hattiesburg's Districts and Corridors, Neighborhood Business Corridors, Pg. 119 to include the following within the existing list: "Dabbs Street: From intersection at Pauline Avenue to Fredna Avenue." And also to amend the Future Land Use Map, Appendix C: Map C-6. The entire extent of Dabbs Street is currently shown as "Neighborhood Conservation District 1" The City requests to amend as follows: Amend the map to show an extend of Dabbs Street as Neighborhood Center Mixed-Use District, specifically from Pauline Avenue to Fredna Avenue.

The proposed changes would recognize and support the historically commercial corridor which was not previously identified in the 2008-2028 Comprehensive Plan.

Applicable Regulations: **What is the Future Land-Use Map?** (Comp Plan Pg. 93)

A future land-use map depicts the long-range plan for the desirable use of land within the city. The map designates how land should be used or re-used and should serve as a guide for decision-making by property owners, developers, appointed boards (Land Development Code Board of Adjustment and Hattiesburg Planning Commission), and the Hattiesburg City Council. The future land use plan, including the narrative and

map, should be the reference used to update the current land development code and the existing zoning map in order to provide the regulations needed to implement the goals and objectives of the 20 year plan.

Upon adoption of the comprehensive plan by the Hattiesburg City Council, the map and narrative become the city's guiding land-use policy. If any petitions (zoning changes, use or development permits, subdivisions, ordinance amendments, etc.) are approved by the city that are not consistent with the future land use plan, an amendment to reflect the change(s) to the future land use plan and future land use map should be adopted by the city.

Special Residential Districts (Comp Plan Pg. 95)

Neighborhood Conservation District 1 – Downtown/Historic

Neighborhoods - This Neighborhood Conservation District is primarily a residential district located adjacent to Downtown Hattiesburg and in older, established neighborhoods east of U.S. Highway 49. In this district, predominantly-residential land uses may be found that exhibit certain types of development patterns.

District Characteristics - The characteristics of this district include the following: moderate-density single-family residences or residential lands along the city's original street system; certain two-family and multi-family uses constructed to the character of the surrounding neighborhood; buildings with shallow front and side yards; certain neighborhood business land uses that are compatible in design to the surrounding residential areas; and a higher overall density of development than modern or suburban neighborhoods.

District Land Uses - The following land uses should be found in this district: single-family residential uses; certain two-family and multi-family residences, subject to use, density, and design guidelines; public and quasi-public uses, such as churches and schools; and small offices and retail uses clustered along collector streets or at the edges of neighborhoods and constructed to the same character as the surrounding residences.

Special Mixed-Use Districts

Neighborhood Center Mixed-Use District (Comp Plan Pg. 100)

Neighborhood Mixed-Use Districts provide locations for a range of compatible uses that primarily serve neighborhood residents, area businesses and employment centers, and visitors drawn to the special district. In this district, a mix of land uses may be found that complement the character of the surrounding neighborhoods and/or employment centers, and allow the extension of certain non-residential land uses to properties that had previously been used as residences.

Areas with this designation contain residential properties in

transition and a mix of existing types. Residential properties in transition are considered to be properties that are vacant, abandoned, or temporarily rented until a viable use is identified. Minor changes in these areas, such as increases in traffic, encroachment of non-residential uses, and high vacancy rates, give the perception that single-family, owner-occupied housing is no longer sustainable.

This description does not include areas characterized as follows: a majority of the properties are occupied as residential properties; non-residential uses have not yet penetrated the residential block; and non-residential uses are only proposed to satisfy the desires of the owner(s) of a single property.

District Characteristics - The characteristics of this district include the following: a mix of building types; residential buildings that have been converted to non-residential uses, such as offices; buildings with shallow front and side yards; small private parking areas and shared parking in public lots; green space in the form of smaller private yards and courtyards; and buildings with both residential and commercial uses.

District Land Uses - The following land uses should be found in this district: single-family residential uses; accessory apartments; small townhome developments (six to eight units per acre; development sizes no greater than two acres); second-floor apartments over retail or service businesses; smaller, low-intensity retail and service businesses, such as specialty shops, delis and cafes; public and quasi-public uses, such as churches, schools and public offices; arts-related businesses; and small offices in converted residences or new buildings constructed to the same character as the surrounding neighborhood.

**Letters or
Concerns stated:**

The Planning Division Office has not received any letters or other written communications relative to this case as of August 22, 2018.

History / Background:

A neighborhood meeting was hosted by the City of Hattiesburg on July 30, 2018, 6 p.m. to 8 p.m., at the Holy Rosary Church, 900 Dabbs St. All addresses within 1,500ft. of the section of Dabbs Street in question were contacted via mail. The attendees were asked to provide information about existing uses located on Dabbs Street, what uses they believe would be appropriate for the area, and what businesses would not be appropriate. A summary of the responses is included in this report.

The response from area residents clearly supported commercial development in the area as well as the preservation of a historically commercial corridor.

Basis for Approval:

Recommend **APPROVAL** or **DENIAL** of the request to amend Chapter 7 Land Use and Development, Hattiesburg's Districts and Corridors, Neighborhood Business Corridors, Pg. 119 to include the following within the existing list: "Dabbs Street: From intersection at Pauline Avenue to Fredna Avenue." And also to amend the Future Land Use Map, Appendix C: Map C-6 to show an extent of Dabbs Street as Neighborhood Center Mixed-Use District, specifically from Pauline Avenue to Fredna Avenue. The general intent of the proposed amendment is to support commercial activity along the Dabbs Street Corridor of both existing and new businesses.

Letters or Concerns stated:

The Planning Division Office has received a letter or other written communications relative to this case. Such letter is included in this report.

History / Background:

A neighborhood meeting was hosted by the City of Hattiesburg on July 30, 2018, 6p.m. to 8 p.m., at the Holy Rosary Church, 900 Dabbs St. All addresses within 1,500ft. of the section of Dabbs Street in question were contacted via mail. The attendees were asked to provide information about existing uses located on Dabbs Street, what uses they believe would be appropriate for the area, and what businesses would not be appropriate. A summary of the responses is included in this report. Many of the desired uses are currently permissible in the existing B-2 (Neighborhood Business) District zoned parcels. Additionally, many of the undesirable uses would be permissible if the zoning is changed to B-3 (Community Business) District.

A change to B-3 zoning would affect the developable space within the lots. See setbacks provided above. The size of the existing lots may require front setback variances for new development under the B-3 (Community Business) District dimensional standards.

The changes proposed to the Comprehensive plan support commercial development as well as continued growth within the commercially zoned properties.

Basis for Approval:

1. There is a mistake in the original zoning.
2. The character of the neighborhood (**has / has not**) changed substantially so that rezoning is clearly justified and there (**is / is not**) a public need for the rezoning
3. Annexation

RE: Dabbs Street possible rezoning and Comprehensive Plan Amendment

Dear Resident and/or Property Owner,

In recent months, the administration has had an ongoing conversation with business and property owners along a certain section of Dabbs Street. There appears to be considerable interest in seeing this area thrive as an entertainment district and to better enable some of the proprietors to pursue business interests along those lines. We believe that there is a strong history of business use along this section of Dabbs Street and that with the vision and support of the current business owners, this area and these businesses can thrive. To that end, the Katie-John Dabbs Street Neighborhood Association has petitioned the City to change the zoning from B-2 Neighborhood Business to B-3 Community Business along Dabbs Street on their behalf.

In order to support a change in the zoning of this area, the City's Comprehensive Plan should also be considered for an amendment to support an increase in commercial activity. Both the Future Land Use Map as well as text within the Comprehensive Plan would need to be amended to support an increase in commercial activity.

To discuss this further, the City would like to hear from you, the community. A meeting will be held as an opportunity to learn from the community about what changes are most desirable in the vicinity of the Dabbs Street corridor. We would like to invite you to attend a public meeting at **Holy Rosary, 900 Dabbs Street, on Monday, July 30th from 6 p.m. to 8 p.m.** You may come and go at any time during this meeting. This meeting will be about listening to the neighborhood about what you see as a desirable future for this corridor.

If you are unable to attend, please feel free to provide comments by email to the Planning Division at planning@hattiesburgms.com, or provide a letter to the Planning Division located in City Hall. You may also mail our division at Planning Division, P. O. Box 1898, Hattiesburg MS, 39403. We ask that all written correspondence be delivered by **July 31st**.

Sincerely,

Dear Mrs. Lowery:

Residents in Ward 2 have voiced concerns regarding the noise level and other activities associated with the Saturday Festivals held from mornings to late evenings. Certain residents do work weekends, morning and/or evening shifts. In addition, Dabbs Street in particular, attract mainly undesirable individuals, who engage frequently in violent and unlawful behavior. Alcohol distribution and consumption are not the solution to family planned event where children and under-aged teenagers are present. Social activities designed for adults should not be confused with youth functions.

Also, many residents are unaware of scheduling of neighbor meetings, elections of officers, or the designated businesses operating in the community and the established leadership. Public announcements and mailings are non-existent except for a few households.

These are only a few of many concerns in the neighborhood. Thank you for your attention to these matters.

Sincerely,

Margaret Dwight Shelton,
Business and property owner/ Vice- Chairperson, Hattiesburg Historic Conservation Commission

DETAIL EXPLANATION OF NECESSITY OF WORK INVOLVED:

Due to the unforeseen delays by the Railroad during construction, the Contractor was not able to complete the remaining work in the Railroad Right-of-Way for the allotted time in the Contract which is 70 working days. The 70th working day was assessed on May 31, 2018. The time allotted in the Contract for the work in the Railroad Right of way is 30 calendar days. The time request of 56 working days is based on: 15.5 days assessed in June; an anticipated assessment of 20 working days in July, and an anticipated assessment of 20 working days in August.

Attention: Mr. Carter Carroll, President
City of Hattiesburg
Post Office Box 1898
Hattiesburg, Mississippi 39401

Dear Mr. Carroll,

We are pleased to confirm our understanding of the terms of our engagement and the nature and limitations of the services we are to provide for the City of Hattiesburg.

We will apply the agreed-upon procedures listed in the attached schedule that were specified and agreed to by the City of Hattiesburg (specified party) to the financial records, policies and procedures of the City of Hattiesburg's Municipal Court Operations for the year ended September 30, 2017. Our engagement to apply agreed-upon procedures will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures performed or to be performed is solely the responsibility of the City of Hattiesburg, and we will require an acknowledgment in writing of that responsibility. Consequently, we make no representation regarding the sufficiency of the procedures described in the attached schedule either for the purpose for which the agreed-upon procedures report has been requested or for any other purpose.

Because the agreed-upon procedures listed in the attached schedule do not constitute an examination or review, we will not express an opinion or conclusion on the financial records and contract documents. In addition, we have no obligation to perform any procedures beyond those listed in the attached schedule.

We will issue a written report upon completion of our engagement that lists the procedures performed and our findings and recommendations. Our report will be addressed to the City Council and Administration of the City of Hattiesburg. If, for any reason, we are unable to complete any of the procedures, we will describe in our report any restrictions on the performance of the procedures, or not issue a report and withdraw from this engagement. You understand that the report is intended solely for the information and use of the City of Hattiesburg, and should not be used by anyone other than these specified parties. Our report will contain a paragraph indicating that had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

An agreed-upon procedures engagement is not designed to detect instances of fraud or noncompliance with laws or regulations; however, we will communicate to you any known and suspected fraud and noncompliance with laws or regulations affecting the financial records, policies and procedures of the City of Hattiesburg's Municipal Court Operations that come to our attention. In addition, if, in connection with this engagement, matters come to our attention that contradict the findings of previous information related to the financial records, policies and procedures of the City of Hattiesburg's Municipal Court Operations, we will disclose those matters in our report. Such disclosures, if any, may not necessarily include all matters that might have come to our attention had we performed additional procedures or an examination or review.

2018 Solid Waste Assistance Grant

City of Hattiesburg Project Narrative & Budget

Project Narrative:

The City of Hattiesburg, City of Petal, Forrest County, Lamar County, and the University of Southern Mississippi plan to use the Solid Waste Assistance Grant funds to implement its “Pine Belt Right Way to Throw Away Day 2019” program to collect household hazardous waste on April 20, 2019 from 8:00 a.m. to 2:00 p.m. The region would like to establish the third Saturday of each April, which is the Saturday of Earth Day, to be known as the Pine Belt Right-Way-to-Throw-Away Day.

Due to the response from previous years, it is clear that the presence of the MDEQ external funding is mandatory to complete the event successfully, as public response and interest has grown and continues to grow throughout the year.

The Pine Belt Stormwater Committee will again sponsor the event, and the service area will include the City of Hattiesburg, City of Petal, University of Southern Mississippi, Forrest County and Lamar County. Hattiesburg will again act as applicant and administrator for the grant. A significant number of visitors from Perry County, Stone County and Pearl River County are anticipated. The City of Hattiesburg will continue to use Complete Environmental and Remediation Company as the contractor to dispose of the household hazardous waste. According to the 2010 U.S. Census, the population of the City of Hattiesburg is 45,989. The City of Petal’s population is 10,454. Forrest County has a population of 74,934 and Lamar County has a population of 55,658. In addition, the University of Southern Mississippi is home to almost 15,000 students.

Public education of the event will occur through press releases to the media and through Public Service Announcements (PSA) that will be in cooperation with the *Keep Hattiesburg Beautiful* and local *Keep Mississippi Beautiful* campaigns. Since the first *Hattiesburg Right Way to Throw Away Day* in 1997, the number of vehicles bringing goods for proper disposal has steadily increased. In 2007, Hattiesburg partnered with Forrest County, Lamar County, City of Petal and University of Southern Mississippi to hold our area’s first multi-jurisdictional “Right Way to Throw Away Day” event.

We continually receive calls with requests to hold the event again, and we will be pursuing the possibility of establishing a permanent collection site in the future.

Project Budget

The 2019 proposed budget for this project is \$120,000.00. The figures are based on the costs of the 2017 and 2018 Right Way to Throw Away events. Our largest expense continues to be for contractor removal of the waste. At the last Right Way to Throw Away Day on April 21, 2018, the cost of contractor was \$90,914.87. The major estimated expenditures are as follows:

MDEQ Funding	\$75,000

Total	\$120,000

Project Expenses Breakdown:

25% Local Match

The City of Hattiesburg, City of Petal, University of Southern Mississippi, Forrest County and Lamar County understand that the applicant of this grant is expected to provide a local match of at least twenty-five (25) percent of the grant. The City of Hattiesburg and its co-sponsors agree to provide staff, facilities and other assistance that will meet or exceed the grant requirements. Each jurisdiction has set aside funds for this annual event in their General Fund budget. If costs remain current, the MDEQ award will provide 62.5% of the project cost. Subject: FEMA Floodplain Reporting/CRS Program-Energov Software Modifications

The City of Hattiesburg is a voluntary member of the Community Rating System (CRS) program. This program recognizes and encourages community floodplain management activities that exceed the minimum NFIP (National Flood Insurance Program) requirements. Incentives for participation include flood insurance premium discounts.

The requested change order for our Energov Software upgrade relates to the current work being done on the City's Floodplain Management program. The intent is to enable the automation of certain Floodplain documentation – an improvement on our current practices.

Section 3. Proration of Expenses and Payment of Costs: Seller and Buyer agree that all property taxes (on a calendar year basis) shall be reverse prorated as of the date of Closing due to the fact that the parent parcel will still be assessed to Seller and Seller shall pay the taxes when due. In the event real estate taxes are paid at closing based upon an estimated tax bill or tax bill under appeal, Buyer and Seller upon the issuance of the actual tax bill or the appeal being resolved shall promptly make any financial adjustments between themselves as are necessary to correctly prorate the tax bill. This subparagraph shall survive the closing. Seller shall pay for the examination of title/certificate of title to be prepared by an attorney pursuant to Section 6 (a) below and all other documents necessary to perform Seller's obligations under this Agreement including the cost of obtaining and recording the curative documents, transfer tax, and any deferred or rollback taxes.

Seller shall pay costs associated with curing title defects.

Section 4. Deliveries: Seller agrees to use best efforts to deliver to Buyer as soon as reasonably possible after the Contract Date copies of all information relating to the Property in possession of or available to Seller, including but not limited to: title insurance policies, surveys, environmental studies and property condition reports, and copies of all presently effective warranties or service contracts related to the Property. If Buyer does not consummate the Closing for any reason other than Seller default, then Buyer shall return to Seller all materials delivered by Seller to Buyer pursuant to this Section 4 (or Section 7, if applicable), if any, and shall, upon Seller's request, provide to Seller copies of (subject to the ownership and copyright interests of the preparer thereof) any and all studies, reports, surveys and other information relating directly to the Property prepared by or at the request of Buyer, its employees and agents, that do not contain proprietary information of Buyer, and shall deliver to Seller copies of all of the foregoing without any warranty or representation by Buyer as to the contents, accuracy or correctness thereof.

Section 5. Evidence of Title: Seller agrees to convey fee simple marketable and insurable title to the Property free and clear of all liens, encumbrances and defects of title other than: (a) zoning ordinances affecting the Property and (b) matters of record existing at the Contract Date that are not objected to by Buyer prior to the end of the Examination Period ("Permitted Exceptions"); provided that Seller shall be required to satisfy, at or prior to Closing, any encumbrances that may be satisfied by the payment of a fixed sum of money, such as deeds to secure debt, mortgages or liens. Seller shall not enter into or

record any instrument that affects the Property after the Contract Date without the prior written consent of Buyer, which consent shall not be unreasonably withheld, conditioned or delayed.

Section 6. Conditions: This Agreement and the rights and obligations of the parties under this Agreement are hereby made expressly conditioned upon fulfillment of the following conditions:

- (a) Title Examination:** After the Contract Date, Buyer shall, at Buyer's expense, cause a title examination to be made of the Property before the end of the Examination Period by an attorney of their choosing. In the event that such title examination shall show that Seller's title is not fee simple marketable and insurable, subject only to Permitted Exceptions, then Buyer shall promptly notify Seller in writing of all such title defects and exceptions, including any encroachments or other matters of survey, in no case later than the end of the Examination Period, and Seller shall have thirty (30) days to cure said noticed defects. If Seller does not cure the defects or objections within thirty (30) days of notice thereof, then Buyer may terminate this Agreement and receive a return of Earnest Money (notwithstanding that the Examination Period may have expired) or elect to waive such exceptions and proceed to Closing. If Buyer is to purchase title insurance, the insuring company must be licensed to do business in the state in which the Property is located. Title to the Property must be (i) classified as "marketable" under the title standards of the State Bar of Mississippi, if any; and (ii) insurable at standard rates, subject only to Permitted Exceptions. Buyer shall have the right to re-examine title prior to Closing and notify Seller at Closing of any title objections which appear of record after the date of Buyer's initial title examination and before Closing.
- (b) Same Condition:** If the Property is not in substantially the same condition at Closing as of the date of the offer, reasonable wear and tear excepted, then the Buyer may (i) terminate this Agreement and receive a return of the Earnest Money or (ii) proceed to Closing whereupon Buyer shall be entitled to receive, in addition to the Property, any of the Seller's insurance proceeds payable on account of the damage or destruction applicable to the Property.
- (c) Inspections:** Buyer, its agents or representatives, at Buyer's expense and at reasonable times during normal business hours, shall have the right to enter upon the Property for the purpose of inspecting, examining, performing soil boring and other testing, conducting timber cruises, and surveying the Property. Buyer shall conduct all such on-site inspections, examinations, soil boring and other testing, timber cruises and surveying of the Property in a good and workmanlike manner, shall repair any damage to the Property caused by Buyer's entry and on-site inspections and shall conduct same in a manner that does not unreasonably interfere with Seller's or any tenant's use and enjoyment of the Property. Upon Seller's request, Buyer shall provide to Seller evidence of general liability insurance. Buyer shall also have a right to review and inspect all contracts or other agreements affecting or related directly to the Property (not any business conducted thereon) and shall be entitled to review such books and records of Seller that relate directly to the operation and maintenance of the Property (not the operation or maintenance of any business conducted thereon), provided, however, that Buyer shall not disclose any information regarding this Property unless required by law and

the same shall be regarded as confidential, to any person, except to its attorneys, accountants, lenders and other professional advisors, in which case Buyer shall obtain their agreement to maintain such confidentiality. Buyer assumes all responsibility for the acts of itself, its agents or representatives in exercising its rights under this Section 6(c) and agrees to indemnify and hold Seller harmless from any damages resulting therefrom. This indemnification obligation of Buyer shall survive the Closing or earlier termination of this Agreement. Buyer shall, at Buyer's expense, promptly repair any damage to the Property caused by Buyer's entry and on-site inspections. Except as provided in Section 6(c) above, Buyer shall have from the Contract Date through Closing to perform the above inspections, examinations and testing.

(d) FCIPC Covenants: Buyer acknowledges and agrees that with regard to the construction of their building on the Property they will comply with the Forrest County Industrial Park Commission covenants and restrictions filed of record in the office of the Chancery Clerk of Forrest County, Mississippi, and encumbering the Property. Buyer also agrees that the portion of the building being constructed that will extend onto their adjacent parcel will comply with any zoning requirements or ordinances applicable thereto.

SECTION 4

Zoning Districts Established

4.5.3 R-1A Single-Family Residential District: The purpose of the R-1A District is to permit single-family residential uses with related recreational, religious and educational facilities. This district is consistent with the Neighborhood Conservation 1 and 2 districts in the Comprehensive Plan. This zoning district encourages protected lower density residential neighborhoods with only compatible supporting institutional uses and open space.

Present Zoning:

R-1A Single-Family Residential District.

Present Use:

Undeveloped

Surrounding Zoning and Land Use:

North: A-1 (General Agricultural) District /Undeveloped
South: A-2 (Agricultural Residential) District /Undeveloped
East: R-1A (Single-Family Residential) District /Residential
West: Unzoned/Undeveloped

Most Nearly Bounded By (streets):

This parcel is accessible from the North by J Ed Turner Drive. It is bounded on the East by West Hills Drive, on the South by Fourth Street, and on the West by Jackson Road.

Letters or Concerns stated:

The Planning Division Office has not received any letters or other written communications relative to this case as of February 21, 2018

History / Background: The Hattiesburg City Council established the zoning for this subdivision as R-1A Single-Family Residential District on April 17, 2018.

A previous request for a lot size variance as well as a side setback variance for the development, if it had been zoned R-1B, is on the agenda as "Old Business" and will be withdrawn by the applicant.

Basis for Approval (12.4.1.1):

I. Hardship.

- The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
- There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

1. Hardship: This subject property is exceptional. It was originally platted in or about 2007 within unincorporated Lamar County. While under development, the subdivision was annexed into the City of Hattiesburg. With the recession of 2008, efforts to develop the site ceased. Although legally platted, the infrastructure improvements did not occur. The project was left vacant for several years and recently the applicants purchased the subdivision for development purposes. During this time, the property was "unzoned". This is very unique. Zoning is typically granted at the time of annexation, but this property was not zoned until 2018. At that time, it was zoned R-1A which placed a hardship on the developer because the lots had been conforming or at least "not nonconforming" lots. This zoning was contrary to request of the applicant who requested R-1B designation. All new subdivisions within the immediate area over the last 20 years have been constructed to R-1B and R-1C standards. No subdivisions were developed and approved by the City of Hattiesburg to R-1A standards within the immediate area during this time. The subdivisions approved by the City were either R-1B, R-1C or R-2.

Included in the platting of the subdivision were side yard setbacks of 5 feet. These setbacks were voided (or not permitted), according to the City, when the new LDC was adopted. The lots within the development are smaller than surrounding neighborhoods, and because of this narrowness smaller footprints are required if the platted setbacks cannot be used. In an effort to construct houses that are more consistent with the area (or bigger) and the original intent as demonstrated by the plat, the applicant is requesting variances from the side yard setback requirements. This will allow for greater widths of the homes and better flexibility for improved design.

2. This property should not have been zoned to R-1A standards. It is more consistent with the standards of the R-1B and R-1C districts. By placing it in the R-1A district, the subdivision is simply not consistent with R-1A standards in terms of area. The typical R-1A lots in the area are much larger and can readily accommodate larger houses without variances. Because of the R-1A designation, the City has placed a hardship on the property owner and has made the development inconsistent with other R-1A areas.
3. If the variances are not provided and the applicant has to construct with the setback conditions of the R-1A neighborhood, smaller houses will likely result. At the recent zoning hearings, it was expressed by area residents that larger homes were desired for the site for greater consistency with those existing within the area. The variance will provide an opportunity for the applicant to construct homes with footprints that are more consistent with surrounding structures.
4. If the variance is not provided, the footprints of the homes constructed will be smaller. The limitations of the lot widths dictate the area of the homes..... greater widths provide greater area (if lengths or depths are the same). While smaller homes can be constructed, the homes may not be consistent with the area homes and in conflict with expressed desires of the area residents.
5. The requested variance could be much greater to provide larger houses. The requested variance is consistent with the City's Building Code requirements for separation between structures with openings. The applicant has not started building homes yet, but the requested variances will provide consistency among lots and provide the needed flexibility to construct homes that are more consistent with nearby neighborhoods. It will allow the developer to begin the programming of the lots for larger homes that are similar in sizes.
6. The requested variances will not be conflict with the purposes of the LDC. The variance will allow the construction of homes that is consistent with surrounding properties. In addition, the LDC recognizes that variances are needed for certain circumstances. This is certainly one of those circumstances. Because the property was unzoned for approximately 10 years after annexation, development of the property was uncertain. Actions by the applicant has brought the development forward and through his actions the property is now zoned. It is more consistent with the LDC now than it ever has been due to his actions.

Site plan of the proposed development showing the building footprint, parking lot, and surrounding setbacks. The building footprint is shaded in red. The parking lot is shown to the right of the building. The setbacks are indicated by dashed lines and labels: 64'-4" on the left, 20' on the top, 1'-4.5' on the right, and 25' on the bottom. The total area is labeled as ±0.22 acres.

RE: Mandalay Villas Variance request

Members of the Board of Adjustments:

This letter is to confirm that we have met with Wes and Chelsey Hester and their attorney Seth Hunter and the parties agree that if the City of Hattiesburg grants the requested variances that in exchange for the Hester's agreeing not to contest the variance request the developers agree to the following:

1. Minimum Square footage of the homes will be 1600 sq. ft.
2. 75% Percent brick on all homes and similar siding (i.e. hardy-board); no vinyl siding.
3. Agreement on 5-foot setback variance and it being granted by city.
4. Filing of proposed covenants which are attached and attachment of the 3 house plans with statement that all plans will be like or similar to these house plans.
5. The 5-foot set back variance will be a conditional zoning specifically tied to the 1600 minimum Sq. footage and the 75% brick on all homes and similar siding (i.e. hardy-board); no vinyl siding.

If you have any questions or comments, please do not hesitate to give me a call. I look forward to working with you regarding this matter.

Sincerely,

Dear Planning Commission members:

We are opposed to the variances requested for the Mandalay subdivision on J Ed Turner Drive. The builders knew when they purchased the unzoned property there would be provisions in the land use code that would impact their plans. To avoid this, they should have purchased property outside the city limits or negotiated these costs into the purchase price. Because of this, the builders cannot claim a hardship.

Furthermore, the argument for a variance because the lots are too small for comparable homes in the surrounding neighborhood does not hold water. This is a self-inflicted problem that needs to be resolved by the builder, not on the backs of the neighboring landowners. The lots can be combined or the plat can be adjusted for compliance, but a self inflicted financial hardship cannot justify a variance (see section 12.4.1.1).

Against the overwhelming consensus of the neighborhood landowners, the city has issued 43 certificates of compliance for the nonconforming lots of Mandalay Villas. To issue variances on top of these certificates would further separate this property from the character of the existing neighborhood. It would set a precedence, increasing the damage already imposed by the city. Section 2.4.1 of the land use code says, "Nonconformities may continue as prescribed, but the provisions of this Section are designed to bring about their eventual conformity or elimination." So moving forward with variances would be in conflict with the premise of the land use code, especially since no hardship exists and reasonable use can be made by combining the lots to be conforming.

Please reject this request for variances at Mandalay Villas.

Respectfully,

John & Krista Eye

September 8, 2018

Dear Mr. Ellard,

I'm writing to appeal the decision made by the Board of Adjustments (BOA) on September 5, 2018 regarding the Mandalay subdivision on J Ed Turner Drive. If I understand correctly, the result was to recommend the issuance of variances for most if not all of the proposed parcels (43) requested by the owners. As you know, there was significant discussion on the matter and the Board decided on a recommendation in favor of the variances based on only the "hardship" criteria of the Land Use Code. Then the city attorney, Jim Gladden, clarified the legal implications of tying the variances to house square footage (which was a central part of the proposal by the applicants), and how there is precedence that such an arrangement is likely to be unconstitutional. I remember you weighed in on how your office could certainly enforce those conditions tied to the variances, but you seemed to suggest your office is not resourced to do that very well. So the conditional aspect of the motion was apparently eliminated at the last minute. As the meeting adjourned and everyone made their way out, it was clear there was confusion as to what actually had transpired.

All this is troubling to me for more than the obvious reasons. Jeffrey George, our councilman, reported on May 31, 2018 at an HOA meeting that he was encouraging discussions between the builders and representatives from the neighborhood to reach some type of agreement on these land use issues and mentioned the idea of tying the variances to house size as a viable option. So how did three months go by without someone speaking up so a more informed discussion could play out?

I know the BOA merely makes recommendations to the City Council who actually takes action on the request. But this part of the process is very important and, as you know, only rarely does the Council overturn a recommendation from the BOA. So I would like to exercise the appeal provision in the Land Use Code so this decision can be reviewed in light of the new information.

Respectfully,

John Eye

SECTION 4

Zoning Districts Established

4.5.3 R-1A Single-Family Residential District: The purpose of the R-1A District is to permit single-family residential uses with related recreational, religious and educational facilities. This district is consistent with the Neighborhood Conservation 1 and 2 districts in the Comprehensive Plan. This zoning district encourages protected lower density residential neighborhoods with only compatible supporting institutional uses and open space.

Present Zoning:

R-1A Single-Family Residential District.

Present Use:

Undeveloped

Surrounding Zoning and Land Use:

North: A-1 (General Agricultural) District /Undeveloped
 South: A-2 (Agricultural Residential) District /Undeveloped
 East: R-1A (Single-Family Residential) District /Residential
 West: Unzoned/Undeveloped

Most Nearly Bounded By (streets):

This parcel is accessible from the North by J Ed Turner Drive. It is bounded on the East by West Hills Drive, on the South by Fourth Street, and on the West by Jackson Road.

Letters or Concerns stated:

The Planning Division Office has not received any letters or other written communications relative to this case as of February 21, 2018

History / Background: The Hattiesburg City Council established the zoning for this subdivision as R-1A Single-Family Residential District on April 17, 2018.
A previous request for a lot size variance as well as a side setback variance for the development, if it had been zoned R-1B, is on the agenda as "Old Business" and will be withdrawn by the applicant.

Basis for Approval (12.4.1.1):

I. Hardship.

- The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
- There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

1. Hardship: This subject property is exceptional. It was originally platted in or about 2007 within unincorporated Lamar County. While under development, the subdivision was annexed into the City of Hattiesburg. With the recession of 2008, efforts to develop the site ceased. Although legally platted, the infrastructure improvements did not occur. The project was left vacant for several years and recently the applicants purchased the subdivision for development purposes. During this time, the property was "unzoned". This is very unique. Zoning is typically granted at the time of annexation, but this property was not zoned until 2018. At that time, it was zoned R-1A which placed a hardship on the developer because the lots had been conforming or at least "not nonconforming" lots. This zoning was contrary to request of the applicant who requested R-1B designation. All new subdivisions within the immediate area over the last 20 years have been constructed to R-1B and R-1C standards. No subdivisions were developed and approved by the City of Hattiesburg to R-1A standards within the immediate area during this time. The subdivisions approved by the City were either R-1B, R-1C or R-2.

Included in the platting of the subdivision were side yard setbacks of 5 feet. These setbacks were voided (or not permitted), according to the City, when the new LDC was adopted. The lots within the development are smaller than surrounding neighborhoods, and because of this narrowness smaller footprints are required if the platted setbacks cannot be used. In an effort to construct houses that are more consistent with the area (or bigger) and the original intent as demonstrated by the plat, the applicant is requesting variances from the side yard setback requirements. This will allow for greater widths of the homes and better flexibility for improved design.

2. This property should not have been zoned to R-1A standards. It is more consistent with the standards of the R-1B and R-1C districts. By placing it in the R-1A district, the subdivision is simply not consistent with R-1A standards in terms of area. The typical R-1A lots in the area are much larger and can readily accommodate larger houses without variances. Because of the R-1A designation, the City has placed a hardship on the property owner and has made the development inconsistent with other R-1A areas.
3. If the variances are not provided and the applicant has to construct with the setback conditions of the R-1A neighborhood, smaller houses will likely result. At the recent zoning hearings, it was expressed by area residents that larger homes were desired for the site for greater consistency with those existing within the area. The variance will provide an opportunity for the applicant to construct homes with footprints that are more consistent with surrounding structures.
4. If the variance is not provided, the footprints of the homes constructed will be smaller. The limitations of the lot widths dictate the area of the homes..... greater widths provide greater area (if lengths or depths are the same). While smaller homes can be constructed, the homes may not be consistent with the area homes and in conflict with expressed desires of the area residents.
5. The requested variance could be much greater to provide larger houses. The requested variance is consistent with the City's Building Code requirements for separation between structures with openings. The applicant has not started building homes yet, but the requested variances will provide consistency among lots and provide the needed flexibility to construct homes that are more consistent with nearby neighborhoods. It will allow the developer to begin the programming of the lots for larger homes that are similar in sizes.
6. The requested variances will not be conflict with the purposes of the LDC. The variance will allow the construction of homes that is consistent with surrounding properties. In addition, the LDC recognizes that variances are needed for certain circumstances. This is certainly one of those circumstances. Because the property was unzoned for approximately 10 years after annexation, development of the property was uncertain. Actions by the applicant has brought the development forward and through his actions the property is now zoned. It is more consistent with the LDC now than it ever has been due to his actions.

Dear Planning Commission members:

We are opposed to the variances requested for the Mandalay subdivision on J Ed Turner Drive. The builders knew when they purchased the unzoned property there would be provisions in the land use code that would impact their plans. To avoid this, they should have purchased property outside the city limits or negotiated these costs into the purchase price. Because of this, the builders cannot claim a hardship.

Furthermore, the argument for a variance because the lots are too small for comparable homes in the surrounding neighborhood does not hold water. This is a self-inflicted problem that needs to be resolved by the builder, not on the backs of the neighboring landowners. The lots can be combined or the plat can be adjusted for compliance, but a self-inflicted financial hardship cannot justify a variance (see section 12.4.1.1).

Against the overwhelming consensus of the neighborhood landowners, the city has issued 43 certificates of compliance for the nonconforming lots of Mandalay Villas. To issue variances on top of these certificates would further separate this property from the character of the existing neighborhood. It would set a precedence, increasing the damage already imposed by the city. Section 2.4.1 of the land use code says, "Nonconformities may continue as prescribed, but the provisions of this Section are designed to bring about their eventual conformity or elimination." So moving forward with variances would be in conflict with the premise of the land use code, especially since no hardship exists and reasonable use can be made by combining the lots to be conforming.

Please reject this request for variances at Mandalay Villas.

Respectfully,

John & Krista Eye

Re: Board of Adjustment Agenda, August 1, 2018

Dear Mr. Ellard:

As you probably already know, I represent Wes and Kelsey Hester with regard to a subdivision development named Mandalay Villas on J. Ed Turner Road. The Hesters live on J. Ed Turner Road near this development. Over the course of the past several months, there have been various disputes between the developers and the surrounding homeowners, including the Hesters, related to zoning and variances in this subdivision. I understand that today there are petitions filed by Ashley Robinson and Jeff Sims that are on the Board of Adjustment's agenda related to variances within the subdivision.

I have spoken with Tim Farris, Esq., counsel for Ms. Robinson and Mr. Sims, and it is my understanding that they have chosen to ask that the agenda items related to variances in Mandalay Villas be tabled so that they and the surrounding homeowners, including the Hesters, may further discuss the various issues related to the subdivision, including variances. The Hesters are in agreement that these items be pulled from today's agenda and tabled until a later date.

Although I cannot speak for any other surrounding homeowners, I have personally not heard any disagreement with this course of action from any of them.

I appreciate the City and the Board's courtesy in advance. Please contact me should you have any questions.

With kind regards, I remain,

Very truly yours,

SETH M. HUNTER

Subject: Regarding Mandalay Villas BOA Public Hearing 08/01/2018

Mrs. Lowery,

Yesterday, Seth Hunter, the attorney for some property owners within the area of Mandalay Villas, reached out to us and requested that we table our variance to allow his clients more time to evaluate our proposed application or request. In an effort, to address their concerns and be a good neighbor, we are willing to table our requests at today's meeting until the next available BOA Public Hearing. We believe we have many of the same goals as the surrounding neighborhood, and we are eager to clarify misunderstandings and concerns. We are prepared today to move forward, if necessary. In Closing, we are in the process of scheduling a meeting with surrounding property owners to further discussion on this project.

Thanks in advance,

Ashley

RE: Mandalay Villas Variance request

Members of the Board of Adjustments:

This letter is to confirm that we have met with Wes and Chelsey Hester and their attorney Seth Hunter and the parties agree that if the City of Hattiesburg grants the requested variances that in exchange for the Hester's agreeing not to contest the variance request the developers agree to the following:

1. Minimum Square footage of the homes will be 1600 sq. ft.
2. 75% Percent brick on all homes and similar siding (i.e. hardy-board); no vinyl siding.
3. Agreement on 5-foot setback variance and it being granted by city.
4. Filing of proposed covenants which are attached and attachment of the 3 house plans with statement that all plans will be like or similar to these house plans.
5. The 5-foot set back variance will be a conditional zoning specifically tied to the 1600 minimum Sq. footage and the 75% brick on all homes and similar siding (i.e. hardy-board); no vinyl siding.

If you have any questions or comments, please do not hesitate to give me a call. I look forward to working with you regarding this matter.

Sincerely,

Dear Planning Commission members:

We are opposed to the variances requested for the Mandalay subdivision on J Ed Turner Drive. The builders knew when they purchased the unzoned property there would be provisions in the land use code that would impact their plans. To avoid this, they should have purchased property outside the city limits or negotiated these costs into the purchase price. Because of this, the builders cannot claim a hardship.

Furthermore, the argument for a variance because the lots are too small for comparable homes in the surrounding neighborhood does not hold water. This is a self-inflicted problem that needs to be resolved by the builder, not on the backs of the neighboring landowners. The lots can be combined or the plat can be adjusted for compliance, but a self inflicted financial hardship cannot justify a variance (see section 12.4.1.1).

Against the overwhelming consensus of the neighborhood landowners, the city has issued 43 certificates of compliance for the nonconforming lots of Mandalay Villas. To issue variances on top of these certificates would further separate this property from the character of the existing neighborhood. It would set a precedence, increasing the damage already imposed by the city. Section 2.4.1 of the land use code says, "Nonconformities may continue as prescribed, but the provisions of this Section are designed to bring about their eventual conformity or elimination." So moving forward with variances would be in conflict with the premise of the land use code, especially since no hardship exists and reasonable use can be made by combining the lots to be conforming.

Please reject this request for variances at Mandalay Villas.

Respectfully,

John & Krista Eye

Dear Mr. Ellard,

I'm writing to appeal the decision made by the Board of Adjustments (BOA) on September 5, 2018 regarding the Mandalay subdivision on J Ed Turner Drive. If I understand correctly, the result was to recommend the issuance of variances for most if not all of the proposed parcels (43) requested by the owners. As you know, there was significant discussion on the matter and the Board decided on a recommendation in favor of the variances based on only the "hardship" criteria of the Land Use Code. Then the city attorney, Jim Gladden, clarified the legal implications of tying the variances to house square footage (which was a central part of the proposal by the applicants), and how there is precedence that such an arrangement is likely to be unconstitutional. I remember you weighed in on how your office could certainly enforce those conditions tied to the variances, but you seemed to suggest your office is not resourced to do that very well. So the conditional aspect of the motion was apparently eliminated at the last minute. As the meeting adjourned and everyone made their way out, it was clear there was confusion as to what actually had transpired.

All this is troubling to me for more than the obvious reasons. Jeffrey George, our councilman, reported on May 31, 2018 at an HOA meeting that he was encouraging discussions between the builders and representatives from the neighborhood to reach some type of agreement on these land use issues and mentioned the idea of tying the variances to house size as a viable option. So how did three months go by without someone speaking up so a more informed discussion could play out?

I know the BOA merely makes recommendations to the City Council who actually takes action on the request. But this part of the process is very important and, as you know, only rarely does the Council overturn a recommendation from the BOA. So I would like to exercise the appeal provision in the Land Use Code so this decision can be reviewed in light of the new information.

Respectfully,

John Eye
