Call to Order

Call to Prayer and Pledge of Allegiance

Presentation Agenda

Citizens' Forum

POLICY AGENDA

- 1. 2021-1122** Approve the minutes for the August 16 & 17, 2021 meetings of the City Council.
- 2. 2021-1035** Adopt an Ordinance amending Chapter 10 of the Code of Ordinances, which established the Flood Damage Prevention Ordinance for the City of Hattiesburg, and Repealing Ordinance Number 3247, adopted December 18, 2018, and any other Ordinances in conflict herewith - tabled from the August 17, 2021 council meeting.
- 3. 2021-1133** Adopt the September 7, 2021 amendments to the budget for the City of Hattiesburg for fiscal year ending September 30, 2021 and adopt Resolution authorizing publication of amendments for funds in excess of 10% of the originally appropriated fund balance.
- 4. 2021-1128** Approve Professional Services Agreement with Bridge & Watson, Inc., for planning and consulting services related to redistricting for the City of Hattiesburg pursuant to the release of the 2020 census data.
- 5. 2021-1103** Approve Task Force Agreement between the Hattiesburg Police Department and the United States Department of Justice, Drug Enforcement Administration (hereinafter "DEA") concerning the use and abuse of controlled substances and authorizing the Mayor or designee to execute the same.
- 6. 2021-1132** Approve Lighting Agreement with Mississippi Power Company for lighting changes on Hardy Street which will yield a decrease in cost of \$100.77 per month; additional

lighting on S 40th Avenue with a monthly cost increase of \$42.48; additional lighting on Lincoln Road with a monthly increase of \$13.66; and additional lighting on James Street with a monthly increase of \$61.28 and authorize the Mayor to execute the same.

- 7. 2021-1118** Approve Agreement between City of Hattiesburg and Precision Communications, Inc., to provide bi-annual tornado siren maintenance inspections on all City of Hattiesburg tornado sirens and authorize the Mayor to execute the same.
- 8. 2021-1119** Approve Lease Agreement between City of Hattiesburg and Region XII Commission on Mental Health (“Pine Belt Mental Healthcare Resources”), for space at 1410 W. Pine to operate a homeless resource center and authorize the Mayor to execute the same.
- 9. 2021-1137** Approve Agreement between the City of Hattiesburg and DB's Wings on the Fly, LLC to operate and provide concession services at John Buckley Softball Complex Concession Stand and authorize the Mayor to execute the same.
- 10. 2021-1130** Approve Engagement Letter with Jackson, Tullos & Rogers, PLLC for legal services related to the acquisition of property for the Hall Avenue Railroad Overpass West project (BUILD Grant LPA 108639-801000) and authorize the Mayor to execute in duplicate.
- 11. 2021-1121** Approve execution of Option to Purchase property located at PPIN 26528, (Council authorized September 22, 2020, Minute Book # 2020-249) and authorize issuance of manual check for the same.
- 12. 2021-1116** Approve Release of Lien documents filed in relation to Code Enforcement clean-up assessments.
- 13. 2021-1105** Approve and authorize issuance of manual checks for CDBG Program Claims per attached Memorandum. {Entitlement CDBG}
- 14. 2021-1120** Approve HOME Grant Agreement Addendum between Breakthrough Community Services, Inc. and the City of Hattiesburg for the rehabilitation of a home at 104 Donald Street as an affordable housing unit, utilizing HOME CHDO Set-aside funds in an amount not to exceed \$60,000 and authorize the Mayor to execute the same.
- 15. 2021-1108** Approve Cancellation of Deed of Trust from Ernestine and Samuel Mack, Grantor, for property at 119 West 8th Street to City of Hattiesburg, Beneficiary, recorded in the Deed of Trust Book 1526 at Page 0719-0722 in the office of the Chancery Clerk of Forrest County, Mississippi, from a HOME-eligible buyer and authorize the Mayor to execute the same.
- 16. 2021-1131** Acknowledge receipt of final closing documents for the Sullivan Park Splash Pad project, approve Final Summary Change Order to adjust estimated quantities to actual and authorize final acceptance of project.

17. **2021-1135** Authorize the acceptance of the FY22 Multi-Modal Transportation Improvement Program Award from the Mississippi Department of Transportation (MDOT) in the amount of \$85,000; authorize the Mayor to execute the same in triplicate.
18. **2021-1134** Authorize submission of a grant application to Mississippi Department of Environmental Quality (MDEQ) for the Solid Waste Assistance Grant in the amount of \$75,000.00 to fund a Household Hazardous Waste "Right Way to Throw Away Day;" and authorize the Mayor to execute the same in duplicate. The grant requires the city to provide \$25,000.00 in matching funds.
19. **2021-1117** Ratification of an executed agreement between the City of Hattiesburg and C Spire, for annual renewal subscription of WebEx Spark.
20. **2021-1139** Acknowledge declaration of State of Emergency due to a Hurricane that occurred on August 27, 2021.

ROUTINE AGENDA

1. **2021-1104** Acknowledge receipt of Declaration of Forfeiture for one (1) Chevrolet Avalanche and authorize vehicle to be placed on the Hattiesburg Police Department's inventory.
2. **2021-1106** Acknowledge receipt from Phillip McSwain Certificate of Attendance of the Municipal Court Clerks Statewide Seminar.
3. **2021-1125** Acknowledge receipt of oaths of office, to be made a part of the minutes.
4. **2021-1126** Acknowledge receipt of and approve the amended 2021 budget of the Hattiesburg Convention Commission.
5. **2021-1127** Acknowledge receipt of and approve the 2022 budget of the Hattiesburg Convention Commission.
6. **2021-1136** Acknowledge receipt of the two-quote docket for the period of July 22, 2021 through August 29, 2021 as provided for in 31-7-13(b) of the Mississippi Code of 1972.
7. **2021-1129** Approve the sale of grave spaces, per attached Memo's, Receipts and Deeds.
8. **2021-1107** Approve claims docket for the period ending August 31, 2021.

Work Session

- Recovery Act Funds, requested by Councilwoman Deborah Delgado.
- Outdoor Lighting, presented by Administration.

In Memoriam:

- Mrs. Mary Louise Johnson
- Mr. Robert Mosley

Public Hearing on the proposed budget for FYE 2022 at 5:30 p.m. and adoption of the FYE 2022 Tax Levy

- 1. 2021-1123** Hold public hearing on the proposed budget and proposed tax levies for fiscal year 2022 for the City of Hattiesburg.
- 2. 2021-1124** Adopt Resolution levying ad valorem taxes on all taxable properties within the City of Hattiesburg for the purpose of raising revenue for said City for the fiscal year beginning October 1, 2021 and ending September 30, 2022.

Meeting Adjourn

Memorandum

To: Mayor Toby Barker and Members of City Council

From: Ginger Lowrey, Planning Administrator

cc: Andrew Ellard, Director

Date: Tuesday, September 7, 2021

Re: Adopt an Ordinance amending Chapter 10 of the Code of Ordinances, which established the Flood Damage Prevention Ordinance for the City of Hattiesburg, and Repealing Ordinance Number 3247, adopted December 18, 2018, and any other Ordinances in conflict herewith - tabled from the August 17, 2021 council meeting.
File Number: 2021-1035
Minute Book #

Summary

Amend Chapter 10 of the Code of Ordinance

Recommendation Statement

Amend Chapter 10 of the Code of Ordinance

Please place this on the September 7, 2021 City Council meeting for consideration.

Prepared by: City of Hattiesburg
City Clerk's Office
P.O. Box 1898
Hattiesburg, MS 39403-1898
(601)545-4550

Return to: City of Hattiesburg

(601)545-4550

INDEXING INSTRUCTIONS:

ORDINANCE NUMBER _____
OF THE
CITY OF HATTIESBURG, MISSISSIPPI

**AN ORDINANCE AMENDING ORDINANCE NUMBER 3224, ADOPTED
JANUARY 2, 2018, TO AMEND CHAPTER 10 OF THE CODE OF ORDINANCES, AND
UPDATE THE FLOOD DAMAGE PREVENTION ORDINANCE
FOR THE CITY OF HATTIESBURG.**

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. That Chapter 10 of the Code of Ordinances, be and the same is hereby amended
to read as follows, to wit:

FLOOD DAMAGE PREVENTION ORDINANCE

TABLE OF CONTENTS

Commented [LG1]: Added Table of Contents to COH's Ord.

ARTICLE 1. STATUTORY AUTHORIZATION, FINDINGS OF FACT, PURPOSE, AND OBJECTIVES

- Section A. Statutory Authorization
- Section B. Findings of Fact
- Section C. Statement of Purpose
- Section D. Objectives
- Section E. Methods of Reducing Flood Losses

ARTICLE 2. DEFINITIONS

ARTICLE 3. GENERAL PROVISIONS

- Section A. Lands to Which This Ordinance Applies
- Section B. Basis for Establishing the Areas of Special Flood Hazard
- Section C. Use of Preliminary Flood Hazard Date
- Section D. Establishment of Floodplain Development Permit
- Section E. Compliance
- Section F. Abrogation and Greater Restrictions
- Section G. Interpretation
- Section H. Repetitive Loss Structures
- Section I. Warning and Disclaimer of Liability
- Section J. Enforcement, Penalties, and Violations

ARTICLE 4. ADMINISTRATION

- Section A. Designation of Flood Damage Prevention Ordinance Administrator
- Section B. Permit Procedures
- Section C. Powers, Duties, and Responsibilities of the Floodplain Administrator

ARTICLE 5. PROVISIONS FOR FLOOD HAZARD REDUCTION

- Section A. General Standards for All Zones
- Section B. Standards for X Zones (Shaded/Unshaded)
- Section C. Specific Standards for Riverine Zones (AE Zones)
- Section D. Standards for Streams without Base Flood Elevations and Floodways
- Section E. Standards for Subdivision Proposals and Other Proposed Development
- Section F. Critical Facilities

ARTICLE 6. VARIANCE PROCEDURES

- Section A. Designation and Duties of Variance and Appeals Board
- Section B. Variance Procedures
- Section C. Conditions for Variances
- Section D. Variance Notification
- Section E. Historic Structures
- Section F. Special Conditions
- Section G. Floodway

ARTICLE 7. SEVERABILITY

FLOOD DAMAGE PREVENTION ORDINANCE

ARTICLE 1. STATUTORY AUTHORIZATION, FINDINGS OF FACT, PURPOSE, AND OBJECTIVES.

SECTION A. STATUTORY AUTHORIZATION.

The Legislature of the state of Mississippi has in Title 17, Chapter 1, Mississippi Code of 1972 Annotated delegated the responsibility to local government units to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the City Council of the City of Hattiesburg does hereby adopt the following floodplain management regulations.

SECTION B. FINDINGS OF FACT.

- (1) The City of Hattiesburg is subject to periodic inundation, which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.
- (2) These flood losses are caused by the cumulative effect of obstructions, both inside and outside the identified Special Flood Hazard Areas, causing increases in flood heights and velocities and by the occupancy in flood hazard areas by uses vulnerable to floods or hazardous to other lands which are inadequately elevated, floodproofed, or otherwise unprotected from flood damages.

SECTION C. STATEMENT OF PURPOSE.

It is the purpose of this ordinance to promote the public health, safety, and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- (1) Restrict or prohibit uses which are dangerous to health, safety, and property due to water or erosion hazards, which result in damaging increases in erosion or in flood heights or velocities;
- (2) Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of flood waters;
- (4) Control filling, grading, dredging, and other development which may increase erosion or flood damage, and;
- (5) Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.

SECTION D. OBJECTIVES.

The objectives of this ordinance are:

- (1) To protect human life and health;
- (2) To minimize expenditure of public money for costly flood control projects;
- (3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
- (4) To minimize prolonged business interruptions;

- (5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;
- (6) To help maintain a stable tax base by providing for the sound use and development of flood prone areas in such a manner as to minimize flood blight areas, and;
- (7) To ensure that potential homebuyers are notified that property is in a floodprone area.

SECTION E. METHODS OF REDUCING FLOOD LOSSES.

In order to accomplish its purposes, this ordinance includes methods and provisions for:

- (1) Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;
- (2) Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
- (4) Controlling filling, grading, dredging, and other development which may increase flood damage, and;
- (5) Preventing or regulating the construction of flood barriers that will unnaturally divert floodwaters or may increase flood hazards in other areas.

ARTICLE 2. DEFINITIONS.

Unless specifically defined below, words or phrases used in this ordinance shall be interpreted so as to give them the meaning they have in common usage and to give this ordinance it's most reasonable application.

A Zone is the Area of Special Flood Hazard without base flood elevations determined.

AE Zone is the Area of Special Flood Hazard with base flood elevations determined.

Accessory structure (Appurtenant structure) means a structure, which is located on the same parcel of property as the principal structure and the use of which is incidental to the use of the principal structure. Accessory structures should constitute a minimal initial investment, may not be used for human habitation, and be designed to have minimal flood damage potential. Examples of accessory structures are detached garages, carports, storage sheds, pole barns, and hay sheds.

Addition (to an existing building) means any walled and roofed expansion to the perimeter or height of a building. Any addition shall be considered new construction. If the addition is more than 50% of the market value of the structure, then the addition and the existing structure are now new construction.

Appeal means a request for a review of the Floodplain Administrator's interpretation of any provision of this ordinance or a request for a variance.

AR/AE, AR/AH, AR/AO, and AR/A Zones are SFHAs that result from the decertification of a previously accredited flood protection system or levee that is in the process of being restored to provide a one percent chance or greater level of flood protection. After restoration is complete, these areas will still experience residual flooding from other flooding sources.

A99 Zone is that part of the SFHA inundated by the one percent chance flood to be protected from the one percent chance flood by a Federal flood protection system or levee under construction, no base flood elevations are determined.

Area of shallow flooding means a designated AO or AH Zone on the community's Flood Insurance Rate Map (FIRM)

with flood depths from one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Area of special flood hazard is the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. This area is also referred to as the Special Flood Hazard Area (SFHA).

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year (also called the “one percent chance flood”).

Base Flood Elevation (BFE) is the elevation shown in the Flood Insurance Study (FIS) for Zones AE, AH, AR, AR/A, AR/AE, AR/AH, AR/AO, and VE that indicates the water surface elevation resulting from a flood that has a one percent or greater chance of being equaled or exceeded in any given year.

Basement means any portion of a building having its floor sub-grade (below ground level) on all sides.

Building see **Structure**.

Cluster Development – See Land Development Code, Ord #3209, as amended, definition; Also see Planned Development.

Community is a political entity and/or its authorized agents or representatives that have the authority to adopt and enforce floodplain ordinances for the area under its jurisdiction.

Community Floodplain Management Map means any map produced by the community utilizing best available base flood elevation and floodway data that is from a federal, state, or other accepted technical source.

Community Rating System (CRS) is a program developed by the Federal Insurance Administration to provide incentives for those communities in the Regular Program that have gone beyond the minimum floodplain management requirements to develop extra measures to provide protection from flooding.

Community Flood Hazard Area (CFHA) is an area that has been determined by the Floodplain Administrator (or other delegated, designated, or qualified community official) from available technical studies, historical information, and other available and reliable sources, which may be subject to periodic inundation by floodwaters that can adversely affect the public health, safety and general welfare. This includes areas downstream from dams/dam breach inundation areas.

Critical facility (also called critical action) means facilities for which the effects of even a slight chance of flooding would be too great. The minimum floodplain of concern for critical facilities is the 0.2 percent chance flood level. Critical facilities include, but are not limited to facilities critical to the health and safety of the public such as: emergency operations centers, designated public shelters, schools, nursing homes, hospitals, police, fire and emergency response installations, vital data storage centers, power generation and water and other utilities (including related infrastructure such as principal points of utility systems) and installations which produce, use or store hazardous materials or hazardous waste (as defined under the Clean Water Act and other Federal statutes and regulations).

D Zone is an area in which the flood hazard is undetermined.

Dam is any artificial barrier, including appurtenant works, constructed to impound or divert water, waste water, liquid borne materials, or solids that may flow if saturated. All structures necessary to maintain the water level in an impoundment or to divert a stream from its course will be considered a dam.

Dam Inundation Area or “DIA” means the area downstream of a dam that would be impacted in the event of a failure or uncontrolled release of water.

Dam Safety Office – The Mississippi Dam Safety Program (MDSP) is implemented by the Department of Environmental Quality, Office of Land & Water Resources. The program is responsible for regulating dams across the state of Mississippi. The goal of the Dam Safety Program is to protect people and property from the damaging consequences of catastrophic dam failures. Dams are classified as high, significant, or low hazard depending on the hazard potential of the dam. The MDSP also issues permit for construction of new dams and for

reconstruction/modifications of existing dams.

Development means any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavating, drilling operations, or storage of materials or equipment.

Dry Floodproofing – see **Floodproofing Methods**

Elevated building means for insurance purposes, a non-basement building which has its lowest elevated floor raised above ground level by foundation walls, shear walls, posts, pilings, columns, or piers.

Elevation Certificate is a FEMA form used as a certified statement that verifies a building's elevation information.

Emergency Program means the first phase under which a community participates in the NFIP. It is intended to provide a first layer amount of insurance coverage for all insurable buildings in that community before the effective date of the initial FIRM.

Enclosures below the Lowest Floor see "Lowest Floor."

Encroachment means the advance or infringement of uses, plant growth, fill, excavation, buildings, structures or development into a floodplain, which may impede or alter the flow capacity of a floodplain.

Executive Order 11988 (Floodplain Management) this order requires that no federally assisted activities be conducted in or have the potential to affect identified Special Flood Hazard Areas, unless there is no practicable alternative.

Executive Order 11990 (Wetlands Protection) this order requires the avoidance of adverse impacts associated with the destruction or modification of wetlands.

Existing Construction means structures for which the "start of construction" commenced before date of 04/03/1970. Existing construction may also be referred to as existing structures.

Existing manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.

Expansion to an existing manufactured home park or subdivision includes the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

Fill means a deposit of earthen materials placed by artificial means.

First Floor Elevation – See Code of Ordinances, Chapter 22, Section 22-6 (Ordinance Number 3024, as amended, for requirement.

Five-Hundred Year Flood means the flood that has a 0.2 percent chance of being equaled or exceeded in any year. Areas subject to the 0.2 percent chance flood have a moderate risk of flooding.

Flood or flooding means:

- a.) A general and temporary condition of partial or complete inundation of normally dry land areas from:
 - 1.) The overflow of inland or tidal waters.
 - 2.) The unusual and rapid accumulation or runoff of surface waters from any source.

- 3.) Mudslides (i.e. mudflows) which are proximately caused by flooding as defined in paragraph (A)(2) of this definition and are akin to a river of liquid and flowing mud on the surfaces of normally dry land areas, as when earth is carried by a current of water and deposited along the path of the current.
- b.) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in paragraph (A)(1) of this definition

Flood (insurance definition) means a general and temporary condition of partial or complete inundation of two or more acres of normally dry land areas or of two or more properties (e.g. a building and a public street) from (1) overflow of inland or tidal waters (2) unusual and rapid accumulation or runoff of surface waters (3) mudflows caused by flooding.

Flood Insurance Rate Map (FIRM) means an official map of a community, on which FEMA has delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

Flood Insurance Study (FIS) is the document which provides an examination, evaluation, and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation, and determination of mudslide and/or flood-related erosion hazards.

Flood Protection Elevation is the base flood elevation plus one (1) foot of freeboard. In areas where no base flood elevations exist from any authoritative source, the flood protection elevation can be historical flood elevations, or base flood elevations determined and/or approved by the floodplain administrator plus freeboard.

Floodplain means any land area susceptible to being inundated by flood waters from any source.

Floodplain Administrator is the individual appointed to administer and enforce the floodplain management regulations.

Floodplain management means the operation of an overall program of corrective and preventive measures for reducing flood damage and preserving and enhancing, where possible, natural resources in the floodplain, including but not limited to emergency preparedness plans, flood control works, floodplain management regulations, and open space plans.

Floodplain management regulations means this ordinance and other zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances, and other applications of police power which control development in flood-prone areas. This term describes federal, state, or local regulations in any combination thereof, which provide standards for preventing and reducing flood loss and damage.

Floodproofing Certificate is an official FEMA form used to certify compliance for non-residential structures in non Coastal High Hazard Areas as an alternative to elevating buildings to or above the base flood elevation.

Floodproofing Methods:

Dry Floodproofing means any combination of structural and nonstructural additions, changes, or adjustments to structures, which reduce or eliminate flood damages to real estate or improved real estate property, water, and sanitary facilities, structures, and their contents. Structures shall be floodproofed with a minimum of 12 inches of freeboard (more is recommended) in relation to the base flood elevation. Dry floodproofing of a pre-FIRM residential or pre-FIRM non-residential structure that has not been substantially damaged or improved is allowed. Dry floodproofing of a post-FIRM residential or post-FIRM non-residential building is not allowed.

Wet floodproofing means a method of construction which allows water to enter a structure in such a way that will minimize damage to the structure and its contents. Wet floodproofing is appropriate for functionally dependent use and uses that facilitate open space use by variance only, structures utilized for parking or limited storage, or when all other techniques are not technically feasible. Wet floodproofing shall not be utilized as a method to satisfy the requirements of this ordinance for bringing substantially damaged or improved structures into compliance. Wet floodproofing is not allowed in lieu of complying with the lowest floor elevation requirements for new residential or non-residential buildings.

Floodway See *Regulatory Floodway*.

Floodway fringe means that area of the special flood hazard area on either side of the regulatory floodway.

Flood Protection Elevation is the base flood elevation plus the community freeboard. In areas where no base flood elevations exist from any authoritative source, the flood protection elevation can be historical flood elevations or base flood elevations determined and/or approved by the floodplain administrator plus freeboard.

Freeboard means a factor of safety, usually expressed in feet above the BFE, which is applied for the purposes of floodplain management. "Freeboard" tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, bridge openings, and the hydrological effect of urbanization of the watershed. The City of Hattiesburg's freeboard is one (1) foot above BFE.

Functionally dependent use means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, ship building and ship repair facilities. The term does not include long-term storage, manufacture, processing functions, sales, administrative functions, or service facilities.

Hardship (as related to variances of this ordinance) means the exceptional difficulty that would result from a failure to grant the requested variance. The City Council requires that the variance is exceptional, unusual, and peculiar to the property involved. Mere economic or financial hardship alone is NOT exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one's neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

Hazard potential means the possible adverse incremental consequences that result from the release of water or stored contents due to failure of a dam or mis-operation of a dam or appurtenances. The hazard potential classification of a dam does not reflect in any way on the current condition of a dam and its appurtenant structures (e.g. safety, structural integrity, and flood routing capacity).

High hazard dam means a class of dam in which failure may cause loss of life, serious damage to residential, industrial, or commercial buildings; or damage to, or disruption of, important public utilities or transportation facilities such as major highways or railroads. Dams which meet the statutory thresholds for regulation that are proposed for construction in established or proposed residential, commercial, or industrial areas will be assigned this classification, unless the applicant provides convincing evidence to the contrary.

Highest adjacent grade means the highest natural elevation of the ground surface, prior to construction, next to the proposed walls of a building.

Historic Structure means any structure that is:

- a.) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- b.) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- c.) Individually listed on the State of Mississippi inventory of historic structures, or;
- d.) Individually listed on a local inventory historic places in communities with historic preservation programs that have been certified by an approved state program as determined by the Secretary of the Interior.

Hydrologic and hydraulic engineering analyses means the analyses performed by a professional engineer, registered in the state of Mississippi, in accordance with standard engineering practices as accepted by FEMA, used to determine flood elevations and /or floodway boundaries.

Increased Cost of Compliance (ICC) coverage means under the standard flood insurance policy the cost to repair a substantially flood damaged building that exceeds the minimal repair cost and that is required to bring a substantially damaged building into compliance with the local flood damage prevention ordinance. Acceptable mitigation measures are floodproofing (nonresidential), relocation, elevation, demolition, or any combination thereof. All renewal and new policies with effective dates on or after June 1, 1997, include ICC coverage.

Letter of Map Change (LOMC) is an official FEMA determination, by letter, to amend or revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, and Flood Insurance Studies.

Letter of Map Amendment (LOMA)

An amendment based on technical data showing that a property was incorrectly included in a designated SFHA, was not elevated by fill (only by a natural grade elevation), and will not be inundated by the one percent chance flood. A LOMA amends the current effective FIRM and establishes that a specific property is not located in a SFHA.

Letter of Map Revision (LOMR)

A revision based on technical data that, usually due to manmade changes, shows changes to flood zones, flood elevations, floodplain and floodway delineations, and planimetric features. One common type of LOMR, a LOMR-F, is a determination concerning whether a structure or parcel has been elevated by fill above the BFE and is, therefore, excluded from the SFHA.

Conditional Letter of Map Revision (CLOMR)

A formal review and comment by FEMA as to whether a proposed project complies with the minimum NFIP floodplain management criteria. A CLOMR does not revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, or Flood Insurance Studies.

Levee means a man-made structure; usually earthen embankments designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary flooding.

Levee system means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices. For a levee system to be recognized, the following criteria must be met. All closure devices or mechanical systems for internal drainage, whether manual or automatic, must be operated in accordance with an officially adopted operation manual (a copy of which must be provided to FEMA by the operator when levee or drainage system recognition is being sought or revised). All operations must be under the jurisdiction of a Federal or State agency, an agency created by Federal or State law, or an agency of a community participating in the NFIP.

Formatted: Highlight

Low hazard dam means a class of dam in which failure would at the most result in damage to agricultural land, farm buildings (excluding residences), or minor roads.

Lowest adjacent grade means the elevation of the sidewalk, patio, deck support, or basement entryway immediately next to the structure and after the completion of construction. It does not include earth that is placed for aesthetic or landscape reasons around a foundation wall. It does include natural ground or properly compacted fill that comprises a component of a building's foundation system.

Formatted: Highlight

Lowest floor means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, used solely for parking of vehicles, building access, or storage, in an area other than a basement, is not considered a building's lowest floor, *provided* that such enclosure is not built so as to render the structure in violation of the non-elevation provisions of this code.

Manufactured home (44 CFR 59.1 definition / FEMA) means a structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when attached to the required utilities. The term manufactured home does not include a "recreational vehicle."

Manufactured housing (24 CFR 3280.3 and 3285.5 definitions / HUD) means "...a structure, transportable in one or more sections, which in the traveling mode is 8 body feet or more in width or 40 body feet in length or which when erected on-site is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a

Formatted: Highlight

dwelling with or without a permanent foundation when connected to the required utilities.”

Manufactured home park or subdivision means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Map Amendment means a change to an effective NFIP map that results in the exclusion from the SFHA or an individual structure or a legally described parcel of land that has been inadvertently included in the SFHA (i.e., no alterations of topography have occurred since the date of the first NFIP map that showed the structure or parcel to be within the SFHA. See Letter of Map Change (LOMC) for ways to request a Map Amendment.

Map Panel Number means the four-digit number followed by a letter suffix assigned by FEMA on a FIRM. The first four digits represent the map panel, and the letter suffix represents the number of times the map panel has been revised. **Market value** means the property value (as agreed between a willing buyer and seller); excluding the value of land as established by what the local real estate market will bear. Market value can be established by independent certified appraisal; replacement cost depreciated by age of building (Actual Cash Value); or adjusted assessed values.

Mean Sea Level means, for the purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, or other datum, to which base flood elevations shown on a community’s Flood Insurance Rate Map (FIRM) are referenced.

National Flood Insurance Program (NFIP) is the federal program that makes flood insurance available to owners of property in participating communities nationwide through the cooperative efforts of the Federal Government and the private insurance industry.

National Geodetic Vertical Datum (NGVD) means a vertical control, corrected in 1929, used as a reference for establishing varying elevations within the floodplain.

New Construction means a structure or an addition to an existing structure for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and any subsequent improvements to such structure or the addition.

Commented [LG2]: MEMA Restructured sentence

New manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain regulations adopted by a community.

Non-Residential means, but is not limited to; small business concerns, churches, schools, farm buildings (including grain bins and silos), poolhouses, clubhouses, recreational buildings, mercantile structures, agricultural and industrial structures, warehouses, and hotels and motels with normal room rentals for less than 6 months duration.

North American Vertical Datum (NAVD) of 1988 means a vertical control, corrected in 1988, used as a reference for establishing varying elevations within the floodplain.

Obstruction means, but is not limited to, any dam, wall, wharf, embankment, levee, dike, pile, abutment, protection, excavation, channel construction, bridge, culvert, building, wire, fence, rock, gravel, refuse, fill, structure, vegetation or other material in, along, across or projecting into any watercourse which may alter, impede, retard or change the direction and/or velocity of the flow of water, or due to its location, its propensity to snare or collect debris carried by the flow of water, or its likelihood of being carried downstream.

One Percent Flood (aka 100-Year Flood) is the flood that has a one percent chance of being equaled or exceeded in any given year. Any flood zone that begins with the letter A or V is subject to inundation by the one percent chance flood. Over the life of a 30-year loan, there is a 26-percent chance of experiencing such a flood within the SFHA.

Participating Community is any community that voluntarily elects to participate in the NFIP by adopting and enforcing floodplain management regulations that are consistent with the standards of the NFIP.

Post-FIRM Construction means new construction and substantial improvements for which start of construction occurred after December 31, 1974, or on or after the effective date of the initial FIRM of the community, whichever is

later.

Pre-FIRM Construction means new construction and substantial improvements for which start of construction occurred on or before December 31, 1974, or before the effective date of the initial FIRM of the community, whichever is later.

Probation is a means of FEMA formally notifying participating communities of the first of the two NFIP sanctions due to their failure to correct violations and deficiencies in the administration and enforcement of the local floodplain management regulations.

Public safety and nuisance means anything which is injurious to the safety or health of an entire community or neighborhood, or any considerable number of persons, or unlawfully obstructs the free passage or use, in the customary manner, of any navigable lake, or river, bay, stream, canal, or basin.

Recreational vehicle means a vehicle that is:

- a.) Licensed and titled as an RV or park model (not a permanent residence);
- b.) **Built on a single chassis;**
- c.) 400 square feet or less when measured at the largest horizontal projection;
- d.) Has no attached deck, porch, or shed;
- e.) Has quick-disconnect sewage, water, and electrical connectors;
- f.) Designed to be self-propelled or permanently towable by a light duty truck, and;
- g.) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Regular Program means the second phase of the community's participation in the NFIP in which second layer coverage is available based upon risk premium rates only after FEMA has completed a risk study for the community.

Regulatory floodway means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

Repair means the reconstruction or renewal of any part of an existing building for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and all such regulations effective at the time of permitting must be met.

Repetitive Loss means flood-related damages sustained by a structure on two separate occasions during a 10-year period for which the cost of repairs at the time of each such flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damage occurred.

Repetitive Loss Property is any insurable building for which two or more claims of more than \$1,000 were paid by the National Flood Insurance Program (NFIP) within any rolling 10-year period, since 1978. At least two of the claims must be more than ten days apart but, within ten years of each other. A RL property may or may not be currently insured by the NFIP.

Section 1316 means that section of the National Flood Insurance Act of 1968, as amended, which states that no new flood insurance coverage shall be provided for any property that FEMA finds has been declared by a duly constituted state or local zoning authority or other authorized public body to be in violation of state or local laws, regulations, or ordinances that are intended to discourage or otherwise restrict land development or occupancy in flood-prone areas.

Severe Repetitive Loss Structure means any insured property that has met at least one of the following paid flood loss criteria since 1978, regardless of ownership:

1. Four or more separate claim payments of more than \$5,000 each (including building and contents payments); or
2. Two or more separate claim payments (building payments only) where the total of the payments exceeds the current market value of the property.

In either case, two of the claim payments must have occurred within ten years of each other. Multiple losses at the same location within ten days of each other are counted as one loss, with the payment amounts added together.

Significant hazard dam means a dam assigned the significant hazard potential classification where failure may cause damage to main roads, minor railroads, or cause interruption of use, or service of relatively important public utilities.

Special flood hazard area (SFHA) means that portion of the floodplain subject to inundation by the base flood and/or flood-related erosion hazards as shown on a FHBM or FIRM as Zones A, AE, AH, AO, AR, AR/AE, AR/AO, AR/AH, AR/A, A99, or VE.

Start of construction (for other than new construction or substantial improvements under the Coastal Barrier Resources Act P. L. 97-348), includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, or improvement was within 180 days of the permit date. The actual start means the first placement of permanent construction of a building (including a manufactured home) on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation or placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main building. For substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure (for floodplain management purposes), means a walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.

Structure (for insurance purposes), means a building with two or more outside rigid walls and a fully secured roof, that is affixed to a permanent site; a manufactured home built on a permanent chassis, transported to it site in one or more sections, and affixed to a permanent foundation; or a travel trailer without wheels, built on a chassis and affixed to a permanent foundation, that is regulated under the community's floodplain management and building ordinances or laws. The term does not include a recreational vehicle or a park trailer or other similar vehicle, except as described in the last part of this definition, or a gas, or a liquid storage tank.

Subrogation means an action brought by FEMA when flood damages have occurred, a flood insurance claim has been paid, and all or part of the damage can be attributed to acts or omissions by a community or other third party.

Substantial Damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred. Substantial damage also means flood-related damages sustained by a structure on two separate occasions during a ten (10) year period for which the cost of repairs at the time of each flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damage occurred.

Substantial Improvement means any combination of reconstruction, rehabilitation, or other improvement of a structure taking place during a 10 year period in which the cumulative percentage of improvement equals or exceeds 50 percent of the current market value of the structure before the "start of construction" of the improvement. The costs for determining substantial improvement include the costs of additions. This term includes structures which have incurred repetitive loss or substantial damage, regardless of the actual repair work performed.

The term does not apply to:

- a.) Any project for improvement of a building required to correct existing violations of state or local existing health, sanitary, or safety code specifications which have been identified by the Code Enforcement Official and

which are minimum necessary to assure safe living conditions, provided that said code deficiencies were not caused by neglect or lack of maintenance on the part of the current or previous owners or;

- b.) Any alteration of a “historic structure” provided that the alteration will not preclude the structure’s continued designation as a “historic structure.”

Substantially improved existing manufactured home parks or subdivisions means manufactured home parks or subdivisions where the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads equals or exceeds 50 percent of the value of the streets, utilities and pads before the repair, reconstruction or improvement commenced.

Suspension means the removal, with or without probation, of a participating community from the NFIP because the community failed to adopt and enforce the compliant floodplain management regulations required for participation in the NFIP.

Variance is a grant of relief by the community from the requirements of this ordinance.

Violation means the failure of a structure or other development to be fully compliant with this ordinance. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this ordinance is presumed to be in violation until such time as that documentation is provided.

Watercourse means any flowing body of water including a river, creek, stream, or a branch.

Water surface elevation means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, the North American Vertical Datum (NAVD) of 1988, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

Wet floodproofing – see **Floodproofing Methods**

X Zones (shaded) are areas of 0.2 percent chance flood that are outside of the SFHA subject to the one percent chance flood with average depths of less than one foot, or with contributing drainage area less than one square mile and areas protected by certified levees from the base flood.

X Zones (unshaded) are areas determined to be outside the 0.2 percent chance floodplain.

Zone means a geographical area shown on a Flood Hazard Boundary Map or a Flood Insurance Rate Map that reflects the severity or type of flooding in the area.

ARTICLE 3. GENERAL PROVISIONS.

SECTION A. LANDS TO WHICH THIS ORDINANCE APPLIES.

This ordinance shall apply to all areas of special flood hazard (SFHA) areas within the jurisdiction of the City Council of the City of Hattiesburg.

SECTION B. BASIS FOR ESTABLISHING THE AREAS OF SPECIAL FLOOD HAZARD.

The areas of special flood hazard identified by the Federal Emergency Management Agency in the current scientific and engineering report entitled “The Flood Insurance Study (FIS) for Forrest County, Mississippi and Incorporated Areas”, dated 11/19/2021 with the accompanying Flood Insurance Rate Map(s) (FIRM) (multiple panel) Index No. 28035CIND0C and “The Flood Insurance Study (FIS) for Lamar County, Mississippi and Incorporated Areas”, dated 10/18/2019 with the accompanying Flood Insurance Rate Map(s) (FIRM) (multiple panel) Index No. 28073CIND0B and other supporting data, along with Digital Flood Insurance Rate Maps (DFIRM) are adopted by reference and declared to be part of this ordinance. The Flood Insurance Study and maps are on file at the Planning Office of the Department of Urban Development, located at the City Hall Building.

SECTION C. USE OF PRELIMINARY FLOOD HAZARD DATA.

When Flood Insurance Studies and Preliminary Flood Insurance Rate Maps have been provided by FEMA:

- (1) Prior to the issuance of a Letter of Final Determination (LFD) by FEMA, the use of the preliminary flood hazard data shall only be required where no base flood elevations and/or floodway areas exist or where the preliminary base flood elevations or floodway area exceed the base flood elevations and/or floodway widths in the effective flood hazard data provided by FEMA. Such preliminary data may be subject to revision through valid appeals.
- (2) Upon the issuance of a Letter of Final Determination (LFD) by FEMA, the revised flood hazard data shall be used and replace all previously effective flood hazard data provided by FEMA for the purposes of administering these regulations.

Where adopted regulatory standards conflict, the more stringent base flood elevation shall prevail. Preliminary FIS data may be subject to change by a valid appeal.

SECTION D. ESTABLISHMENT OF FLOODPLAIN DEVELOPMENT PERMIT.

A development permit shall be required in conformance with the provision of this ordinance prior to the commencement of any development activities in identified areas of special flood hazard and community flood hazard areas within the community.

SECTION E. COMPLIANCE.

No structure or land shall hereafter be located, extended, converted or structurally altered without full compliance with the terms of this ordinance and other applicable regulations.

SECTION F. ABROGATION AND GREATER RESTRICTIONS.

This ordinance is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this ordinance and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

SECTION G. INTERPRETATION.

In the interpretation and application of this ordinance all provisions shall be:

- (1) Considered as minimum requirements;
- (2) Liberally construed in favor of the governing body, and;
- (3) Deemed neither to limit nor repeal any other powers granted under state statutes.

SECTION H: REPETITIVE LOSS STRUCTURES

The community may declare any existing structure as a repetitive loss structure as required to qualify the structure for increased cost of compliance (ICC) benefits allowed by a National Flood Insurance Program flood policy claim. To be declared a repetitive loss structure, the following conditions must be met:

- (1) The structure must have a flood insurance policy that includes the increased cost of compliance coverage and;
- (2) The structure must have been flooded twice during a ten-year period with each flood event causing damage for which the repair cost equaled or exceeded 25% of the market value of the structure.

SECTION I. WARNING AND DISCLAIMER OF LIABILITY.

The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering consideration. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This ordinance does not imply that land outside the areas of special flood hazard and community flood hazard areas or uses permitted within such areas will be free from flooding or flood damages. This ordinance shall not create liability on the part of City Council of the City of Hattiesburg or by any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made hereunder.

SECTION J. ENFORCEMENT, PENALTIES, AND VIOLATIONS.

Civil penalties. Violation of the provisions of this ordinance or failure to comply with any of its requirements, including violation of conditions and safeguards established in connection with grants of variance or special exceptions, shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than one thousand dollars (\$1,000) or imprisoned for not more than ninety (90) days, or both, and in addition, shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the Floodplain Administrator from taking such other lawful actions as are necessary to prevent or remedy any violation.

Commented [LG3]: MEMA reformatted language but kept the same intent and penalty

ARTICLE 4. ADMINISTRATION.

SECTION A. DESIGNATION OF FLOOD DAMAGE PREVENTION ORDINANCE ADMINISTRATOR.

The City Council of the City of Hattiesburg hereby appoints the Planning Administrator to administer and implement the provisions of this ordinance and is herein referred to as the Floodplain Administrator and/or the administrator.

SECTION B. PERMIT PROCEDURES.

Application for a Development Permit shall be made to the Floodplain Administrator on forms furnished by him or her prior to any development activities, and may include, but not be limited to, the following plans in duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, earthen fill, storage of materials or equipment, drainage facilities, and the location of the foregoing.

Specifically, the following information is required:

(1) Application Stage.

- a.) Elevation in relation to mean sea level of the proposed lowest floor (including basement) of all buildings, which will be submitted on a FEMA Elevation Certificate Form by a State of Mississippi registered engineer or surveyor;
- b.) Elevation in relation to mean sea level to which any pre-FIRM residential or pre-FIRM non-residential building, that has not been substantially damaged or improved, in an A or AE Zone will be floodproofed;
- c.) Certificate from a State of Mississippi registered professional engineer or architect that the pre-FIRM residential or pre-FIRM non-residential flood-proofed building will meet the floodproofing criteria in Article 4, Section B (2), and Article 5, Section C (2);
- d.) No floodplain development permit can be issued to any mobile, modular, or permanently constructed residence, building or facility unless the owner, lessee, or developer obtains a Notice of Intent from the Mississippi State Health Department, pursuant to the MS Individual On-Site Wastewater Disposal System Law (2009), for un-sewered areas of the City.
- e.) Description of the extent to which any watercourse will be altered or relocated as result of proposed development as outlined in Article 4, Section C 4-b.

(2) Construction Stage:

Upon placement of the lowest horizontal structural member or lowest floor (whichever is applicable per the flood zone), or pre-FIRM flood-proofing by pre-approved construction means, it shall be the duty of the permit holder to submit to the Floodplain Administrator a certificate of the NAVD elevation as built in relation to mean sea level. Said certification shall be prepared by a state of Mississippi registered engineer or surveyor. When floodproofing is utilized for a particular building, said certification shall be prepared by a state of Mississippi registered engineer or architect, who is authorized by the state of Mississippi to certify such information and certified by same. Any approved floodproofing shall be required to be one (1) foot above the base flood elevation.

Any work undertaken prior to submission of the certification shall be at the permit holder's risk. The Floodplain Administrator shall review the lowest horizontal structural member or lowest floor (whichever is applicable per the flood zone) and floodproofing elevation certificate data submitted. The permit holder, immediately and prior to further progressive work being permitted to proceed, shall correct deficiencies detected by such review. Failure to submit the certificate or failure to make said corrections required hereby shall be cause to issue a stop-work order for the project.

In any lot or lots/areas that have been removed from the special flood hazard area via a Letter of Map Revision Based on Fill, and if the top of fill level is below the freeboard elevation, all new structures, additions to existing buildings or substantial improvement must meet the required community freeboard elevation.

(3) Finished Construction:

Upon completion of construction, a FEMA Elevation Certificate Form which depicts all finished construction elevations is required to be submitted to the Floodplain Administrator. If the project includes a floodproofing measure, a FEMA floodproofing certificate is required to be submitted by the permit holder to the Floodplain Administrator.

SECTION C. POWERS, DUTIES, AND RESPONSIBILITIES OF THE FLOODPLAIN ADMINISTRATOR.

The Floodplain Administrator and his or her designated staff is hereby authorized and directed to enforce the provisions of this ordinance. The Administrator is further authorized to render interpretations of this ordinance, which are consistent with its spirit and purpose.

(1) Right of Entry

- a.) Whenever necessary to make an inspection to enforce any of the provisions of this ordinance, or whenever the Administrator has reasonable cause to believe that there exists in any building or upon any premises any condition or ordinance violation which makes such building, structure or premises unsafe, dangerous or hazardous, the Administrator may enter such building, structure or premises at all reasonable times to inspect the same or perform any duty imposed upon the Administrator by this ordinance.
- b.) If such building or premises are occupied, the Administrator shall first present proper credentials and request entry. If such building, structure, or premises are unoccupied, he shall first make a reasonable effort to locate the owner or other persons having charge or control of such building or premises.
- c.) If entry is refused, the Administrator shall have recourse to every remedy provided by law to secure entry.
- d.) When the Administrator shall have first obtained a proper inspection warrant or other remedy provided by law to secure entry, no owner or occupant or any other persons having charge, care or control of any building, structure, or premises shall fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the Administrator for the purpose of inspection and examination pursuant to this ordinance.

(2) Stop Work Orders

- a.) Upon notice from the Administrator, work on any building, structure or premises that is being performed contrary to the provisions of this ordinance shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property, or to his or her agent, or to the person doing the work, and shall state the conditions under which work may be resumed.

(3) Revocation of Permits

- a.) The Administrator may revoke a permit or approval, issued under the provisions of this ordinance, in case there has been any false statement or misrepresentation as to the material fact in the application or plans on which the permit or approval was based.
- b.) The Administrator may revoke a permit upon determination that the construction, erection, alteration, repair, moving, demolition, installation, or replacement of the structure for which the permit was issued is in violation of, or not in conformity with, the provisions of this ordinance.

(4) Duties of the Administrator

Duties of the administrator shall include, but not be limited to:

- a.) Review all development permits to assure that the permit requirements of this ordinance have been satisfied.
- b.) Review proposed development to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334 and permits from state agencies for any construction, reconstruction, repair, or alteration of a dam, reservoir, or waterway obstruction (including bridges, culverts, structures), any alteration of a watercourse, or any change of

the course, current, or cross section of a stream or body of water, including any change to the 100-year frequency floodplain of free-flowing non-tidal waters of the State. Additionally, require the permittee to obtain and submit copies of any required federal or state permits and maintain them on file with the development permit.

- c.) Perform a minimum of three inspections to ensure that all applicable ordinance and floodplain development requirements have been satisfied. The first inspection upon the establishment of the Base Flood Elevation reference mark at the development site; the second upon the establishment of the structure's footprint prior to pouring the slab or the establishment of the lowest floor in an elevated foundation system; and the final inspection upon completion and submission of the required finished construction elevation certificate.
- d.) Verify any required setback distances.
- e.) Verify that all placement of fill or grading is according to certified plans. Assure that any fill being used as part of the structure's foundation system is both clean material and properly compacted and placed. A professional certification that any structure built on fill is reasonably safe from flooding can be requested of the builder/developer and the owner/contractor must provide density reports from a licensed testing agency showing that the fill meets a 95% compaction ratio.
- f.) Verify adequate placement and size of any required flood vents in regard to the number of openings, their location, size, and height above ground level.
- g.) Ensure that a crawlspace has adequate vents or openings and that the interior grade is at or above the exterior grade. The foundation must be vented to comply with the floodplain ordinance as well as the currently adopted building code.
- h.) Verify that the structure's utilities, duct work, and HVAC systems are at or above the one-foot (1') freeboard.
- i.) Notify adjacent communities, the NFIP State Coordinator, and other federal and/or state agencies with statutory or regulatory authority prior to any alteration or relocation of a watercourse.
- j.) Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is maintained.
- k.) Verify and record the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new construction and substantially improved buildings, in accordance with Article 4, Section B (3). Information must be recorded on the FEMA Elevation Certificate Form.
- l.) Verify and record the actual elevation (in relation to mean sea level) to which the pre-FIRM, non-substantially improved, buildings have been floodproofed, in accordance with Article 4, Section B (3). Information must be recorded on the FEMA Floodproofing Certificate.
- m.) Review certified plans and specifications for compliance.
- n.) Make the necessary interpretation where interpretation is needed as to the exact location of boundaries of the areas of special flood hazard (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this Article.
- o.) Obtain, review and reasonably utilize any base flood elevation and floodway data available from a federal, state or other source when base flood elevation data or floodway data have not been provided in accordance with Article 3, Section B, in order to administer the provisions of Article 5.
- p.) Provide information, testimony, or other evidence, as needed during variance request hearings.
- q.) Conduct the following actions when damage occurs to a building or buildings:

- (i) Determine whether damaged structures are located within the Special Flood Hazard Area;
 - (ii) Conduct damage assessments for those damaged structures located in the SFHA, and;
 - (iii) Make a reasonable attempt to notify owner(s) of damaged structure(s) of the requirement to obtain a building permit / floodplain development permit prior to repair, rehabilitation, or reconstruction.
- r.) Perform such other inspections as may be required to ensure compliance with the other provisions of this ordinance.
 - s.) Required to keep all development permit records in perpetuity.

ARTICLE 5. PROVISIONS FOR FLOOD HAZARD REDUCTION.

SECTION A. GENERAL STANDARDS FOR ALL ZONES.

In all areas of special flood hazard the following provisions are required:

- (1) New construction and substantial improvements shall be anchored to prevent flotation, collapse and lateral movement of the structure.
- (2) Manufactured homes shall be anchored to prevent flotation, collapse, and lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not to be used as an anchor/elevation method. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.
- (3) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.
- (4) New construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.
- (5) Electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding, such facilities shall be located a minimum one (1) foot above the Base Flood Elevation.
- (6) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.
- (7) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters.
- (8) On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.
- (9) Any alteration, repair, reconstruction or improvements to a building that is in compliance with the provisions of this ordinance shall meet the requirements of "new construction" as contained in this ordinance.
- (10) Any alteration, repair, reconstruction or improvements to a building that is not in compliance with the provisions of this ordinance, shall be undertaken only if said non-conformity shall meet the requirements of "new construction" as contained in this ordinance.
- (11) All gas and liquid storage tanks (both above and below ground) shall be adequately anchored to prevent floatation, lateral movement resulting from hydrodynamic forces, and the effects of buoyancy.

- (12) When new construction and substantial improvements are located in multiple flood zones or in a flood zone with multiple base flood elevations, they shall meet the requirement for the more stringent flood zone and the highest base flood elevation.

- (13) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.

- (14) New construction and substantial improvement of any building inside the SFHA shall have the lowest floor (including basement) at least one foot above the centerline of the designated street, unless the topography of the property does not allow for strict adherence as determined by the Floodplain Administrator. Areas outside the SFHA shall be elevated in accordance with Article 5, Section B (2).

- (15) All new horizontal additions must have the lowest floor and all HVAC, including ductwork, elevated to the regulatory freeboard.

- (16) Storage or processing of materials that are hazardous, flammable, explosive, or in time of flooding could become buoyant and pose an obstruction to flow, are prohibited within the community special flood hazard areas, to include identified floodways. Storage of material or equipment not otherwise prohibited shall be firmly anchored to prevent flotation.

- (17) New construction and substantial improvements of structures built on fill shall be constructed on properly designed and compacted fill that extends 10 feet to 15 feet beyond the building walls before dropping below the base flood elevation, and shall have appropriate protection from erosion and scour as follows:

- a.) Fill sites, upon which structures will be constructed or placed, must be compacted to 95 percent of the maximum density obtainable with the Standard Proctor Test method or an acceptable equivalent method.
- b.) Fill slopes shall be no steeper than one foot vertical to two feet horizontal.
- c.) Adequate protection against erosion is must be provided for fill slopes. When expected velocities during the occurrence of the base flood are greater than five feet per second, armoring with stone or rock protection or material that will provide equivalent resistance will be provided. When expected velocities during the base flood are five feet per second or appropriate protection shall be provided by covering them with vegetative cover at a minimum.
- d.) Fill shall be composed of clean granular or earthen material.

- (18) Any proposed development that includes a lake, dam and/or reservoir, whether inside or outside of a SFHA or on an individual lot or in a new subdivision, shall:

- a.) Obtain all State and/or Federal permits (i.e. dam safety construction permit, surface water impoundment permit, 404 Permit, etc.) which may be required in connection with the proposed work prior to local permitting. Documentation shall include the designation of the type of dam or reservoir as high, significant or low hazard. A letter from the Mississippi Dam Safety Program will be acceptable documentation should no permitting be required;
- b.) Utilize “cluster development” or similar development pattern to ensure that no structures built within the development are located within the dam inundation area, with deed restrictions recorded in tax records to ensure this area is not developed in the future for the protection of life and properties should the dam breach or fail;
- c.) Designate the entire inundation area on site and building plans, including any areas outside the proposed new development areas that fall within the inundation area;

Commented [LG4]: MEMA added (13) to the Model Ordinance. This language regarding “dry stacking” was elsewhere in the previous ordinances. It was added in other sections to increase awareness of the guidance.

Formatted: Highlight

Commented [LG5]: MEMA edited (14) language to create allowances for topography

Formatted: Highlight

- d.) A Dam Failure Warning and Response plan that describes the following:
- (i) A general description of the dam, including its distance upstream from the community;
 - (ii) Threat Recognition System for primary and any secondary (backup) threat recognition procedures, and how and when the operator of the dam will notify the local emergency managers of a potential or actual dam breach;
 - (iii) Procedures for quarterly testing of all equipment and material needed for the system, including how and when the quarterly communication checks between the operator of the dam and emergency service officials will be documented;
 - (iv) An evacuation plan and corresponding map;
 - (v) An inventory of all property exposed to dam failure flooding including, but not limited to:
 - 1. Types of buildings (residential, commercial, critical facility, etc.);
 - 2. Count (number per buildings per type);
 - 3. Land use (agricultural, open space, residential, etc.);
 - 4. Developed and undeveloped area within the dam failure inundation area;
 - 5. List of any critical facilities that would be affected;
 - 6. The expected impacts of dam failure flooding on health, safety, community functions (police, fire and utility services) and potential for secondary hazards; and
 - 7. Documentation as to how the numbers of buildings used in the calculations were determined.
- e.) A mandatory annual exercise or drill, with all actions taken, will be required in lieu of a response to an actual emergency or disaster during the previous year, with after-action report including lessons learned.
- f.) Prior to permitting developer/owner will assist the City with development of a dam failure response operations that describes:
- (i) The actions to be taken and implemented when the dam failure flood threatens or occurs;
 - (ii) Identifying responsible person for each action;
 - (iii) Defining the time needed to carry out the action activity;
 - (iv) Designating what actions are conducted by owner, emergency services, the community or others;
 - (v) Any other information that specified agencies and organizations need in order to perform their assigned responsibilities;
 - (vi) Notification to all owners of existing structures that fall within the mapped inundation area of the potential danger;

- (vii) A data base of people with special needs who require evacuation assistance when a dam failure warning is issued with a plan to provide transportation to secure locations, and of all public and private critical facilities or services that could be affected by a dam failure or that the loss of access would cause a critical situation, including contact persons and arrangements for special warnings and early notifications directly to those that may need advance warning; and
- (viii) Each action item must include a list of the personnel, equipment, facilities, supplies and other resources needed to complete each task; and the source of the resource (owner/developer, community, other jurisdictions or private supplier).

SECTION B. STANDARDS FOR X ZONES (SHADED/UNSHADED).

Any area outside the FEMA studied areas lying along blue line streams shown on the United States Department of the Interior Geological Survey quadrants of which the City of Hattiesburg is contained and/or areas with flood prone soils which are contiguous to blue line streams as shown on the City of Hattiesburg Flood Prone Soils Map shall also be considered community flood hazard areas.

- (1) Compliance with the City of Hattiesburg's Land Development Code, Ordinance Number 3209, as amended, including, but not limited to, section 9.4 for Natural Stream Buffers, 9.2 for Protection during Land Disturbance Activities, 9.1.7.5 for Detention/Retention Areas and Section 9.5 for Wetlands for all zones, both inside and outside the SFHA.
- (2) Compliance with the City of Hattiesburg Code of Ordinances, specifically Section 22-6 regulations for first floor elevation of all structures erected in all zones of the City.
- (3) The X Zones (shaded/un-shaded) are considered to be low to moderate risk flood zones and are located outside the community's delineated special flood hazard area and include the following:
 - a.) Areas outside the one percent (1%) chance flood zone, but within the point 2 percent (0.2%) chance flood zone, as determined by a detailed study;
 - b.) Areas outside the point 2 percent (0.2%) chance flood zone as determined by a detailed study, and;
 - c.) Areas that have not yet been studied.
- (4) The community reserves the right to require further studies for any development within its jurisdiction, if there is evidence that a potential flood hazard exists. Studies can be used to designate community flood hazard areas. Such evidence may include but shall not be limited to:
 - a.) Eyewitness reports of historic flooding or other reports of historic flooding deemed credible by the community;
 - b.) Geologic features observed that resemble floodplains (such as flat areas along streams);
 - c.) Proximity to manmade or natural constrictions such as road crossings that can cause backwater effects, and;
 - d.) Drainage basin characteristics such as drainage area, slope, percent impervious cover, land use, etc.
 - e.) Community Flood Hazard Area (CFHA), which would include areas anywhere within the City within a designated Flood Inundation area, drainage problem areas, street, flash, creek or river flooding areas, erosion areas or an area near or within a breach inundation area downstream of a dam.

Formatted: Heading 3, Don't allow hanging punctuation, Tab stops: 1.65", Left

Commented [LG6]: This section is in the 2018 Flood Ord but not in the 2020 Model Ord. Asking MEMA for clarification

SECTION C. **SPECIFIC STANDARDS FOR RIVERINE ZONES. (AE ZONES).**

Commented [LG7]: Changed COH's title to match model ordinance

In all areas of special flood hazard designated on the community's FIRM, where base flood elevation data have been provided, as set forth in Article 3, Section B, the following provisions, in addition to the standards of Article 5, Section A, are required:

- (1) Residential Construction. New construction and substantial improvement of any residential building (including manufactured home) shall have the lowest floor, including basement, elevated one (1) foot above the base flood elevation. Should solid foundation perimeter walls be used to elevate a structure, flood openings sufficient to automatically equalize hydrostatic flood forces on exterior walls of enclosures that are subject to flooding, shall be provided in accordance with standards of Article 5, Section C (4). New development proposals will be designed, to the maximum extent practicable, so residential building sites, walkways, driveways, and roadways are located at natural grade with elevation not less than the base flood elevation and with evacuation routes leading directly out of the special flood hazard area.
- (2) Non-Residential Construction. New construction and substantial improvement of any commercial, industrial, or non-residential building (including manufactured building) shall have the lowest floor, including basement, elevated one (1) foot above the base flood elevation. Buildings located in all A Zones may, together with attendant utility and sanitary facilities, be floodproofed in lieu of being elevated provided that all areas of the building below the base flood elevation plus a minimum of one (1) foot of freeboard are water tight with walls substantially impermeable to the passage of water, and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. Dry floodproofing is allowed only where flood velocities are less than or equal to five feet per second. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. A Flood Emergency Operation Plan and an Inspection and Maintenance Plan must be provided by the design professional for the building. Such certification shall be provided to the Floodplain Administrator. New development proposals will be designed, to the maximum extent practicable, so non-residential building sites, walkways, driveways, and roadways are located at natural grade with elevation not less than the base flood elevation and with evacuation routes leading directly out of the special flood hazard area.
- (3) In special flood hazard areas with base flood elevations (AE Zones) but without floodways, no encroachments, including fill material or structures, shall be permitted unless certification by a registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community. The engineering certification must be supported by technical data that conforms to standard hydraulic engineering principles.
- (4) Enclosures. New construction and substantial improvements that include fully enclosed areas formed by foundation and other exterior walls below the lowest floor shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls. Total enclosed areas will be limited to two hundred ninety-nine (299) square feet. Enclosed areas, including crawl spaces, shall be used solely for parking of vehicles, building access, and storage.
 - a.) Designs for complying with this requirement must either be certified by a professional engineer or architect or meet or exceed the following criteria:
 - (i) Provide a minimum of two openings, on different sides of each enclosed area; if a structure has more than one enclosed area below the base flood elevation, each shall have openings on exterior walls;
 - (ii) The total net area of all openings shall be at least one square inch for each square foot of enclosed area, or the openings shall be designed and the construction documents shall include a statement that the design and installation will provide for equalization of hydrostatic flood forces on exterior walls by allowing for the

automatic entry and exit of floodwaters;

- (iii) The bottom of all openings shall be no higher than one foot above interior grade (which must be equal to in elevation or higher than the exterior grade);
 - (iv) Openings shall allow the passage of a three-inch sphere, and
 - (v) Openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions and automatically equalize hydrostatic flood loads on exterior walls, and;
 - b.) Access to the enclosed area shall be minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment used in connection with the premises (standard exterior door) or entry to the living area (stairway or elevator); and,
 - c.) The interior portion of such enclosed area shall not be finished or partitioned into separate rooms.
 - d.) Property owners shall be required to execute a flood openings/venting affidavit acknowledging that all openings will be maintained as flood vents, and that the elimination or alteration of the openings in any way will violate the requirements of Article 5, Section C. Periodic inspections will be conducted by the Floodplain Administrator to ensure compliance.
- (5) Detached storage buildings, sheds, or other like accessory improvements, excluding detached garages, carports, and boat houses, shall solely be used for parking of vehicles and storage and will be allowed up to no more than two hundred ninety-nine (299) square feet of unfinished, non-partitioned and enclosed storage space. Such storage space shall not be used for human habitation and shall be limited to storage of items that can withstand exposure to the elements and have low flood damage potential. The storage space shall be constructed of flood resistant or breakaway materials, and equipment and service utilities, such as electrical outlets, shall be limited to essential lighting and other incidental uses, and must be elevated. Flood openings in accordance with the standards of Article 5 Section C (4) shall also be required. These accessory structures shall be constructed and placed on the building site so as to offer the minimum resistance to the flow of floodwaters. Accessory improvements and other appurtenant structures shall be firmly anchored to prevent flotation that may result in damage to other structures.
- (6) Property owners shall be required to execute and record with the structure's deed a non-conversion agreement declaring that the area below the lowest floor of the structure or the detached accessory building shall not be improved, finished or otherwise converted; the community will have the right to inspect the enclosed area.
- (7) Standards for Manufactured Homes and Recreational Vehicles.
- a.) All manufactured homes placed, or substantially improved, on individual lots or parcels, in existing manufactured home parks or subdivisions, in expansions to existing manufactured home parks or subdivisions, in new manufactured home parks or subdivisions or in substantially improved manufactured home parks or subdivisions, must meet all the requirements for new construction, including elevation and anchoring and the flood openings requirements of Article 5, Section C (4). Manufactured homes must be:

- (i) Elevated on a permanent foundation to have its lowest floor elevated to no lower than one (1) foot above the base flood elevation, and;
 - (ii) Securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement, and;

(iii) Require that all manufactured homes be placed or installed using methods and

Commented [LG8]: MEMA Model adds "or floodproofed" but COH is not adding this option

Commented [LG9]: Same language added as earlier in Model Ord for "dry stacked blocks"

practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.

- b.) All manufactured homes placed or substantially improved, excepting manufactured homes that have incurred substantial damage as a result of a flood, in an existing manufactured home park or subdivision must be elevated so that:
 - (i) The lowest floor of the manufactured home is elevated to no lower than one foot (1') above the base flood elevation and be securely anchored to an adequately anchored foundation support system to resist flotation, collapse, and lateral movement.
- c.) All recreational vehicles placed on sites must either:
 - (i) Be on site for fewer than 180 consecutive days and shall leave the site and obtain a new permit before returning to the same site, and;
 - (ii) Be fully licensed and ready for highway use, or;
 - (iii) Must meet all the requirements for new construction, including anchoring and elevation requirements of this Article 5, Section C (7) (a) above.

A recreational vehicle is ready for highway use if it is licensed and insured in accordance with the state of Mississippi motor vehicle regulations, is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

- (8) Floodways. Located within areas of special flood hazard adopted by reference in Article 3, Section B, are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of flood waters which carry debris, potential projectiles and has erosion potential, the following provisions shall apply:
 - a.) Prohibit encroachments, including fill, new construction, substantial improvements, and other developments unless certification (with supporting technical data) by a registered professional engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge;
 - b.) If Article 5, Section C (8) (a) above is satisfied, all new construction and substantial improvements shall comply with all applicable flood damage prevention standards of Article 5.
 - c.) Prohibit the placement of manufactured homes (mobile homes), except in an existing manufactured home (mobile homes) park or subdivision. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision provided the anchoring standards of Article 5, Section A (2), and the standards of Article 5, Section C (1) through (4) and the encroachment standards of this Article 5, Section C (8) (a), are met.
 - d.) Encouraged uses within the floodway may include: general farming, pasture, outdoor plant nurseries, horticulture, forestry, wildlife sanctuary, game farm, and other similar agricultural, wildlife, and related uses. Also, lawns, gardens, athletic fields, play areas, picnic grounds, and hiking, horseback riding trails and driveways are acceptable uses, provided that they do not employ structures or fill. These encouraged uses may require certification (with supporting technical data) by a registered professional engineer demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge. The uses in this subsection are permissible only if and to the extent that they do not cause any increase in flood levels during the base flood discharge.

SECTION D STANDARDS FOR STREAMS WITHOUT BASE FLOOD ELEVATIONS AND FLOODWAYS.

When base flood elevation data and floodway data are not available in accordance with Article 3, Section A, in Special Flood Hazard Areas new construction and substantial improvements shall be elevated or floodproofed to elevations established by the community. The following provisions in addition to the standards of Article 5 Section A and the enclosure standards of Article 5 Section C (4) shall apply:

- (1) Require that all new subdivision proposals and other proposed developments (including proposals for manufactured home parks and subdivisions) that are a single lot or one and one half (1 ½) acres, whichever is lesser, include within such proposals base flood elevation data;
- (2) The Floodplain Administrator shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a federal, state, or other source, in order to administer the provisions of Article 5. When such data are available, standards of Article 5, Section C, shall apply. If data is not available from Article 5 Section D (1) or outside sources, then the following provisions shall apply.
- (3) No encroachments, including fill material or other development, shall be located within a distance of the stream bank equal to five times the width of the stream at the top of the bank or twenty feet each side from the top of the bank, whichever is greater, unless certification by a registered professional engineer is provided demonstrating that such encroachment shall not result in any increase in flood levels during the occurrence of the base flood discharge. The enclosure standards of Article 5, Section C (4) shall apply.
- (4) The Floodplain Administrator shall require that a single lot applicant develop the base flood elevation for the development site, utilizing accepted engineering practices and procedures. Upon review of the submitted data, the Administrator may accept or reject the proposed base flood elevation. When such data is accepted, standards of Article 5, Section C, shall apply.
- (5) Fill within the area of special flood hazard shall result in no net loss of natural floodplain storage. The volume of loss of floodwater storage due to filling in the special flood hazard area shall be offset by providing an equal volume of flood storage by excavation or other compensatory measures at or adjacent to the development site.
- (6) Notify, in riverine situations, adjacent communities and the State Coordinating Office prior to any alteration or relocation of a watercourse, and submit copies of such notifications to FEMA. Assure that the flood carrying capacity within the altered or relocated portion of any watercourse is maintained.
- (7) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.

Commented [LG10]: MEMA Removed a contradiction within 2018 Ord.

Formatted: Highlight

SECTION E. STANDARDS FOR SUBDIVISION PROPOSALS AND OTHER PROPOSED DEVELOPMENT.

- (1) All subdivision proposals shall be consistent with the need to minimize flood damage;
- (2) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage;
- (3) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards, and;
- (4) Base flood elevation data shall be provided for all new subdivision proposals and other proposed development (including manufactured home parks and subdivisions), that are a single lot or five acres, whichever is the lesser.
- (5) All subdivision and other development proposals which involve disturbing more than .49 acres of land shall include a stormwater management plan which is designed to limit peak runoff from the site to predevelopment levels for the twenty-five (25)-year, twenty four (24) hour frequency storm event. These

plans shall be designed to limit adverse impacts to downstream channels and floodplains. Single family residential is excluded as deemed appropriate. Engineering detail and documentation including a stormwater plan for the site shall be required at the time of application as specified in Section 9 of the Land Development Code, Ord. No. 3209.

Commented [LG11]: Amended to be consistent with the LDC and CRS purposes

- (6) All preliminary plans for platted subdivisions shall identify the flood hazard area, the floodway boundary, dam breach inundation areas that are required to remain as open space, in accordance with Article 5, Section A-18, and the elevation of the base flood. -
- (7) All final subdivision plats will provide the boundary of the special flood hazard area, the floodway boundary, dam breach inundation areas that are required to remain as open space, in accordance with Article 5, Section A-18, and the base flood elevations.
- (8) In platted subdivisions, all proposed lots or parcels that will be future building sites shall have a minimum buildable area, as defined in the Land Development Code, outside the natural (non-filled) one percent (1%) chance annual floodplain. The buildable area shall be large enough to accommodate any primary structure and associated structures.
- (9) Approval shall not be given for streets within a subdivision, which would be subject to flooding in the base flood. All street surfaces must be located above the base flood elevation.
- (10) Each proposed parcel must have a designated buildable pad or site above the one percent (1%) chance floodplain. The distance of the buildable pad or site above the one percent (1%) chance floodplain shall depend on the slope of the ground and in accordance with the following table:

Distance in feet from A Zone [one percent (1%) chance floodplain]	Minimum Slope from A Zone – one percent (1%) flood plain to ground level at pad
20	5%
30	3.33%
40	2.50%
50	2.0%
60	1.67%
70	1.43%
80	1.25%
90	1.11%
100	1.0%

Residential and non-residential structures finished floor elevation also must be elevated one and one-half feet (1.5') above the adjacent average grade or one foot (1') above highest adjacent street centerline as per the existing regulation, whichever is higher.

- (11) The subdivider/applicant must comply with the following:
 - a.) Deed restrictions are required on the lot or lots prohibiting construction within the designated special flood hazard area or dam breach inundation areas and the requirement for lowest floor elevation.
 - b.) Place a statement on the face of the final plat prohibiting construction in the designated area of special flood hazard or dam inundation areas.

SECTION F. CRITICAL FACILITIES.

Construction of new and substantially improved critical facilities shall be located outside the limits of the special flood hazard area (one percent chance floodplain). Construction of new critical facilities shall be permissible within the SFHA only if no feasible alternative site is available and access to the facilities remains available during a 0.2 percent chance flood. Critical facilities constructed within the SFHA shall have the lowest floor elevated three feet six inches (3'6")

above the base flood elevation at the site (or to the 0.2 percent chance flood elevation whichever is greater). Floodproofing and sealing measures must be implemented to ensure that toxic substances will not be displaced by or released into floodwaters. Multiple access routes, elevated to or above the 0.2 percent flood elevation, shall be provided to all critical facilities to the maximum extent possible. Critical facilities must not only be protected to or above the 0.2 percent chance flood, but must remain operable during such an event. The community's flood response plan must list facilities considered critical in a flood, since loss of access can cause a critical situation. Other facilities in low risk flood zones that may also be needed to support flood response efforts must be included on the critical facility list. The use of any structure shall not be changed to a critical facility, where such a change in use will render the new critical facility out of conformance with this section. The list of the operators of the critical facilities affected by flooding must be updated at least annually, as part of the community critical facility planning procedures.

ARTICLE 6. VARIANCE PROCEDURES.

SECTION A. DESIGNATION AND DUTIES OF VARIANCE AND APPEALS BOARD.

- (1) When it is alleged an error in any requirement, decision, or determination is made by the Floodplain Administrator in the enforcement or administration of this ordinance or a request for a variance with any requirement of this ordinance the Hattiesburg Planning Commission, hereafter known as the "HPC", as established by the City Council of the City of Hattiesburg, shall hear and decide appeals and requests for variances from requirements of this ordinance.
- (2) Any person aggrieved by the recommendation of "HPC" may appeal such decision to the City Council
- (3) Any person aggrieved by the decision of the City Council may appeal such decision to the Circuit Court, as provided in Mississippi Code Annotated, § 11-51-75 (1972)
- (4) Variances from the requirements of this code will not be issued except for:
 - a.) functionally dependent historic structures which meet all criteria in Article 6, Section E of this ordinance,
 - b.) subdivision studies for properties in an A zone as outlined in Article, 5, Section E-10 and 11 of this ordinance, or
 - c.) properties that are fully compliant with wet-floodproofing methods as outlined in the definitions.

SECTION B. VARIANCE PROCEDURES.

In passing upon such applications, the Hattiesburg Planning Commission shall consider all technical evaluations, relevant factors, and standards specified in other sections of this ordinance, and:

- (1) The evaluation must be based on the characteristics unique to that property and not be shared by adjacent parcels. The characteristics must pertain to the land itself, not to the structure, its inhabitants, or its owners;
- (2) Variances should never be granted for multiple lots, phases of subdivisions, or entire subdivisions;
- (3) The danger that materials may be swept onto other lands to the injury of others;
- (4) The danger of life and property due to flooding or erosion damage;
- (5) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner and the community;
- (6) The importance of the services provided by the proposed facility to the community;
- (7) The necessity of the facility to be at a waterfront location, where applicable;
- (8) The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;

Commented [LG12]: No changes for COH based on Model Ord. Keeping all language from 2018 COH Flood Ord.

- (9) The compatibility of the proposed use with existing and anticipated development;
- (10) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
- (11) The safety of access to the property in times of flood for ordinary and emergency vehicles;
- (12) The expected heights, velocity, duration, rate of rise, and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site, and;
- (13) The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges and culverts.
- (14) Upon consideration of factors listed above, and the purpose of this ordinance, the Hattiesburg Planning Commission may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.
- (15) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

SECTION C. CONDITIONS FOR VARIANCES.

- (1) Variances shall only be issued when there is:
 - a.) A showing of good and sufficient cause;
 - b.) A determination that failure to grant the variance would result in exceptional hardship, and;
 - c.) A determination that the granting of a variance will not result in increased flood heights, additional threats to public expense, create nuisance, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
- (2) The provisions of this ordinance are minimum standards for flood loss reduction; therefore, any deviation from the standards must be weighed carefully. Variances shall only be issued upon a determination that the variance is the minimum necessary deviation from the requirements of this ordinance, considering the flood hazard, to afford relief. In the instance of a Historic Structure, a determination that the variance is the minimum necessary so as not to destroy the historic character and design of the building. (See Article 6, Section F.)
- (3) Any applicant to whom a variance is granted shall be given written notice specifying the difference between the base flood elevation and the elevation to which the lowest floor is to be built and stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.
- (4) The Floodplain Administrator shall maintain the records of all appeal actions and report any variances to the Federal Emergency Management Agency and Mississippi Emergency Management Agency upon request. (See Article 6 Section E.)
- (5) Upon consideration of the factors listed above and the purposes of this ordinance, the Hattiesburg Planning Commission may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.
- (6) Variances shall not be issued “after the fact.”

SECTION D. VARIANCE NOTIFICATION.

Any applicant to whom a variance is granted shall be given written notice over the signature of a community official that:

- (1) The issuance of a variance to construct a structure below the base flood elevation will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and;
- (2) List the specific variance granted with the minimum requirement that was changed with the approved variance. List the article, section and subsection for which the variance was issued to.
- (3) Such construction below the base flood level increases risks to life and property. A copy of the notice shall be recorded by the Floodplain Administrator in the Office of the Chancery Clerk and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.

The Floodplain Administrator will maintain a record of all variance actions, including justification for their issuance, and report such variances to the Federal Emergency Management Agency and the Mississippi Emergency Management Agency upon request.

SECTION E. HISTORIC STRUCTURES.

Variances may be issued for the repair or rehabilitation of “historic structures” only upon a determination that the proposed repair or rehabilitation will not preclude the structure’s continued designation as a “historic structure” and the variance is the minimum to preserve the historic character and design of the structure.

- (1) The building must be a bona-fide “historic structure.” As followed by definition.
- (2) The project must maintain the historic status of the structure. If the proposed improvements to the structure will result in it being removed from or ineligible for the National Register or federally-certified state or local inventory, then the proposal cannot be granted an exemption from the substantial improvement rule.
 - (a) Written review and approval of proposed plans by the local historic preservation board and/or the Historic Planner, if it is federally-certified, or by the state historic preservation office. If the plans are approved, you can grant the exemption. If no, no exemption can be permitted.
- (3) Take all possible flood damage reduction measures. Even though the exemption to the substantial improvement rule means the building does not have to be elevated to or above BFE or be renovated with flood-resistant materials that are not historically sensitive, many things can and should be done to reduce the flood damage potential. Examples include:
 - (a) Locating mechanical and electrical equipment above the BFE or floodproofing it.
 - (b) Elevating the lowest floor of an addition to or above the BFE with the change in floor elevation disguised externally.
 - (c) Building the lowest floor of an addition with flood-resistant materials and providing hydrostatic openings.

SECTION F. SPECIAL CONDITIONS.

Upon consideration of the factors listed in Article 6, and the purposes of this ordinance, the Hattiesburg Planning Commission may attach such conditions to the granting of variances, as it deems necessary to further the purposes of this ordinance.

SECTION G. FLOODWAY.

Variances shall not be issued within any designated regulatory floodway if any increase in flood levels during the base flood discharge would result.

ARTICLE 7. SEVERABILITY.

If any section, clause, sentence, or phrase of the Ordinance is held to be invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way effect the validity of the remaining portions of this Ordinance.”

SECTION 2. That **Ordinance Number 3247 adopted December 18, 2018**, and any other ordinances in conflict thereof are hereby repealed.

SECTION 3. This Ordinance shall take effect and be in force **immediately** after passage as provided by law. It is vital to the public health, safety, and welfare and is necessary for residents within SHFA to be able to obtain flood insurance.

The foregoing ordinance having been reduced to writing was introduced by Councilman _____, seconded by Councilman _____ and was adopted by the following vote, to wit:

INDEXING INSTRUCTIONS:

**ORDINANCE NUMBER _____
OF THE
CITY OF HATTIESBURG, MISSISSIPPI**

**AN ORDINANCE AMENDING ORDINANCE NUMBER 3224, ADOPTED
JANUARY 2, 2018, TO AMEND CHAPTER 10 OF THE CODE OF ORDINANCES, AND
UPDATE THE FLOOD DAMAGE PREVENTION ORDINANCE
FOR THE CITY OF HATTIESBURG.**

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. That Chapter 10 of the Code of Ordinances, be and the same is hereby amended
to read as follows, to wit:

FLOOD DAMAGE PREVENTION ORDINANCE

TABLE OF CONTENTS

ARTICLE 1. STATUTORY AUTHORIZATION, FINDINGS OF FACT, PURPOSE, AND OBJECTIVES

- Section A. Statutory Authorization
- Section B. Findings of Fact
- Section C. Statement of Purpose
- Section D. Objectives
- Section E. Methods of Reducing Flood Losses

ARTICLE 2. DEFINTIONS

ARTICLE 3. GENERAL PROVISIONS

- Section A. Lands to Which This Ordinance Applies
- Section B. Basis for Establishing the Areas of Special Flood Hazard
- Section C. Use of Preliminary Flood Hazard Date
- Section D. Establishment of Floodplain Development Permit
- Section E. Compliance
- Section F. Abrogation and Greater Restrictions
- Section G. Interpretation
- Section H. Repetitive Loss Structures
- Section I. Warning and Disclaimer of Liability
- Section J. Enforcement, Penalties, and Violations

ARTICLE 4. ADMINISTRATION

- Section A. Designation of Flood Damage Prevention Ordinance Administrator
- Section B. Permit Procedures
- Section C. Powers, Duties, and Responsibilities of the Floodplain Administrator

ARTICLE 5. PROVISIONS FOR FLOOD HAZARD REDUCTION

- Section A. General Standards for All Zones
- Section B. Standards for X Zones (Shaded/Unshaded)
- Section C. Specific Standards for Riverine Zones (AE Zones)
- Section D. Standards for Streams without Base Flood Elevations and Floodways
- Section E. Standards for Subdivision Proposals and Other Proposed Development
- Section F. Critical Facilities

ARTICLE 6. VARIANCE PROCEDURES

- Section A. Designation and Duties of Variance and Appeals Board
- Section B. Variance Procedures
- Section C. Conditions for Variances
- Section D. Variance Notification
- Section E. Historic Structures
- Section F. Special Conditions
- Section G. Floodway

ARTICLE 7. SEVERABILITY

FLOOD DAMAGE PREVENTION ORDINANCE

ARTICLE 1. STATUTORY AUTHORIZATION, FINDINGS OF FACT, PURPOSE, AND OBJECTIVES.

SECTION A. STATUTORY AUTHORIZATION.

The Legislature of the state of Mississippi has in Title 17, Chapter 1, Mississippi Code of 1972 Annotated delegated the responsibility to local government units to adopt regulations designed to promote the public health, safety, and general welfare of its citizenry. Therefore, the City Council of the City of Hattiesburg does hereby adopt the following floodplain management regulations.

SECTION B. FINDINGS OF FACT.

- (1) The City of Hattiesburg is subject to periodic inundation, which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety and general welfare.
- (2) These flood losses are caused by the cumulative effect of obstructions, both inside and outside the identified Special Flood Hazard Areas, causing increases in flood heights and velocities and by the occupancy in flood hazard areas by uses vulnerable to floods or hazardous to other lands which are inadequately elevated, floodproofed, or otherwise unprotected from flood damages.

SECTION C. STATEMENT OF PURPOSE.

It is the purpose of this ordinance to promote the public health, safety, and general welfare and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- (1) Restrict or prohibit uses which are dangerous to health, safety, and property due to water or erosion hazards, which result in damaging increases in erosion or in flood heights or velocities;
- (2) Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
- (3) Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of flood waters;
- (4) Control filling, grading, dredging, and other development which may increase erosion or flood damage, and;
- (5) Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.

SECTION D. OBJECTIVES.

The objectives of this ordinance are:

- (1) To protect human life and health;
- (2) To minimize expenditure of public money for costly flood control projects;
- (3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
- (4) To minimize prolonged business interruptions;
- (5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;
- (6) To help maintain a stable tax base by providing for the sound use and development of flood prone areas in such a manner as to minimize flood blight areas, and;
- (7) To ensure that potential homebuyers are notified that property is in a floodprone area.

SECTION E. METHODS OF REDUCING FLOOD LOSSES.

In order to accomplish its purposes, this ordinance includes methods and provisions for:

- (1) Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities;
- (2) Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;

- (3) Controlling the alteration of natural floodplains, stream channels, and natural protective barriers, which help accommodate or channel flood waters;
- (4) Controlling filling, grading, dredging, and other development which may increase flood damage, and;
- (5) Preventing or regulating the construction of flood barriers that will unnaturally divert floodwaters or may increase flood hazards in other areas.

ARTICLE 2. DEFINITIONS.

Unless specifically defined below, words or phrases used in this ordinance shall be interpreted so as to give them the meaning they have in common usage and to give this ordinance it's most reasonable application.

A Zone is the Area of Special Flood Hazard without base flood elevations determined.

AE Zone is the Area of Special Flood Hazard with base flood elevations determined.

Accessory structure (Appurtenant structure) means a structure, which is located on the same parcel of property as the principal structure and the use of which is incidental to the use of the principal structure. Accessory structures should constitute a minimal initial investment, may not be used for human habitation, and be designed to have minimal flood damage potential. Examples of accessory structures are detached garages, carports, storage sheds, pole barns, and hay sheds.

Addition (to an existing building) means any walled and roofed expansion to the perimeter or height of a building. Any addition shall be considered new construction. If the addition is more than 50% of the market value of the structure, then the addition and the existing structure are now new construction.

Appeal means a request for a review of the Floodplain Administrator's interpretation of any provision of this ordinance or a request for a variance.

AR/AE, AR/AH, AR/AO, and AR/A Zones are SFHAs that result from the decertification of a previously accredited flood protection system or levee that is in the process of being restored to provide a one percent chance or greater level of flood protection. After restoration is complete, these areas will still experience residual flooding from other flooding sources.

A99 Zone is that part of the SFHA inundated by the one percent chance flood to be protected from the one percent chance flood by a Federal flood protection system or levee under construction, no base flood elevations are determined.

Area of shallow flooding means a designated AO or AH Zone on the community's Flood Insurance Rate Map (FIRM) with flood depths from one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Area of special flood hazard is the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. This area is also referred to as the Special Flood Hazard Area (SFHA).

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year (also called the "one percent chance flood").

Base Flood Elevation (BFE) is the elevation shown in the Flood Insurance Study (FIS) for Zones AE, AH, AR, AR/A, AR/AE, AR/AH, AR/AO, and VE that indicates the water surface elevation resulting from a flood that has a one percent or greater chance of being equaled or exceeded in any given year.

Basement means any portion of a building having its floor sub-grade (below ground level) on all sides.

Building see **Structure**.

Cluster Development – See Land Development Code, Ord #3209, as amended, definition; Also see Planned Development.

Community is a political entity and/or its authorized agents or representatives that have the authority to adopt and enforce floodplain ordinances for the area under its jurisdiction.

Community Floodplain Management Map means any map produced by the community utilizing best available base flood elevation and floodway data that is from a federal, state, or other accepted technical source.

Community Rating System (CRS) is a program developed by the Federal Insurance Administration to provide incentives for those communities in the Regular Program that have gone beyond the minimum floodplain management requirements to develop extra measures to provide protection from flooding.

Community Flood Hazard Area (CFHA) is an area that has been determined by the Floodplain Administrator (or other delegated, designated, or qualified community official) from available technical studies, historical information, and other available and reliable sources, which may be subject to periodic inundation by floodwaters that can adversely affect the public health, safety and general welfare. This includes areas downstream from dams/dam breach inundation areas.

Critical facility (also called critical action) means facilities for which the effects of even a slight chance of flooding would be too great. The minimum floodplain of concern for critical facilities is the 0.2 percent chance flood level. Critical facilities include, but are not limited to facilities critical to the health and safety of the public such as: emergency operations centers, designated public shelters, schools, nursing homes, hospitals, police, fire and emergency response installations, vital data storage centers, power generation and water and other utilities (including related infrastructure such as principal points of utility systems) and installations which produce, use or store hazardous materials or hazardous waste (as defined under the Clean Water Act and other Federal statutes and regulations).

D Zone is an area in which the flood hazard is undetermined.

Dam is any artificial barrier, including appurtenant works, constructed to impound or divert water, waste water, liquid borne materials, or solids that may flow if saturated. All structures necessary to maintain the water level in an impoundment or to divert a stream from its course will be considered a dam.

Dam Inundation Area or “DIA” means the area downstream of a dam that would be impacted in the event of a failure or uncontrolled release of water.

Dam Safety Office – The Mississippi Dam Safety Program (MDSP) is implemented by the Department of Environmental Quality, Office of Land & Water Resources. The program is responsible for regulating dams across the state of Mississippi. The goal of the Dam Safety Program is to protect people and property from the damaging consequences of catastrophic dam failures. Dams are classified as high, significant, or low hazard depending on the hazard potential of the dam. The MDSP also issues permit for construction of new dams and for reconstruction/modifications of existing dams.

Development means any man-made change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavating, drilling operations, or storage of materials or equipment.

Dry Floodproofing – see **Floodproofing Methods**

Elevated building means for insurance purposes, a non-basement building which has its lowest elevated floor raised above ground level by foundation walls, shear walls, posts, pilings, columns, or piers.

Elevation Certificate is a FEMA form used as a certified statement that verifies a building’s elevation information.

Emergency Program means the first phase under which a community participates in the NFIP. It is intended to provide a first layer amount of insurance coverage for all insurable buildings in that community before the effective date of the initial FIRM.

Enclosures below the Lowest Floor see “Lowest Floor.”

Encroachment means the advance or infringement of uses, plant growth, fill, excavation, buildings, structures or development into a floodplain, which may impede or alter the flow capacity of a floodplain.

Executive Order 11988 (Floodplain Management) this order requires that no federally assisted activities be conducted in or have the potential to affect identified Special Flood Hazard Areas, unless there is no practicable alternative.

Executive Order 11990 (Wetlands Protection) this order requires the avoidance of adverse impacts associated with the destruction or modification of wetlands.

Existing Construction means structures for which the “start of construction” commenced before date of 04/03/1970. Existing construction may also be referred to as existing structures.

Existing manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by a community.

Expansion to an existing manufactured home park or subdivision includes the preparation of additional sites by the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

Fill means a deposit of earthen materials placed by artificial means.

First Floor Elevation – See Code of Ordinances, Chapter 22, Section 22-6 (Ordinance Number 3024, as amended, for requirement.

Five-Hundred Year Flood means the flood that has a 0.2 percent chance of being equaled or exceeded in any year. Areas subject to the 0.2 percent chance flood have a moderate risk of flooding.

Flood or flooding means:

a.) A general and temporary condition of partial or complete inundation of normally dry land areas from:

1.) The overflow of inland or tidal waters.

- 2.) The unusual and rapid accumulation or runoff of surface waters from any source.
 - 3.) Mudslides (i.e. mudflows) which are proximately caused by flooding as defined in paragraph (A)(2) of this definition and are akin to a river of liquid and flowing mud on the surfaces of normally dry land areas, as when earth is carried by a current of water and deposited along the path of the current.
- b.) The collapse or subsidence of land along the shore of a lake or other body of water as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in paragraph (A)(1) of this definition

Flood (insurance definition) means a general and temporary condition of partial or complete inundation of two or more acres of normally dry land areas or of two or more properties (e.g. a building and a public street) from (1) overflow of inland or tidal waters (2) unusual and rapid accumulation or runoff of surface waters (3) mudflows caused by flooding.

Flood Insurance Rate Map (FIRM) means an official map of a community, on which FEMA has delineated both the areas of special flood hazard and the risk premium zones applicable to the community.

Flood Insurance Study (FIS) is the document which provides an examination, evaluation, and determination of flood hazards and, if appropriate, corresponding water surface elevations, or an examination, evaluation, and determination of mudslide and/or flood-related erosion hazards.

Flood Protection Elevation is the base flood elevation plus one (1) foot of freeboard. In areas where no base flood elevations exist from any authoritative source, the flood protection elevation can be historical flood elevations, or base flood elevations determined and/or approved by the floodplain administrator plus freeboard.

Floodplain means any land area susceptible to being inundated by flood waters from any source.

Floodplain Administrator is the individual appointed to administer and enforce the floodplain management regulations.

Floodplain management means the operation of an overall program of corrective and preventive measures for reducing flood damage and preserving and enhancing, where possible, natural resources in the floodplain, including but not limited to emergency preparedness plans, flood control works, floodplain management regulations, and open space plans.

Floodplain management regulations means this ordinance and other zoning ordinances, subdivision regulations, building codes, health regulations, special purpose ordinances, and other applications of police power which control development in flood-prone areas. This term describes federal, state, or local regulations in any combination thereof, which provide standards for preventing and reducing flood loss and damage.

Floodproofing Certificate is an official FEMA form used to certify compliance for non-residential structures in non Coastal High Hazard Areas as an alternative to elevating buildings to or above the base flood elevation.

Floodproofing Methods:

Dry Floodproofing means any combination of structural and nonstructural additions, changes, or adjustments to structures, which reduce or eliminate flood damages to real estate or improved real estate property, water, and sanitary facilities, structures, and their contents. Structures shall be floodproofed with a minimum of 12 inches of freeboard (more is recommended) in relation to the base flood elevation. Dry floodproofing of a pre-FIRM residential or pre-FIRM non-residential structure that has not been substantially damaged or improved is allowed. Dry floodproofing of a post-FIRM residential or post-FIRM non-residential building is not allowed.

Wet floodproofing means a method of construction which allows water to enter a structure in such a way that will minimize damage to the structure and its contents. Wet floodproofing is appropriate for functionally dependent use and uses that facilitate open space use by variance only, structures utilized for parking or limited storage, or when all other techniques are not technically feasible. Wet floodproofing shall not be utilized as a method to satisfy the requirements of this ordinance for bringing substantially damaged or improved structures into compliance. Wet floodproofing is not allowed in lieu of complying with the lowest floor elevation requirements for new residential or non-residential buildings.

Floodway See *Regulatory Floodway*.

Floodway fringe means that area of the special flood hazard area on either side of the regulatory floodway.

Flood Protection Elevation is the base flood elevation plus the community freeboard. In areas where no base flood elevations exist from any authoritative source, the flood protection elevation can be historical flood elevations or base flood elevations determined and/or approved by the floodplain administrator plus freeboard.

Freeboard means a factor of safety, usually expressed in feet above the BFE, which is applied for the purposes of floodplain management. "Freeboard" tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, bridge openings, and the hydrological effect of urbanization of the watershed. The City of Hattiesburg's freeboard is one (1) foot above BFE.

Functionally dependent use means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, ship building and ship repair facilities. The term does not include long-term storage,

manufacture, processing functions, sales, administrative functions, or service facilities.

Hardship (as related to variances of this ordinance) means the exceptional difficulty that would result from a failure to grant the requested variance. The City Council requires that the variance is exceptional, unusual, and peculiar to the property involved. Mere economic or financial hardship alone is NOT exceptional. Inconvenience, aesthetic considerations, physical handicaps, personal preferences, or the disapproval of one's neighbors likewise cannot, as a rule, qualify as an exceptional hardship. All of these problems can be resolved through other means without granting a variance, even if the alternative is more expensive, or requires the property owner to build elsewhere or put the parcel to a different use than originally intended.

Hazard potential means the possible adverse incremental consequences that result from the release of water or stored contents due to failure of a dam or mis-operation of a dam or appurtenances. The hazard potential classification of a dam does not reflect in any way on the current condition of a dam and its appurtenant structures (e.g. safety, structural integrity, and flood routing capacity).

High hazard dam means a class of dam in which failure may cause loss of life, serious damage to residential, industrial, or commercial buildings; or damage to, or disruption of, important public utilities or transportation facilities such as major highways or railroads. Dams which meet the statutory thresholds for regulation that are proposed for construction in established or proposed residential, commercial, or industrial areas will be assigned this classification, unless the applicant provides convincing evidence to the contrary.

Highest adjacent grade means the highest natural elevation of the ground surface, prior to construction, next to the proposed walls of a building.

Historic Structure means any structure that is:

- a.) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- b.) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- c.) Individually listed on the State of Mississippi inventory of historic structures, or;
- d.) Individually listed on a local inventory historic places in communities with historic preservation programs that have been certified by an approved state program as determined by the Secretary of the Interior.

Hydrologic and hydraulic engineering analyses means the analyses performed by a professional engineer, registered in the state of Mississippi, in accordance with standard engineering practices as accepted by FEMA, used to determine flood elevations and /or floodway boundaries.

Increased Cost of Compliance (ICC) coverage means under the standard flood insurance policy the cost to repair a substantially flood damaged building that exceeds the minimal repair cost and that is required to bring a substantially damaged building into compliance with the local flood damage prevention ordinance. Acceptable mitigation measures are floodproofing (nonresidential), relocation, elevation, demolition, or any combination thereof. All renewal and new policies with effective dates on or after June 1, 1997, include ICC coverage.

Letter of Map Change (LOMC) is an official FEMA determination, by letter, to amend or revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, and Flood Insurance Studies.

Letter of Map Amendment (LOMA)

An amendment based on technical data showing that a property was incorrectly included in a designated SFHA, was not elevated by fill (only by a natural grade elevation), and will not be inundated by the one percent chance flood. A LOMA amends the current effective FIRM and establishes that a specific property is not located in a SFHA.

Letter of Map Revision (LOMR)

A revision based on technical data that, usually due to manmade changes, shows changes to flood zones, flood elevations, floodplain and floodway delineations, and planimetric features. One common type of LOMR, a LOMR-F, is a determination concerning whether a structure or parcel has been elevated by fill above the BFE and is, therefore, excluded from the SFHA.

Conditional Letter of Map Revision (CLOMR)

A formal review and comment by FEMA as to whether a proposed project complies with the minimum NFIP floodplain management criteria. A CLOMR does not revise effective Flood Insurance Rate Maps, Flood Boundary and Floodway Maps, or Flood Insurance Studies.

Levee means a man-made structure; usually earthen embankments designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary flooding.

Levee system means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices. For a levee system to be recognized, the following criteria must be met. All closure devices or mechanical systems for internal drainage, whether manual or automatic, must be operated in accordance with an officially adopted operation manual (a copy of which must be provided to FEMA by the operator when levee or drainage system recognition is being

sought or revised). All operations must be under the jurisdiction of a Federal or State agency, an agency created by Federal or State law, or an agency of a community participating in the NFIP.

Low hazard dam means a class of dam in which failure would at the most result in damage to agricultural land, farm buildings (excluding residences), or minor roads.

Lowest adjacent grade means the elevation of the sidewalk, patio, deck support, or basement entryway immediately next to the structure and after the completion of construction. It does not include earth that is placed for aesthetic or landscape reasons around a foundation wall. It does include natural ground or properly compacted fill that comprises a component of a building's foundation system.

Lowest floor means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood resistant enclosure, used solely for parking of vehicles, building access, or storage, in an area other than a basement, is not considered a building's lowest floor, *provided* that such enclosure is not built so as to render the structure in violation of the non-elevation provisions of this code.

Manufactured home (44 CFR 59.1 definition / FEMA) means a structure, transportable in one or more sections, which is built on a permanent chassis and designed to be used with or without a permanent foundation when attached to the required utilities. The term manufactured home does not include a "recreational vehicle."

Manufactured housing (24 CFR 3280.3 and 3285.5 definitions / HUD) means "...a structure, transportable in one or more sections, which in the traveling mode is 8 body feet or more in width or 40 body feet in length or which when erected on-site is 320 or more square feet, and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities."

Manufactured home park or subdivision means a parcel (or contiguous parcels) of land divided into two or more manufactured home lots for rent or sale.

Map Amendment means a change to an effective NFIP map that results in the exclusion from the SFHA or an individual structure or a legally described parcel of land that has been inadvertently included in the SFHA (i.e., no alterations of topography have occurred since the date of the first NFIP map that showed the structure or parcel to be within the SFHA. See Letter of Map Change (LOMC) for ways to request a Map Amendment.

Map Panel Number means the four-digit number followed by a letter suffix assigned by FEMA on a FIRM. The first four digits represent the map panel, and the letter suffix represents the number of times the map panel has been revised.

Market value means the property value (as agreed between a willing buyer and seller); excluding the value of land as established by what the local real estate market will bear. Market value can be established by independent certified appraisal; replacement cost depreciated by age of building (Actual Cash Value); or adjusted assessed values.

Mean Sea Level means, for the purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929, North American Vertical Datum (NAVD) of 1988, or other datum, to which base flood elevations shown on a community's Flood Insurance Rate Map (FIRM) are referenced.

National Flood Insurance Program (NFIP) is the federal program that makes flood insurance available to owners of property in participating communities nationwide through the cooperative efforts of the Federal Government and the private insurance industry.

National Geodetic Vertical Datum (NGVD) means a vertical control, corrected in 1929, used as a reference for establishing varying elevations within the floodplain.

New Construction means a structure or an addition to an existing structure for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and any subsequent improvements to such structure or the addition.

New manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain regulations adopted by a community.

Non-Residential means, but is not limited to; small business concerns, churches, schools, farm buildings (including grain bins and silos), poolhouses, clubhouses, recreational buildings, mercantile structures, agricultural and industrial structures, warehouses, and hotels and motels with normal room rentals for less than 6 months duration.

North American Vertical Datum (NAVD) of 1988 means a vertical control, corrected in 1988, used as a reference for establishing varying elevations within the floodplain.

Obstruction means, but is not limited to, any dam, wall, wharf, embankment, levee, dike, pile, abutment, protection, excavation, channel construction, bridge, culvert, building, wire, fence, rock, gravel, refuse, fill, structure, vegetation or other material in, along, across or projecting into any watercourse which may alter, impede, retard or change the direction and/or velocity of the flow of water, or due to its location, its propensity to snare or collect debris carried by the flow of water, or its likelihood of being carried downstream.

One Percent Flood (aka 100-Year Flood) is the flood that has a one percent chance of being equaled or exceeded in any given year. Any flood zone that begins with the letter A or V is subject to inundation by the one percent chance flood. Over the life of a 30-year loan, there is a 26-percent chance of experiencing such a flood within the SFHA.

Participating Community is any community that voluntarily elects to participate in the NFIP by adopting and enforcing floodplain management regulations that are consistent with the standards of the NFIP.

Post-FIRM Construction means new construction and substantial improvements for which start of construction occurred after December 31, 1974, or on or after the effective date of the initial FIRM of the community, whichever is later.

Pre-FIRM Construction means new construction and substantial improvements for which start of construction occurred on or before December 31, 1974, or before the effective date of the initial FIRM of the community, whichever is later.

Probation is a means of FEMA formally notifying participating communities of the first of the two NFIP sanctions due to their failure to correct violations and deficiencies in the administration and enforcement of the local floodplain management regulations.

Public safety and nuisance means anything which is injurious to the safety or health of an entire community or neighborhood, or any considerable number of persons, or unlawfully obstructs the free passage or use, in the customary manner, of any navigable lake, or river, bay, stream, canal, or basin.

Recreational vehicle means a vehicle that is:

- a.) Licensed and titled as an RV or park model (not a permanent residence);
- b.) Built on a single chassis;
- c.) 400 square feet or less when measured at the largest horizontal projection;
- d.) Has no attached deck, porch, or shed;
- e.) Has quick-disconnect sewage, water, and electrical connectors;
- f.) Designed to be self-propelled or permanently towable by a light duty truck, and;
- g.) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational, camping, travel, or seasonal use.

Regular Program means the second phase of the community's participation in the NFIP in which second layer coverage is available based upon risk premium rates only after FEMA has completed a risk study for the community.

Regulatory floodway means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than one foot.

Repair means the reconstruction or renewal of any part of an existing building for which the start of construction commenced on or after the effective date of a floodplain management regulation adopted by a community and all such regulations effective at the time of permitting must be met.

Repetitive Loss means flood-related damages sustained by a structure on two separate occasions during a 10-year period for which the cost of repairs at the time of each such flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damage occurred.

Repetitive Loss Property is any insurable building for which two or more claims of more than \$1,000 were paid by the National Flood Insurance Program (NFIP) within any rolling 10-year period, since 1978. At least two of the claims must be more than ten days apart but, within ten years of each other. A RL property may or may not be currently insured by the NFIP.

Section 1316 means that section of the National Flood Insurance Act of 1968, as amended, which states that no new flood insurance coverage shall be provided for any property that FEMA finds has been declared by a duly constituted state or local zoning authority or other authorized public body to be in violation of state or local laws, regulations, or ordinances that are intended to discourage or otherwise restrict land development or occupancy in flood-prone areas.

Severe Repetitive Loss Structure means any insured property that has met at least one of the following paid flood loss criteria since 1978, regardless of ownership:

- 1. Four or more separate claim payments of more than \$5,000 each (including building and contents payments); or
- 2. Two or more separate claim payments (building payments only) where the total of the payments exceeds the current market value of the property.

In either case, two of the claim payments must have occurred within ten years of each other. Multiple losses at the same location within ten days of each other are counted as one loss, with the payment amounts added together.

Significant hazard dam means a dam assigned the significant hazard potential classification where failure may cause damage to main roads, minor railroads, or cause interruption of use, or service of relatively important public utilities.

Special flood hazard area (SFHA) means that portion of the floodplain subject to inundation by the base flood and/or

flood-related erosion hazards as shown on a FHBM or FIRM as Zones A, AE, AH, AO, AR, AR/AE, AR/AO, AR/AH, AR/A, A99, or VE.

Start of construction (for other than new construction or substantial improvements under the Coastal Barrier Resources Act P. L. 97-348), includes substantial improvement, and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, or improvement was within 180 days of the permit date. The actual start means the first placement of permanent construction of a building (including a manufactured home) on a site, such as the pouring of slabs or footings, installation of piles, construction of columns, or any work beyond the stage of excavation or placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main building. For substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure (for floodplain management purposes), means a walled and roofed building, including a gas or liquid storage tank that is principally above ground, as well as a manufactured home.

Structure (for insurance purposes), means a building with two or more outside rigid walls and a fully secured roof, that is affixed to a permanent site; a manufactured home built on a permanent chassis, transported to it site in one or more sections, and affixed to a permanent foundation; or a travel trailer without wheels, built on a chassis and affixed to a permanent foundation, that is regulated under the community's floodplain management and building ordinances or laws. The term does not include a recreational vehicle or a park trailer or other similar vehicle, except as described in the last part of this definition, or a gas, or a liquid storage tank.

Subrogation means an action brought by FEMA when flood damages have occurred, a flood insurance claim has been paid, and all or part of the damage can be attributed to acts or omissions by a community or other third party.

Substantial Damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred. Substantial damage also means flood-related damages sustained by a structure on two separate occasions during a ten (10) year period for which the cost of repairs at the time of each flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damage occurred.

Substantial Improvement means any combination of reconstruction, rehabilitation, or other improvement of a structure taking place during a 10 year period in which the cumulative percentage of improvement equals or exceeds 50 percent of the current market value of the structure before the "start of construction" of the improvement. The costs for determining substantial improvement include the costs of additions. This term includes structures which have incurred repetitive loss or substantial damage, regardless of the actual repair work performed.

The term does not apply to:

- a.) Any project for improvement of a building required to correct existing violations of state or local existing health, sanitary, or safety code specifications which have been identified by the Code Enforcement Official and which are minimum necessary to assure safe living conditions, provided that said code deficiencies were not caused by neglect or lack of maintenance on the part of the current or previous owners or;
- b.) Any alteration of a "historic structure" provided that the alteration will not preclude the structure's continued designation as a "historic structure."

Substantially improved existing manufactured home parks or subdivisions means manufactured home parks or subdivisions where the repair, reconstruction, rehabilitation or improvement of the streets, utilities and pads equals or exceeds 50 percent of the value of the streets, utilities and pads before the repair, reconstruction or improvement commenced.

Suspension means the removal, with or without probation, of a participating community from the NFIP because the community failed to adopt and enforce the compliant floodplain management regulations required for participation in the NFIP.

Variance is a grant of relief by the community from the requirements of this ordinance.

Violation means the failure of a structure or other development to be fully compliant with this ordinance. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in this ordinance is presumed to be in violation until such time as that documentation is provided.

Watercourse means any flowing body of water including a river, creek, stream, or a branch.

Water surface elevation means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929, the North American Vertical Datum (NAVD) of 1988, (or other datum, where specified) of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

Wet floodproofing – see **Floodproofing Methods**

X Zones (shaded) are areas of 0.2 percent chance flood that are outside of the SFHA subject to the one percent chance flood with average depths of less than one foot, or with contributing drainage area less than one square mile and areas

protected by certified levees from the base flood.

X Zones (unshaded) are areas determined to be outside the 0.2 percent chance floodplain.

Zone means a geographical area shown on a Flood Hazard Boundary Map or a Flood Insurance Rate Map that reflects the severity or type of flooding in the area.

ARTICLE 3. GENERAL PROVISIONS.

SECTION A. LANDS TO WHICH THIS ORDINANCE APPLIES.

This ordinance shall apply to all areas of special flood hazard (SFHA) areas within the jurisdiction of the City Council of the City of Hattiesburg.

SECTION B. BASIS FOR ESTABLISHING THE AREAS OF SPECIAL FLOOD HAZARD.

The areas of special flood hazard identified by the Federal Emergency Management Agency in the current scientific and engineering report entitled “The Flood Insurance Study (FIS) for Forrest County, Mississippi and Incorporated Areas”, dated 11/19/2021 with the accompanying Flood Insurance Rate Map(s) (FIRM) (multiple panel) Index No. 28035CIND0C and “The Flood Insurance Study (FIS) for Lamar County, Mississippi and Incorporated Areas”, dated 10/18/2019 with the accompanying Flood Insurance Rate Map(s) (FIRM) (multiple panel) Index No. 28073CIND0B and other supporting data, along with Digital Flood Insurance Rate Maps (DFIRM) are adopted by reference and declared to be part of this ordinance. The Flood Insurance Study and maps are on file at the Planning Office of the Department of Urban Development, located at the City Hall Building.

SECTION C. USE OF PRELIMINARY FLOOD HAZARD DATA.

When Flood Insurance Studies and Preliminary Flood Insurance Rate Maps have been provided by FEMA:

- (1)

Prior to the issuance of a Letter of Final Determination (LFD) by FEMA, the use of the preliminary flood hazard data shall only be required where no base flood elevations and/or floodway areas exist or where the preliminary base flood elevations or floodway area exceed the base flood elevations and/or floodway widths in the effective flood hazard data provided by FEMA. Such preliminary data may be subject to revision through valid appeals.
- (2)

Upon the issuance of a Letter of Final Determination (LFD) by FEMA, the revised flood hazard data shall be used and replace all previously effective flood hazard data provided by FEMA for the purposes of administrating these regulations.

Where adopted regulatory standards conflict, the more stringent base flood elevation shall prevail. Preliminary FIS data may be subject to change by a valid appeal.

SECTION D. ESTABLISHMENT OF FLOODPLAIN DEVELOPMENT PERMIT.

A development permit shall be required in conformance with the provision of this ordinance prior to the commencement of any development activities in identified areas of special flood hazard and community flood hazard areas within the community.

SECTION E. COMPLIANCE.

No structure or land shall hereafter be located, extended, converted or structurally altered without full compliance with the terms of this ordinance and other applicable regulations.

SECTION F. ABROGATION AND GREATER RESTRICTIONS.

This ordinance is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this ordinance and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

SECTION G. INTERPRETATION.

In the interpretation and application of this ordinance all provisions shall be:

- (1) Considered as minimum requirements;
- (2) Liberally construed in favor of the governing body, and;
- (3) Deemed neither to limit nor repeal any other powers granted under state statutes.

SECTION H: REPETITIVE LOSS STRUCTURES

The community may declare any existing structure as a repetitive loss structure as required to qualify the structure for increased cost of compliance (ICC) benefits allowed by a National Flood Insurance Program flood policy claim. To be declared a repetitive loss structure, the following conditions must be met:

- (1) The structure must have a flood insurance policy that includes the increased cost of compliance coverage and;
- (2) The structure must have been flooded twice during a ten-year period with each flood event causing damage for which the repair cost equaled or exceeded 25% of the market value of the structure.

SECTION I. WARNING AND DISCLAIMER OF LIABILITY.

The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based on scientific and engineering consideration. Larger floods can and will occur on rare occasions. Flood heights may be increased by man-made or natural causes. This ordinance does not imply that land outside the areas of special flood hazard and community flood hazard areas or uses permitted within such areas will be free from flooding or flood damages. This ordinance shall not create liability on the part of City Council of the City of Hattiesburg or by any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made hereunder.

SECTION J. ENFORCEMENT, PENALTIES, AND VIOLATIONS.

Civil penalties. Violation of the provisions of this ordinance or failure to comply with any of its requirements, including violation of conditions and safeguards established in connection with grants of variance or special exceptions, shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall, upon conviction thereof, be fined not more than one thousand dollars (\$1,000) or imprisoned for not more than ninety (90) days, or both, and in addition, shall pay all costs and expenses involved in the case. Each day such violation continues shall be considered a separate offense. Nothing herein contained shall prevent the Floodplain Administrator from taking such other lawful actions as are necessary to prevent or remedy any violation.

ARTICLE 4. ADMINISTRATION.

SECTION A. DESIGNATION OF FLOOD DAMAGE PREVENTION ORDINANCE ADMINISTRATOR.

The City Council of the City of Hattiesburg hereby appoints the Planning Administrator to administer and implement the provisions of this ordinance and is herein referred to as the Floodplain Administrator and/or the administrator.

SECTION B. PERMIT PROCEDURES.

Application for a Development Permit shall be made to the Floodplain Administrator on forms furnished by him or her prior to any development activities, and may include, but not be limited to, the following plans in duplicate drawn to scale showing the nature, location, dimensions, and elevations of the area in question; existing or proposed structures, earthen fill, storage of materials or equipment, drainage facilities, and the location of the foregoing. Specifically, the following information is required:

- (1) Application Stage.
 - a.) Elevation in relation to mean sea level of the proposed lowest floor (including basement) of all buildings, which will be submitted on a FEMA Elevation Certificate Form by a State of Mississippi registered engineer or surveyor;
 - b.) Elevation in relation to mean sea level to which any pre-FIRM residential or pre-FIRM non-residential building, that has not been substantially damaged or improved, in an A or AE Zone will be floodproofed;
 - c.) Certificate from a State of Mississippi registered professional engineer or architect that the pre-FIRM residential or pre-FIRM non-residential flood-proofed building will meet the floodproofing criteria in

Article 4, Section B (2), and Article 5, Section C (2);

- d.) No floodplain development permit can be issued to any mobile, modular, or permanently constructed residence, building or facility unless the owner, lessee, or developer obtains a Notice of Intent from the Mississippi State Health Department, pursuant to the MS Individual On-Site Wastewater Disposal System Law (2009), for un-sewered areas of the City.
- e.) Description of the extent to which any watercourse will be altered or relocated as result of proposed development as outlined in Article 4, Section C 4-b.

(2) Construction Stage:

Upon placement of the lowest horizontal structural member or lowest floor (whichever is applicable per the flood zone), or pre-FIRM flood-proofing by pre-approved construction means, it shall be the duty of the permit holder to submit to the Floodplain Administrator a certificate of the NAVD elevation as built in relation to mean sea level. Said certification shall be prepared by a state of Mississippi registered engineer or surveyor. When floodproofing is utilized for a particular building, said certification shall be prepared by a state of Mississippi registered engineer or architect, who is authorized by the state of Mississippi to certify such information and certified by same. Any approved floodproofing shall be required to be one (1) foot above the base flood elevation.

Any work undertaken prior to submission of the certification shall be at the permit holder's risk. The Floodplain Administrator shall review the lowest horizontal structural member or lowest floor (whichever is applicable per the flood zone) and floodproofing elevation certificate data submitted. The permit holder, immediately and prior to further progressive work being permitted to proceed, shall correct deficiencies detected by such review. Failure to submit the certificate or failure to make said corrections required hereby shall be cause to issue a stop-work order for the project.

In any lot or lots/areas that have been removed from the special flood hazard area via a Letter of Map Revision Based on Fill, and if the top of fill level is below the freeboard elevation, all new structures, additions to existing buildings or substantial improvement must meet the required community freeboard elevation.

(3) Finished Construction:

Upon completion of construction, a FEMA Elevation Certificate Form which depicts all finished construction elevations is required to be submitted to the Floodplain Administrator. If the project includes a floodproofing measure, a FEMA floodproofing certificate is required to be submitted by the permit holder to the Floodplain Administrator.

SECTION C. POWERS, DUTIES, AND RESPONSIBILITIES OF THE FLOODPLAIN ADMINISTRATOR.

The Floodplain Administrator and his or her designated staff is hereby authorized and directed to enforce the provisions of this ordinance. The Administrator is further authorized to render interpretations of this ordinance, which are consistent with its spirit and purpose.

(1) Right of Entry

- a.) Whenever necessary to make an inspection to enforce any of the provisions of this ordinance, or whenever the Administrator has reasonable cause to believe that there exists in any building or upon any premises any condition or ordinance violation which makes such building, structure or premises unsafe, dangerous or hazardous, the Administrator may enter such building, structure or premises at all reasonable times to inspect the same or perform any duty imposed upon the Administrator by this ordinance.
- b.) If such building or premises are occupied, the Administrator shall first present proper credentials and request entry. If such building, structure, or premises are unoccupied, he shall first make a reasonable effort to locate the owner or other persons having charge or control of such building or premises.
- c.) If entry is refused, the Administrator shall have recourse to every remedy provided by law to secure entry.
- d.) When the Administrator shall have first obtained a proper inspection warrant or other remedy provided by law to secure entry, no owner or occupant or any other persons having charge, care or control of any building, structure, or premises shall fail or neglect, after proper request is made as herein provided, to promptly permit entry therein by the Administrator for the purpose of inspection and examination pursuant to this ordinance.

(2) Stop Work Orders

- a.) Upon notice from the Administrator, work on any building, structure or premises that is being performed contrary to the provisions of this ordinance shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property, or to his or her agent, or to the person doing the work, and

shall state the conditions under which work may be resumed.

(3) Revocation of Permits

- a.) The Administrator may revoke a permit or approval, issued under the provisions of this ordinance, in case there has been any false statement or misrepresentation as to the material fact in the application or plans on which the permit or approval was based.
- b.) The Administrator may revoke a permit upon determination that the construction, erection, alteration, repair, moving, demolition, installation, or replacement of the structure for which the permit was issued is in violation of, or not in conformity with, the provisions of this ordinance.

(4) Duties of the Administrator

Duties of the administrator shall include, but not be limited to:

- a.) Review all development permits to assure that the permit requirements of this ordinance have been satisfied.
- b.) Review proposed development to assure that all necessary permits have been received from those governmental agencies from which approval is required by Federal or State law, including section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 U.S.C. 1334 and permits from state agencies for any construction, reconstruction, repair, or alteration of a dam, reservoir, or waterway obstruction (including bridges, culverts, structures), any alteration of a watercourse, or any change of the course, current, or cross section of a stream or body of water, including any change to the 100-year frequency floodplain of free-flowing non-tidal waters of the State. Additionally, require the permittee to obtain and submit copies of any required federal or state permits and maintain them on file with the development permit.
- c.) Perform a minimum of three inspections to ensure that all applicable ordinance and floodplain development requirements have been satisfied. The first inspection upon the establishment of the Base Flood Elevation reference mark at the development site; the second upon the establishment of the structure's footprint prior to pouring the slab or the establishment of the lowest floor in an elevated foundation system; and the final inspection upon completion and submission of the required finished construction elevation certificate.
- d.) Verify any required setback distances.
- e.) Verify that all placement of fill or grading is according to certified plans. Assure that any fill being used as part of the structure's foundation system is both clean material and properly compacted and placed. A professional certification that any structure built on fill is reasonably safe from flooding can be requested of the builder/developer and the owner/contractor must provide density reports from a licensed testing agency showing that the fill meets a 95% compaction ratio.
- f.) Verify adequate placement and size of any required flood vents in regard to the number of openings, their location, size, and height above ground level.
- g.) Ensure that a crawlspace has adequate vents or openings and that the interior grade is at or above the exterior grade. The foundation must be vented to comply with the floodplain ordinance as well as the currently adopted building code.
- h.) Verify that the structure's utilities, duct work, and HVAC systems are at or above the one-foot (1') freeboard.
- i.) Notify adjacent communities, the NFIP State Coordinator, and other federal and/or state agencies with statutory or regulatory authority prior to any alteration or relocation of a watercourse.
- j.) Assure that maintenance is provided within the altered or relocated portion of said watercourse so that the flood-carrying capacity is maintained.
- k.) Verify and record the actual elevation (in relation to mean sea level) of the lowest floor (including basement) of all new construction and substantially improved buildings, in accordance with Article 4, Section B (3). Information must be recorded on the FEMA Elevation Certificate Form.
- l.) Verify and record the actual elevation (in relation to mean sea level) to which the pre-FIRM, non-substantially improved, buildings have been floodproofed, in accordance with Article 4, Section B (3). Information must be recorded on the FEMA Floodproofing Certificate.
- m.) Review certified plans and specifications for compliance.
- n.) Make the necessary interpretation where interpretation is needed as to the exact location of boundaries of the areas of special flood hazard (for example, where there appears to be a conflict between a mapped boundary and actual field conditions). The person contesting the location of the boundary shall be given a reasonable opportunity to appeal the interpretation as provided in this Article.
- o.) Obtain, review and reasonably utilize any base flood elevation and floodway data available from a

federal, state or other source when base flood elevation data or floodway data have not been provided in accordance with Article 3, Section B, in order to administer the provisions of Article 5.

- p.) Provide information, testimony, or other evidence, as needed during variance request hearings.
- q.) Conduct the following actions when damage occurs to a building or buildings:
 - (i) Determine whether damaged structures are located within the Special Flood Hazard Area;
 - (ii) Conduct damage assessments for those damaged structures located in the SFHA, and;
 - (iii) Make a reasonable attempt to notify owner(s) of damaged structure(s) of the requirement to obtain a building permit / floodplain development permit prior to repair, rehabilitation, or reconstruction.
- r.) Perform such other inspections as may be required to ensure compliance with the other provisions of this ordinance.
- s.) Required to keep all development permit records in perpetuity.

ARTICLE 5. PROVISIONS FOR FLOOD HAZARD REDUCTION.

SECTION A. GENERAL STANDARDS FOR ALL ZONES.

In all areas of special flood hazard the following provisions are required:

- (1) New construction and substantial improvements shall be anchored to prevent flotation, collapse and lateral movement of the structure.
- (2) Manufactured homes shall be anchored to prevent flotation, collapse, and lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not to be used as an anchor/elevation method. This standard shall be in addition to and consistent with applicable state requirements for resisting wind forces.
- (3) New construction and substantial improvements shall be constructed with materials and utility equipment resistant to flood damage.
- (4) New construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.
- (5) Electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities shall be designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding, such facilities shall be located a minimum one (1) foot above the Base Flood Elevation.
- (6) New and replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system.
- (7) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the systems and discharges from the systems into flood waters.
- (8) On-site waste disposal systems shall be located and constructed to avoid impairment to them or contamination from them during flooding.
- (9) Any alteration, repair, reconstruction or improvements to a building that is in compliance with the provisions of this ordinance shall meet the requirements of “new construction” as contained in this ordinance.
- (10) Any alteration, repair, reconstruction or improvements to a building that is not in compliance with the provisions of this ordinance, shall be undertaken only if said non-conformity shall meet the requirements of “new construction” as contained in this ordinance.
- (11) All gas and liquid storage tanks (both above and below ground) shall be adequately anchored to prevent flotation, lateral movement resulting from hydrodynamic forces, and the effects of buoyancy.
- (12) When new construction and substantial improvements are located in multiple flood zones or in a flood zone with multiple base flood elevations, they shall meet the requirement for the more stringent flood zone and the highest base flood elevation.
- (13) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.
- (14) New construction and substantial improvement of any building inside the SFHA shall have the lowest floor (including basement) at least one foot above the centerline of the designated street, unless the topography of the property does not allow for strict adherence as determined by the Floodplain

Administrator. Areas outside the SFHA shall be elevated in accordance with Article 5, Section B (2).

- (15) All new horizontal additions must have the lowest floor and all HVAC, including ductwork, elevated to the regulatory freeboard.
- (16) Storage or processing of materials that are hazardous, flammable, explosive, or in time of flooding could become buoyant and pose an obstruction to flow, are prohibited within the community special flood hazard areas, to include identified floodways. Storage of material or equipment not otherwise prohibited shall be firmly anchored to prevent flotation.
- (17) New construction and substantial improvements of structures built on fill shall be constructed on properly designed and compacted fill that extends 10 feet to 15 feet beyond the building walls before dropping below the base flood elevation, and shall have appropriate protection from erosion and scour as follows:
 - a.) Fill sites, upon which structures will be constructed or placed, must be compacted to 95 percent of the maximum density obtainable with the Standard Proctor Test method or an acceptable equivalent method.
 - b.) Fill slopes shall be no steeper than one foot vertical to two feet horizontal.
 - c.) Adequate protection against erosion is must be provided for fill slopes. When expected velocities during the occurrence of the base flood are greater than five feet per second, armoring with stone or rock protection or material that will provide equivalent resistance will be provided. When expected velocities during the base flood are five feet per second or appropriate protection shall be provided by covering them with vegetative cover at a minimum.
 - d.) Fill shall be composed of clean granular or earthen material.
- (18) Any proposed development that includes a lake, dam and/or reservoir, whether inside or outside of a SFHA or on an individual lot or in a new subdivision, shall:
 - a.) Obtain all State and/or Federal permits (i.e. dam safety construction permit, surface water impoundment permit, 404 Permit, etc.) which may be required in connection with the proposed work prior to local permitting. Documentation shall include the designation of the type of dam or reservoir as high, significant or low hazard. A letter from the Mississippi Dam Safety Program will be acceptable documentation should no permitting be required;
 - b.) Utilize “cluster development” or similar development pattern to ensure that no structures built within the development are located within the dam inundation area, with deed restrictions recorded in tax records to ensure this area is not developed in the future for the protection of life and properties should the dam breach or fail;
 - c.) Designate the entire inundation area on site and building plans, including any areas outside the proposed new development areas that fall within the inundation area;
 - d.) A Dam Failure Warning and Response plan that describes the following:
 - (i) A general description of the dam, including its distance upstream from the community;
 - (ii) Threat Recognition System for primary and any secondary (backup) threat recognition procedures, and how and when the operator of the dam will notify the local emergency managers of a potential or actual dam breach;
 - (iii) Procedures for quarterly testing of all equipment and material needed for the system, including how and when the quarterly communication checks between the operator of the dam and emergency service officials will be documented;
 - (iv) An evacuation plan and corresponding map;
 - (v) An inventory of all property exposed to dam failure flooding including, but not limited to:
 - 1. Types of buildings (residential, commercial, critical facility, etc.);
 - 2. Count (number per buildings per type);
 - 3. Land use (agricultural, open space, residential, etc.);
 - 4. Developed and undeveloped area within the dam failure inundation area;
 - 5. List of any critical facilities that would be affected;
 - 6. The expected impacts of dam failure flooding on health, safety, community functions (police, fire and utility services) and potential for secondary

hazards; and

7. Documentation as to how the numbers of buildings used in the calculations were determined.
- e.) A mandatory annual exercise or drill, with all actions taken, will be required in lieu of a response to an actual emergency or disaster during the previous year, with after-action report including lessons learned.
- f.) Prior to permitting developer/owner will assist the City with development of a dam failure response operations that describes:
 - (i) The actions to be taken and implemented when the dam failure flood threatens or occurs;
 - (ii) Identifying responsible person for each action;
 - (iii) Defining the time needed to carry out the action activity;
 - (iv) Designating what actions are conducted by owner, emergency services, the community or others;
 - (v) Any other information that specified agencies and organizations need in order to perform their assigned responsibilities;
 - (vi) Notification to all owners of existing structures that fall within the mapped inundation area of the potential danger;
 - (vii) A data base of people with special needs who require evacuation assistance when a dam failure warning is issued with a plan to provide transportation to secure locations, and of all public and private critical facilities or services that could be affected by a dam failure or that the loss of access would cause a critical situation, including contact persons and arrangements for special warnings and early notifications directly to those that may need advance warning; and
 - (viii) Each action item must include a list of the personnel, equipment, facilities, supplies and other resources needed to complete each task; and the source of the resource (owner/developer, community, other jurisdictions or private supplier).

SECTION B. STANDARDS FOR X ZONES (SHADED/UNSHADED).

Any area outside the FEMA studied areas lying along blue line streams shown on the United States Department of the Interior Geological Survey quadrants of which the City of Hattiesburg is contained and/or areas with flood prone soils which are contiguous to blue line streams as shown on the City of Hattiesburg Flood Prone Soils Map shall also be considered community flood hazard areas.

- (1) Compliance with the City of Hattiesburg's Land Development Code, Ordinance Number 3209, as amended, including, but not limited to, section 9.4 for Natural Stream Buffers, 9.2 for Protection during Land Disturbance Activities, 9.1.7.5 for Detention/Retention Areas and Section 9.5 for Wetlands for all zones, both inside and outside the SFHA.
- (2) Compliance with the City of Hattiesburg Code of Ordinances, specifically Section 22-6 regulations for first floor elevation of all structures erected in all zones of the City.
- (3) The X Zones (shaded/un-shaded) are considered to be low to moderate risk flood zones and are located outside the community's delineated special flood hazard area and include the following:
 - a.) Areas outside the one percent (1%) chance flood zone, but within the point 2 percent (0.2%) chance flood zone, as determined by a detailed study;
 - b.) Areas outside the point 2 percent (0.2%) chance flood zone as determined by a detailed study, and;
 - c.) Areas that have not yet been studied.
- (4) The community reserves the right to require further studies for any development within its jurisdiction, if there is evidence that a potential flood hazard exists. Studies can be used to designate community flood hazard areas. Such evidence may include but shall not be limited to:
 - a.) Eyewitness reports of historic flooding or other reports of historic flooding deemed credible by the community;
 - b.) Geologic features observed that resemble floodplains (such as flat areas along streams);
 - c.) Proximity to manmade or natural constrictions such as road crossings that can cause

backwater effects, and;

- d.) Drainage basin characteristics such as drainage area, slope, percent impervious cover, land use, etc.
- e.) Community Flood Hazard Area (CFHA), which would include areas anywhere within the City within a designated Flood Inundation area, drainage problem areas, street, flash, creek or river flooding areas, erosion areas or an area near or within a breach inundation area downstream of a dam.

SECTION C. SPECIFIC STANDARDS FOR RIVERINE ZONES. (AE ZONES).

In all areas of special flood hazard designated on the community's FIRM, where base flood elevation data have been provided, as set forth in Article 3, Section B, the following provisions, in addition to the standards of Article 5, Section A, are required:

- (1) Residential Construction. New construction and substantial improvement of any residential building (including manufactured home) shall have the lowest floor, including basement, elevated one (1) foot above the base flood elevation. Should solid foundation perimeter walls be used to elevate a structure, flood openings sufficient to automatically equalize hydrostatic flood forces on exterior walls of enclosures that are subject to flooding, shall be provided in accordance with standards of Article 5, Section C (4). New development proposals will be designed, to the maximum extent practicable, so residential building sites, walkways, driveways, and roadways are located at natural grade with elevation not less than the base flood elevation and with evacuation routes leading directly out of the special flood hazard area.
- (2) Non-Residential Construction. New construction and substantial improvement of any commercial, industrial, or non-residential building (including manufactured building) shall have the lowest floor, including basement, elevated one (1) foot above the base flood elevation. Buildings located in all A Zones may, together with attendant utility and sanitary facilities, be floodproofed in lieu of being elevated provided that all areas of the building below the base flood elevation plus a minimum of one (1) foot of freeboard are water tight with walls substantially impermeable to the passage of water, and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. Dry floodproofing is allowed only where flood velocities are less than or equal to five feet per second. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied. A Flood Emergency Operation Plan and an Inspection and Maintenance Plan must be provided by the design professional for the building. Such certification shall be provided to the Floodplain Administrator. New development proposals will be designed, to the maximum extent practicable, so non-residential building sites, walkways, driveways, and roadways are located at natural grade with elevation not less than the base flood elevation and with evacuation routes leading directly out of the special flood hazard area.
- (3) In special flood hazard areas with base flood elevations (AE Zones) but without floodways, no encroachments, including fill material or structures, shall be permitted unless certification by a registered professional engineer is provided demonstrating that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community. The engineering certification must be supported by technical data that conforms to standard hydraulic engineering principles.
- (4) Enclosures. New construction and substantial improvements that include fully enclosed areas formed by foundation and other exterior walls below the lowest floor shall be designed to preclude finished living space and designed to allow for the entry and exit of floodwaters to automatically equalize hydrostatic flood forces on exterior walls. Total enclosed areas will be limited to two hundred ninety-nine (299) square feet. Enclosed areas, including crawl spaces, shall be used solely for parking of vehicles, building access, and storage.
 - a.) Designs for complying with this requirement must either be certified by a professional engineer or architect or meet or exceed the following criteria:
 - (i) Provide a minimum of two openings, on different sides of each enclosed area; if a structure has more than one enclosed area below the base flood elevation, each shall have openings on exterior walls;
 - (ii) The total net area of all openings shall be at least one square inch for each square foot of enclosed area, or the openings shall be designed and the construction documents shall include a statement that the design and installation will provide for equalization of hydrostatic flood forces on exterior walls by allowing for the automatic entry and exit of floodwaters;
 - (iii) The bottom of all openings shall be no higher than one foot above interior grade (which must be equal to in elevation or higher than the exterior grade);
 - (iv) Openings shall allow the passage of a three-inch sphere, and
 - (v) Openings may be equipped with screens, louvers, valves or other coverings or devices provided they permit the automatic flow of floodwaters in both directions

and automatically equalize hydrostatic flood loads on exterior walls, and;

- b.) Access to the enclosed area shall be minimum necessary to allow for parking of vehicles (garage door) or limited storage of maintenance equipment used in connection with the premises (standard exterior door) or entry to the living area (stairway or elevator); and,
 - c.) The interior portion of such enclosed area shall not be finished or partitioned into separate rooms.
 - d.) Property owners shall be required to execute a flood openings/venting affidavit acknowledging that all openings will be maintained as flood vents, and that the elimination or alteration of the openings in any way will violate the requirements of Article 5, Section C. Periodic inspections will be conducted by the Floodplain Administrator to ensure compliance.
- (5) Detached storage buildings, sheds, or other like accessory improvements, excluding detached garages, carports, and boat houses, shall solely be used for parking of vehicles and storage and will be allowed up to no more than two hundred ninety-nine (299) square feet of unfinished, non-partitioned and enclosed storage space. Such storage space shall not be used for human habitation and shall be limited to storage of items that can withstand exposure to the elements and have low flood damage potential. The storage space shall be constructed of flood resistant or breakaway materials, and equipment and service utilities, such as electrical outlets, shall be limited to essential lighting and other incidental uses, and must be elevated Flood openings in accordance with the standards of Article 5 Section C (4) shall also be required. These accessory structures shall be constructed and placed on the building site so as to offer the minimum resistance to the flow of floodwaters. Accessory improvements and other appurtenant structures shall be firmly anchored to prevent flotation that may result in damage to other structures.
- (6) Property owners shall be required to execute and record with the structure's deed a non-conversion agreement declaring that the area below the lowest floor of the structure or the detached accessory building shall not be improved, finished or otherwise converted; the community will have the right to inspect the enclosed area.
- (7) Standards for Manufactured Homes and Recreational Vehicles.
- a.) All manufactured homes placed, or substantially improved, on individual lots or parcels, in existing manufactured home parks or subdivisions, in expansions to existing manufactured home parks or subdivisions, in new manufactured home parks or subdivisions or in substantially improved manufactured home parks or subdivisions, must meet all the requirements for new construction, including elevation and anchoring and the flood openings requirements of Article 5, Section C (4). Manufactured homes must be:
 - (i) Elevated on a permanent foundation to have its lowest floor elevated to no lower than one (1) foot above the base flood elevation, and;
 - (ii) Securely anchored to an adequately anchored foundation system to resist flotation, collapse, and lateral movement, and;
 - (iii) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.
 - b.) All manufactured homes placed or substantially improved, excepting manufactured homes that have incurred substantial damage as a result of a flood, in an existing manufactured home park or subdivision must be elevated so that:
 - (i) The lowest floor of the manufactured home is elevated to no lower than one foot (1') above the base flood elevation and be securely anchored to an adequately anchored foundation support system to resist floatation, collapse, and lateral movement.
 - c.) All recreational vehicles placed on sites must either:
 - (i) Be on site for fewer than 180 consecutive days and shall leave the site and obtain a new permit before returning to the same site, and;
 - (ii) Be fully licensed and ready for highway use, or;
 - (iii) Must meet all the requirements for new construction, including anchoring and elevation requirements of this Article 5, Section C (7) (a) above.

A recreational vehicle is ready for highway use if it is licensed and insured in accordance with the state of Mississippi motor vehicle regulations, is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.

- (8) Floodways. Located within areas of special flood hazard adopted by reference in Article 3, Section B, are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of flood waters which carry debris, potential projectiles and has erosion potential, the following provisions shall apply:
- a.) Prohibit encroachments, including fill, new construction, substantial improvements, and other developments unless certification (with supporting technical data) by a registered professional engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge;
 - b.) If Article 5, Section C (8) (a) above is satisfied, all new construction and substantial improvements shall comply with all applicable flood damage prevention standards of Article 5.
 - c.) Prohibit the placement of manufactured homes (mobile homes), except in an existing manufactured home (mobile homes) park or subdivision. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision provided the anchoring standards of Article 5, Section A (2), and the standards of Article 5, Section C (1) through (4) and the encroachment standards of this Article 5, Section C (8) (a), are met.
 - d.) Encouraged uses within the floodway may include: general farming, pasture, outdoor plant nurseries, horticulture, forestry, wildlife sanctuary, game farm, and other similar agricultural, wildlife, and related uses. Also, lawns, gardens, athletic fields, play areas, picnic grounds, and hiking, horseback riding trails and driveways are acceptable uses, provided that they do not employ structures or fill. These encouraged uses may require certification (with supporting technical data) by a registered professional engineer demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood discharge. The uses in this subsection are permissible only if and to the extent that they do not cause any increase in flood levels during the base flood discharge.

SECTION D STANDARDS FOR STREAMS WITHOUT BASE FLOOD ELEVATIONS AND FLOODWAYS.

When base flood elevation data and floodway data are not available in accordance with Article 3, Section A, in Special Flood Hazard Areas new construction and substantial improvements shall be elevated or floodproofed to elevations established by the community. The following provisions in addition to the standards of Article 5 Section A and the enclosure standards of Article 5 Section C (4) shall apply:

- (1) Require that all new subdivision proposals and other proposed developments (including proposals for manufactured home parks and subdivisions) that are a single lot or one and one half (1 ½) acres, whichever is lesser, include within such proposals base flood elevation data;
- (2) The Floodplain Administrator shall obtain, review, and reasonably utilize any base flood elevation and floodway data available from a federal, state, or other source, in order to administer the provisions of Article 5. When such data are available, standards of Article 5, Section C, shall apply. If data is not available from Article 5 Section D (1) or outside sources, then the following provisions shall apply.
- (3) No encroachments, including fill material or other development, shall be located within a distance of the stream bank equal to five times the width of the stream at the top of the bank or twenty feet each side from the top of the bank, whichever is greater, unless certification by a registered professional engineer is provided demonstrating that such encroachment shall not result in any increase in flood levels during the occurrence of the base flood discharge. The enclosure standards of Article 5, Section C (4) shall apply.
- (4) The Floodplain Administrator shall require that a single lot applicant develop the base flood elevation for the development site, utilizing accepted engineering practices and procedures. Upon review of the submitted data, the Administrator may accept or reject the proposed base flood elevation. When such data is accepted, standards of Article 5, Section C, shall apply.
- (5) Fill within the area of special flood hazard shall result in no net loss of natural floodplain storage. The volume of loss of floodwater storage due to filling in the special flood hazard area shall be offset by providing an equal volume of flood storage by excavation or other compensatory measures at or adjacent to the development site.
- (6) Notify, in riverine situations, adjacent communities and the State Coordinating Office prior to any alteration or relocation of a watercourse, and submit copies of such notifications to FEMA. Assure that the flood carrying capacity within the altered or relocated portion of any watercourse is maintained.
- (7) Require that all manufactured homes be placed or installed using methods and practices which minimize flood damage. Manufactured homes must be elevated and anchored to resist flotation, collapse, or lateral movement. Dry stacked blocks (stacked without the use of mortar or cement to bond them together) are not allowed within the Special Flood Hazard Area.

SECTION E. STANDARDS FOR SUBDIVISION PROPOSALS AND OTHER PROPOSED DEVELOPMENT.

- (1) All subdivision proposals shall be consistent with the need to minimize flood damage;

- (2) All subdivision proposals shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage;
- (3) All subdivision proposals shall have adequate drainage provided to reduce exposure to flood hazards, and;
- (4) Base flood elevation data shall be provided for all new subdivision proposals and other proposed development (including manufactured home parks and subdivisions), that are a single lot or five acres, whichever is the lesser.
- (5) All subdivision and other development proposals which involve disturbing more than .49 acres of land shall include a stormwater management plan which is designed to limit peak runoff from the site to predevelopment levels for the twenty-five (25)-year, twenty four (24) hour frequency storm event. These plans shall be designed to limit adverse impacts to downstream channels and floodplains. Single family residential is excluded as deemed appropriate. Engineering detail and documentation including a stormwater plan for the site shall be required at the time of application as specified in Section 9 of the Land Development Code, Ord. No. 3209.
- (6) All preliminary plans for platted subdivisions shall identify the flood hazard area, the floodway boundary, dam breach inundation areas that are required to remain as open space, in accordance with Article 5, Section A-18, and the elevation of the base flood.
- (7) All final subdivision plats will provide the boundary of the special flood hazard area, the floodway boundary, dam breach inundation areas that are required to remain as open space, in accordance with Article 5, Section A-18, and the base flood elevations.
- (8) In platted subdivisions, all proposed lots or parcels that will be future building sites shall have a minimum buildable area, as defined in the Land Development Code, outside the natural (non-filled) one percent (1%) chance annual floodplain. The buildable area shall be large enough to accommodate any primary structure and associated structures.
- (9) Approval shall not be given for streets within a subdivision, which would be subject to flooding in the base flood. All street surfaces must be located above the base flood elevation.
- (10) Each proposed parcel must have a designated buildable pad or site above the one percent (1%) chance floodplain. The distance of the buildable pad or site above the one percent (1%) chance floodplain shall depend on the slope of the ground and in accordance with the following table:

Distance in feet from A Zone [one percent (1%) chance floodplain]	Minimum Slope from A Zone – one percent (1%) flood plain to ground level at pad
20	5%
30	3.33%
40	2.50%
50	2.0%
60	1.67%
70	1.43%
80	1.25%
90	1.11%
100	1.0%

Residential and non-residential structures finished floor elevation also must be elevated one and one-half feet (1.5') above the adjacent average grade or one foot (1') above highest adjacent street centerline as per the existing regulation, whichever is higher.

- (11) The subdivider/applicant must comply with the following:
 - a.) Deed restrictions are required on the lot or lots prohibiting construction within the designated special flood hazard area or dam breach inundation areas and the requirement for lowest floor elevation.
 - b.) Place a statement on the face of the final plat prohibiting construction in the designated area of special flood hazard or dam inundation areas.

SECTION F. CRITICAL FACILITIES.

Construction of new and substantially improved critical facilities shall be located outside the limits of the special flood hazard area (one percent chance floodplain). Construction of new critical facilities shall be permissible within the SFHA only if no feasible alternative site is available and access to the facilities remains available during a 0.2 percent chance flood. Critical facilities constructed within the SFHA shall have the lowest floor elevated three feet six inches (3’6”) above the base flood elevation at the site (or to the 0.2 percent chance flood elevation whichever is greater). Floodproofing and sealing measures must be implemented to ensure that toxic substances will not be displaced by or released into floodwaters. Multiple access routes, elevated to or above the 0.2 percent flood elevation, shall be provided to all critical facilities to the maximum extent possible. Critical facilities must not only be protected to or above the 0.2 percent chance flood, but must remain operable during such an event. The community’s flood response plan must list

facilities considered critical in a flood, since loss of access can cause a critical situation. Other facilities in low risk flood zones that may also be needed to support flood response efforts must be included on the critical facility list. The use of any structure shall not be changed to a critical facility, where such a change in use will render the new critical facility out of conformance with this section. The list of the operators of the critical facilities affected by flooding must be updated at least annually, as part of the community critical facility planning procedures.

ARTICLE 6. VARIANCE PROCEDURES.

SECTION A. DESIGNATION AND DUTIES OF VARIANCE AND APPEALS BOARD.

- (1) When it is alleged an error in any requirement, decision, or determination is made by the Floodplain Administrator in the enforcement or administration of this ordinance or a request for a variance with any requirement of this ordinance the Hattiesburg Planning Commission, hereafter known as the “HPC”, as established by the City Council of the City of Hattiesburg, shall hear and decide appeals and requests for variances from requirements of this ordinance.
- (2) Any person aggrieved by the recommendation of “HPC” may appeal such decision to the City Council
- (3) Any person aggrieved by the decision of the City Council may appeal such decision to the Circuit Court, as provided in Mississippi Code Annotated, § 11-51-75 (1972)
- (4) Variances from the requirements of this code will not be issued except for:
 - a.) functionally dependent historic structures which meet all criteria in Article 6, Section E of this ordinance,
 - b.) subdivision studies for properties in an A zone as outlined in Article, 5, Section E-10 and 11 of this ordinance, or
 - c.) properties that are fully compliant with wet-floodproofing methods as outlined in the definitions.

SECTION B. VARIANCE PROCEDURES.

In passing upon such applications, the Hattiesburg Planning Commission shall consider all technical evaluations, relevant factors, and standards specified in other sections of this ordinance, and:

- (1) The evaluation must be based on the characteristics unique to that property and not be shared by adjacent parcels. The characteristics must pertain to the land itself, not to the structure, its inhabitants, or its owners;
- (2) Variances should never be granted for multiple lots, phases of subdivisions, or entire subdivisions;
- (3) The danger that materials may be swept onto other lands to the injury of others;
- (4) The danger of life and property due to flooding or erosion damage;
- (5) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner and the community;
- (6) The importance of the services provided by the proposed facility to the community;
- (7) The necessity of the facility to be at a waterfront location, where applicable;
- (8) The availability of alternative locations for the proposed use which are not subject to flooding or erosion damage;
- (9) The compatibility of the proposed use with existing and anticipated development;
- (10) The relationship of the proposed use to the comprehensive plan and floodplain management program for that area;
- (11) The safety of access to the property in times of flood for ordinary and emergency vehicles;
- (12) The expected heights, velocity, duration, rate of rise, and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site, and;
- (13) The costs of providing governmental services during and after flood conditions, including maintenance and repair of public utilities and facilities such as sewer, gas, electrical, and water systems, and streets and bridges and culverts.
- (14) Upon consideration of factors listed above, and the purpose of this ordinance, the Hattiesburg Planning Commission may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.
- (15) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

SECTION C. CONDITIONS FOR VARIANCES.

- (1) Variances shall only be issued when there is:
 - a.) A showing of good and sufficient cause;
 - b.) A determination that failure to grant the variance would result in exceptional hardship, and;
 - c.) A determination that the granting of a variance will not result in increased flood heights, additional threats to public expense, create nuisance, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
- (2) The provisions of this ordinance are minimum standards for flood loss reduction; therefore, any deviation from the standards must be weighed carefully. Variances shall only be issued upon a determination that the variance is the minimum necessary deviation from the requirements of this ordinance, considering the flood hazard, to afford relief. In the instance of a Historic Structure, a determination that the variance is the minimum necessary so as not to destroy the historic character and design of the building. (See Article 6, Section F.)
- (3) Any applicant to whom a variance is granted shall be given written notice specifying the difference between the base flood elevation and the elevation to which the lowest floor is to be built and stating that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.
- (4) The Floodplain Administrator shall maintain the records of all appeal actions and report any variances to the Federal Emergency Management Agency and Mississippi Emergency Management Agency upon request. (See Article 6 Section E.)
- (5) Upon consideration of the factors listed above and the purposes of this ordinance, the Hattiesburg Planning Commission may attach such conditions to the granting of variances as it deems necessary to further the purposes of this ordinance.
- (6) Variances shall not be issued “after the fact.”

SECTION D. VARIANCE NOTIFICATION.

Any applicant to whom a variance is granted shall be given written notice over the signature of a community official that:

- (1) The issuance of a variance to construct a structure below the base flood elevation will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage, and;
- (2) List the specific variance granted with the minimum requirement that was changed with the approved variance. List the article, section and subsection for which the variance was issued to.
- (3) Such construction below the base flood level increases risks to life and property. A copy of the notice shall be recorded by the Floodplain Administrator in the Office of the Chancery Clerk and shall be recorded in a manner so that it appears in the chain of title of the affected parcel of land.

The Floodplain Administrator will maintain a record of all variance actions, including justification for their issuance, and report such variances to the Federal Emergency Management Agency and the Mississippi Emergency Management Agency upon request.

SECTION E. HISTORIC STRUCTURES.

Variances may be issued for the repair or rehabilitation of “historic structures” only upon a determination that the proposed repair or rehabilitation will not preclude the structure’s continued designation as a “historic structure” and the variance is the minimum to preserve the historic character and design of the structure.

- (1) The building must be a bona-fide “historic structure.” As followed by definition.
- (2) The project must maintain the historic status of the structure. If the proposed improvements to the structure will result in it being removed from or ineligible for the National Register or federally-certified state or local inventory, then the proposal cannot be granted an exemption from the substantial improvement rule.
 - (a) Written review and approval of proposed plans by the local historic preservation board and/or the Historic Planner, if it is federally-certified, or by the state historic preservation office. If the plans are approved, you can grant the exemption. If no, no exemption can be permitted.
- (3) Take all possible flood damage reduction measures. Even though the exemption to the substantial improvement rule means the building does not have to be elevated to or above BFE or be renovated with flood-resistant materials that are not historically sensitive, many things can and should be done to reduce the flood damage potential. Examples include:
 - (a) Locating mechanical and electrical equipment above the BFE or floodproofing it.

- (b) Elevating the lowest floor of an addition to or above the BFE with the change in floor elevation disguised externally.
- (c) Building the lowest floor of an addition with flood-resistant materials and providing hydrostatic openings.

SECTION F. SPECIAL CONDITIONS.

Upon consideration of the factors listed in Article 6, and the purposes of this ordinance, the Hattiesburg Planning Commission may attach such conditions to the granting of variances, as it deems necessary to further the purposes of this ordinance.

SECTION G. FLOODWAY.

Variances shall not be issued within any designated regulatory floodway if any increase in flood levels during the base flood discharge would result.

ARTICLE 7. SEVERABILITY.

If any section, clause, sentence, or phrase of the Ordinance is held to be invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way effect the validity of the remaining portions of this Ordinance.”

SECTION 2. That Ordinance Number 3247 adopted December 18, 2018, and any other ordinances in conflict thereof are hereby repealed.

SECTION 3. This Ordinance shall take effect and be in force immediately after passage as provided by law. It is vital to the public health, safety, and welfare and is necessary for residents within SHFA to be able to obtain flood insurance.

The foregoing ordinance having been reduced to writing was introduced by Councilman _____, seconded by Councilman _____ and was adopted by the following vote, to wit:
Yeas: _____ Nays: _____

The president hereby declared the motion carried and the Ordinance adopted and approved on this, the _____ day of September A.D., 2021.

APPROVED:

CITY CLERK

MAYOR

Memorandum

To: Mayor Toby Barker and Members of City Council

From: Connie Everett, Interim CFO

cc:

Date: Tuesday, September 7, 2021

Re: Adopt the September 7, 2021 amendments to the budget for the City of Hattiesburg for fiscal year ending September 30, 2021 and adopt Resolution authorizing publication of amendments for funds in excess of 10% of the originally appropriated fund balance.
File Number: 2021-1133
Minute Book #

Summary

Adopt amendments to the budget for fiscal year ending September 30, 2021 and adopt Resolution authorizing publication of amendments in excess of 10% of the originally appropriated fund balance.

Recommendation Statement

I recommend adoption of the September 7, 2021 budget amendments for Fiscal Year 2020-2021 and Resolution authorizing publication of amendments in excess of 10% of the originally appropriated fund balance.

Please place this on the September 7, 2021 City Council meeting for consideration.

MEMORANDUM

TO : **Mayor Barker, Members of City Council**
FROM : **Connie Everett, Interim CFO**
DATE : **September 7, 2021**
SUBJECT : **Proposed Amendments, FY 2021**

The attached amendments proposed for FY 2021 are relatively minor. The changes for the General Fund have no net effect to the unbudgeted ending cash. Funds were moved from accounts with a positive variance to those accounts projecting a budget shortfall by the end of the year.

The same is true for most other funds with the exception of:

- Water & Sewer Construction Fund – additional budget was needed to cover engineering services for ongoing projects
- Special Sales Tax – Parks/Rec/USM Improvements Fund – an increase in projected revenue for the year necessitated an increase in the amount budgeted for remittance to USM, and the city share of the projected increase was budgeted for capital projects.

If you have questions concerning the information presented, please let me know.

RECAP OF PROPOSED AMENDMENTS

September 7, 2021

FY 2021

GENERAL FUND:

Budgeted Ending Cash as adopted **4,619,473**

Amendments to Revenues:

Total Amendments to Revenues -

Amendments to Expenditures:

Personal Services - moved funds in various depts to
cover overtime (1,300)

Supplies - moved funds in various depts to cover
supplies purchases (7,700)

Other Services & Charges - moved funds in
various depts to cover budget needs in other areas 9,000

Total Amendments to General Fund Expenditures -

Budgeted Ending Cash, as Amended **\$ 4,619,473**

WATER & SEWER CONSTRUCTION FUND: \$ 77,000

Engineering costs

SPECIAL SALES TAX - PARKS/REC/USM IMPROVEMENTS FUND: \$ 350,000

Budget for projected increase in revenue for distribution to
USM and for city projects

CITY OF HATTIESBURG, MS. - GENERAL FUND

Mr. Carter Carroll, Council President
City of Hattiesburg
Post Office Box 1898
Hattiesburg, MS 39403

Re: 2021 Redistricting Cycle

Dear Mr. Carroll:

I previously sent you a simplistic proposal concerning redistricting, but I would like to share more detailed information with you. Specifically, I would like to address my qualifications and offer a timeline for redistricting events. Considering that *Miss Code Ann.* 21-8-7(4)(c)(i) requires the Council to redistrict “within six (6) months after the official publication by the United States of the population of the municipality as enumerated in each decennial census”, it may be helpful to set a timeline as the Thanksgiving and Christmas seasons will intervene during this process.

First, with regard to my qualifications, I am including a copy of my curriculum vitae which details my education and experience in redistricting, annexation, various other urban planning matters, and the many occasions on which I have provided expert testimony. As you likely recall, I have been involved in the last two redistricting cycles for the City of Hattiesburg, both of which resulted in legal challenges and on both occasions the plans were upheld by the federal court and on appeal before the 5th Circuit.

Next, regarding a timeline for the redistricting project, the various steps are as follows, and a graphical timeline is attached. Based upon the anticipated timing, the redistricting process would conclude in early January 2022, well within the six-month required period.

Step 1 – Gathering certain data is important in the redistricting process. For instance, it is important to have certain information such as the location of each council person’s residence and voting precincts and polling places. Having this information is helpful in drawing the best possible first draft redistricting plan.

Step 2 – Determine benchmark demographic data for each ward. Here, the 2020 block level census data is aggregated based upon each current council election district. This identifies the degree to which each ward violates the one-person, one-vote requirement. This also provides the racial profile of each ward.

Step 3 – Gather input before altering ward boundaries. Before adjusting ward boundaries, it is helpful to know areas of strong constituency and communities of interest. I anticipate holding a work session with councilmembers in order to capture individual desires regarding ward boundary changes.

Some communities wish to have a pre-redistricting public meeting to gain input before drawing a plan. Although I have not built this step into the timeline it certainly could be accomplished if desired.

Step 4 – Prepare a redistricting plan. Ward boundaries are adjusted utilizing traditional districting principles and the information mentioned in steps 1 and 3. This newly drawn plan is provided to the city for review and subsequent adjustment as necessary. The review and adjustment process may take several iterations due to the bargaining aspect that may occur between council members.

Step 5 – Public hearing. Once the council agrees upon a plan (or several plans), a public hearing is ordinarily held to give the public the opportunity to comment on the plan(s). This may or may not result in additional plans.

Step 6 – Assuming the redistricting process produces multiple plans, the Council must select their preferred plan in order to accomplish subsequent tasks.

Step 7 – As a result of redistricting, it is likely that voting precincts will need to be realigned to conform to new ward boundaries. It may also be desirable to adjust some polling locations.

Step 8 – Adopt ordinance. After the council has made a final determination as to its preferred redistricting plan, an ordinance will need to be prepared and ultimately adopted. As part of the ordinance, any adjustments to voting precincts or polling places will need to be included.

Step 9 – Implementation. The voter rolls will need to be updated to reflect the adjustment in boundaries so that future poll books are accurate. This task is handled by the Circuit Clerk.

One thing you may notice missing from the above steps is that of Department of Justice preclearance under Section 5 of the Voting Rights Act. Preclearance is no longer required pursuant to the U. S. Supreme Court ruling in *Holder v. Shelby County, Alabama*.

Mr. Carter Carroll
August 30, 2021
Page 3 of 3

I have enclosed a copy of our standard letter of agreement. Should you find everything acceptable and wish to engage us for the upcoming redistricting cycle, please execute the agreement and return a copy to me.

I again appreciate your interest, and I welcome the opportunity to assist the City of Hattiesburg in the 2021 redistricting cycle. After you have had time to review this information, please let me know if you have any questions. I look forward to hearing from you soon.

Sincerely,
Bridge & Watson, Inc.

Professional Employment History

January 2016 to Present
Owner, Bridge & Watson, Inc.

In January 2016 Chris Watson acquired full interest in the firm, Bridge & Watson, Inc. Day to day duties, professional responsibilities, and capabilities of the firm remain fully intact, as described below.

March 2006 to December 2015
Partner and Principal Planner
Bridge & Watson, Inc.
Urban and Regional Planning Consultants and Land Planners

Bridge & Watson, Inc. is a continuation and enhancement of the activities of the prior firm Bridge & Slaughter, LLC. Bridge & Watson, Inc. provides a wide array of planning services, to both public and private clients, including annexation feasibility analysis, expert testimony, comprehensive planning, zoning, signage and other land use control regulations, political redistricting, demography, desktop mapping and mapping analysis with the use of Geographic Information System (GIS).

As partner in the firm, responsibilities include direct oversight of all planning projects, as well as fiscal and personnel management of the corporation. This position involves interaction with the client in both public and private environments, and developing a program of work to achieve the clients' needs within an allotted budget. Additionally, this position carries with it all prior duties and responsibilities as were held with Bridge & Slaughter, LLC.

December 1997 to March 2006
Project Manager / Planning Director
Bridge & Slaughter, LLC

Bridge & Slaughter, LLC was a city, county and regional planning consulting firm based in Oxford, Mississippi. Employment with this firm brought about a significant level of experience in a broad range of planning services including annexation feasibility analysis, expert testimony, preparation of various land use control ordinances, comprehensive planning, land use planning, political redistricting, demography, the utilization of a Geographic Information System (GIS), and many other areas of the planning profession.

The role of Project Manager / Planning Director required direct oversight of all active planning projects, which at times numbered in excess of fifty. Responsibilities within the firm included direct supervision of all planning staff, interaction with various clients in public or private presentations, development of planning techniques tailored to the client's needs, facilitating public hearings, and providing expert opinions either in a formal (courtroom) or informal setting.

September 1996 to November 1997
Director Office of Planning and Development
City of Southaven, Mississippi

This position required direct oversight of all planning, building inspection and code enforcement. Responsibilities in this position included administration of the comprehensive development plan, sign regulations, zoning regulations, subdivision regulations, and other related land development codes. This included interpretation of the ordinances, amendment of the ordinances, and enforcement.

Additional responsibilities included representing the City of Southaven within the Metropolitan Planning Organization, advising the Mayor, Board of Aldermen, Planning Commission, Board of Adjustment and Board of Architectural Review in making decisions impacting the physical development of the city.

July 1994 to August 1996
Director of Planning and Assistant County Engineer
911 Addressing Coordinator
Tunica County, Mississippi Board of Supervisors

Responsibilities included the administration of the comprehensive development plan, sign regulations, zoning regulations and subdivision regulations. Included also in this capacity was the cooperative planning of the emerging riverboat gaming industry in Tunica County.

In the role of assistant county engineer, responsibilities included assisting in the development of engineering plans for capital improvements, conducting and monitoring traffic counts, and maintaining the computer controlled traffic signals.

As 911 address coordinator, responsibilities included oversight of the development of a countywide physical addressing system to implement E-911. Coordination with the addressing consultant and all city and county emergency service providers was necessary, as well as coordination with the telephone service provider.

Prior Expert Testimony

Expert testimony has been provided in both the Mississippi and Tennessee Chancery Court systems as an expert in urban planning, particularly dealing with municipal annexations. The unique nature of annexation and the required analysis to demonstrate reasonableness or unreasonableness covers virtually all aspects of urban planning. Expert testimony has also been provided in the Federal Courts.

Prior expert testimony offered in the following areas and cases:

Municipal Annexation / Boundary Matters:

- In the matter of the extension of the boundaries of the city of Clinton, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Pontotoc, Mississippi – expert in city and regional planning (2 occasions)
- In the matter of the extension of the boundaries of the city of Byhalia, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the town of Myrtle, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Calhoun City, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Greenwood, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Belzoni, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of New Albany, Mississippi– expert in city and regional planning (2 occasions)
- Joseph R. Namie, Jr. et al v City of Memphis, Tennessee (municipal annexation) – expert in city and regional planning
- In the matter of the extension of the boundaries of the town of Decatur, Mississippi – expert in city and regional planning

- In the matter of the extension of the boundaries of the city of Southaven, Mississippi – expert in city and regional planning (2 occasions)
- In the matter of the extension of the boundaries of the city of Ridgeland, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Canton, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Poplarville, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Flowood, Mississippi– expert in city and regional planning (2 occasions)
- In the matter of the extension of the boundaries of the town of Walls, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of D’Iberville, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Tupelo, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Gulfport, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Okolona, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Prentiss, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Biloxi, Mississippi– expert in city and regional planning
- In the matter of the incorporation of Diamondhead, Mississippi– expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Clarksdale, Mississippi consolidated with In the matter of the extension of the boundaries of the town of Lyon, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Cleveland, Mississippi– expert in city and regional planning

- In the matter of the incorporation of Gluckstadt, Mississippi (Jurisdictional issues only) – expert in city and regional planning
- In the matter of the extension of the boundaries of the town of Wesson, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Petal – expert in city and regional planning
- In the matter of the incorporation of Gluckstadt, Mississippi (Trial on the merits), consolidated with In the matter of the extension of the boundaries of the city of Canton, Mississippi – expert in city and regional planning
- In the matter of the extension of the boundaries of the town of Anguilla – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Ridgeland – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Pontotoc – expert in city and regional planning
- In the matter of the extension of the boundaries of the town of Ecrú – expert in city and regional planning
- In the matter of the extension of the boundaries of the city of Olive Branch – expert in city and regional planning

Voting Rights Litigation:

- Kenneth Fairley, et al v. the City of Hattiesburg, Mississippi (2007) – expert in urban and regional planning as it relates to demography and redistricting. Testimony through written report and live testimony.
- Kenneth Fairley, et al v. the City of Hattiesburg, Mississippi (2014) – expert in urban and regional planning as it relates to demography and redistricting. Testimony through written report and live testimony.

Miscellaneous Litigation:

- Lamar Company vs. City of Vicksburg, Mississippi – expert in city and regional planning. Testimony through deposition only.
- Mississippi Transportation Commission v. Pittman, et al – expert in city and regional planning. Testimony through deposition and motion hearing only. Eminent Domain matter.

- Mississippi Transportation Commission v. VCR 1, LLC – expert in city and regional planning. Testimony through deposition and by proffer. Eminent Domain matter.
- Administrative hearing before the Mississippi Department of Health, regarding an application for a Certificate of Need – Costal County MRI - expert in statistical analysis
- BBC Baymeadows, LLC v City of Ridgeland, Mississippi – expert in city and regional planning. Testimony through written report and deposition only.

Prior Municipal Annexation Experience

Annexation is the process of expanding municipal boundaries to include additional territory, and the process is detail intensive. Annexation analysis requires close examination of demographic data, financial data, land use patterns, and a number of other types of data from multiple sources. Undertaking annexation analysis requires demographic abilities, statistical analysis, computer aided analysis and, most importantly, open, clear lines of communication between the public and the political body. Evidence must be presented to the Chancery Court for ratification of an annexation ordinance, and the courts have established a comprehensive twelve-point test to determine the reasonableness of an annexation. A significant level of experience has been gained in the field of municipal annexation, including the various post-annexation tasks.

Previous annexation experience includes, but is not limited to, the following cities:

- | | |
|---|---|
| ▪ City of Aliceville, Alabama | ▪ City of Gulfport, Mississippi (3 occasions) |
| ▪ Town of Anguilla, Mississippi | ▪ City of Hattiesburg, Mississippi |
| ▪ Town of Baldwin, Mississippi | ▪ Town of Hickory, Mississippi |
| ▪ City of Bay St. Louis, Mississippi | ▪ City of Laurel, Mississippi |
| ▪ City of Belzoni, Mississippi | ▪ City of Lucedale, Mississippi |
| ▪ City of Brookhaven, Mississippi | ▪ Town of Lyon, Mississippi |
| ▪ City of Bruce, Mississippi | ▪ City of Macon, Mississippi |
| ▪ City of Byhalia, Mississippi | ▪ City of Marks, Mississippi |
| ▪ City of Byram, Mississippi | ▪ City of Magee, Mississippi |
| ▪ Town of Caledonia, Mississippi | ▪ City of Marks, Mississippi |
| ▪ City of Calhoun City, Mississippi | ▪ City of Memphis, Tennessee (3 occasions) |
| ▪ City of Canton, Mississippi (2 occasions) | ▪ Village of Memphis / Town of Walls, Mississippi (3 occasions) |
| ▪ City of Cleveland, Mississippi | ▪ City of Meridian, Mississippi |
| ▪ City of Clinton, Mississippi | ▪ City of Moss Point, Mississippi |
| ▪ City of Columbus, Mississippi | ▪ Town of Myrtle, Mississippi |
| ▪ Town of Decatur, Mississippi | ▪ City of New Albany, Mississippi (2 occasions) |
| ▪ City of D'Iberville, Mississippi | ▪ City of Okolona, Mississippi |
| ▪ Town of Ecu, Mississippi | ▪ City of Pearl, Mississippi (2 occasions) |
| ▪ Town of Enterprise, Mississippi | |
| ▪ City of Flowood, Mississippi | |
| ▪ City of Gautier, Mississippi | |
| ▪ City of Greenwood, Mississippi | |

- City of Pontotoc, Mississippi (2 occasions)
- City of Poplarville, Mississippi
- Town of Prentiss, Mississippi
- City of Quitman, Mississippi
- City of Ridgeland, Mississippi
- City of Richland, Mississippi
- City of Saltillo, Mississippi
- City of Senatobia, Mississippi
- City of Southaven, Mississippi (5 occasions)
- Town of Tunica, Mississippi
- Town of Wesson, Mississippi

Prior Municipal Incorporation Experience

Municipal incorporation is the process of creating an entirely new municipality, carving the territory from unincorporated territory. The incorporation process is detail intensive and is similar to the municipal annexation process with respect to the type of data inputs and analysis. Undertaking an incorporation analysis requires demographic abilities, statistical analysis, computer aided analysis and, most importantly, open, clear lines of communication with the public. A necessary component of an incorporation effort is the petition process, requiring 2/3rds of the signatures of qualified electors residing within the incorporation area. Evidence must be presented to the Chancery Court for ratification of an incorporation petition, including proving the requisite number of signatures and the reasonableness of the proposed incorporation. A significant level of experience has been gained in the field of municipal incorporation, including the various post-incorporation tasks.

Previous incorporation studies / efforts include, but are not limited to, the following:

- Creation of the City of Diamondhead, Mississippi. Bridge & Watson conducted the feasibility analysis, Watson provided expert testimony, and following successful incorporation Bridge & Watson assisted the new city in developing its first two fiscal budgets, establishing voting districts, developing a comprehensive plan and zoning, and establishing a planning commission.
- Gluckstadt Community, Madison County Mississippi – Bridge & Watson conducted the feasibility analysis and has assisted the community in organizing its petition drive. The petition drive is complete and the matter has successfully prevailed in the Chancery Court of Madison County and prevailed at the appellate level.
- Fernwood Community, Pike County, Mississippi - Bridge & Watson conducted the feasibility analysis and assisted the community in organizing its petition drive. The petition drive did not yield enough signatures to proceed.
- Star Community, Rankin County, Mississippi - Bridge & Watson conducted the feasibility analysis and assisted the community in organizing its petition drive. The petition drive did not yield enough signatures to proceed.
- Country Community Development, Rankin County, Mississippi - Bridge & Watson conducted the feasibility analysis and advised against proceeding with incorporation.

- Calhoun Community, Jones County, Mississippi – Chris Watson was involved in successfully stopping the incorporation efforts of this community, through analysis of petition signatures and other planning related analysis.
- Mooreville Community, Lee County, Mississippi - Bridge & Watson is conducting a feasibility analysis to determine the feasibility of incorporating the area into a new municipality. This project is in the early planning stages.
- City of Byram, Mississippi – Upon Incorporation, Bridge & Watson assisted the new city in establishing its municipal operating budget for the first two fiscal years.

Prior Political Redistricting Experience

Political redistricting is a process requiring demographic abilities, statistical analysis, computer aided analysis and most importantly open, clear lines of communication between the public and the political body. A significant level of experience has been gained in the field of political redistricting, including the procedures for obtaining administrative approval under Section 5 of the Voting Rights Act of 1965, as amended and extended. However, recent changes in the law have eliminated the need for administrative approval under Section 5 of the Voting Rights Act.

Prior redistricting clients include the following:

Municipalities:

- | | |
|------------------------------------|-----------------------------------|
| ▪ City of Baldwin, Mississippi | ▪ City of Madison, Alabama |
| ▪ City of Batesville, Mississippi | ▪ City of Marks, Mississippi |
| ▪ City of Byram, Mississippi | ▪ City of Meridian, Mississippi |
| ▪ City of Cleveland, Mississippi | ▪ City of Moss Point, Mississippi |
| ▪ City of Clinton, Mississippi | ▪ City of New Albany, Mississippi |
| ▪ City of Columbus, Mississippi | ▪ City of Okolona, Mississippi |
| ▪ Town of Decatur, Mississippi | ▪ City of Petal, Mississippi |
| ▪ City of Diamondhead, Mississippi | ▪ City of Sardis, Mississippi |
| ▪ City of Gulfport, Mississippi | ▪ City of Pontotoc, Mississippi |
| ▪ City of Hattiesburg, Mississippi | ▪ City of Senatobia, Mississippi |
| ▪ City of Hernando, Mississippi | ▪ Town of Shannon, Mississippi |
| ▪ City of Laurel, Mississippi | ▪ City of Southaven, Mississippi |
| ▪ City of Lexington, Mississippi | ▪ Town of Tunica, Mississippi |
| ▪ City of Lumberton, Mississippi | ▪ City of Waynesboro, Mississippi |
| ▪ City of Macon, Mississippi | ▪ City of Wiggins, Mississippi |

County Board of Supervisors:

- DeSoto County Mississippi Board of Supervisors (2 occasions)
- Lee County Mississippi Board of Supervisors
- Lowndes County Mississippi Board of Supervisors (2 occasions)
- Monroe County Mississippi Board of Supervisors
- Tunica County Mississippi Board of Supervisors (2 occasions)

Boards of Education:

- Cleveland, Mississippi School District
- Coahoma County Mississippi Board of Education
- Lowndes County Mississippi Board of Education
- Monroe County Mississippi Board of Education

Prior Comprehensive Planning Experience

Comprehensive planning is the platform in which a community develops a plan to guide its growth and development over the next twenty to twenty-five years. Defined by Mississippi statute, a comprehensive plan must contain certain elements and information. At the same time, however, a comprehensive plan should be ambitious and within reach for the community.

Current and/or previous comprehensive planning clients:

- | | |
|------------------------------------|------------------------------------|
| ▪ City of Amory, Mississippi | ▪ City of Ridgeland, Mississippi |
| ▪ City of Bruce, Mississippi | ▪ City of Sardis, Mississippi |
| ▪ Town of Caledonia, Mississippi | ▪ City of Southaven, Mississippi |
| ▪ City of Diamondhead, Mississippi | ▪ Town of Weir, Mississippi |
| ▪ Town of Decatur, Mississippi | ▪ Lowndes County, Mississippi |
| ▪ Town of Ecru, Mississippi | ▪ City of Columbus, Mississippi |
| ▪ City of Hattiesburg, Mississippi | ▪ City of D'Iberville, Mississippi |
| ▪ Town of Lyon, Mississippi | ▪ City of Poplarville, Mississippi |
| ▪ City of Macon, Mississippi | ▪ City of Waynesboro, Mississippi |
| ▪ City of New Albany, Mississippi | ▪ Town of Abbeville, Mississippi |
| ▪ City of Moss Point, Mississippi | |

BRIDGE & WATSON INC
 URBAN PLANNERS • CONSULTANTS • ADVISORS

**LETTER OF AGREEMENT FOR
PLANNING AND CONSULTING SERVICES**

THIS AGREEMENT is entered into by and between **BRIDGE & WATSON, INC.**, hereinafter called the CONSULTANT and **CITY OF HATTIESBURG, MISSISSIPPI**, hereinafter called the CITY.

1. The CITY does hereby employ the CONSULTANT to perform professional and technical services for: REDISTRICTING PURUSANT TO THE RELEASE OF THE 2020 CENSUS DATA.
2. The CONSULTANT hereby agrees to perform the above services in a diligent and competent manner in accordance with the standards applicable to this work.
3. The CITY shall compensate the CONSULTANT for professional services as stated below plus direct reimbursement of out-of-pocket expenses including travel, per diem expenses for personnel, purchased information and services, copies, graphic materials and other necessary expenses. The CONSULTANT will submit to the CITY the following items:
 - Prepare "Benchmark" plan to determine if redistricting is required to meet the "one-person, one-vote" principle of the United States Constitution. This plan is necessary to determine if redistricting is needed or not based on the current election district boundaries and the 2020 Census data.
 - Should redistricting be required, prepare redistricting plan(s) for the Councilmember election districts which include demographic profiles and maps and will facilitate necessary public meetings throughout preparation of the plans.
 - The CONSULTANT will prepare the necessary legal descriptions to adequately describe each above mentioned election district as finally approved by the CITY. Should there result from the redistricting process any subdivision of Councilmember election districts (i.e. voting precincts), said subdivisions shall also be described by the CONSULTANT.
4. The CONSULTANT will submit monthly or periodic invoices to the CITY requesting payment. Such requests will be based upon the amount and value of work and services performed by the CONSULTANT and will be accompanied by an itemized statement of work performed. The CITY shall pay the CONSULTANT the total amount of the invoice within forty-five (45) days after receipt of the invoice. Nonpayment or payment less than the amount of the invoice within the specified time shall be cause for suspension of work by the CONSULTANT. The invoices will be based on the following rate schedule:

Principal Planner:	\$200.00/hr.
Associate Planner I:	\$125.00/hr.
Associate Planner II:	\$100.00/hr.
Assistant Planner I:	\$ 85.00/hr.
Assistant Planner II:	\$ 60.00/hr.
Planning Technician:	\$ 40.00/hr.
Planning Assistant:	\$ 30.00/hr.
Mileage:	IRS standard business mileage rate (currently \$ 0.56/mile

5. The CITY may terminate or re-negotiate this letter of agreement at any time with written notification to the CONSULTANT.

6. Any reports, information, data, memoranda, or documents in any form, electronic or otherwise, prepared or assembled by the CONSULTANT under this agreement shall be the property of the CITY, even if remaining with the CONSULTANT, and the CONSULTANT shall maintain confidential all of such information unless specifically authorized in writing by the CITY through its Mayor or Attorney.

IN WITNESS WHEREOF the CITY and the CONSULTANT have executed this Agreement this the _____ day of _____, 2021.

Re: Approve Task Force Agreement between the Hattiesburg Police Department and the United States Department of Justice, Drug Enforcement Administration (hereinafter "DEA") concerning the use and abuse of controlled substances and authorizing the Mayor or designee to execute the same.
File Number: 2021-1103
Minute Book #

Summary

Agreement with the United States Department of Justice, Drug Enforcement Administration

Recommendation Statement

I recommend approval of the agreement with the United States Department of Justice, Drug Enforcement Administration

Please place this on the September 7, 2021 City Council meeting for consideration.

**Drug Enforcement Administration
New Orleans Field Division
STATE AND LOCAL HIDTA TASK FORCE AGREEMENT
Mississippi - Hattiesburg**

This agreement is made this 1st day of October 2021, between the United States Department of Justice, Drug Enforcement Administration (hereinafter "DEA"), and the Hattiesburg Police Department ORI# MS0180100 (hereinafter "**HPD**"). The DEA is authorized to enter into this cooperative agreement concerning the use and abuse of controlled substances under the provisions of 21 U.S.C. § 873.

Whereas there is evidence that trafficking in narcotics and dangerous drugs exists in the Hattiesburg area and that such illegal activity has a substantial and detrimental effect on the health and general welfare of the people of Mississippi, the parties hereto agree to the following:

1. The Hattiesburg HIDTA Task Force will perform the activities and duties described below:
 - a. disrupt the illicit drug traffic in the Hattiesburg area by immobilizing targeted violators and trafficking organizations;
 - b. gather and report intelligence data relating to trafficking in narcotics and dangerous drugs; and
 - c. conduct undercover operations where appropriate and engage in other traditional methods of investigation in order that the task force's activities will result in effective prosecution before the courts of the United States and the State of Mississippi.
2. To accomplish the objectives of the Hattiesburg HIDTA Task Force, the **HPD** agrees to detail one (1) experienced officer(s) to the Hattiesburg HIDTA Task Force for a period of not less than two years. During this period of assignment, the **HPD** officers will be under the direct supervision and control of DEA supervisory personnel assigned to the task force.
3. The **HPD** officers assigned to the task force shall adhere to all DEA policies and procedures. Failure to adhere to DEA policies and procedures shall be grounds for dismissal from the task force.
4. The **HPD** officers assigned to the task force shall be deputized as task force officers of DEA pursuant to 21 USC 878.

5. To accomplish the objectives of the Hattiesburg HIDTA Task Force, DEA will assign one (1) Special Agents to the task force. HIDTA will also, subject to the availability of annually appropriated funds or any continuing resolution thereof, provide necessary funds and equipment to support the activities of the DEA Special Agents and **HPD** officers assigned to the task force. This support will include: office space, office supplies travel funds, funds for the purchase of evidence and information, investigative equipment, training and other support items.

6. During the period of assignment to the Hattiesburg HIDTA Task Force, the **HPD** will remain responsible for establishing the salaries and benefits, including overtime, of the officers assigned to the Task force and for making all payments due them. HIDTA will, subject to availability of funds, reimburse the **HPD** for the equivalent of 25% of a GS-12, Step 1, of the general pay scale for the Rest of United States. Reimbursement for all types of qualified expenses shall be contingent upon availability of funds and the submission of a proper request for reimbursement which shall be submitted **monthly** or **quarterly** on a fiscal year basis, and which provides the names of the investigators who incurred overtime for DEA during the invoiced period, the number of overtime hours incurred, the hourly regular and overtime rates in effect for each investigator, and the total cost for the invoiced period. Invoices must be submitted at least quarterly within 10 business days of the end of the invoiced period. **Note: Task Force Officer's overtime "shall not include any costs for benefits, such as retirement, FICA, and other expenses.**

7. In no event will the **HPD** charge any indirect cost rate to DEA for the administration or implementation of this agreement.

8. The **HPD** shall maintain on a current basis complete and accurate records and accounts of all obligations and expenditures of funds under this agreement in accordance with generally accepted accounting principles and instructions provided by DEA to facilitate on-site inspection and auditing of such records and accounts.

9. The **HPD** shall permit and have readily available for examination and auditing by DEA, the United States Department of Justice, the Comptroller General of the United States, and any of their duly authorized agents and representatives, any and all records, documents, accounts, invoices, receipts or expenditures relating to this agreement. The **HPD** shall maintain all such reports and records until all litigation, claim, audits and examinations are completed and resolved, or for a period of six(6) years after termination of this agreement, whichever is later.

10. The **HPD** shall comply with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, as amended, and all requirements imposed by or pursuant to the regulations of the United States Department of Justice implementing those laws, 28 C.F.R. Part 42, Subparts C, F, G, H and I.

11. The **HPD** agrees that an authorized officer or employee will execute and return to DEA the attached OJP Form 4061/6, Certification Regarding Lobbying; Debarment, suspension and Other Responsibility Matters; and drug-Free Workplace Requirements. The **HPD** acknowledges that this agreement will not take effect and no federal funds will be awarded until the completed certification is received.

12. When issuing statements, press releases requests for proposals, bid solicitations and other documents describing projects or programs funded in whole or part with federal money, the **HPD** shall clearly state: (1) percentage of the total cost of the program or project which will be financed with federal money and (2) the dollar amount of federal funds for the program or project.

13. While on duty and acting on task force business, the officers assigned to the HIDTA task force shall be subject to all DEA and federal government rules, regulations and procedures governing the use of OGV's for home to work transportation and for personal business. The HIDTA Executive Committee acknowledges that the United States is liable for the actions of task force officer, while on duty and acting within the scope of their federal employment, to the extent permitted by the Federal Torts Claim Act.

14. The term of this agreement shall be effective from the date in paragraph number one until September 30, 2022. This agreement may be terminated by either party on 30 days advance written notice. Billing for all outstanding obligations must be received by DEA within 90 days of the date of termination of this agreement. HIDTA will be responsible only for obligations incurred by **HPD** during the term of this agreement.

For the Drug Enforcement Administration:

Brad L. Byerley

Special Agent in Charge

For the **Hattiesburg Police Department**

Name

Title

Date: _____

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Department of Justice, Office of Justice Programs, ATTN: Control Desk, 633 Indiana Avenue, N.W., Washington, D.C. 20531. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

B. The grantee may insert in the space provided below the site (s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, country, state, zip code)

Check ☐ if there are workplace on file that are not identified here.

Section 67.630 of the regulations provides that a grantee that is a State may elect to make one certification in each Federal fiscal year. A copy of which should be included with each application for Department of Justice funding. States and State agencies may elect to use OJP Form 4061/7.

Check ☐ if the State has elected to complete OJP Form 4061/7.

DRUG-FREE WORKPLACE (GRANTEES WHO ARE INDIVIDUALS)

As required by the Drug-Free Workplace Act of 1988, and implemented at 28 CFR Part 67, Subpart F, for grantees, as defined at 28 CFR Part 67, Sections 67.615 and 67.620-

A. As a condition of the grant, I certify that I will not engage in the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance in connection with any activity with the grant; and

B. If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, I will report the conviction, in writing, within 10 calendar days of the conviction, to: Department of Justice, Office of Justice Programs, ATTN: Control Desk, 633 Indiana Avenue, N.W., Washington, D.C. 20531.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certifications.

1. Grantee Name and Address:

Hattiesburg Police Department
300 Klondyke St. Hattiesburg, MS

2. Application Number and/or Project Name

Hattiesburg HIDTA Task Force

3. Grantee IRS/Vendor Number

4. Typed Name and Title of Authorized Representative

U.S. DEPARTMENT OF JUSTICE
OFFICE OF JUSTICE PROGRAMS
OFFICE OF THE COMPTROLLER

**CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND
OTHER RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS**

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 28 CFR Part 69, "New Restrictions on Lobbying" and 28 CFR Part 67, "Government-wide Department and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)." The certifications shall be treated as a material representation of fact upon reliance will be placed when the Department of Justice determines to award the covered transaction, grant, or cooperative agreement.

1. LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 28 CFR Part 69 for persons entering into a grant or cooperative agreement over \$100,000, as defined at 28 CFR Part 69, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form LLL, "Disclosure of Lobbying Activities," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants, contracts under grants and cooperative agreements, and subcontracts) and that all sub-recipients shall certify and disclose accordingly.

**2. DEBARMENT, SUSPENSION, AND OTHER
RESPONSIBILITY MATTERS
(DIRECT RECIPIENT)**

As required by Executive Order 12549, Debarment and Suspension, and implemented at 28 CFR Part 67 for prospective participants in primary covered transactions, as defined at 28 CFR Part 67, Section 67.610-

A. The applicant certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, sentenced to a denial of Federal benefits by a State or Federal court, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a

public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default; and

B. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

**3. DRUG-FREE WORKPLACE
(GRANTEES OTHER THAN INDIVIDUALS)**

As required by the Drug-Free Workplace Act of 1988, and implemented at 28 CFR Part 67, Subpart F, for grantees, as defined at 28 CFR Part 67 Sections 67.615 and 67.620-

A. The applicant certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about-

(1) The dangers of drugs abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will-

Re: Approve Agreement between City of Hattiesburg and Precision Communications, Inc., to provide bi-annual tornado siren maintenance inspections on all City of Hattiesburg tornado sirens and authorize the Mayor to execute the same.
File Number: 2021-1118
Minute Book #

Summary

Approve agreement between City of Hattiesburg and Precision Communications, Inc., to provide bi-annual tornado siren maintenance inspections on all City of Hattiesburg tornado sirens.

Recommendation Statement

I recommend the approval of this agreement.

Please place this on the September 7, 2021 City Council meeting for consideration.

TORNADO SIREN MAINTENANCE AGREEMENT
BETWEEN
CITY OF HATTIESBURG, MISSISSIPPI
AND
PRECISION COMMUNICATIONS, Inc.

This agreement is made and entered by and between the City of Hattiesburg, Mississippi, a municipal corporation of the State of Mississippi, hereinafter referred to as CITY; and the Precision Communication, Inc., hereinafter referred to as COMPANY.

WHEREAS, the CITY owns five (5) 2906 Whelen Tornado Sirens located at Main Street and 7th Street (old Church's Chicken), Tatum Park, Jamestown Road (Thames Elementary), Hattiesburg & Cox Street (Palmer's Crossing), William Carey Parkway & Tuscan Avenue (William Carey);

WHEREAS, the CITY wishes to formally maintain these five (5) sirens to ensure sustainable operation;

NOW THEREFORE, for and in consideration of the stated premises and the mutual covenants and agreements of the parties as herein contained, it is agreed as follows:

THE CITY SHALL AND DOES HEREBY:

1. Agree to pay contractor a total annual amount not to exceed \$5,706.90 for services described below for two site inspections per year.

THE COMPANY SHALL AND DOES HEREBY:

Site Inspection #1

1. Provide labor at sites for annual site inspection of five (5) tornado sirens, locations listed above which will include:
 - a. Inspection of speaker clusters, inspection of siren cabinet, inspection of AC service for signs of damage or loose hardware
 - b. Load test batteries for proper voltage
 - c. Test battery chargers for proper voltage output
 - d. Test amps and drivers
 - e. Check all conduit for water-tight connection and entrance into cabinet
 - f. Check integrity of lightning protection and any corrosion of connections
 - g. Observe pole for any shifting or leaning
 - h. Inspect siren cabinet:
 - i. Check for foreign material or rodent intrusions
 - ii. Clean all drain holes and screens
 - iii. Examine all wiring harnesses and terminations and proper connections
 - iv. Inspect antennas, coax and radio transmit and receive
 - v. Check for proper grounding, speaker array, antenna bracket, cabinet bracket and pole grounding
 - vi. Repair and replace any parts of normal wear and tear not to exceed \$150.00 each in addition to the annual contract price. Any additional

expenses not covered under this contract will be covered by an additional purchase order.

- i. Check and test siren system from both encoders and transmit, SWR and deviation at each encoder.
- j. Replace siren batteries once every two years; each siren uses four (4) 31XHD Batteries.

Site Inspection #2

1. Inspect siren cabinet

- i. Check for foreign material or rodent intrusions
- ii. Clean all drain holes and screens
- iii. Examine all wiring harnesses and terminations and proper connections
- iv. Check radio transmit output and frequency deviation and receive levels
- v. Check grounding
- vi. Check AC service for any signs of damage or loose hardware
- vii. Load test batteries for proper voltage
- viii. Load test battery chargers for proper voltage output
- ix. Test amps and driver circuits
- x. Check all conduit for water-tight connections and entrance into cabinet
- xi. Test all sirens remotely for central alert controllers to ensure proper communication

Re: Approve Lease Agreement between City of Hattiesburg and Region XII Commission on Mental Health ("Pine Belt Mental Healthcare Resources"), for space at 1410 W. Pine to operate a homeless resource center and authorize the Mayor to execute the same.
File Number: 2021-1119
Minute Book #

Summary

Approve lease agreement between City of Hattiesburg and Region XII Commission on Mental Health and Retardation ("Pine Belt Mental Healthcare Resources"), for space at 1410 W. Pine to operate a homeless resource center.

Recommendation Statement

I recommend the approval of this lease agreement

Please place this on the September 7, 2021 City Council meeting for consideration.

LEASE AGREEMENT

THIS LEASE AGREEMENT is made, executed and entered into as of the 7th day of September, A.D., 2021, by and between **The City of Hattiesburg, Mississippi**, a municipal corporation (“the City”), and **Region XII Commission on Mental Health and Retardation** (“Pine Belt Mental Healthcare Resources”), a regional commission established under the authority of *Miss. Code Ann. § 41-19-33* (Supp. 2018):

1. The City does hereby for and in consideration and upon the terms and conditions and mutual covenants as herein stated, lease, let and demise to Pine Belt Mental Health beginning on September 1, 2021, 7500 +/- square feet of office space in the following described property located in Forrest County, Mississippi:

See Exhibit “A” attached hereto

2. **TERM.** This lease shall commence on September 1, 2021, and shall continue for a term of twenty-four (24) months, with the termination date being August 31, 2023, unless terminated earlier by either party with a sixty (60) day written notice.

3. **RENT.** Pine Belt Mental Health agrees to pay the City the sum of One Thousand Two Hundred Dollars (\$1200.00) per month as rent, and One Thousand Two Hundred Dollars (\$1200.00) on the first day of each month thereafter throughout the term of the Lease. If the monthly lease payment is more than ten (10) business days after the date it is due, a late charge of five percent (5%) of the payment due will be added to that monthly payment. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal

loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

4. **INSURANCE.** Pine Belt Mental Healthcare Resources will provide to the City evidence of a general liability insurance policy in the amount of not less than One Million Dollars (\$1,000,000.00) against property damage or personal injury growing out of the use of the leased premises and will make the City an additional insured on that policy. Pine Belt Mental Healthcare Resources will provide to the City evidence that it has insurance on the personal property/contents belonging to Pine Belt Mental Healthcare Resources that may be located in the leased premises. The parties understand and agree that the City will not carry contents insurance on the personal property/contents belonging to Pine Belt Mental Healthcare Resources.

5. **TELEPHONE AND INTERNET.** Pine Belt Mental Healthcare Resources shall be responsible for the cost of installing and maintaining telephone and internet service to the leased premises.

6. **PERSONAL PROPERTY/CONTENTS.** Pine Belt Mental Healthcare Resources shall be responsible for providing its own office furniture and other personal property.

7. **PARKING.** Pine Belt Mental Healthcare Resources shall have shared access to parking on the north side of the building for staff and visitors.

8. **JANITORIAL SERVICE.** Pine Belt Mental Healthcare Resources shall be responsible for janitorial maintenance of leased spaces.

9. **UTILITIES.** The City shall be responsible for gas, electricity and security alarm in the leased premises.

10. **BUILDING MAINTENANCE.** The City shall be responsible for building maintenance including HVAC, electrical and plumbing.

11. **ASSIGNMENT.** Pine Belt Mental Healthcare Resources shall not assign or sublease the premises without the prior written consent of the City.

12. **NOTICES.** All notices shall be in writing and delivered either in person or by certified mail, postage fully prepaid. Payment of rental and all notices to the City shall be addressed and delivered to:

City of Hattiesburg
Attn: Lisa Hanson
P. O. Box 1898
Hattiesburg, MS 39403

All notices to Pine Belt Mental Health shall be addressed and delivered to:

Pine Belt Mental Health
Attn: Don Stimely
P.O. Box 18679
Hattiesburg, MS 39404

IN WITNESS WHEREOF, we have executed this Lease Agreement in duplicate as of the 7th day of September, 2021.

Re: Approve Agreement between the City of Hattiesburg and DB's Wings on the Fly, LLC to operate and provide concession services at John Buckley Softball Complex Concession Stand and authorize the Mayor to execute the same.
File Number: 2021-1137
Minute Book #

Summary

Recommendation Statement

Please place this on the September 7, 2021 City Council meeting for consideration.

CITY OF HATTIESBURG
PARKS AND RECREATION DEPARTMENT
JOHN BUCKLEY SOFTBALL CONCESSION AGREEMENT

THIS AGREEMENT, between the City of Hattiesburg, Mississippi, hereinafter referred to as "City" and DB's Wings on the Fly LLC, hereinafter referred to as "Contractor".

WHEREAS, the City is the owner of a softball concession facility known as John B. Buckley Softball Complex **at Tatum Park; and**

WHEREAS, the Contractor is willing to undertake the obligations herein set forth in order to provide concession services for City of Hattiesburg Leagues at said facility.

NOW, THEREFORE, in consideration of the promises and of the covenants herein expressed, the City and Contractor mutually agree as follow:

SECTION I

GENERAL TERMS AND CONDITIONS

1.0 TERM OF AGREEMENT

- 1.1 The Agreement shall commence on or about September 1, 2021, and shall end August 31, 2022, unless terminated earlier under provisions herein.
- 1.2 City and Contractor agree that at the end of this one (1) year period the City will renegotiate a contract based on revenue generated, growth of the program, etc.
- 1.3 Operations of the John Buckley Concession will be subject to the approval of the Director of Parks and Recreation.

2.0 TERMINATION AND CANCELLATION

- 2.1 The City may terminate this contract at any time by delivery of written notice stating the contract will terminate within ninety (90) days from date of the receipt of said notice.
- 2.2 The Contractor may terminate this contract at any time by delivery of written notice Stating the contract will terminate within ninety (90) days from date of receipt of said notice.
- 2.3 At termination of the Agreement, the Contractor will remove, without damage to the John Buckley Concession, all personal property.

3.0 NEGOTIATIONS

- 3.1 The City reserves the right to negotiate all elements which comprise the Contractor's proposal to ensure the best possible consideration is afforded to all concerned

4.0	LEGAL RELATIONSHIPS	4.1 It is understood and hereby agreed by the parties the Contractor is and shall be an independent contractor and shall control all ways, means and details incident to the performance of him/herself and his/her agents and employees under this contract. Neither the Contractor nor his/her agents or employees shall be subject to the personnel policies of the City, nor participate in the benefits which accrue to City employees. Both parties agree to indemnify and hold harmless each other from any and all claims or losses which may result from any negligence or misconduct on the part of either party, agents, employees or representatives.
5.0	LAWS, STATUS AND OTHER GOVERNMENTAL PROVISIONS	5.1 The Contractor shall at all times observe and comply with all Federal and State Laws and City Ordinances and Regulation which affect the operation of John Buckley Softball Concession and will comply with all orders, laws, ordinances and regulations which may be enacted by a body having jurisdiction over such facility. 5.2 The Contractor further agrees to procure all permits and licenses, pay all charges and fees, and give all notices necessary to the lawful operation of John Buckley Softball Concession.
6.0	EQUAL OPPORTUNITY	6.1 The Contractor agrees to comply with Title VI of the Civil Rights Act of 1964 (P.L. 88-352) and all requirements imposed by or pursuant to that title, to the end, in accordance with Title VI of the Act and the regulations, no person in the United States shall, on the grounds of race, color, age, sex, disability or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination as a result of any use or activity at the stated premises. 6.2 In the event the Contractor does not comply with the non-discrimination clauses of the Agreement, the Agreement may be cancelled, terminated or suspended in whole or in part, and the Contractor may be barred from further contracts with the City of Hattiesburg, Mississippi.
1.0	PRIVILEGES	1.1 The City of Hattiesburg, Mississippi, hereby grants to the Contractor the following privileges at John Buckley Softball Concession: a. The right to sell food and non-alcoholic beverages, subject to the limitations and conditions hereinafter stated.
2.0	PERSONNEL	2.1 The contractor shall hire, at his/her own cost and expense, train and supervise a staff of employees to assist him/her in the performance of this Agreement. 2.2 The Contractor shall endeavor to employ only persons who by appearance, manner and character will reflect credit on the City and will be acceptable to the users of John Buckley Softball Concession.
SECTION II		
GENERAL DUTIES		

3.0 INSURANCE COVERAGE

- 3.1 The Contractor shall procure and thereafter, keep in full force and effect during the term of this Agreement liability insurance coverage in the amount of at least \$ 500,000.00.
- 3.2 A Certificate of Insurance evidencing such coverage shall be provided by the Contractor prior to assuming operation of Concession and each year thereafter.

4.0 TRANSFER OF RIGHTS

- 4.1 The Contractor shall not transfer or assign its rights of obligation herein to any party other than one of the original parties who execute this agreement as Contractor.

5.0 STRUCTURAL CHANGE

- 5.1 The Contractor shall not make any structural alterations of the premises without written permission from the City of Hattiesburg, Mississippi, through its Director of Parks and Recreation. Such structural changes shall become the property of the City of Hattiesburg, Mississippi.

6.0 UTILITIES

- 6.1 The City agrees to pay electrical and water bills for the concession stand.
- 6.2 The City agrees to provide local telephone service and equipment only to Concession Stand. All subsequent costs for the telephone service will be the obligation of the Contractor.

7.0 SALE OF MERCHANDISE

- 7.1 The Contractor shall be permitted to sale food and beverages in the Concession.
- 7.2 The Contractor will be permitted to sale food and beverages at John Buckley Softball Concession which comply with City, State and Federal health laws.
- 7.3 Absolutely no Alcoholic Beverages may be sold.

8.0 FEES

- 8.1 The Contractor may collect and retain all revenue generated from the sale of concessions during City League games only as compensation for providing concession services. Contractor will generate his income through concession sales. No monetary compensation will be provided by the City of Hattiesburg.

SECTION III

SPECIFIC DUTIES

1.0 SPECIFIC DUTIES

In consideration of the rights and privileges granted herein by the City to Contractor, hereby, the Contractor agrees and binds itself to perform the following duties in a competent manner:

- 1.1 Contractor shall organize and manage the softball concession at John Buckley Softball Complex.
- 1.2 Contractor shall hire at its own cost and expense, train and supervise employees to Assist it in the performance of the Agreement.
- 1.3 Contractor shall insure that the appearance of John Buckley Softball Concession is well

1.4	Maintained.
1.5	Contractor shall provide custodial services for the concession. Performance reports are to be provided by the Contractor to the City annually and Reported to the Director of Parks and Recreation. Records to be kept will also be used to measure performance from one year to the next and include all revenue and expenses.
1.6	The Contractor shall coordinate with the City of Hattiesburg and vacate the concession on occasion when the John Buckley Softball Complex is rented for an independent sanctioned tournament or event. Contractor has no right nor responsibility to any concession sales during these independent tournaments or events.
1.7	The Contractor shall promptly inform the Director of Parks and Recreation of any and all damage or need for repair to the Willis Terry Tennis Complex and to pay promptly for all damage thereto for which the Contractor is responsible under this Agreement.
1.8	The Contractor shall indemnify and hold harmless the City from all expenses, damages, attorneys' fees and other costs arising from any claim or suit in whole or in part from any claim or suit in whole or in part from any alleged failure or negligence of Contractor in operation of the John Buckley Concession and/or any tort committed by Contractor and/or the Contractor's employee.
2.0	<u>SUPPLY AND MAINTENANCE OF EQUIPMENT</u>
2.1	Equipment owned by the contractor will be maintained at its own expense.
2.2	The Contractor shall notify the City's Director of Parks and Recreation when City – owned equipment is in need of maintenance. The City shall perform such maintenance at its own cost and expense.
2.3	The Contractor agrees to surrender City-owned equipment in good condition, normal wear and tear expected, at the termination of this Agreement or when the Contractor vacates the premises.
2.4	Any equipment that becomes a permanent fixture of the concession facility becomes the property of the City after they are installed.
3.0	<u>MAINTENANCE OF PREMISES</u>
3.1	City shall maintain the streets, walks and curbs; the air conditioning and heating systems of the building; all doors of the building; interior and exterior paint; all lighting and other fixtures; water fountain; and shall mow the lawns.
3.2	All maintenance will be performed pursuant to the park's regular maintenance schedule and at the total discretion of the City. Failure to maintain shall not expose City to liability to the Contractor.

SECTION IV

COMPENSATION

The City of Hattiesburg shall pay \$0.00 to the Contractor for the above-mentioned services. The Contractor will generate his income through operation of John Buckley Concession during City of Hattiesburg League Games only.

IN WITNESS WHEREOF City and Contractor have executed this Agreement on the day and year first above written.

Mr. Lamar Rutland
Director of Engineering
City of Hattiesburg
P. O. Box 1898
Hattiesburg, MS 39403-1898

Re: Hattiesburg BLD Grant - Right of Way -- LPA 108639-801000
Hall Avenue Railroad Overpass

Dear Mr. Rutland:

It is our understanding that the City of Hattiesburg is proceeding with planning, design and/or construction of railroad overpasses on or around Hall Avenue in the City of Hattiesburg.

In conjunction with that planning, design and/or construction, certain parcels of real estate may need to be acquired, in whole or in part, by the City. Please accept this correspondence as our firm's engagement letter to the City of Hattiesburg in connection with the above referenced project to perform title examination (covering a period of at least 32 years prior to the date of examination) for parcels identified by the City which may need to be acquired in conjunction with the project.

Based on the results of the examination, we will prepare an opinion letter or certificate which identifies the following information:

- Owner of the parcel;
- Status of real property taxes assessed against the parcel;
- Identification of any mortgages, liens, judgments, and other encumbrances affecting the parcel;
- A deraignment of title for the period covered;
- Copies of all instruments in the chain of title for the period reflected above; and
- A tax map depicting the parcel.

For said services, our firm will charge \$450.00 per tax parcel for the initial examination, and \$150.00 per parcel for any update examinations. Additional attorney services provided through our firm related to this engagement will be billed at \$200 for attorney services, and \$85 per hour for paralegal services. Incidental expenses such as copies, postage, recording fees, court costs, etc., will be charged at cost. This engagement is limited to parcels identified by the City, through the Director of Engineering.

We certainly hope that we would never have a dispute with you concerning any matter connected with our representation of you. However, if there ever were a dispute arising out of, relating to or in connection with our representation of you, we trust that each of us will use our best efforts to resolve any such dispute by good-faith negotiation and mutual agreement.

We appreciate your consideration of our firm and we look forward to assisting the City in this project.

Sincerely yours,

JACKSON, TULLOS & ROGERS, PLLC

Joseph R. Tullos

Approve execution of Option to Purchase property located at PPIN 26528, (Council authorized September 22, 2020, Minute Book # 2020-249) and authorize issuance of manual check for the same.

Recommendation Statement

I recommend that the City exercise it's option to purchase the property located at 309 Crestmont Avenue as authorized 9/22/2020.

Please place this on the September 7, 2021 City Council meeting for consideration.

OPTION TO PURCHASE REAL ESTATE

FOR AND IN CONSIDERATION of the sum of Twenty Five Hundred Dollars (\$2,500.00), cash in hand paid, and other good and valuable considerations, the receipt and sufficiency whereof are hereby agreed, we, the undersigned Seller, M & M LAND CO., LLC, a Mississippi limited liability company, hereinafter for convenience called "M & M," does hereby grant unto CITY OF HATTIESBURG, MISSISSIPPI, a municipal corporation, hereinafter for convenience called "CITY," the exclusive right to purchase the property hereinafter described, and contract and agree with M & M, as follows, to-wit:

1.

M & M is presently the owner of the property in Hattiesburg, Forrest County, Mississippi, generally described as follows:

A part and parcel of Southwest Quarter of the Southeast Quarter of Section 7 of Township 4 North, Range 13 West, Forrest County, Mississippi, more particularly described as beginning 165 feet South and 750 feet West of the Northeast Corner of the Southwest Quarter of the Southeast Quarter to and for a point of beginning. From said point of beginning, proceed thence South 330 feet, thence West 556 feet, thence North 330 feet and thence East 556 feet back to the point of beginning, comprising 4.21 acres, more or less.

2.

M & M represents that it owns said property, and improvements and appurtenances thereon, in fee simple, or at the time of the execution of the Warranty Deed hereinafter provided for, said property will be owned by Seller in fee simple, free and clear of all liens.

3.

This Option shall be in force and effect until 11:59 p.m., CDT, September 22, 2021, and shall extend to CITY the exclusive right and option during said time to purchase the properties

hereinabove described and for the total purchase price and consideration of Two Hundred Ninety Thousand Dollars (\$290,000.00).

4.

If CITY chooses under this Option to exercise its option to purchase said property and buildings and improvements and appurtenances thereon for said total price of Two Hundred Ninety Thousand Dollars (\$290,000.00), then and in that event the consideration paid for this Option, to-wit: Twenty Five Hundred Dollars (\$2,500.00), shall be applied on the total purchase price of Two Hundred Ninety Thousand Dollars (\$290,000.00), so that in the event of the exercise of this Option a balance of Two Hundred Eighty Seven Thousand Five Hundred Dollars (\$287,500.00), shall be paid to Seller.

5.

In the event CITY fails during said option period so set forth above to exercise its right to purchase said properties under this Option Agreement, then and in that event the consideration paid for this Option Agreement, to-wit: Twenty Five Hundred Dollars (\$2,500.00) in cash, shall be forfeited to M & M, CITY having no claim of any kind as to said Twenty Five Hundred Dollars (\$2,500.00), except as a credit against the purchase price of Two Hundred Ninety Thousand Dollars (\$290,000.00) as set forth in paragraph 4. above.

6.

In the event CITY exercises its Option hereunder, and tenders said sum of Two Hundred Eighty Seven Thousand Five Hundred Dollars (\$287,500.00) in cash to Seller on or before 11:59 p.m., CDT, September 22, 2021, then M & M covenants to deliver on or before October 15, 2021, the said property herein, said conveyance to be in the form of a general Warranty Deed,

conveying said land in fee simple to the CITY, free and clear of all liens. If the CITY exercises its option prior to September 22, 2021, M & M covenants to deliver the property herein to CITY as set forth above within twenty-one (21) days of the date the CITY exercises its option to purchase.

7.

In the event of the exercise of this Option by the CITY, the ad valorem taxes for 2020 or 2021, as the case may be, shall be prorated as of the date of closing.

8.

The terms, covenants, conditions and provisions hereof shall extend to the CITY and M & M, their heirs, representatives, successors and assigns, but only on the conditions herein named, it being specifically agreed that the covenants, conditions, and stipulations hereof shall be fully binding upon the heirs, representatives, successors, and assigns of said the CITY and M & M.

9.

If on or before the option period hereinabove set forth, CITY has not exercised its option to purchase as provided for herein, then this instrument shall become null, void, and of no effect, and as if never entered into, and shall no longer remain binding upon the parties hereto in any respect.

10.

If CITY chooses under this Option to exercise its option to purchase said property and buildings and improvements and appurtenances thereon according to the terms and conditions hereof, then at the time of the delivery of the general Warranty Deed contemplated herein, M &

M will furnish a certificate of title which will be sufficient for CITY at its sole option to obtain title insurance thereon.

11.

Any notice, or notice of exercise of option, or payment or delivery required herein shall be deemed sufficient if mailed by certified mail or hand delivered to the following addresses, and any payment shall be deemed sufficient if made payable to:

(a) SELLER: M & M Land Co., LLC
Attn: Mr. Mike Chancellor
309 Crescent Avenue
Hattiesburg, MS. 39401

(b) BUYER: City of Hattiesburg, Mississippi
c/o Ms. Ann Jones, CAO
P. O. Box 1898
Hattiesburg, Mississippi 39403

12.

M & M agrees that during the Option period described above CITY may conduct surveys of the property as it may require, including, but not limited to, topographical surveys.

13.

This Agreement constitutes the entire agreement between the parties, and may not be modified except in writing executed by both parties.

WITNESS the signatures of the Buyer and Seller, in duplicate, on this, the 2nd
day of October, 2020.

Re: Approve HOME Grant Agreement Addendum between Breakthrough Community Services, Inc. and the City of Hattiesburg for the rehabilitation of a home at 104 Donald Street as an affordable housing unit, utilizing HOME CHDO Set-aside funds in an amount not to exceed \$60,000 and authorize the Mayor to execute the same.
File Number: 2021-1120
Minute Book #

Summary

Amend agreement for CHDO project and authorize the Mayor to execute, in triplicate, HOME Grant Agreement Addendum between Breakthrough Community Services, Inc. and the City of Hattiesburg for the rehabilitation of a home at 104 Donald Street as an affordable housing unit, utilizing HOME CHDO Set-aside funds in an amount not to exceed \$60,000. {Entitlement}

Recommendation Statement

I recommend approval of this item.

Please place this on the September 7, 2021 City Council meeting for consideration.

CONTRACT ADDENDUM
BETWEEN THE CITY OF HATTIESBURG, MISSISSIPPI
and
Breakthrough Community Services, Inc.

THIS AGREEMENT, having been entered the **5th day of November, 2019**, by and between the City of Hattiesburg (herein called the “City”) and Breakthrough Community Services, Inc. (herein called the “CHDO”) is hereby amended.

Page 2-Section II: Term of Agreement

The term of this Agreement shall commence on the **3rd of November, 2020** and shall end on or before the Project Completion deadline of **November 30, 2022**. The term of the Agreement shall expire at the fulfillment of the affordability period, herein defined as **fifteen (15) years**, which is **June 30, 2037**, unless terminated earlier as provided for herein.

Execution of this second addendum corrects the effective start date of the first addendum to **November 4, 2020**.

The CITY shall provide HOME funds in an amount not to exceed \$60,000.

Interim Milestones/Deadlines (list below):

Milestone		Deadline
<i>Construction financing secured/Loan closed</i>	<i>01/06/2020</i>	<i>03/01/2020</i>
<i>Permitting secured</i>	<i>01/06/2020</i>	<i>03/01/2020</i>
<i>Construction/rehabilitation started</i>	<i>01/27/2020</i>	<i>03/01/2020*</i>
Electrical and Plumbing rough-in complete	03/02/2022	05/01/2022
Construction estimated at 50% complete	03/02/2022	05/01/2022*
Interior and exterior finishing complete	04/06/2022	06/01/2022
Landscaping complete (if applicable)	04/06/2022	06/01/2022
Construction complete w/ Final Inspection	05/04/2022	07/06/2022*
Marketing begins	02/10/2022	04/10/2022
Renter occupies home	09/05/2022	10/30/2022*

*Marked deadline dates indicate deadlines that, if missed, will result in either the cancellation of the project, partial or full loss of the developer fee available, and/or required conversion of the project from Homebuyer to Rental as determined by this agreement and the City of Hattiesburg’s CHDO Program Policies & Procedures.

IN WITNESS WHEREOF, the Parties have executed and dated this amendment to the contract.

Scott E. Stoltzner, Attorney-In-Fact
(Printed name and title) **Attorney In Fact**

FAIR AMERICAN INSURANCE AND REINSURANCE COMPANY
One Liberty Plaza, 165 Broadway, New York, NY 10006
POWER OF ATTORNEY

Know all men by these Presents, that Fair American Insurance and Reinsurance Company ("Company"), a New York corporation, had made, constituted and appointed, and by these presents does make, constitute and appoint, Andrew C. Heaner of Atlanta, Georgia; Stefan E. Tauger of Parker, Colorado; Arthur S. Johnson of Atlanta, Georgia; James E. Feldner of West Lake, Ohio; Jeffery L. Booth of Blacklick, Ohio; Melanie J. Stokes of Atlanta, Georgia; David R. Brett of Columbia, South Carolina; Scott E. Stoltzner of Birmingham, Alabama; Jason S. Centrella of Jacksonville, Florida; Matthew W. Hollingsworth of Addison, TX; Michael J. Brown of Cumming, Georgia; Tamara D. Johnson of Atlanta, Georgia; Omar G. Guerra of Overland Park, Kansas; or Douglas Berrett Miller of Jacksonville, Florida EACH as its true and lawful attorney-in-fact to sign, execute, seal, deliver for, and on behalf of the said Company, and as its act and deed any place in the United States any and all surety, bonds, undertakings, recognizances and contracts of suretyship to be given to all obligees provided that no bond or undertaking or contract of suretyship executed under this authority shall exceed in amount of the sum of \$5,000,000 (Five Million Dollars), any single instance. Provided, however, that this power of attorney limits the acts of those named herein; and they shall have no authority to bind the Company except in the manner stated and to the extent of any limitation herein.

This Power of Attorney is granted and is signed and sealed by facsimile under and by the authority of the following Resolutions adopted pursuant to due authorization by the Board of Directors of the Company on the 2nd day of February, 2016.

RESOLVED, that the President, Chairman, or any Senior Vice President or Vice President of the Company, in conjunction with any Senior Vice President or Vice President, be, and that each or any of them hereby is, authorized to appoint Attorneys-in-fact of the Company as may be necessary to act on behalf of the Company to make, execute, seal, acknowledge and deliver as surety any and all bonds, undertakings, recognizances, contracts of suretyship and other surety obligations. Such Attorneys-in-fact, subject to the limitations set forth in their respective powers of attorney, shall have full power to bind the Company by their signature and execution of any such instruments and to attach thereto the seal of the Company. When so executed such instruments shall be as binding as if signed by the President and attested by the Secretary.

FURTHER RESOLVED, that any and all Powers of Attorney and Certified Copies of such Powers of Attorney and certification in respect thereto, granted and executed by the President or Senior Vice President, in conjunction with any Senior Vice President or Vice President of the Company, shall be binding on the Company to the same extent as if all signatures therein were manually affixed, even though one or more of any such signatures thereon may be facsimile.

IN WITNESS WHEREOF, the Company has caused its official seal to be hereto affixed, and these presents to be sealed with its corporate seal and duly attested to by these Senior Vice Presidents this 7th day of January 2020.

STATE of NEW YORK
COUNTY of NEW YORK

On January 07, 2020 before me, the above named Senior Vice Presidents, personally appeared, who proved to me on the basis of satisfactory evidence to be the persons whose names are subscribed to the within instrument and acknowledged to me that they executed the same in their authorized capacities, that they know the seal of Fair American Insurance and Reinsurance Company, and that their signatures and the seals of Fair American Insurance and Reinsurance Company were duly affixed and subscribed to said instrument by the authority and direction of the Company. I certify under PENALTY OF PERJURY under the laws of the State of New York that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Signature  (Seal)

I, Christopher O'Gwen, the undersigned, an Officer of Fair American Insurance and Reinsurance Company, a New York Corporation, DO HEREBY CERTIFY that the foregoing and attached Power of Attorney is a true and correct copy of the original power of attorney, and do hereby further certify that the said Powers are still in force and effect.

Signed and sealed in the City of New York. Dated the 27th day of July, 2021

City of Hattiesburg
Sullivan Park Splash Pad
RE: Splash Pad Warranty Letter

City Personnel:

We, Great Southern Recreation, LLC, guarantee all work performed by us on the above-mentioned project to be free of defective materials and workmanship for a period of 1 year. Starting on June 1, 2021 & ending May 31, 2022.

GSR to extend a 5 Year Product Limited Warranty. The manufacturer shall warrant that all products are warranted for five (5) years from date of installation against any defects in material or workmanship under normal use and service. FRP products are for a term of (25) years, but only against rust or corrosion. This Warranty does not cover normal wear and tear, improper operation, or improper installation.

GSR has provided the city with the manufacturer's recommended maintenance plan, and detailed materials warranty. Please give us a call if any issues arise.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonas Bailey", written over a light blue horizontal line.

VAK PAK, INC.

"The Name in Quality Swimming Pool, Fountain and Water
Feature Systems"

LIMITED WARRANTY

LIMITED WARRANTY: Vak Pak, Inc ("Vak Pak") warrants to the original consumer purchaser of products manufactured by it that they are free from defects in materials or workmanship.

If, within TWELVE (12) months from the date of shipment, any such products shall prove to be defective, it shall be repaired or replaced at Vak Pak, Inc's option. Purchaser must pay all labor and shipping charges necessary to replace the product covered by this warranty. This warranty shall not apply to any product that has been subject to negligence, misapplication, improper installation or maintenance, or other circumstances beyond Vak Pak, Inc's control.

Equipment and accessories not manufactured by Vak Pak, Inc. will carry only warranty furnished by said manufacturer, and Vak Pak, Inc. will act as an agent for purchasers to obtain warranty from said manufactures but Vak Pak, Inc. will not warranty or be held liable for said products warranty.

Requests for service under this warranty shall be made by contacting the installing Vak Pak dealer as soon as possible after the discovery of any alleged defect. Vak Pak, Inc. will subsequently take corrective action as promptly as reasonably possible. No requests for service under this warranty will be accepted if received more than 30 days after the term of this warranty. This warranty sets forth Vak Pak, Inc's sole obligation and purchasers exclusive remedy for defective products.

Vak Pak, Inc. shall not be liable for any consequential, incidental or contingent damages whatsoever.

PLEASE NOTE: Chemicals should never be stored inside the Vak Pak. These fumes can be extremely dangerous. Damage to equipment due to caustic fumes may also void your warranty.

The foregoing warranties are exclusive and in lieu of all other express warranties. Implied warranties, including but not limited to the implied warranties of merchantability and fitness for a particular purpose, shall not extend beyond the duration of the applicable express warranties provided herein.

Some states do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

Material shipped outside the Continental U.S. are exempt from warranty status.

WATERPLAY® PRODUCT WARRANTY

Waterplay Solutions Corp.® (Waterplay) is committed to delivering the highest quality products on the market. Waterplay features are built with the best materials, to the most stringent manufacturing standards. Our personal pride and construction confidence are backed by the following warranties:

Material Warranty

◆ Stainless Steel Piping & Weldments	25 years
◆ Aluminum Materials	10 years
◆ Acetyl Nozzles, Urethane/HDPE	5 years
◆ Fiberglass, Acrylic & Polycarbonate Materials	2 years
◆ Stainless Steel Hardware	2 years
◆ Concrete (play features only)	1 year
◆ Decals (out of reach of patrons)	1 year

Water Distribution Warranty

◆ Water Distribution Skid	10 years
◆ Water Distribution & Recirculation Equipment	2 years
◆ Electrical Controllers & Activator Switches	2 years
◆ Kiosk Contents & Hardware	2 years

Play Feature Warranty

◆ Sound Components	2 years
◆ Moving Parts	2 years
◆ LED Components	1 year

Play Feature Finish Warranty

◆ Powder Coated	2 years
◆ Painted (Airbrushed Graphics)	2 years

This warranty does not cover any damage caused by accident, improper care, negligence, normal wear and tear, surface corrosion on metal parts, discolored surfaces and other cosmetic issues or failures due to misuse or vandalism. Natural fading in feature finish over time are considered cosmetic issues and not covered. Features installed in indoor aquatic facilities, coastal areas and areas with high heat and humidity will encounter more discoloring and cosmetic issues.

Waterplay staff and/or appointed service agents are prepared with guidelines for maintenance and rapid response assistance should anything go awry. With our reliable support and quality products, Waterplay takes pride in knowing that our customers have a quality system that runs without interruption. Waterplay offers an option to extend your standard warranty on the control panel to 3, 4 or 5 years. Extended warranty

commences at expiration of the standard 2 year warranty period and must be purchased by the time the park is commissioned or within 12 months of goods received on site, whichever comes first.

SAFETY

In situations where Waterplay products are utilized for any purpose other than those approved by Waterplay, the customer will be held fully responsible. In addition, Waterplay will not be held responsible for the operation, function, performance, misuse, injuries, or claims resulting from any other products installed within proximity to water structures manufactured by Waterplay.

CONDITIONS

1. Park registration process must be complete prior to a warranty claim being processed
<http://www.waterplay.com/en/park-registration/>
2. All warranties commence upon receipt of goods on site and are only valid if Waterplay equipment is installed in accordance with Waterplay specifications and installation instructions. Waterplay will not cover warranty issues resulting from installation errors.
3. Modifications to Waterplay equipment without prior written approval will void all warranties covered by this document.
4. Warranties are limited to the value of parts and components sold. The client is responsible for the cost of removing and replacing warranted parts/features, the cost for shipping of warranty items to the client site and the return of defect items to Waterplay (if required).
5. All warranty claims against shipping damages or missing parts will be in accordance with the Terms & Conditions of the Purchase Agreement.
6. It is the responsibility of the owner to inspect all aspects of their facility at regular intervals. All maintenance shall be performed in accordance with the Waterplay Owner's Manual and documented in an approved log book.
7. Waterplay does not assume responsibility for damage resulting from extreme weather conditions such as flooding, fires, lightning or any act of force majeure. Waterplay does not warrant defects or damage caused by water supply or quality of utilities nor does it warrant landscaping, site amenities or surfacing in areas where Waterplay products are installed.
8. Any warranty issues are governed by the laws of the province of British Columbia, Canada.
9. Warranty claims will only be processed for accounts considered to be in good standing at the time the claim is made.
10. The foregoing warranties are exclusive and in lieu of all other warranties. There shall be no liability for incidental or consequential damages.
11. Waterplay reserves the right to develop, improve, change or discontinue any product and/or specification without notice and is has no obligation to retrofit these changes into existing parks.

G706—1994

INSTRUCTION SHEET

FOR AIA DOCUMENT G706, CONTRACTOR'S AFFIDAVIT OF PAYMENT OF DEBTS AND CLAIMS

A. GENERAL INFORMATION

1. Purpose

This document is intended for use when the Contractor is required to provide a sworn statement verifying that debts and claims have been settled, except for those listed by the Contractor under "EXCEPTIONS" in the document. G706 is typically executed as a condition of final payment.

2. Related Documents

This document may be used with most of the AIA's Owner-Contractor agreements and general conditions, such as A201 and its related family of documents. G706 also requires the attachment of several supporting documents, including G706A, Contractor's Affidavit of Release of Liens, and G707, Consent of Surety to Reduction in or Release of Retainage.

3. Use of Current Documents

Prior to using any AIA document, the user should consult the AIA, an AIA component chapter or a current AIA Documents List to determine the current edition of each document.

4. Limited License for Reproduction

AIA Document G706 is a copyrighted work and may not be reproduced or excerpted from in substantial part without the express written permission of the AIA. The G706 document is intended to be used as a consumable—that is, the original document purchased by the user is intended to be consumed in the course of being used. There is no implied permission to reproduce this document, nor does membership in The American Institute of Architects confer any further rights to reproduce G706.

A cautionary notice is printed in red on the original of this document. This notice distinguishes an original AIA document from copies and counterfeits. To ensure accuracy and uniformity of language, purchasers should use only an original AIA document or one that has been reproduced from an original under a special limited license from the AIA.

A limited license is hereby granted to retail purchasers to reproduce a maximum of ten copies of a completed or executed G706, but only for use in connection with a particular project. Further reproductions are prohibited without the express permission of the AIA.

B. CHANGES FROM THE PREVIOUS EDITION

A cross-reference to AIA Document A201 has been deleted to permit the use of G706 with other families of AIA documents, including construction management, interiors and design/build.

C. COMPLETING THE G706 FORM

GENERAL: The Owner-Contractor Agreement is the usual source of required information such as the contract date and the names and addresses of the Owner, Project and Contractor.

ARCHITECT'S PROJECT NO.: This information is typically supplied by the Architect and entered on the form by the Contractor.

CONTRACT FOR: This refers to the scope of the contract, such as "General Construction" or "Mechanical Work".

AFFIDAVIT: Indicate the state and county where the Affidavit is made. This is not necessarily the same location as the Project, but should be the location where the notary is authorized to administer sworn oaths. If there are any EXCEPTIONS to the statement, these should be listed in the space provided; otherwise enter as "None". It may be a stipulation of the Contract Documents that the Owner has the right to require the Contractor to furnish a bond to cover each exception listed on the Affidavit.

SUPPORTING DOCUMENTS: The AIA documents listed as attachments to the G706 form should be of the same (current) edition date as G706. The AIA does not publish a "Release or Waiver of Liens" for contractors or subcontractors because of the great diversity of releases or waivers permitted by various state mechanics lien laws. Forms for such purposes may be available from local contractors' associations or may be written with the assistance of legal counsel.

D. EXECUTION OF THE DOCUMENT

The Notary Public should administer a sworn oath to the Contractor referencing the written statements appearing on G706, and should duly sign and seal this document containing the Contractor's signature. G706 should be signed by the Contractor or the Contractor's authorized representative.

Memorandum

To: Mayor Toby Barker and Members of City Council

From: Andrew Ellard, Director

Summary

FY22 MDOT Multi-modal Transportation Improvement Program Award

Recommendation Statement

I recommend acceptance of the FY22 Multi-Modal Transportation Improvement Program Award from the Mississippi Department of Transportation (MDOT) in the amount of \$85,000; and authorization for the Mayor to execute the same in triplicate.

Please place this on the September 7, 2021 City Council meeting for consideration.

Re: Multi-Modal Transit Project No. 503493-333000-333100 Agreement

Dear Mrs. Shows:

This letter is to inform you that your project was selected by the Public Transit Multimodal Committee for an award of \$85,000.00. Enclosed for signatures are three originals of the referenced Multi-Modal agreement. Please have each document signed, dated and attested by the appropriate project representatives. The three documents, along with the completed **E-Verify form**, are to be returned by **September 10, 2021** for execution by our Executive Director. One fully executed original will be returned for your records along with the formal notice to proceed.

Please note that all work accomplished, equipment procured, consultant contracts or other expenditures pursuant to this award must meet all applicable state procurement regulations in addition to meeting the requirements of the terms and conditions of this agreement.

Once the notice to proceed is issued, the following (as applicable) will be required for our review and approval prior to any payment of state funds:

- Plans, specifications and contract documents
- Engineering, consultant, etc. agreements
- Tabulation of bids, if applicable

You are reminded that the project must be completed within 24 months of MDOT's execution date of this agreement.

If you have any questions, please contact me at (601) 359-7800 or by email at rbailey@mdot.ms.gov.

Sincerely,

Shirley Wilson, Director
Public Transit Division

(Replace exsisting bus) - \$85,000.

**MISSISSIPPI TRANSPORTATION COMMISSION
MULTI-MODAL FUNDING AGREEMENT
Project No. 503493-333000-333100**

This AGREEMENT is made and entered into by and between the Mississippi Transportation Commission, a body Corporate of the State of Mississippi (hereinafter referred to as "COMMISSION"), acting by and through the duly authorized Executive Director of the Mississippi Department of Transportation (hereinafter "MDOT"), and **City of Hattiesburg** ("RECIPIENT," jointly referred to as "PARTIES"), effective as of the date of the last execution below.

WHEREAS, Section 65-1-701 et seq., Miss. Code Ann. (1972) as amended, authorizes the COMMISSION, subject to the limitations and conditions stated therein, to render financial aid for the development and improvement of transportation projects; and

WHEREAS, the RECIPIENT has submitted an application for Federal and/or State MULTI-MODAL Funds (hereinafter "APPLICATION") to the COMMISSION for financial assistance to be expended by or on behalf of the RECIPIENT in support of a project consisting of the following:

(1) 35 Pass GILLIG Medium-duty 30 ft. Bus (Replace existing bus)- \$85,000.

Amount: \$85,000.00

hereinafter referred to as the "PROJECT," a brief description together with special provisions of which is incorporated herein and made part of this AGREEMENT as Attachment "A."

Such PROJECT may be more fully described in the APPLICATION, capital replacement plan, budget/estimate and/or approved Federal/State grant on file in the offices of the Mississippi Department of Transportation, which, as applicable, are incorporated herein by reference; and

WHEREAS, the COMMISSION has agreed to partially fund such PROJECT with State and/or Federal funds, said PROJECT having been first approved by the Public Transit MULTI-MODAL Committee;

NOW, THEREFORE, in furtherance thereof, the parties hereto do agree as follows:

SECTION I Responsibilities of the Parties

As a condition of this AGREEMENT and as consideration for same, the RECIPIENT agrees to the following terms and conditions:

- A. The RECIPIENT will expend an amount equal to the amount shown in the APPLICATION as the RECIPIENT's share of the PROJECT, unless a lesser amount is subsequently approved by the COMMISSION.
- B. The RECIPIENT will carry out and complete the PROJECT in accordance with the approved APPLICATION, budget/estimate, plans, specifications, or contracts

for the transportation PROJECT, incorporated herein by reference, and any revisions or modifications approved by the COMMISSION.

- C. The RECIPIENT will provide the COMMISSION with reports in a format and schedule as may be requested by the COMMISSION for accomplishing the PROJECT. Failure to accomplish the PROJECT in a timely manner may be considered as the basis for the COMMISSION to cancel this award and withdraw these funds.
- D. The RECIPIENT will ensure that all funds awarded through this AGREEMENT are expended in accordance with all Federal/State cost principles as well as Federal and State procurement laws, regulations, or other program guidance as applicable.
- E. The RECIPIENT will at all times comply with all applicable Federal and State regulations, policies, procedures and directives, including the applicable Certifications and Assurances to be executed by the RECIPIENT as a part of grant awards and/or other agreements with the COMMISSION that relate to this PROJECT.
- F. The RECIPIENT will establish and maintain financial records of the PROJECT in accordance with applicable Federal and/or State audit requirements and make them available to personnel of the COMMISSION upon request.
- G. The RECIPIENT will operate and maintain in a safe and serviceable condition, all real and/or personal property, including but not limited to vehicles and equipment (hereinafter, as combined, to be referred to as "PROPERTY") that is purchased in whole or in part with funds provided by this AGREEMENT.
- H. The RECIPIENT will grant and does hereby grant to the COMMISSION the right and opportunity to inspect any PROPERTY financed in whole or in part by this AGREEMENT, to audit any records connected to this PROJECT, and to review the RECIPIENT's processes, procedures, and use of said PROPERTY.
- I. The RECIPIENT will dispose of all PROPERTY financed in whole or in part by this AGREEMENT in accordance with the applicable property management and disposition policies and procedures as determined by the COMMISSION.
- J. The RECIPIENT will dispose of all proceeds resulting from the sale of any PROPERTY financed in whole or in part by this AGREEMENT in accordance with written guidance from the COMMISSION.

The COMMISSION in discharge of its responsibilities hereunder agrees to reimburse the RECIPIENT an amount up to \$85,000.00 as the COMMISSION's share from the State MULTI-MODAL Transportation Improvement Fund, and/or other available State or Federal funds as may be appropriate for expenses incurred in accomplishing the PROJECT.

SECTION II Purchase of Property, Goods, or Services

The purchase of all PROPERTY, and/or goods and services, financed in whole or in part pursuant to this AGREEMENT shall be in accordance with the applicable Federal and State laws and procurement regulations, including State competitive bidding procedures.

The MDOT, after conferring with the appropriate Federal agency, may impose additional specific requirements governing the acquisition, use, or disposition of PROPERTY purchased with Federal funds.

SECTION III Title to Project Property

With respect to the title to PROPERTY acquired as a result of this AGREEMENT, the RECIPIENT agrees as follows:

- A. Title to PROJECT PROPERTY shall be in the RECIPIENT's name subject to the restrictions of use and disposition as set forth herein and in accordance with Sections IV, V, and VIII of this AGREEMENT. If applicable, the COMMISSION shall be listed as first lien-holder on and maintain all original titles to PROPERTY and shall be furnished one set of keys. If this AGREEMENT is terminated for any reason, title to such PROPERTY shall become vested in the COMMISSION as first lien-holder and the COMMISSION shall have the right to repossess the same without notice.
- B. The RECIPIENT shall grant to the COMMISSION a security interest in the PROJECT PROPERTY through the execution of a security agreement in a form acceptable to the COMMISSION and by the filing of financing statements necessary to perfect that security interest. A copy of the Security Agreement form, acceptable to the COMMISSION, is available upon request to the designated COMMISSION contact person shown at Section XXI below.
- C. When real property is acquired and/or developed under the terms of this AGREEMENT, non-governmental RECIPIENTS agree to grant to the COMMISSION a security interest in the real property to secure RECIPIENT's performance of the terms of this AGREEMENT and shall perfect that security interest by executing a deed of trust in a form acceptable to the COMMISSION and by filing that deed of trust in the land records of the county where the real property is located. At least ten (10) days prior to the transfer of funds under the terms of this AGREEMENT for the acquisition and/or development of real property, the RECIPIENT shall provide to the COMMISSION a title certificate from a Mississippi licensed attorney approved by the COMMISSION showing that there are no encumbrances on the real property to be acquired and/or developed, and the RECIPIENT shall have the title certificate updated immediately prior to the transfer of funds for the acquisition and/or development of the subject property. A copy of the Deed of Trust form, acceptable to the COMMISSION, is available upon request to the designated COMMISSION contact person shown at Section XXI below.
- D. In addition, when real property is acquired and/or developed under the terms of this AGREEMENT, non-governmental RECIPIENTS shall convey to the COMMISSION the RECIPIENT's executive power to transfer any interest in the real property until the RECIPIENT has fulfilled its obligations under the terms of this AGREEMENT. The conveyance of the RECIPIENT's executive power shall be in a form acceptable

to the COMMISSION. A copy of the Conveyance of Executive Power form, acceptable to the COMMISSION, is available upon request to the designated COMMISSION contact person shown at Section XXI below.

- E. If the RECIPIENT is a governmental entity, in lieu of C and D above, it agrees to execute a Notice of Federal/State Interest which shall be duly recorded in the land records of the county. A copy of an acceptable form of the Notice of Federal/State Interest is available from the designated COMMISSION contact person shown at Section XXI below.

SECTION IV Use of Project Property

Use of PROJECT PROPERTY is subject to the following conditions:

- A. The RECIPIENT agrees that the PROJECT PROPERTY shall be used as described in the approved APPLICATION and this AGREEMENT. If, during the duration of the PROJECT, any PROPERTY is not used in this manner or is withdrawn from service for more than ninety (90) days, the RECIPIENT shall notify the COMMISSION in writing and shall dispose of such PROPERTY in accordance with guidance from the COMMISSION.
- B. In the event of the RECIPIENT's non-compliance with the provisions of this section, the COMMISSION shall impose such sanctions as it may determine to be appropriate, including but not limited to:
- (1) Withholding or discontinuing further reimbursements or funding; and/or
 - (2) Cancellation, termination, or suspension of this AGREEMENT in whole or in part.
- C. The RECIPIENT shall keep satisfactory records with regard to the use of the PROJECT PROPERTY and shall submit to the COMMISSION upon request such information as is required.
- D. The RECIPIENT shall neither use nor permit the PROPERTY provided hereunder to be used for any illegal or unlawful purpose or in an unlawful manner or otherwise subject the said PROPERTY to confiscation. The RECIPIENT agrees to reimburse the COMMISSION for the fair, retail market value in the event that the PROPERTY is confiscated while in the possession or control of the RECIPIENT, together with other such expenses or losses that the COMMISSION may incur as a result thereof including attorney fees.

SECTION V Encumbrance of Project Equipment or Real Property

Except as provided in Section III of this AGREEMENT, the RECIPIENT shall not execute any lease, pledge, mortgage, lien, or other contract (including a grant anticipation note or "Safe Harbor Lease" under Section 168(g)(8) of the Internal Revenue Code of 1954) touching or affecting the Federal/State interest in any PROJECT PROPERTY, nor shall it obligate itself in any other manner, with any third party with respect to such PROPERTY, unless such lease, pledge, mortgage, lien, contract, or other obligation is expressly authorized in writing by the COMMISSION;

nor shall the RECIPIENT, by any act or omission of any kind, adversely affect the Federal/State interest or impair its continuing control over the use of said PROPERTY.

SECTION VI Records and Maintenance of Project Property

For the duration of the PROJECT, the RECIPIENT shall maintain the PROJECT PROPERTY at a high level of cleanliness, safety, and mechanical soundness. The RECIPIENT must maintain a PROJECT equipment inventory and a formal maintenance program. Property records must include a description of the property, vehicle identification number, if applicable, source, cost, acquisition date, percent of Federal participation, detailed maintenance records, and any disposition data.

SECTION VII Insurance

The RECIPIENT shall obtain insurance adequate to protect PROJECT PROPERTY, as well as public liability insurance. The COMMISSION shall be named as loss payee for PROPERTY purchased with Federal and/or State MULTI-MODAL funds. The RECIPIENT shall submit evidence of such insurance coverage including documentation of the solicitation process annually to the COMMISSION or prior to beginning vehicle operations, work or services to carry out the PROJECT, and said coverage shall remain in effect at all times during the duration of the PROJECT.

The RECIPIENT shall obtain and maintain at all times during the duration of the PROJECT insurance coverage adequate to meet the appropriate requirements of the COMMISSION. In lieu thereof, the RECIPIENT shall certify that its sub-recipient has obtained said coverage. These specific requirements shall be attached hereto as Attachment "B."

SECTION VIII Disposition of Property

The RECIPIENT agrees that the PROJECT property shall be used as described in Section IV of this AGREEMENT. If, at any time during the duration of this PROJECT, any PROPERTY with remaining useful life is not being used as described above, the RECIPIENT shall notify the COMMISSION in writing and, after concurrence by the COMMISSION, shall dispose of such PROPERTY in accordance with applicable laws and regulations and with the following procedures:

- A. Disposal of property with remaining useful life requires written approval authorized by the COMMISSION.
 - (1) If PROPERTY is transferred to another recipient, the transferring RECIPIENT shall be entitled to and responsible for collecting from the receiving recipient its pro rata share of the current fair market value, based on the local match ratio. The value of the local match shall be based on at least two (2) independent appraisals of the current fair market value. In the absence of independent appraisals, value of the property shall be based on standard depreciation calculations.
 - (2) If the PROPERTY is approved to be retained by the RECIPIENT and the property has a fair market value of at least five thousand dollars (\$5,000.00), the RECIPIENT shall reimburse the COMMISSION in an amount based on

the Federal/State pro rata share of the original cost, equal to the current fair market value of the PROPERTY. The fair market value must be based upon two (2) independent appraisals. These appraisals must be approved by the COMMISSION.

- (3) If the PROPERTY is approved to be sold, it shall be advertised and sold at the highest price obtainable at public sale or via sealed bids. All sales of PROPERTY must be consistent with State laws. The COMMISSION may authorize the expenses of the sale to be deducted from the proceeds. The proceeds derived from the sale of the PROPERTY may be retained by the RECIPIENT as long as such proceeds are used to support the transportation PROJECT approved by the COMMISSION. Otherwise the RECIPIENT shall reimburse the COMMISSION its pro rata share of the net proceeds, based on the pro rata share of the original cost.
- B. To request disposal of PROPERTY that has reached its end of useful life, the RECIPIENT must make a written request of a declaration of end of useful life to the COMMISSION. Requests for end of useful life must be made in such a manner and format as required by the COMMISSION in the approved program procedures manual or policy statements.
- C. The RECIPIENT shall be responsible to the COMMISSION for full compliance with the current version of OMB Circular A-110 Revised and the "Common Grant Rule" for property disposition, and all other provisions of applicable Federal and State laws, rules, and regulations.

SECTION IX E-Invoice and E-Payment Paymode-X

This COMMISSION requires that all RECIPIENTS submit invoices electronically throughout the term of this AGREEMENT. RECIPIENT invoices shall be submitted to the COMMISSION using the processes and procedures identified by the COMMISSION. Procedures for new RECIPIENTS may be found in the Mississippi Department of Finance and Administration's Mississippi Agency Accounting Policies and Procedures (MAAPP) Manual in the Vendor File Maintenance Sections 11.20.10, 17.20.05, and 17.10.10 and in the related section on requirements for requesting an exemption from electronic payment found in Section 17.10.20. RECIPIENT understands that RECIPIENT must be enrolled in Paymode-X e-payment module prior to being enrolled for e-invoicing, and agrees to same, unless RECIPIENT has applied for and been granted an exemption. RECIPIENT may request assistance enrolling by contacting www.mmrs.state.ms.us or by calling the Mississippi Management and Reporting System's (MMRS) Call Center at (601) 359-1343. Payments by State Agencies using Mississippi's Accountability System for Government Information and Collaboration (MAGIC) shall be made and remittance information provided electronically as directed by the State. These payments shall be deposited in the bank account of the RECIPIENT's choice. RECIPIENT understands that the COMMISSION is exempt from the payment of taxes. All payments shall be in United States Currency.

SECTION X Agreement Reimbursement/Payments

Reimbursement payments pursuant to this award will be made for eligible costs documented by invoices for the equipment, work or services incurred in accomplishing the

PROJECT. Final payment will be made after review and approval by the COMMISSION of documentation of the completion of the PROJECT and/or any audit documents as may be applicable.

The COMMISSION reserves the right to amend or withdraw this award at any time prior to its acceptance by the RECIPIENT.

SECTION XI Applicable Law/Severability

This AGREEMENT shall be governed by and construed under the laws of the State of Mississippi. Any term or provision or portion thereof which violates the laws of the State of Mississippi shall be null and void. If any term or provision of this AGREEMENT is prohibited by the laws of the State of Mississippi or declared invalid or void by a court of competent jurisdiction, the remainder of this AGREEMENT shall not be affected thereby and each term and provision of this AGREEMENT shall be valid and enforceable to the fullest extent permitted by law.

SECTION XII Availability of Funds

It is expressly understood and agreed that the obligation of the COMMISSION to proceed under this AGREEMENT is conditioned upon the availability of funds, the appropriation of funds by the Mississippi Legislature, and/or the receipt of State funds, as provided by Section 27-104-25 of the Mississippi Code.

If at any time the funds anticipated for the fulfillment of this AGREEMENT are not forthcoming or are insufficient as a result of the failure of the State of Mississippi to appropriate funds or the discontinuance or material alteration of the program under which funds were provided, or if funds are not otherwise available to the COMMISSION for the performance of this AGREEMENT, then this AGREEMENT shall be suspended automatically without any notice to RECIPIENT or any surety, for a period not to exceed ten (10) business days, effective immediately upon the date that said funds are not available, without damage, penalty, cost, or expenses to the COMMISSION of any kind whatsoever. RECIPIENT is responsible for monitoring the actions of the Mississippi Legislature in its enactment of, or its failure to enact, any budget appropriation for the MDOT for the ensuing Fiscal Year, and for monitoring the MDOT website at <http://www.gomdot.com> for any such notices.

In the event that said suspension is necessary, RECIPIENT shall take all necessary steps to minimize the incurrence of costs allocable to the suspension, and advise all sub-recipients and vendors to do the same. Upon expiration of the ten (10) business days, if said funds remain unavailable, then COMMISSION may, at its discretion, elect to extend the suspension and/or issue a stop work order or terminate this AGREEMENT as provided below.

If a suspension is not canceled and the work covered by such suspension is terminated, the RECIPIENT may be paid for services rendered prior to the suspension and/or stop work order. In addition to payment for services rendered prior to the date of the suspension and/or stop work order, the COMMISSION may be liable only for the costs, fees, and expenses, if any, for demobilization and closeout of this AGREEMENT, based on actual time and expenses incurred by the RECIPIENT. In no event shall the COMMISSION be liable for lost profits or other consequential damages.

SECTION XIII Stop Work Order/Termination for Lack of Funding

The COMMISSION may issue a stop work order or terminate this AGREEMENT for lack of funding in the following manner:

- A. The COMMISSION may, by written order to the RECIPIENT at any time, and without notice to any surety, require the RECIPIENT to stop all or any part of the work called for by this AGREEMENT. This order shall be for a specified period not exceeding twenty-four (24) months after the order is delivered to the RECIPIENT unless the parties agree to any further period. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, the RECIPIENT shall forthwith comply with its terms and take all steps to minimize the occurrence of costs allocable to the work covered by the order during the period of work stoppage. Before the stop work order expires, or within any further period to which the parties shall have agreed, the COMMISSION shall either:
- (1) Cancel the stop work order; or
 - (2) Terminate the work covered by such order according to and as provided elsewhere in this AGREEMENT.

Prior to the COMMISSION's taking official action to stop work under this AGREEMENT, the Executive Director of MDOT may notify the RECIPIENT, in writing, of the MDOT's intentions to ask the COMMISSION to stop work under this AGREEMENT. Upon notice from the Executive Director of MDOT, RECIPIENT shall suspend all activities under this AGREEMENT, pending final action by the COMMISSION.

- B. If a stop work order issued under this clause is canceled at any time during the period specified in the order, or if the period of the order or any extension thereof expires, the RECIPIENT shall have the right to resume work. If the COMMISSION decides that it is justified, an appropriate adjustment may be made in the delivery schedule. If the stop work order results in an increase in the time required for or in the RECIPIENT's cost properly allocable to the performance of any part of this AGREEMENT and the RECIPIENT asserts a claim for such an adjustment within thirty (30) days after the end of the period of work stoppage, an equitable adjustment in this AGREEMENT may be made by written modification of this AGREEMENT as provided by the terms of this AGREEMENT.
- C. If a stop work order is not canceled and the work covered by such order is terminated, the RECIPIENT may be paid for services rendered prior to the termination. In addition to payment for services rendered prior to the date of termination, the COMMISSION shall be liable only for the costs, fees, and expenses for demobilization and closeout of this AGREEMENT, based on actual time and expenses incurred by the RECIPIENT in the packaging and shipment of all documents covered by this AGREEMENT to the COMMISSION. In no event shall the COMMISSION be liable for lost profits or other consequential damages.

- D. If at any time the funds anticipated for the fulfillment of this AGREEMENT are not forthcoming or are insufficient due to the failure of the State of Mississippi to appropriate funds or the discontinuance or material alteration of the program under which funds were provided, or if funds are not otherwise available to the COMMISSION for the performance of this AGREEMENT, the COMMISSION shall have the right, upon ten (10) days' written notice to the RECIPIENT, to terminate this AGREEMENT without damage, penalty, cost, or expenses to the COMMISSION of any kind whatsoever. The effective date of termination shall be as specified in the notice or at the end of any fiscal funding period wherein the funds are not available.

In addition to payment for services rendered prior to the date of the termination, the COMMISSION may be liable only for the costs, fees, and expenses, if any, for demobilization and closeout of this AGREEMENT, based on actual time and expenses incurred by the RECIPIENT. In no event shall the COMMISSION be liable for lost profits or other consequential damages.

SECTION XIV Responsibilities for Claims and Liability

Non-governmental RECIPIENTS shall defend, indemnify, and hold harmless the COMMISSION and all its officers, agents, and employees from any claim, loss, damage, cost, charge, expense, or reasonable attorney fees (including, but not limited to, any type of environmental claim, loss, damage cost charge, or expense), to the extent caused by any act, actions, negligence, or omission by the RECIPIENT, its agents, employees, or sub-recipients during the performance of this AGREEMENT, whether direct or indirect. Neither the RECIPIENT nor any of his agents or sub-recipients will be liable under this provision for damages arising out of the injury or damage to persons or property solely caused or resulting from the negligence of the COMMISSION or any of its officers, agents, or employees.

Non-governmental RECIPIENTS' obligation under this section shall be initiated by the COMMISSION's notice of claim for indemnification to RECIPIENT. At the COMMISSION's option, the RECIPIENT shall defend or participate and associate with the COMMISSION in the defense and trial or arbitration of any damage claim, lien, or suit and any related settlement negotiations. Only an adjudication or judgment after the highest appeal is exhausted specifically finding the COMMISSION entirely responsible shall excuse performance of provision by the RECIPIENT. In such case, the COMMISSION shall pay all costs and fees related to this obligation and its enforcement. Should there be a finding of dual or multiple liability, costs and fees shall be apportioned accordingly.

In conjunction herewith, the COMMISSION agrees to notify all RECIPIENTS in writing as soon as practicable after receipt or notice of any claim involving RECIPIENT. These indemnities shall not be limited by reason of the listing of any insurance coverage.

All RECIPIENTS, whether public or otherwise, agree to notify the Commission of any event encountered in the course of performance of this AGREEMENT which results in injury to any person or property, or which may otherwise subject the RECIPIENT or the COMMISSION or its officers, agents, or employees to liability. The RECIPIENT shall report any such event to the COMMISSION immediately upon discovery. Reporting to the COMMISSION under this section shall not excuse or satisfy any obligation of the RECIPIENT to report any event to law enforcement or other entities under the requirements of any applicable law.

All notices, communications, and correspondence between the COMMISSION and the RECIPIENT shall be directed to the key personnel and designated agents designated in this AGREEMENT.

SECTION XV Immigrant Status Certification/E-Verify

RECIPIENT represents and warrants that it will ensure its compliance with the Mississippi Employment Protection Act, Section 71-11-1, et seq. of the Mississippi Code Annotated (Supp 2008), and will register and participate in the status verification system for all newly hired employees. The term "employee" as used herein means any person that is hired to perform work within the State of Mississippi. As used herein, "status verification system" means the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 that is operated by the United States Department of Homeland Security, also known as the E-Verify Program, or any other successor electronic verification system replacing the E-Verify Program. RECIPIENT agrees to maintain records of such compliance and, upon request of the State and approval of the Social Security Administration or Department of Homeland Security, where required, to provide a copy of each such verification to the State. RECIPIENT further represents and warrants that any person assigned to perform services hereunder meets the employment eligibility requirements of all immigration laws of the State of Mississippi. RECIPIENT understands and agrees that any breach of these warranties may subject RECIPIENT to the following: (a) termination of this AGREEMENT and ineligibility for any State or public contract in Mississippi for up to three (3) years, with notice of such cancellation/termination being made public, or (b) the loss of any license, permit, certification, or other document granted to RECIPIENT by an agency, department, or governmental entity for the right to do business in Mississippi for up to one (1) year, or (c) both. In the event of such termination/cancellation, RECIPIENT would also be liable for any additional costs incurred by the State due to AGREEMENT cancellation or loss of license or permit. The RECIPIENT is required to provide the certification on Attachment "C" to this AGREEMENT to the COMMISSION verifying that the RECIPIENT and sub-recipient(s), if any, are registered and participating in E-Verify prior to execution of this AGREEMENT.

It is agreed by the parties that no person employed by the RECIPIENT pursuant to the provisions hereof will be considered an agent or employee of the COMMISSION or the Mississippi Department of Transportation.

It is further agreed by the parties that no provision of this AGREEMENT is intended nor shall it be construed to give rise to a third party beneficiary claim on the person or entity not a party hereto.

SECTION XVI Disputes

Any dispute concerning a question of fact in connection with this AGREEMENT which is not disposed of by agreement shall be arbitrated by the Executive Director of the MDOT or such person as the Executive Director may designate. The decision of the Executive Director or his/her designee shall be final and conclusive, unless within fifteen (15) days from the date of receipt of the decision, the RECIPIENT submits a written request for review of the decision. In that event, the RECIPIENT shall be provided an opportunity to be heard on the review and offer evidence in support of the RECIPIENT's position regarding the decision. The decision of the Executive Director on the review shall be final and conclusive unless determined by a court of competent jurisdiction to be unlawful for the reason it was not supported by any substantial evidence, was fraudulent, or

was capricious. Until a final determination is made, the RECIPIENT shall proceed forthwith with the performance of the RECIPIENT's duties under this AGREEMENT pursuant to the Executive Director's decision.

SECTION XVII Termination of Agreement by Mutual Consent or Fault

This AGREEMENT may be terminated at any time by mutual consent of both parties. The RECIPIENT may terminate its participation in the PROJECT by notifying in writing and receiving the concurrence of the COMMISSION forty-five (45) days in advance of the termination. The COMMISSION may terminate this AGREEMENT by giving the RECIPIENT fifteen (15) days' advance written notice in the event of determination by the COMMISSION of nonperformance or any breach of any terms of this AGREEMENT by the RECIPIENT. The COMMISSION, before issuing written notice of AGREEMENT termination, may allow the RECIPIENT forty-five (45) days to correct the problems identified. If the COMMISSION makes the determination that this AGREEMENT should be terminated due to (a) insufficient performance, (b) a violation of any provision of this AGREEMENT, or (c) a misuse of the funds or equipment provided under this AGREEMENT, then it is agreed that this AGREEMENT shall be terminated upon fifteen (15) days' notice in writing from the COMMISSION to the RECIPIENT. The RECIPIENT shall be entitled to receive compensation for eligible expenses approved by the COMMISSION prior to receiving the termination notice.

SECTION XVIII Termination of Agreement by the Commission

The COMMISSION shall have the absolute right to terminate this AGREEMENT at any time without notice to the RECIPIENT, on the occurrence of any of the following occurrences, which shall constitute a material breach of this AGREEMENT:

- A. failure to perform any of the scheduled duties as set out herein;
- B. performing unacceptable work, or neglecting or refusing to remove materials or to perform anew such work as may be rejected as unacceptable;
- C. discontinuing the prosecution of the work;
- D. subcontracting or assigning the work hereunder without the prior written consent of the COMMISSION;
- E. unnecessary delay in completing the duties under this AGREEMENT;
- F. violation by the Recipient of any law of the State of Mississippi or any law of the United States of America;
- G. becoming insolvent, being declared bankrupt, filing for protection under any chapter of the U.S. Bankruptcy Code, or committing any act of bankruptcy or insolvency;
- H. allowing a final judgement to stand unsatisfied;
- I. making an assignment of the benefit of creditors;
- J. failure to provide and maintain the policies of insurance as required by this AGREEMENT;
- K. failure for any other causes whatsoever to carry on the work in an acceptable manner.

The above list of circumstances constituting material breach is not intended to be all inclusive and in no way restricts the COMMISSION for terminating this AGREEMENT for any material breach recognized by the Courts, State or Federal.

Termination without notice shall require written notice to the RECIPIENT setting out the basis for said termination and the effective date of said termination. Prior to termination without notice for reasons A, B, C, D, E or I above, the COMMISSION must show that the appropriate supervisory personnel have notified the RECIPIENT of the deficient performance and given the RECIPIENT at least fifteen (15) days to cure the deficiencies, unless said deficiencies are such that they may cause irreparable harm to PROJECT PROPERTY or public safety.

If the RECIPIENT enters into bankruptcy, voluntarily or involuntarily, any PROPERTY, or proceeds resulting from the sale thereof, purchased or financed in whole or in part with funds provided by this AGREEMENT shall not be an asset to the RECIPIENT.

In the event of a termination for any reason, the COMMISSION'S obligations and liability hereunder shall be limited solely to payment of any compensation due RECIPIENT as stated in this AGREEMENT.

SECTION XIX General Provisions

This AGREEMENT, together with the APPLICATION and Attachments hereto, constitutes the sole and entire agreement between the COMMISSION and the RECIPIENT with respect to the PROJECT hereof and supersedes any and all prior agreements, discussions, and negotiations between the COMMISSION and the RECIPIENT.

The RECIPIENT's acceptance of this AGREEMENT shall be evidenced by execution of this AGREEMENT by a duly authorized representative of the RECIPIENT, and said acceptance shall comprise a Public Transit MULTI-MODAL FUNDING AGREEMENT. It shall become effective upon the date of RECIPIENT's acceptance and shall remain in effect for twenty four (24) consecutive months following execution by the Executive Director of the Mississippi Department of Transportation. Any unspent funds remaining at the end of this AGREEMENT shall automatically revert to the COMMISSION.

The COMMISSION executes all its orders and directives through the duly appointed Executive Director and the personnel of the MISSISSIPPI DEPARTMENT OF TRANSPORTATION. All notices and correspondence with or to the COMMISSION pursuant to the PROJECT identified in this AGREEMENT shall be directed to the appropriate modal Division Director, Mississippi Department of Transportation, and shall reference this AGREEMENT number.

SECTION XX Agreement Changes

Modifications, changes, or amendments to this AGREEMENT may be made upon mutual agreement of the parties hereto. However, any change, supplement, modification, or amendment of any term, provision, or condition of this AGREEMENT must be in writing and signed by both parties hereto.

SECTION XXI Notice, Key Personnel, and Designated Agents

The RECIPIENT agrees that Key Personnel identified as assigned to phases hereunder as set forth in this AGREEMENT shall not be changed or reassigned without prior approval of the MDOT. If prior approval is impossible, recipient shall give notice to the MDOT as soon as practicable, and by subsequent review the MDOT may approve or disapprove the action. For purposes of implementing this section and all other sections of this AGREEMENT with regard to notice, the individuals listed below are herewith designated as agents for the respective parties. Any notice required or permitted to be given under this AGREEMENT shall be in writing and sent by United States Certified Mail, Return Receipt Requested, to the party to whom the notice should be given at the address set forth below:

Public Transit Attachment "A"

Attached to and made a part of that certain MULTI-MODAL Agreement, Project Number **503493-333000-333100**, executed by and between the Mississippi Transportation Commission and recipient(s) **City of Hattiesburg** for the purpose of setting forth the project description, projected completion date, project milestones and applicable special provisions.

PROJECT DESCRIPTION: Vehicle

SPECIAL PROVISIONS:

Anything to the contrary notwithstanding, with respect to the implementation of this project, the following special provisions shall apply. In the event of a conflict between these provisions and other provisions contained elsewhere in this AGREEMENT, these special provisions shall prevail.

RECIPIENT's termination of any services heretofore approved through this AGREEMENT requires prior written notification to the COMMISSION and COMMISSION concurrence and that, at a minimum, RECIPIENT shall provide thirty (30) days' written notice of termination of services published in a newspaper having local circulation, and shall post on all PROJECT vehicles and mail to sub-contractor/sub-recipients and provide to all passengers such written notice of termination of services.

Public Transit Attachment "B"

Attached to and made a part of that certain MULTI-MODAL AGREEMENT, Project Number **503493-333000-333100**, executed by and between the Mississippi Transportation Commission and recipient(s) **City of Hattiesburg** for the purpose of setting forth the requirements for insurance for the project.

The RECIPIENT shall obtain or shall cause its sub-contractor/sub-recipient or agent to obtain insurance adequate to protect the PROJECT's property and equipment, as well as public liability insurance. The COMMISSION shall be named as loss payee for property and equipment purchased with MULTI-MODAL funds. The RECIPIENT shall submit evidence of such insurance coverage including documentation of the solicitation process annually to the COMMISSION or prior to beginning the PROJECT, and said coverage shall remain in effect at all times during the duration of the PROJECT. The minimum coverage shall be as follows:

- A. Comprehensive general liability insurance in an amount not less than one million dollars (\$1,000,000.00) per occurrence, including coverage for blanket contractual liability, broad form property damage, personal injury and bodily injury (including illness, disease and death), and products/completed operations;
- B. Comprehensive automobile liability insurance, including hired and non-owned vehicles, in an amount not less than one million dollars (\$1,000,000.00) per occurrence, covering bodily injury and death and property damage, if applicable;
- C. Blanket employee fidelity bond insurance in an amount not less than fifty thousand dollars (\$50,000.00);
- D. Workers' compensation insurance in the amount required pursuant to the laws of the State of Mississippi;

All insurance policies required herein shall be issued by a reputable and substantial insurance company or companies licensed to do business in the State of Mississippi and shall include an endorsement providing substantially as follows:

Insurer may not cancel this policy, modify or amend its terms, or reduce coverage for a period of sixty (60) days after the Mississippi Department of Transportation has been notified by certified mail, return receipt requested, of the Insurer's intention to cancel, modify, amend, or reduce the coverage.

The RECIPIENT shall immediately notify the COMMISSION in writing of any notices from insurer concerning cancellation or reduction in insurance coverage.

On or before the inception of the Period of Performance of this AGREEMENT, the RECIPIENT shall deliver to the COMMISSION a Certificate or Certificates of Insurance, certifying the types and amounts of coverage required herein, the loss payee, and the required endorsement. Governmental RECIPIENTS must provide evidence of the aforesaid insurance coverage or a Certificate of Coverage under the Mississippi Tort Claims Act as set forth in Chapter 46, title 11, Mississippi Code 1972, as amended.

All insurance herein specified shall be carried until the work performed under this AGREEMENT is satisfactorily completed.

Transit Attachment "C"

RECIPIENT EEV CERTIFICATION AND AGREEMENT

City of Hattiesburg

By executing this Certification and Agreement, the undersigned verifies its compliance with the "Mississippi Employment Protection Act," Section 71-11-1 et seq. Mississippi Code of 1972, as amended, and any rules or regulations promulgated by Mississippi Transportation Commission [MTC], Department of Employment Security, State Tax Commission, Secretary of State, Department of Human Services in accordance with the Mississippi Administrative Procedures Law (Section 25-43-1 et seq., Mississippi Code of 1972, as amended), stating affirmatively that the individual, firm or corporation which is contracting with MTC has registered with and is participating in a Federal work authorization program* operated by the United States Department of Homeland Security to electronically verify information of newly hired employees pursuant to the Immigration Reform and Control Act of 1986, Pub. L. 99-603, 100, Stat 3359, as amended. The undersigned agrees to inform the MTC if the undersigned is no longer registered or participating in the program.

The undersigned agrees that, should it employ or contract with any consultant(s)/sub-consultant(s) and/or contractor/sub-contractor(s) in connection with the performance of this AGREEMENT, the undersigned will secure from each such sub-recipient(s) verification of compliance with the Mississippi Employment Protection Act. The undersigned further agrees to maintain records of such compliance and provide a copy of each such verification to MTC, if requested, for the benefit of the MTC or this AGREEMENT.

64-6000432

EEV* Company Identification Number [Required]

The undersigned certifies that the above information is complete, true and correct to the best of my knowledge and belief. The undersigned acknowledges that any violation may be subject to the cancellation of the AGREEMENT, ineligibility for any State or public contract for up to three (3) years, the loss of any license, permit, certificate or other document granted by any agency, department or government entity for the right to do business in Mississippi for up to one (1) year, or both, any and all additional costs incurred because of the AGREEMENT cancellation or the loss of any license or permit, and may be subject to additional felony prosecution for knowingly or recklessly accepting employment for compensation from an unauthorized alien as defined by 8 U.S.C §1324a(h)(3), said action punishable by imprisonment for not less than one (1) year nor more than five (5) years, a fine of not less than One Thousand Dollars (\$1,000.00) nor more than Ten Thousand Dollars (\$10,000.00), or both, in addition to such prosecution and penalties as provided by Federal law.

Summary

MDEQ Solid Waste Assistance Grant Application

Recommendation Statement

I recommend authorization of the submission of a grant application to Mississippi Department of Environmental Quality (MDEQ) for the Solid Waste Assistance Grant in the amount of \$75,000.00 to fund a Household Hazardous Waste "Right Way to Throw Away Day;" and authorize the Mayor to execute the same in duplicate. The grant requires the city to provide \$25,000.00 in matching funds.

Please place this on the September 7, 2021 City Council meeting for consideration.

**MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY
GRANT APPLICATION
PART 1. GENERAL INFORMATION**

SOLID WASTE ASSISTANCE GRANT REQUEST

PART 2a

1. Grant Applicant: City of Hattiesburg

2. Please check one or more of the following activities which the applicant intends to conduct with the requested funds and include an estimate of the total funds needed to conduct the activity. Also, attach a more detailed proposed breakdown of how the funds will be used, such as costs for construction, equipment, personnel, administration, etc., (Note that no more than 3% of the funds may be used for administration of the grant.)

Funds Requested

- | | | | |
|-------------------------------------|----|--|------------------|
| ☐ | A. | Cleanup of existing and/or future unauthorized dumps on public or private property | \$ _____ |
| ☐ | B. | Establishment of a collection center or program for white goods, recyclables or other bulky rubbish waste not managed by local residential solid waste collection programs | \$ _____ |
| ☐ | C. | Provision of public notice and education related to the proper management of solid waste, including recycling | \$ _____ |
| ☐ | D. | Payment of the costs of employing a local solid waste enforcement officer (Complete Supplemental Part 3) | \$ _____ |
| ☒ | E. | Payment of a maximum of seventy-five percent (75%) of the cost of conducting household hazardous waste collection programs. | \$ 75,000 |
| ☐ | F. | Development of other local solid waste management program activities associated with the prevention, enforcement or abatement of unauthorized dumps, as approved by the commission | \$ _____ |

TOTAL FUNDS REQUESTED \$ **75,000**

3. Please attach a narrative description for each part of Section 2 checked above, indicating how the applicant proposes to conduct the activities with the funds requested.

- If the activity includes Section 2.A., the description must identify the primary solid waste management facilities that will be utilized to ensure proper management of all solid wastes. The description must also identify the person or office that will be responsible for making a reasonable effort to require any known person(s) responsible for creating an unauthorized dump to clean up the property before the applicant expends money from the grant funds to do so and the person or office that will be responsible on behalf of the applicant for making a reasonable effort to recover from the responsible person any funds expended by the applicant.
- If the activity includes Section 2.B., the description should identify the location of any proposed collection center, if known, and any other primary solid waste management facilities that will be utilized to ensure proper management of all collected items.
- If the activity includes Section 2.D., applicant must submit Part 3: Enforcement Officer Supplemental Grant Request form.
- If the activity includes Section 2.E., the project shall be conducted in accordance with the Mississippi "Right-Way -To-Throw-Away Program" Regulations.

2021-2022 Solid Waste Assistance Grant

City of Hattiesburg Project Narrative & Budget

Project Narrative:

The City of Hattiesburg, City of Petal, Forrest County, Lamar County, and the University of Southern Mississippi plan to use the Solid Waste Assistance Grant funds to implement its “Pine Belt Right Way to Throw Away Day 2022” program to collect household hazardous waste on April 16, 2022 from 8:00 a.m. to 2:00 p.m. The region would like to establish the third Saturday of each April, which is the Saturday of Earth Day, to be known as the Pine Belt Right-Way-to-Throw-Away Day.

Due to the response from previous years, it is clear that the presence of the MDEQ external funding is mandatory to complete the event successfully, as public response and interest has grown and continues to grow throughout the year.

The Pine Belt Stormwater Committee will again sponsor the event, and the service area will include the City of Hattiesburg, City of Petal, University of Southern Mississippi, Forrest County and Lamar County. Hattiesburg will again act as applicant and administrator for the grant. A significant number of visitors from Perry County, Stone County and Pearl River County are anticipated. The City of Hattiesburg will continue to use Complete Environmental and Remediation Company as the contractor to dispose of the household hazardous waste. According to the U.S. Census Bureau 2015-2019 American Community Survey 5-year estimates, the population of the City of Hattiesburg is 46,098. The City of Petal’s population is 10,584. Forrest County has a population of 75,224 and Lamar County has a population of 61,969.

Public education of the event will occur through social media, press releases to the media, and through Public Service Announcements (PSA) that will be in cooperation with the *Keep Hattiesburg Beautiful* and local *Keep Mississippi Beautiful* campaigns. Since the first *Hattiesburg Right Way to Throw Away Day* in 1997, the number of vehicles bringing goods for proper disposal has steadily increased. In 2007, Hattiesburg partnered with Forrest County, Lamar County, City of Petal and University of Southern Mississippi to hold our area’s first multi-jurisdictional “Right Way to Throw Away Day” event.

We continually receive calls with requests to hold the event again, and we will be pursuing the possibility of establishing a permanent collection site in the future.

Project Budget

The 2022 proposed budget for this project is \$100,000.00. The figures are based on the costs of the past Right Way to Throw Away events. Our largest expense continues to be for contractor removal of the waste. The major estimated expenditures for 2022 are as follows:

MDEQ Funding	\$ 75,000
Local HHW match funding	\$ 5,000
Additional local partner funding	<u>\$ 20,000</u>
Total	\$100,000

Project Expenses Breakdown:

- Personnel: \$12,900
- Equipment: \$9,500
- Supplies: \$1,000
 - Safety Gear for Volunteers
 - Advertising
 - Volunteer Care Booths
 - Potable Water
 - Emergency Medical Services
 - Event Administration
 - Planning meetings mileage
 - Paper
 - Printing/Copying
 - Office Supplies
- Other: \$1,600
 - Facility Rental
 - Portable Toilets Rental
 - Tent Rental
- Contractual Services: \$75,000

TOTAL: \$100,000

Project Total \$100,000		
MDEQ	\$75,000	75%
Local Contribution	\$25,000	25%

25% Local Match

The City of Hattiesburg, City of Petal, University of Southern Mississippi, Forrest County and Lamar County understand that the applicant of this grant is expected to provide a local match of at least twenty-five (25) percent of the grant. The City of Hattiesburg and its co-sponsors agree to provide staff, facilities and other assistance that will meet or exceed the grant requirements. Each jurisdiction has set aside funds for this annual event in their General Fund budget.

Intergovernmental Agreements

Not applicable to this grant agreement.

Re: Acknowledge declaration of State of Emergency due to a Hurricane that occurred on August 27, 2021.
File Number: 2021-1139
Minute Book #

Summary

Acknowledge declaration of State of Emergency due to a Hurricane that occurred on August 27, 2021.

Recommendation Statement

Please place this on the September 7, 2021 City Council meeting for consideration.

RESOLUTION DECLARING A STATE OF EMERGENCY

WHEREAS, the City of Hattiesburg's governing authorities recognizes the existence of a possible local emergency occurring as a result of hazardous weather conditions caused by a winter storm; and

WHEREAS, the governing authorities of the City of Hattiesburg recognizes that this local emergency means the existence of condition of disaster or extreme peril to the safety of persons and properties within the City limits of the City of Hattiesburg caused by this storm; and

WHEREAS, such conditions are beyond the normal control of services, personnel, equipment, and facilities; and

WHEREAS, this emergency is a result of a natural disaster resulting in substantial damage, loss of property and harm to the population; and

WHEREAS, this natural emergency was caused by a natural event, to wit: a severe storm; and

WHEREAS, this Resolution meets those requirements contained in Code Section 33-15-5 of the Mississippi Code of 1972, as annotated and amended; and

WHEREAS, in order to carry out the provisions of Code Section 33-15-17, of the Mississippi Code of 1972, as annotated and amended, the City of Hattiesburg, through its governing authorities are acting in accordance with the disaster relief as herein described;

NOW, THEREFORE BE IT RESOLVED that the Mayor and City Council of the City of Hattiesburg, Mississippi do hereby authorize the appropriate personnel to enter into contracts and incur obligations necessary to combat this disaster, protecting the health and safety of persons and property and providing emergency assistance to the victims of this disaster, and the appropriate personnel are authorized to exercise those powers vested under Mississippi law, in light of the exigencies of the extreme emergency situation, without regard to time consuming procedures and formalities prescribed by law pertaining to the performance of public work, entering into contracts, the incurring of obligations, the employment of temporary worker, the rental of equipment, the purchase of supplies and materials and the appropriation and expenditure of public funds as outlined in Mississippi Code Section 33-15-17, sub-paragraph (B), (1972, as amended).

During this emergency, the Mayor is hereby authorized to issue orders or regulations concerning the protection of life and property, including the imposition of a curfew within designated boundaries where necessary to preserve public order and safety. Such orders or regulation will be in writing and terminated in writing. Imposition of a curfew shall not be construed as restricting in any manner the existing authority to impose a curfew pursuant to police power for any other lawful purpose.

Further, the Mayor is authorized to act in accordance with Mississippi Code Section 33-15-49, a copy of which is attached hereto as Exhibit "A".

Section 1. That public interest and necessity requiring same, this resolution shall become effective immediately.

The above and foregoing resolution, after having been first reduced to writing, was introduced by Council member _____, seconded by Council member _____, and was adopted by the following vote, to-wit:

YEAS:

NAYS:

The President thereby declared the motion carried and the resolution adopted, this the 7th day of August, 2021.

CAUSE NO: CO 20-1005

2005 CHEVROLET AVALANCHE
(VIN #3GNEK12Z85G287387)

DEFENDANT

LAKEITH MCSWAIN/LOU STEVENS

CLAIMANT

ORDER FOR DISPOSITION OF SEIZED PROPERTY

THIS DAY THIS CAUSE came on to be heard on the Petition for Forfeiture filed herein by the State of Mississippi Ex Rel 12th Circuit Court Narcotics Enforcement Team, and the Court, after consideration of the matter does **HEREBY FIND and ORDER** as follows:

I.

That jurisdiction and venue are proper in this Court.

II.

That this contest of the forfeiture of property was brought before this Court under Mississippi Code Annotated § 41-29-153, et seq. (1972), as amended, contesting the seizure of the following personal property: 2005 Chevrolet Avalanche (VIN 3GNEK12Z85G287387).

III.

That the Claimant failed, within the time proscribed by law, to file an answer, or responsive pleading, or otherwise defend this action in any way. The Plaintiff filed an application for default, along with a supporting affidavit, which such default was entered in this cause by the clerk of the court.

IV.

That the Plaintiff has provided sufficient proof in favor of forfeiture of the above captioned property, which was seized by the State of Mississippi Ex Rel 12th Circuit Court Narcotics Enforcement Team.

IV.

That the property seized from the Claimant should be forfeited as provided herein.

IT IS FURTHER ORDERED AND ADJUDGED that the 2005 Chevrolet Avalanche (VIN 3GNEK12Z85G287387) that was seized shall be forfeited to the Hattiesburg Police Department, to be distributed, used or disposed of according to law.

SO ORDERED AND ADJUDGED on this the 26th day of

May, 2021.

Letter Ruling

— DEPARTMENT OF —
REVENUE
STATE OF MISSISSIPPI

DAWN BURNS
CITY OF HATTIESBURG
PO BOX 1898
HATTIESBURG MS 39403-1898

Date: March 03, 2017
Letter ID: L0072848256

Reference: Sales Tax Exemption
Letter Ruling Number: 17-0109

This is in response to your letter dated March 01, 2017, requesting that the Mississippi Department of Revenue provide a ruling regarding whether the City of Hattiesburg is exempt from sales and use tax. Your request has been assigned the letter ruling number listed above. Please use this number in any further correspondence with the DOR concerning this request.

After a search of the applicable statutes, this is to confirm that the City of Hattiesburg does qualify for sales tax exempt status pursuant to Miss. Code Ann. Section 27-65-105(a). This Section provides that sales of tangible personal property or services made to the United States Government, the State of Mississippi and its departments, institutions, counties and municipalities or departments or school districts of said counties and municipalities are exempt from sales tax. As a prerequisite to exemption, the sale of property or charge for services must be sold directly to, billed directly to, and paid for directly by the exempt entity.

This exemption does not apply to sales of tangible personal property or services to contractors purchased in the performance of contracts with the exempt entity, nor the employees of the exempt entity, although the contractor or employee may be reimbursed for the expense by the exempt entity. Furthermore, this exemption does not apply to Contractors Tax levied by Miss. Code Ann. Section 27-65-21.

You may use a copy of this letter in order to substantiate the City of Hattiesburg's exempt status. I trust that this is the information you were requesting. Should you have any additional questions, feel free to contact this office at (601) 923-7015.

Under Miss. Code Ann. Section 27-65-85(a), it shall be unlawful for any person to use an exemption authorized under the Sales Tax laws for the purpose of avoiding the payment of tax the person is required to pay by law. Any person violating this provision shall be guilty of a misdemeanor and, on conviction thereof, shall be fined not more than Five Hundred Dollars (\$500.00), or imprisoned not exceeding six (6) months in the county jail, or punished by both such fine and imprisonment, at the discretion of the court.

This letter ruling is based on the specific facts and circumstances that you communicated to the DOR. This ruling is not binding on the DOR if these facts and circumstances are inaccurate, contain a material omission of a relevant fact or facts to the issue(s) presented or if such facts and circumstances change. This letter ruling is also only valid for seven (7) years from the date of this letter. At the end of this seven (7) year period, you are free to update your information and request another letter ruling if you wish. This ruling is only applicable to you or to your client if you are requesting this ruling on behalf of another and can only be relied upon by the person for whom the ruling was requested.

— If the facts and circumstances presented in your request are accurate, complete and do not change for the seven (7) year

P.O. Box 1033 Jackson, MS 39215-1033 Phone: (601) 923-7700 Fax: (601) 923-7714

Form # mL0004 v. V10

Visit www.dor.ms.gov for tax information and online filing. If you call, please have this letter with you.

Date: March 03, 2017
Letter ID: L0072848256

period indicated above, the person for whom it was requested can rely upon this ruling unless and until there is a change in the law or regulation or the issuance of judicial decision that indicates the ruling is no longer correct or the DOR retracts the ruling. The DOR does reserve the right to retract this ruling if it later determines on its own review that the ruling is incorrect. Such retraction will be in writing and the effect of the retraction will be prospective from the date of the retraction letter.

Sincerely,

Diamonde Wilkerson

Purchaser hereby sells and transfers unto Dealer the used car described herein and warrants that he has absolute title thereto and that same is free from any liens or encumbrances except as disclosed herein provided. However, if there is any difference between the actual pay-off on the vehicle listed in and the balance as stated herein, then and in that event, Purchaser shall pay said difference within 24 hours. If Purchaser fails to pay said difference within 24 hours after demand, Dealer may, at its election declare this agreement null and void with no life passing to Purchaser and Purchaser agrees to return to Dealer immediately the vehicle sold to Purchaser. Purchaser understands it is ultimately Purchaser's responsibility to insure accuracy of said pay-off. Purchaser certifies that Purchaser is 18 years of age or older. Purchaser accepts delivery of the vehicle sold by the dealer as described herein and acknowledges that this vehicle may be a FEDERAL PRICE LABEL on the vehicle pursuant to Public Law 85-556.

DISCLAIMER OF WARRANTY

The only warranties applying to this vehicle are those offered by the Manufacturer. The selling Dealer hereby expressly disclaims all warranties, either expressed or implied, including any implied warranties of merchantability or fitness for a particular purpose and neither assumes nor authorizes any other person to assume for it any liability in connection with the sale of this vehicle. Purchaser shall not be entitled to recover from the selling Dealer any consequential damages to property, damages for loss of use, loss of time, loss of profits, or income, or any other incidental damages in addition to damages to the vehicle (if any) which may have been disclosed to the Buyer by separate instrument. Buyer understands that the vehicle purchased from Dealer may have suffered damage during production, transit, or while in the control and the possession of the Dealer. Buyer understands that there are no warranties of merchantability or fitness being made by the Dealer to the Buyer as to any repairs of such damages.

This vehicle may contain Dealer-installed equipment which was not produced by the manufacturer of this vehicle. Any warranties issued in connection with such equipment are those of the manufacturer of the equipment and not the Dealer or manufacturer of the vehicle.

CONTRACTUAL DISCLOSURE STATEMENT (USED CARS ONLY)

The information you see on the window form (Buyer's Guide) for this vehicle is part of this contract. Information on the window form overrides any contrary provisions in the contract sale.

To Whom It May Concern:

RE: Bid items

I chose Dana Safety over the 10-8 Tactical because of the estimate ship date. Dana Safety Estimate shipping date is 4 to 6 wks and 10-8 tactical shipping date is 6 to 8 wks. Please see attached emails from each vendor.

Thanks,

Captain Shannon Harris

August 6, 2021

Hattiesburg Police Department

10-8 Tactical LLC

Attn: Captain Shannon Harris

Dear Captain Harris,

Thanks for the opportunity to bid the lighting packages for your 2020/2021 Ford F1 Utility Patrol vehicles. I'm pleased to offer you Top Tier lighting from Federal Signal, a known industry provider in the lighting business since 1903. All Federal Signal products carry a 5 YEAR WARRANTY with service offered in several manners: 1) On-Site or Drive up support through 10-8 Tactical/Weatherby Electronics located in Flowood/Jackson MS 2) Through one of our service providers located in the Gulfport/Biloxi area or 3) Direct with Federal Signal through a dedicated Federal Signal Field Support Staff.

Delivery of all listed equipment will be 6 weeks or less of receipt of order and approval of light bar configurations by HPD.

Multiple agencies throughout Mississippi have switched to Federal Signal lighting in the last 18 months. A list of references can be provided at your request. Federal Signal was recently awarded the State of MS Highway Patrol contract for 2021+ - This rollout includes lightbars, speakers, and all supplemental vehicle lighting. MHP will be utilizing 100% Federal Signal lighting with all future vehicle builds. With this contract, additional service providers will be added throughout the state.

I would like to schedule a site visit with you for Monday, August 9, 2021 anytime after 1400 hours to go over and demonstrate the equipment that is being proposed. Please advise what time works best for you and your staff.

Thanks again for the opportunity to earn your business. You will not be disappointed in the top tier equipment being offered or the service after the sale from 10-8 Tactical or Danan Kennedy, the local Federal Signal Representative responsible for customer service/satisfaction.

Sincerely,

Gerald LeBlanc

10-8 Tactical LLC 337-577-8006

Gerald LeBlanc

Gun Rack - Dual Weapon, Partition Mounted, Vertical (GR9-ZRT-AR BLM/870)

Item #: 475-2010

The (GR9-ZRT-AR BLM/870) is a dual weapon, vertical gun rack that mounts to partitions with flat cover panels or recessed housing. Locking mechanism for AR is positioned on gun barrel.

John Deak was awarded two patents for these innovative solutions: (US Patent No. 8,910,568, US Patent No. 9,681,312, and US Patent No. 10,563,443). The height of the AR Side of the ZRT Gun Rack can be adjusted in the field within a secure channel to accommodate different stools. The SmartLock Technology was developed to thwart the hotwiring potential that exists.

All Locks must be determined by customer.

Please request (HCK) Handcuff Key or (STR) Straight Key.

6-head SignalMaster model

6-head flashing model

4-head flashing model

► Latitude™ | Warning Lighting

FEATURES

- LED flashing warning light and SignalMaster models suitable for both interior and exterior applications
- Flashing models available in 4-head, 6-head, or 8-head
- SignalMaster models are available in 6-head or 8-head
- SignalMaster models with flashing ends available in 8-head models
- Three-LEDs per light head
- Innovative co-extrusion, polycarbonate housing provides moisture resistance
- Optimal mounting brackets and shrouds available
- Number of flash patterns vary by model
- SignalMaster models include Federal Signal's economy SignalMaster controller (except for flashing end models)
- Five-year warranty

APPROVALS

- SAE J845 Class 2 (Blue, Amber)
- SAE J845, Class 1 (Red)
- SAE J595, Class 1
- California Title 13, Class B

A complement to any warning solution

Latitude series offers the flexibility needed to complement any warning solution. Equipped with three-LEDs per position and Federal Signal's Solaris LED reflectors, Latitude delivers an impressive optical performance for your vehicle. The warning light is available in 4-, 6-, and 8-head flashing models. SignalMaster directional warning is available in 6-head and 8-head models.

Warning capabilities

Latitude flashing models are programmed with (10) eye-catching flash patterns plus one test pattern and SignalMaster models are programmed with (3) built-in directional signals (left, right, and center-out) and one warning pattern. Latitude SignalMaster models with flashing ends have (28) 8-head flash patterns, (5) 2-head flash patterns (end modules), and (5) directional patterns per each direction.

A simple concept you can depend on

Built to last, the Latitude is engineered with the exclusive ROC (Reliable On-Board Circuitry) technology. ROC eliminates failure points found in similar warning products. Available for both interior and exterior applications, this sensible warning light is built with an innovative co-extrusion, polycarbonate housing to provide moisture resistance.

Side Curtain Airbag Compliant Cargo Barrier (CB4) - Ford PI Utility (2020+)

Separate front and rear vehicle areas securely with Jotto Desk's line of Cargo Barriers. Keep prisoners in their area and in case of a crash, keep your cargo where it belongs with the CB4 Prisoner Cargo Barrier. This New Design secures behind the second row of seats in the Ford Police Interceptor Utility (2020+) utilizing OEM mounting points. Please Note: This Cargo Barrier IS Side Curtain Airbag Compatible.

USB x 2 & 12V Power Outlets x2 in 2" Faceplate

Item #: 425-6164

2" Overall Faceplate Height

2" High x 8.55" Wide x 1.125" Depth

Features two 2.1A USB's and two 12V electrical outlets with covers.

► MicroPulse® Ultra I External Mount/Perimeter Lights

FEATURES

- Superior warning with high-powered LEDs
- Low-profile design offers wider range of mounting locations
- (25) Selectable flash patterns
- SpectraLux_® multicolor LED technology in combinations of Amber, Blue, Green, Red and White
- FSLink_® allows for synchronization across multiple products
- FSJoin_® enables the synchronization and programming of light bars and exterior/interior lights that works in conjunction with the Pathfinder_® Siren
- 12/24 Vdc
- Suitable for external and/or internal mounting applications
- Includes Black bezel and gasket, optional bezels available in Chrome or White
- Single/multi-unit synchronization
- Designed and assembled in University Park, IL USA
- Five-year warranty

APPROVALS

- All models are IP67 rated, moisture and dust proof
- SAE J845, Class 1 (Amber, Blue, Green, Red, and White)
- NFPA*
- CCR Title 13*
- GSA KKK-A-1822*
- R65*

*Flash patterns meeting these specs are noted in the instruction manual

Highly Effective, Ultra Slim Warning Light

The MicroPulse_® Ultra models have a low-profile design that offers a wider range of mounting options to fit various applications. The advanced high-output LED light head can be programmed to operate as a single unit or in synchronization with multiple light heads. Built-in flash patterns enable multiple vehicle perimeter lights to be either synchronized in the same pattern or in opposite sequence.

MicroPulse Ultra is only 0.4-inches thick

SpectraLux_® FSLink_® FSJoin_®

Built to Stand Up to the Most Punishing Conditions

The MicroPulse Ultra lens is made of US resistant polycarbonate to protect against harsh conditions. Models include a fully encapsulated water-proof housing, which provides a barrier against moisture and condensation. All MicroPulse Ultra perimeter lights are backed by Federal Signal's five-year warranty.

A Versatile Solution for any Warning Light Application

Suitable for external and/or internal mounting applications, the MicroPulse Ultra comes in many colors, including Amber, Blue, Green, Red and White, in single-, dual-, and tri-color combinations. Models come standard with a Black bezel and are also available with an optional Chrome or White bezel.

FSJoin... Compatible

MicroPulse Ultra models are FSJoin compatible. FSJoin is a programming compatibility feature of Federal Signal's light bars and exterior/interior warning lights that work in conjunction with the Pathfinder light/siren controller. The combination of FSJoin warning lights and the Pathfinder siren allows the Pathfinder to control lights around the vehicle by utilizing flash patterns in the siren, syncing/alternating light heads, and dimming light heads. FSJoin compatible products can be programmed through the Convergence Network Configuration Software, simplifying the programming of multiple warning lights and light bars.

Compatibility with Older MicroPulse Ultra Models

- New MicroPulse Ultra models will not synchronize with older MicroPulse Ultra models.
- New MicroPulse Ultra models will synchronize with existing X Series models. This includes MicroPulse Ultra X Series, MicroPulse Wide Angle X Series, 416300 X Series, and 416900/416910 X Series models

Wiring Diagram

FSLink products feature (5) programming wires. Wire functions are consistent across all FSLink products allowing for ease of programming.

FSLink Compatible

MicroPulse Ultra models feature FSLink, a built-in software technology that incorporates a shared set of flash patterns within Federal Signal's LED perimeter lights, interior lights, and beacons. This shared flash pattern software allows the various products to be wired together, set in a common pattern and then synchronized together to flash simultaneously or alternately.

Wire	Internal Flasher Mode
Red	To +Vdc for Mode 1
White	To +Vdc for Mode 2
Brown	To +Vdc for Mode 3
Green	+Vdc for programming sync/FSLink

Reliant™

Police Light Bar

FEATURES

- Low-profile, dual-color, LED light bar
- 12 Vdc
- Available in 48" length
- Pre-configured models
- Combines effective warning with tactical benefits of flood lighting capability
- Integrated SignalMaster™ directional capability
- Top Domes available in Red/Blue, Blue, or Clear
- White LEDs can be utilized as takedowns and flood lighting
- (28) Flash patterns
- ROC (Reliable Onboard Circuitry™) reduces potential failure points
- Solaris™ LED reflector technology
- SpectraLux™ multi-color LED technology
- FS Convergence Network for "plug-n-play" installation and programming
- Five-year warranty

The Reliant light bar features a low-profile, linear design that provides a superior multi-color warning on vehicular applications. Designed with safety in mind, Reliant is packed with exclusive technologies and comes with various standard functions to cover all your basic needs at a budget-friendly price. Reliant includes (28) flash patterns, built-in SignalMaster, and alley, takedown, brake, and floodlight capabilities to keep emergency personnel safe on the road.

SpectraLux® Lights The Way

Exclusive to Federal Signal, the SpectraLux multi-color LED technology allows an LED light source to change color while in operation. In each module of the light bar, through user-selected flash patterns, the LEDs can change between Amber, Blue, Red and White (up to 2 in each module).

Solaris and ROC (Reliable Onboard Circuitry™)

Built with Solaris LED reflector technology, the Reliant light bar is engineered to increase off-axis warning and maximize the LED light source to eliminate dark spots and increase visibility while on the road. ROC technology minimizes potential failure points in the light bar — replacing wires, connectors and assemblies with PCB assemblies to reduce labor repair time and increase road time for law enforcement personnel.

FS Convergence Network

For maximum performance, the FS Convergence Network provides "plug-n-play" installation. Utilizing the RJ45 connections, the Reliant can be easily programmed using a Pathfinder light/siren controller. With control head programmability, the user can customize the keypad to meet their needs.

A serial interface module (ordered separately) with your existing light controller can also be used to program and operate the features and functions of the Reliant.

For and in consideration of the sum of ONE HUNDRED SEVENTY-FIVE AND NO/100 Dollars (\$175.00), cash in hand paid to the City of Hattiesburg, Mississippi, the City of Hattiesburg, Mississippi acting by and through its duly authorized Mayor and City Clerk does hereby bargain, sell and convey unto Donald W. Ware, subject to the reservations and restrictions hereinafter set out and subject to rules and regulations now or hereafter adopted, the following described grave spaces:

North Half (N½) of the Southeast Quarter (SE¼)

Lot 53 Section 35

according to the Cemetery Survey of the City of Hattiesburg, Mississippi known as Highland Cemetery, and containing

One (1) Grave space (s).

SAID Lot shall be used for burial purposes only and all graves therein must be checked and laid out by the Cemetery sexton before the same is dug and must be at least 4 feet deep and shall be, when completed, level with the ground. No shrubbery, vines or trees shall be planted in the Cemetery Lot and there shall be nothing left above the ground except markers which may be erected to meet all City regulations and requirements. All burials in the grave space(s) herein conveyed shall comply with applicable State and Federal laws governing human burial and with City rules and regulations pertaining thereto. If boxes or vaults are used they shall be at least 10 inches below the ground level.

GRANTEE herein shall not sell or convey this lot without a written permit from the Mayor and Council of the City of Hattiesburg, Mississippi.

WITNESS the signature and seal of the City of Hattiesburg, Mississippi, a Municipal Corporation, acting, by and through its duly authorized Mayor and City Clerk, on this, the 7th day of September, 2021.

**A RESOLUTION LEVYING AD VALOREM TAXES ON
ALL OF THE TAXABLE PROPERTY WITHIN THE
CITY OF HATTIESBURG, MISSISSIPPI, FOR THE PURPOSE
OF RAISING REVENUE FOR SAID CITY FOR THE FISCAL YEAR
BEGINNING OCTOBER 1, 2021, AND ENDING SEPTEMBER 30, 2022**

WHEREAS, the governing authorities of the City of Hattiesburg, Mississippi, are required by Section 21-33-45 of the Mississippi Code of 1972 at a meeting held on September 7, 2021 to levy the municipal ad valorem taxes for the fiscal year next succeeding, and are required to fix this rate or levy for the municipality and the municipal separate school district and to express the rates or levies therefore in mills or a decimal fraction of a mill; and

WHEREAS, the governing authorities have fully, carefully and maturely considered the requirements of the various funds of the City of Hattiesburg and of Hattiesburg Municipal Separate School District; and

WHEREAS, the Council does now find, determine and adjudge that the tax rates or levies appearing hereinafter for the said City of Hattiesburg, in order to raise funds required to meet the expenses of said City of Hattiesburg and for municipal purposes and the expense of said school district:

NOW, THEREFORE, BE IT RESOLVED AND ORDERED BY THE COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI, that the following ad valorem tax rates or levies be and the same are hereby fixed, imposed and levied for the current fiscal year 2021-2022 of said City upon said assessed value of all of the taxable property in the City of Hattiesburg, Forrest and/or Lamar Counties, Mississippi, and in said municipal separate school district, as said property is now assessed and listed, and as it may be hereafter assessed and listed upon the assessment rolls of said City of Hattiesburg, as of January 1, 2021, and the said rates or levies expressed in mills or a decimal fraction of a mill and determining the ad valorem taxes to be collected upon each dollar of valuation upon the assessment rolls of the City of Hattiesburg, Mississippi, and upon each dollar or valuation for the municipal separate school district as shown upon the assessment rolls of said City, being fixed, imposed, and levied as follows, to wit:
