Tuesday, October 21, 2025 5:00 PM	City Council Tuesday Meeting Agenda	Council Chambers 200 Forrest Street

Call to Order

Call to Prayer and Pledge of Allegiance

Presentation Agenda

Approval of Minutes

1.	**2025-919**	Approve the minutes for the October 6 & 7, 2025 meetings of the City Council.

POLICY AGENDA

1.	**2025-663**	Take from the Table: Accept the Planning Commission's recommendation to deny a conditional use request for an electronic reader board located at 748 W 4th Street (Forrest County, Ward 4).
2.	**2025-665**	Take from the Table: Accept the Board of Adjustment's recommendation to approve variances requested for a sign located at 748 W 4th Street (Forrest County, Ward 4). The variances requested are: • A variance from the requirement of the minimum 200ft separation from the nearest lot line of any residential use to allow for 94 ft separation. • A variance from the requirement of a maximum of 40% of the sign as an electronic reader board to allow for 58%.
3.	**2025-866**	Adopt an Ordinance to approve the request for a zoning change from R-1C to R-2 for a property located at 209 Unetta Street (PPIN 21167, Forrest County, Ward 2). The Planning Commission recommended approval on October 1st, 2025.
4.	**2025-867**	Adopt an Ordinance to approve the closure and vacation of a portion of a street and a portion of an alley located north of River Avenue and east of Morgan Street, also a part of the Magruder and Company Addition Subdivision (Forrest County, Ward 2). The Planning Commission recommended approval on October 1st, 2025.

5. **2025-868** Accept the recommendation from the Planning Commission to approve a major subdivision and a plat alteration for a B-5 zoned property. More specifically, this will add lot six to the Hattiesburg Market Place Subdivision. (PPINs 12113, 37027, 24497, 40059, & 40103, Lamar County, Ward 3).

6. **2025-869** Accept the recommendation from the Planning Commission to approve a conditional use request for "dwelling, multi-family" for a B-1 zoned property located at 117 College Street (PPIN 14586, 14587, 14588, & 14589, Forrest County, Ward 2).

7. **2025-926** Consider the following requested variances for property located at 1516 Florida Avenue:

1. Consider a variance request from the minimum requirement of 10 ft of green space to allow for 3ft for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4). Due to a tied vote, the Board of Adjustment did not offer a recommendation on October 1st, 2025.

2. Accept the Board of Adjustment's recommendation to approve a variance from the requirement of the maximum fence height in a front yard of 4ft to allow for 6ft for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

3. Accept the Board of Adjustment's recommendation to deny a variance from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

8. **2025-871** Accept the Board of Adjustment's recommendation to deny variance requests for an R-1B zoned property located at 1300 N Main Street (PPIN 14508, Forrest County, Ward 2). The requested variances are:

- a variance requests from the minimum requirement of 5 stacking spaces in a restaurant with a drive-through to instead allow for 0 ft.
- a variance from the residential buffer minimum of 200ft to instead allow for 0 ft.

9. **2025-872** Accept the Board of Adjustment's recommendation to approve the variance request from the requirement of accessory structures for residential use to be a maximum of 33% of the primary structure to instead allow for 36% for a property located at 116 S 23rd Avenue (PPIN 16471, Forrest County, Ward 4).

10. **2025-877** Adopt a Resolution renewing and extending an Interlocal Cooperation Agreement between the City of Hattiesburg and Forrest County for cooperative construction, maintenance, improvements and operation of public park facilities and authorizing the Mayor to execute the same.

11. **2025-876** Adopt a Resolution of the Mayor and City Council of Hattiesburg, Mississippi approving a Memorandum of Understanding with Forrest County related to Friendship Park and authorizing the Mayor to execute the same.

12. **2025-931** Adopt a Resolution establishing petty cash funds effective October 1, 2025, and approve the issuance of a manual check to the petty cash custodian as of October 1, 2025.

13. **2025-930** Adopt a Resolution declaring surplus (per attached list) and authorizing the disposal of said equipment and removal from the city's inventory.

14. **2025-923** Adopt a Resolution declaring property located at 622 Corinne Street, better identified by PPIN 19339 (parcel number 2-029O-10-049.00 and PPIN 19340 (parcel number 2-029O-050.00); and the parcel at 510 W. Pine Street, better identified by PPIN 19333 (parcel number 2-092O-10-066.00; and the parcel at 220 2nd Avenue better identified by PPIN 19344 (parcel number 2-029O-10-051.00) as surplus and authorize the sale of said property to 28th Office LLC., in the amount of $161,000.00, and authorize the Mayor to execute any and all necessary documents to the same.

15. **2025-924** Adopt a Resolution declaring that timber on Forrest County parcel number 2-048-06-009.00 (PPIN 27783), and parcel number 2-042P-36-001.00 (PPIN 27777), and parcel number 2-048-06-006.00 (PPIN 1488), and parcel number 2-048-06-005.00 (PPIN1489), and parcel number 2-048-06-008.00 (PPIN 27782) located at the Bobby Chain Municipal Airport as surplus and authorize advertisement for sale by competitive bid upon preparation of plan documents.

16. **2025-928** Approve a Professional Services Agreement between the City of Hattiesburg and Allen Engineering Services for preparation of Risk Management Plans, Emergency Response Plans and Risk Resilience Assessments and authorize the Mayor to execute the same.

17. **2025-921** Approve Encroachment Agreement for Overhead Facilities with Mississippi Power Company for an access road for the construction of improvements at Tatum Park and authorize the Mayor to execute in duplicate.

18. **2025-916** Approve Agreement with Shows, Dearman and Waits, Inc to provide engineering services for the Cross Creek Capacity Analysis and authorize the Mayor to execute in duplicate.

19. **2025-917** Approve Agreement with Shows, Dearman and Waits, Inc. for the McInnis Loop Water Connector Project and authorize the Mayor to execute in duplicate.

20. **2025-920** Approve Agreement for Preliminary Engineering Services with Norfolk Southern Railway Company in the amount of $30,000.00 related to the Gordon Creek Trail Project and authorize the Mayor to execute in triplicate.

21. **2025-913** Approve Proposal from Commercial Appraisals, LLC to amend Agreement approved on August 20, 2024 to increase the number of parcels to be appraised for the Edwards Street Pedestrian Improvements Project, Federal Aid Project No. STP-7191-00(002) LPA/109560-701000 and authorize the Mayor to execute the same.

22. **2025-912** Acknowledge receipt of closing documents for the Concrete Paved Ditch Repairs Along Gordon Creek Project; Approve Supplemental Agreement No. 1 with TM Productions, LLC to record project underrun of $3,636.43 and authorize final pay application, notice of final settlement and the Mayor or designee to execute any and all documents related to the same.

23. **2025-911** Ratify grant application to the America in Bloom/CN Railway EcoConnexions from the Ground Up Grants Program to fund landscaping improvements along Hall Avenue, not to exceed $25,000; grant requires 50% in matching funds.

ROUTINE AGENDA

1. **2025-925** Acknowledge receipt of Privilege Tax License Report for September 2025.

2. **2025-918** Acknowledge receipt of the monthly budget report for the month ending September 30, 2025.

3. **2025-927** Acknowledge Solid Waste Revenues and Expenditures for the fiscal year ending September 30, 2025, and authorize publication of the same.

4. **2025-803** Approve plans and specifications for the Grace Avenue Sidewalk Project and Authorize advertisement for bids.

5. **2025-922** Approve plans and specifications for the Hattiesburg - Bobby L. Chain Municipal Airport Hangar Taxiway Project and Authorize advertisement for bids.

6. **2025-929** Approve claims docket for the period ending October 17, 2025.

Meeting Recess

****

Call to Order

BE IT REMEMBERED that the Hattiesburg City Council held **a Public Hearing at 4:00 p.m. on Monday, October 6, 2025**, in the Council Chambers at City Hall.

This meeting convened following the Council's adjourned scheduled regular meeting held on September 16, 2025.

***In attendance were** Mayor Toby Barker and members of the City Council Jeffrey George, Ward 1; Eric Boney, Ward 2; LeAnn Vance, Ward 3; Dave Ware, Ward 4; and Nicholas Brown, Ward 5.*
***Others in attendance were** Director of Administration/City Clerk, Kermas Eaton; City Attorney, Randy Pope; Clerk of Council, Ronda S. Kennedy; Deputy Clerk of Council, Lisa Luu Jolly; City staff members; media; and the public.*

Council President Ware called the meeting to order and explained the procedures.

Public Hearing

1.	**2025-735**	Hold public hearing for appeal filed by Clifford Lockhart, Contractor/Representative, to appeal the Hattiesburg Planning Commission's action on the petition filed by Clifford Lockhart, Contractor/Representative, for a conditional use request for an electronic reader board. The Hattiesburg Planning Commission recommended denial of the petition on August 6th, 2025.

Council President Ware opened the Public Hearing on the appeal at 4:00 p.m. and explained the procedures.

A MOTION was made by Council Vice President George and seconded by Council Member Vance

to <u>CONTINUE</u> the Public Hearing for the appeal filed by Clifford Lockhart, Contractor/Representative, regarding the Planning Commission's action on a conditional use request for an electronic reader board, until the next regularly scheduled Council meeting on October 20, 2025, due to the applicant's absence.

There being no discussion, the motion carried unanimously with the following vote:

Yeas: 5 – George, Boney, Vance, Ware and Brown

Nays: 0

By unanimous consent, **Council President Ware closed the public hearing at 4:03 p.m. and proceeded with the Public Hearing for the designation of the Public Hearing on Motor Vehicle Assessment Schedule.**

2.	**2025-860**	Hold a Public Hearing on the adoption of the Motor Vehicle Assessment Schedule for the City of Hattiesburg for the fiscal year beginning October 1, 2025, and ending September 30, 2026.

Council President Ware opened the Public Hearing at 4:07 p.m. and explained the procedures.

City Clerk, Kermas Eaton, presented an overview of the assessment schedule.

Council President Ware then invited any members of the public who wished to speak on the assessment schedule.

No citizens came forward to offer comments.

By unanimous consent, **Council President Ware closed the public hearing at 4:06 p.m. and proceeded with the Public Hearing for the designation of the recognized Historic Landmark.**

3.	**2025-857**	Hold a public hearing for the designation of Recognized Historic Landmark status for the building located at 1410 Adeline St. The Hattiesburg Historic Conservation Commission voted to Approve on August 13, 2025.

Council President Ware opened the Public Hearing at 4:07 p.m. and explained the procedures.

Russell Archer, Historic Preservation Planner, presented a historical overview of the case.

Council President Ware then invited any members of the public who wished to speak on the Historic Landmark.

No citizens came forward to offer comments.

By unanimous consent, **Council President Ware closed the public hearing at 4:15 p.m. and proceeded with the Agenda Review.**

<u>Agenda Adjustments</u>:

Council President Ware asked whether there were any adjustments to the agenda.

The Clerk of Council responded in the affirmative and proceeded to read the following adjustments:

- *<u>Remove Routine Item #4, at the request of the Administration.</u>*

R-4.	**2025-803**	Approve plans and specifications for the Grace Avenue Sidewalk Project and Authorize advertisement for bids.

<u>Agenda Review</u>

Council President Ware proceeded with the Agenda Review.

Following discussion of agenda items, **Council President Ware closed the Agenda Review.**

Citizens' Forum

Council Vice President George proceeded with the Citizens' Forum.

He stated the procedures and invited members of the public to speak.

The following citizen addressed the Council:

- *Virginia Smith, 2404 W. 4th Street, Apt. B*

There being no other individuals wishing to speak, **Council Vice President George closed the Citizens' Forum.**

Meeting Recess

Council President Ware declared the meeting recessed at 4:33 p.m. on this 6th day of October 2025, by unanimous consent, until the 7th day of October 2025.

Date: **Tuesday, October 21, 2025**

Re: **Take from the Table: Accept the Planning Commission's recommendation to deny a conditional use request for an electronic reader board located at 748 W 4th Street (Forrest County, Ward 4).**
File Number: 2025-663
Minute Book #

Summary

Recommendation Statement
The Planning Commission recommended denying the request.

Please place this on the October 21, 2025 City Council meeting for consideration.

August 2025 HPC Item: A
Anointed Word Ministries, Property Owner/Applicant, and Clifford Lockhart, Contractor/Representative
Request for: **Conditional Use Approval**

URBAN DEVELOPMENT
PLANNING DIVISION

Planning Commission
Case Fact Sheet

Names of Petitioner: Anointed Word Ministries of Hattiesburg, Property Owner/Applicant, Clifford Lockhart, Contractor/Representative.

Address of Property:	**Tax Parcels**	**PPIN:**	**Ward:**
748 W 4th Street	2-029L-09-037.00	26614	4

Request: Residential Buffer for an Electronic Reader Board Variance

Purpose of Request: Anointed Word Ministries of Hattiesburg, Property Owner/Applicant, and Clifford Lockhart, Contractor and Representative, request approval of a conditional use request for an electronic message board for a R-3 zoned property located at 748 W 4th Street (PPIN 26614, Forrest County, Ward 4).

History / Background: The applicant applied for a sign permit for a static face replacement for the monument sign for Anointed Word Ministry Church in April of 2024. The permit noted that it was to be a "Face Replacement on a 4x8 sign, 'lighted', Replace Broken Glass and Letter Paint." The sign that was in place before was a monument sign, which had an internally illuminated sign and not an electronic reader board. The application for the sign permit did not note that the sign would include a digital reader board portion. The sign permit was approved on April 24, 2024, with a note that the permit approval was for a "Face Replacement Only." The permit was paid for and picked up on April 30th, 2024, and work commenced on the sign.

On August 13th, 2024, planning staff noticed that the sign was not installed as per the sign permit as a "face replacement," but instead was completely refaced and included an

electronic reader board. Per the Land Development Code, signs with an electronic reader board portion are required to be 40% or less of the entire sign, 200ft or more from a residential property line. They are only permitted in B-5 and B-3 by right and R-1C and R-3 with conditional use approval.

A notice of violation was issued on August 23, 2024, outlining the violations found in the unpermitted sign installation and included methods to make the sign compliant, which included a pre-application form to meet with staff. No pre-application meeting was scheduled with the applicant, as no pre-application form was submitted to the planning division. Code Enforcement issued a complaint and citation on August 27th for the violation of installing a sign without a permit, and the applicant was summoned to appear in court on November 17th, 2024.

Three court appearances were held in January, April, and June of 2025. The applicant applied for a public hearing for the August meetings for the Planning Commission and Board of Adjustment. The applicant is seeking conditional use approval for an electronic reader board on an R-3 zoned property from the Planning Commission and a variance from the residential buffer for electronic reader boards and from dimensional requirements for electronic reader boards from the Board of Adjustment.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 10 **Signs**

10.8 Sign Design

10.8.2.5 No sign may contain or be illuminated with flashing or intermittent lights or lights of changing degrees of intensity except electronic message boards or historic signs under the following conditions and restrictions:

i. The restoration or operation of historic signs within a local historic conservation district or a district listed in

the National Register of Historic Places.

ii. Electronic message board lighting may be provided by right in the B-3 and B-5 Districts or in the R-1A and R-3 District as a conditional use as follows:

iii. Flashing, blinking, animated or scrolling messages, or interactive signs are prohibited. iv. Messages shall post for a minimum time of 8 seconds and the image will change instantaneously as seen by the human eye;

iv. Messages shall post for a minimum time of 8 seconds and the image will change instantaneously as seen by the human eye

v. Messages consisting of time or alphabetic or numeric characters on a background that may not include any video or moving images; vi. The use of red lights is discouraged in electronic message board signs;

vi. An electronic message is considered accessory to a larger static sign. The electronic message portion of such sign shall constitute no more than 40% of sign area of a freestanding sign and shall be limited to one such sign per lot.

vii. Electronic message boards shall be separated from the nearest lot line of any residential use by a minimum 200 feet.

viii. All electronic message boards shall be equipped with light sensing devices or a scheduled dimming timer that will automatically dim the intensity of the light emitted by the sign during ambient low-light conditions and at night so that the sign does not exceed the maximum brightness levels allowed in this section.

ix. Maximum brightness shall not exceed 0.3-foot candles over ambient light levels measured at a distance of one hundred and fifty (150) feet

x. Written certification from the sign manufacturer must be provided at the time of application for a sign permit certifying that the light intensity of the electronic message center has been preset not to exceed the illumnation levels established by this section.

xi. Any malfunction shall be repaired or disconnected within 48 hours by the owner or operator of such sign

Present Zoning: R-3 Multi-Family Residential

August 2025 HPC Item: A
Anointed Word Ministries, Property Owner/Applicant, and Clifford Lockhart, Contractor/Representative
Request for: **Conditional Use Approval**

Present Use: Place of Worship

Future Land Use: Neighborhood Business Corridor

Surrounding Zoning and Land Use:
North: R-1B Single-Family Residential
South: R-3 Multi-Family Residential
East: R-3 Multi-Family Residential
West: R-3 Multi-Family Residential

Letters or Concerns stated: The Planning Division Office has not received any letters or other written communications regarding this case as of the finalization of this report.

Option: Recommend **Approval** or **Denial** of the Conditional Use Request for an electronic message board for a R-3 zoned property located at 748 W 4th Street (PPIN 26614, Forrest County, Ward 4).

Basis for approval:

12.3.3 Conditional Use Approvals

12.3.3.1 Compliance Required. Uses requiring Planning Commission approval, as noted in the Table of Uses in Section 5 of this Code, shall be approved subject to this Section. Any application for such use must comply with all applicable standards that apply to similar uses and properties in the zoning district in general, the specific conditions listed for that use in Section 5, and the following criteria. Where conflicts exist, the Planning Commission shall determine which criteria apply on a case-by-case basis.

12.3.3.2 Additional Approval Criteria. In addition to the standards mentioned above, the applicant for a request for the Planning Commission to approve a use shall be required to demonstrate that his/her proposal addresses the following additional requirements, except that the Planning Commission may waive any one or more criteria that it determines are not applicable based upon the expected impact of the proposal.

i. Determination that adequate public facilities and services will be available concurrent with the impacts of the development as evidenced by letters of sufficiency from utilities and schools and a determination by the city engineer that the available capacity of existing streets can safely provide access to the site.

ii. The proposed development will be compatible with surrounding uses and will protect adjacent properties through the following measures:

- Protection of privacy. The proposed plan shall provide reasonable visual and auditory privacy for all dwelling units located within and adjacent to the site. Fences, walls, barriers and / or vegetation shall be arranged to protect and enhance the property and to enhance the privacy of on-site and neighboring occupants.
- Protection of use and enjoyment. The proposed plan shall be designed and arranged to have minimal negative impact on the use and enjoyment of adjoining property.
- Compatible design and integration. The use meets all design criteria required by this Code that apply and is designed to integrate well both on and off site.

MY COMMISSION EXPIRES SEPTEMBER 23, 2028
COMMISSION NUMBER 91129

My Commission Expires: September 23, 2028

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   Without Information Sign, Anointed Word would likely cause several significant hardships for the Church, imparting its operations, outreach and connections with the congregation and community. The Sign is a vital part of Anointed Word and if removed it will impact growth & overall missi

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   The Church is simply using a standard tool fo its operations, and taking it away would be detrimental.

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   All the rules and regulation of the Signs are being meet. No violation have been observed.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   200 feet Buffer

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

For Sign face 4'x8' the Sign Been there Sens 1970's But the New facing has Not

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

No it will not Conflict with Purposes and intent expressed

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR CONDITIONAL USE APPLICANTS:

Section 12.3.3.1 Compliance Required. Uses requiring Planning Commission approval as noted in the Tables of Uses in Section 5 of this Code, shall be approved subject to this Section.

Any application for such use must comply with: all applicable standards that apply to similar uses and properties in the zoning district in general, the specific conditions listed for that use in Section 5, and the following criteria. *Where conflicts exist, the Planning Commission shall determine which criteria apply on a case-by-case basis.*

1. **Does this application meet the conditions set forth in Section 5 of the LDC for the requested use? If yes, please explain:**

2. **Describe the effects the proposed use of utilities and facilities will have on the community.**

   It will have none on Community

3. **Describe how the size of the site is appropriate for the proposed use.**

   it is only a 4X8 that has been there since 1970's

4. **Will there be any additional pedestrian or vehicular traffic generated by the proposed use? If yes, please explain:**

   NO

5. **Will there be any elevation in the noise level resulting from this proposed use? If yes, please explain:**

   NO

6. **What is the expected number of customers/employees per day?**

N/A

7. **Is proposed use compatible with surrounding uses and design? If yes, please explain:**

Yes

8. **Parking requirements:** Commercial/Industrial: Paved parking will be provided for _____ vehicles, and _____ ADA vehicles; with _____ loading spaces.

For more information, please reference the Land Development Code Section 12.3.3.2

Petition Affirming Neighborly Acceptance of Anointed Word Ministries' Information Board Sign

To Whom It May Concern:

We, the undersigned residents and neighbors residing in the vicinity of Anointed Word Ministries, located at 748 West 4th Street Hattiesburg, MS, wish to formally express our collective sentiment regarding the ministry's information board sign.

We hereby affirm that we **do not** have any objections or concerns regarding the content or display of the information board sign belonging to Anointed Word Ministries. We understand that this sign serves as a valuable means of communication for the ministry, providing information about services, events, and other relevant announcements to both its congregation and the wider community.

We recognize and respect Anointed Word Ministries' right to utilize such a sign for informational purposes. We value their presence in our neighborhood and appreciate their efforts to engage with the community.

Therefore, we respectfully request that any considerations or actions based on the premise of neighborhood opposition to the Anointed Word Ministries' information board sign be disregarded, as this petition clearly indicates the lack of such concerns among the undersigned residents.

Sincerely,

Memorandum

To: **Mayor Toby Barker and Members of City Council**

From: **Wiley Quinn, Urban Development Director**

cc: **Ann Jones**

Date: **Tuesday, October 21, 2025**

Re: **Take from the Table: Accept the Board of Adjustment's recommendation to approve variances requested for a sign located at 748 W 4th Street (Forrest County, Ward 4). The variances requested are:**

- **A variance from the requirement of the minimum 200ft separation from the nearest lot line of any residential use to allow for 94 ft separation.**
- **A variance from the requirement of a maximum of 40% of the sign as an electronic reader board to allow for 58%.**

File Number: 2025-665
Minute Book #

Summary

Recommendation Statement
The Board of Adjustment recommended approving the request on August 6, 2025.

Please place this on the October 21, 2025 City Council meeting for consideration.

748 W 4th Street	2-029L-09-037.00	26614	4

Request: Residential Buffer for an Electronic Reader Board Variance

Purpose of Request: Anointed Word Ministries, Property Owner/Applicant, and Clifford Lockhart, Contractor/Representative, request a variance from the requirement of the minimum 200ft separation from the nearest lot line of any residential use to allow for 94 ft separation and a variance from the requirement of a maximum of 40% of the sign as a electronic reader board to allow for 58% for a sign located at a R-3 zoned property at 748 W 4th Street (PPIN 26614, Forrest County, Ward 4).

History / Background: The applicant applied for a sign permit for a static face replacement for the monument sign for Anointed Word Ministry Church in April of 2024. The permit noted that it was to be a “Face Replacement on a 4x8 sign, ‘lighted’, Replace Broken Glass and Letter Paint.” The application for the sign permit did not note that the sign would include a digital reader board portion. The sign permit was approved on April 24, 2024, with a note that the permit approval was for a “Face Replacement Only.” The permit was paid for and picked up on April 30th, 2024, and work commenced on the sign.

August 2025 BOA Item: A
Residential Buffer for Electronic Reader Board
Anointed Word Ministries, Property Owner/Applicant, and Clifford Lockhart, Contractor/Representative

On August 13th, 2024, planning staff noticed that the sign was not installed as per the sign permit as a "face replacement," but instead was completely refaced and included an electronic reader board. Per the Land Development Code, signs with an electronic reader board portion are required to be 40% or less of the entire sign, 200ft or more from a residential property line. They are only permitted in B-5 and B-3 by right and R-1C and R-3 with conditional use approval.

A notice of violation was issued on August 23, 2024, outlining the violations found in the unpermitted sign installation and included methods to make the sign compliant, which included a pre-application form to meet with staff. No pre-application meeting was scheduled with the applicant, as no pre-application form was submitted to the planning division. Code Enforcement issued a complaint and citation on August 27th for the violation of installing a sign without a permit, and the applicant was summoned to appear in court on November 17th, 2024.

Three court appearances were held in January, April, and June of 2025. The applicant applied for a public hearing for the August meetings for the Planning Commission and Board of Adjustment. The applicant is seeking conditional use approval for an electronic reader board on a R-3 zoned property from the Planning Commission and a variance from the residential buffer for electronic reader boards and from dimensional requirements for electronic reader boards from the Board of Adjustment.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 10 **<u>Signs</u>**
10.8 Sign Design

10.8.2.5 No sign may contain or be illuminated with flashing or intermittent lights or lights of changing degrees of intensity except electronic message boards or historic signs

under the following conditions and restrictions:

i. The restoration or operation of historic signs within a local historic conservation district or a district listed in the National Register of Historic Places.
ii. Electronic message board lighting may be provided by right in the B-3 and B-5 Districts or in the R-1A and R-3 District as a conditional use as follows:
iii. Flashing, blinking, animated or scrolling messages, or interactive signs are prohibited. iv. Messages shall post for a minimum time of 8 seconds and the image will change instantaneously as seen by the human eye;
iv. Messages shall post for a minimum time of 8 seconds and the image will change instantaneously as seen by the human eye
v. Messages consisting of time or alphabetic or numeric characters on a background that may not include any video or moving images; vi. The use of red lights is discouraged in electronic message board signs;
vi. An electronic message is considered accessory to a larger static sign. The electronic message portion of such sign shall constitute no more than 40% of sign area of a freestanding sign and shall be limited to one such sign per lot.
vii. Electronic message boards shall be separated from the nearest lot line of any residential use by a minimum 200 feet.
viii. All electronic message boards shall be equipped with light sensing devices or a scheduled dimming timer that will automatically dim the intensity of the light emitted by the sign during ambient low-light conditions and at night so that the sign does not exceed the maximum brightness levels allowed in this section.
ix. Maximum brightness shall not exceed 0.3-foot candles over ambient light levels measured at a distance of one hundred and fifty (150) feet
x. Written certification from the sign manufacturer must be provided at the time of application for a sign permit certifying that the light intensity of the electronic message center has been preset not to exceed the illumnation levels established by this section.

xi. Any malfunction shall be repaired or disconnected within 48 hours by the owner or operator of such sign

Present Zoning: R-3 Multi-Family Residential

Present Use: Place of Worship

Future Land Use: Neighborhood Business Corridor

Surrounding Zoning and Land Use:
North: R-1B Single-Family Residential
South: R-3 Multi-Family Residential
East: R-3 Multi-Family Residential
West: R-3 Multi-Family Residential

Letters or Concerns stated: The Planning Division Office has not received any letters or other written communications regarding this case as of finalizing this report.

Option: Recommend **approval or denial** of the variance from the requirement of the minimum 200ft separation from the nearest lot line of any residential use to allow for 94 ft separation and a variance from the requirement of a maximum of 40% of the sign as a electronic reader board to allow for 58% for a sign located at a R-3 zoned property at 748 W 4th Street (PPIN 26614, Forrest County, Ward 4).

Basis for Approval (12.4.1.1):

Approval Criteria. A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria:

I. Hardship.
• The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
• There are exceptional conditions creating an undue

hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

MY COMMISSION EXPIRES SEPTEMBER 23, 2028
COMMISSION NUMBER 91129

My Commission Expires: September 23, 2028

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   Without Information Sign, Anointed Word would likely cause several significant hardships for the Church, imparting its operations, outreach and connections with the congregation and community. The Sign is a vital part of Anointed Word and if removed it will impact growth & overall missi

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   The Church is simply using a standard tool fo its operations, and taking it away would be detrimental.

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   All the rules and regulation of the Signs are being meet. No violation have been observed.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   200 feet Buffer

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

For Sign face 4'x8' the Sign Been there Sens 1970's But the New facing has Not

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

No it will not Conflict with Purposes and intent expressed

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR CONDITIONAL USE APPLICANTS:

Section 12.3.3.1 Compliance Required. Uses requiring Planning Commission approval as noted in the Tables of Uses in Section 5 of this Code, shall be approved subject to this Section.

Any application for such use must comply with: all applicable standards that apply to similar uses and properties in the zoning district in general, the specific conditions listed for that use in Section 5, and the following criteria. *Where conflicts exist, the Planning Commission shall determine which criteria apply on a case-by-case basis.*

1. **Does this application meet the conditions set forth in Section 5 of the LDC for the requested use? If yes, please explain:**

2. **Describe the effects the proposed use of utilities and facilities will have on the community.**

   It will have none on Community

3. **Describe how the size of the site is appropriate for the proposed use.**

   it is only a 4X8 that has been there since 1970's

4. **Will there be any additional pedestrian or vehicular traffic generated by the proposed use? If yes, please explain:**

   NO

5. **Will there be any elevation in the noise level resulting from this proposed use? If yes, please explain:**

   NO

6. **What is the expected number of customers/employees per day?**

N/A

7. **Is proposed use compatible with surrounding uses and design? If yes, please explain:**

Yes

8. **Parking requirements:** Commercial/Industrial: Paved parking will be provided for _____ vehicles, and _____ ADA vehicles; with _____ loading spaces.

For more information, please reference the Land Development Code Section 12.3.3.2

Refer to the hattiesburgms.com/planning for Land Development Code and GIS map. Access via link or QR code.

Petition Affirming Neighborly Acceptance of Anointed Word Ministries' Information Board Sign

To Whom It May Concern:

We, the undersigned residents and neighbors residing in the vicinity of Anointed Word Ministries, located at 748 West 4th Street Hattiesburg, MS, wish to formally express our collective sentiment regarding the ministry's information board sign.

We hereby affirm that we **do not** have any objections or concerns regarding the content or display of the information board sign belonging to Anointed Word Ministries. We understand that this sign serves as a valuable means of communication for the ministry, providing information about services, events, and other relevant announcements to both its congregation and the wider community.

We recognize and respect Anointed Word Ministries' right to utilize such a sign for informational purposes. We value their presence in our neighborhood and appreciate their efforts to engage with the community.

Therefore, we respectfully request that any considerations or actions based on the premise of neighborhood opposition to the Anointed Word Ministries' information board sign be disregarded, as this petition clearly indicates the lack of such concerns among the undersigned residents.

Sincerely,

The motion to approve the May 7th meeting minutes was passed by an 8-0 vote.

PLANNING REPORT

The Planning Division staff gave a report.

CHAIR'S REPORT

No report from the chair.

INTRODUCTIONS:

Board of Adjustment members and Staff introduced themselves.

PUBLIC HEARING:

Item A: Anointed Word Ministries, Property Owner/Applicant, and Clifford Lockhart, Contractor/Representative, request a variance from the requirement of the minimum 200ft separation from the nearest lot line of any residential use to allow for 94 ft separation and a variance from the requirement of a maximum of 40% of the sign as a electronic reader board to allow for 58% for a sign located at a R-3 zoned property at 748 W 4th Street (PPIN 26614, Forrest County, Ward 4).

Discussion and Vote:

Staff introduced the case.

Presented by:

- Clifford Lockhart

Proponents:

- None

Opponents:

- None

Motion:

Bernard Green motioned to recommend approval of the requests based upon literal interpretation and conforming to the purpose of the code.

Second:

Made by Sandi Boykins

Vote:

Board Member	Yea	Nay	Other
John Eye		X	
Richard Conville	X		
Bernard Green	X		
Shawn Harris	X		
Brandon Williams	X		
Stacey Ready	X		

Herman Dungan		X	
Sandi Boykins	X		
Jessica Cathey			ABSENT
James Hughes			ABSENT

The motion to recommend approval of the request was passed by a 6-2 vote.

Item B: William Carey University, Property Owners/Applicants, Grant Guthrie, Property Owner/Applicant, John Anglin, Engineer, and Kevin Lewis, Architect, request a variance from the requirement of the maximum fence height in a front setback of 4ft to allow for 6ft for an R-3 zoned property located at 198 Magnolia Ave (PPIN 13692, Forrest County, Ward 5).

Discussion and Vote:

Staff introduced the case.

Presented by:

- Kevin Lewis

Proponents:

- None

Opponents:

- None

Motion:

Richard Conville motioned to recommend approval of the request.

Request: Rezoning

Purpose of Request: Danny Travis, Property Owner, requests approval of a zoning change from R-1C to R-2 for a property located at 209 Unetta Street (PPIN 21167, Forrest County, Ward 2).

History / Background: The applicant met with staff in the summer of 2025 to discuss establishing the existing structure at 209 Unetta Street as a two-plex dwelling. Staff explained that because the property has been vacant for more than six (6) months, the nonconforming use cannot be reestablished. In order to utilize the property as a two-plex, the site would need to be rezoned to R-2 (Two-Family Residential District). The property is currently zoned R-1C (Single-Family Residential District), which does not permit two-family dwellings.

The current Comprehensive Plan places this property within the Neighborhood Conservation District 1, which allows for single-family, certain two-family, and multifamily uses when constructed in keeping with the character of the surrounding neighborhood, subject to use, density, and design guidelines.

The structure falls just outside of two historic districts (Newman-Buschman and the Hattiesburg Historic District) and is not subject to the design standards for those areas. Built in 1909, the house is consistent in character with other structures from the same period within those districts. Historical examples of intentionally converted duplexes can be found within these districts as well.

The Comprehensive Plan's call for slightly higher residential densities in this area reflects a broader effort to expand housing options and make efficient use of existing land and infrastructure. Guidance from the APA Housing Supply Accelerator Playbook notes that modest density increases through "missing middle" housing types—such as duplexes, townhomes, and small multifamily—can increase housing attainability, serve a wider range of household needs, and reduce per-unit development costs. Reintroducing housing types historically present in older neighborhoods also maintains neighborhood scale while offering additional housing choices.

Staff notes that this rezoning request is generally consistent with the Comprehensive Plan's designation for Neighborhood Conservation District 1, which anticipates a mix of single-family and limited two-family dwellings constructed in character with surrounding development.

The Planning Commission should consider whether the neighborhood has changed significantly so that rezoning is justified, and whether there is a public need for the requested zoning change.

Applicant Summary: * See Attached *

Applicable Regulations:

SECTION 2 **Applicability**

2.4.4 Nonconforming Uses.
A legal nonconforming use is a use existing legally at the time of the passage of this Code, or the time of annexation into the City's jurisdiction, which does not by reason of use conform to the regulations of the district in which it is located. A use established after the passage of this Code which does not conform to regulations of the district in which it is located shall be considered an illegal nonconforming use and is a violation of this Code. Legal nonconforming uses of land or structures may continue only in accordance with all of the following provisions.

2.4.4.4 Reestablishment Restricted.
A legal nonconforming use, when discontinued or abandoned, shall not be resumed. Discontinuance or abandonment shall be

defined as:

i. When land used for a legal nonconforming use ceases to be used in a bona fide manner or a period of six consecutive calendar months.

ii. When a building designed or arranged for a nonconforming use ceases to be used in a bona fide manner as a legal nonconforming use for a continuous period of six consecutive calendar months.

iii. When a building designed or arranged for a conforming use shall cease to be used in a bona fide manner as a legal nonconforming use for a period of six consecutive calendar months.

SECTION 4 **Zoning Districts Established**

4.5.5 R-1C Single-Family Residential: The purpose of the R-1C District is to permit single-family residential uses with related recreational, religious and educational facilities. This district is consistent with the Neighborhood Conservation 1 and 2 districts in the Comprehensive Plan. This zoning district encourages protected lower-density residential neighborhoods with only compatible supporting institutional uses and open space.

4.5.6 R-2 Two-Family Residential District: The purpose of the R-2 District is to permit medium density residential uses including two-family, or duplex structures, with related recreational, religious and educational facilities. This district is consistent with the Neighborhood Conservation 1 and 2 districts in the Comprehensive Plan. This zoning district encourages protected residential neighborhoods with only compatible supporting institutional uses and open space

SECTION 13 **Definitions**

Dwelling, Single-Family: A single dwelling designed and occupied exclusively by not more than one family.

Dwelling, Two-Family: A dwelling designed and intended to be occupied by two families living independently of each other.

Present Zoning: The property is currently zoned R-1C Single-Family Residential.

Present Use: Dwelling, Single-Family Residential *(originally constructed as a two-family residential)*

October 2025 HPC Item: B
Danny Travis, Property Owner/Applicant
Request for: **Rezoning**

Future Land Use:	Neighborhood Conservation District 1
Surrounding Zoning and Land Use:	North: R-1C Single-Family Residential South: R-1C Single-Family Residential East: R-1C Single-Family Residential West: R-1A Single-Family Residential
Letters or Concerns stated:	As of finalizing this report, the Planning Division Office had received no calls or letters of concern.
Option:	Recommend **Approval** or **Denial** of a zoning change from R-1C to R-2 for a property located at 209 Unetta Street (PPIN 21167, Forrest County, Ward 2).
Basis for approval (Zoning Change):	I. There was a mistake in the original zoning II. The character of the neighborhood has changed substantially so that rezoning is clearly justified **and** there is a public need for the rezoning III. Annexation

ORDINANCE NUMBER _____

OF THE

CITY OF HATTIESBURG, MISSISSIPPI
AN ORDINANCE CHANGING AND AMENDING THE COMPREHENSIVE ZONING DISTRICT MAP, ADOPTED AS PART OF THE LAND DEVELOPMENT CODE ORDINANCE NO. 3209, AS AMENDED, OF THE CITY OF HATTIESBURG, MISSISSIPPI FOR A CERTAIN PROPERTY LOCATED AT 209 UNETTA STREET (PARCEL 2-029I-10-252.00, PPIN 21167, FORREST COUNTY, WARD 2). FROM SECTION 4.5.5 R-1C SINGLE-FAMILY RESIDENTIAL DISTRICT TO SECTION 4.5.6 R-2 TWO-FAMILY RESIDENTIAL DISTRICT.

BE IT ORDAINED BY THE MAYOR AND COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI:

SECTION 1. That the Comprehensive Zoning District Map, adopted as part of the Comprehensive Zoning Ordinance No. 3209, as amended, of the City of Hattiesburg, Mississippi, be and the same is hereby changed and amended. The Hattiesburg Planning Commission recommended to Approve said change in zoning for the following reasons:

The character of the neighborhood has changed substantially so that rezoning is clearly justified, and there is a public need for the rezoning.

Lot 5, Block 6, D.D. Mcinnis First Survey or Addition to te City of Hattiesburg, Forrest County, Mississippi, as per the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi; together with all improvements thereon and appurtenances thereunto belonging.

SECTION 2. Except as hereby expressly changed and amended, the aforesaid Comprehensive Zoning District Map and the Land Development Code Ordinance No. 3209, as amended, of said City of Hattiesburg, Mississippi, shall be and remain in full force and form as adopted.

SECTION 3. That this Ordinance take effect and be in force thirty (30) days from and after passage as provided by law.

The foregoing Ordinance having been reduced to writing, the same was introduced by Council member _____ seconded by Council member _____ and was adopted by the following vote to-wit:

YEAS: NAYS:

THE President thereby declared the motion carried and the foregoing Ordinance adopted and approved, this the_____day of_____ A.D., 2025.

Summary

Recommendation Statement
The Planning Commission recommended approval on October 1st, 2025.

Please place this on the October 21, 2025 City Council meeting for consideration.

HPC October Item: C
Michael Anderson, Property Owner/Applicant
Request for**: Street/Alley Closure**

Planning Commission
Case Fact Sheet

Names of Petitioner: Michael Anderson, Property Owner/Applicant

Address of Property:	**Tax Parcels**	**PPIN:**	**Ward:**
1708 River Avenue	2-030L-11-290.00	20257	2
1710 River Avenue	2-030L-11-291.00	26685	2

Request: **Street/Alley Closure**

Purpose of Request: Michael Anderson, Property Owner/Applicant, requests to close and vacate a portion of a street and a portion of an alley located north of River Avenue and east of Morgan Street, also a part of the Magruder and Company Addition Subdivision (Forrest County, Ward 2)

History/Background: The applicant is requesting approval to vacate portions of an unimproved platted alley and unimproved platted street located north of River Avenue and east of Morgan Street, and also a part of the Magruder and Company Addition Subdivision. The proposed areas for closure would not restrict other properties from street or right-of-way access. Many of the adjacent properties within this area are owned by the City of Hattiesburg or the State of Mississippi, where they were purchased as part of a 1982 HUD Grant as part of a Disaster Assistance Program for acquisition and relocation of properties within flood zones. These buyouts resulted from multiple major floods in 1961, 1974, and 1980, and restrict the use of the properties to recreational/passive uses that do not inhibit the flow of flood waters or endanger the public.

The applicant owns property at 1708 and 1710 River Avenue. 1708 River Avenue is bound by Morgan Street to the east and by an unnamed alley to the west. The applicant is seeking to vacate the unimproved portion of Morgan Street, consistent with where their property boundary ends to the north, which is 103 feet deep,

starting from where it connects to River Avenue. The City of Hattiesburg owns the lot adjacent to the street to the west.

The portion of the unnamed alley between 1708 and 1710 River Avenue being requested for vacation would also be consistent with the applicant's property line for 1710 River Avenue, which extends 238 ft deep from where it begins at River Avenue.

Zoning classifications typically extend to the centerline of a public right-of-way. Upon closure, the vacated alley will assume the zoning designation of the adjacent parcels it merges with — consistent with standard practice.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 12.2 Categories of Development Approvals

Legislative Development Approvals – Street Closings

Present Use: Vacant Commercial Buildings

Surrounding Zoning and Land Use: The adjacent land to the alley being requested for vacation is a mixture of the following:

A-1 Agricultural
B-3 Community Business
R-1A Single-Family Residential

Please reference the zoning map attached to the image sheet

Letters or Concerns stated: As of finalizing this report, the Planning Division Office had received no calls or letters of concern.

Option: Recommend **Approval** or **Denial** of a request to close and vacate a portion of a street and a portion of an alley located north of River Avenue and east of Morgan Street, also a part of the Magruder and Company Addition Subdivision (Forrest County, Ward 2)

ORDINANCE NUMBER_____

OF THE

CITY OF HATTIESBURG, MISSISSIPPI

AN ORDINANCE OF THE MAYOR AND CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI, CLOSING A PORTION OF AN UNIMPROVED PLATTED STREET AND ALLEY OF THE MAGRUDER AND COMPANY SUBDIVISION ADDITION SUBDIVISION TO THE CITY OF HATTIESBURG (FORREST COUNTY).

WHEREAS, the Mayor and City Council of the City of Hattiesburg, Mississippi, pursuant to Sections 21-37-7 and 17-1-23 of the Mississippi Code of 1972, Annotated, as amended, are authorized to close public streets and alleys no longer necessary for public use, including the modification of recorded subdivision plats; and

WHEREAS, a request has been submitted to close a portion of a public street platted as "Morgan Street" located in **the Magruder and Company Addition Subdivision,** within the City of Hattiesburg; and

WHEREAS, a request has also been submitted to close a portion of a public alley also located in **the Magruder and Company Addition Subdivision,** within the City of Hattiesburg; and

WHEREAS, the subject street is approximately **40 feet wide, located between Blocks 9 and 10, inclusive of lots 11-13 of said block, of the Magruder and Company Addition Subdivision, extending 103 feet north starting at its intersection with River Avenue, more or less,** as shown on the recorded plat of said subdivision; and

WHEREAS, the subject alley is approximately **20 feet wide, adjacent to Block 10 on its eastern boundary, inclusive of lots 9-13 of said block, of the Magruder and Company Addition Subdivision, extending 238 feet north starting at its intersection with River Avenue, more or less,** as shown on the recorded plat of said subdivision; and

WHEREAS, the alley is no longer necessary for public access, circulation, or utility use, and its closure will not impair access to any parcel or impact public services; and

WHEREAS, public notice has been provided in accordance with law, and no objections have been received from adjacent property owners or utility providers; and

WHEREAS, the Hattiesburg Planning Commission reviewed this request on Wednesday, October 1, 2025, and voted to recommend approval; and

WHEREAS, the Mayor and City Council find that the closure of the alley is in the public interest and consistent with applicable statutory requirements;

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI, AS FOLLOWS:

SECTION 1.

That the following described public right-of-ways are hereby vacated and closed:

Proposed unimproved street (platted as Morgan Street):

> An unimproved platted 40-foot-wide street between Blocks 9 and 10, inclusive of Lots 11–13, of the Magruder and Company Addition Subdivision, extending approximately 103 feet north from its intersection with River Avenue, in the City of Hattiesburg, Forrest County, Mississippi. The above herein described street to be vacated contains 0.09 acres, more or less.

Proposed unimproved alley:

> An unimproved platted 20-foot-wide alley located along the eastern boundary of Block 10, inclusive of Lots 9–13, of the Magruder and Company Addition Subdivision, extending approximately 238 feet north from its intersection with River Avenue, in the City of Hattiesburg, Forrest County, Mississippi. The above herein described alley to be vacated contains 0.11 acres, more or less.
>
> Exhibit A has been included for reference of the street and alley being vacated.

SECTION 2.

This closure shall be deemed a modification to the recorded subdivision plat under **Section 17-1-23 of the Mississippi Code**, and the City Clerk is authorized to note this amendment accordingly in the official land records.

SECTION 3.

Upon closure, title to the vacated portion of the alley shall vest in accordance with Mississippi law, with ownership extending to the centerline of the alley from the adjacent lots.

SECTION 4.

The City retains all utility easements within the vacated right-of-way unless separately released.

SECTION 5.

This ordinance shall become effective thirty (30) days after its passage and publication as provided by law.

The foregoing Ordinance having been reduced to writing, the same was introduced by Council member _____seconded by Council member_____and was adopted by the following vote to-wit:

Lamar Blvd	052Q-10-044.005	40103	3

Request: Major Subdivision

Purpose of Request: Graham Development LLC, Property Owner/Applicant, requests approval of a major subdivision and a plat alteration for a B-5 zoned property. More specifically, this will add lot six to the Hattiesburg Market Place Subdivision. (PPINs 12113, 37027, 24497, 40059, & 40103, Lamar County, Ward 3).

History / Background: The subject property is part of the larger Hattiesburg Market Place Subdivision, located along U.S. Highway 98 and Lamar Boulevard. The original parent tract consisted of approximately 15 acres and has been gradually subdivided to create multiple commercial lots fronting Graham Property Drive and Lamar Boulevard. These lots have accommodated a mix of commercial and civic uses, including banks, offices, retail development, and public safety facilities.

The proposed plat creates Lot 6, a parcel of approximately 1.42 acres, further dividing the remaining land within the subdivision. This lot continues the pattern of creating mid-sized commercial parcels along Graham Property Drive to support outparcel development while maintaining shared access and internal circulation.

As part of prior phases of development, the applicant coordinated with the Mississippi Department of Transportation

(MDOT) and City of Hattiesburg to construct additional turn lanes from U.S. Highway 98 into the development, which are currently being constructed. These improvements re designed to accommodate increased traffic demand associated with the build-out of the subdivision and provide safer, more efficient access to Graham Property Drive and Lamar Boulevard.

While substantial infrastructure improvements have been made, some of the dedicated public infrastructure from the original subdivision request remains incomplete, including the final asphalt overlay, street trees, and street lighting along Graham Property Drive. The City is currently holding a performance bond to ensure these improvements are completed in accordance with subdivision requirements.

No new public infrastructure is proposed as part of this request. The public hearing is being held to consider a plat modification, consistent with Mississippi Code § 17-1-23, which requires governing body approval of subdivisions and resubdivisions of land.

Applicant Summary: * See Attached *

Applicable Regulations:

SECTION 4 **Zoning Districts Established**

4.5.10 B-5 Regional Business District: The purpose of the B-5 District is to provide for retail, personal and business services, offices, and financial services in locations with convenient access to the region's population consistent with comprehensive planning policies. This district is consistent with the Regional Business District in the Comprehensive Plan.

SECTION 4 **Dimensional Standards and Measurements**

Table 6.1 Dimensional Standards

District	Minimum Lot Size in SF/ Width at Setback	Max. Dwelling Units	Max. Floor Area Ratio	Setbacks in feet				Max. Height*	Max. Impervious Surface Lot Coverage	Buffer in Feet
				Min. Front	Max. Front	Min. Side	Min. Rear			
B-1	0/100	-	.75	20	25	0 or 15	0	35 feet or 3 stories	80%	20
B-2	4,000/ 100	-	0.75	0	10	0 or 10	0	35 feet or 3 stories	80%	20
B-3	No minimum/ 100	-	1.00	30	-	0 or 10	0	40 feet or 3 stories	80%	30
B-4	No minimum/ none	-	No limit	0	10	0	0	135 feet or 10 stories	100%	40
B-5	No minimum/ 100	-	1.50	30	150	0 or 10	0	72 feet or 6 stories	90%	50

SECTION 11 **Administration and Enforcement**

11.10.1.8 Subdivision Violations. The owner of a subdivision shall not transfer title to any lot in such subdivision until such time as the final plat has been approved by the appropriate authority as outlined in this Code and duly recorded in the office of the Chancery Clerk of Forrest County or Lamar County, Mississippi. Transfers prior to such approval and recording shall be deemed a violation of this Code and shall be subject to any and all remedies available to the City.

11.10.1.9 Recording Violations.
The Chancery Clerks of Forrest County and Lamar County, Mississippi shall not receive, file or record a plat of a subdivision within the jurisdiction of this Land Development Code without prior approval of the appropriate authority as outlined in this Code. Plats recorded prior to such approval shall be deemed unlawful and invalid

SECTION 12 **Process and Procedures**

Categories of Development Approvals

12.3.2 Preliminary Plat Approval for Major Subdivisions
12.3.2.1 Approval Criteria.
i. Conformance with the Hattiesburg Comprehensive Plan.
ii. Conformance with the standards of the zoning district.
iii. Conformance with other standards and requirements of this

Code and other City policies and regulations.
iv. Determination that adequate public facilities and services will be available concurrent with the impacts of the subdivision.
v. Determination that the project will have little or no adverse or negative impacts upon the natural environment.

12.3.2.4 Final Plat.
i. No Significant Change. Final plats of major subdivisions that are substantially the same as the approved preliminary plat, as determined by the Site and Design Review Committee, shall be approved administratively.
ii. Significant Change. Final plats that exhibit any significant deviation from the approved preliminary plat, as determined by the Site Plan Review Committee, shall require approval by the Planning Commission.

12.3.2.5 Recording.
Recording. In order to be an official and legal plat, the final approved plat must be recorded along with all applicable covenants, deed restrictions and property owners' association documents with the Chancery Clerk of Forrest or Lamar County, as appropriate. The City Engineer shall ensure that the City records this information within 90 days of submission for acceptance with any applicable bonds.

12.3.2.6 Duration.
As this code and state and federal law may change over time, approval of a preliminary plat shall be effective for a maximum period of one (I) year for a permit to be submitted to the city. A six (6) month extension may be granted upon the Planning Commission's recommendation to the City Council followed by an approval of the Council. An extension request must come in writing by the subdivider before the regularly scheduled Planning Commission hearing in which it is to be heard. The Planning Commission will offer its recommendation under "other business" as notice was given at the original hearing date. If the final plat has not been submitted to Urban Development within this time limit, the preliminary plat process shall begin anew.

Section 13 **DEFINITIONS**

Subdivision: The division of a lot, tract, or parcel of land into two or more lots, plats, sites, or other divisions of land for the

purpose, whether immediate or future, of sale, lease or building development by means of an appropriately recorded legal document.

Subdivision, Major: Any subdivision of land (lot split) that does not conform to the definition of a minor subdivision

Subdivision, Minor: Any subdivision (lot split) containing not more than three lots fronting on an existing street that does not result in the creation of any new street, the extension of municipal utilities, or the need for additional public improvements. A series of related minor subdivisions on contiguous land cumulatively totaling four or more lots shall be construed to create a major subdivision.

Miss. Code Ann. § 17-1-23 – Subdivision Regulation

Section 4 –

(4) If the owner of any land which shall have been laid off, mapped or platted as a city, town or village, or addition thereto, or subdivision thereof, or other platted area, whether inside or outside a municipality, desires to alter or vacate such map or plat, or any part thereof, he may petition the board of supervisors of the county or the governing authorities of the municipality for relief in the premises, setting forth the particular circumstances of the case and giving an accurate description of the property, the map or plat of which is to be vacated or altered and the names of the persons to be adversely affected thereby or directly interested therein. However, before taking such action, the parties named shall be made aware of the action and must agree in writing to the vacation or alteration. Failure to gain approval from the parties named shall prohibit the board of supervisors or governing authorities from altering or vacating the map or plat, or any part thereof. Any alterations of a plat or map must be recorded in the appropriate location and a note shall be placed on the original plat denoting the altered or revised plat. No land shall be subdivided nor shall the map or plat of any land be altered or vacated in violation of any duly recorded covenant running with the land. Any municipality which shall approve such a vacation or alteration pursuant to this section shall be exempt from the sale of surplus real property provisions as set forth in Section 21-17-1.

October 2025 HPC Item: D
Graham Development LLC, Property Owner/Applicant, Request for: **Major Subdivision**

Present Zoning: The property is currently zoned B-5 Regional Business

Present Use: Commercial Businesses and Vacant/unimproved

Future Land Use: Regional Business Corridor and Regional Business

Surrounding Zoning and Land Use:

North: R-1A Single-Family Residential
South: B-5 Regional Business
East: B-5 Regional Business & R-3 Multi-Family Residential & Outside City Limits
West: B-5 Regional Business

Letters or Concerns stated: As of finalizing this report, the Planning Division Office had received no calls or letters of concern.

Option: Recommend **Approval** or **Denial** of a preliminary plat for a major subdivision and a plat alteration for a B-5 zoned property. More specifically, this will add lot six to the Hattiesburg Market Place Subdivision. (PPINs 12113, 37027, 24497, 40059, & 40103, Lamar County, Ward 3).

Basis for approval: Planning Commission must deem that all of the following approval criteria must be met before granting approval for the Preliminary Plat for a Major Subdivision:

12.3.2 Preliminary Plat Approval for Major Subdivisions
12.3.2.1 Approval Criteria.
i. Conformance with the Hattiesburg Comprehensive Plan.
ii. Conformance with the standards of the zoning district.
iii. Conformance with other standards and requirements of this Code and other City policies and regulations.
iv. Determination that adequate public facilities and services will be available concurrent with the impacts of the subdivision.
v. Determination that the project will have little or no adverse or negative impacts upon the natural environment.

NAME OF RECORDED SUBDIVISION TO BE ALTERED:

Hattiesburg Market Place (Lot 6)

I am writing to formally submit my application for approval of a subdivision alteration as per the requirements outlined in Mississippi State Code 17-1-23, Section 4. I have diligently complied with the provisions of this statute by identifying and notifying individuals who may be adversely affected or directly interested in the proposed alteration.

Below is a summary of the steps required to meet the requirements of Mississippi State Code 17-1-23 for alteration of a plat:

1. Identification of Affected Individuals: I have thoroughly documented and named all persons who would be adversely affected by or directly interested in the proposed subdivision alteration.
2. Notification of Proposed Changes: Before initiating any action regarding the alteration, I have ensured that the parties named are made aware of the proposed changes.
3. Obtaining Written Agreement: I have obtained written agreements to the vacation or alteration from all affected individuals, as required by the statute.

I have also submitted the following with this application:

☒ List of persons who are adversely affected or otherwise directly interested in the alteration of the subdivision

☒ Written agreements from the persons identified approving the proposed alteration

☒ Proposed alteration to the subdivision, drawn to scale.

Enclosed with this application, you will find comprehensive documentation supporting my compliance with Mississippi State Code 17-1-23, Section 4. This includes a list of individuals adversely affected or directly interested in the proposed subdivision alteration, along with copies of their written agreements to the vacation or alteration.

I attest that I have met the requirements above for the alteration of a recorded subdivision in the State of Mississippi and the City of Hattiesburg as outlined in MS State Code 17-1-23.

Signature _____ Date 8/25/2025

Note: Hattiesburg Market Place (Lot 6) is a proposed subdivision and does not alter any existing platted subdivision.

the following described real property, lying and being situate in Lamar County, Mississippi, described as follows, to-wit:

File No. 16-09-1044

A parcel of land being part of the SE¼ of the SW¼, Section 10, and the NE¼ of the NW¼, Section 15, Township 4 North, Range 14 West, Lamar County, Mississippi, and being more particularly described as follows (BEARINGS ARE BASED ON GRID NORTH): Commencing at a capped iron pin at the NE corner of the NE¼ of the NW¼ of Section 15, Township 4 North, Range 14 West, Lamar County, Mississippi, said point also being the Point of Beginning; thence run South 00°02'45" East along the East line of the said forty for 662.84 feet to an iron pin at the SE corner of the N½ of the NE¼ of the NW¼ of Section 15; thence run North 89°30'59" West along the South line of the N½ of the NE¼ of the NW¼ for 1049.72 feet to a capped iron pin on the Eastern right of way line of Lamar Boulevard; thence run North 01°09'14" West along the said right of way line for 503.62 feet to an iron pin; thence run North 02°16'17" West along the said right of way line for 213.84 feet to a capped iron pin; thence run North 87°25'44" East for 209.37 feet to an iron pin; thence run North 02°31'45" West for 213.09 feet to a capped iron pin; thence run North 89°42'38" East for 869.41 feet to a capped iron pin on the East line of the SE¼ of the SW¼ of Section 10; thence run South 00°11'23" West along the said East line for 34.41 feet to a concrete monument; thence run South 00°17'04" West along the said East line for 255.46 feet back to the Point of Beginning; said parcel contains 21.99 acres, more or less; all together with all improvements thereon and appurtenances thereunto belonging.

Grantors and Grantees shall pro-rate county and state ad valorem taxes for 2016.

The above warranty and this conveyance is made subject to prior reservations of oil, gas and other minerals by former owners.

The above warranty and this conveyance is made subject to any and all valid and outstanding oil, gas and mineral leases, exceptions, reservations and conveyances.

The above warranty and this conveyance is made subject to any and all covenants, restrictions or conditions of record or in use of the subject property, and any and all rights of way and easements for public roads and public utilities as presently laid out, constructed or in use.

The above warranty and this conveyance are subject to those certain subdivision regulations of record in Minute Book 59 at Page 202, Minute Book 82 at Page 282, Minute Book 112 at Pages 144 and 290, and Minute Book 148 at Page 706 and recorded in Ordinances Book 1 at Page 507 and to those site plan regulations of record in Minute Book 142 at Page 173, Minute Book 148 at Page 727 and recorded in Ordinances Book 1 at Page 528.

The above warranty and this conveyance are subject to that easement to Pearl River Valley Electric Power Association dated September 28, 2004, and recorded in Land Deed Book 17-I at Page 664 in the office of the Chancery Clerk of Lamar County, Mississippi.

Grantors herein warrant that the above described real property does not constitute a part of their respective homesteads, nor is it adjacent thereto.

MINUTES OF THE

REGULAR MEETING OF THE

HATTIESBURG PLANNING COMMISSION

October 1st, 2025

Board Members Roll Call:

Members Present:

1. Amy Hinton, Chair
2. Elayne Lockett
3. Lee Anne Venable
4. Richard Conville
5. Charles Dawe (Virtual)
6. Caroline Ingram
7. Edward Hargrove

Members Not Present:

1. Rhoda Pickett, Vice Chair
2. Michael Dickerson
3. Rebekah Ray, Secretary
4. Vacant Seat

Staff Present:

1. Cory Long, Planning Manager
2. Nathan Satcher, Senior Planner
3. Kevin Bates, Building Official
4. David Miller, Esq.
5. Meridian McDaniel, Planner I

Chair Hinton declared the Hattiesburg Planning Commission meeting open and in session at 1:03 p.m.

AGENDA REVIEW

Motion:

Made by Commissioner Richard Conville to approve October's agenda.

Second:

Made by Commissioner Lee Anne Venable

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X		
Rhoda Pickett			ABSENT
Edward Hargrove	X		
Rebekah Ray			ABSENT
Lee Anne Venable	X		
Caroline Ingram	X		

The motion to approve October's agenda was passed by a 7-0 vote.

MINUTES REVIEW

Motion:

Made by Commissioner Lee Anne Venable to approve the September 2025 meeting minutes with corrections to the tracking highlight.

Second:

Made by Commissioner Elayne Lockett

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X

Rebekah Ray			ABSENT
Lee Anne Venable	X		
Caroline Ingram	X		

The motion to approve the meeting minutes for September 2025 meeting minutes with corrections to the tracking highlight passed with a 7-0 vote.

BUILDING REPORT

Kevin Bates, Building Official, provided the Building Permit Report for September 2025.

PLANNING REPORT

Planning staff provided updates on the previous month's agenda items.

CHAIR'S REPORT

The Chair did not have a report for the meeting.

INTRODUCTIONS

Commissioners and staff introduced themselves.

PUBLIC HEARING – Planning Commission

Item A: Monir Sanaany, Property Owner/Applicant, requests a zoning change from B-2 to B-3 for a property located at 823 Edwards Street (PPIN 12895, Forrest County, Ward 2).

Discussion and Vote:

The Planning Staff introduced the case.

- Presented by:
  - Monir Sanaany
- Proponents:
  - None
- Opponents:
  - None

Motion:

Made by Commissioner Lee Anne Venable table the request until the end of the meeting since the applicant was absent.

Second:

Made by Commissioner Amy Hinton

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X		
Rhoda Pickett			ABSENT
Edward Hargrove	X		
Rebekah Ray			ABSENT

Lee Anne Venable	X		
Caroline Ingram	X		

The motion to table the request until the end of the meeting passed with a 7-0 vote.

Item B: Danny Travis, Property Owner, requests approval of a zoning change from R-1C to R-2 for a property located at 209 Unetta Street (PPIN 21167, Forrest County, Ward 2).

Discussion and Vote:

The Planning Staff introduced the case.

- Presented by:
  - Danny Travis
- Proponents:
  - Sedgerick L. Lee
- Opponents:
  - None

Motion:

Made by Commissioner Charles Dawe to recommend approval of the request.

Second:

Made by Commissioner Lee Anne Venable

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X		
Rhoda Pickett			ABSENT
Edward Hargrove	X		
Rebekah Ray			ABSENT
Lee Anne Venable	X		
Caroline Ingram	X		

The motion to recommend approval of the request passed with a 7-0 vote.

Item C: Michael Anderson, Property Owner/Applicant, requests to close and vacate a portion of a street and a portion of an alley located north of River Avenue and east of Morgan Street, also a part of the Magruder and Company Addition Subdivision (Forrest County, Ward 2)

Discussion and Vote:

The Planning Staff introduced the case.

- Presented by:
  - Michael Anderson
- Proponents:
  - None
- Opponents:
  - None

Motion:

Made by Commissioner Lee Anne Venable to recommend approval of the request.

Second:

Made by Commissioner Charles Dawe

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X		
Rhoda Pickett			ABSENT
Edward Hargrove	X		
Rebekah Ray			ABSENT
Lee Anne Venable	X		
Caroline Ingram		X	

The motion to recommend approval of the request passed with a 6-1 vote.

Item D: Graham Development LLC, Property Owner/Applicant, requests approval of a major subdivision and a plat alteration for a B-5 zoned property. More specifically, this will add lot six to the Hattiesburg Market Place Subdivision. (PPINs 12113, 37027, 24497, 40059, & 40103, Lamar County, Ward 3).

Discussion and Vote:

The Planning Staff introduced the case.

- Presented by:
  - Hunter Andrews
- Proponents:

  - None
- Opponents:
  - None

Motion:

Made by Edward Hargrove to recommend approval of the request.

Second:

Made by Commissioner Lee Anne Venable

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X		
Rhoda Pickett			ABSENT

Summary

Recommendation Statement
The Planning Commission recommended approval on October 1st, 2025.

Please place this on the October 21, 2025 City Council meeting for consideration.

October 2025 HPC Item: E
AIDS Services Coalition, Property Owner/Applicant, and Kathryn Garner, Representative
Request for: **Conditional Use Approval**

URBAN DEVELOPMENT
PLANNING DIVISION

Planning Commission
Case Fact Sheet

Names of Petitioner: AIDS Services Coalition, Property Owner/Applicant, and Kathryn Garner, Representative

Address of Property:	**Tax Parcel**	**PPIN:**	**Ward:**
117 College Street	2-029J-10-119.00	14586	2
117 College Street	2-029J-10-120.00	14587	2
117 College Street	2-029J-10-118.00	14588	2
117 College Street	2-042G-25-043.01	14589	2

Request: Conditional Use Request

Purpose of Request: AIDS Services Coalition, Property Owner/Applicant, and Kathryn Garner, Representative, request approval for "dwelling, multi-family" for a B-1 zoned property located at 117 College Street (PPIN 14586, 14587, 14588, & 14589, Forrest County, Ward 2).

History / Background: The applicant met with staff to discuss the renovations of three apartment complexes in the North Main Historic District. Four buildings were previously used as apartment complexes, but one was lost in a fire. The remaining three have not been in use for more than six months. Because of this lapse, and since the property is zoned B-1, the apartments have lost their legal nonconforming status and cannot be reactivated without conditional use approval.

The Comprehensive Plan identifies this area as part of the Downtown District, the City's historic central business district. The plan promotes a mix of land uses, including higher-density residential such as apartments and condominiums, as compatible with the district's historic development pattern and overall higher density of activity.

Conditional uses allow flexibility in the zoning ordinance while ensuring proposed uses remain compatible with surrounding development. Approval may be granted with conditions to ensure the use is in harmony with the neighborhood. The proposed reuse would not create adverse impacts to public utilities, as the site has previously been served. The Planning Commission should consider whether the proposed use is compatible with the surrounding context and consistent with the Comprehensive Plan's vision for downtown.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 5 USE REGULATIONS

5.4.18 Dwelling, Two-Family and Multi-Family.

5.4.18.1 On infill development sites in residential districts, multi-family buildings shall be designed to blend in with surrounding single-family residential buildings to the maximum extent practicable with regard to building design, setbacks, driveway and garage design and location, porches, and sidewalks.

5.4.18.2 Site designs shall create a sense of "neighborhood" and shall meet the following requirements:

i. Buildings shall be sited with front entrances and porches oriented toward streets, drives, and plazas, rather than clustered around parking lots.

ii. An internal vehicular circulation system for private streets, when included, shall be reflective of a single-family residential street system.

iii. Parking lots shall be located behind buildings, except where it is deemed appropriate to use a parking lot as a buffer from an arterial street, or where such parking area will directly abut a

property line exterior to the development site when located in or adjacent to a residential district.

iv. Walkways shall connect all buildings with parking areas, play areas, clubhouses, and existing public sidewalks adjacent to the development site

v. Plazas, clubhouses, pools, and recreational facilities shall be centrally located when provided.

5.4.18.3 Building designs that create variety and do not look monotonous if replicated throughout the development, it shall be required. Such designs shall include the following:

i. Side and rear building elevations, garages, carports, and all accessory structures shall have the same level of design, aesthetic quality, and architectural detailing.

ii. Porches, varied rooflines, and varied façade depths shall be provided to create variety and individuality of each building.

iii.Windows and projecting wall surfaces shall be used to break up larger wall surfaces, establish visual interest, and provide visibility of the street and other public spaces, encouraging social interaction.

iv. Protective entry courts, common vestibules, covered breezeways, or enclosed stair halls shall be used to reduce the number of visible doors, unless designed in a row house or townhouse manner oriented toward the street.

v. Garages shall be designed to be integrated with the building design or sited so as to avoid long monotonous rows of garage doors and building walls. Garages shall be oriented so that they do not visually dominate the building façade or the streetscape.

Present Zoning: B-1 Professional Business

October 2025 HPC Item: E
AIDS Services Coalition, Property Owner/Applicant, and Kathryn Garner, Representative
Request for: **Conditional Use Approval**

Present Use:	Vacant apartment complex
Future Land Use:	Downtown District
Surrounding Zoning and Land Use:	North: B-1 Professional Business South: B-4 Downtown Business East: B-1 Professional Business West: B-1 Professional Business
Letters or Concerns stated:	The Planning Division Office has not received any letters or other written communications regarding this case as of finalizing this report.
Option:	Recommend **Approval** or **Denial** of the Conditional Use Request for "dwelling, multi-family" for a B-1 zoned property located at 117 College Street (PPIN 14586, 14587, 14588, & 14589, Forrest County, Ward 2).
Basis for approval:	**12.3.3 Conditional Use Approvals** **12.3.3.1 Compliance Required.** Uses requiring Planning Commission approval, as noted in the Table of Uses in Section 5 of this Code, shall be approved subject to this Section. Any application for such use must comply with all applicable standards that apply to similar uses and properties in the zoning district in general, the specific conditions listed for that use in Section 5, and the following criteria. Where conflicts exist, the Planning Commission shall determine which criteria apply on a case-by-case basis. **12.3.3.2 Additional Approval Criteria.** In addition to the standards mentioned above, the applicant for a request for the Planning Commission to approve a use shall be required to demonstrate that his/her proposal addresses the following additional requirements, except that the Planning Commission may waive any one or more criteria that it determines are not applicable based upon the expected impact of the proposal.

i. Determination that adequate public facilities and services will be available concurrent with the impacts of the development as evidenced by letters of sufficiency from utilities and schools and a determination by the city engineer that the available capacity of existing streets can safely provide access to the site.

ii. The proposed development will be compatible with surrounding uses and will protect adjacent properties through the following measures:

- Protection of privacy. The proposed plan shall provide reasonable visual and auditory privacy for all dwelling units located within and adjacent to the site. Fences, walls, barriers and / or vegetation shall be arranged to protect and enhance the property and to enhance the privacy of on-site and neighboring occupants.
- Protection of use and enjoyment. The proposed plan shall be designed and arranged to have minimal negative impact on the use and enjoyment of adjoining property.
- Compatible design and integration. The use meets all design criteria required by this Code that apply and is designed to integrate well both on and off site.

FOR CONDITIONAL USE APPLICANTS:

Section 12.3.3.1 Compliance Required. Uses requiring Planning Commission approval as noted in the Tables of Uses in Section 5 of this Code, shall be approved subject to this Section.

Any application for such use must comply with: all applicable standards that apply to similar uses and properties in the zoning district in general, the specific conditions listed for that use in Section 5, and the following criteria. *Where conflicts exist, the Planning Commission shall determine which criteria apply on a case-by-case basis.*

1. **Does this application meet the conditions set forth in Section 5 of the LDC for the requested use? If yes, please explain:**
   Yes. The property was constructed as a 4plex in 1980 and has remained as such since that time. However, it has been vacant for a number of years, thus requiring a conditional use permit

2. **Describe the effects the proposed use of utilities and facilities will have on the community.**
   MA

3. **Describe how the size of the site is appropriate for the proposed use.**
   We are renovating an existing building of +/- 1200 sqft. We are not changing the foot-print

4. **Will there be any additional pedestrian or vehicular traffic generated by the proposed use? If yes, please explain:**
   Residents will be present in the 4 units (2br).

5. **Will there be any elevation in the noise level resulting from this proposed use? If yes, please explain:**
   No

6. **What is the expected number of customers/employees per day?**
N/A

7. **Is proposed use compatible with surrounding uses and design? If yes, please explain:**
It is infill construction from the 1980's. N. Main St Apartments are directly adjacent and apts are across (Preservation).

8. **Parking requirements:** Commercial/Industrial: Paved parking will be provided for _____ vehicles, and _____ ADA vehicles; with _____ loading spaces.
Parking is there now.

Attn: Kathy Garner, Executive Director
P. O. Box 169
Hattiesburg, MS 39403-0169

Dear Kathy:

RE: Purchase from CS Holdings, Inc.

We are enclosing herewith the original recorded Special Warranty Deed executed by CS Holdings, Inc., a Mississippi Corporation, conveying the real property described therein situated at 117 College Street, Building D, Hattiesburg, Mississippi 39401 to AIDS Services Coalition, Inc. As you will note, this Special Warranty Deed appears of record in Land Deed Book 1209 at Page 190.

We are also enclosing herewith the original of Old Republic National Title Insurance Company's Owner's Policy No. OX9806879 covering the subject real property in the amount of Twenty Thousand and No/100 ($20,000.00) Dollars. The Resolution-Condemnation of Unsafe and Dilapidated Property adopted by the City of Hattiesburg referred to therein can be deleted as an exception by endorsement once it has been cancelled of record.

We greatly appreciate the opportunities you have given us to be of assistance. Please do not hesitate to let us know if you have any questions or if we can be of any further assistance.

Sincerely,

Travis and Travis, PLLC

Dear Kathy:

RE: Purchases from (1) Melvin Cooper; (2) Joseph J. Mobley; (3) Ashly M. Hudson et vir

We are enclosing herewith for your file the following in connection with the above referenced transactions:

1. The original recorded Warranty Deed executed by Melvin Cooper conveying the real property described therein situated at 117 College Street, Building C, Hattiesburg, Mississippi 39401 to Aids Services Coalition, Inc. As you will note, this Warranty Deed appears of record in Land Deed Book 1181 at Page 291.

2. The original of Mississippi Valley Title Insurance Company's Owner's Policy No. OP561584 covering the subject real property acquired from Melvin Cooper in the amount of Sixty-three Thousand and No/100 ($63,000.00) Dollars.

3. The original recorded Warranty Deed executed by Joseph J. Mobley conveying the real property described therein situated at 117 College Street, Building B, Hattiesburg, Mississippi 39401 to Aids Services Coalition, Inc. As you will note, this Warranty Deed appears of record in Land Deed Book 1181 at Page 293.

4. The original of Mississippi Valley Title Insurance Company's Owner's Policy No. OP561579 covering the subject real property acquired from Joseph J. Mobley in the amount of Fifty-seven Thousand and No/100 ($57,000.00) Dollars.

5. The original recorded Warranty Deed executed by Ashly M. Hudson and Alcus R. Hudson, Jr. by Ashly M. Hudson, his true and lawful Attorney-in-Fact, conveying the real property described therein situated at 117 College Street, Building A, Hattiesburg, Mississippi 39401 to Aids Services Coalition, Inc. As you will note, this Warranty Deed appears of record in Land Deed Book 1181 at Page 295.

6. The original of Mississippi Valley Title Insurance Company's Owner's Policy No. OP561575 covering the subject real property acquired from Mr. and Mrs. Hudson in the amount of Thirty-five Thousand and No/100 ($35,000.00) Dollars. The Resolution-Condemnation of Unsafe and Dilapidated Property adopted by the City of Hattiesburg referred to therein can be deleted as an exception by endorsement once it has been cancelled of record.

We greatly appreciate the opportunity to be of assistance in connection with the subject transactions. Please let us know when we can be of further assistance.

Sincerely,

Travis & Travis

The motion to approve the meeting minutes for September 2025 meeting minutes with corrections to the tracking highlight passed with a 7-0 vote.

BUILDING REPORT

Kevin Bates, Building Official, provided the Building Permit Report for September 2025.

PLANNING REPORT

Planning staff provided updates on the previous month's agenda items.

CHAIR'S REPORT

The Chair did not have a report for the meeting.

INTRODUCTIONS

Commissioners and staff introduced themselves.

PUBLIC HEARING – Planning Commission

Item A: Monir Sanaany, Property Owner/Applicant, requests a zoning change from B-2 to B-3 for a property located at 823 Edwards Street (PPIN 12895, Forrest County, Ward 2).

Discussion and Vote:

The Planning Staff introduced the case.

- Presented by:
  - Monir Sanaany
- Proponents:
  - None
- Opponents:
  - None

Motion:

Made by Commissioner Lee Anne Venable table the request until the end of the meeting since the applicant was absent.

Second:

Made by Commissioner Amy Hinton

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X		
Rhoda Pickett			ABSENT
Edward Hargrove	X		
Rebekah Ray			ABSENT

Lee Anne Venable	X		
Caroline Ingram	X		

The motion to table the request until the end of the meeting passed with a 7-0 vote.

Item B: Danny Travis, Property Owner, requests approval of a zoning change from R-1C to R-2 for a property located at 209 Unetta Street (PPIN 21167, Forrest County, Ward 2).

Discussion and Vote:

The Planning Staff introduced the case.

- Presented by:
  - Danny Travis
- Proponents:
  - Sedgerick L. Lee
- Opponents:
  - None

Motion:

Made by Commissioner Charles Dawe to recommend approval of the request.

Second:

Made by Commissioner Lee Anne Venable

Vote:

Board Member	Yea	Nay	Other
Richard Conville	X		
Charles Dawe	X		
Michael Dickerson			ABSENT
Amy Hinton	X		
Elayne Lockett	X		
Rhoda Pickett			ABSENT
Edward Hargrove	X		
Rebekah Ray			ABSENT
Lee Anne Venable	X		
Caroline Ingram	X		

The motion to recommend approval of the request passed with a 7-0 vote.

Item C: Michael Anderson, Property Owner/Applicant, requests to close and vacate a portion of a street and a portion of an alley located north of River Avenue and east of Morgan Street, also a part of the Magruder and Company Addition Subdivision (Forrest County, Ward 2)

Discussion and Vote:

The Planning Staff introduced the case.

- Presented by:
  - Michael Anderson
- Proponents:
  - None
- Opponents:
  - None

Motion:

Made by Commissioner Lee Anne Venable to recommend approval of the request.

Second:

Made by Commissioner Charles Dawe

Vote:

Board Member	Yea	Nay	Other

Summary

Recommendation Statement
Due to a tied vote, the Board of Adjustment did not offer a recommendation on October 1st, 2025.

Please place this on the October 21, 2025 City Council meeting for consideration.

September 2025 BOA Item: A
Green Space, Fence Height, and Sidewalk Variances
Annie Kimbarugh, Property Owner

URBAN DEVELOPMENT
PLANNING DIVISION

Board of Adjustment
Case Fact Sheet

Names of Petitioner: Annie Kimbarugh, Property Owner

Address of Property:	**Tax Parcels**	**PPIN:**	**Ward:**
1516 Florida Avenue	2-038D-16-055.00	21775	4

Request: Green Space, Fence Height, and Sidewalk Variances

Purpose of Request: Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

History / Background: The applicant met with staff in a pre-application meeting in June of 2025, where they discussed the development of an outdoor event space to add to the existing Sycampore Oaks Event Venue located at 1516 Florida Avenue. The applicant wants to include an outdoor area with a pergola, a gathering space, and an 8-foot perimeter fence. The proposed 8ft fence would technically be in the front yard of the parcel, since it is a corner lot and there is no primary structure on the parcel.

During the meeting, outstanding items from the parking lot's development were also discussed. The parking lot was developed without the required and site-plan-approved 10ft green space buffer and sidewalks along public streets. Staff advised the applicant that the outstanding items that were included on the approved site plan would still need to be completed. The applicant inquired about her options to not

finish out the outstanding items and the staff discussed options, including the variance process for both the fencing and the green space. Staff discussed the sidewalk's fee-in-lieu program and the sidewalk's variance process.

Applicant Summary: See Attached

South: B-3 Community Business
East: B-3 Community Business
West: B-3 Community Business

Letters or Concerns stated: The Planning Division Office has not received any letters or other written communications regarding this case as of finalizing this report.

September 2025 BOA Item: A
Green Space, Fence Height, and Sidewalk Variances
Annie Kimbarugh, Property Owner

Option: Recommend **approval or denial** of the variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

Basis for Approval (12.4.1.1):

Approval Criteria. A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria:

I. Hardship.
• The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
• There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

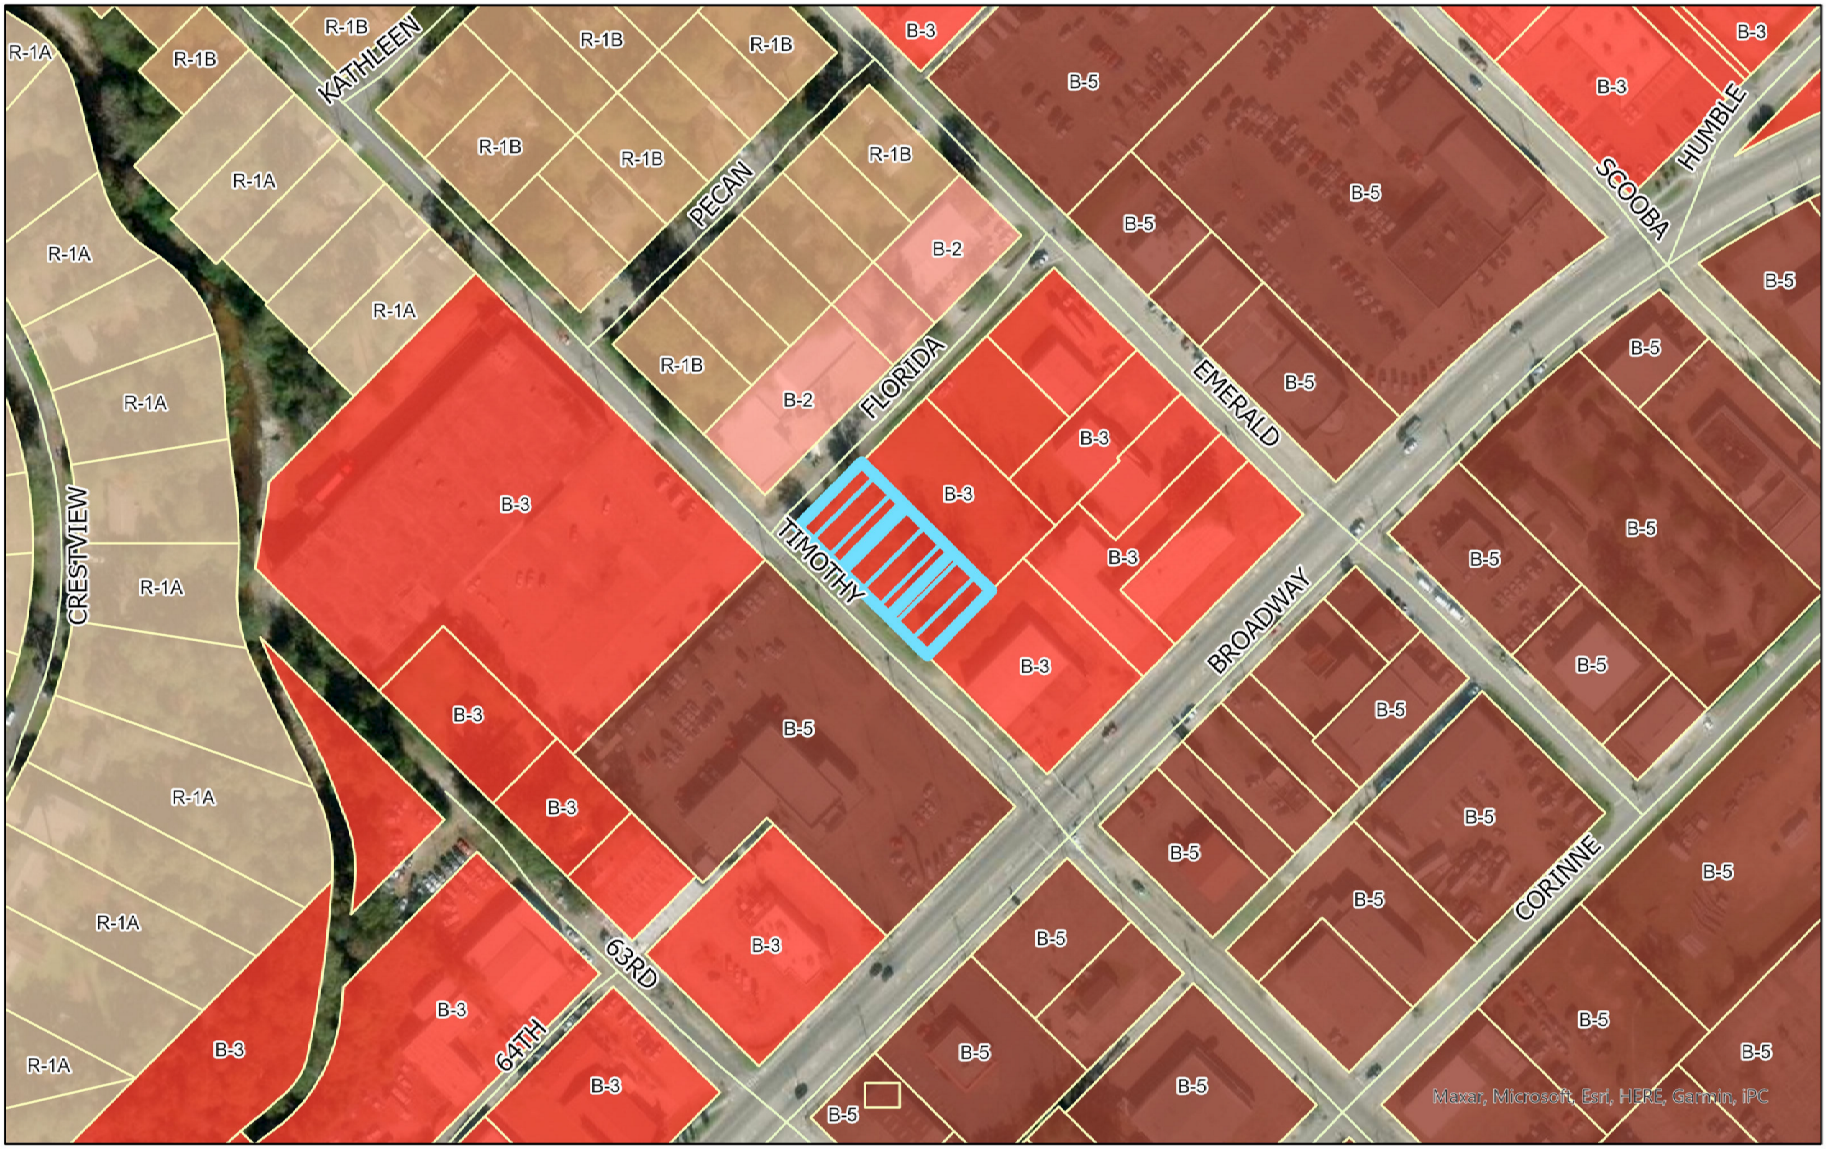
II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.



SUBJECT PARCEL

1516 Florida Avenue— Variance Request

Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

SITE PLAN NOTES:

1. OWNER TO VERIFY SIZE AND CONFIGURATION OF ALL WALKS AND DRIVES PRIOR TO CONSTRUCTION.
2. OWNER TO VERIFY EXACT LOCATION OF PROJECT WITH GENERAL CONTRACTOR PRIOR TO CONSTRUCTION.

STORMWATER BMPS

GENERAL MAINTENANCE & SWEEPING:

1. DESIGNATE PERSONNEL TO CONDUCT REGULAR INSPECTIONS OF PARKING FACILITY.
2. CLEAN LEAVES, TRASH, & OTHER DEBRIS REGULARLY TO PREVENT DEBRIS FROM REACHING ANY STORM DRAIN INLET. (DRY SWEEPING)
3. ESTABLISH FREQUENTLY PARKING LOT SWEEPING BASED ON USAGE & OBSERVATIONS OF WASTE ACCUMULATION. (AFTER SPECIAL EVENTS)
4. MAINTAIN MAP OF THE PROPERTY IDENTIFYING DIRECTIONS OF STORMWATER FLOW & THE LOCATION OF ANY STORM DRAINS ON SITE.
5. MARK ANY STORM DRAIN INLETS IN OR NEAR PARKING LOT WITH THE MESSAGE "DO NOT DISPOSE OF ANY MATERIALS OR WASTE HERE; DRAINS TO CREEK".

CONSTRUCTION WORK:

1. DO NOT ALLOW SLURRY FROM SAW-CUTTING TO ENTER STROM DRAINS.
2. INSTALL STROM DRAIN PROTECTION DEVISES (HAY BALES, SOCKS OR DRAIN COVERS) AROUND OR OVER STORM DRAIN INLETS WHEN DOING CONSTRUCTION OR MAINTENANCE WORK WITHIN 25 FEET OF INLETS.
3. DESIGNATE A WASHOUT AREA ON THE JOB SITE IN A GRASSY OR GRAVELED AREA WHERE POOLED WATER CAN SOAK INTO THE GROUND. NEVER WASH ON STREET OR PAVED AREA OR NEAR STORM DRAINS.
4. IF NO WASH AREA IS AVAILABLE, WASH OUT INTO A CONTAINER & DISPOSE OF MATERIAL PROPERLY.

MATERIALS STORAGE, LOADING & UNLOADING:

1. DO NOT STORE ANY POTENTIALLY HAZARDOUS LIQUID OR SOLID MATERIALS (PAINTS, PESTICIDES, FERTILIZER OR SALT/SAND) OUTSIDE UNLESS ADEQUATE CONTAINMENT & COVER ARE PROVIDED OR THE CONTAINER IS DESIGNED FOR OUTDOOR STORAGE.
2. DO NOT LOAD OR UNLOAD MATERIALS NEAR A STORM DRAIN INLET, CULVERT, OR DRAINAGE DITCH UNLESS DRAINS ARE BLOCKED.

MOWING:

1. SWEEP PAVEMENT OR SIDEWALKS WHERE GRASS CLIPPINGS, GRANULAR FERTILIZER OR OTHER DRY CHEMICALS HAVE FALLEN. SWEEP BACK ONTO GRASSY AREAS.

SURFACE CLEANING SIDEWALKS & PARKING AREAS:

1. DO NOT HOSE DOWN ANY SIDEWALKS OR PARKING AREAS EXCEPT WHERE WATER WILL ONLY ENTER THE SANITARY SEWER OR VEGETATED AREAS.
2. IF YOU DO NOT USE ANY CHEMICALS OR DETERGENTS AND ARE ONLY CLEANING SURFACES OF AMBIENT DUST, THEN YOU MAY DIRECT THE WASH WATER TO NEARBY LANDSCAPING OR CONTAIN IT ON SITE & ALLOW IT TO EVAPORATE. WHEN DISCHARGING TO LANDSCAPING, MAKE SURE WATER IS BEING ABSORBED INTO THE GROUND & NOT RUNNING OFF INTO STORM DRAINS OR PAVED AREAS.
3. DRY CLEAN UP METHODS SHOULD BE USED PRIOR TO ANY PRESSURE WASHING. IDENTIFY WHERE ALL STORM DRAINS ARE LOCATED BEFORE STARTING. WASH WATER SHOULD NOT BE ALLOWED TO FLOW DOWN GUTTERS OR ENTER STORM DRAINS. ALL WASH WATER MUST BE CAPTURED FOR PROPER DISPOSAL.

EROSION CONTROL NOTES:

1. INSTALLATION OF SILT FENCES & ROCK OR HAY BERMS BEFORE & DURING CONSTURCTION IN ORDER TO REDUCE ON SITE SOIL EROSION & PROVIDE TEMPORARY CAPTURE OF SEDIMENT.
2. TEMPORARY &/OR PERMANENT REVEGETATION OF BARE GROUND IN ORDER TO STABILIZE DISTURBED SOIL AT THE EARLIEST DATE.
3. CONSTRUCTION OF ONSITE STORMWATER FACILITIES BY THE LAND OWNER OR DEVELOPER IN A MANNER SUCH THAT DETENTION PONDS FUNCTION AS TEMPORARY SEDIMENTATION BASINS UNTIL PERMANENT REVEGETATION OF THE SUBJECT TRACT IS ACCOMPLISHED.
4. OTHER MEASURES, AS DETERMINED BY FORREST COUNTY OR ITS AGENTS, WHICH MAY BE NECESSARY TO CONTROL EROSION & SEDIMENTATION ON A SITE BY SITE BASIS.

STORMWATER DETENTION:

1. IT IS PROHIBITED TO PLACE FILL MATERIAL, TO CONSTRUCT IMPERVIOUS COVER, PLACE ANY OTHER STRUCTURE ON A PROPERTY; OR PERFORM ANY EXCAVATION OR GRADING; IN A MANNER WHICH ALTERS THE FLOW OF SURFACE WATER ACROSS A PROPERTY IN A MANNER WHICH DAMAGES ANY ADJACENT PROPERTY.
2. ALL STORMWATER DETENTION SHALL COMPLY W/ SECTION 7.2 OF THE FORREST COUNTY ORDINANCE FOR STORMWATER RUNOFF, ILLICIT DISCHARGES,& ILLEGAL CONNECTIONS.
3. SEE FORREST COUNTY ORDINANCE FOR STORMWATER RUNOFF, ILLICIT DISCHARGES & ILLEGAL CONNECTIONS FOR ANY QUESTIONS CONCERNING THIS MATTER &/OR VERIFY W/ PLANNING DEPARTMENT.

SHEET NUMBER: 1

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The cost of constructing a sidewalk represents a significant and undue financial hardship for our small, minority-owned business.

   (b) The sidewalk would be out of place, as adjacent properties do not currently have sidewalks , and the area does not support high pedestrian use.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This request does not offer any unique privilege—it simply prevents an inconsistent and underutilized infrastructure investment that would not align with current surroundings or traffic patterns.

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Requiring this installation would impose an unreasonable financial burden for infrastructure that does not contribute meaningfully to community safety or accessibility.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Reasonable use of the property is impaired if significant funds must be diverted to an isolated sidewalk segment that serves no functional or community purpose.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

The variance requested is minimal—it asks for exemption from a single frontage improvement that does not currently exist in the area.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The request aligns with the Code's intent to balance private development with public benefit. In this . In this case, sidewalk construction provides little public benefit while harming the property owner's ability to sustain business improvements.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The hardship is created by the need for shaded, designated ceremony space as part of our event venue's business model, and the only feasible location lies within the designated green space area.

   (b) Most commercial venues in this zoning district do not require integration with landscaped ceremonial spaces, creating a unique condition for our use.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This does not confer a special privilege—pergolas and similar structures are common and appropriate features for event venues. We're simply requesting the ability to place it within our limited available area

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Literal enforcement would deprive us of the ability to enhance our client offerings with outdoor ceremonies, limiting our growth and relevance as an event venue in a competitive market.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   The outdoor space cannot function fully as intended without the pergola structure. . Clients expect shaded outdoor accommodations, which are industry-standard for similar venues.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

This variance allows for the smallest structure necessary to create a functional outdoor ceremony space without interfering with neighboring properties or utilities.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The pergola supports the intent of enhancing the public-facing aesthetic and use of property for community-serving purposes, in line with the Code's intent.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship.** (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) Our property has experienced trespassing and loitering, particularly during and after events. Without a 6-foot fence, we cannot secure our outdoor space properly.

   (b) This issue is unique to our location and use as a high-traffic event venue, especially in a commercial area without existing perimeter barriers.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   The request does not provide a special privilege. Many businesses with safety or privacy concerns implement and underutilized infrastructure investment that would not align with current surroundings or traffic patterns. perimeter fencing. This request ensures we can do so appropriately for our type of use.

3. **Literal Interpretation.** The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Enforcing a height limitation on fencing would jeopardize our security , guest safety, and property for infrastructure that does not contribute meaningfully to community safety or accessibility. maintenance, which places our business at an unfair disadvantage.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Without this variance, we cannot reasonably use the outdoor space without the risk of damage, liability, or safety issues due to uninvited individuals entering the property.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

A 6-foot fence is the minimum necessary to provide privacy, deter intruders, and clearly define property boundaries.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The request supports the Code's goal to provide safe, well-maintained, and community-compatible properties while respecting property owners' rights to protection and security.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship.** (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The hardship is unique to the size and existing footprint of the property. The parking lot was constructed using the zoning regulations that were in place at the time and the available space does not allow for the required 10-foot green space setback.

   (b) These conditions do not generally apply to newer developments or parcels with more flexibility in layout.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This variance does not provide a special privilege, but instead allows us to bring the property closer to compliance and usability under modern business needs, similar to other properties operating under updated variances or older development standards.

3. **Literal Interpretation.** The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Enforcing the literal 10-foot requirement would eliminate key access points, prevent intended improvements to enhance community value, and create undue hardship by forcing a redesign of the property that is not physically feasible.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Without this variance, we cannot make practical use of the space for outdoor functions, traffic flow, or green beautification. This small setback is essential for continued operations.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

The 3-foot green space is the minimum needed to maintain functionality and safety without negatively impacting neighboring properties or the public.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

This variance supports the Code's goal to encourage safe, attractive, and economically viable use of land without imposing impractical burdens due to pre-existing site conditions.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

City of Hattiesburg - Planning Division

LETTER OF APPROVAL OR DENIAL FROM ADJOINING PROPERTY OWNER

Public Hearing Variance Request Submission

Applicant Property Information:

Parcel Number: 21775

Property Address: 1516 Florida Avenue, Hattiesburg, MS 39401

Variance Requests:

The applicant is requesting the following variances:

1. A variance to allow for 3 feet of green space instead of the required 10 feet.
2. Permission to install a pergola within the green space area.
3. A variance to allow a 6-foot privacy fence surrounding the green space.
4. A variance to waive the requirement of pouring a sidewalk.

Adjoining Property Owner Statement

I, the undersigned, am the owner of the adjoining property located at:

(Print Your Address): 609 Emerald Line Hattiesburg, MS

After reviewing the applicant's request for a variance at the address listed above, I confirm that I have been informed of the proposed changes and hereby provide my response as follows:

[ ] I APPROVE of the requested variances listed above.

[ ] I DO NOT APPROVE of the requested variances listed above.

MINUTES OF THE

REGULAR MEETING OF THE

BOARD OF ADJUSTMENT

October 1st, 2025

Board Members Roll Call:

Members Present:

1. Shawn Harris, Chair
2. Sandi Boykins
3. John Eye
4. Herman Dungan
5. Richard Conville
6. James Hughes

Members Absent:

7. Jessica Cathey
8. Brandon Williams
9. Bernard Green, Vice Chair
10. Stacey Ready, Secretary
11. Vacant Seat

Staff Present:

1. Cory Long, Planning Manager
2. Nathan Satcher, Senior Planner
3. David Miller, Esq.
4. Meridian McDaniel, Planner I

Chair Harris declared the Board of Adjustment meeting open and in session at 3:33 p.m.

AGENDA REVIEW

A motion was made to accept the agenda for the September 2025 meeting.

Motion:

Made by Richard Conville to approve the agenda

Second:

Made by Herman Dungan

Vote:

The motion to approve the August 2025 meeting minutes was passed by a 6-0 vote.

PLANNING REPORT

The Planning Division staff gave a report.

CHAIR'S REPORT

No report from the chair.

INTRODUCTIONS:

Board of Adjustment members and Staff introduced themselves.

PUBLIC HEARING:

Item A: Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

Discussion and Vote:

Staff introduced the case.

Presented by:

- Annie Williams

Proponents:

- None

Opponents:

- None

Motion:

Sandi Boykins motioned to recommend approval of the request for a requirement of 10 ft of green space to allow for 3ft.

Second:

Made by Richard Conville

Vote:

Board Member	Yea	Nay	Other
John Eye		X	
Richard Conville	X		
Bernard Green			ABSENT
Shawn Harris		X	
Brandon Williams			ABSENT
Stacey Ready			ABSENT
Herman Dungan		X	
Sandi Boykins	X		

Jessica Cathey			ABSENT
James Hughes	X		

The motion to recommend approval of the variance request from the requirement of 10 feet of green space to allow for 3 feet failed by a 3-3 vote. Due to a tied vote, the request will advance to City Council with no recommendation from the Board of Adjustment.

Motion:

Richard Conville motioned to recommend approval of the request for a variance from the maximum fence height in a front yard of 4ft to allow for 6ft,

Second:

Made by Sandi Boykins

Vote:

Board Member	Yea	Nay	Other
John Eye		X	
Richard Conville	X		
Bernard Green			ABSENT
Shawn Harris	X		
Brandon Williams			ABSENT
Stacey Ready			ABSENT
Herman Dungan	X		
Sandi Boykins	X		
Jessica Cathey			ABSENT
James Hughes	X		

The motion to recommend approval for a variance from the maximum fence height in a front yard of 4ft to allow for 6ft was passed by a 5-1 vote.

Motion:

Richard Conville motioned to recommend denial of the request for a variance from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets.

Second:

Made by Herman Dungan

Vote:

Board Member	Yea	Nay	Other

September 2025 BOA Item: A
Green Space, Fence Height, and Sidewalk Variances
Annie Kimbarugh, Property Owner

URBAN DEVELOPMENT
PLANNING DIVISION

Board of Adjustment
Case Fact Sheet

Names of Petitioner: Annie Kimbarugh, Property Owner

Address of Property:	**Tax Parcels**	**PPIN:**	**Ward:**
1516 Florida Avenue	2-038D-16-055.00	21775	4

Request: Green Space, Fence Height, and Sidewalk Variances

Purpose of Request: Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

History / Background: The applicant met with staff in a pre-application meeting in June of 2025, where they discussed the development of an outdoor event space to add to the existing Sycampore Oaks Event Venue located at 1516 Florida Avenue. The applicant wants to include an outdoor area with a pergola, a gathering space, and an 8-foot perimeter fence. The proposed 8ft fence would technically be in the front yard of the parcel, since it is a corner lot and there is no primary structure on the parcel.

During the meeting, outstanding items from the parking lot's development were also discussed. The parking lot was developed without the required and site-plan-approved 10ft green space buffer and sidewalks along public streets. Staff advised the applicant that the outstanding items that were included on the approved site plan would still need to be completed. The applicant inquired about her options to not

finish out the outstanding items and the staff discussed options, including the variance process for both the fencing and the green space. Staff discussed the sidewalk's fee-in-lieu program and the sidewalk's variance process.

Applicant Summary: See Attached

West: B-3 Community Business

Letters or Concerns stated: The Planning Division Office has not received any letters or other written communications regarding this case as of finalizing this report.

September 2025 BOA Item: A
Green Space, Fence Height, and Sidewalk Variances
Annie Kimbarugh, Property Owner

Option: Recommend **approval or denial** of the variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

Basis for Approval (12.4.1.1):

Approval Criteria. A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria:

I. Hardship.
• The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
• There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

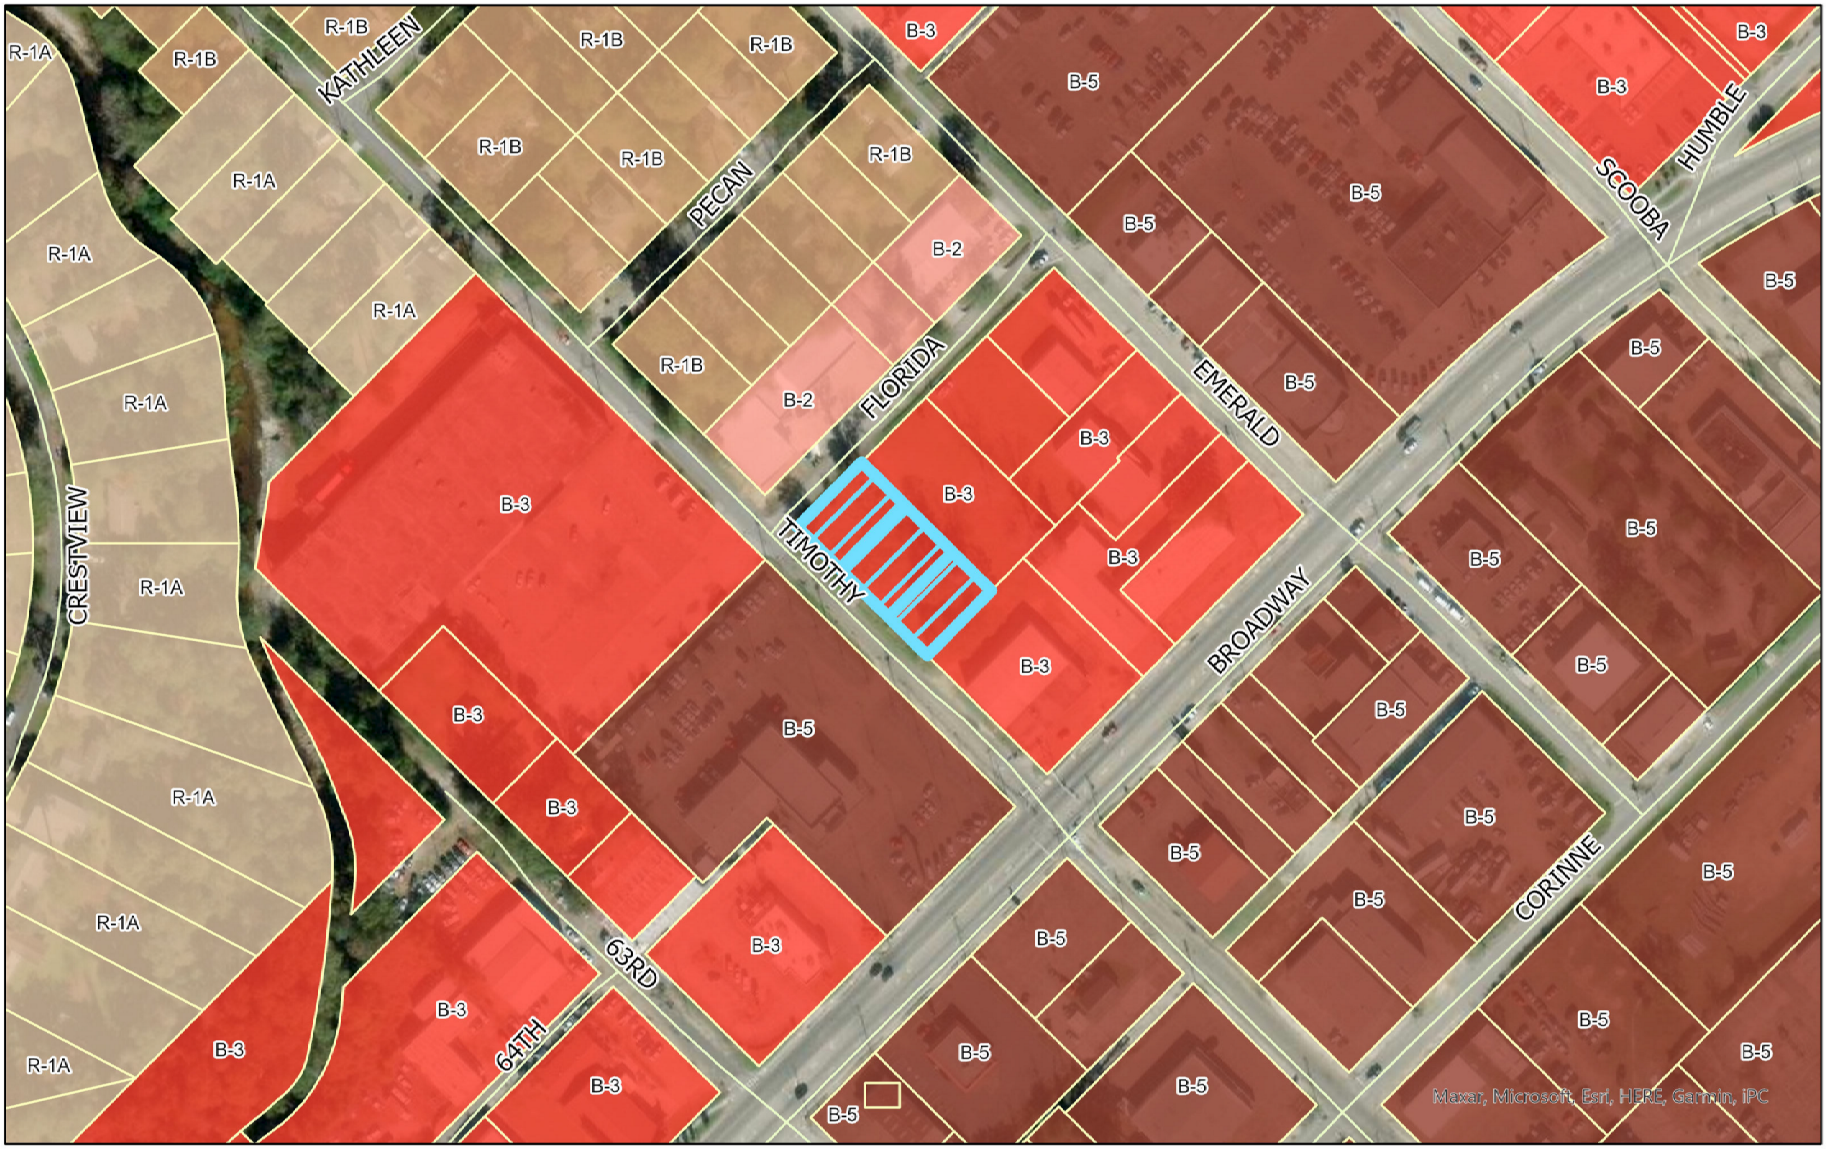
II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.



SUBJECT PARCEL

1516 Florida Avenue— Variance Request

Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

SITE PLAN

SCALE ——— 1" = 10'-0"

SITE PLAN NOTES:

1. OWNER TO VERIFY SIZE AND CONFIGURATION OF ALL WALKS AND DRIVES PRIOR TO CONSTRUCTION.
2. OWNER TO VERIFY EXACT LOCATION OF PROJECT WITH GENERAL CONTRACTOR PRIOR TO CONSTRUCTION.

STORMWATER BMPS

GENERAL MAINTENANCE & SWEEPING:

1. DESIGNATE PERSONNEL TO CONDUCT REGULAR INSPECTIONS OF PARKING FACILITY.
2. CLEAN LEAVES, TRASH, & OTHER DEBRIS REGULARLY TO PREVENT DEBRIS FROM REACHING ANY STORM DRAIN INLET. (DRY SWEEPING)
3. ESTABLISH FREQUENTLY PARKING LOT SWEEPING BASED ON USAGE & OBSERVATIONS OF WASTE ACCUMULATION. (AFTER SPECIAL EVENTS)
4. MAINTAIN MAP OF THE PROPERTY IDENTIFYING DIRECTIONS OF STORMWATER FLOW & THE LOCATION OF ANY STORM DRAINS ON SITE.
5. MARK ANY STORM DRAIN INLETS IN OR NEAR PARKING LOT WITH THE MESSAGE "DO NOT DISPOSE OF ANY MATERIALS OR WASTE HERE; DRAINS TO CREEK".

CONSTRUCTION WORK:

1. DO NOT ALLOW SLURRY FROM SAW-CUTTING TO ENTER STROM DRAINS.
2. INSTALL STROM DRAIN PROTECTION DEVISES (HAY BALES, SOCKS OR DRAIN COVERS) AROUND OR OVER STORM DRAIN INLETS WHEN DOING CONSTRUCTION OR MAINTENANCE WORK WITHIN 25 FEET OF INLETS.
3. DESIGNATE A WASHOUT AREA ON THE JOB SITE IN A GRASSY OR GRAVELED AREA WHERE POOLED WATER CAN SOAK INTO THE GROUND. NEVER WASH ON STREET OR PAVED AREA OR NEAR STORM DRAINS.
4. IF NO WASH AREA IS AVAILABLE, WASH OUT INTO A CONTAINER & DISPOSE OF MATERIAL PROPERLY.

MATERIALS STORAGE, LOADING & UNLOADING:

1. DO NOT STORE ANY POTENTIALLY HAZARDOUS LIQUID OR SOLID MATERIALS (PAINTS, PESTICIDES, FERTILIZER OR SALT/SAND) OUTSIDE UNLESS ADEQUATE CONTAINMENT & COVER ARE PROVIDED OR THE CONTAINER IS DESIGNED FOR OUTDOOR STORAGE.
2. DO NOT LOAD OR UNLOAD MATERIALS NEAR A STORM DRAIN INLET, CULVERT, OR DRAINAGE DITCH UNLESS DRAINS ARE BLOCKED.

MOWING:

1. SWEEP PAVEMENT OR SIDEWALKS WHERE GRASS CLIPPINGS, GRANULAR FERTILIZER OR OTHER DRY CHEMICALS HAVE FALLEN. SWEEP BACK ONTO GRASSY AREAS.

SURFACE CLEANING SIDEWALKS & PARKING AREAS:

1. DO NOT HOSE DOWN ANY SIDEWALKS OR PARKING AREAS EXCEPT WHERE WATER WILL ONLY ENTER THE SANITARY SEWER OR VEGETATED AREAS.
2. IF YOU DO NOT USE ANY CHEMICALS OR DETERGENTS AND ARE ONLY CLEANING SURFACES OF AMBIENT DUST, THEN YOU MAY DIRECT THE WASH WATER TO NEARBY LANDSCAPING OR CONTAIN IT ON SITE & ALLOW IT TO EVAPORATE. WHEN DISCHARGING TO LANDSCAPING, MAKE SURE WATER IS BEING ABSORBED INTO THE GROUND & NOT RUNNING OFF INTO STORM DRAINS OR PAVED AREAS.
3. DRY CLEAN UP METHODS SHOULD BE USED PRIOR TO ANY PRESSURE WASHING. IDENTIFY WHERE ALL STORM DRAINS ARE LOCATED BEFORE STARTING. WASH WATER SHOULD NOT BE ALLOWED TO FLOW DOWN GUTTERS OR ENTER STORM DRAINS. ALL WASH WATER MUST BE CAPTURED FOR PROPER DISPOSAL.

EROSION CONTROL NOTES:

1. INSTALLATION OF SILT FENCES & ROCK OR HAY BERMS BEFORE & DURING CONSTURCTION IN ORDER TO REDUCE ON SITE SOIL EROSION & PROVIDE TEMPORARY CAPTURE OF SEDIMENT.
2. TEMPORARY &/OR PERMANENT REVEGETATION OF BARE GROUND IN ORDER TO STABILIZE DISTURBED SOIL AT THE EARLIEST DATE.
3. CONSTRUCTION OF ONSITE STORMWATER FACILITIES BY THE LAND OWNER OR DEVELOPER IN A MANNER SUCH THAT DETENTION PONDS FUNCTION AS TEMPORARY SEDIMENTATION BASINS UNTIL PERMANENT REVEGETATION OF THE SUBJECT TRACT IS ACCOMPLISHED.
4. OTHER MEASURES, AS DETERMINED BY FORREST COUNTY OR ITS AGENTS, WHICH MAY BE NECESSARY TO CONTROL EROSION & SEDIMENTATION ON A SITE BY SITE BASIS.

STORMWATER DETENTION:

1. IT IS PROHIBITED TO PLACE FILL MATERIAL, TO CONSTRUCT IMPERVIOUS COVER, PLACE ANY OTHER STRUCTURE ON A PROPERTY; OR PERFORM ANY EXCAVATION OR GRADING; IN A MANNER WHICH ALTERS THE FLOW OF SURFACE WATER ACROSS A PROPERTY IN A MANNER WHICH DAMAGES ANY ADJACENT PROPERTY.
2. ALL STORMWATER DETENTION SHALL COMPLY W/ SECTION 7.2 OF THE FORREST COUNTY ORDINANCE FOR STORMWATER RUNOFF, ILLICIT DISCHARGES,& ILLEGAL CONNECTIONS.
3. SEE FORREST COUNTY ORDINANCE FOR STORMWATER RUNOFF, ILLICIT DISCHARGES & ILLEGAL CONNECTIONS FOR ANY QUESTIONS CONCERNING THIS MATTER &/OR VERIFY W/ PLANNING DEPARTMENT.

SHEET NUMBER: 1

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The cost of constructing a sidewalk represents a significant and undue financial hardship for our small, minority-owned business.

   (b) The sidewalk would be out of place, as adjacent properties do not currently have sidewalks , and the area does not support high pedestrian use.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This request does not offer any unique privilege—it simply prevents an inconsistent and underutilized infrastructure investment that would not align with current surroundings or traffic patterns.

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Requiring this installation would impose an unreasonable financial burden for infrastructure that does not contribute meaningfully to community safety or accessibility.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Reasonable use of the property is impaired if significant funds must be diverted to an isolated sidewalk segment that serves no functional or community purpose.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

The variance requested is minimal—it asks for exemption from a single frontage improvement that does not currently exist in the area.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The request aligns with the Code's intent to balance private development with public benefit. In this . In this case, sidewalk construction provides little public benefit while harming the property owner's ability to sustain business improvements.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The hardship is created by the need for shaded, designated ceremony space as part of our event venue's business model, and the only feasible location lies within the designated green space area.

   (b) Most commercial venues in this zoning district do not require integration with landscaped ceremonial spaces, creating a unique condition for our use.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This does not confer a special privilege—pergolas and similar structures are common and appropriate features for event venues. We're simply requesting the ability to place it within our limited available area

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Literal enforcement would deprive us of the ability to enhance our client offerings with outdoor ceremonies, limiting our growth and relevance as an event venue in a competitive market.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   The outdoor space cannot function fully as intended without the pergola structure. . Clients expect shaded outdoor accommodations, which are industry-standard for similar venues.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

This variance allows for the smallest structure necessary to create a functional outdoor ceremony space without interfering with neighboring properties or utilities.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The pergola supports the intent of enhancing the public-facing aesthetic and use of property for community-serving purposes, in line with the Code's intent.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship.** (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) Our property has experienced trespassing and loitering, particularly during and after events. Without a 6-foot fence, we cannot secure our outdoor space properly.

   (b) This issue is unique to our location and use as a high-traffic event venue, especially in a commercial area without existing perimeter barriers.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   The request does not provide a special privilege. Many businesses with safety or privacy concerns implement and underutilized infrastructure investment that would not align with current surroundings or traffic patterns. perimeter fencing. This request ensures we can do so appropriately for our type of use.

3. **Literal Interpretation.** The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Enforcing a height limitation on fencing would jeopardize our security , guest safety, and property for infrastructure that does not contribute meaningfully to community safety or accessibility. maintenance, which places our business at an unfair disadvantage.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Without this variance, we cannot reasonably use the outdoor space without the risk of damage, liability, or safety issues due to uninvited individuals entering the property.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

A 6-foot fence is the minimum necessary to provide privacy, deter intruders, and clearly define property boundaries.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The request supports the Code's goal to provide safe, well-maintained, and community-compatible properties while respecting property owners' rights to protection and security.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship.** (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The hardship is unique to the size and existing footprint of the property. The parking lot was constructed using the zoning regulations that were in place at the time and the available space does not allow for the required 10-foot green space setback.

   (b) These conditions do not generally apply to newer developments or parcels with more flexibility in layout.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This variance does not provide a special privilege, but instead allows us to bring the property closer to compliance and usability under modern business needs, similar to other properties operating under updated variances or older development standards.

3. **Literal Interpretation.** The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Enforcing the literal 10-foot requirement would eliminate key access points, prevent intended improvements to enhance community value, and create undue hardship by forcing a redesign of the property that is not physically feasible.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Without this variance, we cannot make practical use of the space for outdoor functions, traffic flow, or green beautification. This small setback is essential for continued operations.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

The 3-foot green space is the minimum needed to maintain functionality and safety without negatively impacting neighboring properties or the public.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

This variance supports the Code's goal to encourage safe, attractive, and economically viable use of land without imposing impractical burdens due to pre-existing site conditions.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

LETTER OF APPROVAL OR DENIAL FROM ADJOINING PROPERTY OWNER

Public Hearing Variance Request Submission

Applicant Property Information:

Parcel Number: 21775

Property Address: 1516 Florida Avenue, Hattiesburg, MS 39401

Variance Requests:

The applicant is requesting the following variances:

1. A variance to allow for 3 feet of green space instead of the required 10 feet.
2. Permission to install a pergola within the green space area.
3. A variance to allow a 6-foot privacy fence surrounding the green space.
4. A variance to waive the requirement of pouring a sidewalk.

Adjoining Property Owner Statement

I, the undersigned, am the owner of the adjoining property located at:

(Print Your Address): 609 Emerald Line Hattiesburg, MS

After reviewing the applicant's request for a variance at the address listed above, I confirm that I have been informed of the proposed changes and hereby provide my response as follows:

[ ] I APPROVE of the requested variances listed above.

[ ] I DO NOT APPROVE of the requested variances listed above.

MINUTES OF THE

REGULAR MEETING OF THE

BOARD OF ADJUSTMENT

October 1st, 2025

Board Members Roll Call:

Members Present:

1. Shawn Harris, Chair
2. Sandi Boykins
3. John Eye
4. Herman Dungan
5. Richard Conville
6. James Hughes

Members Absent:

7. Jessica Cathey
8. Brandon Williams
9. Bernard Green, Vice Chair
10. Stacey Ready, Secretary
11. Vacant Seat

Staff Present:

1. Cory Long, Planning Manager
2. Nathan Satcher, Senior Planner
3. David Miller, Esq.
4. Meridian McDaniel, Planner I

Chair Harris declared the Board of Adjustment meeting open and in session at 3:33 p.m.

AGENDA REVIEW

A motion was made to accept the agenda for the September 2025 meeting.

Motion:

Made by Richard Conville to approve the agenda

Second:

Made by Herman Dungan

Vote:

Board Member	Yea	Nay	Other
John Eye	X		
Richard Conville	X		
Bernard Green			ABSENT
Shawn Harris	X		
Brandon Williams			ABSENT
Stacey Ready			ABSENT
Herman Dungan	X		
Sandi Boykins	X		
Jessica Cathey			ABSENT
James Hughes	X		

The motion to approve the October 2025 meeting agenda was passed by a 6-0 vote.

MINUTES REVIEW

A motion was made by Herman Dungan to approve the minutes with corrections from the August 2025 Meeting.

Motion:

Made by Herman Dungan

Second:

Made by Sandi Boykins

Vote:

Board Member	Yea	Nay	Other
John Eye	X		
Richard Conville	X		
Bernard Green			ABSENT
Shawn Harris	X		
Brandon Williams			ABSENT
Stacey Ready			ABSENT
Herman Dungan	X		
Sandi Boykins	X		
Jessica Cathey			ABSENT
James Hughes	X		

The motion to approve the August 2025 meeting minutes was passed by a 6-0 vote.

PLANNING REPORT

The Planning Division staff gave a report.

CHAIR'S REPORT

No report from the chair.

INTRODUCTIONS:

Board of Adjustment members and Staff introduced themselves.

PUBLIC HEARING:

Item A: Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

Discussion and Vote:

Staff introduced the case.

Presented by:

- Annie Williams

Proponents:

- None

Opponents:

- None

Motion:

Sandi Boykins motioned to recommend approval of the request for a requirement of 10 ft of green space to allow for 3ft.

Second:

Made by Richard Conville

Vote:

Board Member	Yea	Nay	Other
John Eye		X	
Richard Conville	X

Summary

Recommendation Statement
The Board of Adjustment recommended denial on October 1st, 2025.

Please place this on the October 21, 2025 City Council meeting for consideration.

September 2025 BOA Item: A
Green Space, Fence Height, and Sidewalk Variances
Annie Kimbarugh, Property Owner

URBAN DEVELOPMENT
PLANNING DIVISION

Board of Adjustment
Case Fact Sheet

Names of Petitioner: Annie Kimbarugh, Property Owner

Address of Property:	**Tax Parcels**	**PPIN:**	**Ward:**
1516 Florida Avenue	2-038D-16-055.00	21775	4

Request: Green Space, Fence Height, and Sidewalk Variances

Purpose of Request: Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

History / Background: The applicant met with staff in a pre-application meeting in June of 2025, where they discussed the development of an outdoor event space to add to the existing Sycampore Oaks Event Venue located at 1516 Florida Avenue. The applicant wants to include an outdoor area with a pergola, a gathering space, and an 8-foot perimeter fence. The proposed 8ft fence would technically be in the front yard of the parcel, since it is a corner lot and there is no primary structure on the parcel.

During the meeting, outstanding items from the parking lot's development were also discussed. The parking lot was developed without the required and site-plan-approved 10ft green space buffer and sidewalks along public streets. Staff advised the applicant that the outstanding items that were included on the approved site plan would still need to be completed. The applicant inquired about her options to not

finish out the outstanding items and the staff discussed options, including the variance process for both the fencing and the green space. Staff discussed the sidewalk's fee-in-lieu program and the sidewalk's variance process.

Applicant Summary: See Attached

September 2025 BOA Item: A
Green Space, Fence Height, and Sidewalk Variances
Annie Kimbarugh, Property Owner

Option: Recommend **approval or denial** of the variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

Basis for Approval (12.4.1.1):

Approval Criteria. A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria:

I. Hardship.
• The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
• There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

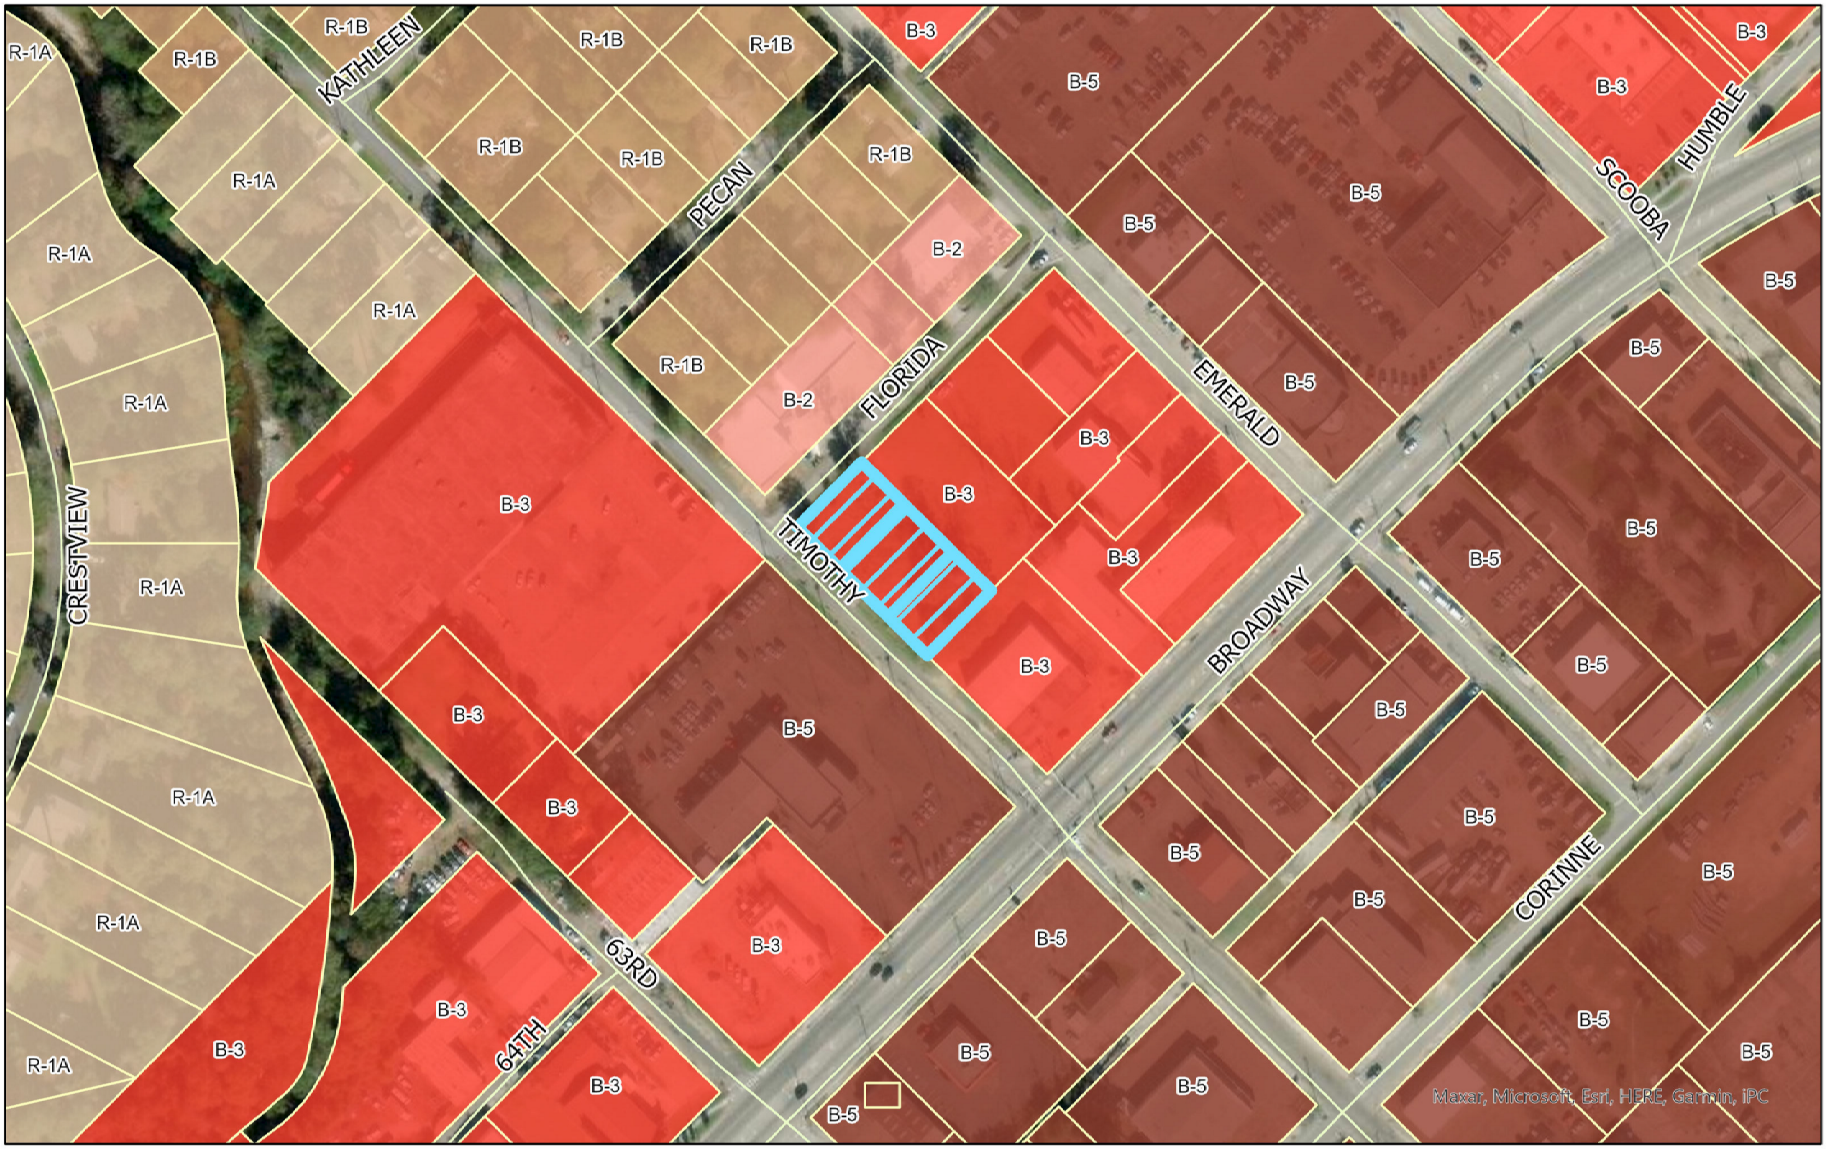
II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.



SUBJECT PARCEL

1516 Florida Avenue— Variance Request

Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

SITE PLAN

SCALE ——— 1" = 10'-0"

SITE PLAN NOTES:

1. OWNER TO VERIFY SIZE AND CONFIGURATION OF ALL WALKS AND DRIVES PRIOR TO CONSTRUCTION.
2. OWNER TO VERIFY EXACT LOCATION OF PROJECT WITH GENERAL CONTRACTOR PRIOR TO CONSTRUCTION.

STORMWATER BMPS

GENERAL MAINTENANCE & SWEEPING:

1. DESIGNATE PERSONNEL TO CONDUCT REGULAR INSPECTIONS OF PARKING FACILITY.
2. CLEAN LEAVES, TRASH, & OTHER DEBRIS REGULARLY TO PREVENT DEBRIS FROM REACHING ANY STORM DRAIN INLET. (DRY SWEEPING)
3. ESTABLISH FREQUENTLY PARKING LOT SWEEPING BASED ON USAGE & OBSERVATIONS OF WASTE ACCUMULATION. (AFTER SPECIAL EVENTS)
4. MAINTAIN MAP OF THE PROPERTY IDENTIFYING DIRECTIONS OF STORMWATER FLOW & THE LOCATION OF ANY STORM DRAINS ON SITE.
5. MARK ANY STORM DRAIN INLETS IN OR NEAR PARKING LOT WITH THE MESSAGE "DO NOT DISPOSE OF ANY MATERIALS OR WASTE HERE; DRAINS TO CREEK".

CONSTRUCTION WORK:

1. DO NOT ALLOW SLURRY FROM SAW-CUTTING TO ENTER STROM DRAINS.
2. INSTALL STROM DRAIN PROTECTION DEVISES (HAY BALES, SOCKS OR DRAIN COVERS) AROUND OR OVER STORM DRAIN INLETS WHEN DOING CONSTRUCTION OR MAINTENANCE WORK WITHIN 25 FEET OF INLETS.
3. DESIGNATE A WASHOUT AREA ON THE JOB SITE IN A GRASSY OR GRAVELED AREA WHERE POOLED WATER CAN SOAK INTO THE GROUND. NEVER WASH ON STREET OR PAVED AREA OR NEAR STORM DRAINS.
4. IF NO WASH AREA IS AVAILABLE, WASH OUT INTO A CONTAINER & DISPOSE OF MATERIAL PROPERLY.

MATERIALS STORAGE, LOADING & UNLOADING:

1. DO NOT STORE ANY POTENTIALLY HAZARDOUS LIQUID OR SOLID MATERIALS (PAINTS, PESTICIDES, FERTILIZER OR SALT/SAND) OUTSIDE UNLESS ADEQUATE CONTAINMENT & COVER ARE PROVIDED OR THE CONTAINER IS DESIGNED FOR OUTDOOR STORAGE.
2. DO NOT LOAD OR UNLOAD MATERIALS NEAR A STORM DRAIN INLET, CULVERT, OR DRAINAGE DITCH UNLESS DRAINS ARE BLOCKED.

MOWING:

1. SWEEP PAVEMENT OR SIDEWALKS WHERE GRASS CLIPPINGS, GRANULAR FERTILIZER OR OTHER DRY CHEMICALS HAVE FALLEN. SWEEP BACK ONTO GRASSY AREAS.

SURFACE CLEANING SIDEWALKS & PARKING AREAS:

1. DO NOT HOSE DOWN ANY SIDEWALKS OR PARKING AREAS EXCEPT WHERE WATER WILL ONLY ENTER THE SANITARY SEWER OR VEGETATED AREAS.
2. IF YOU DO NOT USE ANY CHEMICALS OR DETERGENTS AND ARE ONLY CLEANING SURFACES OF AMBIENT DUST, THEN YOU MAY DIRECT THE WASH WATER TO NEARBY LANDSCAPING OR CONTAIN IT ON SITE & ALLOW IT TO EVAPORATE. WHEN DISCHARGING TO LANDSCAPING, MAKE SURE WATER IS BEING ABSORBED INTO THE GROUND & NOT RUNNING OFF INTO STORM DRAINS OR PAVED AREAS.
3. DRY CLEAN UP METHODS SHOULD BE USED PRIOR TO ANY PRESSURE WASHING. IDENTIFY WHERE ALL STORM DRAINS ARE LOCATED BEFORE STARTING. WASH WATER SHOULD NOT BE ALLOWED TO FLOW DOWN GUTTERS OR ENTER STORM DRAINS. ALL WASH WATER MUST BE CAPTURED FOR PROPER DISPOSAL.

EROSION CONTROL NOTES:

1. INSTALLATION OF SILT FENCES & ROCK OR HAY BERMS BEFORE & DURING CONSTURCTION IN ORDER TO REDUCE ON SITE SOIL EROSION & PROVIDE TEMPORARY CAPTURE OF SEDIMENT.
2. TEMPORARY &/OR PERMANENT REVEGETATION OF BARE GROUND IN ORDER TO STABILIZE DISTURBED SOIL AT THE EARLIEST DATE.
3. CONSTRUCTION OF ONSITE STORMWATER FACILITIES BY THE LAND OWNER OR DEVELOPER IN A MANNER SUCH THAT DETENTION PONDS FUNCTION AS TEMPORARY SEDIMENTATION BASINS UNTIL PERMANENT REVEGETATION OF THE SUBJECT TRACT IS ACCOMPLISHED.
4. OTHER MEASURES, AS DETERMINED BY FORREST COUNTY OR ITS AGENTS, WHICH MAY BE NECESSARY TO CONTROL EROSION & SEDIMENTATION ON A SITE BY SITE BASIS.

STORMWATER DETENTION:

1. IT IS PROHIBITED TO PLACE FILL MATERIAL, TO CONSTRUCT IMPERVIOUS COVER, PLACE ANY OTHER STRUCTURE ON A PROPERTY; OR PERFORM ANY EXCAVATION OR GRADING; IN A MANNER WHICH ALTERS THE FLOW OF SURFACE WATER ACROSS A PROPERTY IN A MANNER WHICH DAMAGES ANY ADJACENT PROPERTY.
2. ALL STORMWATER DETENTION SHALL COMPLY W/ SECTION 7.2 OF THE FORREST COUNTY ORDINANCE FOR STORMWATER RUNOFF, ILLICIT DISCHARGES,& ILLEGAL CONNECTIONS.
3. SEE FORREST COUNTY ORDINANCE FOR STORMWATER RUNOFF, ILLICIT DISCHARGES & ILLEGAL CONNECTIONS FOR ANY QUESTIONS CONCERNING THIS MATTER &/OR VERIFY W/ PLANNING DEPARTMENT.

SHEET NUMBER: 1

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The cost of constructing a sidewalk represents a significant and undue financial hardship for our small, minority-owned business.

   (b) The sidewalk would be out of place, as adjacent properties do not currently have sidewalks , and the area does not support high pedestrian use.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This request does not offer any unique privilege—it simply prevents an inconsistent and underutilized infrastructure investment that would not align with current surroundings or traffic patterns.

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Requiring this installation would impose an unreasonable financial burden for infrastructure that does not contribute meaningfully to community safety or accessibility.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Reasonable use of the property is impaired if significant funds must be diverted to an isolated sidewalk segment that serves no functional or community purpose.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

The variance requested is minimal—it asks for exemption from a single frontage improvement that does not currently exist in the area.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The request aligns with the Code's intent to balance private development with public benefit. In this . In this case, sidewalk construction provides little public benefit while harming the property owner's ability to sustain business improvements.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The hardship is created by the need for shaded, designated ceremony space as part of our event venue's business model, and the only feasible location lies within the designated green space area.

   (b) Most commercial venues in this zoning district do not require integration with landscaped ceremonial spaces, creating a unique condition for our use.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This does not confer a special privilege—pergolas and similar structures are common and appropriate features for event venues. We're simply requesting the ability to place it within our limited available area

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Literal enforcement would deprive us of the ability to enhance our client offerings with outdoor ceremonies, limiting our growth and relevance as an event venue in a competitive market.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   The outdoor space cannot function fully as intended without the pergola structure. . Clients expect shaded outdoor accommodations, which are industry-standard for similar venues.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

This variance allows for the smallest structure necessary to create a functional outdoor ceremony space without interfering with neighboring properties or utilities.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The pergola supports the intent of enhancing the public-facing aesthetic and use of property for community-serving purposes, in line with the Code's intent.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship.** (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) Our property has experienced trespassing and loitering, particularly during and after events. Without a 6-foot fence, we cannot secure our outdoor space properly.

   (b) This issue is unique to our location and use as a high-traffic event venue, especially in a commercial area without existing perimeter barriers.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   The request does not provide a special privilege. Many businesses with safety or privacy concerns implement and underutilized infrastructure investment that would not align with current surroundings or traffic patterns. perimeter fencing. This request ensures we can do so appropriately for our type of use.

3. **Literal Interpretation.** The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Enforcing a height limitation on fencing would jeopardize our security , guest safety, and property for infrastructure that does not contribute meaningfully to community safety or accessibility. maintenance, which places our business at an unfair disadvantage.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Without this variance, we cannot reasonably use the outdoor space without the risk of damage, liability, or safety issues due to uninvited individuals entering the property.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

A 6-foot fence is the minimum necessary to provide privacy, deter intruders, and clearly define property boundaries.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The request supports the Code's goal to provide safe, well-maintained, and community-compatible properties while respecting property owners' rights to protection and security.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship.** (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   (a) The hardship is unique to the size and existing footprint of the property. The parking lot was constructed using the zoning regulations that were in place at the time and the available space does not allow for the required 10-foot green space setback.

   (b) These conditions do not generally apply to newer developments or parcels with more flexibility in layout.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   This variance does not provide a special privilege, but instead allows us to bring the property closer to compliance and usability under modern business needs, similar to other properties operating under updated variances or older development standards.

3. **Literal Interpretation.** The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   Enforcing the literal 10-foot requirement would eliminate key access points, prevent intended improvements to enhance community value, and create undue hardship by forcing a redesign of the property that is not physically feasible.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   Without this variance, we cannot make practical use of the space for outdoor functions, traffic flow, or green beautification. This small setback is essential for continued operations.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

The 3-foot green space is the minimum needed to maintain functionality and safety without negatively impacting neighboring properties or the public.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

This variance supports the Code's goal to encourage safe, attractive, and economically viable use of land without imposing impractical burdens due to pre-existing site conditions.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

City of Hattiesburg - Planning Division

LETTER OF APPROVAL OR DENIAL FROM ADJOINING PROPERTY OWNER

Public Hearing Variance Request Submission

Applicant Property Information:

Parcel Number: 21775

Property Address: 1516 Florida Avenue, Hattiesburg, MS 39401

Variance Requests:

The applicant is requesting the following variances:

1. A variance to allow for 3 feet of green space instead of the required 10 feet.
2. Permission to install a pergola within the green space area.
3. A variance to allow a 6-foot privacy fence surrounding the green space.
4. A variance to waive the requirement of pouring a sidewalk.

Adjoining Property Owner Statement

I, the undersigned, am the owner of the adjoining property located at:

(Print Your Address): 609 Emerald Line Hattiesburg, MS

After reviewing the applicant's request for a variance at the address listed above, I confirm that I have been informed of the proposed changes and hereby provide my response as follows:

[ ] I APPROVE of the requested variances listed above.

[ ] I DO NOT APPROVE of the requested variances listed above.

The motion to approve the August 2025 meeting minutes was passed by a 6-0 vote.

PLANNING REPORT

The Planning Division staff gave a report.

CHAIR'S REPORT

No report from the chair.

INTRODUCTIONS:

Board of Adjustment members and Staff introduced themselves.

PUBLIC HEARING:

Item A: Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

Discussion and Vote:

Staff introduced the case.

Presented by:

- Annie Williams

Proponents:

- None

Opponents:

- None

Motion:

Sandi Boykins motioned to recommend approval of the request for a requirement of 10 ft of green space to allow for 3ft.

Second:

Made by Richard Conville

Vote:

Board Member	Yea	Nay	Other
John Eye		X

Summary

Recommendation Statement
The Board of Adjustment recommended denial on October 1st, 2025.

Please place this on the October 21, 2025 City Council meeting for consideration.

September 2025 BOA Item: B
Drive Thru Stacking Spaces and Residential Buffer Variances
Alfredo Sandoval, Property Owner, and Stephen Stetleman, Representative

URBAN DEVELOPMENT
PLANNING DIVISION

Board of Adjustment
Case Fact Sheet

Names of Petitioner: Alfredo Sandoval, Property Owner, and Stephen Stetleman, Representative

Address of Property:	**Parcel:**	**PPIN:**	**Ward:**
1300 N Main Street	2-029F-04-067.00	14508	2

Request(s): Drive Thru Stacking Spaces and Residential Buffer Variances

Purpose of Request: Alfredo Sandoval, Property Owner, and Stephen Stetleman, Representative, request a variance from the minimum requirement of 5 stacking spaces in a restaurant with a drive through to instead allow for 0 and a variance from the residential buffer minimum of 200ft to instead allow for 0ft for an R-1B zoned property located at 1300 N Main Street (PPIN 14508, Forrest County, Ward 2).

History / Background: The applicant is requesting a zoning amendment and variances for the property situated at 1300 N Main Street to facilitate its reactivation as a drive-thru restaurant. Historically, the building was occupied by Church's Chicken, a drive-thru fast food establishment. The neighboring properties include commercial entities such as Compadres Market, as well as residential areas. The property is also located in the North Main Historic District.

They are presently seeking a zoning change and variances for the property. It is situated within the R-1B zoning district, designated for single-family residences, which prohibits commercial restaurants. Although the property previously operated as a restaurant, it has been vacant for over six

months and has consequently has lost its legal nonconforming status. The applicants are requesting two variances: one to relax the requirement for stacking spaces for the drive-thru, and another to reduce the residential buffer to neighboring residential properties.

The Board of Adjustment should consider the impact a drive-through has on neighboring residential properties including sound, smell, as well as visual impact. Additionally, drive-throughs will add an increase in vehicular traffic to this corridor.

Applicant Summary: See Attached

Applicable Regulations:

SECTION 4 Zoning Districts Established

4.5.10 B-2 Community Business District: The purpose of the B-2 District is to provide for retail and personal service uses in locations convenient to residential neighborhoods consistent with comprehen sive planning policies. This district is consistent with the Neighborhood Business District in the Comprehensive Plan.

4.5.10 B-3 Community Business District: The purpose of the B-3 District is to provide for retail, personal service, and offices in locations with convenient access to the community consistent with comprehensive planning policies. This district is consistent with the Community Business District in the Comprehensive Plan.

SECTION 5 Use Regulations

5.4.36 Restaurants With and Without Drive-Through Service.

5.4.36.4 No part of the active use area of a drive-through restaurant, including the drive-through, menu, and window, may be located closer than 300 feet to a lot containing a legal, conforming residential use

SECTION 7 **Standards of Design**

7.12.16 Stacking Space.

7.12.16.1 Number of Spaces Required. In addition to required parking spaces, drive–thru facilities shall provide a minimum of five stacking spaces per drive–thru facility, window, or bay, with the following exceptions: the space directly in front of the facility, window, or bay shall not count towards meeting the stacking requirements.

i. Fast food restaurants shall have an
An additional five stacking spaces. A minimum of five of the total stacking spaces shall be located at or prior to the ordering station.

ii. Non–automated car washes shall only be required to have two stacking spaces per bay, one of which is located for use as a dry down area.

iii. Automated car washes shall be required to have four stacking spaces per bay.

iv. Freestanding ATMs shall only be required to have two stacking spaces.

7.12.16.2 Location. Stacking spaces shall be located entirely outside of a required driveway or parking aisle needed to access required parking spaces.

7.12.16.3 Size. For the purposes of determining compliance, stacking spaces shall measure 9 x 18 and shall be illustrated on site plans.

Present Zoning: R-1B Single Family Residential

Present Use: Vacant Building

Future Land Use: Neighborhood Business Corridor

Surrounding Zoning and Land Use:
North: R-1A Single-Family Residential
South: B-3 Community Business District

September 2025 BOA Item: B
Drive Thru Stacking Spaces and Residential Buffer Variances
Alfredo Sandoval, Property Owner, and Stephen Stetleman, Representative

East: B-2 Neighborhood Business District
West: R-3 Multi-Family Residential

Letters or Concerns stated:

The Planning Division Office has not received any letters or other written communications regarding this case as of finalizing this report.

Option: Recommend **approval or denial** of the request for a variance from the minimum requirement of 5 stacking spaces in a restaurant with a drive through to instead allow for 0 and a variance from the residential buffer minimum of 200ft to instead allow for 0ft for an R-1B zoned property located at 1300 N Main Street (PPIN 14508, Forrest County, Ward 2).

Basis for Approval (12.4.1.1):

Approval Criteria. A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria:

I. Hardship.
• The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
• There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

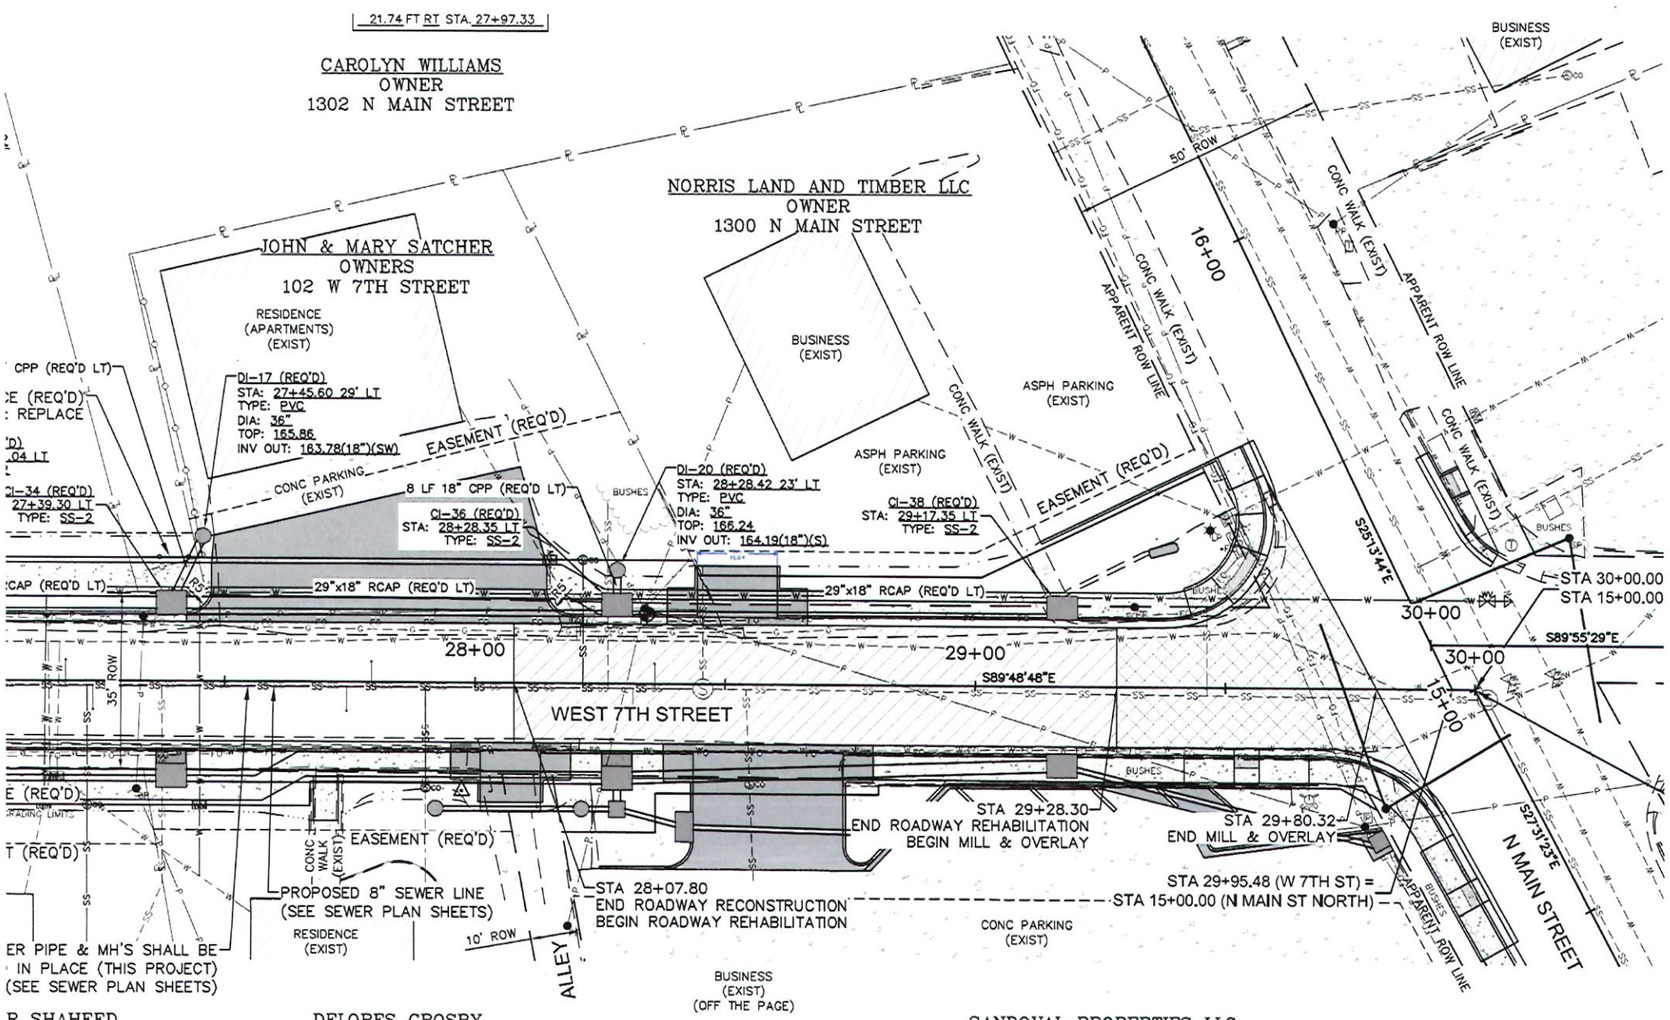
FOR RE-ZONING APPLICANTS:

As stated in Section 12.3 in the Land Development Code, one of the following conditions must be met before a rezoning can be recommended. Check the condition(s) most applicable to your request and explain in writing:



☒ There was a mistake in the original zoning.

☐ The character of the neighborhood has changed substantially so that rezoning is clearly justified and there is a public need for the rezoning.

☐ Annexation.

Detailed explanation of condition(s) most applicable to your request:

This building was originally a Church's chicken, and my client purchased it as a commercial investment. It's clearly an error as it sits on the corner of 7th Street and N Main Street, and all other corners are either active commercial businesses, or commercial buildings. Two of these properties are zoned B-2 and one is zoned B-3. Ideally, the property will retain use of the drive-thru, as it is currently built. We have signed lease on this property from a restaurant and simply need this change to proceed.

SHOWS DEARMAN & WAITES
(601)544-1821

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.

A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship**. (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

The subject property's configuration and existing site constraints create an exceptional condition that makes development without a drive-through unreasonably difficult. Unlike other parcels in the same zoning district, this property has limited frontage and circulation options. A drive-through is necessary to accommodate the proposed use and ensure safe vehicle flow. The hardship is not the result of any action by the applicant, but rather due to the lot's dimensions and location characteristics.

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

Approval of this variance does not confer a special privilege. Similar businesses within the district and surrounding corridors are permitted drive-through facilities when lot conditions allow. This request only enables the subject property to function comparably to others in the same zoning classification.

3. **Literal Interpretation**. The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

Literal interpretation of the Code would prohibit the installation of a drive-through and thereby deprive the applicant of rights commonly enjoyed by other properties in the zoning district. Without a variance, the property cannot feasibly support the intended commercial use, creating unnecessary hardship and restricting economic viability.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

The property cannot be reasonably used for its intended commercial purpose without the inclusion of a drive-through. Customers expect this feature, and the absence would severely limit the site's competitiveness and operational efficiency.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

The request is limited strictly to the minimum variance needed to allow a drive-through lane and stacking area. No additional dimensional relief is sought.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

The variance aligns with the intent of the Land Development Code by promoting orderly growth, safe traffic circulation, and economic development. The site plan incorporates appropriate buffering, traffic management, and design standards so that granting the variance will not conflict with the health, safety, or welfare of the community.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

MINUTES OF THE

REGULAR MEETING OF THE

BOARD OF ADJUSTMENT

October 1st, 2025

Board Members Roll Call:

Members Present:

1. Shawn Harris, Chair
2. Sandi Boykins
3. John Eye
4. Herman Dungan
5. Richard Conville
6. James Hughes

Members Absent:

7. Jessica Cathey
8. Brandon Williams
9. Bernard Green, Vice Chair
10. Stacey Ready, Secretary
11. Vacant Seat

Staff Present:

1. Cory Long, Planning Manager
2. Nathan Satcher, Senior Planner
3. David Miller, Esq.
4. Meridian McDaniel, Planner I

Chair Harris declared the Board of Adjustment meeting open and in session at 3:33 p.m.

AGENDA REVIEW

A motion was made to accept the agenda for the September 2025 meeting.

Motion:

Made by Richard Conville to approve the agenda

The motion to approve the August 2025 meeting minutes was passed by a 6-0 vote.

PLANNING REPORT

The Planning Division staff gave a report.

CHAIR'S REPORT

No report from the chair.

INTRODUCTIONS:

Board of Adjustment members and Staff introduced themselves.

PUBLIC HEARING:

Item A: Annie Kimbarugh, Property Owner, requests variances from the minimum requirement of 10 ft of green space to allow for 3ft, from the maximum fence height in a front yard of 4ft to allow for 6ft, and from the requirement of sidewalks along public streets to instead allow for 0ft of sidewalk along public streets for a property located at 1516 Florida Avenue (PPIN 21775, Forrest County, Ward 4).

Discussion and Vote:

Staff introduced the case.

Presented by:

- Annie Williams

Proponents:

- None

Opponents:

- None

Motion:

Sandi Boykins motioned to recommend approval of the request for a requirement of 10 ft of green space to allow for 3ft.

Second:

Made by Richard Conville

Vote:

Board Member	Yea	Nay	Other
John Eye		X

Summary

Recommendation Statement
The Board of Adjustments recommneded to approve at its meeting on October 1st, 2025.

Please place this on the October 21, 2025 City Council meeting for consideration.

October 2025 BOA Item: C
Accessory Structure Size Variance
Don McIlwain, Property Owner/Applicant, and Robert Ford, Representative

URBAN DEVELOPMENT
PLANNING DIVISION

Board of Adjustment
Case Fact Sheet

Names of Petitioner: Don McIlwain, Property Owner/Applicant, and Robert Ford, Representative

Address of Property:	**Parcel:**	**PPIN:**	**Ward:**
116 S 23rd Avenue	2-028O-08-104.00	16471	4

Request(s): Accessory Structure Size Variance

Purpose of Request: Don McIlwain, Property Owner/Applicant, and Robert Ford, Representative, request a variance from the requirement of accessory structures for residential use to be a maximum of 33% of the primary structure, to instead allow for 36% for a property located at 116 S 23rd Avenue (PPIN 16471, Forrest County, Ward 4).

History / Background: The applicant met with staff in the summer of 2025 and discussed an accessory structure addition to the home at 116 S 23rd Avenue. The Land Development Code allows for the size of the accessory structures to be a maximum of 33% of the size of the primary structure. The accessory structure will be a carport that will cover the existing parking slab. The carport structure is currently 36% of the primary structure. This property is located in the Parkhaven Historic District, and the carport will need approval with the Historic Conservation Commission and have an approved variance before it can be constructed.

Applicant Summary: See Attached

Applicable Regulations:

October 2025 BOA Item: C
Accessory Structure Size Variance
Don McIlwain, Property Owner/Applicant, and Robert Ford, Representative

SECTION 5 **Use Regulations**

5.4.2 Accessory Uses, Buildings.

5.4.2.1 In no event shall “accessory use” or “accessory structure” be construed to authorize a use or structure not otherwise permitted in the district in which the principal use is located.

5.4.2.2 All accessory uses and accessory structures shall conform to the applicable requirements of this ordinance, including all dimensional requirements and use, design and landscaping standards applicable to the primary use/ structure. The provisions of this section establish additional requirements and restric tions for particular accessory uses and structures.

5.4.2.3 Accessory uses and structures that are clearly related to and incidental to the permitted principal use or structure on the lot are permitted in all districts.

5.4.2.4 All accessory uses and structures shall re quire the issuance of a certificate of zoning compliance.

5.4.2.5 Structures accessory to residential uses (except for agricultural buildings located in agricultural districts) shall have a combined floor area (aggregate of all detached accessory structures) of no more than 33% of the total floor area of the principal structure.

5.4.2.6 No accessory structure shall be located in a required front yard nor shall any accessory structure on a residential lot located in any zoning district be placed between the street and the rear building line of the principal structure except that:
i. In the A1 District, accessory structures located more than 100 feet from the primary street may be placed in the front yard; and
ii. Detached garages shall be permitted in side yards.
iii. Accessory residential structures shall be five (5) feet from the rear property line and five (5) feet from the side property lot. No accessory structure on a corner lot shall project beyond the front yard line of the lots in the rear.

5.4.2.7 Temporary buildings and storage of materials and goods associated with construction or remodeling activity are permitted for a period not to exceed six months. One six-month extension may be granted on a case-by-case basis.

Present Zoning: R-1A Single Family Residential

Present Use: Dwelling, Single Family

Future Land Use: Neighborhood Conservation District 1

Surrounding Zoning and Land Use:
North: R-1A Single-Family Residential
South: R-1A Single-Family Residential
East: R-1A Single-Family Residential
West: R-3 Multi-Family Residential

Letters or Concerns stated: The Planning Division Office has not received any letters or other written communications regarding this case as of finalizing this report.

Option: Recommend **approval or denial** of the request for a variance from the requirement of accessory structures for residential use to be a maximum of 33% of the primary structure, to instead allow for 36% for a property located at 116 S 23rd Avenue (PPIN 16471, Forrest County, Ward 4).

Basis for Approval (12.4.1.1):

Approval Criteria. A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria:

I. Hardship.
• The hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant.
• There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land

areas or uses within the same zoning district.

II. Special Privilege. A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

III. Literal Interpretation. The literal interpretation of the provisions of the regulations would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

IV. Reasonable Use. The applicant cannot make reasonable use of the property without the requested variance.

V. Minimum Required. The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

VI. Conformance with the Purposes of this Code. The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

SUBJECT PARCEL

116 S 23rd Avenue— Variance Request

Don McIlwain, Property Owner/Applicant, and Robert Ford, Representative, requests a variance from the requirement of accessory structures for residential use to be a maximum of 33% of the primary structure to instead allow for 36%for a property located at 116 S 23rd Avenue (PPIN 16471, Forrest County, Ward 4).

4. Contractor to Verify Drive With Existing Mailboxes & Other Obstructions to Allow Proper Clearance When Entering and Exiting Drive.
5. Contractor to Verify all Existing Utilities Prior to Construction and Adjust Construction Elements as Required.
6. Verify Front Setback of Home at Site. Front of Home to be Consistent With Other Adjacent Homes.

General Note:

Farve Residential Service, LLC. Not Being an Architectural or Engineering Firm Assumes NO Liability for Structural or Architectural Design Integrity. Great Care and Effort Has Been Made in the Development of These Plans and the Completion of These Construction Documents. Farve Residential Service, LLC Highly Recommends That These Plans be Reviewed by a Licensed Structural Engineer and/or an Architect, in Addition to Your Local Building Officials Prior to Construction. Additional Engineering may be Required to Comply With Seismic, Wind, and Other Special Conditions Required by Local Code. If an Error and/or Omission Does Occur, it is the Sole Responsibility of the Contractor to Remedy the Error and/or Omission at His Own Expense and not the Responsibility of the Drafting Service. Contractor is Responsible for Verification of Dimensions in the Field and Shall Build the Structure in Strict Accordance With the 2018 International Building Code Series. All Foundation and Structural Plans and Details are General in Nature and Shall be Reviewed by a Structural Engineer Prior to Construction.

STATE OF MISSISSIPPI DAIJA ARRINGTON NOTARY PUBLIC FORREST COUNTY My commission expires March 24, 2029 Commission number 494897

FOR VARIANCE APPLICANTS:

The Board of Adjustment has the responsibility to hear and make recommendation on requests for variances to the requirements of this Code (per Section 11.4). Section 12.4.1 Variances are departures from the standards of the Land Development Code, except land use, which will not be contrary to the public interest and where, owing to conditions peculiar to the property and not as a result of the action of the applicant, a literal enforcement of this Code would result in unnecessary and undue hardship.

The following conditions must be met before a variance can be recommended.

Approval Criteria.
A variance is not a right, but a privilege that property owners meeting the following criteria may request. These criteria are to be used to consider all variance requests. It shall be the burden of the applicant to prove that the request meets these criteria. Use this worksheet or format your own to demonstrate the following criteria.

1. **Hardship.** (a) the hardship is unique to the property and is not or will not be caused by the actions or inactions of the applicant. (b) There are exceptional conditions creating an undue hardship applicable only to the property involved or the intended use which do not apply generally to the other land areas or uses within the same zoning district.

   Heat in South MS (need cover)

   Sun damage to cars

2. **Special Privilege.** A variance shall not confer any special privilege that is denied to other lands or structures in the same zoning district.

   Mr McIlwain chooses to build this for his use and this will improve the community as a whole. No privilege whatsoever.

3. **Literal Interpretation.** The literal interpretation of the provision of the regulation would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district and would cause unnecessary and undue hardship on the applicant.

   The applicant is deprived of right to protect his investment in autos.

4. **Reasonable Use.** The applicant cannot make reasonable use of the property without the requested variance.

   This cover at 20'x20' is the minimum to cover two cars.

5. **Minimum Required.** The granting of a variance is the minimum variance that will make possible the reasonable use of the land or structure.

Existing slab needing cover creates reasonable use.

6. **Conformance with Purpose of this Code.** The granting of a variance will not conflict with the purposes and intent expressed or implied in the Land Development Code.

This variance will improve the community with a small variance.

12.4.1.2 Conditions of Approval. In recommending the granting of a variance, the Board of Adjustment may require appropriate conditions and safeguards in conformity with this Code. Violation of such conditions and safeguards, when made a part of the terms under which a variance is granted, shall be deemed a violation of the Code. The recommendation of the Board Adjustment shall be presented to the City Council for final action.

Memorandum

To: **Mayor Toby Barker and Members of City Council**

From: **Ann Jones**

cc:

Date: **Tuesday, October 21, 2025**

Re: **Adopt a Resolution renewing and extending an Interlocal Cooperation Agreement between the City of Hattiesburg and Forrest County for cooperative construction, maintenance, improvements and operation of public park facilities and authorizing the Mayor to execute the same.**
File Number: 2025-877
Minute Book #

Summary
Renewal and extension of Interlocal Cooperation Agreement between the City of Hattiesburg and Forrest County for cooperative construction, maintenance, improvements and operation of public park facilities.

Recommendation Statement
I recommend renewal of the Interlocal Agreement.

Please place this on the October 21, 2025 City Council meeting for consideration.

There came for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **21st** day of **October 2025**, the following Resolution:

RESOLUTION NO. _____

RESOLUTION RENEWING AND EXTENDING INTERLOCAL COOPERATION AGREEMENT BETWEEN FORREST COUNTY FOR COOPERATIVE CONSTRUCTION, MAINTENANCE, IMPROVEMENT AND OPERATION OF PUBLIC PARK FACILITIES

WHEREAS, the City of Hattiesburg entered into an interlocal cooperation agreement with Forrest County for the cooperative construction, maintenance, improvement, and operation of public park facilities on October 5, 1993, that was approved by the Attorney General on October 8, 1993, as recorded in Minute Book 282 at page 424, herein attached as Exhibit "A"; and

WHEREAS, pursuant to its provisions, said agreement is "subject to renewal and extension upon the beginning of the new term of office of each of the parties and by ratification of each new administration of the respective governing authorities" and

WHEREAS, the City of Hattiesburg desires to renew and extend the said agreement through the end of the current term of office of the governing authorities.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF HATTIESBURG, MISSISSIPPI, THAT:

Section 1. The Interlocal Cooperation Agreement with Forrest County for the cooperative construction, maintenance, improvement, and operation of public park facilities is hereby renewed and extended through the end of the current term of office of the governing authorities of the City of Hattiesburg.

BE IT FURTHER RESOLVED that the governing authorities of the City of Hattiesburg declare their intention to renew and extend the Interlocal Cooperation Agreement with Forrest County for cooperative construction, maintenance, improvement, and operation of public park facilities.

That public interest and necessity requiring the same, this Resolution shall become effective immediately from and after passage.

The foregoing resolution having been reduced to writing, the same was introduced by Council member _____, seconded by Council member _____, and was adopted by the following vote, to wit:

CITY CLERK MAYOR

MOTION was made by Councilman Buckley and seconded by Councilman Lawrence to authorize the Mayor to execute an Interlocal Agreement between Forrest County and the City of Hattiesburg for cooperative construction, maintenance, improvements and operation of public park facilities; and rescind Agreement approved September 7, 1993, at Minute Book 1993-4, pages 27-30.

There being no discussion, the motion received the affirmative vote of the Council as follows:

YEAS: Cummings, Buckley, Bowman, Lawrence NAYS: None ABSTAIN: Holloway

This being the 5th day of October, A.D., 1993.

INTERLOCAL COOPERATION AGREEMENT BY AND BETWEEN FORREST COUNTY, MISSISSIPPI, AND THE CITY OF HATTIESBURG, MISSISSIPPI, FOR COOPERATIVE CONSTRUCTION, MAINTENANCE, IMPROVEMENT AND OPERATION OF PUBLIC PARK FACILITIES

ITEM 1. PARTIES

The parties hereto are Forrest County, Mississippi, acting by and through its duly elected Board of Supervisors, and the City of Hattiesburg, Mississippi, by and through its duly elected Mayor and Council.

ITEM 2. AUTHORITY

This Interlocal Cooperation Agreement is entered into under the general provisions of the Mississippi Interlocal Cooperation Act of 1974, codified as Section 17-13-1, et seq. of the Mississippi Code of 1972, as amended.

ITEM 3. EFFECTIVE DATE

This agreement shall become effective upon its approval by each respective governing authority of the parties and upon its approval by the Attorney General of the State of Mississippi pursuant to and in accordance with Section 17-13-11 of the Mississippi Code.

ITEM 4. PURPOSE

The governing authorities of Forrest County and the City of Hattiesburg, by their entry into this agreement, share the belief that their joint and cooperative efforts shall be of mutual advantage and for the mutual benefit of the citizens represented. The parties further affirmatively represent that the services to be rendered in this effort accord best with geographic, economic, population and other factors influencing the needs and development of Forrest County and the City of Hattiesburg in Forrest County.

ITEM 5. DURATION

Pursuant to Section 17-13-9(a), the duration of this agreement shall be for the term of office of the parties hereto, and it may be subject to renewal and extension upon the beginning of the new term of office of each of the parties and by ratification of each new administration of the respective governing authorities. This agreement may be terminated by either party upon 30 days written notice to the other party.

ITEM 6. SPECIFIC PURPOSE

The specific purpose of this agreement shall be for the cooperative construction, maintenance, improvement and operation of public park facilities, community centers, zoos, programs and other recreational facilities or properties within the City of Hattiesburg in Forrest County, Mississippi. The respective governing authorities are authorized to provide recreational development by various statutory authority, including, but not limited to, Sections 55-9-1, 21-17-1, 21-19-31, 21-37-3, and 37-7-317, Mississippi Code of 1972.

ITEM 7. SEPARATE ENTITY

There shall be no separate legal or administrative entity created hereby. Rather, the governing authority of each respective party shall continue to act in an independent but cooperative manner to further the purposes of this agreement.

Forrest County may assist the City of Hattiesburg in the further development of recreational facilities and programs in the city by appropriating funds for recreational projects and equipment or by constructing or assisting in the constructing or purchasing of recreational facilities and equipment. Prior to any construction of facilities on city owned or city leased property by Forrest County, permission for such shall be required and obtained from the city governing authority. A general and unrestricted appropriation of county funds to the city for recreational development and program purposes may be utilized and expended by the city for any recreational development or program within the city inside Forrest County but it is agreed that a restricted or "earmarked" appropriation of

county funds to the city for specific recreational development purposes, equipment or programs shall only be expended by the city for the restricted or designated purpose as specified by Forrest County.

The City of Hattiesburg will retain title, or leasehold interest in the event of leased property, to all real property, equipment and improvements placed upon city owned or city leased property, including, but not limited to, such things as buildings, fences, lights, light poles, walking tracks, etc. Maintenance of city owned or city leased recreational property, facilities and equipment shall be the sole responsibility of the City of Hattiesburg, and the providing of funding or the construction of facilities by the county shall not create any obligation of the county to provide further funding for maintenance or upkeep. It is the intent of this agreement that the participation in the development of recreational facilities, equipment and programs within the City of Hattiesburg by Forrest County shall enable the recreational facilities to be open to all county citizens in the same manner as such facilities are open to residents of the City of Hattiesburg.

ITEM 8. AMENDMENTS

This agreement represents in its entirety the full agreement between the parties and may not be amended except by written agreement between the parties which receives approval as provided by law. Upon termination of this agreement, any property or equipment acquired by the city through county funding shall remain the property of the City of Hattiesburg and may be disposed of by the City of Hattiesburg in any manner consistent with Mississippi law.

EXECUTED IN TRIPLICATE ORIGINALS by the parties hereto on the dates as hereinafter provided and stated.

Minute Book #

Summary

Recommendation Statement

Please place this on the October 21, 2025 City Council meeting for consideration.

There came for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **6th** day of **October 2025**, the following Resolution:

RESOLUTION

RESOLUTION OF THE MAYOR AND CITY COUNCIL APPROVING A MEMORANDUM OF UNDERSTANDING WITH FORREST COUNTY RELATED TO FRIENDSHIP PARK AND AUTHORIZING THE MAYOR TO EXECUTE SAME

WHEREAS, the City of Hattiesburg ("City") and Forrest County, Mississippi ("County") are parties to an existing Interlocal Agreement, dated October 5, 1993, for the cooperative construction, maintenance, improvements, and operation of public park facilities, as amended and renewed; and

WHEREAS, the City and County desire to further their cooperative efforts by entering into a **Memorandum of Understanding** outlining responsibilities for improvements to and maintenance of Friendship Park, located at the southwest intersection of Rebecca Avenue and South Tipton Street in Hattiesburg, Mississippi; and

WHEREAS, under the terms of said Memorandum, both parties have agreed to undertake certain improvements and maintenance responsibilities as set forth therein, providing mutual benefit to both entities and the citizens they serve; and

WHEREAS, the City Council finds that approval of said Memorandum of Understanding is in the best interest of the City of Hattiesburg and its residents.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and City Council of the City of Hattiesburg, Mississippi, that the **Memorandum of Understanding between the City of Hattiesburg and Forrest County, Mississippi**, relating to the improvements and maintenance of Friendship Park, is hereby **approved**.

BE IT FURTHER RESOLVED that the Mayor is hereby **authorized to execute** said Memorandum of Understanding on behalf of the City and any related documents necessary to carry out the intent of this Resolution.

The foregoing Resolution having been reduced to writing, the same was introduced by Councilmember_____, seconded by Councilmember_____, and was adopted by the following vote, to wit:

YEAS: **NAYS:** **ABSENT:**

The President thereby declared the motion carries and the Resolution adopted, on this the **6th** day of **October 2025**.

MEMORANDUM OF UNDERSTANDING

PARTIES. This Memorandum is entered between Forrest County, Mississippi (hereinafter the "County"), acting by and through its Board of Supervisors, and the City of Hattiesburg (hereinafter the "City"), acting by and through its Mayor and Council to-wit:

AUTHORITY. This Memorandum is entered under the auspices of the parties' existing Interlocal Agreement for the cooperative construction, maintenance, improvements and operation of public park facilities dated October 5, 1993, and all subsequent renewals of and amendment thereto.

TERM. This Memorandum shall be effective as of October 2, 2025, and shall be coterminous with the respective terms of office of the signatories below unless renewed or extended by mutual agreement of the parties expressed in writing.

PREMISES. This Memorandum involves proposed improvements to and maintenance of Friendship Park as currently operated by the City on County owned land at the southwest intersection of Rebecca Avenue and South Tipton Street in Hattiesburg, Mississippi.

CONSIDERATION. In consideration of the mutual benefits to the parties,

1. the County shall:
    a. erect a see-saw;
    b. purchase and place two (2) soccer goals;
    c. purchase and install two (2) sets of metal bleachers;
    d. erect a rock climbing wall;
    e. erect a mural wall and provide an artist to paint it;
    f. erect a fitness circuit; and
    g. erect a spring action rocker;

2. and the City shall:
    a' rethread the existing batting cage (per the previous agreement);
    b' replace the bases on the existing baseball field;
    c' paint lines for the football field;
    d' ~~install~~ paint two (2) soccer fields;
    e. provide primer and apply it to the mural wall;
    f. maintain the park including all improvements; and
    g. maintain the playground equipment thereon made pursuant to this Memorandum.

AMENDMENT. This Memorandum may only be amended by mutual agreement of the parties expressed in writing.

ENTIRE AGREEMENT. This Memorandum constitutes the entire agreement between the parties with respect to the mutual considerations detailed herein.

WITNESS the parties' signatures, this the 2nd day of October, 2025:

RESOLUTION

WHEREAS, the City of Hattiesburg finds and determines that certain equipment (per attached list), to be surplus and not to be used in the future operation of the city; and

WHEREAS, the City of Hattiesburg finds and determines that the disposal of said equipment, in the manner otherwise provided by law, is not necessary or desirable for the financial welfare of the City; and

WHEREAS the governing authorities of the City of Hattiesburg are authorized and empowered in their discretion to dispose of said assets in accordance with appropriate Ms Code statutes; and

WHEREAS the governing authorities of the City of Hattiesburg desire to dispose of said assets (per attached list) at auction; and

NOW, THEREFORE, BE IT RESOLVED THAT the Hattiesburg City Council does hereby declares to be surplus and authorizes the disposal of said equipment (per attached list).

The foregoing resolution having been reduced to writing, the same was introduced by Council member _____ seconded by Council member_____ and was adopted by the following vote, to wit:

YEAS: NAYS:

The President thereby declared the motion carried and the Resolution adopted, on this the 21st day of October, A.D., 2025.

Date: **Tuesday, October 21, 2025**

Re: **Adopt a Resolution declaring property located at 622 Corinne Street, better identified by PPIN 19339 (parcel number 2-029O-10-049.00 and PPIN 19340 (parcel number 2-029O-050.00); and the parcel at 510 W. Pine Street, better identified by PPIN 19333 (parcel number 2-092O-10-066.00; and the parcel at 220 2nd Avenue better identified by PPIN 19344 (parcel number 2-029O-10-051.00) as surplus and authorize the sale of said property to 28th Office LLC., in the amount of $161,000.00, and authorize the Mayor to execute any and all necessary documents to the same.**
File Number: 2025-923
Minute Book #

Summary
Adopt a Resolution declaring property located at 622 Corinne Street, better identified by PPIN 19339 (parcel number 2-029O-10-049.00 and PPIN 19340 (parcel number 2-029O-050.00); and the parcel at 510 W. Pine Street, better identified by PPIN 19333 (parcel number 2-092O-10-066.00; and the parcel at 220 2nd Avenue better identified by PPIN 19344 (parcel number 2-029O-10-051.00) as surplus and authorize the sale of said property to 28th Office LLC., in the amount of $161,000.00, and authorize the Mayor to execute any and all necessary documents to the same.

Recommendation Statement
I recommend that this property be declared surplus and sold.

Please place this on the October 21, 2025 City Council meeting for consideration.

RESOLUTION

WHEREAS, the City of Hattiesburg finds and determines the parcel at 622 Corinne Street, better identified by PPIN 19339 (parcel number 2-029O-10-049.00 and PPIN 19340 (parcel number 2-029O-050.00); and the parcel at 510 W. Pine Street, better identified by PPIN 19333 (parcel number 2-092O-10-066.00; and the parcel at 220 2nd Avenue better identified by PPIN 19344 (parcel number 2-029O-10-051.00), is no longer needed for municipal or related purposes and is not to be used in the future operation of the City; and

WHEREAS, the governing authorities of the City of Hattiesburg are authorized and empowered in their discretion to convey said property in accordance with appropriate Miss Code statues; and

WHEREAS, the governing authorities of the City of Hattiesburg desire to dispose of said property;

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Hattiesburg City Council does hereby declare surplus the aforementioned property and authorizes sale of the same to 28th Office LLC., in the amount of $161,000.00.

The foregoing resolution having been reduced to writing, the same was introduced by Council member _____, seconded by Council member _____, and was adopted by the following vote, to wit:

YEAS: NAYS:

The President thereby declared the motion carried and the Resolution adopted, on this 21st day of October, 2025.

Hattiesburg, Mississippi 39401

Re: Appraisal of an Office Building located at 622 Corinne Street, Hattiesburg, Forrest County, Mississippi 39401

Dear Ms. Ann Jones:

Thank you for the opportunity to provide appraisal services. Based on my agreement with you, I have performed an appraisal and reported my findings in this Restricted Appraisal Report format. This report is intended to comply with the reporting requirements under Standards Rule 2.2© of the Uniform Standards of Professional Appraisal Practice.

It is understood between the parties that the scope of the assignment is limited and I relied on information obtained from the public records of Forrest County, published data sources and discussions with market professionals such as investors and brokers relative to the subject's income performance (if applicable) and physical composition. Supporting documentation is retained in the work file. The depth of discussion contained in this report is specific to the needs of the client and for the intended use stated below. The appraiser is not responsible for unauthorized use of this report.

VALUE SUMMARY			
Appraisal Condition	**Interest Appraised**	**Effective Date of Value**	**Value**
"As Is" – Market Value	Fee Simple	July 31, 2025	$120,000

This report is the result of the appraiser and client concurring on the appropriate valuation methods based on the subject property specifics resulting in a credible value opinion. The following Table summarizes our value conclusions and relevant data.

Respectfully submitted,

Zachary H. Fairley
State Certified General Real Estate
Appraiser, GA-1418

Purpose of the Appraisal

The purpose of this appraisal is to determine the "As-Is" Market Value of the property of the Fee Simple Interest of the subject.

Intended Use/Client and Intended User(s)

The intended use of this report is for internal decision making purposes by the client. It is my understanding that the intended user of the report is for the City of Hattiesburg, the client. The definition of market value relied upon is included before the Addenda.

Competency of the Appraisers

The appraisers' specific qualifications are included within this report. These qualifications serve as evidence of their competence for the completion of this appraisal assignment in compliance with the competency provision in USPAP. The appraisers' knowledge and experience, combined with their professional qualifications, are commensurate with the complexity of this assignment. The appraisers have previously provided consultation and value opinion for properties similar to the subject in Lumberton and the surrounding markets.

Interest Appraised

- **Fee Simple Interest** is absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Effective Date of Value

July 31, 2025

Date of Report

August 8, 2025

Scope of Work

Scope of work is the most critical decision an appraiser will make in performing an assignment. Solving an appraisal problem involves three steps:

1. Identifying the problem
2. Determining the solution (or scope of work)
3. Applying the solution

None of the three steps can be omitted, and each must be performed in order. To analyze the problem, the appraiser identifies seven key assignment elements: (1) client, (2) intended users in addition to the client, (3) intended use, (4) objective of the appraisal, or type of value and its definition, (5) effective date, (6) property characteristics that are relevant to the assignment such as the interest to be valued and physical and legal characteristics), and (7) assignment conditions such as hypothetical conditions, extraordinary assumptions, and other requirements. These elements provide the framework for the assignment and allow the appraiser to identify the problem to be solved.

The second step is to determine the scope of work to solve the problem. Scope of work encompasses all aspects of the valuation process, including which approaches to value will be used; how much data is to be gathered, from what sources, from which geographic area, and over what time period; the extent of the data verification process; and the extent of property inspection, if any. The scope of work decision is appropriate when it allows the appraiser to arrive at credible assignment results and is consistent with the expectations of similar clients and the work that would be performed by the appraiser's peers in a similar situation.

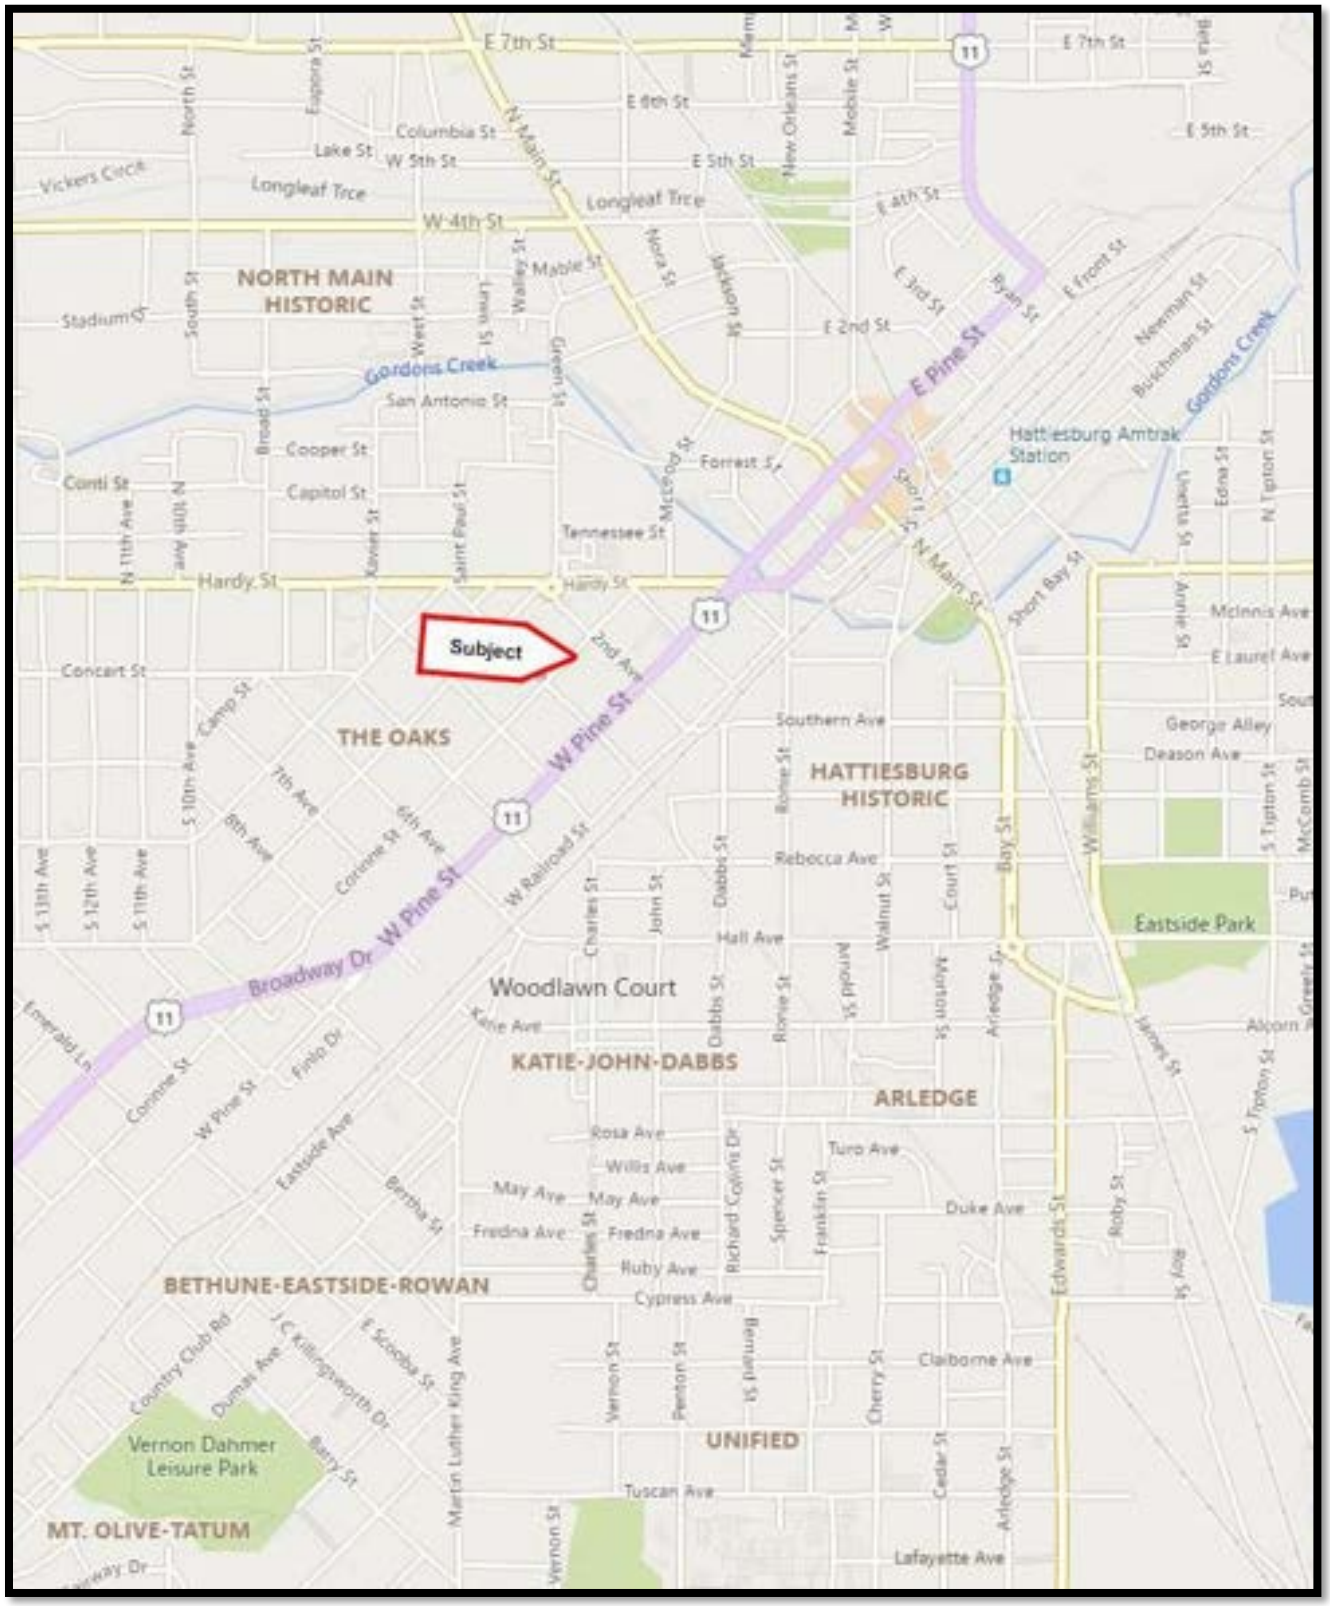
Inspection

The subject property was inspected by Zac Fairley on July 31, 2025. A representative of the client accompanied me during the site visit. The interior and exterior of the building was observed and noted by the appraiser. The exterior of the building was physically measured during the site visit. The exterior of the building showed signs of deferred maintenance as well as potential interior molding and drainage issues causing interior flooding in the basement. This was brought to the appraiser's attention during the site visit and noted with photographs in this report. The interior finish is outdated but in fair to average condition. It is recommended to have an environmental report performed prior to conveyance.

I am not an engineer and not competent to judge matters of an engineering nature, nor have I retained independent structural, mechanical, electrical, or civil engineers in connection with the report. As such, I make no representations relative to the condition of the improvements, if any exist. Unless otherwise noted in the report, no problems were brought to the attention of the appraiser by the client or property owner.



If questions regarding engineering studies are critical to the decision process of the reader, the advice of competent engineering consultants should be obtained and relied upon.

Data Research

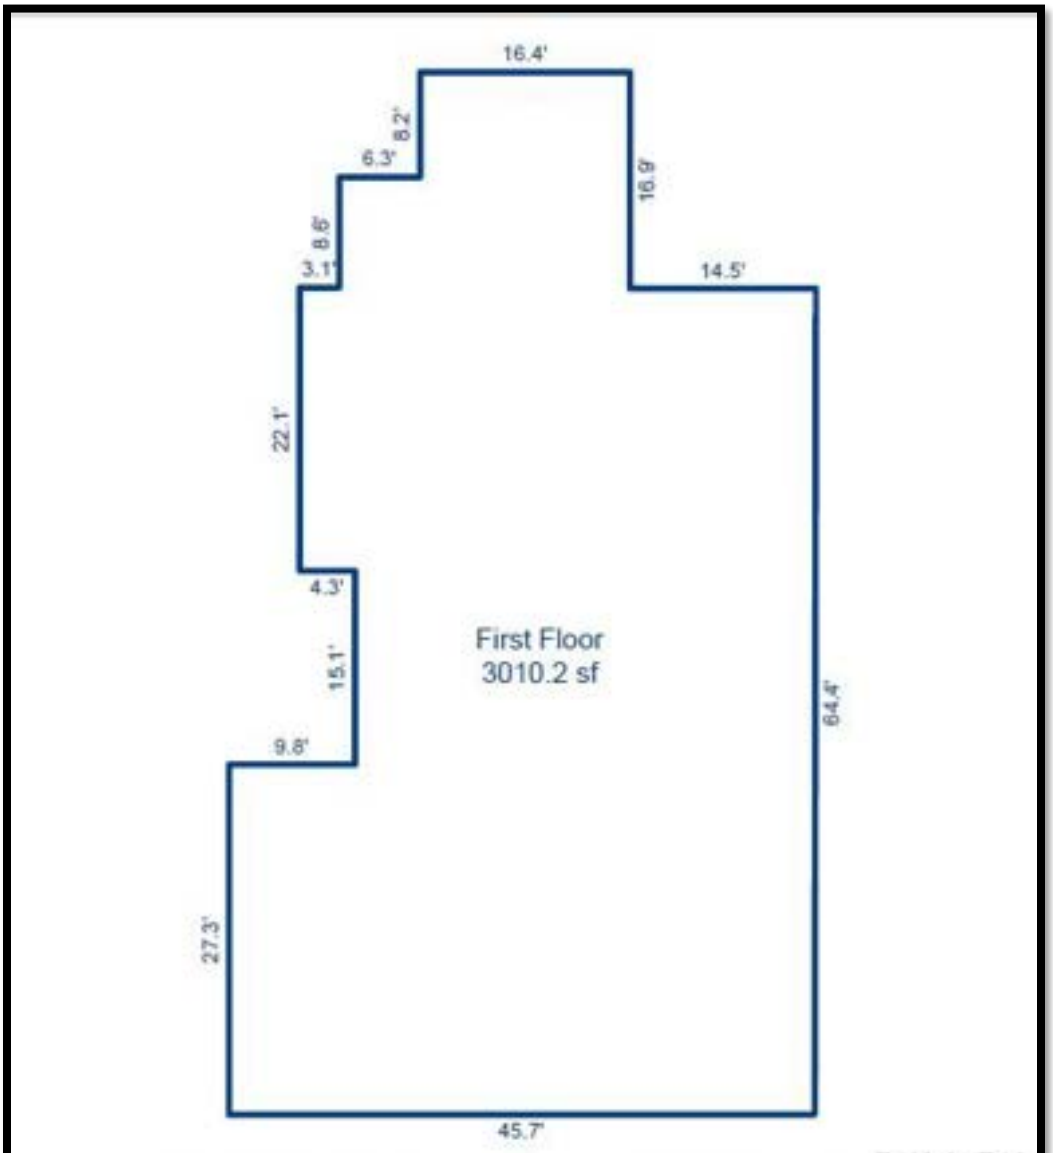
The type and extent of my research and analysis is detailed in individual sections of the report. This includes the steps took to verify comparable sales, which are disclosed in the comparable sale profile sheets in the report. Although we make an effort to confirm the arms-length nature of each sale with a party to the transaction, it is sometimes necessary to rely on secondary verification from sources deemed reliable.

Americans with Disabilities Act (ADA)

The Americans with Disabilities Act was passed on July 26, 1990. This Act provides comprehensive civil rights protection for individuals with disabilities in the areas of employment, public accommodations, state and local government services, and telecommunications. This Act was designed to remove barriers which prevent qualified individuals with disabilities from enjoying the same employment opportunities and access to public facilities available to persons without handicaps. We have not made an ADA compliance survey as it is beyond the scope of our expertise as appraisers.

Location Map

Summary of Salient Facts and Conclusions		
Property Description		
Property Address	622 Corinne Street Hattiesburg, Mississippi 39401	
Property Location	The subject is located between Hardy Street and West Pine Street in Downtown Hattiesburg. More specifically, it is located on the east side Corinne Street near the intersection of 2nd Avenue.	
Property Type	Property Type	Office
	Market Building Class	D
	No. of Buildings	1
	No. of Stories	1
	Building Size (GLA)	3,010 Sq. Ft.
Property Tax Identification Number(s)	2-029O-10-049.00/PPIN: 19339 – Surplus Lot 2-029O-10-050.00/PPIN: 19340 – Improvements	
Current Taxes & Assessments	Tax Exempt	
Ownership/Sales History		
Owner of Record	City of Hattiesburg	
Sale History	The property is owned by the City of Hattiesburg and is recorded via Warranty Deed Book 1071, Page 0214; filed November 4th, 2009. A copy of can be found in the addenda. The property is not currently listed for sale. We are not aware of any conveyances in ownership in the last three years.	
Appraisal Information		
Date of the Report	August 8th, 2025	
Effective Date of the Appraisal	July 31st, 2025	
Property Rights Appraised	Fee Simple	
Estimated Exposure Time & Marketing Period	6 - 12 Months	
Site Data		
Land Area	+/-25,000 square feet, +/-0.57 acres The land area used in this report was obtained from tax map provided through Tri-State Consulting Services. If provided a survey indicating a different acreage, this may have an impact on market value.	
Legal Description:	The Southeasterly 90 feet of the Northeast half of Lot 10 and the Southeasterly 90 feet of Lots 11 and 12 of Block 144 of the Kamper and Whinnery Subdivision of the City of Hattiesburg, Forrest County, Mississippi.	



Site Discussion	The site consists of two contiguous parcels of land located on the southeastern side of Corinne Street near the southeastern intersection of Corinne Street and 3rd Avenue in Downtown Hattiesburg. The site contains +/- 25,000 square feet or +/- 0.57 acres and is improved with a professional office building	
Improvements Data		
Building Data	Gross Building Area	3,010 square feet
	Actual Age	95 Years
	Year Built	1930
	Total Economic Life	50 Years
	Year Renovated	NA
	Effective Age	35-40 years
	Remaining Life	10 years
	Floor Area Ratio	0.12
	Land:Building Ratio	8.37x
Utilities	Electric	Mississippi Power
	Water	City of Hattiesburg
	Sewer	City of Hattiesburg
	Police/Fire	City of Hattiesburg
	Gas	Spire
Flood Information	At road grade with adequate drainage. Per FEMA Map No. 28035C0108D, dated March 2, 2010, the property is situated in Flood Zone X. Flood hazard insurance is not required for buildings situated in this zone.	
Improvements Discussion	The building is a 3,010 square foot professional office building. This is a wood framed structure with brick veneer/hardy siding exterior walls, a slab foundation, and gabled roof with asphalt shingles. There is a paved parking lot on the north side of the building with 12 marked parking spaces. The building was constructed in 1930 with an actual age of 95 years. Based on the inspection, the building showed signs of deferred maintenance. Overall, I estimate the effective age of the building to be 40 years.	
Zoning & Land Use		
Zoning Designation	B-1; Professional Business District The purpose of this business district is to provide areas for professional and business offices and related activities that require separate buildings and building groups surrounded by landscaped yards and open areas. The intent is to provide compact locations for	

	business offices, medical and dental offices, as well as suburban locations near residential neighborhoods.
Neighborhood Description	
	The subject is located between Hardy Street and West Pine Street in Downtown Hattiesburg. Hardy Street and West Pine Street are primary travel corridors connecting Downtown Hattiesburg to the rest of Hattiesburg regional area. The neighborhood consists of residential and commercial uses. Residential uses are prevalent to the west towards "The Avenues" of Hattiesburg. While uses to the north, east, and south are predominantly commercial uses. Many of the improvements in the neighborhood, both residential and commercial, are older and have been revitalized. West Pine Street is in the beginning stages of revitalization with the completion of a Hall Street By-Pass connecting Rebecca Avenue with West Pine Street. In summary, the subject property is located on the fringe of the downtown business district of Hattiesburg and should be able to support commercial use.
Highest and Best Use	
As If Vacant	Commercial
As Improved	Office or Retail
Highest and Best Use Discussion	**<u>As Vacant</u>** The location of the property and current zoning is best suited for a commercial use. The traffic exposure is moderate and a premier commercial or retail use could be eliminated. Due to the small size and location of the property industrial uses could also be eliminated. It is my opinion that the highest and best use of the subject property, as if vacant, would be for small commercial use. **<u>As Improved</u>** The site is improved with a professional office building. The interior layout consists of 6 offices, 2 restrooms, a kitchen, 2 closets, and small laundry room. The interior is outdated but considered in fair to average condition. The floorplan is well suited for a small office. The subject has a basement which has interior access from the main level. At the time of inspection, the basement had standing water and constant drainage and flooding issues.

	It is my opinion, the highest and best use of the property as improved would be for the continued use as a professional office.

"As-Is" Market Value	
Sales Comparison Approach	$120,400
Final Value Conclusion – Real Estate Value	**$120,000**

Valuation

Sales Comparison Approach

Direct Sales Comparison is a valuation technique in which a value opinion is predicated on prices paid in actual market transactions. In this process, comparison is made between properties having a satisfactory degree of similarity to the subject. The sales presented on the following pages are professional office buildings located in the subject market and neighborhood.

Analysis

All of the sales are office buildings located in the subject neighborhood. The reported values are gross unit values, including land and improvements. The subject was originally designed as a residence and was converted to an office use. The exterior of the building showed signs of deferred maintenance including deteriorated facia boards and exterior siding. The interior is outdated with carpet flooring but is in fair to average condition. It should be noted, during the site visit the basement area had about 2-3 feet of standing water with visible black mold on the interior walls and door to the basement. The property representative reported that the basement area flooded during periods of heavy rain and was an ongoing issue. The cost to remediate the mold and drainage problems is unknown.

The adjusted unit values of the sales range from $37.19 to $44.61 per sf. Sale 2 was considered most similar. The building was in similar condition and also included deferred maintenance. Sale 4 is located adjacent to the north of the subject and also considered similar. Considering all factors, a gross unit value of $40.00/sf is concluded for the “As-Is” Market Value. This includes the land and improvements.

3,010 Square Feet of Building Area x $40/SF = $120,400

“As Is” Market Value via Sales Comparison Approach, Rounded $120,000

CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are our personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- The appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.
- Compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- Our analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the *Uniform Standards of Professional Appraisal Practice..*
- I have made a personal inspection of the property that is the subject of this report.
- No one provided significant real property appraisal assistance to the persons signing this certification.
- My analyses, opinions, and conclusions have been developed, and this report has been prepared, in compliance with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice (USPAP) as promulgated by the Appraisal Standards Board of The Appraisal Foundation, and in accordance with the appraisal-related mandates within Title XI of the Federal Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA).
- I have not relied on unsupported conclusions relating to characteristics such as race, color, religion, national origin, gender, marital status, familial status, age, receipt of public assistance income, handicap, or an unsupported conclusion that homogeneity of such characteristics is necessary to maximize value.
- It is my opinion that the subject does not include any enhancement in value as a result of any natural, cultural, recreational or scientific influences retrospective or prospective.
- I have extensive experience in appraising properties similar to the subject and are in compliance with the Competency Rule of USPAP.

- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- The Appraisal Institute conducts a program of continuing education for its designated members and members are awarded periodic educational certification.
- I have not relied on the work of others if we have a reasonable doubt that the work is credible.
- I have not provided real property valuation services as an appraiser for the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

ASSUMPTIONS

1. This is an appraisal report presented in an Appraisal Report which is intended to comply with the reporting requirements set forth under Standard Rule 2-2(a) of the Uniform Standards of Professional Appraisal Practice. It is understood between the parties that the scope of the assignment is limited and we relied on information obtained from the public records of Forrest County, published data sources and discussions with market professionals such as investors and brokers relative to County, published data sources and discussions with market professionals such as investors and brokers relative to the subject's income performance and physical composition. We are not responsible for unauthorized use of this report.

2. Unless otherwise specifically noted in the body of the report, it is assumed that title to the property or properties which are identified as the subject of the report, are clear and marketable and there are no recorded or unrecorded matters or exceptions to title that would adversely affect marketability or value. We have not examined title and makes no representations relative to the condition thereof.

3. Unless otherwise specifically noted in the body of the report, the legal description furnished is assumed to be correct. Any abbreviations or discrepancies relative to the legal would be identified.

4. It is assumed that surveys and/or plats furnished to, or acquired by, the appraiser and used in the making of this report are correct. We have not made a land survey or caused one to be made unless identified in the report and therefore, assumes no responsibility for accuracy of same.

5. It is assumed any improvements have been, or will be, constructed according to approved architectural plans and specifications in conformance with recommendations contained in or based on any soil report(s). Unless otherwise noted, we have not retained independent engineer(s) or architect(s) in connection with the report and therefore, makes no representations relative to conformance with approved architectural plans, specifications, or recommendations contained in or based on any soil(s) report.

6. It is assumed that all factual data furnished by the client, property owner, owner's representative, or persons designated by the client or owner are accurate and correct unless otherwise specifically noted in the report. I do not guarantee the correctness of such data, although as far as is reasonably possible, the data has been checked and is believed to be correct. Information and data referred to in this paragraph may include but is not limited to information relative to the subject of the report regarding numerical street addresses, lot and block numbers, assessors parcel numbers, land dimensions, square footage area of land, dimensions of the improvements, gross building areas, net rentable areas, usable areas, unit count, room count, rent schedules, income data, budgets, historic operating expenses, and related data. Information obtained regarding demographics, comparable verification, and data of a general sense is assumed factual as confirmed and the source(s) reliable. Any material error in the gathered data could have substantial impact on the conclusions reported; as a result, we reserve a right to amend conclusions reported if made aware of such an error.

7. Unless otherwise noted in the body of the report, it is assumed that there are no mineral or sub-surface rights of value involved in the report and there are no other development rights of value that may be transferred. Subsurface rights, minerals and oils, were not considered in making this report unless otherwise stated.

8. Any riparian and/or littoral rights identified by survey or plat are assumed to go with the property unless easements and/or deeds of record were found by the appraiser to the contrary.

9. It is assumed that there is full compliance with all federal, state, and local environmental regulations and laws, unless non-compliance is stated, defined, and considered in the report.

10. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless the non-conformity has been stated, defined, and considered in the report. Unless otherwise noted, it is assumed that no changes in the present zoning ordinances or regulations governing use, density, or shape, are being considered.

11. It is assumed that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization has been, or can be, obtained or renewed for any use on which the value opinion contained in the report is based.

12. Unless otherwise stated in the report, the existence of hazardous material, which may or may not be present on the property, was not observed by the appraisers. The appraisers have no knowledge of the existence of such material on or in the property. The appraisers, however, are not qualified to detect such substances. The presence of substances such as asbestos, urea formaldehyde foam insulation, contaminated ground water, or other potentially hazardous materials may affect the value of the property. The value opinion is predicated upon the assumption that there is no such material on or in the property that would cause loss in value or affect its marketability. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field if desired.

13. The soil of the area which is the subject of the report appears to be firm and solid. Unless otherwise stated, subsidence in the area is unknown or uncommon, but the appraiser(s) do not warrant against this condition and/or occurrence.

14. It is assumed that the utilization of the land and improvements is within the boundaries or property lines as described in the report, and there is no encroachment or trespass, unless noted.

15. The date of value of which the opinions in the report apply is set forth in the body of the report. We assume no responsibility for economic or physical factors occurring at some later date which may affect the opinions stated in the report.

16. Unless specifically noted in the body of this report, it is assumed that the property or properties described are structurally sound, seismically safe, and that all building systems (mechanical, electrical, HVAC, elevator, plumbing, etc.) are, or will be upon completion, in good working order with no major deferred maintenance or repair required; that the roof and exterior are in good condition and free from intrusion from the elements; that the property or properties have been engineered in such a manner that it/they will withstand any known elements such as wind storm, flooding, or similar natural occurrences; and that the improvements as currently constituted conform to all applicable local, state, and federal building codes and ordinances. We are not engineers and are not competent to judge matters of an engineering nature, nor have we retained independent structural, mechanical, electrical, or civil engineers in connection with the report. As such, we make no representations relative to the condition of the improvements. Unless otherwise noted in the report, no problems were brought to the attention of the appraiser, by ownership or management. Unless otherwise noted, we inspected less than 100% of the entire interior and exterior portions of the improvements. If questions regarding engineering studies are critical to the decision process of the reader, the advice of competent engineering consultants should be obtained and relied upon. If engineers and consultants retained

should report negative factors of a material nature or if such are later discussed relative to the condition of the improvements, such information could have a substantial negative impact on the conclusions reported. Accordingly, if negative findings are reported by engineering consultants, we reserve the right to amend the report conclusions.

17. Unless otherwise specifically noted, this report is not being prepared for use in conjunction with litigation. Accordingly, no rights to expert testimony, pretrial or other conferences, disposition, or related services are included in this appraisal. If as a result of this undertaking, we are requested or required to provide any of the foregoing services, such shall be subject to the availability of the appraiser(s) at the time and shall further be subject to the party or parties requesting or requiring such services paying the then applicable professional fees and expenses.

18. Neither all nor any of the contents of the report shall be conveyed to the public through advertising, public relations, news, sales or other media without written consent and approval of the appraiser(s), particularly as to the valuation conclusions, the identity of the professionals or firm, or any reference to the Appraisal Institute, the MAI designation, or certification by the State of Mississippi. Exempt from restrictions relative to the transmittal of this report to third parties is duplication for internal use of the client-addressee and/or transmission to attorneys, accountants, or advisors of the client-addressee. Also exempt from this restriction is transmission of the report to any court, governmental authority, or regulatory agency having jurisdiction over the party/parties for whom the report was prepared, providing that the report and/or its contents shall not be published, in whole or in part in any public document without the express written consent of the appraiser(s), which consent the appraiser(s) reserves the right to deny. The report should not be advertised to the public or otherwise used to induce a third party to purchase the property. Any third party not covered by the exemptions herein who may possess this report is advised that he should rely on his own independently secured advice for any decision in conjunction with the property. We shall have no accountability or responsibility to any such third party.

19. Unless specifically set forth in the body of the report, nothing contained therein shall be construed to represent any direct or indirect recommendation to buy, sell, or hold the property(ies) at the value(s), or development scenario as stated. Such decisions involve substantial investment strategy and must be specifically addressed in consultation form.

20. The distribution of the total valuation in this report between land and improvements applies only under the existing program of utilization. The separate valuations for land and building must not be used in conjunction with any other report and are invalid if so used.

21. The forecasts, projections, and/or operating estimates contained herein are based on current market conditions, anticipated (though recognizably short term) supply and demand factors, and a continued stable economy, unless otherwise stated. Any forecasts are therefore subject to changes in future conditions.

22. The Americans with Disabilities Act ("ADA") became effective January 26, 1992. We have not made a specific compliance survey and analysis of this property to determine whether or not it is in conformity with the various detailed requirements of the ADA. It is possible that a compliance survey of the property, together with a detailed analysis of the requirements of the ADA, could reveal that the property is not in compliance with one or more of the requirements of the Act. If so, this fact could have a negative effect upon the value of the property. Since we have no direct evidence relating to this issue, we did not consider possible non-compliance with the requirements of ADA in estimating the value of the property.

23. **Insurable value is not provided in this report. Taking the difference between our reported Market Value and estimated land value is not an appropriate method for estimating replacement cost of improvements for insurance coverage purposes. We recommend a proper insurance representative to estimate an appropriate coverage for the subject property.** Insurable value has two definitions per Marshall and Swift LP. 1. The value of an asset or asset group that is covered by an insurance policy. It can be estimated by deducting costs of non-insurable items (e.g., land value) from Market Value. 2. Value used by insurance companies as the basis for insurance. Often considered to be replacement or reproduction cost plus allowances for debris removal or demolition less deterioration and non-insurable items. Sometimes cash value or Market Value, but often entirely a cost concept.

Extraordinary Assumptions

1. None

Hypothetical Conditions

1. None

Definitions

Appraisal

(noun) The act or process of developing an opinion of value; an opinion of value. (adjective) of or pertaining to appraising and related functions such as appraisal practice or appraisal services.

Comment: an appraisal must be numerically expressed as a specific amount, as a range of numbers, or as a relationship (e.g., not more than, not less than) to a previous value opinion or numerical benchmark (e.g., assessed value, collateral value).

Assignment

A valuation service that is provided by an appraiser as a consequence of an agreement with the client.

Assignment Conditions

Assumptions, extraordinary assumptions, hypothetical conditions, laws and regulations, jurisdictional exceptions, and other conditions that affect the scope of work.

Comment: Laws include constitutions, legislative and court-made law, administrative rules, and ordinances. Regulations include rules or orders, having legal force, issued by an administrative agency.

Client

The party or parties who engage, by employment or contract, an appraiser and a specific assignment.

Comment: client may be an individual, group or entity, and may engage and communicate with the appraiser directly or through an agent.

Exposure Time

The estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

Comment: Exposure time is a retrospective opinion based on an analysis of past events assuming a competitive and open market.

Extraordinary Assumption

An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.

Comment: uncertain information might include physical, legal, or economic characteristics of the subject property; or conditions external to the property, such as market conditions or trends; or the integrity of data used in an analysis.

Hypothetical Condition

A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.

Comment: Hypothetical conditions are contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

Intended Use

The use(s) of an appraiser's reported appraisal or appraisal review assignment results, as identified by the appraiser based on communication with the client at the time of the assignment.

Intended User

The client and any other party as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser, based on communication with the client at the time of the assignment.

Jurisdictional Exception

An assignment condition established by applicable law or regulation, which precludes an appraiser from complying with a part of USPAP.

Marketing Time

The reasonable marketing time is an opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value or at a benchmark price during the period immediately after the effective date of an appraisal.

[1]USPAP 2024-2025

Market Value[2]

Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

[2] Definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

To: Zac Fairley <zacfairley@zfappraisals.com>, Zac Fairley <zfappraiser@gmail.com>

Zac

Could I get an appraisal on the below Parcels that the City of Hattiesburg owns? One parcel has a house on it that I can get you access to look at and the remainder are just vacant lots.

PPIN 19340

Parcel # 2-029O-10-050.00

PPIN 19339

Parcel # 2-029O-10-049.00

PPIN 19344

Parcel # 2-029O-10-051.00

PPIN 19333

Parcel # 2-029O-10-066.00

Ann

Hey Ann,

Attached is the appraisal report for PPIN 19333 located at 510 W. Pine Street. The remaining appraisal reports will follow this week as they are finalized.

If you have any questions, please do not hesitate to contact me.

Thanks,
ZF

STATE OF MISSISSIPPI
COUNTY OF FORREST

WARRANTY DEED

For and in consideration of the sum of Ten and No/100 ($10.00) Dollars cash in hand paid and other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged and confessed,

The First Baptist Church of Hattiesburg, Inc.,
now a nonprofit Mississippi corporation,
formerly the First Baptist Church of Hattiesburg, Mississippi,
a religious entity organized and existing under the laws of the State of Mississippi,
4142 Lincoln Road Extension
Hattiesburg, MS 39402
601-544-0100

GRANTOR

does hereby grant, bargain, sell, convey, and warrant, subject to the exceptions and reservations hereinafter set forth, unto

The City of Hattiesburg, Mississippi, a municipal corporation organized and existing under the laws of the State of Mississippi,
200 West Front Street
Hattiesburg, MS 39401
601-545-4550

GRANTEE

the real property constituting its former location lying and being situated on real property described in Exhibit "A" hereto:

INDEXING INSTRUCTIONS: Indexing Instructions: Index as a part of Lot 2, all Lots 3, 4, 5 and 6, Block 133, all Block 134, part of Lots 1, 2, and 3, Block 135, and part of Lots 1 and 2, all Lots 3, 4, 5, parts of Lots 6, 14, 15, and 16, Block 144 of the Kamper and Whinnery Survey of Subdivision Number 1, City of Hattiesburg, Forrest County, Mississippi.

This conveyance and the warranty hereof are subject to any valid and existing mineral leases, exceptions, reservations, and conveyances and any existing easements, grants, or rights of way for public roads, streets, and alleys, and for electric telephone, gas, water, drainage, sewage, or similar utility purposes which reflect or relate to the property. This conveyance is further subject to Ordinance No. 2053 of the City of Hattiesburg dated May 19, 1981, which closed and vacated that alley in Block 134 of the Kamper and Whinnery Survey subject to the existing utility services and to that Lease Agreement between the Church and the City of Hattiesburg with respect to the former Reliance Manufacturing Company site in Block 133 of the Kamper and Whinnery Survey.

Inst. 647477
Bk 1071 Pg 0213

The premises situated on the above-described property which have been inspected by the Grantee are conveyed to and accepted by the Grantee in their present condition.

This Deed is executed pursuant to Resolutions adopted by the Church and that certain Contract for the Sale and Purchase of Real Property by and between the Grantor as Seller and the Grantee as Purchaser executed on July 3, A.D. 2007, including the provision in Paragraph 4 affording the Grantor the first right and opportunity to acquire the stained glass windows in the chapel and sanctuary areas, if the Grantee elects to remove and replace them.

IN TESTIMONY WHEREOF, Witness the Signature of the Grantor by its undersigned duly authorized representatives on this the 24 day of November, A.D., 2009.

STATE OF MISSISSIPPI

COUNTY OF FORREST

PERSONALLY appeared before me, the undersigned authority in and for said County and State, the within named Randy Price and Jimmy Drago, the Chairman of Deacons and Chairman of the Finance Committee of the First Baptist Church of Hattiesburg, Inc, a Mississippi Nonprofit Corporation, who acknowledged that they signed, executed, and delivered the above and foregoing Warranty Deed for and on behalf of and as the act and deed of said Church, they being first duly authorized so to do.

GIVEN under my hand and official seal of office on this the 24th day of November, A.D., 2009.

Notary Public

My Commission Expires:

Inst. 647477
Bk 1071 Pg 0215

EXHIBIT "A"

Part of Block 133 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi described as follows, to-wit:

A strip of land 70.5 feet wide off of the entire Southern or Southwesterly side of Lot 2 and entire Lots 3, 4, and 5 and a strip of land 56 feet wide off of the entire Northern or Northeasterly side of Lot 6, all in Block 133 of the Kamper and Whinnery Survey of the City of Hattiesburg, Forrest County, Mississippi and said lots and parts of lots together constituting a tract of land described as beginning at the point of intersection of the Southern or Southwesterly line of Ferguson Street, as said street is now located and constructed, with the Western or Northwesterly line of Railroad Street, as said street is now located and constructed, and run thence in a Northwesterly direction along the said Southern or Southwesterly line of Ferguson Street 200 feet to an alley, run thence Southwesterly along the Eastern or Southeasterly line of said alley a distance of 341.5 feet, run thence in a Southeasterly direction parallel with First Avenue and 154 feet Northeasterly therefrom a distance of 200 feet to Railroad Street, and run thence in a Northeasterly direction along the said Western or Northwesterly line of Railroad Street a distance of 341.5 feet to the Point of Beginning.

AND ALSO

Begin at the Southeast corner of Lot 6 of Block 133 of the Kamper & Whinnery Survey or extension to the City of Hattiesburg, Mississippi, for a Point of Beginning, and run thence in a Northwesterly direction 53 ½ feet; run thence in a Northeasterly direction 100 feet; run thence in a Southeasterly direction 53 ½ feet; run thence in a Southwesterly direction 100 feet to the Point of Beginning.

AND ALSO

A part of Lot Six (6) in Block 133 of the Kamper and Whinnery Survey of the City of Hattiesburg, Mississippi, according to the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, more particularly described as: Beginning at the Southeast (SE) corner of said Lot 6 of said Block 133 and run Westerly along First Avenue 53.5 feet to the Point of Beginning, thence from said Point of Beginning thence at right angles Northerly 124 feet, thence at right angles Westerly 47.5 feet, thence at right angles Southerly 124 feet to First Avenue, thence at right angles Easterly 47.5 feet to the Point of Beginning, said property having a frontage on First Avenue of 47.5 feet and a uniform depth of 124 feet

AND ALSO

A parcel of land being a part of Lot 6 in Block 133 of the Kamper and Whinnery Survey, as per the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, and more particularly described as beginning at the Southeast corner of said Lot 6 in said Block 133 of said survey, and thence run Westerly along First Avenue 101 feet to the Point of Beginning; thence run at right angles Northerly 154 feet; thence run at right angles Westerly 49

Inst. 647477
Bk 1071 Pg 0216

feet; thence run at right angles Southerly 154 feet to First Avenue; thence run at right angles Easterly along First Avenue 49 feet to the Point of Beginning.

AND ALSO

Commence at the Southeast corner of Lot 6, Block 133 of the Kamper & Whinnery Survey or Extension to the City of Hattiesburg, Forrest County, Mississippi, and run then Northeast along the Southeast line of said Lot 6, a distance of 100 feet for a Point of Beginning; thence run Northwest 53.5 feet; thence run Northeast 24 feet; thence run Northwest 47.5 feet; thence run Northeast 30 feet; thence run Southeast 101 feet to the Southeast line of said Lot 6; thence run Southwest along the Southeast line of Lot 6 for 54 feet to the Point of Beginning.

AND ALSO

Commence at the Southwest corner of Lot 6 of Block 133 of the Kamper & Whinnery Survey or Extension to the City of Hattiesburg, Forrest County, Mississippi, and run thence Northeast along an alley 154 feet; thence run Southeast parallel to First Avenue for 50 feet; thence run Southwest parallel to the aforesaid alley for 154 feet, more or less, to First Avenue; thence run Northwest along the boundary line of First Avenue for 50 feet, more or less, to the Point of Beginning, together with the improvements thereon and appurtenances thereunto belonging, said property being sometimes referred to as being a part of Lot 6, Block 133 of the Crittenden Survey to the City of Hattiesburg, Forrest County, Mississippi.

AND ALSO

All of Block 134 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi; together with the improvements thereon and the appurtenances thereunto belonging.

AND ALSO

Part of Block 135 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi described as follows, to-wit:

A part of Lots 1, 2 and 3 of Block 135 of Kamper & Whinnery Subdivision No. 1 of the City of Hattiesburg, Forrest County, Mississippi, described as: Begin at the Northeast corner of Lot 1, the same being the intersection of Second Avenue and the Western boundary line of the New Orleans and Northeastern Railroad right-of-way, and run in a Northwesterly direction along the Southwest side of Second Avenue a distance of 66 2/3 feet to the Point of Beginning; run thence from said Point of Beginning in a Northwesterly direction along the Southwest side of Second Avenue 66 2/3 feet; thence at right angles in a Southwesterly direction and parallel with the New Orleans and Northeastern Railroad right-of-way 150 feet to the line dividing Lots 3 and 4 in said Block 135; thence in a Southeasterly direction along said line dividing Lots 3 and 4 in said Block 135 a distance of 66 2/3 feet; thence at right angles in a Northeasterly direction, and parallel wit the New Orleans and Northeastern Railroad right-of-way 150 feet to the Point of Beginning, being situated in the City of Hattiesburg, Forrest County, Mississippi.

Inst. 647477
Bk 1071 Pg 0217

AND ALSO

Part of Block 144 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi, described as follows, to-wit:

The Southeasterly 90 feet of the Northeast half of Lot 10 and the Southeasterly 90 feet of Lots 11 and 12 of Block 144 of the Kamper and Whinnery Subdivision of the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, more particularly described as follows: Commencing at the most Northerly corner of Lot 12 of said Block 144 and run thence Southeasterly and along the Northeasterly boundary of said Lot 12 for a distance of 110 feet to and for the Point of Beginning; from said Point of Beginning continue Southeasterly and along the Northeasterly boundary of said Lot 12 for a distance of 90 feet to an alley; run thence Southwesterly and along said alley for a distance of 125 feet; run thence Northwesterly, parallel to and 25 feet from the Northeasterly boundary of Lot 10 of said Block 144, for a distance of 90 feet; and run thence Northeasterly and parallel to the Southeasterly boundary line of Lots 10, 11, and 12 of said Block 144 for a distance of 125 feet back to the Point of Beginning;

AND ALSO

The Northwest 110 feet of the Northeast Half of Lot 10, the Northwest 110 feet of Lot 11 and the Northwest 110 feet of Lot 12, all in Block 144 of the Kamper and Whinnery Survey Extension or Addition to the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi; together with the improvements thereon and the appurtenances thereunto belonging.

AND ALSO

The North, or Northwestern 70 feet of Lots 1 and 2, and all of Lots 3, 4 and 5, and the North, or Northeastern one-half of Lot 6, all in and of Block 144 of Kamper and Whinnery's Subdivision No. 1 of the City of Hattiesburg, Forrest County, Mississippi (also referred to, variously, as the Kamper and Whinery and Kamper and Whinnery Extension or Survey of Hattiesburg, Mississippi), as per the official map of said Subdivision on file and of record in the office of the Chancery Clerk of Forrest County, Mississippi, in Plat Book 1 at Page 7.

AND ALSO

The Southeast 90 feet of Lots 13, 14, 15 and 16, all in Block 144 of the Kamper and Whinnery Survey in the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, which property is more particularly described by metes and bounds as follows: Commence at the Northernmost corner of Lot 16, which is at the point of intersection of the Southeasterly boundary of Corinne Street and the Southwesterly boundary of Second Avenue in the City of Hattiesburg, Mississippi, and thence run Southeasterly and along the Southwesterly boundary line of Second Avenue for a distance of 110 feet to and for the Point of Beginning; from this Point of Beginning run thence

Inst. 647477
Bk 1071 Pg 0218

Southwesterly and parallel with Corinne Street for a distance of 200 feet, run thence Southeasterly and parallel with Second Avenue for a distance of 90 feet to an alley, run thence Northeasterly and along said alley and parallel to Corinne Street for a distance of 200 feet to the Southwesterly boundary line of Second Avenue; and run thence Northwesterly and along the Southwesterly boundary line of Second Avenue for a distance of 90 feet back to the Point of Beginning, the parcel of property hereby conveyed fronts 90 feet on Second Avenue and extends back between parallel lines for a distance of 200 feet;

LESS AND EXCEPT that part thereof conveyed to Melissa J. Massingill by Quitclaim Deed dated May 25, 2006 or record in Land Deed Book 988 at Page311 described as follows, to-wit:

That part of Lots 13, 14, 15, and 16 of Block 144 of the Kamper and Whinnery Survey of the said City of Hattiesburg as per the map thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, described as commencing at the intersection of Corinne Street and Second Avenue, which is the North corner of Lot 16, and running thence Southeasterly along the Southwest line of Second Avenue 110 feet to the Point of Beginning; thence run Southwesterly and parallel with said Corinne Street 200 feet; thence run Southeasterly and parallel with Second Avenue 6 feet; thence run Northeasterly and parallel with Corinne Street 200 feet to the Southwest line of Second Avenue; and thence run Northwesterly along the Southwest line of Second Avenue 6 feet to the Point of Beginning.

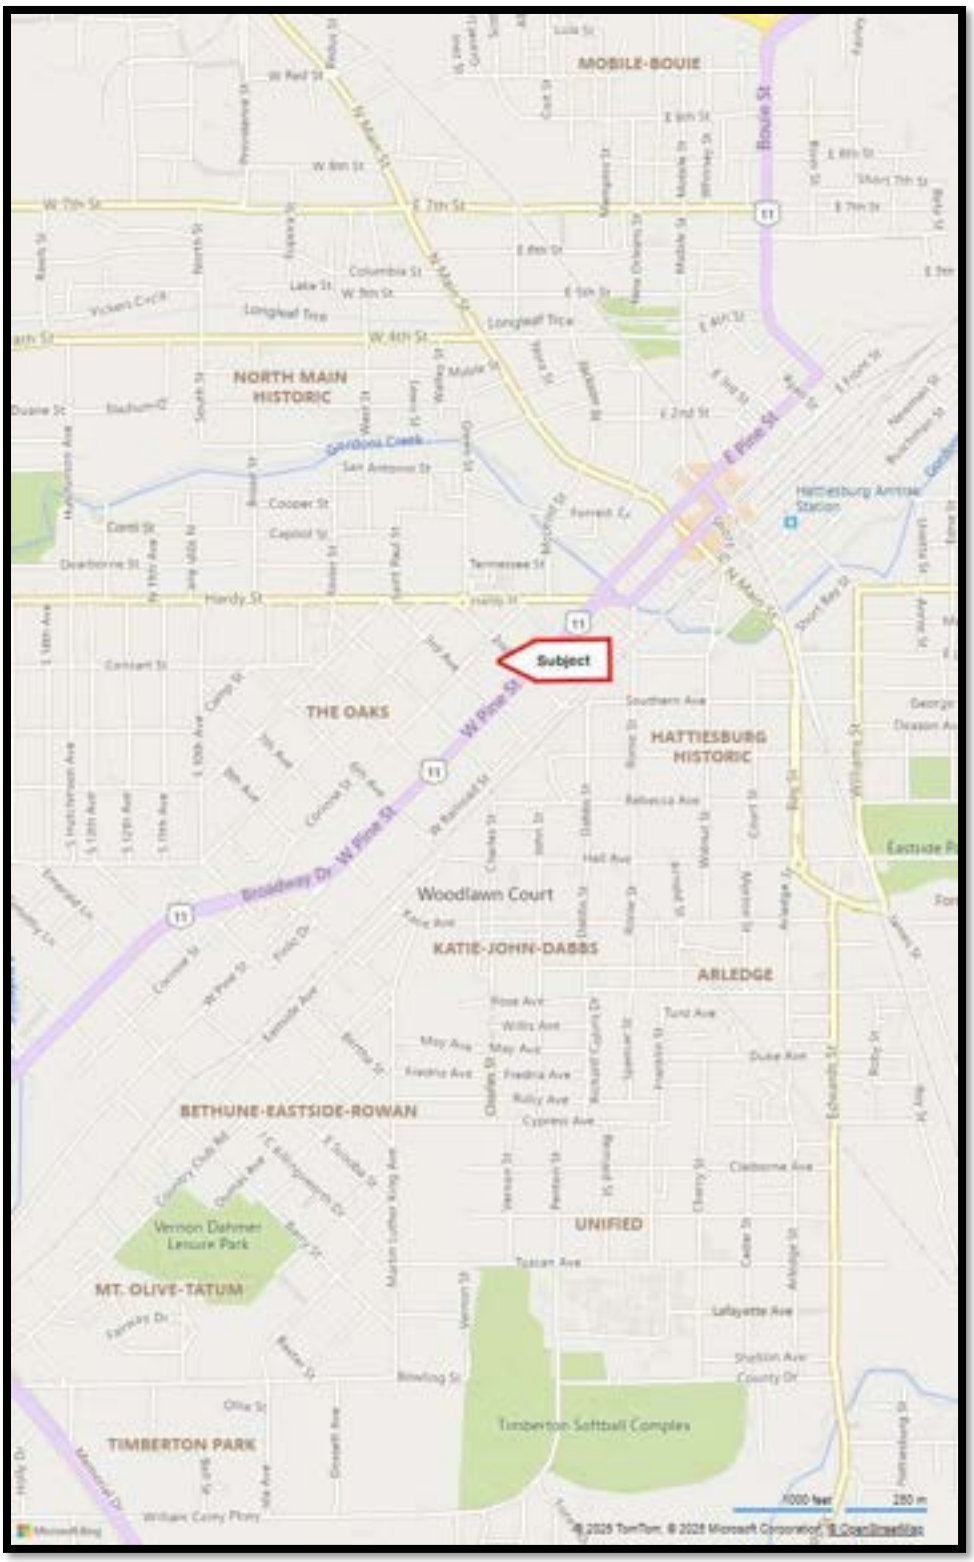
Re: Appraisal of a +/-0.41 acre (18,000 Sq. Ft.) parcel of land located at 220 2nd Avenue, Forrest County, Mississippi 39401

Dear Ms. Ann Jones:

Thank you for the opportunity to provide appraisal services. Based on my agreement with you, I have performed an appraisal and reported my findings in this Restricted Appraisal Report format. This report is intended to comply with the reporting requirements under Standards Rule 2.2© of the Uniform Standards of Professional Appraisal Practice.

It is understood between the parties that the scope of the assignment is limited and I relied on information obtained from the public records of Forrest County, published data sources and discussions with market professionals such as investors and brokers relative to the subject's income performance (if applicable) and physical composition. Supporting documentation is retained in the work file. The depth of discussion contained in this report is specific to the needs of the client and for the intended use stated below. The appraiser is not responsible for unauthorized use of this report.

VALUE CONCLUSION			
Appraisal Condition	**Interest Appraised**	**Date of Value**	**Value**
"As Is"- Market Value	Fee Simple	July 23, 2025	$35,000



The following report sets out my reasoning, methodology, and conclusions. It has been prepared in accordance with the appraisal standards and procedures as currently promulgated by the Appraisal Standards Board of the Appraisal Foundation. The report is also prepared in accordance with the Code of Professional Ethics and Standards of Professional Practice of the Appraisal Institute.

Respectfully submitted,

Zachary H. Fairley
State Certified General Real Estate Appraiser, GA-1418

Location Map

Summary of Salient Facts and Conclusions		
Property Description		
Property Name		Vacant Lot
Property Address		220 2nd Avenue Hattiesburg, Forrest County, Mississippi
Property Location		The property is located on the south side of 2nd Avenue between Hardy Street and West Pine Street in downtown Hattiesburg.
Property Tax Identification Number(s)		PPIN: 19344 Parcel ID: 2-029O-10-051.00
Current Taxes & Assessments		Exempt
Ownership/Sales History		
Owner(s) of Record		The City of Hattiesburg
Sale History		The property is not currently listed for sale nor is it under contract or option to purchase. I am not aware of any conveyances in ownership in the last three years.
Appraisal Information		
Date of the Report		August 8, 2025
Effective Date of the Appraisal		July 23, 2025
Property Rights Appraised		Fee Simple
Estimated Exposure Time & Marketing Period		6-12 months
Site Data		
Land Area		**Land (Acres)**
	Gross	+/-0.41 Acres or 18,000 Square Feet, More or Less The land area used in this report was referenced from the tax maps provided by Tr-State Consulting Services. If a survey is provided indicating a different acreage, this could alter the concluded market value.
Site Discussion		The subject property has frontage and access along the northern boundary on 2nd Avenue. The lot measures 90 feet by 200 feet, comprising a total area of 18,000 square feet, and includes an improved concrete parking lot. Based on aerial mapping, the concrete coverage is approximately 10,500 square feet. The parking lot retains some remaining economic life, and an estimated depreciation ranging from 60% to 80% is considered reasonable.
Shape		Rectangular
Frontage		90'; 2nd Avenue
Access/Visibility		Access and visibility is good from 2nd Avenue. The site has limited visibility from Corinne Street and West Pine Street. There is a paved access drive in place from 2nd Avenue. There is a paved public alley along the eastern boundary.
Topography/Drainage		Level at road grade with adequate drainage.
Soil/Subsurface		A soils report was not provided for our review. Based on our inspection of the subject and observation of development on nearby sites, there are no apparent ground stability problems. However, we

	are not experts in soils analysis. We assume that the subject's soil bearing capacity is sufficient to support the existing improvements.	
Environmental Concerns	An environmental assessment report was not provided for review, and during our inspection, we did not observe any obvious signs of contamination on or near the subject. However, environmental issues are beyond our scope of expertise. It is assumed that the property is not adversely affected by environmental hazards.	
Functional Utility	The property is in a mixed used area surrounded by residential, office, public park, religious and educational buildings. The property is an elongated parcel with limited utility and would be most suited for assemblage onto an adjacent parcel.	
Easements and Encroachments	I am not aware of any easements or encroachments that would be detrimental to the property.	
Adjacent Properties	Residential and Commercial	
North	Single-Family Home and Professional Office	
West	Vacant Commercial Lot	
South	Vacant Commercial Lot and Single Family Home	
East	Trinity Episcopal Church; Sacred Heart School	
Utilities	Electric	Mississippi Power Company
	Water	City of Hattiesburg
	Sewer	City of Hattiesburg
	Gas	Spire Mississippi
	Police/Fire	City of Hattiesburg
Flood Information	The subject site is level with adequate drainage. Per FEMA Map No. 28035C0108D, dated March 2nd, 2010, the property is situated in Flood Zone X. Flood hazard insurance is not required for buildings situated in this zone.	
Zoning & Land Use		
Zoning	B-1; Professional Business District The purpose of this business district is to provide areas for professional and business offices and related activities that require separate buildings and building groups surrounded by landscaped yards and open areas. The intent is to provide compact locations for business offices, medical and dental offices, as well as suburban locations near residential neighborhoods.	
Neighborhood Description		
	Property is located along 2nd Avenue between Hardy Street and West Pine Street in downtown Hattiesburg. Hardy Street and West Pine Street are primary travel corridors. The neighborhood consists of residential and commercial uses. Residential uses are prevalent to the west towards "The Avenues" of Hattiesburg. While uses to the north, east, and south are predominantly commercial uses. Many of the improvements in the neighborhood, both residential and commercial, are older and have been revitalized. West Pine Street is	

	in the beginning stages of revitalization with the completion of a Hall Street By-Pass connecting Rebecca Avenue with West Pine Street.
Highest and Best Use	
As If Vacant	Assemblage
Highest and Best Use Discussion	The property is improved with a paved parking lot and is surrounded by commercial uses. It is in a mixed used area surrounded by residential, office, public park, religious and educational buildings. The property is an elongated parcel with limited utility and would be most suited for assemblage onto an adjacent parcel. The highest and best use as vacant would be for assemblage onto an adjacent parcel for expansion or additional parking.
Market Value Conclusions – As Is	
Sales Comparison Approach	$35,000
Final Value Conclusion	$35,000

Purpose of the Appraisal

The purpose of this appraisal is to formulate and express an estimate of the market value for fee simple interest in the property as of the effective appraisal date, July 23rd, 2025.

Intended Use/Client and Intended User(s)

The intended use of this report is for internal decision-making purposes by the client and/or participants. It is our understanding that the client and intended user of the report is Ms. Ann Jones, Chief Administrative Officer on behalf of the City of Hattiesburg. The appraisal is not intended for any other use or user. The definition of market value relied upon is included before the Addenda.

Competency of the Appraisers

The appraisers' specific qualifications are included within this report. These qualifications serve as evidence of their competence for the completion of this appraisal assignment in compliance with the competency provision in USPAP. The appraisers' knowledge and experience, combined with their professional qualifications, are commensurate with the complexity of this assignment. The appraiser has previously provided consultation and value opinion for properties similar to the subject in Hattiesburg, Mississippi and the regional area.

Interest Appraised

- **Fee Simple Estate** is absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Significant Real Property Assistance

Significant real property appraisal assistance was provided by Trainee Appraiser Colby Farris, License# AI-892. This included assistance with the site visit, site analysis, and work file preparation.

Effective Date of Value

July 23, 2025

Date of Report

August 8, 2025

Scope of Work

Scope of work is the most critical decision an appraiser will make in performing an assignment. Solving an appraisal problem involves three steps:

1. Identifying the problem
2. Determining the solution (or scope of work)
3. Applying the solution

None of the three steps can be omitted, and each must be performed in order. To analyze the problem, the appraiser identifies seven key assignment elements: (1) client, (2) intended users in addition to the client, (3) intended use, (4) objective of the appraisal, or type of value and its definition, (5) effective date, (6) property characteristics that are relevant to the assignment such as the interest to be valued and physical and legal characteristics), and (7) assignment conditions such as hypothetical conditions, extraordinary assumptions, and other requirements. These elements provide the framework for the assignment and allow the appraiser to identify the problem to be solved.

The second step is to determine the scope of work to solve the problem. Scope of work encompasses all aspects of the valuation process, including which approaches to value will be used; how much data is to be gathered, from what sources, from which geographic area, and over what time period; the extent of the data verification process; and the extent of property inspection, if any. The scope of work decision is appropriate when it allows the appraiser to arrive at credible assignment results and is consistent with the expectations of similar clients and the work that would be performed by the appraiser's peers in a similar situation.

Source: ***Appraisal of Real Estate 14th Edition***

Inspection

A site visit was performed on July 23rd, 2025 by the appraiser. The lot was walked and property boundaries were identified. Photographs were taken to document this and will be available later in the report. The neighborhood was also observed after the site visit.

I am not an engineer and are not competent to judge matters of an engineering nature, nor have I retained independent structural, mechanical, electrical, or civil engineers in connection with the report. As such, I make no representations relative to the condition of the improvements, if any exist. Unless otherwise noted in the report, no problems were brought to the attention of the appraiser by the client or property owner.

If questions regarding engineering studies are critical to the decision process of the reader, the advice of competent engineering consultants should be obtained and relied upon.

Data Research

The type and extent of my research and analysis is detailed in individual sections of the report. This includes the steps took to verify comparable sales, which are disclosed in the comparable sale profile sheets in the report. Although we make an effort to confirm the arms-length nature of each sale with a party to the transaction, it is sometimes necessary to rely on secondary verification from sources deemed reliable.

Legal Description

The southeast 90 feet of Lots 13, 14, 15, 16, all in Block 144 of the Kamper and Whinnery Survey in the City of Hattiesburg, Forrest County, Mississippi.

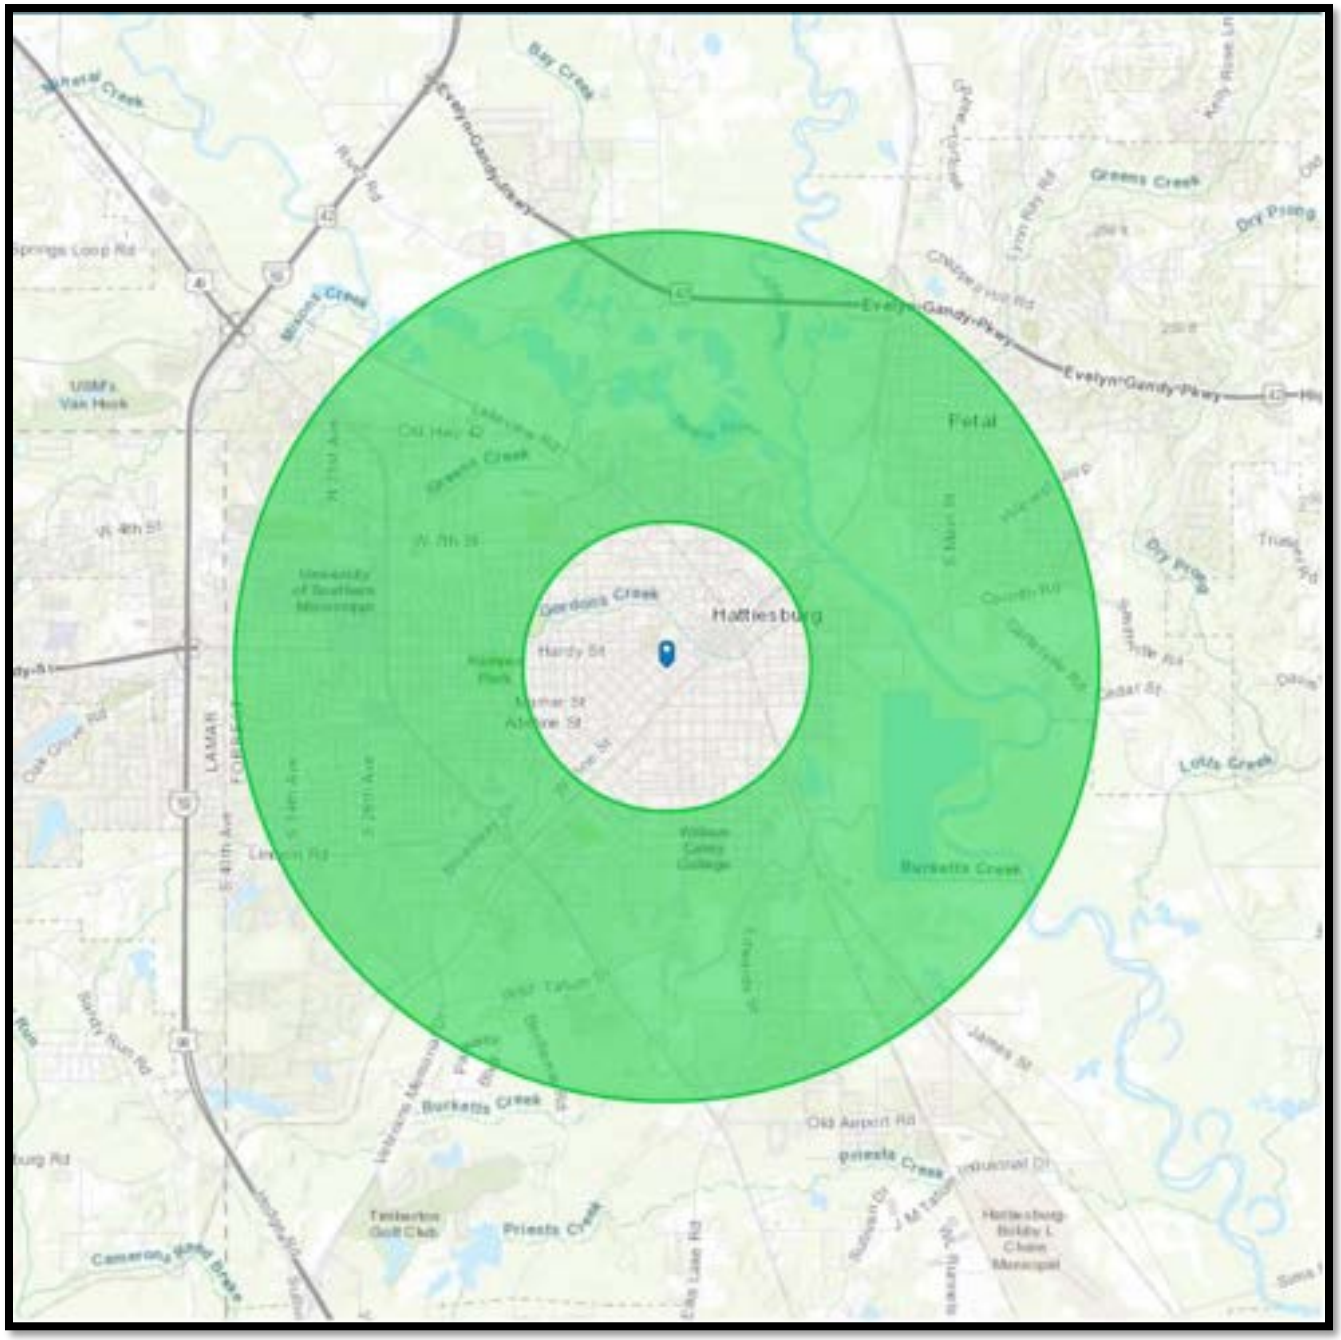
Property History/Ownership

The property is owned by The City of Hattiesburg. The last conveyance occurred between The First Baptist Church of Hattiesburg, Inc. (Grantor) and The City of Hattiesburg (Grantee) in November 2009 and is recorded in Deed Book 1071, Page 218 at the Chancery Clerk Office of Forrest County. We are not aware of any conveyances in ownership in the last three years.

To the best of my knowledge, the property is not currently listed for sale nor is it under contract or option to purchase.

Taxes and Assessments

The property is identified by the Forrest County Tax Assessor's records as Parcel Number: 2-029O-10-051.00. The property is owned by the City of Hattiesburg and is a tax-exempt parcel.



Definition of Market Value[1]

Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

[1] Definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC and in the Interagency Appraisal and Evaluation Guidelines, dated December 2, 2010

Marketing Time

The reasonable marketing time is an opinion of the amount of time it might take to sell a real or personal property interest at the concluded Market Value level during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal. In this instance, we have estimated a 6-12 month marketing time for the subject.

Exposure Time

Reasonable exposure time is one of a series of conditions in most Market Value definitions. Exposure time is always presumed to precede the effective date of the appraisal.

Exposure time may be defined as follows: the length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at Market Value on the effective date of the appraisal; a retrospective opinion based on an analysis of past events assuming a competitive and open market.

Exposure time is different for various types of property and under various market conditions. It is noted that the overall concept of reasonable exposure encompasses not only adequate, sufficient, and reasonable time but also adequate, sufficient, and reasonable effort. This statement focuses on the time component.

The fact that exposure time is always presumed to occur prior to the effective date of the appraisal is substantiated by related facts in the appraisal process: supply/demand conditions as of the effective date of the appraisal; the use of current cost information; the analysis of historical sales information (sold after exposure and after completion of negotiations between the seller and buyer); and the analysis of future income expectancy projected from the effective date of the appraisal.

Source: Standards 6 (SMT-6) *Uniform Standards of Professional Appraisal Practice*, 2010-2011 Edition, published by the Appraisal Standards Board of the Appraisal Foundation

Exposure period can be based on statistical information about days on market; information gathered through sales verification and interviews of market participants. In this instance, we have determined a 6- 12 month exposure time for the subject.

The Market Value of the property appraised in this report is determined as of the date shown in the Certification. Constantly changing economic conditions have varying effects upon real property values. Even after the passage of a relatively short period of time, property values may change substantially.

Extraordinary Assumption

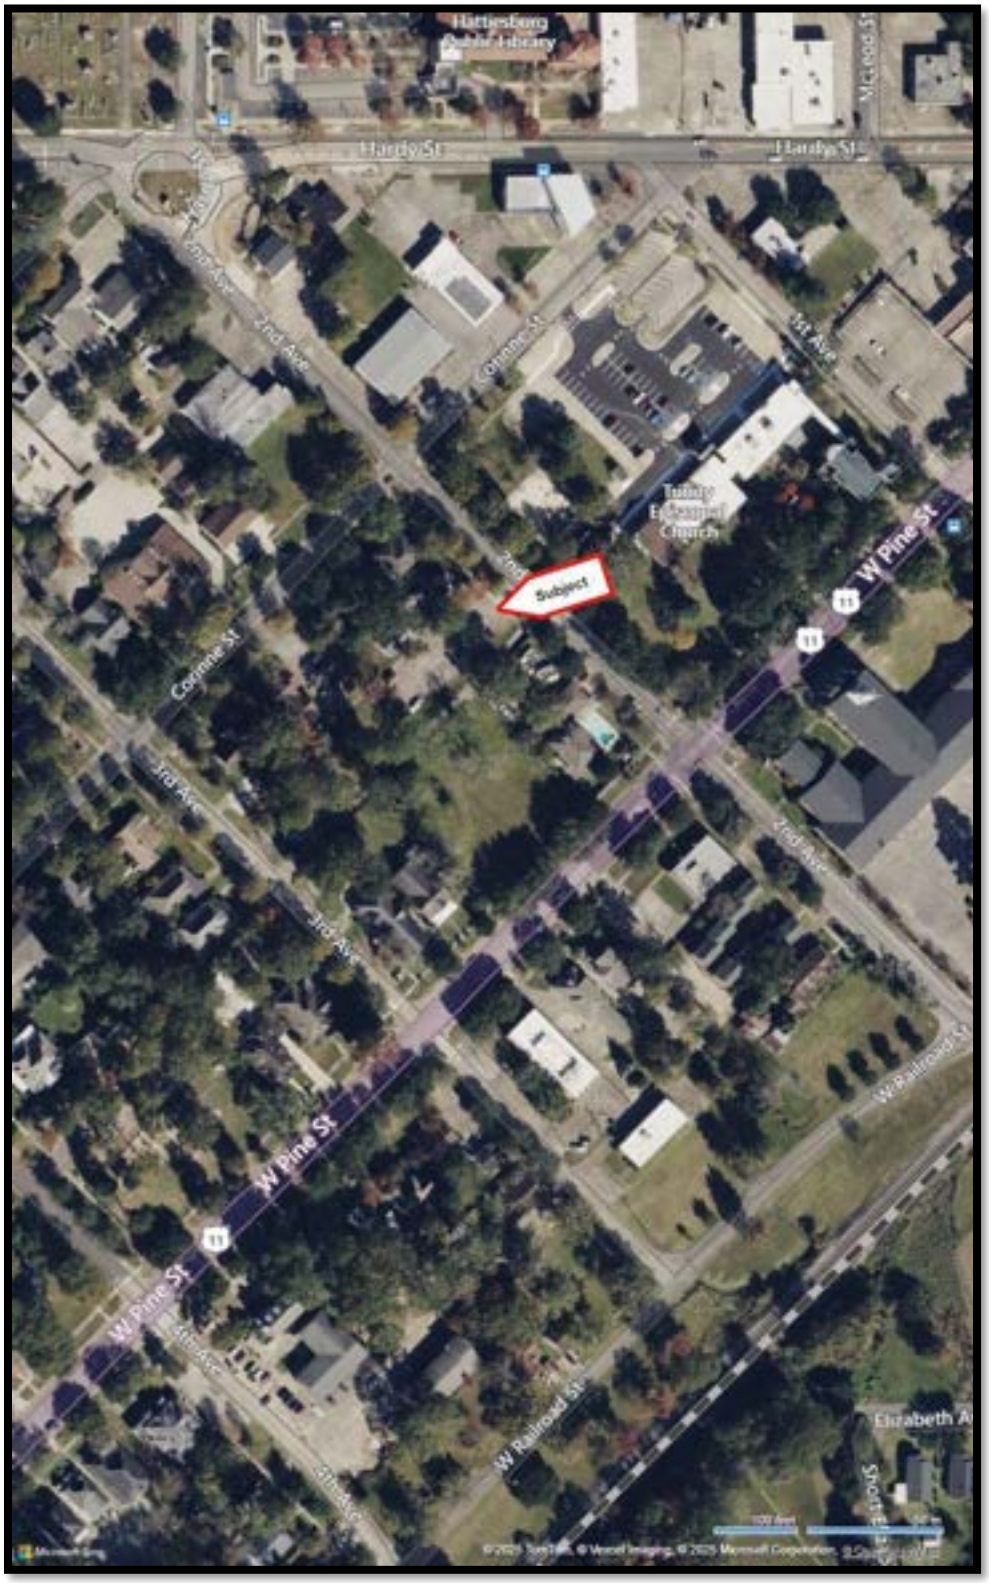
An assumption, directly related to a specific assignment, which, if found to be false, could alter the appraiser's opinions or conclusions.

Comment: Extraordinary assumptions presume as fact otherwise uncertain information about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

The definition of "extraordinary assumption" builds upon the definition of "assumption". Therefore, the first thing to acknowledge with regard to an extraordinary assumption is that we really believe an extraordinary assumption to be true. Second, we acknowledge that if we found that the extraordinary assumption was actually not true, then our value opinion could be impacted or changed as a result. This is what makes it extraordinary, because it is so relevant to our appraisal or value opinion. Therefore SR 2-1(a) requires that all extraordinary assumptions be disclosed, so that everyone knows that the value opinion depends upon the extraordinary assumption being true.

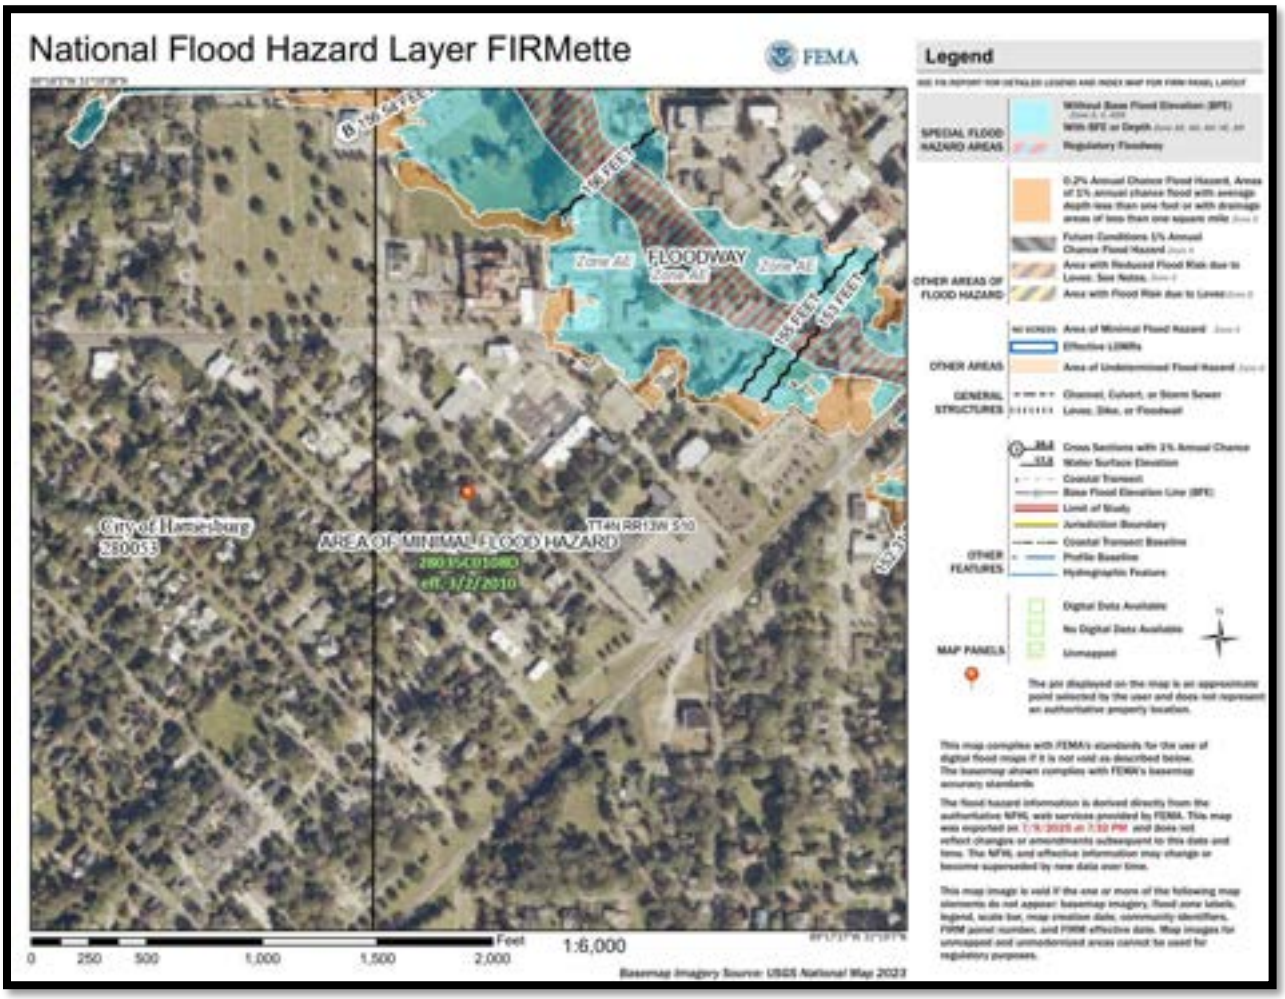
Hypothetical Condition

That which is contrary to what exists but is supposed for the purpose of analysis.



Extraordinary Assumptions Compared to Hypothetical Conditions

The best way to distinguish between an extraordinary assumption and a hypothetical condition is, if as of the date of value, the condition in question is known to be false; then it is a hypothetical condition. If, as the date of value, the fact of the condition is unknown and it is reasonable to believe that the condition is true, then the condition is an extraordinary assumption.



Comment: Hypothetical conditions assume conditions contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

No extraordinary assumptions or hypothetical conditions were made part of this report.

Appraisal Procedure

The main purpose of an appraisal is to solve a problem of a specific property. The appraiser must define the problem, inspect the property, gather all pertinent data, analyze the findings to arrive at a solution, and then present all salient facts and conclusions in the form of an appraisal report.

Since characteristics of real property vary widely, the appraiser must proceed in a systematic fashion producing a thorough and accurate appraisal in an efficient manner.

During the past fifty years, a method of evaluating real estate, "The Appraisal Process", has evolved. The appraisal process involves three different approaches to value, when applicable.

The Cost Approach

In this approach, the appraiser first develops an opinion of value of the land as though vacant as of the date of appraisal. Next, the replacement or reproduction cost new of all improvements is determined. From this total, estimated depreciation is deducted. Depreciation is any loss in improvement value due to physical deterioration and/or functional or external obsolescence. The value of the land is then added to the depreciated replacement or reproduction cost to arrive at an indication of value for the property as a whole.

The Sales Comparison Approach

This is an appraisal technique in which the market value opinion is predicated upon prices paid in actual market transactions and current listings, the former fixing the lower limit of value (price) in a static or advancing market and the higher limit of value in a declining market, with the latter fixing the higher limit in any market. The Sales Comparison Approach is a process of correlation and analysis of similar, recently sold properties. The reliability of this technique is dependent upon: (1) the degree of comparability of each property with the property under appraisement; (2) the time of sale; (3) the verification of the sales data; and (4) the absence of unusual conditions affecting the sale.

The Income Approach

This is a technique in which the anticipated net income is processed to produce an indication of value. The reliability of this technique is dependent upon: (1) the reasonableness of the estimate of the anticipated net annual income; (2) the duration of the net annual income, usually the economic life of the building, when improved; (3) derivation of an appropriate capitalization (discount) rate; and (4) the method of conversion of income to capital.

The remaining step is the reconciliation of the value opinion arrived at in the different approaches to value. The appraiser must consider and re-evaluate all pertinent data in order to arrive at a final value opinion. Although each of the techniques produces an independent value, all three approaches are interrelated and integrated techniques, dependent upon operation of market forces.

In some cases, due to the availability (or unavailability) of pertinent market data, these approaches have varying degrees of applicability.

Applied Technique

In this instance, we have used one of the three traditional approaches to value, the Sales Comparison Approach. The Cost and Income Approaches are not typically used to estimate value for vacant land. The Sales Comparison Approach provided sales of similar properties as the subject in which to estimate Market Value.

Valuation

Sales Comparison Approach

The Sales Comparison Approach involves a detailed comparison of the subject property with similar properties which have recently sold in the same or competitive markets. This approach is based primarily on the Principle of Substitution which states, "When several commodities or services with substantially the same utility are available, the lower price attracts the greatest demand and widest distribution". In other words, a prudent investor/purchaser would not pay more to acquire a given property in the market when an alternative property may be purchased for less. The five basic steps in this analysis are listed below.

- Research the market to identify similar properties for which pertinent sales, listings, offerings and/or rental data is available;
- Qualify the data as to terms, motivating forces, or bona fide nature;
- Analyze the salient characteristics of the comparable properties in relation to the property under appraisement, particularly those items relating to date of sale, location, physical characteristics, and conditions of sale;
- Consider all dissimilarities and the probable effect on the price of each sale property, and derive individual market value indications for the property being appraised;
- Formulate an opinion of market value from the pattern developed from the foregoing analysis.

Direct Sales Comparison is a valuation technique in which a value opinion is predicated on prices paid in actual market transactions. In this process, comparison is made between properties having a satisfactory degree of similarity to the subject. We have presented transactions involving similar commercial land parcels on the following pages, with an adjustment grid following.

Analysis of Land Sales

The subject is surrounded by mostly older and established commercial uses in downtown Hattiesburg. The usable area is estimated to be 18,000 square feet or 0.41 acres. As discussed earlier in the report, the estimated depreciation of the paving is around 60-80%. Any contributory value was considered in the concluded value. The adjusted range of sale is $1.85-$2.00 per square foot. Sale 1 is considered most similar to the subject and given primary emphasis. Sales 2 and 4 are given secondary emphasis. Considering all factors, a unit value of $2.00/sf was adopted for the subject.

LAND VALUE: 18,000 Sq. Ft @ $2.00/sq. ft. = $36,000

"As-Is" Market Value via the Sales Comparison Approach, Rounded: $35,000

CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.

- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are our personal, impartial, and unbiased professional analyses, opinions, and conclusions.

- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.

- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

- Our engagement in this assignment was not contingent upon developing or reporting predetermined results.

- The appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

- Compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the *Uniform Standards of Professional Appraisal Practice, 2024-2025 Edition.*

- I have made a personal inspection of the property that is the subject of this report.

- Significant real property appraisal assistance was provided by Trainee Appraiser Colby Farris, License# AI-892. No other individual provided significant real property appraisal assistance to the persons signing this certification.

- My analyses, opinions, and conclusions have been developed, and this report has been prepared, in compliance with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice (USPAP) as promulgated by the Appraisal Standards Board of The Appraisal Foundation, and in accordance with the appraisal-related mandates within Title XI of the Federal Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). This report was also prepared in conformance with the State of Mississippi Standards for Certified General Real Estate Appraisers.

- I have not relied on unsupported conclusions relating to characteristics such as race, color, religion, national origin, gender, marital status, familial status, age, receipt of public assistance income,

handicap, or an unsupported conclusion that homogeneity of such characteristics is necessary to maximize value.

- It is my opinion that the subject does not include any enhancement in value as a result of any natural, cultural, recreational or scientific influences retrospective or prospective.
- I have experience in appraising properties similar to the subject and are in compliance with the Competency Rule of USPAP.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- I have not relied on the work of others if we have a reasonable doubt that the work is credible.
- I have not performed any services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

It is my opinion the market value for the fee-simple interest of the property described herein, as of the effective appraisal date is:

Value Type	Interest Appraised	Date of Value	Value
"As Is" Market Value	Fee Simple	July 23, 2025	$35,000

Respectfully submitted,

Zachary H. Fairley
State Certified General Real Estate Appraiser, GA-1418

ASSUMPTIONS

1. This is an appraisal report presented in an Appraisal Report which is intended to comply with the reporting requirements set forth under Standard Rule 2-2(a) of the Uniform Standards of Professional Appraisal Practice. It is understood between the parties that the scope of the assignment is limited and we relied on information obtained from the public records of Forrest County, published data sources and discussions with market professionals such as investors and brokers relative to County, published data sources and discussions with market professionals such as investors and brokers relative to the subject's income performance and physical composition. Zac Fairley Appraisals is not responsible for unauthorized use of this report.

2. Unless otherwise specifically noted in the body of the report, it is assumed that title to the property or properties which are identified as the subject of the report, are clear and marketable and there are no recorded or unrecorded matters or exceptions to title that would adversely affect marketability or value. Zac Fairley Appraisals, LLC has not examined title and makes no representations relative to the condition thereof.

3. Unless otherwise specifically noted in the body of the report, the legal description furnished is assumed to be correct. Any abbreviations or discrepancies relative to the legal would be identified.

4. It is assumed that surveys and/or plats furnished to, or acquired by, the appraiser and used in the making of this report are correct. Zac Fairley Appraisals, LLC has not made a land survey or caused one to be made unless identified in the report and therefore, assumes no responsibility for accuracy of same.

5. It is assumed any improvements have been, or will be, constructed according to approved architectural plans and specifications in conformance with recommendations contained in or based on any soil report(s). Unless otherwise noted, Zac Fairley Appraisals, LLC has not retained independent engineer(s) or architect(s) in connection with the report and therefore, makes no representations relative to conformance with approved architectural plans, specifications, or recommendations contained in or based on any soil(s) report.

6. It is assumed that all factual data furnished by the client, property owner, owner's representative, or persons designated by the client or owner are accurate and correct unless otherwise specifically noted in the report. I do not guarantee the correctness of such data, although as far as is reasonably possible, the data has been checked and is believed to be correct. Information and data referred to in this paragraph may include but is not limited to information relative to the subject of the report regarding numerical street addresses, lot and block numbers, assessors parcel numbers, land dimensions, square footage area of land, dimensions of the improvements, gross building areas, net rentable areas, usable areas, unit count, room count, rent schedules, income data, budgets, historic operating expenses, and related data. Information obtained regarding demographics, comparable verification, and data of a general sense is assumed factual as confirmed and the source(s) reliable. Any material error in the gathered data could have substantial impact on the conclusions reported; as a result, Zac Fairley Appraisals, LLC reserves a right to amend conclusions reported if made aware of such an error.

7. Unless otherwise noted in the body of the report, it is assumed that there are no mineral or sub-surface rights of value involved in the report and there are no other development rights of value that may be transferred. Subsurface rights, minerals and oils, were not considered in making this report unless otherwise stated.

8. Any riparian and/or littoral rights identified by survey or plat are assumed to go with the property unless easements and/or deeds of record were found by the appraiser to the contrary.

9. It is assumed that there is full compliance with all federal, state, and local environmental regulations and laws, unless non- compliance is stated, defined, and considered in the report.

10. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless the non- conformity has been stated, defined, and considered in the report. Unless otherwise noted, it is assumed that no changes in the present zoning ordinances or regulations governing use, density, or shape, are being considered.

11. It is assumed that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization has been, or can be, obtained or renewed for any use on which the value estimate contained in the report is based.

12. Unless otherwise stated in the report, the existence of hazardous material, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such material on or in the property. The appraiser, however, is not qualified to detect such substances. The presence of substances such as asbestos, urea formaldehyde foam insulation, contaminated ground water, or other potentially hazardous materials may affect the value of the property. The value estimate is predicated upon the assumption that there is no such material on or in the property that would cause loss in value or affect its marketability. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field if desired.

13. The distribution of the total valuation in this report between land and improvements applies only under the existing program of utilization. The separate valuations for land and building must not be used in conjunction with any other report and are invalid if so used.

14. The forecasts, projections, and/or operating estimates contained herein are based on current market conditions, anticipated (though recognizably short term) supply and demand factors, and a continued stable economy, unless otherwise stated. Any forecasts are therefore subject to changes in future conditions.

15. The Americans with Disabilities Act ("ADA") became effective January 26, 1992. Zac Fairley Appraisals, LLC has not made a specific compliance survey and analysis of this property to determine whether or not it is in conformity with the various detailed requirements of the ADA. It is possible that a compliance survey of the property, together with a detailed analysis of the requirements of the ADA, could reveal that the property is not in compliance with one or more of the requirements of the Act. If so, this fact could have a negative effect upon the value of the property. Since Zac Fairley Appraisals, LLC has no direct evidence relating to this issue, we did not consider possible non-compliance with the requirements of ADA in estimating the value of the property.

16. **Insurable value is not provided in this report. Taking the difference between our reported Market Value and estimated land value is not an appropriate method for estimating replacement cost of improvements for insurance coverage purposes. We recommend a proper insurance representative to estimate an appropriate coverage for the subject property.** Insurable value has two definitions

per Marshall and Swift LP. 1. The value of an asset or asset group that is covered by an insurance policy. It can be estimated by deducting costs of non-insurable items (e.g., land value) from Market Value. 2. Value used by insurance companies as the basis for insurance. Often considered to be replacement or reproduction cost plus allowances for debris removal or demolition less deterioration and non-insurable items. Sometimes cash value or Market Value, but often entirely a cost concept.

Special Assumptions

None

Definitions

Appraisal

(noun) The act or process of developing an opinion of value; an opinion of value. (adjective) of or pertaining to appraising and related functions such as appraisal practice or appraisal services.

Comment: an appraisal must be numerically expressed as a specific amount, as a range of numbers, or as a relationship (e.g., not more than, not less than) to a previous value opinion or numerical benchmark (e.g., assessed value, collateral value).

Assignment

A valuation service that is provided by an appraiser as a consequence of an agreement with the client.

Assignment Conditions

Assumptions, extraordinary assumptions, hypothetical conditions, laws and regulations, jurisdictional exceptions, and other conditions that affect the scope of work.

Comment: Laws include constitutions, legislative and court-made law, administrative rules, and ordinances. Regulations include rules or orders, having legal force, issued by an administrative agency.

Client

The party or parties who engage, by employment or contract, an appraiser and a specific assignment.
Comment: client may be an individual, group or entity, and may engage and communicate with the appraiser directly or through an agent.

Exposure Time

The estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

Comment: Exposure time is a retrospective opinion based on an analysis of past events assuming a competitive and open market.

Extraordinary Assumption

An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.

Comment: uncertain information might include physical, legal, or economic characteristics of the subject property; or conditions external to the property, such as market conditions or trends; or the integrity of data used in an analysis.

Hypothetical Condition

A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.

Comment: Hypothetical conditions are contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

Intended Use

The use(s) of an appraiser's reported appraisal or appraisal review assignment results, as identified by the appraiser based on communication with the client at the time of the assignment.

Intended User

The client and any other party as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser, based on communication with the client at the time of the assignment.

Jurisdictional Exception

An assignment condition established by applicable law or regulation, which precludes an appraiser from complying with a part of USPAP.

Marketing Time

The reasonable marketing time is an opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value or at a benchmark price during the period immediately after the effective date of an appraisal.

Market Value[2]

Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

[2] Definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

To: Zac Fairley <zacfairley@zfappraisals.com>, Zac Fairley <zfappraiser@gmail.com>

Zac

Could I get an appraisal on the below Parcels that the City of Hattiesburg owns? One parcel has a house on it that I can get you access to look at and the remainder are just vacant lots.

PPIN 19340

Parcel # 2-029O-10-050.00

PPIN 19339

Parcel # 2-029O-10-049.00

PPIN 19344

Parcel # 2-029O-10-051.00

PPIN 19333

Parcel # 2-029O-10-066.00

Ann

EXHIBIT "A"

Part of Block 133 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi described as follows, to-wit:

A strip of land 70.5 feet wide off of the entire Southern or Southwesterly side of Lot 2 and entire Lots 3, 4, and 5 and a strip of land 56 feet wide off of the entire Northern or Northeasterly side of Lot 6, all in Block 133 of the Kamper and Whinnery Survey of the City of Hattiesburg, Forrest County, Mississippi and said lots and parts of lots together constituting a tract of land described as beginning at the point of intersection of the Southern or Southwesterly line of Ferguson Street, as said street is now located and constructed, with the Western or Northwesterly line of Railroad Street, as said street is now located and constructed, and run thence in a Northwesterly direction along the said Southern or Southwesterly line of Ferguson Street 200 feet to an alley, run thence Southwesterly along the Eastern or Southeasterly line of said alley a distance of 341.5 feet, run thence in a Southeasterly direction parallel with First Avenue and 154 feet Northeasterly therefrom a distance of 200 feet to Railroad Street, and run thence in a Northeasterly direction along the said Western or Northwesterly line of Railroad Street a distance of 341.5 feet to the Point of Beginning.

AND ALSO

Begin at the Southeast corner of Lot 6 of Block 133 of the Kamper & Whinnery Survey or extension to the City of Hattiesburg, Mississippi, for a Point of Beginning, and run thence in a Northwesterly direction 53 ½ feet; run thence in a Northeasterly direction 100 feet; run thence in a Southeasterly direction 53 ½ feet; run thence in a Southwesterly direction 100 feet to the Point of Beginning.

AND ALSO

A part of Lot Six (6) in Block 133 of the Kamper and Whinnery Survey of the City of Hattiesburg, Mississippi, according to the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, more particularly described as: Beginning at the Southeast (SE) corner of said Lot 6 of said Block 133 and run Westerly along First Avenue 53.5 feet to the Point of Beginning, thence from said Point of Beginning thence at right angles Northerly 124 feet, thence at right angles Westerly 47.5 feet, thence at right angles Southerly 124 feet to First Avenue, thence at right angles Easterly 47.5 feet to the Point of Beginning, said property having a frontage on First Avenue of 47.5 feet and a uniform depth of 124 feet

AND ALSO

A parcel of land being a part of Lot 6 in Block 133 of the Kamper and Whinnery Survey, as per the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, and more particularly described as beginning at the Southeast corner of said Lot 6 in said Block 133 of said survey, and thence run Westerly along First Avenue 101 feet to the Point of Beginning; thence run at right angles Northerly 154 feet; thence run at right angles Westerly 49

Inst. 647477
Bk 1071 Pg 0216

feet; thence run at right angles Southerly 154 feet to First Avenue; thence run at right angles Easterly along First Avenue 49 feet to the Point of Beginning.

AND ALSO

Commence at the Southeast corner of Lot 6, Block 133 of the Kamper & Whinnery Survey or Extension to the City of Hattiesburg, Forrest County, Mississippi, and run then Northeast along the Southeast line of said Lot 6, a distance of 100 feet for a Point of Beginning; thence run Northwest 53.5 feet; thence run Northeast 24 feet; thence run Northwest 47.5 feet; thence run Northeast 30 feet; thence run Southeast 101 feet to the Southeast line of said Lot 6; thence run Southwest along the Southeast line of Lot 6 for 54 feet to the Point of Beginning.

AND ALSO

Commence at the Southwest corner of Lot 6 of Block 133 of the Kamper & Whinnery Survey or Extension to the City of Hattiesburg, Forrest County, Mississippi, and run thence Northeast along an alley 154 feet; thence run Southeast parallel to First Avenue for 50 feet; thence run Southwest parallel to the aforesaid alley for 154 feet, more or less, to First Avenue; thence run Northwest along the boundary line of First Avenue for 50 feet, more or less, to the Point of Beginning, together with the improvements thereon and appurtenances thereunto belonging, said property being sometimes referred to as being a part of Lot 6, Block 133 of the Crittenden Survey to the City of Hattiesburg, Forrest County, Mississippi.

AND ALSO

All of Block 134 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi; together with the improvements thereon and the appurtenances thereunto belonging.

AND ALSO

Part of Block 135 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi described as follows, to-wit:

A part of Lots 1, 2 and 3 of Block 135 of Kamper & Whinnery Subdivision No. 1 of the City of Hattiesburg, Forrest County, Mississippi, described as: Begin at the Northeast corner of Lot 1, the same being the intersection of Second Avenue and the Western boundary line of the New Orleans and Northeastern Railroad right-of-way, and run in a Northwesterly direction along the Southwest side of Second Avenue a distance of 66 2/3 feet to the Point of Beginning; run thence from said Point of Beginning in a Northwesterly direction along the Southwest side of Second Avenue 66 2/3 feet; thence at right angles in a Southwesterly direction and parallel with the New Orleans and Northeastern Railroad right-of-way 150 feet to the line dividing Lots 3 and 4 in said Block 135; thence in a Southeasterly direction along said line dividing Lots 3 and 4 in said Block 135 a distance of 66 2/3 feet; thence at right angles in a Northeasterly direction, and parallel wit the New Orleans and Northeastern Railroad right-of-way 150 feet to the Point of Beginning, being situated in the City of Hattiesburg, Forrest County, Mississippi.

Inst. 647477
Bk 1071 Pg 0217

AND ALSO

Part of Block 144 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi, described as follows, to-wit:

The Southeasterly 90 feet of the Northeast half of Lot 10 and the Southeasterly 90 feet of Lots 11 and 12 of Block 144 of the Kamper and Whinnery Subdivision of the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, more particularly described as follows: Commencing at the most Northerly corner of Lot 12 of said Block 144 and run thence Southeasterly and along the Northeasterly boundary of said Lot 12 for a distance of 110 feet to and for the Point of Beginning; from said Point of Beginning continue Southeasterly and along the Northeasterly boundary of said Lot 12 for a distance of 90 feet to an alley; run thence Southwesterly and along said alley for a distance of 125 feet; run thence Northwesterly, parallel to and 25 feet from the Northeasterly boundary of Lot 10 of said Block 144, for a distance of 90 feet; and run thence Northeasterly and parallel to the Southeasterly boundary line of Lots 10, 11, and 12 of said Block 144 for a distance of 125 feet back to the Point of Beginning;

AND ALSO

The Northwest 110 feet of the Northeast Half of Lot 10, the Northwest 110 feet of Lot 11 and the Northwest 110 feet of Lot 12, all in Block 144 of the Kamper and Whinnery Survey Extension or Addition to the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi; together with the improvements thereon and the appurtenances thereunto belonging.

AND ALSO

The North, or Northwestern 70 feet of Lots 1 and 2, and all of Lots 3, 4 and 5, and the North, or Northeastern one-half of Lot 6, all in and of Block 144 of Kamper and Whinnery's Subdivision No. 1 of the City of Hattiesburg, Forrest County, Mississippi (also referred to, variously, as the Kamper and Whinery and Kamper and Whinnery Extension or Survey of Hattiesburg, Mississippi), as per the official map of said Subdivision on file and of record in the office of the Chancery Clerk of Forrest County, Mississippi, in Plat Book 1 at Page 7.

AND ALSO

The Southeast 90 feet of Lots 13, 14, 15 and 16, all in Block 144 of the Kamper and Whinnery Survey in the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, which property is more particularly described by metes and bounds as follows: Commence at the Northernmost corner of Lot 16, which is at the point of intersection of the Southeasterly boundary of Corinne Street and the Southwesterly boundary of Second Avenue in the City of Hattiesburg, Mississippi, and thence run Southeasterly and along the Southwesterly boundary line of Second Avenue for a distance of 110 feet to and for the Point of Beginning; from this Point of Beginning run thence

Inst. 647477
Bk 1071 Pg 0218

Southwesterly and parallel with Corinne Street for a distance of 200 feet, run thence Southeasterly and parallel with Second Avenue for a distance of 90 feet to an alley, run thence Northeasterly and along said alley and parallel to Corinne Street for a distance of 200 feet to the Southwesterly boundary line of Second Avenue; and run thence Northwesterly and along the Southwesterly boundary line of Second Avenue for a distance of 90 feet back to the Point of Beginning, the parcel of property hereby conveyed fronts 90 feet on Second Avenue and extends back between parallel lines for a distance of 200 feet;

LESS AND EXCEPT that part thereof conveyed to Melissa J. Massingill by Quitclaim Deed dated May 25, 2006 or record in Land Deed Book 988 at Page311 described as follows, to-wit:

That part of Lots 13, 14, 15, and 16 of Block 144 of the Kamper and Whinnery Survey of the said City of Hattiesburg as per the map thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, described as commencing at the intersection of Corinne Street and Second Avenue, which is the North corner of Lot 16, and running thence Southeasterly along the Southwest line of Second Avenue 110 feet to the Point of Beginning; thence run Southwesterly and parallel with said Corinne Street 200 feet; thence run Southeasterly and parallel with Second Avenue 6 feet; thence run Northeasterly and parallel with Corinne Street 200 feet to the Southwest line of Second Avenue; and thence run Northwesterly along the Southwest line of Second Avenue 6 feet to the Point of Beginning.

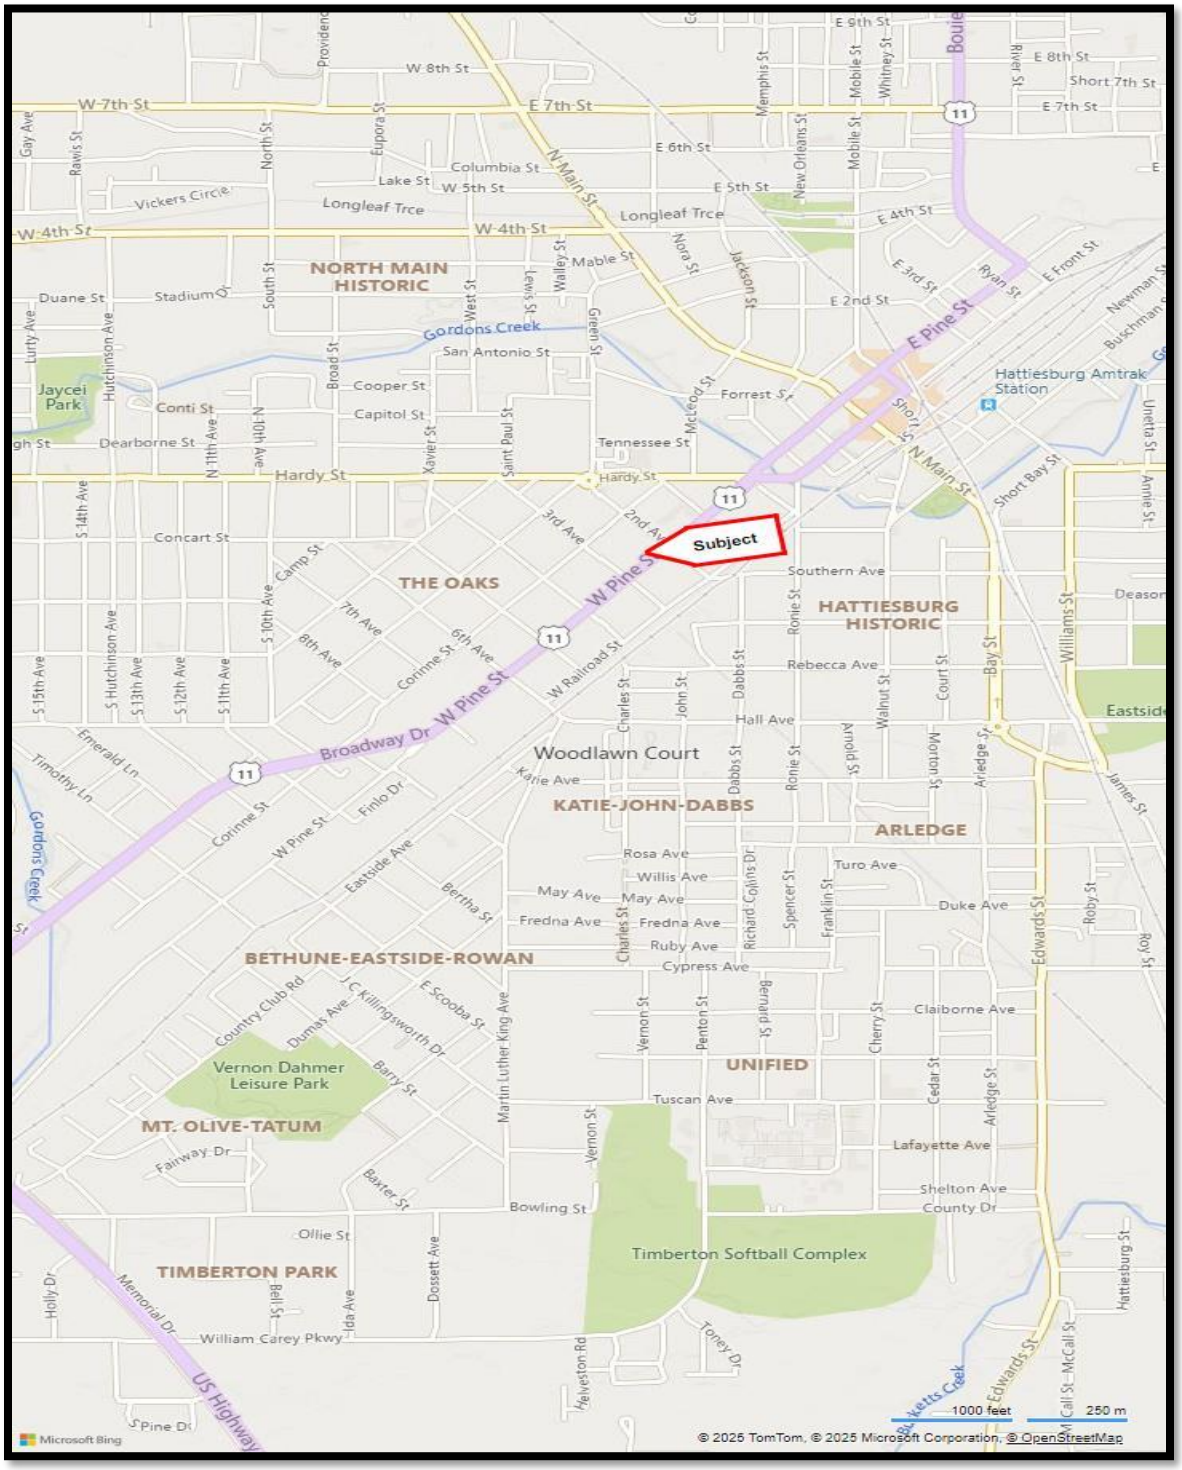
Re: Appraisal of a +/-0.80 acre (35,000 Sq. Ft.) parcel of land located at 510 West Pine Street, Hattiesburg, Forrest County, Mississippi 39401

Dear Ms. Ann Jones:

Thank you for the opportunity to provide appraisal services. Based on our agreement, I have performed an appraisal and reported our findings in this Appraisal Report. All property rights are appraised, the purpose of which is to arrive at an estimate of the "As-Is" Market Value for the fee simple interest for the subject property. This report is intended to comply with the reporting requirements under Standards Rule 2.2(a) of the Uniform Standards of Professional Appraisal Practice.

Value Type	Interest Appraised	Date of Value	Value
"As Is" Market Value	Fee Simple	July 23, 2025	$60,000

The following report sets out my reasoning, methodology, and conclusions. It has been prepared in accordance with the appraisal standards and procedures as currently promulgated by the Appraisal Standards Board of the Appraisal Foundation. The report is also prepared in accordance with the Code of Professional Ethics and Standards of Professional Practice of the Appraisal Institute.



I strive to present the most timely market data with pertinent analytical methods reflective of current market participants. Nonetheless, we are receptive to suggestions of methodology, presentation or other concerns about this report. I appreciate this opportunity to provide service and look forward to providing appraisal or consulting services for the City of Hattiesburg in the future.

Respectfully submitted,

Zachary H. Fairley
State Certified General Real Estate Appraiser, GA-1418

Location Map

Summary of Salient Facts and Conclusions		
Property Description		
Property Name		Commercial Lot
Property Address		510 W. Pine Street Hattiesburg, Forrest County, Mississippi 39401
Property Location		The property is located along W. Pine Street in downtown Hattiesburg. More specifically, the property is located between 2nd Avenue and 3rd Avenue.
Property Tax Identification Number(s)		PPIN: 19333 Parcel ID: 2-029O-10-066.00
Current Taxes & Assessments		Exempt
Ownership/Sales History		
Owner(s) of Record		City of Hattiesburg
Sale History		The property is not currently listed for sale nor is it under contract or option to purchase. I am not aware of any conveyances in ownership in the last three years.
Appraisal Information		
Date of the Report		August 5, 2025
Effective Date of the Appraisal		July 23, 2025
Property Rights Appraised		Fee Simple
Estimated Exposure Time & Marketing Period		6-12 months
Site Data		
Land Area		**Land (Acres)**
	Gross	+/-0.80 Acres or 35,000 Square Feet, More or Less The subject land area used in this report was obtained from the tax maps provided by Tr-State Consulting Services. If a survey is provided indicating a different acreage, this could alter the concluded market value.
Site Discussion		The subject of this report is an open grassy parcel of land located along West Pine Street in downtown Hattiesburg. The property is level at grade with West Pine Street. It is zoned B-1; Neighborhood Business District with all city utilities in place.
Shape		Square
Frontage		West Pine Street fronts along the southeastern property boundary for approximately 175 feet.
Access/Visibility		Access and visibility are good from West Pine Street. The property has limited visibility from 2nd Avenue and 3rd Avenue. Two paved curb cuts are in place along West Pine Street. A paved alley fronts along the northwestern boundary.
Topography/Drainage		Level at road grade with adequate drainage.
Soil/Subsurface		A soils report was not provided for our review. Based on our inspection of the subject and observation of development on nearby sites, there are no apparent ground stability problems. However, we are not experts in soils analysis. We assume that the subject's soil

	bearing capacity is sufficient to support the existing improvements.	
Environmental Concerns	An environmental assessment report was not provided for review, and during our inspection, we did not observe any obvious signs of contamination on or near the subject. However, environmental issues are beyond our scope of expertise. It is assumed that the property is not adversely affected by environmental hazards.	
Functional Utility	Commercial and professional office uses are located along W. Pine Street. Residential uses along W. Pine Street have been converted into office use over the years. The functional utility of the property would be for a commercial use in comfort with the surrounding uses along W. Pine Street.	
Easements and Encroachments	I am not aware of any easements or encroachments that would be detrimental to the property.	
Adjacent Properties	Residential and Commercial	
North	Commercial Lot	
West	Single Family Residential / Professional Office	
South	Single-Family Residential	
East	Professional Office	
Utilities	Electric	Mississippi Power Company
	Water	City of Hattiesburg
	Sewer	City of Hattiesburg
	Gas	Spire Mississippi
	Police/Fire	City of Hattiesburg
Flood Information	The subject site is generally level with adequate drainage. Per FEMA Map No. 28035C0108D, dated March 2nd, 2010, the property is situated in Flood Zone X. Flood hazard insurance is not required for buildings situated in this zone.	
Zoning & Land Use		
Zoning	B-1; Professional Business District The purpose of this business district is to provide areas for professional and business offices and related activities that require separate buildings and building groups surrounded by landscaped yards and open areas. The intent is to provide compact locations for business offices, medical and dental offices, as well as suburban locations near residential neighborhoods.	
Neighborhood Description		
	Property is located along West Pine Street between 2nd Avenue and 3rd Avenue in downtown Hattiesburg. West Pine Street is a moderate to heavily trafficked corridor connecting downtown Hattiesburg to Highway 11 and Highway 49. The neighborhood consists of residential along the avenues with commercial uses along W. Pine Street. Residential uses are prevalent to the west towards "The Avenues" of Hattiesburg. While uses to the north, east, and south are predominantly commercial uses. Many of the improvements in the neighborhood, both residential and	

	commercial, are older. West Pine Street is in the beginning stages of revitalization with the completion of a Hall Street By-Pass connecting Rebecca Avenue with West Pine Street.
Highest and Best Use	
As If Vacant	Commercial
Highest and Best Use Discussion	The property is vacant commercial land containing +/- 0.80 acres (35,000 Square Feet) located along West Pine Street in downtown Hattiesburg. The property is located inside the city limits and is subject to zoning restrictions. All city utilities are available to the property. The property is surrounded by commercial uses fronting along W. Pine Street. The highest and best use as vacant would be for commercial development permitted within B-1; Professional Business District Zoning.
Market Value Conclusions – As Is	
Sales Comparison Approach	$60,000
Final Value Conclusion	$60,000

Purpose of the Appraisal

The purpose of this appraisal is to formulate and express an estimate of the "As-Is" Market Value for fee simple interest in the property as of the effective appraisal date, July 23rd, 2025.

Intended Use/Client and Intended User(s)

The intended use of this report is for internal decision making purposes by the client and/or participants. It is our understanding that the client and intended user of the report is Ms. Ann Jones, Chief Administrative Officer on behalf of the City of Hattiesburg. The appraisal is not intended for any other use or user. The definition of market value relied upon is included before the Addenda.

Competency of the Appraisers

The appraisers' specific qualifications are included within this report. These qualifications serve as evidence of their competence for the completion of this appraisal assignment in compliance with the competency provision in USPAP. The appraisers' knowledge and experience, combined with their professional qualifications, are commensurate with the complexity of this assignment. The appraiser has previously provided consultation and value opinion for properties similar to the subject in Hattiesburg, Mississippi and the regional area.

Interest Appraised

- **Fee Simple Estate** is absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Significant Real Property Assistance

Significant real property appraisal assistance was provided by Trainee Appraiser Colby Farris, License# AI-892. This included assistance with the site visit, site analysis, and work file preparation.

Effective Date of Value

July 23, 2025

Date of Report

August 5, 2025

Scope of Work

Scope of work is the most critical decision an appraiser will make in performing an assignment. Solving an appraisal problem involves three steps:

1. Identifying the problem
2. Determining the solution (or scope of work)
3. Applying the solution

None of the three steps can be omitted, and each must be performed in order. To analyze the problem, the appraiser identifies seven key assignment elements: (1) client, (2) intended users in addition to the client,
(3) intended use, (4) objective of the appraisal, or type of value and its definition, (5) effective date, (6) property characteristics that are relevant to the assignment such as the interest to be valued and physical and legal characteristics), and (7) assignment conditions such as hypothetical conditions, extraordinary assumptions, and other requirements. These elements provide the framework for the assignment and allow the appraiser to identify the problem to be solved.

The second step is to determine the scope of work to solve the problem. Scope of work encompasses all aspects of the valuation process, including which approaches to value will be used; how much data is to be gathered, from what sources, from which geographic area, and over what time period; the extent of the data verification process; and the extent of property inspection, if any. The scope of work decision is appropriate when it allows the appraiser to arrive at credible assignment results and is consistent with the expectations of similar clients and the work that would be performed by the appraiser's peers in a similar situation.
Source: ***Appraisal of Real Estate 14th Edition***

Inspection

I performed a site visit on July 23rd, 2025. The property was walked and property boundaries were identified. Photographs were taken to document this and will be available later in the report. The surrounding neighborhood was also observed during the site visit.

I am not an engineer and are not competent to judge matters of an engineering nature, nor have I retained independent structural, mechanical, electrical, or civil engineers in connection with the report. As such, I make no representations relative to the condition of the improvements, if any exist. Unless otherwise noted in the report, no problems were brought to the attention of the appraiser by the client or property owner.

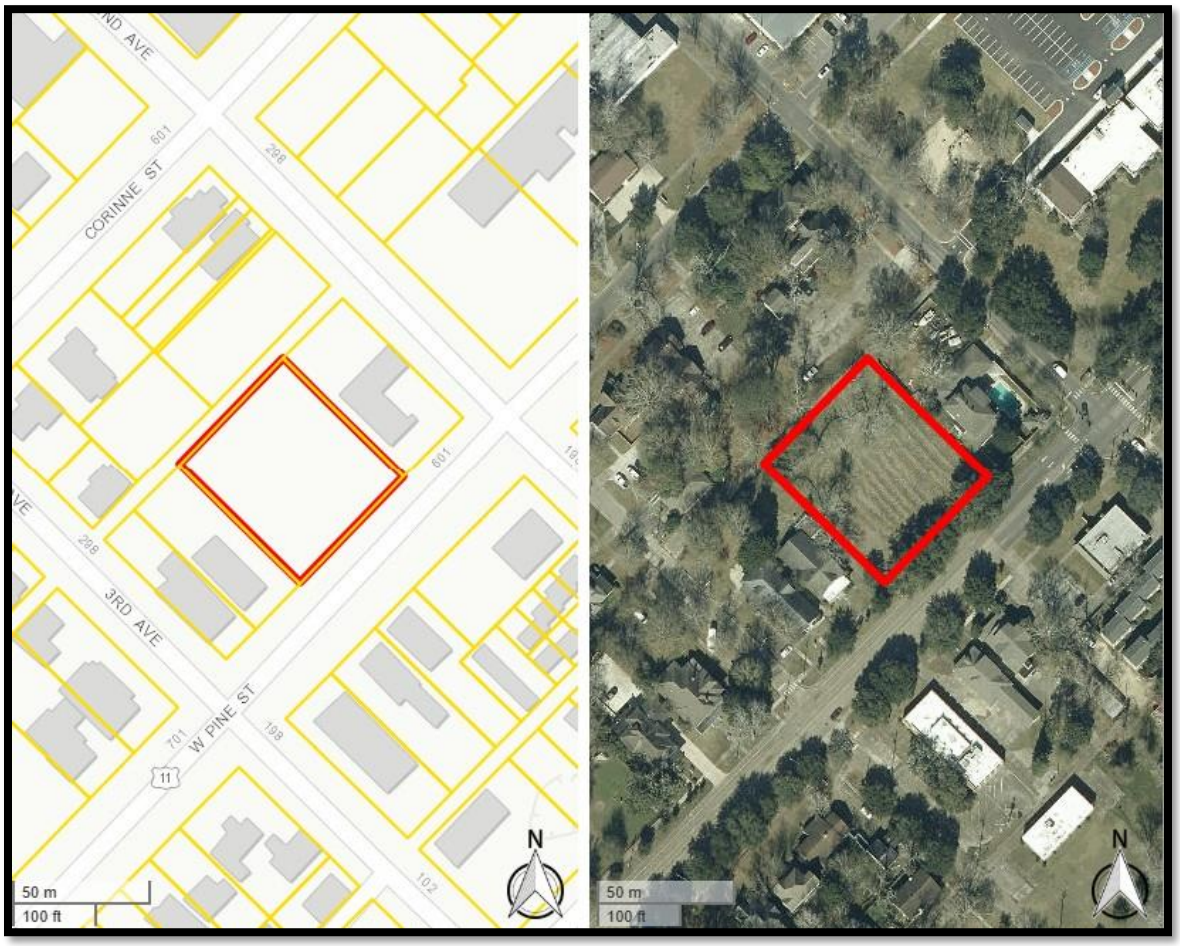
If questions regarding engineering studies are critical to the decision process of the reader, the advice of competent engineering consultants should be obtained and relied upon.

Data Research

The type and extent of my research and analysis is detailed in individual sections of the report. This includes the steps took to verify comparable sales, which are disclosed in the comparable sale profile sheets in the report. Although we make an effort to confirm the arms-length nature of each sale with a party to the transaction, it is sometimes necessary to rely on secondary verification from sources deemed reliable.

Legal Description

The North, or Northwestern 70 feet of Lot 2, and all of Lots 3, 4, 5, and the North, or Northeastern one-half of Lot 6, all in and of Block 144 of Kamper and Whinnery's Subdivision No. 1 of the City of Hattiesburg, Forrest County, Mississippi. A copy of the warranty Deed can be found in the addenda.



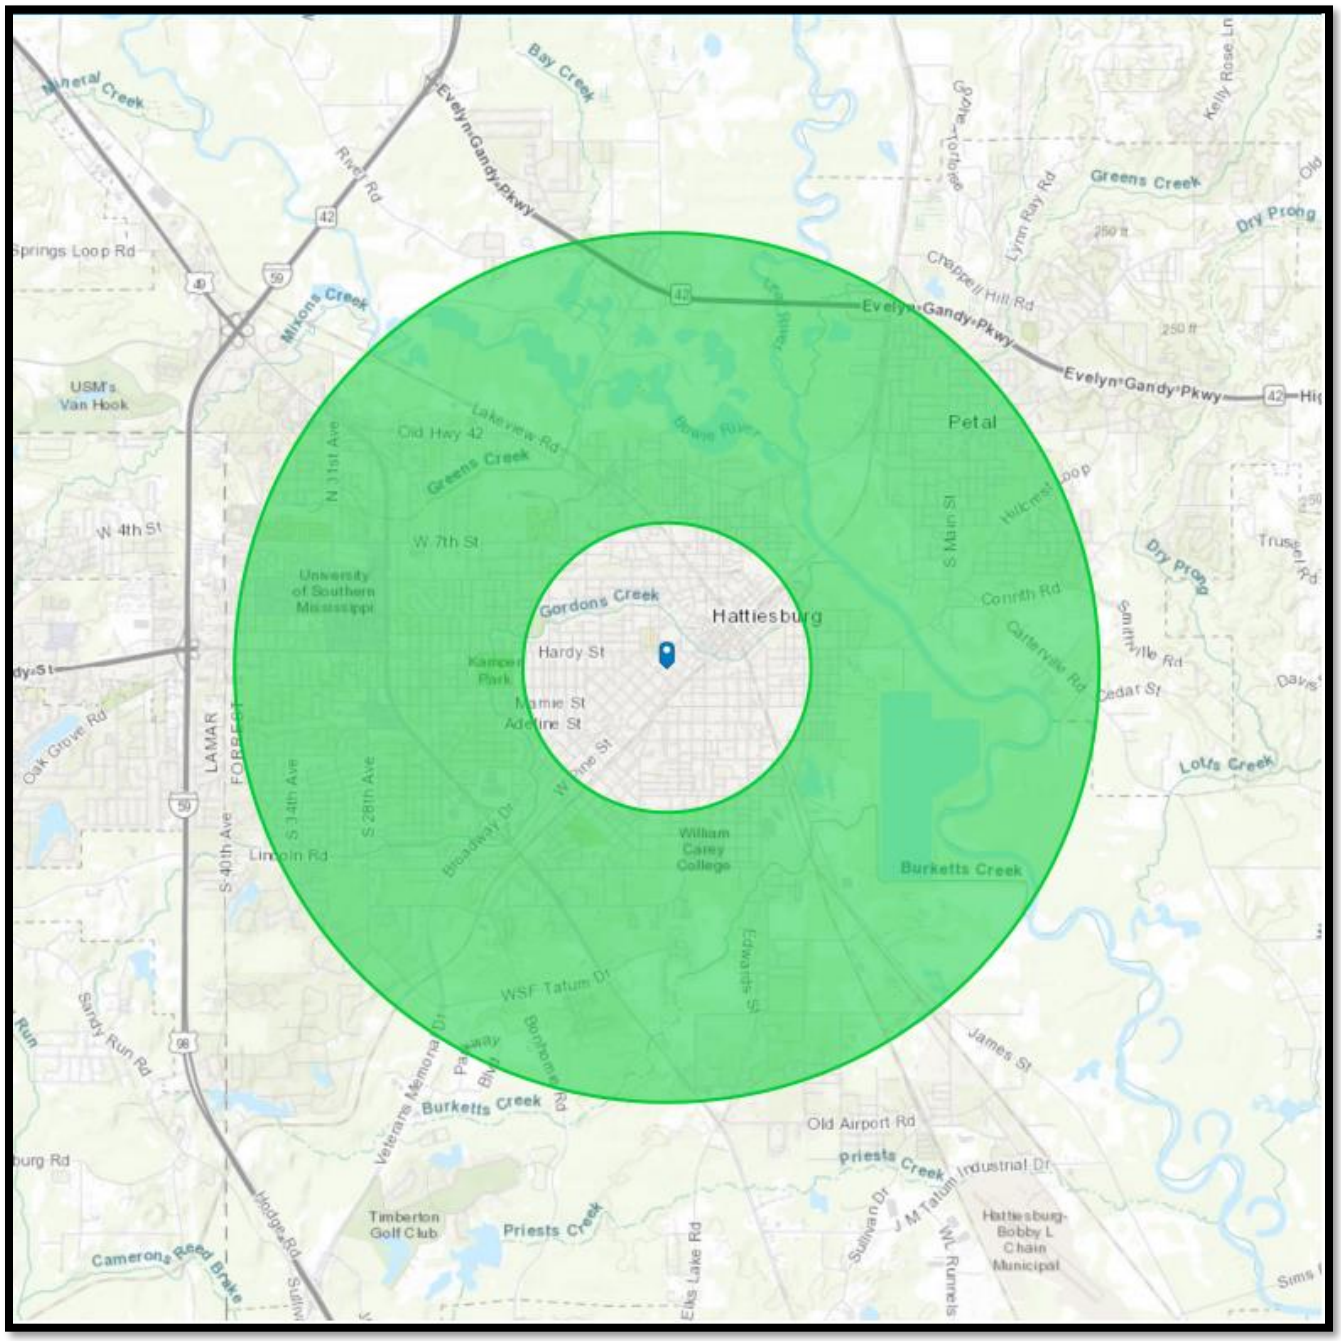
Property History/Ownership

The property is owned by the City of Hattiesburg. This most recent conveyance occurred between The First Baptist Church of Hattiesburg, Inc. (Grantor) and the City of Hattiesburg (Grantee) in November 2008. This conveyance is recorded in Deed Book 1071, Page 213 at the Chancery Clerk Office of Forrest County. We are not aware of any conveyances in ownership in the last three years.

To the best of my knowledge, the property is not currently listed for sale nor is it under contract or option to purchase.

Taxes and Assessments

The property is identified by the Forrest County Tax Assessor's records as Parcel Number: 2-029O-10-066.00. The property is owned by the City of Hattiesburg and is tax-exempt.



Definition of Market Value[1]

Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

[1] Definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC and in the Interagency Appraisal and Evaluation Guidelines, dated December 2, 2010.

Marketing Time

The reasonable marketing time is an opinion of the amount of time it might take to sell a real or personal property interest at the concluded Market Value level during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal. In this instance, we have estimated a 6-12 month marketing time for the subject.

Exposure Time

Reasonable exposure time is one of a series of conditions in most Market Value definitions. Exposure time is always presumed to precede the effective date of the appraisal.

Exposure time may be defined as follows: the length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at Market Value on the effective date of the appraisal; a retrospective opinion based on an analysis of past events assuming a competitive and open market.

Exposure time is different for various types of property and under various market conditions. It is noted that the overall concept of reasonable exposure encompasses not only adequate, sufficient, and reasonable time but also adequate, sufficient, and reasonable effort. This statement focuses on the time component.

The fact that exposure time is always presumed to occur prior to the effective date of the appraisal is substantiated by related facts in the appraisal process: supply/demand conditions as of the effective date of the appraisal; the use of current cost information; the analysis of historical sales information (sold after exposure and after completion of negotiations between the seller and buyer); and the analysis of future income expectancy projected from the effective date of the appraisal.

Source: Standards 6 (SMT-6) *Uniform Standards of Professional Appraisal Practice*, 2010-2011 Edition, published by the Appraisal Standards Board of the Appraisal Foundation

Exposure period can be based on statistical information about days on market; information gathered through sales verification and interviews of market participants. In this instance, we have determined a 6- 12 month exposure time for the subject.

The Market Value of the property appraised in this report is determined as of the date shown in the Certification. Constantly changing economic conditions have varying effects upon real property values. Even after the passage of a relatively short period of time, property values may change substantially.

Extraordinary Assumption

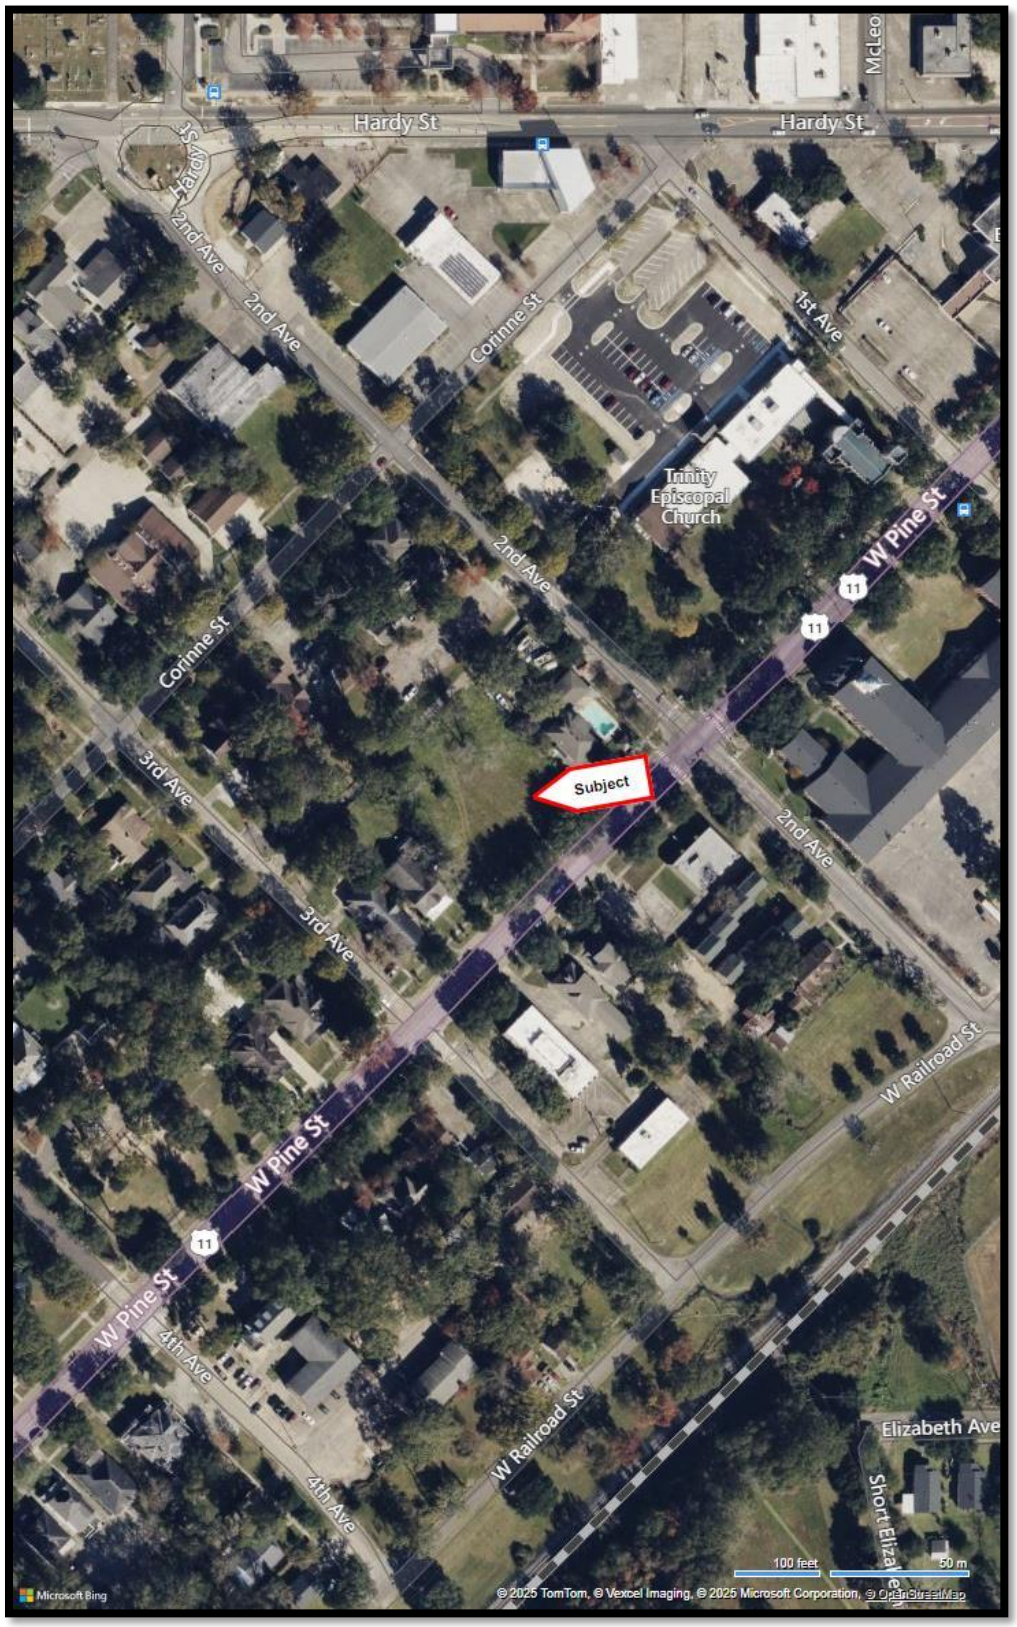
An assumption, directly related to a specific assignment, which, if found to be false, could alter the appraiser's opinions or conclusions.

Comment: Extraordinary assumptions presume as fact otherwise uncertain information about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

The definition of "extraordinary assumption" builds upon the definition of "assumption". Therefore, the first thing to acknowledge with regard to an extraordinary assumption is that we really believe an extraordinary assumption to be true. Second, we acknowledge that if we found that the extraordinary assumption was actually not true, then our value opinion could be impacted or changed as a result. This is what makes it extraordinary, because it is so relevant to our appraisal or value opinion. Therefore SR 2-1(a) requires that all extraordinary assumptions be disclosed, so that everyone knows that the value opinion depends upon the extraordinary assumption being true.

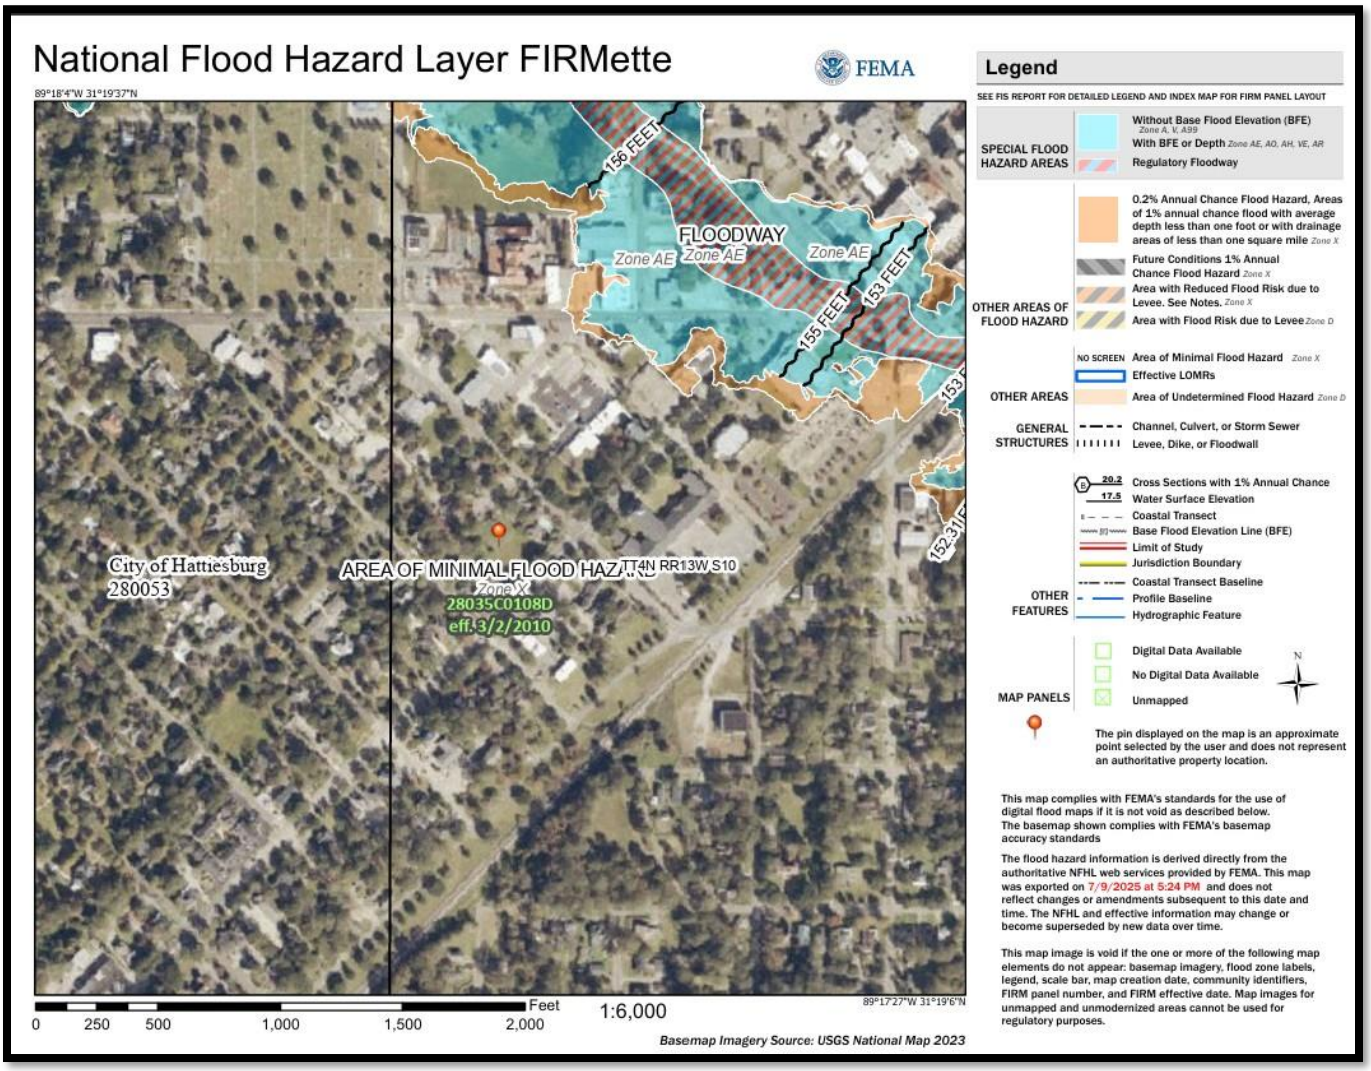
Hypothetical Condition

That which is contrary to what exists but is supposed for the purpose of analysis.



Extraordinary Assumptions Compared to Hypothetical Conditions

The best way to distinguish between an extraordinary assumption and a hypothetical condition is, if as of the date of value, the condition in question is known to be false; then it is a hypothetical condition. If, as the date of value, the fact of the condition is unknown and it is reasonable to believe that the condition is true, then the condition is an extraordinary assumption.



Comment: Hypothetical conditions assume conditions contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

No extraordinary assumptions or hypothetical conditions were made part of this report.

Highest and Best Use

According to the Dictionary of Real Estate Appraisal 5th Edition, highest and best use is defined as: The reasonably probable and legal use of vacant land or an improved property that is physically possible, appropriately supported, financially feasible and that results in the highest value. The four criteria the highest and best use must meet are physically possible, legally permissible, financially feasible and maximally productive. Alternatively, the probable use of land or improved property - specific with respect to user and timing of the use -that is adequately supported and results in the highest present value.

When a site is improved, we must recognize that the highest and best use may differ from the existing use; however, the existing use will continue, unless and until, land value (at its highest and best use) exceeds the total value of the property in its present use. The definition of highest and best use recognizes the contribution of a specific use to the community or to individual property owners.

The determination of highest and best use results from the appraiser's judgment and analytical skill; i.e., determination of highest and best use is an opinion, not a fact to be found. In appraisal practice, the concept of highest and best use is the premise upon which value is based. In the context of investment value, "most profitable use" is another alternative term but the degree of risk must be considered.

The highest and best use concept requires an analysis of the subject as if it were vacant and also as improved to determine if the land is more valuable as vacant than the property as improved. There are four criteria that must be met. The highest and best use must be 1) physically possible; 2) legally permissible;
3) financially feasible; and, 4) maximally productive. These criteria are generally considered sequentially and the analysis may indicate more than one use.

Physically Possible

The first constraint on the possible use of the property is dictated by the physical aspects of the site. The size and location of the parcels are the most important determinants of value. In general, the larger the site, the greater the potential to achieve economies of scale and flexibility in development. The total site area is +/-0.80 acres or 35,000 square feet. The entirety of the site is generally level and located outside of a FEMA designated flood zone with adequate drainage.

The size and physical configuration of the property could accommodate wide variety of uses.

Legally Permissible

The subject property is in an area that is surrounded primarily by commercial and office uses. It is zoned B-1; Professional Business District. This zoning district permits various commercial uses such as professional, business, medical, and dental offices.

Financially Feasible/Maximally Productive

Those uses which are financially feasible and that use which is maximally productive are generally closely related. Any use that results in a net return to the land after satisfying the return to the improvements is considered to be financially feasible; however, that use which returns the maximum dollars to the land is considered the use which is maximally productive.

The size and access to this lot make it ideal for various types of commercial and office uses.

As If Vacant

The size and access from West Pine Street make the property ideal for commercial uses that are permitted in the B-1; Professional Business District. It is my opinion, the highest and best use as vacant would be for a commercial or professional office use.

Appraisal Procedure

The main purpose of an appraisal is to solve a problem of a specific property. The appraiser must define the problem, inspect the property, gather all pertinent data, analyze the findings to arrive at a solution, and then present all salient facts and conclusions in the form of an appraisal report.

Since characteristics of real property vary widely, the appraiser must proceed in a systematic fashion producing a thorough and accurate appraisal in an efficient manner.

During the past fifty years, a method of evaluating real estate, "The Appraisal Process", has evolved. The appraisal process involves three different approaches to value, when applicable.

The Cost Approach

In this approach, the appraiser first develops an opinion of value of the land as though vacant as of the date of appraisal. Next, the replacement or reproduction cost new of all improvements is determined. From this total, estimated depreciation is deducted. Depreciation is any loss in improvement value due to physical deterioration and/or functional or external obsolescence. The value of the land is then added to the depreciated replacement or reproduction cost to arrive at an indication of value for the property as a whole.

The Sales Comparison Approach

This is an appraisal technique in which the market value opinion is predicated upon prices paid in actual market transactions and current listings, the former fixing the lower limit of value (price) in a static or advancing market and the higher limit of value in a declining market, with the latter fixing the higher limit in any market. The Sales Comparison Approach is a process of correlation and analysis of similar, recently sold properties. The reliability of this technique is dependent upon: (1) the degree of comparability of each property with the property under appraisement; (2) the time of sale; (3) the verification of the sales data; and (4) the absence of unusual conditions affecting the sale.

The Income Approach

This is a technique in which the anticipated net income is processed to produce an indication of value. The reliability of this technique is dependent upon: (1) the reasonableness of the estimate of the anticipated net annual income; (2) the duration of the net annual income, usually the economic life of the building, when improved; (3) derivation of an appropriate capitalization (discount) rate; and (4) the method of conversion of income to capital.

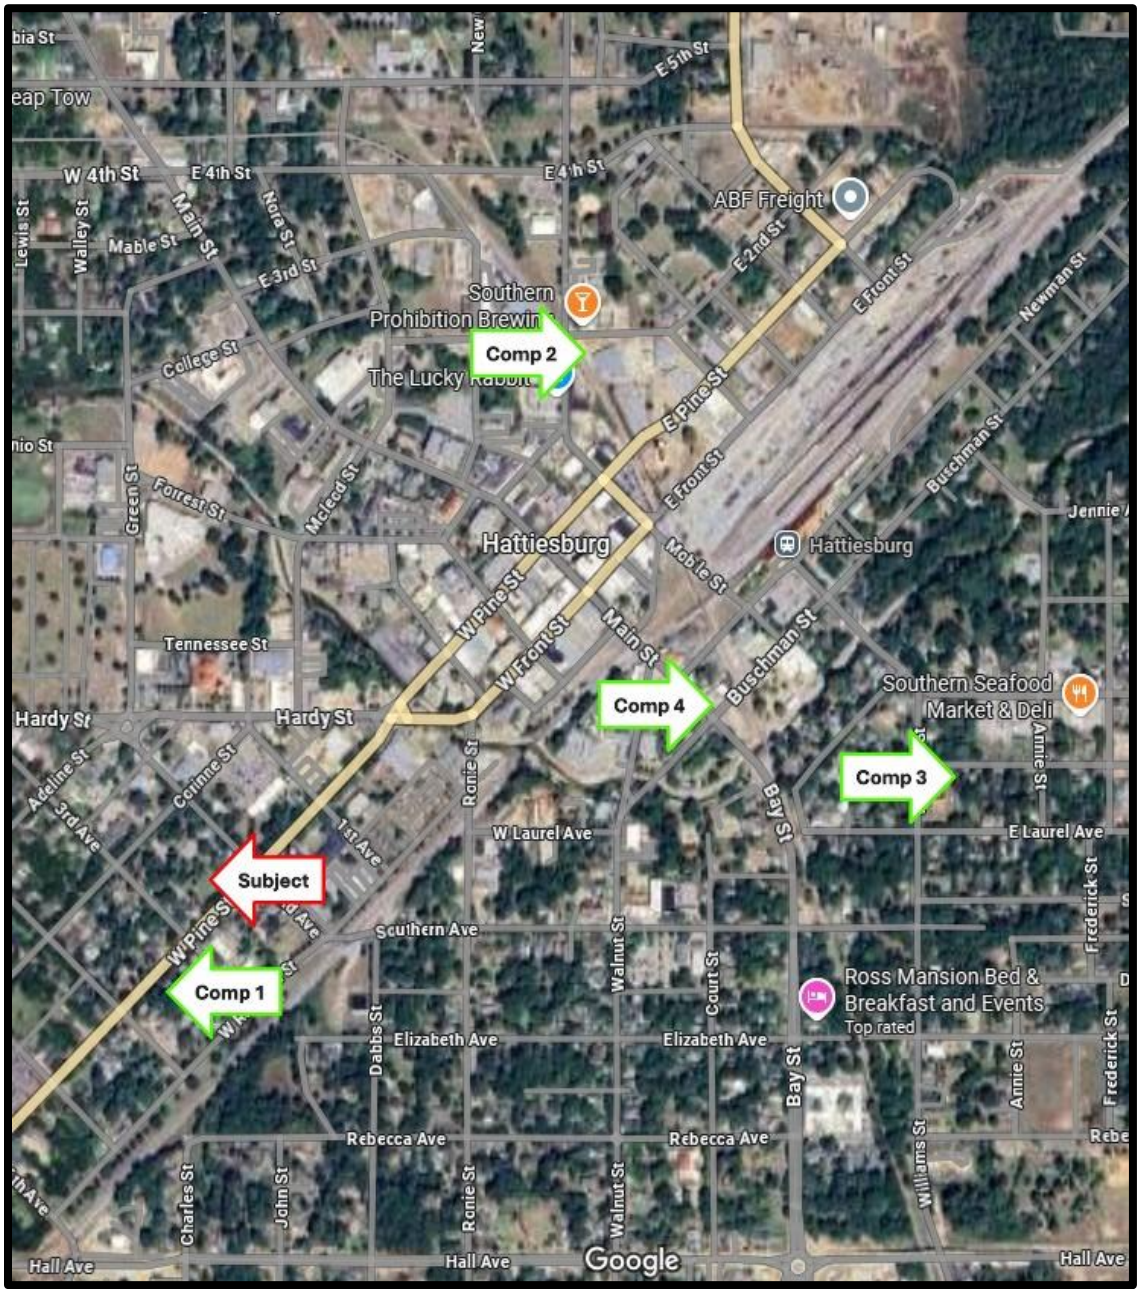
The remaining step is the reconciliation of the value opinion arrived at in the different approaches to value. The appraiser must consider and re-evaluate all pertinent data in order to arrive at a final value opinion. Although each of the techniques produces an independent value, all three approaches are interrelated and integrated techniques, dependent upon operation of market forces.

In some cases, due to the availability (or unavailability) of pertinent market data, these approaches have varying degrees of applicability.

Applied Technique

In this instance, we have used one of the three traditional approaches to value, the Sales Comparison Approach. The Cost and Income Approaches are not typically used to estimate value for vacant land. The Sales Comparison Approach provided sales of similar properties as the subject in which to estimate Market Value.

Valuation



Sales Comparison Approach

The Sales Comparison Approach involves a detailed comparison of the subject property with similar properties which have recently sold in the same or competitive markets. This approach is based primarily on the Principle of Substitution which states, "When several commodities or services with substantially the same utility are available, the lower price attracts the greatest demand and widest distribution". In other words, a prudent investor/purchaser would not pay more to acquire a given property in the market when an alternative property may be purchased for less. The five basic steps in this analysis are listed below.

- Research the market to identify similar properties for which pertinent sales, listings, offerings and/or rental data is available;
- Qualify the data as to terms, motivating forces, or bona fide nature;
- Analyze the salient characteristics of the comparable properties in relation to the property under appraisement, particularly those items relating to date of sale, location, physical characteristics, and conditions of sale;
- Consider all dissimilarities and the probable effect on the price of each sale property, and derive individual market value indications for the property being appraised;
- Formulate an opinion of market value from the pattern developed from the foregoing analysis.

Direct Sales Comparison is a valuation technique in which a value opinion is predicated on prices paid in actual market transactions. In this process, comparison is made between properties having a satisfactory degree of similarity to the subject. We have presented transactions involving similar commercial land parcels on the following pages, with an adjustment grid following.

Analysis of Land Sales

The subject is surrounded by mostly older and established commercial uses in downtown Hattiesburg. The usable area is estimated to be 35,000 square feet or 0.80 acres. The sales had an adjusted range in unit values from $1.85-$2.00 per square foot. Sale 1 is considered most similar to the subject. This sale was given primary emphasis. Sales 2 and 4 are given secondary emphasis. Sales 3 is considered to be the least similar to the subject and was given the lowest emphasis. Considering all factors, a unit value of $1.75/sf was adopted for the subject.

LAND VALUE: 35,000 Sq. Ft @ $1.75/sq. ft. = $59,500

"As-Is" Market Value via the Sales Comparison Approach, Rounded: $60,000

CERTIFICATION

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.

- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are our personal, impartial, and unbiased professional analyses, opinions, and conclusions.

- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.

- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

- Our engagement in this assignment was not contingent upon developing or reporting predetermined results.

- The appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

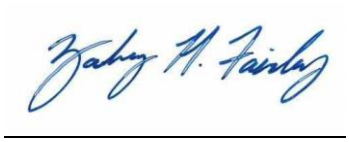
- Compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the *Uniform Standards of Professional Appraisal Practice, 2024-2025 Edition.*

- I have made a personal inspection of the property that is the subject of this report.

- Significant real property appraisal assistance was provided by Trainee Appraiser Colby Farris, License# AI-892. No other individual provided significant real property appraisal assistance to the persons signing this certification.

- My analyses, opinions, and conclusions have been developed, and this report has been prepared, in compliance with the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice (USPAP) as promulgated by the Appraisal Standards Board of The Appraisal Foundation, and in accordance with the appraisal-related mandates within Title XI of the Federal Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). This report was also prepared in conformance with the State of Mississippi Standards for Certified General Real Estate Appraisers.



- I have not relied on unsupported conclusions relating to characteristics such as race, color, religion, national origin, gender, marital status, familial status, age, receipt of public assistance income, handicap, or an unsupported conclusion that homogeneity of such characteristics is necessary to maximize value.

- It is my opinion that the subject does not include any enhancement in value as a result of any natural, cultural, recreational or scientific influences retrospective or prospective.
- I have experience in appraising properties similar to the subject and are in compliance with the Competency Rule of USPAP.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- I have not relied on the work of others if we have a reasonable doubt that the work is credible.
- I have not performed any services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

It is my opinion the market value for the fee-simple interest of the property described herein, as of the effective appraisal date is:

Value Type	Interest Appraised	Date of Value	Value
"As Is" Market Value	Fee Simple	July 23, 2025	$60,000

Respectfully submitted,

Zachary H. Fairley
State Certified General Real Estate Appraiser, GA-1418

ASSUMPTIONS

1. This is an appraisal report presented in an Appraisal Report which is intended to comply with the reporting requirements set forth under Standard Rule 2-2(a) of the Uniform Standards of Professional Appraisal Practice. It is understood between the parties that the scope of the assignment is limited and we relied on information obtained from the public records of Forrest County, published data sources and discussions with market professionals such as investors and brokers relative to County, published data sources and discussions with market professionals such as investors and brokers relative to the subject's income performance and physical composition. Zac Fairley Appraisals is not responsible for unauthorized use of this report.

2. Unless otherwise specifically noted in the body of the report, it is assumed that title to the property or properties which are identified as the subject of the report, are clear and marketable and there are no recorded or unrecorded matters or exceptions to title that would adversely affect marketability or value. Zac Fairley Appraisals, LLC has not examined title and makes no representations relative to the condition thereof.

3. Unless otherwise specifically noted in the body of the report, the legal description furnished is assumed to be correct. Any abbreviations or discrepancies relative to the legal would be identified.

4. It is assumed that surveys and/or plats furnished to, or acquired by, the appraiser and used in the making of this report are correct. Zac Fairley Appraisals, LLC has not made a land survey or caused one to be made unless identified in the report and therefore, assumes no responsibility for accuracy of same.

5. It is assumed any improvements have been, or will be, constructed according to approved architectural plans and specifications in conformance with recommendations contained in or based on any soil report(s). Unless otherwise noted, Zac Fairley Appraisals, LLC has not retained independent engineer(s) or architect(s) in connection with the report and therefore, makes no representations relative to conformance with approved architectural plans, specifications, or recommendations contained in or based on any soil(s) report.

6. It is assumed that all factual data furnished by the client, property owner, owner's representative, or persons designated by the client or owner are accurate and correct unless otherwise specifically noted in the report. I do not guarantee the correctness of such data, although as far as is reasonably possible, the data has been checked and is believed to be correct. Information and data referred to in this paragraph may include but is not limited to information relative to the subject of the report regarding numerical street addresses, lot and block numbers, assessors parcel numbers, land dimensions, square footage area of land, dimensions of the improvements, gross building areas, net rentable areas, usable areas, unit count, room count, rent schedules, income data, budgets, historic operating expenses, and related data. Information obtained regarding demographics, comparable verification, and data of a general sense is assumed factual as confirmed and the source(s) reliable. Any material error in the gathered data could have substantial impact on the conclusions reported; as a result, Zac Fairley Appraisals, LLC reserves a right to amend conclusions reported if made aware of such an error.

7. Unless otherwise noted in the body of the report, it is assumed that there are no mineral or sub-surface rights of value involved in the report and there are no other development rights of value that may be transferred. Subsurface rights, minerals and oils, were not considered in making this report unless otherwise stated.

8. Any riparian and/or littoral rights identified by survey or plat are assumed to go with the property unless easements and/or deeds of record were found by the appraiser to the contrary.

9. It is assumed that there is full compliance with all federal, state, and local environmental regulations and laws, unless non- compliance is stated, defined, and considered in the report.

10. It is assumed that all applicable zoning and use regulations and restrictions have been complied with, unless the non- conformity has been stated, defined, and considered in the report. Unless otherwise noted, it is assumed that no changes in the present zoning ordinances or regulations governing use, density, or shape, are being considered.

11. It is assumed that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization has been, or can be, obtained or renewed for any use on which the value estimate contained in the report is based.

12. Unless otherwise stated in the report, the existence of hazardous material, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such material on or in the property. The appraiser, however, is not qualified to detect such substances. The presence of substances such as asbestos, ureaformaldehyde foam insulation, contaminated ground water, or other potentially hazardous materials may affect the value of the property. The value estimate is predicated upon the assumption that there is no such material on or in the property that would cause loss in value or affect its marketability. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field if desired.

13. The soil of the area which is the subject of the report appears to be firm and solid. Unless otherwise stated, subsidence in the area is unknown or uncommon, but Zac Fairley Appraisals, LLC does not warrant against this condition and/or occurrence.

14. It is assumed that the utilization of the land and improvements is within the boundaries or property lines as described in the report, and there is no encroachment or trespass, unless noted.

15. The date of value of which the opinions in the report apply is set forth in the body of the report. Zac Fairley Appraisals, LLC assumes no responsibility for economic or physical factors occurring at some later date which may affect the opinions stated in the report.

16. Unless specifically noted in the body of this report, it is assumed that the property or properties described are structurally sound, seismically safe, and that all building systems (mechanical, electrical, HVAC, elevator, plumbing, etc.) are, or will be upon completion, in good working order with no major deferred maintenance or repair required; that the roof and exterior are in good condition and free from intrusion from the elements; that the property or properties have been engineered in such a manner that it/they will withstand any known elements such as wind storm, flooding, or similar natural occurrences; and that the improvements as currently constituted conform to all applicable local, state, and federal building codes and ordinances. The appraisers are not engineers and are not competent to judge matters of an engineering nature, nor has Zac Fairley Appraisals, LLC retained independent structural, mechanical, electrical, or civil engineers in connection with the report. As such, Zac Fairley Appraisals, LLC makes no representations relative to the condition of the

improvements. Unless otherwise noted in the report, no problems were brought to the attention of the appraiser by ownership or management. Unless otherwise noted, the appraiser inspected less than 100% of the entire interior and exterior portions of the improvements. If questions regarding engineering studies are critical to the decision process of the reader, the advice of competent engineering consultants should be obtained and relied upon. If engineers and consultants retained should report negative factors of a material nature or if such are later discussed relative to the condition of the improvements, such information could have a substantial negative impact on the conclusions reported. Accordingly, if negative findings are reported by engineering consultants, Zac Fairley Appraisals, LLC reserves the right to amend the report conclusions.

17. Unless otherwise specifically noted, this report is not being prepared for use in conjunction with litigation. Accordingly, no rights to expert testimony, pretrial or other conferences, disposition, or related services are included in this appraisal. If as a result of this undertaking, Zac Fairley Appraisals, LLC or any its officers, professionals, and/or consultants are requested or required to provide any of the foregoing services, such shall be subject to the availability of Zac Fairley Appraisals, LLC's professionals or consultants at the time and shall further be subject to the party or parties requesting or requiring such services paying the then applicable professional fees and expenses.

18. Neither all nor any of the contents of the report shall be conveyed to the public through advertising, public relations, news, sales or other media without written consent and approval of Zac Fairley Appraisals, LLC particularly as to the valuation conclusions, the identity of the professionals or firm, or any reference to the Appraisal Institute, the MAI designation, or certification by the State of Mississippi. Exempt from restrictions relative to the transmittal of this report to third parties is duplication for internal use of the client-addressee and/or transmission to attorneys, accountants, or advisors of the client- addressee. Also exempt from this restriction is transmission of the report to any court, governmental authority, or regulatory agency having jurisdiction over the party/parties for whom the report was prepared, providing that the report and/or its contents shall not be published, in whole or in part in any public document without the express written consent of Zac Fairley Appraisals, LLC or its principals, which consent Zac Fairley Appraisals, LLC reserves the right to deny. The report should not be advertised to the public or otherwise used to induce a third party to purchase the property. Any third party not covered by the exemptions herein who may possess this report is advised that he should rely on his own independently secured advice for any decision in conjunction with the property. Zac Fairley Appraisals, LLC, its professionals and/or principals, shall have no accountability or responsibility to any such third party.

19. Unless specifically set forth in the body of the report, nothing contained therein shall be construed to represent any direct or indirect recommendation to buy, sell, or hold the property(ies) at the value(s), or development scenario as stated. Such decisions involve substantial investment strategy and must be specifically addressed in consultation form.

20. The distribution of the total valuation in this report between land and improvements applies only under the existing program of utilization. The separate valuations for land and building must not be used in conjunction with any other report and are invalid if so used.

21. The forecasts, projections, and/or operating estimates contained herein are based on current market conditions, anticipated (though recognizably short term) supply and demand factors, and a continued stable economy, unless otherwise stated. Any forecasts are therefore subject to changes in future conditions.

22. The Americans with Disabilities Act ("ADA") became effective January 26, 1992. Zac Fairley Appraisals, LLC has not made a specific compliance survey and analysis of this property to determine whether or not it is in conformity with the various detailed requirements of the ADA. It is possible that a compliance survey of the property, together with a detailed analysis of the requirements of the ADA, could reveal that the property is not in compliance with one or more of the requirements of the Act. If so, this fact could have a negative effect upon the value of the property. Since Zac Fairley Appraisals, LLC has no direct evidence relating to this issue, we did not consider possible non-compliance with the requirements of ADA in estimating the value of the property.

23. **Insurable value is not provided in this report. Taking the difference between our reported Market Value and estimated land value is not an appropriate method for estimating replacement cost of improvements for insurance coverage purposes. We recommend a proper insurance representative to estimate an appropriate coverage for the subject property.** Insurable value has two definitions per Marshall and Swift LP. 1. The value of an asset or asset group that is covered by an insurance policy. It can be estimated by deducting costs of non-insurable items (e.g., land value) from Market Value. 2. Value used by insurance companies as the basis for insurance. Often considered to be replacement or reproduction cost plus allowances for debris removal or demolition less deterioration and non-insurable items. Sometimes cash value or Market Value, but often entirely a cost concept.

Special Assumptions

None

Definitions

Appraisal

(noun) The act or process of developing an opinion of value; an opinion of value. (adjective) of or pertaining to appraising and related functions such as appraisal practice or appraisal services.

Comment: an appraisal must be numerically expressed as a specific amount, as a range of numbers, or as a relationship (e.g., not more than, not less than) to a previous value opinion or numerical benchmark (e.g., assessed value, collateral value).

Assignment

A valuation service that is provided by an appraiser as a consequence of an agreement with the client.

Assignment Conditions

Assumptions, extraordinary assumptions, hypothetical conditions, laws and regulations, jurisdictional exceptions, and other conditions that affect the scope of work.

Comment: Laws include constitutions, legislative and court-made law, administrative rules, and ordinances. Regulations include rules or orders, having legal force, issued by an administrative agency.

Client

The party or parties who engage, by employment or contract, an appraiser and a specific assignment.

Comment: client may be an individual, group or entity, and may engage and communicate with the appraiser directly or through an agent.

Exposure Time

The estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

Comment: Exposure time is a retrospective opinion based on an analysis of past events assuming a competitive and open market.

Extraordinary Assumption

An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions.

Comment: uncertain information might include physical, legal, or economic characteristics of the subject property; or conditions external to the property, such as market conditions or trends; or the integrity of data used in an analysis.

Hypothetical Condition

A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis.

Comment: Hypothetical conditions are contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

Intended Use

The use(s) of an appraiser's reported appraisal or appraisal review assignment results, as identified by the appraiser based on communication with the client at the time of the assignment.

Intended User

The client and any other party as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser, based on communication with the client at the time of the assignment.

Jurisdictional Exception

An assignment condition established by applicable law or regulation, which precludes an appraiser from complying with a part of USPAP.

Marketing Time

The reasonable marketing time is an opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value or at a benchmark price during the period immediately after the effective date of an appraisal.

[1]USPAP 2024-2025

Market Value[2]

Market Value means the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

[2] Definition is from regulations published by federal regulatory agencies pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act (FIRREA) of 1989 between July 5, 1990, and August 24, 1990, by the Federal Reserve System (FRS), National Credit Union Administration (NCUA), Federal Deposit Insurance Corporation (FDIC), the Office of Thrift Supervision (OTS), and the Office of Comptroller of the Currency (OCC). This definition is also referenced in regulations jointly published by the OCC, OTS, FRS, and FDIC on June 7, 1994, and in the Interagency Appraisal and Evaluation Guidelines, dated October 27, 1994.

WARRANTY DEED

For and in consideration of the sum of Ten and No/100 ($10.00) Dollars cash in hand paid and other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged and confessed,

The First Baptist Church of Hattiesburg, Inc.,
now a nonprofit Mississippi corporation,
formerly the First Baptist Church of Hattiesburg, Mississippi,
a religious entity organized and existing under the laws of the State of Mississippi,
4142 Lincoln Road Extension
Hattiesburg, MS 39402
601-544-0100

GRANTOR

does hereby grant, bargain, sell, convey, and warrant, subject to the exceptions and reservations hereinafter set forth, unto

The City of Hattiesburg, Mississippi, a municipal corporation organized and existing under the laws of the State of Mississippi,
200 West Front Street
Hattiesburg, MS 39401
601-545-4550

GRANTEE

the real property constituting its former location lying and being situated on real property described in Exhibit "A" hereto:

INDEXING INSTRUCTIONS: Indexing Instructions: Index as a part of Lot 2, all Lots 3, 4, 5 and 6, Block 133, all Block 134, part of Lots 1, 2, and 3, Block 135, and part of Lots 1 and 2, all Lots 3, 4, 5, parts of Lots 6, 14, 15, and 16, Block 144 of the Kamper and Whinnery Survey of Subdivision Number 1, City of Hattiesburg, Forrest County, Mississippi.

This conveyance and the warranty hereof are subject to any valid and existing mineral leases, exceptions, reservations, and conveyances and any existing easements, grants, or rights of way for public roads, streets, and alleys, and for electric telephone, gas, water, drainage, sewage, or similar utility purposes which reflect or relate to the property. This conveyance is further subject to Ordinance No. 2053 of the City of Hattiesburg dated May 19, 1981, which closed and vacated that alley in Block 134 of the Kamper and Whinnery Survey subject to the existing utility services and to that Lease Agreement between the Church and the City of Hattiesburg with respect to the former Reliance Manufacturing Company site in Block 133 of the Kamper and Whinnery Survey.

Inst. 647477
Bk 1071 Pg 0213

The premises situated on the above-described property which have been inspected by the Grantee are conveyed to and accepted by the Grantee in their present condition.

This Deed is executed pursuant to Resolutions adopted by the Church and that certain Contract for the Sale and Purchase of Real Property by and between the Grantor as Seller and the Grantee as Purchaser executed on July 3, A.D. 2007, including the provision in Paragraph 4 affording the Grantor the first right and opportunity to acquire the stained glass windows in the chapel and sanctuary areas, if the Grantee elects to remove and replace them.

IN TESTIMONY WHEREOF, Witness the Signature of the Grantor by its undersigned duly authorized representatives on this the 2nd day of November, A.D., 2009.

EXHIBIT "A"

Part of Block 133 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi described as follows, to-wit:

A strip of land 70.5 feet wide off of the entire Southern or Southwesterly side of Lot 2 and entire Lots 3, 4, and 5 and a strip of land 56 feet wide off of the entire Northern or Northeasterly side of Lot 6, all in Block 133 of the Kamper and Whinnery Survey of the City of Hattiesburg, Forrest County, Mississippi and said lots and parts of lots together constituting a tract of land described as beginning at the point of intersection of the Southern or Southwesterly line of Ferguson Street, as said street is now located and constructed, with the Western or Northwesterly line of Railroad Street, as said street is now located and constructed, and run thence in a Northwesterly direction along the said Southern or Southwesterly line of Ferguson Street 200 feet to an alley, run thence Southwesterly along the Eastern or Southeasterly line of said alley a distance of 341.5 feet, run thence in a Southeasterly direction parallel with First Avenue and 154 feet Northeasterly therefrom a distance of 200 feet to Railroad Street, and run thence in a Northeasterly direction along the said Western or Northwesterly line of Railroad Street a distance of 341.5 feet to the Point of Beginning.

AND ALSO

Begin at the Southeast corner of Lot 6 of Block 133 of the Kamper & Whinnery Survey or extension to the City of Hattiesburg, Mississippi, for a Point of Beginning, and run thence in a Northwesterly direction 53 ½ feet; run thence in a Northeasterly direction 100 feet; run thence in a Southeasterly direction 53 ½ feet; run thence in a Southwesterly direction 100 feet to the Point of Beginning.

AND ALSO

A part of Lot Six (6) in Block 133 of the Kamper and Whinnery Survey of the City of Hattiesburg, Mississippi, according to the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, more particularly described as: Beginning at the Southeast (SE) corner of said Lot 6 of said Block 133 and run Westerly along First Avenue 53.5 feet to the Point of Beginning, thence from said Point of Beginning thence at right angles Northerly 124 feet, thence at right angles Westerly 47.5 feet, thence at right angles Southerly 124 feet to First Avenue, thence at right angles Easterly 47.5 feet to the Point of Beginning, said property having a frontage on First Avenue of 47.5 feet and a uniform depth of 124 feet

AND ALSO

A parcel of land being a part of Lot 6 in Block 133 of the Kamper and Whinnery Survey, as per the map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, and more particularly described as beginning at the Southeast corner of said Lot 6 in said Block 133 of said survey, and thence run Westerly along First Avenue 101 feet to the Point of Beginning; thence run at right angles Northerly 154 feet; thence run at right angles Westerly 49

Inst. 647477
Bk 1071 Pg 0216

feet; thence run at right angles Southerly 154 feet to First Avenue; thence run at right angles Easterly along First Avenue 49 feet to the Point of Beginning.

AND ALSO

Commence at the Southeast corner of Lot 6, Block 133 of the Kamper & Whinnery Survey or Extension to the City of Hattiesburg, Forrest County, Mississippi, and run then Northeast along the Southeast line of said Lot 6, a distance of 100 feet for a Point of Beginning; thence run Northwest 53.5 feet; thence run Northeast 24 feet; thence run Northwest 47.5 feet; thence run Northeast 30 feet; thence run Southeast 101 feet to the Southeast line of said Lot 6; thence run Southwest along the Southeast line of Lot 6 for 54 feet to the Point of Beginning.

AND ALSO

Commence at the Southwest corner of Lot 6 of Block 133 of the Kamper & Whinnery Survey or Extension to the City of Hattiesburg, Forrest County, Mississippi, and run thence Northeast along an alley 154 feet; thence run Southeast parallel to First Avenue for 50 feet; thence run Southwest parallel to the aforesaid alley for 154 feet, more or less, to First Avenue; thence run Northwest along the boundary line of First Avenue for 50 feet, more or less, to the Point of Beginning, together with the improvements thereon and appurtenances thereunto belonging, said property being sometimes referred to as being a part of Lot 6, Block 133 of the Crittenden Survey to the City of Hattiesburg, Forrest County, Mississippi.

AND ALSO

All of Block 134 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi; together with the improvements thereon and the appurtenances thereunto belonging.

AND ALSO

Part of Block 135 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi described as follows, to-wit:

A part of Lots 1, 2 and 3 of Block 135 of Kamper & Whinnery Subdivision No. 1 of the City of Hattiesburg, Forrest County, Mississippi, described as: Begin at the Northeast corner of Lot 1, the same being the intersection of Second Avenue and the Western boundary line of the New Orleans and Northeastern Railroad right-of-way, and run in a Northwesterly direction along the Southwest side of Second Avenue a distance of 66 2/3 feet to the Point of Beginning; run thence from said Point of Beginning in a Northwesterly direction along the Southwest side of Second Avenue 66 2/3 feet; thence at right angles in a Southwesterly direction and parallel with the New Orleans and Northeastern Railroad right-of-way 150 feet to the line dividing Lots 3 and 4 in said Block 135; thence in a Southeasterly direction along said line dividing Lots 3 and 4 in said Block 135 a distance of 66 2/3 feet; thence at right angles in a Northeasterly direction, and parallel wit the New Orleans and Northeastern Railroad right-of-way 150 feet to the Point of Beginning, being situated in the City of Hattiesburg, Forrest County, Mississippi.

Inst. 647477
Bk 1071 Pg 0217

AND ALSO

Part of Block 144 of the Kamper and Whinnery Survey to the City of Hattiesburg, Forrest County, Mississippi, described as follows, to-wit:

The Southeasterly 90 feet of the Northeast half of Lot 10 and the Southeasterly 90 feet of Lots 11 and 12 of Block 144 of the Kamper and Whinnery Subdivision of the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, more particularly described as follows: Commencing at the most Northerly corner of Lot 12 of said Block 144 and run thence Southeasterly and along the Northeasterly boundary of said Lot 12 for a distance of 110 feet to and for the Point of Beginning; from said Point of Beginning continue Southeasterly and along the Northeasterly boundary of said Lot 12 for a distance of 90 feet to an alley; run thence Southwesterly and along said alley for a distance of 125 feet; run thence Northwesterly, parallel to and 25 feet from the Northeasterly boundary of Lot 10 of said Block 144, for a distance of 90 feet; and run thence Northeasterly and parallel to the Southeasterly boundary line of Lots 10, 11, and 12 of said Block 144 for a distance of 125 feet back to the Point of Beginning;

AND ALSO

The Northwest 110 feet of the Northeast Half of Lot 10, the Northwest 110 feet of Lot 11 and the Northwest 110 feet of Lot 12, all in Block 144 of the Kamper and Whinnery Survey Extension or Addition to the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi; together with the improvements thereon and the appurtenances thereunto belonging.

AND ALSO

The North, or Northwestern 70 feet of Lots 1 and 2, and all of Lots 3, 4 and 5, and the North, or Northeastern one-half of Lot 6, all in and of Block 144 of Kamper and Whinnery's Subdivision No. 1 of the City of Hattiesburg, Forrest County, Mississippi (also referred to, variously, as the Kamper and Whinery and Kamper and Whinnery Extension or Survey of Hattiesburg, Mississippi), as per the official map of said Subdivision on file and of record in the office of the Chancery Clerk of Forrest County, Mississippi, in Plat Book 1 at Page 7.

AND ALSO

The Southeast 90 feet of Lots 13, 14, 15 and 16, all in Block 144 of the Kamper and Whinnery Survey in the City of Hattiesburg, Forrest County, Mississippi, as per map or plat thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, which property is more particularly described by metes and bounds as follows: Commence at the Northernmost corner of Lot 16, which is at the point of intersection of the Southeasterly boundary of Corinne Street and the Southwesterly boundary of Second Avenue in the City of Hattiesburg, Mississippi, and thence run Southeasterly and along the Southwesterly boundary line of Second Avenue for a distance of 110 feet to and for the Point of Beginning; from this Point of Beginning run thence

Inst. 647477
Bk 1071 Pg 0218

Southwesterly and parallel with Corinne Street for a distance of 200 feet, run thence Southeasterly and parallel with Second Avenue for a distance of 90 feet to an alley, run thence Northeasterly and along said alley and parallel to Corinne Street for a distance of 200 feet to the Southwesterly boundary line of Second Avenue; and run thence Northwesterly and along the Southwesterly boundary line of Second Avenue for a distance of 90 feet back to the Point of Beginning, the parcel of property hereby conveyed fronts 90 feet on Second Avenue and extends back between parallel lines for a distance of 200 feet;

LESS AND EXCEPT that part thereof conveyed to Melissa J. Massingill by Quitclaim Deed dated May 25, 2006 or record in Land Deed Book 988 at Page311 described as follows, to-wit:

That part of Lots 13, 14, 15, and 16 of Block 144 of the Kamper and Whinnery Survey of the said City of Hattiesburg as per the map thereof on file in the office of the Chancery Clerk of Forrest County, Mississippi, described as commencing at the intersection of Corinne Street and Second Avenue, which is the North corner of Lot 16, and running thence Southeasterly along the Southwest line of Second Avenue 110 feet to the Point of Beginning; thence run Southwesterly and parallel with said Corinne Street 200 feet; thence run Southeasterly and parallel with Second Avenue 6 feet; thence run Northeasterly and parallel with Corinne Street 200 feet to the Southwest line of Second Avenue; and thence run Northwesterly along the Southwest line of Second Avenue 6 feet to the Point of Beginning.

Neighborhood Description: Subject site is situated in or near the Central Business District of Hattiesburg, MS. Uses include professional offices, banking, and government offices (city, county, and federal). On the perimeter of the subject area is residential area comprising some of the oldest single family homes within the Hattiesburg city limits. Most commercial/professional properties appear to be adequately maintained while some of the residential properties appear to be in decline physically.

Market Conditions (including support for the above conclusions): Consideration of residential listing/contract offerings in performing this appraisal was made, and any trend indicated by that data is supported by the listing/offering information included in this report. Days on market over the past few years for single family residences has been as follows; 144 for 2015, 135 for 2016, 109 for 2017, 99 for 2018, 81 for 2019, 77 for 2020, 37 for 2021, 35 for 2022, 45 for 2023, and 45 for 2024, per MLS data. Sold to list price ratios have remained stable over the years with the 2024 sale price to list price ratio being 94.8%, which is similar to 2023's 92.4%, 2022's 94.8%, 2021's 93.6%, 2020's 100.7%, 2019's 93.7%, 2018's 91.1%, 2017's 94.8%, 2016's 94.7%, and 2015's 94.9%. Sales/financing concessions are not a major factor in this market. Typically the seller pays the broker's fee and a portion of the closing costs. Single family residential sales are considered reliable indicators of market activity although the subject is vacant commercial land.

SITE DESCRIPTION

Dimensions: 90 x 125 | Area: 11,250 sf ☐ Acres ☒ Sq.Ft. | Shape: Rectangular | View: Average

Zoning Classification: B-3, Commercial | Zoning Description: Community Business District

Are the utilities and off-site improvements typical for the market? ☒ Yes ☐ No | If No, describe:

Are there any adverse site conditions or external factors (easements, encroachments, environmental conditions, land uses, etc.)? ☒ Yes ☒ No | If Yes, describe:

No adverse easements or encroachments were apparent upon physical observation of the property.

Site Comments: Subject property is located at the rear of 622 Corinne St with public access from an alley on its rear boundary. It is currently owned by the same owner (City of Hattiesburg) as 622 Corinne St with access also from Corinne St. This appraisal is of the subject site only with its only public access being via the noted alley. It is level with adequate drainage.

Comments on Prior Sales/Transfers and Current and Prior Listings: Per data from the client, Forrest County tax office, and MLS the subject had not been sold within the previous three (3) years of the date of valuation. It was not listed for sale as of the date of valuation (08/15/2025), nor had it been listed within the previous year of the date of valuation. None of the comparable sales were noted to have had a prior sale take place within the previous year of their most recent sale dates.

Summary of the Sales Comparison Approach: All of the vacant land sales are of parcels of land in near the central part of Hattiesburg. They are considered the best available for the subject appraisal report. Comp #1 is located nearest and is the most recent sale. The main factors affecting the subject's value are access or road frontage and flood zone status. As shown the subject site has public access only via the noted alley and is not situated within a FEMA identified flood hazard area. The appraiser gave the most consideration to Comp #1 due to its close proximity. Adjustments were made for (1) seller paid concession, differences in (2) size, (3) flood zone status, and (4) access. Indicated values ranged from $11,016 to $20,250 or approximately $0.98 to to $1.80 per square foot for the subject property. A final or indicated value of $20,000 ($1.78 per sq ft) was concluded as the subject's current market value.

Reconciliation Comments: Consideration of all approaches to value was made in the determination of the subject's value. Since the site is being valued as vacant land the Cost Approach is not appropriate to develop and the Income Approach is not typically used on vacant land due to limited land rental data. The appraiser relied primarily on the Market Data or Sales Comparison Approach to Value for the subject site.

This appraisal is made ☒ "as is", or ☐ subject to the following conditions or inspections: The subject property is being appraised in its "as is" condition which is vacant commercial land.

Based on a complete visual inspection of the subject site and those improvements upon said site, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of market value, as defined, of the real property that is the subject of this report is: Opinion of Market Value: $ 20,000 **, as of:** 08/15/2025 **, which is the date of inspection and the effective date of this appraisal.**

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion:

Describe common elements and recreational facilities:

CERTIFICATIONS AND LIMITING CONDITIONS

This report form is designed to report an appraisal of a parcel of land which may have some minor improvements but is not considered to be an "improved site". All improvements are considered to be of relatively minor value impact on the overall value of the site. This report form is not designed to report on an "improved site" where significant value is derived from the improvements. This appraisal report form may be used for single family, multi-family sites and may be included within a PUD development.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the subject site and any limited improvements, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this report is the lender/client identified within the appraisal report.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: OCC, OTS, FRS, & FDIC joint regulations published June 7, 1994)

*Adjustments to the comparables must be made for special or creative concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. The appraiser has noted in this appraisal report any adverse conditions (such as the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the subject property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties express or implied. The appraiser will not be responsible for any such conditions that do exist or for the engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal must not be considered as an environmental assessment of the property.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the subject site and any limited improvements. I have reported the information in factual and specific terms. I identified and reported the deficiencies of the subject site that could affect the utility of the site and its usefulness as a building lot(s).
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of the Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them unless indicated elsewhere within this report as there are no or very limited improvements and these approaches to value are not deemed necessary for credible results and/or reliable indicators of value for this appraisal assignment.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of the sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining multiple transactions into one reported sale.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I have verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

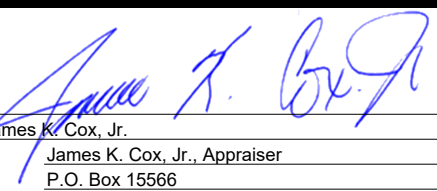
Loan No.: Edmonson

CERTIFICATIONS AND LIMITING CONDITIONS (continued)



13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)

☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:
- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time

(USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: 150 to 180 days.

Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

COVID-19 Limiting Language
The global outbreak of a "novel coronavirus" known as COVID-19 was officially declared a pandemic by the World Health Organization (WHO). The reader is cautioned, and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the appraisal.

HIGHEST & BEST USE STATEMENT: The legally permissible use of the subject site is for Commercial. The zoning complies with the surrounding properties with no zoning changes anticipated. Highest and best use as "VACANT" is for Commercial. The subject is currently VACANT and is being appraised in its "as is" condition which is vacant. Since it is not improved at this time but if it were improved as Commercial it would be its "highest & best" use based on surrounding factors.

Neighborhood Description: Subject site is situated in or near the Central Business District of Hattiesburg, MS. Uses include professional offices, banking, and government offices (city, county, and federal). On the perimeter of the subject area is residential area comprising some of the oldest single family homes within the Hattiesburg city limits. Most commercial/professional properties appear to be adequately maintained while some of the residential properties appear to be in decline physically.

Market Conditions (including support for the above conclusions): Consideration of residential listing/contract offerings in performing this appraisal was made, and any trend indicated by that data is supported by the listing/offering information included in this report. Days on market over the past few years for single family residences has been as follows; 144 for 2015, 135 for 2016, 109 for 2017, 99 for 2018, 81 for 2019, 77 for 2020, 37 for 2021, 35 for 2022, 45 for 2023, and 45 for 2024, per MLS data. Sold to list price ratios have remained stable over the years with the 2024 sale price to list price ratio being 94.8%, which is similar to 2023's 92.4%, 2022's 94.8%, 2021's 93.6%, 2020's 100.7%, 2019's 93.7%, 2018's 91.1%, 2017's 94.8%, 2016's 94.7%, and 2015's 94.9%. Sales/financing concessions are not a major factor in this market. Typically the seller pays the broker's fee and a portion of the closing costs. Single family residential sales are considered reliable indicators of market activity although the subject is vacant commercial land.

SITE DESCRIPTION

Dimensions: 90 x 200 | Area: 18,000 sf ☐ Acres ☒ Sq.Ft. | Shape: Rectangular | View: Average

Zoning Classification: B-3, Commercial | Zoning Description: Community Business District

Zoning Compliance: ☒ Legal ☐ Legal Nonconforming (Grandfathered Use) ☐ No Zoning ☐ Illegal (describe)

		$		

Comments on Prior Sales/Transfers and Current and Prior Listings: Per data from the client, Forrest County tax office, and MLS the subject had not been sold within the previous three (3) years of the date of valuation. It was not listed for sale as of the date of valuation (08/15/2025), nor had it been listed within the previous year of the date of valuation. None of the comparable sales were noted to have had a prior sale take place within the previous year of their most recent sale dates.

Summary of the Sales Comparison Approach: All of the vacant land sales are of parcels of land in near the central part of Hattiesburg. They are considered the best available for the subject appraisal report. Comp #1 is located nearest and is the most recent sale. The main factors affecting the subject's value are access or road frontage and flood zone status. As shown the subject site has good access and is not situated within a FEMA identified flood hazard area. The appraiser gave the most consideration to Comp #1 due to its close proximity. Adjustments were made for (1) seller paid concession, differences in (2) size, and (3) flood zone status. Indicated values ranged from $28,628 to $37,300 or approximately $1.59 to to $2.07 per square foot for the subject property. A final or indicated value of $32,000 ($1.78 per sq ft) was concluded as the subject's current market value.

Reconciliation Comments: Consideration of all approaches to value was made in the determination of the subject's value. Since the site is being valued as vacant land the Cost Approach is not appropriate to develop and the Income Approach is not typically used on vacant land due to limited land rental data. The appraiser relied primarily on the Market Data or Sales Comparison Approach to Value for the subject site.

This appraisal is made ☒ "as is", or ☐ subject to the following conditions or inspections: The subject property is being appraised in its "as is" condition which is vacant commercial land.

Based on a complete visual inspection of the subject site and those improvements upon said site, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of market value, as defined, of the real property that is the subject of this report is: Opinion of Market Value: $ 32,000 **, as of:** 08/15/2025 **, which is the date of inspection and the effective date of this appraisal.**

PROJECT INFORMATION FOR PUDs (if applicable)

Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☐ No Unit type(s): ☐ Detached: ☐ Attached:

Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.

Legal Name of Project:

Total number of phases: Total number of units: Total number of units sold:

Total number of units rented: Total number of units for sale: Data sources:

Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion:

Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data Source:

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion:

Describe common elements and recreational facilities:

CERTIFICATIONS AND LIMITING CONDITIONS

This report form is designed to report an appraisal of a parcel of land which may have some minor improvements but is not considered to be an "improved site". All improvements are considered to be of relatively minor value impact on the overall value of the site. This report form is not designed to report on an "improved site" where significant value is derived from the improvements. This appraisal report form may be used for single family, multi-family sites and may be included within a PUD development.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the subject site and any limited improvements, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this report is the lender/client identified within the appraisal report.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: OCC, OTS, FRS, & FDIC joint regulations published June 7, 1994)

*Adjustments to the comparables must be made for special or creative concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. The appraiser has noted in this appraisal report any adverse conditions (such as the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the subject property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties express or implied. The appraiser will not be responsible for any such conditions that do exist or for the engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal must not be considered as an environmental assessment of the property.

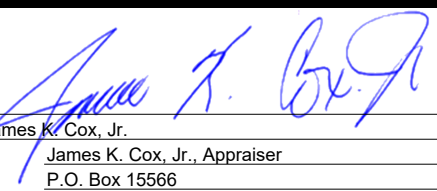
APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the subject site and any limited improvements. I have reported the information in factual and specific terms. I identified and reported the deficiencies of the subject site that could affect the utility of the site and its usefulness as a building lot(s).
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of the Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them unless indicated elsewhere within this report as there are no or very limited improvements and these approaches to value are not deemed necessary for credible results and/or reliable indicators of value for this appraisal assignment.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of the sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining multiple transactions into one reported sale.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I have verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

LAND APPRAISAL REPORT

File No.: 13154LAN
Loan No.: Edmonson

CERTIFICATIONS AND LIMITING CONDITIONS (continued)



13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)

☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:
- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time

(USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: 150 to 180 days.

Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

COVID-19 Limiting Language
The global outbreak of a "novel coronavirus" known as COVID-19 was officially declared a pandemic by the World Health Organization (WHO). The reader is cautioned, and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the appraisal.

HIGHEST & BEST USE STATEMENT: The legally permissible use of the subject site is for Commercial. The zoning complies with the surrounding properties with no zoning changes anticipated. Highest and best use as "VACANT" is for Commercial. The subject is currently VACANT and is being appraised in its "as is" condition which is vacant. Since it is not improved at this time but if it were improved as Commercial it would be its "highest & best" use based on surrounding factors.

Employment Stability	☐	☒	☐	☐	Overall Appeal to Market	☐	☒	☐	☐

Neighborhood Description: Subject site is situated in or near the Central Business District of Hattiesburg, MS. Uses include professional offices, banking, and government offices (city, county, and federal). On the perimeter of the subject area is residential area comprising some of the oldest single family homes within the Hattiesburg city limits. Most commercial/professional properties appear to be adequately maintained while some of the residential properties appear to be in decline physically.

Market Conditions (including support for the above conclusions): Consideration of residential listing/contract offerings in performing this appraisal was made, and any trend indicated by that data is supported by the listing/offering information included in this report. Days on market over the past few years for single family residences has been as follows; 144 for 2015, 135 for 2016, 109 for 2017, 99 for 2018, 81 for 2019, 77 for 2020, 37 for 2021, 35 for 2022, 45 for 2023, and 45 for 2024, per MLS data. Sold to list price ratios have remained stable over the years with the 2024 sale price to list price ratio being 94.8%, which is similar to 2023's 92.4%, 2022's 94.8%, 2021's 93.6%, 2020's 100.7%, 2019's 93.7%, 2018's 91.1%, 2017's 94.8%, 2016's 94.7%, and 2015's 94.9%. Sales/financing concessions are not a major factor in this market. Typically the seller pays the broker's fee and a portion of the closing costs. Single family residential sales are considered reliable indicators of market activity although the subject is vacant commercial land.

SITE DESCRIPTION

Dimensions: 175 x 200 | Area: 35,000 sf ☐ Acres ☒ Sq.Ft. | Shape: Rectangular | View: Average

Zoning Classification: B-3, Commercial | Zoning Description: Community Business District

Comments on Prior Sales/Transfers and Current and Prior Listings: Per data from the client, Forrest County tax office, and MLS the subject had not been sold within the previous three (3) years of the date of valuation. It was not listed for sale as of the date of valuation (08/15/2025), nor had it been listed within the previous year of the date of valuation. None of the comparable sales were noted to have had a prior sale take place within the previous year of their most recent sale dates.

Summary of the Sales Comparison Approach: All of the vacant land sales are of parcels of land in near the central part of Hattiesburg. They are considered the best available for the subject appraisal report. Comp #1 is located nearest and is the most recent sale. The main factors affecting the subject's value are access or road frontage and flood zone status. As shown the subject site has good access and is not situated within a FEMA identified flood hazard area. The appraiser gave the most consideration to Comp #1 due to its close proximity. Adjustments were made for (1) seller paid concession, differences in (2) size, and (3) flood zone status. Indicated values ranged from $43,078 to $51,750 or approximately $1.23 to to $1.48 per square foot for the subject property. A final or indicated value of $50,000 ($1.43 per sq ft) was concluded as the subject's current market value.

Reconciliation Comments: Consideration of all approaches to value was made in the determination of the subject's value. Since the site is being valued as vacant land the Cost Approach is not appropriate to develop and the Income Approach is not typically used on vacant land due to limited land rental data. The appraiser relied primarily on the Market Data or Sales Comparison Approach to Value for the subject site.

This appraisal is made ☒ "as is", or ☐ subject to the following conditions or inspections: The subject property is being appraised in its "as is" condition which is vacant commercial land.

Based on a complete visual inspection of the subject site and those improvements upon said site, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of market value, as defined, of the real property that is the subject of this report is: Opinion of Market Value: $ 50,000 **, as of:** 08/15/2025 **, which is the date of inspection and the effective date of this appraisal.**

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion: _____

Describe common elements and recreational facilities: _____

CERTIFICATIONS AND LIMITING CONDITIONS

This report form is designed to report an appraisal of a parcel of land which may have some minor improvements but is not considered to be an "improved site". All improvements are considered to be of relatively minor value impact on the overall value of the site. This report form is not designed to report on an "improved site" where significant value is derived from the improvements. This appraisal report form may be used for single family, multi-family sites and may be included within a PUD development.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the subject site and any limited improvements, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this report is the lender/client identified within the appraisal report.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: OCC, OTS, FRS, & FDIC joint regulations published June 7, 1994)

*Adjustments to the comparables must be made for special or creative concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. The appraiser has noted in this appraisal report any adverse conditions (such as the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the subject property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties express or implied. The appraiser will not be responsible for any such conditions that do exist or for the engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal must not be considered as an environmental assessment of the property.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the subject site and any limited improvements. I have reported the information in factual and specific terms. I identified and reported the deficiencies of the subject site that could affect the utility of the site and its usefulness as a building lot(s).
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of the Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them unless indicated elsewhere within this report as there are no or very limited improvements and these approaches to value are not deemed necessary for credible results and/or reliable indicators of value for this appraisal assignment.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of the sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining multiple transactions into one reported sale.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I have verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

LAND APPRAISAL REPORT

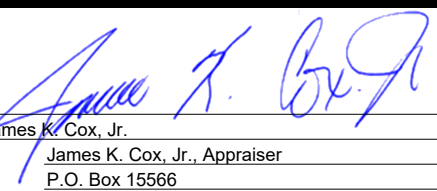
Loan No.: Edmonson

CERTIFICATIONS AND LIMITING CONDITIONS (continued)



13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)

☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:
- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time

(USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: 150 to 180 days.

Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

COVID-19 Limiting Language
The global outbreak of a "novel coronavirus" known as COVID-19 was officially declared a pandemic by the World Health Organization (WHO). The reader is cautioned, and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the appraisal.

HIGHEST & BEST USE STATEMENT: The legally permissible use of the subject site is for Commercial. The zoning complies with the surrounding properties with no zoning changes anticipated. Highest and best use as "VACANT" is for Commercial. The subject is currently VACANT and is being appraised in its "as is" condition which is vacant. Since it is not improved at this time but if it were improved as Commercial it would be its "highest & best" use based on surrounding factors.

Neighborhood Description: Subject site is situated in or near the Central Business District of Hattiesburg, MS. Uses include professional offices, banking, and government offices (city, county, and federal). On the perimeter of the subject area is residential area comprising some of the oldest single family homes within the Hattiesburg city limits. Most commercial/professional properties appear to be adequately maintained while some of the residential properties appear to be in decline physically.

Market Conditions (including support for the above conclusions): Consideration of residential listing/contract offerings in performing this appraisal was made, and any trend indicated by that data is supported by the listing/offering information included in this report. Days on market over the past few years for single family residences has been as follows; 144 for 2015, 135 for 2016, 109 for 2017, 99 for 2018, 81 for 2019, 77 for 2020, 37 for 2021, 35 for 2022, 45 for 2023, and 45 for 2024, per MLS data. Sold to list price ratios have remained stable over the years with the 2024 sale price to list price ratio being 94.8%, which is similar to 2023's 92.4%, 2022's 94.8%, 2021's 93.6%, 2020's 100.7%, 2019's 93.7%, 2018's 91.1%, 2017's 94.8%, 2016's 94.7%, and 2015's 94.9%. Sales/financing concessions are not a major factor in this market. Typically the seller pays the broker's fee and a portion of the closing costs. Single family residential sales are considered reliable indicators of market activity although the subject is vacant commercial land.

SITE DESCRIPTION

Dimensions: 125 x 110 | Area: 13,750 sf ☐ Acres ☒ Sq.Ft. | Shape: Rectangular | View: Average
Zoning Classification: B-3, Commercial | Zoning Description: Community Business District
Zoning Compliance: ☒ Legal ☐ Legal Nonconforming (Grandfathered Use) ☐ No Zoning ☐ Illegal (describe)

Are the utilities and off-site improvements typical for the market? ☒ Yes ☐ No | If No, describe:
Are there any adverse site conditions or external factors (easements, encroachments, environmental conditions, land uses, etc.)? ☒ Yes ☒ No | If Yes, describe:
No adverse easements or encroachments were apparent upon physical observation of the property.

Site Comments: Subject property is located at 622 Corinne St. It is improved with a former residence that has been used as a office building for a number of years. It is currently vacant. It should be noted that the building has a basement that when viewed by this appraiser is full of water. As shown in the photos of stairs down to basement area, what appears to be mold. Along with the noted water & mold issues very old electrical (fuses) was observed. Although this appraiser is not a mold or environmental expert the noted mold appears to be significant. It is believed the current improvements add little or no contributory value to the subject property. For the purpose of this appraisal the appraiser will appraise land as vacant with some deduction for demolition of building.

Comments on Prior Sales/Transfers and Current and Prior Listings: Per data from the client, Forrest County tax office, and MLS the subject had not been sold within the previous three (3) years of the date of valuation. It was not listed for sale as of the date of valuation (08/15/2025), nor had it been listed within the previous year of the date of valuation. None of the comparable sales were noted to have had a prior sale take place within the previous year of their most recent sale dates.

Summary of the Sales Comparison Approach: All of the vacant land sales are of parcels of land in near the central part of Hattiesburg. They are considered the best available for the subject appraisal report. Comp #1 is located nearest and is the most recent sale. The main factors affecting the subject's value are access or road frontage and flood zone status. As shown the subject site has public access only via the noted alley and is not situated within a FEMA identified flood hazard area. The appraiser gave the most consideration to Comp #1 due to its close proximity. Adjustments were made for (1) seller paid concession, differences in (2) size, (3) flood zone status, and (4) access. Indicated values ranged from $25,016 to $33,687 or approximately $1.82 to to $2.45 per square foot for the subject property. A final or indicated value of the site only is $34,000 or $2.47 per sq ft. The estimated cost of demolition ($29,470) is then deducted from the bare land value resulting in a net value of $4,530.00, SAY $5,000.00.

Reconciliation Comments: Consideration of all approaches to value was made in the determination of the subject's value. Since the site is being valued as vacant land the Cost Approach is not appropriate to develop and the Income Approach is not typically used on vacant land due to limited land rental data. The appraiser relied primarily on the Market Data or Sales Comparison Approach to Value for the subject site.

This appraisal is made ☒ "as is", or ☐ subject to the following conditions or inspections: The subject property is being appraised in its "as is" condition which is vacant commercial land.

Based on a complete visual inspection of the subject site and those improvements upon said site, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of market value, as defined, of the real property that is the subject of this report is: Opinion of Market Value: $ 5,000 **, as of:** 08/15/2025 **, which is the date of inspection and the effective date of this appraisal.**

Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion:

Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data Source:

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion:

Describe common elements and recreational facilities:

CERTIFICATIONS AND LIMITING CONDITIONS

This report form is designed to report an appraisal of a parcel of land which may have some minor improvements but is not considered to be an "improved site". All improvements are considered to be of relatively minor value impact on the overall value of the site. This report form is not designed to report on an "improved site" where significant value is derived from the improvements. This appraisal report form may be used for single family, multi-family sites and may be included within a PUD development.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the subject site and any limited improvements, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this report is the lender/client identified within the appraisal report.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what they consider their own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in United States dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: OCC, OTS, FRS, & FDIC joint regulations published June 7, 1994)

*Adjustments to the comparables must be made for special or creative concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect the subject property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. The appraiser has noted in this appraisal report any adverse conditions (such as the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the subject property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties express or implied. The appraiser will not be responsible for any such conditions that do exist or for the engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal must not be considered as an environmental assessment of the property.

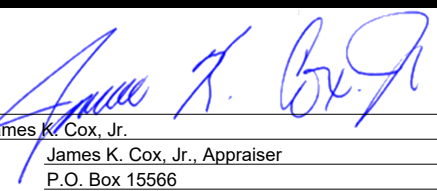
APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the subject site and any limited improvements. I have reported the information in factual and specific terms. I identified and reported the deficiencies of the subject site that could affect the utility of the site and its usefulness as a building lot(s).
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of the Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them unless indicated elsewhere within this report as there are no or very limited improvements and these approaches to value are not deemed necessary for credible results and/or reliable indicators of value for this appraisal assignment.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of the sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining multiple transactions into one reported sale.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I have verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

LAND APPRAISAL REPORT

File No.: 13156
Loan No.: Edmonson

CERTIFICATIONS AND LIMITING CONDITIONS (continued)



13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature", as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

APPRAISAL AND REPORT IDENTIFICATION

This Report is one of the following types:

☒ Appraisal Report (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)

☐ Restricted Appraisal Report (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

Comments on Standards Rule 2-3

I certify that, to the best of my knowledge and belief:
- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
- Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Reasonable Exposure Time

(USPAP defines Exposure Time as the estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.)

My Opinion of Reasonable Exposure Time for the subject property at the market value stated in this report is: 150 to 180 days.

Comments on Appraisal and Report Identification

Note any USPAP-related issues requiring disclosure and any state mandated requirements:

COVID-19 Limiting Language
The global outbreak of a "novel coronavirus" known as COVID-19 was officially declared a pandemic by the World Health Organization (WHO). The reader is cautioned, and reminded that the conclusions presented in this appraisal report apply only as of the effective date(s) indicated. The appraiser makes no representation as to the effect on the subject property of any unforeseen event, subsequent to the effective date of the appraisal.

HIGHEST & BEST USE STATEMENT: The legally permissible use of the subject site is for Commercial. The zoning complies with the surrounding properties with no zoning changes anticipated. Highest and best use as "VACANT" is for Commercial. The subject is currently VACANT and is being appraised in its "as is" condition which is vacant. Since it is not improved at this time but if it were improved as Commercial it would be its "highest & best" use based on surrounding factors.

Re: **Adopt a Resolution declaring that timber on Forrest County parcel number 2-048-06-009.00 (PPIN 27783), and parcel number 2-042P-36-001.00 (PPIN 27777), and parcel number 2-048-06-006.00 (PPIN 1488), and parcel number 2-048-06-005.00 (PPIN1489), and parcel number 2-048-06-008.00 (PPIN 27782) located at the Bobby Chain Municipal Airport as surplus and authorize advertisement for sale by competitive bid upon preparation of plan documents.**
File Number: 2025-924
Minute Book #

Summary
Adopt a Resolution declaring that timber on Forrest County parcel number 2-048-06-009.00 (PPIN 27783), and parcel number 2-042P-36-001.00 (PPIN 27777), and parcel number 2-048-06-006.00 (PPIN 1488), and parcel number 2-048-06-005.00 (PPIN1489), and parcel number 2-048-06-008.00 (PPIN 27782) located at the Bobby Chain Municipal Airport as surplus and authorize advertisement for sale by competitive sealed bid.

Recommendation Statement
I recommend that this timber be declared surplus and bid for sale.

Please place this on the October 21, 2025 City Council meeting for consideration.

There came for consideration at a duly constituted meeting of the Mayor and Members of the City Council of the City of Hattiesburg, Mississippi, held on the **21st** day of **October 2025**, the following Resolution:

RESOLUTION

WHEREAS, the City of Hattiesburg finds and determines that the timber on Forrest County parcel number 2-048-06-009.00 (PPIN 27783), and parcel number 2-042P-36-001.00 (PPIN 27777), and parcel number 2-048-06-006.00 (PPIN 1488), and parcel number 2-048-06-005.00 (PPIN1489), and parcel number 2-048-06-008.00 (PPIN 27782) located at the Bobby Chain Municipal Airport, is no longer needed for municipal or related purposes and is not to be used in the future operation of the City; and

WHEREAS, the governing authorities of the City of Hattiesburg are authorized and empowered in their discretion to convey said property in accordance with appropriate Miss Code statues; and

WHEREAS, the governing authorities of the City of Hattiesburg desire to dispose of timber on the aforementioned property; and

WHEREAS, a valuation appraisal of the timber inventory was conducted by Anderson Natural Resources, LLC., Forestry Consulting on October 7-10, 2025, using industry accepted cruising techniques to establish timber value in the amount of $113,703.00.

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Hattiesburg City Council does hereby declare surplus the timber on the aforementioned property and authorizes advertisement for sale of the same by competitive sealed bid.

The foregoing resolution having been reduced to writing, the same was introduced by Council member _____, seconded by Council member _____, and was adopted by the following vote, to wit:

YEAS: NAYS:

The President thereby declared the motion carried and the Resolution adopted, on this 21st day of October, 2025.

(SEAL)

ATTEST: ADOPTED:

_____ _____
CLERK OF COUNCIL PRESIDENT OF COUNCIL

The above and foregoing Resolution having been submitted to and approved by the Mayor, on this 21st day of October, 2025

Ms. Ann Jones
Chief Administrative Officer - City of Hattiesburg
200 Forrest Street
Hattiesburg, MS 39402

RE: Timber Appraisal Results, Chain – HBG Municipal Airport

Dear Ms. Jones,

Here are the results of my recent timber inventory of approximately 120± acres located on City of Hattiesburg property at and adjacent to the Chain – HBG Municipal Airport

Specifically, the property is in Section 6, T3N, R12W, and Section 36, T4N, R13W, Forrest County, MS; as per the attached map.

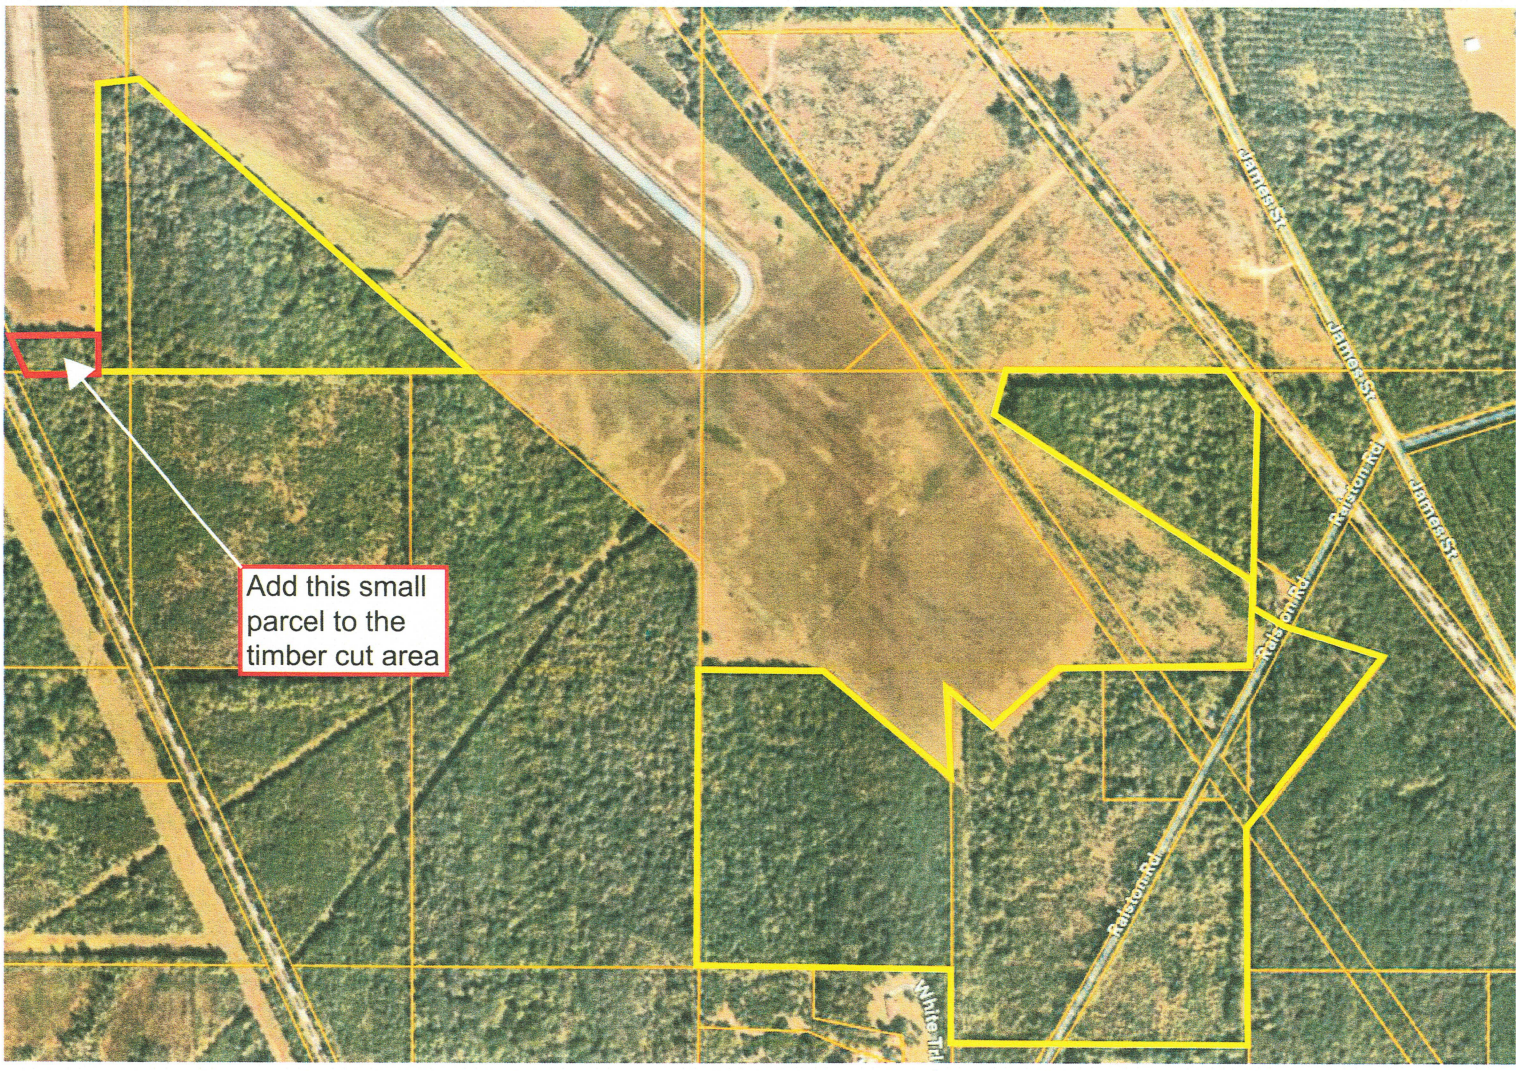
The timber inventory was completed on October 7-10, 2025, using industry accepted cruising techniques, equating to a 5% cruise. The tracts appraised were the 120± acres on the maps provided by the City, and were a 28± acres parcel south of the runway, and the remaining acreage Southeast the runway, along Ralston Road.

After computing the volumes using timber volume calculation spreadsheets, I then multiplied the various timber product classes by current average product prices. These product prices were derived from a survey of local wood dealers, and then tempered with past experience with the fluctuation of market prices.

Here is a summary of the results:

Product	Volume Unit	Total Volume (tons)	Total Product Value ($)
Pine Sawtimber	**Ton**	**4,068**	**$89,496**
Pine Chip-n-Saw	**Ton**	**321**	**$3,852**
Pine Pulpwood	**Ton**	**671**	**$3,355**
Hardwood Sawtimber	**Ton**	**273**	**$8,190**
Hardwood Pulpwood	**Ton**	**1,762**	**$8,810**
TOTAL TIMBER VALUE			**$113,703**

The total merchantable timber value of the 120± acres cruised, using average market prices as of October 14, 2025 is $113,703.



I certify to the best of my knowledge and belief, that the statements of fact contained in this report are true and correct, and that this report, opinions and conclusions are my unbiased professional analysis, opinions and conclusions.

Sincerely,

Mark A. Anderson

Re: Proposal for Professional Services: Preparation of Risk Management Plans, Emergency Response Plans and Risk and Resilience Assessments

Dear Mr. Howe:

Allen Engineering and Science (AllenES) is pleased to provide this proposal to the City of Hattiesburg. This proposal is designed to outline the scope of work and fees associated with preparing the Risk Management Plans (RMP), Emergency Response Plans (ERP) and Risk and Resilience Assessments (RRA) for the City of Hattiesburg's two water and wastewater plants. AllenES appreciates the opportunity to provide continued service to the City of Hattiesburg.

Scope of Work

AllenES will perform the following scope of work associated with the proposed project.

The RMP is required by Section 112(r) of the Federal Clean Air Act concerning storage, use, or manufacture of substances that can result in the accidental release of hazardous air pollutants (HAP). The water and wastewater plants listed above chlorinate drinking water and store on-site chlorine, which is a listed HAP. The existing RMPs should be reviewed and updated within five years of initial submissions or the most recent update, whichever is later; or within six months of a change in the offsite consequence analysis, any change requiring a revised hazard review, or any change which alters the program level. The RMP should be reviewed and updated when there is a change in the process, material stored, storage capacity, or change in facility contact information.

Under the Safe Drinking Water Act (SDWA) Section 1433, community water systems that serve more than 3,300 residents must conduct an RRA and develop an ERP. The RRA must evaluate vulnerabilities, threats and consequences from potential hazards. The hazards may be natural hazards and malevolent acts. Upon completion of the RRA but no later than six months after its completion, the community water system must prepare an ERP that incorporates the findings of the assessment.

Task 1 Update and Revise Existing RMPs

AllenES will review and update each RMP including, but not limited to the following: facility information, facility operations, facility management system, hazard assessment, process hazard review, employee training documentation, and compliance audit documentation. AllenES will update each RMP using the EPA RMP*Submit software program and submit to EPA electronically. AllenES will update the worst-case and alternate release scenario utilizing EPA RMP*Comp and the hazard zone evaluation and provide figures illustrating the impact zone for each scenario.

Subsequent to review of existing data for the site, AllenES will conduct a site visit to each facility to gather necessary facility and process information as needed to update the RMP. Cost assumptions include:

- Site access and conditions allow the site visits to be performed in one mobilization, and
- No delays occur due to weather or other conditions beyond AllenES' control.

Draft RMPs for each facility will be submitted to the City of Hattiesburg Public Works Department for review. Once approved, the RMPs will be finalized and one copy of each RMP will be prepared and submitted to the City of Hattiesburg Public Works Department. Additionally, AllenES can work with the City to electronically submit the RMPs into the CDX.

AllenES will ensure the updated RMPs will meet applicable 40 Code of Federal Regulations (CFR) as well as recent amendments to the Chemical Accident Prevention Provisions (40 CFR Part 68/Risk Management Plan Rule (RMP)) on March 11, 2024, including but not limited to:

- Technical Clarifications
- Safety Information
- Hazard Reviews
- Operation Procedures
- Compliance Audits
- Third-party Audits
- Incident Investigations
- Employee Participation.

Task 2 Conduct Risk and Resilience Assessments

AllenES will coordinate with the City to conduct an RRA. The RRA will assess hazards including:

- Physical barriers
- Source water
- Pipes and constructed conveyances
- Water collection and intake
- Pretreatment and treatment
- Storage and distribution
- Electronic, computer and automated systems
- Monitoring practices
- Financial infrastructure
- Use, storage and handling of chemicals
- Operation and maintenance

AllenES will conduct the assessment in accordance with published guidelines and present the findings in a report for the City of Hattiesburg. AllenES will review findings prior to finalizing the report. AllenES shall submit the results of the RRA to the designated authority in accordance with SDWA.

Task 3 Prepare Emergency Response Plans

Upon completion of the RRA, AllenES will develop an emergency response plan that incorporates the findings of the RRA. Under Section 1433 of the SDWA the ERP shall include:

- Strategies and resources to improve resilience,
- Physical security and cybersecurity
- Plans and procedures for responding to a natural hazard or malevolent act
- Actions and equipment to lessen the impact, including alternative water sources, relocating intakes and flood protection barriers
- Strategies to detect malevolent acts to the system.

Once developed and reviewed with the city, the plan will be certified and submitted to the regulatory authority. The plan will be maintained onsite and available for review upon request.

Schedule

AllenES will initiate the project upon receipt of your signed authorization. It is our objective to meet your schedule needs, and we will work with you to finalize the project schedule. A proposed schedule for tasks and deliverables is provided below.

Schedule and Deliverables		
Scope of Work	**Timeline**	**Deliverable Date**
Task 1. Update and Revise Existing RMPs	September 2025	By October 30, 2025
Task 2. Conduct Risk and Resilience Assessments	September 2025	By October 30, 2025
Task 3. Prepare Emergency Response Plans	September 2025	By November 30, 2025

Assumptions

- Each water and wastewater plant will require its own RMP and ERP.
- The Scope of Work includes one RRA for water and one for wastewater.
- Site access and conditions allow the site visits to be performed in one mobilization,
- No delays occur due to weather or other conditions beyond AllenES' control.
- Persons with knowledge of the facilities will be available to answer AllenES' questions.

Proposed Fee

AllenES proposes a lump sum fee of ***Sixty-Three Thousand*** **Dollars** ($63,000) to complete **Tasks 1-3** outlined above. The proposed fee includes labor and other direct expenses for travel, per diem, materials, and supplies. Invoices will be submitted to you monthly based on percent complete. A breakdown of the fees is provided below.

Project Fee Breakdown	
Task	**Fee**
Task 1. Update and Revise Existing RMPs	$5,500 per plan
Task 2. Conduct Risk and Resilience Assessments	$7,500 per assessment
Task 3. Prepare Emergency Response Plans	$6,500 per plan
Total Fee	**$63,000**

Payment for invoices is due within 45 days of the invoice date. Invoices not paid within 45 days are subject to a late fee of 1.5% per month. Understanding the schedules involved with agenda setting and preparation of claims dockets for the City, we will make every effort to transmit invoices with ample time for preparation of materials for the next regularly scheduled Board meeting.

Closing

AllenES appreciates the opportunity to submit this proposal for professional services associated with this proposed project. Our commitment is to provide high-quality, dependable, and responsive services to you. If you have any questions or require any additional information, please do not hesitate to contact me at 601.812.6520 or by email at rsumrall@allenes.com or Jay Estes at 601-270-3898 or by email at jestes@allenes.com.

Sincerely,
Allen Engineering and Science

Richard Sumrall, P.E.
Senior Engineer

Jay C. Estes, AICP
Senior Principal Planner

Project Authorization

If the project details listed above are acceptable, please sign and date below and return to AllenES. The effective date of this project will be the authorization date below.

I hereby authorize Allen Engineering and Science, Inc. to proceed with the above-referenced project. I have read and agree to the associated Terms and Conditions. In executing this authorization form, I represent that it is correct, and I certify that I have the authority to execute this authorization form on behalf of the responsible party. I understand that a digital authorization or a photocopy of this authorization will be accepted with the same authority as the original.

Authorized By: _____

Title: _____

Municipality: _____

Date: _____

Signature: _____

Standard Terms and Conditions

1. STANDARD OF PRACTICE. Services performed by Allen Engineering and Science, Inc. (AllenES) under this agreement will be conducted in a manner consistent with the level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. No other representation, expressed or implied, and no warranty or guarantee is included or intended in this agreement, or in any report, opinion, document or otherwise.

2. CHANGE OF SCOPE. The scope of Services set forth in this Agreement is based on facts known at the time of execution of this Agreement, including, if applicable, information supplied by the Client. For some projects involving conceptual or process development services, scope may not be fully definable during initial phases. As the project progresses, facts discovered may indicate that scope must be redefined. Changes in scope may warrant Additional Services which are not a part of the agreed upon compensation. These Additional Services shall be paid for by the Client in accordance with AllenES prevailing hourly rate schedule.

3. SAFETY. AllenES specifically disclaims any authority or responsibility for general job site safety of persons other than AllenES employees.

4. BILLING. Invoices will be issued at the end of each month, payable upon receipt, unless otherwise agreed. Interest of 1.5% per month will be payable on any amounts not paid within 45 days, payment thereafter applied first to accrued interest and then to principal unpaid amount. Any attorneys' fees or other costs of collection shall be paid by the Client.

5. TERMINATION. Either the Client or AllenES may terminate this Agreement at any time with or without cause upon giving the other party seven (7) calendar days prior written notice. The Client shall within thirty (30) calendar days of termination pay AllenES for all services rendered and all costs incurred up to the date of termination, in accordance with the compensation provisions of this contract.

6. BURIED UTILITIES. The Client will furnish to AllenES information identifying the type and location of underground improvements. The Client agrees, to the fullest extent permitted by law, to waive all claims and causes of action against AllenES and anyone for whom AllenES may be legally liable, for damages to underground improvements that result from subsurface penetration locations depicted by AllenES. The Client further agrees, to the fullest extent permitted by law, to indemnify and hold AllenES and his or her subconsultants harmless from any damage, liability or cost, including reasonable attorneys' fees and defense costs, for any property damage, injury or economic loss arising or allegedly arising from subsurface penetrations in locations authorized by the Client or from inaccuracy of information provided to AllenES by the Client, except for damages caused by the sole negligence of AllenES in his or her use of Client furnished information.

7. CONSEQUENTIAL DAMAGES. Notwithstanding any other provision of the Agreement, neither party shall be liable to the other for any consequential damages incurred due to the fault of the other party, regardless of the nature of this fault or whether it was committed by the Client or AllenES, their employees, agents, subconsultants or subcontractors. Consequential damages include, but are not limited to, loss of use and loss of profit.

8. INSURANCE. AllenES agrees to maintain (1) statutory workers' compensation insurance coverage and (2) comprehensive general liability coverage and automobile liability insurance coverage. AllenES agrees to maintain professional liability insurance in the sum of not less than $1,000,000 annual aggregate, on a claims-made basis, as long as it is reasonably available under standard policies at rates comparable to those currently in effect.

9. LIMITATION OF LIABILITY. The Client agrees that AllenES liability shall be limited to injury or loss caused by the sole negligence of AllenES, its subcontractors, and/or agents hereunder. AllenES liability for claims, damages, costs, injury or loss arising from professional errors or omissions shall not exceed the amount of the total charges for services performed.

10. HAZARDOUS SUBSTANCES AND MATERIALS. The Client agrees that AllenES neither created nor contributed to the creation or existence of any hazardous waste or materials, or toxic, radioactive, or contaminated materials ("Affected Materials") at the site, and in consideration of the substantial risks to AllenES posed by the presence or potential presence of Affected Materials on or about the project site, the Client agrees, to the fullest extent permitted by law, to indemnify and hold harmless AllenES, its officers, directors, employees, agents, and independent consultants from all claims and losses, including reasonable attorneys' fees and defense costs, arising out of, or in any way connected with or attributable to the use, generation, storage, release, threatened release, discharge, disposal, or presence of Affected Materials on, under or about the project site (whether by Client or any predecessor in title) or any employees, agents, contractors or subcontractors of Client or any persons at any time occupying or present on the project site.

11. OWNERSHIP OF INSTRUMENTS OF SERVICE. All reports, plans, specifications, computer files, field data, notes and other documents and instruments prepared by AllenES as instruments of service shall remain the property of AllenES. AllenES shall retain all common law, statutory and other reserved rights, including the copyright thereto.

12. THIRD PARTY BENEFICIARIES. Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the Client or AllenES. AllenES services under this Agreement are being performed solely for the Client's benefit, and no other entity, including the Owner's contractors, shall have any claim against AllenES because of this Agreement or the performance or nonperformance of services hereunder.

13. DELAYS. If events beyond the control of Client or AllenES, including, but not limited to, fire, flood, explosion, riot, strike, war, process shutdown, act of God or the public enemy, or an act, inaction or regulation of any government agency, result in delay to any schedule established in this Agreement, such schedule shall be amended to the extent necessary to compensate for such delay. In the event such delay exceeds 60 days, AllenES shall be entitled to an equitable adjustment in compensation.

14. OPINIONS OF CONSTRUCTION COST. Any opinion of construction costs prepared by AllenES is supplied for the general guidance of the Client only. Since AllenES has no control over competitive bidding or market conditions, AllenES cannot guarantee the accuracy of such opinions as compared to contract bids or actual costs to Client.

15. ACCESS. Client shall provide AllenES safe access to any premises necessary for AllenES to provide the Services.

16. AMENDMENT. This Agreement, upon execution by both parties hereto, can be amended only by a written instrument signed by both parties.

17. STATUTES OF LIMITATION. To the fullest extent permitted by law, parties agree that, except for claims for indemnification, the time period for bringing claims under this Agreement shall expire one year after Project completion.

18. DISPUTE RESOLUTION. Parties shall attempt to settle disputes arising under this Agreement by discussion between the parties' senior representatives of management. If any dispute cannot be resolved in this manner within a reasonable length of time, parties agree to attempt non-binding mediation or any other method of alternative dispute resolution prior to filing any legal proceedings. In the event any actions are brought to enforce this Agreement, the prevailing party shall be entitled to collect its litigation costs from the other party.

22. REGULATORY REVIEWS. It is mutually understood that the actions or inactions of any regulatory, governmental or related agency or entity are beyond the control of either the Client or AllenES. Therefore, it is mutually agreed that AllenES is not responsible for any actions or inactions on the part of any regulatory, governmental, or related agency or entity that may have a negative impact on the project or AllenES services.

Re: **Approve Encroachment Agreement for Overhead Facilities with Mississippi Power Company for an access road for the construction of improvements at Tatum Park and authorize the Mayor to execute in duplicate.**
File Number: 2025-921
Minute Book #

Summary
Approve Encroachment Agreement for Overhead Facilities with Mississippi Power Co. for an access road for the construction of improvements at Tatum Park and authorize the Mayor to execute in duplicate.

Recommendation Statement
I recommend approval of this item.

Please place this on the October 21, 2025 City Council meeting for consideration.

STATE OF MISSISSIPPI
COUNTY OF FORREST

Prepared by: Mississippi Power Company
Real Estate Department
P. O. Box 4079
Gulfport, MS 39502-4079
(228) 539-7630

ENCROACHMENT AGREEMENT FOR OVERHEAD FACILITIES

The Mississippi Power Company, hereinafter called the "Power Company", in consideration of Ten Dollars ($10.00), and other good and valuable consideration, the receipt of which is hereby acknowledged, hereby consents (this "Agreement") for the City of Hattiesburg, MS, hereinafter called the "Undersigned", to cross a certain portion of the Power Company's right(s)-of-way and easement for electric facilities (AX 3351, Sheet 18-02, Easement #14738) described in Deed Book 282, Page 246, filed on October 1, 1965, in the official land records of Forrest County, Mississippi (the "Easement"):

> Said right(s) of way being 192.50 feet in width and extending in part through Section 29, Township 4 North, Range 13 West, of Forrest County, Mississippi on which the Power Company has constructed and now maintains and operates said electric transmission and/distribution lines by virtue of certain easements heretofore acquired by the Power Company. The said right(s) of way is shown on the plat attached hereto and made a part hereof.

The Power Company hereby agrees that the Undersigned, at its sole cost and expense, may construct or continue to use, or maintain and repair certain improvements, subject to the terms and conditions of this Agreement on or about the real property which is the subject of the Power Company's Easement. Said improvements and the approximate location of the improvements shall be constructed in accordance with the proposed plans and specifications on the attached Exhibit "A" being fully incorporated herein by reference, which the Power Company reserves the right to alter, at any time, if necessary. Said improvements are to consist only of those items more fully described and depicted on the attached Exhibit "A" and are to be used solely by the Undersigned. Upon completion of construction of the improvements depicted on Exhibit "A", the Undersigned shall promptly submit as-built drawings to the Power Company which, once approved by the Power Company, shall be incorporated into this Agreement as Exhibit "B" entirely replacing Exhibit "A". Except as provided herein, no excavation or additional construction of any kind shall be permitted in the Easement without the express written approval of the Power Company. The Undersigned hereby acknowledges that certain existing facilities located within the Power Company's right(s)-of-way, whether located overhead or underground, are (a) electric conductors, (b) energized, (c) uninsulated and (d) dangerous. The Undersigned hereby agrees and covenants that it shall comply with all of the requirements imposed by this Agreement, including, without limitation, Paragraphs 7 and 8.

The plans and specifications as submitted by the Undersigned meet the Power Company's approval provided the Undersigned conforms to the following terms and conditions:

1. The Undersigned's permitted use of the area within the Power Company's Easement as provided herein shall be for a term beginning on the date of the latest signature to this Agreement as indicated in the notary provisions herein and shall terminate on the sooner to occur of June 30, 2028, or completion of the Undersigned's project, or work, which necessitates the need for the Undersigned's permitted use of the area within the Power Company's Easement.

2. The Power Company disclaims any warranty of title or right of possession with respect to the real property subject to the Easement. The Undersigned agrees to obtain all necessary rights from the owners of the lands crossed by the Power Company's right(s) of way in the event the Undersigned does not own the said lands and rights.

3. The Undersigned hereby agrees that: (a) no permanent structures or buildings, including, but not limited to, houses, mobile homes, garages and sheds, shall be placed or permitted in or on any portion of the real property subject to the Easement; (b) no trees, bushes, shrubs, or other landscaping, that exceeds ten feet (10') at mature height, shall be placed or permitted in or on any portion of the real property subject to the Easement, provided, however, that no such vegetation shall interfere with the Power Company's operation, maintenance or use of the Easement; (c) no garbage or waste disposal pits, billboards, signs, flag poles, wells, swimming pools, wrecked or disabled vehicles, septic tanks and drain lines, holding ponds, lakes, ponds, or

roads or driveways running parallel with the Easement shall be placed or permitted in or on any portion of the real property subject to the Easement; (d) the present surface elevation of the real property subject to the Easement shall not be altered by either fill or excavation; (e) the height of any vehicle, trailer, or attachments on any vehicle, including radio antennae, crossing the Power Company's Easement shall not exceed thirteen feet six inches (13'6") in height; and (f) no vehicle, trailer or other obstruction will be allowed to remain permanently parked on the Power Company's Easement or parked on the Power Company's Easement continuously for more than a total of forty-eight (48) continuous hours.

4. The Undersigned acknowledges that it has reviewed and shall fully comply with the Encroachment Guidelines attached hereto as Exhibit "C" and fully incorporated herein by reference

5. The Undersigned agrees to use said area within the Power Company's right(s) of way **at all times** in such a manner as will not interfere with the Power Company's facilities installed thereon, or its ownership, operation and maintenance thereof.

6. The Undersigned agrees that the use of the Power Company's right(s) of way as herein provided shall in no way affect the validity of the Power Company's Easements and shall in no way modify or restrict the use or rights of the Power Company, its successors or assigns, in and to the area to be used. The Undersigned acknowledges the Power Company's right and title to said Easement and the priority of the Power Company's right of use and hereby agrees not to resist or assail said priority. The Undersigned, at the Power Company's sole option and discretion, may be required to obtain the services of a Power Company employee and/or a Power Company approved contractor or representative to monitor the construction, use, repair or maintenance of the Undersigned's encroaching facilities, or the modification and relocation of same in accordance with Paragraph 8 of this Agreement, so that the Power Company's facilities in the Easement are protected to the fullest extent possible. At the Power Company's option, payment of the estimated costs for monitoring shall be paid by the Undersigned in advance of commencement of the work and with any difference or balance to be paid after the work has been completed. The presence of any such employee and/or approved contractor or representative shall not in any way release the Undersigned from any of the Undersigned's liabilities and responsibilities provided for in this Agreement.

7. The Undersigned shall take all necessary precautions, including, but not limited to, those specifically mentioned in this Agreement, for the safety of its employees, and all other persons who may at any time and for any reason come upon the Easement pursuant to the permission granted in this Agreement. The use of said area within said Easement by the Undersigned shall be at the sole risk and expense of the Undersigned, and the Power Company is specifically relieved of any responsibility for damage to the property, person and facilities of the Undersigned resulting or occurring from the use of said Easement by the Power Company. The Power Company hereby disclaims any liability for damages to the Undersigned's encroaching facilities made subject of this Agreement and referenced herein, including, but not limited to, those referenced in certain exhibits attached hereto, arising out of the Power Company's use of its Easement and the Power Company further disclaims any liability for damages to persons or property resulting from the existence of the encroachment and/or encroaching facilities on the Power Company's Easement. By executing this Agreement, the Undersigned does hereby acknowledge and agree to such disclaimers.

8. The Undersigned hereby agrees and covenants not to use and will prohibit agents, employees and contractors of the Undersigned from using on said right(s) of way any tools, equipment or machinery capable of being located or operated within ten (10) feet of the Power Company's overhead conductors. The attention of the Undersigned is hereby specifically directed to the provisions of Sections 45-15-1 through 45-15-13, Mississippi Code of 1972, as amended, from time to time, and OSHA Safety and Health Regulations as appearing in Federal Register Vol. 37, No. 243, Part II, Subpart N, Para. 1926.660 (15), as amended, from time to time; and the Undersigned further agrees and covenants to comply with such Code and Regulations and to warn further all persons whom the Undersigned knows or should reasonably anticipate for any reason may resort to the vicinity of such conductors of the fact that such conductors are (a) electric conductors, (b) energized, (c) uninsulated and (d) dangerous.

9. Notwithstanding anything contained herein, the Undersigned agrees to reimburse the Power Company for all cost and expense for any damage to the Power Company's facilities resulting from the use by the Undersigned of said area within said right(s) of way. Also, the Undersigned agrees that, if in the opinion of the Power Company, it becomes necessary, as a result of the exercise of the permission herein granted, to relocate, rearrange, change or raise any of the Power Company's facilities, to promptly reimburse the Power Company for all cost and expense involved in such relocation, rearrangement or raising of said facilities. Also, if it becomes necessary in the opinion of the Power Company for the Undersigned to relocate, rearrange, remove, or change any of the Undersigned's facilities, the Undersigned will do so within ninety (90) days of such notice from the Power Company at its sole expense. In no event shall the Power Company be required to replace any of the Undersigned's improvement(s), whether in whole or in part, or reimburse the Undersigned for the cost of same. The Undersigned shall comply with all notice requirements, including but not limited to Miss. Code Ann. § 77-13-1, *et seq*., as amended (*commonly known as* "*One-Call Law – Mississippi 811*"), prior to beginning any

excavation in, on or around said Easement. In no event shall the Power Company, under any circumstance, be required to provide any notice requirements to the Undersigned or any other third-party prior to the Undersigned commencing any excavation or construction activities on or near the Easement contemplated under this Agreement.

10. All of the Undersigned's facilities shall be constructed and maintained in compliance with all laws and industry standards. The Undersigned further agrees that it will/shall repair and pay for any property damage caused by the Undersigned to any part of the Easement. This obligation for repair includes, but is not limited to, vegetation reestablishment, and any damage to the soil or sub-soil caused by the Undersigned, or its employees, agents, contractors, subcontractors or invitees. The Undersigned shall be responsible for maintaining the repaired damage for the first twelve (12) months after completion of such repairs.

11. The Undersigned shall notify the Power Company's Engineering Analyst, at Gulfport, Mississippi by phone at (228) 539-7612, as soon as practicable but no later than forty-eight (48) hours prior to commencing any work on or near the Easement. A Power Company representative must be given the proper notice as provided herein in order to have the opportunity to review, discuss with the Undersigned and/or be present prior to the Undersigned commencing any excavation and/or construction activities that may impact Power Company facilities.

12. The Undersigned shall and does hereby agree to indemnify and save harmless and defend the Power Company from the payment of any sum or sums of money to any person whomsoever (including third persons, sub-contractors, the Undersigned, the Power Company and agents and employees of them) on account of claims or suits growing out of injuries to persons (including death) or damage to the property (including property of the Power Company) in any way attributed to or arising out of the use of said right of way by the Undersigned as herein provided regardless of whether same results from the claimed or actual, sole or joint, negligence of the Undersigned (its agents, employees, contractors) or the Power Company (it agents, employees or contractors) or any combination of these including (but without limiting the generality of the foregoing), all liens garnishments, attachments, claims, suits, judgments, costs, attorney's fees, cost of investigation and of defense, and excepting only those situations where the injuries claimed have been caused solely by willfulness or gross negligence on the part of the Power Company, its agents or employees, unmixed even with slight negligence on the part of the Undersigned, its agents, employees or contractors. The phrase "willfulness or gross negligence" shall not be deemed to include the absence of any warning by the Power Company as to the danger of its facilities, the absence of insulation on its facilities, the failure to de-energize or rearrange its facilities, or the failure or absence of any circuit breaker or similar device. In addition to the indemnity obligation of the Undersigned, the Undersigned agrees to incorporate in any and all contracts and/or agreements for any work done in accordance with the Agreement, a provision requiring any and all third persons, contractors or subcontractors to indemnify and defend the Power Company in the same manner as provided above.

13. The obligation of the Undersigned to indemnify, defend, and hold harmless the Power Company from all claims, demands, suits, judgments, actions and liabilities for bodily injury or property damage, shall include, but not be limited to, environmental contaminations and from loss, costs, expenses, fines, and penalties incurred or assessed to clean, remove, dispose of and to decontaminate any part of the property subject to the Power Company's Easement, including the soil, subsoil, and groundwater resulting from contamination by any hazardous substance brought onto the real property subject to the Power Company's Easement by the Undersigned, its employees, agents, contractors, subcontractors or invitees.

14. The Undersigned further agrees to carry, and to require that any third-party, contractor or subcontractor doing or providing work on said Easement on behalf of the Undersigned to carry, liability insurance in an amount of not less than One Million Dollars ($1,000,000) per occurrence covering bodily injury, including death, and/or property damage which arise out of or result from the Undersigned's operations under this Agreement. Such insurance shall name the Power Company as an additional insured and shall specifically cover contractually assumed liability. A certificate of such insurance shall be issued if requested by the Power Company.

15. The Undersigned, for itself and on behalf of its contractors, employees, agents, invitees, and other persons who participate or assist in any work or activity associated with the permission granted herein ("Releasors"), who shall be made aware of this provision by the Undersigned, do hereby release, acquit and forever discharge the Power Company, its affiliates and parent companies, and each of the Power Company's employees, agents, officers, and directors ("Releasees"), from and against any and all known and unknown causes of action, damages, liabilities, costs, expenses and claims and demands of whatsoever kind or nature (including legal expenses) which Releasors now have or may ever have against Releasees on account of any and all known and unknown present or future injuries, losses and damages sustained or received or which may be sustained by Releasors or the property of Releasors occurring on, at or about the Easement, resulting from any events concerning the work or activity associated with the permission granted herein, whether in law or in equity and where brought against the Releasees now or in the future. The Undersigned covenants not to sue the Power Company in such instances.

16. In the event of any violation or threat of violation by the Undersigned of any of the terms and conditions of this Agreement, the Undersigned concurs and hereby acknowledges and agrees that the Power Company shall have the right to enjoin such violation or threatened violation in a Court of competent jurisdiction. This right of injunctive relief shall be in addition to any and all other remedies, including money damages, available under statute, law or equity.

17. This Agreement shall inure to the benefit of and be binding upon the parties, their heirs, successors and/or assigns.

18. In the event the Undersigned shall fail to comply with the terms of this Agreement within three (3) days of written notice, this Agreement shall terminate and the Undersigned shall remove himself and all property from the right(s) of way; provided, however, the rights of the Undersigned under this Agreement shall not be revoked by the Power Company so long as the Undersigned is diligently attempting to cure any such non-compliance.

19. In the event that the Undersigned's permitted use of the area within the Power Company's Easement includes a building that partially encroaches upon the Easement, the Undersigned may maintain said building in its present location on said Easement; but the Undersigned, its heirs, successors, and assigns, may not change the size, location or use of the building in any manner that will cause it to further encroach upon or extend, vertically or horizontally, into the Easement, and provided further that should the building be damaged or destroyed such that it must be substantially replaced or repaired, the permission to use the Easement granted herein shall be automatically revoked and the building or any replacement structure shall be constructed or reconstructed so that it shall not encroach upon the Easement.

20. The Undersigned acknowledges that from time to time it may become necessary for the Power Company to bring upon the Easement certain vehicles and other equipment to perform necessary repairs and maintenance relating to the Easement and/or the Power Company's facilities constructed thereon. The Undersigned agrees to keep the Easement and its encroaching facilities in a condition suitable for access by such vehicles and equipment. The Undersigned further agrees that it will make no claim for damage to the encroaching facilities arising from the Power Company's repair and maintenance of its facilities and/or the Easement.

21. The Undersigned's local contact for purposes of this Agreement shall be Marybeth Bergin, its City Engineer, at P.O. Box 1898 Hattiesburg, MS 39403-1898, Phone: 601-545-4540. Any notice requirements under this Agreement shall be delivered to this local contact.

22. This Agreement may be executed in any number of counterparts, each of which, when executed and delivered, shall be an original, but all of which shall collectively constitute one and the same instrument.

23. This Agreement represents the entire agreement between the parties hereto, there being no other oral agreements or representations of any kind or nature whatsoever.

GENERAL NOTES

1. ALL PIPE JOINTS ARE TO BE WRAPPED IN 24-INCH WIDE TYPE V GEOTEXTILE FABRIC. ALL PICKUP HOLES SHALL BE PLUGGED AND COVERED WITH TYPE V GEOTEXTILE FABRIC , THE COST OF WHICH SHALL BE ABSORBED IN OTHER ITEMS BID.

2. FULL COLLARS ARE TO BE USED AT ALL BOX CULVERT EXTENSIONS AND AT ALL BOX CULVERT CONSTRUCTION JOINTS. (SEE WK. NO. ICJ-1 FOR DETAILS)

3. THE COST OF ANY COLLARS REQUIRED TO CONNECT CONCRETE FLARED END SECTIONS TO NON-CONCRETE PIPE SECTIONS SHALL BE ABSORBED IN THE COST FOR NON-CONCRETE PIPE.

4. CURB AND GUTTER VERTICAL DIMENSIONS SHOWN IN THE DETAIL DRAWINGS ARE FOR A CURB IN THE "CATCH" CONFIGURATION AND SHALL BE CONSIDERED TO BE MINIMUM DIMENSIONS. THE DIMENSIONS MAY BE MODIFIED AS NECESSARY FOR "SPILL" CURB AND GUTTER, BUT SHALL NOT BE LESS THAN THE MINIMUM SHOWN.

5. THE COST FOR REMOVAL OF ALL HEADWALLS AND WINGWALLS (PIPES, BOX CULVERTS, BOX BRIDGES) SHALL BE ABSORBED IN OTHER ITEMS BID.

6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROTECTING EXISTING STRUCTURES SUCH AS, BUT NOT LIMITED TO, PIPES, INLETS, APRONS, AND BRIDGES FROM DAMAGE WHICH MIGHT OCCUR DURING CONSTRUCTION. THE CONTRACTOR SHALL REPLACE OR REPAIR, AS DIRECTED BY THE ENGINEER, ANY STRUCTURES DAMAGED DURING THE LIFE OF THE CONTRACT. NO PAYMENT WILL BE MADE FOR REPLACEMENT OR REPAIR OF DAMAGED ITEMS.

7. A SOIL PROFILE HAS BEEN PREPARED FOR THIS PROJECT USING SAMPLES TAKEN FROM HOLES AT THE LOCATIONS INDICATED IN THE TEST REPORTS. THIS SOIL PROFILE IS ON FILE IN THE DISTRICT AND CENTRAL CONSTRUCTION OFFICES AND IS AVAILABLE FOR EXAMINATION. THE DEPARTMENT DOES NOT GUARANTEE THAT THE MATERIALS AS SHOWN IN THE REPORTS ARE NECESSARILY TO BE FOUND OUTSIDE THE TEST HOLES.

8. _____% SHRINKAGE FACTOR USED IN THE EARTHWORK CALCULATIONS IS FOR DESIGN ESTIMATING PURPOSES ONLY.

9. THE TOP THREE FEET AND VARIABLE OF THE DESIGN SOILS (BOTH NATURAL AND EMBANKMENT) SHALL BE CONSTRUCTED OF SOIL CLASSIFIED AS _____ OR BETTER, PER MDOT SPECIFICATIONS 703.21, EXCEPT AT UNDERCUT LOCATIONS DESIGNATED ON THE PLANS OR AS DIRECTED BY THE ENGINEER TO RECEIVE CLASS B-15 BORROW EXCAVATION. EXTREME CARE SHALL BE EXERCISED IN UNDERCUT AREAS, AND THE UNDERCUT DEPTH MAY BE ADJUSTED AT CROSS DRAINS AS DIRECTED BY THE ENGINEER. FOR ADDITIONAL DETAILS THE CONTRACTOR IS REFERRED TO THE NOTICE TO BIDDERS ON DESIGN SOIL MATERIAL IN THE CONTRACT PROPOSAL DOCUMENT.

10. VOIDS CREATED BY THE REMOVAL OF, BUT NOT LIMITED TO, POSTS, CONCRETE ANCHORS, AND FOOTINGS SHALL BE BACKFILLED AND TAMPED IN ACCORDANCE WITH SECTION 203 OF ***THE MISSISSIPPI STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION***. THE COST OF WHICH WILL BE ABSORBED IN OTHER ITEMS BID.

11. WORK ON STRUCTURES FOR THIS PROJECT REQUIRES EXCAVATION IN THE IMMEDIATE VICINITY OF TRAFFIC AND ADJACENT PROPERTIES. THEREFORE, THE RISK OF A FAILURE OCCURRING DURING EXCAVATION REQUIRES THAT EXTREME CAUTION BE EXERCISED. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PLACING WHAT BRACING, SHORING, OR GROUND SUPPORT SYSTEM THAT IS DEEMED NECESSARY TO PREVENT A FAILURE AND PROTECT THE PERSONS WORKING NEAR THE EXCAVATION, THE PUBLIC THAT MAY BE ABOVE THE EXCAVATION, OR ANY STRUCTURES ADJACENT TO THE EXCAVATION. ALL COSTS FOR DESIGNING, DRAWING, AND CONSTRUCTING THE FACILITY SHALL BE INCLUDED IN THE PRICE BID FOR CONTRACT ITEMS.

12. SMALL AMOUNTS OF EXCAVATION MAY BE NECESSARY AT SOME OF THE SITES. THIS MATERIAL MAY BE USED AS E.S.F.E. MATERIAL AND WILL BE PAID FOR AS BORROW. NO E.S.F.E. MATERIAL SHALL BE REMOVED FROM THE PROJECT WITHOUT THE APPROVAL OF THE ENGINEER.

13. VEGETATIVE MATERIAL WILL BE REMOVED PRIOR TO PLACEMENT OF GRANULAR MATERIAL. THE COST OF WHICH SHALL BE ABSORBED IN OTHER ITEMS BID.

14. PRIOR TO EARTHWORK OPERATIONS, THE EXISTING TOP 4" TOPSOIL IS TO BE STRIPPED AND STOCKPILED. AFTER THE GRADING OPERATIONS ARE COMPLETED, SAID TOPSOIL SHALL BE PLACED ON ALL AREAS THAT ARE NOT TO BE PAVED OR OTHERWISE PROTECTED, IN ACCORDANCE WITH SECTION 211 OF THE SPECIFICATIONS, OR THE VEGETATION SCHEDULE (SEE WK. SH. VS-1). EXISTING TOPSOIL AND ALL COSTS ASSOCIATED WITH STRIPPING, HAULING, STOCKPILING, AND PLACEMENT OF THE EXISTING TOPSOIL IS TO BE ABSORBED IN OTHER EARTHWORK ITEMS.

15. CLEARING IN WETLANDS IS LIMITED TO TEN (10) FEET BEYOND CONSTRUCTION LIMITS, EXCEPT UNDER BRIDGES AND IN SIGHT FLARES. CLEARING UNDER BRIDGES (IN WETLANDS) IS LIMITED TO WITHIN TWENTY-FIVE (25) FEET ON ONE SIDE OF THE CENTERLINE AND FIFTY (50) FEET ON THE OTHER SIDE OF THE CENTERLINE. WITHIN THIS SEVENTY-FIVE (75) FOOT WIDE AREA, THE CONTRACTOR SHALL BE PERMITTED TO CONSTRUCT A TEMPORARY HAUL ROAD. UPON COMPLETION OF THE BRIDGE THIS ROAD SHALL BE REMOVED BY THE CONTRACTOR TO NATURAL GROUND ELEVATION. ALL COSTS ASSOCIATED WITH THE HAUL ROAD ARE TO BE INCLUDED IN OTHER ITEMS BID. ADDITIONAL CLEARING IN THE VICINITY OF THE BRIDGE, OUTSIDE THE SEVENTY-FIVE (75) FOOT WIDE AREA, IS TO BE DONE WITH SAWS ONLY (NO DOZERS OR OTHER MECHANIZED CLEARING WHICH WILL DISTURB THE NATURAL GROUND SURFACE).

16. FOR CLEARING LIMITS ADJACENT TO THE STREAMS AT STATION(S) _____, SEE WORKING SHEET NUMBERS ECP-RB-_____ THE CLEARING LIMITS SHOWN ON THESE SHEETS ARE ONLY FOR THE RIPARIAN BUFFER CLEARING. CLEARING AT OTHER LOCATIONS SHOULD STILL APPLY.

17. WIRE FENCE BACKING WILL BE REQUIRED FOR ALL SILT FENCE. (SEE WK. NO. ECD-3)

18. THE EROSION CONTROL DEVICES REFERENCED IN THESE PLANS ARE A MINIMUM REQUIREMENT. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ENSURE THAT SILT DOES NOT LEAVE THE RIGHT OF WAY OR CONTAMINATE WATERS OF THE U. S. DURING CONSTRUCTION. THE CONTRACTOR SHALL SUBMIT AN EROSION CONTROL PLAN PRIOR TO COMMENCEMENT OF WORK AND MAINTAIN THE PLAN DURING CONSTRUCTION. ANY ADDITIONAL SILT BASINS NOT SHOWN IN THE PLANS SHALL BE INCLUDED IN THE CONTRACTOR'S EROSION CONTROL PLAN PRIOR TO SUBMITTING FOR APPROVAL.

19. ALL ITEMS OF WORK ASSOCIATED WITH THE INSTALLATION OF A CONSTRUCTION ENTRANCE SHALL BE ABSORBED IN OTHER ITEMS OF WORK.

20. THE CONTRACTOR SHALL REPAIR ANY DAMAGE TO THE PAVED OR UNPAVED SHOULDER THAT MIGHT OCCUR DURING CONSTRUCTION. ANY REPAIR TO SHOULDER WILL BE IN ACCORDANCE WITH THE APPLICABLE SECTIONS OF ***THE MISSISSIPPI STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION***. NO PAYMENT WILL BE MADE FOR REPAIR OF DAMAGED SHOULDER.

21. WHERE MILLING IS REQUIRED, THE CONTRACTOR SHALL PROVIDE OUTLETS IN THE EXISTING SHOULDERS AT SUFFICIENT INTERVALS TO PREVENT POOLING OR STANDING WATER ON THE MILLED SURFACE, THE COST OF WHICH SHALL BE ABSORBED IN OTHER ITEMS BID.

22. ANY REFERENCE TO PROJECT NUMBER _____ IS TO BE UNDERSTOOD THAT _____ IS THE CORRECT PROJECT NUMBER.

23. IF COLORS ARE USED ON PLAN/PROFILE SHEETS, THEY ARE INTENDED TO VISUALLY EASE THE LOCATION OF ELEMENTS FOR USERS OF THESE DRAWINGS. ALTHOUGH THE INTENT IS TO CATEGORIZE EVERYTHING AS EITHER EXISTING OR PROPOSED IT IS THE END USER'S RESPONSIBILITY TO ENSURE ALL ELEMENTS ARE INTERPRETED CORRECTLY, REGARDLESS OF COLOR.

24. ALL DIMENSIONS AND SPACINGS FOR BRIDGE RAIL CONNECTORS SHALL BE VERIFIED IN THE FIELD BY THE CONTRACTOR PRIOR TO FABRICATION.

25. ALL EXISTING SIGNS WHICH ARE TO BE REMOVED AS A PART OF THIS PROJECT THAT ARE NOT IN CONFLICT WITH CONSTRUCTION SHALL REMAIN IN PLACE UNTIL NEW SIGNS ARE INSTALLED UNLESS NOTED OR DIRECTED OTHERWISE BY THE PROJECT ENGINEER. ROADWAY SIGNS THAT ARE IN CONFLICT WITH CONSTRUCTION SHALL BE REMOVED AND RELOCATED BY THE CONTRACTOR AS DIRECTED BY THE ENGINEER, THE COST OF WHICH SHALL BE ABSORBED IN OTHER ITEMS BID.

26. ALL PERMANENT SIGNS SHALL CONFORM TO THE LATEST EDITION OF THE MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES.

27. ALL SIGN LOCATIONS SHALL BE APPROVED BY THE PROJECT ENGINEER PRIOR TO INSTALLATION.

28. ALL SIDE ROAD, STOP SIGN MOUNTED STREET NAME SIGNS TO BE SALVAGED AND STORED AT THE DIRECTION OF THE PROJECT ENGINEER FOR DELIVERY TO THE CITY (NOT A SEPARATE PAY ITEM).

29. EXISTING SPECIFIC SERVICE (BUSINESS LOGO) SIGNS ARE TO REMAIN IN PLACE UNLESS NOTED IN THE PLANS OR DIRECTED OTHERWISE BY THE PROJECT ENGINEER. LOGO SIGNS THAT REQUIRE RELOCATION OR REMOVAL WILL BE DONE SO BY MISSISSIPPI LOGO, INC. (601-853-7100).

30. THE LOCATION AND SPACING OF SIGNS, SHOWN ON THE TRAFFIC CONTROL PLANS, ARE APPROXIMATE AND MAY BE ADJUSTED AS NECESSARY TO FIT FIELD CONDITIONS.

32. ALL TRAFFIC CONTROL DEVICES ON THIS PROJECT SHALL COMPLY WITH PART VI OF THE ***MUTCD*** (LATEST EDITION).

32. ALL PLASTIC DRUMS SHALL HAVE A BALLASTING COLLAR MADE FROM RECYCLED TRUCK TIRES OR OTHER SUITABLE MATERIAL.

33. FLUORESCENT ORANGE SHEETING SHALL BE USED ON ALL CONSTRUCTION AND TRAFFIC CONTROL SIGNS EXCEPT FOR THOSE DESIGNATED ON THE PLANS TO BE BLACK LEGEND AND BORDER ON WHITE BACKGROUND.

34. THE CONTRACTOR SHALL COORDINATE WITH THE CONTRACTOR FROM ADJACENT PROJECT(S) IN IMPLEMENTING THE TRAFFIC CONTROL PLAN AS DIRECTED BY THE ENGINEER. ALL CONFLICTING SIGNS SHALL BE COVERED OR REMOVED AS DIRECTED BY THE ENGINEER.

35. THE CONTRACTOR SHALL COVER OR REMOVE ANY TEMPORARY TRAFFIC CONTROL SIGNS SHOWN IN THE TRAFFIC CONTROL PLAN THAT DO NOT APPLY TO THE CURRENT PHASE.

36. THE RETROREFLECTIVE SIGN SHEETING ON RIGID, TEMPORARY TRAFFIC CONTROL (ORANGE) SIGNS SHALL BE MINIMUM TYPE IX.

37. TEMPORARY STRIPING SHALL CONFORM TO FINISHED STRIPE SPECIFICATIONS FOR ALIGNMENT, NEATNESS, AND STRAIGHTNESS.

38. UTILITIES ON THE DRAWINGS ARE SHOWN IN THEIR ORIGINAL LOCATION BASED UPON THE BEST INFORMATION AVAILABLE TO THE ENGINEER. UTILITIES THAT WERE FOUND TO BE IN CONFLICT WITH CONSTRUCTION HAVE BEEN RELOCATED. PERMITS ARE ON FILE WITH THE DEPARTMENT SHOWING THE APPROXIMATE LOCATION OF UTILITIES RELOCATED WITHIN THE RIGHT-OF-WAY. THE ENGINEER CAN NOT AND DOES NOT WARRANT THAT THIS INFORMATION IS COMPLETE OR ACCURATE. THE CONTRACTOR MUST COORDINATE DIRECTLY WITH THE INVOLVED UTILITY OWNERS TO HAVE UNDERGROUND UTILITY LINES FIELD LOCATED IN ADVANCE OF CONSTRUCTION.

39. CONTRACTOR SHALL COOPERATE WITH UTILITY COMPANIES (C-SPIRE AND SPIRE ENERGY) FOR UTILITY RELOCATION WORK. SEE TRAFFIC CONTROL PLAN SHEETS FOR MORE INFORMATION.

40. SEE BELOW FOR A LIST OF PUBLIC UTILITIES CONTACT INFORMATION:
CITY OF HATTIESBURG
WATER & SEWER - (601) 545-4530 - 900 JAMES STREET, HATTIESBURG, MS 39401
AT&T - (601) 310-0704 - 100 BRUNE STREET, HATTIESBURG, MS 39401
MS POWER COMPANY - (601) 426-4800 - 5082 HWY 42, HATTIESBURG, MS 39401
XFINITY (COMCAST) - (601) 874-1213 - 2100 LINCOLN ROAD, HATTIESBURG, MS 39401
SPIRE GAS - (601) 549-9071 - 2826 DAUPHIN STREET, MOBILE, AL 36606
CSPIRE - (601) 624-4026 - 1018 HIGHLAND COLONY PARKWAY, RIDGELAND, MS 39157

41. SOME WORK IS REQUIRED OUTSIDE THE PROJECT LIMITS. NO ADDITIONAL COMPENSATION WILL BE MADE FOR SUCH WORK EXCEPT AS PROVIDED BY SPECIFIC PAY ITEMS INCLUDED IN THE PLANS.

42. THE CONTRACTOR IS RESPONSIBLE FOR FIELD-VERIFICATION OF EXISTING GRADES AND MAKING ADJUSTMENTS AS NECESSARY WITH THE APPROVAL OF THE PROJECT ENGINEER.

43. THE CONTRACTOR SHALL COORDINATE AND CONDUCT WORK AT LOCAL ROADS AND DRIVEWAYS IN A MANNER SUCH THAT ACCESS IS NOT INTERRUPTED UNNECESSARILY. ACCESS SHALL BE PRESERVED IN THE BEST MANNER POSSIBLE. COORDINATION AND COMMUNICATION WITH LANDOWNERS MAY BE NECESSARY TO PREVENT INTERRUPTION OF DRIVEWAY ACCESS.

44. ALL TREES ARE TO BE REMOVED WITHIN CLEARING LIMITS UNLESS OTHERWISE NOTED IN THE PLANS.

45. NO BURNING WILL BE ALLOWED ON SITE.

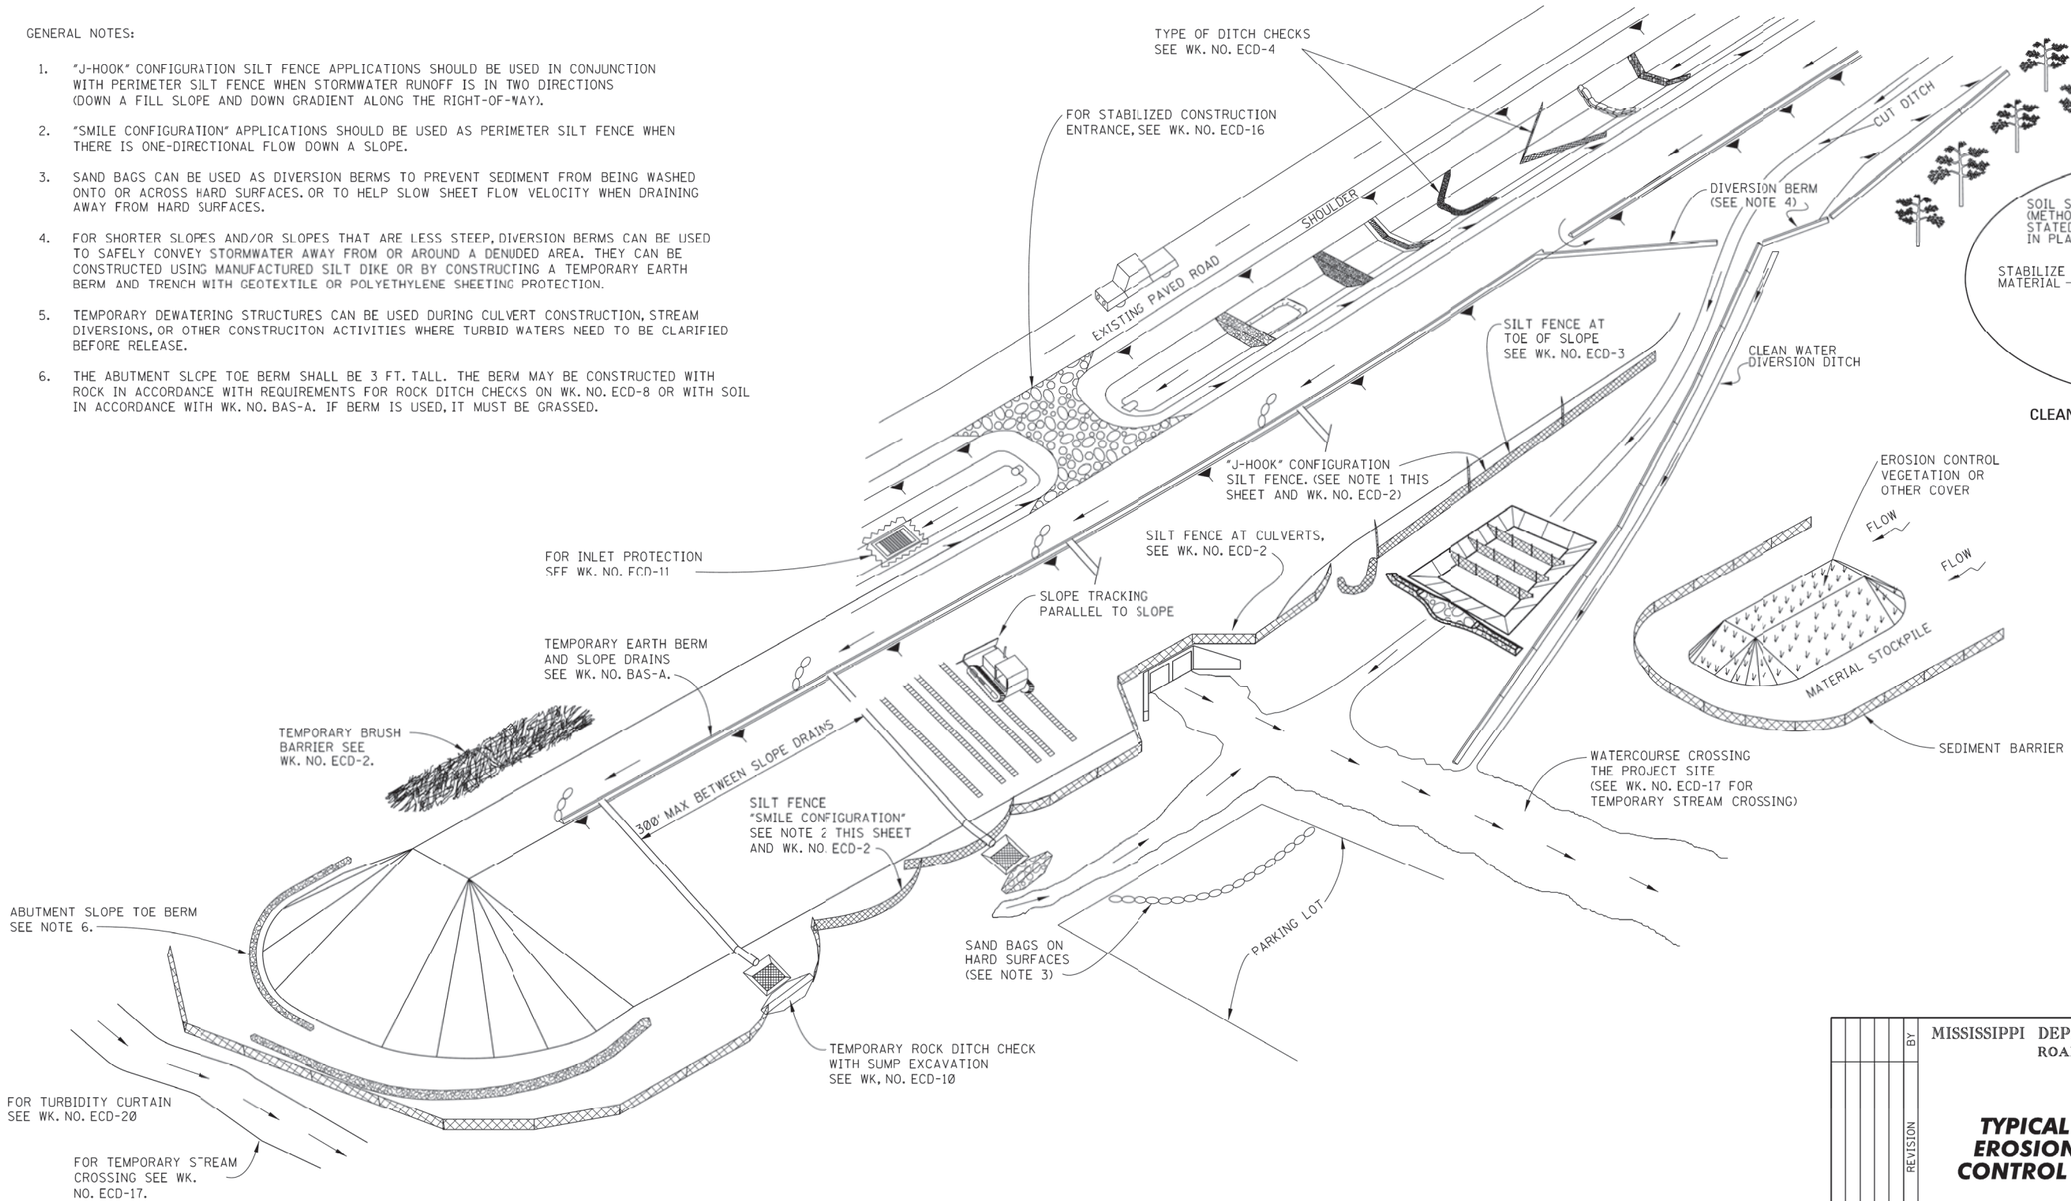
GENERAL NOTES:

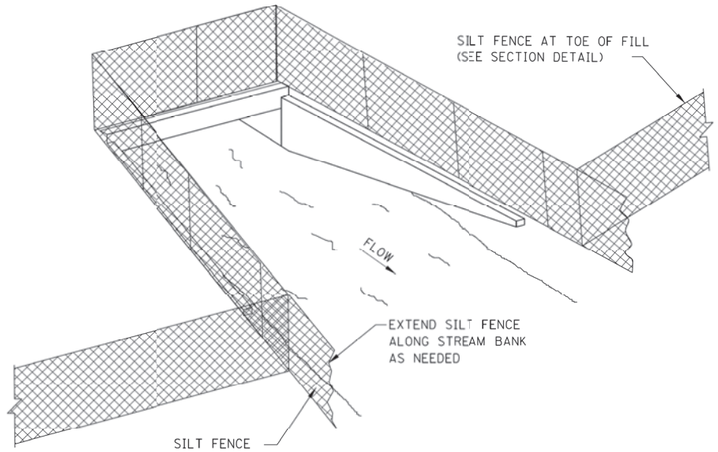
1. "J-HOOK" CONFIGURATION SILT FENCE APPLICATIONS SHOULD BE USED IN CONJUNCTION WITH PERIMETER SILT FENCE WHEN STORMWATER RUNOFF IS IN TWO DIRECTIONS (DOWN A FILL SLOPE AND DOWN GRADIENT ALONG THE RIGHT-OF-WAY).



2. "SMILE CONFIGURATION" APPLICATIONS SHOULD BE USED AS PERIMETER SILT FENCE WHEN THERE IS ONE-DIRECTIONAL FLOW DOWN A SLOPE.

3. SAND BAGS CAN BE USED AS DIVERSION BERMS TO PREVENT SEDIMENT FROM BEING WASHED ONTO OR ACROSS HARD SURFACES. OR TO HELP SLOW SHEET FLOW VELOCITY WHEN DRAINING AWAY FROM HARD SURFACES.

4. FOR SHORTER SLOPES AND/OR SLOPES THAT ARE LESS STEEP, DIVERSION BERMS CAN BE USED TO SAFELY CONVEY STORMWATER AWAY FROM OR AROUND A DENUDED AREA. THEY CAN BE CONSTRUCTED USING MANUFACTURED SILT DIKE OR BY CONSTRUCTING A TEMPORARY EARTH BERM AND TRENCH WITH GEOTEXTILE OR POLYETHYLENE SHEETING PROTECTION.



5. TEMPORARY DEWATERING STRUCTURES CAN BE USED DURING CULVERT CONSTRUCTION, STREAM DIVERSIONS, OR OTHER CONSTRUCITON ACTIVITIES WHERE TURBID WATERS NEED TO BE CLARIFIED BEFORE RELEASE.

6. THE ABUTMENT SLOPE TOE BERM SHALL BE 3 FT. TALL. THE BERM MAY BE CONSTRUCTED WITH ROCK IN ACCORDANCE WITH REQUIREMENTS FOR ROCK DITCH CHECKS ON WK. NO. ECD-8 OR WITH SOIL IN ACCORDANCE WITH WK. NO. BAS-A. IF BERM IS USED, IT MUST BE GRASSED.

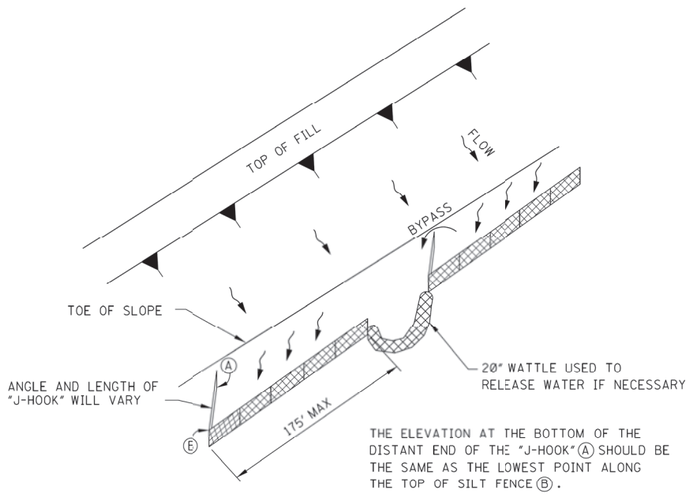
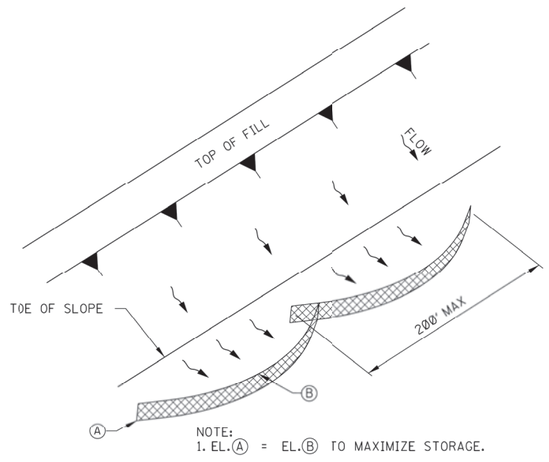
SEDIMENT BARRIER AT CROSS DRAIN

FRONT ELEVATION



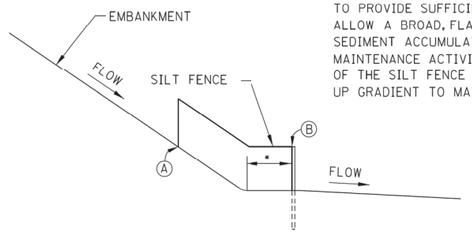
SIDE ELEVATION



TEMPORARY BRUSH BARRIER

NOTES:

1. BRUSH BARRIER MAY BE USED WHERE NATURAL GROUND IS LEVEL OR SLOPING AWAY FROM PROJECT.
2. PLACE BRUSH, LOG AND TREE LAPS APPROXIMATELY PARALLEL TO TOE OF FILL SLOPE WITH SOME OF THE HEAVIER MATERIALS BEING PLACED ON TO TO PROPERLY SECURE THE BARRIER AS DETAILED AT LOCATIONS SHOWN ON PLANS OR AS DIRECTED OR PERMITTED BY THE ENGINEER.
3. TO ALLOW WATER TO SEEP THROUGH BRUSH BARRIER, INTERMINGLE THE BRUSH, LOG AND TREE LAPS SO AS NOT TO FORM A SOLID DAM.
4. THE BRUSH BARRIER MAY BE CHOKED WITH FILTER FABRIC. THE COST OF FABRIC TO BE INCLUDED IN OTHER ITEMS BID.
5. TEMPORARY BRUSH BARRIER WILL NOT BE MEASURED FOR SEPARATE PAYMENT.



"J–HOOK" SILT FENCE
APPLICATION

"SMILE–CONFIGURATION" SILT FENCE
APPLICATION

NOTE: ANCHOR AND INSTALL SILT FENCE PER DETAILS SHOWN ON WK. NO. ECD-3

- SILT FENCE SHOULD BE LOCATED AWAY FROM THE TOE OF THE SLOPE TO PROVIDE SUFFICIENT SPACE TO ALLOW A BROAD, FLAT AREA FOR SEDIMENT ACCUMULATION AND MAINTENANCE ACTIVITIES. THE ENDS OF THE SILT FENCE SHOULD BE TURNED UP GRADIENT TO MAXIMIZE STORAGE.

REQUIRED LAPPING

GENERAL NOTES:

1. SILT FENCES SHOULD BE USED IN AREAS WHERE FLOW IS NOT SEVERE.
2. SILT FENCES ARE TEMPORARY SEDIMENT CONTROL ITEMS THAT SHOULD BE ERECTED OPPOSITE ERODIBLE AREAS SUCH AS NEWLY GRADED FILL SLOPES AND ADJACENT TO STEAMS AND CHANNELS.
3. SILT FENCE SHOULD BE PLACED WELL INSIDE RIGHT-OF-WAY AND ALONG EDGE OF CLEARING LIMITS. THIS WILL ALLOW ROOM FOR BACK-UP FENCE IF FIRST FENCE BECOMES FULL.
4. WHENEVER POSSIBLE SILT FENCE SHOULD BE CONSTRUCTED ACROSS A LEVEL AREA IN THE SHAPE OF A SMILE. THIS AIDS IN PONDING OF RUNOFF AN FACILITATES SEDIMENTATION.
5. THE CONTRACTOR MAY ELECT TO USE EITHER METHOD I OR METHOD II. COST TO BE LINEAR FEET OF SILT FENCE.
6. METHOD II INSTALLATION SHALL BE ACCOMPLISHED USING AN IMPLEMENT THAT IS MANUFACTURED FOR THE APPLICATION AND PROVIDES A CONFIGURATION MEETING THE REQUIREMENTS OF DETAIL.
7. WIRE SHALL BE A MINIMUM OF 32" IN WIDTH AND SHALL HAVE A MINIMUM OF 6 LINE WIRES WITH 12" STAY SPACING.
8. GEOTEXTILE FABRIC MEETING THE TYPE II MATERIAL REQUIREMENTS AND INSTALLED ACCORDING TO SPECIFICATION MAY BE USED WITHOUT WIRE FENCE.

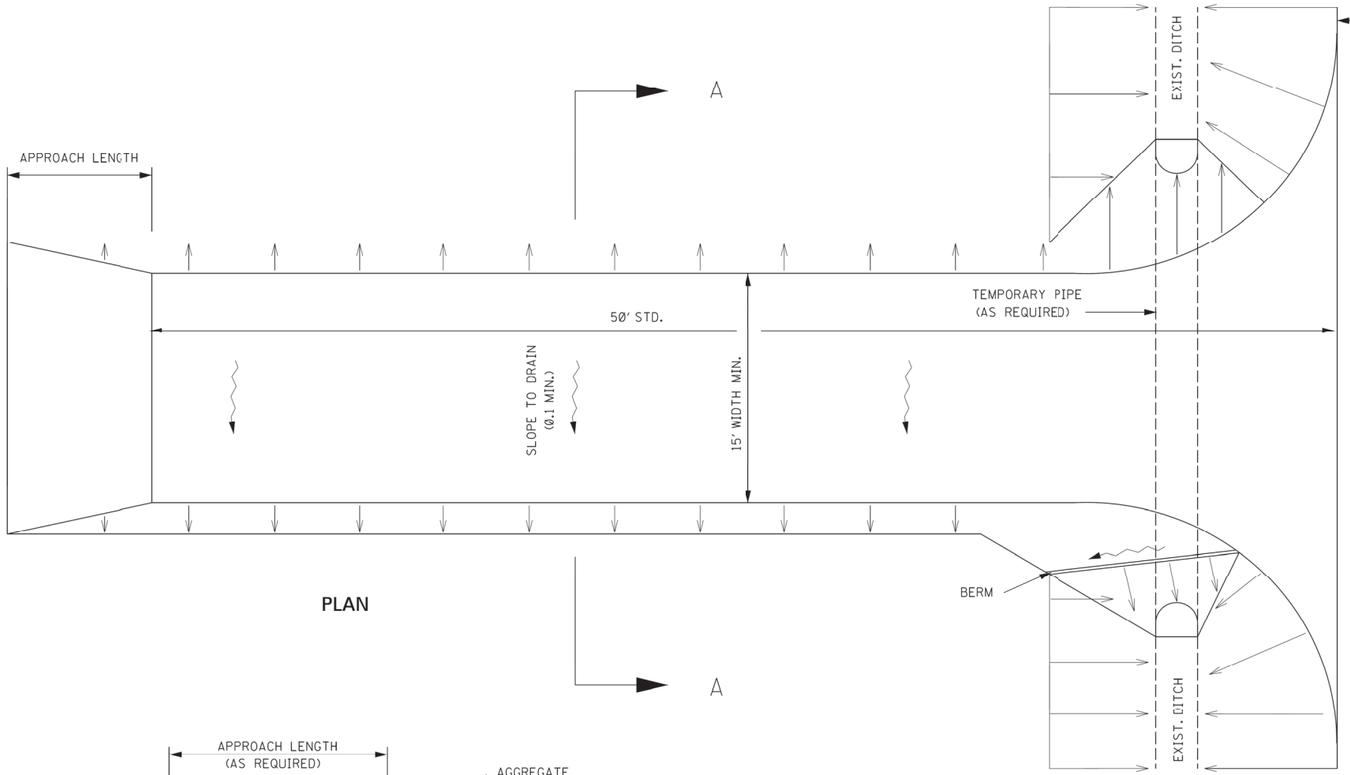
DETAIL (DITCH CHECK)

SECTION A–A



ELEVATION DETAIL

NOTES:

1. WATTLE DITCH CHECKS CAN BE USED FOR VELOCITY REDUCTION AND CONTROL OF SEDIMENT TRANSPORT UNDER LOW TO MEDIUM FLOW CONDITIONS.
2. THE PLACEMENT INTERVAL BETWEEN WATTLE DITCH CHECK SHALL BE 100' UNLESS SHOWN OTHERWISE ON THE PLANS OR EROSION CONTROL PLAN APPROVED BY THE ENGINEER. SEE SPACING GUIDANCE ON WK. NO. ECC-4.
3. ANCHORING WOOD STAKES SHALL BE SIZED, SPACED, DRIVEN, AND BE OF A MATERIAL THAT EFFECTIVELY SECURES THE CHECK. STAKE SPACING SHALL BE A MAXIMUM OF THREE FEET. ALL NON-DEGRADABLE MATERIALS SHALL BE REMOVED WHEN NO LONGER NEEDED.
4. TRENCHING OF WATTLES MAY BE NECESSARY IF PIPING BECOMES EVIDENT.
5. WATTLES SHOULD NOT BE USED IN HARD BOTTOM CHANNELS.
6. IN THE EVENT WATTLES CANNOT BE SECURED IN PLACE USING WOOD STAKES, SAND BAGS MAY BE USED IN LIEU OF WOOD STAKES IN ORDER TO SECURE THE WATTLES IN PLACE. IF SANDS BAGS ARE USED IN THIS APPLICATION THEY WILL NOT BE A SEPARATE PAY ITEM.

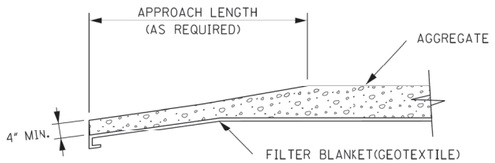
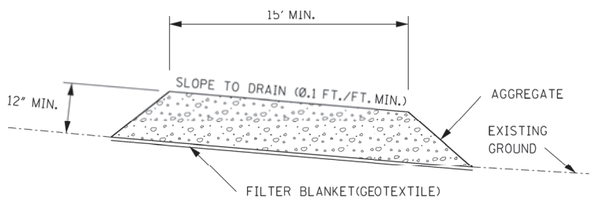
	DATE	ISSUE DATE: AUGUST 01, 2017	SHEET NUMBER 6106

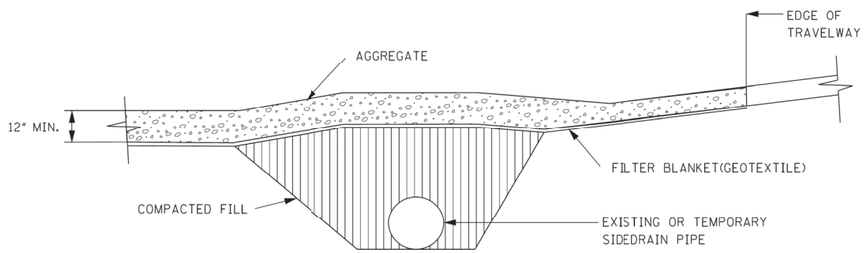


STATE	PROJECT NO.
MISS.	



PLAN

GENERAL NOTES:



1. A STABILIZED CONSTRUCTION ENTRANCE SHALL BE CONSTRUCTED AT POINTS OF EGRESS FROM UNSTABILIZED AREAS OF THE PROJECT TO PUBLIC ROADS WHERE OFFSITE TRACKING OF MUD COULD OCCUR. TRAFFIC FROM UNSTABILIZED AREAS OF THE PROJECT SHALL BE DIRECTED THRU THE STABILIZED ENTRANCE. BARRIERS, FLAGGING, OR OTHER POSITIVE MEANS SHALL BE USED AS REQUIRED TO LIMIT AND DIRECT VEHICULAR EGRESS ACROSS THE STABILIZED ENTRANCE.
2. THE CONTRACTOR MAY PROPOSE AN ALTERNATIVE TECHNIQUE TO MINIMIZE OFFSITE TRACKING OF SEDIMENT. THE ALTERNATIVE MUST BE REVIEWED AND APPROVED BY THE ENGINEER PRIOR TO ITS USE.
3. ALL MATERIALS SPILLED, DROPPED, OR TRACKED ONTO PUBLIC ROADS (INCLUDING THE STABILIZED CONSTUCTION ENTRANCE AGGREGATE AND CONSTRUCTION MUD) SHOULD BE REMOVED DAILY, OR MORE FREQUENTLY IF SO DIRECTED BY THE ENGINEER.
4. SIZE III STABILIZER AGGREGATE OR LARGER SHALL BE USED.
5. THE STABILIZED CONSTRUCTION ENTRANCE SHALL BE MAINTAINED IN A CONDITION THAT WILL ALLOW IT TO PERFORM ITS FUNCTION TO PREVENT OFFSITE TRACKING. THE STABILIZED CONSTRUCTION ENTRANCE SHOULD BE RINSED WHEN NECESSARY TO MOVE ACCUMULATED MUD DOWNWARD THRU THE STONE. ADDITIONAL STABILIZATION OF THE VEHICULAR ROUTE LEADING TO THE STABILIZED ENTRANCE MAY BE REQUIRED TO LIMIT THE MUD TRACKED.
6. THE NOMINAL SIZE OF A STANDARD STABILIZED CONSTRUCTION ENTRANCE IS 15' X 50' UNLESS OTHERWISE SHOWN IN THE EROSION CONTROL PLAN.
7. COSTS OF ALL ITEMS ON THIS SHEET SHALL BE INCLUDED IN OTHER ITEMS BID.

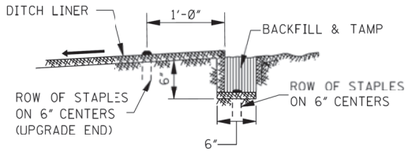
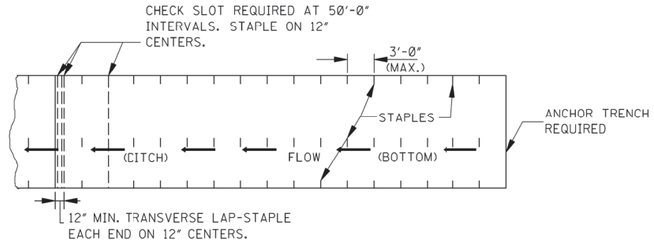
DETAIL OF TOE WALL



NOTE: TOE WALL REQUIRED UPSTREAM AND DOWNSTREAM.

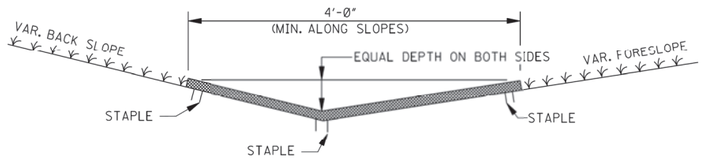
CONCRETE PAVED DITCH

NOTES:



1. CONCRETE PAVED DITCHES SHALL BE GROOVED AT 20'-0" INTERVALS. THE GROOVES SHALL BE CUT TO A DEPTH OF NOT LESS THAN 1".
2. DIMENSIONS D & W ARE AS FOLLOWS:
   D(MINIMUM) = 6"
   D(NOMINAL) = 9"
   W(MINIMUM) = 24"
3. CHAIR SUPPORTS FOR THE WIRE MESH WILL NOT BE REQUIRED. HOWEVER, THE CONTRACTOR SHALL PLACE THE WIRE MESH IN A SATISFACTORY AND WORKMANLIKE MANNER TO ENSURE THAT THE FINAL POSITION IS REASONABLY NEAR THE POSITION INDICATED.

*4. CENTER ROW OF STAPLES MAY BE OMITTED ON DITCH LINER.



ANCHOR TRENCH DETAIL

NOTE: ANCHOR TRENCH REQUIRED AT THE BEGINNING AND ENDING OF EACH AREA TO BE COVERED, EXCEPT DOWNSTREAM END ADJOINING A STRUCTURE.

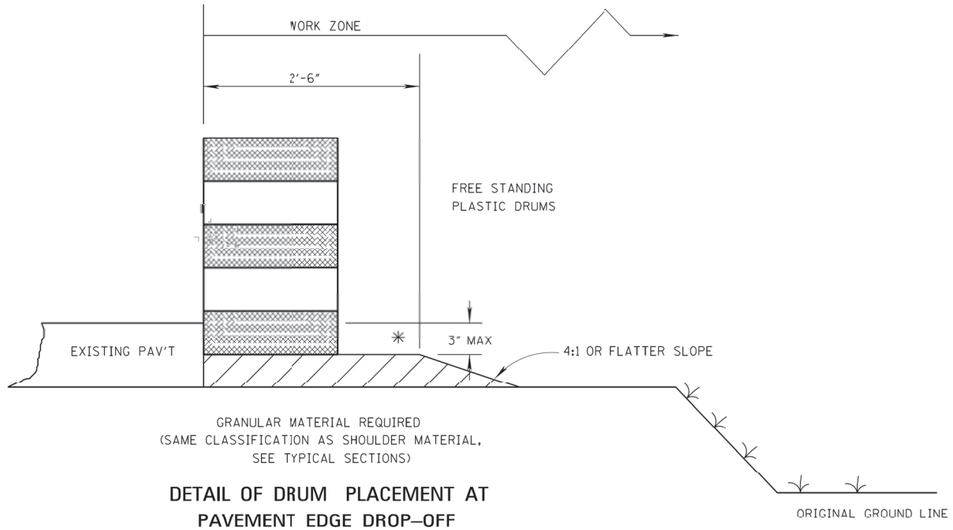
TYPICAL SHOULDER CLOSURE

(1) TO BE USED WITH EIGHT (8) FOOT OR GREATER WIDTH IMPROVED SHOULDER.
(2) TO BE USED WHEN CONSTRUCTION VEHICLES (EQUIPMENT) ENCROACHES ON OR WITHIN TWO (2) FEET OF THE SHOULDER BREAK.



TYPICAL SHOULDER WORK #1
(SEE NOTE A–1 THIS SHEET)

TYPICAL SHOULDER WORK #2

NOTE:
WORK OUTSIDE TWO (2) FOOT AND WITHIN TEN (10) FEET OF THE SHOULDER BREAK MAY BE PROTECTED BY PLACING DRUMS ALONG THE SHOULDER EDGE, 300 FEET PRIOR TO AND 50 FEET BEYOND THE WORK AREA, OR SEE NOTE A-3 THIS SHEET.

DETAIL OF DRUM PLACEMENT AT PAVEMENT EDGE DROP–OFF

NOTES:

✳ A. PAVEMENT EDGE DROP-OFF

1. IF LESS THAN TWO AND ONE QUARTER (2.25) INCHES-NO PROTECTION REQUIRED. PLACE A SHOULDER WORK SIGN (W21-5) 500 FEET IN ADVANCE OF WORK ZONE SHOULDER AND A LOW SHOULDER SIGN (W8-9) AT THE BEGINNING AND THROUGHOUT THE WORK ZONE @ (750′+O.C.).
2. TWO AND ONE QUARTER TO THREE INCHES-PLACE DRUMS, VERTICAL PANELS OR BARRICADES EVERY 100 FEET ON TANGENT SECTIONS FOR SPEEDS OF 50 MILES PER HOUR OR GREATER. CONES MAY BE USED IN PLACE OF DRUMS, PANELS, AND BARRICADES DURING DAYLIGHT HOURS. FOR TANGENT SECTIONS WITH SPEEDS LESS THAN 50 MILES PER HOUR AND FOR CURVES, DEVICES SHOULD BE PLACED EVERY 50 FEET. SPACING FOR TAPERS SHOULD BE IN ACCORDANCE WITH THE M.U.T.C.D. (1 / 3 L, WHERE L IS THE TAPER LENGTH IN FEET.)
3. GREATER THAN THREE (3) INCHES-POSITIVE SEPARATION OR WEDGE WITH 4:1 OR FLATTER SLOPE NEEDED. IF THERE IS EIGHT (8) FEET OR MORE DISTANCE BETWEEN THE EDGE OF TRAVEL LANE AND DROP-OFF, THEN DRUMS, PANELS OR BARRICADES MAY BE USED.
4. FOR TEMPORARY CONDITIONS, DROP-OFFS GREATER THAN THREE (3) INCHES MAY BE PROTECTED WITH DRUMS, VERTICAL PANELS OR BARRICADES FOR SHORT DISTANCES DURING DAYLIGHT HOURS WHILE WORK IS BEING DONE IN THE DROP-OFF AREA.
5. LESSER TREATMENTS THAN THOSE DESCRIBED ABOVE MAY BE CONSIDERED FOR LOW-VOLUME LOCAL STREETS.

B. DRUM SPACING

1. TANGENTS = 2 X S
2. TAPERS = L / 3
   WHERE L = S X W
   L = TAPER LENGTH IN FEET
   S = SPEED IN MPH (POSTED OR 85 PERCENTILE)
   W = WIDTH OF OFFSET IN FEET

C. ALL TRAFFIC CONTROL ITEMS SHOWN ON THIS SHEET SHALL BE PAID FOR UNDER MAINTENANCE OF TRAFFIC.

STANDARD INSTALLATION DETAIL

TABLE 1: BEDDING AND BACKFILL REQUIREMENTS

BEDDING AND BACKFILL REQUIREMENTS FOR NON-RIGID PIPE IN CROSS DRAIN AND STORM DRAIN APPLICATIONS

A. BEDDING SHALL BE CLASS B IN ACCORDANCE WITH THE MISSISSIPPI STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, LATEST EDITION.
B. BACKFILL MATERIAL SHALL BE ONE OF THE FOLLOWING:
   1. FLOWABLE FILL IN ACCORDANCE WITH THE MISSISSIPPI STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION LATEST EDITION.
   2. CRUSHED STONE AGGREGATE BACKFILL IN ACCORDANCE WITH THE MISSISSIPPI STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, LATEST EDITION.

IF FLOWABLE FILL IS UTILIZED, CARE SHALL BE TAKEN TO PREVENT "FLOATING" OF THE PIPE.
THE COST OF FURNISHING AND PLACING THE REQUIRED BEDDING AND BACKFILL MATERIAL INDICATED IN A AND B SHALL BE INCLUDED IN THE UNIT COST OF THE NON-RIGID PIPE ALTERNATE. I.E.. THERE IS NO SEPARATE PAY ITEM FOR NON-RIGID PIPE BEDDING AND BACKFILL MATERIAL.

BEDDING AND BACKFILL REQUIREMENTS FOR NON-RIGID PIPE IN SIDE DRAIN APPLICATIONS

A. BEDDING SHALL BE CLASS C IN ACCORDANCE WITH THE MISSISSIPPI SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, LATEST EDITION.
B. BACKFILL MATERIAL SHALL BE IN ACCORDANCE WITH THE MISSISSIPPI SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, LATEST EDITION. PIPES THAT SERVE AS A SIDE DRAIN ON DEPARTMENT RIGHT OF WAY, BUT CARRY DRAINAGE UNDER A COUNTY OR LOCAL ROAD SHALL ADHERE TO THE BEDDING AND BACKFILL REQUIREMENTS FOR A CROSS DRAIN CONTAINED ABOVE.

THE COST OF FURNISHING AND PLACING THE REQUIRED BEDDING AND BACKFILL MATERIAL INDICATED IN A AND B SHALL BE INCLUDED IN THE UNIT COST OF THE NON-RIGID ALTERNATE PIPE, I.E., THERE IS NO SEPARATE PAY ITEM FOR NON-RIGID BEDDING AND BACKFILL MATERIAL.

TRENCH CROSS SECTION SHOWING TERMINOLOGY

GENERAL NOTES:

1. MATERIALS
   THERMOPLASTIC PIPE
   POLYETHYLENE PIPE SHALL CONFORM TO THE REQUIREMENTS OF AASHTO M 294, LATEST EDITION.
   DESIGNATION OF TYPE: TYPE S: THIS PIPE WILL HAVE A FULL CIRCULAR CROSS SECTION WITH AN OUTER CORRUGATED PIPE WALL AND A SMOOTH INNER LINER.
   BEDDING MATERIAL AND STRUCTURAL BACKFILL
   BEDDING MATERIAL AND STRUCTURAL BACKFILL SHALL MEET THE REQUIREMENTS OF TABLE 1.
2. JOINTS
   JOINTS FOR THERMOPLASTIC PIPE SHALL MEET THE PERFORMANCE REQUIREMENTS OF SOILTIGHTNESS UNLESS WATERTIGHTNESS IS SPECIFIED.
   SUITABLE JOINTS CAN BE OBTAINED WITH THE FOLLOWING TYPES OF CONNECTIONS:
   A) CORRUGATED BANDS (WITH OR WITHOUT GASKETS)
   B) BELL AND SPIGOT PIPE ENDS (WITH OF WITHOUT GASKETS)
   C) DOUBLE BELL COUPLINGS (WITH OR WITHOUT GASKETS)
3. INSTALLATION
   MINIMUM TRENCH WIDTHS SHALL MEET THE REQUIREMENTS OF TABLE 3.
   THE MIDDLE THIRD OF THE BEDDING MATERIAL UNDER THE PIPE SHOULD BE LOOSELY PLACED, WHILE THE REMAINDER SHALL BE COMPACTED TO A MINIMUM 90% OF MAXIMUM DENSITY PER AASHTO T 99.
   A MINIMUM OF 4 INCHES OF BEDDING SHALL BE PROVIDED PRIOR TO PLACEMENT OF THE PIPE.
   STRUCTURAL BACKFILL SHALL BE PLACED AND COMPACTED IN LAYERS NOT EXCEEDING AN 8" LOOSE LIFT THICKNESS AND BROUGHT UP EVENLY ON BOTH SIDES OF THE PIPE WITH AN ELEVATION NOT LESS THAN 12 INCHES ABOVE THE TOP OF THE PIPE. A MINIMUM COMPACTION LEVEL OF 90% STANDARD DENSITY PER AASHTO T 99 SHALL BE ACHIEVED.
   MINIMUM COVER REQUIREMENTS SHALL MEET THE REQUIREMENTS OF TABLE 2.
   FOR MULTIPLE INSTALLATIONS OF POLYETHYLENE PIPES, A CLEAR DISTANCE BETWEEN THE PIPES SHALL MEET THE REQUIREMENTS OF TABLE 4.
4. CALCULATIONS FOR FILL DEPTHS ARE BASED ON PROPERTIES DEFINED IN AASHTO M294 AND CALCULATIONS IN AASHTO SEC. 19.

SHEET NUMBER 6531

EXHIBIT “B”
TO
ENCROACHMENT AGREEMENT

AS-BUILT DRAWINGS

[*yet to be determined***]**

EXHIBIT "C"
TO
ENCROACHMENT AGREEMENT FOR OVERHEAD FACILITIES

ENCROACHMENT GUIDELINES

1. EXCAVATION/BLASTING/SHORING

A. Plans for excavation, blasting and shoring on the easement must be approved by the Power Company prior to commencing any work. Excavation closer than **2.0 feet** to the pipeline shall be done by hand until the pipeline is exposed and shall be done only in the presence of a Power Company authorized representative.

B. Any plowing or ripping of soil on the easement, including agricultural, shall not be performed without the Power Company's prior approval and observation; *provided*, *however*, Encroaching Party shall be permitted to conduct excavation at depths less that twenty-four (24) inches, in accordance with Miss. Code Ann. § 77-13-5(3), as amended, without the Power Company's prior approval and observation. Subject to the requirements of Miss. Code Ann. § 77-13-5, *et seq*., prior to commencing any plowing or ripping activities contemplated hereunder, the depth of the existing underground facilities shall be confirmed.

C. When a backhoe is used, the bucket teeth shall be curled under each time it is brought back into the ditch to reduce the chance of teeth contact to the pipe.

2. FOREIGN LINE CROSSINGS

A. General Requirements

1. An authorized Power Company representative must be on-site during all excavation and cleanup work performed on the easement.
2. All buried lines crossing the easement must cross so that the angle measured between the proposed buried line and easement is not less than **45 degrees**.
3. For parallel pipeline/utility encroachments, if feasible, the foreign pipeline/utility should be located at the edge of the existing right-of-way but with no less than 15 feet of horizontal separation.
4. Surface markers shall be installed by the Encroaching Party on each side of the utility crossing and shall exhibit the depth of the crossing.

B. Communication and Electrical Lines (Telephone, TV, Etc.)

1. Such lines shall be installed in accordance with guidelines of the National Electric Safety Code (public utility power and light companies) or the National Electric Code (private power and light companies).
2. Such lines shall be encased in a rigid nonmetallic conduit across the full width of the right-of-way.
3. Such lines shall have a minimum ground cover as follows: **24 inches** for 0 to 600 volts; **30 inches** for 601 to 22,000 volts; **36 inches** for 22,001 to 40,000 volts; and **42 inches** for 41,001 and above.
4. If the power cable has an exposed concentric neutral, a test point from the ground wire shall be installed by the Power Company.

C. Sewer and Water Lines

1. These shall meet all above General Requirements of Buried Line Crossings except metallic conduit.
2. Sewer line crossings are limited to main or tight lines only. Distribution lines, perforated or non-enclosed, are not permitted.

D. Subsurface Drain Tile

These shall meet the provisions of Paragraph A.4. of General Requirements of Foreign Line Crossings.

E. Metallic Pipe Crossings

The Power Company and the Encroaching Party shall jointly conduct a cathodic protection interference survey and any costs, including, without limitation to any engineering costs, incurred related to this cathodic protection interference survey shall be the responsibility of the Encroaching Party. Based upon the survey data, the Power Company, in its sole and absolute discretion, shall determine if any modifications are needed to any Power Company facilities. The Encroaching Party shall accommodate and cooperate with the Power Company in the modification, relocation, rearrangement or alteration of said facilities. Any modification, relocation, rearrangement or alteration of said facilities shall be done in accordance with Paragraph 9 of the Agreement, including, without limitation, to the Encroaching Party's obligation to reimburse the Power Company for the costs incurred under this Paragraph 2.E.

Memorandum

Re: **Approve Agreement with Shows, Dearman and Waits, Inc to provide engineering services for the Cross Creek Capacity Analysis and authorize the Mayor to execute in duplicate.**
File Number: 2025-916
Minute Book #

Summary
Approve Agreement with Shows, Dearman and Waits, Inc to provide engineering services for the Cross Creek Capacity Analysis and authorize the Mayor to execute in duplicate.

Recommendation Statement
I recommend approval of this item.

Please place this on the October 21, 2025 City Council meeting for consideration.

This document has important legal consequences; consultation with an attorney is encouraged with respect to its use or modification. This document should be adapted to the particular circumstances of the contemplated Project and the controlling Laws and Regulations.

SHORT FORM OF AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES

Prepared by

Issued and Published Jointly by

EJCDC® E-520, Short Form of Agreement Between Owner and Engineer for Professional Services.
Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

SPECIAL NOTE ON USE OF THIS FORM

This abbreviated Agreement form ("Short Form") is intended for use only for professional services of limited scope and complexity. It does not address the full range of issues of potential importance to the parties. Depending on the scope and complexity of the services and the project, the Owner and Engineer may be better served by using the Agreement Between Owner and Engineer for Professional Services (EJCDC® E-500, 2014 Edition), or one of the several special-purpose EJCDC professional services agreement forms.

If the Owner intends to enter into a construction contract for implementation of a design prepared under the Short Form, or otherwise associated with professional services provided under the Short Form, Owner may wish to consider using EJCDC® C-700, Standard General Conditions of the Construction Contract, 2013 Edition, and other 2013 EJCDC Construction Series documents. The terms and provisions used in EJCDC® C-700 and the other EJCDC Construction Series documents are consistent with those used in the Short Form.

SHORT FORM OF AGREEMENT
BETWEEN OWNER AND ENGINEER
FOR PROFESSIONAL SERVICES

THIS IS AN AGREEMENT effective as of 10/21/2025 ("Effective Date") between the City of Hattiesburg ("Owner") and **Shows, Dearman and Waits, Inc.** ("Engineer").

Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows: **Cross Creek Lift Station Capacity Analysis** ("Project").

Engineer's services under this Agreement are generally identified as follows: **the performance of a flow monitoring study in the city-owned wastewater collection system in the upstream flow direction of the Cross Creek lift station, analysis of the collected data, analysis of lift stations capacity and a report of the study's findings.**

Owner and Engineer further agree as follows:

1.01 *Basic Agreement and Period of Service*

A. Engineer shall provide or furnish the Services set forth in this Agreement. If authorized by Owner, or if required because of changes in the Project, Engineer shall furnish services in addition to those set forth above ("Additional Services").

B. Engineer shall complete its Services within the following specific time period: If no specific time period is indicated, Engineer shall complete its Services within a reasonable period of time.

C. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's Services is impaired, or Engineer's Services are delayed or suspended, then the time for completion of Engineer's Services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

2.01 *Payment Procedures*

A. *Invoices:* Engineer shall prepare invoices in accordance with its standard invoicing practices and submit the invoices to Owner on a monthly basis. Invoices are due and payable within 45 days of receipt. If Owner fails to make any payment due Engineer for Services, Additional Services, and expenses within 45 days after receipt of Engineer's invoice, then (1) the amounts due Engineer will be increased at the rate of 1.5% per month (or the maximum rate of interest permitted by law, if less) from said forty-fifth day, and (2) in addition Engineer may, after giving seven days written notice to Owner, suspend Services under this Agreement until Engineer has been paid in full all amounts due for Services, Additional Services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

B. *Payment:* As compensation for Engineer providing or furnishing Services and Additional Services, Owner shall pay Engineer as set forth in Paragraphs 2.01, 2.02 (Services), and 2.03 (Additional Services). If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

writing of the specific basis for doing so, may withhold only that portion so disputed, and must pay the undisputed portion.

2.02 *Basis of Payment—Lump Sum*

A. Owner shall pay Engineer for Services as follows:

1. A Lump Sum amount of **$93,000.00**.

2. In addition to the Lump Sum amount, reimbursement for the following expenses: **None**

B. The portion of the compensation amount billed monthly for Engineer's Services will be based upon Engineer's estimate of the percentage of the total Services actually completed during the billing period.

2.03 *Additional Services:* For Additional Services, Owner shall pay Engineer an amount equal to the cumulative hours charged in providing the Additional Services by each class of Engineer's employees, times standard hourly rates for each applicable billing class; plus reimbursement of expenses incurred in connection with providing the Additional Services and Engineer's consultants' charges, if any. Engineer's standard hourly rates are attached as Appendix 1.

3.01 *Termination*

A. The obligation to continue performance under this Agreement may be terminated:

1. For cause,

a. By either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the Agreement's terms through no fault of the terminating party. Failure to pay Engineer for its services is a substantial failure to perform and a basis for termination.

b. By Engineer:

1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or

2) upon seven days written notice if the Engineer's Services are delayed for more than 90 days for reasons beyond Engineer's control, or as the result of the presence at the Site of undisclosed Constituents of Concern, as set forth in Paragraph 5.01.I.

c. Engineer shall have no liability to Owner on account of a termination for cause by Engineer.

d. Notwithstanding the foregoing, this Agreement will not terminate as a result of a substantial failure under Paragraph 3.01.A.1.a if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt of notice; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

2. For convenience, by Owner effective upon Engineer's receipt of written notice from Owner.

B. In the event of any termination under Paragraph 3.01, Engineer will be entitled to invoice Owner and to receive full payment for all Services and Additional Services performed or furnished in accordance with this Agreement, plus reimbursement of expenses incurred through the effective date of termination in connection with providing the Services and Additional Services, and Engineer's consultants' charges, if any.

4.01 *Successors, Assigns, and Beneficiaries*

A. Owner and Engineer are hereby bound and the successors, executors, administrators, and legal representatives of Owner and Engineer (and to the extent permitted by Paragraph 4.01.B the assigns of Owner and Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators, and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, money that is due or may become due) in this Agreement without the written consent of the other party, except to the extent that any assignment, subletting, or transfer is mandated by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise, nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, other third-party individual or entity, or to any surety for or employee of any of them. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

5.01 *General Considerations*

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with any services performed or furnished by Engineer. Subject to the foregoing standard of care, Engineer and its consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

B. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at the Project site, nor for any failure of a Constructor to comply with laws and regulations applicable to such Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

C. Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform its work.

D. Engineer's opinions (if any) of probable construction cost are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual construction cost will not vary from opinions of probable construction cost prepared by Engineer. If Owner requires greater assurance as to probable construction cost, then Owner agrees to obtain an independent cost estimate.

E. Engineer shall not be responsible for any decision made regarding the construction contract requirements, or any application, interpretation, clarification, or modification of the construction contract documents other than those made by Engineer or its consultants.

F. All documents prepared or furnished by Engineer are instruments of service, and Engineer retains an ownership and property interest (including the copyright and the right of reuse) in such documents, whether or not the Project is completed. Owner shall have a limited license to use the documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all Services and Additional Services relating to preparation of the documents and subject to the following limitations:

1. Owner acknowledges that such documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer;

2. any such use or reuse, or any modification of the documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and consultants; and

3. such limited license to Owner shall not create any rights in third parties.

G. Owner and Engineer may transmit, and shall accept, Project-related correspondence, documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with a mutually agreeable protocol.

H. To the fullest extent permitted by law, Owner and Engineer (1) waive against each other, and the other's employees, officers, directors, members, agents, insurers, partners, and consultants, any and all claims for or entitlement to special, incidental, indirect, or consequential damages arising out of, resulting from, or in any way related to this Agreement or the Project, and (2) agree that Engineer's total liability to Owner under this Agreement shall be limited to $100,000 or the total amount of compensation received by Engineer, whichever is greater.

I. The parties acknowledge that Engineer's Services do not include any services related to unknown or undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an unknown or undisclosed Constituent of Concern, then Engineer may, at its option and without liability for

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

consequential or any other damages, suspend performance of Services on the portion of the Project affected thereby until such portion of the Project is no longer affected, or terminate this Agreement for cause if it is not practical to continue providing Services.

J. Owner and Engineer agree to negotiate each dispute between them in good faith during the 30 days after notice of dispute. If negotiations are unsuccessful in resolving the dispute, then the dispute shall be mediated. If mediation is unsuccessful, then the parties may exercise their rights at law.

K. This Agreement is to be governed by the law of the state in which the Project is located.

L. Engineer's Services and Additional Services do not include: (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission; (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances; (3) providing surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements; or (4) providing legal advice or representation.

6.01 *Total Agreement*

A. This Agreement (including any expressly incorporated attachments), constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

7.01 *Definitions*

A. *Constructor*—Any person or entity (not including the Engineer, its employees, agents, representatives, and consultants), performing or supporting construction activities relating to the Project, including but not limited to contractors, subcontractors, suppliers, Owner's work forces, utility companies, construction managers, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.

B. *Constituent of Concern*—Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5101 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, State, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

This is **Appendix 1**, **Engineer's Standard Hourly Rates,** referred to in and part of the Short Form of Agreement between Owner and Engineer for Professional Services dated 10/21/2025.

Engineer's Standard Hourly Rates - 2025

A. *Standard Hourly Rates:*

1. Standard Hourly Rates are set forth in this Appendix 1 and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.

2. The Standard Hourly Rates apply only as specified in Paragraphs 2.01, 2.02, and 2.03, and are subject to annual review and adjustment.

B. *Schedule of Hourly Rates:*

Senior Engineer	**$195/Hour**
Professional Land Surveyor	**$195/Hour**
Project Engineer	**$150/Hour**
Junior Engineer	**$135/Hour**
Engineering Intern	**$125/Hour**
Graduate Engineer	**$115/Hour**
Senior AutoCad Technician	**$115/Hour**
AutoCad Technician	**$ 95/Hour**
Senior Resident Project Representative	**$ 105/Hour**
Resident Project Representative	**$ 95/Hour**
Field Crew	**$195/Hour**
Administrative	**$ 45/Hour**

Date: **Tuesday, October 21, 2025**

Re: **Approve Agreement with Shows, Dearman and Waits, Inc. for the McInnis Loop Water Connector Project and authorize the Mayor to execute in duplicate.**
File Number: 2025-917
Minute Book #

Summary
Approve Agreement with Shows, Dearman and Waites, Inc. for the McInnis Loop Water Connector project and authorize the Mayor to execute in duplicate.

Recommendation Statement
I recommend approval of this item.

Please place this on the October 21, 2025 City Council meeting for consideration.

This document has important legal consequences; consultation with an attorney is encouraged with respect to its use or modification. This document should be adapted to the particular circumstances of the contemplated Project and the controlling Laws and Regulations.

SHORT FORM OF AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES

Prepared by

Issued and Published Jointly by

EJCDC® E-520, Short Form of Agreement Between Owner and Engineer for Professional Services.
Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

SPECIAL NOTE ON USE OF THIS FORM

This abbreviated Agreement form ("Short Form") is intended for use only for professional services of limited scope and complexity. It does not address the full range of issues of potential importance to the parties. Depending on the scope and complexity of the services and the project, the Owner and Engineer may be better served by using the Agreement Between Owner and Engineer for Professional Services (EJCDC® E-500, 2014 Edition), or one of the several special-purpose EJCDC professional services agreement forms.

If the Owner intends to enter into a construction contract for implementation of a design prepared under the Short Form, or otherwise associated with professional services provided under the Short Form, Owner may wish to consider using EJCDC® C-700, Standard General Conditions of the Construction Contract, 2013 Edition, and other 2013 EJCDC Construction Series documents. The terms and provisions used in EJCDC® C-700 and the other EJCDC Construction Series documents are consistent with those used in the Short Form.

SHORT FORM OF AGREEMENT
BETWEEN OWNER AND ENGINEER
FOR PROFESSIONAL SERVICES

THIS IS AN AGREEMENT effective as of 10/21/2025 ("Effective Date") between the City of Hattiesburg ("Owner") and **Shows, Dearman and Waits, Inc.** ("Engineer").

Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows: **McInnis Loop-Broadway Drive Water Line Connector** ("Project").

Engineer's services under this Agreement are generally identified as follows: **the design of construction plans and specifications for a potable water line connecting existing water lines on McInnis Loop and Veteran's Memorial Boulevard, obtaining a Mississippi Department of Health (MSDH) permit for the water line, and Resident Project Representation to certify project under said MSDH permit. ("Services").** ***See Project Map as Attachment A*****.**

Owner and Engineer further agree as follows:

1.01 *Basic Agreement and Period of Service*

A. Engineer shall provide or furnish the Services set forth in this Agreement. If authorized by Owner, or if required because of changes in the Project, Engineer shall furnish services in addition to those set forth above ("Additional Services").

B. Engineer shall complete its Services within the following specific time period: If no specific time period is indicated, Engineer shall complete its Services within a reasonable period of time.

C. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's Services is impaired, or Engineer's Services are delayed or suspended, then the time for completion of Engineer's Services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

2.01 *Payment Procedures*

A. *Invoices:* Engineer shall prepare invoices in accordance with its standard invoicing practices and submit the invoices to Owner on a monthly basis. Invoices are due and payable within 45 days of receipt. If Owner fails to make any payment due Engineer for Services, Additional Services, and expenses within 45 days after receipt of Engineer's invoice, then (1) the amounts due Engineer will be increased at the rate of 1.5% per month (or the maximum rate of interest permitted by law, if less) from said forty-fifth day, and (2) in addition Engineer may, after giving seven days written notice to Owner, suspend Services under this Agreement until Engineer has been paid in full all amounts due for Services, Additional Services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

B. *Payment:* As compensation for Engineer providing or furnishing Services and Additional Services, Owner shall pay Engineer as set forth in Paragraphs 2.01, 2.02 (Services), and 2.03 (Additional Services). If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

writing of the specific basis for doing so, may withhold only that portion so disputed, and must pay the undisputed portion.

2.02 *Basis of Payment—Lump Sum*

A. Owner shall pay Engineer for Services as follows:

1. A Lump Sum amount of **$40,000.00**.

2. In addition to the Lump Sum amount, reimbursement for the following expenses: **None**

B. The portion of the compensation amount billed monthly for Engineer's Services will be based upon Engineer's estimate of the percentage of the total Services actually completed during the billing period.

2.03 *Additional Services:* For Additional Services, Owner shall pay Engineer an amount equal to the cumulative hours charged in providing the Additional Services by each class of Engineer's employees, times standard hourly rates for each applicable billing class; plus reimbursement of expenses incurred in connection with providing the Additional Services and Engineer's consultants' charges, if any. Engineer's standard hourly rates are attached as Appendix 1.

3.01 *Termination*

A. The obligation to continue performance under this Agreement may be terminated:

1. For cause,

a. By either party upon 30 days written notice in the event of substantial failure by the other party to perform in accordance with the Agreement's terms through no fault of the terminating party. Failure to pay Engineer for its services is a substantial failure to perform and a basis for termination.

b. By Engineer:

1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or

2) upon seven days written notice if the Engineer's Services are delayed for more than 90 days for reasons beyond Engineer's control, or as the result of the presence at the Site of undisclosed Constituents of Concern, as set forth in Paragraph 5.01.I.

c. Engineer shall have no liability to Owner on account of a termination for cause by Engineer.

d. Notwithstanding the foregoing, this Agreement will not terminate as a result of a substantial failure under Paragraph 3.01.A.1.a if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt of notice; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.

2. For convenience, by Owner effective upon Engineer's receipt of written notice from Owner.

B. In the event of any termination under Paragraph 3.01, Engineer will be entitled to invoice Owner and to receive full payment for all Services and Additional Services performed or furnished in accordance with this Agreement, plus reimbursement of expenses incurred through the effective date of termination in connection with providing the Services and Additional Services, and Engineer's consultants' charges, if any.

4.01 *Successors, Assigns, and Beneficiaries*

A. Owner and Engineer are hereby bound and the successors, executors, administrators, and legal representatives of Owner and Engineer (and to the extent permitted by Paragraph 4.01.B the assigns of Owner and Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators, and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, money that is due or may become due) in this Agreement without the written consent of the other party, except to the extent that any assignment, subletting, or transfer is mandated by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise, nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, other third-party individual or entity, or to any surety for or employee of any of them. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

5.01 *General Considerations*

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with any services performed or furnished by Engineer. Subject to the foregoing standard of care, Engineer and its consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

B. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at the Project site, nor for any failure of a Constructor to comply with laws and regulations applicable to such Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

C. Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform its work.

D. Engineer's opinions (if any) of probable construction cost are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual construction cost will not vary from opinions of probable construction cost prepared by Engineer. If Owner requires greater assurance as to probable construction cost, then Owner agrees to obtain an independent cost estimate.

E. Engineer shall not be responsible for any decision made regarding the construction contract requirements, or any application, interpretation, clarification, or modification of the construction contract documents other than those made by Engineer or its consultants.

F. All documents prepared or furnished by Engineer are instruments of service, and Engineer retains an ownership and property interest (including the copyright and the right of reuse) in such documents, whether or not the Project is completed. Owner shall have a limited license to use the documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all Services and Additional Services relating to preparation of the documents and subject to the following limitations:

1. Owner acknowledges that such documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer;

2. any such use or reuse, or any modification of the documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and consultants; and

3. such limited license to Owner shall not create any rights in third parties.

G. Owner and Engineer may transmit, and shall accept, Project-related correspondence, documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with a mutually agreeable protocol.

H. To the fullest extent permitted by law, Owner and Engineer (1) waive against each other, and the other's employees, officers, directors, members, agents, insurers, partners, and consultants, any and all claims for or entitlement to special, incidental, indirect, or consequential damages arising out of, resulting from, or in any way related to this Agreement or the Project, and (2) agree that Engineer's total liability to Owner under this Agreement shall be limited to $100,000 or the total amount of compensation received by Engineer, whichever is greater.

I. The parties acknowledge that Engineer's Services do not include any services related to unknown or undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an unknown or undisclosed Constituent of Concern, then Engineer may, at its option and without liability for

Copyright ©2015 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

consequential or any other damages, suspend performance of Services on the portion of the Project affected thereby until such portion of the Project is no longer affected, or terminate this Agreement for cause if it is not practical to continue providing Services.

J. Owner and Engineer agree to negotiate each dispute between them in good faith during the 30 days after notice of dispute. If negotiations are unsuccessful in resolving the dispute, then the dispute shall be mediated. If mediation is unsuccessful, then the parties may exercise their rights at law.

K. This Agreement is to be governed by the law of the state in which the Project is located.

L. Engineer's Services and Additional Services do not include: (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission; (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances; (3) providing surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements; or (4) providing legal advice or representation.

6.01 *Total Agreement*

A. This Agreement (including any expressly incorporated attachments), constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

7.01 *Definitions*

A. *Constructor*—Any person or entity (not including the Engineer, its employees, agents, representatives, and consultants), performing or supporting construction activities relating to the Project, including but not limited to contractors, subcontractors, suppliers, Owner's work forces, utility companies, construction managers, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.

B. *Constituent of Concern*—Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5101 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, State, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

Engineer's Standard Hourly Rates - 2025

A. *Standard Hourly Rates:*

1. Standard Hourly Rates are set forth in this Appendix 1 and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.

2. The Standard Hourly Rates apply only as specified in Paragraphs 2.01, 2.02, and 2.03, and are subject to annual review and adjustment.

B. *Schedule of Hourly Rates:*

Senior Engineer	**$195/Hour**
Professional Land Surveyor	**$195/Hour**
Project Engineer	**$150/Hour**
Junior Engineer	**$135/Hour**
Engineering Intern	**$125/Hour**
Graduate Engineer	**$115/Hour**
Senior AutoCad Technician	**$115/Hour**
AutoCad Technician	**$ 95/Hour**
Senior Resident Project Representative	**$ 105/Hour**
Resident Project Representative	**$ 95/Hour**
Field Crew	**$195/Hour**
Administrative	**$ 45/Hour**

AGREEMENT FOR PRELIMINARY ENGINEERING SERVICES

This agreement made by and between the City of Hattiesburg (hereinafter called "CITY"), and Norfolk Southern Railway Company, (hereinafter called "COMPANY").

The CITY will submit plans and specifications to said COMPANY for work which will involve or affect COMPANY facilities at the following location:

Town, County, State:	**Hattiesburg, Forrest County, Mississippi**
AAR-DOT#:	**N/A**
Street /Bridge Name:	**Gordon Creek Trail**
Description:	**Proposed Trail under Norfolk Southern**
Mile Post	**NO-85.60**

Preliminary Engineering Cost Estimate: $ 30,000

Therefore, in consideration of the benefits moving to each of the parties hereto, they do mutually agree as follows:

ARTICLE 1. REIMBURSEMENT. The CITY agrees to reimburse the COMPANY for actual cost of preliminary engineering necessary in connection with the project.

The COMPANY shall submit to the CITY fair and reasonable costs of the aforesaid work performed as evidenced by detailed invoices acceptable to the CITY. The CITY shall reimburse the COMPANY in the amount of the approved costs so submitted.

ARTICLE 2. EFFECTIVE DATE OF AGREEMENT. This agreement shall take effect at the time it is approved and signed by both the CITY and the COMPANY.

ARTICLE 3. STARTING OF WORK. This agreement covers preliminary engineering services performed starting September 25, 2025. The COMPANY agrees to provide preliminary engineering services at the request of CITY or its agent, whether written or verbal.

ARTICLE 4. SCOPE OF WORK. The scope of this agreement is limited to review by the COMPANY of the plans and specifications to provide information to the COMPANY and the CITY regarding the project. This agreement does not constitute the COMPANY's approval of the project.

IN WITNESS WHEREOF, the CITY and the COMPANY have caused these presents to be signed by their duly authorized officers:

CITY	**COMPANY**
Signature: _____	**Signature:** _____
Name: _____	**Name: A. B. Johnson, PE**
Title: _____	**Title: Chief Engr. Design & Construction**

Summary
Acknowledge receipt of closing documents for the Concrete Paved Ditch Repairs Along Gordon Creek project; Approve Supplemental Agreement No. 1 with TM Productions, LLC to record project underrun of $3,636.43 and Authorize the Mayor to execute same; Authorize payment of final pay application to the contractor; Authorize publication of Notice of Final Settlement; Authorize Final Acceptance of the project.

Recommendation Statement
I recommend approval of this item.

Please place this on the October 21, 2025 City Council meeting for consideration.

CONCRETE PAVED DITCH REPAIRS ALONG GORDON'S CREEK
CITY OF HATTIESBURG

SUPPLEMENTAL AGREEMENT NO. 1

CITY OF HATTIESBURG

WHEREAS, We, TM Productions LLC. of Starkville, Contractor and United States Fire , Surety entered into a contract with the City of Hattiesburg, Owner on the 31st Day of January 2025 for Concrete Paved Ditch Repairs Along Gordons Creek.

WHEREAS: The Contractor, Surety and Owner agree that certain construction methods should be modified to lessen impact to the public and increase ease of construction.

WHEREAS: During the course of construction, several concrete panels were removed from the contract due to risk associated with the removal of the panels being to great. This includes proximity to existing pond and the presence of large voids behind panels to be removed.

WHEREAS: The removal of the concrete panels warranted a reduction in the following pay items. The following pay items are hereby added to the contract documents:

AA1-1	Removal of Concrete Paved Ditch	SY	43.74	$25.00	($ 1,093.50)
AA1-4	Concrete Paved Ditch	CY	9.34	$450.00	($4,222.80)

WHEREAS: During the course of construction, the amount of borrow excavation required to fill the void to install the concrete panels was unknown.

WHEREAS: The additional borrow material warranted an increase in the following pay items:

Item 2	Borrow Excavation,	CY	230	$40.00	$ 9,200

WHEREAS: The attached Overrun/Underrun statement is included as a part of this change as a result of minor items during construction.

Project Decrease from Overrun/Underrun- $ (3,686.43)

Final Contract Amount - $ 215,126.58

This agreement in no way modifies or changes the original contract of which it becomes a part, except as specifically stated herein.

NOW, THEREFORE, We, TM Productions LLC. of Starkville, Contractor and United States Fire, Surety, hereby agree that said Supplemental Agreement is hereby made a part of the Original Contract to be performed under the specifications thereof, and that the Original Contract is in full force and effect, except insofar as it might be modified by this Supplement Agreement.

KNOW ALL MEN BY THESE PRESENTS: That United States Fire Insurance Company, a corporation duly organized and existing under the laws of the state of Delaware, has made, constituted and appointed, and does hereby make, constitute and appoint:

Angela Bullie, Trina Cobb, Jerry Eugene Horner, Jr., Peggy L. Jackson, Stephen Wesley Price, Jr., Braxton Brumfield

each, its true and lawful Attorney(s)-In-Fact, with full power and authority hereby conferred in its name, place and stead, to execute, acknowledge and deliver: Any and all bonds and undertakings of surety and other documents that the ordinary course of surety business may require, and to bind United States Fire Insurance Company thereby as fully and to the same extent as if such bonds or undertakings had been duly executed and acknowledged by the regularly elected officers of United States Fire Insurance Company at its principal office, in amounts or penalties: **Unlimited**

This Power of Attorney limits the act of those named therein to the bonds and undertakings specifically named therein, and they have no authority to bind United States Fire Insurance Company except in the manner and to the extent therein stated.

This Power of Attorney is granted pursuant to Article IV of the By-Laws of United States Fire Insurance Company as now in full force and effect, and consistent with Article III thereof, which Articles provide, in pertinent part:

Article IV, Execution of Instruments - Except as the Board of Directors may authorize by resolution, the Chairman of the Board, President, any Vice-President, any Assistant Vice President, the Secretary, or any Assistant Secretary shall have power on behalf of the Corporation:

(a) to execute, affix the corporate seal manually or by facsimile to, acknowledge, verify and deliver any contracts, obligations, instruments and documents whatsoever in connection with its business including, without limiting the foregoing, any bonds, guarantees, undertakings, recognizances, powers of attorney or revocations of any powers of attorney, stipulations, policies of insurance, deeds, leases, mortgages, releases, satisfactions and agency agreements;
(b) to appoint, in writing, one or more persons for any or all of the purposes mentioned in the preceding paragraph (a), including affixing the seal of the Corporation.

Article III, Officers, Section 3.11, Facsimile Signatures. The signature of any officer authorized by the Corporation to sign any bonds, guarantees, undertakings, recognizances, stipulations, powers of attorney or revocations of any powers of attorney and policies of insurance issued by the Corporation may be printed, facsimile, lithographed or otherwise produced. In addition, if and as authorized by the Board of Directors, dividend warrants or checks, or other numerous instruments similar to one another in form, may be signed by the facsimile signature or signatures, lithographed or otherwise produced, of such officer or officers of the Corporation as from time to time may be authorized to sign such instruments on behalf of the Corporation. The Corporation may continue to use for the purposes herein stated the facsimile signature of any person or persons who shall have been such officer or officers of the Corporation, notwithstanding the fact that he may have ceased to be such at the time when such instruments shall be issued.

IN WITNESS WHEREOF, United States Fire Insurance Company has caused these presents to be signed and attested by its appropriate officer and its corporate seal hereunto affixed this 6th day of June, 2025.

Summary
Ratify FY26 AIB Grant Application

Recommendation Statement
I recommend ratifying a grant application to the America in Bloom/CN Railway EcoConnexions From the Ground Up Grants Program to fund landscaping improvements along Hall Avenue. The City will provide a minimum of 50% in matching funds and the total requested amount cannot exceed $25,000.

Please place this on the October 21, 2025 City Council meeting for consideration.

Date Thu 10/9/2025 1:17 PM
To Moore, Adam <jmoore@hattiesburgms.com>

Thank you for your submission. Will notify you around December 31 of the status.

CN/AIB Grant Proposal Submission

Project Name *	City of Hattiesburg – Hall Avenue Landscape Project
Amount Requested (up to $25,000). Enter without symbols. Example: 25000 *	25000
Name of organization/entity submitting proposal *	City of Hattiesburg
Your Name *	Adam Moore
Your title *	Grants Coordinator
Address	P.O. Box 1898 Hattiesburg, Mississippi 39403-1898 United States
Phone Number *	(601) 545-4544
Email *	jmoore@hattiesburgms.com
Please indicate the type of organization/entity submitting proposal *	Municipality
Estimated number of trees to be planted *	124
Estimated number of shrubs, groundcovers, and/or flowers to be planted *	103
Species of trees, shrubs, groundcovers, and flowers to be planted. *	Species of tree, shrubs, groundcovers, and flowers to be planted: Winged Elm, Eastern Redbud, Crape Myrtle, Teddy Bear Magnolia, Southern Live Oak, Radiance Glossy Abelia, Dwarf Yaupon Holly, Parsons Juniper, Drift Rose, Lace Bark Elm

Describe the proposed project in detail. Please explain how assistance from the CN EcoConnexions – From the Ground Up grant program will enhance your community's environmental, social health, and well being. (1,000 words max)

NOTE: Projects CANNOT be in the CN Right of Way. *

The City of Hattiesburg proposes to enhance the landscaping along Hall Avenue that is connecting with the overpass being constructed over the Canadian National rail line. The overall project would include the installation of both tree and ornamental plantings to improve the aesthetical appearance of the area.
This project will contribute to the improvement of stormwater run-off by creating root systems from both the trees and the planter areas where none currently exist. Sidewalks will be installed as an indirect part of this project by the City of Hattiesburg. The City will provide the maintenance of these plantings and will have them added to the Parks and Recreation Department's weekly maintenance schedule.
This overpass construction is intended to increase resource accessibility to communities that are otherwise in low resource dense areas. For instance, the overpass will allow for emergency vehicles to access East Hattiesburg and nearby cities much more quickly. The City of Hattiesburg Administration and respective personnel devote much of their time fostering the progress of Hattiesburg on a functional level but with sustainable enjoyment of residence in mind.
A beautification project in this area will help to create an attractive public space that can welcome and be admired by visitors, elicit a sense of pride in Hattiesburg residents, and improve air and water quality along with public health. Promoting community pride among residents will persuade residents to respect their neighborhoods and encourage the maintenance of clean, attractive private properties. This beautification effort also coincides with Hattiesburg's desire to become a more walkable, pedestrian-friendly city. The City will install sidewalks to complement the plantings, and the beautification efforts will provide a more attractive, inviting, and appealing pathway to encourage pedestrian and bicycling activity. Trees will also provide shade to pedestrians and bicyclists. Furthermore, increasing the visual appeal of the project area will ultimately serve to encourage public and private investments in the area, boosting the economic success in the community.

Describe how your community will be involved in the program, including planning, design, construction, and maintenance. How are your community volunteers and volunteer organizations expected to participate? (1,000 words max) *

The City of Hattiesburg has an ongoing partnership with Keep Hattiesburg Beautiful to host community volunteer projects that promote civic pride and beautification. We consulted with Neel-Schaffer to determine what trees and shrubs should populate the designated area. We decided on majority native species that are hardy and weather resistant, disease resistant, and foster a healthy environment for bees and provide food to the local wildlife.
The city intends on pursuing all measures within our capability that promote sustainability and growth of all shrubs and trees. The Parks and Recreation Department will be responsible for all maintenance of the area. The employees and volunteers working in the area will be using the standards of sustainability in landscape architecture and best practice methods when pruning, mulching, and mowing. The project area will be targeted in future clean-up and beautification events that will involve the city, local residents and organizations wanting to help with clean-up efforts.

Describe how the project addresses environmental challenges and how it will be sustained. Please include how the project will receive ongoing maintenance. (1,000 words max) *

This project will contribute to the improvement of stormwater run-off by creating root systems from both the trees and the planter areas where none currently exist. The project will also establish a vegetative buffer for surrounding business and residential areas. The City of Hattiesburg will provide all maintenance and upkeep of these plantings by adding them to the weekly maintenance schedule of the Parks and Recreation Department. The employees and volunteers working in the area will be using the standards of sustainability in landscape architecture and best practice methods when pruning, mulching, and general maintenance (see Sustainability Guidance Document provided by Neel-Schaffer). The project area will be targeted in future clean-up and beautification events that will involve the city, local residents and organizations wanting to help with clean-up efforts.

Describe how both America in Bloom (the program's administrator) and CN Railway (the funder) will be recognized for their contribution. Please include information on logo usage, launch events, press conferences, etc. As an inauguration event is required, please indicate how your community would envision the event. (1,000 words max) *

America in Bloom and CN EcoConnexions – From the Ground Up will be given credit for the funding provided in any public announcements about the project. Information regarding grant-funded projects is typically shared via news outlets and social media where proper advertisement and logo usage is prioritized. An inauguration event would consist of a press conference to announce and describe the project to the public and media which will include thorough recognition of America in Bloom and CN Railway.

Describe how you will measure the project's success. How will the project be evaluated for success? How will you share the results of your project? Note, in order to receive payment, you will be required to submit a final report to America in Bloom. *	The program's success can be evaluated through community surveys, dialogues with residents, number of new residents to the area, number of new businesses to the area, and revenue increases for existing businesses. Project results will be shared in a progress report to American in Bloom.
Attach budget document (10 MB limit) *	aib_grant_budget_final_draft.xlsx 14.81 KB • XLSX
Attach a File	concept_plan__ns.pdf 5.91 MB • PDF
Please indicate you understand the grant requirements as outlined at https://americainbloom.org/programs/cn-grant/. This includes, but is not limited to, matching cash and/or in-kind contributions; participation in AIB's Level 3 program; and media event with signage to recognize funders. *	• Yes, I understand the grant requirements.
Please confirm that CN owns rail lines that run through your community. This is a requirement of the grant. To check if the raillines in your community are owned by CN, check the interactive map at https://www.cn.ca/en/our-services/maps-and-network/ *	• Yes, CN owns rail line that run through my community.
