DELBERT HOSEMANN
Secretary of State

Office of the Secretary of State
Jackson, Mississippi

Certificate of Good Standing

I, C. DELBERT HOSEMANN, JR., Secretary of State of the State of Mississippi, and as such, the legal custodian of the records as required by The Mississippi Registration of Foreign Limited Liabilities Company Act to be filed in my office do hereby certify:

TRUE NORTH EMERGENCY MANAGEMENT, LLC

Registered the 30th day of September, 2010

A Texas LIMITED LIABILITY COMPANY has filed the necessary documents in this office and has obtained a certificate of registration to do business in this state, under the provisions of The Mississippi Registration of Foreign Limited Liability Companies Act as shown by the records in this office.

I further certify that said Limited Liability Company has filed in this office an appointment of registration for service of process, with written acceptance endorsed thereon, and/or power of attorney, designating its agent and/or attorney for service of process in this State as:

CORPORATION SERVICE COMPANY
5760 I-55 North, Suite 150
Jackson, MS 39211

I further certify that said Limited Liability Company has paid the fees for filing the above papers required by law as shown by the records of this office, and that said Limited Liability Company is in good standing to do business in Mississippi at this time.

Given under my hand and seal of office
the 27th day of January, 2017

A handwritten signature in dark ink that reads "C. Delbert Hosemann, Jr." is written over a horizontal line.

C. DELBERT HOSEMANN, JR.
Secretary of State

Certificate Number: CN17032676

**RE: PROPOSAL FOR DEBRIS MONITORING TO ASSIST THE CITY OF HATTIESBURG, MISSISSIPPI
FOR DR-4295**

Selection Committee:

True North Emergency Management, LLC / Neel-Schaffer, Inc. (the True North team) is pleased to present our qualifications to the City of Hattiesburg to provide professional services for Debris Monitoring Services. True North Emergency Management is a wholly owned subsidiary of Neel-Schaffer Engineers and Planners, Inc., specializing in emergency management and debris monitoring services. The parent company of True North has had an office in Hattiesburg since 1983. True North is fortunate that several former U.S. Army Corps of Engineers debris subject matter experts have recently joined our disaster debris response team. These professionals have many years of experience working with FEMA.

The True North team has the experience and capability to provide debris removal services for the City of Hattiesburg. As shown in our proposal, the True North team has debris management/monitoring experience with numerous communities following disasters both large and small. We have monitored the removal of more than 16 million cubic yards of debris from public and private property in more than 100 communities, following hurricanes, tornadoes, floods, wind storms, fires, and severe winter storms. We have monitoring experience on all types of disaster debris, including vegetative debris, C&D debris, hazardous trees, cars, vessels, marine debris, structure demolition, hazardous waste, asbestos, white goods, contaminated debris, and beach sand cleaning. True North debris removal projects have included public and private property, as well as structure demolition and other specialized monitoring. We understand the issues and challenges (private properties, FEMA guidelines and regulations, public involvement, etc.), have an organized approach to the project, and are prepared to mobilize and begin work immediately.

We believe True North is the best-qualified firm to provide debris management and monitoring for the City of Hattiesburg. Our primary focus will be providing the highest level of service to the City. Our extensive experience in managing construction contractors enables the True North team to manage debris removal contractors to best serve the citizens of the City. Our experience in debris monitoring efforts to date has shown that securing qualified personnel, providing timely responses, and maintaining proper documentation are the keys to quickly rebuilding after the devastation caused by disasters. The

True North team provides qualified managers and supervisors, who will hire local residents to be debris site monitors. Debris site monitors will be trained on all aspects of debris eligibility, recognizing ROW, properly completing documentation, and safety.

The True North team is committed to minimizing costs to the City of Hattiesburg through competitive hourly rates along with careful management of working hours. **The hourly rates reflected on the attached cost sheet include electronic ticketing as well as paper ticketing. True North prefers utilizing our electronic ticketing system, North Track, but we will accommodate the City's preference.** We will work closely with the City in developing staffing levels to ensure adequate oversight and documentation of the project, while minimizing costs to the public. We are committed to complying with the City of Hattiesburg's efforts to diversify by using minority partnerships in performing our professional services and have partnered with SOL Engineering services for this effort. We take very seriously the challenge of managing a quick, effective debris removal project, while maximizing federal and state reimbursement. The True North team has a strong track record of full reimbursement of debris removal and monitoring costs.

If selected, we will mobilize a core team of debris management professionals who will immediately begin preparation for full-scale debris operations and to work with the City. Our professional debris project manager, with years of experience and expertise, will ensure an efficient overall operation to minimize recovery time and cost while maximizing eligible funding reimbursement.

The True North team is ready and able to continue our services to the City of Hattiesburg on this important project. We encourage you to call our references and inquire about our hard work, integrity, ethics, and the professionalism of our staff. If we can be of any assistance, or if you have any questions regarding this proposal, please feel free to email me at michael.essary@neel-schaffer.com, or call at 601.545.1565.

Sincerely,
True North Emergency Management, LLC

Michael W. Essary, PE
Vice President

January 28, 2017

The following Project Plan and Time line is a sample initial approach that can be adjusted based on client needs following a debris-generating disaster.

Coordination & Training

Time line	Upon award of Contract
Scope of Work/ Tasks	• Meet with client and establish project point(s) of contact; • Review all debris management plans and procedures; and • Discuss project expectations and specific client needs related to debris management. • Make introductions of personnel; • Ensure that all parties are adequately prepared and familiar with established debris related policies and procedures; and • As necessary, True North will coordinate identifying debris management sites and reviewing Debris Management plans to ensure compliance with FEMA Public Assistance requirements.

Project Initiation & Damage Assessment

	Upon receipt of Notice to Proceed
	• Develop Quality Assurance/ Quality Control program to ensure contract compliance and maintenance of performance goals and standards; • Develop a Project Action Plan; and • Coordinate with local, and when available, State, and Federal staff to conduct an initial assessment of the damage and debris caused by the disaster and make a determination as to the size of the debris project and what resources will be required to effectively manage the debris management operations.

Truck Certification

	• Identify locations to certify debris collection and hauling equipment; • For cubic yard operations, concise measurements of truck capacity will be taken and documented in the presence of debris collection company representatives; • For tonnage operations, concise measurements of the tare truck weight will be taken and documented in the presence of debris collection company representatives; • Ensure all trucks and trailers have pre-printed placard, have been digitally photographed, and logged to eliminate duplication and contractor fraud; and • Randomly check trucks to ensure that payload volumes are consistent with the initial certification documents. This is done to prevent fraud.
--	--

Staffing of Debris Project

	• Upon receiving Notice to Proceed, provide project managers, operations managers, field supervisors, data managers, and an initial set of debris monitors to get started; and • Simultaneously, recruit, screen, and train locally-hired monitoring and clerical staff.
--	--

**Health & Safety Program**

- Initiate Health and Safety Awareness and Compliance program; and
- Ensure that all debris sites and True North personnel are equipped with appropriate safety equipment and guidance.

Debris Management Site Establishment & Staffing

- Work with project POC(s) to identify potential Debris Management Sites (DMS);
- Document conditions of identified sites and gain permits to conduct debris processing at those Sites;
- Coordinate set up of DMS locations with collection/hauling contractors; and
- Staff each DMS with a minimum of 2 trained debris monitors to assess load volumes and inspect all incoming debris.

Debris Clearance Coordination (“Push”) & Monitoring

- Work with project POC to confirm and prioritize roads, critical facilities, and areas for initial debris clearance;
- Document and Time and Materials Contract Work (Labor and/ or Equipment); and
- Track any other contractor costs that could be reimbursed under the FEMA Public Assistance grant program.

Debris Site Tower Monitors

- Deploy trained monitors to debris site towers to grade incoming debris loads in accordance with the load ticket versus the certified capacity of the truck; and
- Complete load tickets and ensure tickets are completed and the appropriate logs and copies of the tickets are kept for record and reimbursement.

Field Supervisors

- Deploy experienced Field Supervisors to oversee monitoring activities; and
- Ensure field supervisor to monitor ratio is appropriate for the size of the project.

Data & Document Management and Reporting

- Collect data from the field, analyze the data, scan the data, and enter it into the appropriate project database; and
- Provide project reports at an agreed upon interval.

**Contractor Invoice Reconciliation****3 - 5 days after receiving invoices**

- Review contractor invoices for accuracy against True North's independently maintained database; and
- Provide client reports on any discrepancies and approvals for payments to the contractor.

Final Pass Completion**Last weeks of debris collection operations**

- Assist project POC in developing and publishing public announcements regarding last pass schedules;
- Deploy roving monitors to conform clearance of all public Rights of Way (ROW);
- Provide maps of any remaining eligible debris that needs to be collected and hauled away; and
- Provide verbal and written confirmation of completion of debris removal operations.

Haul Out of Mulch and Processed Debris**Last 2 - 3 weeks of project.**

- Monitor and document the removal of all reduced and processed debris from the DMS; and
- Confirm and document the final disposition of all reduced and process debris.

Closure of Debris Management Sites**After all debris is cleared from the site**

- Confirm and document removal of all debris, towers, equipment, and materials;
- Document site restoration/remediation, work, costs, and completion; and
- Confirm compliance with all local, state, and federal environmental regulations.

FEMA Public Assistance Grant Claims Report**From beginning to end of project.**

- Work with the client's staff, the State, and FEMA to ensure that all eligible costs for debris removal are appropriately documented and submitted for reimbursement.
- Advise client on the current FEMA Public Assistance Alternative Procedures (PAAP) and ensure that all operations, invoicing, and billing are consistent with the program if the client opts into the Program.

LEADERS IN DEBRIS MONITORING

True North is a wholly owned subsidiary of Neel-Schaffer Engineers and Planners, Inc., specializing in emergency management and debris monitoring services. We provide comprehensive Emergency Management services in local, state, Tribal, and commercial locations throughout the nation. We have demonstrated experience in supporting clients affected by all types of disasters, having worked on many of the largest disasters in American history including Hurricanes Katrina and Sandy as well as the BP Oil Spill. True North has provided emergency management, disaster recovery and debris monitoring services for more than 100 communities. Since 2000, we have monitored the removal of over 16 million CY of debris.

Neel-Schaffer has been in business since 1983 and now has more than 500 full-time employees. In 2010 Neel-Schaffer reorganized its emergency management activities and formed True North Emergency Management. This was done in order to enable in-house subject matter experts in emergency management, public assistance and debris management planning to focus on emergency preparedness and response services for our clients.

Neel-Schaffer and True North collaborate on many projects to augment our extensive knowledge of emergency management and debris monitoring with engineering and construction expertise to achieve the optimal project outcome. Having both engineering and debris monitoring qualifications as well as experience with state and federal programs, funding sources and reimbursement services makes us uniquely qualified to respond to this contract.

True North has monitored and managed disaster debris removal for more than 100 communities over the past 16 years, related to more than a dozen federally declared disasters. We have monitored the removal of over 16 million cubic yards of debris, with removal and disposal costs of more than \$500 million. Of all the projects we have managed, only one project received any de-obligation, and that was less than \$50,000 on a \$24 million project.

This single de-obligation represents less than two-tenths of 1 percent of the debris removal cost of that project, and a very small percent of the debris removal cost of projects we have monitored over the past 16 years.

True North has a strong track record of full reimbursement of eligible project costs. In order to continue to receive full reimbursement, the True North team is very diligent in project management, documentation, training, eligibility determination, and Quality Control/Quality Assurance.

SUBCONSULTANT PARTICIPATION

True North is pleased to offer a highly qualified team to meet the challenges associated with this project. In joining forces with our **DBE partner, SOL Engineering Services, LLC**, our team offers the talent, depth, relationships, past performance history, and direct and relevant project experience to accomplish all the required needs of Hattiesburg, MS. SOL has been a partner of Neel-Schaffer in Hattiesburg for several projects for over 10 years. They will provide staffing for field monitors and other key positions required.

SOL Engineering Services, LLC was established in the Canton/Jackson, MS area as a professional services firm specializing in project management, emergency management, and engineering services. We currently provide the following professional Emergency Management / Disaster Recovery services: Site Assessment, Site Clean-up and Preparation / Debris Removal Coordination, Quality Assurance/Quality Control (QA/QC), Environmental Compliance and Pollution Prevention, Project Management, Construction Management, Facilities Support and Logistics Management, Technical and Administrative Support, Communication and Reporting, General Engineering Support, and Contractor Training and Oversight.

RESPONSE

The True North response will be immediate, rapid and efficient, with a focus on accountability, transparency, cost control and ensuring maximum reimbursement for all eligible disaster recovery costs.

Having a dedicated office in the City of Hattiesburg gives us a unique insight into the intricacies and complexities required for this contract as well as a more efficient and cost effective operational timeline.

Hattiesburg is more than just a contract to the Neel-Schaffer/True North team. It's our community, where many of our employees live and work.

EXPERIENCE

Our staff has successfully managed all phases of debris removal, assisting clients with the removal of more than 16 million cubic yards of debris and helping collect over \$500 million in debris reimbursement costs.

In addition to our standard right-of-way debris monitoring services, True North has experience in other monitoring and recovery programs that can be a part of post-disaster debris services.

This includes monitoring of:

- Leaner, hanger, and stump removal
- Hazardous waste removal
- Putrescent food waste removal
- White goods debris removal
- Vessel and automobile removal
- Subsurface storm drain debris removal
- Marine / waterway debris removal
- Beach remediation and restoration
- Disposal site management
- Private property demolition / debris removal

THE RIGHT PEOPLE

At True North we recognize the value of our people as the primary key to the success of our company. From top executives to field monitors, we realize that each individual plays a vital role in our ability to successfully complete our projects in an efficient and timely manner.

Diversity is a key component in our hiring practice. The recognition of underutilized and often overlooked talent pools is the first step in an inclusive hiring strategy. Reaching out and communicating to future employees where they live is paramount to building a workforce that is reflective of the City of Hattiesburg. This means we go beyond what's been done (and overdone). Thinking outside the box allows True North to find and hire the most qualified candidates.

True North's comprehensive hiring program will allow us to tap into the many diverse resources that the City of Hattiesburg has to offer.

THE ENVIRONMENT

True North places a high value on the environment. It is important for us to take a proactive role in helping to reduce our company's environmental impact. We are continually striving to identify and implement new and effective environmental policies both in the office and in the field. True North's goal is to set the new standard for environmental responsibility in the field of debris monitoring.

Here are a few of the ways that True North is reducing its environmental footprint:

- We have a "Leave No Trace Policy"
- Using recycled paper when available
- Utilizing and creating paperless options
- Electronic ticketing monitoring system
- Recycling bins at every True North office
- Using appropriate fuel efficient fleet/rental vehicles
- Using Smart Route Planning tools to reduce fuel usage
- Utilizing energy efficient laptops for work computers

**TRUE NORTH SERVICES****DISASTER DEBRIS MONITORING SERVICES****Project Management**

- Development of Contractor RFPs
- Development of Debris Contracts
- Contractor Bid Evaluations
- Damage Assessments / Debris Estimates
- FEMA Coordination
- Debris Management Plan, Mapping and Zone Development
- Truck Certifications
- Safety and Contractor Meetings
- Load Ticket Development / Electronic Ticketing
- Database Reporting
- Contractor Payment Monitoring and Reconciliation
- Debris Management Site Selection and Permitting

Debris Types

- Construction & Demolition (C&D)
- Vegetative
- Leaners & Hangers
- Household Hazardous Waste (HHW)
- White Goods
- E-Waste
- Marine Debris
- Abandoned Vessels
- Abandoned Vehicles
- Private Property Debris Removal
- Regulated Asbestos Containing Materials (RACM)

Response Experience

Fires • Hurricanes • Floods • Tornadoes • Oil Spill • Severe Winter Storms • Beach Cleaning / Restoration

DEDICATION, DETERMINATION & INNOVATION

True North is committed to providing the highest level of services to ensure the satisfaction of the City of Hattiesburg. We have the qualifications and experience to successfully monitor debris removal. Key goals are safety, local hiring, management of contractor, environmental impact and full reimbursement of eligible project costs. We will provide collection monitors to observe and ticket all debris loading operations, as well as tower monitors to observe and document all debris site activities. We will enter all load ticket and debris site data into an electronic database daily. This database will include multiple backups and will track key project data. True North's data system has numerous cross checks to flag any suspicious data such as unusual cycle times, capacities, loading locations or types of debris. Early detection of problems by experienced data personnel is a key to avoiding larger problems later in the project. The data system will generate reports for the City of Hattiesburg and will support invoice reconciliation and validation of debris hauler invoices.

We will provide project management and supervision of all activities. True North's monitors will prepare incident reports to document any contractor damage to public or private property. True North may also provide planning, training, permitting and damage assessment services as requested. We have extensive experience in all of these areas, both pre- and post-disaster.

Staff Mobilization: Our monitoring staff is an extension of your staff, reacting and responding to your requests. Our monitors are typically locally hired employees who are displaced or out of work as a result of the declared disaster and are trained and supervised by our experienced permanent staff.

Because we employ former public employees such as Public Works Directors, Emergency Management Coordinators, and retired military personnel, we understand the stress a disaster has on your employees. Thus, we are able to assist in the staffing and operations of all aspects a disaster may cause.

Cost Tracking: True North's data management system can be used for detailed tracking of project costs. Costs will be tracked by zones, by contractor, and other relevant categories as requested by the city. This system will be used to develop periodic reports, to reconcile contractor invoices and to develop documentation to support FEMA reimbursement.

Project Management Meetings: Effective communication is vital to the success of all recovery projects. To ensure that all personnel involved in monitoring the debris removal operation are kept up to date, the following meetings and communications are conducted:

- **Daily Communication and Safety Meetings:** Prior to the start of operations each morning, all monitors are required to sign in at a predetermined location. Meetings are held in each zone and are headed up by the Field Supervisor. At these meetings, ongoing training is conducted, changes in FEMA guidance are reviewed, safety issues are addressed, and any pertinent information is exchanged. The Field Operations Manager will generally attend daily meetings.
- **Periodic Client Meetings:** We recommend meeting with the City of Hattiesburg on a regular basis, to exchange relevant project information and progress. True North will provide detailed

Daily Operations Reports to the Debris Manager. Typically, regular client meetings will be held daily, or multiple times, as desired by the City of Hattiesburg. Our periodic meetings offer another opportunity to meet with staff on operational matters.

- **Coordination Meetings with Contractors:** True North will initiate meetings with the debris removal contractor to help expedite the work and to discuss any issues that may arise during the week. The City of Hattiesburg personnel will be made aware of the time and place of these meetings and invited to join. It is important that the monitor and contractor are coordinating with each other to ensure a successful project. In conjunction with these meetings, our staff will coordinate with the City of Hattiesburg personnel as needed on any issues that may arise in the field.

FIELD STAFFING PLANS

True North will coordinate work schedules with contractors 24 hours in advance and provide work schedules to the City of Hattiesburg's Authorized Representative. Accurate scheduling is critical to ensure adequate monitoring is provided to document debris removal without unneeded cost of excess monitors. Realistic schedules are also necessary to allow the City of Hattiesburg to track and oversee the project effectively. Monitors and contractors will be expected to follow these schedules to ensure efficient, effective project performance, management, documentation and reimbursement.

General Operation Requirements: In order to control costs and save public money, True North is diligent in minimizing hours spent on monitoring activities. We will consult with the City of Hattiesburg on staffing and work planning, with the city having final say on staffing levels. We understand and appreciate the City of Hattiesburg's visits to review the efficiency and effectiveness of our monitoring program.

SAFETY

Safety and training are key components that we stress to our employees. Safety is of the utmost

importance to protect our monitors and personnel involved in the project. We will conduct regular safety meetings to inform and remind employees of the importance of project safety. Each safety meeting will generally summarize overall monitor safety, then provide detailed discussion of particular elements of project safety, such as safe driving, roadside traffic safety or safety around heavy equipment. Additionally, we have a dress code and safety gear requirements for our employees.

All monitors will have access to safety equipment that is compliant with federal, state, and local requirements. That includes eye protection, hearing protection, reflective safety vests, hard hats, and wet and cold weather clothing. All debris monitors will wear safety shoes and DOT Class II reflective safety vests.

The safety record of True North is reflected by our corporate Experience Modification Rate (EMR) of 0.80 along with not having any lost workdays in the past three years. Safety is always our first consideration on any job. No job is worth the death or injury of an employee. Our safety procedures are followed in accordance with our Neel-Schaffer Safety Program (updated March 2015) along with a specific Project Safety Plan. The nucleus of our safety plan is the Job Hazard Analysis (JHA) identifying specific job-site hazards. Along with the JHA, we conduct an initial safety meeting followed by a daily tail-gate meeting and a weekly inspection. Our plan provides specific guidance to employees working alone. We also follow the safety guidance of on-site contractors.

DEBRIS VEHICLE CERTIFICATION

Certification, documentation, and validation of truck measurements are required by FEMA. Our staff will provide the measurements of the truck and trailer beds and review the compliance with requirements such as limitations of extensions above metal rails. The truck measurements will be recorded and entered into a spreadsheet for validation. Whenever load tickets and truck numbers are entered throughout the project, the database will verify that the truck bed capacity matches the truck number and recorded volume. For additional documentation, each measured truck will be

photographed. Summary books of all certified vehicles will be maintained at each DMS and final disposal site to verify vehicles and equipment, and for quality control purposes. Potential attributes of vehicles subject to modification will be documented. During the truck certification process, True North will develop and implement a criteria checklist for inclusion with each truck certification. True North understands the significance of enforcing vehicular safety and maintenance criteria as a measure to protect the public and project personnel. Periodic or suspicious spot checks and re-certifications will be utilized to discourage vehicle alterations, especially when reasons for concern are observed. The team will perform periodic and random volume capacity verifications of certified recovery vehicles.

COLLECTION MONITORING

All field monitoring will be managed and executed to maximize federal and state reimbursement. True North has a strong track record of full reimbursement of eligible project costs.

Debris Monitoring Employees: All debris monitors and city staff, as requested, will attend a training program designed by our debris management specialists. This training will be conducted at no cost to the City of Hattiesburg. The True North training program ensures that all staff are knowledgeable on FEMA protocol, requirements, and where possible or required by FEMA or rules or regulations, and will involve personnel from either or both of these agencies. All True North employees will be adequately trained prior to performing any work on the project. Our experienced disaster response team provides training in a classroom setting followed by field training that is designed to verify experience and knowledge of work assignments. All disposal site monitors, collection monitors, and project coordinators are required to attend a training program that includes identification of eligible debris, proper documentation, communication protocols, and safety requirements. All field personnel are required to have good communication skills to work effectively with other project personnel and for efficient interactions with the public.

Daily Field Monitor Operations: Field Supervisors will be assigned to teams of monitors. Our field supervisors are the key to True North's success in ensuring that owners receive full FEMA reimbursement on all projects. True North will stop work in progress that is not being performed or documented in the appropriate manner or which is not in compliance with task orders issued by the City of Hattiesburg. Such work will be noted for nonpayment. We will inspect work in progress to ensure that removal efforts include only eligible debris in eligible locations. Field Supervisors and Field Monitors will enforce the "clean as you go" policy.

Field Supervisors will be responsible for ensuring compliance of:

- Proper loading and compaction
- Adherence to the Debris Management Action Plan
- Special needs assessment such as stumps, leaners/hangers, etc.
- Required documentation such as photos and GPS coordinates

Our field supervisors have extensive experience and capabilities in debris management, as well as the ability to effectively train, lead, and supervise monitors. All Field Supervisors are thoroughly familiar with FEMA processes/procedures, and have field experience performing all major monitoring activities, including load ticketing, collection monitoring, disposal monitoring, vehicle certification, communications, and daily reporting. Field Supervisors will report critical information to the City of Hattiesburg daily.

Collection Monitoring Support Services: True North has experience in all aspects of debris management, including planning, operations, management, monitoring, and accounting systems. Our experience includes all types of debris removal programs, such as ROW debris, leaner/hanger programs, Freon removal, white goods, public property debris, waterway debris, comprehensive private property/ROE debris, marine debris, drainage canal debris, demolition, abandoned vehicles and vessels, beach sand cleaning, animal

carcasses, condemnations, hazardous materials, asbestos, and tires.

We have also developed numerous supplemental forms and documentation processes for various types of projects. We utilize daily monitor reports, incident reports, tower logs, etc., on typical projects and we have developed specialized forms for projects involving items such as sand cleaning, vessel removal, and demolition. We document debris every time it moves, i.e., cutting hazardous limbs, loading, unloading at DMSs, reduction, and final haul/disposal or recycling. True North will provide all necessary security and oversight for all operations.

listing of load ticket numbers issued or voided, and any problems encountered or anticipated. Load tickets and logs will be available to the City of Hattiesburg. In addition to the tickets and logs, cumulative data and activity reports on completion progress and issues will be submitted to the city. These reports will include detail of the quantities and types of debris hauled. This information will be used by True North to reconcile pay requests from the contractor.

Since the load ticket process forms the basis of reimbursement, very close observation of debris loading operations is critical, including types of debris and loading site location. Field supervisors

LOAD TICKET PROCESS DEVELOPMENT

Field monitors will initiate load tickets as debris is loaded from public property and ROW. Information will include address, project, type of debris, and truck number and capacity. Debris site/tower monitors complete each load ticket with a load rating. Monitors will keep a log that contains information such as debris loading site location, loading site monitor's name, supervisor's name, number of load tickets issued during the shift, a

will be utilized along with control points to ensure thorough documentation and ticketing of debris loading operations.

DATABASE REPORTING

Data Administration: All load tickets and debris site data will be entered daily into North Track. This system has proven to be invaluable on complex projects. Managing ROW vegetative and C&D debris is relatively simple. Tracking numerous

communications, types of debris, and inspections for each individual ROE property requires a well-designed data base system.

Cross-checks are built into our proprietary data system, which shows caution flags when unexpected parameters are detected. Examples of data base “flags” could be short turn-around of a hauling unit, discrepancy on capacity, or high loads per day. Our data management system can be organized and sorted by an array of factors to generate comprehensive reports. We will work with you to develop an automatic daily report format to meet your information needs. We can generate custom reports from the data base to provide a wide range of project information. This reporting will be valuable in determining the need for additional passes, new programs, modifications to the scope of the project, etc. GPS coordinates are recorded and digital photographs are gathered to document critical activities, including all unit price tree removals, to meet FEMA requirements.

Daily Operational Reports: True North will provide you detailed daily status reports. These reports will be developed for automated generation by our comprehensive data management system. Relevant project statistics and cumulative statistics will be shown in a straight forward graphical manner, for officials to provide information to the media or to their constituents. These reports will be customized to fit the specific needs of the Client, and will also include information such as number of vehicles operating, total loads hauled, and cubic yards hauled. The data will be reported in categories by zone, contractor, debris type, average load volume, and citizen drop-off sites.

PAYMENT MONITORING AND RECONCILIATION PROCESS

We reconcile quantities with the contractor on a regular basis to ensure load ticketed quantities match as the project progresses. This avoids stress at the end of pay cycles in the event of different interpretations by the parties. True North reconciles data ticket-by-ticket and performs all tasks in compliance with FEMA standards. We review all contractor invoices for accuracy and consistency with load tickets, tower logs, and project spreadsheet quantities. Accurate, complete

invoices/pay requests with correct quantities are forwarded to our clients on a timely basis, with a recommendation for payment. Our team’s monitoring, documentation, and review processes provide the quality control and backup needed for maximum reimbursement by FEMA. We will keep you informed of the effect of recommended payments on the project/overall budgets, project worksheets, and purchase orders. This will assist in planning for purchase order adjustments and the need for additional versions of project worksheets.

ELECTRONIC TICKETING SYSTEM

Automated Debris Management Systems are changing the Debris Monitoring and Recovery Process. Properly implemented systems eliminate traditional paper tickets and provide valuable data during the recovery process. True North has invested considerable resources in developing our state of the art data management system, known as North Track. The North Track Data Management System (North Track) is a scalable and dynamic proprietary

debris monitoring application that will provide a detailed and accurate electronic load ticketing process following a disaster event. North Track is a true standalone ticketing system that has the ability to operate under extreme environmental conditions both with and without access to internet, cell towers or Wi-Fi. The North Track system establishes, stores, and provides all the necessary documentation required by FEMA, FHWA, and all other applicable federal, state, and local agencies to assist in maximizing your eligible reimbursements. North Track Data Management System provides the client with almost real-time project progress information. Not only does E-Ticketing assist the project collection and disposal monitors with data collection efficiency, accuracy, and completeness, it potentially eliminates thousands of hours of manual data entry of load tickets into a project database. Therefore, overall project management benefits from the implementation of E-Ticketing. Progress summary reports, utilizing un-reconciled data, can be generated daily within hours of completion of field operations. True North can use this data for debris removal mapping for an overall picture of project progress without the delays normally associated with manual data entry. True North can tailor our project load ticketing approach (paper versus electronic) to meet the needs and directives of the City of Hattiesburg.

TICKET FLOW/DATABASE

Monitors initiate electronic load tickets as hauling units are loaded. Basic information is recorded, including address and/or GPS location, debris type/pay item, monitor, driver, vehicle certification number, date, time, and other relevant information. At completion of loading, the electronic data is encrypted and stored on an electronic medium such as a thumb drive, which is electronically labeled for a specific driver

and certified hauling unit. This electronic medium is provided to the driver to be delivered to the tower monitor at the landfill or DMS. The driver provides this encrypted data medium to the tower monitor, who downloads the electronic load ticket into North Track, and then rates the load based on percent full.

Although the primary data is electronic, a paper ticket is printed at the landfill or DMS to provide archive copies for the Client, contractor, and driver, as a record of the load. The electronic medium is cleared when the electronic ticket is completed and is returned to the driver to allow another e-ticket to be initiated. The North Track electronic ticketing and data management system has numerous cross checks and internal controls to ensure accurate data capture and to minimize errors. The North Track database, with electronic load tickets, forms the basis for contractor invoice reconciliation and recommendation to the owner for payment.

All entities will work from the same data set. The system provides same day transmission of ticket data. Only the data relevant to each party will be available via secure website, and will be available by project, contractor, subcontractor, and independent hauler. Monitors are provided with Hand Held Units (HHU's) running the North Track application. The use of multiple backup servers and frequent data system backups virtually eliminates the risk of data loss. Since True North owns the hardware and software, we can easily and quickly implement project specific applications and updates, and set up new hardware.

QA/QC PROGRAM

The True North team will implement a QA/QC program to minimize errors on all project documents. The True North team will provide Field Supervisors to observe the activities of our monitors and provide Quality Assurance/Quality Control reviews on the entire project. Adequate project control and full FEMA reimbursement can only be assured if our policy and procedures are accurately implemented in the field.

Every debris project is carefully managed from the FEMA kickoff meeting through project closeout. We communicate thoroughly with key players of the project, including the City of Hattiesburg,

FEMA, FHWA, regulatory agencies, contractors, supervisors, and employees. Frequent and effective communication is important to ensure we understand and achieve the goals of the City of Hattiesburg. A clear understanding of the Stafford Act, disaster specific guidance and local FEMA staff are critical in project control and management to ensure full reimbursement.

Accurate complete record keeping, documentation and data management are as important as the physical work in meeting the goals of the City of Hattiesburg and receiving full FEMA reimbursement. The True North team follows the basic five-part FEMA load ticket process in monitoring ROW debris. Eligibility of debris and complete, accurate documentation lead to full reimbursement. These basic functions must be performed correctly in the field. We place great emphasis on training and supervising monitors in the basic monitoring functions to ensure they are performed consistently, and correctly.

FUNDING SUPPORT

True North has a strong record of full reimbursement on projects monitored by our staff. We will assist the City of Hattiesburg in developing a cash flow strategy to maximize early reimbursement of project costs. The True North team is thoroughly familiar with the requirements and guidelines of the Federal Emergency Management Agency. This includes an understanding of the Hurricane Sandy Recovery Act. We have a strong record of full FEMA and state reimbursement on projects we have monitored. We will work with the City to develop a strategy to maximize early reimbursement of project costs. We will also coordinate meetings with FEMA Public Assistance (PA) staff early in the project and focus on disaster specific guidance to maximize reimbursement of project costs. The True North team will be a resource to the City of Hattiesburg on federal requirements and financial recovery.

Contractor Damages: The team will coordinate with the City of Hattiesburg to respond to residential, commercial, and public property damages occurring in the field throughout the course of the project. We will maintain and update a log of damages reported, damage corrections, and releases for work by either the property owner or the City of Hattiesburg. We will track and monitor any complaints or damage reports, work with the contractors to resolve issues, and communicate this process to the City of Hattiesburg.

RECOVERY SERVICES

True North has the ability to provide financial tracking services, and the coordination typically required to help ensure the City of Hattiesburg receives reimbursements from FEMA.

Our experience includes recovery services listed below:

- Ordinance analysis to determine the best legal method to remove debris from private property.
- Easement/ Rights-of-Entry administration and data base management.
- Private property hazard tree and limb removal monitoring.
- Private property demolition coordination and monitoring.

EVENT CLOSURE

True North will complete project closeout within 30 days following completion of debris removal operations.

ADDITIONAL SERVICES

DEBRIS MANAGEMENT PLANNING

True North's staff of debris management specialists and emergency management planners has the experience to develop and/or review Debris Management Plans (DMP) in accordance with FEMA 327-Public Assistance-Debris Management Guide. We have successfully developed plans for many communities. We pride ourselves in developing a DMP that is a "living document" that is taken off the shelf and used for annual training purposes, as well as coordination with other planning initiatives such as mitigation, land-use, and other community planning efforts.

Our team will gather data regarding past debris-generating events in an effort to forecast debris projections for future events. Our approach is to identify the needs of the City of Hattiesburg by evaluating your previous experiences, how the recovery process was handled, and what lessons were learned. This valuable information will enable our team to prepare a useful plan for the City of Hattiesburg to follow if a disaster strikes.

PUBLIC INFORMATION ASSISTANCE

True North will assist the City of Hattiesburg in developing and implementing public communication tools as requested. We will develop and implement programs to communicate disaster and debris removal information to the public. To coordinate these efforts, we will provide experienced local employees with excellent communication skills, as well as thorough knowledge of the community and debris removal operations. If requested by the City of Hattiesburg our communications assistance may include press releases, public notices, public service announcements, project status updates, and other public communication tools.

The team will establish and staff a "debris hot-line" and/or website to address public complaints and concerns, as requested by the City of Hattiesburg. We will provide a local phone number and trained staff to manage phone calls and website activity

regarding all aspects of disaster debris, including debris removal schedules, eligibility for pickup, processes, recording public needs/concerns, complaints, and property damage claims. All complaints and damage reports will be documented and investigated, with resolution reported to the City of Hattiesburg. True North has broad experience in public communications and call center management following major hurricanes and other disasters. All public information support activities will be managed and executed to maximize federal and state reimbursement.

FEMA PUBLIC ASSISTANCE GRANT SERVICES

True North Emergency Management has experience in assisting its clients through the Public Assistance Grant process. True North can assist clients by capturing data and eligible costs that can be used to develop projects to be put onto a PW. True North can assist with initial estimates as well as final actual costs related to each project in the client PA process.

Services included in True North's services include:

- Identification of eligible emergency and permanent work (Category A-G);
- Damage Assessment
- Assistance in attaining Immediate Needs Funding;
- Prioritization of recovery workload;
- Loss measurement and categorization;
- Insurance evaluation, documentation adjusting and settlement services;
- Project Worksheet formulation, generation and review.
- FEMA, FHWA, HMGP, CDBG, NRCS and additional reimbursement support;
- Staff augmentation with experienced Public Assurance Coordinators and Project Officers;
- Interim inspections, final inspections, supplemental Project Worksheet generation and final review;
- Appeal services and negotiations;

- Reconstruction and long-term infrastructure planning; and
- Final review of all emergency and permanent work performed.

True North can also assist clients in maximizing FEMA reimbursement from previous disaster. True North has experience in reviewing PWs, and their associated documentation, to determine if all eligible costs have been captured. In cases where it has not, True North will work with its clients to submit additional eligible costs to FEMA to get reimbursement.

IMPACT & DAMAGE ASSESSMENT, STAFF AUGMENTATION

True North provides impact and damage assessment services to its clients. Following a disaster, it is critical that jurisdictions and organizations understand how the disaster has affected them. This includes determination of how infrastructure,

critical services and facilities, businesses, residents, and the environment have been affected.

The impact assessment services provided by True North are designed to give the client an idea of how the disaster has affected their jurisdiction, and how they may need to prioritize response and recovery resources. To accomplish this, True North staff can incorporate with local representatives to expedite the completion of the initial assessment.

The damage assessment services provided by True North are designed to take a more detailed look at exact damages. True North will work with clients to develop detailed reports on damages. This information can then be used in the public assistance process to begin the development of PWs.

CAPABILITY, CAPACITY & AVAILABILITY

True North will respond to the City of Hattiesburg's authorized representative with trained, experienced managers and personnel. The team will be a combination of local monitors, experienced employees from our permanent offices, and debris management experts. We will establish a Command Center in the disaster affected areas and will implement our comprehensive debris management training program to ensure all monitors are thoroughly trained and supervised. True North will meet all requirements of the City of Hattiesburg on this project.

True North will respond within six hours of notification to proceed. We will have staff in place within hours to begin the truck certification and monitoring process. This includes Site Monitors and Field Debris Monitors prepared to begin field work within hours. If needed, we will mobilize additional experienced personnel to begin monitoring operations as we hire and train local employees as monitors.

We will provide an experienced management, supervisory, and data team. True North will hire, train, and supervise local employees as monitors to support the local economy and minimize travel costs. Depending on the timing of startup, we will be able to provide full-time company employees from other offices around the Southeast as monitors for start-up of operations. These employees would return to their normal jobs as local monitors are hired and trained. True North understands the monitoring needs of the City of Hattiesburg following a major disaster. We are prepared to mobilize and respond immediately.

Debris Management Sites (DMS)/tower monitors are the most critical monitoring positions on a disaster debris project because of the judgment required in rating loads and the number of load tickets finalized at DMS/disposal sites. True North provides a higher level of training to fully prepare Tower Monitors for these challenges.

True North Managers and Supervisors are knowledgeable of the FEMA Public Assistance (PA) Program, including the following:

- Public Assistance Guide (FEMA 322)
- Applicant Handbook (FEMA 323)
- Public Assistance Debris Management Guide (FEMA 325)
- Public Assistance Debris Monitoring Guide (FEMA 327)
- Debris Estimating Field Guide (FEMA 329)
- FEMA's Recovery 9500 Series
- PA Policy and Program Guide FP-104-009-2(PAPPG)
- FEMA Disaster Assistance Policies
- FEMA PA Program guidelines
- FEMA Recovery Fact Sheet RP9580.201

True North has developed a state-of-the-art data management system that will be utilized on this project. The system provides for automated generation of standard and custom reports, as well as automatic checks on data. The North Track data system can also provide electronic load ticketing if requested by the City of Hattiesburg. North Track electronic load ticketing is fully compliant with the USACE ADMS requirements and is not dependent on cell towers for communication.

True North has very broad debris experience, including the monitoring of marine debris, waterway debris, beach debris, and nature facilities. True North monitored the debris removal from all affected state-owned waters in Texas following Hurricane Ike. This included monitoring debris removal from numerous waterways and marinas as well as debris removal from over 350,000 acres of water. Our monitoring experience includes private property/ROE work, waterways clean-up and reimbursement, sand recovery and beach remediation, leaning tree and hanging limb removal, hazardous material removal, vessel and vehicle recovery, asbestos abatement, data management,

and hauler invoice reconciliation and contracting, and FEMA appeals assistance. True North monitored the sand removal and beach cleaning in Dauphin Island, AL, following Hurricane Isaac in 2012, and monitored tornado debris removal for the cities of Hoover and Leeds, AL, and simultaneously Bradley County and Chattanooga in Tennessee.

We will work closely with the City of Hattiesburg to develop a specific communication systems to ensure continuity of communications. We will establish a local command center to provide for communications, computer equipment, data management, meetings, etc. True North will utilize our extensive experience to manage the contractor to meet the goals of the City of Hattiesburg.

True North has a strong track record of full FEMA reimbursement of eligible debris removal. True North has capacity with a history of providing hundreds of monitors following major disasters, including Hurricanes Katrina, Ike and Sandy, as well as the outbreak of tornadoes across the South and Midwest in 2011 and 2012.

Monitors will be available seven days per week, 12 to 14 hours per day, as needed. True North will arrive able to sustain itself and its employees, including meals, lodging, materials, and supplies. We will primarily utilize locally hired, trained, and supervised monitors for this contract. True North employees will have all needed tools, supplies, and equipment, including digital cameras, laptop computers, field communication equipment, and GPS units.

EXPERTISE

True North personnel are uniquely familiar with the policies, procedures, requirements, and guidelines associated with debris monitoring and disaster recovery that are subject to FEMA and FHWA regulations. Our experts are well versed in the Hurricane Sandy Recovery Improvement Act and in the Moving Ahead for Progress in the 21st Century Act (MAP-21), rules pertaining to FEMA and FHWA responsibility for debris management and reimbursement.

MOBILIZATION

The size of our firm (about 500 full-time employees) allows us the ability to draw resources from many offices to meet the immediate needs of the community. These employees are returned to their home offices as soon as local employees can be hired to fill the majority of the hourly monitoring positions. Using local monitors is key to the success of our debris removal program, and consistent with the goals of the Stafford Act to help the local economy recover.

Our team mobilized more than 450 temporary employees following the 2014 winter storms in South Carolina. We mobilized 250 temporary employees to meet the needs from Hurricane Sandy in 2012 and 2013 in the Northeast. Neel-Schaffer/True North also mobilized hundreds of monitors following Hurricane Katrina (MS) in 2005/2006 and Hurricane Ike (TX) in 2008/2009. We provided monitoring of thousands of workers during cleanup of the BP Gulf of Mexico oil spill in 2010 and 2011. These are just a few of the projects for which we have provided monitoring services over the past 10 years. We had more than enough supervisory staff to oversee the debris monitoring services. Our ability to mobilize, train and supervise hundreds of people in an organized and timely manner is key to our past success at debris removal monitoring and the corresponding recovery of the community.

True North's success in managing disaster debris removal, in particular following hurricanes Sandy, Isaac, Irene, Ike, Rita, and Katrina, is a testament to our ability to work effectively in complex situations. We have highly trained professionals who can complete the job in a cost-effective manner. Our company values are based on quick response, local hiring, client service, ethical practices, full reimbursement, and sensitivity to the environment. Our staff places the utmost importance on accounting procedures and implementing accurate and comprehensive reporting. The True North team's objective is to achieve full reimbursement for all eligible disaster recovery costs from appropriate federal and state agencies.

COORDINATION OF SERVICES IN MULTIPLE LOCATIONS

True North has handled debris monitoring for multiple government agencies numerous times. On three separate occasions, we have responded and provided services in 10 to 20 communities simultaneously. This occurred following Hurricane Katrina in 2005, Hurricane Ike in 2008, and Hurricane Sandy in 2012. Following Hurricane Katrina, we responded to over 10 communities. This response included the City of Biloxi, where we successfully monitored the removal of approximately 3 million cubic yards of debris from 5,000 right-of-entry properties, and 10,000 trees. In 2009, True North monitored debris removal simultaneously in over 10 communities in five different states across three separate FEMA regions.

True North has more than 10 Project Managers with experience managing major debris monitoring projects along with numerous experienced Field Supervisors and Data Managers. We are organized to respond quickly with an adequate supervisory and management team to commence truck certification and monitoring operations. True North will assign a Project Manager to the City of Hattiesburg at the time of responding to a Notice to Proceed. The Project Manager will be able to perform all duties set out herein. We begin operations with existing staff, while advertising, hiring, and training local monitors. We will assign an experienced Project Manager to every project that is activated. Commencement of operations will include providing qualified, trained personnel to perform debris removal monitoring services. Monitoring services shall include certification of vehicles, verifying eligibility of work, documenting removal services,

DMS monitoring, data management, and hauling contractor invoice reconciliation.

True North will provide all positions required for a complete debris monitoring and documentation project. Final staffing level determination will be made by the City of Hattiesburg. Debris Monitors will be primarily local and will be a minimum of 18 years of age, with a valid driver's license issued in the U.S. All True North documents shall be in compliance with FEMA regulations.

AN EXTENSION OF YOUR STAFF

True North is familiar with working within existing government structures. We will provide public information support, such as press releases, public service announcements, and project updates, as well as provision of other public communication tools as required. Additionally, if requested, we will establish a debris management call center to respond to public inquiries on debris-related issues.

The team has extensive experience in hiring and training hundreds of debris monitors following disaster across the country. We intend to hire and train the majority of our debris monitors locally. This is looked upon favorably by FEMA, will reduce costs to the project, and helps support the local economy. We will provide experienced management and supervisory staff to provide oversight of the monitors. We are committed to delivering the highest level of service.

EXPERIENCE, EXPERTISE & COMMITMENT

FULL RESUMES AVAILABLE IN PROPOSAL SECTION F, ADDITIONAL INFORMATION

PROJECT MANAGER: JIM GARNER, joined True North in 2014 and has 25 years of experience in emergency management. He served 34 years with the U.S. Army Corps of Engineers (USACE), filling roles as a Debris Project Manager, National Debris Subject Matter Expert, and primary POC for all phases of debris management, including traditional and Contaminated Debris Management (CDM) for both internal and inter-agency operations. As the National Debris SME, Mr. Garner maintained a working knowledge of FEMA debris policies and procedures that guide federal, state and local partnerships for debris management. He supported FEMA by providing policy reviews concerning debris management, provided reviews of state and local debris management plans for FEMA, and served as the USACE point of contact for the FEMA debris operations. His 42 debris missions included Hurricane Katrina (Sr. Debris SME), Hurricane Rita (Sr. Debris SME) and Hurricane Irene (FEMA Debris Task Force Leader). Mr. Garner serves as one of our in-house Project Managers for disaster relief projects providing guidance on debris management strategies, planning, and FEMA coordination.

SAFETY OFFICER: ROGER SHIELDS joined Neel-Schaffer in 2007 after retiring from the Mississippi Army National Guard with 38 years of military service. He retired full-time serving as the Chief of Staff of the Mississippi National Guard and militarily as the Commander of the 184th Expeditionary Sustainment Command. In this capacity, he was responsible for more than 3,000 full-time employees and an annual budget of more than \$420 million. Throughout his military career, he served in various leadership roles, including the Assistant Adjutant General of the Mississippi National Guard and as a senior commander on the Mississippi Gulf Coast during Hurricane Katrina. He presently works for Neel-Schaffer in the capacity of Training/Safety Coordinator. General Shields has been an active trainer for over 40 years, with 27 of those years as a professional military trainer responsible for

over 12,000 soldiers training at the individual and collective level. Responsibilities included both schools and tactical training. Included in the training was Professional Ethics IAW the Federal Ethics Regulation.

CLIENT LIAISON: MIKE ESSARY, PE joined Neel-Schaffer in 1996 after working for eight years with the Florida Dept. of Transportation, the Mississippi Dept. of Transportation and the U.S. Army Corps of Engineers. Mr. Essary was Project Manager on several debris monitoring projects following Hurricane Katrina including debris removal for MDOT District 6. Since joining Neel-Schaffer, Mr. Essary has served as a Project Manager providing planning, design and construction administration for a variety of projects including drainage, pump stations and force mains, recreational facilities, roadway design, sewer collection and treatment, general site work, transportation/traffic and water treatment and distribution. Mr. Essary is the Engineer Manager for the Pine Belt Region with offices in Hattiesburg and Laurel. Mr. Essary has over 28 years of project management experience and provides quality assurance on all projects in the Pine Belt region.

OPERATIONS MANAGER: KENNY URSREY joined Neel-Schaffer in 2005 as a debris monitor during cleanup after Hurricane Katrina. Following that assignment, he participated in assessments of street and sidewalk damages in St. Bernard, Orleans and Jefferson Parishes for FEMA and state emergency management personnel. He has gained experience inspecting projects ranging from sewer improvements to railroad work for industry in Mississippi.

DATA MANAGER: KINGSLEY MCCALLUM joined Neel-Schaffer/True North in 2013 with over 15 years of experience in disaster management. He currently manages and operates our North Track Automated Debris Management System (ADMS).

His experience includes the supervision of debris removal monitoring following Hurricane Sandy in Ocean County, NJ, and wildfires in California. He is an accomplished senior-level professional with demonstrated expertise in the areas of estimating, finance, operations and staff management within the commercial and residential construction sectors. Mr. McCallum's experience includes P&L management, contract negotiation, finance planning/strategy, state and local policy compliance and vendor sourcing/negotiation. He has managed commercial and residential projects ranging in size from \$90,000 to \$6.5 million.

DAMAGE ASSESSMENT ESTIMATOR/ FIELD ROVING MONITOR: GREG WILLIAMS has over 20 years of experience in debris management. He served as a senior debris Subject Matter Expert (SME) for the USACE and as a member of the Vicksburg District Planning and Response Team PRT.

He has deployed on approximately 23 disaster missions, and served on the elite cadre of National Debris Subject Matter Experts and Specialists. He served approximately 211 days as a debris planning and response team member during the aftermath of Hurricane Katrina. He has also volunteered to serve the Midwest for Ice Storms and Floods as well as Puerto Rico in 1998 for Hurricane George clean up. More recently, he served in the massive recovery efforts of the devastating tornadoes that struck Alabama in 2011, for the Northeast during Super Storm Sandy, severe ice storms in South Carolina, and the 2014 tornado outbreak in Mississippi. As a SME he is knowledgeable of all aspects of the Debris mission.

FEMA COORDINATOR: DAVID BOWMAN, PE, joined Neel-Schaffer in 1992 and is a Senior Vice President. Prior to joining the firm, he worked as an Engineer for the City of Jackson. In this position, he handled all engineering matters. Since joining Neel-Schaffer, Mr. Bowman has served as Project Engineer/Manager involved with the planning and design of numerous water and wastewater projects. He provided engineering services in the preparation of design, survey plats and descriptions, and specifications, and construction engineering. He is also familiar

with 404 permitting, NPDES stormwater permits, and other governmental regulations.

Mr. Bowman has also been involved with the development of new utility districts as well as modifications to existing organizations. He has assisted in the development of financial plans to fund capital improvement programs and annual operating budgets. He has provided funding plans and assisted the owners in securing the funding through federal and state agencies.

GIS ANALYST/ARCHIVES & HISTORY

COORDINATOR: CORI GAVIN joined Neel-Schaffer in 2011 and works in the firm's Biloxi office. Ms. Gavin routinely performs wetland delineations, threatened and endangered species surveys, Phase I and II ESAs and Geographic Information System (GIS) mapping. In cooperation with Mississippi Department of Marine Resources (MDMR), she oversaw the construction of 1,400 acres of oyster reef funded through the BP National Resource Damage Assessment (NRDA).

FIELD ROVING MONITOR: WHIT BARTON has over 20 years of experience in debris management. He served as senior debris Subject Matter Expert (SME) for the U.S. Army Corps of Engineers (USACE) from 2006-2014. He has deployed on approximately 23 disaster missions, and served on the elite cadre of National Debris Subject Matter Experts and Specialists. More recently, he served in the massive recovery efforts of the devastating tornadoes that struck Oklahoma City – Moore, OK in 2013 and for the Northeast during Super Storm Sandy.

FIXED SITE MONITOR: CHRIS LYNCH joined Neel-Schaffer/True North Emergency Management in 2013 as a Field Supervisor. Mr. Lynch was responsible for scheduling and deploying the loading and tower/site debris monitors and overseeing their daily activities at loading, staging, and disposal sites. Additionally, he was responsible for resolving field operational, eligibility, and safety issues and communicates such issues to an Operations Manager and/or Debris Project Manager. He has conducted many truck certifications, load measurements, and photo-documentation as each project requires.

**VEHICLE LOAD CERTIFICATION: BRETT LAVIN**

joined Neel-Schaffer in 2016. Prior to joining Neel-Schaffer he worked in the oil and gas industry as an independent landman where he was involved with the research of property ownership for oil exploration, ROW, conducting property owner interviews.

Since joining Neel-Schaffer he has been very involved in numerous government projects related to GIS, Rights-of-Way (ROW) research, and overall debris management related to local and state government disaster cleanup projects. Mr. Lavin has served the role as a Field Supervisor and Data Manager.

QA/QC MANAGER: STEVE TWEDT, PE, joined the firm in 2010 and serves as the firm's South Mississippi Area Manager, coordinating work among the Neel-Schaffer offices in Bay St. Louis, Biloxi, Gulfport, Hattiesburg, Laurel, and Pascagoula.

Prior to joining Neel-Schaffer, Mr. Twedt worked for 23 years as an engineer with MDOT. This district is comprised of 14 counties in Southeast Mississippi, with over 5,000 lane miles of state maintained highways and 460 employees. Mr. Twedt was charged with overseeing pre-construction activities and implementing a construction program that included the Katrina Recovery Highway Reconstruction Program.

OFFICER-IN-CHARGE: NELSON LUCIUS, PE joined Neel-Schaffer in 1990 and has 32 years of experience in emergency management and civil engineering. He is a Senior Vice President of Neel-Schaffer and Manager of True North Emergency Management. Mr. Lucius has extensive experience in managing and monitoring debris removal related to all types of disasters including hurricanes, tornadoes, wildfires, winter storms, floods, man made disasters. He participated in several debris monitoring projects for public entities over the past ten years, that included over 1 million cubic yards of debris each. Mr. Lucius has experience working with federal, state and local government emergency agencies and reimbursement programs. He also has experience with solid and hazardous waste management programs, policies and procedures. Mr. Lucius has participated in special disaster recovery program management services including private property/right-of-entry (ROE) work, waterways clean-up and reimbursement, leaning tree and hanging limb removal, hazardous material removal, vessel and vehicle recovery, asbestos abatement, data management, hauler invoice reconciliation and contracting, and FEMA appeals assistance. Mr. Lucius also has project management and design experience on several debris site, roadway, utility and landfill projects including planning, conceptual design, site development, final design and permitting.

PAST EXPERIENCE & REFERENCES

The debris management matrix shown below as well as the following project summaries demonstrate proven performance and our ability to monitor the removal and disposal of all types of storm-related debris from ROW and ROE. In addition, our team is trained and equipped to handle special waste concerns, including asbestos. To date, more than 16 million cubic yards of debris have been monitored by our team, as well as more than 12,000 ROEs. True North has never had a contract related to debris monitoring activities canceled.

PROJECT PROFILES

DEBRIS MONITORING SERVICES, SEVERE STORMS, TORNADOES, STRAIGHT-LINE WINDS AND FLOODING

TEXAS DEPARTMENT OF TRANSPORTATION

The Neel-Schaffer/True North project team began providing debris monitoring services to the Texas Department of Transportation in late May 2015 for the Fort Worth District in Johnson County due to localized flooding and wind damage resulting from the event entitled Texas Severe Storms, Tornadoes, Straight-line Winds (DR-4223) with an incident period spanning May 4, 2015 to June 22, 2015. Beginning in June, the Texas Department of Transportation (TxDOT) expanded our monitoring responsibilities to the Tyler District including Van Zandt County, City of Van, Rusk County, City of Henderson, and Cherokee County, including municipal, county, and state roads. We then mobilized to the Houston District in July to provide disaster debris monitoring services for vegetative wind damage in Montgomery and Waller Counties. During the latter part of July, TxDOT activated the Neel-Schaffer/True North team for debris monitoring services in 7 counties (Bastrop, Blanco, Caldwell, Hays, Lee, Travis, Williamson) maintained from the Austin District office.

The Neel-Schaffer and True North team was also tasked by the Texas Department of Transportation to assist with the compilation of data and development of documentation in support of the Federal Highway Administration (FHWA) Emergency Relief (ER) program and the FEMA Public Assistance disaster recovery grant reimbursement programs. Currently, we are working for all districts that received damage to include the Austin, Dallas, Houston, and Tyler Districts. In support of the Federal Highway Administration – Emergency Relief program we developed Program of Projects (POP), Detailed Damage Inspection Reports (DDIR), and Damage Survey Summary Reports (DSSR) meeting tight deadlines and specifications. We also fast-tracked the paperwork for the FHWA Quick Release Program. Additionally, our staff compiled professional engineering opinion of costs, other cost estimates, permits, inspection reports, and other detailed information to support the development of draft Project Worksheets for the applicant.

PROJECT TERM:

May 2015 to October 2015

TORNADO OUTBREAK, APRIL 2014 (DR-4175-MS)

LEE & LOWNDES COUNTY AND LOUISVILLE, MISSISSIPPI

Following the tornado outbreak of April, 2014, three local governments in Mississippi, including City of Louisville, Lee County, and Lowndes County, selected and contracted with True North as the primary contractor to manage and monitor the debris removal and disposal. True North had both the resources and expertise to simultaneously staff and successfully operate each contract efficiently while achieving maximum reimbursement for each client. The City and Counties utilized three different hauling contractors for the debris removal. True North properly certified all trucks and equipment involved with the debris removal operation and coordinated with the contractors to erect inspection towers at each debris management site (DMS) and the landfill.

In accordance with the specified working zones, eligible debris was removed from public ROW and hauled to the appropriate DMS. This zone-by-zone approach ensured that the True North team effectively managed, monitored and documented the contractor during the removal and hauling of eligible debris. Following the vegetative debris reduction by the Contractor, all mulched debris was loaded and hauled to the local landfill while being properly monitored and documented at the loading and unloading points.

Lowndes County, MS

DEBRIS MONITORING SERVICES, APRIL 2011 TORNADOES

CITY OF CHATTANOOGA, TENNESSEE

The City of Chattanooga selected True North as the primary contractor to manage and monitor the debris removal and disposal as a result of the tornadoes on April 27, 2011. The City selected Byrd Brothers as its debris hauling contractor. The True North team managed several sub-contractors working under the contractor, Byrd Brothers. True North properly certified all equipment involved with the debris cleanup operation. True North coordinated the contractor to erect inspection towers at each debris management site (DMS) and the landfill.

The City of Chattanooga had used force account labor to remove and haul vegetative debris to two of the three DMSs used during the project. Although the City had approximate volumes based on truck counts and manufacturer struck volumes, it was necessary to develop an estimate of the stockpiled debris for further management and reduction by the contractor for subsequent payment. The City requested True North develop an estimate of the two stockpiles. True North coordinated this effort with representatives from FEMA, the City, and the contractors.

Following the truck and equipment certification process, in accordance with the City's Solid Waste Route Zones, systematically, eligible vegetative debris was removed from public ROW and hauled to the DMS allocated to the zone. This zone-by-zone approach ensured that the True North team effectively managed and monitored the contractor during the removal and hauling of eligible vegetative debris. Since most of the storm eligible debris was vegetative in nature, construction and demolition debris was removed and hauled directly to the local landfill utilizing force account labor and equipment. Following vegetative debris reduction by the Contractor via tub grinders, all mulched debris was loaded and hauled to the local landfill while being properly monitored and documented at the loading and unloading points.

During the course of the storm debris clean up, approximately 2,700 hazardous hangers, 58 hazardous trees, 40 hazardous stumps, and over 135,000 cubic yards of eligible ROW vegetative debris was removed, reduced, and disposed of properly. The True North team monitored and documented the debris stream from its origination, the ROW, to final disposal, this ensured maximum FEMA reimbursement to the City of Chattanooga.

PROJECT TERM:

May 2011 to October 2011

DEBRIS MONITORING SERVICES, HURRICANE SANDY

OCEAN COUNTY, NEW JERSEY

True North provided disaster debris management services to over 20 cities, counties and townships in New Jersey following Hurricane Sandy, which made landfall in October 2012. Our monitoring in New Jersey included ROW debris removal, public property debris removal, hazardous tree work, private property work, and waterway debris. These projects included the monitoring of operation and closeout of 22 temporary debris storage and processing sites.

We worked as a sub-consultant to the Louis Berger Group to monitor the removal of over **1.2 million cubic yards** of debris from Ocean County, including several towns within the County. The removal of ROW debris was completed in approximately 90 days, involving over 200 monitors. The project included C&D debris, vegetative debris, white goods, HHW, and deposited sand removal. The project also included monitoring a large storm sewer cleaning effort to remove sand and sediment deposited by Hurricane Sandy. Hazardous hanging limbs were removed from over 35,000 trees.

November 2012 - November 2013

"The Borough of Beach Haven was fortunate to have Neel-Schaffer/True North retained to explain and guide us through a process that could be extremely costly to our taxpayers had we not followed your advice and counsel."

- Charles E. Maschal, Jr., Mayor, Beach Haven, NJ

DEBRIS MONITORING SERVICES, WINTER STORM PAX

SOUTH CAROLINA DEPARTMENT OF TRANSPORTATION

The South Carolina Department of Transportation selected True North Emergency Management for a pre-event contract in September of 2013. In February of 2014 a severe winter storm ravaged a large swath of South Carolina, and the True North debris management and supervision team mobilized while the winter storm was ongoing. True North Operations Managers and Field Supervisors assisted the SCDOT during the PUSH efforts, providing timesheet and equipment log management. These efforts ensured required documentation qualifies for reimbursement for the initial debris clearance response phase. During the PUSH efforts, other Operations Managers and Field Supervisors managed project logistics, out-reach programs, and local staffing efforts. We successfully hired over 500 local monitors and staff throughout the 8-county project scope to assist with debris removal monitoring services. More than 450 debris monitors worked to clean up the rights-of-way (ROW) of more than **1.5 million cubic yards** of eligible vegetative debris along with monitoring almost 230,000 trees, to include trees with hazardous hanging limbs and leaner removals. A local engineering firm, CHAO and Associates, Inc., provided assessment of numerous debris management sites to facilitate the SCDOT with meeting DHEC permit and review requirements. Our Project Manager, a US Army Corp of Engineers' certified Subject Matter Expert, along with other Operations Managers and Field Supervisors worked shoulder-to-shoulder with FEMA project members to ensure a successful project validation process.

PROJECT TERM:

February 2014 - January 2015

CALIFORNIA VALLEY FIRE AND BUTTE FIRE

CALIFORNIA DEPARTMENT OF RESOURCES, RECYCLING & RECOVERY

Neel-Schaffer/True North provided Electronic Monitoring of Private Property Debris Removal (PPDR) and PA Consulting (financial recovery assistance) following the devastating 2015 wildfire season in California. The California Department of Resources Recovery and Recycling (CalRecycle) managed the remediation of damage resulting from several 2015 fire events. CalRecycle hired True North to provide third party debris removal monitoring for the Butte Area Fire. The Butte Area Fire project also destroyed approximately 70,000 acres, mostly in Calaveras County, and led to ROEs on more than 800 private properties. The Valley Area Fire project included Rights-of-Entry (ROEs) on more than 1,300 private properties, across about 70,000 acres mostly in Lake County.

On-site remediation monitoring included tracking the work hours of remediation contractor personnel and equipment. Truck loading and debris removal were also documented for separate waste streams including ash, metals, debris, soil and concrete. Not all waste streams were FEMA reimbursable, which necessitated separate tracking of waste streams. True North Monitors prepared paper “Daily Activity Logs” as a backup to our Electronic Load Tickets. True North’s proprietary North Track electronic ticketing system was used with 10” tablet computers to accurately track remediation activities. Data was uploaded daily to the North Track Data Management system. This field data was used to assist in reconciling contractor invoices.

True North assisted CalRecycle in reviewing and reconciling remediation contractor invoices to support FEMA reimbursement for both the Butte Area and Valley Area Fires. Removal of ash and debris from destroyed structures mitigated community health hazards. The remediation projects allowed the affected communities to safely rebuild following the disaster. Multiple contractors were hired under “cost plus” remediation contracts, which provided CalRecycle the ability to closely manage the activities of the contractors in cleaning the burn sites.

The True North monitoring and PA team included more than 30 Monitors, 9 Supervisors & 8 Accountants/Clerks, as well as a Program Director, Project Manager, Officer-in-Charge, QA/QC Manager, Data Manager, and Health & Safety Officers.

DEBRIS MONITORING SERVICES, HURRICANE KATRINA

JACKSON COUNTY, MISSISSIPPI

Neel-Schaffer entered into a contract as the primary contractor with Jackson County to monitor the removal and disposal of over 1 million cubic yards of storm-related debris from the ROW and over 5,000 ROEs in Jackson County. Our services included removal of debris from drainage ways as well as removal of cars, boats, and coordination of debris removal from commercial property.

Neel-Schaffer assisted the County in the administration of the contracts with the three independent contractors hired for debris removal. The general contractors subsequently employed multiple subcontractors to meet reimbursement guidelines established by the FEMA.

Our staff met with the County twice a week to provide updates on the debris removal program. The work commenced on Jan. 2, 2006, and concluded on Aug. 1, 2006. A total volume of over 1 million cubic yards of debris was collected at a cost of more than \$24 million, including cars, boats and hazardous trees.

MASSIVE CLEANUP

"Perhaps because post-Katrina disaster recovery represents the most massive clean-up in America's history, maintaining an orderly clean-up process was a challenge. Once we enlisted the services of Neel-Schaffer, everything began to run much better."

- John McKay, Jackson County Supervisor

DEBRIS REMOVAL FROM COASTAL AND INNER WATERWAYS, HURRICANE SANDY

SOUTHERN NEW JERSEY ZONES 8, 9, 10 & 11

Relevance Project: Visual location of waterway debris via air photography and sonar. Removal of waterways debris from coastal and inland waterways for the state of New Jersey. Debris is broken into five categories: Sand, C & D, white goods, vessels, and demolition.

Project Data: In 2013, the governor's office of the State of New Jersey requested SOL to provide waterway debris removal from coastal and inner waterways of Southern New Jersey. The debris was broken into five categories: sand, construction and demolition, white goods, and vessels. 75% of the 11,000,000 cubic yards of debris was completed by March 1, 2013. SOL performed Preliminary Damage Assessments (PDAs) as a subconsultant to CCPRS to document damages and determine the impact of the disaster on communities in the affected areas. The information gathered during the PDAs provided the basis for State's requests and Presidential major disaster declarations. The results of the PDAs were documented in writing based on guidance from the FEMA Task Monitor. For the debris operations and other management operations services,

SOL provided technical staff expertise to evaluate debris operations and emergency protective measures, which were activities performed to eliminate or reduce immediate threats to the public (including search and rescue, warning of hazards, and demolition of unsafe structures).

SOL's staff was tasked to provide field monitoring to document the daily activity of the debris removal process. Field quantities were calculated to show the cubic yards of all types of debris (vegetative, hazardous household waste, construction/demolition, and white goods), and documented the quantities on project worksheets (PWs).

Key Components:

- Debris Removal
- Disaster Recovery

ATTACHMENT C

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, True North, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

RESUMES

JIM GARNER

PROFESSIONAL HISTORY

Mr. Garner joined True North in 2014 and has 25 years of experience in emergency management. He served 34 years with the U.S. Army Corps of Engineers, filling roles as a Debris Project Manager, National Debris Subject Matter Expert, and primary POC for all phases of debris management, including traditional and Contaminated Debris Management (CDM) for both internal and inter-agency operations. As the National Debris SME, Mr. Garner maintained a working knowledge of FEMA debris policies and procedures that guide federal, state and local partnerships for debris management. He supported FEMA by providing policy reviews concerning debris management, provided reviews of state and local debris management plans for FEMA, and served as the USACE point of contact for the FEMA debris operations. His 42 debris missions included Hurricane Katrina (Sr. Debris SME), Hurricane Rita (Sr. Debris SME) and Hurricane Irene (FEMA Debris Task Force Leader). Mr. Garner serves as one of our in-house Project Managers for disaster relief projects providing guidance on debris management strategies, planning, and FEMA coordination.

RELATED EXPERIENCE

- **2015 Severe Storms, Tornadoes, Straight-line Winds and Flooding** - Project Manager for TxDOT Austin, Tyler, and Fort Worth Districts. Debris operations included removal, staging, reduction and disposal.
- **2015 Kentucky Severe Storms, Tornadoes, Straight-line Winds, Flooding, Landslides, and Mudslides** - Debris removal monitoring Project Manager for KYTC projects in Johnson County, Kentucky. Debris operations included removal, staging, and disposal.
- **Severe Winter Storm Pax, SCDOT, SC** - Project Manager for monitoring the removal of debris generated by severe winter weather. Included monitoring debris removal from ROW, reduction and hauling of reduced debris. Also included in the project was the removal of hazardous hanging limbs and leaning trees.
- **Hurricane Sandy NY/NJ, 2012** - Lead Debris SME. Technical assistance support to USACE and FEMA for all phases of debris management operations.
- **Hurricane Isaac LA, 2012** - Lead Debris SME. Technical assistance support to state/local governments and FEMA for all phases of debris management operations.
- **TS Lee NY, 2012** - Lead Debris SME. Technical assistance support to state/local governments and FEMA for all phases of debris management operations.
- **Hurricane Irene NY, 2012** - FEMA Debris Task Force Leader. Led a combined FEMA/USACE team performing technical assistance support to state/local governments for all phases of debris management operations.
- **MS River Floods, 2011** - Lead Debris SME. Technical assistance support to state/local governments and FEMA for all phases of debris management operations.
- **Project Manager** - Responsibility for training in debris planning and response teams (PRT), to include assembling an instructor cadre, developing training curriculum, budgeting for required funding and program management of all training funds, and scheduling and conducting training.
- **Project Manager** - FEMA-funded initiative to improve debris quantity estimation capabilities in advance of natural disasters through application of statistically based ground sampling procedures in the immediate, post-disaster period. Mr. Garner collected historical, volumetric debris data, and developed new empirical relationships to validate and improve the current USACE debris estimation model. Led a team of field estimators to test new estimation techniques as part of recovery from Arkansas ice storm.

- **Debris Removal Monitoring, Ocean County, NJ** - Served as Operations Manager for several projects following Hurricane Sandy. Responsibilities included supervision of debris removal monitoring of over 1.3 million cubic yards of debris from more than 17 townships and boroughs in Ocean County. ROW debris monitoring work included removal of C&D debris, vegetative debris, hazardous trees, white goods, HHW, etc.
- **FEMA Roadway Inspection and Public Infrastructure Assessment, St. Bernard, Orleans and Jefferson Parish, LA:** Resident Project Representative. State Applicant Liaison to FEMA. Participated in field surveys and prepared inspection reports for street and sidewalk damage resulting from Hurricane Katrina.
- **Hurricane Katrina Debris Management, Jackson, MS:** Senior Project Manager. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the operations with the local FEMA debris specialist, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Right-of-Way and Right-of-Entry Program, Jackson County, MS:** Senior Project Manager. Duties included managing the 110 field monitors, 20 right-of-entry personnel, and coordinating communication between owner and contractor. Other duties included the management and organizational structure of projects. More duties included weekly updates of the project to the client, coordination with FEMA/MEMA field personnel, and contractor coordination.
- **2005 Hurricane Katrina Debris Removal of Public Right-Of-Ways, City of McComb, MS:** Senior Project Coordinator. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the operations with the local FEMA debris specialist, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Debris Removal of Public Right-of-Ways, City of Magnolia, MS:** Senior Project Coordinator. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Debris Removal on Public Right of Way, City of Biloxi, MS:** Disposal Monitor. Evaluated the disposal of debris by contractor and rated incoming debris loads. Also provided assistance in disposals of special waste issues.

GREG WILLIAMS

PROFESSIONAL HISTORY

Mr. Williams has over 20 years of experience in debris management. He served as a senior debris Subject Matter Expert (SME) for the U.S. Army Corps of Engineers (USACE). Mr. Williams served as a SME and a member of the Vicksburg District Planning and Response Team PRT.

He has deployed on approximately 23 disaster missions, and served on the elite cadre of National Debris Subject Matter Experts and Specialists. He served approximately 211 days as a debris planning and response team member during the aftermath of Hurricane Katrina. He has also volunteered to serve the Midwest for Ice Storms and Floods as well as Puerto Rico in 1998 for Hurricane George clean up. More recently, he served in the massive recovery efforts of the devastating tornadoes that struck Alabama in 2011, for the Northeast during Super Storm Sandy, Severe Ice Storms South Carolina, and 2014 tornado outbreak in Mississippi. As a SME he has to be knowledgeable of all aspects of the Debris mission.

RELATED EXPERIENCE

- **2015 Severe Storms, Tornadoes, Straight-line Winds and Flooding** - Debris removal Operations Manager for TxDOT projects in Austin, Tyler, and Fort Worth Districts. Debris operations included removal, staging, reduction and disposal.
- **2014 Severe Winter Storm Pax, SCDOT, SC** - Debris removal monitoring Supervisor for monitoring the removal of debris generated by severe winter weather. Included monitoring debris removal from ROW, reduction and hauling of reduced debris. Also included in the project was the removal of hazardous hanging limbs and leaning trees.
- **Mississippi River Floods, 1992**
- **Hurricane Georges, 1998 PRT member**
- **Oklahoma Tornadoes 1999 QA Supervisor**
- **Hurricane Floyd, 2000, Debris Specialist**
- **Hurricane Lili, 2002 Debris Technical Assistance (TA)**
- **Tropical Storm Allison, Texas 2003 QA Supervisor**
- **Hurricane Isabel, 2003 SME for TA, and trained debris monitors from other federal Agencies**
- **Hurricane Francis 2004 Mission Manager**
- **Hurricane Ivan, AL, 2004 Debris SME**
- **Hurricane Dennis, 2005 Debris SME TA/Rapid Needs Assessment**
- **Hurricane Katrina MS/LA, 2005 Debris SME**
- **Oklahoma Ice Storms, 2007-2008 Debris SME for TA mission Arkansas Tornadoes, 2008 Debris SME for TA mission**
- **Oklahoma Tornadoes, 2008 Debris SME for TA mission**
- **Midwest Floods, 2008 Debris SME for TA mission**
- **Hurricane Gustav, 2008 Debris SME for TA mission**
- **Hurricane Ike, 2008 Debris SME for TA and DFA mission**
- **Oklahoma Ice Storms, 2010 Debris SME for TA mission**
- **Alabama Tornado, 2011 Debris SME for DFA mission**
- **Hurricane Isaac LA, 2012 Debris SME for TA mission**
- **Super Storm Sandy, 2012 Debris SME for TA mission**
- **Ice Storms South Carolina 2014, Area Supervisor**
- **Mississippi Tornadoes 2014, Operations Manager**

KINGSLEY A. McCALLUM, III

PROFESSIONAL HISTORY

Mr. McCallum joined Neel-Schaffer/True North in 2013 with over 15 years of experience in disaster management. and currently manages and operates our North Track Automated Debris Management System (ADMS). His recent experience includes the supervision of debris removal monitoring following Hurricane Sandy in Ocean County, NJ. He is an accomplished senior-level professional with demonstrated expertise in the areas of estimating, finance, operations and staff management within the commercial and residential construction sectors. Mr. McCallum's experience includes P&L management, contract negotiation, finance planning/strategy, state and local policy compliance and vendor sourcing/negotiation. He has managed commercial and residential projects ranging in size from \$90,000 to \$6.5 million.

RELATED EXPERIENCE

- **2015 Severe Storms, Tornadoes, Straight-line Winds and Flooding** - Project Manager for TxDOT Houston District. Debris operations included removal, staging, reduction and disposal.
- **2015 Kentucky Severe Storms, Tornadoes, Straight-line Winds, Flooding, Landslides, and Mudslides** - Debris removal monitoring Project Manager for KYTC projects in Johnson County, Kentucky. Debris operations included removal, staging, and disposal.
- **Severe Winter Storm Pax, SCDOT, SC** - Project Manager for monitoring the removal of debris generated by severe winter weather. Included monitoring debris removal from ROW, reduction and hauling of reduced debris. Also included in the project was the removal of hazardous hanging limbs and leaning trees.
- **2013 Colorado Severe Storms, Flooding, Landslides, and Mudslides** - Project Manager Debris removal monitoring for all phases of debris management operations. Debris operations included removal, staging, and disposal.
- **Debris Removal Monitoring, Ocean County, NJ** - Served as Operations Manager for several projects following Hurricane Sandy. Projects included waterway debris monitoring for the New Jersey DEP, ROW debris monitoring and storm drain cleaning for Ocean County, and private property debris removal for Toms River, New Jersey. Responsibilities included supervision of monitoring the removal of C&D debris, vegetative debris, hazardous trees, white goods, HHW, etc. Our team was selected for the Southern Section of waterway debris monitoring by the New Jersey Department of Environmental Protection. This region included 4 zones and over 115,000 acres of bays, rivers, lagoons, and portions of the Atlantic Ocean.
- **Waterway Debris Removal Monitoring, New Jersey Department of Environmental Protection** - As Operations Manager provided supervision of marine debris removal monitoring of four zones and over 115,000 acres of bays, rivers, lagoons, and portions of the Atlantic Ocean.
- **Hurricane Sandy, New York and New Jersey** - Responsible for site inspections, which included ROE, PPDR, demo, foundation, interior, exterior, roof systems and Xactimate estimating for commercial and residential properties.
- **Hurricane Isaac, Louisiana and Mississippi** - Responsible for site inspections, which included: ROE, PPDR, demo, foundation, interior, exterior, roof systems.

BRETT LAVIN

PROFESSIONAL HISTORY

Mr. Lavin joined Neel-Schaffer in 2016. Prior to joining Neel-Schaffer he worked in the oil and gas industry as an independent landman where he was involved with the research of property ownership for oil exploration, ROW, conducting property owner interviews.

Since joining Neel-Schaffer he has been very involved in numerous government projects related to GIS, Rights-of-Way (ROW) research and overall debris management related to local and state government disaster cleanup projects. Mr. Lavin has served the role as a Field Supervisor and Data Manager.

EDUCATION

Bachelor of Science,
Business Management,
University of Louisiana at
Lafayette, 2005

RELATED EXPERIENCE

- **South City Parkway – Lafayette Consolidated Government – Lafayette, LA:** Performed extensive research at the local courthouse/local tax assessor office to identify property owners related to navigation studies for a proposed bridge crossing the Vermilion River. Conducted interviews with property owners identified in the proposed rights-of-way.
- **Louisiana Severe Storms and Flooding Debris Removal Monitoring, Lafayette Consolidated Government, LA:** Field Supervisor. This project included the monitoring of debris following severe flooding. Responsibilities included debris truck certifications, data management, conducting electronic ticketing training sessions.
- **Louisiana Severe Storms and Flooding Debris Removal Monitoring, Vermilion Parish Police Jury, LA:** Field Supervisor. This project included the monitoring of debris following severe flooding. Responsibilities included debris truck certifications, data management, conducting electronic ticketing training sessions.
- **Hurricane Matthew Debris Removal Monitoring, South Carolina Department of Transportation, SC:** Field Supervisor. This project included the monitoring of debris removal from state, county, and city roads and streets, covering ten counties, following Hurricane Matthew. Responsibilities included debris truck certifications, data management, conducting electronic ticketing training sessions.

OLEN BURDITT

PROFESSIONAL HISTORY

Mr. Burditt has over 14 years of experience in debris management. He served as senior debris Subject Matter Expert (SME) for the U.S Army Corps of Engineers (USACE). He served as a member of the Fort Worth District Planning and Response Team (PRT) for 14 years and as an SME the last 6 years with USACE. Mr. Burditt also served as Liaison Officer between USACE HQ and FEMA HQ on nationwide Weapons of Mass Destruction (WMD) Debris PRT from 2009 – 2013.

While serving as an SME, he was knowledgeable with all aspects of a debris mission. He provided technical knowledge and management abilities to insure mission was scoped and executed properly. He has deployed on approximately 20 missions, including debris removal, temporary housing, and roofing assignments.

RELATED EXPERIENCE

- **2015 Severe Storms, Tornadoes, Straight-line Winds and Flooding** - Debris removal Supervisor for TxDOT projects in Austin, Tyler, and Fort Worth Districts. Debris operations included removal, staging, reduction and disposal.
- **Central Texas Flooding , 2002 Quality Assurance Monitor (QA)**
- **Hurricane Rita, 2005 QA Supervisor**
- **Hurricane Dolly, 2008 Debris SME for TA mission**
- **Hurricane Ike, 2008 Debris SME for TA mission**
- **Arkansas Tornadoes, 2009 Debris SME for TA mission**
- **Haiti Earthquake, 2010 Lead Debris SME for TA mission**
- **Tennessee Flooding, 2010 Debris SME for TA mission**
- **Alabama Tornadoes, 2011 Debris SME for TA mission**
- **Hurricane Irene, 2001 Debris SME for TA mission**
- **Bastrop, Texas Fires, 2011 Debris SME for TA mission**
- **Hurricane Isaac, 2012 Debris SME for TA mission**
- **Hurricane Sandy, 2012 Debris SME for TA mission**
- **Moore, Oklahoma Tornadoes, 2013 Debris SME for TA mission**

CHRIS LYNCH

PROFESSIONAL HISTORY

Mr. Lynch joined Neel-Schaffer / True North Emergency Management in 2013 as a Field Supervisor. Mr. Lynch was responsible for scheduling and deploying the loading and tower/site debris monitors and overseeing their daily activities at loading, staging, and disposal sites. Additionally, he was responsible for resolving field operational, eligibility, and safety issues and communicates such issues to an Operations Manager and/or Debris Project Manager. He has conducted many truck certifications, load measurements, and photo-documentation as each project requires.

Other responsibilities include field oversight and verification that our debris monitors are performing and fulfilling the basic monitoring requirements, i.e:

- loading must be observed by the Monitor
- load tickets must be legible
- load tickets are numbered and controlled
- personal relationships with contractor employees are prohibited
- debris must be accurately labeled by type
- debris must be eligible storm-generated debris, and
- debris must be loaded from eligible work areas.

Additionally, he has verified accuracy, completeness, and legibility of load tickets, tree tickets, street nomenclature/addresses, Daily Monitor Report, Daily Haul Record (Tower Log), Ticket Sign out Register, Incident Reports, and Monitor Timesheets daily. He has reconciled Monitor daily reports and sign-in sheets. He has reviewed leaner and hanger work including tree logs daily either on site or through review of photographs, including work by each tree monitor. As a Tower Supervisor or Field Supervisor, he has reconciled Load Tickets with the Tower Log daily and observe load calls at each tower at least on a frequent basis. He has reviewed Monitor timesheets carefully for accuracy, math, employee signature, and all changes were to be lined through and initialed by the Employee and Supervisor.

CORI GAVIN

PROFESSIONAL HISTORY

Ms. Gavin re-joined Neel-Schaffer's Environmental Science Group in April 2016 and works in the firm's Biloxi office. A Neel-Schaffer employee from 2011-2014, she worked for Sustainable Ecosystem Restoration, LLC, from March 2014 to March 2016 as a coastal ecologist. In that role, her duties included performing in situ habitat mapping for the Mobile Bay National Estuary Program (MBNEP); property assessments and recommendations for invasive species removal for the Land Trust of the Mississippi Coastal Plain; wetlands delineations, agency correspondence, and permitting; Phase I and Phase II Environmental Site Assessments (ESA); Geographic Information System (GIS) mapping through field reconnaissance to create data driven polygons for habitat and topographic mapping; quantification and assessment of damage from cleaning activities related to the 2010 BP Gulf of Mexico Oil Spill; and design and construction of a living shoreline project in Harrison County, MS.

Previously with Neel-Schaffer, Ms. Gavin performed wetland delineations, threatened and endangered species surveys, and assisted with Phase I and II ESAs and environmental assessments (EAs) for the U.S. Department of Housing and Urban Development (HUD) and Federal Emergency Management Agency (FEMA). In cooperation with Mississippi Department of Marine Resources (MDMR), she oversaw the construction of 1,400 acres of oyster reef funded through the BP National Resource Damage Assessment (NRDA).

RELATED EXPERIENCE

- **Phase I and Phase II ESA:** Performed multiple Phase I and Phase II ESA's, property investigation, report preparation, and GIS mapping to satisfy commercial real estate loan programs and Federal grant/loan programs.
- **Texas General Land Office, Galveston County Hurricanes Ike and Dolly Round 2 Department of Housing and Urban Development (HUD) federal assistance program:** Responsible for assessing applicant properties for environmental conditions including: hazardous and toxic chemicals, floodplain management, wetlands, threatened and endangered species, migratory birds, coastal zone boundaries and coastal zone barriers. Responsible for gathering databases and GIS mapping of the following institutions for Galveston County, Texas to determine sites located within 3,000 feet of an applicant's property: aboveground storage tanks, Federal National Priorities List (NPL) (including Federal Delisted NPL Site List): Federal Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS) List, Federal Resource Conservation and Recovery Act (RCRA) List, Federal Emergency Response and Notification System (ERNS) List, State Equivalent NPL and CERCLA site list (TCEQ Site Discovery or PIR), TCEQ Landfill and Solid Waste Disposal Site List, TCEQ Voluntary Cleanup Program (VCP) List, TCEQ Brownfields List (BSA), TCEQ Innocent Owner/Operator (IOP) List, TCEQ leaking petroleum storage tank (LPST) list, and TCEQ underground petroleum storage tank (UST, in the PST list) list. Assisted in preparation of a streamline process to produce complete HUD Environmental Assessments for over 500 properties.
- **Gulfport (MS) Brownfields Grant, in cooperation with MDEQ and US EPA:** Environmental Scientist. Assisted with Phase I and Phase II ESAs on multiple properties participating in the program.
- **Wetland Delineations:** Environmental Scientist. Report preparation, agency correspondence, permitting, and mitigation planning for multiple projects in Mississippi to include: telecommunications tower construction, roadway alignment and widening in association with MDOT funding, a park and visitor's center in association with Coastal Impact Assistance Program (CIAP) funding; administration buildings in association with FEMA funding.
- **Threatened and Endangered Species (T&E) surveys:** Agency correspondence, permitting, and mitigation planning for multiple projects to include roadway alignment and widening in association with MDOT funding, a park and visitor's center in association with CIAP funding, administration buildings in association with FEMA funding, landfill expansion, and surface mining.

MIKE ESSARY, PE

PROFESSIONAL HISTORY

Mr. Essary joined Neel-Schaffer in 1996 after working for eight years with the Florida Dept. of Transportation, the Mississippi Dept. of Transportation and the U.S. Army Corps of Engineers. Since joining Neel-Schaffer, Mr. Essary has served as a project manager providing planning, design and construction administration for a variety of projects including drainage, pump stations & force mains, recreational facilities, roadway design, sewer collection and treatment, general sitework, transportation/traffic and water treatment and distribution.

Mr. Essary currently serves as Engineer Manager for the Pine Belt Region with offices in Laurel and Hattiesburg. His responsibilities include supervision of administration, CADD and engineering staff, coordination of project planning, design and construction administration and serving as the client liaison. Mr. Essary has over 28 years of project management experience and provides quality assurance on all projects in the Pine Belt region.

EDUCATION

Bachelor of Science,
1988, Civil Engineering,
Mississippi
State University

REGISTRATIONS

Professional Engineer;
Mississippi, 11856

RELATED EXPERIENCE

- **2005 Hurricane Katrina Debris Management – MDOT District Six Southern Counties** – Project Manager. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the operations with the local FEMA debris specialist, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Tree Hazard Abatement, City of Hattiesburg, MS** – Senior Project Coordinator. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the operations with the local FEMA debris specialist, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Right-of-Entry Assistance, City of Hattiesburg, MS** – Senior Project Coordinator. Processed right-of-entry applications for the City in accordance with U. S. Army Corps of Engineers requirements. Provided monitors to inspect each property and mark the debris to be removed. Assisted in the public relations information for the client, coordinated the professional staffing and provided oversight of the project.

ROGER SHIELDS

PROFESSIONAL HISTORY

Brigadier General Shields joined Neel-Schaffer in 2007 after retiring from the Mississippi Army National Guard with 38 years of military service, including 32 years full-time with the Army Guard. He retired full-time serving as the Chief of Staff of the Mississippi National Guard and militarily as the Commander of the 184th Expeditionary Sustainment Command. This unit was responsible for container management operations for all of Central Command (CENTCOM) with a forward headquarters in Kuwait, with teams deployed in Kuwait, Iraq and Afghanistan, while maintaining the wartime mission of surface transportation for the Korean Theater.

Mr. Shields' skills in emergency management planning and professional training are second-to-none. He has the ability to effectively educate the importance of communication, project management, and team building to diverse audiences - from leaders in business to entry level employees.

RELATED EXPERIENCE

PROJECT SAFETY OFFICER

- California Dept. of Resources, Recycling and Recovery - DR-4240, Valley and Butte Fire Remediations
- Lafayette Consolidated Government, LA - DR-4277, Severe Storms and Flooding
- Vermilion Parish Police Jury, LA - DR-4277, Severe Storms and Flooding
- City of Palm Coast - DR-4283, Hurricane Matthew
- South Carolina Dept of Transportation - DR-4286, Hurricane Matthew
- **Clay County-West Point (MS) LEPC Hazardous Material Commodity Flow Study, October 2012-February 2013:** Served as the Project Coordinator in the development of a Hazard Material Commodity Flow Study for the LEPC in Clay County. Mr. Shields met with the LEPC initially to brief the overall objectives of the study and established a Core Planning Team. The objective of the study was to examine hazardous material transport movement throughout the county via roadways, rails, pipelines, and waterways. Mr. Shields coordinated from local to state level to derive any existing information and studies along with planning on-site traffic and rail studies. He developed the format for the product that will be used for future studies of this nature. The end result provided the county, along with the City of West Point, valuable information on hazardous material being transported through their area that can be used in future emergency management planning.
- **Jackson County (MS) LEPC Hazardous Material Emergency Response Plan, December 2011-July 2012:** Served as Project Coordinator for the development of a Hazardous Material Response Plan for the LEPC of Jackson County. Mr. Shields took on an ongoing project with various pieces of information already received. He developed a basic plan that gave the information a logical flow with the end result being a comprehensive plan that assists government agencies, businesses, and response entities in their ability to respond to the release of hazardous materials within the boundaries of Jackson County.
- **City of Daphne (AL) Emergency Operations Plan, April-August 2011:** Served as the Project Coordinator in the development of an all-hazard Emergency Operations Plan (EOP) in accordance with the National Incident Management System (NIMS) and FEMA's Comprehensive Preparedness Guide (CPG) 101, dated November 2010. Mr. Shields thoroughly reviewed the State of Alabama's EOP along with Baldwin County's EOP to ensure that Daphne's plan followed their guidance. He designed the City plan using the Agency/Departmental format containing annexes appropriate to the City's organization and operations. He facilitated several meetings, and along with the City Emergency Management Coordinator, and formed an effective Core Planning Team made up of departmental chiefs and other critical government and non-government stakeholders. Following the completion of the final draft, a tabletop exercise was conducted with all city departments, local emergency response and medical teams to validate the plan.

DAVID BOWMAN, PE

PROFESSIONAL HISTORY

Mr. Bowman joined Neel-Schaffer in 1992 and is a Senior Vice President. Prior to joining the firm, he worked as an Engineer for the City of Jackson, Mississippi. In this position, he handled all engineering matters. Since joining Neel-Schaffer, Mr. Bowman has served as Project Engineer / Manager involved with the planning and design of numerous water and wastewater projects. He provided engineering services in the preparation of design, survey plats and descriptions, and specifications, and construction engineering. He is also familiar with 404 permitting, NPDES stormwater permits, and other governmental regulations.

Mr. Bowman has also been involved with the development of new utility districts as well as modifications to existing organizations. He has assisted in the development financial plans to fund capital improvement programs and annual operating budgets. He has provided funding plans and assisted the owners in securing the funding through federal and state agencies.

EDUCATION

Bachelor of Science,
Civil Engineering,
Mississippi State
University, 1988

REGISTRATIONS

Professional Engineer;
Mississippi, 8953;
Tennessee, 00117149

RELATED EXPERIENCE

- **City of Jackson Solid Waste Landfill Facility:** Project Manager. Several projects have been performed at the facility located off I-55 near Bryam. New rubbish facility permit, closure and post closure of the 100 acre municipal landfill area, temporary facility for management of debris for disasters, land farming of sludge permit, and solid waste management plans.
- **Hurricane Katrina Debris Management, Jackson, MS:** Senior Project Manager. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the operations with the local FEMA debris specialist, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Right-of-Way and Right-of-Entry Program, Jackson County, MS:** Senior Project Manager. Duties included managing the 110 field monitors, 20 right-of-entry personnel, and coordinating communication between owner and contractor. Other duties included the management and organizational structure of projects. More duties included weekly updates of the project to the client, coordination with FEMA/MEMA field personnel, and contractor coordination.
- **2005 Hurricane Katrina Debris Removal of Public Right-Of-Ways, City of McComb, MS:** Senior Project Coordinator. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the operations with the local FEMA debris specialist, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Debris Removal of Public Right-of-Ways, City of Magnolia, MS:** Senior Project Coordinator. Prepared the scope of work and the contract and assisted in the procuring of the contractor. Assisted in the public relations information for the client, coordinated the professional staffing and provided oversight of the project.
- **2005 Hurricane Katrina Debris Removal on Public Right of Way, City of Biloxi, MS:** Disposal Monitor. Evaluated the disposal of debris by contractor and rated incoming debris loads. Also provided assistance in disposals of special waste issues.
- **Funding Specialist for the coordination of all FEMA reimbursements to the 20 clients involved with Hurricane Katrina.** This involved the tracking of invoices, and the approval process with MEMA and FEMA.

STEVE TWEDT, PE

PROFESSIONAL HISTORY

Mr. Twedt joined Neel-Schaffer in 2010 and is the firm's South Mississippi Area Manager, coordinating work among the Neel-Schaffer offices in Bay St. Louis, Biloxi, Gulfport, Hattiesburg, Laurel, and Pascagoula.

Prior to joining Neel-Schaffer, Mr. Twedt worked for 23 years as an engineer with MDOT. As a District Engineer for MDOT, he directed all construction, maintenance and administrative programs in District 6. This district is comprised of 14 counties in Southeast Mississippi, with over 5,000 lane miles of state maintained highways and 460 employees. Prior to this assignment, he served as District 6 Construction Engineer charged with overseeing pre-construction activities and implementing a construction program that included the 1987 Four Lane Program and the Katrina Recovery Highway Reconstruction Program.

RELATED EXPERIENCE

- **South Mississippi Area Manager:** Management and Project oversight on multiple projects, including environmental documentation, design and construction administration of civil site work, water wells, tanks and distribution systems, wastewater treatment facilities and collection systems, roadways, runways, taxiways and multi-use pathways, roadway lighting and signalization, traffic modeling and impact studies, landscape architecture, planning and environmental studies.
- **MDOT District Engineer:**
 - » Construction: Responsibilities included prioritizing construction projects based on budget, capacity needs, roadway pavement and bridge conditions and other factors. Active projects were monitored and scope changes were reviewed and approved prior to implementation.
 - » Maintenance: Responsibilities included implementing routine maintenance programs for paving, striping, signage, lighting, signal repair, bridge inspection and repair, guardrail, roadside development. Emergency response activities included contraflow operations to facilitate evacuation, ice, sand and debris removal due to natural disasters. Responsibilities also included permitting of utilities and access points.
 - » Administration: Responsibilities include oversight of the personnel office, accounting office, facility maintenance, equipment purchasing and maintenance and other programs through directly reporting staff.
- **MDOT District Construction Engineer:**
 - » Katrina Recovery Projects: Responsibilities included initial damage assessments on the state maintained transportation network and oversight of emergency projects to restore the roadways and bridges. These projects included repairs to US 90 in Harrison County, construction of St. Louis Bay ferry boat landings, replacement of the US 90 bridges over St. Louis Bay and Biloxi Bay, replacement of a 300-foot section of the I-10 Pascagoula River bridge, repair of the US 90 bridge over the CSX Railroad in Henderson Point, substructure repair to the I-110 Biloxi Bay bridge, and numerous other roadway reconstruction, signalization and lighting projects.
 - » MDOT Gulfport Resident Engineer, SR 603 Four Lane from US 90 to Stennis Airport: Provided contract oversight, included coordinating inspection and construction staking efforts, material testing, documenting contractor's activities and verifying contract compliance.

K. NELSON LUCIUS, PE

PROFESSIONAL HISTORY

Mr. Lucius joined Neel-Schaffer in 1990 and has 32 years of experience in emergency management and civil engineering. He is a Senior Vice President of Neel-Schaffer and Manager of True North Emergency Management. Mr. Lucius has extensive experience in managing and monitoring debris removal related to all types of disasters, including hurricanes, tornadoes, wildfires, winter storms, floods, and man-made disasters. He completed several debris monitoring projects for public entities over the past 10 years that included over 1 million cubic yards of debris. Mr. Lucius has experience working with federal, state and local government emergency agencies and reimbursement programs. He also has experience with solid and hazardous waste management programs, policies and procedures. Mr. Lucius has participated in special disaster recovery program management services, including private property/right-of-entry work, waterways clean-up and reimbursement, leaning tree and hanging limb removal, hazardous material removal, vessel and vehicle recovery, asbestos abatement, data management, hauler invoice reconciliation and contracting, and FEMA appeals assistance.

Mr. Lucius also has project management and design experience on several debris site, roadway, utility and landfill projects, including planning, conceptual design, site development, final design and permitting. Mr. Lucius has been responsible for project management during the planning, design, bidding and construction phases of projects.

RELATED EXPERIENCE

- **Debris Monitoring and Public Assistance Consulting, Texas Department of Transportation (TxDOT):** Mr. Lucius was the Officer-in-Charge for monitoring the removal of flood generated debris and for assisting TxDOT with the financial recovery process. Neel-Schaffer provided services related to flood damage following multiple flood events in 2015. This work was related to damage in more than 15 counties within the Austin, Dallas, Fort Worth, Houston and Tyler Districts. We prepared Detailed Damage Inspection Reports (DDIR) and other documentation on FHWA eligible projects. We communicated with local TxDOT and local government representatives to develop project cost estimates and documentation to support federal reimbursement. Neel-Schaffer also assisted in preparing documents such as Project Worksheets (PWs) on potentially FEMA eligible projects. We provided assistance on more than 100 projects for TxDOT districts that are potentially eligible for FHWA or FEMA reimbursement. Neel-Schaffer has had an as-needed emergency management agreement with TxDOT since 2010.
- **Debris Removal Monitoring, South Carolina Department of Transportation (SCDOT):** On-site Officer-in-Charge for monitoring the removal of debris generated by Winter Storm Pax in 2014. Neel-Schaffer/True North monitored the removal of debris from SCDOT ROW and the removal of hazardous trees and hanging limbs. The project included removing, hauling, processing, and recycling more than 1.1 million cubic yards of ice storm debris and removing or trimming more than 225,000 storm damaged trees. Work areas covered more than 7,000 miles of roadway.
- **Hazardous Tree Removal Monitoring, El Paso County, CO:** Mr. Lucius was Officer-in-Charge for monitoring the mitigation of approximately 10,000 fire damaged trees following the Black Forest Wildfire in 2013. Trees killed by the wildfire (and trees not expected to survive due to fire damage) were removed from public property and public ROW, to mitigate the hazard of damaged trees falling on people, property, and roadways. Neel-Schaffer/True North utilized the North Track E-ticketing and Data Management System to document the tree removal process. Eligible hazardous trees on public property and public ROW were identified and documented by Neel-Schaffer/True North prior to removal. Our documentation included marking trees, recording GPS coordinates, photographing trees, and recording other critical information such as date and street location. The project included removal of hazardous fire damaged trees that posed hazards along public roads and numerous public park trails.
- **Debris Removal Monitoring, Orange County, NC:** Mr. Lucius was Officer-in-Charge for debris monitoring projects following the 2014 severe winter storm. The project included monitoring disaster debris removal for the Town of Hillsborough and monitoring a debris management site (DMS) for Orange County. The Orange County DMS received disaster related debris from citizens of Orange County, the North Carolina DOT, and from contractors working for citizens and municipalities within Orange County.

SYSTEM FOR AWARD MANAGEMENT (SAM)

Congratulations! The registration for **TRUE NORTH EMERGENCY MANAGEMENT, LLC / 041096068 / 7F8K7** is now active in the U.S. federal government's System for Award Management (SAM). If you did not provide a CAGE code during the registration process, one has been assigned and is provided above.

You are now eligible for contracts, assistance awards, and to do business with the federal government as determined by your Entity's profile. Important: The Periodic Update Requirement Date for the registration is 12-DEC-17. You must renew the registration by this date to remain active.

In addition, you may continue to invite additional users by following the below steps:

- * Login to SAM using a valid Username and Password
- * Select "Manage Entity Users" from the left-hand navigation menu
- * Select "Invite User" from the left-hand navigation menu
- * Select the desired Entity
- * Provide invitee's email address
- * Assign Role(s) to be associated with the user account
- * Click Submit

All invitees will receive an email message from SAM with instructions on how to complete the process.

For assistance, please contact the Federal Service Desk at www.fsd.gov or by telephone at 866-606-8220 (toll free) or at 334-206-7828 (internationally).

Thank you,

The System for Award Management (SAM) Administrator

A True North Disaster Debris Monitoring City of Hattiesburg

REQUEST FOR PROPOSAL

TO ESTABLISH

Debris Monitoring Assistance for Hattiesburg Mississippi DR-XXXX

To: Debris Monitoring Companies interested in Services for the City of Hattiesburg

From: Lamar Rutland, City Engineer.

Date: January 23, 2017

Subject: Request for Proposal (RFP) for Debris Monitoring Firms to Assist the City of Hattiesburg for DR-TBD.

Contact Name: Lamar Rutland, City Engineer

Contact Phone Number: 601-545-4540

Contact E-mail Address: lrutland@hattiesburg.com

SUMMARY OF THE RFP

Hattiesburg Mississippi, (hereinafter "City") is seeking qualified Firms for Disaster Debris Monitoring Assistance. This Request for Proposal (RFP) is issued following a Disaster that warrants outside assistance where the City Personnel, Equipment, and Mutual Aid Agreements are not sufficient for this event. This RFP is for Debris Monitoring for FEMA "Category A" only; Direct Administrative Cost (DAC) will not be a part of the proposal.

Hattiesburg will utilize the Mississippi Personal Service Contract Review Board (PSCRB) Rules and Regulations as a guideline for this RFP. The PSCRB is established and maintained by the Mississippi State Personnel Board (MSPB) for guidelines for State Agencies. The MSPB is not required to approve this proposal or Contract. However responding firms should make themselves aware of these guidelines for legalities associated with this type agreement.

Information is sought for Debris Monitoring of disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the State), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this project however if the City, State, or FEMA authorizes the ROE it will become part of this project.

Respondent should be aware of Historical Preservation Laws since the City of Hattiesburg has an immense number of houses, commercial buildings, schools, city properties, etc. listed on the Historical Register (**SEE ATTACHMENT A**).

The City will seek Services city-wide. The City will evaluate the Information and establish a Short List of firms that will be invited for final interviews. Respondent should be aware the City may elect to utilize multiple companies for Monitoring should the event size require such action. Respondent is cautioned to review this RFP as the Federal Office of Management and Budget has introduced new guidelines per the "Super Circular" (2 CFR 200.318 through 326 for non federal entities) for all Federal Agencies participating in Federal Grants including FEMA and the FHWA. As part of the combinations within the Super Circular, A-102 combines 44 C.F.R 13.36 with 2 CFR 200.318 to 326.

It shall be noted that this Request for Proposal is consistent with the *FEMA FP 104-009-2 Public Assistance Program and Policy Guide (January 2016)*. This request, possible contract, and event expenditures are not contingent upon receipt of FEMA funding.

The objective of this RFP is to establish Debris Monitoring Services for **DR XXXX**. Respondent shall appoint a single Point of Contact (SPOC) for the Project that shall be responsible for managing staff, working with the City, the Mississippi Emergency Management Agency (MEMA), FEMA, and the FHWA as requested. The RFP response should be clear on how the Respondent will assist Hattiesburg for Debris Monitoring. **This Project consist of an EF-3 Tornado striking the City of Hattiesburg on January 21, 2017.**

Hattiesburg will receive proposals from firms having specific experience and qualifications in the areas identified in this request. For consideration, information must contain evidence of experience and abilities in the specified area and other disciplines directly related to Debris Monitoring. Other information required by the City may be included elsewhere in the proposal.

Respondent shall provide key resumes of staff to be assigned to projects. References and examples of similar work, and other data that demonstrates the Respondent's experience in the area of Debris Monitoring will also be required.

A City Debris Committee will review and assess all proposals. The committee will only have the proposals to review for selection of Respondent(s). It is therefore important that Respondent emphasizes specific information pertinent to the work. Assessments/Scoring of the proposals will be based as follows:

A. The overall quality of the plan for performing Debris Monitoring Services including Safety Practices and Historic Preservations. The plan must maintain a full understanding of the requested services, integrity, and compliance with public policy. Consideration will be given to the entirety and specific requirements of the request. (Important-20 points)

B. Respondent ability to perform the Debris Monitoring Services as reflected by past performance, general experience, specific experience in providing the services, and the qualifications and abilities of personnel to be assigned to

perform such services. (Very Important – 20 points)

C. The personnel, equipment, facilities, technical, and financial resources to perform this type service currently available or demonstrated to be made available at the time of request and possible future contracting. (Important – 20 points)

D. A record of past performance of similar work. (Critical – 20 points)

E. Price (Critical-20 points)

Respondent's Response shall contain the following Information:

1. Be authorized or prove intent to transact business in the State of Mississippi (the "State").
2. Be able to provide Monitoring of all disaster related debris, as set forth in the Scope of Services hereto and incorporated herein by reference (the "Services").
3. Be willing and capable of performing the Services in a timely manner, including, but not limited to, maintenance of proper documentation, proper documentation preparation and management and event closure services.
4. Be knowledgeable and have experience in the provision of the Services and in insuring that Services are in line with FEMA practices.
5. Be able to perform the Services in a timely manner and on short notice, recognizing that in the event of a Task Order, the City desires maximum percentage of completion of projects within the allotted time frames. Maximum Debris Removal within the first 30 days is desirable and the City prefers not to exceed 90 days for completion of any project however the maximum allotted time frame could extend to 180 days.
6. Provide SAM (System for Award Management) Number if available. Registration with SAM is not required however if available it will be reviewed for any current Responder status.

Respondent additional information:

1. Name of Respondent, location of Respondent's principal place of business, and the place of performance for any proposed contract.
2. Age of responders business and the average number of employees over the past three (3) years.
3. Resume' listing abilities, qualifications, and experience of key individuals who will be assigned to provide the required services.

4. Listing of five similar projects under which services similar in scope, size, or discipline were performed or undertaken, including at least three (3) references for current projects or those awarded during the past six (6) years.
5. List five (5) or more projects to include the names and addresses of the projects, the scope of the project, and the names and telephone numbers of the clients for reference purposes. All information in the request must be completed. Proposals containing incomplete data will be rejected.
6. A Technical Plan giving as much detail as practical explaining how the services will be performed.
7. Plan for subcontractor participation. Note, per FEMA FP-104-009-2 (January 2016) **Procurement Standards page 30; Vendors shall conduct all necessary affirmative steps to ensure the use of minority, women's business enterprises, and labor surplus area firms when possible.** Respondent can utilize the Mississippi Development Authority (or other state systems) to assist in locating such companies by using the established MDA Search utility at <http://minority.mississippi.org/> or <http://www.mnbr.org>. The Small Business Administration and the Department of Commerce's Minority Business Development Agency can also be utilized to solicit these businesses. A Disadvantaged Business Enterprise (DBE) may also be considered.

INSURANCE REQUIREMENTS

Prior to signing of any contract, Respondent agrees to furnish the City with all applicable certificates of insurance. The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the aforementioned insurance. **Proof of Insurability must be provided with the proposal.**

Within 24 hours following the signing of any contracts, Respondent shall provide copies of insurance policies including all endorsements.

A. Commercial General Liability and Errors and Omissions - in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability – Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

D. Professional Liability (Errors & Omissions) – Proposer shall provide coverage for all claims arising out of the services performed with limits not less than \$1,000,000 per claim. The aggregate limit shall either apply separately to any contract or shall be at least twice the required per claim limit.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

Project will require a maximum dollar cap. Should the project exceed the dollar cap, the Contractor may request additional justifiable funding that will require the City Council's approval.

Response

All submitted RFP's become the property of the city and subject to all applicable public records laws include the Mississippi Public Records Act of 1983.

Hattiesburg reserves the right to accept, reject, or negotiate any or all proposals on the basis of the criteria contained within this document. The final decision to execute a contract with any party will be decided by the city.

Response Acceptance

The original and three (3) copies of the response and all attachments (four copies total) along with one electronic copy of the proposal saved as a .pdf file and stored on a CD or jump drive shall be signed and submitted in a sealed envelope or package to: **City of Hattiesburg City Clerk, at PO Box 1898 or 200 Forrest Street, Hattiesburg Mississippi 39403-1898 no later than 10:00 a.m. Central Standard Time on Saturday 28, 2017.**

No electronic or facsimile copies of the RFP will be accepted. Timely submission of the RFP is the responsibility of the Respondent. Offers received after the specified time shall be rejected and returned to the Respondent unopened. **The envelope or package shall be marked with the RFP opening date and time and the number of the request for RFP. The time and date of receipt shall be indicated on the envelope or package by the City Clerk's Office. Each page of the RFP, all attachments and the CD/Jump Drive shall be identified with the name of the Respondent.**

Proprietary Information

The Respondent should clearly mark any and all pages of the proposal considered to be proprietary information which may remain confidential in accordance with current State Code.

When the City receives a request to release information properly designated as confidential or proprietary by a Respondent, the City shall give the owner of this

information a reasonable time to obtain a court order protecting the information as confidential. If the City receives a court order it must then notify the requestor that the information is protected by court order and cannot be furnished.

Debarment

By submitting a response to this RFP, the Respondent including principles and or owners certifies that he/she is not currently debarred from participating in any Federal or State Grant Programs.

Procurement Regulations and Guidelines

Respondent is advised to review the Mississippi Personal Service Contract Review Board Rules and Regulation that will be utilized as a guideline for contracts (<http://www.mspb.ms.gov/personal-service-contract-review-board/pscrb-rules-regulations.aspx>). Appendix D and Appendix F contain multiple items that will be included in any contract. Not all items will be included in the contract but Respondent must accept these guidelines.

The following clauses are required conditions when soliciting information for personal services by the Personal Service Contract Review Board Rules and Regulations per Appendix D & F:

1. Acknowledgment of Amendments

Respondent shall acknowledge receipt of any amendments by copying and signing and being a part of the request. Amendments may include Questions/Answers.

2. Applicable Law

Any Contract as a result of this RFP shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding conflicts of law's provisions, and any litigation with respect thereto shall be brought in the courts of the state. The Respondent shall comply with applicable federal, state, and local laws and regulations.

3. Availability of Funds

It is expressly understood and agreed that the obligation of the City to issue a contract as a result of this RFP is conditioned upon the appropriation of funds by the City of Hattiesburg.

4. Representation Regarding Contingent Fees

Respondent represents that it has not retained a person to solicit or secure a contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Respondent's proposal.

5. Representation Regarding Gratuities

The Respondent represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 7-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

6. Compliance with Laws

The Respondent understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on

race, color, creed, sex, age, national origin, physical handicap, disability, or any other consideration made unlawful by federal, State, or local laws. All such discrimination is unlawful and the Respondent agrees during the term of any agreements that the Respondent will strictly adhere to this policy in its employment practices and provision of services. The Respondent shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

7. E-Verification

Respondent represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act (Senate Bill 2988 from the 2008 Regular Legislative Session) and will register and participate in the status verification system for all newly hired employees. The term “employee” as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, “status verification system” means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Respondent agrees to maintain records of such compliance and, upon request of the State, to provide a copy of each such verification to the State. Respondent further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject Respondent to the following:

- (1) Termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public; or,
- (2) The loss of any license, permit, certification or other document granted to Respondent by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- (3) Both.

In the event of such termination/cancellation, Respondent would also be liable for any additional costs incurred by the State due to contract cancellation of license or permits.

8. Transparency (July 1, 2016)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the “Mississippi Public Records Act of 1983,” and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration’s independent agency contract website for public access at

<http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

9. Approval

It is understood that any contract requires approval by the City Council. If a contract is not approved, it is void and no payment shall be made hereunder.

10. Confidential Information

“Confidential Information” shall mean: (a) those materials, documents, data, and other information which the Respondent has designated in writing as proprietary and confidential; and, (b) all data and information which Respondent acquires as a result of its contact with and efforts on behalf of the customer and any other information designated in writing as confidential by the City. Each party to this agreement agrees to the following:

(1) to protect all confidential information provided by one party to the other;

(2) to treat all such confidential information as confidential to the extent that confidential treatment is allowed under state and/or federal law; and,

(3) except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission; and,

(4) to do so by using those methods and procedures normally used to protect the party's own confidential information.

Any liability resulting from the wrongful disclosure of confidential information on the part of Respondent or its subcontractors shall rest with the Responder.

11. Confidentiality

Notwithstanding any provision to the contrary contained herein, it is recognized that *the City of Hattiesburg* is a public entity in the State of Mississippi and is subject to the Mississippi Public Records Act. Miss. Code Ann. §§ 25-61-1 *et seq.* (1972, as amended). If a public records request is made for any information provided to *the City* pursuant to any agreement, *the City* shall promptly notify the disclosing party of such request and will respond to the request only in accordance with the procedures and limitations set forth in applicable law. The disclosing party shall promptly institute appropriate legal proceedings to protect its information. No party shall be liable to the other party for disclosures of information required by court order or required by law.

12. Attorney's Fees and Expenses

Subject to other terms and conditions of possible future contracts, in the event the Respondent defaults in any obligations under the agreement, the Respondent shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorney's fees) incurred by the City in enforcing this agreement or otherwise reasonably related thereto. Respondent agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to any Respondent.

**13. Authority to Contract**

Respondent warrants: (a) that it is a validly organized business with valid authority to enter into an agreement; (b) that it is qualified to do business and in good standing in the State of Mississippi; (c) that entry into and performance into an agreement is not restricted or prohibited by any loan, security, financing, contractual, or other agreement of any kind, and (d) notwithstanding any other provision of agreements to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under any agreement.

14. Respondent's Personnel

The City shall, when contracting, have the right of reasonable rejection and approval of staff or Subcontractors.

15. Failure to Deliver

In the event of failure of the Respondent to deliver services in accordance with the terms and conditions of any contract, the City, after due written notice, may procure the services from other sources and hold the Respondent responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

16. Failure to Enforce

Failure by the City at any time to enforce contractual provisions will not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of any contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

17. Independent Respondent Status

Respondent shall, at all times, be regarded as an independent Respondent under future contracts and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Respondent, or any third party as creating the relationship of principal and agent, master and servant, partners, joint ventures, employer and employee, or any similar such relationship between the City and the Respondent.

18. No Limitation of Liability

Nothing in any future Agreement shall be interpreted as excluding or limiting any tort liability of the Respondent for harm caused by the intentional or reckless conduct of the Respondent or for damages incurred through the negligent performance of duties by the Respondent or the delivery of products that are defective due to negligent construction.

19. Notices

All notices required or permitted to be given under any agreement must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Respondent: **Name** Michael W. Essary, PE
Title Vice President
Respondent True North Emergency Management
Address 704 Hardy Street, Hattiesburg, MS 39401

For the City: **City of Hattiesburg**
Purchasing Clerk
PO Box 1898
Hattiesburg, MS 39403-1898

20. Ownership of Documents and Work Papers

The City shall own all documents, files, reports, work papers and working documentation, electronic or otherwise, created in connection with any contract services, except for the Respondent's internal administrative and quality assurance files and internal project correspondence. The Respondent shall deliver such documents and work papers to the City upon termination or completion of each project. The Respondent shall be entitled to retain a set of such work papers for its files. Respondent shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections.

21. Record Retention and Access to Records

Provided the Respondent is given reasonable advance written notice and such inspection is made during normal business hours of the Respondent, the City or any duly authorized representatives, shall have unimpeded, prompt access to any of the Respondent's books, documents, papers, and/or records which are maintained or produced as a result of any contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this Agreement shall be retained by the Respondent for three (3) years after final Declaration Closeouts. However, if any audit, litigation or other action arising out of or related in any way to future contracts is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

22. Right to Inspect Facility

The City may at reasonable times inspect the place of business of a Respondent or any Subcontractor which is related to the performance of any Contract awarded by the City.

23. Termination for Convenience

1. Termination. The City may, when the interests of the City so require, terminate any contract in whole or in part, for the convenience of the City. The City Engineer shall give written notice of the termination to the Respondent specifying the part of any contract terminated and when termination becomes effective.

2. Respondent's Obligations. Respondent shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the Respondent will stop work to the extent specified. The Respondent shall also terminate outstanding orders and subcontracts as they

relate to the terminated work. The Respondent shall settle the liabilities and claims arising out of any termination of subcontracts and orders connected with the terminated work. The City Administrator may direct the Respondent to assign the Respondent's right, title, and interest under terminated orders or subcontracts to the City. The Respondent must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

24. Termination for Default

(1) *Default.* If Respondent refuses or fails to perform any of the provisions of any contract with such diligence as will ensure its completion within the time specified in any contract or any extension thereof, or otherwise fails to timely satisfy contract provisions, or commits any other substantial breach of any contract, the procurement officer may notify the Respondent in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the procurement officer, such officer may terminate Respondent's right to proceed with a contract or such part of a contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the procurement officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the procurement officer. Respondent shall continue performance of any contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(2) *Respondent's Duties.* Notwithstanding termination of contracts and subject to any directions from the procurement officer, Respondent shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Respondent in which the City has an interest.

(3) *Compensation.* Payment for completed services delivered and accepted by the City shall be at a contract price. The City may withhold from amounts due Respondent such sums as the procurement officer deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

(4) *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Respondent shall not be in default by reason of any failure in performance of any contract in accordance with its terms (including any failure by Respondent to make progress in the prosecution of the work hereunder which endangers such performance) if Respondent has notified the procurement officer within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Respondent shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time

to permit Respondent to meet contract requirements. Upon request of Respondent, the procurement officer shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Respondent's progress and performance would have met the terms of any contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

(5) *Erroneous Termination for Default.* If, after notice of termination of Respondent's right to proceed under the provisions of this clause, it is determined for any reason that any contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if any contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

(6) *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under any contract.

25. Termination upon Bankruptcy

Any future Contract may be terminated in whole or in part by the City upon written notice to Respondent, if Respondent should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by the Respondent of an assignment for the benefit of its creditors. In the event of such termination, the Respondent shall be entitled to recover just and equitable compensation for satisfactory work performed under any contract, but in no case shall said compensation exceed a total contract price.

26. Third Party Action Notification

Respondent shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Respondent by any entity that may result in litigation related in any way to any agreements.

27. Unsatisfactory Work

If at any time during any contract term, the service performed or work done by the Respondent is considered by the City to create a condition that threatens the health, safety, or welfare of the citizens and/or employees of the City, the Respondent shall, on being notified by the City, immediately correct such deficient service or work. In the event the Respondent fails, after notice, to correct the deficient service or work within 24 hours, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Respondent.

28. Waiver

No delay or omission by either party to any agreement in exercising any right, power, or remedy hereunder or otherwise afforded by contracts, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to any agreement shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of any agreement will void, waive, or change any other term or condition. No waiver by one party to any agreement of a default by the other party will imply, be construed as or require waiver of future or other defaults.

REQUIRED FEDERAL PROCUREMENT CLAUSES

1. Clean Air Act and the Federal Water Pollution Control Act (over \$150,000.00).

Respondent shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA.

2. Retention/Access of Records

Respondent will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

3. Energy Policy and Conservation Act

Respondent shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

4. Debarment and Suspension

Respondent shall not subcontract with any parties listed on the government-wide Excluded Parties List System in the **System for Award Management (SAM)**, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." Respondent shall not subcontract with any parties that are currently debarred and listed with the Mississippi Department of Finance and Administration (DFA) (www.dfa.ms.gov).

5. Byrd Anti-Lobbying Amendment

Respondent certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S. C. 1352. Respondent shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal Award. Respondent shall require all subcontractors to submit these same certifications.

6. **Contract Work Hours and, Safety Standards Act, as Amended (over \$100,000.00).**
7. **Equal Opportunity Clause 41 CFR60-1.4**
8. **Coordination of Grants Related Civil rights statutes, Executive Order 12250.**

EVALUATION PROCEDURE PROCESS:

1. Qualifications of Respondent

Respondent may be required before the award of any contract to show to the complete satisfaction of City that it has the necessary facilities, integrity, ability, compliance with public policy, past performance, technical, and financial resources to provide the service specified therein in a satisfactory manner. The Respondent may be required to provide legal understanding of the Personal Service Contract Review Board Rules and Regulations as well as the Federal Office of Management and Budget Super Circular. Respondent may also be required to give a past history and references in order to satisfy the City in regards to the Respondent's qualifications. The City may make reasonable investigations deemed necessary and proper to determine the ability of the Respondent to perform the work, and the Respondent shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any offer if the evidence submitted by, or investigation of, the Respondent fails to satisfy the City that the Proposer is properly qualified to carry out the obligations of future contracts and to complete the work described therein. Evaluation of the Respondent's qualifications shall include:

1. The ability, capacity, skill, financial, and other necessary resources to perform the work or provide the service required;
2. The ability of Respondent to perform the work or provide the service promptly or within the time specified, without delay or interference;
3. The character, integrity, reputation, judgment, experience, and efficiency of the Respondent; and,
4. The quality of performance of previous contracts or services.
5. Price.

First Step: RFP's will be reviewed to meet compliance with the request. RFP's that do not comply with the specifications will be rejected and no further consideration given.

Second Step: RFQ's that complete the First Step will be reviewed/analyzed for determination if the response adequately meets the needs of the City. The following factors will be utilized:

1. The overall quality of the proposed plan and for performing the required services – the plan should reflect an understanding of the project and its

objectives. Consideration will be given to the completeness of the response to the specific requirements of the solicitation. (Critical - 20 points)

2. Respondent's ability to perform such services as reflected by technical training and education, general experience, specific experience in providing the required services, and the qualification and abilities of personnel proposed to be assigned to perform the services. This includes the ability of the Respondent to provide a work product that is legally defensible. (Very Important - 20 points)
3. The personnel, equipment, facilities, and financial resources to perform the services currently available or demonstrated to be made available at the time of contracting. (Important - 20 points)
4. A record of past performance of similar work. Direct experience in Mississippi is desirable but not required. (Critical - 20points)
5. Price (20 points).

Third Step: The City may contact the most qualified Respondent by telephone to schedule an interview.

**SCOPE OF WORK:****DR-XXXX**

Hattiesburg Mississippi, is seeking Professional Services proposals for Debris Monitoring Firms. Proposals will be sought for Monitoring of federally declared disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the City, State, and FEMA), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this Service however if the City, State, or FEMA authorizes the ROE it will become part of the Service. The City will seek proposals for said services City-wide. The City will evaluate the Proposals on what is in the best interest of the City and the nature of the event. The City will seek to identify a Respondent to oversee either City Task Force or Debris Removal Contractor(s). It shall be noted that any Contract is for payment of "Only Debris Services that FEMA Determined Eligible" and is consistent with FEMA Public Assistance Program and Policy Guideline (FP-104-009-2, January 2016).

This Scope of Work (SOW) is provided for Respondent to review in detail, the SOW is detailed as to the terms of request and Respondent should acknowledge each line item. Should a Respondent take exception to any line items in the SOW it should be clearly stated within the proposal.

Respondent must provide a technical overview for debris monitoring as to how they complete this project.

The scope of work/services as described below shall be considered minimum standards to meet in submitting their proposal for debris monitoring services. The Monitoring Services Respondent shall be experienced and knowledgeable in handling and executing disaster debris removal and disposal monitoring in compliance and consistent with the policies and publications of MEMA, FEMA, and FHWA. Throughout these specifications, any reference to FEMA shall also imply FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved.

Examples of guidelines and regulations include but are not limited to the following:

FP-104-009-2 January 2016**Emergency Relief Manual (Federal-Aid Highways)- November 2009**

The City will designate a Debris Task Force Manager (DTFM) that will act as the Point of Contact (POC) for the event. The DTFM POC may consist of a City Employee, a Professional Contractor, or the City Engineer.

The Respondent will work with the City Debris Task Force Manager by assisting in determining the amounts of debris prior to beginning services.

Respondent will work with all associated teams including MEMA, FEMA, City, County, Debris Removal Contractors, and FHWA as needed for timely project completions, cost effectiveness, and maximum FEMA Category A reimbursements.

Respondent will measure and certify all equipment associated with either the City Task Force or approved removal contractor(s). Respondent will be familiar with standard MDOT Traffic Control Measures and report to the Debris Task Force Manager any safety issues or irregularities.

Respondent will report any delays, issues or concerns by the City or Removal Contractor to the City Task Force Manager.

Respondent will oversee all debris pick up sites as well as temporary and or final sites. Oversight will include GPS coordinates, addresses for pick up, and photographs. Respondent should be able to provide written Load tickets. Should the respondent be positioned to offer e-ticketing a description should be included in the technical overview for this service. Should the Respondent offer e-ticketing the price for any additional devices should be included in the hourly rate for any positions that may be utilizing the devices. Respondent should state hourly pricing for flat rate without e-ticketing devices as well as with e-ticketing devices. Either hand written or electronic tickets must be completed in detail for each line item. Photo documentation must be provided from cradle to grave and correlate with the load tickets.

Respondent will be responsible for providing an electronic document reflecting the cubic yards (or other units of measure) daily amounts to the City Debris Task Force Manager that will be sent to MEMA and FEMA daily.

Respondent will be responsible for working sun-up to sun-down seven days a week unless directed differently by the City Debris Task Force Manager.

As a minimum the Respondent must provide sufficiently trained personnel including a Project Manager, Field Monitors, Roving Managers, Fixed Site Monitors, Data Managers, and Clerical.

The City may use force account resources (including temporary hires), contractors, or a combination of these for monitoring. It is not necessary, or cost-effective, to have Professional Engineers or other certified professionals perform debris monitoring duties. FEMA considers costs unreasonable when associated with the use of staff that is more highly qualified than necessary for the associated work.

Respondent will be responsible for documenting any damage to city or private property caused by the removal contractor(s). Respondent should also document any City infrastructure damage caused by the event.

Respondent must be able to activate within 24 hours of notification to proceed by the City.

Respondent must certify that the company or any of its principles are not bared from performing any State or Federally Funded Projects including FEMA and the FHWA.

**SCOPE OF POSITIONS**

Provide Project Managers, Roving Managers, Field Monitors, Fixed Site Monitors, Data Managers, and Clerical for Debris Monitoring. Respondent may provide e-ticketing service however it is not mandatory for this request.

Project Manager:

Respondent will provide a Project Manager to oversee debris monitoring activities.

1. Oversight and Supervision of Monitor field activities.
2. Scheduling of Monitoring resources and deployment timing.
3. Communication and coordination with City personnel.
4. Make suggestions to improve the efficiency of collection and removal of debris.
5. Coordinate daily activities and future planning.
6. Remain in contact with DTFM
7. Identify, address, and troubleshoot any questions or problems that could impact work area safety and eligibility.
8. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations. Document truck hauling compartment condition using digital photographs. Prepare a master log book of all hauling equipment used by the City and or the Removal Contractor(s).
9. Compile, reconcile and document daily in an electronic spreadsheet format all eligible debris hauled by the City or Removal Contractor.

Field Debris Monitors and Roving/Operations Manager:

Respondent will perform on-site, street-level work area inspections of debris cleanup and collection. Respondent will provide loading site (field) monitors to inspect and control debris collection utilizing manifest load tickets. A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors.

1. Provide field monitor personnel at designated areas to check and verify information on debris removal.
2. Monitor collection activity of trucks.
3. Issue manifest load tickets at loading site for each load.
4. Check the area for safety considerations such as – downed power lines, the presents of children, traffic control, safety of equipment
5. Ensure Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal.
6. Perform a pre-work inspection of areas to check debris piles to identify covered utility meters, transformers, fire hydrants, mail boxes, etc. to help prevent damage from loading equipment and to look for potential problems.
7. Should damages occur to utility components, driveways, road surfaces, private property, vehicles, etc. document the damage with photos if possible, collect information about owner, circumstances of the damage (who, what, when, where) and report to your Roving Manager.
8. Ensure the work area is clear of debris to the specified level before equipment moves to a new loading area.
9. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations.
10. Properly monitor and record performance and productivity of debris removal

crew.

11. Remain in constant contact with Roving Manager. Roving Manager is to report directly to the DTFM.
12. Ensure that loads are contained properly before leaving the loading area.
13. Ensure only eligible debris is collected for loading and hauling.
14. Ensure only debris from approved public areas is loaded for removal.
15. Perform other duties from time to time as directed by the debris management project manager or DTFM.

Fixed Site Debris Monitors:

Respondent will provide personnel to oversee the inspection of the disposal or unloading sites by providing the monitoring, verification of load capacity, and documentation at designated temporary and or final disposal sites.

1. Provide disposal site monitors and inspectors personnel.
2. Complete record of contract haulers' cubic yardage and other record keeping as may be needed on the provided load ticket.
3. Initial each load ticket before permitting truck to proceed from the check-in area to the tipping area.
4. Remain in contact with debris management/dispatch center or supervisor.
5. Perform other duties as directed by the dispatch/staging operation, debris management project manager, or designated City personnel.
6. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations

Data Managers:

Respondent will provide personnel to oversee electronic documentation including:

1. Excel Spreadsheets as to amounts of debris collected daily.
2. Maintenance and data transfer of e-ticketing system if applicable.
3. Data Retention and back up of Data Retention for a minimum of 5 years at the expense of the Respondent.
4. GPS devices and oversight of coordinating with FEMA on accuracy.
5. GIS (Global Information System) coordination with the City, PDD (Planning and Development District), and or state.

Clerical:

Respondent will provide personnel to assist with data collection daily.

1. Enter daily data into either Excel Spreadsheets or e-ticketing system.
2. Verify Billing.
3. Audit billing vs. invoices.
4. Prepare cover documentation for services and create a filing system either electronic and or paper.

Terms:

Contracts will be established per event as activated.

Deployment

Respondent must be prepared to deploy within 24 hours from the notice to proceed. Respondent staffing levels shall be efficient and coincide with the scale of the debris

removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

CONSULTING SERVICES

January 28, 2017

City of Hattiesburg, Mississippi
Attn: City Clerk
200 Forrest Street
Hattiesburg, Mississippi 39403

Re: Request for Proposals for Disaster Debris Monitoring Assistance

Dear Members of the Selection Committee,

Thompson Consulting Services (Thompson) is pleased to submit the enclosed proposal to provide the City of Hattiesburg, Mississippi (City) with disaster debris monitoring assistance in the aftermath of the January 21, 2017 EF3 tornado. Thompson's consultants have over 50 years of combined experience in supporting more than \$2.5 billion of federal grant funding in response to tornadoes, hurricanes, floods, earthquakes, ice storms, rock slides, oil spills and other natural disasters on behalf of over 120 local government agencies. Our approach to providing disaster response and recovery services maintains a primary focus on the efficient and effective utilization of resources while assisting our clients with navigating the funding and compliance channels of the Mississippi Emergency Management Agency (MEMA) and the Federal Emergency Management Agency's (FEMA) Public Assistance (PA) program. We believe Thompson is best suited to assist the City with disaster management, recovery and consulting services for the following reasons:

POST-DISASTER DEBRIS REMOVAL MANAGEMENT AND FEMA FUNDING EXPERIENCE: Thompson's experience with post-disaster debris removal monitoring and management services spans three decades and accounts for the administration of more than \$2.5 billion of debris removal funding on behalf of more than 120 local and state government agencies. All of Thompson's staff has extensive experience with disaster recovery programs including small and large scale debris removal programs involving a minimum of 1,000,000 cubic yards.

AUTOMATED DEBRIS MANAGEMENT SYSTEM (ADMS): Thompson has invested considerable resources in technologies to support more efficient debris removal monitoring. Among these is our best-in-class ADMS solution, the Thompson Data Management Suite (TDMS) comprised of our handheld device, TDMS*mobile*, which allows us to capture data in the field, and our software, TDMS*web*, which is a variety of web-based software applications that serve as the backbone for data storage and management. This technology offers increased efficiency in collecting field data as well as advanced reporting and data analysis. TDMS has been routinely deployed on FEMA reimbursed projects and meets the requirements for the U.S. Army Corps of Engineers (USACE) Advanced Contracting Initiative (ACI).

VERSATILITY OF OUR TEAM: While many firms can offer experience and personnel in certain aspects of the City's needs, Thompson provides the City with professional engineers and consultants that have experience with developing programs to address any of the following disaster recovery programs, many of which may be required following the impacts of the January 21st EF3 tornado.

- Right-of-way (ROW) debris removal
- Right-of-way leaning tree and hanging limb removal (leaner/hanger)

1135 Townpark Avenue, Suite 2101
Lake Mary, Florida 32746
407.792.0018 ph. / 407.878.7858 fax
www.thompsoncs.net

- Parks cleanup
- Private property debris removal (PPDR)
- Right-of-entry (ROE) administration
- Demolition program management
- Vehicle/vessel recovery
- White goods removal and decommissioning

ABILITY TO QUICKLY RESPOND: With 13 corporate and eight satellite offices scattered throughout the southeast, including an offices in Mississippi, Thompson will be able to deploy staff and resources to the City within 24 hours of Notice-to-Proceed. In addition, Thompson is set-up to quickly adapt to the uncertain and changing needs of the City as it recovers from the impacts of the tornado.

A LOCAL PREFERENCE FOR HIRING DEBRIS MONITORS: It is Thompson's intent to fill temporary debris monitoring positions with skilled and experienced City residents in need of work. Thompson will provide qualified residents with safety training, drug screening, and on the job training with experienced debris monitoring supervisors. We will make sure that all local hires are thoroughly and properly trained prior to being deployed to monitor a debris removal crew. This effort will help residents participate in the City's recovery efforts with a meaningful impact and earn a competitive hourly wage.

COMMITMENT TO SAFETY AND QUALITY: Thompson is the only debris monitoring firm that performs drug screening and motor vehicle operating record reviews for temporary employees. This practice results in a team of monitors that is both safe and committed to quality. In addition, Thompson deploys a quality assurance team to each of its projects to ensure that certain quality standards are being upheld, regardless of the operating conditions and climate.

Thompson has the experience and resources necessary to be extremely responsive to the City's disaster management and recovery needs following the January 21st EF3 tornado. We would be honored to serve as your disaster debris monitoring provider and stand prepared to exceed the service expectations that the City has established.

Best regards,

SECTION 1

QUALIFICATIONS OF THE FIRM

Firm Overview

Thompson Consulting Services is a full service emergency response, disaster recovery and grant management consultancy, organized as a subsidiary of Thompson Holdings, Inc. (Thompson) which also includes our sister companies Thompson Engineering and Watermark Design. What began as a small company doing basic soils and materials testing in Mobile, Alabama has since grown into a national corporation with thirteen branch offices throughout five states in the southeastern United States. Our ongoing success, strong growth, consistent project delivery and commitment to 100 percent client satisfaction can be traced back to 1953 when our founder, Vester J. Thompson, established the high standards that lay the foundation of our work ethic. These standards are still upheld today and summarized as follows:

- Excellence in workmanship
- Innovative solutions
- Timely, responsive service
- Cost effectiveness

With more than 325 personnel spanning the consulting, engineering and architecture disciplines, commitment to these standards ensures a universal threshold for project quality. Our staff has a vested interest in providing safe, quality driven, successful projects that are completed on time and within budget.

The corporate organizational chart below graphically depicts the relationship between the Thompson Family of Companies and provides a brief summary of each company's service offerings. Thompson Consulting Services will serve as the contracting entity for the services requested by the City of Hattiesburg, Mississippi (City).

Prior to the inception of Thompson Consulting Services in 2011, disaster debris monitoring and program management services have been provided by Thompson Engineering since 1979 following Hurricane Frederic. Since then our organization has supported various local, state, and federal entities, including the United States Army Corps of Engineers (USACE), throughout the Nation respond to and recover from

a variety of natural disasters. *Thompson Consulting Services was founded to focus solely on disaster preparedness, response and recovery service offerings.*

Registrations

Thompson Consulting Services is a registered limited liability company formed through the State of Delaware. Our Federal Identification No is 45-201-5453.

Thomson Consulting Services, LLC is registered in the U.S. federal government's System for Award Management (SAM) our registration number and CAGE code is 968677158 / 7NZ42.

Thompson Consulting Services, LLC is registered with and participates in the U.S. Department of Homeland Security E-Verify Program, our E-Verify Company ID is 1111126.

Thompson Consulting Services, LLC is registered with the Mississippi Secretary of State and is in current Good Standing, our State registration number is 982823. Certificates of Fact and Good Standing are included in Section 5.

Minority and Women-Owned Business Participation

Thompson Consulting Services is not a certified minority business enterprise (MBE) or a women-owned business enterprise (WBE). We do encourage and engage the participation of M/WBE organizations in the communities where we work. Currently, the specific scope and magnitude of the project we are proposing is unknown and dependent upon FEMA approval. The proposed Thompson team maintains the resources and experience to fulfill the scope of work requested by the City without the need to

employ an additional subcontractor. Should the scope of work expand to include an opportunity to engage additional resources, Thompson will work to identify an appropriate M/WBE firm and take all steps to confirm compliance with all applicable Federal or State laws or ordinances for M/WBE participation, including 2 CFR 200.321.

Qualifications and Experience

Our staff has monitored the federally reimbursed removal of over 80 million cubic yards of debris on behalf of over 100 different local and state government agencies across the United States.

Thompson has provided disaster response and recovery services since 1979 following Hurricane Frederic. Since then, our staff has supported over 120 federal, state and local government entities plan for and respond to a variety of disaster incidents, such as, tornadoes, hurricanes, floods, earthquakes, ice storms, oil spills and other natural disasters. Our emergency response and disaster recovery consultants have over 50 years of combined experience and have responded to some of the most devastating incidents to

impact the United States in the last two decades including: Hurricanes Charley, Frances and Ivan in 2004; Hurricane Katrina in 2005; the Buffalo, NY ice and snow storm of 2006; Hurricane Ike in 2008; the Nashville, TN floods in 2010; the Southeast tornadoes of April 2011; Hurricane Irene in 2011; the Midwest tornados of 2012 which impacted Missouri, Illinois, Indiana, Kentucky, Tennessee and West Virginia, Hurricanes Isaac and Sandy in 2012, Winter Storm Pax in 2014; South Carolina flooding in 2015 and Hurricane Matthew in 2016 which impacted Florida, Georgia, South Carolina, North Carolina and Virginia. This work has resulted in our clients successfully applying for and retaining more than \$2.5 billion of federal grant funding for debris removal.

Our approach to providing disaster response and recovery services to the City of Hattiesburg maintains a primary focus on the efficient and effective utilization of available resources while assisting the City in navigating the funding and compliance channels of the Mississippi Emergency Management Agency (MEMA) and the Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program.

Thompson's consultants have performed debris monitoring and grant administration services for a variety of Federal Emergency Management Agency (FEMA) and Federal Highway Administration (FHWA) reimbursable federally declared disasters and emergencies. A summary of our experience over the last twelve years is provided in the table below and a comprehensive staff experience matrix is included in Exhibit 1-1 following this section.

Table 1-1: Grant Programs and Funding Administered by Disaster

Disaster	Year	Clients	Grant Funds Administered	Grant Programs
Hurricane Matthew (FEMA DR-4283-86, 4291)	2016	17	\$TBD	FEMA PA
Louisiana Severe Flooding (FEMA DR-4277)	2015	2	\$TBD	FEMA PA, FEMA HMGP
South Carolina Severe Flooding (FEMA DR-4241)	2015	1	\$35,000,000	FEMA PA, FEMA HMGP

Hurricane Gustav (FEMA DR-1786)	2008	6	\$19,374,540	FEMA PA, FEMA SRL, FEMA HMGP, FHWA ER
Hurricane Dolly (FEMA DR-1780)	2008	2	\$17,241,000	FEMA PA, FHWA ER
Oklahoma/Missouri Ice Storm (FEMA DR-1735)	2007	2	\$12,375,000	FEMA PA, FHWA ER
Missouri Ice Storm (FEMA DR-1676)	2007	3	\$31,523,000	FEMA PA, FHWA ER
New York Winter Storm (FEMA DR-1665)	2006	7	\$20,700,000	FEMA PA, FHWA ER, NRCS
Hurricane Wilma (FEMA DR-1609)	2005	15	\$214,491,000	FEMA PA, FEMA HMGP, FHWA ER, NRCS
Hurricane Rita (FEMA DR 1606)	2005	2	\$96,000,000	FEMA PA, FHWA ER
Hurricane Katrina (FEMA DR 1602-1604)	2005	30	\$914,304,040	FEMA PA, FEMA HMGP, FHWA ER, NRCS
Hurricane Dennis (FEMA DR-1595)	2005	3	\$90,000,000	FEMA PA, FHWA ER
Hurricane Ivan (FEMA DR-1551)	2004	3	\$243,332,500	FEMA PA, FEMA HMGP, FHWA ER, NRCS
Hurricane Frances (FEMA DR-1545)	2004	1	\$5,000,000	FEMA PA, FHWA ER
Hurricane Charley (FEMA DR-1539)	2004	3	\$97,085,850	FEMA PA, FHWA ER

Thompson's clients benefit from our long and consistent history in providing disaster response and recovery services through the incorporation of program management best practices gained over the years, and understanding of current federal disaster recovery guidelines and procedures. We have a thorough understanding of how agencies at the federal, state, and local levels coordinate during a recovery operation.

Past Performance

Thompson has an exceptional record of performance on our previous and existing contracts. The following select project examples highlight our experience and capabilities performing similar services to the scope of work requested by the City and include several recent examples that demonstrate our experience and ability to guide local governments to meet the FEMA Public Assistance Program eligibility requirements for debris removal and monitoring.

In addition, many of these projects provide evidence of our ability to perform damage assessment, right-of-way monitoring, hazardous leaner/hanger removal, private property debris removal (PPDR), disposal site monitoring, solid and hazardous waste management and FEMA reimbursement.

City-Parish of East Baton Rouge, Louisiana

August 2016 - Present

Disaster Debris Removal Monitoring

Debris Quantity: 1,800,000 CY

Summary: In August 2016 prolonged severe storms caused massive flooding throughout the City-Parish of East Baton Rouge, Louisiana leaving over 60,000 homes damaged or destroyed. As the flood waters subsided the City-Parish activated their debris removal hauler and monitor, Thompson, to assist in the monumental effort of managing the removal of debris generated from the thousands of flooded homes. Thus far, Thompson has

performed disaster debris removal monitoring services overseeing the collection of more than 1.8 million cubic yards of constructing and demolition debris throughout the City-Parish.

In addition, Thompson worked closely with the City-Parish and the debris removal hauler to design and implement a comprehensive Private Property Debris Removal Program for extended ROW collection. Thompson canvased neighborhoods distributing right-of-entry forms and staffed multiple libraries and community centers to assist homeowners in completing the required paper work. Once ownership of the property was verified Thompson logged the record into TDMS and provided the debris removal contractor with a list and map of properties approved for PPDR. Over 1,450 right-of-entry forms were collected, validated and processed for extended collection.

City of Denham Springs, Louisiana

August 2016 - Present

Debris Removal Monitoring / PPDR & FEMA Grant Management

Debris Quantity: 250,000 CY

2016 Severe Flooding: Thompson is currently providing disaster debris removal monitoring and FEMA grant management and Public Assistance consulting services to the City of Denham Springs following the recent flooding that impacted over 90% of the City causing approximately \$7,000,000 in damages eligible for FEMA PA reimbursement. Thompson has substantiated over 250,000 cubic yards of vegetative debris and 272 tons of white goods. In addition, Thompson worked closely with the City to implement a comprehensive Private Property Debris Removal Program for extended ROW collection. Overall, 339 right-of-entry forms were collected, validated and processed for extended collection.

Most of the damage in Denham Springs consisted of residential property flooding. Thompson's FEMA PA consultants are assisting the City in their pursuit of funding for a private property housing demolition program to restore destroyed properties currently posing a threat to public health and safety. Additionally, Thompson is preparing projects and supporting documentation for damages to City-owned buildings, equipment, roads, storm water and wastewater utilities, and for the reimbursement of force account emergency protective measures.

2012 Hurricane Isaac: Following Hurricane Isaac's landfall, Thompson was engaged by the City to provide disaster debris removal monitoring services. The force of the wind downed power lines and trees and scattered debris throughout the City. Within hours of a notice to proceed, Thompson deployed a field management team to train and on-board local debris monitors in the impacted area, as well as coordinated with the City, the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP), Louisiana Department of Environmental Quality (LDEQ), and FEMA to begin emergency debris removal. Thompson monitored emergency road clearance and debris removal operations and right-of-way collection of over 9,300 CY of vegetative and construction and demolition (C&D) debris throughout the affected areas. Furthermore, Thompson conducted a city-wide survey to identify hurricane damaged trees and assisted with the development and implantation of a leaner/hanger program to address City ROW and public parks.

South Carolina Department of Transportation (SCDOT)

Feb 2014 – Present

Debris Removal Monitoring and Public Assistance Consulting

Debris Quantity: 2,275,000 CY

Hurricane Matthew 2016: Following Hurricane Matthew, the SCDOT again activated Thompson to provide disaster debris removal monitoring and disaster recovery services in seven counties, including Colleton, Darlington, Florence, Horry, Orangeburg, Sumter and Williamsburg. Thompson mobilized within 24 hours of receiving a notice to proceed. To date, over 956,000 cubic yards of vegetative debris have been collected from state-maintained roadways.

Severe Flooding 2015: In early October, 2015, South Carolina experienced severe storms and heavy rainfall which left multiple counties throughout the State flooded and in need of disaster assistance. Homeowners began removing damaged

household items and piling debris along the right-of-way. SCDOT activated Thompson to guide and assist with response and recovery efforts. Thompson worked with the SCDOT to quickly establish debris removal operations along State maintained roadways and assisted in the development of a Mutual Aid Agreement for SCDOT to provide debris removal and monitoring services to participating counties along municipal roadways as well. Thompson performed monitoring services in 11 counties throughout the State and documented over 111,500 cubic yards of C&D debris, as well as 39.89 tons of unregulated E-Waste, 1,480 units of regulated E-Waste, 48.4 tons of HHW and 486 units of white goods. In addition, hundreds of roadways and bridges throughout the State were compromised from the flood waters and SCDOT has again sought the services of Thompson's FEMA Public Assistance professionals to assist in the management and development of project worksheets.

Winter Storm Pax 2014: In February, 2014 Winter Storm Pax coated an 18 county area in South Carolina with up to 1.5" of ice and generated widespread vegetative debris. The SCDOT activated its pre-event contract with Thompson to monitor a six county area in the eastern part of the state including, Horry, Georgetown, Williamsburg, Florence, Dillon, and Marion Counties. Thompson monitored, documented, and substantiated reimbursement for the removal of 1,200,000 cubic yards of debris and the removal of hazardous limbs from 175,000 hazardous trees by three debris removal contractors.

Thompson also supported the SCDOT by providing Federal Emergency Management Agency (FEMA) Public Assistance, Category A and B consulting services, overseeing the preparation of more than 115 large Project Worksheets on behalf of SCDOT and recovering more than \$155,000,000 in funding.

Chatham County, Georgia

October 2016 - Present

Hurricane Matthew Disaster Debris Removal Monitoring / PPDR

Debris Quantity: 1,400,000 CY

Summary: Thompson has maintained a stand-by debris monitoring contract with Chatham County, GA (County) for over four years prior to being activated following Hurricane Matthew in October of 2016. During that time, Thompson performed annual debris training and disaster response process reviews with the County in order to maintain a high level of operational readiness should our debris monitoring team ever be needed to respond to a, historically and, statistically rare direct hurricane impact to the coast of Georgia.

While Hurricane Matthew worked its way up the Atlantic Coast, Thompson deployed a response team to the County 72 hours prior to receiving a notice to proceed in anticipation of a contract activation. In the aftermath of the hurricane, the County activated Thompson's contract and we began debris operations immediately with over 75 field staff ready due to our diligent planning and pre-deployment of resources. To date Thompson has monitored the removal of over 1,400,000 cubic yards of vegetative debris, as well as the removal of hazardous limbs from 16,000 trees and the complete removal of over 900 hazardous leaning trees. In addition, Thompson has worked closely with the County and its stakeholders to obtain approval for, and implement a FEMA approved private property debris removal program that has resulted in the removal of over 200,000 cubic yards from private property and gated communities.

Putnam County, Tennessee

March – June 2015

Debris Removal Monitoring

Debris Quantity: 140,000 CY

Summary: Following a severe winter storm in March of 2015, Putnam County was overcome with downed trees and hazardous hanging limbs lining critical roadways. The County retained Thompson to monitor contracted debris removal operations throughout the County. Thompson mobilized within hours of receiving a notice to proceed and began hiring and training local residents of the County to serve as debris monitors. Thompson monitored, documented, and substantiated reimbursement for the removal of 140,000 cubic yards of debris and the removal of 1,800 hazardous trees.

City of Kimberly, Alabama

May – June 2014

Tornado Debris Removal Monitoring

Debris Quantity: 20,000 CY

Summary: Following an outbreak of severe weather and tornados, the City of Kimberly retained Thompson to monitor contracted debris removal operations throughout the City. The City was overwhelmed beyond their capacity with mixed debris, C&D, and hazardous trees. Thompson monitored, documented, and substantiated reimbursement for the removal of 20,000 cubic yards of debris and the removal of 118 hazardous trees.

Aiken County, South Carolina

February – August 2014

Debris Removal Monitoring

Debris Quantity: 1,500,000 CY

Summary: In February, 2014 Winter Storm Pax, a powerful ice storm, coated an 18 County area in South Carolina with up to 1.5" of ice and generated widespread vegetative debris. Aiken County activated a contract with Thompson following an emergency procurement to monitor debris removal from County maintained roads, schools, parks, facilities and waterways. Thompson monitored, documented, and substantiated reimbursement for the removal of 1,500,000 cubic yards of debris and the removal of hazardous limbs from 155,000 hazardous trees from County roads ways. In addition, Thompson is monitored the removal of debris and hazardous hanging limbs from the Horse Creek Water Trail, a historically significant waterway, in order to substantiate reimbursement for the removal of over 40,000 cubic yards of debris and the removal of hazardous limbs from 4,000 hazardous trees.

Jackson County, Mississippi

September 2012

Disaster Recovery Management and Debris Removal Monitoring

Debris Quantity: 4,000 CY

Summary: Following Hurricane Isaac's landfall along the Mississippi-Louisiana Gulf Coast, Thompson immediately responded to Jackson County by deploying a field management team to train and on-board local residents to monitor and document debris removal operations that were performed by County force account resources. While the County had sufficient resources to perform debris removal operations with County staff and equipment, Thompson was engaged to ensure that debris removal was conducted in accordance with FEMA guidelines, and that all debris was tracked and documented for FEMA reimbursement. Thompson worked in coordination with the County, Mississippi Emergency Management Agency (MEMA), Mississippi

Department of Environmental Quality (MDEQ), and FEMA to certify County equipment, monitor vegetative and construction and demolition (C&D) debris removal from County ROW, and substantiate debris quantities at the debris management site to support reimbursement.

Hancock County, Mississippi

September 2012

Hurricane Recovery Management and Debris Removal Monitoring

Debris Quantity: 15,000 CY

Summary: Following Hurricane Isaac's landfall, Thompson was engaged by Hancock County, MS to provide disaster debris removal monitoring services for debris removal from County Beaches and ROW debris removal from FHWA Beach Blvd. Storm surge wrought by Hurricane Isaac drowned thousands of nutria which subsequently washed onto the County's beaches along with thousands of cubic yards of debris and sea grass. Piles of debris posed an immediate threat to public health and safety, as the thick grass harbored thousands of snakes, decaying nutria, and served as a breeding ground for mosquitos and viruses such as West Nile. Furthermore, storm surge and several days of pounding waves caused extensive erosion along the Hancock County shoreline and displaced beach sand onto Beach Blvd. and other high traffic roads. Within hours

of a notice to proceed, Thompson deployed a field management team to train and on-board local debris monitors in the impacted area, as well as coordinated with the County, Mississippi Department of Environmental Quality (MDEQ), and FEMA to begin emergency debris removal from the beaches and with FHWA to coordinate debris and sand removal from Beach Blvd. The County activated two separate contractors and Thompson coordinated with each to ensure project completion within an expedited debris removal schedule that allowed the County to quickly recover from the costly environmental and economic impacts of Hurricane Isaac.

Clark County, Indiana

March – May 2012

Tornado Recovery Management and Debris Removal Monitoring

Summary: Immediately following the March 2012 severe weather event throughout southern Indiana, Thompson was engaged by Clark County (County) to provide disaster debris removal monitoring services in areas impacted by the storms. The force of the storms downed power lines and trees, destroyed hundreds of homes and local businesses and caused significant damage to County infrastructure. Massive amounts of vegetative debris blocked over 40,000 linear feet of creeks throughout the County, which created an immediate threat of flooding and additional damage to roads, bridges and private property.

Within hours of a notice to proceed, Thompson deployed a field management team to train and on-board local debris monitors in the impacted area, as well as coordinated with the County, NRCS, Indiana Department of Environmental Management (IDEM), and the Indiana Department of Natural Resources (DNR), to begin emergency debris removal from impaired creeks. Thompson monitored emergency road clearance and debris removal operations and right-of-way collection of vegetative and construction and demolition (C&D) debris throughout the affected areas. Furthermore, Thompson conducted a county-wide survey to identify severely damaged structures and prepared GIS parcel data, owner information and photographs for the County, which were passed to charitable volunteer organizations that are currently performing repairs, demolition, and new construction for residents. Through the assistance of Thompson, Clark County accomplished a rapid recovery from one of the most devastating tornadoes in recent history.

City of Tuscaloosa, Alabama

2011 – 2013

Tornado Disaster Grants Management / Cost Recovery Services

Disaster Grants Management: Thompson was selected by the City to assist it with FEMA Public Assistance program application, administration and program management. Thompson supported the City with seeking reimbursement for over \$60 million of damages related to FEMA Categories B – G and spearheading the City's effort to file insurance claims for an additional \$30 million in losses. The project will required the submission of more than 100 project worksheets and the review of dozens of insurance claims.

Also, in support of the City's long term recovery efforts Thompson is providing grant application development and program management for projects to be funded by several different federal grant programs including FEMA PA and HMGP programs and HUD CDBG program.

HMGP Demolition Program Management: The City of Tuscaloosa is widely regarded as ground zero of the crippling tornados of April 2011 that tore through central and northern Alabama. Following the devastating impacts of the tornadoes, the City prioritized projects from their Hazard Mitigation Plan that would best serve the public in similar future disaster events. Projects chosen for application include the acquisition and demolition of substantially damaged properties. Thompson provided the City with program management services to ensure efficiency of operations and compliance with HMGP requirements of the demolition program. Thompson assisted the City in initiating their disaster demolitions program, which included the

acquisition and demolition of substantially damaged properties as a result of the tornadoes. FEMA approved over

200 properties for demolition. Thompson also provided training to the City's staff to support the program, assisted in contractor procurement, and ultimately oversaw the documentation procedures for the program including monitoring of debris removal.

AL Department of Conservation and Natural Resources

May - October 2011

Tornado Recovery Management & Debris Removal Monitoring

Debris Quantity: 100,000 CY

Summary: Following tornados of April 2011 throughout central and northern Alabama, Thompson was engaged by the Alabama Department of Conservation and Natural Resources (ADCNR) to assist with assessing the damages left by the storm and implementing a program to restore the Guntersville, Buck's Pocket and Morgan's Cove State parks to their pristine condition. The assessment found camp grounds being totally destroyed, bath and shower facilities completely displaced, and significant damage to chalets, cabins and lodge facilities. In addition to the infrastructure damage, ADCNR was faced with the necessity to remove massive amounts of debris from its roadways, trail system and fire lines. ADCNR called on

Thompson to provide debris removal monitoring and management services. At its peak, ADCNR's debris removal contractor mobilized 90 crews that required monitoring and documentation of work completed.

United States Army Corps of Engineers, Vicksburg District

2005 - 2007

Hurricane Recovery Management & Debris Removal Monitoring

Debris Quantity: 7,000,000 CY

Summary: Thompson Engineering provided 240 debris monitoring inspectors to support the Hurricane Katrina recovery effort in multiple counties in southern Mississippi. Thompson mobilized 100 Inspectors in 3 days and reached the Corps staffing goal of 250 within the timeframe established by the mission managers. Thompson debris removal monitoring responsibilities included daily quality assurance inspection, load ticket preparation, daily reports, by County, and project record keeping. Thompson inspectors monitored the collection of over 7M cubic yards of debris thought out the mission. Thompson also served as a liaison between the USACE, state agencies, and county representatives to report debris removal progress and resolve issues in the field. There were no FEMA reimbursement issues on this project.

References

The following references attest to the versatility of Thompson and the capabilities that we maintain in debris removal monitoring and disaster related services. We believe the highest praise a consultancy can receive is that of a recommendation from a previous or current client.

Experience & Knowledge of Federal, State & Local Emergency Management

Our recent disaster recovery and debris monitoring experience in Georgia, Florida, South Carolina, Virginia, Louisiana, Mississippi, and Alabama demonstrates Thompson's ability to comply with application requirements of the FEMA Public Assistance Alternative Procedures Pilot Program for Debris Removal as well as other guidance documents and eligibility requirements issued by FEMA. Thompson closely monitors changes to FEMA policy and guidance so that we can make the appropriate changes to our own practices and procedures in order to best protect the clients we serve. For instance, our team is thoroughly versed and ready to implement the Public Assistance Program and Policy Guide (PAPP) issued on January 1, 2016 which incorporates and supersedes language from other PA Program publications including FEMA 325, 327 and the 9500 Series.

Thompson's consultants are well versed in federal program compliance regulations and policy for FEMA and other federal agencies. Although the guidance listed is not exhaustive in nature, it is a sample of specific material which may shape the City's recovery. Our consultants understand the material contained in these documents and will use this to aid in the recovery and reimbursement of all eligible debris and other related project costs in conjunction with local regulations and existing agreements. Thompson's goal is to promote an effective recovery in the most efficient amount of time while focusing on the end product of reimbursement through compliance with all applicable federal, state and local regulations.

- Local/state government debris management plan/standard operating procedures
- Local/state government purchasing guidelines and manuals
- Local government code of ordinances
- Local memorandums of understanding or mutual aid agreements
- FEMA Public Assistance Program and Policy Guide (FEMA PAPPG)
- FEMA Damage Assessment Operations Manual (April 5, 2016)
- OMB Circular A-87 – Cost Principles for State, Local and Indian Tribal Governments
- OMB Circular A-133 – Audits of States, Local Governments and Non-Profit Organizations

- 44 CFR Part 13 – Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments

Thompson's approach to providing disaster debris monitoring services begins with the desired outcome at the forefront of what we do: document debris removal in a manner to ensure maximum grant reimbursement to our clients. Through past experience and lessons learned, we have been able to develop a fine tuned and tested approach to efficiently and effectively meet or exceed the FEMA compliance regulation standards for maximum reimbursement to our clients. When dealing with disaster recovery and compliance with FEMA and other federal agency regulations, not many things can take the place of first-hand experience. Our debris monitoring and reimbursement procedures, tools and training methods are the results of a unique blend of theoretical and applied implementation strategies on real recovery projects. The City receives the benefits of past client successes which have been retained and included in our program knowledge base. By the same token, we have been able to actively morph our tools based on the ever changing environment of debris monitoring and reimbursement assistance.

[2] This work was completed by Beck Disaster Recovery's principal owners. Beck Disaster Recovery was acquired in 2009 and dissolved in 2011. Nate Counsell, Thompson's Vice President, served as the technical lead on this project.

[3] This work was completed by Beck Disaster Recovery. Beck Disaster Recovery was acquired in 2009 and dissolved in 2011. Nicole Counsell, Thompson's Grant Management Consultant, served as the technical lead on this project.

[4] This work was administered by Asevotech for Ashbrite Environmental. Wes Holden, Thompson's Director of Operations, served as the technical data administration lead on this project.

SECTION 2

QUALIFICATIONS OF STAFF

Staff Overview and Capacity

Thompson's staff of consultants is amongst the most educated, qualified and dynamic in the industry. Our personnel are disaster recovery and response experts, business and financial consultants; registered professional engineers, geologists, and surveyors; scientists; and technical professionals in the following disciplines: civil, structural, environmental, geotechnical, hydraulic, mechanical, and electrical engineering. Thompson has over 350 multi-disciplined personnel on staff with diverse qualifications that can be drawn upon to address any project needs. Thompson has provided the following list of personnel by discipline as evidence of our unique qualifications and credentials as well as our capacity to support projects of any size and scope.

Personnel by Discipline

Grant/Financial Consultants	10	Environmental Engineers	9
Debris Project Managers	25	Geologists	10
Debris Supervisors	50	Scientists/Environmental	20
On-call Debris Monitors	1000	Credentialed Inspectors	57
Construction Managers	26	Investigative / Roof Consultants	13
Architects	3	Professional Land Surveyors	9
Civil Engineers	30	LEED Accredited Professionals	5
Marine Engineers	4	Construction Engineering Inspectors	50
Structural Engineers	7	Construction Materials Techs	19
Geotechnical Engineers	14	C.P. - Stormwater Quality (CPSWQ)	1
Transportation Engineers	5	C.P. - Erosion & Sediment Control	5
Hydraulic Engineers	3	Safety Professionals	4

With advanced degrees in business, economics, finance, engineering, computer science and other disciplines we provide a well-rounded perspective and approach to problem solving in the emergency management and disaster recovery industry.

Thompson provides the City with access to a unique combination of experience, services, resources and personnel through our family of companies. With 13 corporate and eight (8) satellite offices scattered throughout the southeast, Thompson has the resources and capabilities to support the City's disaster debris removal monitoring needs.

Staff Experience and Qualifications

Debris Removal Programs

Thompson's proposed team of disaster response and recovery experts have responded to some the most devastating natural disasters to impact the United States in the last decade. Each team member has served in a variety of recovery operations roles and has real-world experience managing and supporting special disaster recovery programs to include right-of-way (ROW), private property/right-of-entry (ROE) work, waterways clean-up and reimbursement, leaning tree and hanging limb removal, hazardous material removal, vessel and vehicle recovery, asbestos abatement, data management and

hauler invoice reconciliation and contracting, and FEMA appeals assistance. Thompson's consultants have experience with all of the following disaster recovery programs.

Debris Removal Monitoring

- Debris hauling vehicle certification (volumetric)
- Right-of-Way debris collection
- Debris management site operations
- Leaning tree, hanging limb, and hazardous stump removal
- Private property debris removal
- Right-of-Entry (ROE) administration
- Waterways debris removal monitoring
- Data management
- Document management
- Progress reporting
- Contractor invoice reconciliation and payment recommendation
- Vessel and vehicle recovery
- Asbestos abatement
- Health and safety monitoring
- Multi-jurisdictional coordination/scheduling
- Damage claim resolution
- Disaster recovery monitoring with handheld devices
- Hazardous material removal
- GIS reporting
- Cost recovery/grant applications

Thompson is currently activated in the City-Parish of East Baton Rouge and the City of Denham Springs, Louisiana performing disaster debris removal monitoring services following severe flooding which devastated thousands of homes and has generated over 1.8 million cubic yards of construction and demolition debris. In addition, Thompson designed and implemented a private property debris removal (PPDR) program with the Parish and City to distribute and collect Right-of-Entry forms from citizens requiring extended debris removal services. Thompson verified ownership of each home and coordinated with the debris removal contractor to ensure debris was collected from applicants of the PPDR program.

Special Debris Removal Programs

Thompson's consultants consider special debris removal programs such as private property/right of entry work, waterways clean-up, demolition management, vessel and vehicle recovery, etc. as service offerings that our clients expect following a disaster event.

Thompson's consultants have extensive and unique experience with demolition programs and private property housing initiatives, including the management of many of the largest multi-phase, multi-property demolition and housing initiatives in the United States over the past ten years. Thompson Principal Jon Hoyle managed the demolition of, and private property debris removal from over 8,000 properties in Gulfport and Harrison County Mississippi following Hurricane Katrina. Thompson Principal Nate Counsell served as the FEMA funded Demolition Program Manager for the City of New Orleans from 2007 to 2009. In 2011 and 2012 Thompson managed the City of Tuscaloosa, Alabama's residential demolition program.

In addition, Thompson has extensive waterway/coastal recovery experience, including the removal of over 1,000,000 cubic yards of sand from houses and the restoration of over 8 miles of berm on Pensacola beach. In 2012, Thompson documented the removal of debris and seagrass from the beaches of Hancock County following Hurricane Isaac. We are also assisted New York City's debris removal contractor with the inventory of over 3,500 abandoned vehicles following Hurricane Sandy. In 2013, Thompson monitored a debris removal program covering seven (7) waterways throughout Iberville Parish, Louisiana and managed a wetland debris removal project for the Alabama Port Authority, both due to the lingering impacts of Hurricane Isaac. In 2014, Thompson monitored the removal of debris and hazardous hanging limbs from the Horse Creek Water Trail, a historically significant waterway in Aiken,

South Carolina. Thompson substantiated the removal of over 40,000 cubic yards of debris and the removal of hazardous limbs from 4,000 hazardous trees.

Disaster Cost Recovery and Reimbursement Processes

Thompson's consultants are well versed in federal program compliance regulations and policy for FEMA and other federal agencies. Our consultants thoroughly understand the programs, policies, and regulations related to disaster reimbursement and will use this knowledge to aid in the recovery and reimbursement of all eligible debris and other related project costs. Thompson's goal is to promote an effective recovery in the most efficient amount of time while focusing on the end product of reimbursement though compliance with all applicable federal, state and local regulations.

Public Assistance Program Consulting Services

- Preliminary damage assessment (PDA) data management tool development (categories A-G)
- Collection and compilation of PDAs
- Applicant kickoff meeting facilitation
- Debris staging site consultation (environmental, logistical, etc.)
- Project worksheet development
- Housing inventory damage assessment
- Direct administrative cost (DAC) support
- Damage site surveying (photography, GPS, condition reports, cost estimation, etc.)
- Small/large project formulation and scoping
- Alternate / improved projects
- Section 406 mitigation consultation
- Procurement assistance
- Expenditure review/approval and reconciliation
- EMMIE monitoring/support
- FEMA appeals assistance

Thompson recently assisted the South Carolina Department of Transportation with FEMA Public Assistance consulting services following a major ice storm in 2014 and more recent flooding event in 2015. This work has resulted in developing both small and large project worksheets totaling over \$195,000,000 in disaster funding.

Grant Application, Administration, and Management

Thompson's experience in supporting recovery efforts for local and state governments spans three decades and accounts for the administration of more than \$2.5 billion in federal grant funding. Our consultants can draw upon their knowledge and experience in working with over eight different federal grant funding agencies and 15 grant programs, including the following:

- Federal Emergency Management Agency
 - Public Assistance (PA)
 - Hazard Mitigation Grant Program (HMGP)
 - Pre-disaster Mitigation (PDM)
 - Flood Mitigation Assistance (FMA)
- Federal Highway Administration (FHWA)
 - Emergency Relief (ER)
- Environmental Protection Agency (EPA)
- Department of Housing & Urban Development
 - Community Development Block Grant (CDBG)
 - HOME Investment Partnership Program
- Natural Resources Conservation Service (NRCS)
 - Emergency Watershed Protection (EWP)
- Small Business Administration (SBA)
- Department of Agriculture (USDA)

Before, during and after a disaster incident our team can draw upon our knowledge and experience in working with a variety of funding sources to assist in developing and implementing a variety of recovery and mitigation programs.

Federal Guideline Understanding & Training / Certifications

Thompson believes it is critical to educate our staff and provide them with the credentials that are recognized by the federal, state and local emergency management community. Many of our staff members are credentialed with some combination of the certifications provided in the table below.

Also, many of our project management consultants hold various Occupational Safety and Health Administration (OSHA) certifications for safety and other project related activities.

Table 2-1: Staff Certifications & Training

Agency/Course	Certification Title
FEMA IS 1	Emergency Program Manager, an Orientation to the Position
FEMA IS 30	Mitigation eGrants System for the Subgrant Applicant
FEMA IS 31	Mitigation eGrants System for the Grant Applicant

This coursework and continuing education allows our employees to remain current with ever-changing policy while earning certifications that will provide them with credibility within the federal, state and local emergency management community.

Proposed Project Organization, Management and Qualifications

Thompson is committed to staffing the City's disaster debris management and financial recovery services project in accordance with the management staffing and key personnel proposed herein. Our technical approach is designed to be scalable in nature in order to effectively respond to both minor and catastrophic debris generating events as well as adjust to the changes needs of the City throughout the

recovery process. The following organizational chart graphically presents Thompson’s proposed project staffing and key personnel.

Figure 2-1: Proposed Organizational Chart

Key Personnel Overview

JON HOYLE will serve as the Principal-in-Charge for the City and provide support as needed to ensure project operations are in accordance with the City’s expectations. Mr. Hoyle has over twelve years of experience including ten years providing management and oversight for disaster response and recovery efforts and grant writing administration / program management throughout the United States. He has managed 75 projects under contracts that total over \$1.5 billion in grant administration and recovery efforts that required the mobilization of over 5,000 field and professional personnel over the past 10 years. His programmatic experience includes FEMA-PA, FHWA-ER, NRCS-EWP, HUD-CDBG, FEMA-HMGP, and others.

NATE COUNSELL will serve as the Client Resource Officer to ensure project operations have the staff and resources necessary to remain on track, on schedule and on budget in accordance with the contact and task order(s) issued by the City. Mr. Counsell has managed over 60 projects under contracts that total over \$1 billion in recovery efforts and required the mobilization of over 5,000 professional and field personnel. He has designed and managed removal projects in Texas, Louisiana, Florida, Mississippi, Alabama, South Carolina, North Carolina, Virginia, New Jersey and New York.

ERIC HARRISON will serve as a Project Manager for the City and ensure project operations are implemented in accordance with the contract and task order(s) issued by the City. Mr. Harrison will also coordinate closely with the City’s debris hauler to coordinate crew requirements and scheduling. Mr. Harrison has over twelve years of experience providing debris monitoring program management support and oversight for disaster response and recovery efforts throughout the United States.

The following tables further summarize the background and experience of our key personnel, outlines our staff’s extensive experience managing and monitoring more than 1,000,000 cubic yards on behalf of local and state governments.

Resumes for key personnel have also been included in Exhibit 2-1 following this section.

Debris Removal Monitor Labor Force Sourcing

Thompson's proposed staffing plan is designed to be flexible and scalable so that we can effectively and efficiently respond to the City's needs. We maintain a staff of full time and on-call disaster debris monitoring experts, consultants and supervisors that will be available to support the implementation

and management of debris removal monitoring operations. In addition, Thompson maintains professional human resources and recruiting staff that have over 10 years of experience in disaster response and recovery services available to assist in identifying and placing personnel.

It is Thompson's intent to fill temporary debris monitoring positions with the City's qualified residents in need of work. Thompson will provide qualified residents with safety training, drug screening, and on the job training with experienced debris monitoring supervisors. Thompson is the only debris monitoring firm that performs drug screening and motor vehicle operating record reviews for temporary employees. This practice results in a team of monitors that is both safe and committed to quality. We will make sure that all local hires are properly trained prior to being deployed to monitor a debris removal crew. In addition, this effort will help residents participate in the City's recovery efforts with a meaningful impact and earn a competitive hourly wage.

Lake Mary, FL 32746

EDUCATION

BA: International Relations
MBA: Management and Finance

EXPERIENCE

13 years

PROGAM EXPERIENCE

- FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G)
- FEMA Hazard Mitigation Grant Program (404 and 406)
- FEMA Severe Repetitive Loss Program
- FHWA ER Program
- CDBD Disaster Recovery
- CDBG Housing

Experience and Qualifications

Mr. Hoyle has thirteen years of experience providing management and oversight for disaster response and recovery efforts and grant writing administration / program management throughout the United States. He has managed 65 projects under contracts that total over \$1 Billion in grant administration and recovery efforts that required the mobilization of over 5,000 field and professional personnel over the past 9 years

Project Experience

South Carolina Department of Transportation, Severe Flooding, 2015 - 2016 – Mr. Hoyle again served on the Thompson management team during the SCDOT's response to statewide severe flooding. He was responsible for contract obligations, cost controls, and FEMA Category A&B reimbursement for all projects. Thompson provided debris monitoring services on behalf of the SCDOT in 11 counties as well as FEAM PA services to identify and document damages to approximately 600 sites and prepared and submitted both large and small project worksheets totaling over \$35,000,000 and including hazard mitigation measures.

Putnam, Fentress and Overton Counties, Tennessee, Sever Winter Storm, 2015 – Mr. Hoyle served as the Principal-in-Charge during for all projects following a regional ice storm that impacted Tennessee. He

managed and ensured all contracts and task orders were processed and implemented.

South Carolina, Winter Storm Pax Regional Response and Disaster Recovery, 2014 – Winter Storm Pax impacted the State of South Carolina generated widespread vegetative disaster debris. Thompson was activated by the South Carolina Department of Transpiration (SCDOT), Georgetown, Marion, Williamsburg, Aiken and Allendale Counties to provide debris removal monitoring services. Mr. Hoyle served on the Thompson management team responsible for contract obligations, cost controls, and FEMA Category A&B reimbursement for all projects. Thompson monitored, documented, and substantiated reimbursement for the removal of over 2,900,000 cubic yards of debris and the removal of 400,000 hazardous limbs and trees.

Louisiana and Mississippi, Hurricane Isaac Regional Response and Disaster Recovery, 2012 – In August 2012, Hurricane Isaac struck the Louisiana and Mississippi gulf coast with Category 1 strength winds and 24 hours of sustained rainfall. Mr. Hoyle served on the Thompson debris program team responsible for mobilizing and deploying project staff and resources to multiple jurisdictions along coastal Mississippi and Louisiana, including Jackson and Hancock County, MS, and Terrebonne Parish and Denham Springs, LA. In all, Thompson's field monitoring efforts documented and substantiated reimbursement for the removal of nearly 100,000 cubic yards of debris from roadways, canals, and beaches.

Virginia Department of Transportation (VDOT), Multiple Locations, Hurricane Recovery Debris Monitoring, 2011 – In the wake of Hurricane Irene the VDOT called upon it's pre-position contractors to assist it with collecting and disposing of debris strewn about its rights-of-way in the Central and Eastern regions of the State. Thompson was tasked with providing debris removal monitoring services in the Ashland, Chesterfield, Petersburg, South Hill, and Saluda Residencies, which included a territory of 23 Counties. Mr. Hoyle served as the Principal-In-Charge acting as the liaison officer between the VDOT's pre-positioned contractors and the field management team.

Alabama Department of Conservation and Natural Resources (ADCNR), Disaster Management and Debris Monitoring, Alabama, 2011 – Mr. Hoyle served as the Project Manager for the disaster management and

debris monitoring at Guntersville, Buck's Pocket, and Morgan's Cove State Parks following the crippling tornados of April 2011. The camp grounds were totally destroyed and massive amounts of debris were scattered in the roadways, trail systems, and fire lines. At peak, 90 crews were mobilized, managed, and monitored. Contract value totals \$1.5-million.

Calhoun County, Alabama, Tornado Recovery Operations, 2011 – During April of 2011, north/central Alabama, eastern Mississippi, northwest Georgia, and southeast Tennessee, were struck with a record-breaking number of crippling, deadly tornados. Thompson Consulting Services (Thompson) was selected by Calhoun County (County) to provide disaster response and recovery consulting services including grant administration and debris removal monitoring. Mr. Hoyle served as the Principal-In-Charge while supporting the field management team's efforts to aid the County in a swift recovery.

Texas and Louisiana, Hurricane Ike Long Term Recovery, Infrastructure Repair and Grant Management Administration, 2008-2011 – Following the devastating impact that Hurricanes Ike made on the Texas and Louisiana coast, Mr. Hoyle implemented and managed over 15 large long term recovery, infrastructure repair, and grant administration programs in Texas and Louisiana and helping obtain over \$250 million FEMA PA, FHWA ER, and CDBG DR funds on behalf of local governments and agencies such as the Port of Galveston, City of Galveston, and Texas Department of Transportation.

Escambia County, Florida, BP Deep-water Horizon Oil Spill Response, 2010 – As oil threatened the beaches and waterways of Escambia County (Pensacola), FL during the summer of 2010, Mr. Hoyle deployed a team responsible for documenting and accounting for over \$10 million of contracted efforts to contain the oil and mitigate the environmental impact the oil spill made on beaches, waterways, and tourism.

Norman, Oklahoma, Ice Storm Deployment, 2008 – Following a crippling ice storm in Norman, Oklahoma in 2008, Mr. Hoyle served as the Principal in Charge for a program to document and account for contracted response, recovery, and debris removal operations initiated by the City. The effort documented and substantiated over \$3 million worth of eligible FEMA and FHWA funding.

Florida and Mississippi, Hurricane Deployment, Hurricane Katrina, 2005-2007 – Mr. Hoyle deployed teams to simultaneously respond to multiple local

governments in Florida and Mississippi to provide debris monitoring and grant administration assistance. The effort documented and substantiated the removal of over 5,000,000 cubic yards of debris, representing \$175 million of FEMA and FHWA reimbursement to local governments.

Previous Employment Experience

Science Applications International Corporation (SAIC), Maitland, FL, 2009-2011 – Mr. Hoyle served as the Director of the Financial Recovery Services Division. His responsibilities included:

- Managed \$11.5-million division that provides consultancy with grant application, administration and program management services (founded and grew from inception)
- Directly oversaw division business development team to manage CRM pipeline of \$20-million
- Senior oversight of project delivery including design of standard operating procedures and project deliverable guidelines
- Member of the Senior Management Team that provided company business planning including the development of budgets, strategy, tactics, goals, and business initiatives

Beck Disaster Recovery (BDR), Maitland, FL, 2005-2009 – Mr. Hoyle was a company co-founder, owner and managing principal of the Response and Recovery Services division. As a Vice President of BDR, his responsibilities included:

- Managed project delivery for \$150-million of consulting services during four-year period, including projects with Cities of Houston, New Orleans, Orlando and Miami
- Created Financial Recovery Services division to meet company objective of diversifying revenues to provide financial stability (revenue of \$3-million during first year of operation)

R.W. Beck, Orlando, FL, 2003-2005 – Mr. Hoyle served as a Consultant for R.W. Beck. His responsibilities included:

- Solid waste rate design and review to include contested rate hearings with private sector service providers
- Utility operational efficiency studies to include time and motion, process design, work flow, etc.
- Develop and design utility rates and impact fee models and studies

Experience and Qualifications

Mr. Counsell has twelve years of experience providing management and oversight for disaster response and recovery efforts throughout the United States. He has managed 60 projects under contracts that total over \$1 Billion in recovery efforts that required the mobilization of over 5,000 field and professional personnel.

Project Experience

South Carolina Department of Transportation, Severe Flooding, 2015 – Mr. Counsell served as the corporate resource officer during the SCDOT's response to statewide severe flooding. Mr. Counsell ensured all projects had the resources necessary to implement debris removal monitoring in 11 counties throughout the State.

South Carolina, Winter Storm Pax Regional Response and Disaster Recovery, 2014 – Winter Storm Pax impacted the State of South Carolina covering various regions of the State in up to 1.5" of ice which generated widespread vegetative disaster debris. Thompson was activated by the South Carolina Department of Transportation (SCDOT), Georgetown, Marion, Williamsburg, Aiken and Allendale Counties to

provide debris removal monitoring services. Mr. Counsell is serving on the Thompson management team responsible for contract obligations, cost controls, and FEMA Category A&B reimbursement for all projects. Thompson monitored, documented, and substantiated reimbursement for the removal of over 2,900,000 cubic yards of debris and the removal of 400,000 hazardous limbs and trees.

Louisiana and Mississippi, Hurricane Isaac Regional Response and Disaster Recovery, 2012 – In August 2012, Hurricane Isaac struck the Louisiana and Mississippi gulf coast with Category 1 strength winds and 24 hours of sustained rainfall. Mr. Counsell served on the Thompson financial team responsible for contract cost controls and FEMA Category A&B reimbursement for multiple jurisdictions along coastal Mississippi and Louisiana, including Jackson and Hancock County, MS, and Terrebonne Parish and Denham Springs, LA. In all, Thompson's data and financial management efforts authorized nearly a \$1,000,000 of eligible contractor payments and substantiated reimbursement for the removal of nearly 100,000 cubic yards of debris from roadways, canals, and beaches.

Clark County, Indiana, Tornado Recovery and Debris Removal, 2012 – Mr. Counsell served as Principal in Charge for the debris removal efforts in Clark County, Indiana following severe storms with tornadoes events. He worked with the County and FEMA throughout the project to ensure compliance with federal regulations and to maximize reimbursement funding.

Virginia Department of Transportation (Multiple Locations), Hurricane Recovery and Debris Removal, 2011 – In the wake of Irene, the Virginia Department of Transportation (VDOT) called upon their pre-position contractors to assist it with collecting and disposing of debris strewn about its rights-of-way in the Central and Eastern regions of the State. Thompson was tasked with providing debris removal monitoring services in the Ashland, Chesterfield, Petersburg, South Hill, and Saluda Residencies, which included a territory of 23 Counties. Mr. Counsell served as Project Manager for this engagement and oversaw all debris monitoring operations.

Calhoun County, Alabama, Tornado Disaster Debris Monitoring, 2011 – Mr. Counsell served as the Project Manager for disaster debris removal monitoring following the crippling tornados of April 2011. The project involved monitoring right-of-way collection of vegetative and construction and demolition (C&D) debris throughout the County and administering and monitoring contracted debris removal from private property through a right-of-entry (ROE) program as part of Operation Clean Sweep administered by FEMA and AEMA. Contract value totals \$3-million.

Cedar Rapids, Iowa, FEMA Funded Demolition Sinclair Meatpacking Plant, 2010-2011 – Between 2010 and 2011, Mr. Counsell served as the Principal in Charge for the FEMA funded demolition of the historic Sinclair Meatpacking Plant located on the Cedar River in Cedar Rapids, IA. At the time the largest FEMA funded commercial demolition in the Country, the project required the administration and implementation of over \$5 million FEMA PA funds.

New Orleans, Louisiana, FEMA Funded Commercial and Residential Demolition Program, 2007-2009 – Between 2007 and 2009, Mr. Counsell served as the Program Manager of the City of New Orleans residential and commercial demolition program, helping the City design and implement a multi-phase process for the identification, historical review, decommissioning, demolition, and disposal of over 1,500 residential and commercial structures located throughout the City. The program required coordinated cost tacking to 5 large Project Worksheets totaling over \$50 million in FEMA Public Assistance Funding.

Louisiana and Texas, Hurricane Deployment, Hurricanes Dolly, Gustav, and Ike, 2008-2010 – Following the devastating impact that Hurricanes Dolly, Gustav, and Ike made on the Texas and Louisiana coast, Mr. Counsell deployed, implemented, and executed 10 large scale debris monitoring and grant administration programs in Texas and Louisiana and helped obtain \$250 million FEMA PA, FHWA ER, and CDBG DR funds on behalf of local governments and agencies such as Terrebonne Parish, City of New Orleans, and City of Houston.

South Florida, Hurricane Deployment, Hurricane Wilma, 2005-2006 – Mr. Counsell deployed teams to simultaneously respond to 17 local governments in Broward, Miami-Dade, and Monroe County, FL to

provide debris monitoring and grant administration assistance. The effort documented and substantiated the removal of over 5,000,000 cubic yards of debris, representing \$175 million of FEMA and FHWA reimbursement to local governments.

Previous Employment Experience

Science Applications International Corporation (SAIC), Maitland, FL, 2009-2011 – Mr. Counsell served as the Director of the Response and Recovery Services Division. His responsibilities included:

- Management of a \$25-million division that provides debris monitoring, grant management and implementation, and housing program management services (founded and grew from inception) to over 200 state and local government agencies throughout the United States
- Directed a national business development team to manage CRM pipeline of \$3-million annual non-disaster related contract opportunities
- Provided senior oversight on project delivery including design of standard and customized operating procedures, project deliverable guidelines, training materials, sub-contracts, and fraud prevention
- Member of the Senior Management Team that provided company business planning including the development of budgets, strategy, tactics, goals, and business initiatives

Beck Disaster Recovery (BDR), Maitland, FL, 2005-2009 – Mr. Counsell was a company co-founder, owner and managing principal of the Program Management Services division. As a Vice President of BDR, his responsibilities included:

- Managed business development, client capture, and project delivery for \$150-million of program management services during 4 year period, including projects with the cities of New Orleans, Pensacola, Orlando, and Fort Lauderdale, and multiple projects in the states of New York, Missouri, Florida, Mississippi, Louisiana, and Texas
- Designed and implemented multiple large scale housing and private property assistance programs in Florida and Louisiana

Eric Harrison

Graduate Certificate: Geographic Information Science

EXPERIENCE

12 years

PROGAM EXPERIENCE

- FEMA Public Assistance Emergency Work (Categories A-B)
- FHWA ER Program
- Demolition Program Management
- Occupational Safety and Health Administration Implementation

Experience and Qualifications

Mr. Harrison has twelve years of experience assisting communities with disaster response and recovery efforts throughout the United States. He has lead and supported multiple debris operations through project management, mobilization of response teams, staging logistics, data management and permitting debris sites. Also, as a geographic information systems (GIS) specialist he has extensive experience in developing zone and routing maps for disaster recovery projects. Utilizing his extensive knowledge and experience with debris removal programs, Mr. Harrison has been a major innovator in the development of the TDMS^{mobile} solution and the configuration of electronic debris removal program documentation. He is also responsible for training field management staff on the capabilities and use of ADMS.

Project Experience

South Carolina Department of Transportation, Severe Flooding, 2015 – Following severe statewide flooding in South Carolina, SCDOT contracted Thompson to provide debris removal monitoring services in 11 counties throughout the State. Mr. Harrison served on the Thompson management team responsible overseeing operations, staffing and controls on all active projects including the mobilization and demobilization of staff and resources throughout the State.

South Carolina, Winter Storm Pax Regional Response and Disaster Recovery, 2014 – Winter Storm Pax impacted the State of South Carolina which generated widespread vegetative disaster debris. Thompson was activated by the South Carolina Department of Transportation (SCDOT), Georgetown, Marion, Williamsburg, Aiken and Allendale Counties to provide debris removal monitoring services. Mr. Harrison served on the Thompson management team responsible overseeing operations, staffing and controls on all active projects. Thompson is scheduled to monitor, document, and substantiate reimbursement for the removal of 1,000,000 cubic yards of debris and the removal of hazardous limbs from 154,000 hazardous trees.

Hurricane Deployment, Hurricane Sandy, New Jersey, New York, 2012 – Mr. Harrison deployed teams to respond to Hoboken, NJ and Babylon, New York following Hurricane Sandy to provide debris monitoring using ADMS and grant administration assistance. Mr. Harrison performed quality control of field supervisors and monitors utilizing ADMS to certify equipment, credential new monitors, and track debris removal. Concurrently, Mr. Harrison also deployed a field team skilled in ADMS and special programs to manage the extensive documentation associated with the identification, removal, and inventory management of flooded vehicles and vessels in New York City.

Mississippi and Louisiana, Hurricane Deployment, Hurricane Isaac, 2012 – Mr. Harrison deployed teams to simultaneously respond to four local governments in Terrebonne Parish, LA, Denham Springs, LA, Hancock County, MS, and Jackson County, MS to provide debris monitoring and grant administration assistance. Mr. Harrison was responsible for the deployment and project specific configuration of handheld devices to each activated contract. The effort documented and substantiated the removal of nearly 100,000 cubic yards of debris in less than 45 days.

Clark County, Indiana, Tornado Recovery Operations, 2012 – Mr. Harrison served as the operations manager for Clark County's Tornado recovery efforts. He assisted the County in initiating its 70 hour push and right-of-way (ROW) debris removal operation. Using GIS, he assisted in tracking right-of-entry approvals for the NRCS funded waterway debris removal which he

later managed with TDMSweb. He also used GIS to assist the County in identifying critical debris removal areas and set up zones to make the ROW program progress quickly and efficiently.

Virginia Department of Transportation (VDOT), Hurricane Irene Recovery Operations, 2011 – Mr. Harrison served as project manager overseeing disaster debris removal operations in the Richmond and Fredericksburg VDOT Districts which included six different residencies across the eastern part of state. The recovery efforts included the collection and removal of over 450,000 cubic yards of debris which was tracked and managed with TDMSweb.

City of New Orleans, FEMA Funded Commercial and Residential Demolition Program, New Orleans, LA, 2007-2011 – Between 2007 and 2011, Mr. Harrison served as the Deputy Project Manager of the City of New Orleans Residential and Commercial Demolition Program. He was responsible for preparing applications for two historic review committees for demolition requests and for carrying out all required procedures set forth in City ordinances prior to committee review. Also, using GIS software Mr. Harrison mapped demolition progress and managed a demolition database of nearly 3,000 properties. The program required coordinated cost tacking to 5 large Project Worksheets totaling over \$50 million in FEMA Public Assistance Funding.

Louisiana and Texas, Hurricane Deployment, Hurricanes, Gustav, and Ike, 2008-2010 – Following the devastating impact that Hurricanes Gustav and Ike made on the Louisiana and Texas coast, Mr. Harrison supported the debris monitoring operations in New Orleans as well as providing GIS support for multiple field operations in Texas.

Green County, Missouri, Snow/Ice Storm Recovery Program Management, 2007 – Mr. Harrison was part of a critical management team mobilized to begin the disaster debris removal and clean-up program after a devastating ice storm swept through Green County, MO. Mr. Harrison served as the leaner/hanger operations manager and was responsible for overseeing the removal of 53,856 trees with hangers and 409 leaning trees on behalf of the County.

Town of North Tonawanda, New York, Snow/Ice Storm Recovery Program Management, 2006 – Mr. Harrison served as the operations manager for the Town of North Tonawanda's snow storm recovery efforts. He assisted the Town in initiating its right-of-

way (ROW) debris removal operation and ROW leaner and hanger removal program. He worked closely with the Town to identify critical debris removal areas and earmark hazardous trees and hanging limbs for removal from over 14,000 eligible trees.

City of Waveland, Mississippi, Hurricane Deployment, Hurricane Katrina, 2005-2007 – Mr. Harrison served as GIS specialist and assisted the City of Waveland, MS with developing zone maps, conducting damage assessments and leaner and hanger debris removal programs following Hurricane Katrina.

Pembroke Pines, Florida, Hurricane Deployment, Hurricane Wilma, 2005-2006 – Mr. Harrison served as the operations manager and assisted in the deployment of an immediate response team to provide storm debris cleanup and recovery planning on behalf of the City of Pembroke Pines, FL in response to Hurricane Wilma. He also assisted in the development of zone and routing maps for the City's recovery efforts.

Hurricane Deployment, Hurricane Rita, Texas, 2005 – Mr. Harrison was a part of the response team and served as the operations manager to provide immediate on-site assistance of disaster recovery management and storm debris clean-up monitoring services to aid the city of Beaumont and Port Arthur Texas.

South Florida, Hurricane Deployment, Hurricanes Charley, Frances and Jeanne, 2004-2005 – Mr. Harrison was a part of a response team to provide immediate on-site assistance and a wide range of disaster recovery management and storm debris clean-up monitoring services to aid multiple South Florida communities in making a quick recovery. Mr. Harrison assisted with surveying areas for special collection needs such as tree stumps, hazardous trees and construction and demolition (C&D) debris.

Ryan Kelley

Debris Management Program Specialist/Recruiter

FIRM

Thompson Consulting Services
1135 Townpark Avenue, Suite 2101
Lake Mary, FL 32746

EDUCATION

BA: Marketing

EXPERIENCE

12 years

PROGAM EXPERIENCE

- FEMA Public Assistance Emergency Work (Categories A-B)
- FEMA Programs Staff Placement
- Disaster Recovery Program Recruiting
- Disaster Recovery Program Staff Augmentation

Experience and Qualifications

Mr. Kelley has twelve years of experience providing professional recruiting and staff augmentation services to assist disaster recovery companies and state and local government agencies with properly staffing large scale disaster recovery operations with the appropriate level of qualified man-power. Mr. Kelley has also managed several large scale debris monitoring operations in Florida, Texas, and South Carolina.

Project Experience

South Carolina Department of Transportation, Severe Flooding, 2015 – Following severe statewide flooding in South Carolina, SCDOT contracted Thompson to provide debris removal monitoring services in 11 counties throughout the State. Mr. Kelley managed the recruiting and staffing requirements of all of the projects, which included onboarding over 80 local debris monitors across the 11 counties.

Tennessee Regional Winter Storm Response, 2015 – Mr. Kelley served as a recruiting and staffing specialist for the debris monitoring effort in Putnam, Overton and Fentress Counties in Tennessee. Mr. Kelley ensured local hires to serve as debris monitors were residents of the impacted Counties and qualified for the position. The effort included monitoring, documenting, and substantiating FEMA reimbursement for right-of-way vegetative debris removal, as well as and monitoring the removal of hazardous leaning trees and hanging limbs.

Alabama Regional Tornado Response following severe weather outbreak, 2014 – Following a severe weather outbreak just outside of Birmingham, AL in 2014, Mr. Kelley provided professional recruiting, staff augmentation, and field operations management support for the Cities of Graysville, Adamsville, and Kimberly, Alabama. In total, Mr. Kelley recruited and on-boarded over 40 monitors to document and substantiate the removal of over 120,000 cubic yards of tornado debris. Mr. Kelley worked closely with City leaders to help ensure that local residents impacted by the storm had an opportunity to fill temporary monitor positions and make a meaningful contribution to the recovery effort.

South Carolina Regional Response following severe Winter Storm Pax, 2014 – Winter Storm Pax blanketed an 18 County area in South Carolina with over 1.5” of ice and generated widespread vegetative debris. Mr. Kelley provided professional recruiting, staff augmentation, and field operations management support for a six county area on behalf of the South Carolina Department of Transportation. In addition, Mr. Kelley provided professional recruiting and staff augmentation support for Thompson efforts in Williamsburg, Georgetown, Marion, Aiken, and Allendale Counties. This state-wide effort including the onboarding and training of nearly 600 monitors.

Galveston County/Bolivar, Texas, ROW Debris Removal and Specialized PPDR Programs Following Hurricane Ike, 2008-2009 – Mr. Kelley served as a recruiting and staffing specialist for Galveston County, including the Bolivar Peninsula and eleven cities within the County following Hurricane Ike. Mr. Kelley supported disaster debris removal programs with the appropriate levels of qualified manpower. The large scale effort included many specialized programs, including voluntary and involuntary PPDR programs under which debris, sand, vessels, and hazardous materials were removed from over 1500 private properties on the Bolivar Peninsula and mainland Galveston County.

City of Beaumont, TX, Hurricane Debris Removal Monitoring – In 2008, Mr. Kelley served as a recruiting and staffing specialist on the City of Beaumont debris monitoring effort. The effort included monitoring, documenting, and substantiating FEMA reimbursement for Right-of-Way vegetative debris removal, as well as and monitoring the removal of

debris fields created by storm surge, as well as inland waterway debris removal and oversight of the leaning tree, hanging limbs, and hazardous stump removal program.

City of Houston, TX, Hurricane Debris Removal

Monitoring – In 2008, Mr. Kelley served as a recruiting and staffing specialist on the City of Houston debris monitoring effort.

Seminole County, FL, Hurricane Debris Removal

Monitoring - In 2004 following Hurricane Charley, Mr. Kelley served as a recruiting and staffing specialist on the Seminole County debris monitoring effort.

- FEMA Hazard Mitigation Grant Program (404 and 406)
- CDBG Disaster Recovery and Housing

Experience and Qualifications

Mr. Gardner has served as a data manager, program manager and grant management consultant for multiple federally funded grant programs on projects totaling approximately \$250 million. His extensive understanding of the eligibility requirements, federal regulations and policies across many federal grant programs allows clients to maximize disaster recovery and mitigation reimbursement. He provides QA/QC oversight throughout project and program implementation and is intimately familiar with such activities as application development, public outreach, environmental review, vendor procurement, project and process monitoring, invoice reconciliation, project closeout and program audits.

Mr. Gardner has assisted clients navigate multiple federally funded grant programs including the U.S. Department of Housing and Urban Development (HUD) Community Development Block Grant (CDBG) Program, the Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program and the FEMA Hazard Mitigation Grant Program (HMGP).

Project Experience

South Carolina Department of Transportation, Severe Flooding Statewide Response, 2015 - 2016 – The SCDOT activated Thompson to provide debris removal monitoring services in 11 counties throughout the State following severe storms and flooding. Mr. Gardner

served on the on-site project kickoff team and managed the data reporting and invoice reconciliation tasks throughout the projects. He oversaw the daily review of ticket data and produced customized, real-time reports for the counties.

Putnam, Fentress and Overton Counties, Tennessee, Sever Winter Storm, 2015 – Mr. Gardner served on the on-site project kickoff team and managed the data reporting and invoice reconciliation tasks throughout the projects. He oversaw the daily review of data and produced customized reports for the Counties. Additionally, Mr. Gardner worked with the debris hauler to reconcile all project data for invoicing and provided payment recommendations to the Counties. All data was submitted to FEMA in a Project Worksheet ready package for immediate review and submission for reimbursement.

South Carolina, Winter Storm Pax Regional Response and Disaster Recovery, 2014 – In February of 2014, Severe Winter Storm Pax impacted the State of South Carolina covering various regions of the State in up to 1.5" of ice which generated widespread vegetative disaster debris. Thompson was activated by the South Carolina Department of Transportation (SCDOT), Georgetown, Marion, Williamsburg, Aiken and Allendale Counties to provide debris removal monitoring services. Mr. Gardner supervised the Thompson data management team responsible for validation and reporting of all project data. He also worked with the various debris haulers to reconcile invoice data for payment recommendations. Thompson monitored and substantiated reimbursement for the removal of approximately 2,000,000 cubic yards of debris and the removal of 400,000 hazardous limbs and trees.

City of Hoboken, NJ, Emergency Operations Planning, Debris Monitoring, and FEMA PA Consulting, Hurricane Sandy 2012- 2013 The City of Hoboken was severely impacted by Hurricane Sandy, experiencing widespread flooding throughout the majority of the City. Mr. Gardner assisted with the oversight and coordination of debris removal operations immediately following the hurricane, and served as the Senior Grant Consultant during preparation the City's FEMA Project Worksheets.

Louisiana and Mississippi, Hurricane Isaac Regional Response and Disaster Recovery, 2012 – In August 2012, Hurricane Isaac struck the Louisiana and

Mississippi gulf coast with Category 1 strength winds and 24 hours of sustained rainfall. Mr. Gardner served on the Thompson financial team responsible for contract cost controls and FEMA Category A&B reimbursement for multiple jurisdictions along coastal Mississippi and Louisiana, including Jackson and Hancock County, MS, and Terrebonne Parish and Denham Springs, LA. In all, Thompson's data and financial management efforts authorized nearly a \$1,000,000 of eligible contractor payments and substantiated reimbursement for the removal of nearly 100,000 cubic yards of debris from roadways, canals, and beaches.

Clark County, Indiana, Disaster Debris Monitoring and Data Management, 2012 – In March 2012, tornadoes impacted Clark County and damaged much of the County's infrastructure and residential homes. Mr. Gardner monitored data collection and developed the daily debris and financial report presented to County staff. He also assisted with the reconciliation of all contractor invoices and prepared payment recommendations to the County.

City of Tuscaloosa, Alabama, Public Assistance and Long Term Recovery Grant Program, 2011 – The City of Tuscaloosa was impacted by multiple large and small tornadoes in April, 2011. The largest tornado flattened a one mile by six mile swath of the City causing an estimated \$85M in damage. Critical infrastructure was damaged and hundreds of residents lost their homes and property during the event. Mr. Gardner aided the City secure federal funding across several grant programs including CDBG, to assist with the rebuilding of lost public housing while focusing on the goal of energy efficiency and sustainability.

City of Galveston, Texas, CDBG DR Round 2 Application Development, 2010 – In order to help communities continue to recover from the devastation of Hurricane Ike (2008), the State of Texas provided several rounds of funding through the CDBG Disaster Recovery Program. Mr. Gardner assisted the City of Galveston with the development of their CDBG DR Round 2 Phase 1 application for Roadway and Associated Underground Utility Repair. The project was approved by the State and the City is awaiting receipt of approximately \$26 million in order to begin the reconstruction.

City of Galveston, Texas, CDBG DR Round 1 Administration, 2009 – The City of Galveston was the epicenter of Hurricane Ike's landfall in September 2008 and suffered massive damage as a result. As program

manager, Mr. Gardner managed the administration of approximately \$107 million in CDBG Disaster Recovery funding and assisted City staff coordinate all grant activities for infrastructure projects including a business economic recovery loan program and the reconstruction of the City's Main Wastewater Treatment Plant (estimated at \$70 million). He was in charge of program design and oversight, as well as ensuring all day to day activities were carried out according to federal, state and local regulations.

Texas Department of Transportation, Public Assistance Administration, 2009 – Mr. Gardner assisted the Texas Department of Transportation recover eligible costs for disaster clean up across several Texas counties following Hurricane Ike. He assisted with the development and submission of FEMA Project Worksheets (PWs) for multiple categories of work.

Experience and Qualifications

Mr. Thomas has eight years of project management and consulting experience assisting local and state governments in determining and claiming eligible costs under FEMA's Public Assistance program. He has assisted clients with developing project worksheets for all categories of work (A-G) and performed tasks associated with project formulation, scoping, cost estimating, 406 mitigation, project inspection, financial compliance, invoice and cost reconciliation, and appeals.

Presenter: National Hurricane Conference, 2013 – Debris Monitoring and Contracting Training Workshop

Project Experience

South Carolina Department of Transportation (SCDOT), Severe Flooding FEMA PA Consulting, 2015 – 2016 – Mr. Thomas provided subject matter expertise to SCDOT leadership while developing and implementing a financial recovery plan to recoup over \$35 million in FEMA Public Assistance (PA) funding. He successfully managed a team of consultants responsible for developing over 200 project worksheets for emergency and permanent work which included repair, replacement and/or mitigation of over 500 damaged roads throughout the state.

South Carolina Department of Transportation (SCDOT), Winter Storm Pax FEMA PA Consulting, 2014 - 2015 – Winter Storm Pax impacted the State of South Carolina which generated widespread vegetative disaster debris. Thompson was activated by the SCDOT to provide FEMA PA consulting services related to the debris removal missions being performed throughout the State. Mr. Thomas assisted the SCDOT with the application of over \$250 million in FEMA Category A reimbursement using alternative procedures in accordance with the Sandy Recovery Improvement Act of 2013. The effort includes the consolidation of debris removal and monitoring data from five debris removal contractors and three monitoring firms for work completed in an 18 county area in order to obtain an increased federal cost share on behalf of SCDOT for performing an accelerated debris removal mission.

Town of Babylon, NY, FEMA Public Assistance Consulting, Hurricane Sandy, 2012-2013 – The Town of Babylon, located on the south shore of Long Island, suffered severe damage and large amounts of vegetative and C&D debris following Hurricane Sandy. Mr. Thomas was able to quickly and accurately prepare large project Category A PW's valued at \$5.5 million. All PWs were approved in their entirety, and funded as part of the State's first round of reimbursement for Sandy.

Middlesex County Utilities Authority, NJ, FEMA Public Assistance Consulting, Hurricane Sandy, 2012-2013 – Mr. Thomas provided FEMA PA consulting services to MCUA to assist the Authority with development of PWs to capture costs associated with debris removal, emergency protective measures, and permanent work. The MCUA suffered damages to sewage pumping stations estimated at over \$200 million. Mr. Thomas continues to provide PA and HMA support to help the Authority properly navigate FEMA policy requirements and federal regulations.

City of Fort Lauderdale, Florida, FEMA Public Assistance Consulting, Hurricane Wilma, 2012 – Following hurricanes Wilma and Katrina in 2005, The City of Fort Lauderdale sustained widespread damage generating large amounts of debris throughout the City, particularly in parks and along beaches. In 2012, following a federal OIG audit of the City's FEMA project worksheets, approximately \$10 million in funding for debris removal activities was de-obligated. Mr. Thomas assisted the City in collecting project documentation,

preparing a formal appeal, and submitting to FDEM and FEMA Region IV. The State has supported the City's claims and FEMA approval of the \$10 million appeal is expected in early 2013.

Clark County, Indiana, FEMA Public Assistance Consulting, Severe Storms and Tornadoes, 2012 – A massive EF-4 tornado caused widespread damage across a 20 mile long path in Clark County, IN on March, 2nd 2012, generating an estimated 1.2 million cubic yards of debris and over \$40 million in damage. Responding to the County and State Incident Command Centers just days after the storm, Mr. Thomas served as grant management consultant, participating in debris operations and long-term FEMA PA program administration including PW preparation and audit and close-out support.

City of Tuscaloosa, Alabama, FEMA Hazard Mitigation Grant Program Consulting, Severe Storms and Tornadoes, 2011 – The City of Tuscaloosa was struck by one of the most deadly tornado outbreaks in recent history in April, 2011. Mr. Thomas served as a grant management consultant, preparing applications for ten community safe rooms to be funded by the HMGP. The safe rooms will provide shelter to over 2,000 residents and City employees during future emergencies.

City of Daytona Beach, Florida, FEMA Public Assistance Consulting, Severe Storms and Flooding, 2009 – The City of Daytona Beach was struck by severe storms and record rainfall during May, 2009. Thousands of labor and equipment hours associated with emergency response efforts, as well as costs associated with permanent repairs were incurred. Mr. Thomas assisted the City in identifying eligible costs and preparing PWs for Categories A-E and provided support throughout project implementation and closeout preparation.

State of South Dakota, FEMA Public Assistance Grant Closeout, Severe Winter Storms, 2011 – Mr. Thomas served as project manager overseeing the FEMA PA grant closeout for seven disasters declared in the State of South Dakota in 2010. Mr. Thomas performed project worksheet review and generation which will assist the State in obtaining an estimated \$90 million in FEMA PA grant funds.

City of Houston, Texas, Financial Recovery and Grant Management, Hurricane Ike, 2011 – The City of Houston suffered over \$1 billion of damages as a result of Hurricane Ike. Mr. Thomas assisted the City in the preparation of large project PW documentation and closeout of large projects valued at over \$150 million.

As a result, the City received millions of dollars in additional funding not originally included in the FEMA PWs. Additionally; the City was prepared for an expedited grant closeout and audit process.

Port of Galveston, Texas, FEMA Public Assistance Consulting, Hurricane Ike, 2009-2011 – During Hurricane Ike, the Port of Galveston's infrastructure was inundated with floodwaters caused by record storm surge. While the Port experienced over \$100 million of damages as a result of the storm, not all damages were evident immediately following the event. Mr. Thomas identified additional eligible projects and prepared small and large project PWs to provide the Port with additional FEMA PA funding as well as prepare for grant closeout.

Hidalgo and Cameron County, Texas, FEMA Public Assistance Consulting, Hurricane Alex, 2010 – South Texas and the Rio Grande Valley area experienced prolonged flooding following Hurricane Alex. Mr. Thomas assisted with identifying eligible FEMA PA projects and prepared all PWs on behalf of the County. The County received 100% approval of submitted PWs and began receiving funds within 30 days of project completion.

PROGAM EXPERIENCE

- FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G)
- FEMA Hazard Mitigation Assistance (HMA)
 - FEMA Hazard Mitigation Grant Program (404 and 406)

Experience and Qualifications

Mr. Simpson has served as a project manager and grant management consultant for multiple federally funded grant programs on projects totaling approximately \$133 million. Mr. Simpson has extensive knowledge and understanding of the regulations, protocols, and processes required to secure maximum recovery of costs associated with disaster response and recovery. Mr. Simpson provides technical assistance, analysis, monitoring, and policy interpretation in support of the federal and state grants management processes, from project scoping, through application development, review, award, implementation, financial tracking and closeout. Mr. Simpson has assisted clients obtain funding from multiple federally funded grant programs including the Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program and the FEMA Hazard Mitigation Grant Program (HMGP).

Project Experience

South Carolina Department of Transportation (SCDOT), Severe Flooding FEMA PA Consulting, 2015 - 2016 – Mr. Simpson served as a FEMA PA grant administration consultant for the SCDOT. He has prepared both large and small projects for approximately 100 roads and bridges throughout the State. In this role, Mr. Simpson has conducted site visits with SCDOT engineers, State representatives and FEMA staff and provided policy guidance and consulting support to maximize reimbursement for the SCDOT. Additionally, Mr. Simpson identified mitigation opportunities and prepared Section 406 hazard mitigation requests to further strengthen SCDOT's infrastructure.

City of Tuscaloosa, Alabama, Public Assistance and Long Term Recovery Grant Program, 2014 – The City of Tuscaloosa was impacted by multiple large and small tornadoes in April, 2011. Mr. Simpson supported the City during their close-out process to substantiate federal funding across several grant programs including FEMA PA and HMGP.

St. John the Baptist Parish, Louisiana, HMGP Application Development, 2014 – Mr. Simpson worked with the Parish to develop their HMGP application to conduct acquisitions and/or elevations of flood risk properties throughout the County. Mr. Simpson's duties included drafting letters and documents that convey mitigation policies, processes and procedures in layman's terms; conducting meetings with public officials on detailed issues including insurance, floodplain management and mapping changes; conducting public meetings and community assistance visits to build consensus among stakeholders and explain NFIP legislation, regulations, policies, programs and practices; and working with local officials on project scoping, budgeting and application development.

City of Daytona Beach, Florida, Debris Management Site Assessments, 2014 – Mr. Simpson provided technical assistance, analysis, and policy interpretation in identifying potential debris management sites for the City.

Boulder County, Colorado, HMGP Application Development, 2014 – Mr. Simpson assisted the County in development of their HMGP application. His duties included reviewing, analyzing, and providing input on guidance, policies and procedures related to mitigation programs; working with local officials on planning, budgeting, and conducting studies for project development; and providing technical assistance to identify projects compliant with floodplain ordinances and regulations.

Galveston County, Texas, FEMA HMA- HMGP Property Acquisition, 2009-2012 – Mr. Simpson served as a Hazard Mitigation Specialist for the program administration and management of the FEMA HMGP property acquisitions project in Galveston County following Hurricane Ike. The project included the processing the acquisition of 600 properties throughout the County damaged by the storm. Mr. Simpson developed complete, accurate, well-documented, and compliant project procedures; developed a database to

monitor the status and performance of the program including financial tracking, funds management, and timely settlement of acquisitions; conducted research and prepared concise replies to a wide variety of implementation queries; resolved project review issues and ensured programmatic compliance for the property home owners electing to participate in the buyout and elevation projects.

Galveston County, Texas, FEMA HMA SRL Grant Development and Project Support, 2012 – Mr. Simpson served as a Hazard Mitigation Specialist for the grant application submittal process; defined, developed and documented procedures for implementing the elevation process; helped to organize and facilitate training for support development; led the research of pertinent local laws, codes and ordinances; established a database for application processing, budget analysis, grant obligation, quarterly report reviews, and grant close-out activities; developed performance assessments for the evaluation of engineering reviews of 200+ eligible structures for RL and SRL properties situated in Galveston County.

EXPERIENCE

9 years

PROGAM EXPERIENCE

- FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G)
- FHWA ER Program
- CDBD Disaster Recovery
- CDBG Housing

Experience and Qualifications

Ms. Counsell has nine years of experience providing grant and program management support and oversight for disaster response and recovery efforts throughout the United States. Following Hurricane Ike, she managed multiple projects for Galveston County and the City of Galveston, the most heavily impacted communities by the storm.

Presenter: National Hurricane Conference, 2013 – Debris Monitoring and Contracting Training Workshop

Project Experience

City of Daytona Beach, Florida, Disaster Debris Management Plan Update, 2015 – Ms. Counsell led a planning team in the update of the City's Disaster Debris Management Plan. The update included ensuring the plan met new FEMA policy and procedure guidance as well as a review and update of the City's debris management roles and responsibilities and the debris collection and monitoring strategies.

Alabama Department of Transportation Southwest Region, Disaster Debris Management Plan, 2014 - 2015 – Ms. Counsell assisted in the development and preparation of a Disaster Debris Management Plan (DDMP) for the ALDOT Southwest Region. She worked closely with the Region to develop the debris collection and monitoring strategies included in the plan. In addition Ms. Counsell reviewed debris management site options throughout the Region.

South Carolina Department of Transportation (SCDOT), Winter Storm Pax Recovery Operations, 2014 – Ms. Counsell is currently serving as operations manager for the SCDOT debris removal monitoring mission in Georgetown County. She is in charge of overseeing day-to-day operations for all monitoring projects including emergency road clearance, right-of-way collection, and removal of hazardous leaners and hangers on SCDOT maintained roadways throughout the County.

Georgetown County, South Carolina, Winter Storm Pax Recovery Operations, 2014 – Ms. Counsell is currently serving as operations manager for debris removal monitoring operations in Georgetown County. She is in charge of overseeing day-to-day operations for all monitoring projects including emergency road clearance, right-of-way collection, and removal of hazardous leaners and hangers on County maintained roadways.

City of Hoboken, NJ, Emergency Operations Planning, Debris Monitoring, and FEMA PA Consulting, Hurricane Sandy 2012- 2013 The City of Hoboken was severely impacted by Hurricane Sandy, experiencing widespread flooding throughout the majority of the City. Ms. Counsell has served as the City's Project Manager for debris operations immediately following the hurricane, and PA Consultant in preparing the City's FEMA Project Worksheets. Additionally, Ms. Counsell assisted in the preparation of the City's Emergency Operations Plan, to help prepare the City and all department personnel to respond during future disaster events.

Trinity Bay Conservation District, Texas, FEMA PA Project Worksheet Close-out and Audit Preparation, 2012 – Ms. Counsell served as Grant Management Specialist for the final reconciliation of expenditures to grant funds received for Hurricane Ike bridge and facility replacements. Ms. Counsell organized all supporting documentation for project worksheets and prepared projects for close-out and federal audit.

Louisiana and Mississippi, Hurricane Isaac Regional Response and Disaster Recovery, 2012 – In August 2012, Hurricane Isaac struck the Louisiana and Mississippi gulf coast with Category 1 strength winds and 24 hours of sustained rainfall. Ms. Counsell served on the Thompson debris program team responsible for mobilizing and deploying project staff and resources to multiple jurisdictions along coastal Mississippi

and Louisiana, including Jackson and Hancock County, MS, and Terrebonne Parish and Denham Springs, LA.

Trinity Bay Conservation District, Texas, Disaster Debris Management Planning, 2012 – Ms. Counsell assisted in the development and preparation of a Disaster Debris Management Plan (DDMP) for the Trinity Bay Conservation District in Chambers County, Texas to ensure increased eligibility for federal PA cost-share in accordance with recent changes to FEMA's PA Pilot Program.

Clark County, Indiana, Severe Storm and Tornado Recovery Operations, 2012 – Ms. Counsell served as the Project Manager for Clark County following the March 2nd severe weather and tornado event that forged a 17 mile path, downed power lines and trees, destroyed hundreds of residential homes, damaged critical infrastructure, and filled over 40,000 LF of creek with vegetative and C&D debris. Ms. Counsell assisted the County with NRCS program implementation, ROW debris removal, and Severely Damaged Structure Assessments.

City of Tuscaloosa, Alabama, Severe Storms, Tornadoes, Straight-line Winds, and Flooding, 2011 – Ms. Counsell served as project manager for the City of Tuscaloosa, Alabama and ran the FEMA Public Assistance (PA) and assisted the City with the design and implementation of Housing Demolition Programs following the April 2011 tornadoes that devastated the City and caused an estimated \$85M in damages.

City of Galveston, Texas, Community Development Block Grant (CDBG) Administration, 2011 – Ms. Counsell served as Financial Recovery Specialist for the administration of \$106 million in Housing and Urban Development (HUD) non-housing CDBG funds for the City. At this capacity, Ms. Counsell coordinated with HUD, and the Texas Department of Rural Affairs and provided guidance to the City to ensure that the program was properly documented and administered in compliance with statutory regulations and program guidelines. In addition, Ms. Counsell assisted the City with the development of contracts, procurement documentation, and comparison of data for federal reimbursement.

Escambia County, Florida, BP Deepwater Horizon Oil Spill Response, 2010 – Ms. Counsell served as Program Manager of a program designed to minimize the impact that the BP oil spill made on Escambia County's (Pensacola area) beaches, waterways, and tourism. During this effort, over \$1.5 million in claims for oil

containment and public outreach were documented and substantiated. Ms. Counsell coordinated and documented the efforts of participating local, state, federal, and private to substantiate the BP claims.

City of Galveston, Texas, Standing Dead Tree Removal Program, Hurricane Ike, 2009-2010 – Following Hurricane Ike, Ms. Counsell monitored a contracted program to remove over 10,000 standing dead trees throughout the City that were killed as a result of saltwater inundation. The monitoring and documentation efforts substantiated over \$3.5 Million in FEMA PA funding. In addition, Ms. Counsell worked with Galveston County to monitor and document over \$62 million worth of debris removal programs including sand removal, vessel recovery, and private property debris removal.

Galveston County/Bolivar, Texas, ROW Debris Removal and Specialized PPDR Programs Following Hurricane Ike, 2008-2009 – Ms. Counsell served as the Project Manager for Galveston County, including the Bolivar Peninsula and eleven cities within the County following Hurricane Ike. Ms. Counsell oversaw disaster debris removal programs and assisted the County with planning and implementing specialized voluntary and involuntary PPDR programs under which debris, sand, vessels, and hazardous materials were removed from over 1500 private properties on the Bolivar Peninsula and mainland Galveston County.

Wesley Holden

Director of Data Operations

FIRM

Thompson Consulting Services
1135 Townpark Avenue, Suite 2101
Lake Mary, FL 32746

EDUCATION

BS: Management Information Systems

EXPERIENCE

13 years

TECHNOLOGY EXPERTISE

- Enterprise Web, Accounting and Document Management Applications
- ASP.Net, VB.Net, C#, Javascript, HTML, Visual Studio, Source Control
- SQL Server, T-SQL, Stored Procedures, Index Tuning, Performance Management

Experience and Qualifications

Mr. Holden has thirteen years of experience providing data management and disaster recovery software application development for disaster response and recovery efforts throughout the United States for a broad range of local and state government clients.

Project Experience

South Carolina Department of Transportation, Severe Flooding, 2015 – Following severe statewide flooding in South Carolina, SCDOT contracted Thompson to provide debris removal monitoring services in 11 counties throughout the State. Mr. Holden provided oversight of the implementation of Thompson's automated debris management system (ADMS), the Thompson Data Management Suite, and our handheld field units, TDMS*mobile* across all projects throughout the State.

Mississippi Department of Transportation, Road Sign Tracking Analysis, 2015 – The Mississippi Department of Transportation (MDOT) contracted Thompson to conduct an analysis of current roadway sign shop operations, systems integration of roadway sign shop operations, field maintenance operations, data gathering, and creation of standard operating procedures of roadway sign creation and maintenance. Mr. Holden served as Project Manager and ensured project deliverables were completed and

presented to MDOT stakeholders in accordance with the project task order.

South Carolina, Winter Storm Pax Regional Response and Disaster Recovery, 2014 – Winter Storm Pax impacted the State of South Carolina covering various regions of the State in up to 1.5" of ice which generated widespread vegetative disaster debris. Thompson was activated by the South Carolina Department of Transportation (SCDOT), Georgetown, Marion, Williamsburg, Aiken and Allendale Counties to provide debris removal monitoring services. Mr. Holden provided oversight of the implementation of Thompson's automated debris management system (ADMS), the Thompson Data Management Suite, and our handheld field units, TDMS*mobile*. Overall Thompson deployed 450 units to documents and substantiate reimbursement for the removal of an over 2,900,000 cubic yards of debris and the removal of 400,000 hazardous limbs and trees throughout the State.

Town of Babylon, New York, Hurricane Sandy Recovery Operations, 2012 -2013 – Following the devastating landfall of Hurricane Sandy, Mr. Holden provided oversight of the implementation of Thompson's automated debris management system (ADMS), TDMS*mobile*, which was utilized to track a number of different inventory metrics associated with the Town's debris removal program, including equipment deployed, trucks assigned to different work zones, debris types removed, debris collection locations, and recyclable material recovered.

Louisiana and Mississippi, Hurricane Isaac Regional Response and Disaster Recovery, 2012 – In August 2012, Hurricane Isaac struck the Louisiana and Mississippi gulf coast with Category 1 strength winds and 24 hours of sustained rainfall. Mr. Holden served on the Thompson financial team responsible for contract cost controls and FEMA Category A&B reimbursement for multiple jurisdictions along coastal Mississippi and Louisiana, including Jackson and Hancock County, MS, and Terrebonne Parish and Denham Springs, LA. In all, Thompson's data and financial management efforts authorized nearly a \$1,000,000 of eligible contractor payments and substantiated reimbursement for the removal of nearly 100,000 cubic yards of debris from roadways, canals, and beaches.

Clark County, Indiana, Tornado Recovery Operations, Data Management, 2012 – Mr. Holden managed a team tasked with supporting data entry, document scanning and data management to track and report debris removal operations for Clark County. He was also in charge of debris hauler invoice reconciliation and payment recommendations.

Calhoun County, AL, Tornado Recovery Operations, 2011 – Mr. Holden served as the County's project manager during the disaster debris removal monitoring efforts following the April 2011 tornadoes. He was in charge of overseeing collection operations for the County to ensure that all debris removal and monitoring was within federal regulations.

Alabama Tornadoes, Data Management, 2011 – Mr. Holden managed a data management operation responsible for scanning, inputting, mapping, tracking and reporting the quantities of debris removed and disposed by various contractors throughout the State of Alabama.

Texas, Hurricane Ike Data Management, 2008-2009 – Following Hurricane Ike, Mr. Holden managed a team tasked with supporting data entry, document scanning, and data management to track and report debris removal operations for multiple municipalities and counties throughout Texas. At the peak of the engagement, Mr. Holden was tasked with managing the scanning and entry of over 250,000 documents and images per day.

City of New Orleans, FEMA Funded Commercial and Residential Demolition Document Management, New Orleans, LA, 2007-2009 – Between 2007 and 2009, Mr. Holden helped design a software application to electronically store critical field documents that supported a multi-phase process for the identification, historical review, decommissioning, demolition, and disposal of over 1,500 residential and commercial structures located throughout the City of New Orleans.

Mississippi, Hurricane Katrina, Data Management 2005-2007 – Following the devastating impact that Hurricanes Katrina made on the Mississippi coast, Mr. Holden managed a data management operation responsible for inputting, tracking, and reporting the quantities of debris removed and disposed of by the United States Army Corps of Engineers contractors throughout the State of Mississippi.

Lake Mary, FL 32746

EDUCATION

BS: Emergency Management (In Progress)
Manager of Environmental Safety and Health (MESH)

EXPERIENCE

6 years

PROGAM EXPERIENCE

- FEMA Public Assistance Emergency Work (Categories A-B)
- FHWA ER Program

Experience and Qualifications

Mr. Dorsey has six years of experience managing debris monitoring and data management operations throughout the Southeast following some of the largest debris generating natural disaster in recent history. In addition to Right-of-Way (ROW) debris monitoring programs, Mr. Dorsey has worked extensively on Hazardous Leaner, Hanger, and Stump Removal programs. Mr. Dorsey has extensive knowledge in ADMS hardware, software, and communications infrastructure and has overseen day-to-day ADMS project operations and reporting in recent activations including Hurricane Matthew and Winter Storm Pax.

Mr. Dorsey also completed 40-Hour HAZWOPER – OSHA, 30-Hour OSHA Safety for the Construction Industry courses and over 50 FEMA EMI Courses.

Project Experience

City of Vero Beach, Florida, Hurricane Matthew Recovery Operations, 2016 – Mr. Dorsey recently served as the operations manager overseeing day-to-day debris removal monitoring operations throughout the City of Vero Beach. The City performed both hazardous tree and limb removal as well as right-of-way (ROW) collection programs on City maintained roadways.

South Carolina Department of Transportation, Orangeburg, Bamberg and Clarendon Counties, South

Carolina, Severe Flooding Recovery Operations, 2015

– Mr. Dorsey served as operations manager and field supervisor for debris removal monitoring in multiple counties on behalf of SCDOT following a severe flooding event. He oversaw day-to-day operations for right-of-way collection on SCDOT maintained roadways throughout the Counties.

Putnam County, Tennessee, Severe Winter Storm

Recovery Operations, 2015 – Mr. Dorsey served as the field supervisor supporting daily debris removal monitoring operations throughout Putnam County. He was also responsible for managing and supporting debris removal monitors in the field. The County performed both hazardous tree and limb removal as well as right-of-way (ROW) collection programs.

Aiken County, South Carolina Winter Storm Pax

Response and Disaster Recovery, 2014 – In February of 2014 Severe Winter Storm Pax impacted the State of South Carolina covering various regions of the State in up to 1.5” of ice which generated widespread vegetative disaster debris. Thompson was activated by Aiken County to provide debris removal monitoring services. Mr. Dorsey served as the Operations Manager responsible for overseeing all of the Counties debris removal monitoring programs. The County performed ROW debris removal, hazardous trees and limb removal, and a waterway debris removal program throughout the historic Horse Creek Trail. Overall more than 1,400,000 cubic yards of debris was substantiated by Thompson in Aiken County.

Jefferson Parish, LA, Hurricane Recovery Operations

2012 – Mr. Dorsey served as an operations manager for debris removal monitoring efforts on behalf of Jefferson Parish following the landfall of Hurricane Isaac. He was in charge of overseeing day-to-day operations monitoring projects including truck certification, monitor training, emergency road clearance and debris removal operations and right-of-way collection.

Training and Certifications

- HAZWOPER Supervisor - OSHA
- 40-Hour HAZWOPER - OSHA
- 30-Hour OSHA Safety for the Construction Industry
- Over 50 FEMA EMI Courses

Jeff Hollis

Field Operations Supervisor

Lake Mary, FL 32746

EXPERIENCE

11 years

PROGAM EXPERIENCE

- FEMA Public Assistance Emergency Work (Categories A-B) and Permanent Work (Categories C-G)
- FHWA ER Program

Experience and Qualifications

Mr. Hollis has eleven years of experience supporting and managing debris monitoring operations throughout the United States. He has worked extensively on private property debris removal programs as well as, right-of-way (ROW) debris monitoring, and leaner, hanger, and stump removal programs in some of the largest areas impacted by debris generating events in the last decade.

Project Experience

South Carolina Department of Transportation, Horry and Georgetown Counties, South Carolina, Severe Flooding Recovery Operations, 2015 – Mr. Hollis served as operations manager for debris removal monitoring in Horry and Georgetown Counties on behalf of SCDOT following a severe flooding event. He oversaw day-to-day operations for right-of-way collection on SCDOT maintained roadways throughout the Counties.

Allendale County, South Carolina, Winter Storm Pax Recovery Operations, 2014 – Mr. Hollis served as the operations manager for debris removal monitoring operations in Allendale County following Winter Storm Pax. He was in charge of overseeing day-to-day operations for all monitoring projects including emergency road clearance, right-of-way collection, and removal of hazardous leaners, hangers on County maintained roadways. County-wide, nearly 30,000 cubic yards of vegetative debris was collected, temporarily disposed, and burned. In addition, over 6,000 hazardous trees were addressed.

South Carolina Department of Transportation (SCDOT), Winter Storm Pax Recovery Operations, 2014 – Mr. Hollis served as operations manager for the SCDOT debris removal monitoring mission in Dillon County. He

was in charge of overseeing day-to-day operations for all monitoring projects including emergency road clearance, right-of-way collection, and removal of hazardous leaners and hangers on SCDOT maintained roadways throughout the County. County-wide, nearly 200,000 cubic yards of vegetative debris was collected, temporarily disposed, and burned. In addition, nearly 34,000 hazardous trees were addressed.

Harris County, TX, Hurricane Debris Removal Monitoring, 2008 – In 2008, Mr. Hollis served as a field operation manager for the Harris County debris monitoring effort. Mr. Hollis managed a field team responsible for monitoring the removal of over 2,500,000 cubic yards of debris.

City of New Orleans, Louisiana, Demolition Field Manager, 2007-2008 – Mr. Hollis served as a demolition field manager on the City of New Orleans residential demolition program in 2007 and 2008. Mr. Newton was responsible for ensuring that each FEMA eligible property had been properly condemned, posted, and decommissioned prior to being demolished. In addition, Mr. Newton was responsible for ensuring that properties containing Asbestos Containing Materials (ACM) were properly demolished and disposed of at Type I Disposal facilities.

St. Landry Parish, Louisiana, Hurricane Gustav, 2008 – Following the devastating impact that Hurricane Gustav, Mr. Hollis served as the field project manager for the Parish's debris removal monitoring program. Mr. Hollis's field team monitored and documented the removal of eligible storm debris and worked with the Parish, State, and FEMA to address many unique challenges. Parish-wide, nearly 225,000 cubic yards of vegetative and construction and demolition debris was collected.

Escambia County, Florida, Hurricane Debris Disposal Monitoring, 2004 – Following the devastating impact that Hurricane Ivan made on Escambia County, Mr. Hollis served a field supervisor responsible for overseeing field monitors and ensuring only eligible debris was collected. County-wide, nearly 8,000,000 cubic yards of vegetative and construction and demolition debris was collected.

Training and Certifications

SECTION 3

TECHNICAL APPROACH

Project Understanding

The City of Hattiesburg, Mississippi (City) is comprised of 54.3 square miles primarily in Forrest County and extending west into Lamar County. On January 21, 2017, the City was struck by an EF3 tornado with a path as wide as half a mile, which caused significant damage to homes, schools, businesses, and infrastructure throughout the City. Consequentially, the City is seeking proposals from qualified consultants to provide disaster debris monitoring and financial recovery services to comply with the following agency grant programs and requirements:

- Federal Emergency Management Agency (FEMA) Public Assistance (PA)
- Federal Highway Administration (FHWA) Emergency Relief (ER)
- Mississippi Emergency Management Agency (MEMA)
- US Department of Housing and Urban Development (HUD)
- US Fish and Wildlife
- All other applicable state and local ordinances

Forecasted Debris Types and Resource Estimates

With experience assisting local governments in disaster response and recovery for a variety of events, ranging from the most costly hurricanes in our nation's history to relatively smaller disasters including minor storms and localized flooding, Thompson has recognized that responsiveness and adaptability are critical to success. Thompson stands ready to serve the City in any capacity. Our approach to services can be transformed to fit a particular task or event in effort to best meet the City's recovery goals by taking the most efficient and cost-effective actions.

Thompson understands the City has recently experienced major impacts from the recent EF3 tornado and requires assistance in monitoring debris removal efforts as the City endeavors to recover from this disaster. Debris types may include items such as vegetative debris, construction and demolition debris, household appliances, household furnishings, sediment, sand, household hazardous wastes, vessels and vehicles.

Project Execution Utilizing Automated Debris Management System

Thompson will execute the proposed tasks described below with our ADMS hardware and software system, Thompson Data Management Suite (TDMS). Thompson's ADMS was developed in-house and is proprietary. We do not rely on licensing for the use of an ADMS. TDMS has been successfully deployed over the past four (4) years and utilized by the Georgia Department of Transportation (GDOT), the South Carolina Department of Transportation (SCDOT), as well as for county, parish, and municipal clients in Louisiana, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia and New York to electronically document debris removal, hazardous tree work, vehicle recovery, and private property debris removal.

TDMS is a collection of hardware, software and communications infrastructure for the management of data and documents related to disaster recovery. The TDMS collection includes our hardware solution or handheld device, *TDMSmobile*, which allows us to capture data in the field and provide near real-time analysis through our software solution, *TDMSweb*, which is a variety of web-based software applications that serve as the backbone for data storage and management. The TDMS meets the USACE ACI standard for ADMS and is configured to document a variety of debris removal activities and programs.

FIGURE 3

Paper tickets are created with encrypted QR code to transmit information/data.

FIGURE 4

RW 220 hip belt printer uses direct thermal laser technology

TDMSmobile provides enhanced quality control through geofencing, geocoding, and location verification. The handheld device and system have configurable security settings to protect use and data. Specified locations, such as debris pickup and disposal sites, are captured by the GPS capabilities of the handheld and verified in the web-based system. This enhanced level of accuracy and corroboration increases the efficiency and production of debris removal operations. To date we have observed cost savings to our clients ranging from 20 – 30 percent with the use of our ADMS solution. Figures 5 and 6 provide an example of the interface between *TDMSmobile* and *TDMSweb*.

FIGURE 5

Handheld device GPS location capture and verification

FIGURE 6

Mapping interface provides users with Google maps functionality for point-and-click data access

TDMSweb a web based application that serves as the backbone of the TDMS for storage and data management while providing access to viewing, querying, sorting, reporting, mapping and managing project related data and documents. In addition, Thompson is able to control access to *TDMSweb* and

what permissions (read, read/write, etc.) users have through credentialing. The following figures (7 to 10) provide graphical highlights and depictions of TDMSweb and its components.

FIGURE 7

TDMSweb dashboard displays summary project statistics online with the ability to drill down to varying levels of detail.

FIGURE 8

Accurate and efficient collection of field data provides for near real time data analysis and review. Financial encumbrances and project progress can now be tracked via the Internet.

FIGURE 9

TDMSweb system allows Thompson to electronically manage a variety of client debris removal programs such as, ROW, ROE, blue roof and demolition, including photographs, field forms, logs, transmittals, etc.

FIGURE 10

TDMSweb generates a various project reporting documents, such as daily reports and financial summary logs.

Technical Approach

Thompson's project understanding and approach to assisting the City in disaster debris monitoring operations and the associated management and accounting requirements is detailed in the table below:

Table 3-2: Mobilization Method and Approach

Task / Mobilization Time	Description
1. Debris Program Implementation	
Within twenty-four (24) hours from notification date	Program Management Team will report to the City 48 hours prior to known disaster events and within 24 hours of no-notice disaster events. Thompson will implement a program based on the specific needs of the City, feedback from debris removal contractors, and debris estimates developed through the preliminary damage assessment.
2. Onboarding and Training of Employees	
Within forty-eight (48) hours from notification date	Thompson performs Motor Vehicle Reports (MVR's) and drug testing on all field staff.
3. Health and Safety Plan Implementation	
Within forty-eight (48) hours from notification date	Health and Safety Plan will be periodically reviewed and updated to address any disaster specific hazards. Thompson's safety program is focused on the safety of Thompson monitors and field personnel.
4. Measure and Certify Trucks by FEMA PAPPG Standards	
Within forty-eight (48) hours from notification date	Thompson will certify contractor equipment once a contractor crew schedule is reviewed and approved by the City.
5. Deploy Loading Site Collection Monitors	
Within forty-eight (48) hours from notification date	Thompson will deploy a collection monitor to each debris removal crew. Based on our planning assumption, we expect many of the crews to be tandem, self-loading trucks or two to three trucks paired with a single loading device.
6. Monitor the Removal of Leaning Trees, Hanging Limbs, and Hazardous Stumps	
Within forty-eight (48) hours from notification date	Thompson will document the removal of hazardous trees and limbs to meet all requirements outlined in FEMA Publication FP-104-009-2 Public Assistance Program and Policy Guide (PAPPG).
7. Deploy Debris Management Site Monitors	
Within forty-eight (48) hours from notification date	Thompson will coordinate with the Debris Management Contractor to obtain proper permits and ensure that the City Debris Management Sites (DMS) meet all MDEQ requirements.
8. Deploy Field Supervisors / Field Supervisors	
Within forty-eight (48) hours from notification date	Thompson will deploy one (1) Field Supervisor for every ten (10) field monitors. The 1:10 supervisor to monitor ratio is encouraged by FEMA.
9. Damage Complaint Tracking	
Concurrent with field operations	Thompson will assign a unique work order to each damage complaint and track the actions taken, responsible sub-contractor, and satisfactory/unsatisfactory resolution in a report, by Service Area that may be tracked through GIS.
10. FEMA Consultation	
Within seventy-two (72) hours from Federal Declaration	Applicant kickoff generally takes place within one week of the federal disaster declaration, which is imminent.
11. Ordinance Review to Determine Best Method to Perform Private Property Debris Removal (PPDR)	

Task / Mobilization Time	Description
2-3 weeks after debris operations begin (subject to need)	Thompson management staff has experience analyzing and designing PPDR programs based on Voluntary/Right-of Entry, Imminent Danger of Collapse, and Public Nuisance Programs.
12. Private Property Debris Removal Monitoring	
TBD, based on input from MEMA and FEMA	PPDR programs may include vegetative and C&D debris, as well as leaners, hangers, stumps, and structural demolitions.
13. Specialized Debris Removal Monitoring	
TBD, based on input from City, MEMA, and FEMA	Thompson management staff has experience with the operational methods to properly document special debris removal programs such as removal of debris from waterways and lakes and removal of abandoned vehicles.
14. Accumulate Daily Field Data	
Immediately after start of ROW and hazardous tree programs	Thompson will maintain field data for all debris recovery programs monitored. Debris removal data will be organized by debris type, road type, and program
15. Reconcile Contractor Invoices	
Weekly after start of ROW and hazardous tree programs	Thompson will comply with the invoicing and payment term in the debris removal contract.

1. Debris Program Implementation

Thompson will assist the City in overseeing the debris management operations, obtaining proper approvals for special debris removal programs, and providing in-depth working knowledge of a variety of recovery operations, USACE debris management guidelines, and FEMA eligibility and reimbursement guidelines. Thompson will work with the City to develop a project management plan to ensure that contracted debris removal is properly documented to substantiate FEMA PA, FHWA ER, and NRCS funding. Some of the initial considerations will include, but not be limited to:

- Single/multiple debris removal contractors
- Debris removal contractor rates and specifications
- Debris estimates, by collection zone
- ***Historical and environmental considerations for debris removal***
- Crew/Monitor Estimates, by collection zone
- Onboarding and safety training locations and procedures
- Operations Manager/Supervisor Assignments
- Progress reporting distribution lists and protocols

Proposed Meetings

Thompson is prepared to meet with the City Debris Manager, City Stakeholders, and representatives from FEMA, MEMA, MDEQ, and other agencies on a daily basis at a time and location specified by the City. To the extent necessary, Thompson will help the City secure a meeting location. Thompson recommends that project stakeholders conduct a daily briefing while the EOC is fully operational and re-evaluate the frequency of meetings after the first 14 days of project operations.

Methods for communicating with City Emergency Staff and Teamwork Assignments

Throughout the project, the Thompson Project Manager will identify critical path functions that will required close coordination between the City and Thompson. These may include:

- Public Information
- Private Property Issues
- Special Needs Assistance
- Information on FEMA
- Damage reports and resolution

Thompson will identify a lead for each function to serve as a direct interface with the appropriate City staff on each issue. The Thompson team member will be available in person, by phone, or email to communicate with the City and project stakeholders. To the extent that cellular connectivity is not available, Thompson will secure alternative communications methods (radios, satellite, etc.).

Debris Removal from Historically Significant Property

Thompson is prepared to assist the City with the management and administration of debris removal from the City's historically significant properties and if necessary, from private property. Thompson understands that public outreach, close coordination with historical districts, and frequent meetings with project stakeholders is essential. Thompson will dedicate experienced staff members to maintain relationships with historic districts and manage case files for EHP approval and private property debris removal initiatives. Thompson will ensure that all debris removal activities are done in accordance with all City and EHP guidance for historically sensitive properties.

2. Onboarding and Training of Employees

Within 24 hours of Notice to Proceed, Thompson will establish a local office from which to perform recruiting, onboarding, and training. Thompson will make every effort to hire residents from within the City to serve as debris monitors. This effort will help skilled residents participate in the City's recovery efforts with a meaningful impact and earn a competitive hourly wage.

In accordance with FEMA FP-104-009-2, Thompson will train debris monitors, City employees, and other project stakeholders to have a complete understanding of the roles and responsibilities of the debris manager, including:

- Accurate and objective debris estimating techniques
- Process for determining debris eligibility: (1) threat to public health/safety, (2) direct result of the disaster event, and (3) existing in the public right-of-way
- A comprehensive understanding of all phases of debris management operations, including loading sites, Debris Management Site's (DMS), and final disposal locations
- The ability to differentiate between debris types
- Understanding of Collection Site and DMS safety procedure
- Understanding of the Thompson Field Health and Safety Plan
- Understanding of the terms, conditions, and scope of the debris removal contract and other disaster specific guidance provided by the City, MEMA, MDEQ, and FEMA

Ability to Onboard and Train within 48 Hours

Thompson has made a tremendous investment in our personnel, resources, technology, and tools to have the flexibility and scalability necessary to be an industry leader in debris monitoring. Part of this investment is in a proven process to identify, train, and equip local hires in a safe manner in extremely short periods of time. Thompson begins the process of recruiting and on-boarding immediately upon

contract award, not reactively following a notice to proceed. Thompson will issue contingent job postings through a variety of outlets to pre-identify a pool of existing candidates to serve as field monitors. The table below outlines Thompson's local hire tasks and timelines to ensure that we deploy trained, safe, drug-free local hires within 48 hours of a notice-to-proceed:

Table 3-3 Local Hire Task Summary

Task	Timeframe (to meet or exceed)	Comments
Local Hiring Recruiting (non-event)	Year-round	When no task order is imminent, Thompson pro-actively develops a pool of local hire candidates.
Local Hiring Recruiting (activation known)	12 to 48 hours	Once activated, Thompson Project Administrative team can recruit and onboard 100 local hires per day. Thompson initiates on-boarding 72 to 96 hours prior to known disaster events.
Drug-testing	12 to 48 hours	Thompson requirement for employment
Driver Motor Vehicle Record Check	12 to 48 hours	Thompson requirement for employment
Safety Training	12 to 48 hours	Thompson requirement for employment
Continued on the Job Safety Training	48 to 72 hours	Thompson requirement for employment
Debris Monitor Training	12 to 48 hours	Thompson requirement for employment
Automated Debris Management System Training	12 to 48 hours	Contract specific requirement
Issuance of Personal Protective Equipment	48 hours	Issued by Project Administration team upon completion of Safety Training

3. Health and Safety Plan Implementation

Thompson is the only debris monitoring firm that performs drug screening and motor vehicle operating record reviews for 100% of our employees, including temporary field staff. This practice results in a team of monitors that is both safe and committed to quality. In addition, Thompson deploys a quality assurance team to each of its projects to ensure that certain quality standards are being upheld, regardless of the operating conditions and climate.

At project initiation, Thompson will implement a Health and Safety Plan (HASP) that outlines site-specific precautions to be taken to avoid and mitigate the risk of hazards associated with work performed in the elements, around heavy equipment, near tree work, and close to vehicle traffic. The HASP will outline that work performed on the project shall comply with all applicable OSHA, State of Mississippi, and all other safety requirements provided by FEMA and its authorized contractors. Thompson will also provide the following personal protective equipment to collection monitors, debris management site monitors and field supervisors:

- Hard hat
- Reflective vest
- Safety glasses
- Hearing protection

In addition, Thompson will ensure that all collection monitors, debris management site monitors and field supervisors report to work with the following personal protective equipment and communication equipment:

- Cell phone
- Protective shoes

- Long pants
- Hot, cold, and/or wet weather gear
- Sunscreen and supply of bottled water

Thompson's safety program is focused on Thompson monitors and field personnel. The safety of debris removal crews is the responsibility of the debris removal contractor(s).

4. Measure and Certify Trucks by FEMA PAPPG Standards

Thompson will complete equipment check-in and certification of trucks and other equipment mobilized by the Contractor so that debris removal operations can be recorded and substantiated in accordance with the terms, conditions and unit rates in the City's debris removal contract. In order to comply with these standards, Thompson has observed and recorded the following information during truck certifications:

- Volumetric capacity of the inside of the loading container
- Calculated deductions of volumetric capacity for dog boxes, round container bottoms, and other volumetric capacity reductions
- Brief physical description of the truck
- Photographs of the truck, container, and driver

Thompson will assign a unique identification number to each truck and a placard with the truck number will be affixed to each side of the debris removal truck.

5. Deploy Loading Site Collection Monitors

Thompson will deploy a debris removal collection monitor for each mechanized piece of loading equipment deployed by the Contractor unless multiple debris loading operations can be safely and substantially observed and documented by a single monitor. The Collection Monitor's primary responsibility is to observe, document, and substantiate the removal of eligible storm debris from City ROW and other collection zones identified and approved by the City. The Thompson collection monitor will be responsible for:

- Ensuring that only eligible, disaster related debris is removed for loading and hauling from approved public areas
- Ensuring that debris collected is in accordance with the regulations, safety considerations, and contract terms of the specific waste stream (i.e. hazardous waste is not loaded into container of clean vegetative debris, etc.)
- Recording the time, date, disaster number, truck number, and loading location using ADMS
- Issuing load ticket to driver when loading container is fully loaded
- Ensuring that debris loads are contained properly in the loading container prior to the departure of the truck from the loading location to the TDSRS
- Checking for safety considerations and areas of potential problem (school zone, utility meters, power lines, mailboxes, etc.) and reporting potential issues the Thompson Field Supervisor
- Recording and reporting any damages caused to streets, curbs, utility meters, mailboxes and other public property as a result of debris removal operations including photos, owner information, and circumstances of the damage

- Ensuring all white good and Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal
- Certifying household hazardous wastes are segregated, handled, loaded and hauled in accordance with environmental laws and local, state, and federal regulations. HHW must be handled by specialists licensed by MDEQ
- Ensuring work area is clear of debris to the specified level before equipment moves to a new loading area
- Remaining in constant contact with debris field supervisor
- Other duties as directed by the debris management project manager or designated City personnel

6. Monitor the Removal of Leaning Trees, Hanging Limbs, and Hazardous Stumps

Thompson anticipates beginning hazardous tree removal operations prior to or concurrent with Right-of-Way debris collection. By getting the bucket trucks out ahead of the debris removal trucks with hazardous tree and limb removal, the overall collection operation will be more efficient. Thompson will ensure that hazardous stumps are pre-approved by FEMA and that the stump removal process is documented to include before and after photographs and GPS coordinates. The Thompson leaner, hanger, and stump monitor will be responsible for:

- Ensuring that only eligible leaners, hangers, and stumps are removed as defined by the FEMA Public Assistance Program and Policy Guide (PAPPG) from approved public areas
- Recording the date, GPS location, physical address, and time that the work was performed
- Measuring the eligible tree work in accordance with the City's contract
- Photo documenting the work performed to facilitate an audit ready paper trail for FEMA review

7. Deploy Debris Management Site Monitors

Thompson will work with the City and its contractor to establish the appropriate number of Debris Management Site (DMS) and staff it with a DMS Monitor. DMS Monitors are responsible for completing the load transactions and recording debris volumes for loads that have been transported to the DMS for processing and storage or final disposal. DMS Monitors are responsible for observing and recording the following information:

- Debris classification
- Debris load call/volume estimation
- Truck unloading time and date
- Spot check photographs of loads before and after unloading as a Quality Assurance measure for load call methodology and to insure that trucks are completely unloaded at the DMS
- Ensure white goods and Freon containing appliances are sorted and ready for Freon removal
- Document that white goods are cleaned and processed to remove putrescent debris inside and remove all oils, solvents, and refrigerants
- Ensure hazardous and household hazardous wastes are segregated, handled, stored, and disposed in accordance with environmental laws and local, state, and federal regulations
- Document and immediately report any improper segregation of hazardous waste debris

- Ensuring site safety and security

Debris Disposal Diversion

Thompson will work with the City and MDEQ to develop a recycling/debris diversion plan that minimizes the amount of potentially recyclable debris that is disposed of at landfills. White goods, e-waste, metals, vegetative and other types of debris may be processed and recycled. Thompson will ensure that salvage operations are documented separately to substantiate retainage of salvage proceeds in accordance with the FEMA Alternative Procedures Pilot Program for Debris Removal.

8. Deploy Field Supervisors

Thompson will deploy Field Supervisors at a 10 monitor: 1 supervisor ratio to efficiently and effectively oversee, document, and substantiate debris removal efforts. Field Supervisors will:

- Be prepared to operate a minimum of 12-14 hours per day, 7 days per week
- Verify that only eligible debris is being removed from designated public ROW and public property within assigned collection zones
- Maintain regular communication with and ensure that collection monitors are authorizing the collection and removal of eligible debris from approved public areas
- Confirm the completeness and accuracy of load tickets and field documentation generated by Thompson field staff to substantiate debris removal operations

9. Damage Complaint Tracking

Thompson field supervisors will have the primary responsibility for damage report tracking and resolution. Thompson will assign a unique Work Order number to each damage complaint and will track the Work Order by the GPS coordinate of the complaint. A map will be maintained of all damage related Work Orders. Thompson will maintain the following information for each damage complaint Work Order and organize Work Orders by Precinct:

- Work Order point of contact
- Responsible contractor/sub-contractor
- Photographs of damage
- Description of actions taken by the responsible party
- Photographs/other evidence of repair
- Cost summary, if available

10. FEMA Consultation

To the extent that it is required by the City, Thompson will serve as a liaison between the City, MEMA and FEMA to document and demonstrate that debris removal, response and recovery activities are eligible, allowable, and in compliance with FEMA Publication FP-104-009-2 Public Assistance Program and Policy Guide.

Thompson will work with the City, MEMA, FEMA Region 4, and FEMA Headquarters to facilitate a transparent, well documented partnership throughout the recovery effort. This will allow Thompson to integrate Disaster Specific Guidance (DSG) issued from FEMA into the City's debris removal efforts, and pro-actively create a positive working relationship with participating stakeholder regulatory agencies.

To the extent necessary, Thompson will provide the City with first and second appeal support for unfunded or de-obligated disaster related projects or initiatives that the City and Thompson mutually agree may be determined eligible by FEMA based on a re-review of existing project documentation or other review of new information presented to substantiate the eligibility of the project.

11. Ordinance Review to Determine the Best Method to Perform Private Property Debris Removal

Thompson's proposed management team has previous experience with reviewing local ordinances and designing a private property debris removal (PPDR) program that demonstrates and documents that local governments have the legal authority (and FEMA eligibility) to perform a variety of debris removal programs on private property. We have performed comprehensive PPDR ordinance feasibility reviews and PPDR program implementation in Alabama, Mississippi, Louisiana, and Florida. In order to ensure that the PPDR program is successful, Thompson will have the following objectives during ordinance review:

- Identify an ordinance that clearly grants the City with the authority to enter private property to remove and dispose of debris, such as a nuisance abatement or public nuisance ordinance. This is critical in order to establish legal authority and FEMA eligibility.
- Establish a multi-step process to ensure that all proper notifications are made to property owners.
- Develop a public outreach plan to ensure that City residents in need are able to participate in the program.

12. Private Property Debris Removal Monitoring

Upon review and approval of a proposed PPDR program by MEMA and FEMA, Thompson will implement and document the program to maximize available reimbursement. PPDR programs may include:

- Vegetative, construction and demolition (C&D), and mixed waste debris removal
- Residential and commercial structural demolitions
- Leaner, hanger, and stump removal

In managing, monitoring, and documenting PPDR programs, Thompson will develop a property identification number for each property. Each property will have a PPDR "packet" that documents the following information:

- | | |
|--|--|
| • Ordinance granting the City legal authority under which the private property debris removal work was performed | • FEMA Historic Preservation (HP) review and approval |
| • Documentation of all necessary actions taken to satisfy the requirements of the ordinance | • Documentation of asbestos abatement (if necessary) |
| • Notification to property owner | • Documentation of utility disconnections (if necessary) |
| • Posting on property | • Field documents and site schematic documenting eligible work performed |
| • Executed Right-of Entry Agreement | • Before/after photographs |
| • FEMA/MEMA Approval | • Property close-out documentation |

13. Special Debris Removal Monitoring

The damage caused by extreme weather systems such as tornadoes often necessitate the need for special debris removal programs. To the extent necessary, Thompson management staff will review existing maintenance records to establish the pre-disaster conditions and ensure compliance with FEMA policy and work with the City's contractors, FEMA, MEMA, NRCS and other regulatory agencies to expeditiously remove storm generated debris from affected public facilities.

Special debris program monitors will be responsible for:

- Demonstrating that the debris/sediment/vehicle presents a hazard or immediate threat to public health and safety
- Ensuring that only eligible debris is removed as defined by FEMA PAPPG from approved public areas
- Ensuring that contaminated debris/soil is handled, processed, and disposed in accordance with the type of contaminant
- Verifying that any contaminated disaster-related debris is addressed by the specialist from MDEQ and/or EPA and managed appropriately in the designated areas
- Recording the date, GPS location, physical address, and time that the work was performed
- Measure the eligible debris removal in accordance with the City's contract (i.e. linear foot)
- Ensuring vehicles or vessels are abandoned, e.g. the vehicle or vessel is not the owner's property and ownership is undetermined
- Verifying and documenting the chain of custody, transport and disposal of the vehicle or vessel
- Photo documenting the work performed to facilitate an audit ready paper trail for FEMA review

14. Accumulate Daily Field Data

Thompson uploads daily debris collection and disposal information from our ADMS system into a secure electronic disaster debris data management system that summarizes debris quantities to include collection and disposal information by date, debris type, collection zone, and collections and disposal location.

Thompson will plot daily collection totals using GIS software and provide the City with a map of daily collection operations and cumulative debris removal to date. Thompson's graphical reporting tools can provide the City with the collection information needed to make critical decisions and report progress to the public.

In addition the Thompson data management system will serve as an electronic clearinghouse for photographs, electronic "ticket" transaction images, and other field reports developed to document the debris removal operation.

The following information further outlines Thompson's data management operations and capabilities. Our scalable approach has been developed to accommodate both small and large scale activations and multiple debris removal contractors.

Data Management, Project Tracking, and Computer Accountability Programs

Thompson utilizes technology as integral part of its approach to providing debris removal monitoring services for purposes of quality assurance/quality control (QA/QC), contractor invoice reconciliation, and reporting. Each day Thompson queries and reviews truck certifications, load transactions, and unit rate transactions. This data is then used for the following purposes.

Quality Assurance/Quality Control

A critical component of the debris removal monitoring firm's responsibilities is to identify and correct any impropriety that may occur in the debris removal process. To do this, Thompson leverages its data management system to provide QA/QC through standard data queries. Such queries and parameters include:

- Count of loads by collection truck
- Trip time per load
- Trip distance
- Average load call by truck
- Average load call by disposal monitor
- Count of loads by collection location

Reporting

The final tool employed by Thompson through its data and document management system allows us to timely report progress of debris removal to the City. This reporting tool is flexible and can be tailored to report debris removal by any number of parameters. In the past we have reported debris removal according to the following:

- Percent of total estimate complete
- By GIS grid
- By Service Area
- By voting precinct
- By City political district (council districts, commission district, etc.)
- FEMA eligible versus state aid eligible
- Quantity by DMS
- By material type (vegetative, C&D, white goods, etc.)

Thompson will review the QA/QC reports each day to identify anomalies. In most cases these anomalies are explained through investigations of circumstances surrounding the irregularity. Our experience has shown that the mere fact that debris removal contractors and monitors are aware that such metrics are being monitored deters impropriety.

In addition to the cumulative debris collection and financial report, Thompson will coordinate with the contractor to provide morning summaries that will address the following:

- Number of crews deployed

- Types and quantities of equipment deployed
- Equipment/crew/monitor assignments (area/zone)
- Status of TDSRS operations
- Changes in operational status or problems encountered since previous report

Each evening, Thompson and the contractor will provide evening summaries that will include:

- Overall status of debris removal operations
- Actual number of crews/monitors deployed that day
- Issues or problems encountered in the field

15. Reconcile Contractor Invoices

Thompson will perform a thorough review and reconciliation of contractor invoices submitted to the City. In order for contractor payments to be verified as accurate and correct Thompson verifies truck certification, load transactions and unit rate transactions with its database. The reconciliation will include a review of the collection date, time, and location, as well as the debris volume, disposal time and location submitted by the Contractor against the data maintained by Thompson on behalf of the City. Upon completing the verification of each record being claimed for payment, Thompson will render a payment recommendation to the City. Thompson's payment recommendation will include the following:

- A copy of the contractor invoice
- Invoice back-up organized by program, date, service type, contract line item, and location
- A summary of discrepancies identified
- A payment recommendation report
- A cover letter summarizing the reconciliation findings and payment recommendation

ATTACHMENT B
COST SHEET

CITY OF HATTIESBURG DR-XXXX	Estimated Requirements	Per Hour Rate
Project Manager	1	\$ 69.00
Field/Roving/Operations Debris Managers	0	\$ 0.00 ¹
Fixed Site Monitors	5	\$ 30.50 ²
Data Manager	1	\$ 55.00
Clerical	0	\$ 0.00 ¹
TOTAL ESTIMATED COST	7	\$ 276.50³

¹ These positions will not be required to complete the scope of work requested by the City, and therefore will not be billed to the City.

² An Automated Debris Management System (ADMS) charge of \$3.50/hour applies to positions that require the use of an ADMS handheld device and hip printer.

³ Hourly labor cost assuming staff level proposed.

⁴ An Hourly Travel Stipend of \$14.00/hour will only apply to position if employee(s) permanently reside greater than 50 miles from Hattiesburg, MS. The stipend will not be charged beyond the standard GSA rate at time of project activation.

SECTION 5

REQUIRED FORMS & CERTIFICATIONS

Required Forms / Certifications

Thompson has included the following forms and certificates in the following pages of this section.

- Executed Request for Proposal Clauses
- Attachment C: Conflicts of Interest
- Attachment D: Certification Regarding Lobbying
- Certificate of Insurance (as evidence of coverage)
- MS Secretary of State Certificate of Fact
- MS Secretary of State Certificate of Good Standing

removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

Name Jon Hoyle, President

Signature Date

ATTACHMENT D

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, Thompson Consulting Services, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

DEBRIS MONITORING FOR TORNADO

DATE JANUARY 21, 2017

CITY OF HATTIESBURG

REPAIRED BY:

J5WAGGONER, LLC

IN ASSOCIATION WITH:

TETRA TECH

January 28, 2017

Mr. Lamar Ruthland
City of Hattiesburg
Post Office Box 1898
Hattiesburg, MS 39403-1898

RE: **RFP to Establish Debris Monitoring Assistance for Hattiesburg, Mississippi**

Dear Mr. Ruthland,

The J5Waggoner, LLC team is honored to submit the enclosed proposal to provide disaster debris management and monitoring services to the City of Hattiesburg, Mississippi (City). In J5Waggoner, Hattiesburg will have an inclusive Mississippi-led team, using local labor forces, that offers the national cutting-edge experience, FEMA-reimbursement-savvy, and efficient new-technology-enabled services of Tetratex. Since 1999, our team has assisted more local governments with debris management services following catastrophic natural disasters than any other team in the nation, resulting in excess of \$4 billion in reimbursable costs to our clients from the Federal Emergency Management Agency (FEMA), the Federal Highway Administration (FHWA), the Natural Resources Conservation Service (NRCS), and state regulatory agencies. Our nationally recognized team of disaster experts, including debris monitoring experts and FEMA reimbursement specialists, stands ready to expedite the County's recovery efforts and maximize federal grant funding to build a more resilient community for the future.

The City of Hattiesburg will benefit from selecting the J5Waggoner, LLC team for the following reasons:

- **Unmatched Experience with Severe Storm and Tornado Disasters** Our team has conducted tornado recovery projects for Columbus, MS, Louisville, MS, Friendswood, Texas; Limestone County, Alabama; Blount County, Alabama; Norman, Oklahoma; Raleigh, North Carolina; Lake County, Florida; and Volusia County, Florida. Detailed descriptions and references for these projects are included within our proposal, and we encourage the City to call our client references. Our past tornado recovery clients serve as proof of our team's capabilities and previous achievements with services similar to those requested by the City of Hattiesburg. *Our team will apply this experience to the recovery effort for the City of Albany.*
- **Local Staff to Help Local Displaced Residents** We understand that residents are directly impacted and displaced by disasters. Many of Hattiesburg's residents have experienced a significant economic hardship as a result of the recent disaster. J5W understands the need to utilize local resources to support economic recovery. We are committed to using local labor and guarantee that 80% of the workforce used to perform the work will come from the local community.
- **Knowledge of Mississippi's Priorities and Challenges** J5Waggoner's team is reflective of the Hattiesburg community in its leadership, diversity, and local personnel.
- **Knowledge of the City of Hattiesburg** Our team has been on-site in the City since the disaster, assessing the damage and identifying issues that can be mitigated to expedite the recovery effort from right-of way-collection to requesting FEMA reimbursed private property debris removal, if required. We have dealt with these issues in the past and know how to address challenges quickly and cost effectively. We have the technical resources to address the City's needs cost effectively with staff who know the City streets, its public infrastructure, and how best to address any of the City's recovery needs.

- **Automated Debris Management System (ADMS) Technology** RecoveryTrac™ allows our staff to monitor and manage a recovery effort electronically, increasing productivity while decreasing fraud, human error, and cost to the City. RecoveryTrac™ will give the City real-time debris collection tracking that provides accurate and timely reporting to City stakeholders. *RecoveryTrac™ was designed to provide real-time data on missed pickups, damage caused by debris haulers, waypoints for every pile of debris picked up, and street-level pass maps, which will meet the unique data needs of the City.* Our team has successfully implemented our ADMS technology for 40 activations since 2011, including Hurricane Matthew and the recent wildfires in California.

J5Waggoner, LLC would be honored to serve as the City of Hattiesburg's debris monitoring services provider. We are fully prepared to provide the high quality service the City expects. For questions regarding this response, please contact the representatives listed below. As an authorized representative of the firm, I am able to contractually bind the firm.

SECTION A: TECHNICAL PLAN/APPROACH

PROJECT UNDERSTANDING

On January 21, a tornado impacted the City of Hattiesburg, MS (City) leaving toppled trees and damaged homes. Due to this historic disaster and the City's recognition of the magnitude of the task ahead, the City has issued a request for proposals (RFP) to retain the services of a highly qualified disaster debris monitoring provider capable of assisting the City with quickly recovering from the storm.

Headquartered in Columbus, Mississippi, **J5Waggoner, LLC** (J5Waggoner) is a Mississippi-registered LLC formed by J5 GBL, LLC and Waggoner Engineering, Inc. Joining J5Waggoner, is Tetra Tech, Inc., one of the leading firms in the nation in the field of disaster management and homeland security. Collectively, the J5Waggoner Team offers unmatched experience assisting communities with recovering from the damaging effects of major disasters. Our team has responded to nearly every major disaster that has occurred in the United States over the last 20 years. As a result, our team fully understands the challenges the City will face over the next 60-90 days and beyond.

Our team is recognized for our ability to respond quickly, our best-in-service debris monitoring and data management system. In addition, our team has familiarized ourselves with the Historical Preservation Laws and has experience completing historical reviews when managing demolition of properties after Hurricane Katrina in New Orleans.

The following outlines the J5Waggoner Team's approach to assisting the City with its recovery operations.

ON-BOARDING/HIRING APPROACH

Immediately upon award, the J5Waggoner Team will establish Human Resources (HR) hiring centers in the affected areas. The hiring center provides efficient hiring and training processes that meet the stringent field operation requirements and any specific requirements of our clients. The hiring center is designed to be quickly mobilized, transported, and set up to allow near immediate response for field staffing needs. The hiring center is staffed by trained HR representatives and can process hiring of hundreds of staff per day. The hiring center can be quickly scaled to meet the most demanding needs for staff. The hiring center advertises locally and reaches out to local workforce centers to utilize persons seeking employment in the community.

VEHICLE CERTIFICATION

The J5Waggoner Team has a proven vehicle certification procedure that complies with FEMA guidelines to maximize reimbursement for our clients. Our team will certify all trucks used in an activation via the mobile application included in our ADMS technology. Benefits of using the mobile truck certification application include **electronic volume calculations**, instant upload to the RecoveryTrac™ database to allow a QA/QC check to immediately verify the truck certification is calculated correctly, and automated photo matching of truck and driver photographs to the truck. The truck certification application allows us to complete truck certifications in **30 percent less time than with a paper-based system**.

Driver-Placard View Side View Back-Interior View

Our disaster debris vehicle certification procedure includes the following:

- Automated truck certification form, which includes the latest FEMA guidelines on truck certification documentation and volume calculations and a bar code for automated ticket scanning
- Special vehicle notations on the truck certification form and vehicle placard, which inform tower monitors of sideboards, tailgates, or other modifications, thus discouraging debris removal contractors from fraudulently altering vehicles after certification
- Photographs of vehicles, vehicle cavities, and drivers
- Periodic spot checks and recertification of trucks to identify trucks altered after initial certification
- Visual inspections of motor vehicle compliance with support from a City staff member. This can be done at the time of inspection or through our QC in real-time from an office environment.

MONITORING THE REMOVAL OF DEBRIS

J5Waggoner deploys loading site monitors to monitor the activities of each debris removal crew. Loading site monitors will document the initial step when tracking debris from collection to disposal. RecoveryTrac™ load tickets document where and when debris is collected along with other required information. J5Waggoner loading site monitors will also mark where every load of debris is collected using the RecoveryTrac™ waypoint system. This information can be used by multiple entities (the City, municipalities that may fall under the City's program, debris hauler, etc.) to verify completeness and maximize project schedule.

The bullets below highlight various aspects of the J5Waggoner's debris removal monitoring program.

- **Operations.** Field collection monitors report to a staging location prior to the field operations beginning for a briefing to be given by the project manager or field supervisors and the distribution of safety gear (for example, caution lights or safety vests), map books, and ADMS handheld units/debris tickets.
- **Deployment.** A field monitor is assigned to one loading unit.

Section A: Technical Plan/Approach

- **Field Supervision.** Responsibilities of the field supervisor include training, QA/QC of work being performed, verifying load ticket accuracy, and responding to field monitor and debris contractor issues in the field.
- **Responsibilities.** Field monitors will verify the proper loading of debris into the debris removal contractor's certified loading container. Monitors will document that contractors and their subcontractors adhere to local, state and federal regulations and that they are working safely and efficiently. Field monitors often notice inconsistencies with debris removal procedures and submit them to their supervisors. If a field monitor feels there is justifiable need to stop operations, the monitor is instructed to refrain from issuing a ticket until the debris hauler supervisor and a J5Waggoner supervisor can be called in to determine the appropriate action.
- **Work Scheduling.** The J5Waggoner Team will coordinate with the debris removal contractor's project manager to estimate the number of field monitors that will be required for the following day. To be responsive and mitigate overstaffing, J5Waggoner requests that the debris hauler release the next day's schedule by 5 p.m. so that the appropriate number of field monitors is dispatched.
- **Daily Closeout.** At the close of operations each day, all collection and disposal monitors will report to the staging area to clock out and turn in their ADMS handheld units.
- **Contractor Completion.** J5Waggoner will assist in completing the project efficiently and within the time lines set forth in the RFP. There are many aspects of debris removal that are outside of the monitoring firm's control but will still need to be managed. J5Waggoner will assist with managing these goals, including the following:
 - The ability of a debris contractor to respond with sufficient equipment will affect the proposed schedule. J5Waggoner will provide burn rate analysis to verify the proper equipment is being provided. This will be adjusted as more accurate debris estimates are available.
 - Invoices by the contractor need to be produced in a timely manner so that J5Waggoner can reconcile in a timely manner. J5Waggoner will work to make the contractors aware of an appropriate time frame for invoicing and will communicate with the City if deadlines are not being met.
 - Deadlines for collecting debris are set to correspond with the work schedule that is based on estimated work to be completed. As damage estimates become more accurate (as is typical throughout the process), J5Waggoner will work with officials to adjust the timeline appropriately to reflect the changing estimates.

DEBRIS MANAGEMENT SITE MONITORING

DMS locations are approved areas where debris contractors can truck eligible debris so it can be further separated or processed before being hauled to a final disposal facility. J5Waggoner can assist the City in obtaining necessary permits or approval of designated DMS as requested by the City. Debris is quantified by volumetric load calls. Towers are set up, and ingress and egress patterns are established. Each site will be restricted to a maximum capacity that will need to be monitored. J5Waggoner will provide a minimum of two monitors per site, which may increase or decrease based on need. The J5Waggoner monitors will be prepared to work a 12–14 hour shift, 7 days per week. Construction and demolition debris may be directly hauled to a final disposal facility. Specific documentation kept by DMS monitors includes the following:

- **Load Ticket.** The load ticket is used to document debris removal.
- **Disposal Monitor Log.** The disposal monitor log is used as backup documentation (and serves as a fail-safe if any documentation is missing).
- **Scale Manifest Tickets.** If the debris hauling contract payment method is weight-based, tickets generated by the existing scales at the City's DMS will be digitized and cataloged by J5Waggoner.
- **Incident Report.** The incident report is used to document anything out of the ordinary while monitoring at the DMS, including property damage, arguments, unsafe practices, and personal injury.

Section A: Technical Plan/Approach

- **Photographic Documentation.** J5Waggoner disposal supervisors will photograph a DMS frequently in order to create a visual timeline of the site.
- **QA/QC of Field Tickets.** DMS monitors must review and correct errors made by loading site monitors in the field.

Due to the critical nature of load calls and the impact they can have on a project, the J5Waggoner Team has developed a thorough Disposal Monitor Training Program that will be reviewed by every disposal site monitor for consistency in load calls. After a load call has been made, the disposal site monitor will issue the truck driver a printed ADMS ticket.

HAZARDOUS TREE REMOVAL

Established FEMA guidance requires supporting photo documentation for each ticket issued for hazardous tree or hanger removal services. The previous standard for monitoring firms was to take supporting photographs with a digital camera and manually associate the photos to each tree ticket. The J5Waggoner Team can utilize RecoveryTrac™ ADMS technology to document all hazardous tree and hanger removal operations. Additionally, ADMS technology and software is designed to manage photo documentation by compressing and securely storing photos for field validations and audits in real-time. The ability to associate photo documentation to unit rate tickets is critical for FEMA reimbursement, QA/QC, and fraud deterrence.

As work in the field is completed, the information and supporting photos are uploaded directly to our database for QA/QC checks. A QA/QC manager verifies that the photographs comply with FEMA regulations and that all measurements meet the City's contractual agreement with the contractor.

Exhibit A-2: Real-Time Ticket Report

DAILY REPORTING METRICS

Our team has a suite of reports that are automated from RecoveryTrac™ and available in real-time via PC, tablet, or even smart phone. Our daily reporting metrics include but are not limited to the following:

- Daily operations cost accounting
- Debris contractor metrics and operations time by truck
- Daily load tickets and cumulative volumes
- Daily reporting of ongoing work and completed areas of debris removal activities
- Fiscal reports, including:
 - Cost of monitoring operations (weekly or monthly)
 - Hauling cost data (weekly or monthly)

Exhibit A-3: Sample Custom Reports Developed

Another key feature of the ADMS technology is that it allows field monitors to report incidents and provide supporting photographs in real-time. These reports are then provided in real-time geospatially or exported into Excel sheets daily and are available to the City, local governments, and the debris contractor. As monitors complete incident reports in the field, the information and supporting photographs are uploaded to the reporting server.

Depending on the type of incident, priority e-mails may be sent out by the reporting server to City representatives, J5Waggoner project team, and debris contractor representatives. Our firsthand experience assisting local governments with recovering from disasters has shown that accurately capturing and photographing pre-existing damage can alleviate residential damage claims that may be submitted to the City. Additionally, the incident map developed from the collection information is essential to quickly identifying unresolved contractor damages before the completion of the program.

Exhibit A-4: Incident Reporting Tool

Exhibit A-5: Missed Piles Tracking

In addition to the standard daily reports, J5Waggoner's project management team will also provide a daily project manager's report. The daily project manager's report will be submitted to the City Debris Manager or their authorized representative daily. The project manager's report will include the following:

- Volumes of debris category collected
- Debris monitor metrics
- Maps depicting geographic areas where debris has been removed
- J5Waggoner's overall progress in completing task orders and estimated completion date
- Coordination issues (if any) with the contractor
- Damage claims or incident reports

To expedite contractor invoice reconciliation efforts, J5Waggoner requires copies of all primary debris hauler contracts with the City. After reviewing the contracts, our team will set up the RecoveryTrac™ database to generate transactions for tickets issued to each debris contractor. We will then meet with each primary debris contractor to review the debris contractor reports that will be generated automatically through RecoveryTrac™ Mobile. The debris contractor reports will provide each contractor with sufficient data to reconcile with their subcontractors as well as generate invoices for payment by the City. Several QA and QC checks will be conducted on data before it is provided to the contractor. The application of RecoveryTrac™ Mobile significantly reduces the amount of time needed for a contractor to generate an invoice and for the subsequent invoice reconciliation with the J5Waggoner Team. The process for contractor invoice reconciliation is as follows:

- Debris contractor manually enters ticket detail into a contractor database or imports ticket data based on debris contractor reports.
- Debris contractor generates an invoice for a specified period and submits the invoice and electronic backup to J5Waggoner for review.
- Our team reviews the contractor data against RecoveryTrac™ database records.
 - If no discrepancies are identified, J5Waggoner notifies the debris contractor that there are no discrepancies in the dataset.

Section A: Technical Plan/Approach

- If discrepancies are identified, J5Waggoner generates a discrepancy report noting the ticket numbers and differences between the two data sets.
- J5Waggoner submits the discrepancy report for the debris contractor's review. The debris contractor revises their invoice based on the discrepancies and resubmits to J5Waggoner for review.
- Once a debris contractor's invoice has been reconciled, J5Waggoner generates a payment recommendation and transmittal letter for each invoice and submits the invoice package for the City's review.

PROJECT CLOSEOUT

Upon project completion, the team will prepare both physical records as well as RecoveryTrac™ database digital documentation for submittal to the City. Physical documentation such as load tickets, truck certificates, and field logs are organized and packaged in a manner conducive to easy retrieval. In addition to the physical documentation, the team provides a final data export of the RecoveryTrac™ database, which serves to hasten any forthcoming auditing efforts. The records extracted from the database contain a digital copy of the ticket given to the contractor and the corresponding supporting photographic and/or supplemental documentation, truck certificate images and corresponding photographic documentation, and digital copies of all invoice payment recommendation packages that have been issued for the project. The ticket line item data is conveniently hyperlinked so that a simple click will yield the desired images. The RecoveryTrac™ final export data may be provided either via DVD or external hard drive.

RECOVERYTRAC™ AUTOMATED DEBRIS MANAGEMENT SYSTEM – ALTERNATIVE TO PAPER TICKETING

In today's technology-driven society, paper-based systems are quickly becoming obsolete. Recognizing the migration to electronic-based systems, our team has spent years on research and development in an effort to streamline the debris collection documentation process, with a focus on minimizing the cost to our clients whilst improving the visibility of debris project operations. RecoveryTrac™ is the result of these efforts. RecoveryTrac™ is a scalable and fully featured disaster management application designed specifically to address the operational challenges faced during a disaster recovery project. ***Our proprietary ADMS technology, RecoveryTrac™, meets USACE specifications for electronic debris monitoring,*** provides real-time collection of data, and offers multiple solutions to data management, reporting, invoice reconciliation, and project controls that cannot be achieved with a paper-based program. ***Tetra Tech has also implemented RecoveryTrac™ ADMS technology on the last 32 FEMA PA eligible***

- Owned and operated by Tetra Tech
- Over 800 mobile units on-hand and ready for state-wide multi-district mobilizations
- Meets USACE specifications for electronic debris monitoring handhelds
- Real-time situation awareness of field resources and efficient direction to support City priorities
- Real-time GIS web services for EOC information and visualization systems
- Capable of collecting data regardless of cellular service
- Automated photograph and GPS capture
- Provides reports and pass map tracking in real-time
- Minimizes chance of fraud through real-time monitoring
- Minimizes data entry and human error
- Expedites invoice reconciliation
- Intuitive and user-friendly

projects. On these projects, our clients and FEMA found this state-of-the-art technology to increase efficiency and improve the management of debris removal efforts.

The RecoveryTrac™ Process

The process begins with debris hauler truck certification using the handheld units. A truck certification form is printed with a unique electronic bar code and provided to the driver as well as our debris site/tower monitor(s). Handheld units are provisioned and assigned to both field and debris site/tower monitors. Field monitors begin a ticket by scanning the truck certification bar code to open a control ticket and then begin to record waypoints (debris pile pick-up locations) on the handheld as the truck is loaded. When the truck is full, the field monitor selects the debris type, and scans the control ticket to assign the load a unique number. The truck then proceeds to the disposal site. The collection data is uploaded to a server via cellular connection and using a process called 'Look Ahead' - the collection ticket information is made available to the disposal monitor's handheld before the truck arrives. The control ticket is provided to the driver and taken to the debris management site where it is scanned by a debris site/tower monitor. The debris site/tower monitor confirms the truck and debris type and enters the load call. Finally the disposal load ticket is printed and data is uploaded to the system where it can be utilized in real-time reporting systems.

Even when there is no cellular connection, the handhelds continue to operate in connected mode; however, the data is stored on the device until a data connection is restored. The device periodically searches for this connection, and when services are restored the device automatically uploads the stored ticket data. ***Even under the harshest conditions where cellular service is not available, RecoveryTrac™ was built to comply with U.S. Army Corps of Engineers (USACE) specs using Near Field Communication (NFC) and internal memory to protect and transfer data.*** Exhibit A-6 shows the RecoveryTrac™ process under normal operating conditions.

Exhibit A-6: RecoveryTrac™ Process

Key Benefits of RecoveryTrac™

Ability to Respond. Combined with the on-hand inventory of over 800 handhelds and the ability to rapidly procure additional equipment through preferred vendor relationships, the City can rely on our mobilization strategy for zero-day activations in disasters covering large areas with little or no-notice. ***The on-hand inventory can be on-site and ready to use within 24 hours of a notice to proceed***, and additional needs can be met quickly (in most cases, 72 hours or less).

Simple and Intuitive. A key foundation of our mobilization strategy is the ability to quickly hire and train local residents and begin debris removal operations. The mobile application is simple to understand and intuitive, allowing most users to begin using the device once the standard monitor training is completed.

Cost Effective. RecoveryTrac™ combines the advantage of automation and the desire of our customers to control costs by utilizing widely available commercial equipment and increasing the simplicity of operations.

Reliable and Stable. Based on the Android operating system, RecoveryTrac™ is secure and reliable. This minimizes the interruptions in field operations due to technical difficulties and reduces the number of support personnel required to maintain the system.

Technical Support. RecoveryTrac™ is designed to be self-repairing when possible; most support needs are resolved by field supervisors who are able to reach field monitors within 15–30 minutes in most cases. In addition, we have dedicated technicians at disposal sites and provide a field service center to maintain and repair equipment.

Real-Time Reporting. The key to successful management of a debris project is the timely availability of relevant information needed to make sound decisions and respond to anomalies before they become issues. Our powerful reporting engine allows the user to monitor contractor performance, track damages, track street-by-street debris removal progress, and identify and resolve potential problems as they happen. The geospatial reporting systems within RecoveryTrac™ provide real-time information that raises the bar for post-disaster project management.

In summary, our combined program management approach and RecoveryTrac™ solution will provide day-one, boots-on-the ground services for the City immediately after a disaster.

Real-Time Information and Visualization Increases Efficiency

Over the last several years, the cellular industry has invested heavily in the hardening of infrastructure in areas most susceptible to environmental disasters.

We have taken advantage of these improvements by partnering with the Tier 1 providers to get the information from the field as quickly as possible, ideally in real-time. Field devices are constantly looking for connectivity to immediately upload collected information. Once the field data is uploaded, RecoveryTrac™ geospatial services provide rich information and visualization of the field data. Using the EOC operation board concept, users can visualize everything from damage concentrations to field debris equipment locations and more. The end result is better information, resulting in better decisions and less waste.

Exhibit A-7: Previous Collection and Current Truck Location

Coordinated Reporting and Quality Control

RecoveryTrac™ ADMS can provide the one-stop information in a consistent, easily consumed format that can provide a City -wide operations status picture. These data feeds are in real-time; there is no spreadsheet to import and no conversion—just a single GIS web data service to pull required information. Some examples of data included:

- Road Clearance Status (Pass Map)
- Hazard Removal Locations
- Debris Pickup Locations
- Truck and Monitor Locations
- Reported Damage Locations
- Debris Removed

Data managers assigned to continuously monitor the information flowing into the system check for potential problems and dispatch supervisors to respond to the problem. The system monitoring panel shows real-time statistics and potential problems for operations based on exhaustive in-process quality checks that occur continually. The exhibit below details how we use RecoveryTrac™ ADMS to meet our quality standards using the direct monitoring and immediate feedback technique.

Debris Tracking

RecoveryTrac™ allows real-time access and visibility into field operations. At each debris collection point, the roadway monitor marks the “waypoint” or location of the debris pile to collect GPS coordinates. The map below displays the waypoints associated with each collection ticket issued in the field. The waypoint collection report is updated in real-time and can be filtered by date.

An additional feature of our ADMS technology is that each handheld device reports back the location of the device regularly. By leveraging this location information, our team can view monitor locations and truck locations in real-time, as demonstrated in Exhibit A-8.

Exhibit A-8: Monitoring Locations

HEALTH AND SAFETY

J5Waggoner is committed to workplace safety. As such, a project-specific health and safety plan will be developed for the scope of work. Field staff assigned to the project will be trained on the health and safety plan. Additionally, project managers have completed the Occupational Safety and Health Administration Disaster Site Worker course and have their 10-hour Construction Safety Certification. During a debris recovery operation, project managers and supervisors routinely examine the safety of field and debris staging site operations and have the authority to shut down unsafe operations. Debris staging site monitors are equipped with the appropriate personal protective equipment, which may include hard hats, appropriate footwear, reflective vests, hearing protection, and eye protection. Additionally, project managers conduct regular “tailgate” safety sessions with their field employees to alert them of potential work hazards and review safe work practices.

PLAN FOR MINORITY, WOMEN'S BUSINESS ENTERPRISES AND LABOR SURPLUS AREA PARTICIPATION

As firm policy, J5Waggoner conscientiously looks for opportunities to work with small, women-, minority-owned and disadvantaged business enterprises where specific and individual capabilities complement our own for the benefit of the successful completion of a project. We have established working relationships with a number of small, women-, and minority-owned firms, and have worked with many agencies having equal employment opportunity requirements. In addition, we maintain a comprehensive file of the qualifications and experience of these firms to aide us in selecting appropriate subcontractors for specific project tasks. Should the need for a particular specialty arise during a project, J5Waggoner diligently promotes an equitable opportunity to subcontractors whose capabilities complement our own.

J5Waggoner partner, J5 GBL, LLC, is certified by the Southern Region Minority Supplier Development Council. A copy of the certification has been included at the end of this section.

Additionally, our proposed subcontractor Tetra Tech, Inc. was recently presented with the **Mentor of the Year Award by the U.S. Agency for International Development's Office of Small and Disadvantaged Business Utilization**. The Mentor of the Year Award annually recognizes a large prime contractor for effective development assistance given to a small business. Tetra Tech received the award at the USAID Annual Small Business Conference held on May 4, 2016, in Washington, DC.

SECTION B: KEY PERSONNEL QUALIFICATIONS

J5Waggoner, LLC has assembled a team of experienced emergency management, infrastructure, engineering, and grant management specialists with hands-on experience in recent disasters and emergencies as well as prevention, mitigation, preparedness, response, and recovery programs. Our disaster recovery professionals are uniquely familiar with the policies, procedures, and requirements associated with providing disaster recovery services subject to FEMA, FHWA, U.S. Department of Housing and Urban Development (HUD), NRCS, and other federal agency reimbursement programs.

Our staff members have successfully managed the removal of and reimbursement for over **75 million cubic yards (CYs) of debris** as well as the **demolition of over 5,000 uninhabitable residential and commercial structures**. Our team has monitored and obtained FEMA, FHWA, and NRCS reimbursement on **16 debris removal projects in excess of 1 million CYs of debris** and understands the significant resource commitment and effort that is necessary to manage and monitor large-scale debris removal operations for local governments.

J5Waggoner is committed to providing the City with a dedicated and consistent project management team that will expedite recovery efforts in the City by establishing a coordinated and organized approach to debris removal.

Résumés for our proposed key staff have been included at the end of this section.

PROFESSIONAL CERTIFICATIONS, TRAINING, AND LICENSING

J5Waggoner is committed to providing our customers with quality technical products and services while meeting the highest level of ethical and regulatory standards and performance in our jobs. In addition, our environmental health and safety program helps our business operate in a manner that protects the health and safety of our employees, customers, business partners, community neighbors, and the environment.

J5Waggoner remains abreast of the latest guidance, issues being debated, and current best practices through participation in expert groups, attendance in training and conference sessions, and working with national experts in disaster recovery operations, emergency management, national security, information technology, public health, transportation, and critical infrastructure protection.

Our proposed team possesses many of the key certifications necessary to provide quality technical services and have attended numerous training courses related to debris operations and emergency management. Some of these include, but are not limited to:

- Occupational Safety and Health Administration (OSHA) Disaster Site Worker Course
- OSHA 10-Hour Construction Safety Certification
- OSHA 40-Hour HAZWOPER Certification
- G-202 Debris Management
- Homeland Security Exercise and Evaluation Program (HSEEP) Certified
- IS 100: Introduction to Incident Command System
- IS-120: Introduction to Exercises
- IS-200: Basic Incident Command
- IS-547: Introduction to Continuity of Operations (COOP)
- IS-631: Public Assistance Operations I
- IS-632: Introduction to Debris Operations
- IS-634: Introduction to FEMA's Public Assistance Program
- IS-700: National Incident Management System

Section B: Key Personnel Qualifications

- IS-800: National Response Program
- Mass Casualty Incident Manager Certification

Additionally, all collection and disposal managers and field supervisors must attend a debris monitoring training session prior to working. These training sessions are delivered by experienced trainers and provide the information required to facilitate accurate field monitoring. Tetra Tech also conducts daily “tailgate” safety sessions with field employees to alert them of potential work hazards and review safe work practices.

Section B: Key Personnel Qualifications

Résumés

Jabari Edwards, Jr. Project Manager

EXPERIENCE SUMMARY

Jabari Edwards Jr, is a project manager with J5 GBL, Columbus, MS. Mr. Edwards has supported J5 on our GPR team, as well as our groundwater sampling team in support of Greenfield MST.

Mr. Edwards is a professional in the field of project management. He has the responsibility of the planning, procurement and execution of a project, in any domain of engineering. Mr. Edwards is first point of contact for any issues or discrepancies arising from within the heads of various departments in an organization before the problem escalates to higher authorities. This individual seldom participates directly in the activities that produce the end result, but rather strives to maintain the progress, mutual interaction and tasks of various parties in such a way that reduces the risk of overall failure, maximizes benefits, and minimizes costs.

RELEVANT EXPERIENCE

Project Manager (May 2012 - Present)

J5 GBL, LLC | Columbus and Meridian, MS sites

Mr. Edwards has provided support to our GPR team as a Project Manager. He has been responsible for marking off survey areas to prepare for GPR activities, as well as performing the GPR survey, in support of Greenfield MST for the creosote-contaminated National Priorities List site in Columbus, Mississippi, formerly owned by Tronox as well as the Meridian, MS site.

Project Manager (2012 - Present)

J5 GBL, LLC | Environmental Trust CERCLA Site Groundwater Sampling

In addition to providing GPR support, Mr. Edwards is a trained Project Manager and assisted with semi-annual groundwater monitoring and sampling at the former Kerr-McGee site in Columbus, MS and Meridian, MS. Groundwater monitoring is conducted to ensure compliance with CERCLA. Mr. Edwards assisted with collecting groundwater level data, documenting sampling activities, sampling of the monitoring well network, and decontamination of field equipment.

Project Role (Dates)

J5 GBL, LLC | Storm Damage Recovery, Louisville, MS

Served as Debris Monitoring Roving Supervisor during Louisville, Mississippi storm damage project.

YEARS OF EXPERIENCE

5 years

AREA OF EXPERTISE

- Project Management
- Debris Monitoring
- Groundwater Monitoring
- Storm Damage Recovery

DISASTERS

- Meridian Drainage Collapse
- Columbus, Louisville and Smithville, MS tornadoes
- Hurricane Katrina on the MS Gulf Coast

Ray Berry Field Recovering Operations Debris Manager

EXPERIENCE SUMMARY

Mr. Berry has experience in emergency management, debris operations, hazardous materials and disaster assistance. He has assisted clients in response to Superstorm Sandy, Hurricanes Gustav and Katrina, and several ice storms.

RELEVANT EXPERIENCE

Operations Coordinator (Feb. 2014 – Jun. 2014)

Metric Engineering – Akin, SC

Supervised Quality Assurance monitors in response to ice storms.

- Responsible for final review of documents critical to debris removal operations.
- Primarily individual responsible for follow up on resident grievances and complaints for work location region.
- Provided on time accurate statistical reporting regarding debris removal volume and personnel work hours logged.

Maintenance Supervisors (Jun. 2013 – Feb. 2014)

Guest House of Slidell, Slidell, LA

- Coordinated with building management on budget development
- Developed and implemented maintenance procedures
- Maintain the inventory of tools
- General maintenance duties (floor repairs, plumbing, roofing, etc.)

Operations Coordinator (Sept. 2012 – Dec. 2012)

O'Brien's Response Management

- Supervised Quality Assurance monitors.
- Responsible for final review of documents critical to debris removal operations.
- Primarily individual responsible for follow up on resident grievances and complaints for work location region.
- Provided on time accurate statistical reporting regarding debris removal volume and personnel work hours logged.

Deputy Project Manager (Nov. 2011 – Dec. 2011)

O'Brien's Response Management, Southwick, MA

- Supervised Quality Assurance debris removal monitors in response to ice storm.
- Responsible for final review of documents critical to debris removal operations.
- Primarily individual responsible for follow up on resident grievances and complaints for work location region.
- Provided on time accurate statistical reporting regarding debris removal volume and personnel work hours logged.

YEARS OF EXPERIENCE

11 years

AREA OF EXPERTISE

- Emergency Manager
- Debris Operations
- Hazardous Materials
- Disaster Assistance

GRANT EXPERIENCE

- FEMA's Public Assistance Program

TRAINING/CERTIFICATIONS

- Introduction to the Incident Command System (IS-100.b)
- ICS for Single Resources and Initial Action Incidents (IS-200.b)
- State Disaster Management (IS-208)
- Multi-Hazard Emergency Planning for Schools (IS-362)
- National Incident Management System (NIMS), an Introduction (IS-700.a)
- NIMS Resource Management (IS-703)
- National Response Framework, an Introduction (IS-800.b)
- National Disaster Medical System (IS-1900)
- 100 hour Construction Site Safety Technician certification-LCTCS
- Army Corps Construction Quality Management for Contractors
- 30 Hour OSHA Certified
- CLASS A CDL License (Costal Truck Driving School)

Quality Control and Assurance Inspector/Scheduler (Oct. 2007 – Aug. 2011)**Garrett Enterprises, Inc., Hancock County, MS**

- Responsible for drafting site layout schematics critical to the installation of MEMA cottages during the temporary and permanent installation phases following Hurricane Gustav.
- Inspected contractor work functions associated with installation and deactivation of units.
- Operations scheduler of appointments with applicants and contractors.
- Maintained integrity of communication and data work flow between field and operations center.

Quality Control and Assurance Inspector (May 2007 – Oct. 2007)**Ceres Environmental, New Orleans, LA**

- Supervised Quality Assurance monitors on private property debris removal (PPDR)
- Responsible for final review of documents critical to debris removal
- Conducted comprehensive pre-site and debris removal inspections

Debris Operations/Waterway Specialist – County Supervisor (Local Hire) (Dec. 2006 – May 2007)**Federal Emergency Management Agency**

- Supervised all aspects of debris removal activities including marine debris removal
- Extensive knowledge of the Public Assistance Guide including Categories A-G.
- Drafted daily field activity reports and documented all field actions/incidents.
- Trained employees on FEMA debris-removal protocols and activities, proper methods for estimating debris, proper safety procedures and eligibility issues.

Crew Lead/Assessor/Call Center Specialist (Feb. 2006 – Nov. 2006)**CDM Industries, New Orleans, LA**

- Supervised Quality Assurance monitors
- Responsible for assessment and feasibility determination for private property trailer installations in a fast paced high pressure post disaster environment.
- Supervised call center operations and statistical reporting.

Supervisor (Sept. 2005 – Jan. 2006)**Shaw Group, Baton Rouge, LA**

- Supervised Quality Assurance monitors.
- Primarily individual responsible for follow up on resident grievances and complaints for work location region.
- Provided on time accurate statistical reporting regarding debris removal volume and personnel work hours logged.

Robyn D. Eastman Project Manager

EXPERIENCE SUMMARY

Exceptional senior executive, project team leader with an impressive record of accomplishment in all facets of trade related disciplines of construction management, civil engineering, facilities operations and maintenance management, and business administration. Exceptional in evaluating organizational needs and superintending the financial and administrative features to consistently achieve and surpass operating goals.

Core competencies:

- Facility Maintenance Management
- Strategic Planning & Implementation
- Transportation Management
- Financial Planning & Management
- Term Building & Leadership
- Utilities Maintenance Manager
- Acquisition/Contract Management
- Human Resources Management
- Planning & Estimating
- Quality Assurance/Control

Previously held Top Secret/SCI security clearance

RELEVANT EXPERIENCE

Senior Project Manager (Oct. 2008 – Feb. 2014)

Broadbuss & Associates | Columbus, MS Project Management

Management of all City projects in include renovation of Trotter Convention Center. Authored a business plan for The City Public Works Department which increased efficiencies across the department. Authored an infrastructure Survey, which clearly identified a master plan for future improvements across the city.

Senior Project Manager (Oct. 2008 – Feb. 2014)

Harrison County Utility Authority \$260 Million | Community Development Block Grant Regional Utility Expansion

This project consists of 28 sub-projects involving six separate municipalities, twelve design firms, and fifteen General Contractors. Overall project includes 72 miles of water transmission lines, 13 elevated water tanks, 14 water wells and 73 miles of sewer transmission lines. Project also includes five Waste Water Treatment Facilities.

YEARS OF EXPERIENCE

40 years

AREA OF EXPERTISE

- Construction Management
- Civil Engineering
- Facilities Operations and Maintenance Management
- Business Administration

GRANT EXPERIENCE

- FEMA

DISASTERS

- Hurricane Katrina, Mississippi Gulf Coast
- Town of Louisville, MS

TRAINING/CERTIFICATIONS

- Defense Acquisition Workforce Improvement Act Level 3 Contracting Officer
- Recipient of numerous awards for outstanding military, humanitarian and community service

EDUCATION

A.S. Construction Management

A.S. Occupational Business Degree

Three Rivers Community College

Senior Project Manager (Oct. 2008 – Feb. 2014)

Robert J. Curry Public Safety Center \$24 Million | Gulfport Municipal Court and the Gulfport Police Department

This project consists of the complete reconstruction of the Gulfport Municipal Court as well as the Gulfport Police Department. This three story, 76,000 square foot facility will serve as the new headquarters for both of these Departments while also serving as the "First responder" shelter for the city of Gulfport during the next tropical event.

Project Manager (Oct. 2008 – Feb. 2014)

Town of Louisville, MS | Storm Recovery Project

Project Manager for Debris Monitoring Removal after major storm event in Louisville, Mississippi

Duties include:

- Oversight of entire project team from designer, General Contractor, client and all administrative staffs attached to numerous municipalities
- Budget oversight for entire project to include construction, design, permitting as well as land acquisition.
- Schedule oversight to ensure all projects are completed as expeditiously as possible to control extended costs for construction oversight.

Project Manager (2006 – 2008)

Tesoro Construction | US Coast Guard Station Gulfport, MS, \$16 Million

Project manager for the reconstruction of the US Coast Guard Station Gulfport MS. This was the first major reconstruction project started on the Gulf Coast after Hurricane Katrina stormed the Coast in 2005. Completed this project ahead of schedule within budget for the Coast Guard.

Various Positions (April 1977 – Jan. 2006)

U.S. Navy | CDR

Served in various positions of increased responsibility and complexity at various worldwide locations, demonstrating exceptional knowledge, skills, and abilities in the following areas:

- **Operations Management & Analysis** - in combat operations throughout Kuwait and Iraq
- **Construction Management** – managed budgets for civil engineering support equipment
- **Shops Engineer, Bermuda** – Naval Station Bermuda facilities maintenance program
- **Quality Assurance/Construction Inspector** – managed \$66M in annual contracts for 70 customers throughout the Hawaiian Islands, Guam and other Pacific Islands; provided precision engineering support services involving construction of buildings, pavements and utility systems; contract compliance with plans and specifications, inspection, field-testing and constructability reviews; prepared inspection and quality assurance criteria for critical phases of construction and installation; approved construction progress schedules and submitted materials, inspected completed work prior to acceptance; inspected all phases of construction and installation, including civil, architectural and structural, electrical and mechanical.

EXPERIENCE SUMMARY

Mr. Mark Dygert is an experienced professional providing program management services for hazard mitigation emergency preparedness/planning response and recovery. He has managed projects in that states of Texas, Louisiana, Georgia, South Carolina, and New Jersey, where he was responsible for implementing schedules for the contractor and providing client support for Federal Emergency Management Agency (FEMA) and Federal Highway Administration (FHWA) regulations and procedures.

FEATURED RELEVANT EXPERIENCE

Automated Debris Management System (ADMS) Specialist (May 2015–August 2015)

City of Houston, Texas | Severe Storms and Flooding Disaster Debris Program Management

Mr. Dygert was deployed as an ADMS operations manager for the City of Houston following severe storms and flooding that resulted in concentrated volumes of disaster debris in the City. Mr. Dygert assisted in the logistics and technical support of 130 ADMS units used by locally trained monitors to document the collection of over 300,000 CYs of debris. Tetra Tech takes great pride in its ability to support an activation with ADMS services designed to maximize production, and employees like Mr. Dygert are the reason for our success. Mr. Dygert also assisted with daily eligibility oversight and managed the truck certifications of over 300 units.

Deputy Project Manager (March 2014–April 2014)

Barnwell County, South Carolina | Winter Storm Pax Disaster Debris Program Management

Mr. Dygert served as project manager for Barnwell County, South Carolina, following Winter Storm Pax. Mr. Dygert successfully hired and trained approximately 60 field monitors and managed the documentation-intensive process of removing eligible hanging limbs from County roadways. Mr. Dygert was crucial in providing consultation to County officials, establishing reporting protocols and facilitation meetings between FEMA, County representatives, and the County's debris haulers.

Operations Manager (February 2014–April 2014)

City of Augusta, Georgia | Winter Storm Pax Disaster Debris Program Management

Mr. Dygert served as operations manager for the City of Augusta, Georgia, following Winter Storm Pax, where he managed the overall disaster recovery operations, including leaner and hanger removal for the City.

Deputy Project Manager (April 2013–September 2013)

City of Sioux Falls, South Dakota | Severe Winter Storm Disaster Debris Program Management

YEARS OF EXPERIENCE

3 Years

AREAS OF EXPERTISE

- Disaster Debris Management
- Right-of-Way/Right-of-Entry Debris Removal
- Private Property Programs
- Leaner/Hanger Programs
- FEMA Reimbursement

DISASTERS

- 4245 Texas severe storms
- 4166 SC Winter Storm
- 4165 GA Winter Storm
- 4115 SD Winter Storm
- 4087 Hurricane Sandy
- 4084 Hurricane Isaac
- 4029 TX Wildfires

Following an ice storm in April 2013, Mr. Dygert served as project manager for the City of Sioux Falls, South Dakota. His responsibilities included serving as the point of contact for the City throughout the recovery operations and managing right-of-way collections and leaner and hanger removal programs. Mr. Dygert managed the total debris collection using RecoveryTrac™.

Operations Manager (December 2012–January 2013)

City of Newark, New Jersey | Hurricane Sandy Disaster Debris Program Management

Mr. Dygert served as operations manager for the City of Newark, New Jersey, where he managed the operations for all debris collections and stump removal using our RecoveryTrac™.

Project Manager (November 2012–December 2012)

Borough of Sayreville and the Township of Ocean, New Jersey | Hurricane Sandy Disaster Debris Program Management

Following Hurricane Sandy, Mr. Dygert served as project manager for the Borough of Sayreville and the Township of Ocean, New Jersey. He was responsible for training monitors for right-of-way collections; managing tower monitoring and hazardous leaner, hanger, and stump removal; organizing the staffing of positions; and tracking the progress of the debris collections using RecoveryTrac™.

Operations Manager (August 2012–October 2012)

Jefferson Parish and the Cities of West Bank and Laffite, Louisiana | Hurricane Isaac Disaster Debris Program Management

Following Hurricane Isaac, Mr. Dygert served as the operations manager for multiple areas in Louisiana, where he managed over 80 locally hired debris monitors. He also provided oversight on right-of-way debris removal, and leaner and hanger removal and assisted with private property debris removal applications.

Project Manager (February 2012–June 2012)

Texas Department of Transportation | Drought & Wildfires Debris Removal Monitoring

Mr. Dygert served as operations manager following the drought that affected Texas in September 2011, where he managed all recovery operations, including right-of-way debris removal and leaner and hanger removal.

Operations Manager (September 2011–August 2012)

Bastrop County, Texas | Wildfire Disaster Program Management

Mr. Dygert served as operations manager, where he worked on right-of-entry properties to identify qualified trees for removal after more than 1,600 homes were destroyed following the largest and most damaging wildfire in Texas history.

EXPERIENCE SUMMARY

Mr. Adam Cook is a data manager for Tetra Tech, Inc., where his understanding of Federal Emergency Management Agency (FEMA) eligibility and documentation requirements for public assistance debris removal programs have aided him in quality control and oversight of many large projects over the last five years. Mr. Cook and Tetra Tech have focused on providing complete auditable datasets that maximize reimbursement and are Project Worksheet (PW)-ready.

As data manager for the City of Hattiesburg, Mr. Cook will be responsible for multiple functions during debris removal activities, including reporting and quality assurance/quality control (QA/QC) of all automated debris management system (ADMS) documentation in the field along with storing the documentation in preparation for future audits. He will also validate documentation and metrics being reported as accurate and on-schedule.

FEATURED RELEVANT EXPERIENCE

Data Manager (November 2015–Current)

Lake County, California | Catastrophic Fires| Disaster Debris Program Management

Following catastrophic fires that impacted Lake County in September 2015, many dead or dying trees that were a threat to fall and strike citizens along the right-of-way (ROW) needed to be addressed. Tetra Tech was hired to complete a hazardous tree mitigation program, which included both ROW trees and private property. Mr. Cook was deployed to provide the project with full-service data management, including geospatial plotting of arborist surveys, ROW debris removal, private property debris removal and packet management and closeout. Mr. Cook collected and oversaw documentation for 66 miles of ROW throughout the burned area of the County and 2,000 parcels.

Data Manager (May 2014–July 2014)

Limestone County, Alabama | Severe Storms and Tornadoes Disaster Debris Program Management

Following severe storms and tornadoes that impacted Limestone County, Mr. Cook was deployed as a data manager to provide quality assurance and quality control (QA/QC) of debris monitoring documentation. Mr. Cook also prepared daily status reports to provide the County with visibility into debris removal operations. Mr. Cook also worked with the County, Alabama Emergency Management Agency (AEMA), and FEMA to meet supporting documentation requests needed for the development of PWs.

YEARS OF EXPERIENCE

5 years

AREA OF EXPERTISE

- Data Management
- Quality Assurance/ Quality Control
- Collection/Disposal Monitoring
- Leaner/Hanger Removal
- Waterway Debris Removal
- FEMA Eligibility and Documentation
- Private Property Debris Removal
- Geospatial Data Management

DISASTERS

- 4240 Valley & Butte Fire
- 4176 AL Tornadoes
- 4166 SC Winter Storm
- 4155 SD Winter Storm
- 4115 SD Winter Storm
- 4087 Hurricane Sandy
- 4080 Hurricane Isaac
- 4106 CT Winter Storm

Data Manager (February 2014–May 2014)**City of Sumter and Sumter County, South Carolina | Winter Storm Pax Disaster Debris Program Management**

In February of 2014, Winter Storm Pax brought high-winds and significant ice accumulations to South Carolina. This combination resulted in disaster debris in Sumter County and Sumter City. Mr. Cook was deployed to the area as a data manager. He had the unique task of managing separate supporting documentation for the County and City to support maximum reimbursement for both local governments.

Data Manager (October 2013 - December 2013)**City of Rapid City, South Dakota | Winter Storm Atlas Debris Removal Program**

Following a severe winter storm in October 2013, Mr. Cook served as a data manager for the City of Rapid City, where he was responsible for data management, QA/QC, reporting, and documentation control. This project resulted in the removal of over 100,000 cubic yards of debris and the felling of over 8,000 hazardous trees and hangers.

Data Manager (April 2013 – August 2013)**City of Sioux Falls, South Dakota | Winter Storm Disaster Debris Program Management**

Mr. Cook served as a data manager for the City of Sioux Falls following a severe winter storm, where he was responsible for data management, QA/QC, reporting, and documentation control.

Data Manager (February 2013–April 2013)**New Jersey Department of Environmental Protection | Hurricane Sandy Waterways Vessel Removal Program Management**

Mr. Cook served as data manager following Hurricane Sandy, where he was responsible for the management and data creation of vessel removal tracking in New Jersey waterways, photo management of vessel removals, data management and tabulation, and monitoring document compliance.

Data Manager (November 2012–January 2013)**State of Connecticut | Hurricane Sandy Disaster Debris Program Management**

Following Hurricane Sandy, Mr. Cook provided data export creation, data management and tabulation, document compliance monitoring, and database support for staff for the State of Connecticut.

Data Manager (September–November 2012)**Jefferson Parish, Louisiana | Hurricane Isaac Disaster Debris Program Management**

Following Hurricane Isaac, Mr. Cook served as a data manager for Jefferson Parish, Louisiana. The Parish contracted the services of two debris removal contractors and as a result required all documentation to be managed separately. Mr. Cook was responsible for QA/QC, reporting, invoice reconciliation, and documentation control.

Data Manager (October 2011–April 2012)**State of Connecticut | Winter Storm Alfred Disaster Debris Program Management**

Mr. Cook served as a data manager for all Winter Storm Alfred debris removal projects in the State of Connecticut. Mr. Cook's tasks included QA/QC of field documentation, photo documentation management, project reporting, and data staff management and scheduling.

SECTION C: EQUIPMENT, TECHNICAL, AND FINANCIAL RESOURCES

J5 GBL and Waggoner, along with partner Tetra Tech, makeup the J5Waggoner Team for the City of Hattiesburg's debris monitoring project. With an optimum combination of local forces and national expertise, supported by the latest proven innovations in real-time truck and monitor tracking systems, the J5Waggoner Team offers Hattiesburg the best value in reliable and efficient services for this important first step in response and recovery from the January 21st tornado damage.

Together, the partners of J5Waggoner, LLC have over 50 years of combined experience in serving local governments and state agencies in Mississippi and Louisiana.

Personnel

Our ability to serve our clients begins and ends with our seasoned disaster recovery professionals. Our team consists of experienced emergency managers, disaster preparedness specialists, engineers, surveyors, and hazardous waste technicians who possess hands-on experience in recent disasters and emergencies as well as prevention, mitigation, preparedness, response, and recovery programs. The J5Waggoner Team's disaster recovery professionals have managed projects in response to hurricanes, floods, tornadoes, fires, ice storms, and straight-line wind events in 20 states with simultaneous activations in nine states.

Currently the two firms have a total staffing makeup of over 90 personnel, in four offices in Mississippi, with over 60 of those personnel located within 100 miles of Hattiesburg. To respond to Hattiesburg's needs in the most urgent and expedient fashion, J5Waggoner will combine experienced full-time managers (that have responded to tornado damage in Columbus, Louisville, and Smithville, and to Katrina in 2005), with local Hattiesburg labor forces. These forces will be enhanced and guided and supported by the national expertise of Tetra Tech, including an on-site dedicated data manager, and experienced trainers on-site to ensure all monitors and team members are in full use of the remote real-time technology units.

Equipment

J5Waggoner understands the critical nature of asset management and logistics following a disaster. To that end, the J5Waggoner Team maintains a warehouse located in Orlando with over 120 fully stocked bays of debris monitoring supplies capable of supporting over 50 simultaneous recovery operations for over 90 days. ***Our team has consistently deployed large-scale mobilizations of hundreds of staff and thousands of dollars' worth of equipment to multiple clients in a matter of days and on very short notice.***

Exhibit C-1 lists available equipment and facilities readily available upon activation.

Exhibit C-1: Resource List

Field Documents* Currently in Our Warehouse	
ADMS Handheld Units	825
Time and Materials Forms	9,446
Truck Certification Forms (Printer Rolls)	1,000
ADMS Ticket Stubs	530,000
Haul Out Ticket Stubs	50,000
Placards	4,500
Kits	
Project Manager Kits (1 Per 100 Monitors)	40

Section C: Equipment, Technical and Financial Resources

Project Coordinator Kits (1 Per 100 Monitors)	20
Human Resources Kits (1 Per 100 Monitors)	40
Collection Monitor Kits (1 Per 25 Monitors)	90
Disposal Monitor Kits (1 Kit Per Disposal Site)	40
Leaner/Hanger/Stump Kits (1 Per 50 Monitors)	40
Equipment**	
Laptops	250
Mifi (Mobile Wiireless)	250
High Speed Scanners	35
Printers	45
Mobile Command Office	3
Gas Trucks	To Be Obtained from Pre-contracted Vendor
Modular Work Locations	To be obtained from pre-contracted vendor
Generators	To be obtained from pre-contracted vendor
Portable Facilities	To be obtained from pre-contracted vendor

**All field documents are replenished as they are needed. Tetra Tech has several emergency vendors with the ability to fulfill supply needs in 24 hours or less.*

*** ADMS units are readily available and can be ordered as needed on a 24-hour turnaround.*

Financial

J5Waggoner is backed by two financially sound and successful firms – J5 GBL, LLC and Waggoner, one off the largest engineering firms in the mid-South. Our teaming partner, Tetra Tech, Inc., is a large firm with annual revenues of more than \$2.3 billion and approximately 16,000 employees. More detailed information concerning our firm's financial resources can be provided upon request.

SECTION D: PAST PERFORMANCE

DESCRIPTION AND HISTORY OF THE FIRM

Headquartered in Columbus, Mississippi, **J5Waggoner, LLC** (J5Waggoner) is a Mississippi-registered LLC formed by J5 GBL, LLC and Waggoner Engineering, Inc., offering unparalleled experience and subject matter expertise in the realm of debris monitoring and disaster recovery. J5Waggoner team members have been in business for over three decades, providing engineering based planning, design, and construction services to public and private

clients throughout the southeastern US.

J5Waggoner is an integration of capability, capacity, and compassion with the sole mission of meeting the needs of our clients. J5Waggoner realizes that clients are placing their trust in us to assist them in accomplishing their objectives and accelerating the recovery process; and we will ensure that we honor that trust with the commitment to excellence and respect that is deserved – and expected. The practical relationship created between J5Waggoner and the client fosters a level of accountability that continues throughout the life of the project.

As an organization we have embraced diversity as a part of. enables J5Waggoner to become integrated with the community and allows us to use people and resources within the community as a part of our team. This team-building approach empowers the community and leaves a sustainable positive impact that endures beyond the project's completion.

J5Waggoner has completed disaster recovery from every level; from initial assessment and inspection for housing needs, environmental assessments, impact statements, and feasibility studies for public works projects totaling several hundred million dollars in construction value, and has continued on to provide preliminary and final design and construction engineering services of selected alternative solutions.

The J5Waggoner partner firms have monitored storm debris removal efforts across Mississippi, for tornadoes in Columbus, Louisville, and Smithville, and for Hurricane Katrina on the Mississippi Gulf Coast. The partners collaborated most recently for the City of Meridian in responding to a sudden collapse of a major city drainage structure adjacent to the IHOP restaurant. J5 GBL's and Waggoner's fast action for the City were key to the response team's success in stabilizing the site and the drainage way with just moments to spare before a significant rain event, and preventing permanent loss of the adjacent building.

A copy of our authorization to do work in the State of Mississippi has been included at the end of this section.

Subcontractor – Tetra Tech, Inc.

Tetra Tech, Inc., (Tetra Tech) is a leading provider of consulting, engineering, and technical services worldwide. Founded in 1966, Tetra Tech is one of the leading firms in the nation in the field of disaster management and homeland security, with millions of dollars in revenue coming from contracts in such diverse areas as infrastructure hardening and protection; disaster recovery; emergency management, planning, and preparedness; community

resilience; disaster recovery, and grant management. Tetra Tech supports government and commercial clients by

providing innovative solutions to complex problems focused on water, environment, energy, infrastructure, and natural resources. With 16,000 employees worldwide, Tetra Tech's capabilities span the entire project life cycle.

Dedicated to helping state and local governments plan for and recover from natural and human-caused disasters, their staff members offer a field-tested and proven methodology for emergency readiness, continuity planning, and disaster recovery. ***Their team is recognized for its ability to quickly respond to a broad range of emergencies, allowing our clients to return to the business of running their day-to-day operations.***

Likewise, their team's understanding of the Federal Emergency Management Agency (FEMA), the Federal Highway Administration (FHWA) (including recent changes), and other reimbursement agencies' requirements for eligibility, documentation, and reimbursement helps clients receive the maximum reimbursement allowed. ***Their team has obtained over \$4 billion in reimbursement funds for clients*** from federal agencies such as FEMA, FHWA, and the Natural Resources Conservation Service (NRCS). In total, their team has successfully managed the removal of and reimbursement for over ***75 million cubic yards (CYs) of debris*** as well as the ***demolition of over 5,000 uninhabitable residential and commercial structures.***

KNOWLEDGE AND EXPERTISE IN DEBRIS MANAGEMENT

Recent Debris Monitoring Experience

J5Waggoner and Tetra Tech (hereinafter referred to as the J5Waggoner Team) has vast experience providing disaster management, recovery, and consulting services to state and local government agencies. Our approach includes partnering with our clients to establish and test the necessary plans and procedures before a disaster strikes and assisting with disaster response and recovery operations as well as post-disaster grant management. One of the keys to maintaining readiness in the field of disaster response and recovery is remaining active year-round. ***Our team has responded to 20 major disaster declarations since 2011, totaling over 140 clients throughout the country.*** Exhibit D-1 provides an abbreviated experience matrix for projects conducted since 2011. *Additional information can be provided upon request. Profiles and references from specific projects are featured later in this section. Tetra Tech can provide additional projects and information upon request.*

Large-Scale Debris Monitoring Experience

Our team understands the significant resource commitment and effort that is necessary to manage and monitor large-scale debris removal operations for local governments. We have monitored and obtained FEMA, FHWA, and NRCS reimbursement on **16 debris removal projects in excess of 1 million CYs of debris**.

Our team takes great pride in the reliability of our service. Clients count on us to respond in their time of need, and we deliver. Our team has never failed to respond to our clients' deployment and mobilization needs, regardless of location or type of disaster. **Exhibit D-2 summarizes our team's experience on large-scale debris monitoring projects for over 500,000 CYs of debris in the past 10 years.** Our services under these engagements included environmental permitting, DMS monitoring, contractor invoice reconciliation, and federal grant reimbursement support.

Exhibit D-2: Summary of Our Large-Scale Debris Monitoring Activations

Recent Debris Monitoring Experience

As requested in the City's RFP, below is a listing of **five similar projects completed within the last six years.**

Client	Year	Services Provided
Friendswood, Texas	2015	In the early morning hours of October 31, 2015, an EF2 tornado severely damaged several Friendswood homes and left public roads blocked by downed trees, powerlines, and other debris. Within 12 hours of the disaster, Tetra Tech responded to the City, sending a project manager immediately to the site. The project manager was able to assess the damage and meet with Friendswood officials. Upon notice to proceed, our firm mobilized a local team of debris monitors and established our ADMS for the City, focusing on the tornado path boundaries. Through the RecoveryTrac™ portal, City officials were able to observe the contracted debris hauler in real time, track task orders, and administer assistance to the citizens of Friendswood affected by the incident.  The City of Friendswood, Texas is a long-time client, and our firm has maintained contact and assisted the City in times of normalcy in addition to pre and post-disaster situations. Since 2007, Tetra Tech has supported the City on multiple projects, including debris monitoring after Hurricane Ike in 2008, Community Development Block Grant - Disaster Recovery (CDBG-DR) application development, and most recently, disaster debris monitoring in 2015. Reference: Brian Mansfield, Assistant Emergency Management Coordinator Phone: (832) 875-2365 Email: b.mansfield@ci.friendswood.tx.us
Meridian, Mississippi	2015	On the evening of November 7, 2015, the City of Meridian suffered the collapse of a major drainage structure located adjacent to Interstate 20. The collapse created an earthen opening approximately 35-feet wide, 30-feet deep, and 400-feet long. The collapse caused several million dollars in property damage, threatened the economic viability of businesses in the area, and posed a major flooding threat to the most commercially-dense area of the City. Located in a City easement, the structure serves as the primary drain for Bonita Lakes and drains into Sowashee Creek, the City's primary drainage conveyance. 

Section D: Past Performance

Client	Year	Services Provided
		The City immediately declared a state of emergency and engaged Waggoner Engineering, Inc. d/b/a MSEG to perform emergency services to stabilize the embankment, secure the adjacent restaurant building, and to open the drainage course to relieve the potential for upstream flooding. The emergency design commenced on November 12th, finished on November 13th, was bid and awarded on the 14th and 15th, construction commenced on the 16th, and the emergency construction was completed on the 17th, in advance of heavy rains the night of November 17th - an amazingly compressed schedule for a tremendous amount of complex design and delicate construction. Reference: Percy Bland, Mayor Phone: (601) 485-1927 Email: RichieMcAlister@meridianms.org
Limestone County, Alabama	2014	On April 28, 2014 a tornado that was 600 yards in width and created a 16 mile swath of damage swept through Northern Alabama leaving 417 homes damaged, including 169 homes completely destroyed. In the aftermath of the tornado, Limestone County (County) activated our team's contract to mobilize and begin the arduous task of monitoring and documenting the eligible removal and reduction of over 100,000cyds of debris. Upon notice to proceed, our staff immediately began the hiring and training of local staff, assisted in the selection of a debris management site (DMS), certified debris hauling vessels, and engaged our automated debris management system (ADMS), RecoveryTrac™. In addition to monitoring and documenting 100,000+ yards of debris along the County's right-of-way, our staff documented the eligible removal of nearly 1,000 dangerous hanging limbs, and hazardous leaning trees.  In addition, our team worked closely with County and FEMA officials to identify eligible stumps for removal as well as overcome some stump approval list version control issues that were created beyond the control of our team or any County official. Throughout the project our RecoveryTrac ADMS was used to generated real-time, accurate, and easily accessible reports that were made available to County stakeholders at all times, allowing County officials to monitor field progress as well as financial expenditures. Upon completion of field operations, our team had processed and delivered an accurate final data export to the County in 3 days. Reference: Richard Sanders, Limestone County Phone: (256) 233-6681 Email: Richard.Sanders@limestonecounty-al.gov
Blount County, Alabama	2014	Following the destructive tornadoes that swept across Northern Alabama in late April 2014, Blount County activated our team's contract to monitor and document the eligible collection, reduction, and disposal of nearly 80,000 cubic yards (CYs) of vegetative debris and 667 tons of construction and demolition debris. In addition, our team documented the eligible removal and disposal of 442 hanging limbs, 512 leaning trees, and 86 stumps. Our ADMS system generated real-time, accurate, and easily accessible reports that were made available to all County stake-holders to allow County officials to monitor field

Client	Year	Services Provided
		progress as well as financial expenditures. Upon completion of field operations, our team had processed and delivered an accurate final data export to the County in 2 days. Reference: Don Roybal, Blount County Phone: (205) 625-4121 Email: ema@co.blount.al.us
Raleigh, North Carolina	2011	On April 17, 2011, the City of Raleigh and many other communities throughout the State of North Carolina were surprised by a mid-day series of severe storms, which caused widespread damage to homes and facilities. Within hours of the storm's passage, our team was immediately in coordination with City of Raleigh and the Raleigh Parks Department staff to begin assessing the need for contractor assistance. Since 2009, our team has served as the City of Raleigh's stand-by debris monitoring contractor. In response to the disaster, our team trained and oversaw the City's debris monitors for the removal of hazardous trees and limbs along the City's rights-of-way and within City parks. Our team was on-site in less than 12 hours to begin in-person consultations with City staff and began training staff for immediate deployment. Our team monitored the removal of over 5,000 hazardous limbs and trees throughout the City. Subsequent to our initial task order, the City also activated the contract with our team to oversee debris removal and hazard removal activities in the City's historic cemetery. Reference: Sally Thigpen, Urban Forrester, City of Raleigh Phone: (919) 996-4858 Email: Sally.thigpen@raleighnc.gov

Additional Experience

The listing below provides additional information about our team's experience assisting clients with recovering from tornado and hurricane related disasters. Additional project information can be provided upon request.

Client	Year	Services Provided
Norman, Oklahoma	2010	Our firm was retained by the City of Norman to assist with managing and documenting cleanup efforts following the May 2010 tornadoes that tore through the Southern Plains. The tornadoes had a devastating impact on the community, killing five people and injuring dozens more. The storms caused extensive damage, including flattened homes, toppled semitrailers, and downed power lines. Our firm immediately mobilized response teams to the area to assist the City in identifying critical debris removal areas and initiating its right-of-way debris removal operation. Our team monitored the collection and disposal of approximately 31,900 CYs of debris. Our team provided program management services to monitor and document the massive amount of data used to secure reimbursement from FEMA, which covered a portion of the cost of debris removal.

Section D: Past Performance

		Reference: Shawn O'Leary, P.E., CFM, Director of Public Works Phone: (405) 366-5453 Email: shawn.oleary@normanok.gov
Lake County, Florida	2007	Following our assistance to Lake County in 2004 after Hurricanes Charley, Frances, and Jeanne, our team was again retained by Lake County to assist with managing and documenting cleanup efforts for the Groundhog Day Tornadoes that swept through Central Florida during the early morning hours of February 2, 2007. Two of the tornadoes, which cut a path of destruction across parts of the County, registered as a category F3 on the recently modified Fujita scale, meaning winds were in excess of 165 miles per hour. The tornadoes left a devastating impact on the community with 20 people dead, dozens injured and some neighborhoods completely destroyed. Due to corporate headquarters located in Orlando, Florida, our team was able to immediately mobilize for this no-notice event. Tetra Tech assisted the County with identifying critical debris removal areas and initiating ROW debris removal operations. Our team supervised all aspects of debris collection operations and monitoring, including monitoring work areas with multiple trucks, issuing load tickets for each debris load removed, and monitoring work performance and productivity. The team also provided troubleshooting for potential problems; coordinated with central dispatch/staging; surveyed areas for special collection needs such as tree stumps, hazardous trees, and construction and demolition (C&D) debris; and closely recorded the streets that had been completed. Reference: Kristian L. Swenson, Interim Facilities Director Phone: (352) 742-6512 Email: kswenson@co.lake.fl.us
Volusia County, Florida	2007	Our firm was retained by Volusia County to assist with monitoring cleanup efforts following the Groundhog Day tornadoes that swept through Central Florida during the early morning hours of February 2, 2007, leaving 20 people dead and many others injured and without homes. Two of the tornadoes, which cut a path of destruction across parts of the County, registered as a category F3 on the newly released Fujita scale, meaning winds were in excess of 165 miles per hour. Our firm immediately mobilized response teams to the area to assist the County in identifying critical debris removal areas and initiating its ROW debris removal operation. Our team monitored the collection and disposal of approximately 135,000 cubic yards of debris. Our team provided program management services to monitor and document the massive amount of data used to secure reimbursement from FEMA, which covered a portion of the cost of debris removal. Reference: Mr. George Recktenwald, Public Works Director Phone: (386) 736-5965 ext. 2207 Email: grecktenwald@co.volusia.fl.us
Ridgeland, MS	2005	After Hurricane Katrina, the City of Ridgeland retained the services of Waggoner to develop the documentation for FEMA reimbursement for the City's debris removal effort. Ridgeland depended on Waggoner to identify and properly document the FEMA eligibility of expenses incurred.  The Waggoner team of Debris Removal Monitors (DRMs) and engineers monitored the debris removal private contractor's activities, recorded on load tickets the quantity of

debris being hauled, and ensured proper documentation for payment purposes and reporting to FEMA. Tasks included project management, on-site observations of work in progress, field checks of materials and equipment, and measurement and verification of the volume of debris collection and disposal.

Experience Coordinating with Federal, State, and Local Funding Sources and Reimbursement Processes

Throughout the course of the hundreds of debris management and grant management projects that our staff has administered for state and local governments across the United States, our team has developed a unique understanding of the FEMA organization and other regulatory agencies' policies and procedures. Our team maintains strong relationships with many of the lead federal coordinating officers, debris specialists, Public Assistance (PA) coordinators and officers, and other staff. Our team also understands the duties and responsibilities of emergency management personnel at the state and local level, which helps us build strong relationships. Our team has worked with hundreds of local government emergency management agencies and dozens of state emergency management organizations following disaster debris-generating events.

Our team has worked closely with FEMA and FHWA staff in the determination of debris eligibility, data requirements, project worksheet/detailed damage inspection report development, auditing of documentation, and reimbursement requirements. This includes providing step-by-step assistance to clients throughout the FEMA reimbursement process.

To maximize PA funding for our clients, our staff members maintain a working relationship with FEMA at the headquarters, regional, and local levels. Constant communication and regular interface with FEMA allows our team to obtain quick responses on disaster-specific guidance and issues.

Moreover, Tetra Tech maintains a full-time staff to assist our clients in obtaining reimbursement. **Mr. Dick Hainje**, former regional administrator of FEMA Region VII, has been responsible for deploying and managing over 2,000 emergency management employees following disasters and created a long-term community recovery process for FEMA Region VII. Mr. Hainje has assisted clients with navigating the reimbursement process and obtaining clarification on FEMA policies. Mr. Hainje also led the response, recovery, and mitigation for the historic 2008 Midwest flooding event, where he was the regional administrator in charge of over 1,000 FEMA employees deployed to this event.

Additionally, our data management and document storage procedures are tailored to facilitate FEMA review of the generation of project worksheet versions throughout the project. ***Our FEMA appeals and funding specialists have worked with FEMA closeout officers to obtain millions of previously deobligated dollars for communities.***

In the field, our operations managers and field supervisors fully understand FEMA rules and regulations for hand-loaded vehicles; stump, limb, and tree removal at unit rates; volumetric load calls at temporary disposal site locations; and right-of-way (ROW) debris removal eligibility. This allows us to monitor contracts to the smallest

WHAT DO OUR CLIENTS SAY?

"Your team assisted us with FEMA PA Grant Program application and administration, FHWA ER technical assistance, FEMA HMGP grant application, and HUD CDBG-DR project identification, technical assistance, and application development representing a combined estimated \$280 million in federal grants—the largest grant application in Boulder County's history.

Boulder County has been very pleased by the work of your team and would absolutely recommend them to any other state or local government agency in the aftermath of a disaster."

**Michelle Krezek, Commissioners' Deputy
Boulder County, Colorado**

Section D: Past Performance

detail while concurrently managing and documenting the operation using proven methodologies that maximize FEMA reimbursement. ***Our understanding of reimbursement agencies' requirements for eligibility, documentation, and reimbursement has helped our clients obtain over \$4 billion in reimbursement funds from federal agencies such as FEMA, FHWA, and the NRCS.***

Jackson, Mississippi

Certificate of Good Standing

I, C. DELBERT HOSEMANN, JR., Secretary of State of the State of Mississippi, and as such, the legal custodian of the records as required by the laws of Mississippi, to be filed in my office, do hereby certify:

That on the 31st day of January, 1986, the State of Mississippi issued a Charter/Certificate of Authority to

WAGGONER ENGINEERING, INC.

That the state of incorporation is Mississippi.

That the period of duration is perpetual.

That according to the records of this office, Articles of Dissolution or a Certificate of Withdrawal have not been filed.

That according to the records of this office, a current Annual Report has been delivered to the Office of the Secretary of State.

I further certify that all fees, taxes and penalties owed to this state, as reflected in the records of the Secretary of State, have been paid and that the corporation is in existence or has authority to transact business in Mississippi.

That insofar as the records of this office are concerned, the said Waggoner Engineering, Inc. is in good standing at this time.

Given under my hand and seal of office
the 7th day of April, 2016

A handwritten signature in dark ink that reads "C. Delbert Hosemann, Jr." in a cursive style.

SECTION E: COST ASSUMPTIONS

This pricing estimate included on the previous page is based on the following key assumptions and constraints.

Exhibit E-1: Debris Estimate Based on Number of Homes Damaged

Level of Damage	Homes	Cubic Yards (CY)/Home (Construction & Demolition)	CY/Home (Vegetative)	Total CY
Partial	750	30	10	30,000
Total	250	300	30	82,500
TOTAL				112,500

Exhibit E-2: Contractor Resource Assumption

Quantity	Description
12	Trucks (loading units) 1 monitor per loading unit
6	Trailers attached to Trucks
40	CY/load
6	Loads/day
4,320	CY/day
26	Total days to collect using the above assumptions

Exhibit E-3: Estimated Cost

Quantity	Position	Hours/Day	Total Days	Total Hours	Estimated Rates	Cost
1	Project Manager	10	31.0	310.42	\$ 65.00	\$ 20,177.08
2	Field/Roving/Operations Debris Managers	12	26.0	625.00	\$ 49.00	\$ 30,625.00
12	Field Debris Monitors	11	26.0	3,437.50	\$ 33.00	\$ 113,437.50
2	Fixed Site Monitors	12	26.0	625.00	\$ 33.00	\$ 20,625.00
1	Data Manager	12	31.0	372.50	\$ 49.00	\$ 18,252.50
1	Clerical	12	26.0	312.50	\$ 32.00	\$ 10,000.00
TOTAL						\$ 213,117.08

ATTACHMENT B (REVISED)**COST SHEET (may be modified to meet Respondents requirements)**

CITY OF HATTIESBURG DR-XXXX	Estimated Requirements *	Per Hour Rate
Project Manager	1 x 10 hrs/day x 31 days	\$65.00
Field Monitor	12 x 11 hrs/day x 26 days	\$33.00
Roving/Operations Debris Managers	2 x 12 hrs/day x 26 days	\$49.00
Fixed Site Monitors	2 x 12 hrs/day x 26 days	\$33.00
Data Manager	1 x 12 hrs/day x 31 days	\$49.00
Clerical	1 x 12 hrs/day x 26 days	\$32.00

Forms

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, J5WAGGONER, LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

ADDENDUM #1

for

"Debris Monitoring for Tornado date January 21, 2017"

The following items will be added to the City of Hattiesburg "Debris Removal for Tornado dated January 21" RFP:

1. Attachment "A" City of Hattiesburg Historical Registry was not included in the original RFP. Although there are an immense number of locations within the Register none of the locations were damaged by the January 21st Tornado. The Attachment is included in this Addendum for review.
2. Questions for the RFP are due by Thursday January 26, 2017 at 12:01 PM. Questions should be submitted to Lamar Rutland City Engineer at lrutland@hattiesburgms.com or fax at 601-545-4642.
3. It was the intent of the City of Hattiesburg to attach the Contract Template and was overlooked while distributing the RFP. The Contract Template is attached to this Addendum for review.
4. Under Summary of the RFQ page 1 first paragraph the Bid will be opened on Saturday January 28th, 2017 **at 10:00 AM**, please add and note the time.

Kermas Eaton, City Clerk

ADDENDUM #2

for

"Debris Monitoring for Tornado date January 21, 2017"

1. On page 18 of the RFP for Debris Monitoring Assistance for Hattiesburg, MS there is a position description for both a Field Debris Monitor and a Roving/Operations Manager. These are listed together, but appear to be two separate positions. A Field Monitor would typically be the employee assigned directly to a collection vehicle monitoring the debris removal and issuing a load ticket while as your description states "A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors" and this would be a management and supervisory position. However, the cost form in Attachment B combines these into a single "Field/Roving/Operations Debris Managers" Position and does not seem to have a space for just a regular Field Monitor. Would the City please consider issuing a revised cost sheet to clarify that these are two separate positions so they can be appropriately priced as such in the responses received.

Answer: This item has been revised. See ATTACHMENT B (Revised)

Office of City Engineer

ATT: Mr. Lamar Rutland

Subject: Request For Proposal for Debris Monitoring Services Response

DebrisTech, LLC is a full service Debris management firm which is built upon a foundation of experience, knowledge and technology. The team at DebrisTech is comprised of individuals with direct and relevant experience in the field of disaster response and recovery, including disaster debris monitoring. In addition, our integral but non-human part of our team, is an Electronic Debris Management System which incorporates cutting edge technology and industry first process automation which serves as a real time audit system for all debris removal operations. The core of our operations are built upon streamlining the recovery process while automating the data collection for reimbursement purposes, ultimately ensuring the entire process operates quickly and efficiently.

Following the aftermath of the 2013 Moore, Oklahoma F5 Tornadoes, FEMA created a Best Practices video that highlighted our Firm's work in that area. One FEMA Official described our operation as "The most effective debris monitoring operation I've seen in the field and believe this could be a model for debris monitoring in the future." The complete video is available for online viewing at: www.fema.gov/media-library/assets/videos/83001

Our most recent experience includes Atlantic Beach, FL (October 2016), Jacksonville Beach, FL (October 2016), Clinton, LA (August 2016) Central, LA (August 2016) Baker, LA (August 2016), Tangipahoa Parish, LA (August 2016), Tangipahoa Parish, LA (March 2016), Marshall County, MS (January 2016), Benton County, MS (January 2016), Marion County, MS (December 2014), City of Tupelo, MS (May 2014), City of Pearl, MS (May 2014), Itawamba County, MS (May 2014), and Winston County, MS (May 2014). A more detailed description of each of these projects, plus many others are included in our proposal.

DebrisTech is prepared to provide a single source solution to the City of Hattiesburg for Monitoring Services upon acceptance of this proposal. Please feel free to contact me directly on my cell phone, 601-916-1113, if there should be any further information required.

Thank you,

Brooks R. Wallace, P.E.
Principal

Protecting Communities. Leading Recovery.

925 Goodyear Boulevard ~ Picayune, Mississippi 39466 ~ www.DebriTech.com

Why DebrisTech is Hattiesburg's Best Solution

1. Recent, Relevant Experience

DebrisTech, LLC is a full service Debris Monitoring service provider, solely focused on providing it's Clients with a personalized and professional debris monitoring solution. Based in Picayune, MS, DebrisTech provides Debris Monitoring Services to clients across the United States. Since 2012, DebrisTech has served 11 different Mississippi County and Municipal Governments. In 2016 alone, DebrisTech provided Debris Monitoring Services to 12 Clients in 5 different States, in response to 5 Federally Declared Disasters. Our experience is very recent and very relevant to the scope of services outlined in the City's RFP.

2. Cutting Edge Technology

DebrisTech has the most innovative, advanced, user friendly Automated Debris Management System (ADMS) in the industry. Using an ADMS eliminates the manual labor, human error, and potential fraudulent activities associated with the traditional paper ticket system. The DebrisTech ADMS has many different Fraud and Abuse countermeasures to protect the City from potential costly de-obligations. This is why many entities are requiring the use of an ADMS and not allowing the traditional paper ticket system. Our system was developed and coded in house, by people with direct experience with the debris monitoring process. Our system is the only system in the industry that has a 3 point scan, with pictures, GPS coordinates and timestamps included at every stage of the debris removal process, all delivered to our Clients in Real Time. Also, as mentioned in the Proposal Cover Letter, FEMA made a Best Practices Video following the 2013 Moore, Oklahoma F5 Tornado that featured our system.

3. Simple, Competitive Pricing

DebrisTech's pricing structure is very simple and very straightforward. Our rates are all inclusive and there are never any additional expenses for travel, per diem, office supplies, etc. The use of our Automated Debris Management System (ADMS) is also included in the rates listed in our proposal. Most of our competitors have additional hourly charges if the Client wants to use an ADMS. Also, there are some positions listed on the price proposal form that are not necessary when using the DebrisTech's ADMS. Not utilizing these positions will certainly result in a cost savings to the City.

4. Innovative Right-of-Entry Module

DebrisTech's Right of Entry Module is seamlessly integrated into the DebrisTech ADMS. Our ROE System simplifies the entire ROE process by tracking each property from the Application Phase to the Final Inspection and Closeout Phase. Our system was developed and implemented for Moore, Oklahoma in 2013 and was the model for Louisiana following the 2016 Floods. Not all disasters qualify for ROE assistance. However, we have the knowledge and experience to request and implement the program when the Disaster Specific Guidance permits.

5. Personal Attention, Unmatched Service

DebrisTech takes pride in cultivating personal, lasting relationships with our Clients. We realize that most of our Clients call on us during times of distress, and we recognize the tremendous responsibility associated with accurately and thoroughly documenting the debris removal process. This is why one of our Principals will always be on site during the startup phase of the project. For most Clients, Debris Removal is the single largest expense resulting from a natural disaster. Improper or incomplete Debris Monitoring can potentially cost the City millions in reimbursements. DebrisTech is committed to providing the City with the attention and service that is second to none.

Protecting Communities. Leading Recovery.

925 Goodyear Boulevard ~ Picayune, Mississippi 39466 ~ www.DebrisTech.com

Profile

DebrisTech, LLC

When a major disaster strikes, it is critical that response and recovery efforts be carried out quickly, safely, and efficiently. By utilizing electronic debris tracking technology and partnerships with industry leaders, DebrisTech is able to provide instantaneous, detailed, and accurate tracking information on debris removal and disposal – helping those those affected find stability, recovery, and reimbursement as quickly as possible.

Since 2010, our Electronic Debris Management System provides real time access to all aspects of debris removal operations through the DebrisTech Central Information Database. Debris Removal Monitors equipped with our patented tracking devices keep a bullet-proof digital record from start to finish.

Modeled after proven debris monitoring methods, DebrisTech replaces hand written tickets with real time data collection devices, raising the bar for documentation and security. Built-in automated fraud detection and audit tools reduce the risk of fraudulent activities and minimize the potential of costly de-obligations. The system can also provide real time access to agencies, such as FEMA or the Inspector General, so that auditors can begin their task early... which means quicker reimbursement, and quicker recovery.

Brooks Wallace, P.E. is the Managing Member of DebrisTech, LLC. DebrisTech is a Mississippi Limited Liability Corporation authorized to perform business in the State of Mississippi. The federal identification number is 27-3362906.

Protecting Communities. Leading Recovery.

Debris Removal Monitoring Services which ensure:

- Efficiency
- Accuracy
- Cost Effectiveness
- FEMA Compliance
- Safety
- Equity

FEMA Compliance

Monitoring the debris removal process from site loading to disposal with electronic tracking ensuring FEMA COMPLIANCE. Accurate documentation of debris removal and disposal operations and eligible associated costs is essential for any and all grant reimbursements from FEMA. DebrisTech's Debris Monitoring System Documentation, will verify to FEMA that your debris removal operations are eligible for reimbursement, costs are reasonable, that contract and procurement processes are appropriate, quantification of the debris is accurate, and the tracking of the debris to its final disposition is recorded and in absolute compliance with all regulatory requirements. Our debris monitors understand FEMA policies and guidelines, including eligibility issues and specifically those relating to debris. However, each disaster is unique and we will work with you and FEMA to develop any specific protocols necessary for your particular situation.

DebrisTech will Identify possible health/safety risks, verify operational compliance with FEMA eligibility criteria, check debris loading, staging, reduction, and disposal sites to ensure compliance with PA eligibility criteria, validate truck and trailer capacity certifications, evaluate operational efficiency, and oversee documentation requirements as outlined by FEMA. Our goal is to handle all monitoring of the debris removal process to ensure all guidelines are followed and your operations meet FEMA eligibility requirements.

City of Hattiesburg Response Team

The number of Monitors will be dependent on the number of loading operations being operated by the Debris Removal Contractor.
The Field Supervisor position will be staffed at one Supervisor per ten Monitors.

Protecting Communities. Leading Recovery.

Section 1: Plan For Debris Monitoring

Scope of Service

Management Plan Technical Approach

DebrisTech understands that the City requires disaster debris monitoring services to support the oversight and management of debris recovery contractors and other damages incurred in the City following a natural disaster. DebrisTech shall be prepared to provide a range of services including field monitoring, and other services as needed and ordered by the City.

Debris Monitoring Services

The Client requires the support of DebrisTech's Debris Removal Management Team following a natural disaster, and debris management expertise. The contract monitors are necessary to assure Federal Emergency Management Agency (FEMA) emergency plan and debris removal contract requirements are met by monitoring the debris removal from public access roads, rights-of-way, private property, drainage areas, waterways, and other public, eligible or designated areas. DebrisTech will provide services which may include:

1. Coordinate daily briefings, work progress, staffing, and key items with City officials.
2. Selection and permitting of DMS locations and any other permitting/regulatory issues as necessary.
3. Scheduling work for all team members and contractors on a daily basis.
4. Hiring, training, scheduling, and managing field staff.
5. Monitoring recovery contractor operations and making/implementing recommendations to improve efficiency as well as speed up recovery work and assure all debris removal work meets FEMA eligibility guidelines.
6. Assisting City officials with responding to public concerns and comments.
7. Certifying contractor vehicles for debris removal using methodology and documentation practices appropriate for contract monitoring.
8. Furnishing and operating an automated/electronic (**paperless**) debris tracking system.
9. Develop daily operational reports to keep the City informed of work progress.
10. Development of maps, GIS applications, etc. as necessary.
11. Comprehensive review, reconciliation, and validation of debris removal contractor(s) invoices prior to submission to the City for processing.
12. Project Worksheet and other pertinent report preparation required for reimbursement by FEMA, and any other applicable agency for disaster recovery efforts by City staff and designated debris removal contractors.

Positional Duties

1. General

- 1.1. **The Client requires the support of DebrisTech's Debris Removal Monitoring Team following a debris-generating event such as a hurricane, storm, or other event and debris management expertise.** The contract monitors are necessary to assure Federal Emergency Management Agency (FEMA) emergency plan and debris removal contract requirements are met by monitoring the debris removal from public access roads, rights-of-way, and public property, monitoring the debris management sites, as well as roving debris monitors, to assure that the debris management plan and contracts are effectively and efficiently implemented. The Client will assign a Debris Manager (DM). The Debris Manager will be the primary point of contact for DebrisTech and will resolve contract administration issues and disputes.
- 1.2. **Within 24 hours of notification,** DebrisTech will provide adequate number of professionals and qualified personnel to monitor all debris loading sites and debris management sites along with associated roving debris monitors. DebrisTech will increase its staffing from this point depending on the severity of the debris managing event. At the discretion of the The Client's Debris Manager, DebrisTech may be required to replace any debris monitor.
- 1.3. DebrisTech shall provide all debris monitors with appropriate personal protective equipment to include, but not be limited to, eye protection, hearing protection, safety shoes, safety vests, hard hats, and wet and cold weather clothing, to comply with all federal, state, and local requirements.
- 1.4. DebrisTech will provide debris monitors with the means to communicate (cell phone, satellite phone, radio, etc.) with their supervisor or the Debris Manager as may be necessary. DebrisTech supervision is responsible for resolving issues with truck drivers, and other contractor's personnel.
- 1.5. DebrisTech will utilize the **DebrisTech Electronic Debris Management System** to collect and report documentation of debris removal activities. More information about the DebrisTech Electronic Debris Management System is provided in herein.
- 1.6. DebrisTech will provide temporary office space and temporary sanitary facilities as necessary.

2. Load Site Monitoring Services

- 2.1. The primary function of the Loading Site Monitors is to issue debris load tickets for eligible debris cleared.
- 2.2. DebrisTech will within 48 hours, be prepared to provide qualified on site personnel to monitor debris removal operations at all debris loading sites located throughout the Client's designated area. Additional sites may be added as debris removal efforts increase. Each loading site may operate, approximately 12–14 hours per day, 7 days per week. The Client's Debris Manager in coordination may determine the exact number and location of loading sites with the debris removal contractor.
- 2.3. DebrisTech will provide all employees with **DebrisTech handheld devices**. These devices will provide each employee the ability to capture GPS coordinates, take digital photographs and communicate wirelessly with the DebrisTech Central Information Database. DebrisTech will also provide the Client with management, supervision, labor,

transportation, mobile communication equipment, all safety equipment, and other equipment necessary to initiate debris load tickets to document the removal of eligible debris from public access roads, public rights-of-way, and public property within the Client's designated area.

- 2.4. DebrisTech will be prepared to provide a **Loading Site Monitor per site** per day at a minimum of a 12-14 hour shift. DebrisTech will provide personnel with transportation to and from loading site(s), mobile communications equipment necessary to remain in contact with dispatch and supervisor(s) at all times, and all logistical support.
- 2.5. All Loading Site Monitors will speak English, be a minimum of eighteen (18) years of age and have a valid driver's license issued in the United States.
- 2.6. All Loading Site Monitors will have experience in at least one (1) of the following:
- Entry Level Engineer
 - Construction Inspector
 - Entry Level Surveyor
 - Previous Similar Monitoring or Inspection Experience
 - Solid Waste Site Operations
 - Land Clearing Operations
 - Solid Waste Collections
- 2.7. Supervisors and all identified Loading Site Monitors will attend a **½ day debris monitor training session**. Training will be the responsibility of DebrisTech and will be coordinated with the The Client's Debris Manager.
- 2.8. Monitors will be capable of working in an outside environment and be able to climb a staircase ladder of 10 feet high.

3. Debris Management Site Monitoring Services

- 3.1. The primary function of the Debris Management Site Monitors is to complete the documentation of the load and estimate volumes that have been transported to the debris management site for processing or storage, and/or disposal.
- 3.2. DebrisTech will provide **Debris Management Site Monitors** with DebrisTech handheld devices. These devices will provide each employee the ability to capture GPS coordinates, take digital photographs and communicate wirelessly with the DebrisTech Central Information Database. The Monitor will input the estimated debris volume into the DebrisTech handheld device which will automatically upload all the load information into the Central Information Database and generate a paper disposal ticket for the driver. DebrisTech will also provide Debris Site Monitors with all safety equipment and other equipment necessary to safely perform the site monitoring functions.
- 3.3. Monitors will speak English, be capable of working in an outside environment, and be able to climb a staircase ladder of 10 feet high.
- 3.4. Monitors will be a minimum of eighteen (18) years of age and have a valid driver's license issued in the United States.
- 3.5. Monitors will have experience in at least one of the following job categories:
- Entry Level Engineer
 - Construction Inspector
 - Entry Level Surveyor
 - Previous Similar Monitoring or Inspection Experience
 - Solid Waste Site Operations
 - Land Clearing Operations
 - Solid Waste Collections

- 3.6. Supervisors and all identified Debris Management Site Monitors will attend a ½ day debris monitor training session. Training will be the responsibility of DebrisTech and will be coordinated with the Client's Debris Manager.

4. Roving Debris Monitor Services

- 4.1. The function of the Roving Debris Monitor is to verify that only eligible debris is being removed from designated public rights-of-way and public property within assigned debris pickup zones in the Client's designated area.
- 4.2. DebrisTech will provide at least **one (1) monitor for each debris pickup zone** to monitor and verify eligible debris removal from designated public access roads within the debris pickup zone. The Roving Debris Monitor(s) will be prepared to operate a minimum of 12 to 14 hours per day, 7 days per week and will be responsible for 10 load site monitors each.
- 4.3. DebrisTech will provide all Roving Debris Monitors with DebrisTech handheld devices. These devices will provide each employee the ability to capture GPS coordinates, take digital photographs and communicate wirelessly with the
- 4.4. DebrisTech Central Information Database. DebrisTech will also provide the Client with management, supervision, labor, transportation, mobile communication equipment, all safety equipment, and other equipment necessary to initiate debris load tickets to document the removal of eligible debris from public access roads, public rights-of-way, and public property within the Client's designated area.
- 4.5. All Roving Debris Monitors will speak English, be a minimum of eighteen (18) years of age and have a valid driver's license issued in the United States.
- 4.6. All monitors will have experience in at least one of the following job categories:
- Entry Level Engineer
 - Construction Inspector
 - Entry Level Surveyor
 - Previous Similar Monitoring or Inspection Experience.
 - Solid Waste Site Operations
 - Land Clearing Operations
 - Solid Waste Collections
- 4.7. Supervisors and all identified Roving Debris Monitors will attend a ½ day debris monitor training session. Training will be the responsibility of DebrisTech and will be coordinated with the Client's Debris Manager.
- 4.8. DebrisTech will provide all management, supervision, labor, transportation, and equipment necessary to monitor the operations of the debris removal and disposal Contractor.
- 4.9. Roving Debris Monitors will be capable of working in an outside environment, and be able to climb a staircase ladder of 10 feet high. Debris Project Management Services

5. Project Manager

5. DebrisTech will provide the Client, the services of an experienced professional Project Manager to assist the Client in the operations and coordination of all activities associated with the Debris Management. The qualified individual will have direct debris management experience including the management of debris removal operations, the oversight of temporary debris storage and reduction sites, debris recycling and disposal, as well as management and coordination of post debris causing event recovery and FEMA reimbursement guidelines.

5.1. The Project Manager shall be available at all times to the Debris Manager.

6. Operational Requirements

6.1. **General Operating Procedures:** The Client may hire a Contractor(s) to remove and transport disaster debris from the public access roadway, rights-of-way, and public property within the Client's designated area to debris management/disposal sites. **Each load of eligible debris shall be tracked using the DebrisTech Electronic Debris Management System.** The following guidance provides the basic procedure for the debris removal documentation process. Revised procedures, if necessary, may be established by the Debris Manager and shall be followed by DebrisTech in lieu of the following procedure.

6.2. **Load Tickets Section 1:** The Debris Loading Site Monitor is responsible for collecting specific information about each load of debris. **The Monitor will utilize the DebrisTech handheld device to scan the barcode on the truck placard.** Scanning the barcode on the truck captures the unique truck identification number which is used by the Central Information Database to relate specific information about the truck to the specific load. When the truck barcode is scanned, the DebrisTech handheld device automatically **captures the current GPS coordinates along with a date and timestamp.** The Monitor will then use the handheld device to take a digital picture of the loaded truck at the site and scan the barcode on a pre-printed paper ticket. The paper ticket is given to the truck driver and all information collected for **the load is wirelessly uploaded to the Central Information Database.**

6.3. **Load Tickets Section 2:** The Debris Management Site Monitor is responsible for determining the estimated volume of debris for each truck that enters the site. The Monitor will utilize the DebrisTech handheld device to scan the barcode on the paper ticket as well as the barcode on the truck. **When the truck barcode is scanned, the DebrisTech handheld device automatically captures the current GPS coordinates along with a date and timestamp.** The Monitor will then use the handheld device to take a digital picture of the loaded truck at the disposal site and enter the estimated volume of the load. The DebrisTech handheld device automatically generates a paper receipt that is given to the truck driver for his records and all information collected for the load is wirelessly uploaded to the Central Information Database.

6.4. **Operation Requirements of Roving Debris Monitor(s):**

- 6.4.1. The Roving Debris Monitor(s) will provide oversight of all debris removal and disposal operation provided by the debris removal and disposal contractor.
- 6.4.2. The Roving Debris Monitor(s) will be the "eyes and ears" in the field for the Project Manager. Therefore, their observations and reports must be backed up with digital photographs and video as necessary.
- 6.4.3. The Roving Debris Monitor(s) is/are expected to make multiple visits to all loading sites and debris management sites on a random daily basis. The Roving Debris Monitor(s) will be responsible for traffic control inspections as per MUTCD at all loading sites and debris management sites.

7. Reporting

- 7.1. DebrisTech will be utilizing the DebrisTech Electronic Debris Management System for documentation and reporting of debris removal activities. **The DebrisTech Electronic Debris Management System provides real time access to all aspects of debris removal operations through the DebrisTech Central Information Database.** Data is fed to the Central Information Database in real time by Debris Removal Monitors with DebrisTech handheld devices. Authorized users have access to many different reports summarizing daily, weekly, or monthly activity by truck number, subcontractor, etc, all available online in real time.
- 7.2. The Roving Debris Monitor(s) will be responsible for completing the Debris Loading Site Monitoring Checklist provided by the Debris Manager. The report will be submitted to an immediate supervisor on a daily basis.
- 7.3. The Roving Debris Monitor(s) will report any serious or safety related discrepancies observed to their supervisor. Supervisors will keep the Project Manager informed of situations that impact the execution of the debris removal contract.
- 7.4. DebrisTech will provide debris monitors with the means to communicate (cell phones, satellite phones, radios, etc.) with their supervisor or the Project Manager as may be necessary. DebrisTech supervision is responsible for resolving issues with truck drivers and other contractors' personnel.

8. Safety

- 8.1. All DebrisTech personnel will wear required safety equipment whenever on a debris management site. The following are mandatory: hard hat, reflective vest, safety shoes, long pants, appropriate cold and rainy weather clothing, eye and hearing protection.
- 8.2. DebrisTech will maintain a **telephonic contact list at each loading site** and debris management site of the DebrisTech Project Manager, Contractor's supervisor, the Client's Debris Manager, nearest fire, police, and emergency medical facilities.
- 8.3. DebrisTech will ensure that DebrisTech personnel adhere to all debris management site safety requirements.

Section 1: Plan For Debris Monitoring

Response Matrix

Before a disaster, DebrisTech will come and help the City with it's Debris Management Plan to ensure it meets FEMA regulations. We will act as advisors to the City to maximize it's return with FEMA. **Our services in the planning stages will be at NO COST to the City.** This is a service DebrisTech provides as the City's Monitoring Firm.

With our **Electronic Ticketing System**, you will have 24/7 access to the database that will provide Real Time updates on the progress of the Cleanup. The City will provide names and email address to the individuals that will receive nightly updates on the progress made that day and throughout the job.

0-24 Hours	48 Hours	72 Hours	1 Week	2 Weeks and Longer	1 Month or Longer
Set up in Disaster Center	Bring in Leadership	Training	1 Monitor Per Contractor Training	Maintain 1/1 Ratio Training	Start Invoicing to expedite reimbursement
Mobilize Key Personnel	Help estimation of debris quantity	Bring in Monitors Training	Maintain Data Base with Official	Determine if Monitor Ratio is adequate	Continuing updates on Progress
Place notice for Monitors in Area	Start Hiring Process	Start Clean up Operations with Contractors	Continue Debris Monitoring Operations	work with Contract PM	
	Daily Meeting with Officials			Weekly Meeting with Officials	

Section 1: Plan For Debris Monitoring

Real Time Technology

What is DebrisTech?

The DebrisTech Electronic Debris Management System is modeled after a proven debris monitoring method that utilized a combination of hand written paper tickets, electronic databases, and a Geographic Information System (GIS). **The DebrisTech system follows this same model, but replaces the hand written tickets with real-time data collection devices.** Paper receipts are still available but are no longer the primary record.

DebrisTech handheld devices and software add a new level of documentation and security features. **The built-in automated fraud detection and audit tools greatly reduce the potential for fraudulent activities that might result in costly de-obligations.** The system can also provide real-time access to agencies, such as FEMA or the Inspector General, so that auditors can begin their task early, rather than months or years later.

The Tech Behind DebrisTech

Debris Removal Monitors are issued DebrisTech handheld scanning devices, loaded with custom software configured specifically for their role. DebrisTech handhelds have the ability to scan barcodes, take digital photographs, apply GPS location tagging, accept manual inputs, and communicate via the internet using cellular networks. When loading and disposal data is collected, it is wirelessly uploaded to the DebrisTech Central Information Database.

At the loading location, a barcoded paper ticket is provided for the truck driver. The driver takes this ticket with the load to the disposal site. At the disposal site a second DebrisTech handheld device scans the ticket along with load and truck data. All information is recorded digitally and securely stored for post-disaster reference.

The Debris Removal Process

Real-time Data

The DebrisTech Electronic Debris Management System provides real time access to all aspects of debris removal operations through the DebrisTech Central Information Database. Data is fed to the Central Information Database in real time by Debris Removal Monitors with DebrisTech devices. Authorized users have access to many different reports summarizing daily, weekly, or monthly activity by truck number, subcontractor, Right of Entry number, etc.

This allows the debris management team to track the location and progress of debris removal crews, track the type and quantity of debris being collected, as well as fully document the loading and disposal locations, time, date, contractor, personnel and equipment used. The real time system eliminates the need for a large administrative staff to manually enter paper tickets.

Cradle-to-Grave Documentation

The DebrisTech Electronic Debris Management System provides accurate accounting for all loads and detailed information on stumps and leaning trees. A barcode application tool is provided to attach a unique barcode to each tree surveyed. A digital photo, GPS coordinates, timestamp, tree/ stump size, inspector ID are collected with that barcode at three critical points of the removal process.

- When Originally Surveyed and Marked for Removal
- When Loading for Transport to the Disposal Site
- When Offloaded at the Disposal Site

A unique truck/trailer barcode scanned at the loading and offloading points provides additional information.

Real-Time Data. Real-Time Recovery.

Deployment

In response to an event as soon as authorities permit access, DebrisTech sends one of its Mobile Command and Communications Centers to the project area. Each Mobile Command and Communications Center is a specially equipped, self-contained unit that provides office and living quarters for its key team members. Each unit has computers, printers, badging and placarding systems, communication systems, training systems and an appropriate number of load and disposal site deployment kits. The load deployment kits typically contain 10 ruggedized tablets with MLPs, batteries, chargers, and ink cartridges and a number of preprinted tickets. The disposal site kits typically include 4 tablets with MLPs, remote scanners, laser printers, paper and printer cartridges. The kits are authorized for carry-on luggage and when necessary may travel ahead of the Mobile Command and Communications Center by airline.

Because DebrisTech is standardized on Apple's iPads as the basis for its field unit, and has partnered with national cellular providers, ramping up to hundreds of units can be done in a very short period. DebrisTech has created a customization system that can transform a best of class consumer grade tablet to a ruggedized Debris Removal Monitoring Device in minutes. Utilizing the iPad's and AppleTV's mirroring feature, and the Mobile Command and Communications Center's outdoor video screen, **DebrisTech's first responders can train large groups of locally hired monitors at any location. Because of the iPad's inherently simple and user-friendly design, a typical training class usually lasts less than 2 hours.** In a typical deployment, DebrisTech's first responders arrive and assess the severity of the event and determine how many support personnel will be required to deploy and fully support the system. A typical support staff initially consists of one Technical Support Coordinator per deployment, one Technical Support Technician per disposal site and one Technician per 25 deployed devices. The Support Coordinator is responsible for training the device operators and truck certification personnel. Within 10-14 days of the initial deployment, the support staff can typically be reduced to one Support Coordinator and one Support Technician per 20 deployed devices.

Once a deployment is initiated, a new server instance of the DebrisTech Debris Management Database System is created and replicated at two or more locations. In the case of this contract, a third replication is set up for government use. One server instance is designated as the primary server and field devices submit their data to it through a secure channel over a common carrier. The other servers are updated within minutes (usually seconds) and contain an exact copy of the records submitted by the field devices. One of the secondary servers is designated as a failover server should the primary server fail, or be inaccessible due to a regional communications outage. DebrisTech's primary server location is served by a redundant primary fiber loop and its secondary and tertiary servers are geographically remote and served by different ISPs. **Upon completion of a mission, a copy of all data collected is delivered to the Client in Microsoft Excel and PDF format.** The data can also remain accessible through the DebrisTech Debris Management Database for any period as required by the contract.

Real-Time Data. Real-Time Recovery.

Resumes

Brooks Wallace, P.E.

brooks@debristech.com

Brooks R. Wallace, P.E., created DebrisTech in 2010 in response to a need for real time auditing of debris removal projects. Mr. Wallace realized that the technology was available to provide real-time data to FEMA and municipal supervisors overseeing clean up efforts, while creating a database of information that could be referenced at any time for compliance purposes. Utilizing the technology currently available, Mr. Wallace developed the software platform for what has evolved into a system that is revolutionizing the process of Debris Monitoring and Compliance.

Mr. Wallace has a vast array of experience in the field of civil engineering and in debris removal monitoring. Working as an engineer on numerous projects in South Mississippi dealing with disaster related services including the aftermath of Hurricane Katrina, Mr. Wallace was able to identify vulnerabilities and inefficiencies in the current process of debris removal operations and monitoring.

A civil engineer by trade, Mr. Wallace has dealt with countless municipal and county projects involving infrastructure upgrades and the modernization of local and regional maps and surveys. He has worked with law enforcement agencies, municipal governments and FEMA on projects ranging from Smart Growth Plans to large-scale Utility and Resource redesigns.

With DebrisTech, Mr. Wallace hopes to help cities and communities recover from disasters more quickly and efficiently, so that they can return to their normal life as soon as possible. His technology coupled with the experience of his past, create an invaluable addition to the team which is DebrisTech, LLC.

**Ryan Holmes, P.E.**

ryan@dunganeng.com

Ryan A. Holmes is a licensed engineer and Project Manager at DebrisTech. Collateral duties include business development, project management, and marketing. Mr. Holmes has nearly 10 years of diversified civil engineering experience. Mr. Holmes is uniquely talented drawing from his experience with municipal, county, and state governments along with private clients. Mr. Holmes has worked on numerous debris removal and disaster recovery projects. He worked on several project along the Mississippi coast in the aftermath of Hurricane Katrina. Most recently, Mr. Holmes assisted several communities in the recovery to Hurricane Isaac in Mississippi and Superstorm Sandy in New York. Utilizing DebrisTech's cutting edge technology Mr. Holmes has successfully assisted the aforementioned communities with "cradle to grave" documentation of debris collection and disposal.

With DebrisTech, Mr. Holmes has helped cities and communities address their recovery needs through expertise, technology and knowledge. Past experience together with these skills make Mr. Holmes a valuable asset to DebrisTech. We provide vision and leadership for our clients, integrating new technology and delivery of unparalleled Debris Monitoring and Compliance.

DebrisTech has offered an opportunity for Mr. Holmes to showcase his diversified talents to provide practical applications of cutting edge technology in a way that is easily deployable and repeatable. He intends to utilize

his skills dealing with municipalities and government agencies to raise the standards of Debris Monitoring Services for all companies and strives to be a leader in the industry.

**H. Les Dungan, III, P.E., P.L.S.**

les@dunganeng.com

H. Les Dungan, III, P.E., P.S. has 27 years of experience in the field of civil engineering. With a career that began in the government ranks with time working with the Mississippi Department of Environmental Quality and Natural Resources Conservation Service, he now serves as a self-employed consultant to various counties and municipalities in South Mississippi. Mr. Dungan has served as County Engineer for Jefferson Davis County and City Engineer for the Town of Prentiss for 20 years. He has also served as County Engineer for Pearl River County for 15 years.

Mr. Dungan has dedicated his career to serving the engineering needs of the entities and individuals that have placed their trust in him. He has a vast array of experience in the field of civil engineering and debris removal monitoring. Working on numerous projects in South Mississippi with disaster related services including the aftermath of Hurricane Katrina, Mr. Dungan was able to provide the technical support needed in order for Pearl River County to have the confidence to use local contractors to perform the immense clean-up operation.

As a civil engineer, Mr. Dungan has planned and administered the construction of various kinds of transportation and utility infrastructure type projects. He has worked with both counties and municipalities in South Mississippi on projects ranging from bridge replacement to water treatment plants.

With DebrisTech, Mr. Dungan hopes to help cities and communities recover from disasters more quickly and efficiently, in order for the return of normal life to come as soon as possible. His desire to assist and his ability to manage coupled with the experience of his past, create a valuable addition to the team which is DebrisTech, LLC.

jeff@dunganeng.com

Jeff J. Dungan, P.E., P.S. has 26 years of experience in the field of civil engineering. With a career that began with Anderson Engineering in Columbia, Mississippi, he now serves as co-founder and Principal with Dungan Engineering, PA serving counties and municipalities in South Mississippi. Mr. Dungan has served as County Engineer for Lawrence, Walthall and Marion County and City Engineer for the Town of Tylertown for over 15 years. He has also served as County Engineer in Lincoln County for the past 8 years.

Mr. Dungan has dedicated his career to serving the engineering needs of the entities and individuals that have placed their trust in him. He has a vast array of experience in the field of civil engineering and debris removal monitoring. Working on numerous projects in South Mississippi with disaster related services including the aftermath of Hurricanes Katrina, Gustav and Isaac, Mr. Dungan was able to provide the technical support needed by many local governments throughout the south. His services enabled these local governments to have the confidence to use local contractors to perform the immense clean-up operation efficiently and at a reasonable cost.

As a civil engineer, Mr. Dungan has planned and administered the construction of various kinds of transportation and utility infrastructure type projects. He has worked with both counties and municipalities in South Mississippi on many types of projects, such as roadway construction and maintenance, bridge

replacements, water and waste-water treatment plants, industrial buildings and airports.

With DebrisTech, Mr. Dungan hopes to help cities and communities recover from disasters more quickly and efficiently, in order for the return of normal life to come as soon as possible. His desire to assist and his ability to manage coupled with the experience of his past, create a valuable addition to the team which is DebrisTech, LLC.

System Overview

The DebrisTech Electronic Debris Management System is modeled after a proven debris monitoring method that utilized a combination of hand written paper tickets, electronic databases, and a Geographic Information System (GIS). The DebrisTech system follows this same model, but replaces the hand written tickets with real time data collection devices. Paper receipts are still available but are no longer the primary record.

DebrisTech handheld devices and software add a new level of documentation and security features. The built-in automated fraud detection and audit tools greatly reduce the potential for fraudulent activities as well as streamline the reconciliation process. The system can also provide real time access for authorized users so that the audit and validation process can begin immediately, rather than months or years later. DebrisTech also has the flexibility and adaptability to meet the specific and potentially unique debris removal requirements of each specific event. In most cases, the system can be customized to meet mission specific requirements within hours of the request being made.

Since September 2012, DebrisTech has been utilized by more than 15 government entities in five different disasters and produced an unprecedented quality of documentation of the debris removal operations in these affected areas.

DebrisTech is a field proven system that will provide complete documentation of all debris removal activities. Specifically, DebrisTech was used in Mississippi following Hurricane Isaac, New York following Super-storm Sandy, and most recently, in Moore, Oklahoma following the devastating May 20, 2013 Tornadoes. DebrisTech's work in Moore, OK has drawn a lot of attention from State and Federal stakeholders. There have been numerous occasions where both FEMA and USACE personnel working in the region have made special trips to Moore to see the system in operation. DebrisTech's work in Moore, OK has also prompted FEMA to create a Best Practices video that highlights DebrisTech's technology and processes that are being utilized in the recovery process.

The DebrisTech system fully complies with the Specifications outlined in Section 10 Item E, of RFP# 14-3300. A more comprehensive technical paper describing how the DebrisTech system exceeds these specifications is available upon request.

Real-Time Data. Real-Time Recovery.

System Components

Site Managers and Tower personnel are issued DebrisTech handheld scanning devices, loaded with custom software configured specifically for their role. DebrisTech handhelds have the ability to scan barcodes, take digital photographs, apply GPS location tagging, accept manual inputs in unrestricted fields, and communicate via the Internet using the cellular network and other means if required. When loading and disposal data is collected, it is

- DebrisTech Mobile Line Printer (MLP) Technology
- Serialized Barcoded Ticket Objects
- Barcoded Placards for Trucks and Trailers
- Employee ID Badge Printer
- Mobile Command and Communications Center
- Debris Load Ticket App
- Debris Disposal Ticket App
- Truck Certification App
- Right of Entry System App
- DebrisTech Central Debris Management Database

wirelessly uploaded to the DebrisTech Central Information Database. If cellular service is not available, the data is queued on the device and transmitted when cellular network connectivity is obtained or alternatively when the devices are in range of the Mobile Command and Communications Center for download and transmission of the data via satellite communications.

At the loading location, a barcoded paper ticket is provided for the truck driver. The truck driver takes this ticket with the load to the disposal site. At the disposal site a second DebrisTech handheld device scans the ticket along with load and truck data.

Real-Time Data. Real-Time Recovery.

A receipt for the truck driver is printed certifying the delivery. The paper receipts serve as tangible evidence for the driver and backup documentation in the event a contractor disputes payment for a particular load. State of the Art Tablet Field Devices – current generation Apple iPads® with 3G/4G connectivity housed in rugged OtterBox™ enclosures. Manual entry of data and the potential mistakes inherent are virtually eliminated with the DebrisTech process by using unique serialized debris ticket objects and an automated tracking system built around them.

000140653

Real-Time Data. Real-Time Recovery.

Truck Certification

The DebrisTech truck certification process registers authorized debris hauling vehicles and equipment by electronically registering debris contractor trucks, trailers and other hauling equipment.

Digital images of each truck, trailer or other hauling equipment is electronically linked to each individual registration/certification. Each vehicle registration identifies the mission (contract number) and responsible governmental entity. Each registration record is permanently tied to the bar code that is affixed to the truck body or trailer body, supplying unique identification data for contractor vehicles and equipment. Standard forms of measure are utilized (e.g. feet and inches) to record the vehicle volume capacity utilizing industry standard equations in each registration record created.

Optionally, each driver of each truck may be issued a unique bar coded DebrisTech ID that ties the driver to the load and/or haul vehicle.

Each member of the certification team is issued a unique bar coded ID that is scanned and becomes part of the certification registration

form. The member certifying the vehicle must also sign the electronic form, using the signature capture feature.

The DebrisTech System automatically rejects vehicles that are not certified and associated with the current event and responsible government entity. Vehicles that need recertification (obscured bar code placards, changes in sideboards, spot check of capacities for random audits, etc.) can be compared electronically and automatically to the audit tables and other CQC audit records of previous certifications and registrations. Certification records are available online and in downloadable and printable form for authorized users.

Real-Time Data. Real-Time Recovery.

Each monitor is also issued a unique identification badge that contains the employee identification barcode and Project ID barcode. Like the other barcodes, they are used to easily mark the ticket with the identity of the monitor or inspector that collects and/or reviews the data but they are not intended nor can they be used to circumvent the signature capture requirement.

Each ticket has a barcode that is scanned using specially configured iPads. A limited number of these secure ticket objects are issued to monitors and inspectors. Without a physical ticket no electronic tickets can be created. This is the first of a three factor ticket authentication system. The uniquely configured iPad is the second factor. The apps used for collecting data are registered individually to unique serialized iPad IDs and will not function on unauthorized devices. These iPads in most cases are issued to individuals, but a third factor, a literal signature by the monitor or inspector is required at each data collection point through a built-in signature capture feature of the iPad. This factor reminds the submitter, that they are personally responsible for the accuracy of the data submitted.

During debris operations, at each point of the process, the transport barcodes are scanned along with the tickets establishing and verifying that the load and transport are inseparable throughout the process. This method has distinct advantages over other systems because the tracking device physically stays with the transport equipment at all times and mixing of trucks and trailer combinations are immediately detected. Up to four debris hauling pieces of equipment can be tracked per ticket, but in practice no more than three are likely.

A key advantage of these barcoded tickets is that they represent the load – and they travel with the load. At any point in the disposal process, the barcode can be scanned, and the load's complete history is available for review. This history includes photos of the debris when it is loaded and when it is assessed at the disposal site or intermediate checkpoint. A load presented for disposal (and subsequent billing) without a barcode is rejected.

These ticket objects or tokens are in different forms depending on the type debris being removed. **Stumps are tagged with a special single swing hammer applicator.** The tag consist of two parts, both with the barcode serial number, one that remains attached to the stump, and a second that can break away. The tag also serves as a size reference when using photos to audit the diameter called out by the inspector.

White goods are issued a yellow ticket with an adhesive barcode label attached. Its barcode can optionally be tracked further through the coolant recovery and recycling processes.

Real-Time Data. Real-Time Recovery.

The DebrisTech System also includes a Right of Entry module that streamlines the ROE process. The DebrisTech ROE Module automates the entire ROE process, from the application phase to ROE Closeout. Every aspect of the ROE program is captured electronically and is accessible through the DebrisTech Debris Management Database. Applications, Field Inspections, ROE Approvals, Work Orders, Final Inspections, and ROE Closeout Documents are all available to authorized users in real time. This real time access allows managers and contractors to always have up to date information about the status of every ROE entered into the system. Also, because the ROE system is an integrated part DebrisTech System, all information associated with the ROE, including the debris tickets generated from the ROE, is available in the same, user-friendly web interface.

Process Monitoring

As ticket tracking information is submitted throughout each point of the debris removal process, the DebrisTech Debris Management Database makes the new information available immediately to authorized system users through a secure web browser interface compatible with most computing and portable devices. The main observation view shows graphically, and in a tabular form, each load and its current state. **Truck icons indicate the load's type and state by showing it loaded, in transit, or empty and returning for another load.** Suspected problems are highlighted and the table can be filtered to only show data for a specific debris type, subcontractor, truck, dumpsite or project.

The DebrisTech System also has interactive mapping features that allow authorized users to view the exact pickup and disposal location for each debris ticket in real time. Clicking on the load's truck icon from the debris ticket list will show the pickup and disposal point for a specific load on a map. Clicking on the Truck icon in the header will show all loads in the current filter on a map. This feature is especially useful when trying to determine where a specific truck or subcontractor is working or has worked, or simply to see where debris removal operations are taking place in real time. These are but a few of the extensive Geographical Information System (GIS) capabilities present in the system.

Detailed information for each load is available by clicking on the E-ticket icon. This page initially shows the electronic version of the ticket that will move forward for verification and billing purposes. Once it has been subjected to certain automated and human review processes it will be marked as reviewed and ready for billing. The E-ticket contains all key information including photos, timestamps, GPS coordinates, monitor names and signatures, hauling time and distance as well as other cogent data. This ticket is available to authorized stakeholders as a PDF, and in other downloadable forms. In its online form, auditors can also zoom in on photos for closer inspection.

Real-Time Data. Real-Time Recovery.

Administration

The DebrisTech system was designed from the ground up to allow geographically diverse management and administration. This means that personnel management activities as well as delegated DebrisTech system administration activities can be performed from any location. In recent disasters however, the best location has been from the DebrisTech Mobile Command and Communications Center. Often times the command center is deployed immediately following an event and is self-contained, not requiring local infrastructure to be functional. Having fully equipped and qualified personnel on the ground in the days immediately following an event is a key component to a successful deployment of the system.

The DebrisTech system has certain common roles with privileges predefined, that determine who can create, update, and delete specifications, task orders, ROEs, transport container registrations, but it is also flexible in that new separated or combined roles can be created where field conditions, personnel training and experience permit.

Real-Time Data. Real-Time Recovery.

Section 3: Innovative Concepts

FEMA Reimbursement

One FEMA Official described our operation as **“The most effective debris monitoring operation I’ve seen in the field and believe this could be a model for debris monitoring in the future.”** The complete video is available for online viewing at: www.fema.gov/media-library/assets/videos/83001

Our Electronic Debris Management System provides **real time access** to all aspects of debris removal operations through the DebrisTech Central Information Database. Debris Removal Monitors equipped with our patented tracking devices keep a bullet-proof digital record from start to finish.

Monitoring the debris removal process from site loading to disposal with **electronic tracking ensuring FEMA COMPLIANCE**. Accurate documentation of debris removal and disposal operations and eligible associated costs is essential for any and all grant reimbursements from FEMA. **DebrisTech’s Debris Monitoring System Documentation, will verify to FEMA that your debris removal operations are eligible for reimbursement, costs are reasonable, that contract and procurement processes are appropriate, quantification of the debris is accurate, and the tracking of the debris to its final disposition is recorded and in absolute compliance with all regulatory requirements.**

Built-in automated fraud detection and audit tools reduce the risk of fraudulent activities and minimize the potential of costly de-obligations. The system can also provide real time access to agencies, such as FEMA or the Inspector General, so that auditors can begin their task early... which means quicker reimbursement, and quicker recovery.

**Section 4: Performance Record**

Documentation of Experience

DebrisTech has helped communities across the country pick up the pieces after major disasters. Our team members have lived through hurricanes and other disasters, and we've seen first-hand what it means to a community and its residents. Our mission is to alleviate the burden of monitoring the process of the debris removal so that the leaders and residents of stricken communities can focus on each other and begin to heal, and ensuring that all costs incurred are eligible for reimbursement by FEMA. Debris removal monitoring is a very engaged process requiring focus and understanding of many areas of operation and federal guidelines. DebrisTech fully understands that these areas include:

- Understanding of Removal Contracts and Reimbursements
- Accurate and Objective Estimation of Debris Quantities
- Understanding of All Phases of Debris Management Operations
- Knowledge of Loading Sites, DMSs, and Final Disposition Sites
- Accurate Differentiation of Debris Types
- Adherence to and Understanding of Site Safety Procedures
- Effective and Efficient Communication
- Experience and Knowledge of Construction Machinery

Let our experience and understanding work for you.

Protecting Communities. Leading Recovery.

Tangipahoa Parish

On March 11, 2016 an extreme amount of rain fell in a short period of time and caused the Tangipahoa River to flood Tangipahoa Parish. The rain caused the 32 square miles of water ways to fill and cover the 791 square miles of land with over 3 feet of standing water.

The most effected areas in the Parish were in the southern half, causing cities like Roberts to be evacuated.

Tangipahoa Parish is experiencing economic growth the past few years, but like all communities, its officials operate on an extremely tight budget that contains few funds for emergency spending. For this reason, Marshall County demanded accurate, scientific and reliable monitoring of debris, ensuring that State and Federal assistance available for eligible debris removal would be maximized.

After seeing the potential for needing an outside source to come in and clean up a disaster area, Tangipahoa Parish developed a RFP for debris clean up. Knowing that monitoring will be key in securing the Federal money needed to clean up after such a disaster.

Based on experience, superior technology, testimonials from previous clients, and fair pricing, Tangipahoa Parish selected Debris Tech for debris monitoring. Debris Tech was tasked with providing professional consultation, hiring and training monitors, on-site assessment of debris eligibility, on-site monitoring of debris loading, disposal site monitoring of load volumes, electronic ticketing and tracking of loads, compilation of daily reports, and all

Project Highlights

- 10,000 CY of Debris Monitored and Documented
- 45 White Goods disposed and Documented
- 791 Square miles of Parish cleaned
- 135 Total Loads delivered to the Parish Land fill
- Provided Real Time Web Access to Data
- Focus on C&D disposal

documentation required for regulatory compliance and State and Federal assistance.

Because of DebrisTech's knowledge, experience and technology, Tangipahoa Parish was able to document that the amount of eligible debris that would qualify for State and Federal assistance was significantly greater than it initially estimated. Further, all parties were able to actually see in advance that estimates of eligible debris would be exceeded, as documented by trained monitors, photos, GPS coordinates and debris load and disposal tickets.

Although Debris Tech has worked in the smallest rural communities and the largest cities in our nation, we know that no two disasters are alike and that every community- partnership is unique. Marshall County was no exception and the people and officials were a pleasure to work with.

Marshall County, MS

On December 23, 2015 an EF-3 Tornado entered southwestern Marshall County, Mississippi. Some 25 miles later it exited the County's northeastern corner, leaving behind a debris field consisting primarily of vegetative and residential debris.

Although the most densely populated residential and commercial areas were spared, the half-mile wide tornado, left paths and pockets of complete devastation.

Marshall County has experienced rapid industrial and economic growth the past few years, but like almost all communities, its officials operate on an extremely tight budget that contains few funds or allowances for emergency spending. For this reason, Marshall County demanded accurate, scientific and reliable monitoring of debris, ensuring that State and Federal assistance available for eligible debris removal could be maximized.

After gathering information from experienced state and federal officials and officials whose communities had experienced similar disasters, Marshall County decided to hire a private contractor for debris removal and another for debris monitoring. To do this Marshall County developed and widely circulated strict RFPs.

Based on experience, superior technology, testimonials from previous clients, and fair pricing, Marshall County selected Debris Tech for debris monitoring. Debris Tech was tasked with providing

Project Highlights

- 68,000 CY of Debris Monitored and Documented
- Hundreds of Leaners and Hangers
- Multi-Jurisdictional Impact Zone
- Implemented a Triple Part Scan System
- Provided Real Time Web Access to Data
- Focus on Vegetation as well as C&D

professional consultation, hiring and training monitors, on-site assessment of debris eligibility, on-site monitoring of debris loading, disposal site monitoring of load volumes, electronic ticketing and tracking of loads, compilation of daily reports, and all documentation required for regulatory compliance and State and Federal assistance.

Because of DebrisTech's knowledge, experience and technology, Marshall County was able to document that the amount of eligible debris that would qualify for State and Federal assistance was significantly greater than it initially estimated. Further, all parties were able to actually see in advance that estimates of eligible debris would be exceeded, as documented by trained monitors, photos, GPS coordinates and debris load and disposal tickets.

Protecting Communities. Leading Recovery.

Benton County, MS

An EF-3 Tornado that viewers watched on Memphis television radar as it moved across north Mississippi entered rural Benton County, Mississippi on the evening of December 23, 2015. Left in its wake was a half-mile wide path of primarily vegetative waste, as well as some construction and demolition waste from small homes.

Bordered on the north by the Tennessee line, Benton County is the 5th most geographically small counties in the State of Mississippi. Almost 20 percent of the residents living in the County's 3,000 household live below the poverty line.

Given the County's dire economic situation, it followed the recommendation of State officials to partner with neighboring Marshall County and allow it to take the lead in contracting for debris removal and monitoring. DebrisTech wholly supported this concept as all parties involved would benefit from the efficiencies created.

Although Benton partnered with Marshall County for debris removal and monitoring, Debris Tech approached Benton County as a separate, unique client. Having worked in previous disasters that crossed several municipal jurisdictions DebrisTech knew exactly what was needed to hire local people, provide separate tracking and monitoring devices, and to create and maintain regulatory complicit documentation to maximize State and Federal assistance.

Project Highlights

- 25,000 CY of Debris Monitored and Documented
- Hundreds of Leaners and Hangers
- Multi-Jurisdictional Impact Zone
- Implemented a Triple Part Scan System
- Provided Real Time Web Access to Data
- Focus on Vegetation as well as C&D

Debris Tech's partnership with Benton County provided further evidence of the mutual benefit of technology that allows the one-day training and hiring of local residents to be monitors. Thanks to the knowledge and input from local residents serving as monitors in Benton County, Debris Tech was able to quickly address debris eligibility questions that would surface as a result of being on remote road, in hilly terrain, and on the edge of a Federally protected National Forest.

In addition to seeing itself in a partnership with local officials, and as part of the community with the hiring of local residents for monitors, Debris Tech also tremendously values the professional relationship it maintains with Local, State and Federal Emergency Management officials, or their representatives. Such relationships are desired and serve in the best interests of all parties.

The accurate and detailed documentation the Debris Tech team provided Benton, County allowed it to maximize desperately needed State and Federal assistance.

Marion County, MS

Marion County, Mississippi, located in the Southern part of the state, took a direct hit from an EF-3 tornado in the afternoon hours of December 23, 2014. The tornado left a debris field that scattered several miles long, scattered through several different jurisdictions, including the City of Columbia. The tornado left the County with an estimated 55,000 Cubic Yards of storm generated debris to remove from public right of way. In addition, many structures and other public facilities were either damaged or destroyed as a result of the tornado.

The Marion County Board of Supervisors elected to hire a private contractor to remove and dispose of this debris, Countywide. DebrisTech was tasked with monitoring all of the debris removal activities and documenting the entire process to ensure proper FEMA protocol and further that reimbursement would not be jeopardized.

The County needed a system that could not only accurately track and document its Debris Removal activities, but also provide officials with real time information about the progress of the recovery.

Project Highlights

- 55,000 CY of Debris Monitored and Documented
- Hundreds of Leaners and Hangers
- Multi-Jurisdictional Impact Zone
- Implemented a Triple Part Scan System
- Provided Real Time Web Access to Data
- Focus on Vegetation as well as C&D

DebrisTech provided its Electronic Devices to the monitors and provided training and support of these devices throughout the debris removal operations. DebrisTech mobilized within 24 hours after Notice to Proceed was given by the County.

DebrisTech was able to accurately document and track debris classified into different categories (C&D or Vegetative) throughout the County, City, and Mississippi Department of Transportation Right of Ways and provide detailed reports and statistics for the debris removed for each Applicant in real time.

The level of documentation provided by DebrisTech utilizing the DebrisTech Electronic Debris Management System was a critical component of Marion County's recovery process.

Tupelo, MS

Tupelo, Mississippi, located in the Northeast part of the state, took a direct hit from an EF-4 tornado in the early evening hours of April 29, 2014. The tornado left a debris field that scattered several miles long. The tornado left the City with an estimated 200,000 Cubic Yards of storm generated debris to remove from public right of way. In addition, hundreds of structures were either damaged or destroyed as a result of the tornado.

The City of Tupelo elected to hire a private contractor to remove and dispose of this debris. DebrisTech was tasked with monitoring all of the debris removal activities and documenting the entire process to ensure proper FEMA protocol and further that reimbursement would not be jeopardized.

The City needed a system that could not only accurately track and document its Debris Removal activities, but also provide officials with real time information about the progress of the recovery.

DebrisTech provided its Electronic Devices to the monitors and provided training and support of these devices throughout the debris removal operations.

Project Highlights

- 290,000 CY of Debris Monitored and Documented
- Thousands of Leaners and Hangers
- Highly populated Impact Zone
- Implemented a Triple Part Scan System
- Provided Real Time Web Access to Data
- Focus on Vegetation as well as C&D

DebrisTech mobilized within 24 hours after Notice to Proceed was given by the Tupelo.

DebrisTech was able to accurately document and track debris classified into different categories (C&D or Vegetative) throughout the City and provide detailed reports and statistics for the debris removed for each neighborhood in real time.

The level of documentation provided by DebrisTech utilizing the DebrisTech Electronic Debris Management System was a critical component of the City of Tupelo's recovery process.

Itawamba County, MS

Itawamba County, Mississippi, located in the Northeast part of the state, took a direct hit from an EF-4 tornado in the early evening hours of April 29, 2014. The tornado left a debris field that scattered several miles long. The tornado left the County with an estimated 50,000 Cubic Yards of storm generated debris to remove from public right of way. In addition, numerous structures were either damaged or destroyed as a result of the tornado.

The County trusted DebrisTech for the role of monitoring all of the debris removal activities and documenting the entire process to ensure proper FEMA protocol and further that reimbursement would not be jeopardized.

The County needed a system that could not only accurately track and document its Debris Removal activities, but also provide County Officials with real time information about the progress of the recovery.

DebrisTech provided its Electronic Devices to the monitors and provided training and support of these devices throughout the debris removal operations.

Project Highlights

- 50,000 CY of Debris Monitored and Documented
- Thousands of Leaners and Hangers
- Large Rural Land Area to track Debris
- Implemented a Triple Part Scan System
- Provided Real Time Web Access to Data
- Focus on Vegetation as well as C&D

DebrisTech mobilized within 24 hours after Notice to Proceed was given by Itawamba County.

DebrisTech was able to accurately document and track debris classified into different categories (C&D or Vegetative) throughout the County and provide detailed reports and statistics for the debris removed for each neighborhood in real time.

The level of documentation provided by DebrisTech utilizing the DebrisTech Electronic Debris Management System was a critical component of the Itawamba County's recovery process.

Pearl, MS

Pearl, Mississippi, located just east of Jackson, MS, suffered great damage from a large Tornado in the early evening hours of April, 29, 2014. This tornado left a debris field that was several miles long. This debris field left the City with more than 10,000 cubic yards of storm generated debris to remove from public right of way.

The Pearl elected to hire a private contractor to remove and dispose of this debris. The City utilized DebrisTech to monitor the Contractor's activities. The City and its monitoring firm, needed a system that could not only accurately track and document its Debris Removal activities, but also provide officials with real time information about the progress of the recovery.

Project Highlights

- 6,200 CY of Debris Monitored and Documented
- 148 Load Tickets Processed
- 5 Debris Removal Crews
- 2 Disposal Sites in Operation
- Focus on Vegetation

DebrisTech provided its Electronic Devices to the Monitors and provided training and support of these devices throughout the debris removal operations.

DebrisTech mobilized within 24 hours after Notice to Proceed. The level of documentation provided by the DebrisTech Electronic Debris Management System was a critical component of the Pearl's recovery process.

brogers@cityofpearl.com

Moore, OK

Following the devastating events of May 20, 2013 and the subsequent May 31, 2013 Tornado event, the tornado alley communities began the daunting task of Disaster Debris Removal and recovery. The City of Moore is not new to disaster recovery and learning from previous disaster recovery efforts, the city awarded a contract to DebrisTech to monitor the entire debris removal process and right of entry program.

In contrast to typical Debris Removal monitoring efforts, DebrisTech utilizes cutting edge technology developed by DebrisTech, a south Mississippi firm, to automate the process of documentation. Similar to a real time audit, technology developed by DebrisTech tracks each ton of debris removed from the Moore and to record the GPS location, time of removal, photo of load, type of debris, removal contractor and numerous other metrics which are later utilized to justify every dollar spent by the Moore during the removal effort.

Project Highlights

- 172,000 Tons of Debris Monitored and Documented
- 11,400 Debris Loads Processed
- 45 Debris Removal Crews
- 300 Right-of-Entries Processed
- Focus on Vegetation as well as C&D

DebrisTech's system provided the ability to grant real time access to officials and FEMA personnel to all of the information being collected. By removing the human element from a large majority of the data collection process, DebrisTech's system reduces the opportunity for Fraud. Anomalies are immediately flagged and investigated in real time, rather than post disaster when all funds have been dispersed to contractors and vendors for the debris removal services provided.

Typically debris is tracked and recorded at a load point and a disposal point. In this operation, the contractor developed a plan to utilize an intermediate scale site to streamline the weight measurement and truck trip time. DebrisTech modified the tracking system to incorporate an intermediate point of data collection and gave the Moore and the debris removal contractors the ability to utilize the process envisioned while ensuring all FEMA policies and guidelines were followed for reimbursement purposes.

stand@cityofmoore.com

Lamar County, MS

Project Highlights

- 31,000 CY of Debris Documented
- 2,700 Load Tickets Processed
- 12 Debris Removal Crews
- 3 Disposal Sites in Operation
- Focus on Vegetation, C&D, White Goods

Lamar County, Mississippi, located just west of Hattiesburg, MS, suffered great damage from a large EF4 Tornado in the early evening hours of February, 10, 2013. This tornado left a debris field that was more than 15 miles long and almost a mile wide. This debris field left the County with more than 30,000 cubic yards of storm generated debris to remove from public right of way.

The Lamar County elected to utilize their own Road Maintenance Department, along with the assistance from neighboring Counties, to remove and dispose of this debris. The County utilized its County Engineer, The Walker Associates to monitor the debris removal activities. The County and its monitoring firm, needed a system that could not only accurately track and document its Debris Removal activities, but also provide County Officials with real time information about the progress of the recovery.

DebrisTech provided its Electronic Devices to the County's Monitors and provided training and support of these devices throughout the debris removal operations. These services were mobilized within 24 hours of the Notice to Proceed.

The level of documentation provided by the DebrisTech Electronic Debris Management System was a critical component of Lamar County's recovery process.

Client Contact Information

Mr. Chuck Bennett
County Administrator
601-794-3406
cbennett@lamarcounty.com

Nassau County, NY

Project Highlights

- 1,034,000 CY of Debris Documented
- 32,000 Leaners and Hangers Documented
- 20,500 Debris Loads Processed
- 70 Debris and Tree Removal Crews
- 6 Disposal Sites in Operation
- 200,000 CY of Sand Removed

In the days following Hurricane Sandy, the Nassau County Department of Public Works was tasked with removing hundreds of thousands of yards of vegetative and construction and demolition debris from the streets of the County. The Department of Public Works was no stranger to such a task, as they had just closed out the Debris Removal Project Worksheet from Hurricane Irene, just weeks prior to Sandy's landfall.

The County knew from their experiences with Hurricane Irene, that the level of documentation required to expedite and maximize the reimbursement process for Hurricane Sandy was going to be tremendous. Accurate documentation of debris removal and disposal operations and eligible associated costs is essential for any and all grant reimbursements from FEMA.

DebrisTech was able to provide Nassau County with a complete documentation solution for all of the County's Debris Removal Operations. DebrisTech provided its Electronic Devices to the County's monitoring personnel and provided onsite technical support and training throughout the debris removal process.

The Nassau County project was very complex and very dynamic. In an effort to provide recovery assistance for the Cities, Towns and Villages within Nassau County, the County offered its debris removal services to these entities. In many cases, these requests for assistance would be activated within hours of the request being made from the entity.

DebrisTech was able to accurately document and track debris from different entities throughout the County and provide detailed reports and statistics for the debris removed for each community in real time.

The level of documentation provided by the DebrisTech Electronic Debris Management System was a critical component of Nassau County's recovery process.

Long Beach, NY

The Long Beach, NY suffered tremendous loss following Hurricane Sandy. Most of the City was inundated with more than 6 feet of water by Hurricane Sandy's Storm Surge. The result was more than 500,000 cubic yards of debris that had to be removed from the streets of Long Beach.

DebrisTech was able to provide The Long Beach with Debris Removal Monitoring and Documentation services. DebrisTech provided an experienced Management Team and more than 40 Debris Monitors equipped with DebrisTech's Electronic Devices to monitor the City's Debris Removal Contractor. These services were mobilized within 24 hours of the Notice to Proceed.

These Monitors documented street side collection of construction and demolition debris which was taken to Nassau County's TDMS and staged for final disposal. This disposal site was staffed by Nassau County's Debris Monitors equipped with DebrisTech's Electronic Devices.

Project Highlights

- 465,000 CY of Debris Monitored and Documented
- 14,300 Debris Load Tickets Processed
- 40 Debris Removal Crews
- 3 Disposal Sites in Operation
- 80,000 CY of Sand Removed

Monitors were also provided to document and quantify Sand Screening activities along the beach. In this case, the Contractor hauled unscreened material from various points in the City to a central screening site. After screening, the sand was placed back on the beach. Other monitoring activities included documentation of the removal and disposal of approximately 3 miles of beachside boardwalk.

The level of documentation provided by the DebrisTech Electronic Debris Management System was a critical component of The Long Beach's recovery process.

Town of Hempstead, NY

The Town of Hempstead, located on Long Island, NY, felt the effects of Hurricane Sandy following its landfall in October 2012. Hempstead is home to more than 750,000 people and is responsible for maintaining more than 1,200 miles of roadway. The aftermath of Sandy left the streets of Hempstead filled with more than 195,000 cubic yards of storm generated debris.

The Town of Hempstead hired a Debris Removal Contractor to remove the storm debris and utilized its own employees and consultants to monitor the Contractor's activities. Hempstead needed a system that could not only accurately track and document its Debris Removal activities, but also streamline the Debris Removal Contractor's billing and invoicing process.

Project Highlights

- 195,000 CY of Debris Documented
- 4,200 Load Tickets Processed
- 30 Debris Removal Crews
- 2 Disposal Sites in Operation
- Focus on Vegetation as well as C&D

DebrisTech provided more than 30 Electronic Devices to The Town of Hempstead's Monitors and provided training and support of these devices throughout the debris removal operations. These services were mobilized within 24 hours of the Notice to Proceed.

The level of documentation provided by the DebrisTech Electronic Debris Management System was a critical component of The Town of Hempstead's recovery process.

Pearl River County, MS

Pearl River County, Mississippi, located approximately 45 miles north of New Orleans, LA, experienced the winds and rain associated with Hurricane Isaac exactly seven years after the County was destroyed by the Hurricane Katrina. While the damage associated with Isaac was nothing in comparison to the damage caused by Katrina, the 16" plus inches of rain that fell during the storm caused record flooding in various areas within the County. This combination of wind and flooding left the County with more than 16,000 cubic yards of storm generated debris to remove from public right of way.

The Pearl River County elected to hire a private contractor to remove and dispose of this debris. The County utilized its County Engineer, Dungan Engineering, to monitor the Contractor's activities. The County and its monitoring firm, needed a system that could not only accurately track and document its Debris Removal activities, but also provide County Officials with real time information about the progress of the recovery.

Project Highlights

- 16,000 CY of Debris Monitored and Documented
- 550 Leaners and Hangers Documented
- 500 Load Tickets Processed
- 10 Debris Removal Crews
- 1 Disposal Sites in Operation
- Focus on Vegetation

DebrisTech provided its Electronic Devices to the County's Monitors and provided training and support of these devices throughout the debris removal operations.

Debris Monitoring Services

Hurricane Katrina

Inspection and Monitoring of Hurricane Katrina Debris Removal and Disposal, Jefferson Davis County, Mississippi

Services related to debris removal on public property and right of way, including project administration, inspection, monitoring, ticketing, disposal monitoring, compliance inspections, documentation of contractor payments and FEMA reimbursement. Debris removal cost was approximately \$3,250,000. Cost for debris removal inspection and monitoring was approximately \$590,000.

Hurricane Katrina

Inspection and Monitoring of Hurricane Katrina Debris Removal and Disposal, Pearl River County, Mississippi

Services related to debris removal on public property and right of way, including project administration, inspection, monitoring, ticketing, disposal monitoring, compliance inspections, documentation of contractor payments and FEMA reimbursement. Debris removal cost was approximately \$80,000,000. Cost for debris removal inspection and monitoring was approximately \$8,000,000.

Hurricane Katrina

Inspection and Monitoring of Hurricane Katrina Debris Removal and Disposal, Lawrence County, Mississippi

Services related to debris removal on public property and right of way, including project administration, inspection, monitoring, ticketing, disposal monitoring, compliance inspections, documentation of contractor payments and FEMA reimbursement. Debris removal cost was approximately \$2,628,000. Cost for debris removal inspection and monitoring was approximately \$431,000.

Hurricane Katrina

Inspection and Monitoring of Hurricane Katrina Debris Removal & Disposal County Roads, Federal Aid Routes, City of Columbia, MS

Services related to debris removal on public property and right of way, including project administration, inspection, monitoring, ticketing, disposal monitoring, compliance inspections, documentation of contractor payments and FHWA reimbursement. Debris removal cost was approximately \$3,250,000. Cost for debris removal inspection and monitoring was approximately \$590,000.

Hurricane Katrina

Inspection and Monitoring of Hurricane Katrina Debris Removal and Disposal, Pearl River County, Mississippi

Services related to debris removal on public property and right of way, including project administration, inspection, monitoring, ticketing, disposal monitoring, compliance inspections, documentation of contractor payments and FEMA reimbursement. Debris removal cost was approximately \$80,000,000. Cost for debris removal inspection and monitoring was approximately \$8,000,000.

Hurricane Katrina

Inspection and Monitoring of Hurricane Katrina Debris Removal and Disposal, Pearl River Basin Development District

Services related to debris removal on public property and right of way at multiple water parks in the PRBDD, including project administration, inspection, monitoring, ticketing, disposal monitoring, compliance inspections, documentation of contractor payments and FEMA reimbursement. Debris removal cost was approximately \$1,050,000. Cost for debris removal inspection and monitoring was approximately \$85,000.

Section 5: Price

Price

The All-Inclusive DebrisTech Price includes costs such as overtime, fuel, and per diem; they are absorbed by the contractor.

Provided Hourly Rate Schedule Attached

**ATTACHMENT B
COST SHEET**

CITY OF HATTIESBURG DR-4295	Estimated Requirements	Per Hour Rate
Project Manager	1	\$69.00
Field Monitor ³	9	\$32.00
Roving/Operations Debris Managers	1	\$48.00
Fixed Site Monitors	2	\$32.00
Data Manager ²	0	\$1.00
Clerical ²	0	\$1.00
TOTAL ESTIMATED COST¹	13	\$469.00

¹ The Total Estimated Cost is an estimated total hourly rate. The Estimated Requirements and total number of hours required to monitor the debris removal contractor is unknown, and will be determined by several factors. Some of these factors include: Total debris yardage, contractor equipment type, contractor load crews, contractor efficiencies, haul distance, disposal site efficiencies, etc. The RFP states that the debris removal contract is estimated to be \$3,000,000. The Total Estimated Monitoring cost for an efficient debris removal operation is approximately \$450,000.

² These positions are not required when using the DebrisTech System.

³ The number of positions required will be determined by the debris removal contractor. One position will be required for each loading operation.

Note: The rates listed above are all inclusive. There will be no additional charges for the use of DebrisTech's Electronic Ticketing System, travel, per diem, copies, etc.

SCOPE OF WORK:

DR-XXXX

Hattiesburg Mississippi, is seeking Professional Services proposals for Debris Monitoring Firms. Proposals will be sought for Monitoring of federally declared disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the City, State, and FEMA), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this Service however if the City, State, or FEMA authorizes the ROE it will become part of the Service. The City will seek proposals for said services City-wide. The City will evaluate the Proposals on what is in the best interest of the City and the nature of the event. The City will seek to identify a Respondent to oversee either City Task Force or Debris Removal Contractor(s). It shall be noted that any Contract is for payment of "Only Debris Services that FEMA Determined Eligible" and is consistent with FEMA Public Assistance Program and Policy Guideline (FP-104-009-2, January 2016).

This Scope of Work (SOW) is provided for Respondent to review in detail, the SOW is detailed as to the terms of request and Respondent should acknowledge each line item. Should a Respondent take exception to any line items in the SOW it should be clearly stated within the proposal.

Respondent must provide a technical overview for debris monitoring as to how they complete this project.

The scope of work/services as described below shall be considered minimum standards to meet in submitting their proposal for debris monitoring services. The Monitoring Services Respondent shall be experienced and knowledgeable in handling and executing disaster debris removal and disposal monitoring in compliance and consistent with the policies and publications of MEMA, FEMA, and FHWA. Throughout these specifications, any reference to FEMA shall also imply FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved.

Examples of guidelines and regulations include but are not limited to the following:

FP-104-009-2 January 2016

Emergency Relief Manual (Federal-Aid Highways)- November 2009

The City will designate a Debris Task Force Manager (DTFM) that will act as the Point of Contact (POC) for the event. The DTFM POC may consist of a City Employee, a Professional Contractor, or the City Engineer.

The Respondent will work with the City Debris Task Force Manager by assisting in determining the amounts of debris prior to beginning services.

Respondent will work with all associated teams including MEMA, FEMA, City, County, Debris Removal Contractors, and FHWA as needed for timely project completions, cost effectiveness, and maximum FEMA Category A reimbursements.

Respondent will measure and certify all equipment associated with either the City Task Force or approved removal contractor(s). Respondent will be familiar with standard MDOT Traffic Control Measures and report to the Debris Task Force Manager any safety issues or irregularities.

Respondent will report any delays, issues or concerns by the City or Removal Contractor to the City Task Force Manager.

Respondent will oversee all debris pick up sites as well as temporary and or final sites. Oversight will include GPS coordinates, addresses for pick up, and photographs. Respondent should be able to provide written Load tickets. Should the respondent be positioned to offer e-ticketing a description should be included in the technical overview for this service. Should the Respondent offer e-ticketing the price for any additional devices should be included in the hourly rate for any positions that may be utilizing the devices. Respondent should state hourly pricing for flat rate without e-ticketing devices as well as with e-ticketing devices. Either hand written or electronic tickets must be completed in detail for each line item. Photo documentation must be provided from cradle to grave and correlate with the load tickets.

Respondent will be responsible for providing an electronic document reflecting the cubic yards (or other units of measure) daily amounts to the City Debris Task Force Manager that will be sent to MEMA and FEMA daily.

Respondent will be responsible for working sun-up to sun-down seven days a week unless directed differently by the City Debris Task Force Manager.

As a minimum the Respondent must provide sufficiently trained personnel including a Project Manager, Field Monitors, Roving Managers, Fixed Site Monitors, Data Managers, and Clerical.

The City may use force account resources (including temporary hires), contractors, or a combination of these for monitoring. It is not necessary, or cost-effective, to have Professional Engineers or other certified professionals perform debris monitoring duties. FEMA considers costs unreasonable when associated with the use of staff that is more highly qualified than necessary for the associated work.

Respondent will be responsible for documenting any damage to city or private property caused by the removal contractor(s). Respondent should also document any City infrastructure damage caused by the event.

Respondent must be able to activate within 24 hours of notification to proceed by the City.

Respondent must certify that the company or any of its principles are not bared from performing any State or Federally Funded Projects including FEMA and the FHWA.

SCOPE OF POSITIONS

Provide Project Managers, Roving Managers, Field Monitors, Fixed Site Monitors, Data Managers, and Clerical for Debris Monitoring. Respondent may provide e-ticketing service however it is not mandatory for this request.

Project Manager:

Respondent will provide a Project Manager to oversee debris monitoring activities.

1. Oversight and Supervision of Monitor field activities.
2. Scheduling of Monitoring resources and deployment timing.
3. Communication and coordination with City personnel.
4. Make suggestions to improve the efficiency of collection and removal of debris.
5. Coordinate daily activities and future planning.
6. Remain in contact with DTFM
7. Identify, address, and troubleshoot any questions or problems that could impact work area safety and eligibility.
8. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations. Document truck hauling compartment condition using digital photographs. Prepare a master log book of all hauling equipment used by the City and or the Removal Contractor(s).
9. Compile, reconcile and document daily in an electronic spreadsheet format all eligible debris hauled by the City or Removal Contractor.

Field Debris Monitors and Roving/Operations Manager:

Respondent will perform on-site, street-level work area inspections of debris cleanup and collection. Respondent will provide loading site (field) monitors to inspect and control debris collection utilizing manifest load tickets. A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors.

1. Provide field monitor personnel at designated areas to check and verify information on debris removal.
2. Monitor collection activity of trucks.
3. Issue manifest load tickets at loading site for each load.
4. Check the area for safety considerations such as – downed power lines, the presents of children, traffic control, safety of equipment
5. Ensure Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal.
6. Perform a pre-work inspection of areas to check debris piles to identify covered utility meters, transformers, fire hydrants, mail boxes, etc. to help prevent damage from loading equipment and to look for potential problems.
7. Should damages occur to utility components, driveways, road surfaces, private property, vehicles, etc. document the damage with photos if possible, collect information about owner, circumstances of the damage (who, what, when, where) and report to your Roving Manager.
8. Ensure the work area is clear of debris to the specified level before equipment moves to a new loading area.
9. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations.
10. Properly monitor and record performance and productivity of debris removal

crew.

11. Remain in constant contact with Roving Manager. Roving Manager is to report directly to the DTFM.
12. Ensure that loads are contained properly before leaving the loading area.
13. Ensure only eligible debris is collected for loading and hauling.
14. Ensure only debris from approved public areas is loaded for removal.
15. Perform other duties from time to time as directed by the debris management project manager or DTFM.

Fixed Site Debris Monitors:

Respondent will provide personnel to oversee the inspection of the disposal or unloading sites by providing the monitoring, verification of load capacity, and documentation at designated temporary and or final disposal sites.

1. Provide disposal site monitors and inspectors personnel.
2. Complete record of contract haulers' cubic yardage and other record keeping as may be needed on the provided load ticket.
3. Initial each load ticket before permitting truck to proceed from the check-in area to the tipping area.
4. Remain in contact with debris management/dispatch center or supervisor.
5. Perform other duties as directed by the dispatch/staging operation, debris management project manager, or designated City personnel.
6. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations

Data Managers:

Respondent will provide personnel to oversee electronic documentation including:

1. Excel Spreadsheets as to amounts of debris collected daily.
2. Maintenance and data transfer of e-ticketing system if applicable.
3. Data Retention and back up of Data Retention for a minimum of 5 years at the expense of the Respondent.
4. GPS devices and oversight of coordinating with FEMA on accuracy.
5. GIS (Global Information System) coordination with the City, PDD (Planning and Development District), and or state.

Clerical:

Respondent will provide personnel to assist with data collection daily.

1. Enter daily data into either Excel Spreadsheets or e-ticketing system.
2. Verify Billing.
3. Audit billing vs. invoices.
4. Prepare cover documentation for services and create a filing system either electronic and or paper.

Terms:

Contracts will be established per event as activated.

Deployment

Respondent must be prepared to deploy within 24 hours from the notice to proceed. Respondent staffing levels shall be efficient and coincide with the scale of the debris

removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

ADDENDUM #1

for

"Debris Monitoring for Tornado date January 21, 2017"

The following items will be added to the City of Hattiesburg "Debris Removal for Tornado dated January 21" RFP:

1. Attachment "A" City of Hattiesburg Historical Registry was not included in the original RFP. Although there are an immense number of locations within the Register none of the locations were damaged by the January 21st Tornado. The Attachment is included in this Addendum for review.
2. Questions for the RFP are due by Thursday January 26, 2017 at 12:01 PM. Questions should be submitted to Lamar Rutland City Engineer at lrutland@hattiesburgms.com or fax at 601-545-4642.
3. It was the intent of the City of Hattiesburg to attach the Contract Template and was overlooked while distributing the RFP. The Contract Template is attached to this Addendum for review.
4. Under Summary of the RFQ page 1 first paragraph the Bid will be opened on Saturday January 28th, 2017 **at 10:00 AM**, please add and note the time.

Kermas Eaton, City Clerk

**TERMS OF CONTRACT
DEBRIS MONITORING for DR-XXXX
CITY OF HATTIESBURG, MISSISSIPPI**

1. Contracted Services: The Contractor agrees to provide in accordance with the specifications set forth on the preceding page of this contract, titled "Contract between the City of Hattiesburg and NAME OF CONTRACTOR (Contractor)" and any other documents as set forth by the City of Hattiesburg (City), and are hereby incorporated into and made a part of this contract. No oral statements of any person shall modify or otherwise affect the terms, conditions, or specifications stated in this contract. If other attachments or exhibits exist which are to be incorporated as part of this contract, the title of each document shall be listed here, as follows (use additional sheets, if necessary):

Attachment B - Conflict of Interest

Attachment C - Certification Regarding Lobbying

Attachment D - Scope of Work per included RFP Response

2. ABILITY TO CONTRACT

The NAME OF CONTRACTOR (Contractor) warrants that he/she/it is qualified to provide the services, whether personal or professional, as outlined in this contract. The Contractor agrees to conform to existing policies, rules, and regulations of the City. The Contractor agrees to maintain throughout the contract period such licensing and/or certification as may be required by law for the provision of services specified herein, if applicable. The Contractor warrants that it is a validly organized business with valid authority to enter into this contract; that it is qualified to do business and in good standing in the State of Mississippi; that entry into and performance under this contract is not restricted or prohibited by any loan, security, financing, contractual or other contract of any kind; and, notwithstanding any other provision of this contract to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under this contract.

3. APPLICABLE LAW

The contract shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding its conflicts of laws, provisions, and any litigation with respect thereto shall be brought in the courts of the City of Hattiesburg or Forrest County Mississippi. Contractor shall comply with applicable federal, state, and local laws and regulations.

4. COMPLIANCE WITH LAWS

Contractor understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on race, color, creed, sex, age, national origin, physical handicap, disability, genetic information, or any other consideration made unlawful by federal, state, or local laws. All such discrimination is unlawful and Contractor agrees during the term of the agreement that Contractor will strictly adhere to this policy in its employment practices and provision of services. Contractor shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

5. PROCUREMENT REGULATIONS AND APPROVAL

The contract is designed by the applicable provisions of the *Mississippi Personal Service Contract Review Board ("PSCRB") Rules and Regulations*, a copy of which is available at 210 East Capitol, Suite 800, Jackson, Mississippi 39201 for inspection, or downloadable at <http://www.mspb.ms.gov>. It is understood that the PSCRB does not and will not approve this contract, the guidelines are best determined by the City of Hattiesburg that closely parallels the Federal Guidelines required for this contract.

6. REPRESENTATION REGARDING CONTINGENT FEES

Contractor represents that it has not retained person to solicit or secure a City contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Contractor's bid proposal

7. REPRESENTATION REGARDING GRATUITIES

The bidder, offeror, respondent, or contractor represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 6-204 (Gratuities) of the *Mississippi Personal Service Contract Review Board Rules and Regulations*.

8. DEBARMENT AND SUSPENSION: Contractor certifies to the best of its knowledge and belief, that it:

- a. is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transaction by any federal department or agency or any political subdivision or entity of the State of Mississippi;
- b. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction;
- c. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for a violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- d. is not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of these offenses enumerated in paragraphs two (b) and (c) of this certification; and,
- e. has not, within a three year period preceding this proposal, had one or more public transactions (federal, state, or local) terminated for cause or default.

9. INTEGRATED AGREEMENT/MERGER

This contract, including all contract documents, represents the entire and integrated contractual agreement between the parties hereto and supersedes all prior negotiations, representations, or agreements, irrespective of whether they were written or oral. This contract may be altered, amended, or modified only by a written document executed by the City and the Contractor. The Contractor acknowledges that it has thoroughly read all contract documents and attachments and has had the opportunity to receive competent advice and counsel necessary for it to form a full and complete understanding of all rights and obligations herein. Accordingly, this contract shall not be construed or interpreted in favor or against the City or the Contractor on the basis of draftsmanship or preparation.

10. MODIFICATIONS AND CHANGES IN SCOPE OF WORK

All modifications to the contract must be made in writing and signed by both parties to the contract. The City may order changes in the work consisting of additions, deletions, or other revisions within the general scope of the contract. No claims may be made by the Contractor that the scope of the contract or of the Contractor's services has been changed, requiring changes to the amount of compensation to the Contractor or other adjustments to the contract, unless such changes or adjustments have been made by written amendment to the contract signed by the City and the Contractor. If the Contractor believes that any particular work is not within the scope of the contract, is a material change, or will otherwise require

more compensation to the Contractor, the contractor must immediately notify the City in writing of this belief. If the City believes that the particular work is within the scope of the contract as written, the Contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

11. AVAILABILITY OF FUNDS

It is expressly understood and agreed that the obligation of the City to proceed under this agreement is conditioned upon the appropriation of funds by the City of Hattiesburg. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, of the City to appropriate funds or the discontinuance or material alteration of the program under which funds were provided or if funds are not otherwise available to the City, the City shall have the right upon ten (10) working days written notice to Contractor, to terminate this agreement without damage, penalty, cost or expenses to the City of any kind whatsoever. The effective date of termination shall be as specified in the notice of termination.

12. PAYMENT

Contractor agrees to accept all payments in United States currency via the City's check issuing system. The City agrees to make payment in accordance with Mississippi law on "Timely Payments for Purchases by Public Bodies," which generally provides for payment of undisputed amounts by the City within forty-five (45) days of receipt of invoice. Mississippi Code Annotated § 31-7-305.

13. E-VERIFICATION

If applicable, Contractor represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act of 2008, and will register and participate in the status verification system for all newly hired employees. Mississippi Code Annotated §§ 71-11-1 *et seq.* The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program.

Contractor agrees to maintain records of such compliance. Upon request of the City and after approval of the Social Security Administration or Department of Homeland Security when required, Contractor agrees to provide a copy of each such verification. Contractor further represents and warrants that any person assigned to perform services hereafter meets the employment eligibility requirements of all immigration laws. The breach of this agreement may subject Contractor to the following:

- A. termination of this contract for services and ineligibility for any state or public contract in Mississippi for up to three (3) years with notice of such cancellation/termination being made public;
- B. the loss of any license, permit, certification or other document granted to Contractor by an local, state, or federal governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- C. both. In the event of such cancellation/termination, Contractor would also be liable for any additional costs incurred by the City due to Contract cancellation or loss of license or permit to do business in the City or State.

14. STOP WORK ORDER

This section applies to contracts following the guidelines of the PSCRB as follows:

A. Order to Stop Work: The City, may, by written order to Contractor at any time, and without notice to any surety, require Contractor to stop all or any part of the work called for by this contract. This order shall be for a specified period not exceeding 90 days after the order is delivered to Contractor, unless the parties agree to any further period. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the occurrence of costs allocable to the work covered by the order during the period of work stoppage. Before the stop work order expires, or within any further period to which the parties shall have agreed, the City shall either:

1. cancel the stop work order; or,
2. terminate the work covered by such order as provided in the Termination for Default clause or the Termination for Convenience clause of this contract.

B. Cancellation or Expiration of the Order: If a stop work order issued under this clause is canceled at any time during the period specified in the order, or if the period of the order or any extension thereof expires, Contractor shall have the right to resume work. An appropriate adjustment shall be made in the delivery schedule or Contractor price, or both, and the contract shall be modified in writing accordingly, if:

1. the stop work order results in an increase in the time required for, or in Contractor's cost properly allocable to, the performance of any part of this contract; and,
2. Contractor asserts a claim for such an adjustment within 30 days after the end of the period of work stoppage; provided that, if the City decides that the facts justify such action, any such claim asserted may be received and acted upon at any time prior to final payment under this contract.

C. Termination of Stopped Work: If a stop work order is not canceled and the work covered by such order is terminated for default or convenience, the reasonable costs resulting from the stop work order shall be allowed by adjustment or otherwise.

D. Adjustments of Price: Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment clause of this contract, if applicable.

15. TERMINATION FOR CAUSE and CONVENIENCE

A. Termination. The City Engineer or designee may, when the interests of the City so require, terminate this contract in whole or in part, for the convenience of the City. The City Engineer or designee shall give written notice of the termination to Contractor specifying the part of the contract terminated and when termination becomes effective.

B. Contractor's Obligations. Contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination Contractor will stop work to the extent specified. Contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. Contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The COO or designee may direct Contractor to assign Contractor's right, title, an interest under terminated orders or subcontracts to the City. Contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

16. TERMINATION FOR DEFAULT

A. *Default.* If Contractor refuses or fails to perform any of the provisions of this contract with such diligence as will ensure its completion within the time specified in this contract or any extension thereof, or otherwise fails to timely satisfy the contract provisions, or commits any other substantial breach of this contract, the City Engineer or designee may notify Contractor in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the City Engineer or designee, such officer may terminate Contractor's right to proceed with the contract or such part of the contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the City Engineer or designee may procure similar supplies or services in a manner and upon terms deemed appropriate by the City Engineer or designee. Contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

B. *Contractor's Duties.* Notwithstanding termination of the contract and subject to any directions from the City, Contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Contractor in which the City has an interest.

C. *Compensation.* Payment for completed services delivered and accepted by the City shall be at the contract price. The City may withhold from amounts due Contractor such sums as the City Engineer or designee deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

D. *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if Contractor has notified the City Engineer or designee within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City, State and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Contractor shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Contractor to meet the contract requirements. Upon request of Contractor, the City Engineer or designee shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Contractor's progress and performance would have met the terms of the contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

E. *Erroneous Termination for Default.* If, after notice of termination of Contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (d) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

F. *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

17. TERMINATION UPON BANKRUPTCY

This contract may be terminated in whole or in part by the City upon written notice to Contractor, if Contractor should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by Contractor of an assignment for the benefit of its creditors. In the event of such termination, Contractor shall be entitled to recover just and equitable compensation for satisfactory work performed under this contract, but in no case shall said compensation exceed the total contract price.

18. RECORDS AND AUDIT

The Contractor shall maintain such financial records and other records as may be prescribed by the City or by applicable Federal and State laws, rules, and regulations. These may be kept according to the Contractor's usual method of recordkeeping, but must be sufficiently detailed to permit an accurate accounting of contract funds and program activities. The contract and the procurement of goods and services shall be governed by the applicable Mississippi statutes and the applicable provisions of the Mississippi Personal Service Contract Review Board Regulations. The Contractor shall retain these records for a period of three (3) years after final payment, or until they are audited by the City, whichever event occurs first. These records shall be made available during the term of the contract and the subsequent three-year period for examination, transcription, and audit by the Mississippi State Auditor's Office, its designees, or other authorized bodies. Where audits are required to be submitted to the City before funding can be released, the audits must be submitted within the required timeframe and must be acceptable; if a Contractor fails to submit an audit in a timely manner, or if the audit is unacceptable, the city reserves the right to cancel or suspend the contract at the City's discretion.

19. RECORDS RETENTION

The Contractor agrees to submit to the City quarterly program activity reports thirty (30) days subsequent to the closing of each quarter. The Contractor agrees to submit to the City quarterly fiscal reports thirty (30) days subsequent to the closing of each quarter, or other applicable period as made a part of this contract and agreed to by both parties. The Contractor agrees to permit reasonable program review and evaluation by the City; to provide access to any pertinent records; arrange meetings with appropriate personnel; permit inspection of the premises; and to cooperate in any other reasonable requests for fiscal and/or program information. Provided the Contractor is given reasonable advance written notice and such inspection is made during normal business hours of the Contractor, the City or any duly authorized representatives shall have unimpeded, immediate access to any of the Contractor's books, documents, papers, and/or records which are maintained or produced as a result of this contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this contract shall be retained by the Contractor for three (3) years after final payment and or final closeout for this declaration is made under this contract and all pending matters are closed. However, if any audit, litigation, or other action arising out of or related in any way to this contract is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

20. INDEPENDENT CONTRACTOR STATUS

This section applies only to contracts for which the Contractor shall serve solely on an Independent Contractor basis, as follows:

The Contractor, at all times, shall be regarded as an Independent Contractor and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Contractor, or any third party as creating the relationship of principal and agent, partners, joint ventures, or any similar such relationship between the City and the Contractor. Neither the method of computation of fees or other charges, nor any other provision contained herein, nor any acts of the City or the Contractor hereunder,

creates or shall be deemed to create a relationship other than the independent relationship of the City and the Contractor. The Contractor's personnel shall not be deemed in any way, directly or indirectly, expressly or by implications, to be employees of the City. Neither the Contractor nor its employees, under any circumstances, shall be considered servants, agents, or employees of the City; and the City shall be at no time legally responsible for any negligence or other wrongdoing by the Contractor, its servants, or agents. The City shall not withhold from the contract payments to the Contractor any Federal or State unemployment taxes, Federal or State income taxes, Social Security tax, or any other amounts for benefits to the Contractor. Further, the City shall not provide to the Contractor any insurance coverage or other benefits, including Workers' Compensation, normally provided by the City for its employees. Furthermore, none of the work performed under this contract shall be subcontracted without prior approval of the City. The City, throughout the life of the contract, shall have the right of reasonable rejection and approval of staff of the Contractor or its Subcontractors assigned to the work by the Contractor. If the City reasonably rejects staff of the Contractor or its Subcontractors, the Contractor must provide replacement staff or Subcontractors satisfactory to the City in a timely manner and at no additional cost to the City. The day-to-day supervision and control of the Contractor's employees and Subcontractors are the sole responsibility of the Contractor.

21. TRADE SECRETS, COMMERCIAL AND FINANCIAL INFORMATION

It is expressly understood that Mississippi law requires that the provisions of this contract which contain the commodities purchased or the personal or professional services provided, the price to be paid, and the term of the contract shall not be deemed to be a trade secret or confidential commercial or financial information and shall be available for examination, copying, or reproduction.

22. CONFIDENTIAL INFORMATION

A. *Definition*: "Confidential Information" shall mean:

1. those materials, documents, data, and other information which the Contractor has designated in writing as proprietary and confidential; and
2. all data and information which the Contractor acquires as a result of its contact with and efforts on behalf of the City, and any other information designated in writing as confidential by the City.

Each party to this contract agrees to protect all Confidential Information provided by one party to the other, to treat all such Confidential Information as confidential to the extent that confidential treatment is allowed under State and/or Federal law, and, except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission, and to do so by using those methods and procedures normally used to protect the party's own confidential information. Any liability resulting from the wrongful disclosure of confidential information on the part of the Contractor or its Subcontractors shall rest with the Contractor. Disclosure of any confidential information by the Contractor or its Subcontractors without the express written approval of the City shall result in the immediate termination of this contract.

B. *Disclosure*: In the event that either party to this contract receives notice that a third party requests divulgence of confidential or otherwise protected information and/or has served upon it a subpoena or other validly issued administrative or judicial process ordering divulgence of confidential or otherwise protected information, that party shall promptly inform the other party and thereafter respond in conformity with such subpoena to the extent mandated by State law. This section shall survive the termination or completion of this contract. The parties agree that this section is subject to and superseded by Mississippi Code of 1972, Annotated, Section 25-61-1, et. seq. regarding public access to public records.

C. *Exceptions*: The Contractor and the City shall not be obligated to treat as confidential and proprietary any information disclosed by the other party ("The Disclosing Party") which:

1. is rightfully known to the Contractor prior to negotiations leading to this contract, other than information obtained in confidence under prior engagements;
2. is generally known or easily ascertainable to non-parties of ordinary skill in the business of the Contractor;
3. is released by the Disclosing Party to any other person, firm, or entity (including governmental agencies or bureaus) without restriction;
4. is independently developed by the recipient without any reliance on confidential information;
5. is, or later becomes, part of the public domain or may be lawfully obtained by the City or the Contractor from any non-party; or
6. is disclosed with the Disclosing Party's prior written consent.

D. Contractor agrees to comply with the Administrative Simplifications provisions of the Health Insurance Portability and Accountability Act of 1996, including electronic data interchange, code sets, identifiers, security, and privacy provisions, as may be applicable to the services under this contract.

E. Notwithstanding any provision to the contrary contained herein, it is recognized that the City is a public entity of the State of Mississippi and is subject to the Mississippi Public Records Act. Mississippi Code Annotated §§ 25-61-1 *et seq.* If a public records request is made for any information provided to the City pursuant to the agreement and designated by the Contractor in writing as trade secrets or other proprietary confidential information, the City shall follow the provisions of Mississippi Code Annotated §§ 25-61-9 and 79-23-1 before disclosing such information. The City shall not be liable to the Contractor for disclosure of information required by court order or law.

23. TRANSPARENCY (PSCRB 7-1-16)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent entity contract website for public access at <http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

24. OWNERSHIP OF DOCUMENTS AND WORK PAPERS

The City shall own all documents, files, reports, work papers, and working documentation, electronic or otherwise, created under this contract, or in connection with the project which is the subject of this contract, except for the Contractor's internal administrative and quality assurance files and internal correspondence. The Contractor shall deliver such documents and work papers to the City upon termination or completion of the contract. The foregoing notwithstanding, the Contractor shall be entitled to retain a set of such work papers for its files. Contractor shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections. By entering into

this contract, the Contractor conveys, sells, assigns, and transfers to the City all rights, titles, and interest it may now have or hereafter acquire under the antitrust laws of the United States and the State of Mississippi that relate to the particular goods or services purchased or acquired by the City under this contract.

25. FAILURE TO DELIVER

In the event of failure of the Contractor to deliver goods or services in accordance with the contract terms and conditions, the City, after due written notice, may procure the services from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

26. FORCE MAJEURE

Each party shall be excused from performance for any period and to the extent that it is prevented from performing any obligation or service, in whole or in part, as a result of causes beyond the reasonable control and without the fault or negligence of such party and/or its Subcontractors. Such acts shall include without limitation acts of God, strikes, lockouts, riots, acts of war, epidemics, governmental regulations superimposed after the fact, fire, earthquakes, floods, or other natural disasters (the "Force Majeure Events"). When such a cause arises, the Contractor shall notify the City immediately in writing of the cause of its inability to perform, how it affects its performance, and the anticipated duration of the inability to perform. Delays in delivery or in meeting completion dates due to Force Majeure Events shall automatically extend such dates for a period equal to the duration of the delay caused by such events, unless the City determines it to be in its best interest to terminate the contract.

27. INDEMNIFICATION

To the fullest extent allowed by law, the Contractor shall indemnify, defend, save and hold harmless, protect, and exonerate the City of Hattiesburg and its officers, employees, agents, and representatives from and against all claims, demands, liabilities, suits, actions, damages, losses, and costs of every kind and nature whatsoever, including, without limitation, court costs, investigative fees and expenses, and attorneys' fees, arising out of or caused by the Contractor and/or its partners, principals, agents, employees and/or Subcontractors in the performance of or failure to perform this contract. In the City's sole discretion, the Contractor may be allowed to control the defense of any such claim, suit, etc. In the event the Contractor defends said claim or suit, etc. the Contractor shall use legal counsel acceptable to the City; the Contractor shall be solely responsible for all costs and/or expenses associated with such defense, and the City shall be entitled to participate in said defense. The Contractor shall not settle any claim or suit, etc. without the City's concurrence, which the City shall not unreasonably withhold.

28. NO LIMITATION OF LIABILITY

Nothing in this Contract shall be interpreted as excluding or limiting any tort liability of the Contractor for harm caused by the intentional or reckless conduct of the Contractor or for the damages incurred through the negligent performance of duties by the Contractor or the delivery of products that are defective due to negligent construction.

29. ATTORNEYS' FEES AND EXPENSES

Subject to other terms and conditions of this contract, in the event the Contractor defaults in any obligations under this contract, the Contractor shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorneys' fees) incurred by the City in enforcing this contract or otherwise reasonably related thereto. The Contractor agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to the Contractor. This clause shall not apply to any contracts entered into with another entity, board, or commission.

30. RECOVERY OF MONEY

Whenever, under this contract, any sum of money shall be recoverable from or payable by the Contractor to the City, the same amount may be deducted from any sum due to the Contractor under the contract or under any other contract between the Contractor and the City. The rights of the City are in addition and without prejudice to any other right the City may have to claim the amount of any loss or damage suffered by the City on account of the acts or omissions of the Contractor.

31. SEVERABILITY

If any part of this Contract is declared to be invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision of the contract that can be given effect without the invalid or unenforceable provision and to this end, the provisions hereof are severable. In such event, the parties shall amend the contract as necessary to reflect the original intent of the parties and to bring any invalid or unenforceable provisions in compliance with applicable law.

32. WAIVER

No delay or omission by either party to this contract in exercising any right, power, or remedy hereunder or otherwise afforded by contract, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to this contract shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of this contract will void, waive, or change any other term or condition. No waiver by one party to this contract of a default by the other party will imply, be construed as, or require waiver of future or other defaults. Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of the contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

33. CITY PROPERTY

The Contractor will be responsible for the proper custody and care of any City-owned or City-leased property furnished for the Contractor's use in connection with the performance of this contract. The Contractor will reimburse the City for any loss or damage, normal wear and tear excepted.

34. UNSATISFACTORY WORK

If, at any time during the contract term, the service performed or work done by the Contractor is considered by the City to create a condition that threatens the health, safety, or welfare of the general public, the City, its property, or its employees, or for whom the contracted services are to be rendered, the Contractor shall, on being notified by the City, immediately correct the deficient service or work. In the event the Contractor fails, after notice, to correct the deficient service or work immediately, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Contractor.

35. ANTI-ASSIGNMENT/SUBCONTRACTING

The Contractor acknowledges that it was selected by the City to perform the services required hereunder based, in part, upon the Contractor's skills, expertise, and proper response to the RFP. The Contractor shall not assign, subcontract, or otherwise transfer this contract in whole or in part without the prior written consent of the City, which the City may, in its sole discretion, approve or deny without reason. Any attempted assignment or transfer by the Contractor of its obligations without such consent shall be null and void. No such approval by the City of any subcontract shall be deemed in any way to provide for the incurrence of any obligation of the City in addition to the total contractual price agreed upon in this contract. Subcontracts shall be subject to the terms and conditions of this contract and to any conditions of approval that the City may deem necessary. Subject to the foregoing, this contract shall be binding upon the respective successors and assigns of the parties.

36. THIRD PARTY ACTION NOTIFICATION

The Contractor shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Contractor by any entity that may result in litigation related in any way to this contract.

37. INSURANCE REQUIREMENTS

Within 24 hours following the signing of this contract, respondent shall provide copies of insurance policies including all endorsements and bonding requirements as follows.

A. Commercial General Liability including Errors and Omissions- in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability – Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

37. Contractor agrees to abide by all local, state, and federal Environmental and Historical Laws as established.

38. Contractor agrees to the following federal clauses:

Equal Employment Act.

- a. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 601.3 must include the equal opportunity clause provided under 41 C.F.R. § 601.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p.339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II, C.

Key Definitions.

(1) Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any

Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

(2) Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause:

"During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

b. Davis Bacon Act (NOT REQUIRED).

c. Compliance with the Copeland "Anti-Kickback Act (NOT REQUIRED)"

d. Clean Air Act and the Federal Water Pollution Control Act for Contracts over \$150,000.00

Contractor shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA and the Regional Office of the Environmental Protection Agency.

Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and agrees that the City of Hattiesburg will, in turn, report each violation as required to assure notification to the City of Hattiesburg, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and agrees that the City of Hattiesburg will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

e. Access to Records

Contractor will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

(1) The contractor agrees to provide the Mississippi Emergency Management Agency, and the City of Hattiesburg, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the contract.

f. Energy Efficiency

Contractor shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

g. Debarment and Suspension in excess of \$25,000.00

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt.180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the City of Hattiesburg. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the City of Hattiesburg and or MEMA, the Federal Government may pursue available remedies, including but not limited to suspension and/ or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to nclude a provision requiring such compliance in its lower tier covered transactions."

h. "Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee

of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

SEE ATTACHMENT C- CERTIFICATION REGARDING LOBBYING (FORM SIGNATURE REQUIRED)

i. DHS Seal, Logo, and Flags.

The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA preapproval.

j. Compliance with Federal Law, Regulations, and Executive Orders.

This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

k. No Obligation by Federal Government.

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the City of Hattiesburg, contractor, or any other party pertaining to any matter resulting from the contract."

l. Program Fraud and False or Fraudulent Statements or Related Acts.

The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract.

m. Procurement of Recovered Materials Exceeding \$10,000.00.

Contractor shall comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered material practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA designated items unless the product cannot be acquired:

i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement is available at EPA's Comprehensive Procurement Guidelines web site, <http://www.epa.gov/cpg/>. The list of EPA-designate items is available at <http://www.epa.gov/cpg/products.htm>."

n. **Contract Work Hours and, Safety Standards Act, as Amended for contracts over \$100,000.00**

The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act".

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request .of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

o. Rights to Inventions made under Contract or Agreement (NOT REQUIRED).

p. FEMA Executive Order 12250; Coordination of Civil Rights Statues.

39. NOTICES

All notices required or permitted to be given under this contract must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, DebrisTech LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

SCOPE OF WORK
PER RFP RESPONSE**

INCERT BID RESPONSE

CONTRACT JUSTIFICATION FOR DEBRIS MONITORING

Detailed description of contractual services to be performed including location, program, purpose, and condition or regulatory agency establishing the requirement for contract personnel services:

Debris Monitoring for Federal Declaration DR-XXXX including Vegetative, Construction and Demolition, Damaged Structures, Removal of Structures, White Goods, Household Hazardous Waste, Electronic Waste, Soil/Mud/Sand, Stumps, Leaners and Hangers, Vehicles and or Vessels.

Justification of request, including assessment of current personnel resources (i.e. utilization of current position vacancies, temporary increase in workload above capability of current workforce, level of expertise required, position classification not available to agency):

Due to the overwhelming amount of Debris the existing City Employees, Equipment, and Mutual Aid Agreements will not be sufficient to perform the required services.

Qualifications that make this contractor the best suited to perform this task:

Contractor has Scored per the Request for Proposal to be more than sufficient to complete the task including A) quality of response, B) ability to perform, C) personnel/equipment/facilities/financial resources, D) record of past performance, and E) price.

Justification of modification request (if applicable):

NA

Consequence of contract being disapproved:

The City will not have the time/equipment/personnel to complete the project within the allotted time frame to qualify for the FEMA Public Assistance Alternative Procedures Pilot Program for Debris Monitoring or complete the task within 180 days.

I have reviewed this contract request and determined that these services are needed and cannot be provided by current staff or through the staffing of a vacant position.

Mayor, City of Hattiesburg

FOR PROPOSAL FOR DEBRIS
MONITORING TO ASSIST
THE CITY OF HATTIESBURG
FOR MISSISSIPPI SEVERE STORMS,
TORNADOES, STRAIGHT-LINE
WINDS, AND FLOODING DR-4295**

JANUARY 27, 2017

January 28, 2017

Mr. Lamar Rutland
City Engineer
PO Box 1898
Hattiesburg, MS 39403

Re: Proposal for Debris Monitoring to Assist the City of Hattiesburg for Mississippi Severe Storms, Tornadoes, Straight-Line Winds, and Flooding DR-4295

Dear Mr. Rutland:

Covington Civil & Environmental, LLC (Covington) is pleased to furnish the City of Hattiesburg our proposal to provide debris removal monitoring services to assist the City in its emergency debris management and planning by monitoring the field operations regarding all storm generated debris; debris pickup, debris hauling, debris staging and reduction, temporary site management, debris management, and final disposal of debris to an approved facility in order to eliminate immediate threats to life, public health and safety, and assist in the economic recovery to the City. Based on our professional knowledge and local experience, specifically through Connie Everett serving as Data Manager and Bob Gist as Project Executive, Covington provides the City of Hattiesburg with a superior team to perform the monitoring services with regards to compliance with the Stafford Act and FEMA debris management guidelines.

Covington has successfully combined its experience with the talents of very qualified consultants of which your project reaps the benefits of this team's past performance, competitiveness and proven results. Our team, which consists of Covington and Volkert, Inc., is not new and are currently under contract with the City of Gulfport and Harrison County Board of Supervisors to provide debris removal monitoring services. Our Team's local knowledge and existing local contract provides the City of Gulfport with immediate, efficient mobilization and streamlined coordination between local, state and federal agencies.

Covington is a South Mississippi firm owned and operated in the City of Gulfport. We pride ourselves on providing superior technical services coupled with local knowledge of our community's needs and understanding of our community's issues.

Project Director and Single Point of Contact (SPOC): Ben Benvenuti, PE

Age of Responders Business: 24 years

Average Number of Employees Over the Past Three (3) Years: 20

Principal Place of Business: Covington Civil & Environmental, LLC.
2510 14th St., Ste. 1010
Gulfport, MS 39501

Place of Performance for any Proposed Contract: Covington will set up a mobile operations base within the City of Hattiesburg to perform all field work. The location of mobile operations will be located at a strategic location agreed to by the City of Hattiesburg to best manage the debris removal operations. Possible locations include the contractor staging area or the debris disposal location.

Covington Civil and Environmental, LLC is proud to serve the communities we call home and we look forward to working with the City of Gulfport on this debris monitoring project.

Sincerely,

Todd Hairston

Chief Executive Officer

Covington Civil & Environmental, LLC

Why the Covington Team?

1 Local Knowledge and Presence with National Debris Monitoring and Management Expertise	With the Covington Team you get a South Mississippi firm, teamed with the support of a nationally recognized debris management firm- a known quantity with proven experience in Ms. Connie Everett - which provides Hattiesburg with the right staffing support needed to effectively and efficiently manage the debris removal operations.
2 Experience and Past Performance on Disaster Management Projects	The Covington Team has supported over 35 Disaster Response and/or Debris Monitoring and Management Projects within the past 12 years.
3 Currently Under Contract to Provide Debris Monitoring to Harrison County, MS and Gulfport, MS	The Covington Team is currently under contract with the Harrison County Board of Supervisors and the City of Gulfport to provide debris monitoring and management in the event of a disaster. The benefits to the City of Hattiesburg include: • Streamlined coordination between Hattiesburg, MEMA, FEMA and FHWA. • Local knowledge of critical infrastructure to prioritize debris pickup. • Immediate and efficient mobilization
4 Proximity to Hattiesburg and Capacity to Respond	Covington is owned and operated out of South Mississippi. The City of Hattiesburg can rest assured the ability, capacity and skill required to effectively and efficiently manage your debris removal operations are already located in South Mississippi and ready to mobilize to Hattiesburg immediately. Within 24 hours of the Notice of Award, Covington management staff will be in Hattiesburg ready to meet with your staff and get to work. Immediate and efficient mobilization is critical to the success of your operation to remove storm debris and begin the recovery process.

Tab 1: Executive Summary

Covington Civil & Environmental (Covington) which is owned and operated out of Gulfport, MS has more than 24 years of serving clients with honesty, integrity, and professionalism in South Mississippi and beyond. Being a local firm, our interests in South Mississippi go beyond just business. South Mississippi is where our families are raised, where our children attend school; so understanding and meeting our community's needs is personal for the Covington team.

Covington has assembled a team that not only has extensive debris removal monitoring experience, but a team that has a very intricate knowledge of the Stafford Act along with FEMA debris removal guidelines. Volkert personnel have responded to declared Presidential disasters across the country, and have provided support to communities both directly and as representatives of FEMA, to include being part of FEMA's cadre of trainers on disaster-related topics. Together the team has supported over 35 disaster response and/or debris monitoring and management projects within the past 12 years.

The Covington team has both worked directly for FEMA as well as represented city and county entities in dealing with FEMA. In addition to FEMA funds, the team has also worked with other funding sources such as Hazard Mitigation Grant Funds. This experience will be useful throughout all phases of your recovery. The team has worked multiple recent disasters that affected the State of Mississippi such as the 2010 Yazoo City/Holmes County tornado event, Hurricane Katrina, Hurricane Gustav, and Hurricane Isaac; all of which were federally declared events in the State of Mississippi.

The Covington team has a deep understanding of what it takes to run a successful debris management project from start to finish. From the hiring and training of local monitors and performing debris monitoring duties, to working with the City to address any FEMA eligibility questions that may arise throughout the process; the Covington team will be accessible throughout the entire disaster event to provide consultation as needed. While overseeing debris operations is a large part of the equation, the Covington team knows through experience that the administrative side of the project is equally important in order to meet FEMA eligibility requirements and limit the City's potential liability risk.

Once a notice of award is issued, the Covington team will immediately reach out to the City to establish a line of communication. Within 24 hours of the notice to proceed the Covington team will deploy management representatives to meet with the City and begin the recovery process. From the certification of debris hauling trucks, to the deployment of monitors into the

field, to processing load tickets; the Covington team will use its extensive knowledge and experience to meet the City's goals and needs. The Covington team will work to seamlessly track not only debris loads but other costs as well in order to make the reimbursement process as smooth as possible.

Todd Hairston, the Chief Executive Officer of Covington Civil & Environmental, declares that the proposal is in all respects fair and in good faith without collusion or fraud and he has the authority to bind the principal proponent.

Tab 2: Experience and Ability

The Covington Team will meet all program standards set forth in the MS Comprehensive Emergency Management Plan (CEMP) and the FEMA “Debris Management Guide”

Firm Profiles

Covington Civil & Environmental

Covington (DUNS 831791319) is a local multi-disciplinary civil engineering and environmental consulting firm owned and operated in Gulfport, MS. Covington enjoys a rich history of more than 24 years of serving our clients with honesty, integrity, and professionalism. We pride ourselves on providing superior technical services coupled with local knowledge of our community’s needs and understanding of our community’s issues.

Covington provides extensive knowledge of Stafford Act Compliance, FEMA project worksheet development, compliance and closeout procedures, FEMA debris removal guidelines and FHWA Emergency Repair programs. The Covington team members have worked in every facet of the FEMA Public Assistance Program including: writing, executing, complying and closing out project worksheets; debris monitoring (loading site, roving and management site), project management, compliance documentation and closeout of disaster debris programs; coordination with MEMA and FEMA to resolve reimbursement disputes and high level eligibility determinations. Team members have extensive experience working in FEMA Region IV as well as FEMA Region XI at the federal, state, county, and city levels.

Volkert, Inc.

Volkert is a full service, multi- discipline engineering and consulting firm committed to meeting their clients’ needs. Originally founded as Doullut & Ewin in 1925 in New Orleans, LA, the corporate office relocated to Mobile, AL in 1946 and they are now known as Volkert, Inc. Their current Mississippi office is in Jackson.

Volkert personnel have responded to declared Presidential disasters across the country, and have provided support to communities both directly and as representatives of FEMA, to include being part of FEMA’s cadre of trainers on disaster-related topics. A number of Volkert personnel currently are badged by FEMA (Department of Homeland Security).

Disaster Experience

In responding to presidentially declared disasters across the country, our Team has provided debris monitoring services and Public Assistance support to communities directly. Our partners and personnel have responded to hurricanes, tornados, severe storms, flooding, ice storms and wildfire disaster declarations across the country. We provide various disaster assistance services to our clients, including debris removal monitoring, damage assessment, training, emergency planning, and other post disaster related needs. Below is a list of recent and specific experience with debris monitoring and public support services in declared disasters:

NOTE: In the below list, where FEMA PA is indicated it refers to Public Assistance work representing FEMA; where Direct PA is indicated it refers to Public Assistance work representing the community directly.

- 2014 - Direct PA, Jackson County, Florida due to storms, tornadoes, straight-line winds, and flooding;
- 2011 - Direct PA & debris monitoring, Alabama due to state-wide tornados;
- 2016 - Debris monitoring, Ouachita Parish LA due to severe flooding;
- 2014 - Waterway debris monitoring, State of Alabama in coastal Baldwin County due to severe storms and flooding;
- 2014 - Debris monitoring, South Carolina Department of Transportation due to severe winter storms;
- 2013 to 2014 - Direct PA, Larimer County Colorado due to severe storms, flooding, and landslides;
- 2012 to 2014 - Direct PA, New York due to Superstorm Sandy;
- 2012 to 2014 - FEMA PA, New Jersey due to Superstorm Sandy;
- 2012 - Debris monitoring, coastal Westerly Rhode Island due to Superstorm Sandy;
- 2012 - Debris monitoring for the Louisiana Department of Transportation and Development due to Hurricane Isaac;
- 2012 - Debris monitoring consultation, Harrison County Mississippi due to Hurricane Isaac;
- 2012 - Debris monitoring consultation, Gonzales Louisiana due to Hurricane Isaac;
- 2011 to 2012 - FEMA PA, Iowa due to flooding;
- 2011 - Debris monitoring, North Carolina due to Hurricane Irene;
- 2011 - Debris monitoring, Connecticut due to Hurricane Irene;
- 2011 - Debris monitoring, Rhode Island due to Hurricane Irene;
- 2011 - Direct PA, Connecticut due to Hurricane Irene;
- 2011 - Direct PA, Rhode Island due to Hurricane Irene;

- 2011 - FEMA PA, Georgia due to tornados;
- 2010 - Direct PA, multiple communities in Rhode Island due to severe flooding;
- 2009 - FEMA PA, Illinois due to severe storms, flooding and tornadoes;
- 2009 - FEMA PA, Florida due to severe storms, flooding, tornadoes and straight-line winds;
- 2008 to 2010 - Debris monitoring and Direct PA to the Texas Department of Transportation, the Texas General Land Office, and the Texas Parks and Wildlife Department due to Hurricane Ike;
- 2008 to 2009 - FEMA PA, Illinois due to severe storms and flooding;
- 2008 - Debris monitoring for the Louisiana Department of Transportation and Development due to Hurricane Gustav;
- 2005 to 2007 - FEMA PA, Louisiana due to Hurricane Katrina;
- 2005 to 2006 - Debris monitoring, Florida Department of Transportation due to Hurricane Wilma;
- 2004 - Debris monitoring, Florida Department of Transportation due to Hurricane Jeanne;
- 2004 - Debris monitoring, Florida Department of Transportation due to Hurricane Francis;
- 2004 - Debris monitoring, Florida Department of Transportation due to Hurricane Charley.

Storm Generated Debris Experience

The Team's degree of experience with storm-generated debris is exceptional. As can be observed from the above list of disaster deployments, our Team's continuous experience involving disaster debris monitoring dates back 12 years to the unprecedented 2004-2005 hurricane seasons when 7 named hurricanes and a tropical storm hit Florida. Before then, members of our team responded in 1992 to one of the most devastating hurricanes to hit the U.S., Hurricane Andrew in South Florida. *Since the 2004-05 seasons, our teams' personnel have been involved in every major hurricane disaster to impact the United States.*

Many of the above hurricanes resulted in deployments to more than one state by members of our Team, and all involved debris to some degree, whether performing debris removal monitoring or writing Category A Project Worksheets.

All combined the Team's experience in dealing with debris disasters is exceptional and second to none. And we augment this experience by being able to claim even more Category A (debris)

Public Assistance experience working directly for both FEMA as Technical Assistance Contractors (TACs) and for communities who have hired us to represent them with FEMA.

Debris Management Plan Experience

The project team possesses significant experience in Debris Management Plan development, having assisted communities in Mississippi, Florida, North Carolina, and New Jersey with their Plans.

Specifically, Kirby McCrary, of Volkert, has instructed numerous communities throughout the United States on behalf of FEMA in the development of their Debris Management Plans. He was one of three individuals tasked by FEMA to revise and update its Debris Management Plan Workshop Training Course in 2008, and then provided train-the-trainer instruction to other FEMA trainers at the Emergency Management Institute (EMI) in Emmitsburg, Maryland on the new workshop material. In addition, he has developed Debris Management Plans on behalf of multiple communities throughout the Gulf Region. ***This experience will be invaluable to the City of Hattiesburg as you work to recover from the tornado event.***

National Incident Management Experience

The National Incident Management System (NIMS) provides a systematic, proactive approach to guide departments and agencies at all levels of government, nongovernmental organizations (NGOs), and the private sector to work seamlessly to prevent, protect against, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life and property and harm to the environment. NIMS works hand in hand with the National Response Framework (NRF), providing the template for the management of incidents while the NRF provides the structure and mechanisms for national-level policy for incident management.

Critical components of the NRF are the Emergency Support Functions (ESF) documents designed to provide concept of operations, procedures and structures for achieving response directives for all partners in fulfilling their roles under the NRF. Debris operations are addressed as part of ESF 3 – Public Works. Typically, the debris missions included in ESF 3 involve:

1. *Route Clearance - ensures roads and bridges remain viable following a disaster. This includes the physical removal of debris on roadways, assistance on railroads and airstrips, etc. (as requested), critical for emergency vehicle passage, as well as the inspection of bridges to insure they may continue to be used and have not suffered*

severe damage as a result of a particular event. Assistance to road crews is provided through this mission.

2. *Debris Removal - handles problems arising from the generation, accumulation, and disposal of debris following a disaster.*

Excluding the debris monitoring force, certain team debris project management personnel will be properly NIMs credentialed and trained in:

- ICS 100; Introduction to the Incident Command System
- ICS-200; ICS for Single Resources and Initial Action Incidents
- IS-700; National Incident Management System, An Introduction
- IS-800: National Response Framework, An Introduction

Key Staff Resumes

The resumes included in this proposal demonstrate our personnel's experience and knowledge through disaster declaration deployments all across the country. Every deployment involves close coordination with the locally affected communities and their jurisdiction's departments and personnel, as well as representatives of State and federal agencies.

Bob Gist– Project Executive (Covington – Non-Billable Position)

Mr. Gist currently serves as a Senior Project Manager for Covington and will serve as the Project Executive for the City of Hattiesburg. Mr. Gist lead debris removal recovery efforts for Roy Anderson Corp in the aftermath of with Hurricane Katrina. In addition to serving as the Chief Operating Officer, Mr. Gist oversaw all debris removal

operations to ensure an effective and efficient recovery process. These experiences coupled with the local knowledge and expertise of Connie Everett will provide the City of Hattiesburg with proven talent in leadership positions who understand the needs of Hattiesburg and Debris Removal Operations.

Connie Everett – Data Manager (Covington)

Connie Everett, the former CFO for the City of Hattiesburg, will serve as the Data Manager for this project. In her previous role as CFO, Connie was in charge of compiling and providing data to FEMA and MEMA as it pertained to disaster cleanup efforts for the 2013 Tornado disaster. Ms. Everett brings unparalleled knowledge of the local community and data management

requirements needed to satisfy FEMA and MEMA guidelines as they pertain to municipalities, and more specifically Hattiesburg. She will be responsible for managing the data entry, tracking and documentation phase of the project.

Ms. Everett's Direct Experience Includes:

City of Hattiesburg Disaster Cleanup Efforts (2013 Tornado and Hurricane Katrina): Ms. Everett, serving as the Chief Financial Officer for the City of Hattiesburg, was in charge of compiling and providing data to FEMA and MEMA for disaster cleanup efforts following the 2013 Tornado and Hurricane Katrina. She was responsible for ensuring the data was tracked and recorded properly and within compliance of MEMA and FEMA standards.

Kirby McCrary, PE - Senior PA Director (Volkert, Inc. – Non Billable Position)

Kirby is the Disaster Operations Manager for Volkert. He is a registered professional engineer and has worked in the disaster services arena for the last 12 years, deploying to numerous FEMA disasters both as a technical assistance contractor (TAC) for FEMA as well as working directly for affected communities. Prior to becoming involved in disaster assistance, he worked for the Florida Department of Transportation for 17 years and for a private consultant performing construction engineering and inspection (CE&I) services for 7 years. His background in transportation, roadway design, and CE&I services to the public sector provides a solid foundation for performing disaster-related services. In fulfilling assignments as a FEMA TAC, his expertise covers all aspects of damage categories of public assistance work (A thru G) and includes providing instruction on debris topics on behalf of FEMA. He has managed debris monitoring operations following numerous disasters as well as advised communities performing force-account operations. Kirby's management has been recognized by FEMA/USACE oversight personnel as being thorough and efficient, and he has received acclaim and letters of accommodation for his actions, and his experience extends to Public Assistance Support to communities following disaster.

Mr. McCrary's Direct Experience Includes:

FEMA DR-4176-AL (2014 Severe Flooding) – Debris Monitoring Operations Project Manager, responsible for all monitoring activities while representing the AL DCNR in its 3-contractor debris removal operation on State waters in Baldwin County AL.

FEMA DR-4166-SC (2014 Severe Winter Storm) – Assistant Project Manager, responsible for permitting through the State the sites to be used by the contractor as debris management sites

(DMS). Within the first five (5) days of the operation, successfully permitted seven (7) DMS within a five county area.

FEMA DR-4145-CO (2013 Severe Flooding) – Senior Engineer, developing PWs and performing QA/QC on FEMA-written PWs for Larimer County CO. Flooding devastated area roads, bridges, and culverts.

FEMA DR-4089-RI (2012 Hurricane Sandy) – Debris Monitoring Operations Project Manager, oversaw the removal, disposal, and monitoring of debris operations for Westerly RI.

FEMA DR-4087-CT (2012 Hurricane Sandy) – Senior Disaster Recovery Specialist, assisting with preparing Project Worksheets for Clinton CT.

FEMA DR-4027-RI (2011 Tropical Storm Irene) – Senior Disaster Recovery Specialist, performed field inspections, and developed Categories A through F Project Worksheets for damages.

FEMA DR-4023-CT (2011 Tropical Storm Irene) – Senior Disaster Recovery Specialist, performed field inspections, and developed Categories A through F Project Worksheets for damages.

FEMA DR-1971-AL (Birmingham AL Area) (2011 Severe Storms, Tornadoes, Straight-Line Winds and Flooding) – Project Administrator for debris monitoring operations in Pratt City neighborhood. Also, as Senior Disaster Recovery Specialist, provided public assistance support (Project Worksheets) to Birmingham Water Works Board in accordance with the Stafford Act.

Darryl Dunbar – Debris Project Manager (Volkert, Inc.)

Mr. Dunbar possesses a wide range of experience, including disaster debris operations, construction engineering and inspection services, and facilities maintenance. Mr. Dunbar's most recent disaster debris experience is that of a Debris Operations Manager in South Carolina following the severe winter storm event in February 2014. He oversaw all operations in Edgefield County, South Carolina, which included identifying leaners and hangers to be removed, overseeing the cut 'n' drop activities, managing the load 'n' haul operations, and being responsible for 50 debris monitors. He was also a Debris Monitor and Debris Field Supervisor during debris operations in the Pratt City area of Birmingham, Alabama following the Spring Tornado disaster that devastated the area in 2011. Mr. Dunbar

was quickly identified for promotion from the position of Debris Monitor to Field Supervisor due to quickly grasping debris operational elements and concepts and his meticulous attention to details. During the operation, he oversaw actions of 25 debris monitors during right-of-way debris removal, private property debris removal, and private property demolition activities.

Mr. Dunbar's Direct Experience Includes:

FEMA DR-4166-SC (2014 Severe Winter Storm)—Debris Operations Manager with responsibility for 50+ debris monitors and two debris management sites. Responsibilities included: overseeing the identification and tagging for cut 'n' drop all leaners and hangers; managing debris monitors assigned to contractor debris removal crews; managing monitors assigned to towers within the debris management sites where debris was transported, reduced, and hauled out for final disposal; all documentation generated by monitors assigned to his area of operations.

FEMA DR-1971-AL (Birmingham AL Area) (2011 Severe Storms, Tornadoes, Straight-Line Winds and Flooding) – Debris Monitor assigned to contractor debris removal crew within the Pratt City area of Birmingham AL. Quickly promoted to Field Supervisor, responsible for overseeing the daily monitoring duties of 25+ debris monitors involved in right-of-way debris removal operations. Involved in identifying and preparing Project Folders for each property to be demolished and oversaw all monitoring activities during private property debris removal operations.

Ben Benvenuti, PE – Project Director (Covington)

Ben Benvenuti will serve as the Project Director and Single Point of Contact (SPOC) for the Covington Team and will have full responsibility for all project aspects. Mr. Benvenuti is a professional engineer and project manager with over 9 years' experience planning, permitting, designing and managing projects along the Gulf Coast. As a project manager and professional engineer at Covington, Mr. Benvenuti provides technical guidance on the execution of complex projects. Mr. Benvenuti has direct FEMA debris monitoring and FHWA-ER experience related to Hurricane Cindy, Hurricane Katrina and Hurricane Gustav.

Mr. Benvenuti's Direct Experience Includes:

Ascension Parish, Louisiana (Hurricane Gustav): Following the aftermath of Hurricane Gustav in 2008, Ascension Parish received approximately \$12 million in federal aid to support their disaster debris clean-up efforts. Mr. Benvenuti served as deputy project manager and assisted in developing and creating the debris monitoring program for Ascension Parish. Responsibilities included the training of field staff positions; directing and managing sub consultants' responsibilities; truck certifications; coordinating weekly progress meetings with the client, FEMA officials and State debris officials; managing sub consultant invoices; managing the reconciliation of contractor invoices subject to client approval; and overall coordination duties. Ascension Parish was awarded 100 percent of all federal and state disaster debris funding available to them.

St. Tammany Parish, Louisiana (Hurricane Katrina): Mr. Benvenuti served as a project coordinator and roving inspector for the disaster clean-up efforts in St. Tammany Parish. Responsibilities included the training of field staff positions; directing and managing sub consultants' responsibilities; truck certifications and validate hazardous trees, including hangers, leaners and stumps.

City of Bay St. Louis, Mississippi (Hurricane Katrina): Mr. Benvenuti served as a project coordinator for the disaster clean-up efforts specific to removing debris and restoring positive drainage to the City's stormwater system. Responsibilities included the training of field staff positions; directing and managing sub consultants' responsibilities; truck certifications; coordinating weekly progress meetings with the client, FEMA officials and State debris officials; managing sub consultant invoices; managing the reconciliation of contractor invoices subject to client approval; and overall coordination duties.

Jefferson Parish, Louisiana (Hurricane Cindy): Mr. Benvenuti served as a project coordinator, loading site, disposal site and roving inspector for the disaster clean-up efforts in Jefferson Parish. Responsibilities included the training of field staff positions; directing and managing sub consultants' responsibilities; truck certifications, debris inspections and validate hazardous trees, including hangers, leaners and stumps.

Shane Monroe, CFE – Federal Funding Oversight and Compliance (Covington)

Shane Monroe is a certified fraud examiner (CFE) who leads Covington's debris management services providing oversight and compliance in regards to eligibility and federal funding compliance. He is a project manager with over 9 years of governmental financial monitoring and compliance experience in both the states of Mississippi and Texas. He has previously worked with both state and local governments to identify and resolve issues associated with governmental grant compliance specifically as it relates to the Stafford Act. He has experience in performing compliance reviews and audits specifically related to Category A projects. That experience includes the review of debris removal plans, review of debris load tickets, and review of billing summaries to ensure that all costs related to debris removal are captured correctly and compliant with the FEMA debris removal guidance. He managed multiple teams of compliance analysts that worked to administer and monitor over 3,000 FEMA funded projects. Shane is also versed in the Public Assistance Alternative Procedures Pilot Program for Debris Removal.

**Mr. Monroe's Direct Experience Includes:**

Holmes County, Mississippi (2010 Tornado Event): Mr. Monroe served as the lead consultant for Holmes County during the tornado event of 2010 that heavily affected the Yazoo County and Holmes County areas. Shane's role included documenting all costs the County incurred as a result of the tornado. This included documenting the amount of debris present, documenting all time and costs incurred by County employees as a result of the storm, and helping to set up a system immediately following the storm to assist the County in tracking these costs. Mr. Monroe served as the liaison on behalf of Holmes County with regards to FEMA Public Assistance related items.

Hancock County Board of Supervisors, Mississippi (Hurricane Katrina): Mr. Monroe served as a compliance specialist for the Hancock County BOS. During this time he compiled and reviewed the necessary documentation needed to seek reimbursement for dollars expended related to the recovery efforts for Hurricane Katrina. He worked on projects ranging from Category A thru Category G. Due to the amount of debris associated with Hurricane Katrina, Shane was involved in providing the necessary information needed to write additional Category A project worksheets for Hancock County. These project worksheets addressed both Right of Way and Right of Entry debris project worksheets, as well as, projects associated with "Standing Dead Trees".

Harris County, Texas (Hurricane Ike): Mr. Monroe led a team of auditors responsible for performing closeout reviews on behalf of the Texas Division of Emergency Management (TDEM) for Harris County, which is the largest county in state of Texas. During this time, his team focused on the closeout of Category A projects. The closeout process included the review of policies and procedures of the County, the County's supporting documentation related to those projects, and the review of the overall monitoring process utilized by the County's debris monitor contractor. Following the closeout of the project worksheets, Mr. Monroe provided consulting services on an as needed basis for Harris County. Those services included providing input related to the County's procedures for document management practices, as well as providing input into the County's overall debris management procedures.

Friendswood (City of), Texas (Hurricane Ike): Mr. Monroe led a team of auditors responsible for performing closeout reviews on behalf of the Texas Division of Emergency Management (TDEM) for the City of Friendswood, which is located just outside of Houston, Texas. The closeout reviews focused solely on Category A and B projects for Friendswood. Following the closeout of the projects, Mr. Monroe participated in multiple follow up meetings with the City to discuss and review overall disaster recovery procedures; with a focus on the City's debris removal management plan and processes.

Galveston County, Texas (Hurricane Ike): Mr. Monroe served as the project manager for a team of analysts performing financial monitoring on behalf of the Texas Division of Emergency Management for Galveston County. Mr. Monroe oversaw all aspects of monitoring all of Galveston County's Hurricane Ike project worksheets. Shane assisted in writing project worksheets under the guidance of the 2013 Sandy Recovery Improvement Act Permanent Work Alternate Procedures. The primary goal of the work associated with Galveston County was to ensure that all work on the remaining project worksheets were in compliance with federal and state regulations, while ensuring those projects moved toward FEMA closeout within the time frames set forth by FEMA.

Jack Norris – MEMA, FEMA, FHWA Liaison (Covington)

Jack Norris is a Senior Program Manager with Covington Civil and Environmental, LLC. Jack has more than 15 years of experience in managing federal and state public policy and funding

initiatives. Previously, Jack served in the office of Governor Haley Barbour as Executive Director of the Governor's Office of Recovery and Renewal, coordinating Hurricane Katrina recovery efforts for the Governor's Office. His work for the Governor included resolving FEMA reimbursement disputes and high level eligibility determinations. Prior to joining the Governor's Office, Jack served on the staff of former Senator Trent Lott in Washington DC for eight years as Projects Director and Policy Advisor. In those positions, Jack worked with both state and federal agencies to resolve multi-faceted issues associated with funding and legislation associated with FEMA's Public Assistance program.

Mr. Norris' Direct Experience Includes:

Office of Governor Haley Barbour, Jackson, Mississippi (Hurricane Katrina): Mr. Norris served as Director of Katrina Recovery in Governor Barbour's Office. Responsibilities included serving as the primary advisor to the Governor on implementation of recovery programs and projects. He served as the primary liaison to multiple state and federal agencies and the Congressional delegation to ensure coordination and efficient execution of projects across federally funded programs as well as resolving FEMA reimbursement disputes between local applicants such as FEMA.

James (Jim) Gower – PA Support; Grants Management Specialist (Volkert, Inc.)

As a Disaster Recovery Specialist, Mr. Gower has worked in the disaster services arena for the last ten years, and has deployed to numerous FEMA disasters, often being name-requested by the FEMA Joint Field Office (JFO) leadership. In fulfilling assignments as a FEMA Technical Assistance Contractor (TAC), his expertise covers all aspects of Public Assistance work under the Stafford Act, including debris operations. He also has private sector experience performed debris removal operations.

Mr. Gower's Direct Experience Includes:

FEMA DR-4086-NJ (2012 Superstorm Sandy) – Project Specialist (TAC), performing field inspections and developing Categories A through G project worksheets for damages.

FEMA DR-1981-ND (2011 Flooding) – Project Specialist (TAC), performed field inspections and developed Category C Project Worksheets for road damages while assigned to the Disaster's Grade Raise Team. Jim was name-requested by FEMA's Task Force Leader.

FEMA DR-1973-GA (Southern and Northern Regions) (2011 Severe Storms, Tornadoes, Straight-Line Winds & Flooding) – Debris Specialist (TAC), provided monitoring and oversight of debris removal activities. Project Specialist (TAC), performed field inspections and developed Categories A through C Project Worksheets for damages.

FEMA DR-1930-IA (Des Moines Region) (2010 Severe Storms, Flooding, and Tornadoes) – Project Specialist (TAC), performed field inspections and developed Categories A through C Project Worksheets for damages, including a breached dam.

FEMA DR-1909-TN (Nashville and Northern Regions) (2010 Severe Storms, Flooding, Straight-Line Winds & Tornadoes) – Project Specialist (TAC), performed field inspections and developed Categories A through C Project Worksheets, including for road damages.

FEMA DR-1831-FL (2009 Severe Storms, Flooding, Tornadoes & Straight-Line Winds) - Project Specialist (TAC), performed field inspections and developed Categories A through C Project Worksheets, including for road damages.

FEMA DR-1829-ND (2009 Severe Storms and Flooding) - Project Specialist (TAC), performed field inspections and developed Categories B and C Project Worksheets, including for road damages.

FEMA DR-1607-LA (2005 Hurricane Rita) – Team Leader (TAC TL) in Vermillion Parish LA for debris monitors, regular demolition, and demolition of declared structures having regulated asbestos-containing material (RACM). TAC TL of five teams in Cameron Parish LA for private property debris removal (PPDR) surveys.

FEMA DR-1603-LA (2005 Hurricane Katrina) – Team Leader (TAC TL) and PPDR (private property debris removal) Records Manager in Plaquemine Parish LA for declared structures having regulated asbestos-containing material (RACM). Supervised group of eight personnel charged with developing PPDR Project Folders for demolition operations. TAC TL overseeing field inspection services of five teams tasked with inspecting all streets, curbs, aprons and driveways for damages in Orleans (15,000 blocks), Jefferson (1200 blocks), and St. Bernard (3500 blocks) Parishes, and writing Category B and C Project Worksheets.

Tab 3: Past Performance

<i>2016 - Louisiana Severe Storms and Flooding (DR-4263)</i> <i>March thru Present 2016</i> <i>Jay Mitchell, Parish Attorney</i> 300 St. John Street, Room 201 Monroe, Louisiana 71201 jmitchell@oppi.org 318.327.1340	The Ouachita Parish Police Jury selected Covington Team member Volkert to monitor and document the removal and disposal of flood-related debris from within its jurisdiction. Volkert mobilized its personnel to identify and document the removal and proper disposal of eligible debris streams from flooded homes (Mixed/C&D, E-Waste, White Goods, and Tires). Eligible work involved completing load tickets, maintaining appropriate daily logs and photographic documentation, calling accurate loads at the disposal site, and keeping the Parish apprised of all activities and the progress of the operation.
<i>2014 – Alabama, Severe Storms, Tornadoes, Straight-line Winds, and Flooding (DR-4176)</i> <i>July thru October 2014</i> <i>Terry Boyd, PE, PLS, Chief Engineer</i> 64 North Union Street, Room 479 Montgomery AL 36104 Terry.Boyd@dcnr.alabama.gov 334.242.3836	The Alabama Department of Conservation and Natural Resources (ADCNR) selected Covington Team Member Volkert to monitor its waterway debris removal operation in Baldwin County State waters. Volkert monitored four (4) separate on-water debris removal operations being conducted by three (3) contractors, and evaluated and called debris loads at three (3) separate debris management sites (DMS). Volkert deployed its personnel in its own monitoring vessels on the water, on land where debris was being transferred from contractor vessels into trucks, and also in the DMS towers, working closely with FEMA, USACE, and ADCNR representatives in environmentally sensitive areas.
<i>2014 - North Carolina Severe Winter Storm (DR-4167)</i> <i>April thru June 2014</i> <i>Nanette Fogleman</i> NCDOT Maintenance Engineer for Alamance County 4253 Camp Burton Road McLeansville NC 27310 nfogleman@ncdot.gov 336.375.5475	The North Carolina Department of Transportation (NCDOT) District 7 Office selected Covington Team member Volkert to monitor and document the removal and disposal of storm-related vegetative debris from state-maintained road rights-of-way in Alamance County. Volkert mobilized its crew of inspectors (14 personnel) to identify and document the removal and proper disposal of eligible debris including completing load tickets, maintaining appropriate daily logs and photographic documentation, and monitoring trucks at the disposal site as they arrived with their debris loads.
<i>2014 – South Carolina, Severe Winter Storm (DR-4166)</i> <i>February thru June 2014</i> <i>Mr. David Cook, PE, State Maintenance Engineer</i> 955 Park Street, P.O. Box 191 Columbia, SC 29201-3959 CookDB@scdot.org	The South Carolina Department of Transportation (SCDOT) utilized Volkert to provide debris monitoring assistance within a 5-county area. Leaners and Hangers were the first debris operation to be undertaken, followed by right-of-way debris removal. Volkert was responsible for identifying and permitting debris management sites (DMS) within the 5-county area for the contractor's use, and during the first 5 days of the operation and working in conjunction with the State, 10 DMSs were identified and properly permitted for debris operations. Volkert also provide management level personnel, Field Debris Monitors, and DMS Tower Monitors to the State during the operation as well as post-operation for validation services.

803.737.1290	
2013 – Colorado, Severe Storms, Flooding, Landslides, and Mudslides (DR-4145) November 2013 to February 2014 Rusty McDaniel, PE Assistant County Engineer 200 West Oak Street, Suite 3000 Fort Collins CO 80521 rmcdaniel@larimer.org 970.498.5700	Larimer County (one of the three hardest hit counties in the State) selected Volkert as part of its team to provide debris monitoring and Public Assistance technical consulting services. The Team provided training and supervision on debris monitoring operations to County officials and augmented monitoring operations when the County monitors were unavailable. Additionally, the Team assisted the County with managing hundreds of instances of Private Property Debris Removal (PPDR), identified the potential obstacles early, worked with property owners, reviewed State and Federal laws, and utilized innovative techniques such as assigning unique identifiers to determine that properties contained limited hazards and could be disposed of following normal protocols.
2012 – Rhode Island, Hurricane Sandy (DR-4089) November thru December 2012 Amy Grzybowski, Town EM Director 45 Broad St, Westerly RI 02891 aqzybowski@westerly.org 401.348.2617 and David Francis, USACE Mobile District Woodruff/Seminole Site Project Office PO Box 96, 2382 Booster Club Rd, Chattahoochee FL 32324 Michael.D.Francis@usace.army.mil 229.442.0021	Volkert was name requested by the coastal Town of Westerly,RI to provide debris monitoring management in its Misquamicut Beach area. Westerly is a beach vacation resort area consisting of vacation properties, year-round residential properties, and supporting business properties. The Town utilized a local contractor who had never performed debris removal operations before, and due to narrow roads, sharp turning radii, low-hanging overhead power lines, an 80-mile roundtrip to the disposal site (state's landfill), and the contractor's lack of typical debris removal equipment, roll-off dumpsters were incorporated into the operation. All these factors resulted in a slower than usual debris removal operation, given the debris streams and quantities experienced. Still, Mr. David Francis who was the USACE Subject Matter Expert (SME) assigned to provide oversight of the operation stated, "Following the conclusion of the debris removal and monitoring operations, I was proud to report to FEMA and the Town that the monitoring efforts and overall monitoring project management of the operation was the best I had ever witnessed."
2012 – Mississippi, Hurricane Isaac (DR-4081) September 2012 (Consultation) Danny Boudreaux, PE County Engineer 15309 Community Road Gulfport MS 39503 engineering@co.harrison.ms.us 228.832.6061	As an example of when Volkert, considering what was in the client's best interest, advised against using our services but provided non-charged consultation for the client - Harrison County MS had previously selected Volkert for a stand-by (on-call) debris monitoring contract. Although the County had informed Volkert that it believed it had not experienced enough damage to activate the contract, the County Engineer, Danny Boudreaux, later contacted Volkert after deciding to activate our contract for debris monitoring services. Following a short discussion we realized the County intended to use force account services to collect debris, meaning they were not activating the contract of their debris hauler. Volkert informed the County that it would not be acceptable to FEMA for them to incur costs by monitoring a County force account operation, and highly advised against it. To provide the County a better sense of assurance, we sent one of our debris Subject Matter Experts (SME) to meet with the County Engineer and review the situation. Afterward, the County felt comfortable moving forward without Volkert's monitoring.

2012 – Louisiana, Hurricane Isaac (DR-4080) November 2012 (Consultation) Ms. Jackie Baumann, PE Chief Engineer 120 S. Irma Boulevard Gonzales LA 70737 jackie@gonzalesla.com 225.647.2841	As an example of when Volkert, considering what was in the client’s best interest, provided non-charged consultation for the client – Gonzales LA had previously selected Volkert for a stand-by (on-call) debris monitoring contract. The City elected to address their event debris using force account services and thus did not activate Volkert’s contract. The debris was removed and stockpiled on City property but was never disposed of. During a subsequent courtesy visit a short time later by Volkert personnel, the City wanted to discuss the stockpile of debris and asked how best to dispose of it. After visiting and reviewing the situation, Volkert advised the City to rent the smallest chipper that was large enough to handle the debris, and assign no more than 2 or 3 personnel in overtime status the task of chipping the debris during weekends. Under this scenario, all the force account overtime labor as well as the rental cost of the chipper were eligible under FEMA guidelines, and the City realized full reimbursement of their costs.
2011 – North Carolina, Hurricane Irene (DR-4019) September thru December 2011 Jordan Scott County Maintenance Engineer 124 Prison Camp Road Statesville NC 28625 jcscott1@ncdot.gov 704.380.6070	The North Carolina Department of Transportation (NCDOT) District 2 Office selected Volkert as part of its team to monitor the debris removal efforts of its contractors in a 3-county region. Volkert mobilized a team of 11 inspectors into Carteret, Pamlico, and Beaufort Counties to monitor debris removal on both FHWA and FEMA routes, and to keep accurate records on behalf of the Department for submission to FEMA and FHWA for reimbursement.
2011 – Alabama, Severe Storms, Tornadoes, Straight-line Winds, and Flooding (DR-1971) June thru December 2011 Jarvis Patton, Chief of Operations 710-20th Street North Birmingham AL 35203 jarvis.patton@birminghamal.gov 205.254.2320	The City of Birmingham AL selected Volkert as part of its team to monitor its debris removal operation following the devastating state-wide tornado outbreak, primarily concentrating efforts to the Pratt City neighborhood area. A significantly large portion of the area was destroyed by an EF-4 tornado, including dozens of residential homes. Right-of-way debris removal operations commenced and were underway while coordination with FEMA and the State took place on private property debris removal (PPDR) and demolition activities. Subsequently, FEMA authorized both and Volkert was instrumental in the research and preparation of Project Folders and the eventual demolition and debris removal efforts from private property.

Coordination with Federal, State and Local Agencies

We are extremely proud of our Team's exceptional experience working directly for FEMA as well as representing clients in dealing with FEMA, and our firms and personnel have had great success in doing both. Our team takes great pride in our interactions with and support of all the various agency representatives involved in a disaster deployment, and has received accolades and letters of acknowledgement from a number of them. The following reflects the disasters to which our Team personnel have deployed in the last 12 years, the agency we represented, and the additional agencies with which coordination was required.

Disaster	Agency Represented	Agencies with whom we Coordinated
Severe Flooding, DR-4263-LA	Local (Parish)	State (EM, DOT), Federal (FEMA, FHWA, NRCS)
Severe Flooding, DR-4176-AL	State (ADCNR)	Federal (FEMA, USACE, NMFS, USFWS)
Winter Storm, DR-4166-SC	State (SCDOT)	Federal (FEMA)
Severe Flooding, DR-4145-CO	Local (County)	State (EM, DOT), Federal (FEMA, FHWA, NRCS)
Hurricane Sandy, DR-4089-RI	Local (Town)	State (EM), Federal (FEMA, USACOE)
Hurricane Sandy, DR-4087-CT	Local (City)	State (EM), Federal (FEMA)
Superstorm Sandy, DR-4086-NJ	Federal (FEMA)	State (OLA), Local (Cities, Towns)
Superstorm Sandy, DR-4085-NY	Federal (FEMA)	State (EM), Local (Wastewater/Power Systems)
Hurricane Isaac (DR-4080-LA)	State (LaDOTD)	State (EM), Federal (FEMA), Local (Parishes)
Tropical Storm Irene, DR-4027-RI	Local (Cities, Towns)	State (EM), Federal (FEMA)
Tropical Storm Irene, DR-4023-CT	Local (City)	State (EM), Federal (FEMA)
Tropical Storm Irene, DR-4022-VT	Federal (FEMA)	State (EM, DOT)
Hurricane Irene, DR-4019-NC	State (NCDOT)	Federal (FEMA), Local (Counties)
Severe Flooding, DR-4018-IA	Federal (FEMA)	State (EM), Local (Counties)
Severe Flooding, DR-4016-IA	Federal (FEMA)	State (EM), Local (Counties, Tribes)
Severe Flooding, DR-1998-IA	Federal (FEMA)	State (EM), Local (Counties, Tribes)
Flooding & Tornadoes, DR-1997-IN	Federal (FEMA)	State (EM, DOT), Local (County, Cities, Towns)
Severe Flooding, DR-1981-ND	Federal (FEMA)	State (EM, DOT), Local (Counties, Towns)
Flooding & Tornadoes, DR-1973-GA	Federal (FEMA)	State, (EM), Local (Counties)
Alabama Tornadoes, DR-1971-AL	Local (City, Water Board)	State (EM), Federal (FEMA, FHWA)
Alabama Tornadoes, DR-1971-AL	State (ALDOT)	Federal (FEMA, FHWA), Local (Counties, Cities)
Flooding & Tornadoes, DR-1930-IA	Federal (FEMA)	State (EM)
Severe Flooding, DR-1915-SD	Federal (FEMA)	State (EM), Local (County, Townships, Tribe)

Flooding & TORNADOS, DR-1909-TN	Federal (FEMA)	State (EM), Local (Counties, Cities)
Severe Flooding, DR-1907-ND	Federal (FEMA)	State (EM), Local (Counties, Cities, Towns)
Severe Flooding, DR-1894-RI	Local (Cities, Towns)	State (EM), Federal (FEMA)
Severe Flooding, DR-1858-GA	Local (City)	State (EM), Federal (FEMA)
Flooding & TORNADOS, DR-1847-MO	Federal (FEMA)	State (EM), Local (Counties)
Flooding & TORNADOS, DR-1840-FL	Federal (FEMA)	State (EM), Local (Counties)
Flooding & TORNADOS, DR-1831-FL	Federal (FEMA)	State (EM), Local (County, City)
Severe Flooding, DR-1829-ND	Federal (FEMA)	State (EM), Local (County, Cities)
Winter Storm, DR-1822-MO	Federal (FEMA)	State (EM), Local (Counties)
Severe Flooding, DR-1800-IL	Federal (FEMA)	State (EM), Local (Cities, Towns)
Hurricane Ike, DR-1792-LA	Federal (FEMA)	State (EM), Local (Parishes, Ports, Hospitals)
Hurricane Ike, DR-1791-TX	Federal (FEMA)	State (EM), Local (City)
Hurricane Ike, DR-1791-TX	State (TxDOT, TGLO, TPWD)	Federal (FEMA, USACE, USFWS, NMFS, NOAA)
Hurricane Gustav, DR-1786-LA	State (LaDOTD)	Federal (FEMA, FHWA), Local (Parishes, Cities, Towns)
Hurricane Gustav, DR-1786-LA	Federal (FEMA)	State (EM), Local (Parishes, Ports, Hospitals)
Tropical Storm Fay, DR-1785-FL	Federal (FEMA)	State (EM), Local (Cities, Towns)
Severe Flooding, DR-1771-IL	Federal (FEMA)	State (EM), Local (Levee Districts)
Wildfires, DR-1731-CA	Federal (FEMA)	State (EM), Local (Counties, Cities, Towns)
Severe Flooding, DR-1711-KS	Federal (FEMA)	State (EM), Local (Counties, Cities)
Hurricane Wilma, DR-1609-FL	State (FDOT)	Local (Cities, Towns), Federal (FEMA, FHWA)
Hurricane Rita, DR-1607-LA	Federal (FEMA)	State (EM, DOT), Local (Parishes)
Hurricane Katrina, DR-1605-AL	State (ADCNR)	Federal (FEMA, USACOE, NRCS)
Hurricane Katrina, DR-1603-LA	Federal (FEMA)	State (EM, DOT), Local (Parishes, Cities)
Hurricane Jeanne, DR-1561-FL	State (FDOT)	Local (Cities, Towns), Federal (FEMA, FHWA)
Hurricane Ivan, DR-1551-FL	Local (Private, County)	State (EM, DOT), Federal (FEMA, FHWA)
Hurricane Ivan, DR-1549-AL	State (ADCNR)	Federal (FEMA, USACOE, NRCS)
Hurricane Frances, DR-1545-FL	State (FDOT)	Local (Cities, Towns), Federal (FEMA, FHWA)
Hurricane Charley, DR-1539-FL	State (FDOT)	Local (Cities, Towns), Federal (FEMA, FHWA)

Involvement with Various Funding Sources

Each of the previous identified disasters involved working with and through the various applicable grant and funding sources on behalf of the client. The following reflects the disasters to which our personnel have deployed in the last 12 years and the grant and funding sources involved.

Disaster	Agency Represented	Grant and Funding Sources Involved
Severe Flooding, DR-4263-LA	Local (Parish)	FEMA PA, HMGP, State/Local Funds
Severe Flooding, DR-4176-AL	State (ADCNR)	FEMA PA, State Funds
Winter Storm, DR-4166-SC	State (SCDOT)	FEMA PA, State Funds
Severe Flooding, DR-4145-CO	Local (County)	FEMA PA, FHWA ER, NRCS, State/Local Funds
Hurricane Sandy, DR-4089-RI	Local (Town)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Sandy, DR-4087-CT	Local (City)	FEMA PA, State/Local Funds
Superstorm Sandy, DR-4086-NJ	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Superstorm Sandy, DR-4085-NY	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Hurricane Isaac (DR-4080-LA)	State (LaDOTD)	FEMA PA, FHWA ER, State/Local Funds
Tropical Storm Irene, DR-4027-RI	Local (Cities, Towns)	FEMA PA, HMGP, State/Local Funds
Tropical Storm Irene, DR-4023-CT	Local (City)	FEMA PA, State/Local Funds
Tropical Storm Irene, DR-4022-VT	Federal (FEMA)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Irene, DR-4019-NC	State (NCDOT)	FEMA PA, FHWA ER, State/Local Funds
Severe Flooding, DR-4018-IA	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Severe Flooding, DR-4016-IA	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Severe Flooding, DR-1998-IA	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Flooding & Tornados, DR-1997-IN	Federal (FEMA)	FEMA PA, FHWA ER, State/Local Funds
Severe Flooding, DR-1981-ND	Federal (FEMA)	FEMA PA, FHWA ER, State/Local Funds
Flooding & Tornados, DR-1973-GA	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Alabama Tornados, DR-1971-AL	Local (City, Water Board)	FEMA PA, State/Local Funds
Alabama Tornados, DR-1971-AL	State (ALDOT)	FEMA PA, FHWA ER, State/Local Funds
Flooding & Tornados, DR-1930-IA	Federal (FEMA)	FEMA PA, State/Local Funds
Severe Flooding, DR-1915-SD	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Flooding & Tornados, DR-1909-TN	Federal (FEMA)	FEMA PA, State/Local Funds
Severe Flooding, DR-1907-ND	Federal (FEMA)	FEMA PA, State/Local Funds

Severe Flooding, DR-1894-RI	Local (Cities, Towns)	FEMA PA, HMGP, State/Local Funds
Severe Flooding, DR-1858-GA	Local (City)	FEMA PA, State/Local Funds
Flooding & Tornados, DR-1847-MO	Federal (FEMA)	FEMA PA, State/Local Funds
Flooding & Tornados, DR-1840-FL	Federal (FEMA)	FEMA PA, State/Local Funds
Flooding & Tornados, DR-1831-FL	Federal (FEMA)	FEMA PA, State/Local Funds
Severe Flooding, DR-1829-ND	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Winter Storm, DR-1822-MO	Federal (FEMA)	FEMA PA, State/Local Funds
Severe Flooding, DR-1800-IL	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Hurricane Ike, DR-1792-LA	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Hurricane Ike, DR-1791-TX	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Hurricane Ike, DR-1791-TX	State (TxDOT, TGLO, TPWD)	FEMA PA, HMGP, State/Local Funds
Hurricane Gustav, DR-1786-LA	State (LaDOTD)	FEMA PA, State Funds
Hurricane Gustav, DR-1786-LA	Federal (FEMA)	FEMA PA, HMGP, State/Local Funds
Tropical Storm Fay, DR-1785-FL	Federal (FEMA)	FEMA PA, State/Local Funds
Severe Flooding, DR-1771-IL	Federal (FEMA)	FEMA PA, State/Local Funds
Wildfires, DR-1731-CA	Federal (FEMA)	FEMA PA, State/Local Funds
Severe Flooding, DR-1711-KS	Federal (FEMA)	FEMA PA, State/Local Funds
Hurricane Wilma, DR-1609-FL	State (FDOT)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Rita, DR-1607-LA	Federal (FEMA)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Katrina, DR-1605-AL	State (ADCNR)	FEMA PA, NRCS
Hurricane Katrina, DR-1603-LA	Federal (FEMA)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Jeanne, DR-1561-FL	State (FDOT)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Ivan, DR-1551-FL	Local (Private, County)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Ivan, DR-1549-AL	State (ADCNR)	FEMA PA, NRCS
Hurricane Frances, DR-1545-FL	State (FDOT)	FEMA PA, FHWA ER, State/Local Funds
Hurricane Charley, DR-1539-FL	State (FDOT)	FEMA PA, FHWA ER, State/Local Funds

Tab 4: Technical Plan

The City of Hattiesburg, like every potential disaster candidate, has specific needs and requirements, making its debris removal and public assistance operations unique. Provided below is our typical approach but we also understand that only after a full and complete discussion with the City can a specific, tailored approach be provided.

While more specific and detailed discussions will take place following selection that will fine-tune the specific response based on the requirements and restrictions placed on the debris hauler as well as the monitoring firm, the following is our approach based on our experience in numerous debris operations.

Our team always follows FEMA's published guidance in its approach methodology. Below are the anticipated scope of work elements that may be involved with a City debris removal and disposal operation. Please note the outlined response is dependent in part on the debris hauler's timeline.

Scope of Work	TIMELINE	DESCRIPTION
Selection of Monitoring Consultant and signing of contract.	Following submittal and review of proposals.	The City will review all received proposals and make its selection, followed by signing of the contract.
Review the contractual documents of the debris hauler; make comments as necessary.	Upon receiving documents from the City; complete within 1-2 days.	The Team will conduct a review of the City procurement process and contract documents for procedural issues and informational purposes.
Mobilize and be onsite (at the time of need following a declared disaster).	Within 24 hours of NTP from the City.	The Team will mobilize a representative of its management administration team and begin preparing for operations.
Meet with City, FEMA, GOHSEP, USACE, Debris Hauler, and/or others involved in the operation.	Immediately as personnel are available to meet, then ongoing as additional personnel arrive into the area.	The Team's management administration team will meet with representatives of the City as well as other involved agencies. We will also meet with the debris hauler and begin establishing communications and our working relationship.

Assist the City with its Public Information efforts.	Following our meetings with operation's shareholders and ongoing thereafter.	The Team is prepared to provide any required level of assistance to the City in its efforts to keep the public, government representatives, and/or media outlets apprised of current and upcoming operations. Of particular significance to the public is their involvement in debris placement along the right-of-way for collection and removal operations.
Conduct Debris Monitor training.	Start within 24 hours of our Team's arrival into the area, then ongoing.	The Team will identify local personnel and conduct Debris Monitor training, keeping additional numbers trained and in reserve.
Activation of Safety and Health Plan.	As operations commence and ongoing thereafter.	Safety and health training is embedded into the Team's Debris Monitor Training Program, with reviews being ongoing and on-the-spot training conducted.
Establish Truck Certification Station; determine required number of Debris Monitors based on debris hauler's level of response to City disaster conditions.	Truck measures and certifications will commence with the arrival of the debris hauler's vehicles; it will continue as operational requirements dictate.	The Team will conduct truck certifications as per published FEMA guidance. We will measure the truck's cargo bed, taking into account any irregularities that diminish capacity, and calculate the truck's certified hauling capacity. This information will be properly documented using FEMA-approved paperwork, and a unique number will be assigned to the truck; all information will be recorded into our database and a truck placard will be prepared and affixed to the truck's side. Random spot-checks and re-measures of vehicles will be conducted throughout the life of the operation.
Conduct site visits and review City-responsible areas to be addressed for debris removal and monitoring; produce various debris quantity estimates if not already completed.	24-48 hours of our Team's arrival into the area.	In coordination with City personnel, the Team will review and inspect the areas to be addressed under the contract. We will work with the City to develop an approach consistent with the needs and requirements, to include identifying high priority target corridors for initial debris clearing operations.
Determine Debris Management Sites (DMS) and/or Landfills to be utilized and acceptable debris streams to be handled at each; obtain copies of Landfill permits for FEMA's future use.	Initiate within 24 hours of completion of the review and inspection of areas to be addressed (if the City has not already completed).	If the City has not already done so and the onus is not on the debris hauling contractor to provide, the Team will assist in the identification and approval process for DMS establishment. We will coordinate with the debris hauler for placement of a Monitoring Tower at the selected site(s).

Assignment of Crew and Debris Site Monitors.	At the time the debris hauler is prepared to commence debris removal and disposal operations.	Directly proportional to the debris hauler's level of response, the Team will assign a Debris Monitor to each contractor debris removal operation. The Monitors will confirm the debris being collected is eligible debris from eligible locations, and will initiate the Load Ticket process for each eligible load. Cherry-picking (the practice of a debris hauler skipping smaller piles of debris in lieu of collecting larger piles) will not be accepted, and the Team's Debris Monitors will not write Load Tickets for such practices.
Assignment of Tower Monitors.	At the time the debris hauler is prepared to commence debris removal and disposal operations.	The Team will deploy its Tower Monitors to the designated DMS locations and/or landfills to be utilized in the operation. Our Tower Monitors will evaluate each loaded vehicle passing through the Tower and will assign a fair Percent-Full to each, and will then apply the percentage to the vehicle's certified capacity. They will complete the Load Ticket and allow then vehicle to proceed to deposit its load in the designated area. They will then observe the cargo area of the vehicle as it exits the disposal site and confirm all debris was in fact deposited.
Conduct debris removal and disposal monitoring operations (to include maintaining all field data and documentation).	Commence when debris hauler is prepared to begin.	While the monitoring firm is charged with full and complete monitoring of a debris operation in accordance with FEMA guidance, policies and procedures, we can only respond to the debris hauler's day-to-day operational requirements. The Team will deploy monitors based on the debris hauler's daily workload and will maintain all data and documentation for future use and reimbursement purposes.
If required, evaluate for removal any leaners, hangers, and/or hazardous stumps that threaten City jurisdictional areas.	1-2 weeks following commencement of debris removal and disposal operations.	If it is determined that leaners, hangers, and/or hazardous stumps (as defined in FEMA guidance) exists and require address, the Team will coordinate with FEMA representatives to perform inspections and render determinations of those requiring removal. Full documentation of every inspected leaner, hanger, and hazardous stump will be maintained.
Utilize a Data Management System.	Throughout the operation.	The Team will input and maintain all operational data in its Data Management System. This system will be used to reconcile Load Tickets and quantities by the following day (in coordination with the debris hauler's records), and will also be used as the basis for reporting quantities and costs to the City and to FEMA for Project Worksheet development and reimbursement of applicable funds.

Reconcile debris hauler quantities and costs.	Load tickets to be reconciled daily (in coordination with the debris hauler's records); invoices and costs to be reconciled upon submission by the debris hauler.	The billing process involves collecting load tickets from debris monitors at the end of each shift and entering the information into the Data Management System. We compare the debris hauler's information with that in the System to confirm the quantities and costs match, and then recommend payment of those amounts to the City. Any debris hauler records that do not agree with those in our System are reviewed by both the debris hauler and by the Team and are reconciled.
Close-out.	An ongoing and continuous process, from start of operations through the debris hauler's last disposed load.	Close-out of an operation doesn't begin at the conclusion of field activities; it begins with the commencement of field operations. With every Load Ticket that is reconciled and every invoice that is reviewed and paid, the process is ongoing and continuing. At the conclusion of field activities any open permits are closed and all final documentation is electronically filed and archived. Any outstanding issues with agencies/shareholders are finalized.
Development of FEMA Project Worksheets.	As per FEMA's timeline and schedule.	The Team will fully cooperate with FEMA and GOHSEP on behalf of the City to develop and capture all relevant costs in its Category A Project Worksheet(s) for the operation. The Team's personnel have deployed with FEMA into numerous disaster declarations and written hundreds of Category A PWs totaling into the tens to hundreds of millions of dollars. We will use this experience and knowledge to assist and benefit the City.
Appeals and/or audits.	During and following operations.	If it becomes necessary to appeal a FEMA determination, the Team will be available to provide assistance to the City through the process. Additionally, should a future FEMA audit occur, the Team will stand with the City to provide any information, records, and support that may be needed to fully and completely address the audit's inquiries.

Acquiring and Managing Debris Monitors

While the Covington Team's management personnel come from our Team firms, we endeavor to hire the majority of personnel used in the monitoring force from the local area - from within and around the community we're serving - and train them in all aspects of debris monitoring before they are sent to the field.

This method has proven to promote a steady and reliable workforce that:

- Comes from the local economy;
- Is already familiar with the local area;

- Is committed to doing the best job possible for their family, their neighbors, and their community, and;
- Returns more of the operation's funds back into the community.

When the need arises to replace monitors or augment our numbers, we accomplish this task more quickly by hiring local individuals rather than importing personnel from out of the area.

The project team will seek to acquire debris personnel in one of two ways; we will either hire them as direct employees, or we will utilize a local staffing agency if one is available. In either case, the personnel used as debris monitors will be given local preference. The management positions of the operation will be filled with seasoned and experienced personnel from the member firms of the Covington Team. It is only the monitor-level personnel who are secured in the manner described above.

This is the typical and usual process used by debris monitoring firms, as bringing personnel in from out of the affected area to perform debris monitoring duties would result in much higher costs to the community and an overall more costly operation for all involved.

These personnel will be required to meet or exceed established criteria in order to be considered potentially hireable; our criteria includes requirements such as be at least 18 years of age, write and speak fluent English, be capable of working outdoors a minimum of 12 hours per day, and be physically capable of performing the duties of the position. We will give preference to individuals with prior disaster or construction experience, and to military veterans. In addition, all personnel must pass an e-verify background check.

Once all this is completed, each accepted personnel will be put through a debris monitor training program, and only upon successful completion of this training will an individual be assigned to the field as a debris monitor.

This method of acquiring, screening and training individuals allows us to focus on ensuring each person is adequately trained in the idiosyncrasies of monitoring and ultimately are performing their duties to the high standards of both our clients and also ourselves, while allowing a professional staffing agency to secure the best available locals for the job and maintain an on-call cadre for replacement and/or augmentation.

Data Management

Covington understands data management is critical to receive 100% funding reimbursement through MEMA, FEMA and FHWA. Covington's data management systems information, policies and procedures are fully documented in the following documents that are maintained in our office:

- CCE Information Technology (IT) Architecture
- Information Technology Purchasing and Inventory Policy
- Acceptable Use Policy
- Laptop Policy
- Security Verification Report
- Disaster Recovery and Business Continuation Plan

SERVERS: Covington's cloud file servers provide remote access for co-workers, clients and partners to collaborate with co-authoring capabilities, which allow multiple users to work concurrently on the same document. Quantities of file versions to be retained may be specified by the City data manager from none to hundreds of versions. Interfacing with the City data manager on a day-to-day basis will be assisted by cloud file sharing and collaboration tools. Configuration settings for login verification, password controls, enforcement policies, shares and permissions are administered at the cloud level and not subject to receiving damage from local disasters; fully recoverable.

BACK-UP EQUIPMENT: Covington's servers are operated under the Egnyte Cloud File Server platform at Egnyte, Inc. Each system consists of a local Network Attached Storage (NAS) device manufactured by Netgear as model name ReadyNAS. Data from the NAS device is automatically synchronized to Egnyte Cloud File Server in real time. Egnyte Cloud File Server serves as a redundant data store in case the NAS device fails. Should the device fail, a new device can easily be purchased, and the data from Egnyte Cloud File Server can be re-synchronized. CCE has (2) two new replacement NAS devices onsite in case of such an emergency.

GIS: Covington has the capabilities necessary to produce base maps and special layers to visually illustrate work zones, ticket and tower locations, activities and work in progress for this project including accepting and processing all images and data gathered by HHU devices. Currently Covington is producing and maintaining geospatial data that includes historically and up to date environmentally sensitive areas.

INTERNET ACCESSIBLE DATABASE: When users are in the office, they can access document files and geospatial databases on the NAS device directly via the LAN. Similarly, users who work from remote locations can also access the files directly from Egnyte Cloud File Server and upload data directly from devices in the field of operations to the servers via the internet; in real time. All data is encrypted 246 bit during transfers. Advanced Authentication before login is enforced for computers and mobile devices. The Company's Administrators centrally manage all folder access including user accounts, modified passwords, activate and deactivate users.

Debris Hauling Truck Certifications

Arriving trucks are measured and their capacity certified before they enter a debris removal operation. In many instances, these trucks arrive with added elements (side boards and extensions) that are taken into account in the measurements and result in a greater certified capacity for the hauling unit. Occasionally truck operators attempt to remove these added elements after capacity certification, thus attempting to receive credit for each hauled load that is based on the original larger certified capacity.

Spot-checking and re-measuring individual trucks throughout the operation can reduce potential variances in hauling capacities. But, our team also incorporates a process within its truck-numbering system that assists field monitors and supervisors in more easily spotting trucks who may have removed these added elements:

- The Team will use an alpha-numeric system in its assigned certified truck ID number that allows a debris monitor to know at a glance if a truck had extensions and/or side boards at the time when it was initially measured and certified. If a truck's ID number indicates these elements should be present on the truck, but they no longer are, we immediately remove that truck from the operation and investigate the cause for the modification.
- If it is determined that the capacity of a truck has been modified after certification, the Team's personnel will re-measure the truck for its new reduced capacity. Because we have no way to determine when the modification occurred, we edit our Load Ticket Database by assigning the truck the new measured reduced capacity, and this reduced capacity is then applied to every load previously hauled by that truck. The truck's operator is removed from the operation and not allowed to return, but the truck is

allowed to remain (at the contractor's discretion) with a newly assigned driver and its new certified capacity.

Approach to your Disaster Scenario

Immediately upon notice of award, Covington will reach out to the City of Hattiesburg's point of contact to begin contract negotiations and mobilization efforts. Within 24 hours of the notice to proceed, the Covington team will mobilize in order to begin debris removal activities.

At no cost to the City of Hattiesburg, Kirby McCrary (Senior PA Specialist) and Ben Benvenuti (Project Director) will deploy to the project site within 24 hrs and oversee the ramp up phase and remain until the debris operations are running effective and efficient.

Along with the City, the Covington team will meet with all other involved agencies, including but not limited to FEMA, MEMA and FHWA. Covington will also meet with the debris hauler in order to establish a working relationship. Covington will then begin the process of procuring local debris monitors via local hiring agencies. Once monitors are hired, they will then go through training prior to being released into the field. The Covington team will review and inspect areas addressed under the contract and work with the City to identify high priority target areas for initial debris cleaning operations.

Based on the statement in the RFP *"Be able to perform the Services in a timely manner and on short notice, recognizing that in the event of a Task Order, the City desires maximum percentage of completion of projects within the allotted time frames. Maximum Debris Removal within the first 30 days is desirable and the City prefers not to exceed 90 days for completion of any project however the maximum allotted time frame could extend to 180 days."* It appears the City of Hattiesburg may have opted into the Alternative Procedures Pilot Program, which promotes timely debris removal with a sliding scale of Federal Cost Share. Please see below:

Debris Removal Work	Federal Cost Share	Time Frames
0-30 Days	85%	01/21/17 – 02/20/17
31-90 Days	80%	02/21/17 – 04/21/17
91 – 180 Days	75%	04/22/17 – 07/20/17

With the Alternate Procedures Pilot Program a consideration, we acknowledge that timely removal of debris is critical. While the clock has started on the 30 day window, which pays at an 85% Federal Cost Share, we will coordinate efforts with the debris removal contractor to reach maximum efficiency to realize the financial gain associated with the Pilot Program.

Prior to the pick up of storm debris, the Covington team will begin the truck certification process. The certification process will follow FEMA guidance, and the information will be documented using FEMA-approved forms. This process will include assigning unit numbers to any truck that will be participating in the debris removal process on behalf of the debris removal contractor. In addition to assigning truck numbers, trailers will be measured in order to verify the trailers total capacity. These dimensions will be utilized when determining the amount of debris that a particular trailer contains on each specific load throughout the debris removal process. Directly proportional to the debris hauler's level of response, Covington will assign a debris monitor to each contractor debris removal crew. The monitors will confirm that eligible debris is being collected from eligible locations, and will then also initiate the load ticket process

Covington will work closely with City staff to identify high priority target areas for initial debris cleanup

(Note: Monitors spend an extraordinary amount of time with the contractor crews they are assigned to, and this can potentially lead to both parties becoming too accustomed to each other. To help alleviate this, we reassign monitors every 3-4 days to reduce the chance that contractor and monitor become too familiar or complacent with each other. We have found this enables our monitors to remain more focused while performing their duties, and promotes a more professional and responsible operation.) Covington will also deploy tower monitors to designated disposal management site (DMS) locations and/or landfills. Tower monitors will evaluate each load as it enters a designated drop zone. Once off-loaded, trucks will be evaluated again in order to verify the load has been emptied. If leaners, hangers, and/or hazardous stumps are present, the Covington team will work with FEMA representatives to perform inspections and render determinations of those that will require removal. Full

documentation as required for FEMA reimbursement for every leaner, hanger, and stump will be maintained.

All operational data will be entered into and maintained in the Covington data management system. The data management system will be used to reconcile load tickets to billing summaries. It will also be utilized to track load ticket quantities by debris type. This information will be utilized for reporting costs to both the City and FEMA for Project Worksheet development and FEMA reimbursement.

The billing process involves collecting load tickets from debris monitors at the end of each shift and entering the information into the Data Management System. We compare the debris hauler's information with that in the System to confirm the quantities and costs match, and then recommend payment of those amounts to the City. Any debris hauler records that do not agree with those in our System are reviewed by both the debris hauler and by the Covington Team and are reconciled. Close-out of an operation doesn't begin at the conclusion of field activities; it begins with the commencement of field operations. With every Load Ticket that is reconciled and every invoice that is reviewed and paid, the process is ongoing and continuing. At the conclusion of field activities any open permits are closed and all final documentation is electronically filed and archived. Any outstanding issues with agencies/shareholders are finalized. Covington will fully cooperate with FEMA on behalf of the City to develop and capture all relevant costs in its "Category A" Project Worksheet(s). Members of our team have deployed with FEMA into numerous disaster declarations and written hundreds of "Category A" PWs totaling into the tens to hundreds of millions of dollars. We will use this experience and knowledge to assist and benefit the City. If it becomes necessary to appeal a FEMA determination, Covington will be available to provide assistance to the City throughout the process. Additionally, should a future FEMA audit occur, Covington will stand with the City to provide any information, records, and support that may be needed to fully and completely address the audit's inquiries

Tab 5: Plan for Subcontractor Participation

While Covington will serve as the primary contractor for this work, we will also utilize the services of sub-contractors. Volkert, out of their Jackson, MS Office, will work with Covington on all aspects of the project throughout the entire process. Information regarding Volkert's capabilities is listed throughout this proposal. Covington will utilize the services of a local employment agency to staff positions such as field monitors and fixed site monitors. We endeavor to hire the majority of personnel used in the monitoring force from the local area - from within and around the community we're serving - and train them in all aspects of debris monitoring before they are sent to the field. Additionally, Covington shall conduct all necessary affirmative steps to ensure the use of minority, women's business enterprises, and labor surplus area firms when possible. Covington has and will continue to utilize the Mississippi Development Authority to locate both minority and women owned businesses in order to identify companies that could be utilized during the life of the project.

This method has proven to promote a steady and reliable workforce that:

- Comes from the local economy;
- Is already familiar with the local area;
- Is committed to doing the best job possible for their family, their neighbors, and their community, and;
- Returns more of the operation's funds back into the community.

Tab 6: Cost Proposal

City of Hattiesburg DR-4295	Estimated Requirements	Per Hour Rate
Project Manager	1	\$75.00
Field Monitor	9	\$33.00
Roving/Operations Debris Managers	1	\$53.00
Fixed Site Monitors	2	\$33.00
Data Manager*	1	\$50.00
Clerical**	1	\$30.00
Total Estimated Cost		

Note: The number included in the Estimated Requirements section is based off an estimated number of trucks that will be utilized by the debris removal contractor. This assumed number of trucks is based off of current damage numbers according to MEMA. The number of monitors will vary based on the Debris Removal Contractors workforce.

*Based on current damage estimates, the Data Manager is anticipated to work four (4) hours per day.

**Covington will locate clerical staff at the debris disposal location to efficiently record and file all load tickets.

**Attachment A: Executed Request for Proposal (including executed
conflicts of interest and certification regarding lobbying attachments)**

REQUEST FOR PROPOSAL

TO ESTABLISH

Debris Monitoring Assistance for Hattiesburg Mississippi DR-XXXX

To: Debris Monitoring Companies interested in Services for the City of Hattiesburg

From: Lamar Rutland, City Engineer.

Date: January 23, 2017

Subject: Request for Proposal (RFP) for Debris Monitoring Firms to Assist the City of Hattiesburg for DR-TBD.

Contact Name: Lamar Rutland, City Engineer

Contact Phone Number: 601-545-4540

Contact E-mail Address: lrutland@hattiesburg.com

SUMMARY OF THE RFP

Hattiesburg Mississippi, (hereinafter "City") is seeking qualified Firms for Disaster Debris Monitoring Assistance. This Request for Proposal (RFP) is issued following a Disaster that warrants outside assistance where the City Personnel, Equipment, and Mutual Aid Agreements are not sufficient for this event. This RFP is for Debris Monitoring for FEMA "Category A" only; Direct Administrative Cost (DAC) will not be a part of the proposal.

Hattiesburg will utilize the Mississippi Personal Service Contract Review Board (PSCRB) Rules and Regulations as a guideline for this RFP. The PSCRB is established and maintained by the Mississippi State Personnel Board (MSPB) for guidelines for State Agencies. The MSPB is not required to approve this proposal or Contract. However responding firms should make themselves aware of these guidelines for legalities associated with this type agreement.

Information is sought for Debris Monitoring of disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the State), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this project however if the City, State, or FEMA authorizes the ROE it will become part of this project.

Respondent should be aware of Historical Preservation Laws since the City of Hattiesburg has an immense number of houses, commercial buildings, schools, city properties, etc. listed on the Historical Register (**SEE ATTACHMENT A**).

The City will seek Services city-wide. The City will evaluate the Information and establish a Short List of firms that will be invited for final interviews. Respondent should be aware the City may elect to utilize multiple companies for Monitoring should the event size require such action. Respondent is cautioned to review this RFP as the Federal Office of Management and Budget has introduced new guidelines per the "Super Circular" (2 CFR 200.318 through 326 for non federal entities) for all Federal Agencies participating in Federal Grants including FEMA and the FHWA. As part of the combinations within the Super Circular, A-102 combines 44 C.F.R 13.36 with 2 CFR 200.318 to 326.

It shall be noted that this Request for Proposal is consistent with the *FEMA FP 104-009-2 Public Assistance Program and Policy Guide (January 2016)*. This request, possible contract, and event expenditures are not contingent upon receipt of FEMA funding.

The objective of this RFP is to establish Debris Monitoring Services for **DR XXXX**. Respondent shall appoint a single Point of Contact (SPOC) for the Project that shall be responsible for managing staff, working with the City, the Mississippi Emergency Management Agency (MEMA), FEMA, and the FHWA as requested. The RFP response should be clear on how the Respondent will assist Hattiesburg for Debris Monitoring. **This Project consist of an EF-3 Tornado striking the City of Hattiesburg on January 21, 2017.**

Hattiesburg will receive proposals from firms having specific experience and qualifications in the areas identified in this request. For consideration, information must contain evidence of experience and abilities in the specified area and other disciplines directly related to Debris Monitoring. Other information required by the City may be included elsewhere in the proposal.

Respondent shall provide key resumes of staff to be assigned to projects. References and examples of similar work, and other data that demonstrates the Respondent's experience in the area of Debris Monitoring will also be required.

A City Debris Committee will review and assess all proposals. The committee will only have the proposals to review for selection of Respondent(s). It is therefore important that Respondent emphasizes specific information pertinent to the work. Assessments/Scoring of the proposals will be based as follows:

A. The overall quality of the plan for performing Debris Monitoring Services including Safety Practices and Historic Preservations. The plan must maintain a full understanding of the requested services, integrity, and compliance with public policy. Consideration will be given to the entirety and specific requirements of the request. (Important-20 points)

B. Respondent ability to perform the Debris Monitoring Services as reflected by past performance, general experience, specific experience in providing the services, and the qualifications and abilities of personnel to be assigned to

perform such services. (Very Important – 20 points)

C. The personnel, equipment, facilities, technical, and financial resources to perform this type service currently available or demonstrated to be made available at the time of request and possible future contracting. (Important – 20 points)

D. A record of past performance of similar work. (Critical – 20 points)

E. Price (Critical-20 points)

Respondent's Response shall contain the following Information:

1. Be authorized or prove intent to transact business in the State of Mississippi (the "State").
2. Be able to provide Monitoring of all disaster related debris, as set forth in the Scope of Services hereto and incorporated herein by reference (the "Services").
3. Be willing and capable of performing the Services in a timely manner, including, but not limited to, maintenance of proper documentation, proper documentation preparation and management and event closure services.
4. Be knowledgeable and have experience in the provision of the Services and in insuring that Services are in line with FEMA practices.
5. Be able to perform the Services in a timely manner and on short notice, recognizing that in the event of a Task Order, the City desires maximum percentage of completion of projects within the allotted time frames. Maximum Debris Removal within the first 30 days is desirable and the City prefers not to exceed 90 days for completion of any project however the maximum allotted time frame could extend to 180 days.
6. Provide SAM (System for Award Management) Number if available. Registration with SAM is not required however if available it will be reviewed for any current Responder status.

Respondent additional information:

1. Name of Respondent, location of Respondent's principal place of business, and the place of performance for any proposed contract.
2. Age of responders business and the average number of employees over the past three (3) years.
3. Resume' listing abilities, qualifications, and experience of key individuals who will be assigned to provide the required services.

4. Listing of five similar projects under which services similar in scope, size, or discipline were performed or undertaken, including at least three (3) references for current projects or those awarded during the past six (6) years.
5. List five (5) or more projects to include the names and addresses of the projects, the scope of the project, and the names and telephone numbers of the clients for reference purposes. All information in the request must be completed. Proposals containing incomplete data will be rejected.
6. A Technical Plan giving as much detail as practical explaining how the services will be performed.
7. Plan for subcontractor participation. Note, per FEMA FP-104-009-2 (January 2016) **Procurement Standards page 30; Vendors shall conduct all necessary affirmative steps to ensure the use of minority, women's business enterprises, and labor surplus area firms when possible.** Respondent can utilize the Mississippi Development Authority (or other state systems) to assist in locating such companies by using the established MDA Search utility at <http://minority.mississippi.org/> or <http://www.mnbr.org>. The Small Business Administration and the Department of Commerce's Minority Business Development Agency can also be utilized to solicit these businesses. A Disadvantaged Business Enterprise (DBE) may also be considered.

INSURANCE REQUIREMENTS

Prior to signing of any contract, Respondent agrees to furnish the City with all applicable certificates of insurance. The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the aforementioned insurance. **Proof of Insurability must be provided with the proposal.**

Within 24 hours following the signing of any contracts, Respondent shall provide copies of insurance policies including all endorsements.

A. Commercial General Liability and Errors and Omissions - in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability - Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

D. Professional Liability (Errors & Omissions) – Proposer shall provide coverage for all claims arising out of the services performed with limits not less than \$1,000,000 per claim. The aggregate limit shall either apply separately to any contract or shall be at least twice the required per claim limit.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

Project will require a maximum dollar cap. Should the project exceed the dollar cap, the Contractor may request additional justifiable funding that will require the City Council's approval.

Response

All submitted RFP's become the property of the city and subject to all applicable public records laws include the Mississippi Public Records Act of 1983.

Hattiesburg reserves the right to accept, reject, or negotiate any or all proposals on the basis of the criteria contained within this document. The final decision to execute a contract with any party will be decided by the city.

Response Acceptance

The original and three (3) copies of the response and all attachments (four copies total) along with one electronic copy of the proposal saved as a .pdf file and stored on a CD or jump drive shall be signed and submitted in a sealed envelope or package to: **City of Hattiesburg City Clerk, at PO Box 1898 or 200 Forrest Street, Hattiesburg Mississippi 39403-1898 no later than 10:00 a.m. Central Standard Time on *Saturday 28, 2017.***

No electronic or facsimile copies of the RFP will be accepted. Timely submission of the RFP is the responsibility of the Respondent. Offers received after the specified time shall be rejected and returned to the Respondent unopened. **The envelope or package shall be marked with the RFP opening date and time and the number of the request for RFP. The time and date of receipt shall be indicated on the envelope or package by the City Clerk's Office.** Each page of the RFP, all attachments and the CD/Jump Drive shall be identified with the name of the Respondent.

Proprietary Information

The Respondent should clearly mark any and all pages of the proposal considered to be proprietary information which may remain confidential in accordance with current State Code.

When the City receives a request to release information properly designated as confidential or proprietary by a Respondent, the City shall give the owner of this

information a reasonable time to obtain a court order protecting the information as confidential. If the City receives a court order it must then notify the requestor that the information is protected by court order and cannot be furnished.

Debarment

By submitting a response to this RFP, the Respondent including principles and or owners certifies that he/she is not currently debarred from participating in any Federal or State Grant Programs.

Procurement Regulations and Guidelines

Respondent is advised to review the Mississippi Personal Service Contract Review Board Rules and Regulation that will be utilized as a guideline for contracts (<http://www.mspb.ms.gov/personal-service-contract-review-board/pscrb-rules-regulations.aspx>). Appendix D and Appendix F contain multiple items that will be included in any contract. Not all items will be included in the contract but Respondent must accept these guidelines.

The following clauses are required conditions when soliciting information for personal services by the Personal Service Contract Review Board Rules and Regulations per Appendix D & F:

1. Acknowledgment of Amendments

Respondent shall acknowledge receipt of any amendments by copying and signing and being a part of the request. Amendments may include Questions/Answers.

2. Applicable Law

Any Contract as a result of this RFP shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding conflicts of law's provisions, and any litigation with respect thereto shall be brought in the courts of the state. The Respondent shall comply with applicable federal, state, and local laws and regulations.

3. Availability of Funds

It is expressly understood and agreed that the obligation of the City to issue a contract as a result of this RFP is conditioned upon the appropriation of funds by the City of Hattiesburg.

4. Representation Regarding Contingent Fees

Respondent represents that it has not retained a person to solicit or secure a contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Respondent's proposal.

5. Representation Regarding Gratuities

The Respondent represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 7-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

6. Compliance with Laws

The Respondent understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on

race, color, creed, sex, age, national origin, physical handicap, disability, or any other consideration made unlawful by federal, State, or local laws. All such discrimination is unlawful and the Respondent agrees during the term of any agreements that the Respondent will strictly adhere to this policy in its employment practices and provision of services. The Respondent shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

7. E-Verification

Respondent represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act (Senate Bill 2988 from the 2008 Regular Legislative Session) and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Respondent agrees to maintain records of such compliance and, upon request of the State, to provide a copy of each such verification to the State. Respondent further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject Respondent to the following:

- (1) Termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public; or,
- (2) The loss of any license, permit, certification or other document granted to Respondent by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- (3) Both.

In the event of such termination/cancellation, Respondent would also be liable for any additional costs incurred by the State due to contract cancellation of license or permits.

8. Transparency (July 1, 2016)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent agency contract website for public access at

<http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

9. Approval

It is understood that any contract requires approval by the City Council. If a contract is not approved, it is void and no payment shall be made hereunder.

10. Confidential Information

"Confidential Information" shall mean: (a) those materials, documents, data, and other information which the Respondent has designated in writing as proprietary and confidential; and, (b) all data and information which Respondent acquires as a result of its contact with and efforts on behalf of the customer and any other information designated in writing as confidential by the City. Each party to this agreement agrees to the following:

- (1) to protect all confidential information provided by one party to the other;
- (2) to treat all such confidential information as confidential to the extent that confidential treatment is allowed under state and/or federal law; and,
- (3) except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission; and,
- (4) to do so by using those methods and procedures normally used to protect the party's own confidential information.

Any liability resulting from the wrongful disclosure of confidential information on the part of Respondent or its subcontractors shall rest with the Responder.

11. Confidentiality

Notwithstanding any provision to the contrary contained herein, it is recognized that *the City of Hattiesburg* is a public entity in the State of Mississippi and is subject to the Mississippi Public Records Act, Miss. Code Ann. §§ 25-61-1 *et seq.* (1972, as amended). If a public records request is made for any information provided to *the City* pursuant to any agreement, *the City* shall promptly notify the disclosing party of such request and will respond to the request only in accordance with the procedures and limitations set forth in applicable law. The disclosing party shall promptly institute appropriate legal proceedings to protect its information. No party shall be liable to the other party for disclosures of information required by court order or required by law.

12. Attorney's Fees and Expenses

Subject to other terms and conditions of possible future contracts, in the event the Respondent defaults in any obligations under the agreement, the Respondent shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorney's fees) incurred by the City in enforcing this agreement or otherwise reasonably related thereto. Respondent agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to any Respondent.

13. Authority to Contract

Respondent warrants: (a) that it is a validly organized business with valid authority to enter into an agreement; (b) that it is qualified to do business and in good standing in the State of Mississippi; (c) that entry into and performance into an agreement is not restricted or prohibited by any loan, security, financing, contractual, or other agreement of any kind, and (d) notwithstanding any other provision of agreements to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under any agreement.

14. Respondent's Personnel

The City shall, when contracting, have the right of reasonable rejection and approval of staff or Subcontractors.

15. Failure to Deliver

In the event of failure of the Respondent to deliver services in accordance with the terms and conditions of any contract, the City, after due written notice, may procure the services from other sources and hold the Respondent responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

16. Failure to Enforce

Failure by the City at any time to enforce contractual provisions will not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of any contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

17. Independent Respondent Status

Respondent shall, at all times, be regarded as an independent Respondent under future contracts and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Respondent, or any third party as creating the relationship of principal and agent, master and servant, partners, joint ventures, employer and employee, or any similar such relationship between the City and the Respondent.

18. No Limitation of Liability

Nothing in any future Agreement shall be interpreted as excluding or limiting any tort liability of the Respondent for harm caused by the intentional or reckless conduct of the Respondent or for damages incurred through the negligent performance of duties by the Respondent or the delivery of products that are defective due to negligent construction.

19. Notices

All notices required or permitted to be given under any agreement must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Respondent: **Name** Todd Hurlston
Title CEO
Respondent Covington Civil and Environmental, LLC
Address 2510 14th Street Suite 1010
Gulfport, MS 39501

For the City: **City of Hattiesburg**
Purchasing Clerk
PO Box 1898
Hattiesburg, MS 39403-1898

20. Ownership of Documents and Work Papers

The City shall own all documents, files, reports, work papers and working documentation, electronic or otherwise, created in connection with any contract services, except for the Respondent's internal administrative and quality assurance files and internal project correspondence. The Respondent shall deliver such documents and work papers to the City upon termination or completion of each project. The Respondent shall be entitled to retain a set of such work papers for its files. Respondent shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections.

21. Record Retention and Access to Records

Provided the Respondent is given reasonable advance written notice and such inspection is made during normal business hours of the Respondent, the City or any duly authorized representatives, shall have unimpeded, prompt access to any of the Respondent's books, documents, papers, and/or records which are maintained or produced as a result of any contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this Agreement shall be retained by the Respondent for three (3) years after final Declaration Closeouts. However, if any audit, litigation or other action arising out of or related in any way to future contracts is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

22. Right to Inspect Facility

The City may at reasonable times inspect the place of business of a Respondent or any Subcontractor which is related to the performance of any Contract awarded by the City.

23. Termination for Convenience

1. Termination. The City may, when the interests of the City so require, terminate any contract in whole or in part, for the convenience of the City. The City Engineer shall give written notice of the termination to the Respondent specifying the part of any contract terminated and when termination becomes effective.

2. Respondent's Obligations. Respondent shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the Respondent will stop work to the extent specified. The Respondent shall also terminate outstanding orders and subcontracts as they

relate to the terminated work. The Respondent shall settle the liabilities and claims arising out of any termination of subcontracts and orders connected with the terminated work. The City Administrator may direct the Respondent to assign the Respondent's right, title, and interest under terminated orders or subcontracts to the City. The Respondent must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

24. Termination for Default

(1) *Default.* If Respondent refuses or fails to perform any of the provisions of any contract with such diligence as will ensure its completion within the time specified in any contract or any extension thereof, or otherwise fails to timely satisfy contract provisions, or commits any other substantial breach of any contract, the procurement officer may notify the Respondent in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the procurement officer, such officer may terminate Respondent's right to proceed with a contract or such part of a contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the procurement officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the procurement officer. Respondent shall continue performance of any contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(2) *Respondent's Duties.* Notwithstanding termination of contracts and subject to any directions from the procurement officer, Respondent shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Respondent in which the City has an interest.

(3) *Compensation.* Payment for completed services delivered and accepted by the City shall be at a contract price. The City may withhold from amounts due Respondent such sums as the procurement officer deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

(4) *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Respondent shall not be in default by reason of any failure in performance of any contract in accordance with its terms (including any failure by Respondent to make progress in the prosecution of the work hereunder which endangers such performance) if Respondent has notified the procurement officer within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Respondent shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time

to permit Respondent to meet contract requirements. Upon request of Respondent, the procurement officer shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Respondent's progress and performance would have met the terms of any contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

(5) *Erroneous Termination for Default.* If, after notice of termination of Respondent's right to proceed under the provisions of this clause, it is determined for any reason that any contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if any contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

(6) *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under any contract.

25. Termination upon Bankruptcy

Any future Contract may be terminated in whole or in part by the City upon written notice to Respondent, if Respondent should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by the Respondent of an assignment for the benefit of its creditors. In the event of such termination, the Respondent shall be entitled to recover just and equitable compensation for satisfactory work performed under any contract, but in no case shall said compensation exceed a total contract price.

26. Third Party Action Notification

Respondent shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Respondent by any entity that may result in litigation related in any way to any agreements.

27. Unsatisfactory Work

If at any time during any contract term, the service performed or work done by the Respondent is considered by the City to create a condition that threatens the health, safety, or welfare of the citizens and/or employees of the City, the Respondent shall, on being notified by the City, immediately correct such deficient service or work. In the event the Respondent fails, after notice, to correct the deficient service or work within 24 hours, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Respondent.

28. Waiver

No delay or omission by either party to any agreement in exercising any right, power, or remedy hereunder or otherwise afforded by contracts, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to any agreement shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of any agreement will void, waive, or change any other term or condition. No waiver by one party to any agreement of a default by the other party will imply, be construed as or require waiver of future or other defaults.

REQUIRED FEDERAL PROCUREMENT CLAUSES

1. Clean Air Act and the Federal Water Pollution Control Act (over \$150,000.00).

Respondent shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA.

2. Retention/Access of Records

Respondent will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

3. Energy Policy and Conservation Act

Respondent shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

4. Debarment and Suspension

Respondent shall not subcontract with any parties listed on the government-wide Excluded Parties List System in the **System for Award Management (SAM)**, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." Respondent shall not subcontract with any parties that are currently debarred and listed with the Mississippi Department of Finance and Administration (DFA) (www.dfa.ms.gov).

5. Byrd Anti-Lobbying Amendment

Respondent certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S. C. 1352. Respondent shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal Award. Respondent shall require all subcontractors to submit these same certifications.

6. **Contract Work Hours and, Safety Standards Act, as Amended (over \$100,000.00).**
7. **Equal Opportunity Clause 41 CFR60-1.4**
8. **Coordination of Grants Related Civil rights statutes, Executive Order 12250.**

EVALUATION PROCEDURE PROCESS:

1. Qualifications of Respondent

Respondent may be required before the award of any contract to show to the complete satisfaction of City that it has the necessary facilities, integrity, ability, compliance with public policy, past performance, technical, and financial resources to provide the service specified therein in a satisfactory manner. The Respondent may be required to provide legal understanding of the Personal Service Contract Review Board Rules and Regulations as well as the Federal Office of Management and Budget Super Circular. Respondent may also be required to give a past history and references in order to satisfy the City in regards to the Respondent's qualifications. The City may make reasonable investigations deemed necessary and proper to determine the ability of the Respondent to perform the work, and the Respondent shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any offer if the evidence submitted by, or investigation of, the Respondent fails to satisfy the City that the Proposer is properly qualified to carry out the obligations of future contracts and to complete the work described therein. Evaluation of the Respondent's qualifications shall include:

1. The ability, capacity, skill, financial, and other necessary resources to perform the work or provide the service required;
2. The ability of Respondent to perform the work or provide the service promptly or within the time specified, without delay or interference;
3. The character, integrity, reputation, judgment, experience, and efficiency of the Respondent; and,
4. The quality of performance of previous contracts or services.
5. Price.

First Step: RFP's will be reviewed to meet compliance with the request. RFP's that do not comply with the specifications will be rejected and no further consideration given.

Second Step: RFQ's that complete the First Step will be reviewed/analyzed for determination if the response adequately meets the needs of the City. The following factors will be utilized:

1. The overall quality of the proposed plan and for performing the required services – the plan should reflect an understanding of the project and its

objectives. Consideration will be given to the completeness of the response to the specific requirements of the solicitation. (Critical - 20 points)

2. Respondent's ability to perform such services as reflected by technical training and education, general experience, specific experience in providing the required services, and the qualification and abilities of personnel proposed to be assigned to perform the services. This includes the ability of the Respondent to provide a work product that is legally defensible. (Very Important - 20 points)
3. The personnel, equipment, facilities, and financial resources to perform the services currently available or demonstrated to be made available at the time of contracting. (Important - 20 points)
4. A record of past performance of similar work. Direct experience in Mississippi is desirable but not required. (Critical - 20points)
5. Price (20 points).

Third Step: The City may contact the most qualified Respondent by telephone to schedule an interview.

SCOPE OF WORK:

DR-XXXX

Hattiesburg Mississippi, is seeking Professional Services proposals for Debris Monitoring Firms. Proposals will be sought for Monitoring of federally declared disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the City, State, and FEMA), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this Service however if the City, State, or FEMA authorizes the ROE it will become part of the Service. The City will seek proposals for said services City-wide. The City will evaluate the Proposals on what is in the best interest of the City and the nature of the event. The City will seek to identify a Respondent to oversee either City Task Force or Debris Removal Contractor(s). It shall be noted that any Contract is for payment of "Only Debris Services that FEMA Determined Eligible" and is consistent with FEMA Public Assistance Program and Policy Guideline (FP-104-009-2, January 2016).

This Scope of Work (SOW) is provided for Respondent to review in detail, the SOW is detailed as to the terms of request and Respondent should acknowledge each line item. Should a Respondent take exception to any line items in the SOW it should be clearly stated within the proposal.

Respondent must provide a technical overview for debris monitoring as to how they complete this project.

The scope of work/services as described below shall be considered minimum standards to meet in submitting their proposal for debris monitoring services. The Monitoring Services Respondent shall be experienced and knowledgeable in handling and executing disaster debris removal and disposal monitoring in compliance and consistent with the policies and publications of MEMA, FEMA, and FHWA. Throughout these specifications, any reference to FEMA shall also imply FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved.

Examples of guidelines and regulations include but are not limited to the following:

FP-104-009-2 January 2016

Emergency Relief Manual (Federal-Aid Highways)- November 2009

The City will designate a Debris Task Force Manager (DTFM) that will act as the Point of Contact (POC) for the event. The DTFM POC may consist of a City Employee, a Professional Contractor, or the City Engineer.

The Respondent will work with the City Debris Task Force Manager by assisting in determining the amounts of debris prior to beginning services.

Respondent will work with all associated teams including MEMA, FEMA, City, County, Debris Removal Contractors, and FHWA as needed for timely project completions, cost effectiveness, and maximum FEMA Category A reimbursements.

Respondent will measure and certify all equipment associated with either the City Task Force or approved removal contractor(s). Respondent will be familiar with standard MDOT Traffic Control Measures and report to the Debris Task Force Manager any safety issues or irregularities.

Respondent will report any delays, issues or concerns by the City or Removal Contractor to the City Task Force Manager.

Respondent will oversee all debris pick up sites as well as temporary and or final sites. Oversight will include GPS coordinates, addresses for pick up, and photographs. Respondent should be able to provide written Load tickets. Should the respondent be positioned to offer e-ticketing a description should be included in the technical overview for this service. Should the Respondent offer e-ticketing the price for any additional devices should be included in the hourly rate for any positions that may be utilizing the devices. Respondent should state hourly pricing for flat rate without e-ticketing devices as well as with e-ticketing devices. Either hand written or electronic tickets must be completed in detail for each line item. Photo documentation must be provided from cradle to grave and correlate with the load tickets.

Respondent will be responsible for providing an electronic document reflecting the cubic yards (or other units of measure) daily amounts to the City Debris Task Force Manager that will be sent to MEMA and FEMA daily.

Respondent will be responsible for working sun-up to sun-down seven days a week unless directed differently by the City Debris Task Force Manager.

As a minimum the Respondent must provide sufficiently trained personnel including a Project Manager, Field Monitors, Roving Managers, Fixed Site Monitors, Data Managers, and Clerical.

The City may use force account resources (including temporary hires), contractors, or a combination of these for monitoring. It is not necessary, or cost-effective, to have Professional Engineers or other certified professionals perform debris monitoring duties. FEMA considers costs unreasonable when associated with the use of staff that is more highly qualified than necessary for the associated work.

Respondent will be responsible for documenting any damage to city or private property caused by the removal contractor(s). Respondent should also document any City infrastructure damage caused by the event.

Respondent must be able to activate within 24 hours of notification to proceed by the City.

Respondent must certify that the company or any of its principles are not bared from performing any State or Federally Funded Projects including FEMA and the FHWA.

SCOPE OF POSITIONS

Provide Project Managers, Roving Managers, Field Monitors, Fixed Site Monitors, Data Managers, and Clerical for Debris Monitoring. Respondent may provide e-ticketing service however it is not mandatory for this request.

Project Manager:

Respondent will provide a Project Manager to oversee debris monitoring activities.

1. Oversight and Supervision of Monitor field activities.
2. Scheduling of Monitoring resources and deployment timing.
3. Communication and coordination with City personnel.
4. Make suggestions to improve the efficiency of collection and removal of debris.
5. Coordinate daily activities and future planning.
6. Remain in contact with DTFM
7. Identify, address, and troubleshoot any questions or problems that could impact work area safety and eligibility.
8. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations. Document truck hauling compartment condition using digital photographs. Prepare a master log book of all hauling equipment used by the City and or the Removal Contractor(s).
9. Compile, reconcile and document daily in an electronic spreadsheet format all eligible debris hauled by the City or Removal Contractor.

Field Debris Monitors and Roving/Operations Manager:

Respondent will perform on-site, street-level work area inspections of debris cleanup and collection. Respondent will provide loading site (field) monitors to inspect and control debris collection utilizing manifest load tickets. A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors.

1. Provide field monitor personnel at designated areas to check and verify information on debris removal.
2. Monitor collection activity of trucks.
3. Issue manifest load tickets at loading site for each load.
4. Check the area for safety considerations such as – downed power lines, the presents of children, traffic control, safety of equipment
5. Ensure Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal.
6. Perform a pre-work inspection of areas to check debris piles to identify covered utility meters, transformers, fire hydrants, mail boxes, etc. to help prevent damage from loading equipment and to look for potential problems.
7. Should damages occur to utility components, driveways, road surfaces, private property, vehicles, etc. document the damage with photos if possible, collect information about owner, circumstances of the damage (who, what, when, where) and report to your Roving Manager.
8. Ensure the work area is clear of debris to the specified level before equipment moves to a new loading area.
9. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations.
10. Properly monitor and record performance and productivity of debris removal

crew.

11. Remain in constant contact with Roving Manager. Roving Manager is to report directly to the DTFM.
12. Ensure that loads are contained properly before leaving the loading area.
13. Ensure only eligible debris is collected for loading and hauling.
14. Ensure only debris from approved public areas is loaded for removal.
15. Perform other duties from time to time as directed by the debris management project manager or DTFM.

Fixed Site Debris Monitors:

Respondent will provide personnel to oversee the inspection of the disposal or unloading sites by providing the monitoring, verification of load capacity, and documentation at designated temporary and or final disposal sites.

1. Provide disposal site monitors and inspectors personnel.
2. Complete record of contract haulers' cubic yardage and other record keeping as may be needed on the provided load ticket.
3. Initial each load ticket before permitting truck to proceed from the check-in area to the tipping area.
4. Remain in contact with debris management/dispatch center or supervisor.
5. Perform other duties as directed by the dispatch/staging operation, debris management project manager, or designated City personnel.
6. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations

Data Managers:

Respondent will provide personnel to oversee electronic documentation including:

1. Excel Spreadsheets as to amounts of debris collected daily.
2. Maintenance and data transfer of e-ticketing system if applicable.
3. Data Retention and back up of Data Retention for a minimum of 5 years at the expense of the Respondent.
4. GPS devices and oversight of coordinating with FEMA on accuracy.
5. GIS (Global Information System) coordination with the City, PDD (Planning and Development District), and or state.

Clerical:

Respondent will provide personnel to assist with data collection daily.

1. Enter daily data into either Excel Spreadsheets or e-ticketing system.
2. Verify Billing.
3. Audit billing vs. invoices.
4. Prepare cover documentation for services and create a filing system either electronic and or paper.

Terms:

Contracts will be established per event as activated.

Deployment

Respondent must be prepared to deploy within 24 hours from the notice to proceed. Respondent staffing levels shall be efficient and coincide with the scale of the debris

removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, Covington Civil & Environmental, LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

ADDENDUM #1

for

"Debris Monitoring for Tornado date January 21, 2017"

The following items will be added to the City of Hattiesburg "Debris Removal for Tornado dated January 21" RFP:

1. Attachment "A" City of Hattiesburg Historical Registry was not included in the original RFP. Although there are an immense number of locations within the Register none of the locations were damaged by the January 21st Tornado. The Attachment is included in this Addendum for review.
2. Questions for the RFP are due by Thursday January 26, 2017 at 12:01 PM. Questions should be submitted to Lamar Rutland City Engineer at lrutland@hattiesburgms.com or fax at 601-545-4642.
3. It was the intent of the City of Hattiesburg to attach the Contract Template and was overlooked while distributing the RFP. The Contract Template is attached to this Addendum for review.
4. Under Summary of the RFQ page 1 first paragraph the Bid will be opened on Saturday January 28th, 2017 **at 10:00 AM**, please add and note the time.

Kermas Eaton, City Clerk

ADDENDUM #2

for

"Debris Monitoring for Tornado date January 21, 2017"

1. On page 18 of the RFP for Debris Monitoring Assistance for Hattiesburg, MS there is a position description for both a Field Debris Monitor and a Roving/Operations Manager. These are listed together, but appear to be two separate positions. A Field Monitor would typically be the employee assigned directly to a collection vehicle monitoring the debris removal and issuing a load ticket while as your description states "A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors" and this would be a management and supervisory position. However, the cost form in Attachment B combines these into a single "Field/Roving/Operations Debris Managers" Position and does not seem to have a space for just a regular Field Monitor. Would the City please consider issuing a revised cost sheet to clarify that these are two separate positions so they can be appropriately priced as such in the responses received.

Answer: This item has been revised. See ATTACHMENT B (Revised)

Receipt Acknowledged by Covington Civil and Environmental, LLC

Laplace, LA 70068

LA License No. 12702

MS License No. 09769-MC

Debris Monitoring Assistance for Tornado date January 21, 2017
City of Hattiesburg Mississippi

PLAN:

The work will be monitored and scheduled on a priority basis established with the specific needs of the County and community. It is recommended that road impediments and life/safety concerns related to debris should be handled first with the clearing, cleaning and removal of debris at schools as a companion critical activity.

EXPERIENCE:

JCC has performed similar type debris removal during weather events for the following:

City of Kenner, Louisiana (Ed Muniz, Mayor - Keith Chiro, Director of Public Works)

St. Charles Parish, Louisiana (Joey Murray, Debris Monitor for the Parish President)

St. John the Baptist Parish, Louisiana (Arnold Labat, Parish President - Brother Dottolo, Debris Monitor for St. John Parish)

Wilkinson County, Mississippi

1. We are a licensed General Contractor in the State of Mississippi.
2. We are able to complete the Scope of Services.
3. By supplying this proposal we are willing to perform these services.
4. We are knowledgeable and have experience as evidenced above.
5. We plan are developing a plan of the most critical areas and efficiently complete the tasks in a timely manner.
6. We do not have a SAM number at the present.

J. CALDARERA & COMPANY, INC.

Disaster Management Profile

URGENT RESPONSE - These two words say all that needs to be said to describe the wanted and needed action immediately following a catastrophic event. J. Caldarera & Company, Inc. has accumulated vast experience in the management and oversight of events after a catastrophic occurrence and recognizes the importance of URGENT RESPONSE.

Projects for which the Caldarera team has provided experience include explosion, earth tremor, fire, flood, windstorm, plane crash and collapse. Catastrophes handled include the aftermath following hurricanes, tropical storms and other rain events, tornados, freeway collapse, plane crash, and fire. Caldarera preformed investigative and forensic evaluations, including adjustment services and actual rehabilitation and construction services for national clients such as Shell Oil Company during the Shell, Norco explosion of 1998. Additionally, services have been provided for firms for world-wide insurers such as AIG, CIGNA, St. Paul Insurance, USF&G, Hartford, and for national adjustment firms such as Crawford and Company, GAB, as well as for local firms in need of such services following a multitude of disaster related circumstances.

May 6, 1998 Shell Explosion

Several thousand files were handled as a result of the May 6, 1998 Shell explosion in Norco, Louisiana alone. This catastrophic event which occurred in the small community of Norco, Louisiana affected tens of thousand of local residents. The impact of this occurrence being felt in communities as far away as Baton Rouge and Chalmette. J. Caldarera & Company was called upon for varying duties during this catastrophic event.

Duties included assistance in claims estimating with General Adjusters from Crawford and Company who worked under the administration of CIGNA, the insurer that administered the clean-up and adjustment effort. Duties included debris removal and installation of safety devices, asbestos abatement, the performance of actual property repairs on sensitive properties including residential, commercial and industrial projects, and expanded to providing assistance to the grand master for Shell Oil Company in the finalization of settlement by providing estimating and forensic evaluation services.

Emergency debris removal, temporary boarding of residences, planning relocations for commercial clients, providing new construction services and rehabilitation of various projects, as well as the complete rebuilding of industrial plants, monitoring of personnel and subcontractors during the estimation and building process were duties encountered and handled with efficiency by J. Caldarera & Company following this event.

One of the most significant projects handled after the Shell explosion was the rebuilding of the Trans-America Refinery. Removal of totally damaged buildings, repair and rehabilitation of other buildings on site and complete rebuilding of 38 on site buildings took place. All of this work was handled without major interruption to the Trans-America Refinery operation. Both

Shell and Trans-America commended the efforts of J. Caldarera & Company during this sensitive rebuilding effort. (Various projects as a result of the Shell explosion, in addition to the Trans-America project, are listed below in "Projects and References.")

Hurricane Andrew

Prior to Hurricane Andrew making landfall in south Louisiana, J. Caldarera & Company was called upon to provide solutions for temporary protection of local retail and commercial establishments in the River Parish area, as well as being entrusted with the planning of flood control and pumping efforts if such conditions required such. Retail clients added to requests by governmental officials and included clients such as the Bank of St. John, Kentucky Fried Chicken, the Knights of Columbus Home and other similar establishments in preparation for this Category 4 storm.

Immediately after Hurricane Andrew, St. John the Baptist Parish called upon J. Caldarera & Company to perform clean up operations necessitated this Hurricane and the tornado that hit central LaPlace and Eastern Reserve during the approach of that Hurricane. Several subdivisions, including the most severely hit Riverland Estates, became field emergency sites established by J. Caldarera & Company where its efforts to remove, demolish, repair and clean up these subdivisions and residences was undertaken. Project duties during the restoration of personal residences and clean up of subdivisions included Homewood Subdivision in Reserve, Cambridge Subdivision in LaPlace and Riverland Estates Subdivision, also in LaPlace. Dozens of homes and commercial buildings were restored by J. Caldarera & Company. Additionally, adjustment services resulted in J. Caldarera & Company reviewing estimates and settling claims for hundreds of residents.

In addition to restoration of personal residences and clean up of subdivisions, J. Caldarera & Company was contracted by St. John the Baptist Parish through cooperative endeavor effort with FEMA. During this stage of the clean-up operation J. Caldarera & Company coordinated and efficiently conducted clean up operations in every area of St. John the Baptist Parish on both the east bank and the west bank of the Mississippi River. J. Caldarera & Company's huge equipment fleet proved invaluable in the expedient clean up effort that was commended by the Parish President publicly and by FEMA officials who witnessed the operation.

Ormond Flood of 1994

During the flood of Ormond in 1994 as a result of pump failure and levee breaches, the Ormond Subdivision in St. Charles Parish left residences inundated. J. Caldarera & Company performed services in levee restoration for FEMA as well as the rebuilding and clean up of personal residences. Again J. Caldarera & Company performed consulting services for several insurance companies and forensic evaluation of damage and claim settlement.

LaPlace Elementary Fire

During a classroom fire at LaPlace Elementary School which destroyed 8 classrooms in a section of the school campus, J. Caldarera & Company was engaged by St. John the Baptist Parish School Board to handle the estimation and direct settlement with the School Board's insurer. J. Caldarera & Company's efforts with Traveler's Insurance Company proved efficient and facilitated the completion of these classrooms, getting students back to work within 30 days from the time of the incident. St. John the Baptist Parish School Board members congratulated the J. Caldarera & Company firm publicly for its efforts in this clean up, coordination and re-build process.

Various Other Projects

Various other projects performed immediately after catastrophic occurrences such as the building fire of the Popeye's Restaurant in LaPlace, the building fire of the Matherne Plaza in LaPlace and assistance to City of Kenner during flood events, such as the "May 3rd" Flood. In all events J. Caldarera & Company reacted quickly and hastily commenced work in order that these facilities could be put back in use quickly.

J. Caldarera & Company, Inc. constructed the Davis Pond Freshwater Reclamation Project. This project is noted as the Largest Freshwater Diversion Project in the World. During construction of this major levee building a bevy of tropical storms and Hurricane Georges made land fall on the Gulf Coast. These events which occurred in relatively close timing to one another inundated neighboring developments and established residential areas and caused the threat of irreversible flood damage to residents and property. J. Caldarera & Company assisted St. Charles Parish during these weather events due to the close proximity of its equipment to neighboring residential areas that were threatened by flood. J. Caldarera & Company's efforts overcame the flood peril on each incident they were called.

Pan Am Flight 759

Immediately following the tragic crash of Pan Am Flight 759 in Kenner, Louisiana, J. Caldarera & Company was called upon to do clean up work as well as forensic evaluation, adjustment and consultation for GAB.

Hurricane Katrina

J. Caldarera & Company, Inc. provided multiple services including monitoring, scheduling the most efficient plan to remove debris which entailed the diagrammatic planning of debris removal based on the size and quantity of debris. Through a pre-evaluation system whereby upper management personnel surveyed areas of damage, scheduling of the proper size equipment was made possible. This enabled the coordinated effort of cleaning large debris and following with smaller equipment and trucks to remove small debris. Lastly, street sweeping operations where

necessary completed the clean up operation. J. Caldarera's in-house scheduling capabilities allowed the mapping of the cleanup operation in advance of hitting the ground with equipment.

Mississippi Flooding of 2016

J. Caldarera was called to manage the orderly transiting of residents from the Crosby Shelters in Crosby, MS for Complex Management Services. These HUD units were completely flooded and required the removal of personal property of residents and followed with the debris removal and cleaning of the adjacent areas. J. Caldarera & Company, Inc. worked in conjunction with Wilkinson County, MS and MEMA and participated in the debris removal effort.

SUMMARY

In addition to the specific projects listed above, J. Caldarera & Company has performed work for a number of insurance companies and has evaluated claims and catastrophic loss worldwide. Claims evaluation services have included expert and consultant services for litigation support for Owners, claimants and insurers. Duties have included simple evaluation to sophisticated charts, graphs and schedules when necessary to develop and recreate the occurrence when duties have required such types of evaluation. The projects that J. Caldarera & Company has handled represent hundreds of millions of dollars of value over thousands of losses and cover categories that have been described herein. A brief synopsis of insurance companies for which J. Caldarera & Company has performed its services are listed under "Catastrophic Work".

The equipment that Caldarera owns is a key factor is the response time that it has been able to provide. Huge pumps, cranes of all sizes, excavators and dozers of equal diversity, rubber-tired loaders and back-hoes, personnel trucks, lifts, amphibious equipment and transport trucks are a few of the specific types of equipment which the company maintains for action in the event of a local, state or national disaster. Please review a partial list of equipment that has been committed to clean-up and debris removal work company-wide.

Additionally, J. Caldarera & Company has personnel in place that dispatch this equipment efficiently during events which require speedy response to field operations. Management is also in place with decades of experience in the handling of a catastrophic event of any sort.

REQUEST FOR PROPOSAL

TO ESTABLISH

Debris Monitoring Assistance for Hattiesburg Mississippi DR-XXXX

To: Debris Monitoring Companies interested in Services for the City of Hattiesburg

From: Lamar Rutland, City Engineer.

Date: January 23, 2017

Subject: Request for Proposal (RFP) for Debris Monitoring Firms to Assist the City of Hattiesburg for DR-TBD.

Contact Name: Lamar Rutland, City Engineer

Contact Phone Number: 601-545-4540

Contact E-mail Address: lrutland@hattiesburg.com

SUMMARY OF THE RFP

Hattiesburg Mississippi, (hereinafter "City") is seeking qualified Firms for Disaster Debris Monitoring Assistance. This Request for Proposal (RFP) is issued following a Disaster that warrants outside assistance where the City Personnel, Equipment, and Mutual Aid Agreements are not sufficient for this event. This RFP is for Debris Monitoring for FEMA "Category A" only; Direct Administrative Cost (DAC) will not be a part of the proposal.

Hattiesburg will utilize the Mississippi Personal Service Contract Review Board (PSCR) Rules and Regulations as a guideline for this RFP. The PSCR is established and maintained by the Mississippi State Personnel Board (MSPB) for guidelines for State Agencies. The MSPB is not required to approve this proposal or Contract. However responding firms should make themselves aware of these guidelines for legalities associated with this type agreement.

Information is sought for Debris Monitoring of disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the State), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this project however if the City, State, or FEMA authorizes the ROE it will become part of this project.

Respondent should be aware of Historical Preservation Laws since the City of Hattiesburg has an immense number of houses, commercial buildings, schools, city properties, etc. listed on the Historical Register (**SEE ATTACHMENT A**).

The City will seek Services city-wide. The City will evaluate the Information and establish a Short List of firms that will be invited for final interviews. Respondent should be aware the City may elect to utilize multiple companies for Monitoring should the event size require such action. Respondent is cautioned to review this RFP as the Federal Office of Management and Budget has introduced new guidelines per the "Super Circular" (2 CFR 200.318 through 326 for non federal entities) for all Federal Agencies participating in Federal Grants including FEMA and the FHWA. As part of the combinations within the Super Circular, A-102 combines 44 C.F.R 13.36 with 2 CFR 200.318 to 326.

It shall be noted that this Request for Proposal is consistent with the *FEMA FP 104-009-2 Public Assistance Program and Policy Guide (January 2016)*. This request, possible contract, and event expenditures are not contingent upon receipt of FEMA funding.

The objective of this RFP is to establish Debris Monitoring Services for **DR XXXX**. Respondent shall appoint a single Point of Contact (SPOC) for the Project that shall be responsible for managing staff, working with the City, the Mississippi Emergency Management Agency (MEMA), FEMA, and the FHWA as requested. The RFP response should be clear on how the Respondent will assist Hattiesburg for Debris Monitoring. **This Project consist of an EF-3 Tornado striking the City of Hattiesburg on January 21, 2017.**

Hattiesburg will receive proposals from firms having specific experience and qualifications in the areas identified in this request. For consideration, information must contain evidence of experience and abilities in the specified area and other disciplines directly related to Debris Monitoring. Other information required by the City may be included elsewhere in the proposal.

Respondent shall provide key resumes of staff to be assigned to projects. References and examples of similar work, and other data that demonstrates the Respondent's experience in the area of Debris Monitoring will also be required.

A City Debris Committee will review and assess all proposals. The committee will only have the proposals to review for selection of Respondent(s). It is therefore important that Respondent emphasizes specific information pertinent to the work. Assessments/Scoring of the proposals will be based as follows:

A. The overall quality of the plan for performing Debris Monitoring Services including Safety Practices and Historic Preservations. The plan must maintain a full understanding of the requested services, integrity, and compliance with public policy. Consideration will be given to the entirety and specific requirements of the request. (Important-20 points)

B. Respondent ability to perform the Debris Monitoring Services as reflected by past performance, general experience, specific experience in providing the services, and the qualifications and abilities of personnel to be assigned to

perform such services. (Very Important – 20 points)

C. The personnel, equipment, facilities, technical, and financial resources to perform this type service currently available or demonstrated to be made available at the time of request and possible future contracting. (Important – 20 points)

D. A record of past performance of similar work. (Critical – 20 points)

E. Price (Critical-20 points)

Respondent's Response shall contain the following Information:

1. Be authorized or prove intent to transact business in the State of Mississippi (the "State").
2. Be able to provide Monitoring of all disaster related debris, as set forth in the Scope of Services hereto and incorporated herein by reference (the "Services").
3. Be willing and capable of performing the Services in a timely manner, including, but not limited to, maintenance of proper documentation, proper documentation preparation and management and event closure services.
4. Be knowledgeable and have experience in the provision of the Services and in insuring that Services are in line with FEMA practices.
5. Be able to perform the Services in a timely manner and on short notice, recognizing that in the event of a Task Order, the City desires maximum percentage of completion of projects within the allotted time frames. Maximum Debris Removal within the first 30 days is desirable and the City prefers not to exceed 90 days for completion of any project however the maximum allotted time frame could extend to 180 days.
6. Provide SAM (System for Award Management) Number if available. Registration with SAM is not required however if available it will be reviewed for any current Responder status.

Respondent additional information:

1. Name of Respondent, location of Respondent's principal place of business, and the place of performance for any proposed contract.
2. Age of responders business and the average number of employees over the past three (3) years.
3. Resume' listing abilities, qualifications, and experience of key individuals who will be assigned to provide the required services.

4. Listing of five similar projects under which services similar in scope, size, or discipline were performed or undertaken, including at least three (3) references for current projects or those awarded during the past six (6) years.
5. List five (5) or more projects to include the names and addresses of the projects, the scope of the project, and the names and telephone numbers of the clients for reference purposes. All information in the request must be completed. Proposals containing incomplete data will be rejected.
6. A Technical Plan giving as much detail as practical explaining how the services will be performed.
7. Plan for subcontractor participation. Note, per FEMA FP-104-009-2 (January 2016) **Procurement Standards page 30; Vendors shall conduct all necessary affirmative steps to ensure the use of minority, women's business enterprises, and labor surplus area firms when possible.** Respondent can utilize the Mississippi Development Authority (or other state systems) to assist in locating such companies by using the established MDA Search utility at <http://minority.mississippi.org/> or <http://www.mmbbr.org>. The Small Business Administration and the Department of Commerce's Minority Business Development Agency can also be utilized to solicit these businesses. A Disadvantaged Business Enterprise (DBE) may also be considered.

INSURANCE REQUIREMENTS

Prior to signing of any contract, Respondent agrees to furnish the City with all applicable certificates of insurance. The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the aforementioned insurance. **Proof of Insurability must be provided with the proposal.**

Within 24 hours following the signing of any contracts, Respondent shall provide copies of insurance policies including all endorsements.

A. Commercial General Liability and Errors and Omissions - in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability – Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

D. Professional Liability (Errors & Omissions) – Proposer shall provide coverage for all claims arising out of the services performed with limits not less than \$1,000,000 per claim. The aggregate limit shall either apply separately to any contract or shall be at least twice the required per claim limit.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

Project will require a maximum dollar cap. Should the project exceed the dollar cap, the Contractor may request additional justifiable funding that will require the City Council's approval.

Response

All submitted RFP's become the property of the city and subject to all applicable public records laws include the Mississippi Public Records Act of 1983.

Hattiesburg reserves the right to accept, reject, or negotiate any or all proposals on the basis of the criteria contained within this document. The final decision to execute a contract with any party will be decided by the city.

Response Acceptance

The original and three (3) copies of the response and all attachments (four copies total) along with one electronic copy of the proposal saved as a .pdf file and stored on a CD or jump drive shall be signed and submitted in a sealed envelope or package to: **City of Hattiesburg City Clerk, at PO Box 1898 or 200 Forrest Street, Hattiesburg Mississippi 39403-1898 no later than 10:00 a.m. Central Standard Time on *Saturday 28, 2017.***

No electronic or facsimile copies of the RFP will be accepted. Timely submission of the RFP is the responsibility of the Respondent. Offers received after the specified time shall be rejected and returned to the Respondent unopened. **The envelope or package shall be marked with the RFP opening date and time and the number of the request for RFP. The time and date of receipt shall be indicated on the envelope or package by the City Clerk's Office. Each page of the RFP, all attachments and the CD/Jump Drive shall be identified with the name of the Respondent.**

Proprietary Information

The Respondent should clearly mark any and all pages of the proposal considered to be proprietary information which may remain confidential in accordance with current State Code.

When the City receives a request to release information properly designated as confidential or proprietary by a Respondent, the City shall give the owner of this

information a reasonable time to obtain a court order protecting the information as confidential. If the City receives a court order it must then notify the requestor that the information is protected by court order and cannot be furnished.

Debarment

By submitting a response to this RFP, the Respondent including principles and or owners certifies that he/she is not currently debarred from participating in any Federal or State Grant Programs.

Procurement Regulations and Guidelines

Respondent is advised to review the Mississippi Personal Service Contract Review Board Rules and Regulation that will be utilized as a guideline for contracts (<http://www.mspb.ms.gov/personal-service-contract-review-board/pscrb-rules-regulations.aspx>). Appendix D and Appendix F contain multiple items that will be included in any contract. Not all items will be included in the contract but Respondent must accept these guidelines.

The following clauses are required conditions when soliciting information for personal services by the Personal Service Contract Review Board Rules and Regulations per Appendix D & F:

1. Acknowledgment of Amendments

Respondent shall acknowledge receipt of any amendments by copying and signing and being a part of the request. Amendments may include Questions/Answers.

2. Applicable Law

Any Contract as a result of this RFP shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding conflicts of law's provisions, and any litigation with respect thereto shall be brought in the courts of the state. The Respondent shall comply with applicable federal, state, and local laws and regulations.

3. Availability of Funds

It is expressly understood and agreed that the obligation of the City to issue a contract as a result of this RFP is conditioned upon the appropriation of funds by the City of Hattiesburg.

4. Representation Regarding Contingent Fees

Respondent represents that it has not retained a person to solicit or secure a contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Respondent's proposal.

5. Representation Regarding Gratuities

The Respondent represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 7-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

6. Compliance with Laws

The Respondent understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on

race, color, creed, sex, age, national origin, physical handicap, disability, or any other consideration made unlawful by federal, State, or local laws. All such discrimination is unlawful and the Respondent agrees during the term of any agreements that the Respondent will strictly adhere to this policy in its employment practices and provision of services. The Respondent shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

7. E-Verification

Respondent represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act (Senate Bill 2988 from the 2008 Regular Legislative Session) and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Respondent agrees to maintain records of such compliance and, upon request of the State, to provide a copy of each such verification to the State. Respondent further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject Respondent to the following:

- (1) Termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public; or,
- (2) The loss of any license, permit, certification or other document granted to Respondent by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- (3) Both.

In the event of such termination/cancellation, Respondent would also be liable for any additional costs incurred by the State due to contract cancellation of license or permits.

8. Transparency (July 1, 2016)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent agency contract website for public access at

<http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

9. Approval

It is understood that any contract requires approval by the City Council. If a contract is not approved, it is void and no payment shall be made hereunder.

10. Confidential Information

“Confidential Information” shall mean: (a) those materials, documents, data, and other information which the Respondent has designated in writing as proprietary and confidential; and, (b) all data and information which Respondent acquires as a result of its contact with and efforts on behalf of the customer and any other information designated in writing as confidential by the City. Each party to this agreement agrees to the following:

- (1) to protect all confidential information provided by one party to the other;
- (2) to treat all such confidential information as confidential to the extent that confidential treatment is allowed under state and/or federal law; and,
- (3) except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission; and,
- (4) to do so by using those methods and procedures normally used to protect the party's own confidential information.

Any liability resulting from the wrongful disclosure of confidential information on the part of Respondent or its subcontractors shall rest with the Responder.

11. Confidentiality

Notwithstanding any provision to the contrary contained herein, it is recognized that *the City of Hattiesburg* is a public entity in the State of Mississippi and is subject to the Mississippi Public Records Act. Miss. Code Ann. §§ 25-61-1 *et seq.* (1972, as amended). If a public records request is made for any information provided to *the City* pursuant to any agreement, *the City* shall promptly notify the disclosing party of such request and will respond to the request only in accordance with the procedures and limitations set forth in applicable law. The disclosing party shall promptly institute appropriate legal proceedings to protect its information. No party shall be liable to the other party for disclosures of information required by court order or required by law.

12. Attorney's Fees and Expenses

Subject to other terms and conditions of possible future contracts, in the event the Respondent defaults in any obligations under the agreement, the Respondent shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorney's fees) incurred by the City in enforcing this agreement or otherwise reasonably related thereto. Respondent agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to any Respondent.

13. Authority to Contract

Respondent warrants: (a) that it is a validly organized business with valid authority to enter into an agreement; (b) that it is qualified to do business and in good standing in the State of Mississippi; (c) that entry into and performance into an agreement is not restricted or prohibited by any loan, security, financing, contractual, or other agreement of any kind, and (d) notwithstanding any other provision of agreements to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under any agreement.

14. Respondent's Personnel

The City shall, when contracting, have the right of reasonable rejection and approval of staff or Subcontractors.

15. Failure to Deliver

In the event of failure of the Respondent to deliver services in accordance with the terms and conditions of any contract, the City, after due written notice, may procure the services from other sources and hold the Respondent responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

16. Failure to Enforce

Failure by the City at any time to enforce contractual provisions will not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of any contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

17. Independent Respondent Status

Respondent shall, at all times, be regarded as an independent Respondent under future contracts and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Respondent, or any third party as creating the relationship of principal and agent, master and servant, partners, joint ventures, employer and employee, or any similar such relationship between the City and the Respondent.

18. No Limitation of Liability

Nothing in any future Agreement shall be interpreted as excluding or limiting any tort liability of the Respondent for harm caused by the intentional or reckless conduct of the Respondent or for damages incurred through the negligent performance of duties by the Respondent or the delivery of products that are defective due to negligent construction.

19. Notices

All notices required or permitted to be given under any agreement must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Respondent: **Name** JOSEPH CALDAREIRA
Title PRESIDENT
Respondent J. CALDAREIRA & COMPANY, INC.
Address 201 WOODLAND DR.
LAPLACE, LA 70068

For the City: **City of Hattiesburg**
Purchasing Clerk
PO Box 1898
Hattiesburg, MS 39403-1898

20. Ownership of Documents and Work Papers

The City shall own all documents, files, reports, work papers and working documentation, electronic or otherwise, created in connection with any contract services, except for the Respondent's internal administrative and quality assurance files and internal project correspondence. The Respondent shall deliver such documents and work papers to the City upon termination or completion of each project. The Respondent shall be entitled to retain a set of such work papers for its files. Respondent shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections.

21. Record Retention and Access to Records

Provided the Respondent is given reasonable advance written notice and such inspection is made during normal business hours of the Respondent, the City or any duly authorized representatives, shall have unimpeded, prompt access to any of the Respondent's books, documents, papers, and/or records which are maintained or produced as a result of any contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this Agreement shall be retained by the Respondent for three (3) years after final Declaration Closeouts. However, if any audit, litigation or other action arising out of or related in any way to future contracts is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

22. Right to Inspect Facility

The City may at reasonable times inspect the place of business of a Respondent or any Subcontractor which is related to the performance of any Contract awarded by the City.

23. Termination for Convenience

1. Termination. The City may, when the interests of the City so require, terminate any contract in whole or in part, for the convenience of the City. The City Engineer shall give written notice of the termination to the Respondent specifying the part of any contract terminated and when termination becomes effective.

2. Respondent's Obligations. Respondent shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the Respondent will stop work to the extent specified. The Respondent shall also terminate outstanding orders and subcontracts as they

relate to the terminated work. The Respondent shall settle the liabilities and claims arising out of any termination of subcontracts and orders connected with the terminated work. The City Administrator may direct the Respondent to assign the Respondent's right, title, and interest under terminated orders or subcontracts to the City. The Respondent must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

24. Termination for Default

(1) *Default.* If Respondent refuses or fails to perform any of the provisions of any contract with such diligence as will ensure its completion within the time specified in any contract or any extension thereof, or otherwise fails to timely satisfy contract provisions, or commits any other substantial breach of any contract, the procurement officer may notify the Respondent in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the procurement officer, such officer may terminate Respondent's right to proceed with a contract or such part of a contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the procurement officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the procurement officer. Respondent shall continue performance of any contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(2) *Respondent's Duties.* Notwithstanding termination of contracts and subject to any directions from the procurement officer, Respondent shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Respondent in which the City has an interest.

(3) *Compensation.* Payment for completed services delivered and accepted by the City shall be at a contract price. The City may withhold from amounts due Respondent such sums as the procurement officer deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

(4) *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Respondent shall not be in default by reason of any failure in performance of any contract in accordance with its terms (including any failure by Respondent to make progress in the prosecution of the work hereunder which endangers such performance) if Respondent has notified the procurement officer within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Respondent shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time

to permit Respondent to meet contract requirements. Upon request of Respondent, the procurement officer shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Respondent's progress and performance would have met the terms of any contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

(5) *Erroneous Termination for Default.* If, after notice of termination of Respondent's right to proceed under the provisions of this clause, it is determined for any reason that any contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if any contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

(6) *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under any contract.

25. Termination upon Bankruptcy

Any future Contract may be terminated in whole or in part by the City upon written notice to Respondent, if Respondent should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by the Respondent of an assignment for the benefit of its creditors. In the event of such termination, the Respondent shall be entitled to recover just and equitable compensation for satisfactory work performed under any contract, but in no case shall said compensation exceed a total contract price.

26. Third Party Action Notification

Respondent shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Respondent by any entity that may result in litigation related in any way to any agreements.

27. Unsatisfactory Work

If at any time during any contract term, the service performed or work done by the Respondent is considered by the City to create a condition that threatens the health, safety, or welfare of the citizens and/or employees of the City, the Respondent shall, on being notified by the City, immediately correct such deficient service or work. In the event the Respondent fails, after notice, to correct the deficient service or work within 24 hours, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Respondent.

28. Waiver

No delay or omission by either party to any agreement in exercising any right, power, or remedy hereunder or otherwise afforded by contracts, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to any agreement shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of any agreement will void, waive, or change any other term or condition. No waiver by one party to any agreement of a default by the other party will imply, be construed as or require waiver of future or other defaults.

REQUIRED FEDERAL PROCUREMENT CLAUSES

1. Clean Air Act and the Federal Water Pollution Control Act (over \$150,000.00).

Respondent shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA.

2. Retention/Access of Records

Respondent will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

3. Energy Policy and Conservation Act

Respondent shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

4. Debarment and Suspension

Respondent shall not subcontract with any parties listed on the government-wide Excluded Parties List System in the **System for Award Management (SAM)**, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." Respondent shall not subcontract with any parties that are currently debarred and listed with the Mississippi Department of Finance and Administration (DFA) (www.dfa.ms.gov).

5. Byrd Anti-Lobbying Amendment

Respondent certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S. C. 1352. Respondent shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal Award. Respondent shall require all subcontractors to submit these same certifications.

6. **Contract Work Hours and, Safety Standards Act, as Amended (over \$100,000.00).**
7. **Equal Opportunity Clause 41 CFR60-1.4**
8. **Coordination of Grants Related Civil rights statutes, Executive Order 12250.**

EVALUATION PROCEDURE PROCESS:

1. Qualifications of Respondent

Respondent may be required before the award of any contract to show to the complete satisfaction of City that it has the necessary facilities, integrity, ability, compliance with public policy, past performance, technical, and financial resources to provide the service specified therein in a satisfactory manner. The Respondent may be required to provide legal understanding of the Personal Service Contract Review Board Rules and Regulations as well as the Federal Office of Management and Budget Super Circular. Respondent may also be required to give a past history and references in order to satisfy the City in regards to the Respondent's qualifications. The City may make reasonable investigations deemed necessary and proper to determine the ability of the Respondent to perform the work, and the Respondent shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any offer if the evidence submitted by, or investigation of, the Respondent fails to satisfy the City that the Proposer is properly qualified to carry out the obligations of future contracts and to complete the work described therein. Evaluation of the Respondent's qualifications shall include:

1. The ability, capacity, skill, financial, and other necessary resources to perform the work or provide the service required;
2. The ability of Respondent to perform the work or provide the service promptly or within the time specified, without delay or interference;
3. The character, integrity, reputation, judgment, experience, and efficiency of the Respondent; and,
4. The quality of performance of previous contracts or services.
5. Price.

First Step: RFP's will be reviewed to meet compliance with the request. RFP's that do not comply with the specifications will be rejected and no further consideration given.

Second Step: RFQ's that complete the First Step will be reviewed/analyzed for determination if the response adequately meets the needs of the City. The following factors will be utilized:

1. The overall quality of the proposed plan and for performing the required services – the plan should reflect an understanding of the project and its

objectives. Consideration will be given to the completeness of the response to the specific requirements of the solicitation. (Critical - 20 points)

2. Respondent's ability to perform such services as reflected by technical training and education, general experience, specific experience in providing the required services, and the qualification and abilities of personnel proposed to be assigned to perform the services. This includes the ability of the Respondent to provide a work product that is legally defensible. (Very Important - 20 points)
3. The personnel, equipment, facilities, and financial resources to perform the services currently available or demonstrated to be made available at the time of contracting. (Important - 20 points)
4. A record of past performance of similar work. Direct experience in Mississippi is desirable but not required. (Critical - 20points)
5. Price (20 points).

Third Step: The City may contact the most qualified Respondent by telephone to schedule an interview.

SCOPE OF WORK:

DR-XXXX

Hattiesburg Mississippi, is seeking Professional Services proposals for Debris Monitoring Firms. Proposals will be sought for Monitoring of federally declared disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the City, State, and FEMA), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this Service however if the City, State, or FEMA authorizes the ROE it will become part of the Service. The City will seek proposals for said services City-wide. The City will evaluate the Proposals on what is in the best interest of the City and the nature of the event. The City will seek to identify a Respondent to oversee either City Task Force or Debris Removal Contractor(s). It shall be noted that any Contract is for payment of "Only Debris Services that FEMA Determined Eligible" and is consistent with FEMA Public Assistance Program and Policy Guideline (FP-104-009-2, January 2016).

This Scope of Work (SOW) is provided for Respondent to review in detail, the SOW is detailed as to the terms of request and Respondent should acknowledge each line item. Should a Respondent take exception to any line items in the SOW it should be clearly stated within the proposal.

Respondent must provide a technical overview for debris monitoring as to how they complete this project.

The scope of work/services as described below shall be considered minimum standards to meet in submitting their proposal for debris monitoring services. The Monitoring Services Respondent shall be experienced and knowledgeable in handling and executing disaster debris removal and disposal monitoring in compliance and consistent with the policies and publications of MEMA, FEMA, and FHWA. Throughout these specifications, any reference to FEMA shall also imply FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved.

Examples of guidelines and regulations include but are not limited to the following:

FP-104-009-2 January 2016

Emergency Relief Manual (Federal-Aid Highways)- November 2009

The City will designate a Debris Task Force Manager (DTFM) that will act as the Point of Contact (POC) for the event. The DTFM POC may consist of a City Employee, a Professional Contractor, or the City Engineer.

The Respondent will work with the City Debris Task Force Manager by assisting in determining the amounts of debris prior to beginning services.

Respondent will work with all associated teams including MEMA, FEMA, City, County, Debris Removal Contractors, and FHWA as needed for timely project completions, cost effectiveness, and maximum FEMA Category A reimbursements.

Respondent will measure and certify all equipment associated with either the City Task Force or approved removal contractor(s). Respondent will be familiar with standard MDOT Traffic Control Measures and report to the Debris Task Force Manager any safety issues or irregularities.

Respondent will report any delays, issues or concerns by the City or Removal Contractor to the City Task Force Manager.

Respondent will oversee all debris pick up sites as well as temporary and or final sites. Oversight will include GPS coordinates, addresses for pick up, and photographs. Respondent should be able to provide written Load tickets. Should the respondent be positioned to offer e-ticketing a description should be included in the technical overview for this service. Should the Respondent offer e-ticketing the price for any additional devices should be included in the hourly rate for any positions that may be utilizing the devices. Respondent should state hourly pricing for flat rate without e-ticketing devices as well as with e-ticketing devices. Either hand written or electronic tickets must be completed in detail for each line item. Photo documentation must be provided from cradle to grave and correlate with the load tickets.

Respondent will be responsible for providing an electronic document reflecting the cubic yards (or other units of measure) daily amounts to the City Debris Task Force Manager that will be sent to MEMA and FEMA daily.

Respondent will be responsible for working sun-up to sun-down seven days a week unless directed differently by the City Debris Task Force Manager.

As a minimum the Respondent must provide sufficiently trained personnel including a Project Manager, Field Monitors, Roving Managers, Fixed Site Monitors, Data Managers, and Clerical.

The City may use force account resources (including temporary hires), contractors, or a combination of these for monitoring. It is not necessary, or cost-effective, to have Professional Engineers or other certified professionals perform debris monitoring duties. FEMA considers costs unreasonable when associated with the use of staff that is more highly qualified than necessary for the associated work.

Respondent will be responsible for documenting any damage to city or private property caused by the removal contractor(s). Respondent should also document any City infrastructure damage caused by the event.

Respondent must be able to activate within 24 hours of notification to proceed by the City.

Respondent must certify that the company or any of its principles are not bared from performing any State or Federally Funded Projects including FEMA and the FHWA.

SCOPE OF POSITIONS

Provide Project Managers, Roving Managers, Field Monitors, Fixed Site Monitors, Data Managers, and Clerical for Debris Monitoring. Respondent may provide e-ticketing service however it is not mandatory for this request.

Project Manager:

Respondent will provide a Project Manager to oversee debris monitoring activities.

1. Oversight and Supervision of Monitor field activities.
2. Scheduling of Monitoring resources and deployment timing.
3. Communication and coordination with City personnel.
4. Make suggestions to improve the efficiency of collection and removal of debris.
5. Coordinate daily activities and future planning.
6. Remain in contact with DTFM
7. Identify, address, and troubleshoot any questions or problems that could impact work area safety and eligibility.
8. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations. Document truck hauling compartment condition using digital photographs. Prepare a master log book of all hauling equipment used by the City and or the Removal Contractor(s).
9. Compile, reconcile and document daily in an electronic spreadsheet format all eligible debris hauled by the City or Removal Contractor.

Field Debris Monitors and Roving/Operations Manager:

Respondent will perform on-site, street-level work area inspections of debris cleanup and collection. Respondent will provide loading site (field) monitors to inspect and control debris collection utilizing manifest load tickets. A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors.

1. Provide field monitor personnel at designated areas to check and verify information on debris removal.
2. Monitor collection activity of trucks.
3. Issue manifest load tickets at loading site for each load.
4. Check the area for safety considerations such as – downed power lines, the presents of children, traffic control, safety of equipment
5. Ensure Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal.
6. Perform a pre-work inspection of areas to check debris piles to identify covered utility meters, transformers, fire hydrants, mail boxes, etc. to help prevent damage from loading equipment and to look for potential problems.
7. Should damages occur to utility components, driveways, road surfaces, private property, vehicles, etc. document the damage with photos if possible, collect information about owner, circumstances of the damage (who, what, when, where) and report to your Roving Manager.
8. Ensure the work area is clear of debris to the specified level before equipment moves to a new loading area.
9. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations.
10. Properly monitor and record performance and productivity of debris removal

crew.

11. Remain in constant contact with Roving Manager. Roving Manager is to report directly to the DTFM.
12. Ensure that loads are contained properly before leaving the loading area.
13. Ensure only eligible debris is collected for loading and hauling.
14. Ensure only debris from approved public areas is loaded for removal.
15. Perform other duties from time to time as directed by the debris management project manager or DTFM.

Fixed Site Debris Monitors:

Respondent will provide personnel to oversee the inspection of the disposal or unloading sites by providing the monitoring, verification of load capacity, and documentation at designated temporary and or final disposal sites.

1. Provide disposal site monitors and inspectors personnel.
2. Complete record of contract haulers' cubic yardage and other record keeping as may be needed on the provided load ticket.
3. Initial each load ticket before permitting truck to proceed from the check-in area to the tipping area.
4. Remain in contact with debris management/dispatch center or supervisor.
5. Perform other duties as directed by the dispatch/staging operation, debris management project manager, or designated City personnel.
6. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations

Data Managers:

Respondent will provide personnel to oversee electronic documentation including:

1. Excel Spreadsheets as to amounts of debris collected daily.
2. Maintenance and data transfer of e-ticketing system if applicable.
3. Data Retention and back up of Data Retention for a minimum of 5 years at the expense of the Respondent.
4. GPS devices and oversight of coordinating with FEMA on accuracy.
5. GIS (Global Information System) coordination with the City, PDD (Planning and Development District), and or state.

Clerical:

Respondent will provide personnel to assist with data collection daily.

1. Enter daily data into either Excel Spreadsheets or e-ticketing system.
2. Verify Billing.
3. Audit billing vs. invoices.
4. Prepare cover documentation for services and create a filing system either electronic and or paper.

Terms:

Contracts will be established per event as activated.

Deployment

Respondent must be prepared to deploy within 24 hours from the notice to proceed. Respondent staffing levels shall be efficient and coincide with the scale of the debris

removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [**Contractor**] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, J. CALDARERA & COMPANY, INC., certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

DISPUTE RESOLUTION/INSURANCE APPRAISAL EXPERIENCE

- Served as arbitrator and tribunal member, as well as chairman of arbitration panels.
- Served as mediator/arbitrator on catastrophic recovery and various construction matters.
- Served as appraiser on insurance matters, as well as independent general adjuster involved in resolving insurance disputes.
- Served as neutral reviewer for Louisiana's insurance company of last resort after Hurricane Katrina and effected numerous settlements without litigation.
- Served as advisor for St. Elizabeth Ann Seton School and church parish, and enabled completion of Hurricane damaged school to be operational in approximately one month so students would not have to be relocated to another campus.
- Served as advisor and contractor for Mt. Carmel Academy to enable correction of improper construction by others and assisted in resolving insurance claims due to weather events on multiple occasions.
- Constructed numerous schools in St. John, St. Charles, St. Tammany, and Jefferson Parishes.

JOSEPH CALDARERA

- Served as project neutral reviewer for local banks to protect bank collateral, and worked similarly for fast food venues and private owners after catastrophic events and facilitated insurance payment for restoration of damaged premises.
- Marshaled clean up operations and provided volunteer services for multiple parish and school during and after catastrophic events; assisted East Jefferson Levee District with volunteer equipment and manpower to provide protection to hurricane prone areas/levees during various hurricane events.
- Served as liaison/independent consultant for surety clients on major projects requiring independent review of project circumstances on defaulted or disrupted projects - provided cost effective solutions to halted projects and analyses that enable completion of the Work.
- Served as completion contractor on numerous projects enabling cost effective completion of ceased projects; enabled timely completion of previously distressed project within renegotiated completion time.
- Effectively reversed cease work orders from the State Licensing Board on projects whereby surety was unable to proceed until cease work orders were lifted.
- Served as liaison for St. John Parish after hurricane events with FEMA.
- Served as neutral expert in matters where Owner disputes involved contractors and design professionals enabling a consensus on testing protocol and remedial repairs.
- Served as past insurance consultant for St. John Parish School Board to resolve a catastrophic loss (fire) at an existing school; facilitated timely, favorable and complete resolution of pending insurance claim enabling completion of the school without expenditure of school board funds.
- Serve as a Board Member for Discovery Health Science Academy and work as construction committee advisor for various matters involving construction, bidding and contractor selection and review of ongoing projects.
- Serve as Board Member for Mt. Carmel Academy and advisor to the principal and president on construction matters, including budget confirmation.
- Served as completion contractor for a major surety and recommended removal of contaminated materials and mold remediation on a school project after water intrusion event to ensure clean air for new students.
- Selected as claims consultant/neutral in review and resolving claims on the OPP Project; entrusted with negotiations between Owner, Prime Contractor, all Subcontractors with claims, and FEMA.

GENERAL CONSTRUCTION EXPERIENCE

- Forty years experience in the Construction Industry in Building Construction, Heavy Construction, Highway, Street and Bridge Construction, Municipal and Public Works Construction and Construction Management. Projects include large, highly complex projects to small, relatively simple projects. Such projects have resulted in over three and one-half decades of practical experience covering virtually every kind of construction project.
- Accumulated actual work experience in various trades, including specialty fields such as concrete work; pile driving; earthwork (including earthen dams/levees); carpentry and millwork; drywall; roofing; structural steel erection and pre-cast concrete erection; masonry; railroad construction; plumbing; electrical; infrastructure work such as paving, water, drainage structures, and piping; pumping stations; sewer lift stations, structures, and piping; bridge building; and associated support work for these various trades.
- Experienced in all facets of residential (single and multi-family), industrial and commercial construction with specialization in bridge construction, earthwork, site-work and pile driving.
- Experienced in demolition and emergency fire repair, special and catastrophe construction including explosion, fire and earth tremor. Immediately after 1988 Shell Norco Explosion, performed extensive reconstruction of refinery with zero downtime.
- Experienced in waste treatment facility construction, containment construction for waste dump facilities, pumping stations, industrial plants, railroad terminals, intermodal facilities, railroad switch yard and track construction, highway, street, and bridge construction, drainage structures, controlled temperature warehouses, office buildings, banks, schools, historic restoration and renovations, hospitals, shopping centers, baseball stadiums, performing arts centers, sports facilities, multi-use facilities, basketball and volleyball arenas, heliports, airports, retail stores, restaurants, churches and convents, funeral homes, hotels, libraries, fire stations, and private residences. Experienced in real estate planning and development. Construction of residential developments including all infrastructure.
- In the history of the company there has never been one day, nor one dollar of liquidated damages charged against the company while under the direction of Joe Caldarera in the final analysis of any project.

SELECTED ACCOMPLISHMENTS

Invented and designed jigs and attachments for miscellaneous wood cutting equipment used to expedite production and increase efficiency with minimal manpower for huge offshore project.

Developed estimating system for construction for use in-house on commercial/ industrial project estimation.

Prepared budget/pro forma construction estimates for complex, multi-faceted transportation project to enable procurement of funding for owner team.

Selected among top four out of eleven hundred companies in America to participate in nationally recognized millwork (casework) project. Awards for excellence in woodworking capabilities and knowledge of fine select hardwoods.

Constructed New Orleans Zephyrs \$22,000,000.00 Baseball Stadium in 8+ months of construction time.

Constructed Jefferson Performing Arts Center Project - \$60,000,000.00 - Resolved Design Defects and provided betterments related to code compliance and energy efficiency

Designed and Built Iron Horse Clothier - developed unique concept of retail upscale clothing store using reclaimed vintage materials to establish franchising venue

Designed a system of concrete forming for rail docks – eliminating the use of forms by 50% and creating a safer work condition.

Designed Louisiana Trace Residential Development, Kenner, Louisiana. Recognized for implementation of an aesthetic walking path that served the community as an amenity, while functioning as an engineered retention area to protect the development in the event of high water. Worked as planned even through Hurricane Katrina with not one flooded lot or home.

Selected as the Best Public Project in Louisiana in 2001 for the Baton Rouge Airport; selected for an Award of Merit in 2003 for the Ogden Museum of Southern Arts – numerous other project accommodations.

Manages Timberland, Oil, Gravel and Natural Resources on acreage in Southeast Mississippi

Received the 2006 Seton Award

Received Frederick L. Olmsted Lifetime Architectural Achievement Award

Received various awards for excellence in Construction, including Best Public Project in Louisiana

CONSULTATION EXPERIENCE/EXPERT TESTIMONY

Qualified as expert witness for construction means and methods, forensic analysis, scheduling, construction estimating, insurance estimation and policy application, thermography, site work/dirt work, concrete work, surety/completion work, moisture intrusion (building envelop and roofing), and use/capacities of equipment. Performed evaluations, investigations, estimates, and adjustments related to time and cost analyses for various construction and insurance/surety related projects.

Qualified in Louisiana District Courts; Federal Court – Eastern District of Louisiana; Federal Bankruptcy Court (Louisiana and Texas); and in Arbitration forums involving large complex construction litigation involving estimation, scheduling, and surety and insurance matters; Hired by District Court as expert in construction matters. Clients include global insurers/sureties, worldwide automotive manufacturers, world banks and financial institutions, regional school districts and recognized parochial schools, and national enterprises, including national construction companies seeking aid in distressed projects.

Selected by AIG, Ohio Casualty, Bituminous Insurance, CNA, Hanover, Hartford, top-tier national banks, world-wide oil and refining companies, major hotel organizations, major automotive clients and various other clients as expert witness and consultant in Scheduling, Estimation, Insurance Appraisal, Scope Assessment & Estimation and Construction Means and Methods.

Served as Construction Manager/Surety Representative on various completion projects. Called as consultant on related construction real estate, insurance and catastrophe loss cases where appraisal, cost determination of damages, and scheduling is required.

Selected by Shell Oil Company and Cigna Insurance Company as representation in cost estimation and construction relative to the Shell Norco explosion of May 5, 1988.

Credited as the sole expert responsible for expectations above that expected on several major litigations for national and international clients.

ADDENDUM #1

for

"Debris Monitoring for Tornado date January 21, 2017"

The following items will be added to the City of Hattiesburg "Debris Removal for Tornado dated January 21" RFP:

1. Attachment "A" City of Hattiesburg Historical Registry was not included in the original RFP. Although there are an immense number of locations within the Register none of the locations were damaged by the January 21st Tornado. The Attachment is included in this Addendum for review.
2. Questions for the RFP are due by Thursday January 26, 2017 at 12:01 PM. Questions should be submitted to Lamar Rutland City Engineer at lrutland@hattiesburgms.com or fax at 601-545-4642.
3. It was the intent of the City of Hattiesburg to attach the Contract Template and was overlooked while distributing the RFP. The Contract Template is attached to this Addendum for review.
4. Under Summary of the RFQ page 1 first paragraph the Bid will be opened on Saturday January 28th, 2017 **at 10:00 AM**, please add and note the time.

Kermas Eaton, City Clerk

**TERMS OF CONTRACT
DEBRIS MONITORING for DR-XXXX
CITY OF HATTIESBURG, MISSISSIPPI**

1. Contracted Services: The Contractor agrees to provide in accordance with the specifications set forth on the preceding page of this contract, titled "Contract between the City of Hattiesburg and NAME OF CONTRACTOR (Contractor)" and any other documents as set forth by the City of Hattiesburg (City), and are hereby incorporated into and made a part of this contract. No oral statements of any person shall modify or otherwise affect the terms, conditions, or specifications stated in this contract. If other attachments or exhibits exist which are to be incorporated as part of this contract, the title of each document shall be listed here, as follows (use additional sheets, if necessary):

Attachment B - Conflict of Interest

Attachment C - Certification Regarding Lobbying

Attachment D - Scope of Work per included RFP Response

2. ABILITY TO CONTRACT

The NAME OF CONTRACTOR (Contractor) warrants that he/she/it is qualified to provide the services, whether personal or professional, as outlined in this contract. The Contractor agrees to conform to existing policies, rules, and regulations of the City. The Contractor agrees to maintain throughout the contract period such licensing and/or certification as may be required by law for the provision of services specified herein, if applicable. The Contractor warrants that it is a validly organized business with valid authority to enter into this contract; that it is qualified to do business and in good standing in the State of Mississippi; that entry into and performance under this contract is not restricted or prohibited by any loan, security, financing, contractual or other contract of any kind; and, notwithstanding any other provision of this contract to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under this contract.

3. APPLICABLE LAW

The contract shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding its conflicts of laws, provisions, and any litigation with respect thereto shall be brought in the courts of the City of Hattiesburg or Forrest County Mississippi. Contractor shall comply with applicable federal, state, and local laws and regulations.

4. COMPLIANCE WITH LAWS

Contractor understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on race, color, creed, sex, age, national origin, physical handicap, disability, genetic information, or any other consideration made unlawful by federal, state, or local laws. All such discrimination is unlawful and Contractor agrees during the term of the agreement that Contractor will strictly adhere to this policy in its employment practices and provision of services. Contractor shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

5. PROCUREMENT REGULATIONS AND APPROVAL

The contract is designed by the applicable provisions of the *Mississippi Personal Service Contract Review Board ("PSCRB") Rules and Regulations*, a copy of which is available at 210 East Capitol, Suite 800, Jackson, Mississippi 39201 for inspection, or downloadable at <http://www.mspb.ms.gov>. It is understood that the PSCRB does not and will not approve this contract, the guidelines are best determined by the City of Hattiesburg that closely parallels the Federal Guidelines required for this contract.

6. REPRESENTATION REGARDING CONTINGENT FEES

Contractor represents that it has not retained person to solicit or secure a City contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Contractor's bid proposal

7. REPRESENTATION REGARDING GRATUITIES

The bidder, offeror, respondent, or contractor represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 6-204 (Gratuities) of the *Mississippi Personal Service Contract Review Board Rules and Regulations*.

8. DEBARMENT AND SUSPENSION: Contractor certifies to the best of its knowledge and belief, that it:

- a. is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transaction by any federal department or agency or any political subdivision or entity of the State of Mississippi;
- b. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction;
- c. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for a violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- d. is not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of these offenses enumerated in paragraphs two (b) and (c) of this certification; and,
- e. has not, within a three year period preceding this proposal, had one or more public transactions (federal, state, or local) terminated for cause or default.

9. INTEGRATED AGREEMENT/MERGER

This contract, including all contract documents, represents the entire and integrated contractual agreement between the parties hereto and supersedes all prior negotiations, representations, or agreements, irrespective of whether they were written or oral. This contract may be altered, amended, or modified only by a written document executed by the City and the Contractor. The Contractor acknowledges that it has thoroughly read all contract documents and attachments and has had the opportunity to receive competent advice and counsel necessary for it to form a full and complete understanding of all rights and obligations herein. Accordingly, this contract shall not be construed or interpreted in favor or against the City or the Contractor on the basis of draftsmanship or preparation.

10. MODIFICATIONS AND CHANGES IN SCOPE OF WORK

All modifications to the contract must be made in writing and signed by both parties to the contract. The City may order changes in the work consisting of additions, deletions, or other revisions within the general scope of the contract. No claims may be made by the Contractor that the scope of the contract or of the Contractor's services has been changed, requiring changes to the amount of compensation to the Contractor or other adjustments to the contract, unless such changes or adjustments have been made by written amendment to the contract signed by the City and the Contractor. If the Contractor believes that any particular work is not within the scope of the contract, is a material change, or will otherwise require

more compensation to the Contractor, the contractor must immediately notify the City in writing of this belief. If the City believes that the particular work is within the scope of the contract as written, the Contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

11. AVAILABILITY OF FUNDS

It is expressly understood and agreed that the obligation of the City to proceed under this agreement is conditioned upon the appropriation of funds by the City of Hattiesburg. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, of the City to appropriate funds or the discontinuance or material alteration of the program under which funds were provided or if funds are not otherwise available to the City, the City shall have the right upon ten (10) working days written notice to Contractor, to terminate this agreement without damage, penalty, cost or expenses to the City of any kind whatsoever. The effective date of termination shall be as specified in the notice of termination.

12. PAYMENT

Contractor agrees to accept all payments in United States currency via the City's check issuing system. The City agrees to make payment in accordance with Mississippi law on "Timely Payments for Purchases by Public Bodies," which generally provides for payment of undisputed amounts by the City within forty-five (45) days of receipt of invoice. Mississippi Code Annotated § 31-7-305.

13. E-VERIFICATION

If applicable, Contractor represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act of 2008, and will register and participate in the status verification system for all newly hired employees. Mississippi Code Annotated §§ 71-11-1 *et seq.* The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program.

Contractor agrees to maintain records of such compliance. Upon request of the City and after approval of the Social Security Administration or Department of Homeland Security when required, Contractor agrees to provide a copy of each such verification. Contractor further represents and warrants that any person assigned to perform services hereafter meets the employment eligibility requirements of all immigration laws. The breach of this agreement may subject Contractor to the following:

- A. termination of this contract for services and ineligibility for any state or public contract in Mississippi for up to three (3) years with notice of such cancellation/termination being made public;
- B. the loss of any license, permit, certification or other document granted to Contractor by an local, state, or federal governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- C. both. In the event of such cancellation/termination, Contractor would also be liable for any additional costs incurred by the City due to Contract cancellation or loss of license or permit to do business in the City or State.

14. STOP WORK ORDER

This section applies to contracts following the guidelines of the PSCRB as follows:

A. Order to Stop Work: The City, may, by written order to Contractor at any time, and without notice to any surety, require Contractor to stop all or any part of the work called for by this contract. This order shall be for a specified period not exceeding 90 days after the order is delivered to Contractor, unless the parties agree to any further period. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the occurrence of costs allocable to the work covered by the order during the period of work stoppage. Before the stop work order expires, or within any further period to which the parties shall have agreed, the City shall either:

1. cancel the stop work order; or,
2. terminate the work covered by such order as provided in the Termination for Default clause or the Termination for Convenience clause of this contract.

B. Cancellation or Expiration of the Order: If a stop work order issued under this clause is canceled at any time during the period specified in the order, or if the period of the order or any extension thereof expires, Contractor shall have the right to resume work. An appropriate adjustment shall be made in the delivery schedule or Contractor price, or both, and the contract shall be modified in writing accordingly, if:

1. the stop work order results in an increase in the time required for, or in Contractor's cost properly allocable to, the performance of any part of this contract; and,
2. Contractor asserts a claim for such an adjustment within 30 days after the end of the period of work stoppage; provided that, if the City decides that the facts justify such action, any such claim asserted may be received and acted upon at any time prior to final payment under this contract.

C. Termination of Stopped Work: If a stop work order is not canceled and the work covered by such order is terminated for default or convenience, the reasonable costs resulting from the stop work order shall be allowed by adjustment or otherwise.

D. Adjustments of Price: Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment clause of this contract, if applicable.

15. TERMINATION FOR CAUSE and CONVENIENCE

A. Termination. The City Engineer or designee may, when the interests of the City so require, terminate this contract in whole or in part, for the convenience of the City. The City Engineer or designee shall give written notice of the termination to Contractor specifying the part of the contract terminated and when termination becomes effective.

B. Contractor's Obligations. Contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination Contractor will stop work to the extent specified. Contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. Contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The COO or designee may direct Contractor to assign Contractor's right, title, an interest under terminated orders or subcontracts to the City. Contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

16. TERMINATION FOR DEFAULT

A. *Default.* If Contractor refuses or fails to perform any of the provisions of this contract with such diligence as will ensure its completion within the time specified in this contract or any extension thereof, or otherwise fails to timely satisfy the contract provisions, or commits any other substantial breach of this contract, the City Engineer or designee may notify Contractor in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the City Engineer or designee, such officer may terminate Contractor's right to proceed with the contract or such part of the contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the City Engineer or designee may procure similar supplies or services in a manner and upon terms deemed appropriate by the City Engineer or designee. Contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

B. *Contractor's Duties.* Notwithstanding termination of the contract and subject to any directions from the City, Contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Contractor in which the City has an interest.

C. *Compensation.* Payment for completed services delivered and accepted by the City shall be at the contract price. The City may withhold from amounts due Contractor such sums as the City Engineer or designee deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

D. *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if Contractor has notified the City Engineer or designee within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City, State and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Contractor shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Contractor to meet the contract requirements. Upon request of Contractor, the City Engineer or designee shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Contractor's progress and performance would have met the terms of the contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

E. *Erroneous Termination for Default.* If, after notice of termination of Contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (d) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

F. *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

17. TERMINATION UPON BANKRUPTCY

This contract may be terminated in whole or in part by the City upon written notice to Contractor, if Contractor should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by Contractor of an assignment for the benefit of its creditors. In the event of such termination, Contractor shall be entitled to recover just and equitable compensation for satisfactory work performed under this contract, but in no case shall said compensation exceed the total contract price.

18. RECORDS AND AUDIT

The Contractor shall maintain such financial records and other records as may be prescribed by the City or by applicable Federal and State laws, rules, and regulations. These may be kept according to the Contractor's usual method of recordkeeping, but must be sufficiently detailed to permit an accurate accounting of contract funds and program activities. The contract and the procurement of goods and services shall be governed by the applicable Mississippi statutes and the applicable provisions of the Mississippi Personal Service Contract Review Board Regulations. The Contractor shall retain these records for a period of three (3) years after final payment, or until they are audited by the City, whichever event occurs first. These records shall be made available during the term of the contract and the subsequent three-year period for examination, transcription, and audit by the Mississippi State Auditor's Office, its designees, or other authorized bodies. Where audits are required to be submitted to the City before funding can be released, the audits must be submitted within the required timeframe and must be acceptable; if a Contractor fails to submit an audit in a timely manner, or if the audit is unacceptable, the city reserves the right to cancel or suspend the contract at the City's discretion.

19. RECORDS RETENTION

The Contractor agrees to submit to the City quarterly program activity reports thirty (30) days subsequent to the closing of each quarter. The Contractor agrees to submit to the City quarterly fiscal reports thirty (30) days subsequent to the closing of each quarter, or other applicable period as made a part of this contract and agreed to by both parties. The Contractor agrees to permit reasonable program review and evaluation by the City; to provide access to any pertinent records; arrange meetings with appropriate personnel; permit inspection of the premises; and to cooperate in any other reasonable requests for fiscal and/or program information. Provided the Contractor is given reasonable advance written notice and such inspection is made during normal business hours of the Contractor, the City or any duly authorized representatives shall have unimpeded, immediate access to any of the Contractor's books, documents, papers, and/or records which are maintained or produced as a result of this contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this contract shall be retained by the Contractor for three (3) years after final payment and or final closeout for this declaration is made under this contract and all pending matters are closed. However, if any audit, litigation, or other action arising out of or related in any way to this contract is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

20. INDEPENDENT CONTRACTOR STATUS

This section applies only to contracts for which the Contractor shall serve solely on an Independent Contractor basis, as follows:

The Contractor, at all times, shall be regarded as an Independent Contractor and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Contractor, or any third party as creating the relationship of principal and agent, partners, joint ventures, or any similar such relationship between the City and the Contractor. Neither the method of computation of fees or other charges, nor any other provision contained herein, nor any acts of the City or the Contractor hereunder,

creates or shall be deemed to create a relationship other than the independent relationship of the City and the Contractor. The Contractor's personnel shall not be deemed in any way, directly or indirectly, expressly or by implications, to be employees of the City. Neither the Contractor nor its employees, under any circumstances, shall be considered servants, agents, or employees of the City; and the City shall be at no time legally responsible for any negligence or other wrongdoing by the Contractor, its servants, or agents. The City shall not withhold from the contract payments to the Contractor any Federal or State unemployment taxes, Federal or State income taxes, Social Security tax, or any other amounts for benefits to the Contractor. Further, the City shall not provide to the Contractor any insurance coverage or other benefits, including Workers' Compensation, normally provided by the City for its employees. Furthermore, none of the work performed under this contract shall be subcontracted without prior approval of the City. The City, throughout the life of the contract, shall have the right of reasonable rejection and approval of staff of the Contractor or its Subcontractors assigned to the work by the Contractor. If the City reasonably rejects staff of the Contractor or its Subcontractors, the Contractor must provide replacement staff or Subcontractors satisfactory to the City in a timely manner and at no additional cost to the City. The day-to-day supervision and control of the Contractor's employees and Subcontractors are the sole responsibility of the Contractor.

21. TRADE SECRETS, COMMERCIAL AND FINANCIAL INFORMATION

It is expressly understood that Mississippi law requires that the provisions of this contract which contain the commodities purchased or the personal or professional services provided, the price to be paid, and the term of the contract shall not be deemed to be a trade secret or confidential commercial or financial information and shall be available for examination, copying, or reproduction.

22. CONFIDENTIAL INFORMATION

A. Definition: "Confidential Information" shall mean:

1. those materials, documents, data, and other information which the Contractor has designated in writing as proprietary and confidential; and
2. all data and information which the Contractor acquires as a result of its contact with and efforts on behalf of the City, and any other information designated in writing as confidential by the City.

Each party to this contract agrees to protect all Confidential Information provided by one party to the other, to treat all such Confidential Information as confidential to the extent that confidential treatment is allowed under State and/or Federal law, and, except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission, and to do so by using those methods and procedures normally used to protect the party's own confidential information. Any liability resulting from the wrongful disclosure of confidential information on the part of the Contractor or its Subcontractors shall rest with the Contractor. Disclosure of any confidential information by the Contractor or its Subcontractors without the express written approval of the City shall result in the immediate termination of this contract.

B. Disclosure: In the event that either party to this contract receives notice that a third party requests divulgence of confidential or otherwise protected information and/or has served upon it a subpoena or other validly issued administrative or judicial process ordering divulgence of confidential or otherwise protected information, that party shall promptly inform the other party and thereafter respond in conformity with such subpoena to the extent mandated by State law. This section shall survive the termination or completion of this contract. The parties agree that this section is subject to and superseded by Mississippi Code of 1972, Annotated, Section 25-61-1, et. seq. regarding public access to public records.

C. *Exceptions*: The Contractor and the City shall not be obligated to treat as confidential and proprietary any information disclosed by the other party ("The Disclosing Party") which:

1. is rightfully known to the Contractor prior to negotiations leading to this contract, other than information obtained in confidence under prior engagements;
2. is generally known or easily ascertainable to non-parties of ordinary skill in the business of the Contractor;
3. is released by the Disclosing Party to any other person, firm, or entity (including governmental agencies or bureaus) without restriction;
4. is independently developed by the recipient without any reliance on confidential information;
5. is, or later becomes, part of the public domain or may be lawfully obtained by the City or the Contractor from any non-party; or
6. is disclosed with the Disclosing Party's prior written consent.

D. Contractor agrees to comply with the Administrative Simplifications provisions of the Health Insurance Portability and Accountability Act of 1996, including electronic data interchange, code sets, identifiers, security, and privacy provisions, as may be applicable to the services under this contract.

E. Notwithstanding any provision to the contrary contained herein, it is recognized that the City is a public entity of the State of Mississippi and is subject to the Mississippi Public Records Act. Mississippi Code Annotated §§ 25-61-1 *et seq.* If a public records request is made for any information provided to the City pursuant to the agreement and designated by the Contractor in writing as trade secrets or other proprietary confidential information, the City shall follow the provisions of Mississippi Code Annotated §§ 25-61-9 and 79-23-1 before disclosing such information. The City shall not be liable to the Contractor for disclosure of information required by court order or law.

23. TRANSPARENCY (PSCRB 7-1-16)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent entity contract website for public access at <http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

24. OWNERSHIP OF DOCUMENTS AND WORK PAPERS

The City shall own all documents, files, reports, work papers, and working documentation, electronic or otherwise, created under this contract, or in connection with the project which is the subject of this contract, except for the Contractor's internal administrative and quality assurance files and internal correspondence. The Contractor shall deliver such documents and work papers to the City upon termination or completion of the contract. The foregoing notwithstanding, the Contractor shall be entitled to retain a set of such work papers for its files. Contractor shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections. By entering into

this contract, the Contractor conveys, sells, assigns, and transfers to the City all rights, titles, and interest it may now have or hereafter acquire under the antitrust laws of the United States and the State of Mississippi that relate to the particular goods or services purchased or acquired by the City under this contract.

25. FAILURE TO DELIVER

In the event of failure of the Contractor to deliver goods or services in accordance with the contract terms and conditions, the City, after due written notice, may procure the services from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

26. FORCE MAJEURE

Each party shall be excused from performance for any period and to the extent that it is prevented from performing any obligation or service, in whole or in part, as a result of causes beyond the reasonable control and without the fault or negligence of such party and/or its Subcontractors. Such acts shall include without limitation acts of God, strikes, lockouts, riots, acts of war, epidemics, governmental regulations superimposed after the fact, fire, earthquakes, floods, or other natural disasters (the "Force Majeure Events"). When such a cause arises, the Contractor shall notify the City immediately in writing of the cause of its inability to perform, how it affects its performance, and the anticipated duration of the inability to perform. Delays in delivery or in meeting completion dates due to Force Majeure Events shall automatically extend such dates for a period equal to the duration of the delay caused by such events, unless the City determines it to be in its best interest to terminate the contract.

27. INDEMNIFICATION

To the fullest extent allowed by law, the Contractor shall indemnify, defend, save and hold harmless, protect, and exonerate the City of Hattiesburg and its officers, employees, agents, and representatives from and against all claims, demands, liabilities, suits, actions, damages, losses, and costs of every kind and nature whatsoever, including, without limitation, court costs, investigative fees and expenses, and attorneys' fees, arising out of or caused by the Contractor and/or its partners, principals, agents, employees and/or Subcontractors in the performance of or failure to perform this contract. In the City's sole discretion, the Contractor may be allowed to control the defense of any such claim, suit, etc. In the event the Contractor defends said claim or suit, etc. the Contractor shall use legal counsel acceptable to the City; the Contractor shall be solely responsible for all costs and/or expenses associated with such defense, and the City shall be entitled to participate in said defense. The Contractor shall not settle any claim or suit, etc. without the City's concurrence, which the City shall not unreasonably withhold.

28. NO LIMITATION OF LIABILITY

Nothing in this Contract shall be interpreted as excluding or limiting any tort liability of the Contractor for harm caused by the intentional or reckless conduct of the Contractor or for the damages incurred through the negligent performance of duties by the Contractor or the delivery of products that are defective due to negligent construction.

29. ATTORNEYS' FEES AND EXPENSES

Subject to other terms and conditions of this contract, in the event the Contractor defaults in any obligations under this contract, the Contractor shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorneys' fees) incurred by the City in enforcing this contract or otherwise reasonably related thereto. The Contractor agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to the Contractor. This clause shall not apply to any contracts entered into with another entity, board, or commission.

30. RECOVERY OF MONEY

Whenever, under this contract, any sum of money shall be recoverable from or payable by the Contractor to the City, the same amount may be deducted from any sum due to the Contractor under the contract or under any other contract between the Contractor and the City. The rights of the City are in addition and without prejudice to any other right the City may have to claim the amount of any loss or damage suffered by the City on account of the acts or omissions of the Contractor.

31. SEVERABILITY

If any part of this Contract is declared to be invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision of the contract that can be given effect without the invalid or unenforceable provision and to this end, the provisions hereof are severable. In such event, the parties shall amend the contract as necessary to reflect the original intent of the parties and to bring any invalid or unenforceable provisions in compliance with applicable law.

32. WAIVER

No delay or omission by either party to this contract in exercising any right, power, or remedy hereunder or otherwise afforded by contract, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to this contract shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of this contract will void, waive, or change any other term or condition. No waiver by one party to this contract of a default by the other party will imply, be construed as, or require waiver of future or other defaults. Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of the contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

33. CITY PROPERTY

The Contractor will be responsible for the proper custody and care of any City-owned or City-leased property furnished for the Contractor's use in connection with the performance of this contract. The Contractor will reimburse the City for any loss or damage, normal wear and tear excepted.

34. UNSATISFACTORY WORK

If, at any time during the contract term, the service performed or work done by the Contractor is considered by the City to create a condition that threatens the health, safety, or welfare of the general public, the City, its property, or its employees, or for whom the contracted services are to be rendered, the Contractor shall, on being notified by the City, immediately correct the deficient service or work. In the event the Contractor fails, after notice, to correct the deficient service or work immediately, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Contractor.

35. ANTI-ASSIGNMENT/SUBCONTRACTING

The Contractor acknowledges that it was selected by the City to perform the services required hereunder based, in part, upon the Contractor's skills, expertise, and proper response to the RFP. The Contractor shall not assign, subcontract, or otherwise transfer this contract in whole or in part without the prior written consent of the City, which the City may, in its sole discretion, approve or deny without reason. Any attempted assignment or transfer by the Contractor of its obligations without such consent shall be null and void. No such approval by the City of any subcontract shall be deemed in any way to provide for the incurrence of any obligation of the City in addition to the total contractual price agreed upon in this contract. Subcontracts shall be subject to the terms and conditions of this contract and to any conditions of approval that the City may deem necessary. Subject to the foregoing, this contract shall be binding upon the respective successors and assigns of the parties.

36. THIRD PARTY ACTION NOTIFICATION

The Contractor shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Contractor by any entity that may result in litigation related in any way to this contract.

37. INSURANCE REQUIREMENTS

Within 24 hours following the signing of this contract, respondent shall provide copies of insurance policies including all endorsements and bonding requirements as follows.

A. Commercial General Liability including Errors and Omissions- in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability – Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

37. Contractor agrees to abide by all local, state, and federal Environmental and Historical Laws as established.

38. Contractor agrees to the following federal clauses:

Equal Employment Act.

- a. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 601.3 must include the equal opportunity clause provided under 41 C.F.R. § 601.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p.339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II, C.

Key Definitions.

(1) Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any

Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

(2) Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause:

"During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

b. Davis Bacon Act (NOT REQUIRED).

c. Compliance with the Copeland "Anti-Kickback Act (NOT REQUIRED)

d. Clean Air Act and the Federal Water Pollution Control Act for Contracts over \$150,000.00

Contractor shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA and the Regional Office of the Environmental Protection Agency.

Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and agrees that the City of Hattiesburg will, in turn, report each violation as required to assure

notification to the City of Hattiesburg, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and

agrees that the City of Hattiesburg will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

e. Access to Records

Contractor will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

(1) The contractor agrees to provide the Mississippi Emergency Management Agency, and the City of Hattiesburg, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the contract.

f. Energy Efficiency

Contractor shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

g. Debarment and Suspension in excess of \$25,000.00

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the City of Hattiesburg. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the City of Hattiesburg and or MEMA, the Federal Government may pursue available remedies, including but not limited to suspension and/ or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to nclude a provision requiring such compliance in its lower tier covered transactions."

h. "Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee

of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

SEE ATTACHMENT C- CERTIFICATION REGARDING LOBBYING (FORM SIGNATURE REQUIRED)

i. DHS Seal, Logo, and Flags.

The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA preapproval.

j. Compliance with Federal Law, Regulations, and Executive Orders.

This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

k. No Obligation by Federal Government.

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the City of Hattiesburg, contractor, or any other party pertaining to any matter resulting from the contract."

l. Program Fraud and False or Fraudulent Statements or Related Acts.

The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract.

m. Procurement of Recovered Materials Exceeding \$10,000.00.

Contractor shall comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered material practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA designated items unless the product cannot be acquired:

i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement is available at EPA's Comprehensive Procurement Guidelines web site, <http://www.epa.gov/cpg/>. The list of EPA-designate items is available at <http://www.epa.gov/cpg/products.htm>."

n. **Contract Work Hours and, Safety Standards Act, as Amended for contracts over \$100,000.00**

The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act".

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request .of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

o. Rights to Inventions made under Contract or Agreement (NOT REQUIRED).

p. FEMA Executive Order 12250; Coordination of Civil Rights Statues.

39. NOTICES

All notices required or permitted to be given under this contract must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, _____, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

**ATTACHMENT D
SCOPE OF WORK
PER RFP RESPONSE**

INCERT BID RESPONSE

**CONTRACT JUSTIFICATION
FOR DEBRIS MONITORING**

Detailed description of contractual services to be performed including location, program, purpose, and condition or regulatory agency establishing the requirement for contract personnel services:

Debris Monitoring for Federal Declaration DR-XXXX including Vegetative, Construction and Demolition, Damaged Structures, Removal of Structures, White Goods, Household Hazardous Waste, Electronic Waste, Soil/Mud/Sand, Stumps, Leaners and Hangers, Vehicles and or Vessels.

Justification of request, including assessment of current personnel resources (i.e. utilization of current position vacancies, temporary increase in workload above capability of current workforce, level of expertise required, position classification not available to agency):

Due to the overwhelming amount of Debris the existing City Employees, Equipment, and Mutual Aid Agreements will not be sufficient to perform the required services.

Qualifications that make this contractor the best suited to perform this task:

Contractor has Scored per the Request for Proposal to be more than sufficient to complete the task including A) quality of response, B) ability to perform, C) personnel/equipment/facilities/financial resources, D) record of past performance, and E) price.

Justification of modification request (if applicable):

NA

Consequence of contract being disapproved:

The City will not have the time/equipment/personnel to complete the project within the allotted time frame to qualify for the FEMA Public Assistance Alternative Procedures Pilot Program for Debris Monitoring or complete the task within 180 days.

I have reviewed this contract request and determined that these services are needed and cannot be provided by current staff or through the staffing of a vacant position.

Mayor, City of Hattiesburg

ADDENDUM #2

for

"Debris Monitoring for Tornado date January 21, 2017"

1. On page 18 of the RFP for Debris Monitoring Assistance for Hattiesburg, MS there is a position description for both a Field Debris Monitor and a Roving/Operations Manager. These are listed together, but appear to be two separate positions. A Field Monitor would typically be the employee assigned directly to a collection vehicle monitoring the debris removal and issuing a load ticket while as your description states "A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors" and this would be a management and supervisory position. However, the cost form in Attachment B combines these into a single "Field/Roving/Operations Debris Managers" Position and does not seem to have a space for just a regular Field Monitor. Would the City please consider issuing a revised cost sheet to clarify that these are two separate positions so they can be appropriately priced as such in the responses received.

Answer: This item has been revised. See ATTACHMENT B (Revised)

REQUEST FOR PROPOSAL TO ESTABLISH

Debris Monitoring Assistance for Hattiesburg Mississippi DR-XXXX

To: Debris Monitoring Companies interested in Services for the City of Hattiesburg

From: Lamar Rutland, City Engineer.

Date: January 23, 2017

Subject: Request for Proposal (RFP) for Debris Monitoring Firms to Assist the City of Hattiesburg for DR-TBD.

Contact Name: Lamar Rutland, City Engineer

Contact Phone Number: 601-545-4540

Contact E-mail Address: lrutland@hattiesburg.com

SUMMARY OF THE RFP

Hattiesburg Mississippi, (hereinafter "City") is seeking qualified Firms for Disaster Debris Monitoring Assistance. This Request for Proposal (RFP) is issued following a Disaster that warrants outside assistance where the City Personnel, Equipment, and Mutual Aid Agreements are not sufficient for this event. This RFP is for Debris Monitoring for FEMA "Category A" only; Direct Administrative Cost (DAC) will not be a part of the proposal.

Hattiesburg will utilize the Mississippi Personal Service Contract Review Board (PSCRB) Rules and Regulations as a guideline for this RFP. The PSCRB is established and maintained by the Mississippi State Personnel Board (MSPB) for guidelines for State Agencies. The MSPB is not required to approve this proposal or Contract. However responding firms should make themselves aware of these guidelines for legalities associated with this type agreement.

Information is sought for Debris Monitoring of disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the State), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this project however if the City, State, or FEMA authorizes the ROE it will become part of this project.

Respondent should be aware of Historical Preservation Laws since the City of Hattiesburg has an immense number of houses, commercial buildings, schools, city properties, etc. listed on the Historical Register (SEE ATTACHMENT A).

The City will seek Services city-wide. The City will evaluate the Information and establish a Short List of firms that will be invited for final interviews. Respondent should be aware the City may elect to utilize multiple companies for Monitoring should the event size require such action. Respondent is cautioned to review this RFP as the Federal Office of Management and Budget has introduced new guidelines per the "Super Circular" (2 CFR 200.318 through 326 for non federal entities) for all Federal Agencies participating in Federal Grants including FEMA and the FHWA. As part of the combinations within the Super Circular, A-102 combines 44 C.F.R 13.36 with 2 CFR 200.318 to 326.

It shall be noted that this Request for Proposal is consistent with the *FEMA FP 104-009-2 Public Assistance Program and Policy Guide (January 2016)*. This request, possible contract, and event expenditures are not contingent upon receipt of FEMA funding.

The objective of this RFP is to establish Debris Monitoring Services for **DR XXXX**. Respondent shall appoint a single Point of Contact (SPOC) for the Project that shall be responsible for managing staff, working with the City, the Mississippi Emergency Management Agency (MEMA), FEMA, and the FHWA as requested. The RFP response should be clear on how the Respondent will assist Hattiesburg for Debris Monitoring. **This Project consist of an EF-3 Tornado striking the City of Hattiesburg on January 21, 2017.**

Hattiesburg will receive proposals from firms having specific experience and qualifications in the areas identified in this request. For consideration, information must contain evidence of experience and abilities in the specified area and other disciplines directly related to Debris Monitoring. Other information required by the City may be included elsewhere in the proposal.

Respondent shall provide key resumes of staff to be assigned to projects. References and examples of similar work, and other data that demonstrates the Respondent's experience in the area of Debris Monitoring will also be required.

A City Debris Committee will review and assess all proposals. The committee will only have the proposals to review for selection of Respondent(s). It is therefore important that Respondent emphasizes specific information pertinent to the work. Assessments/Scoring of the proposals will be based as follows:

A. The overall quality of the plan for performing Debris Monitoring Services including Safety Practices and Historic Preservations. The plan must maintain a full understanding of the requested services, integrity, and compliance with public policy. Consideration will be given to the entirety and specific requirements of the request. (Important-20 points)

B. Respondent ability to perform the Debris Monitoring Services as reflected by past performance, general experience, specific experience in providing the services, and the qualifications and abilities of personnel to be assigned to

4. Listing of five similar projects under which services similar in scope, size, or discipline were performed or undertaken, including at least three (3) references for current projects or those awarded during the past six (6) years.
5. List five (5) or more projects to include the names and addresses of the projects, the scope of the project, and the names and telephone numbers of the clients for reference purposes. All information in the request must be completed. Proposals containing incomplete data will be rejected.
6. A Technical Plan giving as much detail as practical explaining how the services will be performed.
7. Plan for subcontractor participation. Note, per FEMA FP-104-009-2 (January 2016) **Procurement Standards page 30; Vendors shall conduct all necessary affirmative steps to ensure the use of minority, women's business enterprises, and labor surplus area firms when possible.** Respondent can utilize the Mississippi Development Authority (or other state systems) to assist in locating such companies by using the established MDA Search utility at <http://minority.mississippi.org/> or <http://www.mnbr.org>. The Small Business Administration and the Department of Commerce's Minority Business Development Agency can also be utilized to solicit these businesses. A Disadvantaged Business Enterprise (DBE) may also be considered.

INSURANCE REQUIREMENTS

Prior to signing of any contract, Respondent agrees to furnish the City with all applicable certificates of insurance. The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the aforementioned insurance. **Proof of Insurability must be provided with the proposal.**

Within 24 hours following the signing of any contracts, Respondent shall provide copies of insurance policies including all endorsements.

A. Commercial General Liability and Errors and Omissions - in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability - Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

D. Professional Liability (Errors & Omissions) – Proposer shall provide coverage for all claims arising out of the services performed with limits not less than \$1,000,000 per claim. The aggregate limit shall either apply separately to any contract or shall be at least twice the required per claim limit.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

Project will require a maximum dollar cap. Should the project exceed the dollar cap, the Contractor may request additional justifiable funding that will require the City Council's approval.

Response

All submitted RFP's become the property of the city and subject to all applicable public records laws include the Mississippi Public Records Act of 1983.

Hattiesburg reserves the right to accept, reject, or negotiate any or all proposals on the basis of the criteria contained within this document. The final decision to execute a contract with any party will be decided by the city.

Response Acceptance

The original and three (3) copies of the response and all attachments (four copies total) along with one electronic copy of the proposal saved as a .pdf file and stored on a CD or jump drive shall be signed and submitted in a sealed envelope or package to: City of Hattiesburg City Clerk, at PO Box 1898 or 200 Forrest Street, Hattiesburg Mississippi 39403-1898 no later than 10:00 a.m. Central Standard Time on **Saturday 28, 2017**.

No electronic or facsimile copies of the RFP will be accepted. Timely submission of the RFP is the responsibility of the Respondent. Offers received after the specified time shall be rejected and returned to the Respondent unopened. **The envelope or package shall be marked with the RFP opening date and time and the number of the request for RFP. The time and date of receipt shall be indicated on the envelope or package by the City Clerk's Office.** Each page of the RFP, all attachments and the CD/Jump Drive shall be identified with the name of the Respondent.

Proprietary Information

The Respondent should clearly mark any and all pages of the proposal considered to be proprietary information which may remain confidential in accordance with current State Code.

When the City receives a request to release information properly designated as confidential or proprietary by a Respondent, the City shall give the owner of this

information a reasonable time to obtain a court order protecting the information as confidential. If the City receives a court order it must then notify the requestor that the information is protected by court order and cannot be furnished.

Debarment

By submitting a response to this RFP, the Respondent including principles and or owners certifies that he/she is not currently debarred from participating in any Federal or State Grant Programs.

Procurement Regulations and Guidelines

Respondent is advised to review the Mississippi Personal Service Contract Review Board Rules and Regulation that will be utilized as a guideline for contracts (<http://www.mspb.ms.gov/personal-service-contract-review-board/pscrb-rules-regulations.aspx>). Appendix D and Appendix F contain multiple items that will be included in any contract. Not all items will be included in the contract but Respondent must accept these guidelines.

The following clauses are required conditions when soliciting information for personal services by the Personal Service Contract Review Board Rules and Regulations per Appendix D & F:

1. Acknowledgment of Amendments

Respondent shall acknowledge receipt of any amendments by copying and signing and being a part of the request. Amendments may include Questions/Answers.

2. Applicable Law

Any Contract as a result of this RFP shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding conflicts of law's provisions, and any litigation with respect thereto shall be brought in the courts of the state. The Respondent shall comply with applicable federal, state, and local laws and regulations.

3. Availability of Funds

It is expressly understood and agreed that the obligation of the City to issue a contract as a result of this RFP is conditioned upon the appropriation of funds by the City of Hattiesburg.

4. Representation Regarding Contingent Fees

Respondent represents that it has not retained a person to solicit or secure a contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Respondent's proposal.

5. Representation Regarding Gratuities

The Respondent represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 7-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

6. Compliance with Laws

The Respondent understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on

race, color, creed, sex, age, national origin, physical handicap, disability, or any other consideration made unlawful by federal, State, or local laws. All such discrimination is unlawful and the Respondent agrees during the term of any agreements that the Respondent will strictly adhere to this policy in its employment practices and provision of services. The Respondent shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

7. E-Verification

Respondent represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act (Senate Bill 2988 from the 2008 Regular Legislative Session) and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Respondent agrees to maintain records of such compliance and, upon request of the State, to provide a copy of each such verification to the State. Respondent further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject Respondent to the following:

- (1) Termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public; or,
- (2) The loss of any license, permit, certification or other document granted to Respondent by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- (3) Both.

In the event of such termination/cancellation, Respondent would also be liable for any additional costs incurred by the State due to contract cancellation of license or permits.

8. Transparency (July 1, 2016)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent agency contract website for public access at

<http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

9. Approval

It is understood that any contract requires approval by the City Council. If a contract is not approved, it is void and no payment shall be made hereunder.

10. Confidential Information

"Confidential Information" shall mean: (a) those materials, documents, data, and other information which the Respondent has designated in writing as proprietary and confidential; and, (b) all data and information which Respondent acquires as a result of its contact with and efforts on behalf of the customer and any other information designated in writing as confidential by the City. Each party to this agreement agrees to the following:

- (1) to protect all confidential information provided by one party to the other;
- (2) to treat all such confidential information as confidential to the extent that confidential treatment is allowed under state and/or federal law; and,
- (3) except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission; and,
- (4) to do so by using those methods and procedures normally used to protect the party's own confidential information.

Any liability resulting from the wrongful disclosure of confidential information on the part of Respondent or its subcontractors shall rest with the Responder.

11. Confidentiality

Notwithstanding any provision to the contrary contained herein, it is recognized that *the City of Hattiesburg* is a public entity in the State of Mississippi and is subject to the Mississippi Public Records Act. Miss. Code Ann. §§ 25-61-1 *et seq.* (1972, as amended). If a public records request is made for any information provided to *the City* pursuant to any agreement, *the City* shall promptly notify the disclosing party of such request and will respond to the request only in accordance with the procedures and limitations set forth in applicable law. The disclosing party shall promptly institute appropriate legal proceedings to protect its information. No party shall be liable to the other party for disclosures of information required by court order or required by law.

12. Attorney's Fees and Expenses

Subject to other terms and conditions of possible future contracts, in the event the Respondent defaults in any obligations under the agreement, the Respondent shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorney's fees) incurred by the City in enforcing this agreement or otherwise reasonably related thereto. Respondent agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to any Respondent.

13. Authority to Contract

Respondent warrants: (a) that it is a validly organized business with valid authority to enter into an agreement; (b) that it is qualified to do business and in good standing in the State of Mississippi; (c) that entry into and performance into an agreement is not restricted or prohibited by any loan, security, financing, contractual, or other agreement of any kind, and (d) notwithstanding any other provision of agreements to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under any agreement.

14. Respondent's Personnel

The City shall, when contracting, have the right of reasonable rejection and approval of staff or Subcontractors.

15. Failure to Deliver

In the event of failure of the Respondent to deliver services in accordance with the terms and conditions of any contract, the City, after due written notice, may procure the services from other sources and hold the Respondent responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

16. Failure to Enforce

Failure by the City at any time to enforce contractual provisions will not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of any contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

17. Independent Respondent Status

Respondent shall, at all times, be regarded as an independent Respondent under future contracts and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Respondent, or any third party as creating the relationship of principal and agent, master and servant, partners, joint ventures, employer and employee, or any similar such relationship between the City and the Respondent.

18. No Limitation of Liability

Nothing in any future Agreement shall be interpreted as excluding or limiting any tort liability of the Respondent for harm caused by the intentional or reckless conduct of the Respondent or for damages incurred through the negligent performance of duties by the Respondent or the delivery of products that are defective due to negligent construction.

19. Notices

All notices required or permitted to be given under any agreement must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Respondent: **Name** Lemmanuel Barnett, Sr.
 Title Owner / Operator
 Respondent Barnett Concrete Works, LLC
 Address P.O. Box 16964 Hattiesburg, MS 39404

For the City: **City of Hattiesburg**
 Purchasing Clerk
 PO Box 1898
 Hattiesburg, MS 39403-1898

20. Ownership of Documents and Work Papers

The City shall own all documents, files, reports, work papers and working documentation, electronic or otherwise, created in connection with any contract services, except for the Respondent's internal administrative and quality assurance files and internal project correspondence. The Respondent shall deliver such documents and work papers to the City upon termination or completion of each project. The Respondent shall be entitled to retain a set of such work papers for its files. Respondent shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections.

21. Record Retention and Access to Records

Provided the Respondent is given reasonable advance written notice and such inspection is made during normal business hours of the Respondent, the City or any duly authorized representatives, shall have unimpeded, prompt access to any of the Respondent's books, documents, papers, and/or records which are maintained or produced as a result of any contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this Agreement shall be retained by the Respondent for three (3) years after final Declaration Closeouts. However, if any audit, litigation or other action arising out of or related in any way to future contracts is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

22. Right to Inspect Facility

The City may at reasonable times inspect the place of business of a Respondent or any Subcontractor which is related to the performance of any Contract awarded by the City.

23. Termination for Convenience

1. Termination. The City may, when the interests of the City so require, terminate any contract in whole or in part, for the convenience of the City. The City Engineer shall give written notice of the termination to the Respondent specifying the part of any contract terminated and when termination becomes effective.

2. Respondent's Obligations. Respondent shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the Respondent will stop work to the extent specified. The Respondent shall also terminate outstanding orders and subcontracts as they

relate to the terminated work. The Respondent shall settle the liabilities and claims arising out of any termination of subcontracts and orders connected with the terminated work. The City Administrator may direct the Respondent to assign the Respondent's right, title, and interest under terminated orders or subcontracts to the City. The Respondent must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

24. Termination for Default

(1) *Default.* If Respondent refuses or fails to perform any of the provisions of any contract with such diligence as will ensure its completion within the time specified in any contract or any extension thereof, or otherwise fails to timely satisfy contract provisions, or commits any other substantial breach of any contract, the procurement officer may notify the Respondent in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the procurement officer, such officer may terminate Respondent's right to proceed with a contract or such part of a contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the procurement officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the procurement officer. Respondent shall continue performance of any contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(2) *Respondent's Duties.* Notwithstanding termination of contracts and subject to any directions from the procurement officer, Respondent shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Respondent in which the City has an interest.

(3) *Compensation.* Payment for completed services delivered and accepted by the City shall be at a contract price. The City may withhold from amounts due Respondent such sums as the procurement officer deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

(4) *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Respondent shall not be in default by reason of any failure in performance of any contract in accordance with its terms (including any failure by Respondent to make progress in the prosecution of the work hereunder which endangers such performance) if Respondent has notified the procurement officer within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Respondent shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time

to permit Respondent to meet contract requirements. Upon request of Respondent, the procurement officer shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Respondent's progress and performance would have met the terms of any contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

(5) *Erroneous Termination for Default.* If, after notice of termination of Respondent's right to proceed under the provisions of this clause, it is determined for any reason that any contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if any contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

(6) *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under any contract.

25. Termination upon Bankruptcy

Any future Contract may be terminated in whole or in part by the City upon written notice to Respondent, if Respondent should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by the Respondent of an assignment for the benefit of its creditors. In the event of such termination, the Respondent shall be entitled to recover just and equitable compensation for satisfactory work performed under any contract, but in no case shall said compensation exceed a total contract price.

26. Third Party Action Notification

Respondent shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Respondent by any entity that may result in litigation related in any way to any agreements.

27. Unsatisfactory Work

If at any time during any contract term, the service performed or work done by the Respondent is considered by the City to create a condition that threatens the health, safety, or welfare of the citizens and/or employees of the City, the Respondent shall, on being notified by the City, immediately correct such deficient service or work. In the event the Respondent fails, after notice, to correct the deficient service or work within 24 hours, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Respondent.

28. Waiver

No delay or omission by either party to any agreement in exercising any right, power, or remedy hereunder or otherwise afforded by contracts, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to any agreement shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of any agreement will void, waive, or change any other term or condition. No waiver by one party to any agreement of a default by the other party will imply, be construed as or require waiver of future or other defaults.

REQUIRED FEDERAL PROCUREMENT CLAUSES

1. Clean Air Act and the Federal Water Pollution Control Act (over \$150,000.00).

Respondent shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA.

2. Retention/Access of Records

Respondent will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

3. Energy Policy and Conservation Act

Respondent shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

4. Debarment and Suspension

Respondent shall not subcontract with any parties listed on the government-wide Excluded Parties List System in the **System for Award Management (SAM)**, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." Respondent shall not subcontract with any parties that are currently debarred and listed with the Mississippi Department of Finance and Administration (DFA) (www.dfa.ms.gov).

5. Byrd Anti-Lobbying Amendment

Respondent certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S. C. 1352. Respondent shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal Award. Respondent shall require all subcontractors to submit these same certifications.

6. **Contract Work Hours and, Safety Standards Act, as Amended (over \$100,000.00).**
7. **Equal Opportunity Clause 41 CFR60-1.4**
8. **Coordination of Grants Related Civil rights statutes, Executive Order 12250.**

EVALUATION PROCEDURE PROCESS:

1. Qualifications of Respondent

Respondent may be required before the award of any contract to show to the complete satisfaction of City that it has the necessary facilities, integrity, ability, compliance with public policy, past performance, technical, and financial resources to provide the service specified therein in a satisfactory manner. The Respondent may be required to provide legal understanding of the Personal Service Contract Review Board Rules and Regulations as well as the Federal Office of Management and Budget Super Circular. Respondent may also be required to give a past history and references in order to satisfy the City in regards to the Respondent's qualifications. The City may make reasonable investigations deemed necessary and proper to determine the ability of the Respondent to perform the work, and the Respondent shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any offer if the evidence submitted by, or investigation of, the Respondent fails to satisfy the City that the Proposer is properly qualified to carry out the obligations of future contracts and to complete the work described therein. Evaluation of the Respondent's qualifications shall include:

1. The ability, capacity, skill, financial, and other necessary resources to perform the work or provide the service required;
2. The ability of Respondent to perform the work or provide the service promptly or within the time specified, without delay or interference;
3. The character, integrity, reputation, judgment, experience, and efficiency of the Respondent; and,
4. The quality of performance of previous contracts or services.
5. Price.

First Step: RFP's will be reviewed to meet compliance with the request. RFP's that do not comply with the specifications will be rejected and no further consideration given.

Second Step: RFQ's that complete the First Step will be reviewed/analyzed for determination if the response adequately meets the needs of the City. The following factors will be utilized:

1. The overall quality of the proposed plan and for performing the required services – the plan should reflect an understanding of the project and its

objectives. Consideration will be given to the completeness of the response to the specific requirements of the solicitation. (Critical - 20 points)

2. Respondent's ability to perform such services as reflected by technical training and education, general experience, specific experience in providing the required services, and the qualification and abilities of personnel proposed to be assigned to perform the services. This includes the ability of the Respondent to provide a work product that is legally defensible. (Very Important - 20 points)
3. The personnel, equipment, facilities, and financial resources to perform the services currently available or demonstrated to be made available at the time of contracting. (Important - 20 points)
4. A record of past performance of similar work. Direct experience in Mississippi is desirable but not required. (Critical - 20points)
5. Price (20 points).

Third Step: The City may contact the most qualified Respondent by telephone to schedule an interview.

SCOPE OF WORK:

DR-XXXX

Hattiesburg Mississippi, is seeking Professional Services proposals for Debris Monitoring Firms. Proposals will be sought for Monitoring of federally declared disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the City, State, and FEMA), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this Service however if the City, State, or FEMA authorizes the ROE it will become part of the Service. The City will seek proposals for said services City-wide. The City will evaluate the Proposals on what is in the best interest of the City and the nature of the event. The City will seek to identify a Respondent to oversee either City Task Force or Debris Removal Contractor(s). It shall be noted that any Contract is for payment of "Only Debris Services that FEMA Determined Eligible" and is consistent with FEMA Public Assistance Program and Policy Guideline (FP-104-009-2, January 2016).

This Scope of Work (SOW) is provided for Respondent to review in detail, the SOW is detailed as to the terms of request and Respondent should acknowledge each line item. Should a Respondent take exception to any line items in the SOW it should be clearly stated within the proposal.

Respondent must provide a technical overview for debris monitoring as to how they complete this project.

The scope of work/services as described below shall be considered minimum standards to meet in submitting their proposal for debris monitoring services. The Monitoring Services Respondent shall be experienced and knowledgeable in handling and executing disaster debris removal and disposal monitoring in compliance and consistent with the policies and publications of MEMA, FEMA, and FHWA. Throughout these specifications, any reference to FEMA shall also imply FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved.

Examples of guidelines and regulations include but are not limited to the following:

FP-104-009-2 January 2016

Emergency Relief Manual (Federal-Aid Highways)- November 2009

The City will designate a Debris Task Force Manager (DTFM) that will act as the Point of Contact (POC) for the event. The DTFM POC may consist of a City Employee, a Professional Contractor, or the City Engineer.

The Respondent will work with the City Debris Task Force Manager by assisting in determining the amounts of debris prior to beginning services.

Respondent will work with all associated teams including MEMA, FEMA, City, County, Debris Removal Contractors, and FHWA as needed for timely project completions, cost effectiveness, and maximum FEMA Category A reimbursements.

Respondent will measure and certify all equipment associated with either the City Task Force or approved removal contractor(s). Respondent will be familiar with standard MDOT Traffic Control Measures and report to the Debris Task Force Manager any safety issues or irregularities.

Respondent will report any delays, issues or concerns by the City or Removal Contractor to the City Task Force Manager.

Respondent will oversee all debris pick up sites as well as temporary and or final sites. Oversight will include GPS coordinates, addresses for pick up, and photographs. Respondent should be able to provide written Load tickets. Should the respondent be positioned to offer e-ticketing a description should be included in the technical overview for this service. Should the Respondent offer e-ticketing the price for any additional devices should be included in the hourly rate for any positions that may be utilizing the devices. Respondent should state hourly pricing for flat rate without e-ticketing devices as well as with e-ticketing devices. Either hand written or electronic tickets must be completed in detail for each line item. Photo documentation must be provided from cradle to grave and correlate with the load tickets.

Respondent will be responsible for providing an electronic document reflecting the cubic yards (or other units of measure) daily amounts to the City Debris Task Force Manager that will be sent to MEMA and FEMA daily.

Respondent will be responsible for working sun-up to sun-down seven days a week unless directed differently by the City Debris Task Force Manager.

As a minimum the Respondent must provide sufficiently trained personnel including a Project Manager, Field Monitors, Roving Managers, Fixed Site Monitors, Data Managers, and Clerical.

The City may use force account resources (including temporary hires), contractors, or a combination of these for monitoring. It is not necessary, or cost-effective, to have Professional Engineers or other certified professionals perform debris monitoring duties. FEMA considers costs unreasonable when associated with the use of staff that is more highly qualified than necessary for the associated work.

Respondent will be responsible for documenting any damage to city or private property caused by the removal contractor(s). Respondent should also document any City infrastructure damage caused by the event.

Respondent must be able to activate within 24 hours of notification to proceed by the City.

Respondent must certify that the company or any of its principles are not bared from performing any State or Federally Funded Projects including FEMA and the FHWA.

SCOPE OF POSITIONS

Provide Project Managers, Roving Managers, Field Monitors, Fixed Site Monitors, Data Managers, and Clerical for Debris Monitoring. Respondent may provide e-ticketing service however it is not mandatory for this request.

Project Manager:

Respondent will provide a Project Manager to oversee debris monitoring activities.

1. Oversight and Supervision of Monitor field activities.
2. Scheduling of Monitoring resources and deployment timing.
3. Communication and coordination with City personnel.
4. Make suggestions to improve the efficiency of collection and removal of debris.
5. Coordinate daily activities and future planning.
6. Remain in contact with DTFM
7. Identify, address, and troubleshoot any questions or problems that could impact work area safety and eligibility.
8. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations. Document truck hauling compartment condition using digital photographs. Prepare a master log book of all hauling equipment used by the City and or the Removal Contractor(s).
9. Compile, reconcile and document daily in an electronic spreadsheet format all eligible debris hauled by the City or Removal Contractor.

Field Debris Monitors and Roving/Operations Manager:

Respondent will perform on-site, street-level work area inspections of debris cleanup and collection. Respondent will provide loading site (field) monitors to inspect and control debris collection utilizing manifest load tickets. A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors.

1. Provide field monitor personnel at designated areas to check and verify information on debris removal.
2. Monitor collection activity of trucks.
3. Issue manifest load tickets at loading site for each load.
4. Check the area for safety considerations such as – downed power lines, the presents of children, traffic control, safety of equipment
5. Ensure Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal.
6. Perform a pre-work inspection of areas to check debris piles to identify covered utility meters, transformers, fire hydrants, mail boxes, etc. to help prevent damage from loading equipment and to look for potential problems.
7. Should damages occur to utility components, driveways, road surfaces, private property, vehicles, etc. document the damage with photos if possible, collect information about owner, circumstances of the damage (who, what, when, where) and report to your Roving Manager.
8. Ensure the work area is clear of debris to the specified level before equipment moves to a new loading area.
9. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations.
10. Properly monitor and record performance and productivity of debris removal

crew.

11. Remain in constant contact with Roving Manager. Roving Manager is to report directly to the DTFM.
12. Ensure that loads are contained properly before leaving the loading area.
13. Ensure only eligible debris is collected for loading and hauling.
14. Ensure only debris from approved public areas is loaded for removal.
15. Perform other duties from time to time as directed by the debris management project manager or DTFM.

Fixed Site Debris Monitors:

Respondent will provide personnel to oversee the inspection of the disposal or unloading sites by providing the monitoring, verification of load capacity, and documentation at designated temporary and or final disposal sites.

1. Provide disposal site monitors and inspectors personnel.
2. Complete record of contract haulers' cubic yardage and other record keeping as may be needed on the provided load ticket.
3. Initial each load ticket before permitting truck to proceed from the check-in area to the tipping area.
4. Remain in contact with debris management/dispatch center or supervisor.
5. Perform other duties as directed by the dispatch/staging operation, debris management project manager, or designated City personnel.
6. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations

Data Managers:

Respondent will provide personnel to oversee electronic documentation including:

1. Excel Spreadsheets as to amounts of debris collected daily.
2. Maintenance and data transfer of e-ticketing system if applicable.
3. Data Retention and back up of Data Retention for a minimum of 5 years at the expense of the Respondent.
4. GPS devices and oversight of coordinating with FEMA on accuracy.
5. GIS (Global Information System) coordination with the City, PDD (Planning and Development District), and or state.

Clerical:

Respondent will provide personnel to assist with data collection daily.

1. Enter daily data into either Excel Spreadsheets or e-ticketing system.
2. Verify Billing.
3. Audit billing vs. invoices.
4. Prepare cover documentation for services and create a filing system either electronic and or paper.

Terms:

Contracts will be established per event as activated.

Deployment

Respondent must be prepared to deploy within 24 hours from the notice to proceed. Respondent staffing levels shall be efficient and coincide with the scale of the debris

removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

ADDENDUM #1

for

"Debris Monitoring for Tornado date January 21, 2017"

The following items will be added to the City of Hattiesburg "Debris Removal for Tornado dated January 21" RFP:

1. Attachment "A" City of Hattiesburg Historical Registry was not included in the original RFP. Although there are an immense number of locations within the Register none of the locations were damaged by the January 21st Tornado. The Attachment is included in this Addendum for review.
2. Questions for the RFP are due by Thursday January 26, 2017 at 12:01 PM. Questions should be submitted to Lamar Rutland City Engineer at lrutland@hattiesburgms.com or fax at 601-545-4642.
3. It was the intent of the City of Hattiesburg to attach the Contract Template and was overlooked while distributing the RFP. The Contract Template is attached to this Addendum for review.
4. Under Summary of the RFQ page 1 first paragraph the Bid will be opened on Saturday January 28th, 2017 at **10:00 AM**, please add and note the time.

Kermas Eaton, City Clerk

**TERMS OF CONTRACT
DEBRIS MONITORING for DR-XXXX
CITY OF HATTIESBURG, MISSISSIPPI**

1. Contracted Services: The Contractor agrees to provide in accordance with the specifications set forth on the preceding page of this contract, titled "Contract between the City of Hattiesburg and NAME OF CONTRACTOR (Contractor)" and any other documents as set forth by the City of Hattiesburg (City), and are hereby incorporated into and made a part of this contract. No oral statements of any person shall modify or otherwise affect the terms, conditions, or specifications stated in this contract. If other attachments or exhibits exist which are to be incorporated as part of this contract, the title of each document shall be listed here, as follows (use additional sheets, if necessary):

Attachment B - Conflict of Interest

Attachment C - Certification Regarding Lobbying

Attachment D - Scope of Work per included RFP Response

2. ABILITY TO CONTRACT

The NAME OF CONTRACTOR (Contractor) warrants that he/she/it is qualified to provide the services, whether personal or professional, as outlined in this contract. The Contractor agrees to conform to existing policies, rules, and regulations of the City. The Contractor agrees to maintain throughout the contract period such licensing and/or certification as may be required by law for the provision of services specified herein, if applicable. The Contractor warrants that it is a validly organized business with valid authority to enter into this contract; that it is qualified to do business and in good standing in the State of Mississippi; that entry into and performance under this contract is not restricted or prohibited by any loan, security, financing, contractual or other contract of any kind; and, notwithstanding any other provision of this contract to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under this contract.

3. APPLICABLE LAW

The contract shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding its conflicts of laws, provisions, and any litigation with respect thereto shall be brought in the courts of the City of Hattiesburg or Forrest County Mississippi. Contractor shall comply with applicable federal, state, and local laws and regulations.

4. COMPLIANCE WITH LAWS

Contractor understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on race, color, creed, sex, age, national origin, physical handicap, disability, genetic information, or any other consideration made unlawful by federal, state, or local laws. All such discrimination is unlawful and Contractor agrees during the term of the agreement that Contractor will strictly adhere to this policy in its employment practices and provision of services. Contractor shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

5. PROCUREMENT REGULATIONS AND APPROVAL

The contract is designed by the applicable provisions of the *Mississippi Personal Service Contract Review Board ("PSCRB") Rules and Regulations*, a copy of which is available at 210 East Capitol, Suite 800, Jackson, Mississippi 39201 for inspection, or downloadable at <http://www.mspsb.ms.gov>. It is understood that the PSCRB does not and will not approve this contract, the guidelines are best determined by the City of Hattiesburg that closely parallels the Federal Guidelines required for this contract.

6. REPRESENTATION REGARDING CONTINGENT FEES

Contractor represents that it has not retained person to solicit or secure a City contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Contractor's bid proposal

7. REPRESENTATION REGARDING GRATUITIES

The bidder, offeror, respondent, or contractor represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 6-204 (Gratuities) of the *Mississippi Personal Service Contract Review Board Rules and Regulations*.

8. DEBARMENT AND SUSPENSION: Contractor certifies to the best of its knowledge and belief, that it:

- a. is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transaction by any federal department or agency or any political subdivision or entity of the State of Mississippi;
- b. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction;
- c. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for a violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- d. is not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of these offenses enumerated in paragraphs two (b) and (c) of this certification; and,
- e. has not, within a three year period preceding this proposal, had one or more public transactions (federal, state, or local) terminated for cause or default.

9. INTEGRATED AGREEMENT/MERGER

This contract, including all contract documents, represents the entire and integrated contractual agreement between the parties hereto and supersedes all prior negotiations, representations, or agreements, irrespective of whether they were written or oral. This contract may be altered, amended, or modified only by a written document executed by the City and the Contractor. The Contractor acknowledges that it has thoroughly read all contract documents and attachments and has had the opportunity to receive competent advice and counsel necessary for it to form a full and complete understanding of all rights and obligations herein. Accordingly, this contract shall not be construed or interpreted in favor or against the City or the Contractor on the basis of draftsmanship or preparation.

10. MODIFICATIONS AND CHANGES IN SCOPE OF WORK

All modifications to the contract must be made in writing and signed by both parties to the contract. The City may order changes in the work consisting of additions, deletions, or other revisions within the general scope of the contract. No claims may be made by the Contractor that the scope of the contract or of the Contractor's services has been changed, requiring changes to the amount of compensation to the Contractor or other adjustments to the contract, unless such changes or adjustments have been made by written amendment to the contract signed by the City and the Contractor. If the Contractor believes that any particular work is not within the scope of the contract, is a material change, or will otherwise require

more compensation to the Contractor, the contractor must immediately notify the City in writing of this belief. If the City believes that the particular work is within the scope of the contract as written, the Contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

11. AVAILABILITY OF FUNDS

It is expressly understood and agreed that the obligation of the City to proceed under this agreement is conditioned upon the appropriation of funds by the City of Hattiesburg. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, of the City to appropriate funds or the discontinuance or material alteration of the program under which funds were provided or if funds are not otherwise available to the City, the City shall have the right upon ten (10) working days written notice to Contractor, to terminate this agreement without damage, penalty, cost or expenses to the City of any kind whatsoever. The effective date of termination shall be as specified in the notice of termination.

12. PAYMENT

Contractor agrees to accept all payments in United States currency via the City's check issuing system. The City agrees to make payment in accordance with Mississippi law on "Timely Payments for Purchases by Public Bodies," which generally provides for payment of undisputed amounts by the City within forty-five (45) days of receipt of invoice. Mississippi Code Annotated § 31-7-305.

13. E-VERIFICATION

If applicable, Contractor represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act of 2008, and will register and participate in the status verification system for all newly hired employees. Mississippi Code Annotated §§ 71-11-1 *et seq.* The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program.

Contractor agrees to maintain records of such compliance. Upon request of the City and after approval of the Social Security Administration or Department of Homeland Security when required, Contractor agrees to provide a copy of each such verification. Contractor further represents and warrants that any person assigned to perform services hereafter meets the employment eligibility requirements of all immigration laws. The breach of this agreement may subject Contractor to the following:

- A. termination of this contract for services and ineligibility for any state or public contract in Mississippi for up to three (3) years with notice of such cancellation/termination being made public;
- B. the loss of any license, permit, certification or other document granted to Contractor by an local, state, or federal governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- C. both. In the event of such cancellation/termination, Contractor would also be liable for any additional costs incurred by the City due to Contract cancellation or loss of license or permit to do business in the City or State.

14. STOP WORK ORDER

This section applies to contracts following the guidelines of the PSCRB as follows:

A. Order to Stop Work: The City, may, by written order to Contractor at any time, and without notice to any surety, require Contractor to stop all or any part of the work called for by this contract. This order shall be for a specified period not exceeding 90 days after the order is delivered to Contractor, unless the parties agree to any further period. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the occurrence of costs allocable to the work covered by the order during the period of work stoppage. Before the stop work order expires, or within any further period to which the parties shall have agreed, the City shall either:

1. cancel the stop work order; or,
2. terminate the work covered by such order as provided in the Termination for Default clause or the Termination for Convenience clause of this contract.

B. Cancellation or Expiration of the Order: If a stop work order issued under this clause is canceled at any time during the period specified in the order, or if the period of the order or any extension thereof expires, Contractor shall have the right to resume work. An appropriate adjustment shall be made in the delivery schedule or Contractor price, or both, and the contract shall be modified in writing accordingly, if:

1. the stop work order results in an increase in the time required for, or in Contractor's cost properly allocable to, the performance of any part of this contract; and,
2. Contractor asserts a claim for such an adjustment within 30 days after the end of the period of work stoppage; provided that, if the City decides that the facts justify such action, any such claim asserted may be received and acted upon at any time prior to final payment under this contract.

C. Termination of Stopped Work: If a stop work order is not canceled and the work covered by such order is terminated for default or convenience, the reasonable costs resulting from the stop work order shall be allowed by adjustment or otherwise.

D. Adjustments of Price: Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment clause of this contract, if applicable.

15. TERMINATION FOR CAUSE and CONVENIENCE

A. Termination. The City Engineer or designee may, when the interests of the City so require, terminate this contract in whole or in part, for the convenience of the City. The City Engineer or designee shall give written notice of the termination to Contractor specifying the part of the contract terminated and when termination becomes effective.

B. Contractor's Obligations. Contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination Contractor will stop work to the extent specified. Contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. Contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The COO or designee may direct Contractor to assign Contractor's right, title, an interest under terminated orders or subcontracts to the City. Contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

16. TERMINATION FOR DEFAULT

A. *Default.* If Contractor refuses or fails to perform any of the provisions of this contract with such diligence as will ensure its completion within the time specified in this contract or any extension thereof, or otherwise fails to timely satisfy the contract provisions, or commits any other substantial breach of this contract, the City Engineer or designee may notify Contractor in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the City Engineer or designee, such officer may terminate Contractor's right to proceed with the contract or such part of the contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the City Engineer or designee may procure similar supplies or services in a manner and upon terms deemed appropriate by the City Engineer or designee. Contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

B. *Contractor's Duties.* Notwithstanding termination of the contract and subject to any directions from the City, Contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Contractor in which the City has an interest.

C. *Compensation.* Payment for completed services delivered and accepted by the City shall be at the contract price. The City may withhold from amounts due Contractor such sums as the City Engineer or designee deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

D. *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if Contractor has notified the City Engineer or designee within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City, State and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Contractor shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Contractor to meet the contract requirements. Upon request of Contractor, the City Engineer or designee shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Contractor's progress and performance would have met the terms of the contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

E. *Erroneous Termination for Default.* If, after notice of termination of Contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (d) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

F. *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

17. TERMINATION UPON BANKRUPTCY

This contract may be terminated in whole or in part by the City upon written notice to Contractor, if Contractor should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by Contractor of an assignment for the benefit of its creditors. In the event of such termination, Contractor shall be entitled to recover just and equitable compensation for satisfactory work performed under this contract, but in no case shall said compensation exceed the total contract price.

18. RECORDS AND AUDIT

The Contractor shall maintain such financial records and other records as may be prescribed by the City or by applicable Federal and State laws, rules, and regulations. These may be kept according to the Contractor's usual method of recordkeeping, but must be sufficiently detailed to permit an accurate accounting of contract funds and program activities. The contract and the procurement of goods and services shall be governed by the applicable Mississippi statutes and the applicable provisions of the Mississippi Personal Service Contract Review Board Regulations. The Contractor shall retain these records for a period of three (3) years after final payment, or until they are audited by the City, whichever event occurs first. These records shall be made available during the term of the contract and the subsequent three-year period for examination, transcription, and audit by the Mississippi State Auditor's Office, its designees, or other authorized bodies. Where audits are required to be submitted to the City before funding can be released, the audits must be submitted within the required timeframe and must be acceptable; if a Contractor fails to submit an audit in a timely manner, or if the audit is unacceptable, the City reserves the right to cancel or suspend the contract at the City's discretion.

19. RECORDS RETENTION

The Contractor agrees to submit to the City quarterly program activity reports thirty (30) days subsequent to the closing of each quarter. The Contractor agrees to submit to the City quarterly fiscal reports thirty (30) days subsequent to the closing of each quarter, or other applicable period as made a part of this contract and agreed to by both parties. The Contractor agrees to permit reasonable program review and evaluation by the City; to provide access to any pertinent records; arrange meetings with appropriate personnel; permit inspection of the premises; and to cooperate in any other reasonable requests for fiscal and/or program information. Provided the Contractor is given reasonable advance written notice and such inspection is made during normal business hours of the Contractor, the City or any duly authorized representatives shall have unimpeded, immediate access to any of the Contractor's books, documents, papers, and/or records which are maintained or produced as a result of this contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this contract shall be retained by the Contractor for three (3) years after final payment and or final closeout for this declaration is made under this contract and all pending matters are closed. However, if any audit, litigation, or other action arising out of or related in any way to this contract is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

20. INDEPENDENT CONTRACTOR STATUS

This section applies only to contracts for which the Contractor shall serve solely on an Independent Contractor basis, as follows:

The Contractor, at all times, shall be regarded as an Independent Contractor and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Contractor, or any third party as creating the relationship of principal and agent, partners, joint ventures, or any similar such relationship between the City and the Contractor. Neither the method of computation of fees or other charges, nor any other provision contained herein, nor any acts of the City or the Contractor hereunder,

creates or shall be deemed to create a relationship other than the independent relationship of the City and the Contractor. The Contractor's personnel shall not be deemed in any way, directly or indirectly, expressly or by implications, to be employees of the City. Neither the Contractor nor its employees, under any circumstances, shall be considered servants, agents, or employees of the City; and the City shall be at no time legally responsible for any negligence or other wrongdoing by the Contractor, its servants, or agents. The City shall not withhold from the contract payments to the Contractor any Federal or State unemployment taxes, Federal or State income taxes, Social Security tax, or any other amounts for benefits to the Contractor. Further, the City shall not provide to the Contractor any insurance coverage or other benefits, including Workers' Compensation, normally provided by the City for its employees. Furthermore, none of the work performed under this contract shall be subcontracted without prior approval of the City. The City, throughout the life of the contract, shall have the right of reasonable rejection and approval of staff of the Contractor or its Subcontractors assigned to the work by the Contractor. If the City reasonably rejects staff of the Contractor or its Subcontractors, the Contractor must provide replacement staff or Subcontractors satisfactory to the City in a timely manner and at no additional cost to the City. The day-to-day supervision and control of the Contractor's employees and Subcontractors are the sole responsibility of the Contractor.

21. TRADE SECRETS, COMMERCIAL AND FINANCIAL INFORMATION

It is expressly understood that Mississippi law requires that the provisions of this contract which contain the commodities purchased or the personal or professional services provided, the price to be paid, and the term of the contract shall not be deemed to be a trade secret or confidential commercial or financial information and shall be available for examination, copying, or reproduction.

22. CONFIDENTIAL INFORMATION

A. *Definition*: "Confidential Information" shall mean:

1. those materials, documents, data, and other information which the Contractor has designated in writing as proprietary and confidential; and
2. all data and information which the Contractor acquires as a result of its contact with and efforts on behalf of the City, and any other information designated in writing as confidential by the City.

Each party to this contract agrees to protect all Confidential Information provided by one party to the other, to treat all such Confidential Information as confidential to the extent that confidential treatment is allowed under State and/or Federal law, and, except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission, and to do so by using those methods and procedures normally used to protect the party's own confidential information. Any liability resulting from the wrongful disclosure of confidential information on the part of the Contractor or its Subcontractors shall rest with the Contractor. Disclosure of any confidential information by the Contractor or its Subcontractors without the express written approval of the City shall result in the immediate termination of this contract.

B. *Disclosure*: In the event that either party to this contract receives notice that a third party requests divulgence of confidential or otherwise protected information and/or has served upon it a subpoena or other validly issued administrative or judicial process ordering divulgence of confidential or otherwise protected information, that party shall promptly inform the other party and thereafter respond in conformity with such subpoena to the extent mandated by State law. This section shall survive the termination or completion of this contract. The parties agree that this section is subject to and superseded by Mississippi Code of 1972, Annotated, Section 25-61-1, et. seq. regarding public access to public records.

C. *Exceptions*: The Contractor and the City shall not be obligated to treat as confidential and proprietary any information disclosed by the other party ("The Disclosing Party") which:

1. is rightfully known to the Contractor prior to negotiations leading to this contract, other than information obtained in confidence under prior engagements;
2. is generally known or easily ascertainable to non-parties of ordinary skill in the business of the Contractor;
3. is released by the Disclosing Party to any other person, firm, or entity (including governmental agencies or bureaus) without restriction;
4. is independently developed by the recipient without any reliance on confidential information;
5. is, or later becomes, part of the public domain or may be lawfully obtained by the City or the Contractor from any non-party; or
6. is disclosed with the Disclosing Party's prior written consent.

D. Contractor agrees to comply with the Administrative Simplifications provisions of the Health Insurance Portability and Accountability Act of 1996, including electronic data interchange, code sets, identifiers, security, and privacy provisions, as may be applicable to the services under this contract.

E. Notwithstanding any provision to the contrary contained herein, it is recognized that the City is a public entity of the State of Mississippi and is subject to the Mississippi Public Records Act. Mississippi Code Annotated §§ 25-61-1 *et seq.* If a public records request is made for any information provided to the City pursuant to the agreement and designated by the Contractor in writing as trade secrets or other proprietary confidential information, the City shall follow the provisions of Mississippi Code Annotated §§ 25-61-9 and 79-23-1 before disclosing such information. The City shall not be liable to the Contractor for disclosure of information required by court order or law.

23. TRANSPARENCY (PSCRB 7-1-16)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent entity contract website for public access at <http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

24. OWNERSHIP OF DOCUMENTS AND WORK PAPERS

The City shall own all documents, files, reports, work papers, and working documentation, electronic or otherwise, created under this contract, or in connection with the project which is the subject of this contract, except for the Contractor's internal administrative and quality assurance files and internal correspondence. The Contractor shall deliver such documents and work papers to the City upon termination or completion of the contract. The foregoing notwithstanding, the Contractor shall be entitled to retain a set of such work papers for its files. Contractor shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections. By entering into

this contract, the Contractor conveys, sells, assigns, and transfers to the City all rights, titles, and interest it may now have or hereafter acquire under the antitrust laws of the United States and the State of Mississippi that relate to the particular goods or services purchased or acquired by the City under this contract.

25. FAILURE TO DELIVER

In the event of failure of the Contractor to deliver goods or services in accordance with the contract terms and conditions, the City, after due written notice, may procure the services from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

26. FORCE MAJEURE

Each party shall be excused from performance for any period and to the extent that it is prevented from performing any obligation or service, in whole or in part, as a result of causes beyond the reasonable control and without the fault or negligence of such party and/or its Subcontractors. Such acts shall include without limitation acts of God, strikes, lockouts, riots, acts of war, epidemics, governmental regulations superimposed after the fact, fire, earthquakes, floods, or other natural disasters (the "Force Majeure Events"). When such a cause arises, the Contractor shall notify the City immediately in writing of the cause of its inability to perform, how it affects its performance, and the anticipated duration of the inability to perform. Delays in delivery or in meeting completion dates due to Force Majeure Events shall automatically extend such dates for a period equal to the duration of the delay caused by such events, unless the City determines it to be in its best interest to terminate the contract.

27. INDEMNIFICATION

To the fullest extent allowed by law, the Contractor shall indemnify, defend, save and hold harmless, protect, and exonerate the City of Hattiesburg and its officers, employees, agents, and representatives from and against all claims, demands, liabilities, suits, actions, damages, losses, and costs of every kind and nature whatsoever, including, without limitation, court costs, investigative fees and expenses, and attorneys' fees, arising out of or caused by the Contractor and/or its partners, principals, agents, employees and/or Subcontractors in the performance of or failure to perform this contract. In the City's sole discretion, the Contractor may be allowed to control the defense of any such claim, suit, etc. In the event the Contractor defends said claim or suit, etc. the Contractor shall use legal counsel acceptable to the City; the Contractor shall be solely responsible for all costs and/or expenses associated with such defense, and the City shall be entitled to participate in said defense. The Contractor shall not settle any claim or suit, etc. without the City's concurrence, which the City shall not unreasonably withhold.

28. NO LIMITATION OF LIABILITY

Nothing in this Contract shall be interpreted as excluding or limiting any tort liability of the Contractor for harm caused by the intentional or reckless conduct of the Contractor or for the damages incurred through the negligent performance of duties by the Contractor or the delivery of products that are defective due to negligent construction.

29. ATTORNEYS' FEES AND EXPENSES

Subject to other terms and conditions of this contract, in the event the Contractor defaults in any obligations under this contract, the Contractor shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorneys' fees) incurred by the City in enforcing this contract or otherwise reasonably related thereto. The Contractor agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to the Contractor. This clause shall not apply to any contracts entered into with another entity, board, or commission.

30. RECOVERY OF MONEY

Whenever, under this contract, any sum of money shall be recoverable from or payable by the Contractor to the City, the same amount may be deducted from any sum due to the Contractor under the contract or under any other contract between the Contractor and the City. The rights of the City are in addition and without prejudice to any other right the City may have to claim the amount of any loss or damage suffered by the City on account of the acts or omissions of the Contractor.

31. SEVERABILITY

If any part of this Contract is declared to be invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision of the contract that can be given effect without the invalid or unenforceable provision and to this end, the provisions hereof are severable. In such event, the parties shall amend the contract as necessary to reflect the original intent of the parties and to bring any invalid or unenforceable provisions in compliance with applicable law.

32. WAIVER

No delay or omission by either party to this contract in exercising any right, power, or remedy hereunder or otherwise afforded by contract, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to this contract shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of this contract will void, waive, or change any other term or condition. No waiver by one party to this contract of a default by the other party will imply, be construed as, or require waiver of future or other defaults. Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of the contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

33. CITY PROPERTY

The Contractor will be responsible for the proper custody and care of any City-owned or City-leased property furnished for the Contractor's use in connection with the performance of this contract. The Contractor will reimburse the City for any loss or damage, normal wear and tear excepted.

34. UNSATISFACTORY WORK

If, at any time during the contract term, the service performed or work done by the Contractor is considered by the City to create a condition that threatens the health, safety, or welfare of the general public, the City, its property, or its employees, or for whom the contracted services are to be rendered, the Contractor shall, on being notified by the City, immediately correct the deficient service or work. In the event the Contractor fails, after notice, to correct the deficient service or work immediately, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Contractor.

35. ANTI-ASSIGNMENT/SUBCONTRACTING

The Contractor acknowledges that it was selected by the City to perform the services required hereunder based, in part, upon the Contractor's skills, expertise, and proper response to the RFP. The Contractor shall not assign, subcontract, or otherwise transfer this contract in whole or in part without the prior written consent of the City, which the City may, in its sole discretion, approve or deny without reason. Any attempted assignment or transfer by the Contractor of its obligations without such consent shall be null and void. No such approval by the City of any subcontract shall be deemed in any way to provide for the incurrence of any obligation of the City in addition to the total contractual price agreed upon in this contract. Subcontracts shall be subject to the terms and conditions of this contract and to any conditions of approval that the City may deem necessary. Subject to the foregoing, this contract shall be binding upon the respective successors and assigns of the parties.

36. THIRD PARTY ACTION NOTIFICATION

The Contractor shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Contractor by any entity that may result in litigation related in any way to this contract.

37. INSURANCE REQUIREMENTS

Within 24 hours following the signing of this contract, respondent shall provide copies of insurance policies including all endorsements and bonding requirements as follows.

A. Commercial General Liability including Errors and Omissions- in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability – Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

37. Contractor agrees to abide by all local, state, and federal Environmental and Historical Laws as established.

38. Contractor agrees to the following federal clauses:

Equal Employment Act.

- a. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 601.3 must include the equal opportunity clause provided under 41 C.F.R. § 601.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p.339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II, C. Key Definitions.

(1) Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any

Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

(2) Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause:

"During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

b. Davis Bacon Act (NOT REQUIRED).

c. Compliance with the Copeland "Anti-Kickback Act (NOT REQUIRED)

d. Clean Air Act and the Federal Water Pollution Control Act for Contracts over \$150,000.00

Contractor shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA and the Regional Office of the Environmental Protection Agency.

Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and agrees that the City of Hattiesburg will, in turn, report each violation as required to assure notification to the City of Hattiesburg, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and agrees that the City of Hattiesburg will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

e. Access to Records

Contractor will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

(1) The contractor agrees to provide the Mississippi Emergency Management Agency, and the City of Hattiesburg, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the contract.

f. Energy Efficiency

Contractor shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

g. Debarment and Suspension in excess of \$25,000.00

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt.180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the City of Hattiesburg. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the City of Hattiesburg and or MEMA, the Federal Government may pursue available remedies, including but not limited to suspension and/ or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions."

h. "Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee

of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

SEE ATTACHMENT C- CERTIFICATION REGARDING LOBBYING (FORM SIGNATURE REQUIRED)

i. DHS Seal, Logo, and Flags.

The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA preapproval.

j. Compliance with Federal Law, Regulations, and Executive Orders.

This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

k. No Obligation by Federal Government.

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the City of Hattiesburg, contractor, or any other party pertaining to any matter resulting from the contract."

l. Program Fraud and False or Fraudulent Statements or Related Acts.

The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract.

m. Procurement of Recovered Materials Exceeding \$10,000.00.

Contractor shall comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered material practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA designated items unless the product cannot be acquired:

i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement is available at EPA's Comprehensive Procurement Guidelines web site, <http://www.epa.gov/cpg/>. The list of EPA-designate items is available at <http://www.epa.gov/cpg/products.htm>."

n. **Contract Work Hours and, Safety Standards Act, as Amended for contracts over \$100,000.00**

The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act".

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request .of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

o. Rights to Inventions made under Contract or Agreement (NOT REQUIRED).

p. FEMA Executive Order 12250; Coordination of Civil Rights Statues.

ADDENDUM #2

for

"Debris Monitoring for Tornado date January 21, 2017"

1. On page 18 of the RFP for Debris Monitoring Assistance for Hattiesburg, MS there is a position description for both a Field Debris Monitor and a Roving/Operations Manager. These are listed together, but appear to be two separate positions. A Field Monitor would typically be the employee assigned directly to a collection vehicle monitoring the debris removal and issuing a load ticket while as your description states "A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors" and this would be a management and supervisory position. However, the cost form in Attachment B combines these into a single "Field/Roving/Operations Debris Managers" Position and does not seem to have a space for just a regular Field Monitor. Would the City please consider issuing a revised cost sheet to clarify that these are two separate positions so they can be appropriately priced as such in the responses received.

Answer: This item has been revised. See ATTACHMENT B (Revised)

ATTACHMENT B (REVISED)**COST SHEET (may be modified to meet Respondents requirements)**

CITY OF HATTIESBURG DR-XXXX	Estimated Requirements	Per Hour Rate
Project Manager <i>Lemmanuel Barnett Sr.</i>		<i>\$20.00</i>
Field Monitor <i>Rexal Heidelberg</i>		<i>\$20.00</i>
Roving/Operations Debris Managers		<i>\$20.00</i>
Fixed Site Monitors		<i>\$20.00</i>
Data Manager <i>Cedric Edmonson</i>		<i>\$20.00</i>
Clerical <i>Marquis Edmonson</i>		<i>\$20.00</i>
TOTAL ESTIMATED COST		<i>\$120.00</i>

 City Clerk

ATTACHMENT B: CONFLICTS OF INTEREST

ATTACHMENT C

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, Barnett Concrete Works, LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

**ATTACHMENT D
SCOPE OF WORK
PER RFP RESPONSE**

INCERT BID RESPONSE

**CONTRACT JUSTIFICATION
FOR DEBRIS MONITORING**

Detailed description of contractual services to be performed including location, program, purpose, and condition or regulatory agency establishing the requirement for contract personnel services:

Debris Monitoring for Federal Declaration DR-XXXX including Vegetative, Construction and Demolition, Damaged Structures, Removal of Structures, White Goods, Household Hazardous Waste, Electronic Waste, Soil/Mud/Sand, Stumps, Leaners and Hangers, Vehicles and or Vessels.

Justification of request, including assessment of current personnel resources (i.e. utilization of current position vacancies, temporary increase in workload above capability of current workforce, level of expertise required, position classification not available to agency):

Due to the overwhelming amount of Debris the existing City Employees, Equipment, and Mutual Aid Agreements will not be sufficient to perform the required services.

Qualifications that make this contractor the best suited to perform this task:

Contractor has Scored per the Request for Proposal to be more than sufficient to complete the task including A) quality of response, B) ability to perform, C) personnel/equipment/facilities/financial resources, D) record of past performance, and E) price.

Justification of modification request (if applicable):

NA

Consequence of contract being disapproved:

The City will not have the time/equipment/personnel to complete the project within the allotted time frame to qualify for the FEMA Public Assistance Alternative Procedures Pilot Program for Debris Monitoring or complete the task within 180 days.

I have reviewed this contract request and determined that these services are needed and cannot be provided by current staff or through the staffing of a vacant position.

Mayor, City of Hattiesburg

L.21.3 FACTOR III – KEY PERSONNEL RESUMES

SUB FACTOR I – CONTRACTOR MANAGEMENT POSITIONS

POSITION

SENIOR PROJECT MANAGER

NAME

REXAL HEIDELBERG

YEARS OF EXPERIENCE

Rex is and has been the President and Chief Executive Officer of Truckla Services, Inc. since it was organized and for the past eighteen years. During this period, Truckla Services, Inc. has grown from a small Trucking Firm with a primary contract of hauling limestone to a more diversified Small Business that developed through the competitive bidding process. The bidding process resulted in the award of several contracts for Federal Executive Agencies containing numerous Task Orders. Some of the contracts awarded to Truckla Services, Inc. required labor performed under the Davis-Bacon Act and some were contracts awarded under the Service Contract Act. These contracts enabled Truckla to expand its resume and develop knowledge and experience in the areas of: Building Construction; Heavy Construction; Clearing, Grubbing and Snagging; Culverts and Drainage Structures; Furnishing and Spreading Materials; Seeding, Sodding, Load & Soil Stabilization; Vegetation Management; Erosion Control and Sheet Piling. During the performance of contracts under The Service Contract Act, Truckla developed knowledge and experience in the areas of: Logistic Support Services for the Engineering Research and Development Center of the U. S. Army Corps of Engineers which included the operation of a Shipping and Receiving Center, the operation of a Warehouse for the storage of property and the shipment of property to Defense Reutilization and Marketing Office, Distributing equipment to hand receipt holders, vehicle inventory management, dispatching of administrative vehicles, entering trip tickets into financial systems to charge for vehicle usage and the reconciliation of billing reports. Ensuring that maintenance services and repairs are conducted in accordance with directives and policies of the General Service Administration Control and U. S. Army Corp of Engineers policies. Material Handling and Coordination Support Services, Material Handling and Transportation Support Services, Transportation Support Services, and Dispatcher / Driver

PROJECT:

(Name, location or address, and Project number, if any)

Debris Removal and Disposal for the City Of Hattiesburg From the EF-3 Tornado Occurring on January 21, 2017; Monitoring Service; Hattiesburg, MS

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor Within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such Bid, and gives such bond or bonds as may be specified in the bidding or contract Documents, with a surety admitted In the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

NAVIGATORS INSURANCE COMPANY

LIMITED POWER OF ATTORNEY

Men by These Presents, that NAVIGATORS INSURANCE COMPANY, a New York Corporation (the "Company"), with offices at 400 Atlantic Street, 8th Floor, CT 06901, has made, constituted and appointed and by these presents, does make, constitute and appoint:

Israel D. Williams; William J. Nemec; Jeremy Crawford; Tanya Fukushima; William Gerber; Michael E. Konzen; and Andrea J. Haight of Minneapolis, MN

as its lawful Attorney-in-fact, to have full power to act without other or others, to make, execute, seal and deliver on its behalf, as surety or co-surety, bonds and undertakings given for any and all purposes, also to execute and deliver on its behalf as aforesaid renewals, extensions, agreements, waivers, consents or stipulations, to such bonds or undertakings provided, however, that no single bond or undertaking so made, executed and delivered shall obligate the Company for any portion of the sum thereof in excess of the sum of \$20,000,000.00 Dollars.

and undertakings for said purposes, when duly executed by said attorney(s)-in-fact, shall be binding upon the Company as fully and to the same extent as if the President of the Company under its Corporate Seal attested by its Corporate Secretary.

Power of Attorney is granted and is signed by facsimile under and by authority of the following Resolutions adopted by the Board of Directors of the Company on the 26th September 2009:

RESOLVED, that the President, any Senior Vice President or the Vice President & Treasurer (each, a "Senior Officer"), or any person designated by any one of them, is hereby authorized to execute Powers of Attorney qualifying the attorney named in the given Power of Attorney to execute on behalf of the Company, bonds, undertakings and all contracts of suretyship, and that any Secretary or any Assistant Secretary of the Company be, and that each or any of them hereby is, authorized to attest the execution of any such Power of Attorney, and to attach thereto the Seal of the Company; and further,

RESOLVED, that the signature of such officers and the Seal of the Company may be affixed to any such Power of Attorney or to any certificate relating thereto by facsimile, and any such Power of Attorney or certificate bearing such facsimile signatures or facsimile Seal shall be thereafter valid and binding upon the Company with respect to any bond, undertaking or contract of suretyship to which it is attached

executed under this Power of Attorney may be executed under facsimile signature and seal pursuant to the following resolution adopted by the Board of Directors of the Company on the 28th day of September 2009:

RESOLVED, that the signature of a Senior Officer of this Company, or any person designated by any one of them, and the Seal of this Company may be affixed or printed on any and all bonds, undertakings, recognizances or other written obligations thereof, on any revocation of any Power of Attorney, or on any certificate relating thereto, by facsimile, and any Power of Attorney, any revocation of any Power of Attorney, bonds, undertakings, recognizances or other written obligation, bearing such facsimile signature or facsimile seal shall be valid and binding on the Company.

IN WITNESS WHEREOF, the Company has caused these presents to be duly signed and its corporate seal to be hereunto affixed and attested this 11th day of November,

STATEMENT OF QUALIFICATIONS

January 27, 2017

January 27, 2017

City of Hattiesburg, MS
Attn: City Clerk
200 Forrest Street
Hattiesburg, MS 39403-1898

Reference: RFP Debris Monitoring Assistance for Hattiesburg, MS

United States Environmental Services, L.L.C., (USES) is pleased to offer the enclosed Proposal to the City of Hattiesburg.

Statement of Qualifications	Appendix A
Operational Approach	Appendix B
Customer References	Appendix C
Certificate of Insurance	Appendix D
Certificate of Good Standing	Appendix E
Certificate of Responsibility	Appendix F
Rate Schedule	Attachment 1
RFP & Addendum Acknowledgement	Attachment 2

All USES office numbers are physically monitored twenty-four hours each day, and we can provide emergency response services as the need arises on a twenty-four hour, seven day a week, fifty-two week a year basis. USES can mobilize personnel, equipment, and supplies within one hour and can actively be on scene within four hours of notification.

USES personnel are trained to meet OSHA Hazwoper Standards (29 CFR 1910.120), including annual eight-hour refresher training, and are involved in safety training in compliance with Hazwoper and other relevant OSHA Regulations. USES has a current Health and Safety Program, along with a Drug and Alcohol Program that is in compliance with the provisions of the Federal Drug-Free Workplace Act and the U.S.

Department of Transportation, Research and Special Programs Act (49 CFR 40 and 199). These are overseen by USES Corporate Health and Safety Director, Paul Calais.

All USES on-site personnel are also in compliance with a medical surveillance program (29 CFR 1910.120), including pre-placement physicals, annual physicals, special physicals, and a termination physical. USES has a current safety plan, and all employees have completed Respiratory Protection Training (29 CFR 1910.134). We ensure that the minimum qualifications and requirements of the City of Hattiesburg contract have been met by each USES employee.

USES is registered with SAM.gov 036760262 (1PDT3).

Thank you for allowing USES to bid on this. If you have any questions or require additional information, please feel free to contact us at your convenience. Our 24-hour corporate telephone number is 888-279-9930, and our 24-hour Jackson, Mississippi telephone number is 601-372-3232.

Sincerely,

A handwritten signature in blue ink that reads "Bradley S. Barnes". The signature is written in a cursive, flowing style.

Brad Barnes
Commercial Services Manager

Corporate Statement of Qualifications

Through three specialized service lines—Industrial, Response & Remediation and Specialty Services—USES provides a range of capabilities and depth of expertise that no competitor in our market can match, all from a single, trusted provider. From routine industrial cleaning services to emergency response for disasters of any scale, USES is the company you can count on for efficiency, professionalism and a total commitment to safety.

1. COMPANY INTRODUCTION AND HISTORY

Introduction to United States Environmental Services, L.L.C.

United States Environmental Services, L.L.C. (USES) was founded in 1996 by a group of experienced professionals respected for their integrity, common-sense approach to project management and ethical working standards. USES provides a wide array of professional, practical and cost effective solutions to the cleaning requirements of environmental, industrial, and regulatory customers. USES' core business has emerged from long-term relationships developed over the years, hand-in-hand and side-by-side with our customers. We are proud of our reputation as a quality, service-based organization.

Safety

USES' strongest commitment is to the health and safety of our employees, our customers and the general public. To ensure this commitment, USES maintains a safe working environment through numerous Safety Awareness programs, strict Drug and Alcohol abuse policies, applicable OSHA Personnel Training, First Aid and CPR. We continually evaluate our programs and monitor our projects to find ways to improve our performance. All employees participate in numerous training programs, both in the classroom and on the job.

Personnel

USES' most valued asset is our highly trained, experienced and dedicated personnel who are available to customer's 24-hours every day. USES' staff includes, Certified Hazardous Materials Managers, Certified Safety Professionals, in addition to our compliment of 40-hour OSHA Hazwoper trained and experienced environmental specialists. USES has an average of 450 employees over the Gulf Coast area.

Regulatory Compliance

USES' knowledge of environmental regulations and our relationship with local, state and federal agencies benefit our clients by providing a clear understanding of the laws that are designed to protect public safety, property and our environment. USES' regulatory knowledge has earned respect from these agencies during performance of environmental, industrial and marine cleaning services.

Company Philosophy

United States Environmental Services, L.L.C. is a full-service environmental company that has grown into one of the most-recognized environmental companies in the Gulf South area. Our mission is basic: to provide excellent services with uncompromising dedication to our customers, our employees and, very importantly, our families. USES' continued success is the result of our commitment to SAFETY followed by customer service and professional work ethics.

Key Corporate Employees:

Chip Day

Director of Emergency Response

Mr. Day has thirty-two years of experience in all aspects of hazardous materials management including On Scene Incident Command. His project experience includes emergency response to derailments, tank cars and specializing in hazardous materials. Mr. Day has served as Response Manager and Project Manager to train derailments, hazardous materials incidents, risk management issues and policing of railroad property. Responsibilities have also included site safety, response action plans, site remediation and investigation into the cause of each incident.

Kent Harrington

Manager – Emergency and Oil Spill Response & Major Account

Mr. Harrington has over eighteen years of experience in the emergency response industry and has supervised all phases of oil and hazardous material spill incidents. Mr. Harrington is responsible for the efficient organization of oil spill response for USES and is experienced in all aspects of hazardous materials management and oil spill cleanup, including On-Scene Incident Command. Mr. Harrington's strength lies in emergency response, where he has handled both the operational and the managerial sides of hazardous material releases in both the private and public sectors. Mr. Harrington holds Bachelor's degree of Science and Diplomacy and Military Studies.

Herman Newell

Regional Manager Emergency Operations

Mr. Newell has thirty years of experience in hazardous materials management, oil spill cleanup, and site remediation. He has responded to hundreds of incidents, including train derailments, transportation accidents, and fixed-facility releases. Before joining USES, Mr. Newell served as a railroad-commissioned Risk Manager and Special Agent/Manager for Hazardous Materials, and he has been involved in the on-scene incident management during numerous train derailments and the ensuing cleanup efforts.

Mark Allen

Emergency Response Manager

Mr. Allen has over fifteen years of experience in hazardous material management and oil spill cleanup, including on-scene incident management and hazardous site remediation. His experience includes projects involving time-critical response, planned remedial actions and response involving environmental disasters. Mr. Allen has extensive experience in hazardous materials transportation incidents throughout the United States. He also has experience preparing and implementing site health and safety plans, work plans, and transportation and disposal plans for all types of materials.

Matthew Lewis

Senior Vice President of Emergency Response

Mr. Lewis has over 29 years of industry experience with an emphasis on emergency response, operations management, training and development, remediation, and leadership in industrial and environmental arena. Over the years, Mr. Lewis has held many titles including Vice President, Director, Division President and Plant Manager. He is currently the Senior Vice President of Emergency Response with USES.

Paul Calais

Corporate ES&H Manager

Mr. Calais has 22 years of experience in the environmental, emergency response, and industrial industry. Over the years he has served as a corporate safety manager, safety manager, and instructor. His certifications and training include: (SHEP), (CSHO), General Industry and Construction, MSHA Certified Instructor, OSHA 500 Construction Outreach Trainer / 10hr. and 30hr., OSHA 501 General Industry Outreach Trainer / 10hr. and 30hr., First Aid and CPR/AED Instructor (American Red Cross), De-Leading of Industrial Structures –32hr & 8hr. (Instructor for K2 Industrial), Supervisor/Contractor Asbestos Abatement (40 hr.), EPA Model (State License) Supervisor/Contractor Lead Training Course (32 hours), EPA Model (State License), and the Hazwoper 40hr. Instructor Certification. He now oversees corporate safety programs, OSHA documentation, Training programs, record keeping, audits, JSA's, accident investigations, Hazardous Waste Program, Used Oil Program, SPCC/SWPPP Plan, and State and Federal Permits.

Omar Hussein

Regional ES&H Manager Emergency Response

Omar has been with the company for 5 years with over 10 years of industry experience, He currently oversees the health and safety issues for the Houston, TX Division of an industrial services and hazardous material emergency response company with up to 80 employees, and 3 offices within the division. He currently writes and communicates project requirements and safety plans to Operations Department, performs safety audits, incident investigations, hazard analyses, air monitoring, LOTO, permitting, confined-space rescues, and oversee NORM operations. He has skillfully directed a multitude of HAZMAT Emergency Response projects including: train derailments, pipeline ruptures, chemical releases, and tanker rollovers. He has also successfully managed several refinery/plant turnarounds on time and without incident. He was responsible for developing and implementing employee safety incentive and positive intervention programs. Overall he oversees all reporting, operation, and training requirements to continually improve organizational performance.

New Orleans, Louisiana

Meraux, Louisiana 70075
(504) 279-9934
Fax: (504) 279-7756

Jose Delgado, Division Manager
Gary Greiner, Louisiana Oil Spill Manager
TJ Tassara, Utility Operations

Jose Delgado

Division Manager

Mr. Delgado has over eleven years of experience in environmental industry; with a strong emphasis on oil spill response. He has responded to hundreds of oil spill and HAZMAT incidents, including rail, highway, marine and fixed facilities. Mr. Delgado has thorough knowledge of all aspects of operations, including health and safety, project management, project scheduling, client relations, and estimating.

Gary Greiner

Louisiana Oil Spill Manager

Mr. Greiner has thirty-two years of experience in the operation and supervision of all phases of oil and hazardous material spill incidents. Project experience includes oil spill cleanup supervision throughout the Gulf South areas including inland waters, major rivers, and the Gulf of Mexico. In addition, Mr. Greiner has in-plant project experience involving oil and hazardous waste cleanup from storage tanks, excavation and disposal of contaminated water and soil and unknown drum sampling, characterization, segregation, over-packing, disposal and transportation.

TJ Tassara

Utility Operations

Mr. Tassara has eleven years of experience in the utilities division of the environmental services industry. His duties as Utilities Division Manager have included managing the cleanup, disposal and remediation of thousands of transmission and distribution electrical equipment following the aftermath of Hurricanes Katrina and Gustav. Mr. Tassara is also experienced in managing remediation, salvage and disposal of PCB contaminated electrical equipment and soil along with managing disposal and recycling of PCB and non-PCB mineral oil from electrical equipment. Mr. Tassara also has ten years of experience volunteering for the local fire department, in which he received his Firefighter I and Firefighter II certifications.

Division Manager, Roy Bourgeois
Operations Manager, Phillip Schmidt
Project Manager, Mike Hawkins
Project Manager, Eric West

Roy Bourgeois *Division Manager*

Mr. Bourgeois has over 10 years of emergency response and management experience. He has assisted in over 1000 emergency responses and has experience ranging from response operations, project planning, contamination, mitigation, and emergency response. Mr. Bourgeois is a prior field supervisor and project manager. Over the years, he has furthered his career by working with industry leaders and is currently the division manager of the USES Geismar division which services south Louisiana.

Phillip Schmidt *Operations Manager*

Mr. Schmidt has 25 years' experience in all aspects of industrial and environmental services including emergency response to both hazardous and non-hazardous materials. Mr. Schmidt specializes in industrial cleaning, water cutting, and chemical cleaning. He is also a skilled heavy equipment operator.

Mike Hawkins *Project Manager*

Mr. Hawkins has over 22 years' experience in all aspects of industrial and environmental services including 2 years' experience in emergency response. He specializes in tank cleaning, bid walks, estimating projects, executing projects, and billing. He is skilled with the man lift, backhoe, and skid steer. Mr. Hawkins has been with USES for 8 ½ years as a project manager. Over the years he worked for several companies in the oil recovery industry.

Eric West *Project Manager*

Mr. West started his journey with USES 6 years ago as a chemical cleaning supervisor. He has since become a strong project manager and one of the strongest industrial cleaning leads in the industry. Mr. West has 6 years' experience in emergency response experience and over 20 years of industrial chemical experience. Over the years, Mr. West has served as a reliance engineer, area engineer, consultant, supervisor, and project manager. He has been involved in large tank roll overs and specializes in on executing the process on the chemical side including degassing, descaling, and degreasing for our customers.

Jose Delgado, Division Manager
Gary Greiner, Louisiana Oil Spill Manager
David Blackwell, Reg ES&H Manager

Jose Delgado *Operations Manager*

Mr. Delgado has over eleven years of experience in environmental industry; with a strong emphasis on oil spill response. He has responded to hundreds of oil spill and HAZMAT incidents, including rail, highway, marine and fixed facilities. Mr. Delgado has thorough knowledge of all aspects of operations, including health and safety, project management, project scheduling, client relations, and estimating.

Gary Greiner *Louisiana Oil Spill Manager*

Mr. Greiner has thirty-two years of experience in the operation and supervision of all phases of oil and hazardous material spill incidents. Project experience includes oil spill cleanup supervision throughout the Gulf South areas including inland waters, major rivers, and the Gulf of Mexico. In addition, Mr. Greiner has in-plant project experience involving oil and hazardous waste cleanup from storage tanks, excavation and disposal of contaminated water and soil and unknown drum sampling, characterization, segregation, over-packing, disposal and transportation.

David Blackwell *Regional ES&H Manager Industrial Services*

Mr. Blackwell has 10 years of experience in the emergency response and the environmental field. He specializes in coatings, fireproofing, tank cleaning, industrial cleaning, and oil jetting. He currently covers the safety for all of Louisiana including: ER's, plant work, and tank cleaning. He also oversees and performs all employee safety training, safety and maintenance on industrial cleaning, and performs all site safety operations. He is an NCCER instructor for all USES personnel. Mr. Blackwell has served 12 years in the US Army, attended several leadership schools, and received several awards for honors including: the Good Conduct Medal, the Army Achievement Medal, and the Army Commendation Medal. His education includes: OSHA 500, CSST school, OSHA 510, NCCER Painting, NCCER pipeline corrosion control, SSPC applicator train- the trainer, supervision of lead abatement projects, NCCER Assessment, Veriforce evaluator, UHP S-200 Husky & A-3000 Jet Lance Maintenance & Safety 24 hour Course, Respiratory Protection- Texas A & M, SSPC C-3 Supervisor/Competent person Training for De-leading of Industrial Structures, Lpf-2CI FOR Commercial and Lead Removal, and HS-1 Emergency Program Manager training.

Kale D. Icenhower, Division Manager
Kenneth "Pojo" Hays, Operations Manager

Kale Icenhower *Division Manager*

Mr. Icenhower has over 7 years of emergency response experience. Prior to joining USES, Mr. Icenhower opened a new location for B&P Enterprises and was employed as their Regional Manager. Kale Icenhower has a formidable knowledge in train derailments, large and small-scale spills and chemical transfers.

Kenneth "Pojo" Hays *Operations Manager*

Mr. Hayes has seventeen years of experience in all aspects of environmental services including oil spill and hazardous materials emergency response. His project experience includes supervising responses to white powder (anthrax suspect) incidents, cleanup of clandestine drug lab sites, mercury response and decontamination, train derailments, tanker rollovers, environmental remediation projects, pipeline ruptures and tank cleanings.

Fax: (228) 396-3836

Justin Plant, Division Manager

Justin Plant

Division Manager

Mr. Plant has fifteen years of experience in hazardous material management and oil spill cleanup, including on- scene incident management. He has responded to numerous incidents including fixed facilities, highway, railroad and marine spills. Mr. Plant's project experience also includes environmental remediation from underground storage tanks to the excavation and disposal of contaminated soils.

Memphis, Tennessee

3450 McCracken Road
Hernando, Mississippi 38632
(866) 281-3232
Fax: (662) 280-3011

Chris West, Project Manager

Chris West *Project Manager*

Mr. West has over 10 years of emergency response and industrial experience. Prior to joining USES, Mr. West spent over 8 years in the emergency response field, specializing in meth lab cleanup operations. Mr. West was a prior technician, foreman, and supervisor. He currently holds a project manager role with USES. Over the years, he has worked in various industries and supervised many crews on a few of the countries natural disasters such as: the BP Oil Spill, a flood in Coffeerville, KS, and a several thousand barrel oil spill in the San Francisco Bay. He currently is a project manager for the Memphis division and is assisting the office in any and all emergency response work.

Little Rock, Arkansas

261 Newman Dr.
North Little Rock, Arkansas 72117

Tisha Druckenmiller, Division Manager
Michael Harris, Operations Manager

Tisha Druckenmiller *Division Manager*

Mrs. Druckenmiller has over thirty years of management and environmental experience. Mrs. Druckenmiller joined USES over five years ago and has been working with the EPA on the environmental sector for over 15 years. She has 20 years' experience in industrial construction working in waste water treatment plants and over 10 years of experience as plant manager in a massive food production plant.

Michal Harris *Operations Manager*

Mr. Harris has ten years of experience in environmental remediation and hazardous materials management. He has managed numerous in-plant services including vacuum services, tank cleaning, hazardous waste containerization and disposal and confined space entry and rescue operations. Mr. Harris also serves as a heavy equipment operator.

Mobile, Alabama

Chip Day, Director of Emergency Response
Kent Harrington, Director of Oil Spill Response
Terrance Below, Operations

Chip Day

Director of Emergency Response

Mr. Day has thirty-four years of experience in all aspects of hazardous materials management including On Scene Incident Command. His project experience includes emergency response to derailments, tank cars and specializing in hazardous materials. Mr. Day has served as Response Manager and Project Manager to train derailments, hazardous materials incidents, risk management issues and policing of railroad property. Responsibilities have also included site safety, response action plans, site remediation and investigation into the cause of each incident.

Kent Harrington

Manager Emergency Oil Spill Response and Major Accounts

Mr. Harrington has over eighteen years of experience in the emergency response industry and has supervised all phases of oil and hazardous material spill incidents. Mr. Harrington is responsible for the efficient organization of oil spill response for USES and is experienced in all aspects of hazardous materials management and oil spill cleanup, including On-Scene Incident Command. Mr. Harrington's strength lies in emergency response, where he has handled both the operational and the managerial sides of hazardous material releases in both the private and public sectors. Mr. Harrington holds Bachelor's degree of Science and Diplomacy and Military Studies.

Terrance Below

Operations Manager

Mr. Below has over 10 years of industrial cleaning experience. His expertise lies in technical operations and Project Management. Over the years Mr. Below has worn several different hats. He has been an Operations Coordinator, Safety Coordinator, Field Supervisor, Project Manager. He now serves as an Area Operations Manager with USES.

Beaumont, Texas

2115 Stillwater Dr
Beaumont, Texas 77705

Fax: (281) 867-4101

Dale Dugas, Area Manager
Kent Harrington, Director of Oil Spill Response

Dale Dugas *Area Manager*

Mr. Dugas has over 25 years of Operations and Sales Leadership experience at the Local, Regional and National level in the Environmental Services industry managing multiple locations providing services like, Used Oil, Parts Cleaning Technologies, 10 day Transfer, Containerized Waste Profiling, Recycling and Disposal, Waste Water treatment, Absorbent programs, Compliance programs, and all around waste management for large and small customers. Highly skilled in P&L management and National Sales Management. Experience in managing multiple locations and leading Teams to record levels of production.

Pensacola, Florida

4040 Ashland Ave
Pensacola, FL 32534

Robert Dorman, Area Manager

Robert Dorman *Area Manager*

Mr. Dorman Mr. Dorman has over 26 years' experience in the industry, his specialty includes, but is not limited to, in air pre-heater cleaning, boiler cleaning, and hydroblasting technology. Mr. Dorman brings cost-reduction initiatives while maintaining productivity and quality and provides guidance to team members and monitors performance on a regular basis. He has several years of experience in building relationships with customers and introducing additional service lines to their sites. He assists in modifying and manufacturing new technologies to peak performance with maximum safe operations and develops and enforces best practices to ensure optimal operational efficiency.

5. RESPONSE TIMES

6. PROJECT LISTINGS

Disaster Response

USES and our subcontractor, Center for Toxicology and Environmental Health (CTEH), assisted the Mississippi Department of Environmental Quality with initial assessment and remedial activities following Hurricane Katrina. Activities included air monitoring in and around chemical plants located on the Mississippi Gulf Coast; debris removal along the coastline and response to hazardous material incidents.

USES supplied the Coast Guard with six, oil spill SCAT teams for months following the storm. These teams served as first responders, available twenty-four hours a day, to oil spills that were discovered during the post-storm surveys. USES crews were also responsible for debris recovery operations in both Plaquemines and St. Bernard Parishes.

USES performed search and rescue activities in the New Orleans immediately following the storm. Once those activities were completed, the crews began the recovery of household hazardous waste and white goods (refrigerators, washers, dryers, ovens, etc.) in St. Tammany Parish. USES crews were also responsible for debris recovery operations along the shoreline.

The Mississippi Emergency Management Agency contracted with USES to decontaminate reefer trailers that had been used as temporary morgues following Hurricane Katrina. The USES crew recovered and containerized all debris and body fluids found inside the trailers. The interior spaces of the trailers were thoroughly cleaned to remove all bio-films and then fumigated using a broad-spectrum disinfectant and an organic odor control agent.

After the Hancock County Hospital was flooded during Hurricane Katrina, USES was contracted by the U. S. Environmental Protection Agency to decontaminate the research laboratory containing numerous biologically dangerous specimens. The specimens were recovered, disinfected and containerized for disposal. USES then fumigated the laboratory with a broad-spectrum disinfectant to eliminate any residual biological microorganisms.

USES was contracted to recover and containerize all biological specimens at the Public Health Department Building in New Orleans following Hurricane Katrina. This included the handling of many dangerous specimens including drug-resistant strains of cholera, drug resistant strains of tuberculosis, HIV, drug-resistant *Staphylococcus aureus* bacteria and other biologically harmful microorganisms. USES also packaged all chemical waste materials including poisons, radioactives, potential explosives, flammables and other hazardous chemicals.

Oil Spill Emergency Response

Vessel Collision

New Orleans, Louisiana

A tugboat, pushing a barge laden with 420,000 gallons of heavy fuel oil, and a 600-foot tanker collided, tearing the barge almost completely in half and releasing 282,000 gallons of oil into the Mississippi River. USES was as part of an established Unified Command with five other Oil Spill Response Organizations (OSROs). Response personnel worked to remediate 100 miles of the river and shoreline impacted by the spill. USES provided 35 work boats, 20,000 feet of boom, and over 400 response personnel. Response efforts were ongoing for 2 months.

Oil Spill

Coffeyville, Kansas

Torrential rainfall and associated flooding in the Kansas/Oklahoma region resulted in a crude oil spill at an oil refinery. The flood caused the oil spill to spread over a large geographic region impacting parts of southeastern Kansas and northern Oklahoma. USES was contracted to respond to the crude oil release and conduct recovery and cleanup operations to impacted areas outside the physical limits of the refinery. USES deployed over 3,500 feet of containment boom on various waterways in Kansas and Oklahoma. At the height of the response, USES had over 175 response personnel on the ground in the impacted region.

Oil Spill and Facility Decontamination

Houston, Texas

An entire fuel terminal facility was overcome by a tidal surge following Hurricane Ike. A red dye tank ruptured, and a diesel tank shifted and leaked. USES worked in conjunction with the USCG to provide spill response in the Houston Ship Channel. In addition, response crews decontaminated the entire facility providing vacuum truck services, recovering free standing product in the facility, and pressure washing exterior tank shells and transfer lines throughout the terminal. USES worked with the facility's environmental group through the remediation portion of project excavating soil to meet TCEQ spill cleanup guidelines.

Pipeline Release

Carroll County, Kentucky

USES was hired by a spill management company to respond to an 80,000-gallon crude oil release from a pipeline into the Kentucky River. USES's Operations Supervisor was placed in charge of all water operations, and he coordinated closely with the incident command to achieve the most-efficient use of available resources. With a crew of 40, operating 11 response boats and 6 skimmers, USES initiated recovery operations for the oil originally contained near the source. When the river level rose, USES effectively adjusted existing booms and deployed additional boom along 15 miles of the Kentucky River to its confluence with the Ohio River, quickly reestablishing containment and resuming skimming operations. Response operations resulted in removal of all oil-contaminated debris and soil from the river and its banks and recovery of over 61,000 gallons of oil.

Vessel Release

Philadelphia, Pennsylvania

USES responded to a 265,000 gallon crude oil release from the tanker ATHOS I, into the Delaware River, as part of a force of over 1200 responders. Mobilizing a crew of 150 USES and subcontractor personnel, the USES Project Manager coordinated with the incident command to effectively integrate into the response organization. USES's crew rapidly completed its initial assignment, gross decontamination of several miles of shoreline on Little Tinicum Island. USES personnel operating fast response boats have provided operational and logistic support to multiple response zones, transporting personnel, equipment and materials, and serving as platforms for cleaning operations. In spite of the cold and snow, USES crews have remained effective through the winter months, continuing to recover oil and remove oiled rock and debris from affected shorelines, and pressure washing the docks and ships at the Philadelphia Naval Yard.

Vessel Release

Port Sulphur, Louisiana

USES personnel were the first oil spill clean-up contractor's on-scene after the M/T "Westchester" holed single-skin tanks causing a release of 13,000 barrels of crude oil immediately upriver of the Delta National Wildlife Refuge. USES's Project Manager and crew were responsible for initial night operations deploying diversion boom in the Mississippi River, which diverted and contained over 5,000 barrels. USES crews were also responsible for successful booming strategies in environmentally sensitive areas down-river of the release saving immeasurable aquatic and wildlife species. USES's office located in Venice, Louisiana, was chosen for the staging area and support of the Clean Gulf Associates' Wildlife Rehabilitation Unit. In total, 11 Oil Spill Removal Organizations, over 400 contractors, 40 workboats, 8 barges, 20 vacuum trucks and 42 skimming resources were utilized during the cleanup of this release. USES and USES's Project Manager received Certificates of Merit from the United States Coast Guard for outstanding contributions during this multi-agency response.

Platform Release

Venice, Louisiana

During the first storm that hit the Gulf of Mexico in 2005, USES responded to an oil spill from a production platform near Venice, LA. USES crews worked closely with Clean Gulf, responding with their fast-response skimmers. Crude oil from the release impacted several islands during the brown pelican's hatching season. Approximately seven hundred birds were affected, ranging from babies to middle-aged adults. USES crews supported the Clean Gulf personnel in the retrieval of the birds, bringing them to the ready-made hospital in our Venice warehouse. Clean Gulf personnel and additional support agencies created several triage areas to clean and rehabilitate these pelicans. USES crews built outdoor pens for further rehabilitation, before the birds were returned to the island, and USES continued to feed and monitor the birds for a month after their return. In one of the biggest undertakings in Plaquemines Parish, over one hundred and seventy-five birds survived and were returned to their habitat.

Ship Collision - M/V "BRIGHTFIELD"

New Orleans, Louisiana

On December 14, 1996, the M/V "Bright Field" lost control and struck the Riverwalk complex in New Orleans. The complex experienced major exterior and interior structural damage. USES personnel and equipment was deployed to the site. Containment boom was deployed to minimize migration of any oil or chemicals from the Riverwalk complex. After the ship was separated and relocated down river, USES continued cleanup and salvage operations.

Pipeline Rupture Collins, Mississippi

USES personnel were called to respond to a major release of crude oil in the Leaf River. Over 400 spill personnel including professional spill management teams, US Coast Guard Strike Team, MDEQ and the EPA were involved in the two-month cleanup operations. USES provided spill management expertise, operational supervisors, foremen and environmental technicians during the 8,000-barrel recovery period.

Sunken Towboat in Industrial Lake McKellar Lake, Tennessee

USES responded to a sunken towboat located in an industrial lake joining the Mississippi River. The vessel released over 4,000 gallons of fuel and slop-oil into the lake. To further compound the situation, the release took place at a dock where several other vessels were moored. USES deployed containment boom and utilized three vacuum trucks and various skimmers to recover the oil. USES worked closely with the U.S. Coast Guard and salvage divers to minimize the impact to the environment and other vessels at the dock. Over ten other vessels and barges had to be cleaned before the incident was finished.

Oil Spill May Flower, Arkansas

USES was hired by the Customer to respond to a 25,000 gallon mineral oil release from a ruptured transformer due to a passing tornado, which ran throughout several ditches and into the woods. With a crew of up to 80 we used pads and vacuum trucks to suck up the oil. USES initiated recovery operations for the mineral oil originally contained near the source, and USES coordinated closely with the incident command to achieve the most-efficient use of available resources. Response Operations resulted in removal of all mineral oil-contaminated debris and soil from the ditches and woods. After removing the using vacuum trucks to suck up the oil we spent time excavating the contaminated area. The job lasted about 20 weeks and we have continued to monitor the substation once a week for the company. We will continue monitoring for the company on a weekly basis. There were no safety issues, reports or violations during this project and at one point we had over 80 people onsite.

Hazardous Materials Emergency Response

HIGHWAY EMERGENCY RESPONSES

Gasoline/Petroleum Fuel Tank Truck (MC-306) Responses

Southeastern United States

USES has responded to many tank truck rollovers involving gasoline, diesel, jet fuels, aviation gasoline and lubricating oils. USES routinely provides emergency trans-loading services including grounding/bonding to eliminate static electricity, spilled product recovery, air monitoring and site remediation at these types of incidents. USES maintains dedicated "ready to roll" response trailers equipped with specialized equipment including the following: pneumatic drills for drilling the aluminum-constructed tanks of an MC-306, air monitoring for the detection of flammable/toxic atmospheres, plugging/patching kits, trans-loading equipment specific for flammable liquids, grounding/bonding equipment, structural firefighter turn-out gear and other tools for safely and efficiently handling petroleum tank truck rollovers.

Gasoline Tank Truck Rollover

Silver Creek, Mississippi

USES responded to an overturned tank truck (MC-306) carrying 7,500 gallons of gasoline. Initial response operations involved USES crews making entries to stop gasoline leaks around domes and from ruptured piping. Air monitoring for a flammable and/or toxic atmosphere was performed in the immediate area of the tanker and for the surrounding area. USES crews used pneumatic drills to drill holes in the tanker in order to get "stingers" into the tank to trans-load the gasoline. After the tanker was removed from the site, USES crews employed the use of 30% strength hydrogen peroxide and ferrous sulfate (Fenton's Reagent) to chemically oxidize the gasoline contaminated soil. Soil samples were collected the day following the hydrogen peroxide treatment and were within parameters meeting state closure standards.

Chemical Tank Truck (MC-307, 312) Responses

Southeastern United States

USES has responded to numerous tank truck incidents involving aggressive chemicals including poisons, chlorinated hydrocarbons, corrosives, peroxides, oxidizers, flammable liquids, etc. USES is capable of providing a "full-service" response including emergency trans-loading, spilled product recovery, vapor suppression, air monitoring and site remediation. USES maintains dedicated "ready to roll" response trailers equipped with a large inventory of specialized equipment requisite to handling almost any chemical that is a liquid and non-pressurized. This includes chemical pumps constructed of various materials (i. e. 316 Stainless Steel, Polypropylene, Kynar) that are designed to handle aggressive chemicals. A variety of chemical transfer hose is also maintained that is constructed of chemical-resistant materials such as Teflon®, High Density Polyethylene and Ultra High Molecular Weight Polyethylene. Other specialized equipment and materials routinely stocked include various chemical resistant gaskets, chemical protective suits including Level A and other PPE, intrinsically safe communications, chemical-specific air monitoring devices and many other specialty items.

Intermodal/Iso Container Response

Pearl River County, Mississippi

USES responded to a leaking iso-container loaded with sulfur monochloride. A Level-A entry was performed to identify the source of the leak and to determine mitigation techniques. Numerous attempts to stop the leak failed so a stainless steel vacuum truck was used to pull vapor from the iso-container through the vacuum truck and into a caustic scrubber. With the pressure lowered, the safety relief valve (source of leak) was

removed, repairs were made and then replaced. The loaded iso-container was then returned to the originating facility.

Many iso-containers are equipped with metric fittings that are not compatible with standard fittings that we are accustomed to in the United States. USES maintains conversion kits designed to convert from metric-sized fittings to standard-sized fittings.

Cargo Van Emergency Responses

Southeastern United States

USES has successfully performed many responses to what is considered one of the most technically challenging hazardous materials scenarios...cargo vans containing mixed-loads of hazardous materials. USES routinely works cargo van incidents and has a documented resume' of successful responses. These include many different scenarios including incidents with one leaking 5-gallon bucket up to major responses involving rollovers of mixed hazardous material loads. USES offices are equipped with HazCat kits that allow us the capability to field-test unknown chemicals or mixtures in order to identify and/or characterize by hazard class.

RAIL EMERGENCY RESPONSES

Railroad Responses

Southeastern United States

USES routinely responds to railroad-related incidents including tank car repairs, diesel fuel releases from locomotives, major derailments involving hazardous materials and other scenarios. USES response personnel receive annual training in Railroad Worker Safety in addition to OSHA-required Hazwoper courses. Each USES office maintains dedicated "ready to roll" response trailers equipped with a large inventory of equipment required for trans-loading aggressive chemicals from tank car to tank car or tank car to tank truck. Other specialized equipment owned by USES includes chlorine "C" kits, midland capping kits, H₂S capping kits, trident quick frame magnetic patches, a wide variety of rupture discs, specialized tank car repair tools/parts, and other specialty items.

Train Derailment

Schulenburg, Texas

USES responded to a multicar derailment involving various chemicals. Upon arrival, response personnel performed damage assessment to the cars. The USES high pressure transfer team transferred a chlorine car utilizing high pressure transfer equipment. Several other cars containing herbicides, butalachrela and metholomchrote were also transferred. USES assisted the onsite consultant in delineating the areas of contamination. Response crews excavated 4500 cubic yards of contaminated soil and provided transportation to a disposal facility. The impacted area was restored to normal condition.

Train Derailment

Gramercy, Louisiana

USES responded to a forty-two car train derailment, and our crews were responsible for transferring creosote, lube and oil additives, and flammable liquids from twenty-three damaged cars. Other derailed cars included products such as chlorine, ethylene oxide, and phosphorous trichloride. The operation was successfully completed in less than 5 days with no injuries. Congratulations for a job well done was extended from the railroad, the chemical companies and the local agencies.

Train Derailment

Ruddock, Louisiana

USES supplied Project Managers after a train derailment of twenty-five rail cars carrying various chemicals. Styrene, phosphoric acid and liquid fertilizer cars were damaged in the derailment, spilling the contents into the surrounding swamp. USES managers were placed in the Incident Command System, representing both the Health and Safety and the Operations Divisions. All transfers and re-railing operations were supervised for the duration of the project.

Train Derailment

Tangipahoa, Louisiana

USES crews responded to a twenty-seven car train derailment of cars carrying sulfuric acid and poly oil. The damaged cars spilled their contents along the tracks and into the surrounding residential areas. USES Project Managers were involved in all of the operations, including product recovery and clean-up. Liquid wastes that had been recovered were stored in temporary storage tanks prior to final disposal according to regulatory guidelines.

Train Derailment

Hattiesburg, Mississippi

USES responded to a train derailment near Hattiesburg, Mississippi involving tank cars loaded with chlorine, hydrochloric acid and sodium hydroxide. As a result of the derailment approximately 17,000 gallons of hydrochloric acid and approximately 13,000 gallons of sodium hydroxide spilled from the tank cars. USES provided emergency response services including transferring products remaining in damaged cars, neutralization of the corrosive liquids recovered in the response, excavation of contaminated soils and site restoration.

Train Derailment

Choudrant, LA

USES responded to a mainline derailment in Choudrant, Louisiana involving three loaded Butadiene tank cars. USES was requested to conduct damage assessment, as well as monitor the internal pressure of the tank cars. Due to the damage sustained in the derailment, two of the tank cars required immediate trans-loading at the incident site. The third tank car was railed and transported to a remote location where it also required trans-loading. USES response personnel utilized a hydraulic driven two inch cast iron vein pump to trans-load the Butadiene tank cars. Project duties included inspection of receiving tank cars, grounding and bonding, leak test of all hoses and fittings, development of a Site Specific Safety Plan, air monitoring, steaming, flaring, purging and cutting the first hole for scrapping.

Train Derailment

Money, MS

USES responded to a train derailment in Money, MS involving five railcars and 1 full railcar of Dicyclopentadiene. USES was responsible for the cleanup and removal of water, soil and debris contaminated with the chemical Dicyclopentadiene. USES personnel installed an estimated 1/2 mile of board road in able to gain access to the agricultural field in which all of the materials had migrated to. USES personnel utilized a specialized off road dump truck unit call Marooka's to transport the contaminated soil after it was excavated and all the soil was stockpiled onsite and covered with poly sheeting. Contaminated water from the site was pumped out using vacuum trucks and offloaded into frac tanks onsite. USES provided over 20 frac tanks and 8 roll off boxes. Several vacuum tanker loads of contaminate had to be

transport to Nebraska to a facility capable of taking this material. Once approved the contaminated soil was transport to a subtitle D landfill outside Greenville, MS. Once the soil and water were removed the site was covered in poly sheeting and left pending analytical results and CN approval to backfill. The project took a little over 1 month and I was onsite within 1 hour of the call. No safety issues, reports, or violations during this project and at one point we had over 125 people onsite.

FIXED-FACILITY / PLANT EMERGENCY RESPONSES

Hazardous Waste Storage Facility Fire

Apex, North Carolina

USES provided industrial firefighting services at a North Carolina facility that received hazardous and non-hazardous waste for repackaging and consolidation into larger waste streams. The warehouse contained drummed materials including lab-packs, water reactives, oxidizers, poisons, heavy metals, chlorinated and non-chlorinated solvents and other flammable liquids/solids. USES' industrial fire suppression team extinguished the warehouse fire in less than 8 hours. USES chemists and technicians then sampled breached containers and residual waste materials that had spilled into the warehouse bays. A USES field chemist analyzed these samples on-site using standard hazard characterization (HAZCAT) procedures. Once a chemical compatibility study was performed, USES crews began a process of recovering waste materials and bulking/containing (liquids and solids) them in appropriate and compatible bulk containers. USES then performed decontamination operations on the concrete pad of the warehouse.

Tank Farm Fire

Detroit, Michigan

USES responded to a tank-farm fire at a hazardous waste storage facility. This fire involved approximately 40 tanks containing flammable solvents. USES provided an industrial fire suppression team, chemical firefighting equipment and an emergency response team. Services performed included standby firefighting operations, recovery of spilled solvents, plugging/patching leaking tanks, multiple product transfers, initial remediation and post-incident tank cleaning/gas-freeing. Project duration was approximately six weeks.

Tank Farm Fire

Wichita, Kansas

USES responded to a solvent tank farm fire in Wichita, Kansas. Initial response operations included containing runoff firefighting water and utilizing a vacuum truck to recover the run off water. USES contained leaks from those tanks that still had product remaining in them. Once investigators released the tank farm, USES crews cleaned and demolished the tanks. USES performed remediation services to the contaminated soil and handled all disposals of soil and waste water.

Chemical Distribution Facility Fire

Des Moines, Iowa

USES responded to a warehouse fire at a chemical plant in Des Moines, Iowa. Once onsite, response crews began recovering firefighting runoff water with a vacuum truck. Our industrial fire team proceeded to extinguish hot spots throughout the warehouse. USES response crew then entered the warehouse and began the demolition process and vacuumed remaining firefighting runoff water and product from all drums and totes. USES is currently continuing efforts to demolition and decontaminate the facility.

Asphalt Manufacturing and Supply Warehouse Fire Halls, Tennessee

USES crews responded to an asphalt plant fire to conduct perimeter air monitoring for public protection and runoff water control. USES's role expanded rapidly to assist the fire department with extinguishment of the fire in the warehouse using heavy equipment. USES segregated the material in the warehouse and completed demolition of the damaged structure.

Chemical Plant Explosion Mississippi Gulf Coast

USES responded to a major explosion and fire to provide emergency response services. Primary responsibilities included making an initial post-explosion entry to assess the damage and perform on-site air monitoring. Other duties included continued air monitoring, containment/recovery of chemical spillage, debris recovery and site remediation. USES crews worked closely with neighboring chemical companies, Mississippi Department of Environmental Quality, U. S. Environmental Protection Agency, U. S. Coast Guard and local officials.

Chemical Manufacturing Plant Fire Conway, Arkansas

USES crews responded to an industrial chemical manufacturing plant fire where a variety of toxic, corrosive, reactive and flammable raw materials and finished products were released during the course of the fire and firefighting activities. USES managed the cleanup of 1.5 miles of an industrial water canal contaminated with over 3 million gallons of runoff from the fire. Concurrent with water control operations, USES crews neutralized and transferred a wide variety of chemical compounds such as sulfuric acid, nitric acid, butyl cellosolve and methanol within the fire building. USES crews collected and managed over 25,000 gallons of concentrated material in and around the fire building.

BIOLOGICAL, VIRAL AND FUNGAL DECONTAMINATION

Superdome New Orleans, Louisiana

Following the aftermath of Hurricane Katrina, USES performed biological decontamination services at the Superdome. USES cleaned and disinfected locker rooms, rest rooms, commissary spaces and other areas within the Superdome. USES also performed cleaning and disinfecting of the area used as a temporary morgue. This included recovery of all body fluids, followed by cleaning and disinfecting using a fumigator.

Temporary Morgue Trailer Decontamination Harrison County, Mississippi

The Mississippi Emergency Management Agency contracted with USES to decontaminate reefer trailers that had been used as temporary morgues following Hurricane Katrina. The USES crew recovered and containerized all debris and body fluids found inside the trailers. The interior spaces of the trailers were thoroughly cleaned to remove all bio-films and then fumigated using a broad-spectrum disinfectant and an organic odor control agent.

Norwalk Virus Off-Shore Oil Rig – Gulf of Mexico

USES performed decontamination services on an off-shore oil rig infected with the *Norwalk virus*. The crew was responsible for the total decontamination of the rig and all of its contents, including sleeping quarters, galley areas, restrooms, hallways, the evacuation capsule and the cranes. The crew cleaned each affected

area with a cleaner/degreaser to remove bio-films before applying the disinfectant. Computers, communications equipment and sensitive electrical/electronic equipment were carefully decontaminated using Q-tips and small sponges. Larger rooms and sleeping quarters were fumigated using a broad-spectrum disinfectant. There were no further outbreaks of the *Norwalk virus* after the mass decontamination.

Public Health Department Building
New Orleans, Louisiana

Following Hurricane Katrina, USES was contracted to recover and containerize all biological specimens at the Public Health Department Building. This included the handling of many dangerous specimens including drug-resistant strains of *cholera*, drug-resistant strains of *tuberculosis*, *HIV*, drug-resistant *Staphylococcus aureus* bacteria and other biologically harmful microorganisms. USES also packaged all chemical waste materials including poisons, radioactives, potential explosives, flammables and other hazardous chemicals.

Staphylococcus aureus Bacteria
Off-Shore Oil Rig - Gulf of Mexico

A USES crew decontaminated an off-shore oil rig infected with the *Staphylococcus aureus* bacteria. USES was responsible for cleaning and decontaminating all interior areas of the rig, including staff offices, galley areas, sleeping quarters and restrooms. A fumigator was utilized to decontaminate larger areas, and much of the sensitive equipment had to be disinfected by hand-wiping with Q-tips and small sponges. There were no further cases of *Staph* infection reported after the decontamination.

INDUSTRIAL FIREFIGHTING

Tank Farm Fire
Wichita, Kansas

USES responded to a solvent tank farm fire in Wichita, Kansas. Initial response operations included containing runoff firefighting water and utilizing a vacuum truck to recover the run off water. USES contained leaks from those tanks that still had product remaining in them. Once investigators released the tank farm, USES crews cleaned and demolished the tanks. USES performed remediation services to the contaminated soil and handled all disposals of soil and waste water.

Chemical Distribution Facility Fire
Des Moines, Iowa

USES responded to a warehouse fire at a chemical plant in Des Moines, Iowa. Once onsite, response crews began recovering firefighting runoff water with a vacuum truck. Our industrial fire team proceeded to extinguish hot spots throughout the warehouse. USES response crew then entered the warehouse and began the demolition process and vacuumed remaining firefighting runoff water and product from all drums and totes. USES is currently continuing efforts to demolition and decontaminate the facility.

Hazardous Waste Storage Facility
Detroit, Michigan

USES responded to a tank-farm fire at a hazardous waste storage facility in Romulus, Michigan. This fire involved approximately 40 tanks containing flammable solvents. USES provided an industrial fire brigade, chemical fire-fighting equipment and hazardous materials emergency response team. Services performed included standby firefighting operations, recovery of spilled solvents, plugging/patching leaking tanks, multiple product transfers, initial remediation and post-incident tank cleaning/gas-freeing.

Nitrocellulose Drum Explosion

Clinton, Mississippi

USES responded to a fire at a manufacturing plant in Clinton, Mississippi involving drums of nitrocellulose. Exploding drums of nitrocellulose had caused a major railroad to stop traffic on their tracks adjacent to the warehouse. USES firefighters worked in conjunction with the local fire department to extinguish the warehouse fire. After the fire was extinguished, a USES hazmat team performed site stabilization including containerization of all waste materials.

Head-On Train Collision

Central Mississippi

USES responded to a head-on train accident involving two freight trains in Mississippi. Approximately 20,000 gallons of diesel from the trains' engines had ignited upon impact and was encroaching on several LPG tank cars. The USES fire brigade, in conjunction with local fire departments, successfully extinguished the fire using aqueous film forming foam (AFFF) applied with handlines.

Tug-Boat Fire

Mississippi Gulf Coast

USES responded to a fire aboard a 100-foot tug boat on the Mississippi Gulf Coast. The tug contained 18,000 gallons of diesel, and the fire began due to a broken fuel line. The local fire department responded and was able to partially extinguish the fire. USES' fire brigade was contracted to make an entry into the lower levels of the tug in order to completely extinguish the fire. Utilizing a skid-mounted, 1,100 gallon-per-minute firefighting pump, USES firefighters were able to successfully extinguish the fire.

Crude Oil Tank Fire

Satartia, Mississippi

USES responded to a crude oil tank that was on fire, due to a lightning strike. The tank was located near a navigable waterway in Satartia, Mississippi, and officials from the MDEQ were concerned about total tank failure, which could have released oil into the water. The USES fire brigade quickly suppressed the fire using AFFF applied with hand lines and controlled the runoff to ensure that nothing entered the waterway.

ADDITIONAL EMERGENCY RESPONSES

Southeastern United States

18,000-Gallon Benzene Spill

Geismar, Louisiana

USES provided emergency response operations, air monitoring and remedial corrective actions to an 18,000-gallon benzene pipeline release that was caused by a 1,000-gallon nitric acid pipeline release. Primary responsibilities included, vapor suppression, product recovery (surface, subsurface and underground utility corridors), air monitoring/sampling, contaminated soil excavation, storm water management, construction of recovery trenches, vapor stripping and evacuation of impacted pipelines. This high-risk project involved many technically-difficult operations including the excavation of soil (hand and mechanical) directly adjacent to underground pipelines containing anhydrous hydrogen chloride, chlorine, formaldehyde, sulfur dioxide, acetylene, nitric acid and benzene. An underground utility corridor containing high-voltage electrical lines was also impacted and required product recovery and chemical/biological treatment of almost 0.75 miles of linear area. A large-scale system of underground recovery trenches was installed, which led to the very successful recovery of free-product and benzene vapor-stripping.

Mercury Response and Decontamination

Hancock County, Mississippi

USES response crews, having received specialized training in mercury containment and recovery, were activated by the MDEQ and EPA to respond to a local elementary school. A student had spilled mercury, contaminating areas on both the school grounds and buses. A total of three school buses and four classrooms were contaminated with approximately five pounds of elemental mercury. The recovery and decontamination efforts included gutting the school buses to bare metal and absorbing and/or vacuuming the affected classrooms. USES crews provided continuous air monitoring during the seven-day event. Torpedo heaters were utilized to burn off remaining mercury vapors.

Response to Suspect White Powder (Anthrax Investigation)

The State of Mississippi

From October 12–31, 2001, the Mississippi Department of Environmental Quality's (MDEQ) Emergency Response Branch received approximately 700 anthrax-related calls, a figure equal to the number of calls usually received during a 12-month period. USES was contracted through the MDEQ to respond, sample, field test, package and transport the bulk of these incidents.

Cleanup of Clandestine Methamphetamine Laboratories

Mississippi, Louisiana, Alabama, and Texas

USES was contracted to provide emergency response services for the cleanup of clandestine methamphetamine laboratories as directed by the United States Drug Enforcement Administration and their contracted agents. USES crews were responsible for the classification, packaging and documentation of both hazardous and non-hazardous materials found at each location.

Remediation, Demolition and Planned-Action Services

PCB Remediation South Mississippi

USES is currently performing a large-scale PCB remediation project in South Mississippi. This project involved remediation and construction activities on the grounds of an active industrial plant as well as off-site areas potentially impacting railroad right-of-way, residential properties and city-owned property. Primary responsibilities included the excavation, loading, transporting and disposal of PCB contaminated soil, concrete, asphalt and other media. Construction activities included restoration of properties impacted by remediation operations. Other duties included air monitoring for PCB-contaminated particulate matter, soil and water sampling, storm water management, water treatment and assisting with delineation activities.

Naval Weapons Industrial Reserve Plant McGregor, Texas

Twenty-four containers of unknown, potentially explosive laboratory chemicals were discovered at a facility that developed explosives and solid-rocket booster fuel for the military. USES was contracted to provide manpower and equipment to sample, field analyze and dispose of these materials. USES personnel constructed a blast shield at our Jackson, MS fabrication shop that contained a remotely-operated drill press for container drilling. All twenty-four containers were successfully and safely drilled and sampled. A USES chemist then field-tested the contents for hazardous characteristics. The containers were then properly disposed of at a permitted RCRA TSD facility.

Chemical Plant Moss Point, Mississippi

USES personnel were contracted for industrial cleaning, facility decontamination, demolition, waste transportation, and disposal for a chemical plant that was to be decommissioned. USES cleaned approximately seventy-five tanks that contained materials such as polymers, acids, sulfur, fuel, and wastewater. USES processed and solidified the hazardous sludge that had accumulated in the final clarifier and two large wastewater tanks. USES crews cleaned 3,000 feet of four-inch line located throughout the plant and also excavated around two hundred cubic yards of contaminated soil. Twenty USES employees were utilized seven days a week during the projects' 14-month duration.

Abandoned Oilfield Site Remediation Golden Meadow and Lake Pontchartrain, Louisiana

USES personnel were contracted by the United States Coast Guard to remove existing oily liquids from hundreds of abandoned oil storage tanks. After removal of the liquids, USES crews cleaned and dismantled the tanks and associated flow lines. Contaminated areas were removed from the site and transportation and disposal/recycling was managed by USES. Plugging and abandoning operations of existing wells located on both land and water were managed by USES crews. Coast Guard paperwork, performance standards and safety measures and procedures were strictly adhered to allowing USES to receive an Outstanding Performance Rating by the U.S. Coast Guard for this project.

MMSCFD Gas Processing Facility Demolition Clear Lake, Texas

In April 2006, the USES Demolition division began the dismantling of a 285,000,000 standard cubic feet per day (285 MMSCFD) gas processing facility in Clear Lake, Texas for a major oil company. The project included environmental remediation, asset recovery, concrete removal and heavy lifts. Using engineered rigging and through trunnions, the USES Demolition group rigged, lifted and removed large sections of columns and set

them on the ground for the asbestos abatement crews to perform the abatement. In September, USES was awarded the underground piping removal, and this project task continued through the end of 2006.

Wetlands Remediation

Spanish Fort, Alabama

A local construction company was hired to remove the top section of a hill to build a new school, and around eighty percent of the surrounding land contained wetlands. After the construction was complete, there was an accumulation of silt in the wetland areas. USES was hired by a national insurance company to remove the silt from ten sites in the surrounding wetlands. The original scope of work estimated that around 2,500 cubic yards of silt would be excavated from the entire site. The silt buildup ranged in depth from two inches to thirty-six inches, and USES crews have to lay track matting to allow the seven pieces of heavy equipment to maneuver from site to site. Crews are responsible for spreading hay and seeding all areas that have been affected by the heavy equipment, and USES had to dig certain sites by hand, due to their location within the wetlands. USES worked onsite for ten weeks, and over 5,800 cubic yards of silt were removed.

6-Oil Sludge Removal & Tank Cleaning

Memphis, Tennessee

USES was hired to clean a 325,000-barrel crude oil tank located in Memphis, Tennessee. It was understood that the tank still had approximately 13,000 barrels of sludge located inside the tank, but upon removal of the man ways, USES crews realized that there were over 13,000 barrels. The crew utilized heated diesel fuel provided by the client as a cutter stock in order to break down the sludge inside the tank and drastically reduce the amount of material that was sent for disposal. The crew pumped this material into a centrifuge, removing the liquids from the solids. The solids were deposited into rolloff boxes for disposal, and USES was able to recover the client's liquid material, which included the diesel that was used as cutter stock and the crude oil that was trapped in the solids. After removing a little over 26,000 barrels of sludge from the interior of the tank, the USES crew degassed the tank, removed any remaining oil or sludge and rinsed the interior of the tank with hot water and a degassing agent. USES utilized personnel from several offices throughout the company to assist in this operation, and the job was completed in the time frame allotted by the client.

Bleach Board Paper Manufacturing Facility

Moss Point, Mississippi

USES was contracted to clean all production and storage areas that existed in a manufacturing facility that had been slated for decommissioning and closure. The project involved the cleaning of ninety-seven tanks that contained materials such as green, black, and white liquor; six-oil fuel; caustic; sulfuric acid; and pulp. USES crews performed industrial cleaning on the turpentine system, paper machines, drain lines, and sumps, and they were also responsible for removing the sludge that had built up in the two-acre waterpond.

Remediation of PCB-Contaminated Surfaces

Mississippi, Alabama, and Georgia

USES was hired to remediate PCB-contaminated surfaces at ten natural gas compressor stations located throughout the tri-state area encompassing Mississippi, Alabama, and Georgia. Porous and non-porous surfaces were remediated utilizing the double wash/double rinse method on the contaminated surfaces. Following that, the surfaces were coated with water-and-solvent-resistant epoxy paints in two contrasting colors. Prior to the double wash/rinse, USES utilized its proprietary Clean and Seal process to extract contaminants from the matrix of the concrete and seal it, minimizing the potential for peeling of the coatings from the porous surfaces. A total of 3,714 square feet of porous surfaces (concrete) and 924 square feet of non-porous surfaces (equipment) were remediated during this project.

Effluent Tank Cleaning Geismar, Louisiana

USES was contracted clean three, effluent tanks at a plant in Geismar, Louisiana. Each tank had approximately 500,000 gallons of material to be processed in the most efficient, cost-effective and safest way possible. The material was removed from each tank, and the sludge was treated. The treatment of the sludge allowed for the removal of solids, separation of heavy liquids, and the return of the water or effluent back to the wash receiver. All of the returned water was free of visible solids, and the removed solids and heavy liquids were sent off-site for disposal. All of the tanks were nitrogen blanketed, vented through carbon, and equipped with appropriate relief devices. A closed-loop vapor scrubber system was set up to eliminate any releases to the atmosphere using carbon canisters, which were monitored and documented throughout each working shift. The project was scheduled to take approximately 90 days to complete, working 24-hours per day, 7 days per week. The project was completed on time, and USES was praised by the client's key personnel for their dedication to safety, ability to work and communicate with the client, and overall job performance.

Bunker Oil Tank Farm Remediation Galveston, Texas

USES responded to a surface oil release from a property that sits alongside the Galveston Bay. The property had been a bunker oil tank farm since the early 1900s, and there was heavy, subsurface contamination. Due to erosion from Hurricane Rita in 2005, the bunker oil began leaching out of the property. USES was hired to boom the area to prevent the oil from dispersing into the bay, and the USES crew removed approximately 4,000 cubic yards of contaminated material from the site.

Crude Unit Demolition Tyler, Texas

The USES Demolition division was hired to complete the demolition of an old crude unit at a refinery in Tyler, Texas. The crude unit contained three cabin heaters, exchangers and associated equipment and pipe racks which were all dismantled and removed within feet of other operating units and control rooms. Upon completion of the unit demolition, USES was awarded all of the underground removal work, as well, to make room for the new expansion project, which started while USES was finishing final excavation.

Low-Volume Pond Greenville, Mississippi

USES was contracted to remediate a low-volume pond in Greenville, Mississippi. The pond was 100 yards long by 75 yards wide and contained approximately five to six feet of six-oil sludge in the bottom of the pond. The client was responsible for the transfer of the water that was lying on top of the sludge. Rice hulls from a nearby plant were chosen as a solidification agent, due to the fact that the hulls would cut down on the disposal weight. A bulldozer was utilized to pile the rice hulls, while an excavator mixed those with the sludge. As the sludge was solidifying, the second excavator removed it and loaded it into a truck for proper disposal. Over 7000 cubic yards of sludge were removed during this twelve-day project.

Acetylene Manufacturing Plants – Lagoon Remediation North Mississippi

USES was hired to remediate two lagoons that were filled with discharged lime at acetylene manufacturing plants. Crews began by excavating the lime from the lagoons, and instead of sending it for disposal, USES personnel were able to locate a local facility that could utilize the lime as a recyclable material. This provided a substantial cost savings to USES' clients. One facility, which had an above-ground lagoon, required additional removal because the containment area had been breached in several areas. USES crews removed

the lime that had seeped outside of containment area and remediated the surrounding soil. Clean backfill was brought in to repair the containment wall. The second facility had a below-ground lagoon. USES backfilled the area to permanently close this pond and then transformed the area into a parking lot.

Cooling Tower Demolition

Orange, Texas

The USES Demolition division safely completed the removal of a hurricane-damaged, four-cell cooling tower for a plant in Orange, Texas. Storm damage had caused the cooling tower to fall within several feet of a live operating pipe rack, and USES carefully worked for five days to safely complete the project.

Response to Abandoned Drums

Mobile, Alabama

USES personnel were activated by U.S. EPA Region IV to respond to an abandoned industrial facility where approximately twenty-five drums had been illegally dumped. Job responsibilities included field hazmat operations to determine product characteristics for proper disposal and the over-packing of the leaking drums. Subsequently, two more abandoned drum sites were found, and USES crews were contacted to respond to those sites, too.

Paper Mill – Landfill Remediation

Sorrento, Louisiana

USES was contracted to remove hazardous waste improperly disposed of at a non-hazardous landfill in Sorrento. The hazardous waste was located, and a contamination zone was established. Waste was removed and disposed of properly. Also, six 500-barrel frac tanks with carbon filtration containers were used to treat contaminated water.

Chemical Plant

Moss Point, Mississippi

A chemical plant in Moss Point, Mississippi had a sludge accumulation problem within two large waste-water tanks and their final clarifier. The de-listed sludge was poly-sulfide based which made it extremely viscous and had to be mixed in an auger system with Portland cement to render it non-hazardous and suitable for transport. Feed rates and add-mixture rates were monitored and adjusted continuously to produce the desired consistency of waste per engineering design. The sludge was pumped from each tank and batched in mix tanks per the de-listing protocol. Each 20,000 gallon batch was processed and placed in three roll-off containers to await sampling. The complete removal effort produced greater than 400 roll-off containers that were transported for non-hazardous disposal.

Mercury Spill Recovery

Dallas, Texas; New York, New York; etc.

USES was awarded a project by the (FDA) Food and Drug Administration to perform cleanup of mercury and dioxin during the decommissioning of abandoned FDA laboratories located in Dallas, Texas; New York, New York; and other cities around the United States. The wastes had accumulated in lavatory drains and surface areas. USES crews contained, recovered and profiled all wastes, and coordinated the transportation and disposal.

7. HEALTH AND SAFETY GUIDELINES

HEALTH AND SAFETY PROGRAM SUMMARY

United States Environmental Services, LLC, (USES) Health and Safety Program is an aggressive, multi-faceted plan designed to identify and select healthy individuals and to maintain this health throughout their work history. This is accomplished through the following program elements:

Training provided is to all USES site personnel in compliance with HAZWOPER and other OSHA regulations to ensure a knowledgeable workforce.

Medical Surveillance is provided to all USES site personnel in compliance with OSHA to ensure a healthy workforce.

Hazard Communication is provided to all USES site personnel to ensure a workforce knowledgeable of chemical hazards.

Air Monitoring of sites and personnel is provided to accurately assess chemical hazards to workers and the community.

Implementation and Enforcement of site requirements is provided as well as implementation and enforcement of company policies and procedures and government regulations to ensure legal compliance and a safe jobsite.

Accident Prevention and Loss Control is provided to prevent property damage and worker injuries.

Contingency Plans are provided to be prepared for emergencies in order to limit damage and exposure.

Drug and Alcohol Program is provided to ensure a safe and unimpaired workforce and comply with federal requirements.

TRAINING

40 Hour Initial Training

USES provides an initial 40-hour Training Class (Hazwoper training) to all personnel prior to assignment to field projects involving known or unknown hazardous materials. The course is designed to meet the 40-hour initial training requirements specified by OSHA 29 CFR 1910.120 and U.S. EPA Orders 1440.2 and 1440.3 (Health and Safety Requirements for Personnel Engaged in Field Activities and Respiratory Protection) and covers topics and exercises outlined in the EPA course, Hazardous Material Incident Response Operations (165.5). Key elements of the course include chemical hazard evaluation through the use of reference materials' methods for selecting, maintaining and decontaminating protective equipment; evaluation of results from air monitoring instrumentation; hazards and precautions associated with working in hot and cold environments; and use and interpretation of a site-specific safety plan. Extra emphasis is given to high-hazard operations such as confined space work, tank inerting/removal, drum handling, hazardous noise and excavation. All class attendees receive a copy of the USES Training Manual. This course provides personnel with basic knowledge in site health and safety so that they may work on a hazardous waste site.

Manager's 8-Hour Initial Health/Safety

This course provides the specialized training required by OSHA for supervisors and managers responsible for the health and safety of hazardous waste site operations. The eight-hour course emphasizes regulatory compliance issues, implementation of health and safety plans, health hazard assessment, site management, accident prevention and liability, and responding to emergencies. All USES personnel who have supervisory

responsibility on a hazardous waste site receive this training prior to assignment to prepare them for their supervisory role.

8 Hour Health/Safety Refresher

This course satisfies the requirements of 29 CFR 1910.120 that workers, supervisors and managers receive eight hours of annual refresher training. The course is designed to reinforce and update current health and safety practices and requirements for personnel engaged in hazardous waste operations. This eight-hour course includes regulatory review and updates, hazard recognition, respiratory protection, personal protective equipment, site control and review of the previous year's incidents. All field personnel receive this training annually. It updates their knowledge of health and safety practices and serves as motivation to work safely.

CPR and First Aid

Field employees receive training in CPR and First Aid to maintain current certification. In the event of an emergency, they are prepared to administer life-saving care until professional medical assistance arrives.

Special Hazards

Employees receive training in hazards that are unique to the job or result from a previously unrecognized hazard. Training topics include fire prevention, fire fighting, safety equipment, blood-borne pathogens, excavation, confined space entry, electrical safety and fall protection. Training on these hazards allows personnel to perform specialized tasks safely and in compliance with regulations requiring training.

Documentation

Individuals successfully completing training courses will receive Certificates of Completion and documentation of respirator training and fit testing. Copies of these certificates will be maintained as required.

MEDICAL SURVEILLANCE PROGRAM

USES has managed medical surveillance for its associates.

Pre-Placement Physical

All employees undergo a complete physical examination prior to initial assignment to a hazardous waste site or exposure to potentially hazardous chemicals. Placement of the individual is contingent upon this physical. The parameters included in the physical exam were developed by USES's Medical Director, a physician certified in occupational medicine, and reflect the medical program recommendations included in the joint NIOSH/OSHA/UCCG/EPA manual for Health and Safety at hazardous waste sites and DOT driver requirements. This pre-placement physical includes occupational health questionnaires, vital signs, vision, hearing, spirometry, blood chemistry, urine chemistry, EKG, chest x-ray and specific tests of organs sensitive to various groups of hazardous chemicals.

Comprehensive physical exams provide critical baseline information for monitoring employee health, a degree of protection against future liability claims and, more importantly, the assurance that the employee is capable of wearing any prescribed protective equipment and performing potentially strenuous or stressful work.

Annual Physical

The baseline physical exam initiated prior to employment is followed by a comprehensive annual physical exam for individuals assigned to perform hazardous waste clean-up work. Results of this exam are compared to the baseline to identify shifts or any potential problems. Abnormal results (based upon predetermined parameters) may result in work restrictions for an individual.

Special Physical

In the event of a possible overexposure or a judgment of the Health and Safety Officer, individuals may be scheduled to receive a special physical exam to evaluate effects of a specific chemical or contaminant in question.

Termination Physical

At the completion of employment, USES personnel participating in the medical surveillance program receive a termination physical examination if it has been less than six months since the last annual exam or if it is necessary in the judgment of the Medical Director. This physical documents the employee's state of health at the time of termination.

Medical Director

To ensure consistency of case review, USES utilizes a medical management service under the direction of a physician board-certified in occupational medicine, Dr. Peter Greaney of the Greaney Medical Group WorkCare. Dr. Greaney provides oversight of the program and input on special circumstances at jobsites.

Documentation

To respect the privacy of the individual, meet specified needs of the contractors, and satisfy legal requirements of OSHA 29 CFR 1910.120, all physical exam results are maintained confidentially by the Medical Director. The written medical opinion of the Medical Director or his designee is documented on the USES "Certification of Hazardous Waste Work and Respirator Use" and sent to each division. All individuals receive the results of their exams in writing at their homes. In accordance with OSHA 29 CFR 1910.120, all physical exam results are stored for the duration of employment plus thirty (30) years.

Documentation	for Whom	Responsible for Records Maintenance
Physical Exam Results	OSHA Requirement USES Client Request	GMG WorkCare, for 30 Years
Physician's Written Medical Opinion	OSHA Requirement USES Client Request	GMG WorkCare USES District Offices
Physical Exam Results	OSHA Requirement Worker	Worker may keep or discard

Hazard Communication Program

The USES Hazard Communication (Hazcom) Program is implemented on every hazardous waste site. The program includes an inventory of on-site hazardous materials, copies of Material Safety Data Sheets in an accessible location, labeling of containers of hazardous materials and employee training.

Hearing Conservation Program

USES has a hearing conservation program designed to include employee awareness of the hazard, on-site identification of hazardous noise sources through monitoring and early detection/prevention through audiometric testing (pre-employment and annual). Noise exposure is minimized through engineering controls, safe work practices, and personal protective equipment.

AIR MONITORING

USES strives for an effective health and safety program geared towards protection of employees and the general public. One of the assurances of this is through the provision of a site and personal air monitoring program.

Site and Perimeter Area Samples

These samples document the absence of any concentration of constituents on site and vapors or dust leaving the site.

Personal Air Samples

These samples are used in the selection of Personal Protective Equipment (PPE) and provide measurement and documentation of individual employee exposure throughout a workshift.

Instrumentation

Monitoring is conducted utilizing a variety of instruments (HNU, CGI, OVA, and detector tubes) to provide real-time measurement of hazardous atmospheres.

Documentation

Individuals are notified of personal sample results in writing. USES has developed a variety of forms to document sampling and monitoring results. Records are retained for thirty (30) years in compliance with OSHA requirements.

IMPLEMENTATION AND ENFORCEMENT

Site-Specific Health and Safety Plans

A site-specific Health and Safety Plan is developed for every project. It is based on information about the history of the site, contaminants present, physical demands of the project and scope of work. Implementation and enforcement of the plan is managed by the Project Manager with assistance from the Health and Safety Officer and foreman. All site personnel are expected to comply with the provisions of the plan.

Site-specific Health and Safety Plans provide guidelines for OSHA requirements for initial site entry. The minimum requirements are:

- Training, as described in this summary
- Medical Surveillance, as described in this summary
- Donning of PPE as described in each site-specific Health and Safety Plan
- Attendance at the daily tailgate safety meeting
- Compliance with all provisions of the site-specific Health and Safety Plan and USES policies and procedures

Site-Specific provisions, such as heat/cold stress protocols, may be implemented when site conditions require them. In these situations, the USES Standard Operating Procedure (SOP) is implemented, at a minimum. Site-specific provisions are added such as acclimatization, work/rest regimen and vital sign monitoring.

Policy and Procedures

USES has developed a manual of policies and SOPs for operations performed on hazardous waste sites. These policies and procedures are implemented and enforced on all USES sites.

Daily Site Inspections

USES's supervisors are trained to perform daily work site inspections for the purpose of detecting unsafe work conditions. A checklist has been developed to ensure compliance with the established site-specific Health and Safety Plan, USES policies and procedures and applicable federal/state regulations.

Site Audits

Formal audits are conducted of site operations by USES's Health and Safety staff. Results are documented and shared with site management so that deficiencies can be corrected immediately.

Tool Box Safety Meeting

A key element in controlling accidents is the information conveyed in the daily safety meeting attended by all personnel on the job. This is a brief meeting held at the beginning of each shift to discuss the day's activities and special hazards that might be encountered in addition to accidents or incidents from the previous day.

Accident Report

Supervisors are required to complete an Accident Report Form for any injury or near-miss incident and submit it to the Health and Safety department within twenty-four (24) hours of the accident. This form is in addition to posting on the OSHA 200 Log and details the event of the incident and the steps being taken to prevent reoccurrence. State Workers' Compensation reporting is completed within forty-eight (48) hours. Serious injury or property damage incidents are reported to the Health and Safety Department immediately.

Accident Reviews

Injuries meeting the OSHA criteria for record ability are reviewed formally within seven (7) days of the accident. The Review Board consists of the injured worker, site supervisors, division and regional management, and Health and Safety staff. Via conference call, the accident is thoroughly reviewed and preventative measures are developed. Results of the review are communicated to all field personnel via "Safety Alerts".

Safety Award Program

This program is designed to reward those workers with documented safe hours and in doing so, to provide an incentive to others. This program is based on the premise that each worker has direct control and input over safe or unsafe actions around him/her.

CONTINGENCY PLANS

Contingency plans have been developed to deal with major air pollution releases, severe weather or accidents that might occur during hazardous waste operations. Every effort is made to develop plans that are workable and safe. These plans will be designed to stress the protection of the workers as well as residents of surrounding communities.

Periodic Drills

All USES workers participate in periodic drills to ensure readiness and the timely implementation of the plan. The frequency of these drills is determined by the site safety officer and the site manager.

Site Specific Contingency Plans

Specific contingency plans will be developed to address potential emergencies, e.g., weather, equipment failure, vapor release, fires, explosions, evacuations, injuries, etc.

DRUG AND ALCOHOL PROGRAM

USES's Drug and Alcohol Program complies with the provisions of the Federal Drug-Free Workplace Act and the stringent standards of the Department of Transportation. USES believes that one means to reduce workplace accidents and assure a healthy and productive work force is the implementation of a Drug and Alcohol Program. Employees receive a pre-employment drug screen as part of the qualification process. Individuals failing this test are immediately disqualified from employment. USES also conducts random, reasonable suspicion and post-accident testing. Individuals identified through this process are provided the services of a company-paid Employee Assistance Program.

8. Certificate of Insurance

IMPORTANT: If the certificate holder is an **ADDITIONAL INSURED**, the policy(ies) must be endorsed. If **SUBROGATION IS WAIVED**, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

Proposal to City of Hattiesburg:

APPENDIX B

OPERATIONAL APPROACH

January 27, 2017

USES Overview

When confidence counts most, count on USES.

In the environmental services industry, confidence is everything. And the one company that instills absolute confidence at every level is USES.

Through two distinct, yet complimentary service lines — Industrial Cleaning and Emergency Response & Remediation - USES provides a range of capabilities and depth of expertise that no competitor in our market can match, all from a single, trusted provider. From routine industrial and maritime cleaning services to emergency response for disasters of any scale, USES is the company you can count on for efficiency, professionalism and a total commitment to safety.

About Us

Our list of solutions is lengthy. The industries and customers we serve are diverse. Whether we're responding to an emergency oil spill or providing scheduled plant maintenance, we perform in a way that wins the trust, respect and loyalty of all who are involved. Safety—protecting health and preventing harm—drives our every action.

Gaining and growing our customers' confidence in every aspect of our services comes from hiring and retaining the most qualified personnel for every position, providing them comprehensive training and maintaining industry-leading certification of our expertise and safety.

What We Do

We work safe. We work hard. We work smart. We stay current with training and technology. And we exercise good old-fashioned common sense in getting environmental maintenance and cleanup done right—safely, on time and on budget. Deep within confined industrial spaces and in the great outdoors, on highways and waterways, in business districts and along shorelines, on land and at sea, we are there—providing environmental services that support and sustain economic progress and quality of life.

Dun and Bradstreet Number

The Dun and Bradstreet number for USES is 03-676-0262

Management Approach

USES has strong relationships with our customers and has built on a track record of successful projects. In the past, our support has been handled by multiple contracts and handled regionally by USES. If awarded this scope, we will work diligently to combine the best processes and procedures from all our offices to provide a standardized approach to our service offering and a set of uniform reports. In special instances, such as major storms, we would be able to capitalize on mobilizing our service specialists from other USES offices to the damaged area, without a need for special training, and the City of Hattiesburg would receive consistent service and reporting from these personnel in your time of critical needs.

USES believes that it has a clear and distinct advantage over its competitors to provide the services covered by this RFP. Our footprint of office locations overlays closely with the area covered by this contract. We believe we may be the only service provider with the depth and breadth to cover Mississippi. Below is a map with our locations in and around Mississippi.

We have identified the key elements necessary to successfully execute this project and ultimately provide the city of Hattiesburg with successful enterprise wide emergency response support, on time and on budget. You will find below why USES is the supplier of choice for this project.

1. **Management Commitment**
Our Management Team is committed to the success of this project and will dedicate all the essential resources and capital investments necessary to successfully execute the project. We have assembled a project team with proven past performance and highly trained and qualified personnel that have provided outage services for decades.
2. **Developing a Partnering Relationship**
It is our intent to develop and create a true partnership with the City of Hattiesburg and the Project Team to create a collaborative environment of information sharing and open communication. USES has become a premier supplier and trusted partner to over 500 customers.
3. **Safety**
We make no compromises when it comes to safety. USES has a long legacy of safety with a highly trained and accountable team and an unsurpassed safety culture whose successes are quantifiable and predictive. We mitigate risk and help manage exposure for our people and yours, every day.

Through prevention and training, USES maintains one of the industry's most impressive safety records. Our proprietary and innovative Risk Management Program, "SHARP" (Safety Hazard Assessment & Risk Profiling), is focused on preventative and proactive tools and methods that identify and correct unsafe conditions and behaviors before accidents or injuries occur

4. **Experienced and Trained Personnel**

Emergency response is a people business. Service providers reputations rely on the quality of their personnel. USES is comprised of a regional workforce of experienced and highly trained employees who are equipped to safely handle the most challenging situations, including the growing number of assignments that require great care to protect the environment and comply with environmental regulations, as well as maintaining assets for continued efficiency.

We earn and keep the confidence of widely diverse companies in a variety of industrial segments by staying abreast of changing regulatory requirements and supporting a well- trained workforce. Our people receive industry-leading gold-standard training, are subject matter experts and certified in their fields of expertise. We take a consultative approach, always looking out for your best interests, and strive to be responsive and dependable in order to earn your trust and be your partner for the long run.

5. **Customer Satisfaction**

At USES, customer satisfaction is a top priority. Project Managers and first line supervisors are responsible for the overall success of the job but division management has accountability for the way our work is perceived by the customer. Our ultimate goal is to have continuous improvement toward 100% customer satisfaction for all of the indices we measure.

To facilitate this process client representatives are requested to complete our Customer Satisfaction Survey at any time appropriate during the life of a job or periodically during routine maintenance or project execution. The survey results are fed into a database that measures progress for each client we serve and discussed at each managers meeting throughout all levels of the organization. The results are also shared with client representatives so they can better gauge our progress toward improvement.

USES is dedicated to Safety, Quality Performance, Customer Satisfaction, and Personnel Development. We accomplish this through consistent planning, excellent execution of job procedures, innovative approaches, emerging technology, employing the most experienced people in the industry, and providing extensive training and development of our personnel. USES persistently strives for constant improvement of our services by listening to our customer's feedback and performing jobs in a safe and efficient manner.

Key Personnel

Our staff of over 430 service employees are stationed throughout the southeastern United States to respond 24 hours per day and 7 days per week to any emergency response or industrial cleaning need. Our unique ability to cover environmental spills, emergency response support, and industrial cleaning, is untouchable among our competition. For the purposes of supporting the City of Hattiesburg, we propose the following personnel and organizational structure to cover your entire state.

Below are summaries of the capabilities and experience of the personnel identified as key to the success of THE CITY OF HATTIESBURG service support.

Matthew Lewis, Senior Vice President of Emergency Response

Mr. Lewis has over 29 years of industry experience with an emphasis on emergency response, operations management, training and development, remediation, and leadership in industrial and environmental arena. Over the years, Mr. Lewis has held many titles including Vice President, Director, Division President and Plant Manager. He is currently the Senior Vice President of Emergency Response with USES.

Paul Calais, Corporate ES&H Manager

Mr. Calais has 22 years of experience in the environmental, emergency response, and industrial industry. Over the years he has served as a corporate safety manager, safety manager, and instructor. His certifications and training include: (SHEP), (CSHO), General Industry and Construction, MSHA Certified Instructor, OSHA 500 Construction Outreach Trainer / 10hr. and 30hr., OSHA 501 General Industry Outreach Trainer / 10hr. and 30hr., First Aid and CPR/AED Instructor (American Red Cross), De-Leading of Industrial Structures –32hr & 8hr. (Instructor for USES), Supervisor/Contractor Asbestos Abatement (40 hr.), EPA Model (State License) Supervisor/Contractor Lead Training Course (32 hours), EPA Model (State License), and the Hazwoper 40hr. Instructor Certification. He now oversees corporate safety programs, OSHA documentation, Training programs, record keeping, audits, JSA's, accident investigations, Hazardous Waste Program, Used Oil Program, SPCC/SWPPP Plan, and State and Federal Permits.

Kenneth “Pojo” Hays Division Manager

Mr. Hayes has seventeen years of experience in all aspects of environmental services including oil spill and hazardous materials emergency response. His project experience includes supervising responses to white powder (anthrax suspect) incidents, cleanup of clandestine drug lab sites, mercury response and decontamination, train derailments, tanker rollovers, environmental remediation projects, pipeline ruptures and tank cleanings.

Justin Plant, Division Manager

Mr. Plant has fifteen years of experience in hazardous material management and oil spill cleanup, including on-scene incident management. He has responded to numerous incidents including fixed facilities, highway, railroad and marine spills. Mr. Plant's project experience also includes environmental remediation from underground storage tanks to the excavation and disposal of contaminated soils.

SUPERVISORS/OPERATORS

NAME: Shane Alford

LOCATION: Jackson, MS/Gautier, MS

TITLE: Project Manager/ Supervisor/Foreman/Equipment Operator

EXPERIENCE IN YRS: 12 Yrs

LEVEL OF EDUCATION: Bachelor's Degree Business Administration and Poultry Science

WORK EXPERIENCE: Extensive experience in remediation, oil spill response, and hazardous materials.

RESPONSIBILITIES: Responsible for coordinating all aspects for emergency response Haz-Mat and Oil Spills, tank cleaning, remediation projects and disposal of Hazardous and Non-hazardous Waste.

NAME: Calvin Riley

LOCATION: Jackson, MS

TITLE: Project Manager/ Supervisor /Foreman/Equipment Operator

EXPERIENCE IN YRS: 8 Years experience

LEVEL OF EDUCATION: 2 years college

WORK EXPERIENCE:

RESPONSIBILITIES: Responsible for coordinating all aspects for emergency response Haz-Mat and Oil Spills, tank cleaning, remediation projects and disposal of Hazardous and Non-hazardous Waste.

NAME: Ashley Tucker

LOCATION: Jackson, MS

TITLE: Supervisor/Foreman/Equipment Operator

EXPERIENCE IN YRS: 15 years' experience

LEVEL OF EDUCATION: High School Diploma

WORK EXPERIENCE: 4 Years' experience in Oil spill response and at least 1 year in management.

RESPONSIBILITIES: Responsible for coordinating all aspects for emergency response Haz-Mat and Oil Spills, tank cleaning, remediation projects and disposal of Hazardous and Non-hazardous Waste.

NAME: Ronny Thompson - Foreman

LOCATION: Jackson, MS

TITLE: Foreman/Equipment Operator

EXPERIENCE IN YRS: 24 Years' Experience

LEVEL OF EDUCATION:

WORK EXPERIENCE:

RESPONSIBILITIES: Responsible for coordinating all aspects for emergency response Haz-Mat and Oil Spills, tank cleaning, remediation projects and disposal of Hazardous and Non-hazardous Waste.

NAME: Cody Daughdrill

LOCATION: Jackson, MS/Gautier, MS

TITLE: Foreman/Equipment Operator

EXPERIENCE IN YRS: 8 Years

LEVEL OF EDUCATION: High School Diploma

WORK EXPERIENCE:

RESPONSIBILITIES: Responsible for coordinating all aspects for emergency response Haz-Mat and Oil Spills, tank cleaning, remediation projects and disposal of Hazardous and Non-hazardous Waste.

NAME: Chris West

LOCATION: Hernado, MS

TITLE: Project Manager/ Supervisor/Foreman/Equipment Operator

EXPERIENCE IN YRS: 10 Yrs

LEVEL OF EDUCATION: Responsible for coordinating all aspects for emergency response Haz-Mat and Oil Spills, tank cleaning, remediation projects and disposal of Hazardous and Non-hazardous Waste.

WORK EXPERIENCE: Mr. West has over 10 years of emergency response and industrial experience. Prior to joining USES, Mr. West spent over 8 years in the emergency response field, specializing in meth lab cleanup operations. Mr. West was a prior technician, foreman, and supervisor. He currently holds a project manager role with USES. Over the years, he has worked in various industries and supervised many crews on a few of the countries natural disasters such as: the BP Oil Spill, a flood in Coffeetown, KS, and a several thousand barrel oil spill in the San Francisco Bay. He currently is a project manager for the Memphis division and is assisting the office in any and all emergency response work.

RESPONSIBILITIES: Responsible for coordinating all aspects for emergency response Haz-Mat and Oil Spills, tank cleaning, remediation projects and disposal of Hazardous and Non-hazardous Waste.

Subcontractor Management

USES's purchasing process ensures that purchased products, materials and services, including those of subcontractors, conform to customer specified quality requirements. The type and extent of control applied to the supplier and the purchased product is dependent upon the effect of the purchased product on subsequent product realization or the final product. Additionally, evaluation, selection and re-evaluation of suppliers are based on their ability to supply products and/or services in accordance with its QMS.

This purchasing process is ensured by:

- The Project Manager is responsible for establishing, approving & ensuring the maintenance of the criteria and quality assurance requirements, including those of subcontractors.
- Subcontractor evaluation and selection are based on safety, customer quality assurance requirements, subcontractor availability, quality assurance, past performance, equipment availability, references, cost, timeliness (schedule adherence) and the ability of the subcontractor to meet customer requirements. All records and data used during this process are maintained by the Project Manager.

The responsibility of subcontractor control lies with the Project Manager. Although other departments may have input into this process (e.g., audits), the overall responsibility of subcontractor control is that of the Project Manager.

The Project Quality Assurance Manager is responsible to perform periodic audits of all subcontractors. Although the timeframe of these audits are randomly selected based on need, the period shall not exceed one year. Some of the areas that are audited include verification and effectiveness of the QMS, Health & Safety Program, employee training, current certifications & qualifications, availability of material certifications, material storage, work quality and work timeliness (schedule adherence).

The Procurement Department is responsible to ensure that the purchasing documents are clear and concise for the product being ordered and that the purchased product meets the requirements of the QMS and the contract, purchase order or task order, including those of subcontractors.

All clients are allowed to verify products on the premises, including those of subcontractors, prior to acceptance and delivery of such products. Additionally, a copy of all Purchase Orders, including those of subcontractors shall be provided to the client upon request.

Operational Approach

The nature of Emergency Response is such that the USES philosophy drives our teams to "always be on call". To achieve this, USES has a robust after hours call out system, listed below, that has been time tested and true for many years. Specifically, this same system has aided USES well in servicing the many THE CITY OF HATTIESBURG call outs we have had the privilege to help THE CITY OF HATTIESBURG with.

Upon notification of an emergency response, whether through the division's answering service or directly from a customer, the operations personnel dispatching the resources will implement the following protocol:

- 1) Notify the on-duty response supervisor and crew of the response in order to begin the mobilization phase.
- 2) Determine if the response is a Significant Emergency Response incident or a Non-Significant Emergency Response incident. Significant Emergency Response incidents are defined as, but not limited to, the following types of unplanned response events:
 - a) Plant/facility fires or explosions
 - b) Incidents involving:
 - i) toxic or poison inhalation hazard (TIH/PIH) commodities
 - ii) air or water reactive compounds
 - iii) flammable gases or solids
 - iv) concentrated corrosives or radioactive compounds
 - v) fatality (customer or third party)
 - vi) significant media coverage
 - c) Oil spills greater than 50 barrels
 - d) Oil spills in high risk environments
 - i) night operations on water

- ii) rivers in flood stage
 - iii) environmentally sensitive areas
 - iv) others
 - e) Oil spills involving sour crude
- 3) Once a determination of the type of incident and level of risk is made based on the criteria described above, the dispatching operations personnel will implement one of the two following notification procedures:

Significant Emergency Response Notification

- a) A significant emergency response incident requires an immediate verbal notification based on the protocol described below under "Verbal Notifications". Additionally, an email notification is to be sent out as soon as possible (but not to exceed one hour).

Non-Significant Emergency Response Notification

- b) A non-significant emergency response incident that does not classify as a significant emergency response incident, but is an unscheduled activation of company resources to respond to an unplanned incident, requires only an email notification to be sent out as soon as possible (but not to exceed one hour) following the protocol described below under "Email Notifications".

REGARDLESS OF SIGNIFICANT OR NON-SIGNIFICANT, LOCAL DIVISIONAL RESOURCES (DIVISION MANAGER AND ER SUPERVISOR) IS VERBALLY CONTACTED AND MOBILIZED IMMEDIATELY.

Verbal Notifications

An immediate verbal notification process utilizing the following communications structure for significant emergency response incidents only.

- Operation's First Call → Division Manager

Division Manager's First Call

Division Manager's Second Call

- Operation's Second Call → Director of ER or Manager of Oil Spill Response
- Operation's Third Call - (If directed by the DM) → Business Development Manager (if it is determined he/she has a relationship with the customer that is needed during this response.)

Business Development Manager Calls → Sales Manager

Should a person be unreachable for over 5 minutes, then the caller should contact the unreachable person's next contact person.

Each position identified above has an internal notification protocol for financial thresholds which they will implement.

- 4) Once the proper notifications have occurred, the Division Manager will select and contact the response crew and they will begin mobilization. Once they arrive at the USES yard, they will review the equipment to be utilized. Once the equipment is sourced to be suitable for the job, the personnel will begin transit to the job site.

BEFORE ANY WORK IS CONDUCTED, AN ONSITE RISK ASSESSMENT AND SAFETY BRIEFING WILL BE CONDUCTED AND DOCUMENTED

- 5) Once on site, the crew will perform the work, as required by the THE CITY OF HATTIESBURG job notification.
- 6) Supervisor will remain in contact with the THE CITY OF HATTIESBURG call out personnel; communicating arrival times, work progress, and time of departures.
- 7) Supervisor will keep the Division Manager informed of work progress. Division Manager will coordinate, if escalation of resources is needed, with the THE CITY OF HATTIESBURG contact.
- 8) At completion of the job, personnel will transit the equipment back to the USES yard.
- 9) The project leader will begin project wrap-up paperwork, to include before and after pictures, and prepare the information required for invoicing.

Proposal to City of Hattiesburg:

APPENDIX E

CERTIFICATE OF GOOD STANDING

January 27, 2017

DELBERT HOSEMANN
Secretary of State

Office of the Secretary of State
Jackson, Mississippi

Certificate of Good Standing

I, C. DELBERT HOSEMANN, JR., Secretary of State of the State of Mississippi, and as such, the legal custodian of the records as required by The Mississippi Registration of Foreign Limited Liabilities Company Act to be filed in my office do hereby certify:

UNITED STATES ENVIRONMENTAL SERVICES LLC

Registered the 29th day of August, 1997

A Louisiana LIMITED LIABILITY COMPANY has filed the necessary documents in this office and has obtained a certificate of registration to do business in this state, under the provisions of The Mississippi Registration of Foreign Limited Liability Companies Act as shown by the records in this office.

I further certify that said Limited Liability Company has filed in this office an appointment of registration for service of process, with written acceptance endorsed thereon, and/or power of attorney, designating its agent and/or attorney for service of process in this State as:

CORPORATION SERVICE COMPANY
5760 I-55 North, Suite 150
Jackson, MS 39211

I further certify that said Limited Liability Company has paid the fees for filing the above papers required by law as shown by the records of this office, and that said Limited Liability Company is in good standing to do business in Mississippi at this time.

Given under my hand and seal of office
the 11th day of October, 2016

A handwritten signature in dark ink that reads "C. Delbert Hosemann, Jr." The signature is written in a cursive style.

C. DELBERT HOSEMANN, JR.
Secretary of State

Certificate Number: CN16028974

*Wildlife Response Services:

Wildlife Branch Director/Section Chief.....	\$1,440.00	Day
Wildlife Response Manager.....	\$960.00	Day
Wildlife Recovery Group Supervisor.....	\$780.00	Day
Wildlife Rehabilitation Center Manager.....	\$780.00	Day
Wildlife Responder.....	\$780.00	Day
Wildlife Response Technician.....	\$660.00	Day

*Due to the nature of dealing with animals, Wildlife Response Services are billed on a daily rate. Days are generally 10 - 14 hours long.

VEHICLES, TRAILERS, VESSELS, HEAVY TRUCKS AND HEAVY EQUIPMENT

Vehicles: Daily rate & mileage charges are portal-to-portal.

Pickup truck and automobile mileage will be charged according to the cost per gallon of diesel fuel using the following schedule:

	<u>Rate</u>	<u>Unit</u>
Gallon of Diesel ≤ \$2.00.....	\$0.60	Mile
Gallon of Diesel = \$2.01 - \$2.50.....	\$0.75	Mile
Gallon of Diesel = \$2.51 - \$3.00.....	\$0.90	Mile

Gallon of Diesel = \$3.01 - \$3.50.....	\$1.05	Mile
Gallon of Diesel = \$3.51 - \$4.00.....	\$1.20	Mile
Gallon of Diesel = \$4.01 - \$4.50.....	\$1.35	Mile
Gallon of Diesel = \$4.51 - \$5.00.....	\$1.50	Mile
Gallon of Diesel = \$5.01 - \$5.50.....	\$1.65	Mile
Gallon of Diesel = \$5.51 - \$6.00.....	\$1.80	Mile
Gallon of Diesel = \$6.01 - \$6.50.....	\$1.95	Mile
Gallon of Diesel = \$6.51 - \$7.00.....	\$2.10	Mile
Gallon of Diesel = \$7.01 - \$7.50.....	\$2.25	Mile
Gallon of Diesel = \$7.51 - \$8.00.....	\$2.40	Mile

The cost per gallon of diesel fuel is based on the U.S. D.O.E. average cost for the Gulf-South Region. This average per gallon cost may be found at www.eia.doe.gov/

* If the cost of diesel fuel exceeds \$8.00 per gallon, the mileage rate will increase \$0.15 per every \$0.50 increase in the cost of diesel fuel.

Automobile, Sport Utility Vehicle.....	\$130.00	Day
Pick-up Truck (F-150 to F-350 or equivalent).....	\$200.00	Day
Pick-up Truck (F-450 to F-550 or equivalent).....	\$250.00	Day
Passenger Van.....	\$200.00	Day
Stake Bed (One Ton).....	\$230.00	Day
Stake Bed (One Ton), with hydraulic crane.....	\$275.00	Day

Vacuum Trucks and other Heavy Trucks: Charged portal-to-portal

Heavy truck (vacuum, dump, roll off, OTR, etc.) mileage will be charged according to the cost per gallon of diesel fuel using the following schedule:

Gallon of Diesel ≤ \$2.00.....	\$1.00	Mile
Gallon of Diesel = \$2.01 - \$2.50.....	\$1.25	Mile
Gallon of Diesel = \$2.51 - \$3.00.....	\$1.50	Mile
Gallon of Diesel = \$3.01 - \$3.50.....	\$1.75	Mile
Gallon of Diesel = \$3.51 - \$4.00.....	\$2.00	Mile
Gallon of Diesel = \$4.01 - \$4.50.....	\$2.25	Mile
Gallon of Diesel = \$4.51 - \$5.00.....	\$2.50	Mile
Gallon of Diesel = \$5.01 - \$5.50.....	\$2.75	Mile
Gallon of Diesel = \$5.51 - \$6.00.....	\$3.00	Mile
Gallon of Diesel = \$6.01 - \$6.50.....	\$3.25	Mile
Gallon of Diesel = \$6.51 - \$7.00.....	\$3.50	Mile
Gallon of Diesel = \$7.01 - \$7.50.....	\$3.75	Mile
Gallon of Diesel = \$7.51 - \$8.00.....	\$4.00	Mile

The cost per gallon of diesel fuel is based on the U.S. D.O.E. average cost for the Gulf-South Region. This average per gallon cost may be found at www.eia.doe.gov/

* If the cost of diesel fuel exceeds \$8.00 per gallon, the mileage rate will increase \$0.15 per every \$0.50 increase in the cost of diesel fuel.

Due to excessive fuel costs, USES will assess a fuel surcharge on vacuum truck hours-of-service. This surcharge only applies to vacuum truck time actually spent working and does not include travel time. The surcharge will apply as follows:

- Cost of diesel less than \$4.00/gallon: No Surcharge
- Cost of diesel between \$4.00 and \$5.99/gallon: \$5.00 per working hour.
- Cost of diesel between \$6.00 and \$7.99/gallon: \$10.00 per working hour.
- Cost of diesel between \$8.00 and \$10.00/gallon: \$15.00 per working hour.

The cost per gallon of diesel fuel is based on the U.S. D.O.E. average cost for the Gulf-South Region. This average per gallon cost may be found at www.eia.doe.gov/

Vacuum Truck, <70 Barrel (Operator and mileage not included).....	\$60.00	Hour
Emergency Response.....	\$70.00	Hour

Response Boat, 33' to <36', <=450 HP.....	\$1,250.00	Day
Response Boat, 33' to <36', >450 HP.....	\$1,375.00	Day
Response Boat, 36' to <40', <=600 HP.....	\$1,550.00	Day
Response Boat, 36' to <40', >600 to 900 HP.....	\$1,675.00	Day
Response Boat, 40' to <45', <=600 HP.....	\$1,800.00	Day
Response Boat, 40' to <45', >600 to 900 HP.....	\$1,950.00	Day
Response Boat, 45' to <50', <=600 HP.....	\$2,200.00	Day
Response Boat, 45' to <50', >600 to 900 HP.....	\$2,350.00	Day
Response Boat, 50' to <55', <=600 HP.....	\$2,500.00	Day
Response Boat, 50' to <55', >600 to 900 HP.....	\$2,650.00	Day
Response Boat, 10' to <16', Mud Boat.....	\$250.00	Day
Response Boat, 16' to <18', Mud Boat.....	\$350.00	Day
Air Boat, Single Engine.....	\$950.00	Day

Skimming Vessels:

21' Twin Motor Vessel, Goo-Gobbler, 20 BBL Storage (Operator not included).....	\$3,740.00	Day
28' Twin Motor Vessel, Goo-Gobbler, 30 BBL Storage (Operator not included).....	\$4,550.00	Day
35' Twin Motor Vessel, Goo-Gobbler, 70 BBL Storage (Operator not included).....	\$7,150.00	Day
28' Marco Skimmer Vessel.....	\$5,000.00	Day

Trailers:

Response Trailer, Greater than 40' (Enclosed).....	\$550.00	Day
Response Trailer, 36' - 40' (Enclosed).....	\$500.00	Day
Response Trailer, 32' - 35' (Enclosed).....	\$450.00	Day
Response Trailer, 28' - 31' (Enclosed).....	\$400.00	Day
Response Trailer, 20' - 27' (Enclosed).....	\$350.00	Day
Response Trailer, Less than 20' (Enclosed).....	\$300.00	Day
Response Trailer, Wildlife Resource.....	\$600.00	Day
ATV (4-wheeler) Trailer.....	\$75.00	Day
ATV (4-wheeler) Trailer, All-Terrain.....	\$75.00	Day
Boom Trailer.....	\$150.00	Day
Bunk Trailer, Mobile (12 - 16 Bunks).....	\$750.00	Day
Command/Communications Trailer, 45' - 53'.....	\$1,250.00	Day
Command/Communications Trailer, 36' - 44'.....	\$1,050.00	Day
Command/Communications Trailer, 28' - 35'.....	\$850.00	Day
Confined Space Rescue Trailer (Equipment included).....	\$750.00	Day
Concession Trailer.....	\$250.00	Day

Cook Trailer.....	\$250.00	Day
Equipment Trailer, Bumper-Pull, $\geq 20'$	\$200.00	Day
Equipment Trailer, Bumper-Pull, $< 20'$	\$175.00	Day
Equipment Trailer, Gooseneck with Hydraulic Crane.....	\$350.00	Day
Equipment Trailer, Gooseneck Greater than 20', Dual Tandem Axle, 20K GVWR or Greater.....	\$275.00	Day
Equipment Trailer, Gooseneck Greater than 20', Low Profile Tandem Axle, 20K GVWR.....	\$225.00	Day
Freezer, Trailer-mounted walk-in with generator (Ice not included).....	\$250.00	Day
High Pressure Transfer Trailer (Does not include OTR, driver, and permits).....	\$650.00	Day
Laboratory Trailer (HazCat Testing).....	\$650.00	Day
Tanker, 307/407 Stainless Steel (Does not include OTR, driver, and permits).....	\$400.00	Day
Travel Trailer.....	\$275.00	Day

PUMPS, HOSE, FITTINGS AND ASSOCIATED EQUIPMENT

Pumps and Pumping Equipment:

Chemical Pumps and Equipment:

Air Diaphragm Pump, 2" Kynar.....	\$450.00	Day
Air Diaphragm Pump, 1" Polyethylene.....	\$175.00	Day
Air Diaphragm Pump, 2" Polyethylene.....	\$275.00	Day
Air Diaphragm Pump, 3" Polyethylene.....	\$350.00	Day
Air Diaphragm Pump, 1" Stainless Steel.....	\$175.00	Day
Air Diaphragm Pump, 2" Stainless Steel.....	\$300.00	Day
Chemical Pump, Manual.....	\$25.00	Day
Venturi Jet Pump, 2" CPVC.....	\$250.00	Day
Venturi Jet Pump, 2" Stainless.....	\$200.00	Day
Venturi Jet Pump, 2" Cast Iron.....	\$175.00	Day
Venturi Jet Pump, 2" Forged Steel.....	\$175.00	Day
LPG / Anhydrous Ammonia Pump, 3".....	\$800.00	Day + Rebuild
Mag Drive Pump, 1.5"x1" (HF).....	\$1,350.00	Day + Rebuild
Vane Pump, 2" Stainless Steel.....	\$450.00	Day
Vane Pump, 3" Stainless Steel.....	\$550.00	Day
Vane Pump, 3" Cast Iron.....	\$450.00	Day
Compressor, Corken, (T491).....	\$1,300.00	Day + Rebuild

Petroleum Pumps and Equipment:

Air Diaphragm Pump, 1" Aluminum.....	\$100.00	Day
Air Diaphragm Pump, 2" Aluminum.....	\$150.00	Day
Air Diaphragm Pump, 3" Aluminum.....	\$175.00	Day
Fuel Pump, 12 Volt.....	\$50.00	Day
Rotary Petroleum Pump, Manual.....	\$25.00	Day

Hydraulic Power Units:

Hydraulic Power Pack to 25 HP.....	\$275.00	Day
Hydraulic Power Pack, 25.1 to 50 HP.....	\$500.00	Day

Miscellaneous Pumps and Equipment:

Bulldog Pump.....	\$75.00	Day
Diaphragm Pump, 3" Diesel.....	\$225.00	Day
Diaphragm Pump, 2" Diesel.....	\$175.00	Day
Drum Pump, Disposable.....	\$25.00	Each
Flare Stand, Portable 2" - 4".....	\$325.00	Day + Assist Gas
Lutz Pump, 1".....	\$125.00	Day
Submersible Pump, to 1".....	\$75.00	Day
Trash/Wash Pump, 2" Diesel.....	\$125.00	Day
Trash/Wash Pump, 3" Diesel.....	\$150.00	Day
Trash/Wash Pump, 1" Gas.....	\$75.00	Day
Trash/Wash Pump, 2" Gas.....	\$100.00	Day
Trash/Wash Pump, 3" Gas.....	\$125.00	Day

Hose:

Chemical Hose:

Chemical Hose, Filtered Siamese, (2) 2" x 3".....	\$300.00	Day
Chemical Hose, Stainless Steel Braided, 2".....	\$25.00	Foot/Day
Chemical Hose, Teflon, 2".....	\$20.00	Foot/Day

Chemical Hose, UHMWP or equivalent, 1".....	\$6.00	Foot/Day
Chemical Hose, UHMWP or equivalent, 2".....	\$8.00	Foot/Day
Chemical Hose, UHMWP or equivalent, 3".....	\$10.00	Foot/Day
Chlorine Hose.....	\$40.00	Foot/Day+Hydrotest
LPG / Anhydrous Ammonia Hose.....	\$25.00	Foot/Day
Petroleum Hose:		
Petroleum Hose, 1".....	\$1.50	Foot/Day
Petroleum Hose, 2".....	\$2.25	Foot/Day
Petroleum Hose, 3".....	\$2.75	Foot/Day
Miscellaneous Hose:		
Air Compressor Hose, 3/4", 50'.....	\$15.00	Day
Air Compressor Hose, 3/8", 50'.....	\$10.00	Day
Corrugated Polyethylene Hose, Flexible, 4" - 6".....	\$2.00	Foot/Job
Fire Hose, 1.5" - 3.0".....	\$1.15	Foot/Day
Fire Hose, 4.0" - 5.0".....	\$2.50	Foot/Day
Hydraulic Hose.....	\$2.50	Foot/Day
Discharge Hose (Lay-flat), 1.5" - 2.0".....	\$0.65	Foot/Day
Discharge Hose (Lay-flat), 3.0".....	\$1.00	Foot/Day
Steam Hose, 1".....	Cost + 20%	
Steam Hose, 2".....	Cost + 20%	
Suction/Discharge Hose, 4".....	\$3.50	Foot/Day
Suction/Discharge Hose, 6".....	\$5.00	Foot/Day
Ventilation Duct Hose, 12" - 18", 25'.....	\$50.00	Day
Ventilation Duct Hose, 19" - 24", 25'.....	\$75.00	Day
Water Hose, 1/2" - 3/4", 50'.....	\$25.00	Job

Associated Fittings and Capping Kits:

Capping Kits:

Betts Emergency Unloading Valve.....	\$350.00	Day
Capping Kit, Chlorine "A".....	\$550.00	Day + gasket repl.
Capping Kit, Chlorine "B".....	\$600.00	Day + gasket repl.
Capping Kit, Chlorine "C".....	\$750.00	Day + gasket repl.
Capping Kit, H2S.....	\$550.00	Day + gasket repl.
Capping Kit, Midland.....	\$1,200.00	Day + gasket repl.
Cylinder Coffin.....	Cost + 20%	
Magnetic Quick Frame Patch.....	\$450.00	Day
Conversion Kit, Metric Thread to Standard Pipe Thread (ISO Kit).....	\$350.00	Day
Drum Vacuum, 2" Stainless Steel.....	\$250.00	Day
Fittings Charge for Transfers.....	\$300.00	Day
Fittings Charge for High Pressure Transfers.....	\$450.00	Day
Grounding/Bonding System.....	\$100.00	Each/Day
Flowmeter, 2" Stainless Steel.....	\$175.00	Day

Gaskets:

1" Teflon/Viton.....	\$7.00	Each
1" Other Materials.....	\$2.00	Each
1.5" Teflon/Viton.....	\$9.00	Each
1.5" Other Materials.....	\$3.00	Each
2" Teflon/Viton.....	\$10.00	Each
2" Other Materials.....	\$3.00	Each
3" Teflon/Viton.....	\$20.00	Each
3" Other Materials.....	\$4.00	Each
4" Teflon/Viton.....	\$40.00	Each
4" Other Materials.....	\$5.00	Each
6" Teflon/Viton.....	\$65.00	Each
6" Other Materials.....	\$8.00	Each
Gasket Cutter Kit.....	\$50.00	Day
Gasket, Manway/Dome Lid, Teflon/Viton.....	\$250.00	Each
Gasket, Manway/Dome Lid, Other Materials.....	\$100.00	Each
Gasket Material, Butyl.....	\$340.00	Square Yard
Gasket Material, Neoprene.....	\$100.00	Square Yard
Gasket Material, Nitrile/Buna-N.....	\$150.00	Square Yard

Gasket Material, Viton	\$1,350.00	Square Yard
Dome, Protective Housing Seals.....	\$5.00	Each
High Pressure Gauge Test Kit.....	\$75.00	Day
"Lid Loc" Dome Clamp Set (MC-406/306 Model).....	\$300.00	Day
"Lid Loc" Dome Clamp Set (MC-407/307 Model).....	\$350.00	Day
Nitrogen Purge System (Includes 1 nitrogen cylinder).....	\$350.00	Job
Rupture Disc, 165 psi, Graphite for HCL.....	\$90.00	Each
Rupture Disc, 165 psi, Stainless Steel/Teflon.....	\$45.00	Each
Rupture Disc, ICD Intermodal Container.....	Cost + 20%	
Sight Glass, 2" Stainless Steel.....	\$100.00	Day
Stinger, Stainless Steel or Polyethylene.....	\$50.00	Day

Upon completion of projects involving chemical transfers, equipment such as pumps, hoses, gaskets, elastomers, valves, etc. will be subject to replacement/rebuilding. Any repairs, including pump rebuilds, will be invoiced at cost with no mark-up.

BOOM, SKIMMERS AND SORBENTS

Boom:

48" Containment Boom.....	\$15.00	Foot/Day
42" Containment Boom.....	\$13.00	Foot/Day
36" Containment Boom.....	\$11.00	Foot/Day
20" - 24" Containment Boom.....	\$3.00	Foot/Day
18" Containment Boom.....	\$1.60	Foot/Day
10" - 12" Containment Boom.....	\$1.25	Foot/Day
4" - 6" Containment Boom.....	\$1.00	Foot/Day
Containment Boom, Magnetic Hull Connector.....	\$60.00	Day
Boom Anchors		
10-Pound.....	\$20.00	Each
15-Pound.....	\$30.00	Each
22-Pound.....	\$75.00	Each
40-Pound.....	\$125.00	Each
65-Pound.....	\$250.00	Each
Anchor Marker Buoy.....	\$40.00	Each
Boom Lights, Electric Strobe.....	\$25.00	Day
Boom Lights, 12-Hour Chemical.....	\$10.00	Each

Skimmers:

Hydraulic Power Pack to 25 HP.....	\$275.00	Day
Hydraulic Power Pack, 25.1 to 50 HP.....	\$500.00	Day
Skimmer, Drum, 24".....	\$650.00	Day
Skimmer, Drum, 36".....	\$750.00	Day
Skimmer, Drum, 72".....	\$900.00	Day
Skimmer, Duck Bill.....	\$30.00	Day
Skimmer, Weir, 18" to 24".....	\$150.00	Day
Skimmer, Manta Ray.....	\$150.00	Day
Skimmer, Marco Sidewinder/Filter Belt Skimming System.....	\$4,000.00	Day
Marco Backing Belt Replacement.....	\$1,650.00	Each
Marco Light Oil Belt Replacement.....	\$1,650.00	Each
Marco Filterbelt / Pads Replacement.....	\$1,045.00	Each
Marco Diesel Pads Replacement.....	\$1,100.00	Each
Skimmer, Rope Mop I-4 (Plus Rope Mop Rental).....	\$375.00	Day
Skimmer, Rope Mop II-4.....	\$425.00	Day
Skimmer, Rope Mop II-6.....	\$475.00	Day
Skimmer, Rope Mop II-9.....	\$525.00	Day
Rope Mop Rental, 4".....	\$1.10	Foot/Day
Rope Mop Rental, 6".....	\$1.38	Foot/Day
Rope Mop Rental, 9".....	\$1.65	Foot/Day
Rope Mop Replacement, 4".....	\$26.12	Foot
Rope Mop Replacement, 6".....	\$28.60	Foot
Rope Mop Replacement, 9".....	\$44.00	Foot
Rope Mop Tail Pulley, 12".....	\$11.00	Day

Rope Mop Tail Pulley, 16".....	\$22.00	Day
Skimmer, Skim Pak, Small.....	\$125.00	Day
Skimmer, Skim Pak, Large.....	\$175.00	Day
Skimmer, Slurp.....	\$150.00	Day
Sorbents:		
Astrogel, or equivalent.....	\$150.00	Bag
Bio-Sorb.....	\$90.00	Bale
Cell-U-Sorb.....	\$36.00	Bag
Chemsorb Pillows.....	\$18.00	Each
Floor Dry.....	\$16.00	Bag
Industrial Mat, 3' x 150'.....	\$225.00	Each
Nature's Broom Absorbent, 20 lbs.....	\$15.00	Bag
Oil Gator.....	\$28.00	Bag
Oil Snare, Loose.....	\$60.00	15-lb. Box
Oil Snare, Rope, 50' Section.....	\$90.00	Bag
Sorbent Boom		
5" x 10' Section (4 Sections per Bag).....	\$105.00	Bag
8" x 10' Section (4 Sections per Bag).....	\$155.00	Bag
Chemical (4 Sections per Bag).....	\$120.00	Bag
Sorbent Pads, Chemical, 100 per bale.....	\$75.00	Bale
Sorbent Pads, Petroleum, 100 per bale.....	\$50.00	Bale
Sorbent Roll, 38" x 144'.....	\$120.00	Roll
Sorbent Sweeps.....	\$100.00	Bale
Vermiculite, 4 cubic feet.....	\$35.00	Bag
Vermiculite, 2 cubic feet.....	\$28.00	Bag

HEALTH, SAFETY, MONITORING AND PERSONNEL PROTECTIVE EQUIPMENT

Protective Clothing:

Suits and Coveralls:

Chemical Resistant Suit, Tychem SL, with Respirator Fit, or Equivalent.....	\$66.00	Each
Chemical Resistant Suit, CPF-3, with Respirator Fit, or Equivalent.....	\$87.00	Each
Chemical Resistant Suit, CPF-3 Fully Encapsulating (Level B), or equivalent	\$190.00	Each
Chemical Resistant Suit, Tychem BR, with Respirator Fit, or Equivalent.....	\$125.00	Each
Chemical Resistant Suit, Tychem BR, Enhanced Level B Coverall with SCBA Interface, or Equivalent.....	\$570.00	Each
Chemical Resistant Suit, Tychem BR, Fully Encapsulating (Level B), or Equivalent.....	\$287.00	Each
Chemical Resistant Suit, Tychem TK, with Respirator Fit, or Equivalent.....	\$155.00	Each
Firefighter Structural Turn-out Gear/Bunker Gear (Plus decontamination charge).....	\$300.00	Day
Flame Retardant Coveralls.....	\$25.00	Day
Level A, Disposable.....	\$1,390.00	Each
Level A, Disposable equipped with Breathing Air Pass-Through.....	\$1,660.00	Each
Level A, with Flash Cover, Disposable.....	\$3,325.00	Each
Level D Modified (Includes 2 Tyvek/NexGen or poly-coated Tyvek coveralls & 2 pair of PVC, Nitrile or Neoprene gloves).....	\$50.00	Man/Day
Level D Modified (Includes 2 Tychem SL coveralls and 2 pair of PVC, Nitrile or Neoprene gloves).....	\$140.00	Man/Day
Responder (DuPont), CSM, with attached booties, gloves, and Respirator Fit.....	\$490.00	Each
Responder (DuPont), CSM, Fully Encapsulating, (Level A) (Limited Use).....	\$2,470.00	Each
Thermopro (DuPont), coverall flash and chemical protection.....	\$550.00	Each
Tyvek/NexGen.....	\$12.00	Each
Tyvek Suit, PVC-Coated (QC or Equivalent).....	\$16.00	Each
Chemical Resistant, CPF 3 or Tychem BR, Hood with Visor.....	\$55.00	Each

Gloves:

Gloves, Butyl, with inner gloves.....	\$55.00	Pair
Gloves, Inner.....	\$1.00	Pair
Gloves, Leather.....	\$8.50	Pair
Gloves, PVC, Nitrile, Neoprene, with inner gloves.....	\$8.00	Pair
Gloves, Natural Rubber/Neoprene Blend.....	\$3.00	Pair
Gloves, SilverShield or Equivalent.....	\$8.00	Pair

Gloves, Viton, with inner gloves.....	\$75.00	Pair
Gloves, PVA, with inner gloves.....	\$35.00	Pair
Gloves, Barrier, with inner gloves.....	\$8.00	Pair
Gloves, Cryogenic, Mid-arm Length.....	\$165.00	Pair
Gloves, Level IV Puncture/Cut Resistant gloves.....	\$80.00	Pair

Boots and Boot Covers:

Boot, 16" PVC/Rubber with Steel Toe.....	\$20.00	Pair/Day
Boot, 16" Chemical Resistant with Steel Toe (Beta or Equivalent).....	\$40.00	Pair/Day
Boot, Level A, Chemical Resistant with Steel Toe (Beta or Equivalent).....	\$80.00	Pair/Day
Boot Covers, Latex	\$8.00	Pair
Boot Covers, SilverShield or Equivalent.....	\$15.00	Pair
Boot Covers, Tyvek or equivalent.....	\$4.00	Pair
Puncture Resistant Insoles.....	\$37.50	Pair
Metatarsal Guard.....	\$36.00	Pair/Day

Miscellaneous:

Chainsaw Chaps.....	\$30.00	Day
Level A Suit Pressure Test Kit.....	\$35.00	Test
Muffs, Hearing Protection, 3 Position.....	\$5.00	Day
Personal Flotation Device (PFD).....	\$15.00	Day
Rain Suit, (Limited use).....	\$16.00	Each
Rain Suit, Class III Compliant.....	\$15.00	Day
Snake Guards.....	\$15.00	Day
Splash Shield/Full Face Shield System.....	\$5.00	Day
Splash Shield/Full Face Replacement Polycarbonate Visor.....	\$10.00	Each
Survival Coat, Cold Weather/Flotation.....	\$35.00	Day
Survival Suit, Cold Weather/Flotation.....	\$50.00	Day
Tape, Chemical Resistant.....	\$35.00	Roll
Tape, Duct.....	\$9.00	Roll
Waders, Chest.....	\$50.00	Day

Fall Protection and Confined Space Entry Equipment:

Confined Space Rescue Trailer (♦ Equipment listed below included).....	\$750.00	Day
♦ Confined Space Rescue Kit.....	\$250.00	Day
♦ Full Body Harness.....	\$35.00	Day
♦ Lanyard, Shock Absorbing.....	\$20.00	Day
♦ Lock Out/Tag Out Kit.....	\$25.00	Day
♦ Retrieval Tripod with Winch.....	\$200.00	Day
♦ Stokes Stretcher with Flotation Kit.....	\$100.00	Day
♦ Sked Rescue Stretcher W/Backboard (poly).....	\$100.00	Day
Flood Light, Air Powered, Intrinsically Safe.....	\$100.00	Day
Flood Light, Explosion Proof.....	\$100.00	Day
Life Safety Rope (Replacement Cost).....	\$1.35	Foot
Tank Car Entry Ladder.....	\$30.00	Day
Trauma Kit, Basic, Inc. O2	\$50.00	Day

Respiratory Protection:

Air Hose, Breathing Air, 50'.....	\$25.00	Section/Day
Air Hose, Protective Covering.....	\$0.72	Foot
Breathing Air Trailer (Does not include ancillary equipment).....	\$400.00	Day
Cascade System, Per Person (Including hip mounted unit, 50' air hose and mask).....	\$225.00	Day
Cascade System Bottle Refill.....	\$25.00	Bottle
Dust Mask, Disposable.....	\$2.00	Each
Porta Count Fit Test.....	\$25.00	Test
Porta Count Fit Test Analyzer.....	\$100.00	Day
Respirator, Advantage 1000 Chem/Bio APR.....	\$125.00	Day
Respirator, Disposable, N-95.....	\$3.50	Each
Respirator, Disposable, P-100 Particulate.....	\$12.00	Each
Respirator, Full Face, APR.....	\$60.00	Day
Respirator Cartridges, Advantage 1000 Chem/Bio.....	\$120.00	Each
Respirator Cartridges, Mercury/P-100.....	\$60.00	Pair
Respirator Cartridges, Organic Vapor/Acid Gas GMA/P-100.....	\$40.00	Pair

Respirator Cartridges, Combination GME/P-100 Multigas.....	\$40.00	Pair
Respirator Cartridges, P-100 Particulate.....	\$25.00	Pair
Self Contained Breathing Apparatus (SCBA), Industrial, 60 Min.....	\$225.00	Day
Self Contained Breathing Apparatus (SCBA), NFPA-Rated, 60 Min.....	\$350.00	Day
SCBA Bottle, Spare.....	\$20.00	Bottle

Traffic Control Equipment:

Traffic Control Trailer with barrels, cones, signs, sign lights, signal flags, etc. for 0.25-1.0 mile of lane closure.....	\$1,100.00	Day
Individual barrels, cones, signs, sign lights, signal flags, etc. for less than 0.25 or greater than 1.0 mile lane closure.....	\$25.00	Each/Day
Traffic Barricades, Water Filled.....	\$35.00	Day
Flashing Arrow Trailer, Solar Powered.....	\$250.00	Day
Traffic Wand LED Light.....	\$10.00	Day

Field Instrumentation and Related Supplies:

Air Monitoring Equipment:

Area RAE System (Includes 4 Units, RAElink Receiver, and Computer).....	\$780.00	Day
4-Gas Meter Plus PID	\$275.00	Day
Compound Specific Sensors.....	Cost + 20%	
Benzene Meter.....	\$300.00	Day
Compound-specific filter tube.....	\$18.00	Each
Calibration Gas.....	Cost + 20%	
Colorimetric Detector Tube.....	\$20.00	Each
Colorimetric Detector Tube, Exotic Compounds.....	Cost + 20%	
Colorimetric Tube Pump.....	\$75.00	Day
Combustible Gas Indicator/4-Gas Meter.....	\$125.00	Day
Jerome 431-X Portable Mercury Vapor Analyzer.....	\$300.00	Day
Laboratory Analysis for Filter Tubes, Vacuum Canisters and Tedlar Bags.....	Cost + 20%	
Lumex Mercury Analyzer (RA 915 Light).....	\$750.00	Day
Miran SapphiRe Portable Ambient Air Analyzer.....	\$750.00	Day
OVA (FID).....	\$300.00	Day
OVM (PID).....	\$250.00	Day
OVM (PID), ppbRAE.....	\$300.00	Day
Random Aerosol Monitor (Mini Ram).....	\$150.00	Day
Sampling Pump, Personnel.....	\$50.00	Day
Sampling Tube, Charcoal.....	\$10.00	Tube
Sampling Tube, PUF	\$65.00-\$145.00	Tube
Sampling Tube, Silica Gel	\$18.00	Tube
Sampling Tube, TDT.....	\$120.00	Tube
Sampling Tube, Teflon/Tygon, to 1/4" I.D.....	\$8.00	Foot
Tedlar Bag.....	\$60.00	Bag
Toxic Gas Detector, Multiple Gases.....	\$225.00	Day
Toxic Gas Detector, Single Gas.....	\$150.00	Day
Toxic Gas Detector, Single Gas - Personal.....	\$35.00	Day
Vacuum Canister.....	Cost + 20%	

Testing/Sampling Equipment:

Bailer, Polyethylene (Disposable).....	\$20.00	Each
Clor-N-Oil Test Kit.....	\$30.00	Each
Clor-N-Soil Test Kit.....	\$42.00	Each
Clor-D-Tect Test Kit.....	\$36.00	Each
Coliwasa, Disposable Glass.....	\$18.00	Each
Conductivity Meter.....	\$75.00	Day
FLIR Compact IR Thermal Imager.....	\$150.00	Day
HazCat Testing		
Laboratory Trailer (HazCat Testing).....	\$650.00	Day
HazCat Kit.....	\$75.00	Day
Portable Vented Hood with Explosion Proof Exhaust Fan.....	\$150.00	Day
Sample (7 Step Process for Unknowns).....	\$10.00	Sample
Additional Tests.....	\$2.00	Each

Cyanide Test Kit.....	\$65.00	Kit
Interface Probe, Oil/Water.....	\$175.00	Day
Megger (Earth Resistance Tester).....	\$150.00	Day
Ohm Meter for Ground Testing.....	\$25.00	Day
pH Indicator Spray.....	\$15.00	Liter
pH Indicator Strips.....	\$35.00	Pack
pH Meter.....	\$75.00	Day
pH Pen.....	\$30.00	Day
Radiation Survey Meter.....	\$150.00	Day
Sample Bottles, 4-12 ounce.....	\$6.00	Each
Sample Bottles, 16-32 ounce.....	\$8.00	Each
Sample Bottles, VOC.....	\$12.00	Each
Sample Kit.....	\$30.00	Each
Soil Auger, Stainless Steel.....	\$55.00	Day
Stainless Steel Sampling Bowls & Spoons.....	\$3.00	Each/Day
Thermometer, Infrared Laser	\$45.00	Day

TOOLS AND RELATED EQUIPMENT, HAND AND POWER

Air Compressor, to 12 CFM.....	\$95.00	Day
Air Compressor, trailer-mounted (110 - 185 CFM).....	\$225.00	Day
Air Compressor, trailer-mounted (186 - 250 CFM).....	\$300.00	Day
Air Horn, Venturi 6" - 8".....	\$50.00	Day
Air Horn, Venturi 12" - 14".....	\$75.00	Day
Blower, Leaf.....	\$80.00	Day
Chain, 3/8" to 5/8", 25'.....	\$10.00	Day
Chain Saw.....	\$100.00	Day
Chop Saw/Cut-off Saw, Gas Powered.....	\$100.00	Day
Chop Saw/Cut-off Saw Blade (Abrasive).....	\$30.00	Each
Chop Saw/Cut-off Saw Blade (Carbide/Diamond).....	Cost + 20%	
Coppus Blower, 20" Turbine Driven Fan	\$90.00	Day
Cutting Torch, Gauges & Gas (1 oxygen & 1 acetylene cylinder).....	\$200.00	Day
Drill, Pneumatic.....	\$50.00	Day
Drill Kit, Pneumatic for drilling tankers.....	\$150.00	Day
Exhaust Blower, Non-Intrinsically Safe.....	\$45.00	Day
Extension Cord, Electrical.....	\$10.00	Each/Day
Fan, Industrial 36" - 48", Non-Intrinsically Safe.....	\$35.00	Day
Fan, Intrinsically-Safe Blower/Exhaust.....	\$65.00	Day
Ventilation Duct Hose, 12" - 18", 25'.....	\$50.00	Day
Ventilation Duct Hose, 19" - 24", 25'.....	\$75.00	Day
Hand Tools (Shovels, Rakes, Nets, Pitchforks, etc.).....	\$25.00	Each
Hand Tools (Pipe wrenches, Cresnet wrenches, etc.).....	\$25.00	Each/Day
Hand Tools, Non-Sparking.....	\$25.00	Per Tool
Hand Tools, Pneumatic, Miscellaneous.....	\$50.00	Each/Day
Hand Tools, Power (Skill Saw, Reciprocating Saw, Drill, Band Saw, etc.).....	\$35.00	Each/Day
Hand Tools, Replacement Blades/Bits.....	Cost + 20%	
Heat Gun.....	\$35.00	Day
Heater, Room.....	\$25.00	Day
Heater, Torpedo (Fuel not included).....	\$65.00	Day
Impact Wrench, 1".....	\$50.00	Day
Ladder, Step or Extension.....	\$25.00	Day
Level, Construction Laser.....	\$100.00	Day
Metabo/Angle Grinder, w/Cutting Wheels.....	\$65.00	Day
Nippers, Metal Cutting, Pneumatic.....	\$60.00	Day
Pallet Jack.....	\$35.00	Day
Pallet Puller.....	\$15.00	Day
Pipe Cutter and Threader (Manual).....	\$45.00	Day
Spreader, Truck Mounted (Dry to 300-lb. Capacity).....	\$100.00	Day
Tank Gauging Stick, 10' - 12'.....	\$10.00	Day
Tape Measure, 100' - 300'.....	\$10.00	Day
Tape, Oil Gauging (1/2" x 75').....	\$20.00	Day
Tape, Roller-Wheel.....	\$10.00	Day

Tool Kit, Manual, SAE/Metric.....	\$25.00	Day
Vise, Portable Pipe.....	\$25.00	Day
Weed Eater, Industrial.....	\$85.00	Day
Weed Eater, Industrial, with Tiller Attachment.....	\$95.00	Day
Weed Eater, Industrial, with Power Broom.....	\$100.00	Day
Welding Machine, Portable with rods, hood, hand tools, etc.....	\$275.00	Day
Wheelbarrow.....	\$25.00	Day

DECONTAMINATION, CLEANING SUPPLIES AND NEUTRALIZING AGENTS

Biological Decontamination Equipment:

Degreaser, Foaming for Food-Handling Surfaces.....	\$32.00	Quart
Foamer, Pump Sprayer.....	\$40.00	Day
Foamer, 10-gallon (Pneumatic).....	\$175.00	Day
Foamer, 25-gallon (Pneumatic).....	\$225.00	Day
Fogger/Fumigator, Pneumatic.....	\$225.00	Day
Hand Sanitizer, 2-oz.....	\$3.00	Bottle
Hand Sanitizer, 8-oz.....	\$6.00	Bottle
RelyOn Disinfectant.....	\$26.50	Pound of Powder
RelyOn Tablets (50 Tablets).....	\$45.00	Jar
Sterilex Ultra Kleen Disinfectant.....	\$62.00	Gallon
Virkon-S Disinfectant.....	\$10.00	Pound of Powder

Decontamination Equipment:

Brushes, Decontamination/Scrub.....	\$15.00	Each
Brushes, Decontamination/Scrub with 4' - 6' Handle.....	\$20.00	Each
Containment Pool, Pop-up (20 gallons).....	\$125.00	Each
Containment Pool, Pop-up (100 gallons).....	\$195.00	Each
Emergency Shower, Portable.....	\$100.00	Day
Eye Wash Station, Portable.....	\$35.00	Day
Eye Wash Station, Saline Solution.....	\$7.50	Gallon
Personnel Decon Station (1 poly pool, brushes, decon solution, rubber matting, 2 pump sprayers).....	\$95.00	Each
Pool, Decontamination (Disposable).....	\$25.00	Each
Pool, Decontamination, 25' x 50' (Multi-Use).....	\$275.00	Day
Pool, Decontamination, 25' x 100' (Multi-Use).....	\$425.00	Day
Sprayer, Pump.....	\$38.00	Each

Cleaning Supplies, Neutralizing Agents and Inoculants:

Bleach, Household Strength (5%).....	\$5.00	Gallon
Citric Acid, 50 lbs.....	\$125.00	Bag
"D-Limonene".....	\$36.00	Gallon
Degreaser, Foaming for Food-Handling Surfaces.....	\$32.00	Quart
Degreaser, General Purpose Petroleum Based.....	\$30.00	Gallon
Degreaser, Hot Tank, 55-Gallon Drum.....	\$550.00	Drum
Degreaser, Hot Tank.....	\$18.00	Gallon
Degreaser, VC Cleaner.....	\$20.00	Gallon
Degreaser, "Walter", 55-Gallon Drum.....	\$550.00	Drum
Degreaser, "Walter".....	\$18.00	Gallon
Detergent (Dawn, Joy, etc.).....	\$4.00	12 oz
Detergent, Liqui-Nox.....	\$28.00	Quart
Ferrous Sulfate, 50 lbs.....	\$35.00	Bag
Hand Cleaner.....	\$5.00	Tube
"Less-Than-Ten".....	\$275.00	5 Gallons
Lime, Agricultural, 50 lbs.....	\$10.00	Bag
Lime, Hydrated, 50 lbs.....	\$12.00	Bag
Lubricant/Rust Inhibitor (WD-40, LPS, Liquid Wrench, etc.).....	\$25.00	Gallon
Lubricant/Rust Inhibitor (WD-40, LPS, Liquid Wrench, etc.).....	\$9.00	12-oz Spray
Micro Blaze.....	\$250.00	5-Gallons
Micro Blaze.....	\$2,700.00	55-Gallon Drum
Simple Green.....	\$26.00	Gallon

Simple Green.....	\$120.00	5-Gallons
Simple Green, 55-Gallon Drum.....	\$820.00	Drum
Super Clean.....	\$18.00	Gallon
Soda Ash, 50 lbs.....	\$22.00	Bag
Sodium Bicarbonate, 50 lbs (Industrial Grade).....	\$22.00	Bag
Trisodium Phosphate, 5 lbs.....	\$14.00	Bag
Trisodium Phosphate, 50 lbs.....	\$96.00	Bag

Mercury Spill Control Equipment:

Carpet Knives.....	\$15.00	Each
Exhaust Blower, Non-Intrinsically Safe.....	\$45.00	Day
Exhaust Blower, Duct Work, (Single Use).....	Cost + 20%	
Heat Gun, Electric.....	\$35.00	Day
Heater, Room.....	\$25.00	Day
Heater, Torpedo (Fuel not included).....	\$65.00	Day
Jerome 431-X Portable Mercury Vapor Analyzer.....	\$300.00	Day
Lumex Mercury Analyzer.....	\$750.00	Day
Mercon Solution.....	\$200.00	Gallon
Mercon Solution, 5 Gallon Pail.....	\$975.00	5 Gal Pail
Mercon Wipes (Package of 70).....	\$65.00	Each
CS-102, 55-Gallon Drum.....	\$2,900.00	Drum
CS-102, 1-Gallon.....	\$60.00	Gallon
Mercury Granular Absorbent.....	\$165.00	2,500 grams
Mercury Granular Absorbent.....	\$75.00	1,000 grams
Mercury Indicator Powder.....	\$65.00	250 grams
Mercury Vacuum.....	\$300.00	Day
Torch, Propane.....	\$20.00	Day
Torch, Propane, 100,000 BTU.....	\$30.00	Day
Propane Cylinders, <20 oz.....	\$8.00	Each
Propane Bottle Refills.....	Cost + 20%	

FIREFIGHTING EQUIPMENT

Fire Extinguishers:

Fire Extinguisher, Dry Chemical 20 lb unit.....	\$10.00	Day
Refill (If used).....	\$40.00	Each
Fire Extinguisher, PKP 20 lb unit.....	\$15.00	Day
Refill (If used).....	\$110.00	Each
Fire Extinguisher, PKP 150 - 300 lb wheeled unit.....	\$95.00	Day
Refill (If used).....	\$850.00	Each
Fire Extinguisher, PKP 350 lb wheeled unit.....	\$150.00	Day
Refill (If used).....	\$1,125.00	Each
Fire Extinguisher, 30 lb Metal X.....	\$40.00	Day
Refill (If used).....	\$175.00	Each

Fire Pumps and Fire Support Trailers:

Fire Trailer with 1,100 GPM Fire Pump.....	\$1,500.00	Day
Fire Trailer with 2,500 GPM Fire Pump.....	\$3,600.00	Day
Fire Pump, Darley 575 GPM Hercules or equivalent.....	\$750.00	Day
Fire Boss (Trailer-mounted twin agent fire fighting system).....	\$950.00	Day
Refill (If used).....	\$1,700.00	Each
24' Fire Support Trailer.....	\$450.00	Day
36' Fire Support Trailer.....	\$750.00	Day
36' Low Profile Gooseneck Trailer.....	\$250.00	Day

Foam and Foam Equipment:

Foam, AR-AFFF, (3 x 3%).....	\$210.00	5 Gallons
Foam, AR-AFFF, (3 x 3%), 55-Gallon Drum.....	\$2,300.00	Each
Foam, Class A (1%).....	\$165.00	5 Gallons
Foam, Class A (1%), 55-Gallon Drum.....	\$1,775.00	Each
Foam Tote Tank, 550-Gallon, w/sling.....	\$15.00	Day
Foam, X-TRA High Expansion.....	\$150.00	5 Gallons
Foam Eductor, 1.5" 95 GPM.....	\$100.00	Day
Foam Eductor, 2.5" 250 GPM.....	\$150.00	Day

Foam Nozzle, High Expansion 25 GPM.....	\$125.00	Day
Foam Nozzle, Medium Expansion 240 GPM.....	\$125.00	Day
Foam Nozzle, 350 - 1,000 GPM Self Educating Master Stream.....	\$125.00	Day
Foam Nozzle, 500 GPM Self Educating Master Stream.....	\$125.00	Day
Fire Nozzles and Monitors:		
Cellar Nozzle, with Applicator, 95 GPM.....	\$125.00	Day
Fog Nozzle, 1.5" Automatic.....	\$125.00	Day
Fog Nozzle, Turbojet 2.5" Adjustable.....	\$175.00	Day
Fog Nozzle, Turbojet, 1.5" Adjustable.....	\$125.00	Day
Fog, Master Stream Nozzle, 500 GPM.....	\$125.00	Day
Fog, Master Stream Nozzle, 1,000 GPM.....	\$125.00	Day
Monitor, 2.5" Quick Attack with 500 GPM Nozzle.....	\$250.00	Day
Monitor, 5.0" Storz Single-Inlet.....	\$250.00	Day
Monitor, Oscillating with Nozzle, 375 GPM.....	\$300.00	Day
Monitor, (2) 2.5" Inlet.....	\$250.00	Day
Stacked Tips Set for Monitor.....	\$50.00	Day
Piercing Applicator, 1.5", 125 GPM (3' or 6').....	\$125.00	Day
Dasptit Tool Rim Clamp Nozzle System.....	\$1,500.00	Day
Adapters, Fittings and Valves:		
Adapter, 1.5" NPSH x 1.5" NH, Female.....	\$15.00	Day
Adapter, 1.5" NPSH x 1.5" NH, Male.....	\$15.00	Day
Adapter, 2" Storz x 2" BSP x 2.5" NH, Male, Marine.....	\$25.00	Day
Adapter, 2.5" NH Female x 1.5" Male.....	\$15.00	Day
Double Female Adapter, 1.5" - 2.5".....	\$15.00	Day
Double Male Adapter, 1.5" - 2.5".....	\$15.00	Day
Gated Valve, 2.5" NH.....	\$60.00	Day
Gated Wye, 2.5" x (2) 1.5".....	\$75.00	Day
High Rise Pack (100' 1.75" Hose, Nozzle, Spanner, 2.5" x 1.5" Adapter).....	\$130.00	Day
Hose Clamp, Hebert LDH.....	\$50.00	Day
Manifold, Storz LDH 5" x 5" x (4) 2.5".....	\$150.00	Day
Manifold, Storz LDH 5" x (3) 2.5".....	\$125.00	Day
Storz Gate Valve, LDH 6" NH X 5".....	\$125.00	Day
Storz Gate Valve, LDH 5" Storz X 5".....	\$125.00	Day
Storz Adapter, 2.5" NHF x 5".....	\$25.00	Day
Storz Adapter, 4.5" Female NH x 5".....	\$25.00	Day
Storz Adapter, 5" Female NH x 5".....	\$25.00	Day
Storz Adapter, 6" Female NH x 5".....	\$25.00	Day
Storz Outlet Siamese Clappered, (2) 2.5" x 5".....	\$25.00	Day
Water Thief with (2) 1.5" x (1) 2.5".....	\$125.00	Day
Wye, 6" Plain Male NH.....	\$100.00	Day
Water Supply Equipment:		
Basket Strainer, 6".....	\$20.00	Day
Fire Hose, 1.5" - 3.0".....	\$1.15	Foot/Day
Fire Hose, 4.0" - 5.0".....	\$2.50	Foot/Day
Floating Strainer, 4".....	\$50.00	Day
Floating Strainer, 6".....	\$75.00	Day
Suction Hose, 6" x 10' with NH fittings.....	\$35.00	Day
Suction Hose, 6" x 20' with Camlock fittings.....	\$50.00	Day
Suction Hose, 4" NH X 10'.....	\$35.00	Day
Suction Hose Strainer, 4" NH.....	\$15.00	Day
Suction, Standpipe/Strainer, 8", with Foot Valve.....	\$350.00	Day
Water Tank, Folding, 2,100 gallons.....	\$175.00	Day
Water Tank, Self Supportive, 5,000 gallons.....	\$250.00	Day
Fire Service Ladders:		
Ladder, 10' Folding Attic.....	\$35.00	Day
Ladder, 14' Roof with Hooks.....	\$40.00	Day
Ladder, 24' Extension.....	\$65.00	Day
Forcible Entry Tools:		
Axe, Flathead.....	\$20.00	Each/Job
Bolt Cutters, 18" Insulated.....	\$20.00	Each/Job
Bolt Cutters, 36" Non-Insulated.....	\$30.00	Day
Houligan Tool.....	\$20.00	Each/Job

Pike Pole, 6' - 8', Fiberglass.....	\$20.00	Day
Pry Bar/Pinch Bar, 51".....	\$20.00	Each/Job
Saw, K-12 Abrasive, Plus Blades.....	\$150.00	Day
Sledge Hammer.....	\$20.00	Each/Job
Ventilation Equipment:		
Fan, Gasoline PPV.....	\$200.00	Day
Smoke Ejector, Electric.....	\$150.00	Day
Miscellaneous Tools and Equipment:		
Pitot Gauge, Akron.....	\$40.00	Day
Wrench, Adjustable Hydrant.....	\$10.00	Day
Wrench, Spanner.....	\$5.00	Day
Wrench, Stortz Spanner.....	\$5.00	Day
Thermal Imaging Camera with Wireless Transmission.....	\$250.00	Day
Personal Protective Equipment		
Firefighter Structural Turn-out Gear/Bunker Gear (Plus decontamination charge).....	\$300.00	Day
Flame Retardant Coveralls.....	\$25.00	Day
Self Contained Breathing Apparatus (SCBA), NFPA-Rated, 60 Minute.....	\$350.00	Day
SCBA Bottle, Spare.....	\$20.00	Bottle

COMMUNICATIONS AND OFFICE EQUIPMENT

Cellular Phone.....	\$10.00	Day
Satellite Phone	\$75.00	Day
Airtime.....	\$2.00	Minute
Copier, Portable.....	\$15.00	Day
Camera, Digital.....	\$15.00	Day
Camera, Video.....	\$75.00	Day
Camera, Web.....	\$75.00	Day
Electronic Copies of Reports, Documents, Photographs on CD or Jump Drive.....	\$15.00	Each
Fax Machine.....	\$35.00	Day
Global Positioning System Receiver, Handheld.....	\$10.00	Day
Laptop Computer with Printer.....	\$35.00	Day
Radio, 2-way Hand-Held.....	\$30.00	Day
Radio, 2-way Hand-Held (Intrinsically Safe).....	\$60.00	Day

MISCELLANEOUS EQUIPMENT AND SUPPLIES

All-Terrain Vehicles:		
ATV (4-wheeler).....	\$300.00	Day
ATV (4-wheeler) Trailer.....	\$75.00	Day
ATV (4-wheeler) Trailer, All-Terrain.....	\$75.00	Day
ATV - Utility Vehicle (Mule, Gator or equivalent).....	\$375.00	Day
Amphibious 8-wheel Vehicle.....	\$550.00	Day
Utility Truck, 6 x 6.....	\$550.00	Day
Bird Scare Gun with Propane Bottle.....	\$45.00	Day
Propane Bottle Refills.....	Cost + 20%	
Blast-Resistant Container Sampler.....	\$500.00	Day
Butterworth Spin-Jet Nozzle, Stainless Steel.....	\$225.00	Day
Carbon, Vapor Phase, 55-Gallon Drum.....	\$900.00	Drum
Carbon Scrubber with Pre-Filters Unit, 750 to 1,000-Gallon Unit.....	\$500.00	Day
Cartridge Filters, Replacement for Pre-Filters.....	Cost + 20%	
Carbon.....	Cost + 20%	
Containment Berm, Portable (10'-15' x 10'-15').....	\$75.00	Day
Containment Berm, Portable (10'-12' x 50').....	\$100.00	Day
Drums and Small Containers:		
95-Gallon Poly Overpack.....	\$250.00	Each
85-Gallon Steel Recovery.....	\$225.00	Each
55-Gallon Closed/Open Top Steel (New).....	\$85.00	Each
55-Gallon Closed/Open Top Steel (Reconditioned).....	\$65.00	Each
55-Gallon Closed/Open Top Poly (New).....	\$85.00	Each
55-Gallon Closed/Open Top Poly (Reconditioned).....	\$55.00	Each
30-Gallon Closed/Open Top Steel (New).....	\$110.00	Each
30-Gallon Closed/Open Top Poly (New).....	\$75.00	Each

15-Gallon Closed/Open Top Poly (New).....	\$65.00	Each
20-Gallon Pollution Can (New).....	\$25.00	Each
5-Gallon Bucket with Lid.....	\$14.00	Each
5-Gallon Lab-Pack Bucket with Screw Top.....	\$28.00	Each
Box, Cubic Yard.....	\$100.00	Each
Box, Lab Pack, 55-Gallon.....	\$35.00	Each
Drum Dolly.....	\$25.00	Day
Drum Insert, 55 Gallon (Polyethylene).....	\$35.00	Each
Drum Labels and Placards.....	\$2.00	Each
Drum Lift.....	\$25.00	Day
Drum Liners, 1.8 mil.....	\$1.25	Each
Drum Liners, 3.0 mil.....	\$2.00	Each
Drum Liners, 6.0 mil.....	\$3.00	Each
Drum Pump - Disposable.....	\$25.00	Each
Drum Wrench, Non-Sparking.....	\$10.00	Day
Fan, Cool Mist.....	\$75.00	Day
Fence, Construction Safety, 100'.....	\$65.00	Roll
Fence, Silt, 100'.....	\$65.00	Roll
Generators, Power/Electrical:		
Generator to 4 KW	\$125.00	Day
Generator, 4.1 to 8 KW.....	\$175.00	Day
Generator, 8.1 to 15 KW.....	\$225.00	Day
Generator, 15.1 to 25 KW.....	\$275.00	Day
Generator, 25.1 to 35 KW.....	\$325.00	Day
Generator, 35.1 to 45 KW.....	\$375.00	Day
Generator, 45.1 to 55 KW.....	\$400.00	Day
Generator, 55.1 to 65 KW.....	\$450.00	Day
Generator, 65.1 to 75 KW.....	\$625.00	Day
Generator, 75.1 to 119 KW.....	\$735.00	Day
Generator, 119.1 to 129 KW.....	\$775.00	Day
Generator, 129.1 to 149 KW.....	\$835.00	Day
Grounding Equipment, Rods and Cables.....	\$35.00	Each/Job
Hose Wrap, 2".....	\$3.00	Per 25'
Hose Wrap, 4".....	\$9.00	Per 25'
Labels and Forms:		
Drum Labels and Placards.....	\$2.00	Each
Form, Bill of Lading.....	\$5.00	Each
Form, Waste Manifest.....	\$5.00	Each
Leak Detection Liquid, Inert (8-ounce).....	\$16.00	Each
Lighting:		
Flashlight, Intrinsically Safe.....	\$12.00	Day
Flashlight, Non-Intrinsically Safe.....	\$6.00	Day
Flood Light, Air Powered, Intrinsically Safe.....	\$100.00	Day
Flood Light, Explosion Proof.....	\$100.00	Day
Light Plant, Trailer Mounted.....	\$300.00	Day
Light Stand, Portable.....	\$35.00	Day
Streamlight "Lite Box" 20-Watt Hand Lantern.....	\$20.00	Day
Lock Out/Tag Out Kit.....	\$25.00	Day
NFPA 704 Marking System, Magnetic.....	\$10.00	Day
Pallet.....	\$20.00	Job
Paste, Kolor Kut.....	\$8.00	Tube
Plugging, Epoxy Stick.....	\$12.00	Each
Plugging/Patching Kit.....	\$75.00	Plug/Patch
Polyethylene Bags, 6 mil (50" x 33").....	\$85.00	Roll of 50
Polyethylene Sheeting, 20' x 100', 4 mil.....	\$105.00	Roll
Polyethylene Sheeting, 20' x 100', 6 mil.....	\$140.00	Roll
Polyethylene Sheeting, 40' x 100', 4 mil.....	\$245.00	Roll
Polyethylene Sheeting, 40' x 100', 6 mil.....	\$370.00	Roll
Pressure Washing Equipment:		
Hydroblaster, to 10,000 psi.....	\$575.00	Day
Hydroblaster, 10,001 to 20,000 psi.....	\$675.00	Day
Line Jetter, 35 GPM, 2,000 psi.....	\$450.00	Day

Pressure Washer.....	\$150.00	Day
Pressure Washer Hose, 50' (3,500 psi).....	\$25.00	Day
Pressure Washer Nozzle, Turbo (3,500 psi).....	\$20.00	Day + Rebuild
Pressure Washer Wand, Telescopic (3,500 psi).....	\$25.00	Day
Pressure Washer-Hot Water (to 3,500 psi).....	\$275.00	Day
Pressure Washer-Hot Water, trailer mounted, self contained (to 3,500 psi).....	\$500.00	Day
Rope:		
Polypropylene:		
1/4", 600' spool.....	\$35.00	Spool
1/4" (<1/2 spool).....	\$0.18	Foot
3/8", 600' spool.....	\$80.00	Spool
3/8" (<1/2 spool).....	\$0.22	Foot
1/2", 600' spool.....	\$145.00	Spool
1/2" (<1/2 spool).....	\$0.30	Foot
3/4", 600' spool.....	\$300.00	Spool
3/4" (<1/2 spool).....	\$0.48	Foot
Poly-Dacron/Nylon:		
3/8", 600' spool.....	\$175.00	Spool
3/8" (<1/2 spool).....	\$0.54	Foot
1/2", 600' spool.....	\$325.00	Spool
1/2" (<1/2 spool).....	\$1.00	Foot
3/4", 600' spool.....	\$725.00	Spool
3/4" (<1/2 spool).....	\$1.90	Foot
Shelter, Pop-up (10' x 10').....	\$35.00	Day
Silicone Caulk.....	\$12.00	Tube
Stakes, Wood.....	\$1.50	Each
Storage Tanks, Bulk:		
Tank, Polyethylene to 2,000 Gallons.....	\$100.00	Day
Tote Container, Polyethylene.....	\$45.00	Day
Stress Relief (Sports drinks, bottled water, vitamin water, etc.).....	\$10.00	Man/Day
Stretch Wrap.....	\$45.00	Roll
"T" Post.....	\$9.00	Each
"T" Post Driver.....	\$10.00	Day
Table, Polyethylene.....	\$15.00	Day
Tape:		
Barrier.....	\$30.00	Roll
Chemical Resistant.....	\$35.00	Roll
Duct.....	\$9.00	Roll
Electrical.....	\$3.00	Roll
Teflon.....	\$3.00	Roll
Tarpaulin, 15' x 15'.....	\$25.00	Day
Teflon Packing Material.....	\$60.00	1-lb/Roll
Tubing, Teflon/Tygon, to 1/4" I.D.....	\$8.00	Foot
Vacuum Equipment:

Terms and Conditions

1. Personnel are charged Portal-to-Portal, with a four-hour minimum charged upon activation.
2. Straight Time rates apply to the first eight hours worked between 0800 and 1200, and between 1300 and 1700 Monday through Friday. All other hours worked, including lunch hours, Saturdays, Sundays and holidays, will be charged at the Overtime rate, except that Christmas Day shall be charged at double the Straight Time rate. USES observes Federal holidays with the exception of: Washington's Birthday, Birthday of Martin Luther King, Jr, Columbus Day, and Veteran's Day. When these holidays fall on a weekend, the nearer weekday will be charged at the Overtime rate as well.
3. Subsistence to cover lodging, incidentals, breakfast, and dinner (lunch is not included) will be charged at \$125.00 per day per person for work performed fifty miles from the employee's normal U.S. Environmental Services location when overnight accommodations are required. In the instances where the employee performs work 50 or more miles from his/her home office, and work exceeds 12 hours in one day, but overnight accommodations are not required, \$40.00 per day per person will apply to cover meals and incidentals.

4. To ensure proper hydration, ice, water and sports drinks will be provided to site workers at a charge of \$10.00 per employee per day (will appear as "Stress Relief" on the invoice).
5. Response to incidents involving chemical or biological terrorism, real or perceived, labor will be charged at 1.25 times the referenced rate schedule. Responses to incidents involving bulk containers that are structurally breached, or involved in fire, and containing any of the following listed DOT hazard classes or listed commodities will be invoiced applying a multiplier on labor of 1.25: Chlorine, Hydrogen Fluoride or Hydrofluoric Acid (concentration > 49%), Hydrogen Cyanide or Hydrocyanic Acid, Hydrogen Sulfide, Sulfur Dioxide, Fluorine, Bromine, Anhydrous Ammonia, Ethylene Oxide, Methyl Bromide or Carbon Disulfide, and any compounds identified as Chemical Warfare Agents. Bulk packaging means a packaging including a transport vehicle or freight container, in which hazardous materials are loaded and which has: (1) A capacity of 500 gallons or greater as a receptacle for a liquid; (2) A net mass greater than 2,000 lbs and a minimum capacity greater than 500 gallons or 3,740 cubic feet as a receptacle for a solid; or (3) A water capacity greater than 4,880 lbs as a receptacle for a gas. Or a container or structure containing multiple containers, regardless of size, with a total volume or weight equal to or exceeding the definition of a bulk container. This also applies to any products designated by the U.S. Department of Transportation as: Poison Inhalation Hazards, Class 1.1, 1.2, or 1.3 Explosives, and any single commodity that carries any combination of Poison, Flammable, or Corrosive classifications.
6. Subcontractor charges and non-scheduled equipment, services, and supplies will be charged at Cost + 20%.
7. Applicable federal, state and local taxes, except income and ad valorem, as they pertain to services, equipment rental, sales of material, manufacturer repair, delivery and/or transportation are the responsibility of the customer, whether charged to the customer or not.
8. Certificates of Insurance will be issued upon request.
9. All equipment is billed portal-to-portal, from time of activation.
 - a. All equipment charged on an hourly basis will be billed for a minimum of four hours upon activation.
 - b. All equipment billed on a daily basis will be charged for a full day upon activation, which includes up to 8 hours of use. USES reserves the right to charge an additional amount (bill) for equipment that works in excess of 8 hours/day on an incremental basis, (i.e. 12 hours of use on site = 1.5 days).
 - c. Equipment held in Reserve at USES's office, (standby), for the exclusive use of the customer, will be billed at a Reserve (standby) rate equal to half the standard rate until released by the customer. Reserve (standby) rates only apply to USES-owned equipment and does not apply to subcontracted or rented equipment. Once the reserved equipment leaves a USES office location, it is no longer on Reserve (standby) rates (whether working or not), and the customer will be billed at the full standard rate until such time the equipment has been demobilized and completed the decontamination process, and has been returned to the USES office, unless otherwise agreed to in writing.
 - d. Once deployed from a USES location/office, all equipment will be billed at the full daily rate until decontamination is complete and the equipment is demobilized and returned to the USES location/office, unless otherwise negotiated and agreed to in writing.
 - e. All equipment damage will be repaired and such repairs will be charged to the customer at Cost + 20%. All equipment damaged beyond economical repair, (and not the fault of USES), will be replaced at the customer's expense at Cost + 20%.
10. Disposal of recovered product, contaminated materials and all waste materials (hazardous and non-hazardous) is the customer's responsibility and liability. USES does not take ownership, responsibility or liability of materials and wastes. The customer understands and agrees that USES (a) has not caused or created the environmental conditions that are the subject of our services; (b) has not, and does not, and will not, own or take title to the material, substances, wastes, or contaminated media that are addressed as part of our services or that we may collect, containerize, excavate, accumulate or dispose of as part of our services. The customer agrees to indemnify USES and hold us harmless from and against all claims, costs, losses and damages arising out of or relating to (x) any existing environmental condition that is the subject of our services; (y) any allegation or claim that we are liable as an owner or operator; or (z) any allegation or claim that we are liable as a handler, treater, storer or disposer of any material, wastes, substances or contaminated media.
11. USES will charge a waste storage fee for waste materials that are transported to a secure USES facility for storage pending disposal. A charge of \$25.00/drum/job and \$75.00/rolloff container/job will apply. This fee will only be charged when the waste material is stored at a secure facility owned or operated by USES.
12. All operations are conducted at the direction of the customer; however, USES retains the exclusive right to make specific assignments of equipment operators and crews for response operations. USES supervisors and employees shall not be required to perform any operations that they consider unsafe or illegal.
13. A restocking, equipment decontamination and maintenance charge will apply to each response trailer following an emergency response. This charge will be on a Time and Materials basis.
14. **Only Applies to Mississippi Projects Involving Soil Excavation:** In order to comply with the Mississippi State Tax Codes (Mississippi Code Annotated, Section 27-65-21), please be advised that projects involving the excavation of soil will be subject to the following rate schedule adjustments and/or taxes:
 - a. Non-residential projects involving the excavation of soil that have a value of \$10,000.00 or less will be subject to 7% Mississippi State Sales Tax. The only exceptions are local, state and federal governmental agencies.
 - b. All residential projects involving the excavation of soil will be subject to 7% Mississippi State Sales Tax regardless of the project value. The only exceptions are local, state and federal governmental agencies.

- c. For non-residential excavation projects exceeding \$10,000.00, USES is assessed a 3.5% Contractor's Tax in accordance with the Mississippi State Tax Codes (Mississippi Code Annotated, Section 27-65-21). Per Mississippi State Tax Commission regulations, this tax must be included in the contractor's rates and subcontracted services and cannot appear as a line item on the invoice. As a result, for projects over \$10,000.00 involving soil excavation, USES rates for labor, equipment, materials, services and subcontracted services will be increased by a multiplier of 1.0362694 in order to comply with the Mississippi State Tax Commission. The result is that USES will recognize net revenue of \$100.00; however, the customer will be charged \$103.63 [i.e. a charge of \$103.63 less $(0.035\% \times 103.63) = \100.00].
 - d. With regard to the markup of subcontracted services included with USES invoicing, all subcontracted services will be marked up by the applicable handling fee, 20% as per our Rate Schedule, and the multiplier of 1.0362694 will be applied against the marked up total. This will result in an effective mark-up/handling fee of 24.35% [i.e. $\$100.00 \times 1.20\% = \120.00 , $\$120.00 \times 1.0362694 = \124.35]. In effect, USES will charge \$124.35, but will realize \$120.00, or \$124.35 less $(124.35 \times 0.035) = \120.00 .
- 15. Expendable items may be subject to price increases due to market cost fluctuations or excessive demand due to major events. Examples of these items include PPE, sorbent materials, polyethylene sheeting, drums, drum liners, cleaning/neutralizing agents, anchors and other consumables. USES reserves the right, at our sole discretion, to charge these items at Cost + 20% per the contract terms.
 - 16. Invoices for goods and services pursuant to these terms and conditions will be issued at the conclusion of the project or phase of project. Prompt payment within thirty (30) calendar days from Customer's receipt of the invoice is expected on all invoices, and USES will assess a late fee on the unpaid balance at the rate of one and a half percent (1.5%) per month or the highest rate allowed under applicable law, whichever is less. In the event that unpaid invoices are turned over for collection, the customer shall pay for all costs and expenses, including attorneys fees. In addition to the above, USES reserves the right to stop work and remove equipment on any project or work site for which invoices are not paid within 30 days of issuance. Payment under these terms is not waived for any reason including reimbursement time from the customer's insurance company.
 - 17. USES is not responsible for collection from the customer's insurance provider. The customer is responsible for paying the full amount of the USES invoice, regardless of whether they are reimbursed by their insurance company or not.
 - 18. Should USES be forced to collect from the National Pollution Fund for any reason, USES reserves the right to charge for legal, overhead, and administrative fees at its then applicable rates. The customer is responsible for these charges.

Proposal to City of Hattiesburg:

ATTACHMENT 2

RFP & ADDENDUM ACKNOWLEDGEMENT

January 27, 2017

REQUEST FOR PROPOSAL
TO ESTABLISH
Debris Monitoring Assistance for
Hattiesburg Mississippi DR-XXXX

To: Debris Monitoring Companies interested in Services for the City of Hattiesburg
From: Lamar Rutland, City Engineer.
Date: January 23, 2017
Subject: Request for Proposal (RFP) for Debris Monitoring Firms to Assist the City of Hattiesburg for DR-TBD.
Contact Name: Lamar Rutland, City Engineer
Contact Phone Number: 601-545-4540
Contact E-mail Address: lrutland@hattiesburg.com

SUMMARY OF THE RFP

Hattiesburg Mississippi, (hereinafter "City") is seeking qualified Firms for Disaster Debris Monitoring Assistance. This Request for Proposal (RFP) is issued following a Disaster that warrants outside assistance where the City Personnel, Equipment, and Mutual Aid Agreements are not sufficient for this event. This RFP is for Debris Monitoring for FEMA "Category A" only; Direct Administrative Cost (DAC) will not be a part of the proposal.

Hattiesburg will utilize the Mississippi Personal Service Contract Review Board (PSCRB) Rules and Regulations as a guideline for this RFP. The PSCRB is established and maintained by the Mississippi State Personnel Board (MSPB) for guidelines for State Agencies. The MSPB is not required to approve this proposal or Contract. However responding firms should make themselves aware of these guidelines for legalities associated with this type agreement.

Information is sought for Debris Monitoring of disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the State), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this project however if the City, State, or FEMA authorizes the ROE it will become part of this project.

Respondent should be aware of Historical Preservation Laws since the City of Hattiesburg has an immense number of houses, commercial buildings, schools, city properties, etc. listed on the Historical Register (**SEE ATTACHMENT A**).

The City will seek Services city-wide. The City will evaluate the Information and establish a Short List of firms that will be invited for final interviews. Respondent should be aware the City may elect to utilize multiple companies for Monitoring should the event size require such action. Respondent is cautioned to review this RFP as the Federal Office of Management and Budget has introduced new guidelines per the "Super Circular" (2 CFR 200.318 through 326 for non federal entities) for all Federal Agencies participating in Federal Grants including FEMA and the FHWA. As part of the combinations within the Super Circular, A-102 combines 44 C.F.R 13.36 with 2 CFR 200.318 to 326.

It shall be noted that this Request for Proposal is consistent with the *FEMA FP 104-009-2 Public Assistance Program and Policy Guide (January 2016)*. This request, possible contract, and event expenditures are not contingent upon receipt of FEMA funding.

The objective of this RFP is to establish Debris Monitoring Services for **DR XXXX**. Respondent shall appoint a single Point of Contact (SPOC) for the Project that shall be responsible for managing staff, working with the City, the Mississippi Emergency Management Agency (MEMA), FEMA, and the FHWA as requested. The RFP response should be clear on how the Respondent will assist Hattiesburg for Debris Monitoring. **This Project consist of an EF-3 Tornado striking the City of Hattiesburg on January 21, 2017.**

Hattiesburg will receive proposals from firms having specific experience and qualifications in the areas identified in this request. For consideration, information must contain evidence of experience and abilities in the specified area and other disciplines directly related to Debris Monitoring. Other information required by the City may be included elsewhere in the proposal.

Respondent shall provide key resumes of staff to be assigned to projects. References and examples of similar work, and other data that demonstrates the Respondent's experience in the area of Debris Monitoring will also be required.

A City Debris Committee will review and assess all proposals. The committee will only have the proposals to review for selection of Respondent(s). It is therefore important that Respondent emphasizes specific information pertinent to the work. Assessments/Scoring of the proposals will be based as follows:

A. The overall quality of the plan for performing Debris Monitoring Services including Safety Practices and Historic Preservations. The plan must maintain a full understanding of the requested services, integrity, and compliance with public policy. Consideration will be given to the entirety and specific requirements of the request. (Important-20 points)

B. Respondent ability to perform the Debris Monitoring Services as reflected by past performance, general experience, specific experience in providing the services, and the qualifications and abilities of personnel to be assigned to

perform such services. (Very Important – 20 points)

C. The personnel, equipment, facilities, technical, and financial resources to perform this type service currently available or demonstrated to be made available at the time of request and possible future contracting. (Important – 20 points)

D. A record of past performance of similar work. (Critical – 20 points)

E. Price (Critical-20 points)

Respondent's Response shall contain the following Information:

1. Be authorized or prove intent to transact business in the State of Mississippi (the "State").
2. Be able to provide Monitoring of all disaster related debris, as set forth in the Scope of Services hereto and incorporated herein by reference (the "Services").
3. Be willing and capable of performing the Services in a timely manner, including, but not limited to, maintenance of proper documentation, proper documentation preparation and management and event closure services.
4. Be knowledgeable and have experience in the provision of the Services and in insuring that Services are in line with FEMA practices.
5. Be able to perform the Services in a timely manner and on short notice, recognizing that in the event of a Task Order, the City desires maximum percentage of completion of projects within the allotted time frames. Maximum Debris Removal within the first 30 days is desirable and the City prefers not to exceed 90 days for completion of any project however the maximum allotted time frame could extend to 180 days.
6. Provide SAM (System for Award Management) Number if available. Registration with SAM is not required however if available it will be reviewed for any current Responder status.

Respondent additional information:

1. Name of Respondent, location of Respondent's principal place of business, and the place of performance for any proposed contract.
2. Age of responders business and the average number of employees over the past three (3) years.
3. Resume' listing abilities, qualifications, and experience of key individuals who will be assigned to provide the required services.

4. Listing of five similar projects under which services similar in scope, size, or discipline were performed or undertaken, including at least three (3) references for current projects or those awarded during the past six (6) years.
5. List five (5) or more projects to include the names and addresses of the projects, the scope of the project, and the names and telephone numbers of the clients for reference purposes. All information in the request must be completed. Proposals containing incomplete data will be rejected.
6. A Technical Plan giving as much detail as practical explaining how the services will be performed.
7. Plan for subcontractor participation. Note, per FEMA FP-104-009-2 (January 2016) **Procurement Standards page 30; Vendors shall conduct all necessary affirmative steps to ensure the use of minority, women's business enterprises, and labor surplus area firms when possible.** Respondent can utilize the Mississippi Development Authority (or other state systems) to assist in locating such companies by using the established MDA Search utility at <http://minority.mississippi.org/> or <http://www.mmbbr.org>. The Small Business Administration and the Department of Commerce's Minority Business Development Agency can also be utilized to solicit these businesses. A Disadvantaged Business Enterprise (DBE) may also be considered.

INSURANCE REQUIREMENTS

Prior to signing of any contract, Respondent agrees to furnish the City with all applicable certificates of insurance. The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the aforementioned insurance. **Proof of Insurability must be provided with the proposal.**

Within 24 hours following the signing of any contracts, Respondent shall provide copies of insurance policies including all endorsements.

A. Commercial General Liability and Errors and Omissions - in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability - Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

D. Professional Liability (Errors & Omissions) – Proposer shall provide coverage for all claims arising out of the services performed with limits not less than \$1,000,000 per claim. The aggregate limit shall either apply separately to any contract or shall be at least twice the required per claim limit.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

Project will require a maximum dollar cap. Should the project exceed the dollar cap, the Contractor may request additional justifiable funding that will require the City Council's approval.

Response

All submitted RFP's become the property of the city and subject to all applicable public records laws include the Mississippi Public Records Act of 1983.

Hattiesburg reserves the right to accept, reject, or negotiate any or all proposals on the basis of the criteria contained within this document. The final decision to execute a contract with any party will be decided by the city.

Response Acceptance

The original and three (3) copies of the response and all attachments (four copies total) along with one electronic copy of the proposal saved as a .pdf file and stored on a CD or jump drive shall be signed and submitted in a sealed envelope or package to: **City of Hattiesburg City Clerk, at PO Box 1898 or 200 Forrest Street, Hattiesburg Mississippi 39403-1898 no later than 10:00 a.m. Central Standard Time on Saturday 28, 2017.**

No electronic or facsimile copies of the RFP will be accepted. Timely submission of the RFP is the responsibility of the Respondent. Offers received after the specified time shall be rejected and returned to the Respondent unopened. **The envelope or package shall be marked with the RFP opening date and time and the number of the request for RFP. The time and date of receipt shall be indicated on the envelope or package by the City Clerk's Office.** Each page of the RFP, all attachments and the CD/Jump Drive shall be identified with the name of the Respondent.

Proprietary Information

The Respondent should clearly mark any and all pages of the proposal considered to be proprietary information which may remain confidential in accordance with current State Code.

When the City receives a request to release information properly designated as confidential or proprietary by a Respondent, the City shall give the owner of this

information a reasonable time to obtain a court order protecting the information as confidential. If the City receives a court order it must then notify the requestor that the information is protected by court order and cannot be furnished.

Debarment

By submitting a response to this RFP, the Respondent including principles and or owners certifies that he/she is not currently debarred from participating in any Federal or State Grant Programs.

Procurement Regulations and Guidelines

Respondent is advised to review the Mississippi Personal Service Contract Review Board Rules and Regulation that will be utilized as a guideline for contracts (<http://www.mspb.ms.gov/personal-service-contract-review-board/pscrb-rules-regulations.aspx>). Appendix D and Appendix F contain multiple items that will be included in any contract. Not all items will be included in the contract but Respondent must accept these guidelines.

The following clauses are required conditions when soliciting information for personal services by the Personal Service Contract Review Board Rules and Regulations per Appendix D & F:

1. Acknowledgment of Amendments

Respondent shall acknowledge receipt of any amendments by copying and signing and being a part of the request. Amendments may include Questions/Answers.

2. Applicable Law

Any Contract as a result of this RFP shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding conflicts of law's provisions, and any litigation with respect thereto shall be brought in the courts of the state. The Respondent shall comply with applicable federal, state, and local laws and regulations.

3. Availability of Funds

It is expressly understood and agreed that the obligation of the City to issue a contract as a result of this RFP is conditioned upon the appropriation of funds by the City of Hattiesburg.

4. Representation Regarding Contingent Fees

Respondent represents that it has not retained a person to solicit or secure a contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Respondent's proposal.

5. Representation Regarding Gratuities

The Respondent represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 7-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

6. Compliance with Laws

The Respondent understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on

race, color, creed, sex, age, national origin, physical handicap, disability, or any other consideration made unlawful by federal, State, or local laws. All such discrimination is unlawful and the Respondent agrees during the term of any agreements that the Respondent will strictly adhere to this policy in its employment practices and provision of services. The Respondent shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

7. E-Verification

Respondent represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act (Senate Bill 2988 from the 2008 Regular Legislative Session) and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Respondent agrees to maintain records of such compliance and, upon request of the State, to provide a copy of each such verification to the State. Respondent further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject Respondent to the following:

- (1) Termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public; or,
- (2) The loss of any license, permit, certification or other document granted to Respondent by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- (3) Both.

In the event of such termination/cancellation, Respondent would also be liable for any additional costs incurred by the State due to contract cancellation of license or permits.

8. Transparency (July 1, 2016)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent agency contract website for public access at

<http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

9. Approval

It is understood that any contract requires approval by the City Council. If a contract is not approved, it is void and no payment shall be made hereunder.

10. Confidential Information

"Confidential Information" shall mean: (a) those materials, documents, data, and other information which the Respondent has designated in writing as proprietary and confidential; and, (b) all data and information which Respondent acquires as a result of its contact with and efforts on behalf of the customer and any other information designated in writing as confidential by the City. Each party to this agreement agrees to the following:

(1) to protect all confidential information provided by one party to the other;

(2) to treat all such confidential information as confidential to the extent that confidential treatment is allowed under state and/or federal law; and,

(3) except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission; and,

(4) to do so by using those methods and procedures normally used to protect the party's own confidential information.

Any liability resulting from the wrongful disclosure of confidential information on the part of Respondent or its subcontractors shall rest with the Responder.

11. Confidentiality

Notwithstanding any provision to the contrary contained herein, it is recognized that *the City of Hattiesburg* is a public entity in the State of Mississippi and is subject to the Mississippi Public Records Act. Miss. Code Ann. §§ 25-61-1 *et seq.* (1972, as amended). If a public records request is made for any information provided to *the City* pursuant to any agreement, *the City* shall promptly notify the disclosing party of such request and will respond to the request only in accordance with the procedures and limitations set forth in applicable law. The disclosing party shall promptly institute appropriate legal proceedings to protect its information. No party shall be liable to the other party for disclosures of information required by court order or required by law.

12. Attorney's Fees and Expenses

Subject to other terms and conditions of possible future contracts, in the event the Respondent defaults in any obligations under the agreement, the Respondent shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorney's fees) incurred by the City in enforcing this agreement or otherwise reasonably related thereto. Respondent agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to any Respondent.

13. Authority to Contract

Respondent warrants: (a) that it is a validly organized business with valid authority to enter into an agreement; (b) that it is qualified to do business and in good standing in the State of Mississippi; (c) that entry into and performance into an agreement is not restricted or prohibited by any loan, security, financing, contractual, or other agreement of any kind, and (d) notwithstanding any other provision of agreements to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under any agreement.

14. Respondent's Personnel

The City shall, when contracting, have the right of reasonable rejection and approval of staff or Subcontractors.

15. Failure to Deliver

In the event of failure of the Respondent to deliver services in accordance with the terms and conditions of any contract, the City, after due written notice, may procure the services from other sources and hold the Respondent responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

16. Failure to Enforce

Failure by the City at any time to enforce contractual provisions will not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of any contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

17. Independent Respondent Status

Respondent shall, at all times, be regarded as an independent Respondent under future contracts and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Respondent, or any third party as creating the relationship of principal and agent, master and servant, partners, joint ventures, employer and employee, or any similar such relationship between the City and the Respondent.

18. No Limitation of Liability

Nothing in any future Agreement shall be interpreted as excluding or limiting any tort liability of the Respondent for harm caused by the intentional or reckless conduct of the Respondent or for damages incurred through the negligent performance of duties by the Respondent or the delivery of products that are defective due to negligent construction.

19. Notices

All notices required or permitted to be given under any agreement must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Respondent: Name **Brad Barnes**
Title **Commercial Services Manager**
Respondent **United States Environmental Services,**
LLC
Address **15109 Heathrow Forest Parkway Suite 150**
Houston, TX 77032

For the City: **City of Hattiesburg**
Purchasing Clerk
PO Box 1898
Hattiesburg, MS 39403-1898

20. Ownership of Documents and Work Papers

The City shall own all documents, files, reports, work papers and working documentation, electronic or otherwise, created in connection with any contract services, except for the Respondent's internal administrative and quality assurance files and internal project correspondence. The Respondent shall deliver such documents and work papers to the City upon termination or completion of each project. The Respondent shall be entitled to retain a set of such work papers for its files. Respondent shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections.

21. Record Retention and Access to Records

Provided the Respondent is given reasonable advance written notice and such inspection is made during normal business hours of the Respondent, the City or any duly authorized representatives, shall have unimpeded, prompt access to any of the Respondent's books, documents, papers, and/or records which are maintained or produced as a result of any contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this Agreement shall be retained by the Respondent for three (3) years after final Declaration Closeouts. However, if any audit, litigation or other action arising out of or related in any way to future contracts is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

22. Right to Inspect Facility

The City may at reasonable times inspect the place of business of a Respondent or any Subcontractor which is related to the performance of any Contract awarded by the City.

23. Termination for Convenience

1. Termination. The City may, when the interests of the City so require, terminate any contract in whole or in part, for the convenience of the City. The City Engineer shall give written notice of the termination to the Respondent specifying the part of any contract terminated and when termination becomes effective.

2. Respondent's Obligations. Respondent shall incur no further obligations in connection with the terminated work and on the date set in the notice of

termination the Respondent will stop work to the extent specified. The Respondent shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The Respondent shall settle the liabilities and claims arising out of any termination of subcontracts and orders connected with the terminated work. The City Administrator may direct the Respondent to assign the Respondent's right, title, and interest under terminated orders or subcontracts to the City. The Respondent must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

24. Termination for Default

(1) *Default.* If Respondent refuses or fails to perform any of the provisions of any contract with such diligence as will ensure its completion within the time specified in any contract or any extension thereof, or otherwise fails to timely satisfy contract provisions, or commits any other substantial breach of any contract, the procurement officer may notify the Respondent in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the procurement officer, such officer may terminate Respondent's right to proceed with a contract or such part of a contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the procurement officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the procurement officer. Respondent shall continue performance of any contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(2) *Respondent's Duties.* Notwithstanding termination of contracts and subject to any directions from the procurement officer, Respondent shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Respondent in which the City has an interest.

(3) *Compensation.* Payment for completed services delivered and accepted by the City shall be at a contract price. The City may withhold from amounts due Respondent such sums as the procurement officer deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

(4) *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Respondent shall not be in default by reason of any failure in performance of any contract in accordance with its terms (including any failure by Respondent to make progress in the prosecution of the work hereunder which endangers such performance) if Respondent has notified the procurement officer within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Respondent

shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Respondent to meet contract requirements. Upon request of Respondent, the procurement officer shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Respondent's progress and performance would have met the terms of any contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

(5) *Erroneous Termination for Default.* If, after notice of termination of Respondent's right to proceed under the provisions of this clause, it is determined for any reason that any contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if any contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

(6) *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under any contract.

25. Termination upon Bankruptcy

Any future Contract may be terminated in whole or in part by the City upon written notice to Respondent, if Respondent should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by the Respondent of an assignment for the benefit of its creditors. In the event of such termination, the Respondent shall be entitled to recover just and equitable compensation for satisfactory work performed under any contract, but in no case shall said compensation exceed a total contract price.

26. Third Party Action Notification

Respondent shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Respondent by any entity that may result in litigation related in any way to any agreements.

27. Unsatisfactory Work

If at any time during any contract term, the service performed or work done by the Respondent is considered by the City to create a condition that threatens the health, safety, or welfare of the citizens and/or employees of the City, the Respondent shall, on being notified by the City, immediately correct such deficient service or work. In the event the Respondent fails, after notice, to correct the deficient service or work within 24 hours, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Respondent.

28. Waiver

No delay or omission by either party to any agreement in exercising any right, power, or remedy hereunder or otherwise afforded by contracts, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to any agreement shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of any agreement will void, waive, or change any other term or condition. No waiver by one party to any agreement of a default by the other party will imply, be construed as or require waiver of future or other defaults.

REQUIRED FEDERAL PROCUREMENT CLAUSES

1. Clean Air Act and the Federal Water Pollution Control Act (over \$150,000.00).

Respondent shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671g) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA.

2. Retention/Access of Records

Respondent will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

3. Energy Policy and Conservation Act

Respondent shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

4. Debarment and Suspension

Respondent shall not subcontract with any parties listed on the government-wide Excluded Parties List System in the **System for Award Management (SAM)**, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." Respondent shall not subcontract with any parties that are currently debarred and listed with the Mississippi Department of Finance and Administration (DFA) (www.dfa.ms.gov).

5. Byrd Anti-Lobbying Amendment

Respondent certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S. C. 1352. Respondent shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal Award. Respondent shall require all subcontractors to submit these same certifications.

6. **Contract Work Hours and, Safety Standards Act, as Amended (over \$100,000.00).**
7. **Equal Opportunity Clause 41 CFR60-1.4**
8. **Coordination of Grants Related Civil rights statutes, Executive Order 12250.**

EVALUATION PROCEDURE PROCESS:

1. Qualifications of Respondent

Respondent may be required before the award of any contract to show to the complete satisfaction of City that it has the necessary facilities, integrity, ability, compliance with public policy, past performance, technical, and financial resources to provide the service specified therein in a satisfactory manner. The Respondent may be required to provide legal understanding of the Personal Service Contract Review Board Rules and Regulations as well as the Federal Office of Management and Budget Super Circular. Respondent may also be required to give a past history and references in order to satisfy the City in regards to the Respondent's qualifications. The City may make reasonable investigations deemed necessary and proper to determine the ability of the Respondent to perform the work, and the Respondent shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any offer if the evidence submitted by, or investigation of, the Respondent fails to satisfy the City that the Proposer is properly qualified to carry out the obligations of future contracts and to complete the work described therein. Evaluation of the Respondent's qualifications shall include:

1. The ability, capacity, skill, financial, and other necessary resources to perform the work or provide the service required;
2. The ability of Respondent to perform the work or provide the service promptly or within the time specified, without delay or interference;
3. The character, integrity, reputation, judgment, experience, and efficiency of the Respondent; and,
4. The quality of performance of previous contracts or services.
5. Price.

First Step: RFP's will be reviewed to meet compliance with the request. RFP's that do not comply with the specifications will be rejected and no further consideration given.

Second Step: RFQ's that complete the First Step will be reviewed/analyzed for determination if the response adequately meets the needs of the City. The following factors will be utilized:

1. The overall quality of the proposed plan and for performing the required services – the plan should reflect an understanding of the project and its

objectives. Consideration will be given to the completeness of the response to the specific requirements of the solicitation. (Critical - 20 points)

2. Respondent's ability to perform such services as reflected by technical training and education, general experience, specific experience in providing the required services, and the qualification and abilities of personnel proposed to be assigned to perform the services. This includes the ability of the Respondent to provide a work product that is legally defensible. (Very Important - 20 points)
3. The personnel, equipment, facilities, and financial resources to perform the services currently available or demonstrated to be made available at the time of contracting. (Important - 20 points)
4. A record of past performance of similar work. Direct experience in Mississippi is desirable but not required. (Critical - 20points)
5. Price (20 points).

Third Step: The City may contact the most qualified Respondent by telephone to schedule an interview.

SCOPE OF WORK:

DR-XXXX

Hattiesburg Mississippi, is seeking Professional Services proposals for Debris Monitoring Firms. Proposals will be sought for Monitoring of federally declared disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the City, State, and FEMA), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this Service however if the City, State, or FEMA authorizes the ROE it will become part of the Service. The City will seek proposals for said services City-wide. The City will evaluate the Proposals on what is in the best interest of the City and the nature of the event. The City will seek to identify a Respondent to oversee either City Task Force or Debris Removal Contractor(s). It shall be noted that any Contract is for payment of "Only Debris Services that FEMA Determined Eligible" and is consistent with FEMA Public Assistance Program and Policy Guideline (FP-104-009-2, January 2016).

This Scope of Work (SOW) is provided for Respondent to review in detail, the SOW is detailed as to the terms of request and Respondent should acknowledge each line item. Should a Respondent take exception to any line items in the SOW it should be clearly stated within the proposal.

Respondent must provide a technical overview for debris monitoring as to how they complete this project.

The scope of work/services as described below shall be considered minimum standards to meet in submitting their proposal for debris monitoring services. The Monitoring Services Respondent shall be experienced and knowledgeable in handling and executing disaster debris removal and disposal monitoring in compliance and consistent with the policies and publications of MEMA, FEMA, and FHWA. Throughout these specifications, any reference to FEMA shall also imply FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved.

Examples of guidelines and regulations include but are not limited to the following:

FP-104-009-2 January 2016

Emergency Relief Manual (Federal-Aid Highways)- November 2009

The City will designate a Debris Task Force Manager (DTFM) that will act as the Point of Contact (POC) for the event. The DTFM POC may consist of a City Employee, a Professional Contractor, or the City Engineer.

The Respondent will work with the City Debris Task Force Manager by assisting in determining the amounts of debris prior to beginning services.

Respondent will work with all associated teams including MEMA, FEMA, City, County, Debris Removal Contractors, and FHWA as needed for timely project completions, cost effectiveness, and maximum FEMA Category A reimbursements.

Respondent will measure and certify all equipment associated with either the City Task Force or approved removal contractor(s). Respondent will be familiar with standard MDOT Traffic Control Measures and report to the Debris Task Force Manager any safety issues or irregularities.

Respondent will report any delays, issues or concerns by the City or Removal Contractor to the City Task Force Manager.

Respondent will oversee all debris pick up sites as well as temporary and or final sites. Oversight will include GPS coordinates, addresses for pick up, and photographs. Respondent should be able to provide written Load tickets. Should the respondent be positioned to offer e-ticketing a description should be included in the technical overview for this service. Should the Respondent offer e-ticketing the price for any additional devices should be included in the hourly rate for any positions that may be utilizing the devices. Respondent should state hourly pricing for flat rate without e-ticketing devices as well as with e-ticketing devices. Either hand written or electronic tickets must be completed in detail for each line item. Photo documentation must be provided from cradle to grave and correlate with the load tickets.

Respondent will be responsible for providing an electronic document reflecting the cubic yards (or other units of measure) daily amounts to the City Debris Task Force Manager that will be sent to MEMA and FEMA daily.

Respondent will be responsible for working sun-up to sun-down seven days a week unless directed differently by the City Debris Task Force Manager.

As a minimum the Respondent must provide sufficiently trained personnel including a Project Manager, Field Monitors, Roving Managers, Fixed Site Monitors, Data Managers, and Clerical.

The City may use force account resources (including temporary hires), contractors, or a combination of these for monitoring. It is not necessary, or cost-effective, to have Professional Engineers or other certified professionals perform debris monitoring duties. FEMA considers costs unreasonable when associated with the use of staff that is more highly qualified than necessary for the associated work.

Respondent will be responsible for documenting any damage to city or private property caused by the removal contractor(s). Respondent should also document any City infrastructure damage caused by the event.

Respondent must be able to activate within 24 hours of notification to proceed by the City.

Respondent must certify that the company or any of its principles are not bared from performing any State or Federally Funded Projects including FEMA and the FHWA.

SCOPE OF POSITIONS

Provide Project Managers, Roving Managers, Field Monitors, Fixed Site Monitors, Data Managers, and Clerical for Debris Monitoring. Respondent may provide e-ticketing service however it is not mandatory for this request.

Project Manager:

Respondent will provide a Project Manager to oversee debris monitoring activities.

1. Oversight and Supervision of Monitor field activities.
2. Scheduling of Monitoring resources and deployment timing.
3. Communication and coordination with City personnel.
4. Make suggestions to improve the efficiency of collection and removal of debris.
5. Coordinate daily activities and future planning.
6. Remain in contact with DTFM
7. Identify, address, and troubleshoot any questions or problems that could impact work area safety and eligibility.
8. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations. Document truck hauling compartment condition using digital photographs. Prepare a master log book of all hauling equipment used by the City and or the Removal Contractor(s).
9. Compile, reconcile and document daily in an electronic spreadsheet format all eligible debris hauled by the City or Removal Contractor.

Field Debris Monitors and Roving/Operations Manager:

Respondent will perform on-site, street-level work area inspections of debris cleanup and collection. Respondent will provide loading site (field) monitors to inspect and control debris collection utilizing manifest load tickets. A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors.

1. Provide field monitor personnel at designated areas to check and verify information on debris removal.
2. Monitor collection activity of trucks.
3. Issue manifest load tickets at loading site for each load.
4. Check the area for safety considerations such as – downed power lines, the presents of children, traffic control, safety of equipment
5. Ensure Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal.
6. Perform a pre-work inspection of areas to check debris piles to identify covered utility meters, transformers, fire hydrants, mail boxes, etc. to help prevent damage from loading equipment and to look for potential problems.
7. Should damages occur to utility components, driveways, road surfaces, private property, vehicles, etc. document the damage with photos if possible, collect information about owner, circumstances of the damage (who, what, when, where) and report to your Roving Manager.
8. Ensure the work area is clear of debris to the specified level before equipment moves to a new loading area.
9. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations.
10. Properly monitor and record performance and productivity of debris removal

crew.

11. Remain in constant contact with Roving Manager. Roving Manager is to report directly to the DTFM.
12. Ensure that loads are contained properly before leaving the loading area.
13. Ensure only eligible debris is collected for loading and hauling.
14. Ensure only debris from approved public areas is loaded for removal.
15. Perform other duties from time to time as directed by the debris management project manager or DTFM.

Fixed Site Debris Monitors:

Respondent will provide personnel to oversee the inspection of the disposal or unloading sites by providing the monitoring, verification of load capacity, and documentation at designated temporary and or final disposal sites.

1. Provide disposal site monitors and inspectors personnel.
2. Complete record of contract haulers' cubic yardage and other record keeping as may be needed on the provided load ticket.
3. Initial each load ticket before permitting truck to proceed from the check-in area to the tipping area.
4. Remain in contact with debris management/dispatch center or supervisor.
5. Perform other duties as directed by the dispatch/staging operation, debris management project manager, or designated City personnel.
6. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations

Data Managers:

Respondent will provide personnel to oversee electronic documentation including:

1. Excel Spreadsheets as to amounts of debris collected daily.
2. Maintenance and data transfer of e-ticketing system if applicable.
3. Data Retention and back up of Data Retention for a minimum of 5 years at the expense of the Respondent.
4. GPS devices and oversight of coordinating with FEMA on accuracy.
5. GIS (Global Information System) coordination with the City, PDD (Planning and Development District), and or state.

Clerical:

Respondent will provide personnel to assist with data collection daily.

1. Enter daily data into either Excel Spreadsheets or e-ticketing system.
2. Verify Billing.
3. Audit billing vs. invoices.
4. Prepare cover documentation for services and create a filing system either electronic and or paper.

Terms:

Contracts will be established per event as activated.

Deployment

Respondent must be prepared to deploy within 24 hours from the notice to proceed. Respondent staffing levels shall be efficient and coincide with the scale of the debris

removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned **[United States Environmental Services, LLC]** certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000

and not more than \$100,000 for each such failure.

The Contractor, United States Environmental Services, LLC,
certifies or affirms the truthfulness and
accuracy of each statement of its certification and disclosure, if any. In addition, the
Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*,
apply to this certification and disclosure, if any.

ADDENDUM #1

for

"Debris Monitoring for Tornado date January 21, 2017"

The following items will be added to the City of Hattiesburg "Debris Removal for Tornado dated January 21" RFP:

1. Attachment "A" City of Hattiesburg Historical Registry was not included in the original RFP. Although there are an immense number of locations within the Register none of the locations were damaged by the January 21st Tornado. The Attachment is included in this Addendum for review.
2. Questions for the RFP are due by Thursday January 26, 2017 at 12:01 PM. Questions should be submitted to Lamar Rutland City Engineer at lrutland@hattiesburgms.com or fax at 601-545-4642.
3. It was the intent of the City of Hattiesburg to attach the Contract Template and was overlooked while distributing the RFP. The Contract Template is attached to this Addendum for review.
4. Under Summary of the RFQ page 1 first paragraph the Bid will be opened on Saturday January 28th, 2017 **at 10:00 AM**, please add and note the time,

Kermas Eaton, City Clerk

**TERMS OF CONTRACT
DEBRIS MONITORING for DR-XXXX
CITY OF HATTIESBURG, MISSISSIPPI**

1. Contracted Services: The Contractor agrees to provide in accordance with the specifications set forth on the preceding page of this contract, titled "Contract between the City of Hattiesburg and NAME OF CONTRACTOR (Contractor)" and any other documents as set forth by the City of Hattiesburg (City), and are hereby incorporated into and made a part of this contract. No oral statements of any person shall modify or otherwise affect the terms, conditions, or specifications stated in this contract. If other attachments or exhibits exist which are to be incorporated as part of this contract, the title of each document shall be listed here, as follows (use additional sheets, if necessary):

Attachment B - Conflict of Interest

Attachment C - Certification Regarding Lobbying

Attachment D - Scope of Work per included RFP Response

2. ABILITY TO CONTRACT

The NAME OF CONTRACTOR (Contractor) warrants that he/she/it is qualified to provide the services, whether personal or professional, as outlined in this contract. The Contractor agrees to conform to existing policies, rules, and regulations of the City. The Contractor agrees to maintain throughout the contract period such licensing and/or certification as may be required by law for the provision of services specified herein, if applicable. The Contractor warrants that it is a validly organized business with valid authority to enter into this contract; that it is qualified to do business and in good standing in the State of Mississippi; that entry into and performance under this contract is not restricted or prohibited by any loan, security, financing, contractual or other contract of any kind; and, notwithstanding any other provision of this contract to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under this contract.

3. APPLICABLE LAW

The contract shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding its conflicts of laws, provisions, and any litigation with respect thereto shall be brought in the courts of the City of Hattiesburg or Forrest County Mississippi. Contractor shall comply with applicable federal, state, and local laws and regulations.

4. COMPLIANCE WITH LAWS

Contractor understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on race, color, creed, sex, age, national origin, physical handicap, disability, genetic information, or any other consideration made unlawful by federal, state, or local laws. All such discrimination is unlawful and Contractor agrees during the term of the agreement that Contractor will strictly adhere to this policy in its employment practices and provision of services. Contractor shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

5. PROCUREMENT REGULATIONS AND APPROVAL

The contract is designed by the applicable provisions of the *Mississippi Personal Service Contract Review Board ("PSCRB") Rules and Regulations*, a copy of which is available at 210 East Capitol, Suite 800, Jackson, Mississippi 39201 for inspection, or downloadable at <http://www.mspsb.ms.gov>. It is understood that the PSCRB does not and will not approve this contract, the guidelines are best determined by the City of Hattiesburg that closely parallels the Federal Guidelines required for this contract.

6. REPRESENTATION REGARDING CONTINGENT FEES

Contractor represents that it has not retained person to solicit or secure a City contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Contractor's bid proposal

7. REPRESENTATION REGARDING GRATUITIES

The bidder, offeror, respondent, or contractor represents that is has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 6-204 (Gratuities) of the *Mississippi Personal Service Contract Review Board Rules and Regulations*.

8. DEBARMENT AND SUSPENSION: Contractor certifies to the best of its knowledge and belief, that it:

- a. is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transaction by any federal department or agency or any political subdivision or entity of the State of Mississippi;
- b. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or contract under a public transaction;
- c. has not, within a three year period preceding this proposal, been convicted of or had a civil judgment rendered against it for a violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
- d. is not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of these offenses enumerated in paragraphs two (b) and (c) of this certification; and,
- e. has not, within a three year period preceding this proposal, had one or more public transactions (federal, state, or local) terminated for cause or default.

9. INTEGRATED AGREEMENT/MERGER

This contract, including all contract documents, represents the entire and integrated contractual agreement between the parties hereto and supersedes all prior negotiations, representations, or agreements, irrespective of whether they were written or oral. This contract may be altered, amended, or modified only by a written document executed by the City and the Contractor. The Contractor acknowledges that it has thoroughly read all contract documents and attachments and has had the opportunity to receive competent advice and counsel necessary for it to form a full and complete understanding of all rights and obligations herein. Accordingly, this contract shall not be construed or interpreted in favor or against the City or the Contractor on the basis of draftsmanship or preparation.

10. MODIFICATIONS AND CHANGES IN SCOPE OF WORK

All modifications to the contract must be made in writing and signed by both parties to the contract. The City may order changes in the work consisting of additions, deletions, or other revisions within the general scope of the contract. No claims may be made by the Contractor that the scope of the contract or of the Contractor's services has been changed, requiring changes to the amount of compensation to the Contractor or other adjustments to the contract, unless such changes or adjustments have been made by written amendment to the contract signed by the City and the Contractor. If the Contractor believes that any particular work is not within the scope of the contract, is a material change, or will otherwise require

more compensation to the Contractor, the contractor must immediately notify the City in writing of this belief. If the City believes that the particular work is within the scope of the contract as written, the Contractor will be ordered to and shall continue with the work as changed and at the cost stated for the work within the scope.

11. AVAILABILITY OF FUNDS

It is expressly understood and agreed that the obligation of the City to proceed under this agreement is conditioned upon the appropriation of funds by the City of Hattiesburg. If the funds anticipated for the continuing fulfillment of the agreement are, at any time, not forthcoming or insufficient, of the City to appropriate funds or the discontinuance or material alteration of the program under which funds were provided or if funds are not otherwise available to the City, the City shall have the right upon ten (10) working days written notice to Contractor, to terminate this agreement without damage, penalty, cost or expenses to the City of any kind whatsoever. The effective date of termination shall be as specified in the notice of termination.

12. PAYMENT

Contractor agrees to accept all payments in United States currency via the City's check issuing system. The City agrees to make payment in accordance with Mississippi law on "Timely Payments for Purchases by Public Bodies," which generally provides for payment of undisputed amounts by the City within forty-five (45) days of receipt of invoice. Mississippi Code Annotated § 31-7-305.

13. E-VERIFICATION

If applicable, Contractor represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act of 2008, and will register and participate in the status verification system for all newly hired employees. Mississippi Code Annotated §§ 71-11-1 *et seq.* The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program.

Contractor agrees to maintain records of such compliance. Upon request of the City and after approval of the Social Security Administration or Department of Homeland Security when required, Contractor agrees to provide a copy of each such verification. Contractor further represents and warrants that any person assigned to perform services hereafter meets the employment eligibility requirements of all immigration laws. The breach of this agreement may subject Contractor to the following:

- A. termination of this contract for services and ineligibility for any state or public contract in Mississippi for up to three (3) years with notice of such cancellation/termination being made public;
- B. the loss of any license, permit, certification or other document granted to Contractor by an local, state, or federal governmental entity for the right to do business in Mississippi for up to one (1) year; or,
- C. both. In the event of such cancellation/termination, Contractor would also be liable for any additional costs incurred by the City due to Contract cancellation or loss of license or permit to do business in the City or State.

14. STOP WORK ORDER

This section applies to contracts following the guidelines of the PSCRB as follows:

A. Order to Stop Work: The City, may, by written order to Contractor at any time, and without notice to any surety, require Contractor to stop all or any part of the work called for by this contract. This order shall be for a specified period not exceeding 90 days after the order is delivered to Contractor, unless the parties agree to any further period. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the occurrence of costs allocable to the work covered by the order during the period of work stoppage. Before the stop work order expires, or within any further period to which the parties shall have agreed, the City shall either:

1. cancel the stop work order; or,
2. terminate the work covered by such order as provided in the Termination for Default clause or the Termination for Convenience clause of this contract.

B. Cancellation or Expiration of the Order: If a stop work order issued under this clause is canceled at any time during the period specified in the order, or if the period of the order or any extension thereof expires, Contractor shall have the right to resume work. An appropriate adjustment shall be made in the delivery schedule or Contractor price, or both, and the contract shall be modified in writing accordingly, if:

1. the stop work order results in an increase in the time required for, or in Contractor's cost properly allocable to, the performance of any part of this contract; and,
2. Contractor asserts a claim for such an adjustment within 30 days after the end of the period of work stoppage; provided that, if the City decides that the facts justify such action, any such claim asserted may be received and acted upon at any time prior to final payment under this contract.

C. Termination of Stopped Work: If a stop work order is not canceled and the work covered by such order is terminated for default or convenience, the reasonable costs resulting from the stop work order shall be allowed by adjustment or otherwise.

D. Adjustments of Price: Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment clause of this contract, if applicable.

15. TERMINATION FOR CAUSE and CONVENIENCE

A. Termination. The City Engineer or designee may, when the interests of the City so require, terminate this contract in whole or in part, for the convenience of the City. The City Engineer or designee shall give written notice of the termination to Contractor specifying the part of the contract terminated and when termination becomes effective.

B. Contractor's Obligations. Contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination Contractor will stop work to the extent specified. Contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. Contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The COO or designee may direct Contractor to assign Contractor's right, title, an interest under terminated orders or subcontracts to the City. Contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

16. TERMINATION FOR DEFAULT

A. *Default.* If Contractor refuses or fails to perform any of the provisions of this contract with such diligence as will ensure its completion within the time specified in this contract or any extension thereof, or otherwise fails to timely satisfy the contract provisions, or commits any other substantial breach of this contract, the City Engineer or designee may notify Contractor in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the City Engineer or designee, such officer may terminate Contractor's right to proceed with the contract or such part of the contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the City Engineer or designee may procure similar supplies or services in a manner and upon terms deemed appropriate by the City Engineer or designee. Contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

B. *Contractor's Duties.* Notwithstanding termination of the contract and subject to any directions from the City, Contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Contractor in which the City has an interest.

C. *Compensation.* Payment for completed services delivered and accepted by the City shall be at the contract price. The City may withhold from amounts due Contractor such sums as the City Engineer or designee deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

D. *Excuse for Nonperformance or Delayed Performance.* Except with respect to defaults of subcontractors, Contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if Contractor has notified the City Engineer or designee within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City, State and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Contractor shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Contractor to meet the contract requirements. Upon request of Contractor, the City Engineer or designee shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, Contractor's progress and performance would have met the terms of the contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

E. *Erroneous Termination for Default.* If, after notice of termination of Contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (d) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

F. *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

17. TERMINATION UPON BANKRUPTCY

This contract may be terminated in whole or in part by the City upon written notice to Contractor, if Contractor should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by Contractor of an assignment for the benefit of its creditors. In the event of such termination, Contractor shall be entitled to recover just and equitable compensation for satisfactory work performed under this contract, but in no case shall said compensation exceed the total contract price.

18. RECORDS AND AUDIT

The Contractor shall maintain such financial records and other records as may be prescribed by the City or by applicable Federal and State laws, rules, and regulations. These may be kept according to the Contractor's usual method of recordkeeping, but must be sufficiently detailed to permit an accurate accounting of contract funds and program activities. The contract and the procurement of goods and services shall be governed by the applicable Mississippi statutes and the applicable provisions of the Mississippi Personal Service Contract Review Board Regulations. The Contractor shall retain these records for a period of three (3) years after final payment, or until they are audited by the City, whichever event occurs first. These records shall be made available during the term of the contract and the subsequent three-year period for examination, transcription, and audit by the Mississippi State Auditor's Office, its designees, or other authorized bodies. Where audits are required to be submitted to the City before funding can be released, the audits must be submitted within the required timeframe and must be acceptable; if a Contractor fails to submit an audit in a timely manner, or if the audit is unacceptable, the city reserves the right to cancel or suspend the contract at the City's discretion.

19. RECORDS RETENTION

The Contractor agrees to submit to the City quarterly program activity reports thirty (30) days subsequent to the closing of each quarter. The Contractor agrees to submit to the City quarterly fiscal reports thirty (30) days subsequent to the closing of each quarter, or other applicable period as made a part of this contract and agreed to by both parties. The Contractor agrees to permit reasonable program review and evaluation by the City; to provide access to any pertinent records; arrange meetings with appropriate personnel; permit inspection of the premises; and to cooperate in any other reasonable requests for fiscal and/or program information. Provided the Contractor is given reasonable advance written notice and such inspection is made during normal business hours of the Contractor, the City or any duly authorized representatives shall have unimpeded, immediate access to any of the Contractor's books, documents, papers, and/or records which are maintained or produced as a result of this contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this contract shall be retained by the Contractor for three (3) years after final payment and or final closeout for this declaration is made under this contract and all pending matters are closed. However, if any audit, litigation, or other action arising out of or related in any way to this contract is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

20. INDEPENDENT CONTRACTOR STATUS

This section applies only to contracts for which the Contractor shall serve solely on an Independent Contractor basis, as follows:

The Contractor, at all times, shall be regarded as an Independent Contractor and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Contractor, or any third party as creating the relationship of principal and agent, partners, joint ventures, or any similar such relationship between the City and the Contractor. Neither the method of computation of fees or other charges, nor any other provision contained herein, nor any acts of the City or the Contractor hereunder,

creates or shall be deemed to create a relationship other than the independent relationship of the City and the Contractor. The Contractor's personnel shall not be deemed in any way, directly or indirectly, expressly or by implications, to be employees of the City. Neither the Contractor nor its employees, under any circumstances, shall be considered servants, agents, or employees of the City; and the City shall be at no time legally responsible for any negligence or other wrongdoing by the Contractor, its servants, or agents. The City shall not withhold from the contract payments to the Contractor any Federal or State unemployment taxes, Federal or State income taxes, Social Security tax, or any other amounts for benefits to the Contractor. Further, the City shall not provide to the Contractor any insurance coverage or other benefits, including Workers' Compensation, normally provided by the City for its employees. Furthermore, none of the work performed under this contract shall be subcontracted without prior approval of the City. The City, throughout the life of the contract, shall have the right of reasonable rejection and approval of staff of the Contractor or its Subcontractors assigned to the work by the Contractor. If the City reasonably rejects staff of the Contractor or its Subcontractors, the Contractor must provide replacement staff or Subcontractors satisfactory to the City in a timely manner and at no additional cost to the City. The day-to-day supervision and control of the Contractor's employees and Subcontractors are the sole responsibility of the Contractor.

21. TRADE SECRETS, COMMERCIAL AND FINANCIAL INFORMATION

It is expressly understood that Mississippi law requires that the provisions of this contract which contain the commodities purchased or the personal or professional services provided, the price to be paid, and the term of the contract shall not be deemed to be a trade secret or confidential commercial or financial information and shall be available for examination, copying, or reproduction.

22. CONFIDENTIAL INFORMATION

A. *Definition*: "Confidential Information" shall mean:

1. those materials, documents, data, and other information which the Contractor has designated in writing as proprietary and confidential; and
2. all data and information which the Contractor acquires as a result of its contact with and efforts on behalf of the City, and any other information designated in writing as confidential by the City.

Each party to this contract agrees to protect all Confidential Information provided by one party to the other, to treat all such Confidential Information as confidential to the extent that confidential treatment is allowed under State and/or Federal law, and, except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission, and to do so by using those methods and procedures normally used to protect the party's own confidential information. Any liability resulting from the wrongful disclosure of confidential information on the part of the Contractor or its Subcontractors shall rest with the Contractor. Disclosure of any confidential information by the Contractor or its Subcontractors without the express written approval of the City shall result in the immediate termination of this contract.

B. *Disclosure*: In the event that either party to this contract receives notice that a third party requests divulgence of confidential or otherwise protected information and/or has served upon it a subpoena or other validly issued administrative or judicial process ordering divulgence of confidential or otherwise protected information, that party shall promptly inform the other party and thereafter respond in conformity with such subpoena to the extent mandated by State law. This section shall survive the termination or completion of this contract. The parties agree that this section is subject to and superseded by Mississippi Code of 1972, Annotated, Section 25-61-1, et. seq. regarding public access to public records.

C. *Exceptions:* The Contractor and the City shall not be obligated to treat as confidential and proprietary any information disclosed by the other party ("The Disclosing Party") which:

1. is rightfully known to the Contractor prior to negotiations leading to this contract, other than information obtained in confidence under prior engagements;
2. is generally known or easily ascertainable to non-parties of ordinary skill in the business of the Contractor;
3. is released by the Disclosing Party to any other person, firm, or entity (including governmental agencies or bureaus) without restriction;
4. is independently developed by the recipient without any reliance on confidential information;
5. is, or later becomes, part of the public domain or may be lawfully obtained by the City or the Contractor from any non-party; or
6. is disclosed with the Disclosing Party's prior written consent.

D. Contractor agrees to comply with the Administrative Simplifications provisions of the Health Insurance Portability and Accountability Act of 1996, including electronic data interchange, code sets, identifiers, security, and privacy provisions, as may be applicable to the services under this contract.

E. Notwithstanding any provision to the contrary contained herein, it is recognized that the City is a public entity of the State of Mississippi and is subject to the Mississippi Public Records Act. Mississippi Code Annotated §§ 25-61-1 *et seq.* If a public records request is made for any information provided to the City pursuant to the agreement and designated by the Contractor in writing as trade secrets or other proprietary confidential information, the City shall follow the provisions of Mississippi Code Annotated §§ 25-61-9 and 79-23-1 before disclosing such information. The City shall not be liable to the Contractor for disclosure of information required by court order or law.

23. TRANSPARENCY (PSCRB 7-1-16)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent entity contract website for public access at <http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

24. OWNERSHIP OF DOCUMENTS AND WORK PAPERS

The City shall own all documents, files, reports, work papers, and working documentation, electronic or otherwise, created under this contract, or in connection with the project which is the subject of this contract, except for the Contractor's internal administrative and quality assurance files and internal correspondence. The Contractor shall deliver such documents and work papers to the City upon termination or completion of the contract. The foregoing notwithstanding, the Contractor shall be entitled to retain a set of such work papers for its files. Contractor shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections. By entering into

this contract, the Contractor conveys, sells, assigns, and transfers to the City all rights, titles, and interest it may now have or hereafter acquire under the antitrust laws of the United States and the State of Mississippi that relate to the particular goods or services purchased or acquired by the City under this contract.

25. FAILURE TO DELIVER

In the event of failure of the Contractor to deliver goods or services in accordance with the contract terms and conditions, the City, after due written notice, may procure the services from other sources and hold the Contractor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

26. FORCE MAJEURE

Each party shall be excused from performance for any period and to the extent that it is prevented from performing any obligation or service, in whole or in part, as a result of causes beyond the reasonable control and without the fault or negligence of such party and/or its Subcontractors. Such acts shall include without limitation acts of God, strikes, lockouts, riots, acts of war, epidemics, governmental regulations superimposed after the fact, fire, earthquakes, floods, or other natural disasters (the "Force Majeure Events"). When such a cause arises, the Contractor shall notify the City immediately in writing of the cause of its inability to perform, how it affects its performance, and the anticipated duration of the inability to perform. Delays in delivery or in meeting completion dates due to Force Majeure Events shall automatically extend such dates for a period equal to the duration of the delay caused by such events, unless the City determines it to be in its best interest to terminate the contract.

27. INDEMNIFICATION

To the fullest extent allowed by law, the Contractor shall indemnify, defend, save and hold harmless, protect, and exonerate the City of Hattiesburg and its officers, employees, agents, and representatives from and against all claims, demands, liabilities, suits, actions, damages, losses, and costs of every kind and nature whatsoever, including, without limitation, court costs, investigative fees and expenses, and attorneys' fees, arising out of or caused by the Contractor and/or its partners, principals, agents, employees and/or Subcontractors in the performance of or failure to perform this contract. In the City's sole discretion, the Contractor may be allowed to control the defense of any such claim, suit, etc. In the event the Contractor defends said claim or suit, etc. the Contractor shall use legal counsel acceptable to the City; the Contractor shall be solely responsible for all costs and/or expenses associated with such defense, and the City shall be entitled to participate in said defense. The Contractor shall not settle any claim or suit, etc. without the City's concurrence, which the City shall not unreasonably withhold.

28. NO LIMITATION OF LIABILITY

Nothing in this Contract shall be interpreted as excluding or limiting any tort liability of the Contractor for harm caused by the intentional or reckless conduct of the Contractor or for the damages incurred through the negligent performance of duties by the Contractor or the delivery of products that are defective due to negligent construction.

29. ATTORNEYS' FEES AND EXPENSES

Subject to other terms and conditions of this contract, in the event the Contractor defaults in any obligations under this contract, the Contractor shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorneys' fees) incurred by the City in enforcing this contract or otherwise reasonably related thereto. The Contractor agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to the Contractor. This clause shall not apply to any contracts entered into with another entity, board, or commission.

30. RECOVERY OF MONEY

Whenever, under this contract, any sum of money shall be recoverable from or payable by the Contractor to the City, the same amount may be deducted from any sum due to the Contractor under the contract or under any other contract between the Contractor and the City. The rights of the City are in addition and without prejudice to any other right the City may have to claim the amount of any loss or damage suffered by the City on account of the acts or omissions of the Contractor.

31. SEVERABILITY

If any part of this Contract is declared to be invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision of the contract that can be given effect without the invalid or unenforceable provision and to this end, the provisions hereof are severable. In such event, the parties shall amend the contract as necessary to reflect the original intent of the parties and to bring any invalid or unenforceable provisions in compliance with applicable law.

32. WAIVER

No delay or omission by either party to this contract in exercising any right, power, or remedy hereunder or otherwise afforded by contract, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to this contract shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of this contract will void, waive, or change any other term or condition. No waiver by one party to this contract of a default by the other party will imply, be construed as, or require waiver of future or other defaults. Failure by the City at any time to enforce the provisions of the contract shall not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of the contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

33. CITY PROPERTY

The Contractor will be responsible for the proper custody and care of any City-owned or City-leased property furnished for the Contractor's use in connection with the performance of this contract. The Contractor will reimburse the City for any loss or damage, normal wear and tear excepted.

34. UNSATISFACTORY WORK

If, at any time during the contract term, the service performed or work done by the Contractor is considered by the City to create a condition that threatens the health, safety, or welfare of the general public, the City, its property, or its employees, or for whom the contracted services are to be rendered, the Contractor shall, on being notified by the City, immediately correct the deficient service or work. In the event the Contractor fails, after notice, to correct the deficient service or work immediately, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Contractor.

35. ANTI-ASSIGNMENT/SUBCONTRACTING

The Contractor acknowledges that it was selected by the City to perform the services required hereunder based, in part, upon the Contractor's skills, expertise, and proper response to the RFP. The Contractor shall not assign, subcontract, or otherwise transfer this contract in whole or in part without the prior written consent of the City, which the City may, in its sole discretion, approve or deny without reason. Any attempted assignment or transfer by the Contractor of its obligations without such consent shall be null and void. No such approval by the City of any subcontract shall be deemed in any way to provide for the incurrence of any obligation of the City in addition to the total contractual price agreed upon in this contract. Subcontracts shall be subject to the terms and conditions of this contract and to any conditions of approval that the City may deem necessary. Subject to the foregoing, this contract shall be binding upon the respective successors and assigns of the parties.

36. THIRD PARTY ACTION NOTIFICATION

The Contractor shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Contractor by any entity that may result in litigation related in any way to this contract.

37. INSURANCE REQUIREMENTS

Within 24 hours following the signing of this contract, respondent shall provide copies of insurance policies including all endorsements and bonding requirements as follows.

A. Commercial General Liability including Errors and Omissions- in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability – Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

37. Contractor agrees to abide by all local, state, and federal Environmental and Historical Laws as established.

38. Contractor agrees to the following federal clauses:

Equal Employment Act.

- a. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 601.3 must include the equal opportunity clause provided under 41 C.F.R. § 601.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p.339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II, C.

Key Definitions.

(1) Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any

Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

(2) Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause:

"During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

b. Davis Bacon Act (NOT REQUIRED).

c. Compliance with the Copeland "Anti-Kickback Act (NOT REQUIRED)"

d. Clean Air Act and the Federal Water Pollution Control Act for Contracts over \$150,000.00

Contractor shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA and the Regional Office of the Environmental Protection Agency.

Clean Air Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and agrees that the City of Hattiesburg will, in turn, report each violation as required to assure notification to the City of Hattiesburg, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

(1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

(2) The contractor agrees to report each violation to the City of Hattiesburg and understands and agrees that the City of Hattiesburg will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

(3) The contractor agrees to include these requirements in each subcontract exceeding \$100,000 financed in whole or in part with Federal assistance provided by FEMA.

e. Access to Records

Contractor will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

(1) The contractor agrees to provide the Mississippi Emergency Management Agency, and the City of Hattiesburg, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the contract.

f. Energy Efficiency

Contractor shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

g. Debarment and Suspension in excess of \$25,000.00

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt.180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the City of Hattiesburg. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the City of Hattiesburg and or MEMA, the Federal Government may pursue available remedies, including but not limited to suspension and/ or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions."

h. "Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee

of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

SEE ATTACHMENT C- CERTIFICATION REGARDING LOBBYING (FORM SIGNATURE REQUIRED)

i. DHS Seal, Logo, and Flags.

The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA preapproval.

j. Compliance with Federal Law, Regulations, and Executive Orders.

This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

k. No Obligation by Federal Government.

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the City of Hattiesburg, contractor, or any other party pertaining to any matter resulting from the contract."

l. Program Fraud and False or Fraudulent Statements or Related Acts.

The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract.

m. Procurement of Recovered Materials Exceeding \$10,000.00.

Contractor shall comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered material practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA designated items unless the product cannot be acquired:

i) Competitively within a timeframe providing for compliance with the contract performance schedule;

(ii) Meeting contract performance requirements; or

(iii) At a reasonable price.

(2) Information about this requirement is available at EPA's Comprehensive Procurement Guidelines web site, <http://www.epa.gov/cpg/>. The list of EPA-designate items is available at <http://www.epa.gov/cpg/products.htm>."

n. **Contract Work Hours and, Safety Standards Act, as Amended for contracts over \$100,000.00**

The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

"Compliance with the Contract Work Hours and Safety Standards Act".

(1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request .of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.

o. Rights to Inventions made under Contract or Agreement (NOT REQUIRED).

p. FEMA Executive Order 12250; Coordination of Civil Rights Statues.

39. NOTICES

All notices required or permitted to be given under this contract must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to

whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address as shown below:

APPENDIX A, 44 C.F.R. PART 18-CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000)

The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, United States Environmental Services, LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. § 3801 *et seq.*, apply to this certification and disclosure, if any.

**CONTRACT JUSTIFICATION
FOR DEBRIS MONITORING**

Detailed description of contractual services to be performed including location, program, purpose, and condition or regulatory agency establishing the requirement for contract personnel services:

Debris Monitoring for Federal Declaration DR-XXXX including Vegetative, Construction and Demolition, Damaged Structures, Removal of Structures, White Goods, Household Hazardous Waste, Electronic Waste, Soil/Mud/Sand, Stumps, Leaners and Hangers, Vehicles and or Vessels.

Justification of request, including assessment of current personnel resources (i.e. utilization of current position vacancies, temporary increase in workload above capability of current workforce, level of expertise required, position classification not available to agency):

Due to the overwhelming amount of Debris the existing City Employees, Equipment, and Mutual Aid Agreements will not be sufficient to perform the required services.

Qualifications that make this contractor the best suited to perform this task:

Contractor has Scored per the Request for Proposal to be more than sufficient to complete the task including A) quality of response, B) ability to perform, C) personnel/equipment/facilities/financial resources, D) record of past performance, and E) price.

Justification of modification request (if applicable):

NA

Consequence of contract being disapproved:

The City will not have the time/equipment/personnel to complete the project within the allotted time frame to qualify for the FEMA Public Assistance Alternative Procedures Pilot Program for Debris Monitoring or complete the task within 180 days.

I have reviewed this contract request and determined that these services are needed and cannot be provided by current staff or through the staffing of a vacant position.

Mayor, City of Hattiesburg

ADDENDUM #2

for

"Debris Monitoring for Tornado date January 21, 2017"

1. On page 18 of the RFP for Debris Monitoring Assistance for Hattiesburg, MS there is a position description for both a Field Debris Monitor and a Roving/Operations Manager. These are listed together, but appear to be two separate positions. A Field Monitor would typically be the employee assigned directly to a collection vehicle monitoring the debris removal and issuing a load ticket while as your description states "A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors" and this would be a management and supervisory position. However, the cost form in Attachment B combines these into a single "Field/Roving/Operations Debris Managers" Position and does not seem to have a space for just a regular Field Monitor. Would the City please consider issuing a revised cost sheet to clarify that these are two separate positions so they can be appropriately priced as such in the responses received.

Answer: This item has been revised. See ATTACHMENT B (Revised)

ATTACHMENT B (REVISED)

COST SHEET (may be modified to meet Respondents requirements)

CITY OF HATTIESBURG DR-XXXX	Estimated Requirements	Per Hour Rate
Project Manager		ST \$125.00 OT \$150.00
Field/Roving/Operations Debris Managers		ST \$ 90.00 OT \$150.00

Data Manager		ST \$ 55.00 OT \$82.50
Clerical		ST \$ 60.00 OT \$ 90.00
TOTAL ESTIMATED COST		ST \$ 50.00 OT \$ 75.00

 City Clerk

The RFP to establish Debris Monitoring Assistance for Hattiesburg, MS

To: Lamar Rutland, City Engineer

From: Tammy Coats, TNT Enterprise

Subject: Request for Proposal(RFP) for Debris Monitoring Firms to Assist the City of Hattiesburg for DR-TBD

Assessments/Scoring of the proposal:

- A. The overall quality of the plan for performing the debris monitoring service for the city of Hattiesburg will consist of monitoring all debris resulting from the EF-3 Tornado striking the City of Hattiesburg on January, 21, 2016. All public policies and compliance will be upheld and integrity will be maintained throughout this process.
- B. TNT Enterprises has the ability perform this debris monitoring service for the City of Hattiesburg. TNT Enterprise past experiences in providing services to citizens of Covington and Smith Counties due to 2014 Tornado. Personnel includes:
 - a. Tammy Coats, Project Manager – over 5 years' disaster recovery experience
 - b. Oliver Jackson, Field/Roving/Operations Debris Managers – Over 6 years of disaster recover experience
 - c. Sonya Blackston – Fixed Site Monitors – Over 3 years' disaster recovery experience
 - d. Montreal Stubbs – Fixed Site Monitors – Over 2 years' disaster recover experience
 - e. Stacey Thompson - Data Manager – Over 7 years' data management and disaster recovery experience
 - f. Melissa Bruce – Clerical – over 5 years' disaster recovery experience
- C. All personnel, equipment, facilities, technical and financial resources to perform the debris monitoring service will be available until completion of this project and any future projects.
- D. Record of past performance for TNT Enterprises include the following projects:
 - a. 2014 Tornado to strike Covington and Smith Counties in MS.
 - b. Baton Rouge Flood of 2016
- E. The proposed price for this debris monitoring service will be \$30, 000.00 for 6 months or \$50,000. 00 for 1 year.

Respondent additional information:

- 1. TNT Enterprises, 142 Providence Church Road, Collins, MS 39428
- 2. TNT Enterprise is 4 years old with an average of 10 employees
- 3. Resume Listing of abilities, qualifications and experience
 - a. Tammy Coats, Project Manager – over 5 years' disaster recovery experience
 - b. Oliver Jackson, Field/Roving/Operations Debris Managers – Over 6 years of disaster recover experience
 - c. Sonya Blackston – Fixed Site Monitors – Over 3 years' disaster recovery experience
 - d. Monteal Stubbs – Fixed Site Monitors – Over 2 years' disaster recover experience
 - e. Stacey Thompson - Data Manager – Over 7 years' data management and disaster recovery experience
 - f. Melissa Bruce – Clerical – over 5 years' disaster recovery experience

4. Record of past performance for TNT Enterprises include the following projects:
 - a. 2014 Tornado to strike Covington and Smith Counties in MS.
 - b. Baton Rouge Flood of 2016

REQUEST FOR PROPOSAL

TO ESTABLISH

Debris Monitoring Assistance for Hattiesburg Mississippi DR-XXXX

To: Debris Monitoring Companies interested in Services for the City of Hattiesburg
From: Lamar Rutland, City Engineer.
Date: January 23, 2017
Subject: Request for Proposal (RFP) for Debris Monitoring Firms to Assist the City of Hattiesburg for DR-TBD.

Contact Name: Lamar Rutland, City Engineer
Contact Phone Number: 601-545-4540
Contact E-mail Address: lrutland@hattiesburg.com

SUMMARY OF THE RFP

Hattiesburg Mississippi, (hereinafter "City") is seeking qualified Firms for Disaster Debris Monitoring Assistance. This Request for Proposal (RFP) is issued following a Disaster that warrants outside assistance where the City Personnel, Equipment, and Mutual Aid Agreements are not sufficient for this event. This RFP is for Debris Monitoring for FEMA "Category A" only; Direct Administrative Cost (DAC) will not be a part of the proposal.

Hattiesburg will utilize the Mississippi Personal Service Contract Review Board (PSCRB) Rules and Regulations as a guideline for this RFP. The PSCRB is established and maintained by the Mississippi State Personnel Board (MSPB) for guidelines for State Agencies. The MSPB is not required to approve this proposal or Contract. However responding firms should make themselves aware of these guidelines for legalities associated with this type agreement.

Information is sought for Debris Monitoring of disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the State), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this project however if the City, State, or FEMA authorizes the ROE it will become part of this project.

Respondent should be aware of Historical Preservation Laws since the City of Hattiesburg has an immense number of houses, commercial buildings, schools, city properties, etc. listed on the Historical Register (SEE ATTACHMENT A).

The City will seek Services city-wide. The City will evaluate the Information and establish a Short List of firms that will be invited for final interviews. Respondent should be aware the City

may elect to utilize multiple companies for Monitoring should the event size require such action. Respondent is cautioned to review this RFP as the Federal Office of Management and Budget has introduced new guidelines per the "Super Circular" (2 CFR 200.318 through 326 for non federal entities) for all Federal Agencies participating in Federal Grants including FEMA and the FHWA. As part of the combinations within the Super Circular, A-102 combines 44 C.F.R 13.36 with 2 CFR 200.318 to 326.

It shall be noted that this Request for Proposal is consistent with the *FEMA FP 104-009-2 Public Assistance Program and Policy Guide (January 2016)*. This request, possible contract, and event expenditures are not contingent upon receipt of FEMA funding.

The objective of this RFP is to establish Debris Monitoring Services for **DR XXXX**. Respondent shall appoint a single Point of Contact (SPOC) for the Project that shall be responsible for managing staff, working with the City, the Mississippi Emergency Management Agency (MEMA), FEMA, and the FHWA as requested. The RFP response should be clear on how the Respondent will assist Hattiesburg for Debris Monitoring. **This Project consist of an EF-3 Tornado striking the City of Hattiesburg on January 21, 2017.**

Hattiesburg will receive proposals from firms having specific experience and qualifications in the areas identified in this request. For consideration, information must contain evidence of experience and abilities in the specified area and other disciplines directly related to Debris Monitoring. Other information required by the City may be included elsewhere in the proposal.

Respondent shall provide key resumes of staff to be assigned to projects. References and examples of similar work, and other data that demonstrates the Respondent's experience in the area of Debris Monitoring will also be required.

A City Debris Committee will review and assess all proposals. The committee will only have the proposals to review for selection of Respondent(s). It is therefore important that Respondent emphasizes specific information pertinent to the work. Assessments/Scoring of the proposals will be based as follows:

A. The overall quality of the plan for performing Debris Monitoring Services including Safety Practices and Historic Preservations. The plan must maintain a full understanding of the requested services, integrity, and compliance with public policy. Consideration will be given to the entirety and specific requirements of the request. (Important-20 points)

B. Respondent ability to perform the Debris Monitoring Services as reflected by past performance, general experience, specific experience in providing the services, and the qualifications and abilities of personnel to be assigned to perform such services. (Very Important – 20 points)

C. The personnel, equipment, facilities, technical, and financial resources to perform this type service currently available or demonstrated to be made available at the time of request and possible future contracting. (Important – 20 points)

D. A record of past performance of similar work. (Critical – 20 points)

E. Price (Critical-20 points)

Respondent's Response shall contain the following Information:

1. Be authorized or prove intent to transact business in the State of Mississippi (the "State").
2. Be able to provide Monitoring of all disaster related debris, as set forth in the Scope of Services hereto and incorporated herein by reference (the "Services").
3. Be willing and capable of performing the Services in a timely manner, including, but not limited to, maintenance of proper documentation, proper documentation preparation and management and event closure services.
4. Be knowledgeable and have experience in the provision of the Services and in insuring that Services are in line with FEMA practices.
5. Be able to perform the Services in a timely manner and on short notice, recognizing that in the event of a Task Order, the City desires maximum percentage of completion of projects within the allotted time frames. Maximum Debris Removal within the first 30 days is desirable and the City prefers not to exceed 90 days for completion of any project however the maximum allotted time frame could extend to 180 days.
6. Provide SAM (System for Award Management) Number if available. Registration with SAM is not required however if available it will be reviewed for any current Responder status.

Respondent additional information:

1. Name of Respondent, location of Respondent's principal place of business, and the place of performance for any proposed contract.
2. Age of responders business and the average number of employees over the past three (3) years.
3. Resume' listing abilities, qualifications, and experience of key individuals who will be assigned to provide the required services.
4. Listing of five similar projects under which services similar in scope, size, or discipline were performed or undertaken, including at least three (3) references for current projects or those awarded during the past six (6) years.
5. List five (5) or more projects to include the names and addresses of the projects, the scope of the project, and the names and telephone numbers of the clients for reference purposes. All information in the request must be completed. Proposals containing incomplete data will be rejected.
6. A Technical Plan giving as much detail as practical explaining how the services will be performed.
7. Plan for subcontractor participation. Note, per FEMA FP-104-009-2 (January 2016) **Procurement Standards page 30; Vendors shall conduct all necessary affirmative**

steps to ensure the use of minority, women's business enterprises, and labor surplus area firms when possible. Respondent can utilize the Mississippi Development Authority (or other state systems) to assist in locating such companies by using the established MDA Search utility at <http://minority.mississippi.org/> or <http://www.mmbbr.org>. The Small Business Administration and the Department of Commerce's Minority Business Development Agency can also be utilized to solicit these businesses. A Disadvantaged Business Enterprise (DBE) may also be considered.

INSURANCE REQUIREMENTS

Prior to signing of any contract, Respondent agrees to furnish the City with all applicable certificates of insurance. The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the aforementioned insurance. **Proof of Insurability must be provided with the proposal.**

Within 24 hours following the signing of any contracts, Respondent shall provide copies of insurance policies including all endorsements.

A. Commercial General Liability and Errors and Omissions - in the amount of one million dollars (\$1,000,000.00) per occurrence.

B. Worker's Compensation - Proposer shall provide a policy with employer's liability coverage with limits of not less than one million dollars (\$1,000,000.00) per occurrence for each accident or illness. The Worker's Compensation policy shall state that it cannot be cancelled or materially changed without first giving thirty (30) days prior notice thereof in writing to the Owner. Firms that have owner/operators that have filed a "Notice of Election to be Exempt" shall supply a signed copy of said notice. Any such exemption shall meet the requirements that qualify for an exemption under the applicable Worker's Compensation law.

C. Business Automobile Liability – Proposer shall provide coverage for all owned, non-owned and hired vehicles with limits of not less than \$1,000,000, per occurrence, Combined Single Limits (CSL) or its equivalent.

D. Professional Liability (Errors & Omissions) – Proposer shall provide coverage for all claims arising out of the services performed with limits not less than \$1,000,000 per claim. The aggregate limit shall either apply separately to any contract or shall be at least twice the required per claim limit.

The Respondent shall save and hold the City harmless from and against all liability, claims and demands on account of personal injuries (including without limitation workmen's compensation and death claims) or property loss or damages of any kind whatsoever, which arise out of or be in any manner connected with, or are claimed to arise out of or be in any manner connected with, the performance of any contract, regardless of whether such injury, loss or damage shall be caused by, or be claimed to be caused by, the negligence or other fault of the Responder, any subcontractor, agent or employee.

Project will require a maximum dollar cap. Should the project exceed the dollar cap, the Contractor may request additional justifiable funding that will require the City Council's approval.

Response

All submitted RFP's become the property of the city and subject to all applicable public records laws include the Mississippi Public Records Act of 1983.

Hattiesburg reserves the right to accept, reject, or negotiate any or all proposals on the basis of the criteria contained within this document. The final decision to execute a contract with any party will be decided by the city.

Response Acceptance

The original and three (3) copies of the response and all attachments (four copies total) along with one electronic copy of the proposal saved as a .pdf file and stored on a CD or jump drive shall be signed and submitted in a sealed envelope or package to: City of Hattiesburg City Clerk, at PO Box 1898 or 200 Forrest Street, Hattiesburg Mississippi 39403-1898 no later than 10:00 a.m. Central Standard Time on **Saturday 28, 2017. No electronic or facsimile copies of the RFP will be accepted.** Timely submission of the RFP is the responsibility of the Respondent. Offers received after the specified time shall be rejected and returned to the Respondent unopened. **The envelope or package shall be marked with the RFP opening date and time and the number of the request for RFP. The time and date of receipt shall be indicated on the envelope or package by the City Clerk's Office. Each page of the RFP, all attachments and the CD/Jump Drive shall be identified with the name of the Respondent.**

Proprietary Information

The Respondent should clearly mark any and all pages of the proposal considered to be proprietary information which may remain confidential in accordance with current State Code.

When the City receives a request to release information properly designated as confidential or proprietary by a Respondent, the City shall give the owner of this information a reasonable time to obtain a court order protecting the information as confidential. If the City receives a court order it must then notify the requestor that the information is protected by court order and cannot be furnished.

Debarment

By submitting a response to this RFP, the Respondent including principles and or owners certifies that he/she is not currently debarred from participating in any Federal or State Grant Programs.

Procurement Regulations and Guidelines

Respondent is advised to review the Mississippi Personal Service Contract Review Board Rules and Regulation that will be utilized as a guideline for contracts (<http://www.mspb.ms.gov/personal-service-contract-review-board/pscrb-rules-regulations.aspx>). Appendix D and Appendix F contain multiple items that will be included in any contract. Not all items will be included in the contract but Respondent must accept these guidelines.

The following clauses are required conditions when soliciting information for personal services by the Personal Service Contract Review Board Rules and Regulations per Appendix D & F:

1. Acknowledgment of Amendments

Respondent shall acknowledge receipt of any amendments by copying and signing and being a part of the request. Amendments may include Questions/Answers.

2. Applicable Law

Any Contract as a result of this RFP shall be governed by and construed in accordance with the laws of the State of Mississippi, excluding conflicts of law's provisions, and any litigation with respect thereto shall be brought in the courts of the state. The Respondent shall comply with applicable federal, state, and local laws and regulations.

3. Availability of Funds

It is expressly understood and agreed that the obligation of the City to issue a contract as a result of this RFP is conditioned upon the appropriation of funds by the City of Hattiesburg.

4. Representation Regarding Contingent Fees

Respondent represents that it has not retained a person to solicit or secure a contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except as disclosed in Respondent's proposal.

5. Representation Regarding Gratuities

The Respondent represents that it has not violated, is not violating, and promises that it will not violate the prohibition against gratuities set forth in Section 7-204 (Gratuities) of the Mississippi Personal Service Contract Procurement Regulations.

6. Compliance with Laws

The Respondent understands that the City is an equal opportunity employer and therefore maintains a policy which prohibits unlawful discrimination based on race, color, creed, sex, age, national origin, physical handicap, disability, or any other consideration made unlawful by federal, State, or local laws. All such discrimination is unlawful and the Respondent agrees during the term of any agreements that the Respondent will strictly adhere to this policy in its employment practices and provision of services. The Respondent shall comply with, and all activities under this agreement shall be subject to, all applicable federal, State of Mississippi, and local laws and regulations, as now existing and as may be amended or modified.

7. E-Verification

Respondent represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act (Senate Bill 2988 from the 2008 Regular Legislative Session) and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigration Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. Respondent agrees to maintain records of such compliance and, upon request of the State, to provide a copy of each such verification to the State. Respondent further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of these warranties, the breach of which may subject Respondent to the following:

- (1) Termination of this Agreement and ineligibility for any state or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public; or,

(2) The loss of any license, permit, certification or other document granted to Respondent by an agency, department or governmental entity for the right to do business in Mississippi for up to one (1) year; or,

(3) Both.

In the event of such termination/cancellation, Respondent would also be liable for any additional costs incurred by the State due to contract cancellation of license or permits.

8. Transparency (July 1, 2016)

This contract, including any accompanying exhibits, attachments, and appendices, is subject to the "Mississippi Public Records Act of 1983," and its exceptions. See Mississippi Code Annotated §§ 25-61-1 *et seq.* and Mississippi Code Annotated § 79-23-1. In addition, this contract is subject to the provisions of the Mississippi Accountability and Transparency Act of 2008. Mississippi Code Annotated §§ 27-104-151 *et seq.* Unless exempted from disclosure due to a court-issued protective order, a copy of this executed contract is required to be posted to the Department of Finance and Administration's independent agency contract website for public access at <http://www.transparency.mississippi.gov>. Information identified by Contractor as trade secrets, or other proprietary information, including confidential vendor information or any other information which is required confidential by state or federal law or outside the applicable freedom of information statutes, will be redacted.

9. Approval

It is understood that any contract requires approval by the City Council. If a contract is not approved, it is void and no payment shall be made hereunder.

10. Confidential Information

"Confidential Information" shall mean: (a) those materials, documents, data, and other information which the Respondent has designated in writing as proprietary and confidential; and, (b) all data and information which Respondent acquires as a result of its contact with and efforts on behalf of the customer and any other information designated in writing as confidential by the City. Each party to this agreement agrees to the following:

(1) to protect all confidential information provided by one party to the other;

(2) to treat all such confidential information as confidential to the extent that confidential treatment is allowed under state and/or federal law; and,

(3) except as otherwise required by law, not to publish or disclose such information to any third party without the other party's written permission; and,

(4) to do so by using those methods and procedures normally used to protect the party's own confidential information.

Any liability resulting from the wrongful disclosure of confidential information on the part of Respondent or its subcontractors shall rest with the Responder.

11. Confidentiality

Notwithstanding any provision to the contrary contained herein, it is recognized that *the City of Hattiesburg* is a public entity in the State of Mississippi and is subject to the Mississippi Public Records Act. Miss. Code Ann. §§ 25-61-1 *et seq.* (1972, as amended). If a public records request is made for any information provided to *the City* pursuant to any agreement,

the City shall promptly notify the disclosing party of such request and will respond to the request only in accordance with the procedures and limitations set forth in applicable law. The disclosing party shall promptly institute appropriate legal proceedings to protect its information. No party shall be liable to the other party for disclosures of information required by court order or required by law.

12. Attorney's Fees and Expenses

Subject to other terms and conditions of possible future contracts, in the event the Respondent defaults in any obligations under the agreement, the Respondent shall pay to the City all costs and expenses (including, without limitation, investigative fees, court costs, and attorney's fees) incurred by the City in enforcing this agreement or otherwise reasonably related thereto. Respondent agrees that under no circumstances shall the City be obligated to pay any attorneys' fees or costs of legal action to any Respondent.

13. Authority to Contract

Respondent warrants: (a) that it is a validly organized business with valid authority to enter into an agreement; (b) that it is qualified to do business and in good standing in the State of Mississippi; (c) that entry into and performance into an agreement is not restricted or prohibited by any loan, security, financing, contractual, or other agreement of any kind, and (d) notwithstanding any other provision of agreements to the contrary, that there are no existing legal proceedings or prospective legal proceedings, either voluntary or otherwise, which may adversely affect its ability to perform its obligations under any agreement.

14. Respondent's Personnel

The City shall, when contracting, have the right of reasonable rejection and approval of staff or Subcontractors.

15. Failure to Deliver

In the event of failure of the Respondent to deliver services in accordance with the terms and conditions of any contract, the City, after due written notice, may procure the services from other sources and hold the Respondent responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies that the City may have.

16. Failure to Enforce

Failure by the City at any time to enforce contractual provisions will not be construed as a waiver of any such provisions. Such failure to enforce shall not affect the validity of any contract or any part thereof or the right of the City to enforce any provision at any time in accordance with its terms.

17. Independent Respondent Status

Respondent shall, at all times, be regarded as an independent Respondent under future contracts and shall at no time act as an agent for the City. Nothing contained herein shall be deemed or construed by the City, the Respondent, or any third party as creating the relationship of principal and agent, master and servant, partners, joint ventures, employer and employee, or any similar such relationship between the City and the Respondent.

18. No Limitation of Liability

Nothing in any future Agreement shall be interpreted as excluding or limiting any tort liability of the Respondent for harm caused by the intentional or reckless conduct of the Respondent

or for damages incurred through the negligent performance of duties by the Respondent or the delivery of products that are defective due to negligent construction.

19. Notices

All notices required or permitted to be given under any agreement must be in writing and personally delivered or sent by certified United States mail, postage prepaid, return receipt requested, to the party to whom the notice should be given at the address set forth below. Notice shall be deemed given when actually received or when refused. The parties agree to promptly notify each other in writing of any change of address.

For the Respondent:

Name Janice Coats
Title Owner
Respondent
Address 142 Providence Church Rd
Collins, MS 39428

For the City:

City of Hattiesburg
Purchasing Clerk
PO Box 1898
Hattiesburg, MS 39403-1898

20. Ownership of Documents and Work Papers

The City shall own all documents, files, reports, work papers and working documentation, electronic or otherwise, created in connection with any contract services, except for the Respondent's internal administrative and quality assurance files and internal project correspondence. The Respondent shall deliver such documents and work papers to the City upon termination or completion of each project. The Respondent shall be entitled to retain a set of such work papers for its files. Respondent shall be entitled to use such work papers only after receiving written permission from the City and subject to any copyright protections.

21. Record Retention and Access to Records

Provided the Respondent is given reasonable advance written notice and such inspection is made during normal business hours of the Respondent, the City or any duly authorized representatives, shall have unimpeded, prompt access to any of the Respondent's books, documents, papers, and/or records which are maintained or produced as a result of any contract for the purpose of making audits, examinations, excerpts, and transcriptions. All records related to this Agreement shall be retained by the Respondent for three (3) years after final Declaration Closeouts. However, if any audit, litigation or other action arising out of or related in any way to future contracts is commenced before the end of the three (3) year period, the records shall be retained for one (1) year after all issues arising out of the action are finally resolved or until the end of the three (3) year period, whichever is later.

22. Right to Inspect Facility

The City may at reasonable times inspect the place of business of a Respondent or any Subcontractor which is related to the performance of any Contract awarded by the City.

23. Termination for Convenience

1. Termination. The City may, when the interests of the City so require, terminate any contract in whole or in part, for the convenience of the City. The City Engineer shall give written notice of the termination to the Respondent specifying the part of any contract terminated and when termination becomes effective.

2. Respondent's Obligations. Respondent shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the Respondent will stop work to the extent specified. The Respondent shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The Respondent shall settle the liabilities and claims arising out of any termination of subcontracts and orders connected with the terminated work. The City Administrator may direct the Respondent to assign the Respondent's right, title, and interest under terminated orders or subcontracts to the City. The Respondent must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

24. Termination for Default

(1) *Default*. If Respondent refuses or fails to perform any of the provisions of any contract with such diligence as will ensure its completion within the time specified in any contract or any extension thereof, or otherwise fails to timely satisfy contract provisions, or commits any other substantial breach of any contract, the procurement officer may notify the Respondent in writing of the delay or nonperformance and if not cured in ten (10) days or any longer time specified in writing by the procurement officer, such officer may terminate Respondent's right to proceed with a contract or such part of a contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part, the procurement officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the procurement officer. Respondent shall continue performance of any contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(2) *Respondent's Duties*. Notwithstanding termination of contracts and subject to any directions from the procurement officer, Respondent shall take timely, reasonable, and necessary action to protect and preserve property in the possession of Respondent in which the City has an interest.

(3) *Compensation*. Payment for completed services delivered and accepted by the City shall be at a contract price. The City may withhold from amounts due Respondent such sums as the procurement officer deems to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders and to reimburse the City for the excess costs incurred in procuring similar goods and services.

(4) *Excuse for Nonperformance or Delayed Performance*. Except with respect to defaults of subcontractors, Respondent shall not be in default by reason of any failure in performance of any contract in accordance with its terms (including any failure by Respondent to make progress in the prosecution of the work hereunder which endangers such performance) if Respondent has notified the procurement officer within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the City and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, Respondent shall not be deemed to be in default, unless the services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit Respondent to meet contract requirements. Upon request of Respondent, the procurement officer shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and

that, but for the excusable cause, Respondent's progress and performance would have met the terms of any contract, the delivery schedule shall be revised accordingly, subject to the rights of the City under the clause entitled (in fixed-price contracts, "Termination for Convenience," in cost-reimbursement contracts, "Termination"). (As used in this Paragraph of this clause, the term "subcontractor" means subcontractor at any tier).

(5) *Erroneous Termination for Default.* If, after notice of termination of Respondent's right to proceed under the provisions of this clause, it is determined for any reason that any contract was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if any contract contains a clause providing for termination for convenience of the City, be the same as if the notice of termination had been issued pursuant to such clause.

(6) *Additional Rights and Remedies.* The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under any contract.

25. Termination upon Bankruptcy

Any future Contract may be terminated in whole or in part by the City upon written notice to Respondent, if Respondent should become the subject of bankruptcy or receivership proceedings, whether voluntary or involuntary, or upon the execution by the Respondent of an assignment for the benefit of its creditors. In the event of such termination, the Respondent shall be entitled to recover just and equitable compensation for satisfactory work performed under any contract, but in no case shall said compensation exceed a total contract price.

26. Third Party Action Notification

Respondent shall give the City prompt notice in writing of any action or suit filed, and prompt notice of any claim made against Respondent by any entity that may result in litigation related in any way to any agreements.

27. Unsatisfactory Work

If at any time during any contract term, the service performed or work done by the Respondent is considered by the City to create a condition that threatens the health, safety, or welfare of the citizens and/or employees of the City, the Respondent shall, on being notified by the City, immediately correct such deficient service or work. In the event the Respondent fails, after notice, to correct the deficient service or work within 24 hours, the City shall have the right to order the correction of the deficiency by separate contract or with its own resources at the expense of the Respondent.

28. Waiver

No delay or omission by either party to any agreement in exercising any right, power, or remedy hereunder or otherwise afforded by contracts, at law, or in equity shall constitute an acquiescence therein, impair any other right, power or remedy hereunder or otherwise afforded by any means, or operate as a waiver of such right, power, or remedy. No waiver by either party to any agreement shall be valid unless set forth in writing by the party making said waiver. No waiver of or modification to any term or condition of any agreement will void, waive, or change any other term or condition. No waiver by one party to any agreement of a default by the other party will imply, be construed as or require waiver of future or other defaults.

REQUIRED FEDERAL PROCUREMENT CLAUSES

1. Clean Air Act and the Federal Water Pollution Control Act (over \$150,000.00).

Respondent shall comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Any violations of these acts must be reported to the City so they can be reported to FEMA.

2. Retention/Access of Records

Respondent will be required retain all records associated with each project for three (3) years after the City or the sub recipient make final payments and Declaration Closeouts are posted, and all other pending matters are closed.

3. Energy Policy and Conservation Act

Respondent shall adhere to mandatory standards and policies on energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. 6201).

4. Debarment and Suspension

Respondent shall not subcontract with any parties listed on the government-wide Excluded Parties List System in the **System for Award Management (SAM)**, in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1986 Comp., p. 189) and 12689 (3 CFR Part 1989 Comp., p. 235), "Debarment and Suspension." Respondent shall not subcontract with any parties that are currently debarred and listed with the Mississippi Department of Finance and Administration (DFA) (www.dfa.ms.gov).

5. Byrd Anti-Lobbying Amendment

Respondent certifies that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S. C. 1352. Respondent shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal Award. Respondent shall require all subcontractors to submit these same certifications.

6. Contract Work Hours and, Safety Standards Act, as Amended (over \$100,000.00).

7. Equal Opportunity Clause 41 CFR60-1.4

8. Coordination of Grants Related Civil rights statutes, Executive Order 12250.

EVALUATION PROCEDURE PROCESS:

1. Qualifications of Respondent

Respondent may be required before the award of any contract to show to the complete satisfaction of City that it has the necessary facilities, integrity, ability, compliance with public policy, past performance, technical, and financial resources to provide the service specified therein in a satisfactory manner. The Respondent may be required to provide legal understanding of the Personal Service Contract Review Board Rules and Regulations as well as the Federal Office of Management and Budget Super Circular. Respondent may also be required to give a past history and references in order to satisfy the City in regards to the Respondent's qualifications. The City may make reasonable investigations deemed

necessary and proper to determine the ability of the Respondent to perform the work, and the Respondent shall furnish to the City all information for this purpose that may be requested. The City reserves the right to reject any offer if the evidence submitted by, or investigation of, the Respondent fails to satisfy the City that the Proposer is properly qualified to carry out the obligations of future contracts and to complete the work described therein. Evaluation of the Respondent's qualifications shall include:

1. The ability, capacity, skill, financial, and other necessary resources to perform the work or provide the service required;
2. The ability of Respondent to perform the work or provide the service promptly or within the time specified, without delay or interference;
3. The character, integrity, reputation, judgment, experience, and efficiency of the Respondent; and,
4. The quality of performance of previous contracts or services.
5. Price.

First Step: RFP's will be reviewed to meet compliance with the request. RFP's that do not comply with the specifications will be rejected and no further consideration given.

Second Step: RFQ's that complete the First Step will be reviewed/analyzed for determination if the response adequately meets the needs of the City. The following factors will be utilized:

1. The overall quality of the proposed plan and for performing the required services – the plan should reflect an understanding of the project and its objectives. Consideration will be given to the completeness of the response to the specific requirements of the solicitation. (Critical - 20 points)
2. Respondent's ability to perform such services as reflected by technical training and education, general experience, specific experience in providing the required services, and the qualification and abilities of personnel proposed to be assigned to perform the services. This includes the ability of the Respondent to provide a work product that is legally defensible. (Very Important - 20 points)
3. The personnel, equipment, facilities, and financial resources to perform the services currently available or demonstrated to be made available at the time of contracting. (Important - 20 points)
4. A record of past performance of similar work. Direct experience in Mississippi is desirable but not required. (Critical - 20points)
5. Price (20 points).

Third Step: The City may contact the most qualified Respondent by telephone to schedule an interview.

SCOPE OF WORK:**DR-XXXX**

Hattiesburg Mississippi, is seeking Professional Services proposals for Debris Monitoring Firms. Proposals will be sought for Monitoring of federally declared disaster related debris, of every kind and nature from public rights of way (and/or private property if approved by the City, State, and FEMA), as further described below and in the attachments. Private Right of Way Access or Right of Entry (ROE) may or may not be part of this Service however if the City, State, or FEMA authorizes the ROE it will become part of the Service. The City will seek proposals for said services City-wide. The City will evaluate the Proposals on what is in the best interest of the City and the nature of the event. The City will seek to identify a Respondent to oversee either City Task Force or Debris Removal Contractor(s). It shall be noted that any Contract is for payment of "Only Debris Services that FEMA Determined Eligible" and is consistent with FEMA Public Assistance Program and Policy Guideline (FP-104-009-2, January 2016).

This Scope of Work (SOW) is provided for Respondent to review in detail, the SOW is detailed as to the terms of request and Respondent should acknowledge each line item. Should a Respondent take exception to any line items in the SOW it should be clearly stated within the proposal.

Respondent must provide a technical overview for debris monitoring as to how they complete this project.

The scope of work/services as described below shall be considered minimum standards to meet in submitting their proposal for debris monitoring services. The Monitoring Services Respondent shall be experienced and knowledgeable in handling and executing disaster debris removal and disposal monitoring in compliance and consistent with the policies and publications of MEMA, FEMA, and FHWA. Throughout these specifications, any reference to FEMA shall also imply FHWA compliance when the circumstances dictate, such as when sites eligible for emergency relief work are involved.

Examples of guidelines and regulations include but are not limited to the following:

FP-104-009-2 January 2016

Emergency Relief Manual (Federal-Aid Highways)- November 2009

The City will designate a Debris Task Force Manager (DTFM) that will act as the Point of Contact (POC) for the event. The DTFM POC may consist of a City Employee, a Professional Contractor, or the City Engineer.

The Respondent will work with the City Debris Task Force Manager by assisting in determining the amounts of debris prior to beginning services.

Respondent will work with all associated teams including MEMA, FEMA, City, County, Debris Removal Contractors, and FHWA as needed for timely project completions, cost effectiveness, and maximum FEMA Category A reimbursements.

Respondent will measure and certify all equipment associated with either the City Task Force or approved removal contractor(s). Respondent will be familiar with standard MDOT Traffic Control Measures and report to the Debris Task Force Manager any safety issues or irregularities.

Respondent will report any delays, issues or concerns by the City or Removal Contractor to the City Task Force Manager.

Respondent will oversee all debris pick up sites as well as temporary and or final sites. Oversight will include GPS coordinates, addresses for pick up, and photographs. Respondent should be able to provide written Load tickets. Should the respondent be positioned to offer e-ticketing a description should be included in the technical overview for this service. Should the Respondent offer e-ticketing the price for any additional devices should be included in the hourly rate for any positions that may be utilizing the devices. Respondent should state hourly pricing for flat rate without e-ticketing devices as well as with e-ticketing devices. Either hand written or electronic tickets must be completed in detail for each line item. Photo documentation must be provided from cradle to grave and correlate with the load tickets.

Respondent will be responsible for providing an electronic document reflecting the cubic yards (or other units of measure) daily amounts to the City Debris Task Force Manager that will be sent to MEMA and FEMA daily.

Respondent will be responsible for working sun-up to sun-down seven days a week unless directed differently by the City Debris Task Force Manager.

As a minimum the Respondent must provide sufficiently trained personnel including a Project Manager, Field Monitors, Roving Managers, Fixed Site Monitors, Data Managers, and Clerical.

The City may use force account resources (including temporary hires), contractors, or a combination of these for monitoring. It is not necessary, or cost-effective, to have Professional Engineers or other certified professionals perform debris monitoring duties. FEMA considers costs unreasonable when associated with the use of staff that is more highly qualified than necessary for the associated work.

Respondent will be responsible for documenting any damage to city or private property caused by the removal contractor(s). Respondent should also document any City infrastructure damage caused by the event.

Respondent must be able to activate within 24 hours of notification to proceed by the City.

Respondent must certify that the company or any of its principles are not bared from performing any State or Federally Funded Projects including FEMA and the FHWA.

SCOPE OF POSITIONS

Provide Project Managers, Roving Managers, Field Monitors, Fixed Site Monitors, Data Managers, and Clerical for Debris Monitoring. Respondent may provide e-ticketing service however it is not mandatory for this request.

Project Manager:

Respondent will provide a Project Manager to oversee debris monitoring activities.

1. Oversight and Supervision of Monitor field activities.
2. Scheduling of Monitoring resources and deployment timing.
3. Communication and coordination with City personnel.
4. Make suggestions to improve the efficiency of collection and removal of debris.
5. Coordinate daily activities and future planning.
6. Remain in contact with DTFM
7. Identify, address, and troubleshoot any questions or problems that could impact work area safety and eligibility.
8. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations. Document truck hauling compartment condition using digital photographs. Prepare a master log book of all hauling equipment used by the City and or the Removal Contractor(s).
9. Compile, reconcile and document daily in an electronic spreadsheet format all eligible debris hauled by the City or Removal Contractor.

Field Debris Monitors and Roving/Operations Manager:

Respondent will perform on-site, street-level work area inspections of debris cleanup and collection. Respondent will provide loading site (field) monitors to inspect and control debris collection utilizing manifest load tickets. A Roving or Operations Manager will also be assigned to oversee a maximum of nine Field Monitors.

1. Provide field monitor personnel at designated areas to check and verify information on debris removal.
2. Monitor collection activity of trucks.

3. Issue manifest load tickets at loading site for each load.
4. Check the area for safety considerations such as – downed power lines, the presents of children, traffic control, safety of equipment
5. Ensure Freon containing appliances are sorted and ready for Freon removal on site or separate transport for Freon removal before final disposal.
6. Perform a pre-work inspection of areas to check debris piles to identify covered utility meters, transformers, fire hydrants, mail boxes, etc. to help prevent damage from loading equipment and to look for potential problems.
7. Should damages occur to utility components, driveways, road surfaces, private property, vehicles, etc. document the damage with photos if possible, collect information about owner, circumstances of the damage (who, what, when, where) and report to your Roving Manager.
8. Ensure the work area is clear of debris to the specified level before equipment moves to a new loading area.
9. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations.
10. Properly monitor and record performance and productivity of debris removal crew.
11. Remain in constant contact with Roving Manager. Roving Manager is to report directly to the DTFM.
12. Ensure that loads are contained properly before leaving the loading area.
13. Ensure only eligible debris is collected for loading and hauling.
14. Ensure only debris from approved public areas is loaded for removal.
15. Perform other duties from time to time as directed by the debris management project manager or DTFM.

Fixed Site Debris Monitors:

Respondent will provide personnel to oversee the inspection of the disposal or unloading sites by providing the monitoring, verification of load capacity, and documentation at designated temporary and or final disposal sites.

1. Provide disposal site monitors and inspectors personnel.
2. Complete record of contract haulers' cubic yardage and other record keeping as may be needed on the provided load ticket.
3. Initial each load ticket before permitting truck to proceed from the check-in area to the tipping area.
4. Remain in contact with debris management/dispatch center or supervisor.
5. Perform other duties as directed by the dispatch/staging operation, debris management project manager, or designated City personnel.
6. Accurately measure load hauling compartments and accurately compute volume capacity in cubic yards. Document and record measurements and computations

Data Managers:

Respondent will provide personnel to oversee electronic documentation including:

1. Excel Spreadsheets as to amounts of debris collected daily.
2. Maintenance and data transfer of e-ticketing system if applicable.
3. Data Retention and back up of Data Retention for a minimum of 5 years at the expense of the Respondent.
4. GPS devices and oversight of coordinating with FEMA on accuracy.
5. GIS (Global Information System) coordination with the City, PDD (Planning and Development District), and or state.

Clerical:

Respondent will provide personnel to assist with data collection daily.

1. Enter daily data into either Excel Spreadsheets or e-ticketing system.
2. Verify Billing.
3. Audit billing vs. invoices.
4. Prepare cover documentation for services and create a filing system either electronic and or paper.

Terms:

Contracts will be established per event as activated.

Deployment

Respondent must be prepared to deploy within 24 hours from the notice to proceed. Respondent staffing levels shall be efficient and coincide with the scale of the debris removal operations and must be approved by the DTFM prior to deployment. The Respondent shall obtain approval from the City for any increase in the staffing levels.

The Respondent shall be able to cover expenses associated with a major recovery operation prior to the initial payment and between subsequent payments as well as the providing insurance.

CONSIDERATIONS

The Respondent shall supervise and direct the work, using skillful labor and proper equipment for all tasks. Safety of the Respondent's personnel and equipment is the responsibility of the Respondent. Additionally, the Respondent shall pay for all materials, personnel, taxes, and fees necessary to perform under the terms of any contract.

The Respondent shall be duly licensed in accordance with the state's statutory requirements to perform the work.

The Respondent shall be responsible for taking corrective action in response to any notices of violations issued as a result of the Respondent or any subcontractor's actions or operations during the performance of any contract. Corrections for any such violations shall be at no additional cost to the City.

The City may suspend Respondent's operations due to inclement weather. The performance period may be extended for weather delays.

The Respondent shall permit access by the Recipient, the Sub Recipient, the Federal Grantor Agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the Respondent which are directly pertinent to any specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

The Respondent shall retain all required records for three years after final payments and all other pending matters are closed (three (3) years after declaration closeouts). The Respondent shall agree to comply with any other applicable Federal or State regulations.

ADDENDUM #1

for

"Debris Monitoring for Tornado date January 21, 2017"

The following items will be added to the City of Hattiesburg "Debris Removal for Tornado dated January 21" RFP:

1. Attachment "A" City of Hattiesburg Historical Registry was not included in the original RFP. Although there are an immense number of locations within the Register none of the locations were damaged by the January 21st Tornado. The Attachment is included in this Addendum for review.
2. Questions for the RFP are due by Thursday January 26, 2017 at 12:01 PM. Questions should be submitted to Lamar Rutland City Engineer at lrutland@hattiesburgms.com or fax at 601-545-4642.
3. It was the intent of the City of Hattiesburg to attach the Contract Template and was overlooked while distributing the RFP. The Contract Template is attached to this Addendum for review.
4. Under Summary of the RFQ page 1 first paragraph the Bid will be opened on Saturday January 28th, 2017 at **10:00 AM**, please add and note the time.

**STATE OF MISSISSIPPI
CITY OF HATTIESBURG
CONTRACT FOR PROFESSIONAL SERVICES
#12417**

January 24, 2017

1. **Parties.** This contract is made and entered into by and between the City of Hattiesburg MS (The City) and SCHAUS LLC (SCHAUS LLC) a Mississippi Company.
2. **Purpose.** The City hereby engages the services of SCHAUS LLC, and SCHAUS LLC hereby agrees to render those certain services described in Paragraph 3, "Scope of Services," below.
3. **Scope of Services.** The intent of this contract is assist the City with Emergency Preparedness Planning including the Office of Management Super Circular Guidelines. This is a non-federally funded project solely funded by the City of Hattiesburg.

Description of Services:

1. Design Debris Removal and Monitoring Request for Proposals (RFP) for Activations.
2. Design Direct Administrative Cost (DAC) RFQ and RFP's for Activations.
3. Design Contract Templates for Debris Removal, Debris Monitoring, and Direct Administrative Cost Activations.
4. Update the FEMA Debris Plan as needed.
5. Assist the City with Guidance during Activations.
6. Assist the City with Grant Guidance including Hazard Mitigation Grant Program (HMGP), Pre Disaster Mitigation (PDM), and Flood Mitigation Assistance (FMA), Homeland Security, and FEMA eGrants.
7. Provide Legal Guidance pertaining to FEMA Documents and updates.

Deliverables upon activation:

1. SCHAUS LLC will provide experienced personnel to complete the projects.
2. SCHAUS LLC will represent Hattiesburg for required follow through.

City Responsibilities:

1. The City will assign a single Point of Contact for the Project.
 2. The City will assist SCHAUS with negotiations for Temporary Debris Reduction Sites and Legal Agreements that may surface for the Project.
4. **Period of Performance.** The period of performance of services under this Contract shall be for six months beginning on January 1, 2017 and end June 30th, 2017. Should City and SCHAUS LLC agree to extend this Agreement both parties shall agree in writing. Notice of any cancellation must be sent to SCHAUS LLC in writing at least fifteen (15) days prior to the effective termination date.
5. **Consideration and Method of Payment.** Consulting upon activation will require Hourly rates reviewed annually for updates. Rates for 2017 (January 1, 2017 to June 30, 2017)

are as follows:

POSITIONS	HOURLY RATES
Project Manager/Planner	\$ 75.00/hour
Legal Counsel	\$ 135.00/hour
Operations Manager	\$ 65.00/hour
Document Manager	\$ 70.00/hour
Environmental Consultant	\$ 75.00/hour
Clerk	\$ 33.00/hour

Expenses:

Excessive trips/mileage beyond 50 miles from Hattiesburg \$At Current IRS Rate

Copies, Photo Documentation, GIS Printing, Scanning \$At Negotiated Rate

This Project shall not exceed \$20,00.00 without approval of the City of Hattiesburg.

SCHAUS LLC will bill Hattiesburg monthly for Services. The City of Hattiesburg will pay SCHAUS LLC 30 days after receipt of payment.

Should City not desire to continue to utilize the services of SCHAUS LLC, then City shall notify the SCHAUS LLC in writing 30 days in advance, upon cancellation and City shall be under no further obligation under this contract.

6. **Relationship of Parties.** It is expressly understood and agreed that the City enters into this Contract with SCHAUS LLC based on the purchase of Professional Services and not based on an employer-employee relationship. For all purposes under this Contract:
- A. SCHAUS LLC represents that it has, or will secure, at its own expense, applicable personnel who shall be qualified to perform the duties required to be performed under this Contract. Such personnel shall not be deemed in any way, directly or indirectly, expressly, or by implication, to be employees of the City without approval of the City.
 - B. Any person or subcontractor employed by SCHAUS LLC to perform the services hereunder shall be the responsibility of SCHAUS LLC, who shall have the sole right to hire and discharge its employee.
 - C. It is further understood that the consideration expressed herein constitutes full and complete compensation for all services and performances hereunder, and that any sum due and payable to SCHAUS LLC for services actually rendered shall be so paid with no withholdings or deductions being made by the City for any purpose except as provided in Paragraph 7 herein.

SCHAUS LLC shall pay, when due, all salaries and wages of its employees, and it accepts exclusive responsibility for the payment of and shall pay any Tax and any withholdings that may be required.

7. **Termination for Cause.** If, through any cause, SCHAUS LLC shall fail to fulfill in a

timely and proper manner, as determined by the City, its obligations under this Contract, or if SCHAUS LLC shall violate any of the covenants, agreements, or stipulations of this Contract, City shall thereupon have the right to terminate the Contract by giving written notice to SCHAUS LLC of such termination and specifying the effective date thereof, at least fifteen (15) days before the effective date of such termination. Satisfactory work shall be determined by the City in its sole discretion. In the event of such termination, SCHAUS LLC shall be entitled to receive just and equitable compensation for satisfactory work completed on documents, services or materials collected and/or prepared by SCHAUS LLC in connection with this Contract as of the date of receipt of Notification of Termination. Such compensation shall be based upon the fees set forth in Paragraph 5.

Notwithstanding the above, SCHAUS LLC shall not be relieved of liability to the City for damages sustained by City by virtue of any breach of this Contract by SCHAUS LLC and City may withhold any payments to SCHAUS LLC for the purpose of set off until such times as the exact amount of damages due to City from SCHAUS LLC are determined.

8. **Termination for Convenience.** Either City or SCHAUS LLC may terminate this Contract at any time by giving written notice to the other party of such termination and specifying the effective date thereof, at least fifteen (15) days before the effective date of such termination. SCHAUS LLC shall be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of SCHAUS LLC covered by the Contract, less payments previously made.
9. **Ownership of Documents and Work Product.** Except as otherwise required by law with regard to the confidentiality of patent records, all documents, notes, programs, books, data bases (and all applications thereof), files, reports, studies, unfinished documents and/or other materials collected or prepared by SCHAUS LLC specifically at the request and solely for the use of the City, which information is not of the sort that would be compiled in the ordinary course and scope of SCHAUS LLC regular business activities, shall be owned by the City upon completion or termination of this agreement. The City reserves the rights to any and all information and/or materials collected on its behalf.

SCHAUS LLC assures that any and all information regarding clients of the City will be kept strictly confidential pursuant to current state and local requirements and will become the property of the City. SCHAUS LLC further assures that the City shall have full access to all information collected.

The SCHAUS LLC is prohibited from use of the above described information and/or materials without the express written approval of the City.

10. **Agreements by SCHAUS LLC.**
Subcontractors. It is understood and agreed that SCHAUS LLC may enter into agreements or subcontracts with qualified entities, to perform the obligations contained in this agreement. Any such contracts, subcontracts or agreements shall include or incorporate by reference, the terms and conditions of this agreement. SCHAUS LLC shall bear full responsibility for the performance of any and all contractors and subcontractors.

Subcontractor Liability. In any agreement or subcontract for the performance of any

service or services under this agreement, SCHAUS LLC shall require a contractor or subcontractor to indemnify, release, save and hold harmless the City from and against all claims, demands, liabilities, suits, damages and costs of every kind and nature whatsoever, including court costs and attorney's fees arising under this agreement.

SCHAUS LLC shall require any and all licensed professionals either employed by or under a contract/subcontract to SCHAUS LLC to perform services under this Contract, shall be fully responsible and liable to SCHAUS LLC and City for work performed or any omission by any associates, employees and/or consultants. Proof of General Liability and Errors and Omissions shall be provided to the City upon request. SCHAUS LLC shall require that any such licensed professional (example: Engineers, Environmentalist, etc.) carry errors and omissions insurance coverage in an amount equal to at least one million (\$1,000,000.00), to include all associates, employees and/or consultants, and that the cost thereof shall be borne by the licensed professional. Such errors and omissions coverage shall remain in full force and effect for the period of time that the professional or subcontractor is responsible for performance of any part of this Contract.

11. **Record Retention and Access to Records.** SCHAUS LLC shall maintain, and shall make available to the City, any state agency authorized to audit the City, the federal grantor agency, the Comptroller General of the United States or any of their duly authorized representatives, financial records, supporting documents, statistical records and all other records pertinent to the services performed under this Contract. These records shall be maintained for at least three (3) years; however, if any litigation or other legal action, by or on behalf of the State or Federal Government has begun that is not completed at the end of the three (3) year period, or if audit findings, litigation or other legal action has not been resolved at the end of the three (3) year period, the records shall be retained until resolution.
12. **Modification or Amendment.** Modifications, changes or amendments to this Contract may be made upon mutual agreement of the parties, in writing and signed by the parties hereto.
13. **Assignment.** SCHAUS LLC may not assign or otherwise transfer its obligations or duties under this Contract without the prior written consent of the City. Any attempt to assign or transfer the obligations and duties hereunder without such consent shall be void.
14. **Waiver.** Failure of either party hereto to insist upon strict compliance with any of the terms, covenants and conditions hereof shall not be deemed a waiver or relinquishment of any similar right or power there under at any subsequent time or of any other provision hereof, nor shall it be construed to be a modification of the terms of this Contract.
15. **Funding.** It is expressly understood by the parties hereto that the fulfillment of the obligations of the City under this agreement is conditioned upon the availability of the City funds. In the event that funds are insufficient or otherwise unavailable to satisfy payments due under this agreement, the City shall satisfy all payment request of completed service by the SCHAUS LLC and shall notify SCHAUS LLC to cease work.
16. **Indemnification.** SCHAUS LLC agrees to indemnify, defend, save and hold harmless the City from and against all claims, demands, liabilities, suits, damages and costs of every kind and nature whatsoever, including court costs and attorney's fees, arising out of or

caused by SCHAUS LLC, its agents, subcontractors, or employees in the performance of this Contract.

17. **Governing Law and Legal Remedies.** This Contract shall be construed and governed in accordance with the laws of the State of Mississippi. SCHAUS LLC expressly agrees that under no circumstances shall Hattiesburg be obligated to pay an attorney's fee or the cost of legal action to the SCHAUS LLC.

SCHAUS LLC and the City agree that the courts of general jurisdiction of the City, and appropriate appellate courts therefrom, shall have exclusive venue and jurisdiction for the litigation and resolution of any dispute regarding this Contract.

18. **Severability.** If any term or provision of this Contract is prohibited by the laws of the State of Mississippi or declared invalid or void by a court of competent jurisdiction, the remainder of this Contract shall not be affected thereby and each term and provision of this Contract shall be valid and enforceable to the fullest extent permitted by law.

19. **Disputes.** Any dispute concerning a question of fact arising under this Contract may be disposed of by good faith negotiation between a duly authorized representative of the City and SCHAUS LLC. Such a resolution shall be reduced to writing, executed by both parties, and a copy thereof mailed or furnished to the SCHAUS LLC and shall be final and conclusive, unless within ten (10) days from the date of such resolution, SCHAUS LLC mails or furnishes to the City a written request for review.

20. **Compliance with Laws.** SCHAUS LLC shall comply with all applicable laws, regulations, policies and procedures and Grant requirements (if applicable) of the United States of America or any agency thereof, the State of Mississippi or any agency thereof and any local governments or political subdivisions that may affect the performance of services under this Contract. Specifically, but not limited to, SCHAUS LLC shall not discriminate against any employee nor shall any party be subject to discrimination in the performance of this Contract because of race, color, sex, age, religion, national origin or disability.

21. **Notice.** Any notice required or permitted to be given under this Contract shall be in writing and sent by United States Certified Mail, Return Receipt Requested, to the party to whom the notice should be given at the address set forth following:

HATTIESBURG MISSISSIPPI

Johnny Dupree, Ph.D.

Subject: RE: questions from Council regarding Hercules fund

1. I'll have to get the actual bank balances from Lisa Hanson, but the General Fund ending cash balance as of January 31 was \$7,350,659, which includes the \$3,000,000 Hercules settlement. That give us \$4,350,659 to work with. February should be our highest collection month for ad valorem taxes, so we should be good in the short term.
2. The sales tax revenue is right on budget. We are \$29,000 ahead of what we budgeted as of January 20.

Year to date collections	\$7,196,178
Year to date at January 2016	\$7,221,568
Budgeted to date	\$7,166,666

Property taxes are approximately \$290,000 ahead of collections at this point last year. I can't look at this compared to the budget because the collections are so seasonal, but we're on a good track compared to last year.

Year to date collections	\$3,208,120
Year to date at January 2016	\$2,915,694

3. At present we have processed invoices for \$98,061.72 for emergency services and supplies. All but \$3,381 has been from the general fund.
4. I need to fund the amounts that have already been expended, and add money to the disaster line items to begin repairs to things that can be repaired. I don't have a good number yet on how much additional we need, but we probably have another \$100,000 or more in emergency services and supplies that have not yet been processed for payment.

My main concern at the moment is to identify sources of available funds that can be used to make repairs and pay vendors once invoices really start to come in. We have several options available to us that I will list below in order of preference.

- a. For insured property we can request an advance from the insurance company
- b. Mass Transit is working on grant funds for repair and replacement of buses and structures
- c. Borrow money from the Hercules fund and replace it when we receive reimbursements
- d. Short term borrowing from a bank, which would later be rolled into a bond issue

It will be necessary to make budget amendments to get money to the affected departments, but I will need to get repair estimates in to know how much is needed in each area. We should have many of those estimates soon.

Please call me if you have any questions or if there is any other information you'd like.

Subject: questions from Council regarding Hercules fund

Hi Mayor,

Carter asked me to poll the Council about your request regarding the Hercules fund. Some of the Council members have questions; Carter asked me to pass them along so everyone is on the same page.

1. Could we get the current bank balances, please?
2. What is the amount of revenue coming in from ad valorem and sales tax?
3. How much money been spent for the tornado, and how has it been spent?
4. How much money is needed at this point, and how will it be used?

Thanks very much.

Debbie
