RULE 9. MOTOR VEHICLE ASSESSMENTS

Pursuant to Miss. Code Ann. Section 27-51-19, the Department of Revenue is required to annually prepare and adopt an assessment schedule for motor vehicles. In preparing this schedule, the Commission shall use a computer system package of assessments identified by the VIN ("vehicle identification number"). If the VIN does not produce an assessed value or if the computer system is not in operation, the local tax collector shall use the MSRP ("manufactured suggested retail price") with applicable depreciation percentage for the year in which the vehicle was manufactured.

The local tax collector shall be responsible for obtaining a source of MSRP(s) except for new vehicles. The taxpayer shall be responsible for supplying the MSRP for a new vehicle, by submitting a copy of the window sticker with the MSRP, to the tax collector at the time the tag is purchased.

The Department of Revenue will annually furnish to each tax collector an assessment schedule for trailers, motorcycles, special equipment, etc. to be used in the assessment of this type of property. This schedule will be furnished in hard copy or the Department of Revenue may use a computer system package of assessments identified by the VIN ("vehicle identification number"). If the VIN does not produce an assessed value or if the computer system is not in operation, the local tax collector shall use the MSRP ("manufactured suggested retail price") with applicable depreciation percentage for the year in which the vehicle was manufactured. For any model not listed, assess at 30% of current value if known, or use the "cost when new" multiplied by the percentages listed in the schedule for the years listed.

AUTOMOBILES & LIGHT TRUCKS

ASSESSMENT PERCENTAGES AND EXPLANATION

2018	2017	2016	2015	2014	2013	2012	2011	2010	2009	2008 & older
27%	23%	19%	15%	12%	9%	7%	5%	4%	3%	\$100

The motor vehicle assessment adopted by the Department of Revenue, is the computer system package of assessments identified by the VIN (vehicle identification number). If the VIN does not produce an assessed value, the MSRP (manufacturer's suggested retail price) is entered in the system and is multiplied by the applicable percentage for the year in which the vehicle was manufactured.

The above percentages are used to calculate the assessed value for automobiles and light trucks.

These percentages represent the assessment ratio of 30% less applicable depreciation. The appropriate percentage is multiplied by the MSRP of the vehicle being tagged to arrive at the assessed value. For 2008 and older models the assessed value is \$100.

The Mississippi Constitution mandates that motor vehicles be assessed at 30% of true value. The Commission estimates that the true value of a new vehicle is approximately 90% of the MSRP. **The 30% assessment ratio multiplied by 90% produces an effective percentage of 27% that would be multiplied by the MSRP of new vehicles to arrive at assessed value.**

The Road and Privilege Tax on all passenger vehicles is \$15.00. See Sections 27-19-5 and 27-19-9, Miss. Code Ann., for the privilege tax on motorcycles, ambulances, hearses, school and church buses, and taxicabs.
